## Agricultural Power Technology

The Agricultural Power Technology program prepares students for careers as service technicians in the agricultural industry. Students learn through classroom lecture and hands-on shop experience, studying comprehensive applications of repair and maintenance of internal combustion engines, diesel fuel systems, hydraulics, power trains, and electrical/electronic systems.

### Transfer Information

Hawkeye's Power Technology department has a block articulation agreement with the University of Northern Iowa Department of Industrial Technology. For more information on transferring credits, contact a program advisor.

## Agricultural Power Technology Careers

Our graduates can work as technicians in implement dealerships, factories, construction, independent shops, heavy equipment dealerships, independent farms, and consumer product dealerships.

Other positions our graduates hold include equipment salesperson, service manager, service writer, farm service manager, and field representative.

Starting Wages: \$26,600 - \$36,900 per year\*

# Agricultural Power Technology Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

## Automotive Technology

The Automotive Technology program prepares students for a career in the vast field of automotive electronics and repair. Students gain hands-on experience in testing and diagnosing, engine drivability diagnosis, automatic transmissions, gas engines, suspension, alignment, brakes, and basic electricity.

Automotive service technicians must continually adapt to changing technology as vehicle components and systems become increasingly sophisticated.

### Accreditation

The Automotive Technology program is A.S.E. Master Certified in all eight areas of curriculum by the National Automotive Technician Education Foundation ([NATEF](#)).

### Transfer Information

Hawkeye's Power Technology department has a block articulation agreement with the University of Northern Iowa Department of Industrial Technology. For more information on transferring credits, contact a program advisor.

## Collision Repair and Refinishing

The Collision Repair and Refinishing program provides students with the training and knowledge needed for job entry in the various collision and refinishing repair fields, such as auto frame/unibody technician, auto body painter/ refinisher, collision specialist, estimator, and auto body management. Students are provided with classroom and hands-on experience studying comprehensive applications in vehicle repair and refinishing. Students will learn paint techniques on Hawkeye's state-of-the-art [virtual paint system](#).

### Certifications

Students may receive the following certifications: I-Car Pro Level 1 (Non-Structural Technician and Refinishing Technician), Painter, 6H NESHAP, and Mitchell Estimating.

### Transfer Information

Hawkeye's Power Technology department has a block articulation agreement with the University of Northern Iowa Department of Industrial Technology. For more information on transferring credits, contact a program advisor.

## Construction Equipment Operation

The Construction Equipment Operation program prepares students to become entry-level equipment operators. Students receive the hands-on training needed to operate construction equipment and machines used for earth and materials moving. They will work with wheel loaders, skid steer loaders, dump trucks, flatbed transport trailers, compact excavators, backhoes, and track machines. Students will also learn about pre-operational inspection, personal protective equipment, job site safety practices, blueprint reading, construction site preparation, and equipment maintenance.

Students train and test to obtain a Commercial Driver's License (CDL). Our instructors are trained and state certified to teach the Federal Motor Carrier Safety Administration standards for tractor-trailer drivers and are Third Party Commercial License Testers for the State of Iowa. Federal and state laws require that intrastate drivers must be at least 18 years of age.

### Experience and Training

The Construction Equipment Operation program provides an eight-week workplace experience. This allows students to gain real work experience at a job site and ensures they develop the skills they need to succeed on the job.

# Construction Equipment Operation Courses

**Award:** Diploma

**Required number of credits:** 46

**Enrollment Status:** Full-time only

**Program Start:** Summer only

The Construction Equipment Operation program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

## Before the start of classes you must have:

- a valid driver's license with a good driving record
- a stable work history

## During the first week of classes you must complete:

- a DOT physical examination
- a DOT drug test with negative results

## 2016–2017 Suggested Sequence of Study

### Semester 1 – Summer

HEQ100	Introduction to Construction Equipment Operation	1
HEQ102	Preoperational Inspection	2
HEQ104	Equipment Maintenance I	2
HEQ105	Skid Steer Operation	3
HEQ106	Compact Excavator Operation	3
HEQ107	Wheel Loader Operation	2
<a href="#">View Course Descriptions</a>		<b>Total Credits 13</b>

Courses will meet for 12 weeks.

### Semester 2 – Fall

CON108	Construction Safety	1
CON131	Site Layout and Blueprint Reading	1
HEQ108	Backhoe Operation	3
HEQ109	All Terrain Lifts Operation	2
HEQ114	Track Equipment Operation	3
MAT772	Applied Math -OR-	3
MAT110	Math for Liberal Arts -OR-	3
COM781	Written Communication in the Workplace -OR-	3

COM730	Communications	3
TDT126	Commercial License Preparation	3
TDT128	Driving Skills Development	3
<a href="#"><u>View Course Descriptions</u></a>		<b>Total Credits 19</b>

---

**Semester 3 – Spring**

HEQ110	Support Equipment Operation	2
HEQ111	Jobsite Certifications	4
HEQ113	Equipment Maintenance II	3
HEQ905	Workplace Experience	3
TDT100	Interpersonal Relations	2
<a href="#"><u>View Course Descriptions</u></a>		<b>Total Credits 14</b>

Courses will meet for the first 8 weeks and Workplace Experience will meet for the last 8 weeks of the semester.

## Diesel Truck Technology

The Diesel Truck Technology program prepares students to become proficient while developing the skills for service and repair procedures on diesel trucks. Students train in a number of areas, including repair and maintenance of internal combustion engines, diesel fuel systems, hydraulics, power train, and electrical/electronic systems.

### Transfer Information

Hawkeye's Power Technology department has a block articulation agreement with the University of Northern Iowa Department of Industrial Technology. For more information on transferring credits, contact a program advisor.

## Diesel Truck Technology Careers

Graduates work in truck stops, heavy equipment shops, consumer product dealerships, independent repair shops, and engine machine shops as truck and engine troubleshooters and maintenance personnel. Other areas our graduates may work in include dispatch, service manager, DOT inspector, independent shop, and repair technician in diesel, heavy equipment, and recreation vehicles (RV), boat, and train.

Starting Wages: \$27,000 - \$38,400 per year\*

# Truck Driving and Transportation Training

The Truck Driving and Transportation Training program prepares students to become professional over-the-road and local truck drivers. Students train and test to obtain a Commercial Driver's License and assume positions in this profession.

Using a 23-acre driving range along with the latest, most-advanced driving simulators, students are individually instructed as they develop their driving skills, gain professional knowledge, and study lawful regulations vital to the trucking industry. Our instructors are trained and state certified to teach the Federal Motor Carrier Safety Administration standards for tractor-trailer drivers and are Third Party Commercial License Testers for the State of Iowa. Federal and state laws require interstate drivers be at least 21 years of age and intrastate drivers must be at least 18 years of age.

## Accreditation

This program is approved by the Iowa Department of Transportation, Iowa Department of Education, the Iowa Motor Truck Association, and the Iowa Job Training Program.

# Emergency Medical Services

The Emergency Medical Services (EMS) program prepares students for entry-level positions in the workforce as emergency medical technicians (EMTs) and paramedics. Students gain the knowledge and skills necessary to recognize, assess, and manage medical emergencies and patients with acute traumatic and medical conditions in a pre-hospital setting. They're prepared to provide optimal response and care to victims of any emergency, disaster, or mass casualty event. EMS is a unique combination of public health, public safety, and acute patient care.

The two-year degree is recommended for individuals who would like to become a paramedic and pursue a management position in emergency medical services.

## Paramedic Certificate Option

The three-semester Paramedic certificate option is recommended for state-licensed emergency medical technicians (EMT) who would like to advance their career as a paramedic.

## Accreditation

The Emergency Medical Services program is authorized as an EMS training program by the Iowa Department of Public Health, Bureau of Emergency Medical Services (EMS).

The program received a Letter of Review from the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) and is in the process of obtaining national accreditation by the Commission on Accreditation of Allied Health Education Programs.

## Certification

Students who successfully complete EMS courses will be eligible to take national certification exams through the National Registry of Emergency Medical Technicians (NREMT).

## Continuing Education Options

Hawkeye offers continuing education courses for graduates and professionals to maintain their EMS licenses in the State of Iowa.

## Criminal History Matters

As a future emergency services responder, students need to use good judgment in all areas of their personal, professional, and scholastic interactions and activities; and must keep their records clean. All hospitals, EMS, and fire agencies require background checks for internships, volunteer placements, and employment.

Be aware that character counts and your behavior can sabotage your ability to graduate from this program and your ability to work in the field. Consider what your actions and criminal history says about you....i.e. an OWI conviction indicates that you demonstrate poor judgment by drinking to excess and deciding to drive, which may kill or injure you or another person.

If you want to work in emergency services, avoid these issues:

- Acquiring speeding tickets or safety violation citations.
- Acquiring a suspended driver's license or citations for driving with a suspended license.
- Participating in underage drinking, using fake ID's, or buying alcohol for underage persons.
- Use or abuse of prescription drugs, street drugs, club drugs (ecstasy), marijuana, or synthetic drugs.
- Engaging in theft of property, goods, or services.
- Assault or battery related cases.

You will not be employable in emergency services if you have:

- Felony convictions.
- Domestic abuse convictions.
- Placement on an abuse registry (sex offender, child/elder abuse).
- Drug convictions, or history of drug use or abuse (methamphetamine, cocaine, heroin, etc.) Each agency (city, county, state, or federal) sets their own limits on marijuana use from zero tolerance to a limited amount of use, and factors in how recent the use was.

Ultimately, potential employers will rationalize your behavior by this criteria: If you know or reasonably believe an action is illegal or will cause harm then the best candidate will take responsibility, demonstrate self-control, and not do it.

Lastly, employers will ask our faculty for references. Students need to know that full time faculty and adjunct faculty members are constantly formally and informally assessing students in terms of academic performance, attendance, honesty, professionalism, social skills, maturity, and appearance so that we can make objective assessments when asked. Your interactions count, and we are here to mentor you.

# Paramedic Certificate Admission Requirements

## Step 1: Complete the online application for the Paramedic program

The application link will be sent to you upon acceptance to the Emergency Medical Services program.

## Step 2: Complete the Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Reading	82 - Reading	38 - Reading	90 - Reading
19 - English	65 - Writing	40 - Writing	98 - Sentence Skills
14 - Math	24 - Pre-Algebra	38 - Numerical	40 - Arithmetic

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Successfully complete the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG061 College Preparatory Writing II
- RDG040 College Preparatory Reading III
- MAT045 Fundamentals of Math

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Step 3: Complete Required General Education Courses

Successfully complete the required general education courses, or the equivalent, with a cumulative GPA of 2.50 or higher:

- BIO168 Human Anatomy & Physiology I
- BIO173 Human Anatomy & Physiology II
- HSC113 Medical Terminology for Health Sciences

## Step 4: Certifications

Hold current Iowa EMT (Emergency Medical Technician) or NREMT (National Registry Emergency Medical Technician) Certification.

## Step 5: Letters of Recommendation

Provide three letters of recommendation. The letters must come from non-family members and be submitted directly to:

Hawkeye Community College  
Paramedic Department

Email me

Health Education and Services Center  
P.O. Box 8015  
Waterloo, IA 50704

## Step 6: Paramedic Admission Interview

Successfully complete the Paramedic admission committee interview.

### Admissions Process

1. Apply for admission.
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants who do not meet the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants enrolled in coursework to complete Steps 1–6 will become candidates.
  - c. Upon successful completion of Steps 1–6 applicants will be placed on the Eligible for Acceptance list. Placement on the list is determined by the highest total points from the Paramedic criteria. If applicants share the same number of points, the second criteria used will be the Paramedic application date. The earliest application date will take priority over a later application date.
3. The Paramedic program accepts approximately 18 students each fall semester.

### Paramedic Point System

---

<b>Required General Education Courses CGPA:</b> (BIO168, BIO173, HSC113)	
Cumulative GPA 3.50 or higher.	4 points
Cumulative GPA 3.00–3.49.	3 points
Cumulative GPA 2.80–2.99	1 point
Cumulative GPA 2.79 or below.	0 points
<b>All General Education courses completed with a CGPA 2.50 or higher:</b> (BIO168, BIO173, HSC113, ENG105, SPC101, MAT110 or MAT122 or MAT156, SOC110 or SOC2015)	1 point
<b>Highest Degree Earned:</b> Points awarded in one category using the highest score earned	
Master of Arts or Master of Science Degree -OR-	3 points
Bachelor of Arts or Bachelor of Science Degree -OR-	2 points

## Emergency Medical Services Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 69

**Enrollment Status:** Full-time only

**Program Start:** Fall, Spring, Summer

The Emergency Medical Services program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Required Background Screenings

Prior to the first day of classes, you will be required to complete:

- drug screening,
- a criminal background check,
- sex offender registry,
- child abuse registry, and
- dependent adult registry.

Failing a drug screening or background check will result in dismissal from the program.

### Program Course Note

You must achieve a minimum "C" grade in all courses that are required to complete the program.

## 2016–2017 Suggested Sequence of Study

Semester 1		
BIO168	Human Anatomy and Physiology I	4
EMS201	Emergency Medical Technician	7
ENG105	Composition I	3
HSC113	Medical Terminology	2

## Paramedic Certificate Courses

**Award:** Certificate

**Required number of credits:** 48

**Enrollment Status:** Full-time only

**Program Start:** Fall only

The Paramedic program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Required Background Screenings

To participate in the EMS/Paramedic education courses, prior to the first day of classes, you will be required to complete all of the following:

- Drug screening
- Criminal background
- Sex offender
- Adult/dependent abuse background checks

Failing a drug screening or background check will result in dismissal from the program.

### Required Certification

Prior to the first day of classes you must be Basic Life Support for Healthcare Provider CPR certified.

### Program Course Note

You must achieve a minimum "C" grade in all courses that are required to complete the program.

## Fire Science

The Fire Science program is designed to prepare students for entry-level technical or administrative careers in fire service. Students develop the knowledge and understanding of building construction, management, and fire behaviors and hazards. They receive hands-on training in fire suppression, protection, prevention, investigation, and safety techniques and are prepared to react appropriately in emergency situations.

This program follows the Fire and Emergency Services Higher Education (FESHE) curriculum by the U.S. Fire Administration. Designed in cooperation with local fire department officials, the program provides education paths for individuals seeking a fire services career and for practicing firefighters to advance their careers. Credit may be awarded toward the degree for existing certifications and verified industry trainings.

### Certification

Students who successfully complete the FIR139 Fire Fighter I course will be eligible to take the International Fire Service Accreditation Congress (IFSAC) Firefighter I certification through the Iowa Department of Public Safety, Iowa Fire Service Training Bureau.

## Fire Science Careers

Graduates may find employment working as firefighters, fire investigators, fire insurance inspectors, or fire protection specialists in city and county fire departments, state and federal governments, private insurance or safety companies, and private fire protection companies.

Starting Wages: \$19,500 - \$37,500 per year\*

## Criminal History Matters

As a future emergency services responder, students need to use good judgment in all areas of their personal, professional, and scholastic interactions and activities; and must keep their records clean. All hospitals, EMS, and fire agencies require background checks for internships, volunteer placements, and employment.

Be aware that character counts and your behavior can sabotage your ability to graduate from this program and your ability to work in the field. Consider what your actions and criminal history says about you...i.e. an OWI conviction indicates that you demonstrate poor judgment by drinking to excess and deciding to drive, which may kill or injure you or another person.

If you want to work in emergency services, avoid these issues:

- Acquiring speeding tickets or safety violation citations.
- Acquiring a suspended driver's license or citations for driving with a suspended license.
- Participating in underage drinking, using fake ID's, or buying alcohol for underage persons.
- Use or abuse of prescription drugs, street drugs, club drugs (ecstasy), marijuana, or synthetic drugs.
- Engaging in theft of property, goods, or services.
- Assault or battery related cases.

You will not be employable in emergency services if you have:

- Felony convictions.
- Domestic abuse convictions.
- Placement on an abuse registry (sex offender, child/elder abuse).
- Drug convictions, or history of drug use or abuse (methamphetamine, cocaine, heroin, etc.) Each agency (city, county, state, or federal) sets their own limits on marijuana use from zero tolerance to a limited amount of use, and factors in how recent the use was.

Ultimately, potential employers will rationalize your behavior by this criteria: If you know or reasonably believe an action is illegal or will cause harm then the best candidate will take responsibility, demonstrate self-control, and not do it.

Lastly, employers will ask our faculty for references. Students need to know that full time faculty and adjunct faculty members are constantly formally and informally assessing students in terms of academic performance, attendance, honesty, professionalism, social skills, maturity, and appearance so that we can make objective assessments when asked. Your interactions count, and we are here to mentor you.

# Fire Science Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

## Police Science

The Police Science program provides students with knowledge of the criminal justice system, its operations and purpose, and prepares them to meet hiring standards required in Iowa. They gain knowledge and critical problem solving skills through coursework focusing on criminology, juvenile justice, sociology, criminal and constitutional law, and ethical issues.

Students receive practical training in police operations, traffic collision investigation, crime scene investigation, critical incident management, report writing and testifying, and physical fitness conditioning courses.

Use of force in defensive tactics and firearms courses focus on safe practices, competency to meet industry standards, and legal issues. Hawkeye utilizes a [virtual firearms simulator system](#) (MILO) to enhance decision making in use of force incidents. All Police Science instructors have law enforcement experience and academic training.

### Police Academy

Graduates, either newly hired or sponsored by a law enforcement agency, are eligible to attend the [New Officer 8-Week Basic Level II Certification Academy](#). Hawkeye is designated as a Regional Law Enforcement Training Facility by the Iowa Law Enforcement Academy.

## Criminal History Matters

As a future criminal justice professional, students need to use good judgment in all areas of their personal, professional, and scholastic interactions and activities; and must keep their records clean. Criminal justice organizations require background checks for internships, volunteer placements, and employment; which will include adult and juvenile civil and criminal issues, official and informal contacts with police, and character references. Employment will also hinge on the successful completion of a polygraph, credit check, and psychological evaluation.

Be aware that character counts and your behavior can sabotage your ability to graduate from this program and your ability to work in the field. Consider what your actions and criminal history says about you...i.e. an OWI conviction indicates that you demonstrate poor judgment by drinking to excess and deciding to drive, which may kill or injure you or another person. Remember your personal behaviors (what you didn't get caught for) will be revealed during the polygraph, and what you do privately (when no one is watching or supervising) speaks volumes as to the true content of one's character.

If you want to work in criminal justice avoid these issues:

- Acquiring speeding tickets or safety violation citations.
- Acquiring a suspended driver's license or citations for driving with a suspended license.
- Participating in underage drinking, using fake ID's, or buying alcohol for underage persons.
- Use or abuse of prescription drugs, street drugs, club drugs (ecstasy), marijuana, or synthetic drugs.
- Engaging in theft of property, goods, or services.

You will not be employable in criminal justice if you have:

- Felony convictions.
- Domestic abuse convictions.
- Placement on an abuse registry (Sex offender, child/elder abuse).
- Drug convictions, or history of drug use or abuse (methamphetamine, cocaine, heroin, etc.) Each agency (city, county, state, or federal) sets their own limits on marijuana use from zero tolerance to a limited amount of use, and factors in how recent the use was.
- Weapons violations.

Ultimately, criminal justice employers will rationalize your behavior by this criteria: If you know or reasonably believe an action is illegal or will cause harm then the best candidate will take responsibility, demonstrate self-control, and not do it.

Lastly, employers will ask our faculty for references. Students need to know that full time faculty and adjunct faculty members are constantly formally and informally assessing students in terms of academic performance, attendance, honesty, professionalism, social skills, maturity, and appearance so that we can make objective assessments when asked. ## Associate of General Studies (AGS) Degree

The **Associate of General Studies (AGS) degree** is awarded upon completion of an individualized course of study that is primarily designed to gain a broad educational background rather than the pursuit of a specific college major or professional/technical program. It is intended as a flexible course of study and may include a combination of liberal arts courses and career program courses. This degree may meet the requirements for those students with specific needs or goals. A minimum of 60 credit hours is required for the AGS degree.

Keep in mind that since this degree is individualized, it may not meet the needs for transfer or job placement as effectively as other degree options.

### Completing an AGS Degree

To be considered for an Associate of General Studies degree, you must work with an academic advisor. Your academic advisor will help determine if the AGS degree is right for you, develop goals, and plan a course of study.

### Academic Advisors

Mon-Fri 8:00am-4:30pm

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC131 Principles of Accounting I**

**4 credits**—This course is an introduction to basic financial accounting concepts and procedures for service and merchandising businesses. Topics included are the accounting cycle; accounting systems; financial statements; accounting for cash, receivables, payables, inventories, plant assets, partnerships, corporations, and bonds.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D- in MAT063 or equivalent COMPASS or ACT math score.

### **ACC131 Principles of Accounting I**

**4 credits**—This course is an introduction to basic financial accounting concepts and procedures for service and merchandising businesses. Topics included are the accounting cycle; accounting systems; financial statements; accounting for cash, receivables, payables, inventories, plant assets, partnerships, corporations, and bonds.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D- in MAT063 or equivalent COMPASS or ACT math score.

### **ACC132 Principles of Accounting II**

**4 credits**—The course continues to address topics in financial accounting that began in Principles of Accounting I. Primary emphasis is on managerial accounting and the corporate form of ownership. Topics include accounting for bonds, the statement of cash flows and financial statement analysis. Managerial accounting topics include job order and process cost systems, cost-volume-profit analysis, budgeting and standard cost systems. Capital investment analysis and activity-based costing are also addressed.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in ACC131.

### **ACC132 Principles of Accounting II**

**4 credits**—The course continues to address topics in financial accounting that began in Principles of Accounting I. Primary emphasis is on managerial accounting and the corporate form of ownership. Topics include accounting for bonds, the statement of cash flows and financial statement analysis. Managerial accounting topics include job order and process cost systems, cost-volume-profit analysis, budgeting and standard cost systems. Capital investment analysis and activity-based costing are also addressed.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in ACC131.

### **ACC190 Financial Analysis**

**2 credits**—This course provides the student with a general framework of corporate finance. The emphasis is limited to financial analysis of business performance and evaluation of alternative choices for investments and working capital.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC190 Financial Analysis**

**2 credits**—This course provides the student with a general framework of corporate finance. The emphasis is limited to financial analysis of business performance and evaluation of alternative choices for investments and working capital.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC222 Cost Accounting**

**4 credits**—This course provides an introduction to the accounting concepts of manufacturing systems. In addition to job order and process costing systems, profit planning and control programs are emphasized.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC222 Cost Accounting**

**4 credits**—This course provides an introduction to the accounting concepts of manufacturing systems. In addition to job order and process costing systems, profit planning and control programs are emphasized.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC231 Intermediate Accounting I**

**4 credits**—This course emphasizes accounting theory as students work with detailed applications of various balance sheet and income statement accounts. Applicable generally accepted accounting principles are emphasized as they relate to each subject area. Time values of money concepts are also introduced.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC231 Intermediate Accounting I**

**4 credits**—This course emphasizes accounting theory as students work with detailed applications of various balance sheet and income statement accounts. Applicable generally accepted accounting principles are emphasized as they relate to each subject area. Time values of money concepts are also introduced.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC232 Intermediate Accounting II**

**4 credits**—This course continues the detailed applications that began in Intermediate Accounting I. Emphasis is on corporate debt and equity. The statement of cash flows is addressed extensively as well as the accounting for business combinations. The course will conclude with financial statement analysis.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC231 Intermediate Accounting I.

### **ACC232 Intermediate Accounting II**

**4 credits**—This course continues the detailed applications that began in Intermediate Accounting I. Emphasis is on corporate debt and equity. The statement of cash flows is addressed extensively as well as the accounting for business combinations. The course will conclude with financial statement analysis.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC231 Intermediate Accounting I.

### **ACC250 Review for the LPA Exam**

**3 credits**—This course reviews and summarizes the accounting, law, and ethics information received in the accounting program over four semesters to prepare students for the licensing exam.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116 or instructor approval.

### **ACC250 Review for the LPA Exam**

**3 credits**—This course reviews and summarizes the accounting, law, and ethics information received in the accounting program over four semesters to prepare students for the licensing exam.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116 or instructor approval.

### **ACC265 Income Tax Accounting**

**4 credits**—Emphasis is placed on the understanding of the federal tax system. The student will gain hands on experience preparing the most current tax forms for sole proprietorship businesses and individuals. Tax planning is addressed as it relates to the current and forthcoming year. Students will be provided with an opportunity to use computer software to prepare returns.

**Lecture Hours:** 64

### **ACC265 Income Tax Accounting**

**4 credits**—Emphasis is placed on the understanding of the federal tax system. The student will gain hands on experience preparing the most current tax forms for sole proprietorship businesses and individuals. Tax planning is addressed as it relates to the current and forthcoming year. Students will be provided with an opportunity to use computer software to prepare returns.

**Lecture Hours:** 64

### **ACC311 Computer Accounting**

**3 credits**—This course presents an introduction to a computerized accounting system. Two popular software packages will be used to accumulate, classify, and summarize data about a business.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC311 Computer Accounting**

**3 credits**—This course presents an introduction to a computerized accounting system. Two popular software packages will be used to accumulate, classify, and summarize data about a business.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC360 Accounting Spreadsheets**

**2 credits**—This course provides the student with an in depth working knowledge of how to use an integrated spreadsheet program to assist in routine jobs. Writing formulas is emphasized along with planning and creating spreadsheets.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA205.

### **ACC360 Accounting Spreadsheets**

**2 credits**—This course provides the student with an in depth working knowledge of how to use an integrated spreadsheet program to assist in routine jobs. Writing formulas is emphasized along with planning and creating spreadsheets.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA205.

### **ACC801 Payroll Accounting**

**1 credits**—This course involves the study of the federal, as well as the state forms and regulations concerning payroll. Students will be completing a comprehensive payroll simulation.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC801 Payroll Accounting**

**1 credits**—This course involves the study of the federal, as well as the state forms and regulations concerning payroll. Students will be completing a comprehensive payroll simulation.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC803 Accounting Simulations**

**1 credits**—This course provides hands-on experience using a manual and computerized simulation of an accounting cycle. The proprietorship form of business, accrual accounting and other concepts learned in the first accounting course will be the basis for the simulation.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC803 Accounting Simulations**

**1 credits**—This course provides hands-on experience using a manual and computerized simulation of an accounting cycle. The proprietorship form of business, accrual accounting and other concepts learned in the first accounting course will be the basis for the simulation.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

Can be completed for up to three credits.

**Lecture Hours:** 16

### **ACC924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

Can be completed for up to three credits.

**Lecture Hours:** 16

### **ADM105 Introduction to Keyboarding**

**1 credits**—This course presents the technique and development of touch keyboarding. Basic functions of a computer are introduced with emphasis on learning alphabetic, numeric and symbolic keys, and the numeric keypad. The minimum competency of 25 net words per minute, with no more than five errors per timing, on 3 five-minute timed writings is required.

**Lab Hours:** 32

### **ADM105 Introduction to Keyboarding**

**1 credits**—This course presents the technique and development of touch keyboarding. Basic functions of a computer are introduced with emphasis on learning alphabetic, numeric and symbolic keys, and the numeric keypad. The minimum competency of 25 net words per minute, with no more than five errors per timing, on 3 five-minute timed writings is required.

**Lab Hours:** 32

### **ADM108 Keyboarding Skill Development**

**1 credits**—The skill building process is continued. This course assists students to improve speed and accuracy. The minimum competency of 40 net words per minute, with no more than five errors per timing, on 3 five-minute timed writings is required.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in ADM105.

### **ADM108 Keyboarding Skill Development**

**1 credits**—The skill building process is continued. This course assists students to improve speed and accuracy. The minimum competency of 40 net words per minute, with no more than five errors per timing, on 3 five-minute timed writings is required.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in ADM105.

### **ADM131 Office Calculators**

**1 credits**—The 10-key electronic calculator is used in business related applications. The emphasis is on speed and accuracy as the student performs the basic arithmetical procedures.

**Lab Hours:** 32

### **ADM131 Office Calculators**

**1 credits**—The 10-key electronic calculator is used in business related applications. The emphasis is on speed and accuracy as the student performs the basic arithmetical procedures.

**Lab Hours:** 32

### **ADM148 Transcription**

**2 credits**—This course builds and strengthens skills in machine transcription. Students are provided instruction for using transcription equipment with emphasis on language skills, including spelling, capitalization, punctuation, and word usage. Emphasis will be on editing, proofreading, and mailability of documents.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA134 and ADM105.

**Pre/Co-requisite(s):** A minimum grade of D- in ADM159 Proofreading and Editing.

### **ADM148 Transcription**

**2 credits**—This course builds and strengthens skills in machine transcription. Students are provided instruction for using transcription equipment with emphasis on language skills, including spelling, capitalization, punctuation, and word usage. Emphasis will be on editing, proofreading, and mailability of documents.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA134 and ADM105.

**Pre/Co-requisite(s):** A minimum grade of D- in ADM159 Proofreading and Editing.

### **ADM159 Proofreading and Editing**

**3 credits**—This course emphasizes the applications designed to sharpen skills in detecting and correcting errors in written communications including memos, letters, reports, databases, presentation slides, advertisements, and spreadsheets. It also introduces the student to proofreading and editing skills necessary when using current and new technology (i.e. email messages and voice recognition).

**Lecture Hours:** 48

### **ADM159 Proofreading and Editing**

**3 credits**—This course emphasizes the applications designed to sharpen skills in detecting and correcting errors in written communications including memos, letters, reports, databases, presentation slides, advertisements, and spreadsheets. It also introduces the student to proofreading and editing skills necessary when using current and new technology (i.e. email messages and voice recognition).

**Lecture Hours:** 48

### **ADM162 Office Procedures**

**3 credits**—This course provides preparation for employment in today's rapidly changing office environment by exposing a variety of topics including the working environment, oral and written communication, and administrative support services.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA134 and ADM159.

### **ADM162 Office Procedures**

**3 credits**—This course provides preparation for employment in today's rapidly changing office environment by exposing a variety of topics including the working environment, oral and written communication, and administrative support services.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA134 and ADM159.

### **ADM180 Administrative Management**

**3 credits**—Administrative management is studied including organization, site location, office layout, environment, communication processes, job analysis, job evaluation, salary administration, performance appraisal, and employer/employee relations.

**Lecture Hours:** 48

### **ADM180 Administrative Management**

**3 credits**—Administrative management is studied including organization, site location, office layout, environment, communication processes, job analysis, job evaluation, salary administration, performance appraisal, and employer/employee relations.

**Lecture Hours:** 48

### **ADM200 Legal Document Processing**

**3 credits**—This course familiarizes students with various fields of law and the proper preparation of legal documents utilized in each. Students will apply various skills in preparing legal documents, including transcription skills, communication skills, problem-solving skills, and technical skills.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ADM105, BCA134, and ADM148.

### **ADM200 Legal Document Processing**

**3 credits**—This course familiarizes students with various fields of law and the proper preparation of legal documents utilized in each. Students will apply various skills in preparing legal documents, including transcription skills, communication skills, problem-solving skills, and technical skills.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ADM105, BCA134, and ADM148.

### **ADM203 Legal Office Concepts and Procedures**

**3 credits**—This course provides an understanding of the legal office environment and offers a broad spectrum of legal concepts and procedures.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in BCA134.

### **ADM203 Legal Office Concepts and Procedures**

**3 credits**—This course provides an understanding of the legal office environment and offers a broad spectrum of legal concepts and procedures.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in BCA134.

### **ADM208 Legal Terminology**

**3 credits**—This course is designed to familiarize students with the most commonly used legal terms in today's workplace. It emphasizes correct spelling and defining of legal terms.

**Lecture Hours:** 48

### **ADM208 Legal Terminology**

**3 credits**—This course is designed to familiarize students with the most commonly used legal terms in today's workplace. It emphasizes correct spelling and defining of legal terms.

**Lecture Hours:** 48

### **ADM222 Career Capstone**

**3 credits**—Career skills, techniques and strategies that will assist the student in securing and maintaining employment are developed. Students will learn the fundamentals of the job search process, including interviewing skills and employment correspondence. International, legal, and ethical issues as well as technological developments affecting workplace communication skills are incorporated throughout the course. An individual capstone portfolio will be created. It is required that this course be taken the semester in which the student will be graduating.

**Lecture Hours:** 48

**Prerequisite(s):** Can only be taken in the term in which the student will be completing their program of study.

### **ADM222 Career Capstone**

**3 credits**—Career skills, techniques and strategies that will assist the student in securing and maintaining employment are developed. Students will learn the fundamentals of the job search process, including interviewing skills and employment correspondence. International, legal, and ethical issues as well as technological developments affecting workplace communication skills are incorporated throughout the course. An individual capstone portfolio will be created. It is required that this course be taken the semester in which the student will be graduating.

**Lecture Hours:** 48

**Prerequisite(s):** Can only be taken in the term in which the student will be completing their program of study.

### **ADN121 Transition to Professional Nursing**

**2 credits**—This course focuses on the associate degree nurse as transition occurs from the licensed practical nurse role to the registered nurse role. Major units in this course include an overview of ethical, legal and professional role/responsibilities of the registered nurse, history of nursing, nursing process and critical thinking, as well as an introduction to APA writing style and research.

Admission without conditions to the Associate Degree Nursing program for the current semester.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of C in ADN531.

### **ADN121 Transition to Professional Nursing**

**2 credits**—This course focuses on the associate degree nurse as transition occurs from the licensed practical nurse role to the registered nurse role. Major units in this course include an overview of ethical, legal and professional role/responsibilities of the registered nurse, history of nursing, nursing process and critical thinking, as well as an introduction to APA writing style and research.

Admission without conditions to the Associate Degree Nursing program for the current semester.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of C in ADN531.

### **ADN122 Advanced Nursing Skills**

**2 credits**—This course provides supervised practice of advanced nursing skills in a laboratory setting. The student is assisted in gaining skill and accuracy through demonstration, supervised practice and evaluation

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Admission to the Associate Degree Nursing program.

**Co-requisite(s):** ADN123 Physical Assessment

**Pre/Co-requisite(s):** A minimum grade of C in ADN531 Advanced Adult Health Nursing I.

### **ADN122 Advanced Nursing Skills**

**2 credits**—This course provides supervised practice of advanced nursing skills in a laboratory setting. The student is assisted in gaining skill and accuracy through demonstration, supervised practice and evaluation

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Admission to the Associate Degree Nursing program.

**Co-requisite(s):** ADN123 Physical Assessment

**Pre/Co-requisite(s):** A minimum grade of C in ADN531 Advanced Adult Health Nursing I.

### **ADN123 Physical Assessment**

**2 credits**—This course covers basic physical assessment with history taking and data collection, analysis and planning for care, nursing interventions and documentation.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Admission to the Associate Degree Nursing program. This course begins the 3 year time limit for completion of the ADN curriculum. A minimum grade of C in BIO168.

**Co-requisite(s):** A minimum grade of C in ADN122 Advanced Nursing Skills.

**Pre/Co-requisite(s):** A minimum grade of C in ADN531 Advanced Adult Health Nursing I.

### **ADN123 Physical Assessment**

**2 credits**—This course covers basic physical assessment with history taking and data collection, analysis and planning for care, nursing interventions and documentation.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Admission to the Associate Degree Nursing program. This course begins the 3 year time limit for completion of the ADN curriculum. A minimum grade of C in BIO168.

**Co-requisite(s):** A minimum grade of C in ADN122 Advanced Nursing Skills.

**Pre/Co-requisite(s):** A minimum grade of C in ADN531 Advanced Adult Health Nursing I.

### **ADN281 Diet Management**

**1 credits**—This course continues the study of food nutrients and body utilization for good health. There is emphasis on special diets, food exchanges, socio-economic and cultural implications of nutrition.

**Lecture Hours:** 16

**Prerequisite(s):** Admission without conditions to the Associate Degree Nursing program.

### **ADN281 Diet Management**

**1 credits**—This course continues the study of food nutrients and body utilization for good health. There is emphasis on special diets, food exchanges, socio-economic and cultural implications of nutrition.

**Lecture Hours:** 16

**Prerequisite(s):** Admission without conditions to the Associate Degree Nursing program.

### **ADN315 Professional Roles of Nursing Practice**

**2 credits**—This course focuses on the role of professional nursing, the implementation of leadership and managerial aspects within the nursing discipline. This course will discuss ethical and legal issues, roles of the registered nurse, the nursing process, critical thinking, and Evidence Based Practice guidelines within nursing practice. Preparation for the licensing exam is also included.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217, BIO151, SPC101, ADN121, ADN122, ADN123, ADN281, and ADN531.

**Pre/Co-requisite(s):** A minimum grade of C in BIO186.

### **ADN315 Professional Roles of Nursing Practice**

**2 credits**—This course focuses on the role of professional nursing, the implementation of leadership and managerial aspects within the nursing discipline. This course will discuss ethical and legal issues, roles of the registered nurse, the nursing process, critical thinking, and Evidence Based Practice guidelines within nursing practice. Preparation for the licensing exam is also included.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217, BIO151, SPC101, ADN121, ADN122, ADN123, ADN281, and ADN531.

**Pre/Co-requisite(s):** A minimum grade of C in BIO186.

### **ADN410 Advanced Nursing in OB and PEDS**

**5 credits**—This course provides comprehensive care for childbearing and pediatric clients in wellness and illness with special emphasis on health interruptions and variations and the nursing process needed to meet these variations. Clinical experiences are provided in selective acute care and community settings.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN121, ADN122, ADN123, and ADN531.

**Pre/Co-requisite(s):** A minimum grade of C in ADN315.

### **ADN410 Advanced Nursing in OB and PEDS**

**5 credits**—This course provides comprehensive care for childbearing and pediatric clients in wellness and illness with special emphasis on health interruptions and variations and the nursing process needed to meet these variations. Clinical experiences are provided in selective acute care and community settings.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN121, ADN122, ADN123, and ADN531.

**Pre/Co-requisite(s):** A minimum grade of C in ADN315.

### **ADN477 Psychiatric Nursing**

**5 credits**—This course focuses on the study and application of modern concepts of psychiatric nursing and effective interactions with people. The student will respond therapeutically to clients with maladaptive behaviors through utilization of the nursing process by applying the principles of mental health and psychiatric nursing.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN123 and ADN315.

### **ADN477 Psychiatric Nursing**

**5 credits**—This course focuses on the study and application of modern concepts of psychiatric nursing and effective interactions with people. The student will respond therapeutically to clients with maladaptive behaviors through utilization of the nursing process by applying the principles of mental health and psychiatric nursing.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN123 and ADN315.

### **ADN531 Advanced Adult Health Nursing I**

**6 credits**—This course is a study of the concepts of health and illness and of the nursing process in providing comprehensive nursing care for adults requiring advanced medical and surgical care. The content includes a review of shock, stress, immunity, fluid, electrolyte, acid base, eye, ear, respiratory, endocrine, reproductive and musculoskeletal disorders. Clinical experiences are provided in selected acute care settings.

**Lecture Hours:** 64      **Clinic Hours:** 96

**Pre/Co-requisite(s):** A minimum grade of C in ADN121, ADN122, and ADN123.

### **ADN531 Advanced Adult Health Nursing I**

**6 credits**—This course is a study of the concepts of health and illness and of the nursing process in providing comprehensive nursing care for adults requiring advanced medical and

surgical care. The content includes a review of shock, stress, immunity, fluid, electrolyte, acid base, eye, ear, respiratory, endocrine, reproductive and musculoskeletal disorders. Clinical experiences are provided in selected acute care settings.

**Lecture Hours:** 64    **Clinic Hours:** 96

**Pre/Co-requisite(s):** A minimum grade of C in ADN121, ADN122, and ADN123.

### **ADN532 Advanced Adult Health Nursing II**

**6 credits**—This course is a continuation of Advanced Adult Health Nursing I. Emphasis is placed on the nursing process in providing comprehensive care of the complex medical-surgical adult patient. The content includes cardiac, peripheral vascular, digestive, hematologic, oncologic, urinary and neurologic disorders. Clinical experiences are provided in acute care and community settings. Selected experience in the nurse manager role is included.

**Lecture Hours:** 64    **Clinic Hours:** 96

**Prerequisite(s):** A minimum grade of C in ADN121, ADN122, ADN123, and ADN531.

**Pre/Co-requisite(s):** A minimum grade of C in ADN315.

### **ADN532 Advanced Adult Health Nursing II**

**6 credits**—This course is a continuation of Advanced Adult Health Nursing I. Emphasis is placed on the nursing process in providing comprehensive care of the complex medical-surgical adult patient. The content includes cardiac, peripheral vascular, digestive, hematologic, oncologic, urinary and neurologic disorders. Clinical experiences are provided in acute care and community settings. Selected experience in the nurse manager role is included.

**Lecture Hours:** 64    **Clinic Hours:** 96

**Prerequisite(s):** A minimum grade of C in ADN121, ADN122, ADN123, and ADN531.

**Pre/Co-requisite(s):** A minimum grade of C in ADN315.

### **ADN924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **ADN924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGA114 Principles of Agronomy**

**3 credits**—This course presents introductory principles of plant-soil-climate relationships in crop production, plant anatomy, crop plant classification and identification, crop physiology, climate, soils, soil water, tillage and seeding, plant breeding, seed and grain quality, weeds, insects, crop diseases, crop management, harvesting and storage. Global Positioning and Geographic Information Systems in crop systems is discussed.

**Lecture Hours: 32    Lab Hours: 32**

### **AGA114 Principles of Agronomy**

**3 credits**—This course presents introductory principles of plant-soil-climate relationships in crop production, plant anatomy, crop plant classification and identification, crop physiology, climate, soils, soil water, tillage and seeding, plant breeding, seed and grain quality, weeds, insects, crop diseases, crop management, harvesting and storage. Global Positioning and Geographic Information Systems in crop systems is discussed.

**Lecture Hours: 32    Lab Hours: 32**

### **AGA154 Fundamentals of Soil Science**

**3 credits**—This course presents information on soils and soil fertility, land use, soil formation, soil types, soil testing, soil physical characteristics, soil classes, primary nutrients, secondary nutrients, micro-nutrients, fertilizer materials, fertilizing, and using soil test information. The use of Global Positioning and Geographic Information Systems in recording soil data is covered.

**Lecture Hours: 32    Lab Hours: 32**

### **AGA154 Fundamentals of Soil Science**

**3 credits**—This course presents information on soils and soil fertility, land use, soil formation, soil types, soil testing, soil physical characteristics, soil classes, primary nutrients, secondary nutrients, micro-nutrients, fertilizer materials, fertilizing, and using soil test information. The use of Global Positioning and Geographic Information Systems in recording soil data is covered.

**Lecture Hours: 32    Lab Hours: 32**

### **AGA214 Cash Grains**

**3 credits**—This course introduces the production of Iowa's main cash crops; corn and soybeans. Units include: crop history, crop development, seed selection, fertilization, insect and weed control, harvesting, grain handling, marketing, storage and the economic importance of each crop. New and experimental production practices are discussed for practical application.

**Lecture Hours: 32    Lab Hours: 32**

### **AGA214 Cash Grains**

**3 credits**—This course introduces the production of Iowa's main cash crops; corn and soybeans. Units include: crop history, crop development, seed selection, fertilization, insect and weed control, harvesting, grain handling, marketing, storage and the economic importance of each crop. New and experimental production practices are discussed for practical application.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGA284 Pesticide Application Certification**

**3 credits**—This course will introduce students to the safe use of agricultural chemicals. Safety precautions and prevention of chemical exposure will be stressed when discussing types of chemicals, usage, application, equipment, and mixing. First aid and responding to chemical contamination will also be discussed. This course prepares the students for taking the Iowa Commercial Pesticide Applicators Certification Exam.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGA284 Pesticide Application Certification**

**3 credits**—This course will introduce students to the safe use of agricultural chemicals. Safety precautions and prevention of chemical exposure will be stressed when discussing types of chemicals, usage, application, equipment, and mixing. First aid and responding to chemical contamination will also be discussed. This course prepares the students for taking the Iowa Commercial Pesticide Applicators Certification Exam.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGA376 Integrated Pest Management**

**3 credits**—This course is designed to make application and use of some materials learned in other courses. Decision making as it deals with the total cropping plan is stressed. An individual will determine from observation weed problems, plant populations, disease problems, insect problems, do yield checks, make recommendations for handling any problems. COURSE PREREQUISITE: NONE

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGA376 Integrated Pest Management**

An individual will determine from observation weed problems, plant populations, disease problems, insect problems, do yield checks, make recommendations for handling any problems. COURSE PREREQUISITE: NONE

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGA924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGA924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGB101 Agricultural Economics**

**3 credits**—This course introduces students to basic concepts in economics, including various aspects of an economy-like agriculture, industry, population, food supply, government policies and physical environmental affect on each other and the economy as a whole. Resources used in agricultural production, organization price determination, supply, demand, and profit modernization is studied.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGB101 Agricultural Economics**

**3 credits**—This course introduces students to basic concepts in economics, including various aspects of an economy-like agriculture, industry, population, food supply, government policies and physical environmental affect on each other and the economy as a whole. Resources used in agricultural production, organization price determination, supply, demand, and profit modernization is studied.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGB235 Introduction to Agriculture Markets**

**3 credits**—This course provides the student with an introduction to grain merchandising and farm marketing. It is taught from the standpoint of a country elevator; however, the same principles apply to many other aspects of the grain industry. We emphasize the elevators relationship and responsibility to its customers. The basic fundamentals of marketing are discussed along with the more advanced aspects of managing basis positions, basis trading and managing risks. Some prior knowledge of country elevators and the futures market is useful but not required.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGB235 Introduction to Agriculture Markets**

The basic fundamentals of marketing are discussed along with the more advanced aspects of managing basis positions, basis trading and managing risks. Some prior knowledge of country elevators and the futures market is useful but not required.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGB303 Agriculture Leadership**

**3 credits**—This course is designed to enhance students' abilities in the area of leadership. The course includes activities that enable students to develop skills in communication, problem solving, committee work, and parliamentary procedure. Students may be involved in many local, state and nationally organized activities.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGB303 Agriculture Leadership**

**3 credits**—This course is designed to enhance students' abilities in the area of leadership. The course includes activities that enable students to develop skills in communication, problem solving, committee work, and parliamentary procedure. Students may be involved in many local, state and nationally organized activities.

**Lecture Hours: 32    Lab Hours: 32**

### **AGB330 Farm Business Management**

**3 credits**—Business and economic principles applied to decision making and problem solving in the management of a farm business, cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

**Lecture Hours: 32    Lab Hours: 32**

### **AGB330 Farm Business Management**

**3 credits**—Business and economic principles applied to decision making and problem solving in the management of a farm business, cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

**Lecture Hours: 32    Lab Hours: 32**

### **AGB331 Entrepreneurship in Agriculture**

**3 credits**—This course introduces students to basic principles of organizing, financing, and managing a business. Including product merchandising and marketing, personnel management, credits, and risk management.

**Lecture Hours: 32    Lab Hours: 32**

### **AGB331 Entrepreneurship in Agriculture**

**3 credits**—This course introduces students to basic principles of organizing, financing, and managing a business. Including product merchandising and marketing, personnel management, credits, and risk management.

**Lecture Hours: 32    Lab Hours: 32**

### **AGB336 Agricultural Selling**

**3 credits**—This course presents aspects of the sales process including: selling success, types of sales questions, creating the selling climate, motivation, attitude, referral prospecting, no referral prospecting, phone sales, sales presentations and demonstrations, qualifying the prospect, overcoming objectiveness, closing twelve power closes, and sales paper work.

**Lecture Hours: 32    Lab Hours: 32**

### **AGB336 Agricultural Selling**

**3 credits**—This course presents aspects of the sales process including: selling success, types of sales questions, creating the selling climate, motivation, attitude, referral prospecting, no referral prospecting, phone sales, sales presentations and demonstrations, qualifying the prospect, overcoming objectiveness, closing twelve power closes, and sales paper work.

**Lecture Hours: 32    Lab Hours: 32**

### **AGC103 Ag Computers**

**3 credits**—This course will introduce students to the hardware, software, word processing, database and spreadsheet programs, as well as various utility software. Applications of various agricultural management uses are covered throughout. Networks, telecommunication, Global Positioning and Geographic Information Systems are also introduced.

**Lecture Hours: 32    Lab Hours: 32**

### **AGC103 Ag Computers**

**3 credits**—This course will introduce students to the hardware, software, word processing, database and spreadsheet programs, as well as various utility software. Applications of various agricultural management uses are covered throughout. Networks, telecommunication, Global Positioning and Geographic Information Systems are also introduced.

**Lecture Hours: 32    Lab Hours: 32**

### **AGC999 Study Abroad**

**1 credits**—This course explores relative differences between the student's country and study abroad country with emphasis in agriculture. Topics include history, geography, culture, food, language, and agriculture topics. May be taken for up to 5 credits.

**Lecture Hours: 16**

### **AGC999 Study Abroad**

**1 credits**—This course explores relative differences between the student's country and study abroad country with emphasis in agriculture. Topics include history, geography, culture, food, language, and agriculture topics. May be taken for up to 5 credits.

**Lecture Hours: 16**

### **AGH107 Horticulture Lab**

**1 credits**—Horticulture lab offers students the opportunity to work in the Hawkeye horticulture laboratory under the supervision of an instructor. Students will be assigned projects and will be responsible for completing them on a timely basis for a limited time. This course may be repeated up to three times with different content.

**Lecture Hours: 0    Lab Hours: 32**

### **AGH107 Horticulture Lab**

**1 credits**—Horticulture lab offers students the opportunity to work in the Hawkeye horticulture laboratory under the supervision of an instructor. Students will be assigned

projects and will be responsible for completing them on a timely basis for a limited time. This course may be repeated up to three times with different content.

**Lecture Hours:** 0    **Lab Hours:** 32

### **AGH112 Introduction to Turfgrass Management**

**3 credits**—This course introduces the types of grass species and their uses; their growth habits, and development as a unique plant species. Proper culture and establishment procedures are studied, as well as their importance to the environment.

**Lecture Hours:** 48

### **AGH112 Introduction to Turfgrass Management**

**3 credits**—This course introduces the types of grass species and their uses; their growth habits, and development as a unique plant species. Proper culture and establishment procedures are studied, as well as their importance to the environment.

**Lecture Hours:** 48

### **AGH119 Herbaceous Plant Materials**

**2 credits**—This course covers identification, adaptation, cultural characteristics and uses of selected annuals, perennials and bulbs suitable for use in landscape and gardens in Iowa. Students will identify the plants covered and will also be required to incorporate them into four flower garden design projects.

**Lecture Hours:** 32

### **AGH119 Herbaceous Plant Materials**

**2 credits**—This course covers identification, adaptation, cultural characteristics and uses of selected annuals, perennials and bulbs suitable for use in landscape and gardens in Iowa. Students will identify the plants covered and will also be required to incorporate them into four flower garden design projects.

**Lecture Hours:** 32

### **AGH123 Woody Plant Materials**

**3 credits**—The identification, morphology, landscape use and culture of native and nonnative woody plants of the Upper Midwest. First part of course will include emphasis on deciduous plants. Last part of course will include emphasis on evergreens.

**Lecture Hours:** 32

### **AGH123 Woody Plant Materials**

**3 credits**—The identification, morphology, landscape use and culture of native and nonnative woody plants of the Upper Midwest. First part of course will include emphasis on deciduous plants. Last part of course will include emphasis on evergreens.

**Lecture Hours:** 32

### **AGH134 Greenhouse Production**

**3 credits**—This course explores various employment opportunities in the greenhouse career field. Production theories and practices are studied. Emphasis is on proper techniques of watering, potting, transplanting, fertilizing and various other aspects of greenhouse production. Cultural practices used to produce the most common greenhouse crops are also covered.

**Lecture Hours:** 48

### **AGH134 Greenhouse Production**

**3 credits**—This course explores various employment opportunities in the greenhouse career field. Production theories and practices are studied. Emphasis is on proper techniques of watering, potting, transplanting, fertilizing and various other aspects of greenhouse production. Cultural practices used to produce the most common greenhouse crops are also covered.

**Lecture Hours:** 48

### **AGH140 Equipment Operations**

**2 credits**—This course introduces the general care and use of horticultural equipment in turf and landscape maintenance, and construction. Emphasis is on operation, preventative maintenance performed by the operator, daily lubrications and minor adjustments. Students will also mount and dismount accessories used on the equipment. Safe operation of machinery is emphasized.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AGH140 Equipment Operations**

**2 credits**—This course introduces the general care and use of horticultural equipment in turf and landscape maintenance, and construction. Emphasis is on operation, preventative maintenance performed by the operator, daily lubrications and minor adjustments. Students will also mount and dismount accessories used on the equipment. Safe operation of machinery is emphasized.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AGH142 Landscape Construction**

**3 credits**—Principles and practices of landscape construction will be explained. Curriculum encompasses process from initial client contact to installation of plant material and hardscape. Laboratory work in the course involves landscape installation using various materials and techniques

**Lecture Hours:** 32

### **AGH142 Landscape Construction**

**3 credits**—Principles and practices of landscape construction will be explained. Curriculum encompasses process from initial client contact to installation of plant material and hardscape. Laboratory work in the course involves landscape installation using various materials and techniques

**Lecture Hours:** 32

### **AGH143 Equipment Repair**

**3 credits**—This course is an introduction to basic maintenance of mechanical, hydraulic, and electrical systems of gasoline and diesel engines. Maintenance, up-keep and repair techniques on reel mowers, rotary mowers, and other horticulture equipment are covered.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH143 Equipment Repair**

**3 credits**—This course is an introduction to basic maintenance of mechanical, hydraulic, and electrical systems of gasoline and diesel engines. Maintenance, up-keep and repair techniques on reel mowers, rotary mowers, and other horticulture equipment are covered.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH152 Landscape Design Techniques**

**3 credits**—Concepts and applications of landscape design principles are utilized in completing landscape plans. Emphasis is placed on the design principles for preparing, evaluating and selling landscape plans.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH152 Landscape Design Techniques**

**3 credits**—Concepts and applications of landscape design principles are utilized in completing landscape plans. Emphasis is placed on the design principles for preparing, evaluating and selling landscape plans.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH159 Landscape Graphics**

**2 credits**—This course is an introduction to landscape graphics associated with drafting equipment and materials, and computer aided drawings

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C in AGH152 Landscape Design Techniques.

### **AGH159 Landscape Graphics**

**2 credits**—This course is an introduction to landscape graphics associated with drafting equipment and materials, and computer aided drawings

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C in AGH152 Landscape Design Techniques.

### **AGH161 Irrigation Systems**

**3 credits**—This course presents various types of irrigation equipment: heads, valves, controllers, pipe, and the accessories used in an irrigation system. The course presents the function of water, its relationships to plants and soil, and an introduction to water hydraulics.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH161 Irrigation Systems**

**3 credits**—This course presents various types of irrigation equipment: heads, valves, controllers, pipe, and the accessories used in an irrigation system. The course presents the function of water, its relationships to plants and soil, and an introduction to water hydraulics.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH200 Landscape Estimating and Bidding**

**2 credits**—This course focuses on the fundamentals of creating a landscape project estimate including material take-offs, plant pricing, labor rates, measuring, reading landscape plans and math calculations.

**Lecture Hours: 16**

### **AGH200 Landscape Estimating and Bidding**

**2 credits**—This course focuses on the fundamentals of creating a landscape project estimate including material take-offs, plant pricing, labor rates, measuring, reading landscape plans and math calculations.

**Lecture Hours: 16**

### **AGH211 Advanced Turfgrass Management**

**3 credits**—The course provides opportunities for students to learn techniques of golf course management and operation. Proper construction of specific golf course areas such as: greens, trees, bunkers, basic golf course design is presented. Budgets, irrigation, maintenance and an integrated pest management program are presented.

**Lecture Hours: 48**

### **AGH211 Advanced Turfgrass Management**

**3 credits**—The course provides opportunities for students to learn techniques of golf course management and operation. Proper construction of specific golf course areas such as: greens, trees, bunkers, basic golf course design is presented. Budgets, irrigation, maintenance and an integrated pest management program are presented.

**Lecture Hours: 48**

### **AGH221 Principles of Horticulture**

**3 credits**—This course provides students with an overall view of how man utilizes horticulture plant materials. Topics covered are fruits, vegetables, ornamental plants and their proper use and care. Proper culture and environmental conditions are also included.

**Lecture Hours: 48**

### **AGH221 Principles of Horticulture**

**3 credits**—This course provides students with an overall view of how man utilizes horticulture plant materials. Topics covered are fruits, vegetables, ornamental plants and their proper use and care. Proper culture and environmental conditions are also included.

**Lecture Hours: 48**

### **AGH233 Plant Propagation I**

**3 credits**—Introduces students to techniques used in reproducing plants through sexual and asexual methods. Seedlings, vegetative cuttings, grafts and buddings are practiced in the laboratory.

**Lecture Hours: 32**

### **AGH233 Plant Propagation I**

**3 credits**—Introduces students to techniques used in reproducing plants through sexual and asexual methods. Seedlings, vegetative cuttings, grafts and buddings are practiced in the laboratory.

**Lecture Hours: 32**

### **AGH270 Nursery Production**

**2 credits**—This course introduces the student to theory and techniques of springtime nursery production. Students will plant trees, shrubs and evergreens in the horticulture lab nursery, and participate in other nursery cultural practices, such as: weed control, pruning, cultivation, etc.

**Lecture Hours: 16      Lab Hours: 32**

### **AGH270 Nursery Production**

**2 credits**—This course introduces the student to theory and techniques of springtime nursery production. Students will plant trees, shrubs and evergreens in the horticulture lab nursery, and participate in other nursery cultural practices, such as: weed control, pruning, cultivation, etc.

**Lecture Hours: 16      Lab Hours: 32**

### **AGH273 Nursery Management**

**3 credits**—Basic management functions are applied to a plant nursery. Advertising, harvest and sale of trees and shrubs from the school nursery provide students with hands-on experiences. Chemical selection for pest control in a nursery will also be covered. Students will be involved in planning the planting of the horticulture lab nursery.

**Lecture Hours: 32      Lab Hours: 32**

### **AGH273 Nursery Management**

**3 credits**—Basic management functions are applied to a plant nursery. Advertising, harvest and sale of trees and shrubs from the school nursery provide students with hands-on experiences. Chemical selection for pest control in a nursery will also be covered. Students will be involved in planning the planting of the horticulture lab nursery.

**Lecture Hours: 32      Lab Hours: 32**

### **AGH280 Botany for Horticulture**

**3 credits**—This course presents the basic structure of plant life, plant nomenclature, botanical terminology, the function of plant parts: cells, tissues, roots, and leaves. The physiological processes of plant life; osmosis, photosynthesis, respiration, transpiration, reproduction and the basic principles of genetics, and the plants metabolism is discussed.

**Lecture Hours: 32      Lab Hours: 32**

### **AGH280 Botany for Horticulture**

**3 credits**—This course presents the basic structure of plant life, plant nomenclature, botanical terminology, the function of plant parts: cells, tissues, roots, and leaves. The physiological processes of plant life; osmosis, photosynthesis, respiration, transpiration, reproduction and the basic principles of genetics, and the plants metabolism is discussed.

**Lecture Hours: 32      Lab Hours: 32**

### **AGH281 Arboriculture**

**3 credits**—A study of tree culture with emphasis on propagation, pruning, transplanting, pest control, urban environment concerns and recognition of hazards and liabilities. Methods of evaluation of values of trees also studied.

**Lecture Hours: 48**

### **AGH281 Arboriculture**

**3 credits**—A study of tree culture with emphasis on propagation, pruning, transplanting, pest control, urban environment concerns and recognition of hazards and liabilities. Methods of evaluation of values of trees also studied.

**Lecture Hours: 48**

### **AGH292 Garden Center Management**

**3 credits**—Display, promotion and merchandising in the modern garden center will be stressed. Problems of distribution functions of marketing and their costs will be studied. Management's role in organizing a business and financial planning will be discussed.

**Lecture Hours: 48**

### **AGH292 Garden Center Management**

**3 credits**—Display, promotion and merchandising in the modern garden center will be stressed. Problems of distribution functions of marketing and their costs will be studied. Management's role in organizing a business and financial planning will be discussed.

**Lecture Hours: 48**

### **AGH400 Athletic Field Maintenance**

**3 credits**—Studies specific sport facilities utilizing turf grasses including football, soccer, field hockey, baseball, and softball fields. Techniques of operation, management, maintenance, budgets, construction, and irrigation will be covered.

**Lecture Hours: 32      Lab Hours: 32**

### **AGH400 Athletic Field Maintenance**

**3 credits**—Studies specific sport facilities utilizing turf grasses including football, soccer, field hockey, baseball, and softball fields. Techniques of operation, management, maintenance, budgets, construction, and irrigation will be covered.

**Lecture Hours: 32      Lab Hours: 32**

### **AGH425 Grounds Maintenance**

**3 credits**—This course introduced basic maintenance practices used on a golf course; golf course etiquette, procedures such as top dressing, aerifying, mowing, verticutting, fertilizing, watering, and changing cups on a green. Introduces maintenance practices used in sports complexes, parks and recreation areas, and commercial and industrial grounds.

**Lecture Hours: 32    Lab Hours: 32**

### **AGH425 Grounds Maintenance**

**3 credits**—This course introduced basic maintenance practices used on a golf course; golf course etiquette, procedures such as top dressing, aerifying, mowing, verticutting, fertilizing, watering, and changing cups on a green. Introduces maintenance practices used in sports complexes, parks and recreation areas, and commercial and industrial grounds.

**Lecture Hours: 32    Lab Hours: 32**

### **AGM104 Electricity**

**4 credits**—This course is an in-depth study of theory in the diagnosing and repair of electrical components and circuitry.

**Lecture Hours: 32    Lab Hours: 64**

### **AGM104 Electricity**

**4 credits**—This course is an in-depth study of theory in the diagnosing and repair of electrical components and circuitry.

**Lecture Hours: 32    Lab Hours: 64**

### **AGM107 Gas Engine Rebuild**

**7 credits**—This course covers the theory of gas engines and the construction, diagnosis, and repair of all the systems. Fuel, ignition, and supportive systems are also included.

**Lecture Hours: 48    Lab Hours: 128**

### **AGM107 Gas Engine Rebuild**

**7 credits**—This course covers the theory of gas engines and the construction, diagnosis, and repair of all the systems. Fuel, ignition, and supportive systems are also included.

**Lecture Hours: 48    Lab Hours: 128**

### **AGM113 Hydraulics I**

**3 credits**—This course covers theory and symbols of hydraulic components. Testing and repair of components is performed according to manufacturer's specifications.

**Lecture Hours: 16    Lab Hours: 64**

### **AGM113 Hydraulics I**

**3 credits**—This course covers theory and symbols of hydraulic components. Testing and repair of components is performed according to manufacturer's specifications.

**Lecture Hours: 16    Lab Hours: 64**

### **AGM126 Diesel Engine Sub Systems**

**3 credits**—A study of diesel fuel systems, air intake systems, cooling systems and exhaust systems.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM126 Diesel Engine Sub Systems**

**3 credits**—A study of diesel fuel systems, air intake systems, cooling systems and exhaust systems.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM128 Fundamentals of Diesel Engine**

**5 credits**—Students are introduced to diesel engine application, design, construction, theory and operating principles of diesel engines. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 32

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM128 Fundamentals of Diesel Engine**

**5 credits**—Students are introduced to diesel engine application, design, construction, theory and operating principles of diesel engines. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 32

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM142 Diesel Power Transfer Systems**

**4 credits**—Students are introduced to application, design, construction, theory and operating principles of transmission, differentials and final drives.

**Lecture Hours:** 16    **Lab Hours:** 96

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM142 Diesel Power Transfer Systems**

**4 credits**—Students are introduced to application, design, construction, theory and operating principles of transmission, differentials and final drives.

**Lecture Hours:** 16    **Lab Hours:** 96

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM224 Hydraulics II**

**4 credits**—This course covers theory and symbols of hydraulic systems. Testing and repair of hydraulic systems is performed with the use of meters and gauges for proper diagnosis.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM224 Hydraulics II**

**4 credits**—This course covers theory and symbols of hydraulic systems. Testing and repair of hydraulic systems is performed with the use of meters and gauges for proper diagnosis.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM327 Equipment Maintenance**

**7 credits**—This course presents background on theory of operation, diagnosis, and repair of brakes and suspension systems. Students gain knowledge and skill in performing preventive maintenance, service, and inspection of equipment. Arc welding and flame cutting will also be taught. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 48    **Lab Hours:** 128

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM327 Equipment Maintenance**

**7 credits**—This course presents background on theory of operation, diagnosis, and repair of brakes and suspension systems. Students gain knowledge and skill in performing preventive maintenance, service, and inspection of equipment. Arc welding and flame cutting will also be taught. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 48    **Lab Hours:** 128

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM333 Electronics**

**3 credits**—This course is a continuing study of electricity in electronic components covering circuitry, diagnosis and repair.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM333 Electronics**

**3 credits**—This course is a continuing study of electricity in electronic components covering circuitry, diagnosis and repair.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM408 Power Transfer Systems**

**7 credits**—A study of the power train from the clutch through the rear driving axles. Emphasis is placed on clutch types, transmissions, and drive axles. Key goals of the course are failure analysis and troubleshooting malfunctions.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM408 Power Transfer Systems**

**7 credits**—A study of the power train from the clutch through the rear driving axles. Emphasis is placed on clutch types, transmissions, and drive axles. Key goals of the course are failure analysis and troubleshooting malfunctions.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM417 Ag Equipment Repair**

**7 credits**—This course is designed to give students the opportunity to apply competencies previously achieved to repair and service projects. Also included is theory and operation, diagnosis, and repair of heating and air conditioning systems. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, DSL377, AGM327, AGM333, and AGM224.

### **AGM417 Ag Equipment Repair**

**7 credits**—This course is designed to give students the opportunity to apply competencies previously achieved to repair and service projects. Also included is theory and operation, diagnosis, and repair of heating and air conditioning systems. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, DSL377, AGM327, AGM333, and AGM224.

### **AGM932 Internship**

**1 credits**—Students will work on-site at a local industry under the direction of a supervisor.

**Co-op Hours:** 64

**Prerequisite(s):** Completion of the Electronic Engineering Technology with a Mechanical Emphasis program. A minimum grade of D- in AGM128.

### **AGM932 Internship**

**1 credits**—Students will work on-site at a local industry under the direction of a supervisor.

**Co-op Hours:** 64

**Prerequisite(s):** Completion of the Electronic Engineering Technology with a Mechanical Emphasis program. A minimum grade of D- in AGM128.

### **AGP333 Precision Farming Systems**

**3 credits**—Fundamental processes of Global Positioning System (GPS) with emphasis on its application to agriculture will be covered. General technical aspects of the GPS satellites, differential correction, and hardware will be covered. The specific application of this technology in agriculture for mapping, navigation, variable rate technology (VRT), and data collection will be discussed and demonstrated on the farm laboratory.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGP333 Precision Farming Systems**

**3 credits**—Fundamental processes of Global Positioning System (GPS) with emphasis on its application to agriculture will be covered. General technical aspects of the GPS satellites, differential correction, and hardware will be covered. The specific application of this technology in agriculture for mapping, navigation, variable rate technology (VRT), and data collection will be discussed and demonstrated on the farm laboratory.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGP340 Foundations of GIS and GPS**

**3 credits**—This course will introduce fundamental processes of Global Positioning System (GPS) including technical aspects of the GPS satellites, differential correction, and hardware. The specific application of this technology for mapping, navigation, variable rate technology (VRT), and data collection will be discussed and demonstrated. Fundamental processes of Geographic Information Systems (GIS) will also be introduced, including file formats, data base management, spatial analysis and manipulation of data.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGP340 Foundations of GIS and GPS**

**3 credits**—This course will introduce fundamental processes of Global Positioning System (GPS) including technical aspects of the GPS satellites, differential correction, and hardware. The specific application of this technology for mapping, navigation, variable rate technology (VRT), and data collection will be discussed and demonstrated. Fundamental processes of Geographic Information Systems (GIS) will also be introduced, including file formats, data base management, spatial analysis and manipulation of data.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGP401 Introduction to GIS Software**

**1 credits**—This course provides a conceptual overview and hands-on experience using the software, giving one the background knowledge to quickly take advantage of Arc GIS Software's powerful display and query capabilities. Students will learn basic Arc GIS Software functionality. Students become familiar with the Arc GIS Software user interface and use Arc GIS Software to create, edit, display, query and analyze geographic and tabular data and create maps and charts for use electronically and in print form.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of D- in AGC103.

### **AGP401 Introduction to GIS Software**

**1 credits**—This course provides a conceptual overview and hands-on experience using the software, giving one the background knowledge to quickly take advantage of Arc GIS Software's powerful display and query capabilities. Students will learn basic Arc GIS Software functionality. Students become familiar with the Arc GIS Software user interface and use Arc GIS Software to create, edit, display, query and analyze geographic and tabular data and create maps and charts for use electronically and in print form.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of D- in AGC103.

### **AGP436 Advanced Precision Farming Hardware**

**3 credits**—This course will focus on the installation, operation, and troubleshooting of precision farming hardware components. Students will learn how to install displays, GPS equipment, and various other components used within precision agriculture. Students will properly operate various precision agriculture hardware systems such as displays, variable rate controllers, and GPS equipment. Special attention will be given to training students to troubleshoot problems and learn how to develop cognitive problem solving skills.

**Lecture Hours:** 32     **Lab Hours:** 32

### **AGP436 Advanced Precision Farming Hardware**

Students will learn how to install displays, GPS equipment, and various other components used within precision agriculture. Students will properly operate various precision agriculture hardware systems such as displays, variable rate controllers, and GPS equipment. Special attention will be given to training students to troubleshoot problems and learn how to develop cognitive problem solving skills.

**Lecture Hours:** 32     **Lab Hours:** 32

### **AGP450 Fundamentals of GIS**

**3 credits**—Fundamental processes of Geographic Information Systems (GIS) with emphasis in its application to agriculture will be covered. File formats, data base management, spatial analysis and manipulation of data will be covered thoroughly. Comparisons of GIS and mapping software, and conversions between formats will also be discussed. The lab portion will concentrate on using georeferenced data from mapping and yield monitoring to develop maps from which a VRT prescription will be synthesized.

**Lecture Hours:** 32    **Lab Hours:** 32

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGS113 Survey of the Animal Industry**

**3 credits**—This course introduces students to the species and breeds of domestic livestock and development of an appreciation for the principles of livestock production, and issues facing product marketing. Topics include: breeds, basic management and marketing of farm animals, composition, evaluation and marketing of farm animals, composition, evaluation and marketing of animal products; including beef and dairy cattle, horses, goats, poultry, sheep and swine.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGS113 Survey of the Animal Industry**

**3 credits**—This course introduces students to the species and breeds of domestic livestock and development of an appreciation for the principles of livestock production, and issues facing product marketing. Topics include: breeds, basic management and marketing of farm animals, composition, evaluation and marketing of farm animals, composition, evaluation and marketing of animal products; including beef and dairy cattle, horses, goats, poultry, sheep and swine.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGS211 Issues Facing Animal Science**

**2 credits**—Overview of the factors that define contemporary ethical and scientifically based issues facing animal agriculture. Life skills development will be incorporated.

**Lecture Hours:** 32

### **AGS211 Issues Facing Animal Science**

**2 credits**—Overview of the factors that define contemporary ethical and scientifically based issues facing animal agriculture. Life skills development will be incorporated.

**Lecture Hours:** 32

### **AGS216 Equine Science**

**3 credits**—This course presents the basic management and production practices for horses including nutrition, health care, facilities, reproductive management, breeding and evaluation. The course is designed for students wanting to learn how to care for their own horse or for other owners? horses as a herdsman or in a stable.

**Lecture Hours:** 32

### **AGS216 Equine Science**

**3 credits**—This course presents the basic management and production practices for horses including nutrition, health care, facilities, reproductive management, breeding and evaluation. The course is designed for students wanting to learn how to care for their own horse or for other owners? horses as a herdsman or in a stable.

**Lecture Hours:** 32

### **AGS218 Domestic Animal Physiology**

**4 credits**—Introduction to the functional anatomy and physiological activities governing the animal body through discussion and observation via video of the various body systems; including cells, senses, nerves, skeletal, circulatory, respiratory, digestive urinary, muscular reproductive and endocrinology. Fundamentals of identification, prevention, and treatment of various common disease problems. This course presents a sound preventative approach to animal health and husbandry as it relates to body health, form and function.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGS113.

### **AGS218 Domestic Animal Physiology**

**4 credits**—Introduction to the functional anatomy and physiological activities governing the animal body through discussion and observation via video of the various body systems; including cells, senses, nerves, skeletal, circulatory, respiratory, digestive urinary, muscular reproductive and endocrinology. Fundamentals of identification, prevention, and treatment of various common disease problems. This course presents a sound preventative approach to animal health and husbandry as it relates to body health, form and function.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGS113.

### **AGS225 Swine Science**

**3 credits**—This course provides an understanding of the principles involved with comprehensive swine management; selection to marketing. Emphasis will be placed on business aspects, production systems, facilities, health, record systems, and analysis. Field trips and guest speakers will be included. Hands-on training will be included through the swine-teaching herd.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGS225 Swine Science**

**3 credits**—This course provides an understanding of the principles involved with comprehensive swine management; selection to marketing. Emphasis will be placed on business aspects, production systems, facilities, health, record systems, and analysis. Field trips and guest speakers will be included. Hands-on training will be included through the swine-teaching herd.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGS226 Beef Cattle Science**

**3 credits**—This course prepares students to integrate production principles. Management principles involved with comprehensive beef cattle production will be emphasized. Topics included: overview of the industry, budgeting, record analysis, principles of bull management, cow and heifer management practices, preconditioning programs, feedlot management and marketing. Students receive hands-on experience working with the school teaching herd plus field trips and guest speakers.

**Lecture Hours: 32      Lab Hours: 32**

### **AGS226 Beef Cattle Science**

**3 credits**—This course prepares students to integrate production principles. Management principles involved with comprehensive beef cattle production will be emphasized. Topics included: overview of the industry, budgeting, record analysis, principles of bull management, cow and heifer management practices, preconditioning programs, feedlot management and marketing. Students receive hands-on experience working with the school teaching herd plus field trips and guest speakers.

**Lecture Hours: 32      Lab Hours: 32**

### **AGS272 Foods of Animal Origin**

**5 credits**—An introduction to contemporary practices in the meat industry with a focus on production, processing and preservation of safe, wholesome, nutritious and palatable animal derived products (meat, dairy, and eggs).

**Lecture Hours: 64      Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in AGS113.

### **AGS272 Foods of Animal Origin**

**5 credits**—An introduction to contemporary practices in the meat industry with a focus on production, processing and preservation of safe, wholesome, nutritious and palatable animal derived products (meat, dairy, and eggs).

**Lecture Hours: 64      Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in AGS113.

### **AGS275 Food Safety and Analysis**

**3 credits**—An introduction to food quality control/assurance and establishment of decision-making processes, looking at potential hazards in the food system along with ways to ensure safety of products. The 3 modules of this course will be 1) Food hazards 2) HACCP (Hazard Analysis Critical Control Points) and 3) Analysis for potential contamination.

**Lecture Hours: 32      Lab Hours: 32**

### **AGS275 Food Safety and Analysis**

**3 credits**—An introduction to food quality control/assurance and establishment of decision-making processes, looking at potential hazards in the food system along with ways to ensure safety of products. The 3 modules of this course will be 1) Food hazards 2) HACCP (Hazard Analysis Critical Control Points) and 3) Analysis for potential contamination.

**Lecture Hours: 32      Lab Hours: 32**

### **AGS305 Livestock Evaluation**

**3 credits**—This course develops the student's potential in livestock selection with emphasis placed on the evaluation of breeding animal as well as market animals. The course emphasizes the visual appraisal and the carcass evaluation of beef, swine, and sheep. Production records and grading, and wholesale and retail cuts will be studied.

**Lecture Hours:** 32

### **AGS305 Livestock Evaluation**

**3 credits**—This course develops the student's potential in livestock selection with emphasis placed on the evaluation of breeding animal as well as market animals. The course emphasizes the visual appraisal and the carcass evaluation of beef, swine, and sheep. Production records and grading, and wholesale and retail cuts will be studied.

**Lecture Hours:** 32

### **AGS319 Animal Nutrition**

**3 credits**—This course introduces students to the underlying principles of livestock nutrition through discussion of nutrition information, digestive systems, feedstuffs and ration balancing. Nutritional principles, digestive systems, composition and nutritional characteristics of common feedstuffs, ration formulation and recommended feeding programs of farm animals, including beef and dairy cattle, horses, poultry, sheep and swine will be emphasized.

**Lecture Hours:** 32     **Lab Hours:** 32

### **AGS319 Animal Nutrition**

**3 credits**—This course introduces students to the underlying principles of livestock nutrition through discussion of nutrition information, digestive systems, feedstuffs and ration balancing. Nutritional principles, digestive systems, composition and nutritional characteristics of common feedstuffs, ration formulation and recommended feeding programs of farm animals, including beef and dairy cattle, horses, poultry, sheep and swine will be emphasized.

**Lecture Hours:** 32     **Lab Hours:** 32

### **AGS924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGS924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGT700 Special Topics: Agriculture Education**

**1 credits**—This course is designed for secondary agriculture education professionals to develop and enhance knowledge and skills in specific emerging practices, issues, and technical content areas in the broad industry of agriculture.

**Lecture Hours:** 16

**Prerequisite(s):** Secondary Educator

### **AGT700 Special Topics: Agriculture Education**

**1 credits**—This course is designed for secondary agriculture education professionals to develop and enhance knowledge and skills in specific emerging practices, issues, and technical content areas in the broad industry of agriculture.

**Lecture Hours:** 16

**Prerequisite(s):** Secondary Educator

### **AGT805 Employment Experience**

**5 credits**—This course provides students with opportunities to gain on-the-job experience in the agriculture industry. Students will gain an understanding of qualities and skills needed for success in the agricultural field. Coordination and guidance will be provided by department instructors.

**Co-op Hours:** 320

### **AGT805 Employment Experience**

**5 credits**—This course provides students with opportunities to gain on-the-job experience in the agriculture industry. Students will gain an understanding of qualities and skills needed for success in the agricultural field. Coordination and guidance will be provided by department instructors.

**Co-op Hours:** 320

### **AGT928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **AGT928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **AGV101 Veterinary Assisting**

**3 credits**—This is a Capstone course that will provide students the necessary skills and competencies that are needed to successfully perform the duties of a veterinary assistant. An example of topics covered will include; basic laboratory procedures, animal positioning, and surgical assistance. Staff and animal safety will also be covered.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGV154 or instructor approval.

### **AGV101 Veterinary Assisting**

**3 credits**—This is a Capstone course that will provide students the necessary skills and competencies that are needed to successfully perform the duties of a veterinary assistant. An example of topics covered will include; basic laboratory procedures, animal positioning, and surgical assistance. Staff and animal safety will also be covered.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGV154 or instructor approval.

### **AGV121 Veterinary Medical Terminology**

**2 credits**—This class focuses on reading and interpreting medical charts and records, and conversing with veterinary professionals. It is designed for students to develop a working understanding of the language of veterinary medicine.

**Lecture Hours:** 32

### **AGV121 Veterinary Medical Terminology**

**2 credits**—This class focuses on reading and interpreting medical charts and records, and conversing with veterinary professionals. It is designed for students to develop a working understanding of the language of veterinary medicine.

**Lecture Hours:** 32

### **AGV123 Companion Animal**

**3 credits**—This course provides an understanding of the basic principles of Anatomy and Physiology and Health of companion animals. Additionally the course will offer insight into social behavior and relationships. Also included will be training, housebreaking and obedience.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGV123 Companion Animal**

**3 credits**—This course provides an understanding of the basic principles of Anatomy and Physiology and Health of companion animals. Additionally the course will offer insight into social behavior and relationships. Also included will be training, housebreaking and obedience.

**Lecture Hours:** 32    **Lab Hours:** 32

### **AGV140 Veterinary Pharmacology**

**3 credits**—This class introduces the student to small animal pharmaceuticals. Learning is centered on the use, dosage, administration, handling, and storage of commonly used drugs used in small and large animal veterinary practices.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGS218.

### **AGV140 Veterinary Pharmacology**

**3 credits**—This class introduces the student to small animal pharmaceuticals. Learning is centered on the use, dosage, administration, handling, and storage of commonly used drugs used in small and large animal veterinary practices.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGS218.

### **AGV154 Veterinary Reception and Administration Skills**

**4 credits**—This class introduces the student to means necessary to establish a working relationship with clients in the veterinary field. Familiarizes students with software used in veterinary practice.

**Lecture Hours:** 64

### **AGV154 Veterinary Reception and Administration Skills**

**4 credits**—This class introduces the student to means necessary to establish a working relationship with clients in the veterinary field. Familiarizes students with software used in veterinary practice.

**Lecture Hours:** 64

### **ANT105 Cultural Anthropology**

**3 credits**—This course introduces the student to a comparative study of societies around the world. In this course cultural similarities and differences are explored to illustrate how human beings construct and conduct their existence. It emphasizes the origin and maintenance of the human species by studying its evolution, cultural development, ecology, kinship, organizations, and symbolic expressions. (Same as SOC-208)

**Lecture Hours:** 48

### **ANT105 Cultural Anthropology**

It emphasizes the origin and maintenance of the human species by studying its evolution, cultural development, ecology, kinship, organizations, and symbolic expressions. (Same as SOC-208)

**Lecture Hours:** 48

### **ART101 Art Appreciation**

**3 credits**—This course is an examination of the value, esthetic pleasures, structure, function, and history of art. The course explores sculpture, painting, film, drawing, printmaking, photography, ceramics, and architecture. Field trips to galleries allow students the opportunity to personally experience significant visual art.

**Lecture Hours:** 48

### **ART101 Art Appreciation**

**3 credits**—This course is an examination of the value, esthetic pleasures, structure, function, and history of art. The course explores sculpture, painting, film, drawing, printmaking, photography, ceramics, and architecture. Field trips to galleries allow students the opportunity to personally experience significant visual art.

**Lecture Hours:** 48

### **ART120 2-D Design**

**3 credits**—This course introduces students to the principles of design on the two-dimensional plane. Students are instructed in conceptual thinking, content and art practices, and exposed to design, color theory, and organizational principals. An introduction to materials and practice through the disciplines of drawing, painting, printmaking and collage are part of the conceptualization process offered in this curriculum.

**Lecture Hours:** 32    **Lab Hours:** 32

### **ART120 2-D Design**

**3 credits**—This course introduces students to the principles of design on the two-dimensional plane. Students are instructed in conceptual thinking, content and art practices, and exposed to design, color theory, and organizational principals. An introduction to materials and practice through the disciplines of drawing, painting, printmaking and collage are part of the conceptualization process offered in this curriculum.

**Lecture Hours:** 32    **Lab Hours:** 32

### **ART123 3-D Design**

**3 credits**—This course introduces students to the principles of design on the three-dimensional plane. Students are instructed in conceptual thinking, content and art practices, and exposed to the elements of art/design and organizational principles through the utilization of space. An introduction to materials and practice through the disciplines of drawing, designing and drafting are part of the conceptualization process offered in this curriculum. Projects will revolve around paper and card construction, modeling clay, iron wire and found objects.

**Lecture Hours:** 32    **Lab Hours:** 32

### **ART123 3-D Design**

**3 credits**—This course introduces students to the principles of design on the three-dimensional plane. Students are instructed in conceptual thinking, content and art practices, and exposed to the elements of art/design and organizational principles through the utilization of space. An introduction to materials and practice through the disciplines of drawing, designing and drafting are part of the conceptualization process offered in this

curriculum. Projects will revolve around paper and card construction, modeling clay, iron wire and found objects.

**Lecture Hours: 32    Lab Hours: 32**

### **ART133 Drawing**

**3 credits**—An introduction to basic drawing. Working with still life props: line, form, values, perspective and composition will be explored, using various wet and dry mediums. Concentration will be on accurate visual drawing.

**Lecture Hours: 32    Lab Hours: 32**

### **ART133 Drawing**

**3 credits**—An introduction to basic drawing. Working with still life props: line, form, values, perspective and composition will be explored, using various wet and dry mediums. Concentration will be on accurate visual drawing.

**Lecture Hours: 32    Lab Hours: 32**

### **ART134 Drawing II**

**3 credits**—This course concentrates on intermediate drawing problems: Gesture, contour, proportions, mapping techniques and values are studied through the use of props and clothed models. Creative interpretation with various media and approaches are stressed.

**Lecture Hours: 32    Lab Hours: 32**

### **ART134 Drawing II**

**3 credits**—This course concentrates on intermediate drawing problems: Gesture, contour, proportions, mapping techniques and values are studied through the use of props and clothed models. Creative interpretation with various media and approaches are stressed.

**Lecture Hours: 32    Lab Hours: 32**

### **ART143 Painting**

**3 credits**—This course is an introduction to painting in a variety of media. Color theory, design theory and media area applied to exercises, studies, and finished paintings. Concentration is on developing skills in handling materials and personal expression through painting.

**Lecture Hours: 32    Lab Hours: 32**

### **ART143 Painting**

**3 credits**—This course is an introduction to painting in a variety of media. Color theory, design theory and media area applied to exercises, studies, and finished paintings. Concentration is on developing skills in handling materials and personal expression through painting.

**Lecture Hours: 32    Lab Hours: 32**

### **ART144 Painting II**

**3 credits**—This course is an advanced painting course using a variety of media, with greater emphasis on self-direction. Concentration is on developing advanced skills in handling materials leading to greater abilities and personal expression through painting.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** ART143, equivalent, or instructor approval.

### **ART144 Painting II**

**3 credits**—This course is an advanced painting course using a variety of media, with greater emphasis on self-direction. Concentration is on developing advanced skills in handling materials leading to greater abilities and personal expression through painting.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** ART143, equivalent, or instructor approval.

### **ART173 Ceramics**

**3 credits**—A hands-on intensive introduction to clay and glaze materials, integrated with a fresh approach to building interesting forms effectively.

**Lecture Hours: 32    Lab Hours: 32**

### **ART173 Ceramics**

**3 credits**—A hands-on intensive introduction to clay and glaze materials, integrated with a fresh approach to building interesting forms effectively.

**Lecture Hours: 32    Lab Hours: 32**

### **ART184 Photography**

**3 credits**—This course provides an introduction to the basics of digital photography, from camera selection to its use as an art form and aesthetic medium. Content includes camera types, lenses, exposure controls, elements of composition, editing fundamentals, and the storage, printing and sharing of photographic images. It will also examine the elements of photographic theory, history and ethics. Students will be able to check out digital cameras provided by the college, or may bring their own, approved photographic equipment. In this hands-on class, students will complete specific technique-based assignments and participate in class demonstrations, discussions and critiques. Text: required. Pre-requisite: None.

**Lecture Hours: 32    Lab Hours: 32**

### **ART184 Photography**

**3 credits**—This course provides an introduction to the basics of digital photography, from camera selection to its use as an art form and aesthetic medium. participate in class demonstrations, discussions and critiques. Text: required. Pre-requisite: None.

**Lecture Hours:** 32    **Lab Hours:** 32

### **ART203 Art History I**

**3 credits**—This course is an introduction to the history of visual art and artists; prehistory through Gothic. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours:** 48

### **ART203 Art History I**

**3 credits**—This course is an introduction to the history of visual art and artists; prehistory through Gothic. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours:** 48

### **ART204 Art History II**

**3 credits**—This course is an introduction to the history of visual art and artists; Renaissance to the present. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass, photography, film, and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours:** 48

### **ART204 Art History II**

**3 credits**—This course is an introduction to the history of visual art and artists; Renaissance to the present. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass, photography, film, and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours:** 48

### **ART924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **ART924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **ART928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **ATR145 Applied Industrial Robotics**

**2 credits**—This course will introduce the study of industrial robots. This hands-on course will equip students with the skills for the installation, programming, and troubleshooting of industrial robots.

**Lecture Hours:** 16    **Lab Hours:** 32

### **ATR145 Applied Industrial Robotics**

**2 credits**—This course will introduce the study of industrial robots. This hands-on course will equip students with the skills for the installation, programming, and troubleshooting of industrial robots.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AUT106 Introduction to Automotive Technology**

**2 credits**—This introductory course provides an introduction to the many facets of the automotive industry to include: careers in the automotive industry, environmental concerns affecting the automotive industry, basic automotive hand tools, specialty tools, precision measuring tools, power tools and shop equipment, using service and shop manuals, and shop safety.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AUT106 Introduction to Automotive Technology**

**2 credits**—This introductory course provides an introduction to the many facets of the automotive industry to include: careers in the automotive industry, environmental concerns affecting the automotive industry, basic automotive hand tools, specialty tools, precision measuring tools, power tools and shop equipment, using service and shop manuals, and shop safety.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AUT109 Introduction to Automotive Technology II**

**2 credits**—This course includes the use of hand and power tools, the understanding of electronic repair information and the importance of preventative maintenance.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AUT109 Introduction to Automotive Technology II**

**2 credits**—This course includes the use of hand and power tools, the understanding of electronic repair information and the importance of preventative maintenance.

**Lecture Hours:** 16    **Lab Hours:** 32

### **AUT164 Automotive Engine Repair**

**4 credits**—Basic theory of two-cycle and four-cycle gasoline engines and their application will be introduced. Disassembly, inspection and reassembly of an engine will be experienced as well as cooling, lubrication, induction, exhaust, compression and valve systems discussed. Students will develop competencies in precision measuring and services procedures.

**Lecture Hours:** 32    **Lab Hours:** 64

### **AUT164 Automotive Engine Repair**

**4 credits**—Basic theory of two-cycle and four-cycle gasoline engines and their application will be introduced. Disassembly, inspection and reassembly of an engine will be experienced as well as cooling, lubrication, induction, exhaust, compression and valve systems discussed. Students will develop competencies in precision measuring and services procedures.

**Lecture Hours:** 32    **Lab Hours:** 64

### **AUT204 Automotive Automatic Transmissions and Transaxles**

**4 credits**—This course covers the advanced study of automatic transmission theory and service. The student will review basic automatic transmission theory. The student will study diagnosis, disassembly, inspection, and assembly of different types of automatic transmissions and trans-axles.

**Lecture Hours:** 32    **Lab Hours:** 64

### **AUT204 Automotive Automatic Transmissions and Transaxles**

**4 credits**—This course covers the advanced study of automatic transmission theory and service. The student will review basic automatic transmission theory. The student will study diagnosis, disassembly, inspection, and assembly of different types of automatic transmissions and trans-axles.

**Lecture Hours:** 32    **Lab Hours:** 64

### **AUT307 Automotive Manual Transmissions and Transaxles**

**4 credits**—A comprehensive study of the Manual Transmissions/Transaxle components and their relationship to the application of power to the drive wheels of vehicles.

Lecture Hours: 32    Lab Hours: 64

### **AUT307 Automotive Manual Transmissions and Transaxles**

**4 credits**—A comprehensive study of the Manual Transmissions/Transaxle components and their relationship to the application of power to the drive wheels of vehicles.

Lecture Hours: 32    Lab Hours: 64

### **AUT315 Automotive Differentials and 4-Wheel Drive**

**4 credits**—A comprehensive study of Differentials and Transfer Cases and their relationship to the application of power to the drive wheels of vehicles.

Lecture Hours: 32    Lab Hours: 64

### **AUT315 Automotive Differentials and 4-Wheel Drive**

**4 credits**—A comprehensive study of Differentials and Transfer Cases and their relationship to the application of power to the drive wheels of vehicles.

Lecture Hours: 32    Lab Hours: 64

### **AUT404 Automotive Suspension and Steering**

**4 credits**—Steering and suspension system operation and service procedures are covered. Emphasis is on diagnosis and repair procedures.

Lecture Hours: 32    Lab Hours: 64

### **AUT404 Automotive Suspension and Steering**

**4 credits**—Steering and suspension system operation and service procedures are covered. Emphasis is on diagnosis and repair procedures.

Lecture Hours: 32    Lab Hours: 64

### **AUT504 Automotive Brake Systems**

**4 credits**—Instruction in the theory and operating principles of drum, disc, hydraulic, and anti-lock brake systems. Laboratory procedures for inspecting, testing, diagnosing, repairing, and/or replacing conventional, power brake system components.

Lecture Hours: 32    Lab Hours: 64

### **AUT504 Automotive Brake Systems**

**4 credits**—Instruction in the theory and operating principles of drum, disc, hydraulic, and anti-lock brake systems. Laboratory procedures for inspecting, testing, diagnosing, repairing, and/or replacing conventional, power brake system components.

Lecture Hours: 32    Lab Hours: 64

### **AUT537 Automotive Advanced Brake Systems**

**4 credits**—This course explains antilock brake systems. It also covers the diagnosis and repair of this system, as well as traction and stability control.

Lecture Hours: 32    Lab Hours: 64

**Prerequisite(s):** A minimum grade of D- in AUT504.

### **AUT537 Automotive Advanced Brake Systems**

**4 credits**—This course explains antilock brake systems. It also covers the diagnosis and repair of this system, as well as traction and stability control.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT504.

### **AUT610 Automotive Electrical I**

**4 credits**—This introductory course covers basic electronic theory and utilization of electrical measuring instruments. Emphasis will be placed on the application of Ohm's Law and the proper utilization of electronic test equipment including practice with equipment and circuits.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT610 Automotive Electrical I**

**4 credits**—This introductory course covers basic electronic theory and utilization of electrical measuring instruments. Emphasis will be placed on the application of Ohm's Law and the proper utilization of electronic test equipment including practice with equipment and circuits.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT631 Automotive Electronics**

**4 credits**—This course includes the theory of automotive electronics, communication of automotive electronics and repair of electronic systems.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT610 and AUT643.

### **AUT631 Automotive Electronics**

**4 credits**—This course includes the theory of automotive electronics, communication of automotive electronics and repair of electronic systems.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT610 and AUT643.

### **AUT643 Auto Starting, Charging, and Electrical**

**4 credits**—This course includes automotive electrical theory, electrical components, component operation, testing and repair procedures for automotive charging, starting and electrical systems.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT610.

### **AUT643 Auto Starting, Charging, and Electrical**

**4 credits**—This course includes automotive electrical theory, electrical components, component operation, testing and repair procedures for automotive charging, starting and electrical systems.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT610.

### **AUT704 Automotive Heating and Air Conditioning**

**4 credits**—This course will provide instruction in the theory of operation of auto air conditioning and heating systems. Students will learn how to diagnose and service auto air conditioning systems and heating systems.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT704 Automotive Heating and Air Conditioning**

**4 credits**—This course will provide instruction in the theory of operation of auto air conditioning and heating systems. Students will learn how to diagnose and service auto air conditioning systems and heating systems.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT827 Automotive Ignition Systems**

**4 credits**—Operation, diagnosis, and repair procedures used to service the modern automotive ignition system.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT842.

### **AUT827 Automotive Ignition Systems**

**4 credits**—Operation, diagnosis, and repair procedures used to service the modern automotive ignition system.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT842.

### **AUT834 Automotive Fuel Systems**

**4 credits**—This course will provide the instruction to introduce the student to basic fuel system principles. Students will study theory and will gain hands-on experience by cleaning, repairing, and adjusting automotive fuel systems.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT834 Automotive Fuel Systems**

**4 credits**—This course will provide the instruction to introduce the student to basic fuel system principles. Students will study theory and will gain hands-on experience by cleaning, repairing, and adjusting automotive fuel systems.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT842 Auto Computerized Engine Controls**

**4 credits**—This course builds upon the knowledge and skills learned in previous automotive courses to prepare the student to service On-Board Diagnosis 2 computer-controlled vehicles. The theory and operating principles of automotive computers, sensors and control devices will be emphasized. Lab instruction on late model cars will be included.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT842 Auto Computerized Engine Controls**

**4 credits**—This course builds upon the knowledge and skills learned in previous automotive courses to prepare the student to service On-Board Diagnosis 2 computer-controlled vehicles. The theory and operating principles of automotive computers, sensors and control devices will be emphasized. Lab instruction on late model cars will be included.

**Lecture Hours: 32    Lab Hours: 64**

### **AUT886 Comprehensive Application**

**4 credits**—Students are presented with diagnostic problems and repair projects. Competencies attained in prior classes are emphasized.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT106, AUT109, AUT164, AUT610I, AUT504, AUT643I, and AUT307.

### **AUT886 Comprehensive Application**

**4 credits**—Students are presented with diagnostic problems and repair projects. Competencies attained in prior classes are emphasized.

**Lecture Hours: 32    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT106, AUT109, AUT164, AUT610I, AUT504, AUT643I, and AUT307.

### **BCA087 College Prep Computer Skills**

**3 credits**—This non-transfer course is designed to assist students who have limited experience with a personal computer. Skills emphasized will include keyboarding, file management, Internet navigation, email, and entry level functions of word processing and presentation software. Students may use this course to prepare for other computer applications courses.

**Lecture Hours: 16    Lab Hours: 64**

### **BCA087 College Prep Computer Skills**

**3 credits**—This non-transfer course is designed to assist students who have limited experience with a personal computer. Skills emphasized will include keyboarding, file management, Internet navigation, email, and entry level functions of word processing and presentation software. Students may use this course to prepare for other computer applications courses.

**Lecture Hours: 16    Lab Hours: 64**

### **BCA132 Electronic Communications**

**3 credits**—An introductory course in electronic communications designed to provide the students with a basic understanding of electronic mail, presentation software, and desktop publishing software. Students will be given hands-on experience with the software.

**Lecture Hours:** 48

**Prerequisite(s):** CSC110 or ADM105 and BCA134

### **BCA132 Electronic Communications**

**3 credits**—An introductory course in electronic communications designed to provide the students with a basic understanding of electronic mail, presentation software, and desktop publishing software. Students will be given hands-on experience with the software.

**Lecture Hours:** 48

**Prerequisite(s):** CSC110 or ADM105 and BCA134

### **BCA134 Word Processing**

**3 credits**—This course will provide word processing concepts, terminology, and experience producing entry-level and advanced documents found in typical business offices. The major focus of the course is on mastery of word processing functions and concepts.

**Lecture Hours:** 48

**Co-requisite(s):** ADM105 Introduction to Keyboarding

### **BCA134 Word Processing**

**3 credits**—This course will provide word processing concepts, terminology, and experience producing entry-level and advanced documents found in typical business offices. The major focus of the course is on mastery of word processing functions and concepts.

**Lecture Hours:** 48

**Co-requisite(s):** ADM105 Introduction to Keyboarding

### **BCA183 Basic Web Design Software**

**2 credits**—This course will show students how to use a web authoring software to enhance and manage professional quality web sites. Students will create a web site containing multimedia elements, publish it, and maintain it.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** WDV102

### **BCA183 Basic Web Design Software**

**2 credits**—This course will show students how to use a web authoring software to enhance and manage professional quality web sites. Students will create a web site containing multimedia elements, publish it, and maintain it.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** WDV102

### **BCA191 Computer Applications**

**2 credits**—This course presents the application of the personal computer as a productivity tool. Basic functions of computer hardware and software and their interaction are introduced. Various components of a computer system are included with hands-on emphasis of the manipulation of word processing, spreadsheet, and database software.

**Lecture Hours:** 16

### **BCA191 Computer Applications**

**2 credits**—This course presents the application of the personal computer as a productivity tool. Basic functions of computer hardware and software and their interaction are introduced. Various components of a computer system are included with hands-on emphasis of the manipulation of word processing, spreadsheet, and database software.

**Lecture Hours:** 16

### **BCA201 Introduction to Information Systems**

**3 credits**—The purpose of this course is to provide the student with a firm understanding of management information systems. Included are an introduction to hardware and data communication technology, software and data management, and business applications of the technology. The course will present the basics of information system design and management, and provide opportunities to experience working with an electronic spreadsheet, data base management system and programming using HTML.

**Lecture Hours:** 48

**Prerequisite(s):** Basic computer, software and keyboarding skills are required.

### **BCA201 Introduction to Information Systems**

**3 credits**—The purpose of this course is to provide the student with a firm understanding of management information systems. Included are an introduction to hardware and data communication technology, software and data management, and business applications of the technology. The course will present the basics of information system design and management, and provide opportunities to experience working with an electronic spreadsheet, data base management system and programming using HTML.

**Lecture Hours:** 48

**Prerequisite(s):** Basic computer, software and keyboarding skills are required.

### **BCA205 Database/Spreadsheets**

**3 credits**—This course emphasizes file management and learning to generate and format spreadsheets and databases. File management tasks include managing folders and moving, copying and deleting files. Spreadsheet tasks include making entries, correcting entries, entering formulas and creating charts. Database tasks include designing and creating tables, generating queries, creating forms and reports, and database maintenance. Basic computer literacy is expected of students enrolling in this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in RDG039 and appropriate math placement score.

**Co-requisite(s):** Ability to type 15 net WPM on a five-minute timing. Test will be given on the first day of class.

### **BCA205 Database/Spreadsheets**

**3 credits**—This course emphasizes file management and learning to generate and format spreadsheets and databases. File management tasks include managing folders and moving, copying and deleting files. Spreadsheet tasks include making entries, correcting entries, entering formulas and creating charts. Database tasks include designing and creating tables, generating queries, creating forms and reports, and database maintenance. Basic computer literacy is expected of students enrolling in this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in RDG039 and appropriate math placement score.

**Co-requisite(s):** Ability to type 15 net WPM on a five-minute timing. Test will be given on the first day of class.

### **BCA213 Intermediate Computer Business Applications**

**3 credits**—This course covers advanced computer applications including word processing, spreadsheet, database, and presentation software. Topics include using mail merge, desktop publishing, using database functions in a spreadsheet, templates, creating customized reports and forms in database, advanced features of presentation software, importing and exporting data.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in BCA205, BCA201, and BCA134.

### **BCA213 Intermediate Computer Business Applications**

**3 credits**—This course covers advanced computer applications including word processing, spreadsheet, database, and presentation software. Topics include using mail merge, desktop publishing, using database functions in a spreadsheet, templates, creating customized reports and forms in database, advanced features of presentation software, importing and exporting data.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in BCA205, BCA201, and BCA134.

### **BCA232 Multimedia for Web Design**

**3 credits**—This course is designed to show students the tools and methods for using multimedia objects in web development. Media types discussed will include streaming video and audio, animation, inline media and on-line chat. Students will create website that incorporate multimedia elements.

**Lecture Hours:** 32     **Lab Hours:** 32

### **BCA232 Multimedia for Web Design**

**3 credits**—This course is designed to show students the tools and methods for using multimedia objects in web development. Media types discussed will include streaming video

and audio, animation, inline media and on-line chat. Students will create website that incorporate multimedia elements.

**Lecture Hours:** 32    **Lab Hours:** 32

### **BCA924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **BCA924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **BIO042 Prep Science for Health Careers**

**3 credits**—This course provides a focused examination of study skills/strategies and a foundation in biology to help students be more successful in health career classes. Students will be introduced to and given the opportunity to practice a variety of skills for academic success. Students will be introduced to major topics relating to health science curriculum: basic math, terminology, chemistry, and cell biology. Selected topics from the body systems will also be introduced.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in MAT052 and RDG039.

### **BIO042 Prep Science for Health Careers**

**3 credits**—This course provides a focused examination of study skills/strategies and a foundation in biology to help students be more successful in health career classes. Students will be introduced to and given the opportunity to practice a variety of skills for academic success. Students will be introduced to major topics relating to health science curriculum: basic math, terminology, chemistry, and cell biology. Selected topics from the body systems will also be introduced.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in MAT052 and RDG039.

### **BIO105 Introductory Biology**

**4 credits**—This course provides an introduction to living organisms, their diversity, structure and function and how they maintain themselves both during their life cycle and as a species. It is designed to highlight concepts of the biological sciences for the non-biology major.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO105 Introductory Biology**

**4 credits**—This course provides an introduction to living organisms, their diversity, structure and function and how they maintain themselves both during their life cycle and as a species. It is designed to highlight concepts of the biological sciences for the non-biology major.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO112 General Biology I**

**4 credits**—This lecture and laboratory course is the first of a two semester sequence designed for students with a specific interest in majoring in the biological sciences or a desire for a more comprehensive undergraduate course in the discipline. The course integrates the basic principles of general biology and focuses on their interrelationships. The major themes addressed include levels of organization, cell structure and metabolism, the genetic basis of life, evolution, diversity and ecological relationships. Laboratory exercises are coordinated with lecture topics to enhance the student's understanding of these topics.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO112 General Biology I**

**4 credits**—This lecture and laboratory course is the first of a two semester sequence designed for students with a specific interest in majoring in the biological sciences or a desire for a more comprehensive undergraduate course in the discipline. The course integrates the basic principles of general biology and focuses on their interrelationships. The major themes addressed include levels of organization, cell structure and metabolism, the genetic basis of life, evolution, diversity and ecological relationships. Laboratory exercises are coordinated with lecture topics to enhance the student's understanding of these topics.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO113 General Biology II**

**4 credits**—This lecture and laboratory course is part of a two semester sequence designed for students with a specific interest in majoring in the biological sciences or a desire for a more comprehensive undergraduate course in the discipline. The major focus of this course is on the diversity of life forms, including microbes, protists, the fungi, plants and animals. The course will include the study of their structure and function, evolutionary patterns, ecological relationships and behavior. Laboratory exercises are coordinated with lecture topics to enhance the student's understanding of the lecture concepts.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO113 General Biology II**

**4 credits**—This lecture and laboratory course is part of a two semester sequence designed for students with a specific interest in majoring in the biological sciences or a desire for a more comprehensive undergraduate course in the discipline. The major focus of this course is on the diversity of life forms, including microbes, protists, the fungi, plants and animals. The course will include the study of their structure and function, evolutionary patterns, ecological relationships and behavior. Laboratory exercises are coordinated with lecture topics to enhance the student's understanding of the lecture concepts.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO151 Nutrition**

**3 credits**—Principles of Nutrition will introduce students to the science of nutrition. The course will examine individual nutrients; their structure and function in the human body; nutrient composition of food; and selection of food to meet nutrient needs, maintain health and satisfaction. Students will understand and apply present day knowledge of nutrition to dietary patterns and needs of selected individuals and groups. The course is an advanced beginning course in human nutrition designed for students with a science background.

**Lecture Hours:** 48

### **BIO151 Nutrition**

**3 credits**—Principles of Nutrition will introduce students to the science of nutrition. The course will examine individual nutrients; their structure and function in the human body; nutrient composition of food; and selection of food to meet nutrient needs, maintain health and satisfaction. Students will understand and apply present day knowledge of nutrition to dietary patterns and needs of selected individuals and groups. The course is an advanced beginning course in human nutrition designed for students with a science background.

**Lecture Hours:** 48

### **BIO154 Human Biology**

**3 credits**—Human Biology explores human structure and function and the relationship of humans to other living organisms. The course examines the application of basic biological principles to practical human concerns. The course is a one-semester biology course intended for students who do not wish to major in the biological or health sciences.

**Lecture Hours:** 48

### **BIO154 Human Biology**

**3 credits**—Human Biology explores human structure and function and the relationship of humans to other living organisms. The course examines the application of basic biological principles to practical human concerns. The course is a one-semester biology course intended for students who do not wish to major in the biological or health sciences.

**Lecture Hours:** 48

### **BIO159 Fundamentals of Anatomy and Physiology**

**3 credits**—This course provides a basic overview of the anatomy and physiology of the human body. It is designed to provide practical nursing, and other health science students with an understanding of normal body structure and function as a basis for the study of variations from normal health.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in BIO042.

### **BIO159 Fundamentals of Anatomy and Physiology**

**3 credits**—This course provides a basic overview of the anatomy and physiology of the human body. It is designed to provide practical nursing, and other health science students

with an understanding of normal body structure and function as a basis for the study of variations from normal health.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in BIO042.

### **BIO163 Essentials of Anatomy and Physiology**

**4 credits**—An introduction to the principles of human anatomy and physiology beginning with the cellular/biochemical level of organization and progressing through a comprehensive study of organ systems emphasizing homeostasis. This is a one-term transfer level class designed for students entering allied health fields or biological sciences. (To be applicable to any health career program, successful completion with a grade of "C" or better is required.) Each student must enroll for one laboratory section.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO163 Essentials of Anatomy and Physiology**

**4 credits**—An introduction to the principles of human anatomy and physiology beginning with the cellular/biochemical level of organization and progressing through a comprehensive study of organ systems emphasizing homeostasis. This is a one-term transfer level class designed for students entering allied health fields or biological sciences. (To be applicable to any health career program, successful completion with a grade of "C" or better is required.) Each student must enroll for one laboratory section.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO168 Human Anatomy and Physiology I**

**4 credits**—The first of a two-semester sequence especially designed for students pursuing careers in allied health fields as well as any student desiring an in-depth undergraduate transfer course. The course focuses on the interdependent relationships between the structure and functions of body systems and the ways these parts interact (homeostasis) to insure the survival of the organism. Major topics addressed include levels of organization, the chemistry of life, support/movement, integration/control, and coordination. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions. To be applicable to any health career program, successful completion of both BIO-168 and BIO-173 with a grade of "C" or better is required.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO168 Human Anatomy and Physiology I**

**4 credits**—The first of a two-semester sequence especially designed for students pursuing careers in allied health fields as well as any student desiring an in-depth undergraduate transfer course. The course focuses on the interdependent relationships between the structure and functions of body systems and the ways these parts interact (homeostasis) to insure the survival of the organism. Major topics addressed include levels of organization, the chemistry of life, support/movement, integration/control, and coordination. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions. To be applicable to any health career program, successful completion of both BIO-168 and BIO-173 with a grade of "C" or better is required.

**Lecture Hours:** 48    **Lab Hours:** 32

### **BIO173 Human Anatomy and Physiology II w/Lab**

**4 credits**—The second of a two-semester sequence designed for students pursuing careers in allied health fields or wishing an in-depth undergraduate transfer course in the biological sciences. The course focuses on interdependent relationships between the structures and functions of body systems and the way these parts interact (homeostasis) to insure survival of the organism. Major topics addressed include systems associated with circulation, maintenance, elimination and continuity. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO168.

### **BIO173 Human Anatomy and Physiology II w/Lab**

**4 credits**—The second of a two-semester sequence designed for students pursuing careers in allied health fields or wishing an in-depth undergraduate transfer course in the biological sciences. The course focuses on interdependent relationships between the structures and functions of body systems and the way these parts interact (homeostasis) to insure survival of the organism. Major topics addressed include systems associated with circulation, maintenance, elimination and continuity. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO168.

### **BIO185 Microbiology w/Lab**

**3 credits**—This lecture-laboratory course emphasizes a survey of general topics needed by students entering careers in allied health fields as well as any student desiring a background in microbiology. The course covers aspects of microbial function, nutrition and growth, metabolism, energy procurement, medical genetics, genetic engineering, control using physical and chemical agents, host-parasitic relationships as well as beneficial roles of microorganisms. Coordinated laboratory exercises enhance and support the lecture topics.

**Lecture Hours:** 32    **Lab Hours:** 32

### **BIO185 Microbiology w/Lab**

**3 credits**—This lecture-laboratory course emphasizes a survey of general topics needed by students entering careers in allied health fields as well as any student desiring a background in microbiology. The course covers aspects of microbial function, nutrition and growth, metabolism, energy procurement, medical genetics, genetic engineering, control using physical and chemical agents, host-parasitic relationships as well as beneficial roles of microorganisms. Coordinated laboratory exercises enhance and support the lecture topics.

**Lecture Hours:** 32    **Lab Hours:** 32

### **BIO186 Microbiology**

**4 credits**—Morphology, physiology, taxonomy, and relationship of microorganisms to disease. In-depth laboratory study and suitable lecture material with applications to agriculture, industry, and medicine.

**Lecture Hours: 48    Lab Hours: 32**

### **BIO186 Microbiology**

**4 credits**—Morphology, physiology, taxonomy, and relationship of microorganisms to disease. In-depth laboratory study and suitable lecture material with applications to agriculture, industry, and medicine.

**Lecture Hours: 48    Lab Hours: 32**

### **BIO247 Applications of Biotechnology**

**3 credits**—This lecture-lab course focuses on the laboratory procedures used in biotechnology and their application to agriculture, nursing, police science, and research. Students will learn the procedures and develop proficiency in such techniques as tissue culture, DNA manipulation, extraction, transformation, polymerase chain reaction (PCR), and DNA fingerprinting. Students will also be introduced to spectroscopy. The course will also provide exposure to new and emerging topics.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CHM122 and BIO105, BIO112, or BIO185.

### **BIO247 Applications of Biotechnology**

**3 credits**—This lecture-lab course focuses on the laboratory procedures used in biotechnology and their application to agriculture, nursing, police science, and research. Students will learn the procedures and develop proficiency in such techniques as tissue culture, DNA manipulation, extraction, transformation, polymerase chain reaction (PCR), and DNA fingerprinting. Students will also be introduced to spectroscopy. The course will also provide exposure to new and emerging topics.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CHM122 and BIO105, BIO112, or BIO185.

### **BIO924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **BIO924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **BIO928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

**Lecture Hours:** 16

### **BIO928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

**Lecture Hours:** 16

### **BUS102 Introduction to Business**

**3 credits**—An introductory survey course which provides an overview of the major functions in business with relation to current social, economic and environmental concerns.

**Lecture Hours:** 48

### **BUS102 Introduction to Business**

**3 credits**—An introductory survey course which provides an overview of the major functions in business with relation to current social, economic and environmental concerns.

**Lecture Hours:** 48

### **BUS180 Business Ethics**

**3 credits**—This course is an introduction to ethical decision making in business. There is an examination of individual, organizational, and macrolevel issues in business ethics. This course does not determine correct ethical action; it is designed to assist the potential businessperson to make more informed ethical decisions on a daily basis. Dilemmas, real life situations and cases provide an opportunity for you to use concepts in the assignments and to resolve ethical issues. Since there is no universal agreement on the correct ethical business norms, critical thinking and informed decision making are emphasized.

**Lecture Hours:** 48

### **BUS180 Business Ethics**

**3 credits**—This course is an introduction to ethical decision making in business. There is an examination of individual, organizational, and macrolevel issues in business ethics. This course does not determine correct ethical action; it is designed to assist the potential businessperson to make more informed ethical decisions on a daily basis. Dilemmas, real life situations and cases provide an opportunity for you to use concepts in the assignments and to resolve ethical issues. Since there is no universal agreement on the correct ethical business norms, critical thinking and informed decision making are emphasized.

**Lecture Hours:** 48

### **BUS183 Business Law**

**3 credits**—An introduction to the principles of law as they relate to business. This course includes an overview of our court system, sources of law, ethics and social responsibility, contracts, warranties, real property, landlord and tenant, negotiable instruments, and agency. Emphasis is placed on exploring the law as it affects businesses and individuals.

**Lecture Hours:** 48

### **BUS183 Business Law**

**3 credits**—An introduction to the principles of law as they relate to business. This course includes an overview of our court system, sources of law, ethics and social responsibility, contracts, warranties, real property, landlord and tenant, negotiable instruments, and agency. Emphasis is placed on exploring the law as it affects businesses and individuals.

**Lecture Hours:** 48

### **BUS210 Business Statistics**

**3 credits**—Application and interpretation of probability and statistics as they relate to business problems; design of experiment, descriptive statistics, sampling, estimation, correlation, linear regression, hypothesis testing, and analysis of variances.

**Lecture Hours:** 48

**Prerequisite(s):** MAT156

### **BUS210 Business Statistics**

**3 credits**—Application and interpretation of probability and statistics as they relate to business problems; design of experiment, descriptive statistics, sampling, estimation, correlation, linear regression, hypothesis testing, and analysis of variances.

**Lecture Hours:** 48

**Prerequisite(s):** MAT156

### **BUS220 Introduction to International Business**

**3 credits**—This course focuses on marketing management problems, techniques, and strategies needed within the world marketplace. Understanding a country's cultural and environmental impact is emphasized. Worldwide consumerism, economic and social development, the spread of multinational corporations, business ethics, cultural diversity, and current economic and marketing issues will be examined.

**Lecture Hours:** 48

### **BUS220 Introduction to International Business**

**3 credits**—This course focuses on marketing management problems, techniques, and strategies needed within the world marketplace. Understanding a country's cultural and environmental impact is emphasized. Worldwide consumerism, economic and social development, the spread of multinational corporations, business ethics, cultural diversity, and current economic and marketing issues will be examined.

**Lecture Hours:** 48

### **BUS230 Quantitative Methods for Business Decision Making**

**3 credits**—Quantitative and qualitative aspects of problem solving and decision making in business are covered. Topics include structuring and the basics of decision making, classification theory, functional relationships, marginal analysis, resource allocation, and probability.

**Lecture Hours:** 48

**Prerequisite(s):** MAT156

### **BUS230 Quantitative Methods for Business Decision Making**

**3 credits**—Quantitative and qualitative aspects of problem solving and decision making in business are covered. Topics include structuring and the basics of decision making, classification theory, functional relationships, marginal analysis, resource allocation, and probability.

**Lecture Hours:** 48

**Prerequisite(s):** MAT156

### **BUS903 Business Field Experience**

**3 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 192

**Prerequisite(s):** 2.00 cumulative GPA

### **BUS903 Business Field Experience**

**3 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 192

**Prerequisite(s):** 2.00 cumulative GPA

### **BUS905 Golf Course Internship**

**3 credits**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in MGT222.

### **BUS905 Golf Course Internship**

**3 credits**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in MGT222.

### **BUS905 Golf Course Internship**

**1 credits**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MGT222.

### **BUS905 Golf Course Internship**

**1 credits**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MGT222.

### **CAD119 Introduction to Computer-Aided Drafting (CAD)**

**3 credits**—This course will introduce hands-on computer-aided drafting and design. Basic computer hardware, software and file management will be discussed. Basic two-dimensional engineering CADD drawing creation using Drawing Aids will be covered. Various editing techniques will be examined. CAD drawings will be created, edited and plotted.

For non-majors, student with basic computer proficiency can be enrolled with instructor consent.

**Lecture Hours:** 16    **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D in CSC110, EGT108, EGT410, or ELT192.

### **CAD119 Introduction to Computer-Aided Drafting (CAD)**

**3 credits**—This course will introduce hands-on computer-aided drafting and design. Basic computer hardware, software and file management will be discussed. Basic two-dimensional engineering CADD drawing creation using Drawing Aids will be covered. Various editing techniques will be examined. CAD drawings will be created, edited and plotted.

For non-majors, student with basic computer proficiency can be enrolled with instructor consent.

**Lecture Hours:** 16    **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D in CSC110, EGT108, EGT410, or ELT192.

### **CAD200 CAD SoftPlan**

**3 credits**—The CAD SoftPlan course will introduce students to an object based CAD program and the process involved in generating a complete set of residential working drawings. Emphasis will be placed on setting up a drawing, using file management, organizing architectural information, paying attention to detail, converting sketches to CAD, modifying CAD drawings, and applying problem solving skills.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** CON102

### **CAD200 CAD SoftPlan**

**3 credits**—The CAD SoftPlan course will introduce students to an object based CAD program and the process involved in generating a complete set of residential working drawings. Emphasis will be placed on setting up a drawing, using file management, organizing architectural information, paying attention to detail, converting sketches to CAD, modifying CAD drawings, and applying problem solving skills.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CON102

### **CAD208 SoftPlan 2**

**3 credits**—The Softplan 2 Course will introduce students to advanced Softplan skills involved in generating a complete set of residential working drawings. Emphasis will be placed on advance organization of architectural information, attention to detail, modifying CAD drawings, and applying problem-solving skills.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CAD200.

### **CAD208 SoftPlan 2**

**3 credits**—The Softplan 2 Course will introduce students to advanced Softplan skills involved in generating a complete set of residential working drawings. Emphasis will be placed on advance organization of architectural information, attention to detail, modifying CAD drawings, and applying problem-solving skills.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CAD200.

### **CET122 Construction Drawing/Contract**

**2 credits**—The course examines typical building and civil construction plans and introduces the methods of bidding and contracting for building projects.

**Lecture Hours: 16    Lab Hours: 32**

### **CET122 Construction Drawing/Contract**

**2 credits**—The course examines typical building and civil construction plans and introduces the methods of bidding and contracting for building projects.

**Lecture Hours: 16    Lab Hours: 32**

### **CET133 Construction Methods and Resources**

**3 credits**—Methods of and problems related to construction of highways and buildings are covered. Examination is done of the commonly utilized resources - money, materials, equipment, personnel - and their management. Production and handling costs are discussed. Productivity, construction scheduling and construction safety are also covered briefly.

**Lecture Hours: 32    Lab Hours: 32**

**Pre/Co-requisite(s):** MAT744 or MAT122

### **CET133 Construction Methods and Resources**

**3 credits**—Methods of and problems related to construction of highways and buildings are covered. Examination is done of the commonly utilized resources - money, materials, equipment, personnel - and their management. Production and handling costs are discussed. Productivity, construction scheduling and construction safety are also covered briefly.

**Lecture Hours:** 32     **Lab Hours:** 32

**Pre/Co-requisite(s):** MAT744 or MAT122

### **CET142 PC Concrete, HMA, and Testing**

**3 credits**—This course covers types, production, and physical properties of asphalt and Portland cements, testing and selection of mineral aggregates and concrete mix designs, laboratory testing procedures of mix evaluation and quality control methods for asphalt and Portland cement concretes.

**Lecture Hours:** 32

**Prerequisite(s):** Must be in program major.

### **CET142 PC Concrete, HMA, and Testing**

**3 credits**—This course covers types, production, and physical properties of asphalt and Portland cements, testing and selection of mineral aggregates and concrete mix designs, laboratory testing procedures of mix evaluation and quality control methods for asphalt and Portland cement concretes.

**Lecture Hours:** 32

**Prerequisite(s):** Must be in program major.

### **CET160 Surveying**

**3 credits**—Surveying includes the use of surveying instruments and note-keeping for level circuits, topographic surveys, traversing, and construction surveys. Computations to determine errors, distances, azimuths, bearings, angles, areas, volumes, and topics in photogrammetry are included.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET160 Surveying**

**3 credits**—Surveying includes the use of surveying instruments and note-keeping for level circuits, topographic surveys, traversing, and construction surveys. Computations to determine errors, distances, azimuths, bearings, angles, areas, volumes, and topics in photogrammetry are included.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET182 Structural Detailing Using CAD**

**2 credits**—Structural Detailing uses mostly computer-aided drafting (CAD) and computer techniques to prepare drawings for highway structures which include structural steel, reinforced concrete and structural timber. Course includes the preparation of bar bend details, reinforcing bar lists, and quantity calculations. Topics from the Department of Transportation Specifications are covered also.

**Lecture Hours:** 16

**Prerequisite(s):** CAD105

### **CET182 Structural Detailing Using CAD**

**2 credits**—Structural Detailing uses mostly computer-aided drafting (CAD) and computer techniques to prepare drawings for highway structures which include structural steel, reinforced concrete and structural timber. Course includes the preparation of bar bend details, reinforcing bar lists, and quantity calculations. Topics from the Department of Transportation Specifications are covered also.

**Lecture Hours:** 16

**Prerequisite(s):** CAD105

### **CET213 Route Surveying/Roadway Design**

**3 credits**—Route surveying covers horizontal and vertical curves (circular, parabolic, and spiral), earthwork, and elements of safety and photogrammetric applications. Fieldwork includes surveying for a grading project and drafting the plan and profile, cross-sections, and calculating and balancing earth volumes. Roadway design incorporates the use of a computer-aided roadway design software package and includes topographic mapping, highway design, and plotting project drawings.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** CET160

### **CET213 Route Surveying/Roadway Design**

**3 credits**—Route surveying covers horizontal and vertical curves (circular, parabolic, and spiral), earthwork, and elements of safety and photogrammetric applications. Fieldwork includes surveying for a grading project and drafting the plan and profile, cross-sections, and calculating and balancing earth volumes. Roadway design incorporates the use of a computer-aided roadway design software package and includes topographic mapping, highway design, and plotting project drawings.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** CET160

### **CET223 Soils, Testing, and Foundations**

**3 credits**—Students study the origin, structure, identification, and engineering classification of soils, moisture-density relationships, standard laboratory testing procedures, compressive and shearing strength of soil and bearing capacity of soils and piling.

**Lecture Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET223 Soils, Testing, and Foundations**

**3 credits**—Students study the origin, structure, identification, and engineering classification of soils, moisture-density relationships, standard laboratory testing procedures, compressive and shearing strength of soil and bearing capacity of soils and piling.

**Lecture Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET233 Fundamentals of GPS and GIS**

**3 credits**—This course will introduce fundamental processes of Global Positioning Systems (GPS) including technical aspects of GPS satellites, differential corrections and hardware. The specific application for mapping and data collection will be discussed and demonstrated. Fundamental processes and applications of Geographic Information Systems(GIS) will also be introduced, including file formats, data base management, spatial analysis and manipulation of data.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** CET160

### **CET233 Fundamentals of GPS and GIS**

**3 credits**—This course will introduce fundamental processes of Global Positioning Systems (GPS) including technical aspects of GPS satellites, differential corrections and hardware. The specific application for mapping and data collection will be discussed and demonstrated. Fundamental processes and applications of Geographic Information Systems(GIS) will also be introduced, including file formats, data base management, spatial analysis and manipulation of data.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** CET160

### **CET253 Fundamentals of Construction Estimating**

**3 credits**—Students learn the fundamental principles of construction estimating. The course stresses the organization of the estimate, the procedure of estimating costs in different divisions of the project and determining the critical quantities of materials obtained from a set of plans.

**Lecture Hours:** 32     **Lab Hours:** 32

### **CET253 Fundamentals of Construction Estimating**

**3 credits**—Students learn the fundamental principles of construction estimating. The course stresses the organization of the estimate, the procedure of estimating costs in different divisions of the project and determining the critical quantities of materials obtained from a set of plans.

**Lecture Hours:** 32     **Lab Hours:** 32

### **CET256 Land Surveying**

**3 credits**—This course covers topics of the U.S. Public Land Survey System, Iowa laws regarding surveying and the preparation and recording of plats. Fieldwork is required to collect boundary measurements and field astronomy for a North azimuth. Calculations include astronomical bearings, traverse adjustment, area and partition of land. Computer drafting is used in the preparation of the plat.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** CET160

### **CET256 Land Surveying**

**3 credits**—This course covers topics of the U.S. Public Land Survey System, Iowa laws regarding surveying and the preparation and recording of plats. Fieldwork is required to collect boundary measurements and field astronomy for a North azimuth. Calculations include astronomical bearings, traverse adjustment, area and partition of land. Computer drafting is used in the preparation of the plat.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** CET160

### **CET262 Environmental Technology**

**3 credits**—Topics covered include hydraulics, hydrology, water quality, water and sewer systems, storm water control, solid and hazardous waste, and air and noise pollution.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET262 Environmental Technology**

**3 credits**—Topics covered include hydraulics, hydrology, water quality, water and sewer systems, storm water control, solid and hazardous waste, and air and noise pollution.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET285 Structural Steel/Reinforced Concrete Design**

**3 credits**—Structural Steel Design covers the design of beams, columns, bolted and welded connections, base and bearing plates, and tension members. Reinforced Concrete Design covers the strength and behavior of reinforced concrete in the design of such structural members as beams, slabs, walls, columns and footings.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** EGT243

### **CET285 Structural Steel/Reinforced Concrete Design**

**3 credits**—Structural Steel Design covers the design of beams, columns, bolted and welded connections, base and bearing plates, and tension members. Reinforced Concrete Design covers the strength and behavior of reinforced concrete in the design of such structural members as beams, slabs, walls, columns and footings.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** EGT243

### **CHM122 Introduction to General Chemistry**

**4 credits**—An introductory course which assumes a minimal student background in mathematics and chemistry. The course is intended to serve students in allied health programs and any student desiring an application-oriented, less theoretical approach to chemistry. The course introduces students to the practical aspects and basic concepts of chemistry including measurements, dimensional analysis, matter, energy, atoms, elements, the Periodic Chart, nuclear chemistry, chemical bonding, nomenclature, an introduction to organic chemistry, chemical quantities, formulas, gases, chemical calculations, balancing equations, solutions, acids and bases, chemical kinetics, and equilibrium. Coordinated laboratory exercises are intended to emphasize topics covered in the lecture as well as stress basic laboratory techniques. Elementary algebra is required as a prerequisite.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MAT063.

### **CHM122 Introduction to General Chemistry**

**4 credits**—An introductory course which assumes a minimal student background in mathematics and chemistry. The course is intended to serve students in allied health programs and any student desiring an application-oriented, less theoretical approach to chemistry. The course introduces students to the practical aspects and basic concepts of chemistry including measurements, dimensional analysis, matter, energy, atoms, elements, the Periodic Chart, nuclear chemistry, chemical bonding, nomenclature, an introduction to organic chemistry, chemical quantities, formulas, gases, chemical calculations, balancing equations, solutions, acids and bases, chemical kinetics, and equilibrium. Coordinated laboratory exercises are intended to emphasize topics covered in the lecture as well as stress basic laboratory techniques. Elementary algebra is required as a prerequisite.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MAT063.

### **CHM132 Introduction to Organic and Biochemistry**

**4 credits**—This lecture-laboratory course is intended primarily to serve undergraduate health-related majors such as nursing and dental hygiene as well as the general studies students seeking an integrated background in organic and biological chemistry. Students will study topics applications from a clinical, human or environmental perspective. Laboratory exercises are coordinated with the lecture topics.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** CHM122

### **CHM132 Introduction to Organic and Biochemistry**

**4 credits**—This lecture-laboratory course is intended primarily to serve undergraduate health-related majors such as nursing and dental hygiene as well as the general studies students seeking an integrated background in organic and biological chemistry. Students will

study topics applications from a clinical, human or environmental perspective. Laboratory exercises are coordinated with the lecture topics.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** CHM122

### **CHM165 General Chemistry I**

**4 credits**—This lecture and laboratory course is the first of a two-semester sequence designed specifically for students majoring in chemistry, physics, biology, or pre-engineering. It is a mathematically rigorous course that assumes the entering student has a strong background in algebra and finite mathematics. Students will learn specific-content chemical information that will be applied within the context of a variety of chemistry applications. Many of the applications that will be investigated highlight contemporary social and scientific issues. Through participation in course activities, each student should expect to improve her/his knowledge of chemistry and to develop improved qualitative and quantitative problem-solving skills. Hands-on experience with laboratory experiments will allow students to learn proper procedures, to gather meaningful data, and to draw logical and appropriate conclusions based on the laboratory data. Content will include chemical equations, stoichiometry, gases, thermochemistry, equilibrium, electronic structure of atoms, periodic trends, molecular bonding and structure, intermolecular forces, and nuclear chemistry.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT102, MAT110, or MAT156. Highly recommended that the prerequisite class be passed with a C- or better in the past 5 years.

### **CHM165 General Chemistry I**

**4 credits**—This lecture and laboratory course is the first of a two-semester sequence designed specifically for students majoring in chemistry, physics, biology, or pre-engineering. It is a mathematically rigorous course that assumes the entering student has a strong background in algebra and finite mathematics. Students will learn specific-content chemical information that will be applied within the context of a variety of chemistry applications. Many of the applications that will be investigated highlight contemporary social and scientific issues. Through participation in course activities, each student should expect to improve her/his knowledge of chemistry and to develop improved qualitative and quantitative problem-solving skills. Hands-on experience with laboratory experiments will allow students to learn proper procedures, to gather meaningful data, and to draw logical and appropriate conclusions based on the laboratory data. Content will include chemical equations, stoichiometry, gases, thermochemistry, equilibrium, electronic structure of atoms, periodic trends, molecular bonding and structure, intermolecular forces, and nuclear chemistry.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT102, MAT110, or MAT156. Highly recommended that the prerequisite class be passed with a C- or better in the past 5 years.

### **CHM175 General Chemistry II**

**4 credits**—This lecture and laboratory course is the second of a two semester sequence designed specifically for students majoring in chemistry, physics, biology or pre-engineering.

Students will have successfully completed General Chemistry I or its' equivalent. The course focuses on chemical equilibria and their applications, thermodynamics, kinetics, modern materials, electrochemistry, properties of solutions, chemistry of the representative main group and transition elements, coordination compounds, basic organic chemistry, biological chemistry, and chemistry of the environment. Specific topics are outlined under the course content. Laboratory exercises are coordinated with lecture topics where possible, and are intended to augment and support these topics.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** CHM165

### **CHM175 General Chemistry II**

**4 credits**—This lecture and laboratory course is the second of a two semester sequence designed specifically for students majoring in chemistry, physics, biology or pre-engineering. Students will have successfully completed General Chemistry I or its' equivalent. The course focuses on chemical equilibria and their applications, thermodynamics, kinetics, modern materials, electrochemistry, properties of solutions, chemistry of the representative main group and transition elements, coordination compounds, basic organic chemistry, biological chemistry, and chemistry of the environment. Specific topics are outlined under the course content. Laboratory exercises are coordinated with lecture topics where possible, and are intended to augment and support these topics.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** CHM165

### **CHM260 Organic Chemistry I**

**3 credits**—Theory and practice of organic chemistry with emphasis on the chemistry of functional groups, structure, bonding, molecular properties, reactivity and nomenclature of alkanes, alkenes, alcohols and ethers, stereochemistry, reaction mechanism, nucleophilic substitution and elimination reactions.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in CHM165 and CHM175.

### **CHM260 Organic Chemistry I**

**3 credits**—Theory and practice of organic chemistry with emphasis on the chemistry of functional groups, structure, bonding, molecular properties, reactivity and nomenclature of alkanes, alkenes, alcohols and ethers, stereochemistry, reaction mechanism, nucleophilic substitution and elimination reactions.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in CHM165 and CHM175.

### **CHM270 Organic Chemistry II**

**3 credits**—Theory and practice of organic chemistry with emphasis on nomenclature and reactivity of alkenes, alkynes, aromatics, aldehydes, ketones, carboxylic acids and their derivatives, amines, and polyfunctional compounds.

**Lecture Hours:** 48

**Prerequisite(s):** Minimum grade of C- in CHM260 or equivalent.

### **CHM270 Organic Chemistry II**

**3 credits**—Theory and practice of organic chemistry with emphasis on nomenclature and reactivity of alkenes, alkynes, aromatics, aldehydes, ketones, carboxylic acids and their derivatives, amines, and polyfunctional compounds.

**Lecture Hours:** 48

**Prerequisite(s):** Minimum grade of C- in CHM260 or equivalent.

### **CHM924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CHM924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CHM928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **CHM928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **CIS102 Introduction to Computers**

**2 credits**—This course introduces the basic use of the personal computer. The course includes a study of DOS (disk operating system), Windows, and word processing.

**Lecture Hours: 16    Lab Hours: 32**

### **CIS102 Introduction to Computers**

**2 credits**—This course introduces the basic use of the personal computer. The course includes a study of DOS (disk operating system), Windows, and word processing.

**Lecture Hours: 16    Lab Hours: 32**

### **CIS121 Introduction to Programming Logic**

**3 credits**—This course will introduce language independent programming logic design techniques. Students will learn techniques such as flow-charting and pseudo-code to build complete programs that can be translated into modern programming languages. Students will learn to use elements of decision making, looping, control breaks, and arrays. Language independent Object Oriented Programming will be introduced along with other advanced topics.

**Lecture Hours: 32    Lab Hours: 32**

### **CIS121 Introduction to Programming Logic**

**3 credits**—This course will introduce language independent programming logic design techniques. Students will learn techniques such as flow-charting and pseudo-code to build complete programs that can be translated into modern programming languages. Students will learn to use elements of decision making, looping, control breaks, and arrays. Language independent Object Oriented Programming will be introduced along with other advanced topics.

**Lecture Hours: 32    Lab Hours: 32**

### **CIS206 Web Scripting**

**3 credits**—This course is designed to give students experience in creating dynamic web sites. Students will use JavaScript to add interactivity to web site. Students will explore the Document Object Model as well as advanced techniques.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS231 and CIS215.

### **CIS206 Web Scripting**

**3 credits**—This course is designed to give students experience in creating dynamic web sites. Students will use JavaScript to add interactivity to web site. Students will explore the Document Object Model as well as advanced techniques.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS231 and CIS215.

### **CIS215 Server Side Web Programming**

**3 credits**—This course is designed to give the student the tools and the knowledge to program using the web programming language ASP.NET as a server side language. This

course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in WDV102, WDV105, and CIS121.

**Pre/Co-requisite(s):** A minimum grade of D in MAT110.

### **CIS215 Server Side Web Programming**

**3 credits**—This course is designed to give the student the tools and the knowledge to program using the web programming language ASP.NET as a server side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in WDV102, WDV105, and CIS121.

**Pre/Co-requisite(s):** A minimum grade of D in MAT110.

### **CIS217 Data Driven Web Page**

**3 credits**—This course is designed to give the student the tools and the knowledge to program a web application using PHP and MySQL. This course covers advanced topics such as administration pages for the web site for the management of the web application. This course is a continuation of CIS231 PHP Programming.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in CIS215.

### **CIS217 Data Driven Web Page**

**3 credits**—This course is designed to give the student the tools and the knowledge to program a web application using PHP and MySQL. This course covers advanced topics such as administration pages for the web site for the management of the web application. This course is a continuation of CIS231 PHP Programming.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in CIS215.

### **CIS225 Advanced Server Side Web Programming**

**3 credits**—This course will build on the skills learned from Server Side Web Programming. This course will work with advanced topics in Active Server Pages. Students will be expected to create entire web sites using information learned in this course. A practical hands-on approach will be utilized.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in CIS215.

### **CIS225 Advanced Server Side Web Programming**

**3 credits**—This course will build on the skills learned from Server Side Web Programming. This course will work with advanced topics in Active Server Pages. Students will be expected to create entire web sites using information learned in this course. A practical hands-on approach will be utilized.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS215.

### **CIS231 PHP Programming**

**3 credits**—This course is designed to give the student the tools and the knowledge to program using the web programming language PHP as a server side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in WDV102, WDV105, and CIS121.

**Pre/Co-requisite(s):** A minimum grade of D in MAT110.

### **CIS231 PHP Programming**

**3 credits**—This course is designed to give the student the tools and the knowledge to program using the web programming language PHP as a server side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in WDV102, WDV105, and CIS121.

**Pre/Co-requisite(s):** A minimum grade of D in MAT110.

### **CIS234 Web Site Administration**

**3 credits**—This course is designed to introduce students to the various platforms that support the servicing web sites. Students will understand HTTP, FTP and SMTP and configure the services. Students will also host and maintain several websites on a server.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** WDV102

### **CIS234 Web Site Administration**

**3 credits**—This course is designed to introduce students to the various platforms that support the servicing web sites. Students will understand HTTP, FTP and SMTP and configure the services. Students will also host and maintain several websites on a server.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** WDV102

### **CIS249 Web Languages**

**3 credits**—This course is designed to give the student an exploration of other web languages used on the web, and learn the basics of those languages.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS215 and CIS231.

### **CIS249 Web Languages**

**3 credits**—This course is designed to give the student an exploration of other web languages used on the web, and learn the basics of those languages.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS215 and CIS231.

### **CIS274 E-Commerce Design**

**3 credits**—This course will introduce students to using the Internet as a medium for marketing, sales and support of a product. Students will learn how to adapt a traditional business model to an electronic model.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CIS206

### **CIS274 E-Commerce Design**

**3 credits**—This course will introduce students to using the Internet as a medium for marketing, sales and support of a product. Students will learn how to adapt a traditional business model to an electronic model.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CIS206

### **CIS303 Introduction to Data Base**

**3 credits**—This course will introduce students to data management using databases. Focus will be given to database models, data storage concepts, SQL and data warehousing.

**Lecture Hours: 32**

### **CIS303 Introduction to Data Base**

**3 credits**—This course will introduce students to data management using databases. Focus will be given to database models, data storage concepts, SQL and data warehousing.

**Lecture Hours: 32**

### **CIS355 Database Design and Management**

**4 credits**—This course will introduce students to data management using databases. this includes database design, normalization/optimization, relationships, security, and database management systems.

**Lecture Hours: 48    Lab Hours: 32**

### **CIS355 Database Design and Management**

**4 credits**—This course will introduce students to data management using databases. This includes database design, normalization/optimization, relationships, security, and database management systems.

**Lecture Hours:** 48    **Lab Hours:** 32

### **CIS604 Visual Basic**

**3 credits**—This class will introduce students to creating programs using the Visual Basic language. Students will gain experience in creating applications automating processes using Visual Basic.

**Lecture Hours:** 32

### **CIS604 Visual Basic**

**3 credits**—This class will introduce students to creating programs using the Visual Basic language. Students will gain experience in creating applications automating processes using Visual Basic.

**Lecture Hours:** 32

### **CIS750 Project Management**

**3 credits**—This course is designed to provide students exposure to project management and its importance to improving success in information technology projects. Topics addressed in the course will include triple constraints of project management, project life cycle, cost estimates, value management and motivation theory, and team building. Tools and techniques important to project management will also be presented, including project selection methods, work breakdowns, network diagrams, critical path analysis, and scheduling. Students will have the opportunity to utilize software to help plan and manage an information technology project.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in NET313 and a minimum grade of D in NET213.

### **CIS750 Project Management**

Students will have the opportunity to utilize software to help plan and manage an information technology project.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in NET313 and a minimum grade of D in NET213.

### **CLS130 African Cultures**

**3 credits**—This course will explore the development of Sub-Saharan African civilizations from the dawn of humanity to the issues facing the continent today. The first part of the course will look at the indigenous and colonial heritage of Africa. The second part will examine the political, economic, social, religious, environmental, and gender issues and realities facing the African today. The third part will expose students to significant African contributions and trends in prose, poetry, drama, art, music and dance.

**Lecture Hours:** 48

Among the topics covered in this course are the foundation and development of Islam, the cultural influence and spread of Islamic civilization, the creation and politics of modern nation-states, and emergence of Islamist politics.

**Lecture Hours:** 48

### **CLS150 Latin American History and Culture**

**3 credits**—This course will explore the development of Latin American civilization from its ancient origins to the issues facing the region today. The course will look at the indigenous and colonial heritage of the area; examine its shared cultural, literary, economic, social, and political contributions and trends; and look at the history and current issues facing the individual countries or sub-regional groupings.

**Lecture Hours:** 48

### **CLS150 Latin American History and Culture**

**3 credits**—This course will explore the development of Latin American civilization from its ancient origins to the issues facing the region today. The course will look at the indigenous

and colonial heritage of the area; examine its shared cultural, literary, economic, social, and political contributions and trends; and look at the history and current issues facing the individual countries or sub-regional groupings.

**Lecture Hours:** 48

### **CLS160 East Asian Cultures**

**3 credits**—East Asian Cultures is an interdisciplinary course that will explore the emergence of East Asian civilization, its development and diversification, and its contacts and exchanges with other world civilizations. Primary emphasis is on China. The course will explore the various historical, cultural, religious, philosophical, economic, political, social, demographic and geographic factors that make this such a diverse and dynamic civilization and will also draw comparisons between China and neighboring countries.

**Lecture Hours:** 48

### **CLS160 East Asian Cultures**

**3 credits**—East Asian Cultures is an interdisciplinary course that will explore the emergence of East Asian civilization, its development and diversification, and its contacts and exchanges with other world civilizations. Primary emphasis is on China. The course will explore the various historical, cultural, religious, philosophical, economic, political, social, demographic and geographic factors that make this such a diverse and dynamic civilization and will also draw comparisons between China and neighboring countries.

**Lecture Hours:** 48

### **CLS164 Japanese History and Culture**

**3 credits**—Japanese History and Culture is an interdisciplinary course that will explore the emergence of Japanese civilization, its development, diversification, and its contacts and exchanges with other world civilizations. The course will explore the various historical, cultural, religious, artistic, philosophical, economic, political, social, cultural, demographic, and geographic factors that make Japan such a diverse and dynamic civilization. Emphasis will be placed upon attempting to understand Japanese culture as being both unique and as intimately related to other cultures.

**Lecture Hours:** 48

### **CLS164 Japanese History and Culture**

**3 credits**—Japanese History and Culture is an interdisciplinary course that will explore the emergence of Japanese civilization, its development, diversification, and its contacts and exchanges with other world civilizations. The course will explore the various historical, cultural, religious, artistic, philosophical, economic, political, social, cultural, demographic, and geographic factors that make Japan such a diverse and dynamic civilization. Emphasis will be placed upon attempting to understand Japanese culture as being both unique and as intimately related to other cultures.

**Lecture Hours:** 48

### **CLS172 Russian Civilization**

**3 credits**—Russia's turbulent past and uncertain present will be discussed in this interdisciplinary course. It will examine the major political, economic, geographic, social,

cultural, religious, and other factors that have contributed to the development of Russian civilization. Emphasis will be placed upon understanding Russia as both a unique Eurasian civilization and a part of the global community of nations.

**Lecture Hours:** 48

### **CLS172 Russian Civilization**

**3 credits**—Russia's turbulent past and uncertain present will be discussed in this interdisciplinary course. It will examine the major political, economic, geographic, social, cultural, religious, and other factors that have contributed to the development of Russian civilization. Emphasis will be placed upon understanding Russia as both a unique Eurasian civilization and a part of the global community of nations.

**Lecture Hours:** 48

### **CLS924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CLS924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CLS928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics germane to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **CLS928 Independent Study**

**Lecture Hours:** 16

### **CNS104 Outdoor Recreation II**

**1 credits**—This course provides an introduction into basic outdoor recreation certifications. The course will provide a way for students to learn about boating safety, first aid, and CPR and gain certification necessary for employment. The course will provide background in the principles of Leave No Trace which are essential for wilderness camping. Additionally, the course will provide an examination of the Fish Iowa curriculum for students to share with others as they progress in their careers.

**Lecture Hours: 0    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in RDG038.

### **CNS104 Outdoor Recreation II**

**1 credits**—This course provides an introduction into basic outdoor recreation certifications. The course will provide a way for students to learn about boating safety, first aid, and CPR and gain certification necessary for employment. The course will provide background in the principles of Leave No Trace which are essential for wilderness camping. Additionally, the course will provide an examination of the Fish Iowa curriculum for students to share with others as they progress in their careers.

**Lecture Hours: 0    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in RDG038.

### **CNS107 Outdoor Recreation Techniques**

**1 credits**—This course provides an introduction into basic outdoor recreation techniques commonly utilized by naturalists and conservation professionals to help citizens gain an appreciation of their environment. Recreational techniques will include activities such as canoeing, kayaking, hiking, and backpacking.

**Lecture Hours: 0    Lab Hours: 32**

### **CNS107 Outdoor Recreation Techniques**

**1 credits**—This course provides an introduction into basic outdoor recreation techniques commonly utilized by naturalists and conservation professionals to help citizens gain an appreciation of their environment. Recreational techniques will include activities such as canoeing, kayaking, hiking, and backpacking.

**Lecture Hours: 0    Lab Hours: 32**

### **CNS108 Wildlife Identification**

**3 credits**—This course will provide information to assist in the identification of common wildlife of Iowa. Wildlife will be identified not only by physical characteristics, but by many other characteristics. Vertebrates, insects, and macroinvertebrates will be covered. Major groups of vertebrates including mammals, birds, fish, reptiles, and amphibians will be studied.

**Lecture Hours: 32    Lab Hours: 32**

### **CNS108 Wildlife Identification**

**3 credits**—This course will provide information to assist in the identification of common wildlife of Iowa. Wildlife will be identified not only by physical characteristics, but by many other characteristics. Vertebrates, insects, and macroinvertebrates will be covered. Major groups of vertebrates including mammals, birds, fish, reptiles, and amphibians will be studied.

**Lecture Hours: 32    Lab Hours: 32**

### **CNS109 Wildlife Ecology**

**3 credits**—This course focuses on the application of wildlife ecology and management techniques. It studies censuring, capture and marking of wildlife. The course includes habitat evaluation, habitat restoration, Iowa game laws, life history studies and the application of wildlife management principles as they relate to important ecological and recreational resources.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in CNS121.

### **CNS109 Wildlife Ecology**

**3 credits**—This course focuses on the application of wildlife ecology and management techniques. It studies censuring, capture and marking of wildlife. The course includes habitat evaluation, habitat restoration, Iowa game laws, life history studies and the application of wildlife management principles as they relate to important ecological and recreational resources.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in CNS121.

### **CNS110 Equipment Operation and Safety**

**2 credits**—Equipment Operation and Safety focuses on the operation, maintenance, personal protective equipment, and safety of equipment used in the natural resources field. Labs include the use of equipment ranging from small engines to equipment used for prairie restoration, timber stand improvement, aquatic management, and park management.

**Lecture Hours: 16    Lab Hours: 32**

### **CNS110 Equipment Operation and Safety**

**2 credits**—Equipment Operation and Safety focuses on the operation, maintenance, personal protective equipment, and safety of equipment used in the natural resources field. Labs include the use of equipment ranging from small engines to equipment used for prairie restoration, timber stand improvement, aquatic management, and park management.

**Lecture Hours: 16    Lab Hours: 32**

### **CNS121 Environmental Conservation**

**3 credits**—Environmental Conservation is a course that enables students to learn about their environment. Students study about natural ecosystems, interactions within ecosystems, ecological principles and their application, the impact our increasing population has on the

environment, the importance and components of a sustainable agriculture, and the environmental issues facing today's world.

**Lecture Hours:** 32    **Lab Hours:** 32

### **CNS121 Environmental Conservation**

**3 credits**—Environmental Conservation is a course that enables students to learn about their environment. Students study about natural ecosystems, interactions within ecosystems, ecological principles and their application, the impact our increasing population has on the environment, the importance and components of a sustainable agriculture, and the environmental issues facing today's world.

**Lecture Hours:** 32    **Lab Hours:** 32

### **CNS134 Wildlife Management**

**4 credits**—This course will provide a foundation in the dynamics of wildlife conservation and management. This course relates the biological concepts of wildlife populations, habitat management, management goals and applications geared toward various forms of wildlife.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CNS121.

**Co-requisite(s):** CNS106

### **CNS134 Wildlife Management**

**4 credits**—This course will provide a foundation in the dynamics of wildlife conservation and management. This course relates the biological concepts of wildlife populations, habitat management, management goals and applications geared toward various forms of wildlife.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CNS121.

**Co-requisite(s):** CNS106

### **CNS136 Aquatic Management**

**3 credits**—This course introduces aquatic conservation and management. Basic background on aquatic environments, the ecology of fish, and the characteristics of humans who utilize aquatic resources or indirectly interact with them through land- and water-use activities will be covered.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CNS121

### **CNS136 Aquatic Management**

**3 credits**—This course introduces aquatic conservation and management. Basic background on aquatic environments, the ecology of fish, and the characteristics of humans who utilize aquatic resources or indirectly interact with them through land- and water-use activities will be covered.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CNS121

### **CNS138 Woodland Management**

**3 credits**—This course will provide an introduction to woodland management from an ecological management perspective. Management of small properties will be emphasized.

**Lecture Hours: 32    Lab Hours: 32**

### **CNS138 Woodland Management**

**3 credits**—This course will provide an introduction to woodland management from an ecological management perspective. Management of small properties will be emphasized.

**Lecture Hours: 32    Lab Hours: 32**

### **CNS143 Fire Management**

**3 credits**—This course focuses on prescribed burns as a tool in ecosystem management. The use of fire to meet resource management objectives requires definitive and quantified knowledge of physical, biological, and ecological effects of fire on the ecosystem involved. Students will be trained in conducting prescribed burns and will participate as burn crew members.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CNS121

### **CNS143 Fire Management**

**3 credits**—This course focuses on prescribed burns as a tool in ecosystem management. The use of fire to meet resource management objectives requires definitive and quantified knowledge of physical, biological, and ecological effects of fire on the ecosystem involved. Students will be trained in conducting prescribed burns and will participate as burn crew members.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CNS121

### **CNS180 Principles of Interpretation**

**2 credits**—This course covers the history, objectives, forms, and techniques of interpretation in the settings of county, state, national parks, and zoos. The course will explore the principles of effective communication as they apply to natural resource fields. Conceptual principles for planning interpretive programs and use of effective communication in multi-media delivery systems in outreach campaigns to manage and conserve natural resources are discussed. This course helps students gain the technical competencies of interpretation professionals by presenting and observing nature walks, giving public presentations, creating displays, writing news releases, and taking photographs as interpretative exercises. Students will have the opportunity to complete the National Certified Interpretative Guide exam.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in CNS121.

Students will have the opportunity to complete the National Certified Interpretative Guide exam.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in CNS121.

### **CNS200 Conservation Biology**

**3 credits**—Conservation Biology draws together scientists and environmentalists in basic and applied studies of biodiversity. The course will examine the nature of this emerging field, and will survey basic principles of ecology with emphasis on the ecosystem concept and its central role in conservation management. The course will examine biodiversity in detail, evaluate the threats to biodiversity, and examine the processes of extinction that are leading to a biodiversity crisis. Students will be active participants in current conservation projects and will conduct studies of the biological diversity of their community.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in CNS121.

Students will be active participants in current conservation projects and will conduct studies of the biological diversity of their community.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in CNS121.

### **CNS204 Native Vegetation**

**3 credits**—This course provides an introduction to botany, landforms of Iowa, and native plant communities. Emphasis will be on the identification of native plants and differentiation from exotic weed species.

**Lecture Hours: 32    Lab Hours: 32**

### **CNS204 Native Vegetation**

**3 credits**—This course provides an introduction to botany, landforms of Iowa, and native plant communities. Emphasis will be on the identification of native plants and differentiation from exotic weed species.

**Lecture Hours: 32    Lab Hours: 32**

### **CNS205 Advanced Outdoor Recreation Techniques**

**1 credits**—This course provides a wilderness experience to utilize advanced outdoor recreation techniques during an intense time period (over Labor Day weekend or the equivalent). Techniques utilized include hiking, backpacking, canoeing or kayaking, low impact camping, and others. This wilderness encounter is at a remote location such as the Boundary Waters, Isle Royale, etc. The focus of this experience is to gain leadership skills to guide groups of citizens on basic outdoor recreation adventures to increase their appreciation of their environment such as is done by naturalists and conservation groups by following the 18 points set by the Wilderness Education Association and Leave No Trace Principles.

**Lab Hours: 32**

**Prerequisite(s):** CNS107

### **CNS205 Advanced Outdoor Recreation Techniques**

**1 credits**—This course provides a wilderness experience to utilize advanced outdoor recreation techniques during an intense time period (over Labor Day weekend or the equivalent). **Lab Hours: 32**

**Prerequisite(s):** CNS107

### **CNS228 Natural Areas Management**

**3 credits**—This course provides a background in the restoration of native ecosystems. Restoration practices from site analysis, seed and plant selection, and planting techniques; to management by fire, mowing, and weed control are covered. Students will have practical experiences in the reconstruction and management of various ecosystems.

**Lecture Hours: 16    Lab Hours: 64**

### **CNS228 Natural Areas Management**

**3 credits**—This course provides a background in the restoration of native ecosystems. Restoration practices from site analysis, seed and plant selection, and planting techniques; to management by fire, mowing, and weed control are covered. Students will have practical experiences in the reconstruction and management of various ecosystems.

**Lecture Hours: 16    Lab Hours: 64**

### **CNS929 Individual Projects**

**1 credits**—This course provides in-depth experiences in conservation. Projects are developed in cooperation with and supervised by the instructor dealing with construction, habitat maintenance, wildlife census, habitat mapping, trail development, observation of conservation boards, etc. It includes paper describing the project from start to finish. Hours of credit depend on the scope and depth of the project.

May be taken for up to 3 credits.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in CNS121.

### **CNS929 Individual Projects**

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in CNS121.

### **COM140 Introduction to Mass Media**

**3 credits**—Introduction to Mass Media presents elements of the mass communication process with emphasis on the forms, functions, regulations, and social impact of the various media. This course helps students understand how media influence their lives.

**Lecture Hours:** 48

### **COM140 Introduction to Mass Media**

**3 credits**—Introduction to Mass Media presents elements of the mass communication process with emphasis on the forms, functions, regulations, and social impact of the various media. This course helps students understand how media influence their lives.

**Lecture Hours:** 48

### **COM143 Media Messages: Printed Page**

**1 credits**—Media Messages: Printed Page focuses on the development of skills needed to access, analyze, evaluate, and produce printed media messages by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM143 Media Messages: Printed Page**

**1 credits**—Media Messages: Printed Page focuses on the development of skills needed to access, analyze, evaluate, and produce printed media messages by examining the roles of

viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM144 Media Messages: TV and Movies**

**1 credits**—Media Messages: TV and Movies focuses on the development of skills needed to access, analyze, evaluate, and produce messages from television and film by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM144 Media Messages: TV and Movies**

**1 credits**—Media Messages: TV and Movies focuses on the development of skills needed to access, analyze, evaluate, and produce messages from television and film by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM147 Media Messages: World Wide Web**

**1 credits**—Media Messages: Examining the World Wide Web focuses on the development of skills needed to access, analyze, evaluate, and produce messages accessed through the web by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM147 Media Messages: World Wide Web**

**1 credits**—Media Messages: Examining the World Wide Web focuses on the development of skills needed to access, analyze, evaluate, and produce messages accessed through the web by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM148 Diversity and the Media**

**3 credits**—Diversity and the Media presents a historical perspective and a current analysis of various minority groups and how media depict these groups. This course helps students understand why and how stereotypical media portrayals have been produced and how the under-representation of diversified images affects their knowledge, attitudes, and behaviors toward.

**Lecture Hours:** 48

### **COM148 Diversity and the Media**

**3 credits**—Diversity and the Media presents a historical perspective and a current analysis of various minority groups and how media depict these groups. This course helps students understand why and how stereotypical media portrayals have been produced and how the under-representation of diversified images affects their knowledge, attitudes, and behaviors toward.

**Lecture Hours:** 48

### **COM155 Newspaper Production**

**3 credits**—Newspaper Production presents elements of the news reporting process with emphasis on determining newsworthiness, gathering news, writing and editing stories in journalistic style, and observing legal and ethical responsibilities in the print, broadcast, and electronic media. This course helps students explore how journalists determine what the public needs and wants to know.

**Lecture Hours:** 48

### **COM155 Newspaper Production**

**3 credits**—Newspaper Production presents elements of the news reporting process with emphasis on determining newsworthiness, gathering news, writing and editing stories in journalistic style, and observing legal and ethical responsibilities in the print, broadcast, and electronic media. This course helps students explore how journalists determine what the public needs and wants to know.

**Lecture Hours:** 48

### **COM730 Communications**

**3 credits**—This course presents elements of oral and written communications with applications to routine correspondence and oral communication situations in the work place. Students will be involved in activities that provide opportunity for the development and improvement of writing skills and oral communication skills.

**Lecture Hours:** 48

### **COM730 Communications**

**3 credits**—This course presents elements of oral and written communications with applications to routine correspondence and oral communication situations in the work place. Students will be involved in activities that provide opportunity for the development and improvement of writing skills and oral communication skills.

**Lecture Hours:** 48

### **COM763 Introduction to Professional Writing**

**3 credits**—This course provides students with an introduction to professional writing; it overviews the role of writing as an important part of many careers, as well as part of an academic discipline. This course explores the issues, theories, resources and career opportunities in professional writing, as well as the use of technology to communicate and produce documents.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** ENG105

### **COM763 Introduction to Professional Writing**

This course explores the issues, theories, resources and career opportunities in professional writing, as well as the use of technology to communicate and produce documents.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** ENG105

### **COM781 Written Communication in the Workplace**

**3 credits**—This course focuses on composition and editing of curriculum-specific technical and business-related writing projects. Instruction includes formatting, information gathering, document drafting, editing, and written employment strategies.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG061.

### **COM781 Written Communication in the Workplace**

**3 credits**—This course focuses on composition and editing of curriculum-specific technical and business-related writing projects. Instruction includes formatting, information gathering, document drafting, editing, and written employment strategies.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG061.

### **COM924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **COM924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CON102 Introduction to Residential Construction**

**2 credits**—Students will be introduced to basic residential construction safety, history, terminology, materials, and basic construction techniques. This course will cover basic information and develop manual skills needed to begin construction of a new home.

**Lecture Hours: 16    Lab Hours: 32**

### **CON102 Introduction to Residential Construction**

**2 credits**—Students will be introduced to basic residential construction safety, history, terminology, materials, and basic construction techniques. This course will cover basic information and develop manual skills needed to begin construction of a new home.

**Lecture Hours: 16    Lab Hours: 32**

### **CON108 Construction Safety**

**1 credits**—The Construction Safety course will provide students with the requirements and expectations required to work safely in the numerous occupations of the construction industry. The course will introduce students to the national OSHA safety standards for General Construction and upon their completion of this course will receive the OSHA 10 hour General Construction certification.

**Lecture Hours: 16**

### **CON108 Construction Safety**

**1 credits**—The Construction Safety course will provide students with the requirements and expectations required to work safely in the numerous occupations of the construction industry. The course will introduce students to the national OSHA safety standards for General Construction and upon their completion of this course will receive the OSHA 10 hour General Construction certification.

**Lecture Hours: 16**

### **CON109 Construction Safety**

**2 credits**—This course includes the 30 Hour Construction Outreach Program as outlined by the OSHA Voluntary Outreach Program. Areas of study include General Safety and Health Provisions, Occupational Health and Environmental Controls (HAZCOM), job site safety, training requirements and an overview of the 1926 Standards (OSHA rules).

**Lecture Hours: 16    Lab Hours: 32**

### **CON109 Construction Safety**

**2 credits**—This course includes the 30 Hour Construction Outreach Program as outlined by the OSHA Voluntary Outreach Program. Areas of study include General Safety and Health Provisions, Occupational Health and Environmental Controls (HAZCOM), job site safety, training requirements and an overview of the 1926 Standards (OSHA rules).

**Lecture Hours: 16    Lab Hours: 32**

### **CON113 Construction Printreading**

**2 credits**—Students examine and study typical working drawings for use in the construction of residential and light commercial projects. Areas of special attention are specifications, plan views, concrete and structural steel construction drawings and details.

**Lecture Hours:** 16    **Lab Hours:** 32

### **CON113 Construction Printreading**

**2 credits**—Students examine and study typical working drawings for use in the construction of residential and light commercial projects. Areas of special attention are specifications, plan views, concrete and structural steel construction drawings and details.

**Lecture Hours:** 16    **Lab Hours:** 32

### **CON121 Carpentry Fundamentals I**

**4 credits**—The Carpentry Fundamentals Level I course will prepare the diploma level students to take the National Center for Construction Education and Research (NCCER) Level One test. This course will serve as a review and preparation over the Level One Objectives as defined by NCCER.

**Lecture Hours:** 16    **Lab Hours:** 96

**Prerequisite(s):** CON102 and CON133

### **CON121 Carpentry Fundamentals I**

**4 credits**—The Carpentry Fundamentals Level I course will prepare the diploma level students to take the National Center for Construction Education and Research (NCCER) Level One test. This course will serve as a review and preparation over the Level One Objectives as defined by NCCER.

**Lecture Hours:** 16    **Lab Hours:** 96

**Prerequisite(s):** CON102 and CON133

### **CON124 Construction Estimating I**

**3 credits**—Students learn the fundamental principles of construction estimating. The course stresses the organization of the estimate, the procedure of estimating costs in different divisions of the project and determining the critical quantities of materials obtained from a set of plans.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** CON113 and CON135

### **CON124 Construction Estimating I**

**3 credits**—Students learn the fundamental principles of construction estimating. The course stresses the organization of the estimate, the procedure of estimating costs in different divisions of the project and determining the critical quantities of materials obtained from a set of plans.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** CON113 and CON135

### **CON125 Construction Estimating II**

**3 credits**—This course presents the skills required to organize and prepare an estimate for a construction project. Students examine the procedure and function of a preliminary estimate, the quantity take-off method and the summary sheet, all using the CSI format.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CON124 and ARC175

### **CON125 Construction Estimating II**

**3 credits**—This course presents the skills required to organize and prepare an estimate for a construction project. Students examine the procedure and function of a preliminary estimate, the quantity take-off method and the summary sheet, all using the CSI format.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** CON124 and ARC175

### **CON129 Concrete Lab**

**2 credits**—The Concrete Lab course will provide students with hands-on experience in estimating, ordering, forming, working, and finishing concrete.

**Lab Hours: 64**

**Prerequisite(s):** CON130

### **CON129 Concrete Lab**

**2 credits**—The Concrete Lab course will provide students with hands-on experience in estimating, ordering, forming, working, and finishing concrete.

**Lab Hours: 64**

**Prerequisite(s):** CON130

### **CON130 Concrete Theory**

**1 credits**—The concrete theory course will provide students with a basic understanding of concrete, and its relationship to residential construction.

**Lecture Hours: 16**

### **CON130 Concrete Theory**

**1 credits**—The concrete theory course will provide students with a basic understanding of concrete, and its relationship to residential construction.

**Lecture Hours: 16**

### **CON131 Site Layout and Blueprint Reading**

**1 credits**—The Site Layout and Blueprint Reading course will train students to interpret and use site plans and other working drawings. Students will learn how to interpret construction symbols and building specifications. Students will develop site layouts for various projects utilizing lasers, builder's levels, and transits using site plans and other working drawings.

**Lecture Hours: 16**

### **CON131 Site Layout and Blueprint Reading**

**1 credits**—The Site Layout and Blueprint Reading course will train students to interpret and use site plans and other working drawings. Students will learn how to interpret construction symbols and building specifications. Students will develop site layouts for various projects utilizing lasers, builder's levels, and transits using site plans and other working drawings.

**Lecture Hours:** 16

### **CON133 Construction Technology Lab**

**4 credits**—The Construction Technology Laboratory course offers students the opportunity to further develop their skills with hand and power tool operations, and to devote more time to hands-on construction projects while improving their skill competencies.

**Lab Hours:** 128

### **CON133 Construction Technology Lab**

**4 credits**—The Construction Technology Laboratory course offers students the opportunity to further develop their skills with hand and power tool operations, and to devote more time to hands-on construction projects while improving their skill competencies.

**Lab Hours:** 128

### **CON135 Site Planning**

**3 credits**—Students study procedures for developing site plans for a construction project(s). Students will examine aspects of the development of a job site by considering feasibility studies, zoning requirements, site survey and design, and required permits and other pertinent information. The general outline of the Waterloo and Cedar Falls policies will be used as examples.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** Must be in program major.

### **CON135 Site Planning**

**3 credits**—Students study procedures for developing site plans for a construction project(s). Students will examine aspects of the development of a job site by considering feasibility studies, zoning requirements, site survey and design, and required permits and other pertinent information. The general outline of the Waterloo and Cedar Falls policies will be used as examples.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** Must be in program major.

### **CON146 Construction Technology Lab 2**

**3 credits**—The Construction Technology Lab 2 course will provide students with the opportunity to utilize the knowledge gained in previous construction courses with hands-on applications to construction projects. This course will reinforce construction competencies in applied mathematics, site layout, blue print reading, framing, exterior finishing, interior finishing, sustainable design, and building science.

**Lab Hours:** 96

**Prerequisite(s):** CON133

### **CON146 Construction Technology Lab 2**

**3 credits**—The Construction Technology Lab 2 course will provide students with the opportunity to utilize the knowledge gained in previous construction courses with hands-on applications to construction projects. This course will reinforce construction competencies in applied mathematics, site layout, blue print reading, framing, exterior finishing, interior finishing, sustainable design, and building science.

**Lab Hours:** 96

**Prerequisite(s):** CON133

### **CON201 Framing Techniques and Lab I**

**2 credits**—The Framing Techniques and Lab 1 course will introduce students to the methods used to layout wall lines and plates, measure and cut all required parts, and assemble a floor deck, walls, and roof/ceiling framing with an emphasis on air sealing and advanced framing techniques.

**Lecture Hours:** 16    **Lab Hours:** 32

### **CON201 Framing Techniques and Lab I**

**2 credits**—The Framing Techniques and Lab 1 course will introduce students to the methods used to layout wall lines and plates, measure and cut all required parts, and assemble a floor deck, walls, and roof/ceiling framing with an emphasis on air sealing and advanced framing techniques.

**Lecture Hours:** 16    **Lab Hours:** 32

### **CON214 Exterior Framing Systems I**

**3 credits**—This course will utilize resource efficient advanced framing methods that stress energy efficiency and sustainable design. The "Whole Systems Approach" to residential design and construction will be teamed with Universal Design principles, Optimum Value Engineering techniques, the "Building America" program, and the LEED (Leadership in Energy and Environmental Design) program.

**Lecture Hours:** 16    **Lab Hours:** 64

### **CON214 Exterior Framing Systems I**

**3 credits**—This course will utilize resource efficient advanced framing methods that stress energy efficiency and sustainable design. The "Whole Systems Approach" to residential design and construction will be teamed with Universal Design principles, Optimum Value Engineering techniques, the "Building America" program, and the LEED (Leadership in Energy and Environmental Design) program.

**Lecture Hours:** 16    **Lab Hours:** 64

### **CON217 Exterior Finishing**

**3 credits**—This course will present the various materials used for residential exterior finishes. Topics will include insulated sheathing, building wraps, drainage planes, shingles,

soffits, venting, windows, and exterior doors. Emphasis will be on sustainable construction techniques and building science principles.

**Lecture Hours:** 16    **Lab Hours:** 64

### **CON217 Exterior Finishing**

**3 credits**—This course will present the various materials used for residential exterior finishes. Topics will include insulated sheathing, building wraps, drainage planes, shingles, soffits, venting, windows, and exterior doors. Emphasis will be on sustainable construction techniques and building science principles.

**Lecture Hours:** 16    **Lab Hours:** 64

### **CON228 Methods of Interior Finishing**

**3 credits**—In the Methods of Interior Finishing course, students will discuss the theory and history of the residential interior system. The lab portion of this course will focus on gypsum wallboard installation, taping, finishing, texturing, and painting. The gypsum wallboard work will be followed by the installation of pre-hung door units, casing, base molding, custom trim, closet finishes, hardware, and cabinetry. Universal Design and a focus on indoor air quality will be stressed. Custom interior finish packages may be included.

**Lecture Hours:** 16    **Lab Hours:** 64

### **CON228 Methods of Interior Finishing**

**3 credits**—In the Methods of Interior Finishing course, students will discuss the theory and history of the residential interior system. The lab portion of this course will focus on gypsum wallboard installation, taping, finishing, texturing, and painting. The gypsum wallboard work will be followed by the installation of pre-hung door units, casing, base molding, custom trim, closet finishes, hardware, and cabinetry. Universal Design and a focus on indoor air quality will be stressed. Custom interior finish packages may be included.

**Lecture Hours:** 16    **Lab Hours:** 64

### **CON266 Construction Safety**

**3 credits**—This course includes the 30-Hour Construction Outreach Program as outlined by the OSHA Voluntary Outreach Program. Areas of study include General Safety and Health Provisions, Occupational Health and Environmental Controls (HAZCOM), job site safety, training requirements and an overview of the 1926 Standards (OSHA rules), with emphasis on developing, implementing and maintaining a comprehensive safety and health program.

**Lecture Hours:** 48

### **CON266 Construction Safety**

**3 credits**—This course includes the 30-Hour Construction Outreach Program as outlined by the OSHA Voluntary Outreach Program. Areas of study include General Safety and Health Provisions, Occupational Health and Environmental Controls (HAZCOM), job site safety, training requirements and an overview of the 1926 Standards (OSHA rules), with emphasis on developing, implementing and maintaining a comprehensive safety and health program.

**Lecture Hours:** 48

### **CON290 Construction Estimating and Project Management**

**2 credits**—The Construction Estimating and Project Management course will link construction estimating with project management and scheduling.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CON510.

### **CON290 Construction Estimating and Project Management**

**2 credits**—The Construction Estimating and Project Management course will link construction estimating with project management and scheduling.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CON510.

### **CON302 Building Science I**

**1 credits**—Students will learn building science principles and methods to determine how thermal energy transfer, air infiltration and exfiltration, internal and external air pressures, moisture migration, and durable design strategies apply to today's residential design and construction industry.

**Lecture Hours: 16**

### **CON302 Building Science I**

**1 credits**—Students will learn building science principles and methods to determine how thermal energy transfer, air infiltration and exfiltration, internal and external air pressures, moisture migration, and durable design strategies apply to today's residential design and construction industry.

**Lecture Hours: 16**

### **CON372 Technical Portfolio Design**

**2 credits**—This course provides students with the writing and research skills necessary to compile a personal portfolio documenting their prior education, occupational training and work experiences.

**Lecture Hours: 32**

**Prerequisite(s):** Must be in program major.

### **CON372 Technical Portfolio Design**

**2 credits**—This course provides students with the writing and research skills necessary to compile a personal portfolio documenting their prior education, occupational training and work experiences.

**Lecture Hours: 32**

**Prerequisite(s):** Must be in program major.

### **CON373 Technical Presentations**

**3 credits**—This course highlights essential skills and provides the opportunity for students to develop expertise in both writing for and making technical presentations.

**Lecture Hours:** 48    **Lab Hours:** 64

**Prerequisite(s):** Must be in program major.

### **CON373 Technical Presentations**

**3 credits**—This course highlights essential skills and provides the opportunity for students to develop expertise in both writing for and making technical presentations.

**Lecture Hours:** 48    **Lab Hours:** 64

**Prerequisite(s):** Must be in program major.

### **CON386 Sustainable Design**

**1 credits**—The Sustainable Design Course is an overview of the concepts and strategies involved in sustainable design and construction. The course covers the history of sustainable design, LEED categories, Build It Green, USGBC, NAHB, and local and federal agencies overseeing and mandating green design. Also included are discussions of Green Point Raters, LEED AP, and additional certification opportunities along with market advantages and "Greening your business."

**Lecture Hours:** 16

### **CON386 Sustainable Design**

**1 credits**—The Sustainable Design Course is an overview of the concepts and strategies involved in sustainable design and construction. The course covers the history of sustainable design, LEED categories, Build It Green, USGBC, NAHB, and local and federal agencies overseeing and mandating green design. Also included are discussions of Green Point Raters, LEED AP, and additional certification opportunities along with market advantages and "Greening your business."

**Lecture Hours:** 16

### **CON486 Building Science 2 (Sustainable Design)**

**1 credits**—This course builds upon concepts learned in CON 302 Building Science. Students will focus on applying advanced building science concepts to actual design applications.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in CON302.

### **CON486 Building Science 2 (Sustainable Design)**

**1 credits**—This course builds upon concepts learned in CON 302 Building Science. Students will focus on applying advanced building science concepts to actual design applications.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in CON302.

### **CON510 Construction Technology Lab 3**

**3 credits**—The Construction Technology Lab 3 course will provide students with the opportunity to utilize the knowledge they have gained in their previous construction courses with hands-on applications to construction projects. This course will require that students use their knowledge of construction codes and construction documents and computer aided drafting to provide detailed drawings adhering to the International Energy Conservation Code and Universal Design Principles.

**Lab Hours:** 96

**Prerequisite(s):** CON146

### **CON510 Construction Technology Lab 3**

**3 credits**—The Construction Technology Lab 3 course will provide students with the opportunity to utilize the knowledge they have gained in their previous construction courses with hands-on applications to construction projects. This course will require that students use their knowledge of construction codes and construction documents and computer aided drafting to provide detailed drawings adhering to the International Energy Conservation Code and Universal Design Principles.

**Lab Hours:** 96

**Prerequisite(s):** CON146

### **CON512 Construction Technology Lab 4**

**3 credits**—The Construction Technology Lab 4 course will provide students with the opportunity to utilize the knowledge they have gained in their previous construction, energy, building science, and design courses with hands-on applications to construction projects. This course will require students to use their knowledge of sustainable construction principles; adhering to the International Energy Conservation Code and Universal Design principles.

**Lab Hours:** 96

**Prerequisite(s):** CON510

### **CON512 Construction Technology Lab 4**

**3 credits**—The Construction Technology Lab 4 course will provide students with the opportunity to utilize the knowledge they have gained in their previous construction, energy, building science, and design courses with hands-on applications to construction projects. This course will require students to use their knowledge of sustainable construction principles; adhering to the International Energy Conservation Code and Universal Design principles.

**Lab Hours:** 96

**Prerequisite(s):** CON510

### **CON933 Employment Training Experience**

**4 credits**—This course provides students with opportunities to gain on-the-job experience in the construction industry. Students will gain an understanding of the qualities and skills

needed to be successful in the construction industry. Coordination and guidance will be provided by Department Instructors.

**Lecture Hours:** 0    **Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in CON102.

### **CON933 Employment Training Experience**

**4 credits**—This course provides students with opportunities to gain on-the-job experience in the construction industry. Students will gain an understanding of the qualities and skills needed to be successful in the construction industry. Coordination and guidance will be provided by Department Instructors.

**Lecture Hours:** 0    **Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in CON102.

### **CRJ100 Introduction to Criminal Justice**

**3 credits**—This course examines the day-to-day operation of criminal justice in our society. Emphasis is on the inter-relationships of the components of law enforcement, the courts, corrections, and the juvenile justice system.

**Lecture Hours:** 48

### **CRJ100 Introduction to Criminal Justice**

**3 credits**—This course examines the day-to-day operation of criminal justice in our society. Emphasis is on the inter-relationships of the components of law enforcement, the courts, corrections, and the juvenile justice system.

**Lecture Hours:** 48

### **CRJ120 Introduction to Corrections**

**3 credits**—This course will provide an introductory examination of corrections in the United States. The central theme of the course will be to critically analyze corrections as an integral part of the overall criminal justice system in America.

**Lecture Hours:** 48

### **CRJ120 Introduction to Corrections**

**3 credits**—This course will provide an introductory examination of corrections in the United States. The central theme of the course will be to critically analyze corrections as an integral part of the overall criminal justice system in America.

**Lecture Hours:** 48

### **CRJ141 Criminal Investigation**

**3 credits**—This course examines the techniques and procedures used to investigate crimes.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ141 Criminal Investigation**

**3 credits**—This course examines the techniques and procedures used to investigate crimes.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ143 Police Operations**

**3 credits**—This course examines the operational aspects of policing to include patrol theories and methods, crime response, operational skills and factors that influence police operations.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ143 Police Operations**

**3 credits**—This course examines the operational aspects of policing to include patrol theories and methods, crime response, operational skills and factors that influence police operations.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ151 Defensive Tactics**

**2 credits**—This course provides instruction on self defense and control techniques necessary for law enforcement. Emphasis is placed on physical fitness, officer safety, criminal and civil liability.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ237, CRJ320, and CRJ285.

### **CRJ151 Defensive Tactics**

**2 credits**—This course provides instruction on self defense and control techniques necessary for law enforcement. Emphasis is placed on physical fitness, officer safety, criminal and civil liability.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ237, CRJ320, and CRJ285.

### **CRJ200 Criminology**

**3 credits**—This course explores theories of factors that influence criminal behavior, and analyzes criminal behavior in relationship to other social problems.

**Lecture Hours:** 48

### **CRJ200 Criminology**

**3 credits**—This course explores theories of factors that influence criminal behavior, and analyzes criminal behavior in relationship to other social problems.

**Lecture Hours:** 48

### **CRJ201 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

### **CRJ201 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

### **CRJ233 Probation, Parole, Community-Based Corrections**

**3 credits**—This course examines probation and parole practices related to community-based corrections programs throughout the United States. Emphasis is placed on community-based programs for offenders, administration and legal issues of the programs, trends in probation, parole and related community-based programs.

**Lecture Hours:** 48

**Prerequisite(s):** CRJ100 and CRJ120

### **CRJ233 Probation, Parole, Community-Based Corrections**

**3 credits**—This course examines probation and parole practices related to community-based corrections programs throughout the United States. Emphasis is placed on community-based programs for offenders, administration and legal issues of the programs, trends in probation, parole and related community-based programs.

**Lecture Hours:** 48

**Prerequisite(s):** CRJ100 and CRJ120

### **CRJ234 Traffic Law**

**2 credits**—This course provides in depth examination of the State of Iowa traffic laws, and how traffic code enforcement enhances public safety.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ234 Traffic Law**

**2 credits**—This course provides in depth examination of the State of Iowa traffic laws, and how traffic code enforcement enhances public safety.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ237 Criminal and Constitutional Law**

**3 credits**—This course will review the historical development of constitutional law, the philosophy of law, and the current impact on law enforcement officials. The judicial process will be examined to better understand the societal and political influences that impact current day constitutional decisions. A review of the current constitutional protections afforded to an individual. The course will also provide an examination of the elements of common offenses and the procedural safeguards in the criminal process.

**Lecture Hours:** 48

### **CRJ237 Criminal and Constitutional Law**

**3 credits**—This course will review the historical development of constitutional law, the philosophy of law, and the current impact on law enforcement officials. The judicial process will be examined to better understand the societal and political influences that impact current day constitutional decisions. A review of the current constitutional protections afforded to an individual. The course will also provide an examination of the elements of common offenses and the procedural safeguards in the criminal process.

**Lecture Hours:** 48

### **CRJ244 Advanced Accident Investigation**

**3 credits**—This course covers the fundamentals of traffic investigation to include officer response, scene management, measurements, and report preparation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ244 Advanced Accident Investigation**

**3 credits**—This course covers the fundamentals of traffic investigation to include officer response, scene management, measurements, and report preparation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ252 Basic Firearms**

**1 credits**—This course covers the fundamentals of using a firearm with emphasis on safety, care, and proficient use of firearms to law enforcement standards.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ252 Basic Firearms**

**1 credits**—This course covers the fundamentals of using a firearm with emphasis on safety, care, and proficient use of firearms to law enforcement standards.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ254 Advanced Firearms**

**1 credits**—This course expands skills developed in Basic Firearms, and includes skill and proficiency development with shotgun and patrol rifle.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100 or CRJ252.

### **CRJ254 Advanced Firearms**

**1 credits**—This course expands skills developed in Basic Firearms, and includes skill and proficiency development with shotgun and patrol rifle.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100 or CRJ252.

### **CRJ266 Report Writing and Testifying**

**3 credits**—Report writing and courtroom testimony skills are essential to detail officer activity and enable effective case prosecution. Report writing chronologically details officer investigative activity, and documents elements of a crime. Effective courtroom testimony is vital to the prosecution and resolution of civil and criminal cases.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in ENG105 and CRJ100.

### **CRJ266 Report Writing and Testifying**

**3 credits**—Report writing and courtroom testimony skills are essential to detail officer activity and enable effective case prosecution. Report writing chronologically details officer investigative activity, and documents elements of a crime. Effective courtroom testimony is vital to the prosecution and resolution of civil and criminal cases.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in ENG105 and CRJ100.

### **CRJ282 Crime Scene Investigation**

**3 credits**—This course involves the study of techniques and procedures used to investigate various crimes and crime scenes. The student will gain fundamental skills in photography, evidence preservation, collection, and processing; and scene measurement and documentation.

**Lecture Hours:** 32      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ282 Crime Scene Investigation**

**3 credits**—This course involves the study of techniques and procedures used to investigate various crimes and crime scenes. The student will gain fundamental skills in photography,

evidence preservation, collection, and processing; and scene measurement and documentation.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ285 Physical Conditioning for Public Services**

**2 credits**—This course prepares public safety personnel for the physical demands of public safety entrance testing and work demands.

**Lecture Hours:** 16    **Lab Hours:** 32

### **CRJ285 Physical Conditioning for Public Services**

**2 credits**—This course prepares public safety personnel for the physical demands of public safety entrance testing and work demands.

**Lecture Hours:** 16    **Lab Hours:** 32

### **CRJ315 Crisis Intervention**

**3 credits**—This course uses a criminal justice perspective to examine the methods and techniques of crisis intervention, causative factors, typologies of those involved, and psycho-social factors of crisis situations. A certificate in Mental Health First Aid is included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100 and CRJ237.

### **CRJ315 Crisis Intervention**

**3 credits**—This course uses a criminal justice perspective to examine the methods and techniques of crisis intervention, causative factors, typologies of those involved, and psycho-social factors of crisis situations. A certificate in Mental Health First Aid is included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100 and CRJ237.

### **CRJ316 Juvenile Justice**

**3 credits**—This course examines the juvenile justice system from a practitioner perspective. It provides operational knowledge of how law enforcement, the courts, and correctional facilities navigate the juvenile offender.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ316 Juvenile Justice**

**3 credits**—This course examines the juvenile justice system from a practitioner perspective. It provides operational knowledge of how law enforcement, the courts, and correctional facilities navigate the juvenile offender.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ317 White Collar Crime**

**3 credits**—This course examines white collar crime as a social and criminal justice problem, the costs to society, explanations for behavior, and investigative techniques.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100 and CRJ237.

### **CRJ317 White Collar Crime**

**3 credits**—This course examines white collar crime as a social and criminal justice problem, the costs to society, explanations for behavior, and investigative techniques.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100 and CRJ237.

### **CRJ318 Crime Analysis**

**3 credits**—This course enables the student to use intelligence and analytic data to identify and inform tactical, strategic, and administrative crime analysis functions.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ318 Crime Analysis**

**3 credits**—This course enables the student to use intelligence and analytic data to identify and inform tactical, strategic, and administrative crime analysis functions.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ320 Criminal Justice Ethics**

**3 credits**—An examination of ethical issues in the criminal justice system with an emphasis on reasoning and decision making for professional competence.

**Lecture Hours:** 48

### **CRJ320 Criminal Justice Ethics**

**3 credits**—An examination of ethical issues in the criminal justice system with an emphasis on reasoning and decision making for professional competence.

**Lecture Hours:** 48

### **CRJ322 Tactical Police Operations**

**2 credits**—This course challenges student skills and decision making within scenario based learning activities.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ151, CRJ254, and EMS114.

### **CRJ322 Tactical Police Operations**

**2 credits**—This course challenges student skills and decision making within scenario based learning activities.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CRJ151, CRJ254, and EMS114.

### **CRJ924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **CRJ924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **CRJ928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **CRJ928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **CRJ952 Internship**

**2 credits**—This course requires 128 hours of supervised placement with a law enforcement agency. Course eligibility requires criminal background check. Placement dependent on agency assessment of student fitness to meet hiring requirements. Instructor consent required.

**Co-op Hours: 128**

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ135, CRJ143, CRJ234, CRJ237, CRJ244, CRJ282, EMS114, and CRJ151.

### **CRJ952 Internship**

**2 credits**—This course requires 128 hours of supervised placement with a law enforcement agency. Course eligibility requires criminal background check. Placement dependent on agency assessment of student fitness to meet hiring requirements. Instructor consent required.

**Co-op Hours:** 128

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ135, CRJ143, CRJ234, CRJ237, CRJ244, CRJ282, EMS114, and CRJ151.

### **CRJ955 Field Observation**

**3 credits**—Student field experience in an appropriate correctional agency. Enrollment is restricted to second year students who have a minimum 2.00 CGPA and have successfully completed advisor approved courses. Placement based on approval of faculty advisor and host agency.

**Lecture Hours:** 16     **Co-op Hours:** 128

**Prerequisite(s):** CRJ110 or CRJ120

### **CRJ955 Field Observation**

**3 credits**—Student field experience in an appropriate correctional agency. Enrollment is restricted to second year students who have a minimum 2.00 CGPA and have successfully completed advisor approved courses. Placement based on approval of faculty advisor and host agency.

**Lecture Hours:** 16     **Co-op Hours:** 128

**Prerequisite(s):** CRJ110 or CRJ120

### **CRR306 Introduction to Collision Repair**

**6 credits**—In this course students receive training on the proper handling of hazardous waste and EPA issues together with technical information about specific auto body safety and health situations. Specific training is provided in tools/equipment usage, parts assembly, filler application, and straightening techniques. Students will also receive training in autobody welding.

**Lecture Hours:** 48     **Lab Hours:** 96

### **CRR306 Introduction to Collision Repair**

**6 credits**—In this course students receive training on the proper handling of hazardous waste and EPA issues together with technical information about specific auto body safety and health situations. Specific training is provided in tools/equipment usage, parts assembly, filler application, and straightening techniques. Students will also receive training in autobody welding.

**Lecture Hours:** 48     **Lab Hours:** 96

### **CRR331 Basic Collision Procedures**

**6 credits**—This course covers specific collision tool and equipment usage, panel repair and alignment, sheet metal pulling and stress relieving, mobile glass servicing, trim removal and replacement, and basic collision repair techniques. Performance tasks will require students to work in actual production style situations. Projects will include straightening collision damage and filler application, utilizing corrosion resistant undercoat/primer.

**Lecture Hours:** 48    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR306.

### **CRR331 Basic Collision Procedures**

**6 credits**—This course covers specific collision tool and equipment usage, panel repair and alignment, sheet metal pulling and stress relieving, mobile glass servicing, trim removal and replacement, and basic collision repair techniques. Performance tasks will require students to work in actual production style situations. Projects will include straightening collision damage and filler application, utilizing corrosion resistant undercoat/primer.

**Lecture Hours:** 48    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR306.

### **CRR510 Collision Production Technology**

**7 credits**—In this course, students will receive information and training in common collision repair procedures performed by production collision centers. Specific training is provided in straightening procedures for light and heavy collision damage, specialized tools and equipment, and air conditioning systems relating to collision damage.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR331.

### **CRR510 Collision Production Technology**

**7 credits**—In this course, students will receive information and training in common collision repair procedures performed by production collision centers. Specific training is provided in straightening procedures for light and heavy collision damage, specialized tools and equipment, and air conditioning systems relating to collision damage.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR331.

### **CRR657 Advanced Collision Repair**

**7 credits**—In this course, students will receive hands on experience involving high production practices used by industry collision repair technicians. Students will receive training in collision related suspension and steering systems. Additional training will be received in drive train repairs, wheel alignment, brakes, and other vehicle collision related repairs, tools, and equipment.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR510.

### **CRR657 Advanced Collision Repair**

**7 credits**—In this course, students will receive hands on experience involving high production practices used by industry collision repair technicians. Students will receive training in collision related suspension and steering systems. Additional training will be received in drive train repairs, wheel alignment, brakes, and other vehicle collision related repairs, tools, and equipment.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR510.

### **CRR740 Estimating I**

**3 credits**—This course provides instructional experience in collision handwritten estimating.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CRR836 and CRR331.

### **CRR740 Estimating I**

**3 credits**—This course provides instructional experience in collision handwritten estimating.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CRR836 and CRR331.

### **CRR750 Estimating II**

**3 credits**—Introduce students to various aspects of computerized estimating software while reinforcing repair procedures.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CRR740.

### **CRR750 Estimating II**

**3 credits**—Introduce students to various aspects of computerized estimating software while reinforcing repair procedures.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CRR740.

### **CRR806 Introduction to Refinishing**

**6 credits**—Students receive training in use of sanding abrasives, refinishing products, tools and equipment, masking procedures, corrosion protection, and paint preparations. A thorough understanding of personal health and safety issues is also obtained.

**Lecture Hours:** 48    **Lab Hours:** 96

### **CRR806 Introduction to Refinishing**

**6 credits**—Students receive training in use of sanding abrasives, refinishing products, tools and equipment, masking procedures, corrosion protection, and paint preparations. A thorough understanding of personal health and safety issues is also obtained.

**Lecture Hours:** 48    **Lab Hours:** 96

### **CRR836 Refinishing II**

**6 credits**—Fundamentals of spraying automotive paints are provided in this course together with the uses and application of various types of top coat systems and color mixing/matching using computers.

**Lecture Hours:** 48    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR806.

### **CRR836 Refinishing II**

**6 credits**—Fundamentals of spraying automotive paints are provided in this course together with the uses and application of various types of top coat systems and color mixing/matching using computers.

**Lecture Hours:** 48    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR806.

### **CRR877 Refinishing Applications**

**7 credits**—This course provides training in paint repair procedures used to match and blend partial or full panel refinish repairs. Students will be exposed to various procedures used in refinishing systems. Students will also receive training in basic electrical fundamentals and basic air bag systems as they apply to collision and refinishing repairs.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR836.

### **CRR877 Refinishing Applications**

**7 credits**—This course provides training in paint repair procedures used to match and blend partial or full panel refinish repairs. Students will be exposed to various procedures used in refinishing systems. Students will also receive training in basic electrical fundamentals and basic air bag systems as they apply to collision and refinishing repairs.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR836.

### **CRR881 Refinishing Production Technology**

**7 credits**—In this course, students will receive hands on experience involving high production practices used by industry technicians. Students will be exposed to time management performance tasks involved in numerous areas of refinishing. Skill levels will be enhanced for various refinish tasks such as paint preparation, masking procedures, blending, and overall refinishing.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR877.

### **CRR881 Refinishing Production Technology**

**7 credits**—In this course, students will receive hands on experience involving high production practices used by industry technicians. Students will be exposed to time management performance tasks involved in numerous areas of refinishing. Skill levels will be enhanced for various refinish tasks such as paint preparation, masking procedures, blending, and overall refinishing.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR877.

### **CSC110 Introduction to Computers**

**3 credits**—An introductory course in electronic information processing and information system management designed to provide the students with a general understanding of computer hardware and software and the facility to use this knowledge in the creation and management of useful information. Students will be given hands-on experience with operating system, word processing, database management, presentation and spreadsheet software. Exposure to and use of the Internet, including security and privacy concerns, is an integral part of the course. Basic computer literacy is expected for students entering this course.

**Lecture Hours:** 48

**Prerequisite(s):** The ability to enter data using a computer keyboard at a rate of no less than 15 words per minute on a three-minute timing. A minimum grade of C in RDG039.

### **CSC110 Introduction to Computers**

**3 credits**—An introductory course in electronic information processing and information system management designed to provide the students with a general understanding of computer hardware and software and the facility to use this knowledge in the creation and management of useful information. Students will be given hands-on experience with operating system, word processing, database management, presentation and spreadsheet software. Exposure to and use of the Internet, including security and privacy concerns, is an integral part of the course. Basic computer literacy is expected for students entering this course.

**Lecture Hours:** 48

**Prerequisite(s):** The ability to enter data using a computer keyboard at a rate of no less than 15 words per minute on a three-minute timing. A minimum grade of C in RDG039.

### **DEA103 Orientation to Dental Assist**

**2 credits**—This course introduces students to dentistry, certification, dental terminology, and legal and ethical aspects of dental practice. Concepts and procedures of preventive dentistry and oral health education are also included.

**Lecture Hours:** 32

### **DEA103 Orientation to Dental Assist**

**2 credits**—This course introduces students to dentistry, certification, dental terminology, and legal and ethical aspects of dental practice. Concepts and procedures of preventive dentistry and oral health education are also included.

**Lecture Hours:** 32

### **DEA258 Dental Anatomy**

**4 credits**—This course presents oral and dental structures, head and neck anatomy, oral embryology and histology, and the relationship of oral and dental anatomy to dental procedures and treatment. Also included is a study of basic microbiology, disease transmission and the relationship of disease processes.

**Lecture Hours:** 48    **Lab Hours:** 32

### **DEA258 Dental Anatomy**

**4 credits**—This course presents oral and dental structures, head and neck anatomy, oral embryology and histology, and the relationship of oral and dental anatomy to dental procedures and treatment. Also included is a study of basic microbiology, disease transmission and the relationship of disease processes.

**Lecture Hours:** 48    **Lab Hours:** 32

### **DEA263 Dental Science II**

**2 credits**—This course provides students with basic understanding of biomedical and dental sciences including: Oral pathology and disease processes, pharmacology and therapeutics, emergency treatment, oral hygiene, and nutrition and dietary considerations for dental patients.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO158, BIO160, and DEA103.

### **DEA263 Dental Science II**

**2 credits**—This course provides students with basic understanding of biomedical and dental sciences including: Oral pathology and disease processes, pharmacology and therapeutics, emergency treatment, oral hygiene, and nutrition and dietary considerations for dental patients.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO158, BIO160, and DEA103.

### **DEA302 Dental Radiography**

**3 credits**—This course covers the principles, properties, techniques and protective procedures involved with exposure of dental radiographs. Primary emphasis is on the development of skill proficiency in techniques of intraoral and extraoral dental radiography.

**Lecture Hours:** 32    **Lab Hours:** 32

### **DEA302 Dental Radiography**

**3 credits**—This course covers the principles, properties, techniques and protective procedures involved with exposure of dental radiographs. Primary emphasis is on the development of skill proficiency in techniques of intraoral and extraoral dental radiography.

**Lecture Hours:** 32    **Lab Hours:** 32

### **DEA412 Dental Materials I**

**3 credits**—This course provides information related to various dental materials, their composition, classification, manipulation, preparation and usage. Emphasis is given to materials commonly used in the practice of general dentistry.

**Lecture Hours: 32    Lab Hours: 32**

### **DEA412 Dental Materials I**

**3 credits**—This course provides information related to various dental materials, their composition, classification, manipulation, preparation and usage. Emphasis is given to materials commonly used in the practice of general dentistry.

**Lecture Hours: 32    Lab Hours: 32**

### **DEA417 Dental Materials II**

**2 credits**—This course is a study of restorative materials; specifically gold, porcelain, denture resin, and other metals and their usage in dentistry. Additional laboratory procedures commonly performed in dental offices are also included.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in DEA412.

### **DEA417 Dental Materials II**

**2 credits**—This course is a study of restorative materials; specifically gold, porcelain, denture resin, and other metals and their usage in dentistry. Additional laboratory procedures commonly performed in dental offices are also included.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in DEA412.

### **DEA513 Chairside Assisting I**

**4 credits**—This course is a study of basic operative and chairside assisting procedures; dental equipment, its function and maintenance; dental armamentarium, instrumentation, procedural tray setups, charting, development of clinical records, and patient screening procedures.

**Lecture Hours: 32**

### **DEA513 Chairside Assisting I**

**4 credits**—This course is a study of basic operative and chairside assisting procedures; dental equipment, its function and maintenance; dental armamentarium, instrumentation, procedural tray setups, charting, development of clinical records, and patient screening procedures.

**Lecture Hours: 32**

### **DEA514 Chairside Assisting II**

**2 credits**—This course presents instruction in additional chairside assisting procedures including intraoral functions that are legally delegable to dental assistants in Iowa. All procedures are taught to the level of laboratory competence, and some procedures are

taught to clinical competency levels. A study of patient behavior and considerations for special patients is also included.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DEA513.

### **DEA514 Chairside Assisting II**

**2 credits**—This course presents instruction in additional chairside assisting procedures including intraoral functions that are legally delegable to dental assistants in Iowa. All procedures are taught to the level of laboratory competence, and some procedures are taught to clinical competency levels. A study of patient behavior and considerations for special patients is also included.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DEA513.

### **DEA556 Assisting Clinic I**

**4 credits**—This course provides students with selected clinical experiences in those basic chairside dental assisting procedures commonly performed in a general dental office. Facilities used will be primarily the school dental clinic and private dental offices. Students will assist dentists in accomplishing necessary dental procedures for patients while rotating through the clinical areas to obtain maximum clinical exposures and experiences. All clinical procedures are performed with supervision of participating dentists and instructors.

**Lecture Hours:** 0    **Lab Hours:** 0    **Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in all Dental Assisting first semester courses and/or departmental approval. Current CPR and Health Sciences department Exposure Control program, OSHA training, and HIPAA training.

### **DEA556 Assisting Clinic I**

**4 credits**—This course provides students with selected clinical experiences in those basic chairside dental assisting procedures commonly performed in a general dental office. Facilities used will be primarily the school dental clinic and private dental offices. Students will assist dentists in accomplishing necessary dental procedures for patients while rotating through the clinical areas to obtain maximum clinical exposures and experiences. All clinical procedures are performed with supervision of participating dentists and instructors.

**Lecture Hours:** 0    **Lab Hours:** 0    **Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in all Dental Assisting first semester courses and/or departmental approval. Current CPR and Health Sciences department Exposure Control program, OSHA training, and HIPAA training.

### **DEA578 Dental Assisting Clinic II**

**5 credits**—Application of knowledge and skill as students rotate through dental offices. General and specialty practices are included in rotations.

**Lecture Hours:** 0    **Co-op Hours:** 320

**Co-requisite(s):** DEA591

### **DEA578 Dental Assisting Clinic II**

**5 credits**—Application of knowledge and skill as students rotate through dental offices. General and specialty practices are included in rotations.

**Lecture Hours:** 0    **Co-op Hours:** 320

**Co-requisite(s):** DEA591

### **DEA591 Dental Assisting Seminar**

**1 credits**—Discussion and problem-solving from clinical practice. Provides an awareness of types of office situations and discussion of clinical aspects of dental assisting and dentistry. Oral reports and weekly evaluations are required.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DEA263, DEA417, DEA514, DEA556, DEA603, and DEA702.

**Co-requisite(s):** DEA578

### **DEA591 Dental Assisting Seminar**

**1 credits**—Discussion and problem-solving from clinical practice. Provides an awareness of types of office situations and discussion of clinical aspects of dental assisting and dentistry. Oral reports and weekly evaluations are required.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DEA263, DEA417, DEA514, DEA556, DEA603, and DEA702.

**Co-requisite(s):** DEA578

### **DEA603 Dental Specialties**

**2 credits**—This course provides students with knowledge and understanding of dental procedures in the specialties of Endodontics, Oral Surgery, Prosthodontics, Pediatric Dentistry, Orthodontics and Periodontics. Students are introduced to assisting responsibilities, instrumentation, and procedures of each of these specialties. Dental Public Health and Oral Pathology, as dental specialties, will also be included.

**Lecture Hours:** 32

### **DEA603 Dental Specialties**

**2 credits**—This course provides students with knowledge and understanding of dental procedures in the specialties of Endodontics, Oral Surgery, Prosthodontics, Pediatric Dentistry, Orthodontics and Periodontics. Students are introduced to assisting responsibilities, instrumentation, and procedures of each of these specialties. Dental Public Health and Oral Pathology, as dental specialties, will also be included.

**Lecture Hours:** 32

### **DEA702 Dental Office Procedures**

**2 credits**—This course is a study of basic responsibilities of dental office receptionists. Procedures included in the course are: management of patient records, filing, completion of insurance claim forms, basic bookkeeping, banking, appointment control, recall management, inventory control, credit and collection, and employer records management. Instruction is provided in computer applications relating to these office management procedures. Also included in this course is a study of office design and office management concepts.

**Lecture Hours:** 32

### **DEA702 Dental Office Procedures**

**2 credits**—This course is a study of basic responsibilities of dental office receptionists. Procedures included in the course are: management of patient records, filing, completion of insurance claim forms, basic bookkeeping, banking, appointment control, recall management, inventory control, credit and collection, and employer records management. Instruction is provided in computer applications relating to these office management procedures. Also included in this course is a study of office design and office management concepts.

**Lecture Hours:** 32

### **DHY115 Head and Neck Anatomy for Dental Hygiene**

**2 credits**—This course familiarizes the student with the anatomy of the head and neck, oral structures. Knowledge of the anatomy of the head and neck and oral structures is an essential prerequisite of such courses as clinical dental hygiene.

**Lecture Hours:** 32

**Prerequisite(s):** Admission to Dental Hygiene program.

### **DHY115 Head and Neck Anatomy for Dental Hygiene**

**2 credits**—This course familiarizes the student with the anatomy of the head and neck, oral structures. Knowledge of the anatomy of the head and neck and oral structures is an essential prerequisite of such courses as clinical dental hygiene.

**Lecture Hours:** 32

**Prerequisite(s):** Admission to Dental Hygiene program.

### **DHY116 Tooth Morphology**

**1 credits**—This course will teach the anatomy and structure of each individual tooth crown and root. Permanent and primary dentitions will be studied with emphasis on identification, numbering systems, function, and application of instrumentation skills to each tooth surface.

**Lecture Hours:** 16

**Prerequisite(s):** Must be in program major.

### **DHY116 Tooth Morphology**

**1 credits**—This course will teach the anatomy and structure of each individual tooth crown and root. Permanent and primary dentitions will be studied with emphasis on identification, numbering systems, function, and application of instrumentation skills to each tooth surface.

**Lecture Hours:** 16

**Prerequisite(s):** Must be in program major.

### **DHY121 Oral Histology and Embryology**

**2 credits**—This course presents the anatomy of the tooth and its surrounding tissues on a microscopic level. The formation of the face before birth is studied and is followed by an examination of each part of the tooth and its surrounding structures during formation, eruption and function of both the primary and permanent dentitions.

**Lecture Hours:** 32

**Prerequisite(s):** Admission to Dental Hygiene program.

### **DHY121 Oral Histology and Embryology**

**2 credits**—This course presents the anatomy of the tooth and its surrounding tissues on a microscopic level. The formation of the face before birth is studied and is followed by an examination of each part of the tooth and its surrounding structures during formation, eruption and function of both the primary and permanent dentitions.

**Lecture Hours:** 32

**Prerequisite(s):** Admission to Dental Hygiene program.

### **DHY131 Pharmacology**

**2 credits**—This course will provide the student with an academic background in the area of pharmacology with relation to the drugs used in the dental practice. The metric system, terminology, drugs and their specific reactions will be presented.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO173 and CHM132.

### **DHY131 Pharmacology**

**2 credits**—This course will provide the student with an academic background in the area of pharmacology with relation to the drugs used in the dental practice. The metric system, terminology, drugs and their specific reactions will be presented.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO173 and CHM132.

### **DHY141 General and Oral Pathology**

**3 credits**—This lecture course addresses concepts of both General and Oral Pathology. General Pathology content provides information regarding human disease and reviews major diseases of the human body, discussed by system. Oral Pathology content emphasizes pathological conditions of the head, neck and oral structures and relates this information to the Dental Hygiene Model

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in DHY121.

**Pre/Co-requisite(s):** A minimum grade of C in BIO173.

### **DHY141 General and Oral Pathology**

**3 credits**—This lecture course addresses concepts of both General and Oral Pathology. General Pathology content provides information regarding human disease and reviews major diseases of the human body, discussed by system. Oral Pathology content emphasizes pathological conditions of the head, neck and oral structures and relates this information to the Dental Hygiene Model

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in DHY121.

**Pre/Co-requisite(s):** A minimum grade of C in BIO173.

### **DHY162 Oral Radiology**

**2 credits**—Oral Radiology teaches the basic techniques of exposure of common types of dental radiographs, film processing procedures, setup and care of the darkroom, science of the x-ray beam, and operation of standard and panoramic x-ray equipment. Lifelike manikins for student practice are utilized, and emphasis is placed on radiation safety procedures for both patient and operator.

**Lecture Hours:** 16

**Prerequisite(s):** Admission to the Dental Hygiene program.

### **DHY162 Oral Radiology**

**2 credits**—Oral Radiology teaches the basic techniques of exposure of common types of dental radiographs, film processing procedures, setup and care of the darkroom, science of the x-ray beam, and operation of standard and panoramic x-ray equipment. Lifelike manikins for student practice are utilized, and emphasis is placed on radiation safety procedures for both patient and operator.

**Lecture Hours:** 16

**Prerequisite(s):** Admission to the Dental Hygiene program.

### **DHY175 Fundamentals of Clinical Dental Hygiene**

**6 credits**—This course serves as a foundation to Clinical Dental Hygiene II, III, and IV. The student will learn the skills of dental hygiene practice and client management through simulated clinical situations as well as in lecture/discussion sessions.

**Lecture Hours:** 48

**Prerequisite(s):** Admission to the Dental Hygiene program.

### **DHY175 Fundamentals of Clinical Dental Hygiene**

**6 credits**—This course serves as a foundation to Clinical Dental Hygiene II, III, and IV. The student will learn the skills of dental hygiene practice and client management through simulated clinical situations as well as in lecture/discussion sessions.

**Lecture Hours:** 48

**Prerequisite(s):** Admission to the Dental Hygiene program.

### **DHY187 Clinical Dental Hygiene II**

**3 credits**—This course is the first of three in a sequence that provides clinical experience. The student applies the Dental Hygiene Process of Care while working with actual clinic clients. The emphasis of this course is to achieve competency in basic assessment and preventative dental hygiene treatment skills.

**Clinic Hours:** 144

**Prerequisite(s):** A minimum grade of C in DHY175 and DHY162.

**Pre/Co-requisite(s):** DHY188

### **DHY187 Clinical Dental Hygiene II**

**3 credits**—This course is the first of three in a sequence that provides clinical experience. The student applies the Dental Hygiene Process of Care while working with actual clinic clients. The emphasis of this course is to achieve competency in basic assessment and preventative dental hygiene treatment skills.

**Clinic Hours:** 144

**Prerequisite(s):** A minimum grade of C in DHY175 and DHY162.

**Pre/Co-requisite(s):** DHY188

### **DHY188 Clinical Dental Hygiene II Seminar**

**1 credits**—Dental Hygiene Practicum II complements Clinical Dental Hygiene II by supplying the theory behind the Dental Hygiene Process of Care. This course also introduces the theory behind basic procedures needed to provide comprehensive dental hygiene care.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175 and DHY162.

**Pre/Co-requisite(s):** DHY187

### **DHY188 Clinical Dental Hygiene II Seminar**

**1 credits**—Dental Hygiene Practicum II complements Clinical Dental Hygiene II by supplying the theory behind the Dental Hygiene Process of Care. This course also introduces the theory behind basic procedures needed to provide comprehensive dental hygiene care.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175 and DHY162.

**Pre/Co-requisite(s):** DHY187

### **DHY210 Introduction To Periodontology**

**1 credits**—This course will provide first year students the basic concepts and fundamentals of periodontal health and disease. The student will be able to relate this knowledge to the clinical setting.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY121.

**Pre/Co-requisite(s):** DHY141

### **DHY210 Introduction To Periodontology**

**1 credits**—This course will provide first year students the basic concepts and fundamentals of periodontal health and disease. The student will be able to relate this knowledge to the clinical setting.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY121.

**Pre/Co-requisite(s):** DHY141

### **DHY211 Periodontology**

**2 credits**—An in-depth study of the healthy and diseased periodontium is covered in this course. The student will be able to relate this knowledge to the clinical setting.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY141 and DHY210.

### **DHY211 Periodontology**

**2 credits**—An in-depth study of the healthy and diseased periodontium is covered in this course. The student will be able to relate this knowledge to the clinical setting.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY141 and DHY210.

### **DHY222 Biomaterials for the Dental Hygienist**

**3 credits**—This course introduces the dental hygiene student to the materials commonly employed in the practice of dentistry and, in particular, to those materials utilized by the dental hygienist. Through lecture sessions, the makeup and properties of the various materials such as plaster and stone, impression material, amalgam and cements are presented, as well as their relationship to one another. Through laboratory experience, the student learns techniques in preparation, mixing, handling and storage of these materials.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in CHM122.

**Co-requisite(s):** A minimum grade of C in CHM132.

### **DHY222 Biomaterials for the Dental Hygienist**

**3 credits**—This course introduces the dental hygiene student to the materials commonly employed in the practice of dentistry and, in particular, to those materials utilized by the dental hygienist. Through lecture sessions, the makeup and properties of the various materials such as plaster and stone, impression material, amalgam and cements are presented, as well as their relationship to one another. Through laboratory experience, the student learns techniques in preparation, mixing, handling and storage of these materials.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in CHM122.

**Co-requisite(s):** A minimum grade of C in CHM132.

### **DHY240 Ethics and Jurisprudence**

**1 credits**—This course presents background on the theory, philosophy and ethics for dental hygiene and the profession. Legal aspects of practice are presented as well as aspects of entry into practice and job seeking skills.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175.

### **DHY240 Ethics and Jurisprudence**

**1 credits**—This course presents background on the theory, philosophy and ethics for dental hygiene and the profession. Legal aspects of practice are presented as well as aspects of entry into practice and job seeking skills.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175.

### **DHY254 Community Oral Health I**

**2 credits**—The purpose of this course is to provide the student with a background in the development and functions of federal, state and local health systems, and to prepare the student to participate in community health activities.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY188 and SOC110.

### **DHY254 Community Oral Health I**

**2 credits**—The purpose of this course is to provide the student with a background in the development and functions of federal, state and local health systems, and to prepare the student to participate in community health activities.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY188 and SOC110.

### **DHY259 Community Oral Health Service Learning Experience**

**1 credits**—This course is designed to provide the students with experience developing and evaluating community oral health programs.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY254.

### **DHY259 Community Oral Health Service Learning Experience**

**1 credits**—This course is designed to provide the students with experience developing and evaluating community oral health programs.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY254.

### **DHY262 Special Needs Patient Education**

**1 credits**—This course provides basic concepts of learning for behavioral change and the care of patients with special needs.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175.

### **DHY262 Special Needs Patient Education**

**1 credits**—This course provides basic concepts of learning for behavioral change and the care of patients with special needs.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175.

### **DHY271 Pain Control**

**2 credits**—This course provides the knowledge and skills necessary for the student to perform pain control techniques competently. The course will discuss both the content needed to perform local anesthesia and to perform nitrous oxide/oxygen administration and monitoring.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY113 and DHY185.

**Co-requisite(s):** A minimum grade of C in DHY131.

### **DHY271 Pain Control**

**2 credits**—This course provides the knowledge and skills necessary for the student to perform pain control techniques competently. The course will discuss both the content needed to perform local anesthesia and to perform nitrous oxide/oxygen administration and monitoring.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY113 and DHY185.

**Co-requisite(s):** A minimum grade of C in DHY131.

### **DHY272 Interdisciplinary Health Care**

**2 credits**—This course will use specialists in the varied health fields to make the student aware of the interrelationships between these specialties and dental hygiene. Additionally, the course promotes an understanding of the potential dental hygiene practice settings through observations made in rotation in the community.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY254 and DHY297.

### **DHY272 Interdisciplinary Health Care**

**2 credits**—This course will use specialists in the varied health fields to make the student aware of the interrelationships between these specialties and dental hygiene. Additionally, the course promotes an understanding of the potential dental hygiene practice settings through observations made in rotation in the community.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY254 and DHY297.

### **DHY297 Clinical Dental Hygiene III**

**4 credits**—This course enables the students to provide comprehensive dental hygiene care to meet the total oral health needs of each client, including referrals for treatment. Students will progressively increase their clinical abilities toward levels of proficiency required for entry level as measured by fulfillment of the clinic competencies for the semester.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in DHY187 and DHY188.

**Co-requisite(s):** DHY211 and DHY298

### **DHY297 Clinical Dental Hygiene III**

**4 credits**—This course enables the students to provide comprehensive dental hygiene care to meet the total oral health needs of each client, including referrals for treatment. Students will progressively increase their clinical abilities toward levels of proficiency required for entry level as measured by fulfillment of the clinic competencies for the semester.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in DHY187 and DHY188.

**Co-requisite(s):** DHY211 and DHY298

### **DHY298 Clinical Dental Hygiene III Seminar**

**2 credits**—This course will: Introduce adjunctive dental hygiene procedures/techniques and disease control theory along with research methodology. The course also expands on instrumentation techniques, case-based problem solving and radiographic interpretation.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY187 and DHY188.

**Co-requisite(s):** DHY271 and DHY297

### **DHY298 Clinical Dental Hygiene III Seminar**

**2 credits**—This course will: Introduce adjunctive dental hygiene procedures/techniques and disease control theory along with research methodology. The course also expands on instrumentation techniques, case-based problem solving and radiographic interpretation.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY187 and DHY188.

**Co-requisite(s):** DHY271 and DHY297

### **DHY307 Clinical Dental Hygiene IV**

**4 credits**—This course is the final preparation for the students in clinical practice. When the course is completed, the student will have the proficiency and skill to maintain the ideals of the dental hygiene profession.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in DHY271, and DHY197, and DHY298.

### **DHY307 Clinical Dental Hygiene IV**

**4 credits**—This course is the final preparation for the students in clinical practice. When the course is completed, the student will have the proficiency and skill to maintain the ideals of the dental hygiene profession.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in DHY271, and DHY197, and DHY298.

### **DHY308 Clinical Dental Hygiene Seminar IV**

**1 credits**—This course will incorporate dental hygiene care with critical thinking and case studies for the students as they prepare for dental hygiene licensure.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY271, and DHY197, and DHY298.

**Co-requisite(s):** DHY307

### **DHY308 Clinical Dental Hygiene Seminar IV**

**1 credits**—This course will incorporate dental hygiene care with critical thinking and case studies for the students as they prepare for dental hygiene licensure.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY271, and DHY197, and DHY298.

**Co-requisite(s):** DHY307

### **DHY901 Independent Study Clinical Dental Hygiene**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics

pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lab Hours:** 32

### **DHY901 Independent Study Clinical Dental Hygiene**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lab Hours:** 32

### **DHY924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **DHY924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **DHY928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **DHY928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **DRA107 Theatrical Arts and Society**

**3 credits**—This course introduces students to a literary appreciation of drama throughout history. Emphasis will be on reading, discussing, and evaluating various plays representative of their era and genre along with discussion of live theatre, film and television performances and how these kinds of dramatic narratives interrelate with societies of the past and present.

**Lecture Hours:** 48

### **DRA107 Theatrical Arts and Society**

**3 credits**—This course introduces students to a literary appreciation of drama throughout history. Emphasis will be on reading, discussing, and evaluating various plays representative of their era and genre along with discussion of live theatre, film and television performances and how these kinds of dramatic narratives interrelate with societies of the past and present.

**Lecture Hours:** 48

### **DRA110 Introduction to Film**

**3 credits**—This course introduces students to the various language systems of film, including film-making techniques, creators, genres, narratives, ideology, and film theory/criticism. Students will explore the cultural importance of cinema as art by analyzing selected movies and clips which demonstrate artistic excellence.

**Lecture Hours:** 48

### **DRA110 Introduction to Film**

**3 credits**—This course introduces students to the various language systems of film, including film-making techniques, creators, genres, narratives, ideology, and film theory/criticism. Students will explore the cultural importance of cinema as art by analyzing selected movies and clips which demonstrate artistic excellence.

**Lecture Hours:** 48

### **DRA130 Acting I**

**3 credits**—This course introduces the basic acting techniques with emphasis on concentration, movement, voice, and play analysis. Through monologue and scene work, as well as exercises, students will experience the acting process.

**Lecture Hours:** 48

### **DRA130 Acting I**

**3 credits**—This course introduces the basic acting techniques with emphasis on concentration, movement, voice, and play analysis. Through monologue and scene work, as well as exercises, students will experience the acting process.

**Lecture Hours:** 48

### **DRF110 Introduction to Technical Drafting**

**2 credits**—This course introduces the student to the drafting environment and includes basic knowledge and fundamental skills of manual drafting. Special emphasis is placed on reproducible line quality, lettering, geometric constructions and layout techniques.

**Lecture Hours:** 16    **Lab Hours:** 32

### **DRF110 Introduction to Technical Drafting**

**2 credits**—This course introduces the student to the drafting environment and includes basic knowledge and fundamental skills of manual drafting. Special emphasis is placed on reproducible line quality, lettering, geometric constructions and layout techniques.

**Lecture Hours:** 16    **Lab Hours:** 32

### **DSL312 Fundamentals of Diesel Engines, Transmissions, and Differentials**

**12 credits**—Students are introduced to diesel engine application, design, construction, theory and operating principles of diesel engines, transmissions and differentials. This course also covers diagnosis, disassembly, and assembly of diesel engines, transmission and differentials.

**Lecture Hours:** 80

### **DSL312 Fundamentals of Diesel Engines, Transmissions, and Differentials**

**12 credits**—Students are introduced to diesel engine application, design, construction, theory and operating principles of diesel engines, transmissions and differentials. This course also covers diagnosis, disassembly, and assembly of diesel engines, transmission and differentials.

**Lecture Hours:** 80

### **DSL377 Diesel Engine Rebuild**

**7 credits**—Students are introduced to diesel engine application, design, construction, theory, and operating principles. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 80

### **DSL377 Diesel Engine Rebuild**

**7 credits**—Students are introduced to diesel engine application, design, construction, theory, and operating principles. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 80

### **DSL447 Diesel Fuel Systems**

**7 credits**—This course focuses on diagnosis, theory and repair of mechanical and electronic fuel systems used in transportation, agriculture, and construction equipment.

**Lecture Hours:** 80

### **DSL447 Diesel Fuel Systems**

**7 credits**—This course focuses on diagnosis, theory and repair of mechanical and electronic fuel systems used in transportation, agriculture, and construction equipment.

**Lecture Hours:** 80

### **DSL807 Diesel Truck Equipment Repair**

**7 credits**—This course is designed to give students the opportunity to apply competencies previously achieved to repair and service projects. Also included is theory and operation, diagnosis, and repair of heating and air conditioning systems. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** AGM107, AGM113, AGM104, DSL447, DSL377, AGM327, AGM333, and AGM224.

### **DSL807 Diesel Truck Equipment Repair**

**7 credits**—This course is designed to give students the opportunity to apply competencies previously achieved to repair and service projects. Also included is theory and operation, diagnosis, and repair of heating and air conditioning systems. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** AGM107, AGM113, AGM104, DSL447, DSL377, AGM327, AGM333, and AGM224.

### **ECE103 Introduction to Early Childhood Education**

**3 credits**—Gives students a historical and philosophical foundation of the field of early childhood education. Includes an overview of assessment and trends that influence best practices. Explores careers in the field. Addresses influences of families and diversity.

**Lecture Hours:** 48

### **ECE103 Introduction to Early Childhood Education**

**3 credits**—Gives students a historical and philosophical foundation of the field of early childhood education. Includes an overview of assessment and trends that influence best practices. Explores careers in the field. Addresses influences of families and diversity.

**Lecture Hours:** 48

### **ECE120 Communication with Families**

**2 credits**—This course is designed to give students a basic understanding of good working relationships with educators, families and community resources. The value of this relationship to all parties involved is examined.

**Lecture Hours:** 32

### **ECE120 Communication with Families**

**2 credits**—This course is designed to give students a basic understanding of good working relationships with educators, families and community resources. The value of this relationship to all parties involved is examined.

**Lecture Hours:** 32

### **ECE122 Parenting Relationships**

**2 credits**—An introduction to the general subject matter of family relations. Students will study family systems and parenting in a changing society.

**Lecture Hours:** 32

### **ECE122 Parenting Relationships**

**2 credits**—An introduction to the general subject matter of family relations. Students will study family systems and parenting in a changing society.

**Lecture Hours:** 32

### **ECE125 School Age Care**

**2 credits**—This course focuses on the unique care necessary for school-age children. Criteria for organizing a positive physical environment coupled with state licensing regulations, center policies, and interactions with families are examined. Students will look at the needs of school-age children and explore methods of addressing these needs in a group care setting.

**Lecture Hours:** 32

### **ECE125 School Age Care**

**2 credits**—This course focuses on the unique care necessary for school-age children. Criteria for organizing a positive physical environment coupled with state licensing regulations, center policies, and interactions with families are examined. Students will look at the needs of school-age children and explore methods of addressing these needs in a group care setting.

**Lecture Hours:** 32

### **ECE133 Child Health, Safety, and Nutrition**

**3 credits**—Focuses on current concepts in the fields of health, safety and nutrition and their relationship to the growth and development of the young child ages birth to eight. Blends current theory with practical applications and assessments. Includes the influences of families and diversity on health, safety, and nutrition in early childhood settings.

**Lecture Hours:** 48

### **ECE133 Child Health, Safety, and Nutrition**

**3 credits**—Focuses on current concepts in the fields of health, safety and nutrition and their relationship to the growth and development of the young child ages birth to eight. Blends current theory with practical applications and assessments. Includes the influences of families and diversity on health, safety, and nutrition in early childhood settings.

**Lecture Hours:** 48

### **ECE158 Early Childhood Curriculum I**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: dramatic play, art, music, fine and gross motor play.

**Lecture Hours:** 48

### **ECE158 Early Childhood Curriculum I**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: dramatic play, art, music, fine and gross motor play.

**Lecture Hours:** 48

### **ECE159 Early Childhood Curriculum II**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: emergent literacy, math, science, technology and social studies.

**Lecture Hours:** 48

### **ECE159 Early Childhood Curriculum II**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: emergent literacy, math, science, technology and social studies.

**Lecture Hours:** 48

### **ECE170 Child Growth and Development**

**3 credits**—Reviews typical and atypical development of children from conception to adolescence in all developmental domains. Presents interactions between child, family and society within a variety of community and cultural contexts. Examines theories associated with our understanding of children.

**Lecture Hours:** 48

### **ECE170 Child Growth and Development**

**3 credits**—Reviews typical and atypical development of children from conception to adolescence in all developmental domains. Presents interactions between child, family and

society within a variety of community and cultural contexts. Examines theories associated with our understanding of children.

**Lecture Hours:** 48

### **ECE221 Infant/Toddler Care and Education**

**3 credits**—Focuses on care, education, and assessment of children from birth to thirty-six months. Prepares students to utilize developmentally appropriate practices including responsive caregiving, routines as curriculum, importance of relationships with diverse families, and a focus on the whole child in inclusive settings.

**Lecture Hours:** 48

### **ECE221 Infant/Toddler Care and Education**

**3 credits**—Focuses on care, education, and assessment of children from birth to thirty-six months. Prepares students to utilize developmentally appropriate practices including responsive caregiving, routines as curriculum, importance of relationships with diverse families, and a focus on the whole child in inclusive settings.

**Lecture Hours:** 48

### **ECE243 Early Childhood Guidance**

**3 credits**—Focuses on effective approaches and positive guidance strategies for supporting the development of all children. Emphasizes supportive interactions and developmentally appropriate environments. Uses assessment to analyze and guide behaviors. Studies impact of families and diversity on child guidance.

**Lecture Hours:** 48

### **ECE243 Early Childhood Guidance**

**3 credits**—Focuses on effective approaches and positive guidance strategies for supporting the development of all children. Emphasizes supportive interactions and developmentally appropriate environments. Uses assessment to analyze and guide behaviors. Studies impact of families and diversity on child guidance.

**Lecture Hours:** 48

### **ECE250 Advanced Curriculum Planning**

**3 credits**—This course acquaints students with center environment planning and evaluation. It addresses the role of the teacher as well as program evaluation for early childhood centers. Students also look at community resources for expanding the center environment.

**Lecture Hours:** 48

**Prerequisite(s):** EDE158 and ECE159

### **ECE250 Advanced Curriculum Planning**

**3 credits**—This course acquaints students with center environment planning and evaluation. It addresses the role of the teacher as well as program evaluation for early childhood centers. Students also look at community resources for expanding the center environment.

**Lecture Hours:** 48

**Prerequisite(s):** EDE158 and ECE159

### **ECE260 Current Topics and Issues in Child Care**

**2 credits**—National, state and local topics and issues impacting childcare are examined.

**Lecture Hours:** 32

### **ECE260 Current Topics and Issues in Child Care**

**2 credits**—National, state and local topics and issues impacting childcare are examined.

**Lecture Hours:** 32

### **ECE274 Field Experience I**

**2 credits**—Supervised experience in selected early childhood settings serving children ages birth through eight. Includes integration of theory, research, and reflective practice. Provides an understanding of developmentally appropriate practices and the developmental stages of diverse populations of young children and families. Emphasizes professional relationships and behavior, appropriate adult/child interactions, basic curriculum planning, and program routines.

**Lecture Hours:** 0    **Co-op Hours:** 128

**Prerequisite(s):** ECE221

**Co-requisite(s):** ECE994

**Pre/Co-requisite(s):** ECE158, ECE159, ECE170, and ECE243

### **ECE274 Field Experience I**

**2 credits**—Supervised experience in selected early childhood settings serving children ages birth through eight. Includes integration of theory, research, and reflective practice. Provides an understanding of developmentally appropriate practices and the developmental stages of diverse populations of young children and families. Emphasizes professional relationships and behavior, appropriate adult/child interactions, basic curriculum planning, and program routines.

**Lecture Hours:** 0    **Co-op Hours:** 128

**Prerequisite(s):** ECE221

**Co-requisite(s):** ECE994

**Pre/Co-requisite(s):** ECE158, ECE159, ECE170, and ECE243

### **ECE284 Field Experience II**

**2 credits**—The field experience provides on-the-job training, practical application of knowledge gained in the classroom, documenting observations of children, and an opportunity to participate with a child care team involved with children ages 3 through 5.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of D in ECE274 and ECE944.

**Co-requisite(s):** ECE945

### **ECE284 Field Experience II**

**2 credits**—The field experience provides on-the-job training, practical application of knowledge gained in the classroom, documenting observations of children, and an opportunity to participate with a child care team involved with children ages 3 through 5.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of D in ECE274 and ECE944.

**Co-requisite(s):** ECE945

### **ECE290 Early Childhood Program Administration**

**3 credits**—Skills in planning, implementing, and evaluating programming are introduced. Staff supervision and evaluation, in-service training and orientation, and harmonious working relationships, are other topics included in this course.

**Lecture Hours:** 48

**Prerequisite(s):** ECE158 and ECE159

### **ECE290 Early Childhood Program Administration**

**3 credits**—Skills in planning, implementing, and evaluating programming are introduced. Staff supervision and evaluation, in-service training and orientation, and harmonious working relationships, are other topics included in this course.

**Lecture Hours:** 48

**Prerequisite(s):** ECE158 and ECE159

### **ECE298 Child Development Career Strategies**

**2 credits**—Child Development Career Strategies prepares students for becoming an employee and employer in child care settings. It includes the strategies involved in seeking and securing a position in child care, along with recruiting and employing a child care worker. Included for the job seeker will be an introduction to the job search process, including resume writing, developing cover letters and the interview process. Included for the employer will be recruitment procedures, laws governing the hiring of child care employees, screening of applicants and conducting and evaluating interviews.

Enrollment limited to Early Childhood Education students.

**Lecture Hours:** 32

### **ECE298 Child Development Career Strategies**

**2 credits**—Child Development Career Strategies prepares students for becoming an employee and employer in child care settings. It includes the strategies involved in seeking and securing a position in child care, along with recruiting and employing a child care worker. Included for the job seeker will be an introduction to the job search process, including resume writing, developing cover letters and the interview process. Included for the employer will be recruitment procedures, laws governing the hiring of child care employees, screening of applicants and conducting and evaluating interviews.

Enrollment limited to Early Childhood Education students.

**Lecture Hours:** 32

### **ECE924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **ECE924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **ECE944 Field Experience Seminar I**

**1 credits**—Field Experience Seminar 1 provides support for the systemic refinement of skills necessary for a successful experience in the field. Professional relationships and behaviors, appropriate adult/child interactions, curriculum planning, and experiences in the field will be emphasized.

**Lecture Hours:** 16

**Co-requisite(s):** ECE274

### **ECE944 Field Experience Seminar I**

**1 credits**—Field Experience Seminar 1 provides support for the systemic refinement of skills necessary for a successful experience in the field. Professional relationships and behaviors, appropriate adult/child interactions, curriculum planning, and experiences in the field will be emphasized.

**Lecture Hours:** 16

**Co-requisite(s):** ECE274

### **ECE945 Field Experience Seminar II**

**1 credits**—Field Experience II Seminar provides support for the systematic refinement of the skills necessary for a successful Field Experience II experience through receiving feedback on assignments and engaging in discussions of relevant topics with instructors and peers.

**Lecture Hours:** 16

**Co-requisite(s):** ECE284

### **ECE945 Field Experience Seminar II**

**1 credits**—Field Experience II Seminar provides support for the systematic refinement of the skills necessary for a successful Field Experience II experience through receiving feedback on assignments and engaging in discussions of relevant topics with instructors and peers.

**Lecture Hours:** 16

**Co-requisite(s):** ECE284

### **ECN110 Introduction to Economics**

**3 credits**—This is a one-semester survey course covering basic economic issues and applications. The course includes such topics as supply, demand, pricing and production decisions by firms, consumer decision making, national income and output determination, unemployment and inflation, Classical and Keynesian theories, money and banking, and fiscal and monetary policies. International issues will also be discussed. (No credit given if credit earned in EC101T or EC102T.)

**Lecture Hours:** 48

### **ECN110 Introduction to Economics**

**3 credits**—This is a one-semester survey course covering basic economic issues and applications. The course includes such topics as supply, demand, pricing and production decisions by firms, consumer decision making, national income and output determination, unemployment and inflation, Classical and Keynesian theories, money and banking, and fiscal and monetary policies. International issues will also be discussed. (No credit given if credit earned in EC101T or EC102T.)

**Lecture Hours:** 48

### **ECN120 Principles of Macroeconomics**

**3 credits**—Principles of supply and demand and the price mechanism will be presented. Descriptions and interactions of the consumer, business, government, and international sectors will be studied as well as their effects on output, employment, and growth in the economy. The course includes a study of the banking system and monetary policy, fiscal policy, economic growth, differing macroeconomic viewpoints, and international issues.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **ECN120 Principles of Macroeconomics**

**3 credits**—Principles of supply and demand and the price mechanism will be presented. Descriptions and interactions of the consumer, business, government, and international sectors will be studied as well as their effects on output, employment, and growth in the economy. The course includes a study of the banking system and monetary policy, fiscal policy, economic growth, differing macroeconomic viewpoints, and international issues.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **ECN130 Principles of Microeconomics**

**3 credits**—Principles of supply and demand, elasticity, and pricing will be studied. The course includes such topics as resource allocation of firms, pricing and output decisions in different market structures, and consumer choice theory. International issues and the world economy will be integrated into the course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **EDU214 Exploring PK-12 Education**

**2 credits**—This course is designed to give students the opportunity to gain insight into the teaching profession and examine what it means to be a PK-12 teacher. Students will critically evaluate teaching as their chosen or possible profession. An overview of the skills and knowledge they will need to be successful professionals will be investigated. Current and future trends in public education will be examined.

**Lecture Hours:** 32

### **EDU214 Exploring PK-12 Education**

**2 credits**—This course is designed to give students the opportunity to gain insight into the teaching profession and examine what it means to be a PK-12 teacher. Students will critically evaluate teaching as their chosen or possible profession. An overview of the skills and knowledge they will need to be successful professionals will be investigated. Current and future trends in public education will be examined.

**Lecture Hours:** 32

### **EDU216 Introduction to Teaching**

**3 credits**—The course Introduction to Teaching: The Teaching Profession is designed to help students become aware of the foundations of teaching, understand the realities of teaching, and gain insight into the process of teaching. It is provided for students who may be undecided about teaching. The course will investigate the tools and information necessary to make a rational and thoughtful choice about pursuing the teaching profession.

**Lecture Hours:** 48

### **EDU216 Introduction to Teaching**

**3 credits**—The course Introduction to Teaching: The Teaching Profession is designed to help students become aware of the foundations of teaching, understand the realities of teaching, and gain insight into the process of teaching. It is provided for students who may

be undecided about teaching. The course will investigate the tools and information necessary to make a rational and thoughtful choice about pursuing the teaching profession.

**Lecture Hours:** 48

### **EDU223 Multicultural Education**

**3 credits**—This course introduces conceptual, theoretical, and philosophical issues in Multicultural Education (MCE). Students learn instructional strategies for making their future multicultural classrooms into effective learning communities that are collaborative, inclusive, developmentally appropriate, and globally oriented.

**Lecture Hours:** 48

### **EDU223 Multicultural Education**

**3 credits**—This course introduces conceptual, theoretical, and philosophical issues in Multicultural Education (MCE). Students learn instructional strategies for making their future multicultural classrooms into effective learning communities that are collaborative, inclusive, developmentally appropriate, and globally oriented.

**Lecture Hours:** 48

### **EDU235 Children's Literature**

**3 credits**—The course is designed to present the dynamics of children's literature. It promotes the selection and evaluation of literature for children as well as how to engage young readers in a variety of literary genres. The course will emphasize literature as a key element of the reading curriculum, grades Preschool-8 and beyond. The course will be relevant to those interested in education and literacy.

**Lecture Hours:** 48

**3 credits**—The course is designed to present the dynamics of children's literature. It promotes the selection and evaluation of literature for children as well as how to engage young readers in a variety of literary genres. The course will emphasize literature as a key element of the reading curriculum, grades Preschool-8 and beyond. The course will be relevant to those interested in education and literacy.

**Lecture Hours:** 48

### **EDU240 Educational Psychology**

**3 credits**—The study of learning as it relates to cognitive, affective, and psychomotor processes; personal, social and moral development; abilities and exceptionality and motivation, measurement and classroom management.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111 and PSY121

**Co-requisite(s):** EDU920

### **EDU240 Educational Psychology**

**3 credits**—The study of learning as it relates to cognitive, affective, and psychomotor processes; personal, social and moral development; abilities and exceptionality and motivation, measurement and classroom management.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111 and PSY121

**Co-requisite(s):** EDU920

### **EDU246 Including Diverse Learners**

**3 credits**—Students are introduced to the issues and practices regarding the inclusion of diverse student populations in general education settings. The needs of all students including general education, special education, and gifted will be emphasized. Strategies for adapting curriculum and the classroom will be examined. Support services that are available to teachers and students will be explored.

**Lecture Hours:** 48

### **EDU246 Including Diverse Learners**

**3 credits**—Students are introduced to the issues and practices regarding the inclusion of diverse student populations in general education settings. The needs of all students including general education, special education, and gifted will be emphasized. Strategies for adapting curriculum and the classroom will be examined. Support services that are available to teachers and students will be explored.

**Lecture Hours:** 48

### **EDU255 Technology in the Classroom**

**3 credits**—This is a basic course in the planning and practical use of technology resources to enhance and extend the learning process in the face to face classroom, hybrid and online learning. Students will be exposed to various ways of thinking about educational media and its applications in the classroom. The course is designed to provide the student with experiences that will enable them to select, arrange, utilize, and produce a variety of resources to enhance student learning through their creation of a Thematic Unit.

**Lecture Hours:** 48

**Prerequisite(s):** EDU240 or EDU235

**Lecture Hours:** 48

**Prerequisite(s):** EDU240 or EDU235

### **EDU800 Exploring Math and Science Teaching**

**1 credits**—Exploring Math and Science Teaching gives the student a chance to hear from effective, successful teachers of math and science on a weekly basis. With assistance from a cooperating K-12 teacher, the student will experience an opportunity to conduct a lesson in an authentic math or science classroom in elementary settings. This class provides an opportunity to sample the world of teaching math or science. Tuition for this one credit course is refunded upon successful completion of the class through the Iowa Math And Science Education Partnership.

**Lab Hours:** 32

**Lab Hours:** 32

### **EDU901 Academic Service Learning Experience**

**1 credits**—Students in this course develop and/or implement service learning projects to help the college's community including the surrounding local community under the supervision of college faculty and in cooperation with the staff of community organizations and agencies.

**Lab Hours:** 32

**Co-requisite(s):** EDU240

### **EDU901 Academic Service Learning Experience**

**1 credits**—Students in this course develop and/or implement service learning projects to help the college's community including the surrounding local community under the supervision of college faculty and in cooperation with the staff of community organizations and agencies.

**Lab Hours:** 32

**Co-requisite(s):** EDU240

### **EDU920 Field Experience**

**1 credits**—This course provides an observation and participation experience to explore duties, roles and responsibilities of teachers to the school community. This takes place in area schools under the direction and guidance of classroom teachers.

**Lab Hours:** 32

### **EDU920 Field Experience**

**1 credits**—This course provides an observation and participation experience to explore duties, roles and responsibilities of teachers to the school community. This takes place in area schools under the direction and guidance of classroom teachers.

**Lab Hours:** 32

### **EDU924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **EDU924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **EGR410 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGR410 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGR450 Computer Integrated Manufacturing**

**3 credits**—This course enhances computer modeling skills by applying principles of robotics and manufacturing automation to the creation of models of three-dimensional designs.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** EGR400

### **EGR450 Computer Integrated Manufacturing**

**3 credits**—This course enhances computer modeling skills by applying principles of robotics and manufacturing automation to the creation of models of three-dimensional designs.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** EGR400

### **EGT108 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT108 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT140 Fluid Power**

**2 credits**—This is a course of study in the basic fluid power principles and components of fluid power systems.

**Lecture Hours:** 16    **Lab Hours:** 32

### **EGT140 Fluid Power**

**2 credits**—This is a course of study in the basic fluid power principles and components of fluid power systems.

**Lecture Hours:** 16    **Lab Hours:** 32

### **EGT144 Fluid Power Applications**

**2 credits**—This course is a continuation study of fluid power systems and applications with particular emphasis on troubleshooting and performance evaluations.

**Lecture Hours:** 16    **Lab Hours:** 32

### **EGT144 Fluid Power Applications**

**2 credits**—This course is a continuation study of fluid power systems and applications with particular emphasis on troubleshooting and performance evaluations.

**Lecture Hours:** 16    **Lab Hours:** 32

### **EGT149 Fluid Power Systems II**

**3 credits**—This is a continued study of fluid power components, their operations, and functions in circuit application, as well as graphic circuit print reading.

**Lecture Hours:** 16    **Lab Hours:** 64

**Pre/Co-requisite(s):** EGT140

### **EGT149 Fluid Power Systems II**

**3 credits**—This is a continued study of fluid power components, their operations, and functions in circuit application, as well as graphic circuit print reading.

**Lecture Hours: 16    Lab Hours: 64**

**Pre/Co-requisite(s):** EGT140

### **EGT152 Advanced Fluid Power and Servo Systems**

**2 credits**—This course will teach the principles of electrohydraulic servo systems and how these systems are applied, installed, operated, and maintained in the field. Servo systems, transducers, valve characteristics, control and performance will be covered.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** EGT149 and EGT144

### **EGT152 Advanced Fluid Power and Servo Systems**

**2 credits**—This course will teach the principles of electrohydraulic servo systems and how these systems are applied, installed, operated, and maintained in the field. Servo systems, transducers, valve characteristics, control and performance will be covered.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** EGT149 and EGT144

### **EGT243 Statics and Strength of Materials**

**3 credits**—Statics deals with forces on structural members at rest. Topics include vector and scalar quantities, resultants of coplanar force systems, free-body diagrams, equations of equilibrium, equilibrium in force systems. Strength of materials deals with centroids and moments of inertia, the relationship between stress and strain; shear, moments and deflections in beams; columns; and welded and bolted connections.

**Lecture Hours: 16    Lab Hours: 64**

**Pre/Co-requisite(s):** A minimum grade of D- in PHY162 or PHY183.

### **EGT243 Statics and Strength of Materials**

**3 credits**—Statics deals with forces on structural members at rest. Topics include vector and scalar quantities, resultants of coplanar force systems, free-body diagrams, equations of equilibrium, equilibrium in force systems. Strength of materials deals with centroids and moments of inertia, the relationship between stress and strain; shear, moments and deflections in beams; columns; and welded and bolted connections.

**Lecture Hours: 16    Lab Hours: 64**

**Pre/Co-requisite(s):** A minimum grade of D- in PHY162 or PHY183.

### **EGT400 Introduction to Engineering Design**

**3 credits**—This course uses a design development process while enriching technical and engineering problem-solving skills; students create and analyze models using specialized computer software (AutoCAD Inventor)

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT400 Introduction to Engineering Design**

**3 credits**—This course uses a design development process while enriching technical and engineering problem-solving skills; students create and analyze models using specialized computer software (AutoCAD Inventor)

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT410 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT410 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT420 Digital Electronics**

**3 credits**—This course teaches applied logic through work with electronic circuitry, which students also construct and test for functionality.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT420 Digital Electronics**

**3 credits**—This course teaches applied logic through work with electronic circuitry, which students also construct and test for functionality.

**Lecture Hours:** 16    **Lab Hours:** 64

### **EGT450 Computer Integrated Manufacturing**

**3 credits**—This course enhances computer modeling skills by applying principles of robotics and manufacturing automation to the creation of models of three-dimensional designs.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** EGT400

### **EGT450 Computer Integrated Manufacturing**

**3 credits**—This course enhances computer modeling skills by applying principles of robotics and manufacturing automation to the creation of models of three-dimensional designs.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** EGT400

### **EGT460 Civil Engineering and Architecture**

**3 credits**—This course introduces students to the interdependent fields of civil engineering and architecture; students learn project planning, site planning, and building design using specialized computer software (AutoDesk Revit).

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** EGT460

### **EGT460 Civil Engineering and Architecture**

**3 credits**—This course introduces students to the interdependent fields of civil engineering and architecture; students learn project planning, site planning, and building design using specialized computer software (AutoDesk Revit).

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** EGT460

### **EGT470 Engineering Design and Dev.**

**5 credits**—This course is a research course that requires students to formulate the solution to an open-ended engineering question. With a community mentor and skills gained in their previous courses, students create written reports on their applications, defend the reports, and submit them to a panel of outside reviewers.

**Lecture Hours: 48    Lab Hours: 80    Clinic Hours: 48**

**Prerequisite(s):** EGT410, EGT420, EGT450, or EGT460

**Pre/Co-requisite(s):** EGT400

### **EGT470 Engineering Design and Dev.**

**5 credits**—This course is a research course that requires students to formulate the solution to an open-ended engineering question. With a community mentor and skills gained in their previous courses, students create written reports on their applications, defend the reports, and submit them to a panel of outside reviewers.

**Lecture Hours: 48    Lab Hours: 80    Clinic Hours: 48**

**Prerequisite(s):** EGT410, EGT420, EGT450, or EGT460

**Pre/Co-requisite(s):** EGT400

### **ELE194 Power Generators and Transformers**

**2 credits**—The Power Generators and Transformers course will provide students with a working knowledge of how generators and transformers function. Training will cover the safety aspects of high voltage/power generators and transformers as they connect to the utility grids.

**Lecture Hours: 16    Lab Hours: 32**

### **ELE194 Power Generators and Transformers**

**2 credits**—The Power Generators and Transformers course will provide students with a working knowledge of how generators and transformers function. Training will cover the

safety aspects of high voltage/power generators and transformers as they connect to the utility grids.

**Lecture Hours:** 16    **Lab Hours:** 32

### **ELE218 Motion Control**

**2 credits**—This course is an introduction to electronic motion control system components and programming of a motion control system through a PLC.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELE218 Motion Control**

**2 credits**—This course is an introduction to electronic motion control system components and programming of a motion control system through a PLC.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT104 Electronics Drafting**

**3 credits**—An introduction to drafting fundamentals including: two-dimensional, orthographic, and sectional. Auxiliary and pictorial; electronic symbols, devices, circuitry and systems, using CAD.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in EGT108 or EGT140.

### **ELT104 Electronics Drafting**

**3 credits**—An introduction to drafting fundamentals including: two-dimensional, orthographic, and sectional. Auxiliary and pictorial; electronic symbols, devices, circuitry and systems, using CAD.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in EGT108 or EGT140.

### **ELT120 Schematics for Electromechanical Techs**

**3 credits**—This course is to train factory electricians and mechanics to read most under-roof factory schematics in the food, manufacturing, warehousing, and energy production industries.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in ELT139, EGT140, ELT215, and ELT234, or instructor approval.

### **ELT120 Schematics for Electromechanical Techs**

**3 credits**—This course is to train factory electricians and mechanics to read most under-roof factory schematics in the food, manufacturing, warehousing, and energy production industries.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in ELT139, EGT140, ELT215, and ELT234, or instructor approval.

### **ELT133 Electric Motor Drives**

**2 credits**—This course is an introduction to the fundamental principles of electronic motor drive technologies. Topics to be presented will include servo-motor theory, encoders, tachometers, electronic and mechanical brakes/clutches, and closed-loop systems. Specific drives to be studied will include DC servo, AC variable-frequency, and AC servo.

**Lecture Hours:** 16    **Lab Hours:** 32

### **ELT133 Electric Motor Drives**

**2 credits**—This course is an introduction to the fundamental principles of electronic motor drive technologies. Topics to be presented will include servo-motor theory, encoders, tachometers, electronic and mechanical brakes/clutches, and closed-loop systems. Specific drives to be studied will include DC servo, AC variable-frequency, and AC servo.

**Lecture Hours:** 16    **Lab Hours:** 32

### **ELT139 Electrical Systems**

**3 credits**—Students will gain knowledge and hands-on experience in DC and AC circuits and principles, electrical measurement instruments, electrical safety, conductor sizes and types, wiring applications, wiring techniques, and troubleshooting.

**Lecture Hours:** 16    **Lab Hours:** 64

**Pre/Co-requisite(s):** MAT772

### **ELT139 Electrical Systems**

**3 credits**—Students will gain knowledge and hands-on experience in DC and AC circuits and principles, electrical measurement instruments, electrical safety, conductor sizes and types, wiring applications, wiring techniques, and troubleshooting.

**Lecture Hours:** 16    **Lab Hours:** 64

**Pre/Co-requisite(s):** MAT772

### **ELT156 Industrial Electronics**

**5 credits**—This course covers the theory and application of devices and circuits used in industrial and commercial electronics.

**Lecture Hours:** 48

### **ELT156 Industrial Electronics**

**5 credits**—This course covers the theory and application of devices and circuits used in industrial and commercial electronics.

**Lecture Hours:** 48

### **ELT192 Introduction to Computer Science**

**3 credits**—This course will introduce the student to the basic use of the personal computer. The course will include a study of DOS, Word Processing, Spreadsheet, and BASIC programming language.

**Lecture Hours: 32    Lab Hours: 32**

### **ELT192 Introduction to Computer Science**

**3 credits**—This course will introduce the student to the basic use of the personal computer. The course will include a study of DOS, Word Processing, Spreadsheet, and BASIC programming language.

**Lecture Hours: 32    Lab Hours: 32**

### **ELT215 Motors and Controls**

**2 credits**—This class stresses motor control systems, devices, circuit design and construction, and troubleshooting techniques. Specific topics will include electrical safety, lockout/tagout procedures, relays, timers, pilot devices, and solid state control technologies. Extensive laboratory exercises using industrial-grade components will enhance classroom studies.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** ELT139

### **ELT215 Motors and Controls**

**2 credits**—This class stresses motor control systems, devices, circuit design and construction, and troubleshooting techniques. Specific topics will include electrical safety, lockout/tagout procedures, relays, timers, pilot devices, and solid state control technologies. Extensive laboratory exercises using industrial-grade components will enhance classroom studies.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** ELT139

### **ELT216 DC Controls Circuits**

**2 credits**—The course is an introduction DC control components and DC control systems used in industrial applications. Both stand-alone circuits and PLC circuits are covered.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT216 DC Controls Circuits**

**2 credits**—The course is an introduction DC control components and DC control systems used in industrial applications. Both stand-alone circuits and PLC circuits are covered.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT234 PLC Programming**

**2 credits**—An introduction to the fundamental principles of programmable controller operation. Topics to be presented will include basic system configurations and hardware, relay-equivalent instructions, timers and counters, data manipulation commands, and searching/program documentation.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT139.

**Pre/Co-requisite(s):** ELT215

### **ELT234 PLC Programming**

**2 credits**—An introduction to the fundamental principles of programmable controller operation. Topics to be presented will include basic system configurations and hardware, relay-equivalent instructions, timers and counters, data manipulation commands, and searching/program documentation.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT139.

**Pre/Co-requisite(s):** ELT215

### **ELT239 Advanced Electrical Systems**

**3 credits**—This class stresses electrical distribution systems, electrical transformers, AC and DC motor theory, operation and repair, motor testing and sizing procedures, manual and magnetic starters, and motor overload protection. Specific topics will include types of electrical distribution systems, transformer theory and operation, electrical safety related to motor systems, lockout/ tagout techniques, use of motor testing devices, and construction, sizing, and installation of motor overload devices. Extensive laboratory exercises will enhance classroom studies.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT239 Advanced Electrical Systems**

**3 credits**—This class stresses electrical distribution systems, electrical transformers, AC and DC motor theory, operation and repair, motor testing and sizing procedures, manual and magnetic starters, and motor overload protection. Specific topics will include types of electrical distribution systems, transformer theory and operation, electrical safety related to motor systems, lockout/ tagout techniques, use of motor testing devices, and construction, sizing, and installation of motor overload devices. Extensive laboratory exercises will enhance classroom studies.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT240 PLCs II**

**2 credits**—As modern manufacturing becomes more computer-control oriented the industrial programmable controller plays an increasingly important role. In this course the learner will study advanced programming commands, sequencers, file moves, arithmetic

functions, and data communications; advanced PLC architectures; as well as interfacing, troubleshooting, and applications.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT234.

### **ELT240 PLCs II**

**2 credits**—As modern manufacturing becomes more computer-control oriented the industrial programmable controller plays an increasingly important role. In this course the learner will study advanced programming commands, sequencers, file moves, arithmetic functions, and data communications; advanced PLC architectures; as well as interfacing, troubleshooting, and applications.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT234.

### **ELT245 PLCs III**

**2 credits**—An introduction to the programmable controller operation using Siemens PLC systems. Topics to be presented will include system configurations and hardware, relay-equivalent instructions and timers and counters for ladder logic programming, and function block diagram programming concepts.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT245 PLCs III**

**2 credits**—An introduction to the programmable controller operation using Siemens PLC systems. Topics to be presented will include system configurations and hardware, relay-equivalent instructions and timers and counters for ladder logic programming, and function block diagram programming concepts.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT290 DC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to direct current circuits. This course assumes no previous knowledge of electricity or electronics. An understanding of algebra is required.

**Lecture Hours:** 32    **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in MAT504.

### **ELT290 DC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to direct current circuits. This course assumes no previous knowledge of electricity or electronics. An understanding of algebra is required.

**Lecture Hours:** 32    **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in MAT504.

### **ELT291 AC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to alternating current circuits. This course is a continuation of the DC Electricity course. An understanding of algebra is required.

**Lecture Hours:** 32    **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in ELT290 or MAT504.

### **ELT291 AC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to alternating current circuits. This course is a continuation of the DC Electricity course. An understanding of algebra is required.

**Lecture Hours:** 32    **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in ELT290 or MAT504.

### **ELT311 Digital Circuits and Systems**

**4 credits**—This course provides students with knowledge and understanding of digital logic circuit design and operation using integrated circuits. Studies include combinatorial logic circuits, flip-flops, arithmetic circuits, counters and registers, and logic families, with introduction of hardware and software of microcontrollers.

**Lecture Hours:** 32

**Prerequisite(s):** MAT514

**Pre/Co-requisite(s):** ELT526

### **ELT311 Digital Circuits and Systems**

**4 credits**—This course provides students with knowledge and understanding of digital logic circuit design and operation using integrated circuits. Studies include combinatorial logic circuits, flip-flops, arithmetic circuits, counters and registers, and logic families, with introduction of hardware and software of microcontrollers.

**Lecture Hours:** 32

**Prerequisite(s):** MAT514

**Pre/Co-requisite(s):** ELT526

### **ELT315 Digital Logic for Industrial Applications**

**2 credits**—This course provides students with knowledge and understanding of digital logic functions in industrial applications. Topics of study include combinatorial logic circuits, flip-flops, counters, registers and semiconductor memory devices.

**Lecture Hours:** 16

**Co-requisite(s):** A minimum grade of C- in ELT139.

### **ELT315 Digital Logic for Industrial Applications**

**2 credits**—This course provides students with knowledge and understanding of digital logic functions in industrial applications. Topics of study include combinational logic circuits, flip-flops, counters, registers and semiconductor memory devices.

**Lecture Hours:** 16

**Co-requisite(s):** A minimum grade of C- in ELT139.

### **ELT320 Electronic Devices**

**5 credits**—This course is an introduction to electronic devices and their uses. This course provides the foundation for advanced courses in electronics circuit and systems by teaching the operating characteristics of electronic devices and circuit design using those devices.

**Lecture Hours:** 48    **Lab Hours:** 80    **Clinic Hours:** 48

**Prerequisite(s):** ELT291

**Pre/Co-requisite(s):** MAT514

### **ELT320 Electronic Devices**

**5 credits**—This course is an introduction to electronic devices and their uses. This course provides the foundation for advanced courses in electronics circuit and systems by teaching the operating characteristics of electronic devices and circuit design using those devices.

**Lecture Hours:** 48    **Lab Hours:** 80    **Clinic Hours:** 48

**Prerequisite(s):** ELT291

**Pre/Co-requisite(s):** MAT514

### **ELT321 Operational Amplifiers**

**3 credits**—This course is an introduction to operational amplifiers and their uses. This course provides the foundation for advanced courses in electronics circuit and systems by teaching the operating characteristics of operational amplifiers and circuit design using those devices.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** ELT291

**Pre/Co-requisite(s):** MAT514

### **ELT321 Operational Amplifiers**

**3 credits**—This course is an introduction to operational amplifiers and their uses. This course provides the foundation for advanced courses in electronics circuit and systems by teaching the operating characteristics of operational amplifiers and circuit design using those devices.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** ELT291

**Pre/Co-requisite(s):** MAT514

### **ELT403 Visual Basic**

**3 credits**—This course introduces students to Visual Basic programming languages. The objective of this course is to provide students with the understanding of high level programming languages and programming techniques used in problem solving.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in ELT600.

### **ELT403 Visual Basic**

**3 credits**—This course introduces students to Visual Basic programming languages. The objective of this course is to provide students with the understanding of high level programming languages and programming techniques used in problem solving.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in ELT600.

### **ELT415 Communication Circuits I**

**5 credits**—This course is an introduction to communication circuits, with an in depth study of A.M. and F.M. transceiver theory.

**Lecture Hours: 16    Lab Hours: 128**

**Prerequisite(s):** A minimum grade of D- in ELT320.

### **ELT415 Communication Circuits I**

**5 credits**—This course is an introduction to communication circuits, with an in depth study of A.M. and F.M. transceiver theory.

**Lecture Hours: 16    Lab Hours: 128**

**Prerequisite(s):** A minimum grade of D- in ELT320.

### **ELT416 Communication Circuits II**

**5 credits**—This course is continuation of Communication Circuits I. This course includes the study of frequency synthesis, transmission line theory, digital communication techniques, antennas and microwave devices.

**Lecture Hours: 48**

**Prerequisite(s):** ELT415

### **ELT416 Communication Circuits II**

**5 credits**—This course is continuation of Communication Circuits I. This course includes the study of frequency synthesis, transmission line theory, digital communication techniques, antennas and microwave devices.

**Lecture Hours: 48**

**Prerequisite(s):** ELT415

### **ELT417 Computer Systems**

**3 credits**—This course provides the students with the understanding of personal computer hardware systems and administration of various computer operating systems. Also microcomputer troubleshooting and maintenance is covered.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in EGT108, EGT410, ELT469, or EGT420.

### **ELT417 Computer Systems**

**3 credits**—This course provides the students with the understanding of personal computer hardware systems and administration of various computer operating systems. Also microcomputer troubleshooting and maintenance is covered.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in EGT108, EGT410, ELT469, or EGT420.

### **ELT444 Industrial Networking**

**2 credits**—This course introduces the student to networking industrial equipment such as PLC's, Variable Frequency Drives, control components and computers. Industry-standard connectivity is covered and actual networks are set up.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C- in ELT234.

### **ELT444 Industrial Networking**

**2 credits**—This course introduces the student to networking industrial equipment such as PLC's, Variable Frequency Drives, control components and computers. Industry-standard connectivity is covered and actual networks are set up.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C- in ELT234.

### **ELT469 Digital Circuits and Systems**

**5 credits**—This course provides students with knowledge and understanding of digital logic circuit design and operation using integrated circuits. Some topics included are combinatorial logic circuits, flip-flops, arithmetic circuits, counters, registers, and logic families, with an introduction to hardware and applied C programming of Microcontrollers.

**Lecture Hours: 32    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in ELT320 and ELT600.

### **ELT469 Digital Circuits and Systems**

**5 credits**—This course provides students with knowledge and understanding of digital logic circuit design and operation using integrated circuits. Some topics included are combinatorial logic circuits, flip-flops, arithmetic circuits, counters, registers, and logic families, with an introduction to hardware and applied C programming of Microcontrollers.

**Lecture Hours: 32    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in ELT320 and ELT600.

### **ELT494 Data Acquisition Systems**

**5 credits**—This course includes signal conditioning, transducer characteristics, microcontroller input/output and interfacing using C programming language and applications.

**Lecture Hours: 32    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in ELT600.

### **ELT494 Data Acquisition Systems**

**5 credits**—This course includes signal conditioning, transducer characteristics, microcontroller input/output and interfacing using C programming language and applications.

**Lecture Hours: 32    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in ELT600.

### **ELT497 Communication Circuits II**

**6 credits**—This course is continuation of Communication Circuits I. The course also includes the study of microwave communications.

**Lecture Hours: 48    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in ELT415.

### **ELT497 Communication Circuits II**

**6 credits**—This course is continuation of Communication Circuits I. The course also includes the study of microwave communications.

**Lecture Hours: 48    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in ELT415.

### **ELT532 Semiconductors for Industrial Applications**

**2 credits**—This course provides an introduction to electronic devices and their uses. Applications of semiconductors in power electronics circuits for control are covered. This course provides the foundation for advanced courses in electronics systems.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT532 Semiconductors for Industrial Applications**

**2 credits**—This course provides an introduction to electronic devices and their uses. Applications of semiconductors in power electronics circuits for control are covered. This course provides the foundation for advanced courses in electronics systems.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT600 Applied Computer Programming**

**3 credits**—This course introduces students to Visual C and LabView programming languages. The objective of this course is to provide students with the understanding of high level programming languages and programming techniques used in problem solving.

**Lecture Hours:** 32

**Prerequisite(s):** EGT108 or EGT410

### **ELT600 Applied Computer Programming**

**3 credits**—This course introduces students to Visual C and LabView programming languages. The objective of this course is to provide students with the understanding of high level programming languages and programming techniques used in problem solving.

**Lecture Hours:** 32

**Prerequisite(s):** EGT108 or EGT410

### **ELT701 Embedded Processors**

**3 credits**—This course is an introduction to microcontroller theory and applications. The objective of this course is to provide students with the basic microcontroller theory necessary to understand the operation and interfacing characteristics. This includes typical microcontroller architecture with C programming, Input/output and interfacing concepts, hardware/software interaction and applications.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** ELT409

### **ELT701 Embedded Processors**

**3 credits**—This course is an introduction to microcontroller theory and applications. The objective of this course is to provide students with the basic microcontroller theory necessary to understand the operation and interfacing characteristics. This includes typical microcontroller architecture with C programming, Input/output and interfacing concepts, hardware/software interaction and applications.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** ELT409

### **ELT703 Introduction to Networking**

**2 credits**—This course introduces the student to the fundamental building blocks that form a modern computer network, such as protocols, topologies, hardware, and network operating systems. The course then provides in-depth coverage of the most important concepts in contemporary networking, such as client/server architecture, TCP/IP, Ethernet, wireless transmission and security.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in ELT409.

### **ELT703 Introduction to Networking**

**2 credits**—This course introduces the student to the fundamental building blocks that form a modern computer network, such as protocols, topologies, hardware, and network operating systems. The course then provides in-depth coverage of the most important concepts in contemporary networking, such as client/server architecture, TCP/IP, Ethernet, wireless transmission and security.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in ELT409.

### **ELT704 Embedded Processors**

**2 credits**—This course is an introduction to microcontroller theory and applications. The objective of this course is to provide students with the basic microcontroller theory necessary to understand the operation and interfacing. This includes typical microcontroller architecture with C programming, input/output and interfacing concepts, hardware/software interaction and applications.

**Lecture Hours: 0    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in ELT494.

### **ELT704 Embedded Processors**

**2 credits**—This course is an introduction to microcontroller theory and applications. The objective of this course is to provide students with the basic microcontroller theory necessary to understand the operation and interfacing. This includes typical microcontroller architecture with C programming, input/output and interfacing concepts, hardware/software interaction and applications.

**Lecture Hours: 0    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in ELT494.

### **ELT736 Instrumentation and Control**

**2 credits**—With the increase in computer-controlled systems in modern business and industry the study of instrumentation and transducers is vital to a maintenance technicians education. This course will concentrate on the types of instrumentation currently available, interfacing and cabling techniques, signal conditioning, noise control, and applications and troubleshooting of complete systems.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT736 Instrumentation and Control**

**2 credits**—With the increase in computer-controlled systems in modern business and industry the study of instrumentation and transducers is vital to a maintenance technicians education. This course will concentrate on the types of instrumentation currently available, interfacing and cabling techniques, signal conditioning, noise control, and applications and troubleshooting of complete systems.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT802 Electronics Design Project I**

**1 credits**—This course is the first of a series of two design courses. This course will introduce the student to design concepts and procedures as related to the design of electronics equipment. This course will require the student to identify an electronics design project as an individual or as a member of a team that will be completed during this course and the Electronics Design Project II course. All design projects will be subject to instructor approval.

**Lab Hours:** 32

### **ELT802 Electronics Design Project I**

**1 credits**—This course is the first of a series of two design courses. This course will introduce the student to design concepts and procedures as related to the design of electronics equipment. This course will require the student to identify an electronics design project as an individual or as a member of a team that will be completed during this course and the Electronics Design Project II course. All design projects will be subject to instructor approval.

**Lab Hours:** 32

### **ELT803 Electronics Design Project II**

**1 credits**—This course is a continuation of ELT802 Electronic Design Project I. The student will complete the design project that was identified and started in Electronic Design Project I. This course will require the student to design, prototype, troubleshoot, and debug an electronics related project based on technology presented throughout the EET program.

**Lab Hours:** 32

**Prerequisite(s):** ELT802

**Pre/Co-requisite(s):** ELT156

### **ELT803 Electronics Design Project II**

**1 credits**—This course is a continuation of ELT802 Electronic Design Project I. The student will complete the design project that was identified and started in Electronic Design Project I. This course will require the student to design, prototype, troubleshoot, and debug an electronics related project based on technology presented throughout the EET program.

**Lab Hours:** 32

**Prerequisite(s):** ELT802

**Pre/Co-requisite(s):** ELT156

### **EMS114 Emergency Medical Responder**

**2 credits**—This course provides the student with the necessary skills and knowledge to identify and treat life-threatening emergencies, wounds and fractures, medical and environmental emergencies and patient access and handling. This course utilizes a combination of classroom lecture and skills practice.

**Lecture Hours:** 16    **Lab Hours:** 32

### **EMS114 Emergency Medical Responder**

**2 credits**—This course provides the student with the necessary skills and knowledge to identify and treat life-threatening emergencies, wounds and fractures, medical and environmental emergencies and patient access and handling. This course utilizes a combination of classroom lecture and skills practice.

**Lecture Hours:** 16    **Lab Hours:** 32

### **EMS201 Emergency Medical Technician**

**7 credits**—This course is for individuals who anticipate working with an ambulance service, hospital emergency department, fire department or other occupational field where emergencies are common. Course includes topics related to assessment and treatment of illness and injury. This course also includes a clinical and field component.

**Lecture Hours:** 64    **Lab Hours:** 64    **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in ENG060, ENG061, COM781, ENG105, or ENG106 or meet requirement with equivalent assessment score. A minimum grade of C in RDG039 or RDG040 or meet requirement with equivalent assessment score.

### **EMS201 Emergency Medical Technician**

**7 credits**—This course is for individuals who anticipate working with an ambulance service, hospital emergency department, fire department or other occupational field where emergencies are common. Course includes topics related to assessment and treatment of illness and injury. This course also includes a clinical and field component.

**Lecture Hours:** 64    **Lab Hours:** 64    **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in ENG060, ENG061, COM781, ENG105, or ENG106 or meet requirement with equivalent assessment score. A minimum grade of C in RDG039 or RDG040 or meet requirement with equivalent assessment score.

### **EMS541 Clinical I**

**3 credits**—This course will provide clinical atmosphere for performance of psychomotor skills as described by the National Highway Traffic Safety Administration, National Standard Paramedic Curriculum. To successfully complete this course, students must demonstrate competency in skills for patients of all ages within the scope of practice. The student will participate in and document patient contacts and field experience. Additional contact hours (up to 3 times stated minimum) may be needed to meet the course competencies. Permission of instructor required.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in HSC113.

**Co-requisite(s):** A minimum grade of C in EMS610, EMS619, EMS641, and EMS678.

### **EMS541 Clinical I**

**3 credits**—This course will provide clinical atmosphere for performance of psychomotor skills as described by the National Highway Traffic Safety Administration, National Standard Paramedic Curriculum. To successfully complete this course, students must demonstrate competency in skills for patients of all ages within the scope of practice. The student will

participate in and document patient contacts and field experience. Additional contact hours (up to 3 times stated minimum) may be needed to meet the course competencies. Permission of instructor required.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in HSC113.

**Co-requisite(s):** A minimum grade of C in EMS610, EMS619, EMS641, and EMS678.

### **EMS546 Clinical II**

**3 credits**—This course will provide clinical atmosphere for performance of psychomotor skills as described by the National Highway Traffic Safety Administration, National Standard Paramedic Curriculum. To successfully complete this course, students must demonstrate competency in skills for patients of all ages within the scope of practice. The student will participate in and document patient contacts and field experience. Additional contact hours (up to 3 times stated minimum) may be needed to meet the course competencies. Permission of instructor required.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in EMS541, EMS610, EMS619, EMS641, and EMS678.

### **EMS546 Clinical II**

**3 credits**—This course will provide clinical atmosphere for performance of psychomotor skills as described by the National Highway Traffic Safety Administration, National Standard Paramedic Curriculum. To successfully complete this course, students must demonstrate competency in skills for patients of all ages within the scope of practice. The student will participate in and document patient contacts and field experience. Additional contact hours (up to 3 times stated minimum) may be needed to meet the course competencies. Permission of instructor required.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in EMS541, EMS610, EMS619, EMS641, and EMS678.

### **EMS610 Paramedic Pharmacology and Medication Administration**

**4 credits**—This is a required course in Hawkeye's National Paramedic Education Program. This course prepares the paramedic to administer medications per the paramedic scope of practice.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS610 Paramedic Pharmacology and Medication Administration**

**4 credits**—This is a required course in Hawkeye's National Paramedic Education Program. This course prepares the paramedic to administer medications per the paramedic scope of practice.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS619 Airway and Patient Assessment**

**4 credits**—The course includes Module 2 (Airway Management and Ventilation) and Module 3 (Patient Assessment) of the DOT National Standard Curriculum for EMT Paramedics. Content will include advanced airway management physical assessment, field assessment, clinical decision making, documentation and the assessment and management of respiratory emergencies. The lab component of this course includes skills in airway management and ventilation, history taking, techniques of physical examination, patient assessment, clinical decision making, communication and AHA ACLS. All will be practiced and demonstrated.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS619 Airway and Patient Assessment**

**4 credits**—The course includes Module 2 (Airway Management and Ventilation) and Module 3 (Patient Assessment) of the DOT National Standard Curriculum for EMT Paramedics. Content will include advanced airway management physical assessment, field assessment, clinical decision making, documentation and the assessment and management of respiratory emergencies. The lab component of this course includes skills in airway management and ventilation, history taking, techniques of physical examination, patient assessment, clinical decision making, communication and AHA ACLS. All will be practiced and demonstrated.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS641 Introduction to Paramedicine**

**3 credits**—Provides an overview of paramedic roles and responsibilities and the emergency medical service system. Includes discussion of medicolegal and ethical issues in EMS, agents of trauma and disease, and career opportunities for paramedics. Provides discussion and demonstration of proper documentation in EMS, emergency vehicle operations, and non-patient care aspects of EMS.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS641 Introduction to Paramedicine**

**3 credits**—Provides an overview of paramedic roles and responsibilities and the emergency medical service system. Includes discussion of medicolegal and ethical issues in EMS, agents of trauma and disease, and career opportunities for paramedics. Provides discussion and demonstration of proper documentation in EMS, emergency vehicle operations, and non-patient care aspects of EMS.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS650 Medical and Psychological Emergencies**

**4 credits**—Lecture and case-based teaching in the pathophysiology, recognition and advanced life support assessment and management of emergencies involving the nervous, endocrine, renal, and gastrointestinal systems. Assessment and intervention in psychological emergencies.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in EMS541, EMS610, EMS619, EMS641, and EMS678.

### **EMS650 Medical and Psychological Emergencies**

**4 credits**—Lecture and case-based teaching in the pathophysiology, recognition and advanced life support assessment and management of emergencies involving the nervous, endocrine, renal, and gastrointestinal systems. Assessment and intervention in psychological emergencies.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in EMS541, EMS610, EMS619, EMS641, and EMS678.

### **EMS654 EMS Operations**

**2 credits**—This course will prepare the learner to function in EMS operations in the out-of-hospital environment and includes emergency vehicle operator and HAZMAT operations certifications.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in EMS546.

### **EMS654 EMS Operations**

**2 credits**—This course will prepare the learner to function in EMS operations in the out-of-hospital environment and includes emergency vehicle operator and HAZMAT operations certifications.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in EMS546.

### **EMS655 Transition to Paramedic Practice**

**4 credits**—This course will provide a platform for the student to apply cognitive, psychomotor, and affective skills to actual practice during a field internship. This course will also include comprehensive psychomotor exercises in a lab setting to prepare the paramedic student for national certification.

**Lecture Hours: 0    Lab Hours: 32    Co-op Hours: 192**

**Prerequisite(s):** A minimum grade of C in EMS546.

### **EMS655 Transition to Paramedic Practice**

**4 credits**—This course will provide a platform for the student to apply cognitive, psychomotor, and affective skills to actual practice during a field internship. This course will

also include comprehensive psychomotor exercises in a lab setting to prepare the paramedic student for national certification.

**Lecture Hours:** 0    **Lab Hours:** 32    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in EMS546.

### **EMS674 Cardiology for the Paramedic**

**4 credits**—Cardiology for the Paramedic will focus on assessing the prehospital cardiac patient, interpreting electrocardiograms, and formulating treatment regimens for these patients.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in EMS641, EMS678, EMS541, EMS610, and EMS619.

**Co-requisite(s):** EMS650

### **EMS674 Cardiology for the Paramedic**

**4 credits**—Cardiology for the Paramedic will focus on assessing the prehospital cardiac patient, interpreting electrocardiograms, and formulating treatment regimens for these patients.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in EMS641, EMS678, EMS541, EMS610, and EMS619.

**Co-requisite(s):** EMS650

### **EMS677 Special Populations for the Paramedic**

**4 credits**—Special Patient Populations for the Paramedic explores illness and injury in the obstetric/gynecologic, neonatal, pediatric, geriatric, and chronically ill patient populations.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in EMS619, EMS641, EMS610, EMS541, and EMS678.

### **EMS677 Special Populations for the Paramedic**

**4 credits**—Special Patient Populations for the Paramedic explores illness and injury in the obstetric/gynecologic, neonatal, pediatric, geriatric, and chronically ill patient populations.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in EMS619, EMS641, EMS610, EMS541, and EMS678.

### **EMS678 Traumatic Emergencies for the Paramedic**

**3 credits**—Traumatic Emergencies for the Paramedic explores the science of traumatic injuries, their detection and treatment. Major topics include: soft tissue, shock, hard tissue, nervous system, and internal injuries.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS678 Traumatic Emergencies for the Paramedic**

**3 credits**—Traumatic Emergencies for the Paramedic explores the science of traumatic injuries, their detection and treatment. Major topics include: soft tissue, shock, hard tissue, nervous system, and internal injuries.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in BIO168, BIO173, and HSC113.

### **EMS856 Management of Emergency Medical Services**

**3 credits**—This course is for students interested in the practice and principles of Emergency Medical Services (EMS) systems management and the processes that contribute to the effectiveness of day-to-day operations within an EMS organization. This course introduces the EMS professional to topics that include government structure, strategic planning, injury prevention, risk management and safety, customer service, human resources management, financial management, fleet management, career development, quality management, data collection and research, labor relations, and special operations.

**Lecture Hours:** 48

### **EMS856 Management of Emergency Medical Services**

**3 credits**—This course is for students interested in the practice and principles of Emergency Medical Services (EMS) systems management and the processes that contribute to the effectiveness of day-to-day operations within an EMS organization. This course introduces the EMS professional to topics that include government structure, strategic planning, injury prevention, risk management and safety, customer service, human resources management, financial management, fleet management, career development, quality management, data collection and research, labor relations, and special operations.

**Lecture Hours:** 48

### **EMS900 Education in EMS**

**3 credits**—This course is for students interested in Emergency Medical Services (EMS) education. This course introduces the EMS professional to the education system as it relates to EMS education. Students explore issues in curriculum development, teaching, program direction, and development. Successful completion of this course is required for EMS instructor endorsement in Iowa.

**Lecture Hours:** 48

### **EMS900 Education in EMS**

**3 credits**—This course is for students interested in Emergency Medical Services (EMS) education. This course introduces the EMS professional to the education system as it relates to EMS education. Students explore issues in curriculum development, teaching, program direction, and development. Successful completion of this course is required for EMS instructor endorsement in Iowa.

**Lecture Hours:** 48

### **ENG060 College Preparatory Writing I**

**3 credits**—This course is the first in the college writing sequence. It provides students with opportunities to read and comprehend increasingly difficult texts in a variety of genres; to think more deeply and critically about the issues and ideas presented in these texts; and to respond to those texts in writing with increasing fluency, confidence, and clarity. Students should connect personally with assigned reading material and communicate their thoughts clearly in writing using Standard English. This course emphasizes responses grounded in the writer's personal interaction with the assigned text. It prepares students for the next level in their writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ENG060 College Preparatory Writing I**

**3 credits**—This course is the first in the college writing sequence. It provides students with opportunities to read and comprehend increasingly difficult texts in a variety of genres; to think more deeply and critically about the issues and ideas presented in these texts; and to respond to those texts in writing with increasing fluency, confidence, and clarity. Students should connect personally with assigned reading material and communicate their thoughts clearly in writing using Standard English. This course emphasizes responses grounded in the writer's personal interaction with the assigned text. It prepares students for the next level in their writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ENG061 College Preparatory Writing II**

**3 credits**—This course encourages students to improve their critical thinking skills, reading comprehension, and writing proficiency for inquiry, learning, thinking, and communication. Students will read, discuss, and respond to a variety of texts of different genres so as to analyze texts and write for different purposes. Students will work individually and collaboratively to produce, revise, and edit written work. Central to the objective of this course is developing a personal writing process: generating ideas, producing multiple drafts, revising, and editing. This course prepares students to advance into their appropriate program writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** ENG060 or appropriate COMPASS scores or equivalent.

### **ENG061 College Preparatory Writing II**

**3 credits**—This course encourages students to improve their critical thinking skills, reading comprehension, and writing proficiency for inquiry, learning, thinking, and communication. Students will read, discuss, and respond to a variety of texts of different genres so as to analyze texts and write for different purposes. Students will work individually and collaboratively to produce, revise, and edit written work. Central to the objective of this course is developing a personal writing process: generating ideas, producing multiple drafts,

revising, and editing. This course prepares students to advance into their appropriate program writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** ENG060 or appropriate COMPASS scores or equivalent.

### **ENG105 Composition I**

**3 credits**—Composition I emphasizes fluency, thesis-driven organization, the use of supporting details, and research techniques. Writing is approached as a recursive process that includes prewriting strategies, drafting, revising, and editing. The course helps students shape writing to serve readers' needs and define a sense of purpose in their writing. It also gives students strategies for reading college-level material.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate COMPASS scores or equivalent.

### **ENG105 Composition I**

**3 credits**—Composition I emphasizes fluency, thesis-driven organization, the use of supporting details, and research techniques. Writing is approached as a recursive process that includes prewriting strategies, drafting, revising, and editing. The course helps students shape writing to serve readers' needs and define a sense of purpose in their writing. It also gives students strategies for reading college-level material.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate COMPASS scores or equivalent.

### **ENG106 Composition II**

**3 credits**—Composition II aims to review and extend writing principles learned in Composition I to analytical, argumentative, and research-based writing. This course emphasizes critical reading, evaluation, and precise and responsible source citation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG105.

### **ENG106 Composition II**

**3 credits**—Composition II aims to review and extend writing principles learned in Composition I to analytical, argumentative, and research-based writing. This course emphasizes critical reading, evaluation, and precise and responsible source citation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG105.

### **ENG221 Creative Writing**

**3 credits**—Creative Writing is a beginning course for students interested in writing poetry, short stories, and creative non-fiction. The course will focus on introducing and developing some of the technical skills of the craft, with an emphasis on methods for generating topics and content.

**Lecture Hours:** 48

### **ENG221 Creative Writing**

**3 credits**—Creative Writing is a beginning course for students interested in writing poetry, short stories, and creative non-fiction. The course will focus on introducing and developing some of the technical skills of the craft, with an emphasis on methods for generating topics and content.

**Lecture Hours:** 48

### **ENG235 Playwriting and Screenwriting**

**3 credits**—Playwriting and Screenwriting is a writing workshop that offers students practical experience in the creative process of producing stage-worthy plays and marketable screen plays. Through the study and discussion of published and produced plays, students will learn appropriate techniques for the dramatic form and will use the writing process to apply the techniques to develop and present their own work.

**Lecture Hours:** 48

**Lecture Hours:** 48

### **ENV115 Environmental Science**

**3 credits**—This natural science course addresses the manner in which we approach our environment today and how it will affect the world we live in tomorrow. This course examines the challenges of: developing sustainable energy sources, maintaining the quality of our air, water, and soil, and preserving the remaining biodiversity and habitat, and human population pressures as they relate to the environment. As these challenges are examined, possible solutions will be evaluated.

**Lecture Hours:** 48

This course examines the challenges of: developing sustainable energy sources, maintaining the quality of our air, water, and soil, and preserving the remaining biodiversity and habitat, and human population pressures as they relate to the environment. As these challenges are examined, possible solutions will be evaluated.

**Lecture Hours:** 48

### **ENV116 Environmental Science Lab**

**1 credits**—This laboratory course provides a hands-on approach to understanding challenges to our environmental health. The course examines population growth, a

framework for understanding the extent of habitat loss and degradation and its impact on biodiversity; water quality and treatment; soil quality and management practices; examination of energy consumption and alternatives; and an evaluation of ecosystem interactions.

**Lab Hours:** 32

**Pre/Co-requisite(s):** ENV115

### **ENV116 Environmental Science Lab**

The course examines population growth, a framework for understanding the extent of habitat loss and degradation and its impact on biodiversity; water quality and treatment; soil quality and management practices; examination of energy consumption and alternatives; and an evaluation of ecosystem interactions.

**Lab Hours:** 32

**Pre/Co-requisite(s):** ENV115

### **ENV155 Residential Energy Auditing**

**4 credits**—The Residential Energy Auditing course covers residential energy auditing and associated heating and air-conditioning equipment. The concepts of heat flow, energy audit software, building science, building envelope diagnostics, construction practices, material costs, moisture concerns, proper insulation and airsealing techniques, energy pricing, energy modeling, and residential HVAC systems. Equipment selection, layout, piping techniques, troubleshooting, codes, preventive maintenance, diagnostics, multiple systems, and accessories are also covered.

**Lecture Hours:** 32     **Lab Hours:** 64

### **ENV155 Residential Energy Auditing**

**4 credits**—The Residential Energy Auditing course covers residential energy auditing and associated heating and air-conditioning equipment. The concepts of heat flow, energy audit software, building science, building envelope diagnostics, construction practices, material costs, moisture concerns, proper insulation and airsealing techniques, energy pricing, energy modeling, and residential HVAC systems. Equipment selection, layout, piping techniques, troubleshooting, codes, preventive maintenance, diagnostics, multiple systems, and accessories are also covered.

**Lecture Hours:** 32     **Lab Hours:** 64

### **ENV170 Photovoltaic and Hybrid Electrical Systems**

**2 credits**—The Photo-voltaic and Hybrid Electrical systems course will provide students with an opportunity to size, construct, maintain, and analyze residential sized hybrid systems. Students will gain first hand experience working with electrical energy systems consisting of wind generators, photo-voltaic arrays, battery storage systems, inverters and system controllers.

**Lecture Hours:** 16     **Lab Hours:** 32

### **ENV170 Photovoltaic and Hybrid Electrical Systems**

**2 credits**—The Photo-voltaic and Hybrid Electrical systems course will provide students with an opportunity to size, construct, maintain, and analyze residential sized hybrid systems. Students will gain first hand experience working with electrical energy systems consisting of wind generators, photo-voltaic arrays, battery storage systems, inverters and system controllers.

**Lecture Hours: 16      Lab Hours: 32**

### **ENV185 Solar Photovoltaic Design and Installation**

**2 credits**—Introduces solar photovoltaic system requirements, design and configurations, installation techniques and their application in residential and commercial construction.

**Lecture Hours: 16      Lab Hours: 32**

### **ENV185 Solar Photovoltaic Design and Installation**

**2 credits**—Introduces solar photovoltaic system requirements, design and configurations, installation techniques and their application in residential and commercial construction.

**Lecture Hours: 16      Lab Hours: 32**

### **ESL005 ESL Reading for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English to acquire basic reading skills. The course introduces students to effective reading strategies, approaches to reading in a variety of genres, strategies to expand vocabulary, and basic library research. Students are also encouraged to improve their reading fluency through extensive reading.

**Lecture Hours: 64**

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL005 ESL Reading for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English to acquire basic reading skills. The course introduces students to effective reading strategies, approaches to reading in a variety of genres, strategies to expand vocabulary, and basic library research. Students are also encouraged to improve their reading fluency through extensive reading.

**Lecture Hours: 64**

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL011 ESL Writing for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English in the acquisition of basic grammatical structures of English and writing skills. The primary focus of the course is to develop students' competence and confidence in writing for academic purposes. Students will review basic grammatical rules and structures, understand the elements of paragraph through process writing, practice writing for different purposes, expand vocabulary, and develop fluency in writing.

**Lecture Hours: 64**

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL011 ESL Writing for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English in the acquisition of basic grammatical structures of English and writing skills. The primary focus of the course is to develop students' competence and confidence in writing for academic purposes. Students will review basic grammatical rules and structures, understand the elements of paragraph through process writing, practice writing for different purposes, expand vocabulary, and develop fluency in writing.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL014 ESL Listening and Speaking for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English to acquire basic aural and oral skills. The primary focus of the course is to prepare students for academic content. Students will be involved in a variety of communicative activities to increase their confidence in understanding and communicating with others, to improve fluency as well as accuracy, to expand vocabulary, to practice note-taking skills, and to learn about American culture.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL014 ESL Listening and Speaking for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English to acquire basic aural and oral skills. The primary focus of the course is to prepare students for academic content. Students will be involved in a variety of communicative activities to increase their confidence in understanding and communicating with others, to improve fluency as well as accuracy, to expand vocabulary, to practice note-taking skills, and to learn about American culture.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL020 English as a Second Language Lab**

**2 credits**—The purpose of the course is to provide the non-native speaker of English with a variety of realistic laboratory tasks that will improve and expand their English fluency. The primary focus of the course is to expand vocabulary, improve pronunciation, and to provide the students with experiences that will enhance their confidence in their English ability. This course can be used to prepare the ESL student for either the ESL I or ESL II course in the fall. It is designed to accommodate students at both the intermediate and advanced levels.

**Lab Hours:** 64

**Prerequisite(s):** Instructor approval.

### **ESL020 English as a Second Language Lab**

**2 credits**—The purpose of the course is to provide the non- native speaker of English with a variety of realistic laboratory tasks that will improve and expand their English fluency. The primary focus of the course is to expand vocabulary, improve pronunciation, and to provide the students with experiences that will enhance their confidence in their English ability. This course can be used to prepare the ESL student for wither the ESL I or ESL II course in the fall. It is designed to accommodate students at both the intermediate and advanced levels.

**Lab Hours:** 64

**Prerequisite(s):** Instructor approval.

### **ESL083 ESL Writing for Academic Purpose II**

**4 credits**—This is a course for non-native speakers of English in the acquisition of advanced grammatical structures and writing skills (necessary for academic English). The course is especially designed to develop advanced writing skills that will be needed in order to successfully complete transferable academic classes. Students will review problems in English grammar, analyze academic writing, practice writing for different purposes, and be introduced to different documentation styles.

**Lecture Hours:** 64

**Prerequisite(s):** ESL011 or appropriate placement scores or equivalent.

### **ESL083 ESL Writing for Academic Purpose II**

**4 credits**—This is a course for non-native speakers of English in the acquisition of advanced grammatical structures and writing skills (necessary for academic English). The course is especially designed to develop advanced writing skills that will be needed in order to successfully complete transferable academic classes. Students will review problems in English grammar, analyze academic writing, practice writing for different purposes, and be introduced to different documentation styles.

**Lecture Hours:** 64

**Prerequisite(s):** ESL011 or appropriate placement scores or equivalent.

### **ESL084 ESL Reading for Academic Purpose II**

**4 credits**—This is a course in continuing the acquisition of reading skills in English for non-native speakers. The primary goal of the course is to prepare students to become independent readers and to manage academic texts. Students are given opportunities to apply reading strategies effectively, to improve comprehension skills, to expand vocabulary, and to develop library research skills needed for academic study.

**Lecture Hours:** 64

**Prerequisite(s):** ESL005 or appropriate placement scores or equivalent.

### **ESL084 ESL Reading for Academic Purpose II**

**4 credits**—This is a course in continuing the acquisition of reading skills in English for non-native speakers. The primary goal of the course is to prepare students to become independent readers and to manage academic texts. Students are given opportunities to apply reading strategies effectively, to improve comprehension skills, to expand vocabulary, and to develop library research skills needed for academic study.

**Lecture Hours:** 64

**Prerequisite(s):** ESL005 or appropriate placement scores or equivalent.

### **ESL089 ESL Listening and Speaking for Academic Purpose II**

**4 credits**—This is a course in continuing the acquisition of aural and oral skills in English for non-native speakers. The course is designed to help students develop listening and speaking skills that will be needed to be successful in fully transferable college courses. Skills taught include listening strategies, note taking, oral presentations, and vocabulary development. Students will also develop a deeper understanding of American culture through various activities.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** ESL014 or appropriate placement scores or equivalent.

**4 credits**—This is a course in continuing the acquisition of aural and oral skills in English for non-native speakers. The course is designed to help students develop listening and speaking skills that will be needed to be successful in fully transferable college courses. Skills taught include listening strategies, note taking, oral presentations, and vocabulary development. Students will also develop a deeper understanding of American culture through various activities.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** ESL014 or appropriate placement scores or equivalent.

### **FIN121 Personal Finance**

**3 credits**—This course enables students to achieve high standards and competencies in economic principles in contexts of high relevancy and applicability to their individual, family, professional, and community lives. A project-based approach that utilizes higher order thinking, communication, leadership, and management processes will integrate course topics. Upon completion, students should be able to better understand scarcity, supply and demand, market structures, the role of government, money and the role of financial institutions, economic stabilization and cycles, investing and financial markets, and consumer credit.

**Lecture Hours:** 48

Upon completion, students should be able to better understand scarcity, supply and demand, market structures, the role of government, money and the role of financial institutions, economic stabilization and cycles, investing and financial markets, and consumer credit.

**Lecture Hours:** 48

### **FIR124 Building Construction**

**3 credits**—This course provides the components of building construction that relate to fire and life safety. The focus of this course is on firefighter safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies.

**Lecture Hours:** 48

### **FIR124 Building Construction**

**3 credits**—This course provides the components of building construction that relate to fire and life safety. The focus of this course is on firefighter safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies.

**Lecture Hours:** 48

### **FIR127 Fire Behavior and Combustion**

**3 credits**—This course explores the theories and fundamentals of how and why fires start, spread, and how they are controlled.

**Lecture Hours:** 48

### **FIR127 Fire Behavior and Combustion**

**3 credits**—This course explores the theories and fundamentals of how and why fires start, spread, and how they are controlled.

**Lecture Hours:** 48

### **FIR130 Fire Prevention**

**3 credits**—This course provides fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention with built-in fire protection systems, fire investigation, and fire and life-safety education.

**Lecture Hours:** 48

### **FIR130 Fire Prevention**

**3 credits**—This course provides fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention with built-in fire protection systems, fire investigation, and fire and life-safety education.

**Lecture Hours:** 48

### **FIR139 Fire Fighter I**

**4 credits**—After completing the course the student will have met the sections required for a Firefighter I in the NFPA® 1001, Standard for Fire Fighter Professional Qualifications, and the requirements for National Fire Protection Association's (NFPA) 472, Standard for

Professional Competence of Responders to Hazardous Materials Incidents for the for the Awareness and Operational Levels.

**Lecture Hours:** 48    **Lab Hours:** 32

### **FIR139 Fire Fighter I**

**4 credits**—After completing the course the student will have met the sections required for a Firefighter I in the NFPA® 1001, Standard for Fire Fighter Professional Qualifications, and the requirements for National Fire Protection Association's (NFPA) 472, Standard for Professional Competence of Responders to Hazardous Materials Incidents for the for the Awareness and Operational Levels.

**Lecture Hours:** 48    **Lab Hours:** 32

### **FIR145 Fire Strategies and Tactics**

**3 credits**—This course provides an in-depth analysis of the principles of fire control through utilization of personnel, equipment, and extinguishing agents on the fire ground.

**Lecture Hours:** 48

### **FIR145 Fire Strategies and Tactics**

**3 credits**—This course provides an in-depth analysis of the principles of fire control through utilization of personnel, equipment, and extinguishing agents on the fire ground.

**Lecture Hours:** 48

### **FIR149 Fire Protection Hydraulics and Water Supply**

**3 credits**—This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems.

**Lecture Hours:** 48

### **FIR149 Fire Protection Hydraulics and Water Supply**

**3 credits**—This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems.

**Lecture Hours:** 48

### **FIR200 Occupational Safety/Health in Emergency Services**

**3 credits**—This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk evaluation and control procedures for fire stations, training sites, emergency vehicles, and emergency situations involving fire, EMS, hazardous materials, and technical rescue. Upon completion of this course, students should be able to establish and manage a safety program in an emergency service organization.

**Lecture Hours:** 48

### **FIR200 Occupational Safety/Health in Emergency Services**

**3 credits**—This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk evaluation and control procedures for fire stations, training sites, emergency vehicles, and emergency situations involving fire, EMS, hazardous materials, and technical rescue. Upon completion of this course, students should be able to establish and manage a safety program in an emergency service organization.

**Lecture Hours:** 48

### **FIR213 Principles of Emergency Services**

**3 credits**—This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

**Lecture Hours:** 48

### **FIR213 Principles of Emergency Services**

**3 credits**—This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

**Lecture Hours:** 48

### **FIR214 Legal Aspects of Emergency Services**

**3 credits**—This course introduces the Federal, State, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases.

**Lecture Hours:** 48

### **FIR214 Legal Aspects of Emergency Services**

**3 credits**—This course introduces the Federal, State, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases.

**Lecture Hours:** 48

### **FIR235 Fire Investigation I**

**3 credits**—This course is intended to provide the student with the fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the fire-setter, and types of fire causes.

**Lecture Hours:** 48

### **FIR235 Fire Investigation I**

**3 credits**—This course is intended to provide the student with the fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the fire-setter, and types of fire causes.

**Lecture Hours:** 48

### **FIR236 Fire Investigation II**

**3 credits**—This course is intended to provide the student with advance technical knowledge on rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and testifying.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in FIR235.

### **FIR236 Fire Investigation II**

**3 credits**—This course is intended to provide the student with advance technical knowledge on rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and testifying.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in FIR235.

### **FIR291 Fire Fighter II Certification**

**3 credits**—After completing the course the student will have met the sections required for a Firefighter II in the NFPA® 1001, 2013 edition, Standard for Fire Fighter Professional Qualifications. Students who successfully complete the certification process will be certified as a Firefighter II.

**Lecture Hours:** 32      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in FIR139.

### **FIR291 Fire Fighter II Certification**

**3 credits**—After completing the course the student will have met the sections required for a Firefighter II in the NFPA® 1001, 2013 edition, Standard for Fire Fighter Professional Qualifications. Students who successfully complete the certification process will be certified as a Firefighter II.

**Lecture Hours:** 32      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in FIR139.

### **FIR300 Principles of Fire and EMS Administration**

**3 credits**—This course introduces the student to the organization and management of a fire and emergency services department and the relationship of government agencies to the fire service. Emphasis is placed on fire and emergency service, ethics, and leadership from the perspective of the company officer.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in FIR213.

### **FIR300 Principles of Fire and EMS Administration**

**3 credits**—This course introduces the student to the organization and management of a fire and emergency services department and the relationship of government agencies to the fire service. Emphasis is placed on fire and emergency service, ethics, and leadership from the perspective of the company officer.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in FIR213.

### **FIR400 Emergency Safety and Survival**

**3 credits**—This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services.

**Lecture Hours:** 48

### **FIR400 Emergency Safety and Survival**

**3 credits**—This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services.

**Lecture Hours:** 48

### **FLF145 French I**

**5 credits**—This course is an introduction to the basic vocabulary and key structures of the French language. The course will help students develop the four basic skills of listening, speaking, reading, and writing and will provide the beginning steps toward the acquisition of the French language. The course also focuses on making the student more culturally aware.

**Lecture Hours:** 80

### **FLF145 French I**

**5 credits**—This course is an introduction to the basic vocabulary and key structures of the French language. The course will help students develop the four basic skills of listening, speaking, reading, and writing and will provide the beginning steps toward the acquisition of the French language. The course also focuses on making the student more culturally aware.

**Lecture Hours:** 80

### **FLF245 French II**

**5 credits**—This course continues to introduce basic vocabulary and key structures of the French language. The course will help students to continue to develop the four basic skills of listening, speaking, reading, and writing and will provide additional steps toward the acquisition of the French language. The course continues to focus also on making the student more culturally aware.

**Lecture Hours:** 80

**Prerequisite(s):** FLF145

### **FLF245 French II**

**5 credits**—This course continues to introduce basic vocabulary and key structures of the French language. The course will help students to continue to develop the four basic skills of listening, speaking, reading, and writing and will provide additional steps toward the acquisition of the French language. The course continues to focus also on making the student more culturally aware.

**Lecture Hours:** 80

**Prerequisite(s):** FLF145

### **FLS128 Conversational Spanish**

**3 credits**—Elementary speaking skills used in everyday conversations. Progresses toward the ability to converse in more varied and complex settings. Not for students who plan to major in foreign language.

**Lecture Hours:** 48

### **FLS128 Conversational Spanish**

**3 credits**—Elementary speaking skills used in everyday conversations. Progresses toward the ability to converse in more varied and complex settings. Not for students who plan to major in foreign language.

**Lecture Hours:** 48

### **FLS151 Elementary Spanish I**

**5 credits**—This course is student-centered introductory instruction in the basic components of the Spanish language. The course will help students develop the skills necessary for the acquisition and perfection of the primary concepts of reading, writing, listening, and speaking in the Spanish language.

This course is not recommended for students who have completed one year or more of high school Spanish or the equivalent.

**Lecture Hours:** 80

### **FLS151 Elementary Spanish I**

**5 credits**—This course is student-centered introductory instruction in the basic components of the Spanish language. The course will help students develop the skills necessary for the acquisition and perfection of the primary concepts of reading, writing, listening, and speaking in the Spanish language.

This course is not recommended for students who have completed one year or more of high school Spanish or the equivalent.

**Lecture Hours:** 80

### **FLS152 Elementary Spanish II**

**5 credits**—Provides continued instruction in the basic and necessary linguistic elements of Spanish to enable the learner to communicate verbally and in writing within the limits of the language presented.

**Lecture Hours:** 80

**Prerequisite(s):** FLS151 or equivalent course or instructor approval.

### **FLS152 Elementary Spanish II**

**5 credits**—Provides continued instruction in the basic and necessary linguistic elements of Spanish to enable the learner to communicate verbally and in writing within the limits of the language presented.

**Lecture Hours:** 80

**Prerequisite(s):** FLS151 or equivalent course or instructor approval.

### **FLS241 Intermediate Spanish I**

**4 credits**—This course is student-centered instruction that reviews essential grammatical elements in the language and introduces new topics as a continuation of the first year of Spanish. Instruction will enable learners to further develop proficiency in speaking, listening, writing, reading, and cultural understanding of Spanish speaking countries.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in FLS152.

### **FLS241 Intermediate Spanish I**

**4 credits**—This course is student-centered instruction that reviews essential grammatical elements in the language and introduces new topics as a continuation of the first year of Spanish. Instruction will enable learners to further develop proficiency in speaking, listening, writing, reading, and cultural understanding of Spanish speaking countries.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in FLS152.

### **FLS242 Intermediate Spanish II**

**4 credits**—This course is student-centered instruction that promotes further linguistic development as a continuation of Intermediate Spanish I. Instruction will enable learners to expand their understanding of Spanish culture while increasing grammatical knowledge and spontaneous vocabulary usage.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in FLS241.

### **FLS242 Intermediate Spanish II**

**4 credits**—This course is student-centered instruction that promotes further linguistic development as a continuation of Intermediate Spanish I. Instruction will enable learners to expand their understanding of Spanish culture while increasing grammatical knowledge and spontaneous vocabulary usage.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in FLS241.

### **GEO115 Human Geography**

**3 credits**—The course introduces basic fields of study, concepts, and research strategies of human geography. As a social science course it examines the interaction of humans and geographical space while exploring topics such as cultural diversity, urban centers, political boundaries, migration, land/water modification, erosion, and pollution.

**Lecture Hours:** 48

### **GEO115 Human Geography**

**3 credits**—The course introduces basic fields of study, concepts, and research strategies of human geography. As a social science course it examines the interaction of humans and geographical space while exploring topics such as cultural diversity, urban centers, political boundaries, migration, land/water modification, erosion, and pollution.

**Lecture Hours:** 48

### **GEO121 World Regional Geography**

**3 credits**—This introductory course builds an understanding of the physical and social aspects of geography by examining the major regions of the world and their connections. This will be accomplished by a geographic regional "tour" of the world examining the basic relationship between the physical environment and the cultural aspects within these regions.

**Lecture Hours:** 48

### **GEO121 World Regional Geography**

**3 credits**—This introductory course builds an understanding of the physical and social aspects of geography by examining the major regions of the world and their connections. This will be accomplished by a geographic regional "tour" of the world examining the basic relationship between the physical environment and the cultural aspects within these regions.

**Lecture Hours:** 48

### **GEO131 Physical Geography**

**3 credits**—An introduction to one of the major sub-fields of geography. Physical geography is the study of how and why physical phenomena vary spatially at and near the earth's surface. This course will emphasize describing the spatial distribution of the earth's natural features, patterns of solar energy receipt, atmospheric pressure, winds and precipitation around the earth. Introductory laboratory exercises complement the lecture.

**Lecture Hours:** 48

### **GEO131 Physical Geography**

**3 credits**—An introduction to one of the major sub-fields of geography. Physical geography is the study of how and why physical phenomena vary spatially at and near the earth's surface. This course will emphasize describing the spatial distribution of the earth's natural features, patterns of solar energy receipt, atmospheric pressure, winds and precipitation around the earth. Introductory laboratory exercises complement the lecture.

**Lecture Hours:** 48

### **GEO132 Physical Geography Lab**

**1 credits**—An introductory laboratory course to complement GY110T Physical Geography. The course explores the concepts, resources, and specialized methods necessary to understand the major elements of Physical Geography.

**Lab Hours:** 32

**Pre/Co-requisite(s):** GEO131

### **GEO132 Physical Geography Lab**

**1 credits**—An introductory laboratory course to complement GY110T Physical Geography. The course explores the concepts, resources, and specialized methods necessary to understand the major elements of Physical Geography.

**Lab Hours:** 32

**Pre/Co-requisite(s):** GEO131

### **GRA105 Drawing and Composition**

**4 credits**—This course introduces the student to a variety of art-making materials and media, provides a broad range of drawing experiences designed to expand the student's artistic perception, and enhances the student's ability to develop appropriate art-based solutions to common graphic design problems.

**Lecture Hours:** 32    **Lab Hours:** 64

### **GRA105 Drawing and Composition**

**4 credits**—This course introduces the student to a variety of art-making materials and media, provides a broad range of drawing experiences designed to expand the student's artistic perception, and enhances the student's ability to develop appropriate art-based solutions to common graphic design problems.

**Lecture Hours:** 32    **Lab Hours:** 64

### **GRA124 Electronic Illustration**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to create vector artwork. Students will utilize the leading vector drawing software to develop essential vector art rendering techniques.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** GRA133

### **GRA124 Electronic Illustration**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to create vector artwork. Students will utilize the leading vector drawing software to develop essential vector art rendering techniques.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** GRA133

### **GRA133 Desktop Publishing**

**4 credits**—This course introduces the student to computer generated layout and design production skills using electronic publishing software. Emphasis is a "hands-on" introduction to the leading page-layout application program utilized in the graphic communications industry.

**Lecture Hours: 32    Lab Hours: 64**

### **GRA133 Desktop Publishing**

**4 credits**—This course introduces the student to computer generated layout and design production skills using electronic publishing software. Emphasis is a "hands-on" introduction to the leading page-layout application program utilized in the graphic communications industry.

**Lecture Hours: 32    Lab Hours: 64**

### **GRA142 Graphic Imaging**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to create raster graphics. Students will utilize the leading digital imaging software to develop essential image manipulation techniques.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** GRA133

### **GRA142 Graphic Imaging**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to create raster graphics. Students will utilize the leading digital imaging software to develop essential image manipulation techniques.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** GRA133

### **GRA150 Introduction to Web Design**

**3 credits**—This course introduces students to the fundamentals of Website design and development. Emphasis is placed on designing cross-browser compatible interfaces and standards compliant Websites. Domain registration, Website hosting, search engine optimization, accessibility, usability, and interoperability will be discussed.

**Lecture Hours: 32    Lab Hours: 32**

### **GRA150 Introduction to Web Design**

**3 credits**—This course introduces students to the fundamentals of Website design and development. Emphasis is placed on designing cross-browser compatible interfaces and standards compliant Websites. Domain registration, Website hosting, search engine optimization, accessibility, usability, and interoperability will be discussed.

**Lecture Hours: 32    Lab Hours: 32**

### **GRA162 Web Page Graphics**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to create Website graphics. Students will utilize digital imaging software and emerging Web technologies to develop skills in constructing and implementing Web page graphics.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in GRA150.

### **GRA162 Web Page Graphics**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to create Website graphics. Students will utilize digital imaging software and emerging Web technologies to develop skills in constructing and implementing Web page graphics.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in GRA150.

### **GRA196 Design and Layout I**

**4 credits**—This course emphasizes the fundamentals of design and layout in visual communications. The course provides experience in the type selection process for design application.

**Lecture Hours: 32    Lab Hours: 64**

**Pre/Co-requisite(s):** A minimum grade of D- in GRA133.

### **GRA196 Design and Layout I**

**4 credits**—This course emphasizes the fundamentals of design and layout in visual communications. The course provides experience in the type selection process for design application.

**Lecture Hours: 32    Lab Hours: 64**

**Pre/Co-requisite(s):** A minimum grade of D- in GRA133.

### **GRA197 Design and Layout II**

**4 credits**—This course applies the principles and methods of design and layout to creating solutions for design problems. The process involved with communicating a client's product, service or image to a specific or general audience is explored in project application.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in GRA196 and GRA133.

### **GRA197 Design and Layout II**

**4 credits**—This course applies the principles and methods of design and layout to creating solutions for design problems. The process involved with communicating a client's product, service or image to a specific or general audience is explored in project application.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in GRA196 and GRA133.

### **GRA200 Applications of Color**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to color manage digital art and make logical decisions with regard to choosing color during the design process.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** GRA133

### **GRA200 Applications of Color**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to color manage digital art and make logical decisions with regard to choosing color during the design process.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** GRA133

### **GRA205 Design and Layout III**

**4 credits**—This course expands the dimension of the process of design to include specific information and experiences pertaining to advertising design and other advanced design formats.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA124 and GRA197.

### **GRA205 Design and Layout III**

**4 credits**—This course expands the dimension of the process of design to include specific information and experiences pertaining to advertising design and other advanced design formats.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA124 and GRA197.

### **GRA206 Advanced Design and Layout**

**4 credits**—This course expands the dimension of the process of design to include specific information and experiences pertaining to advertising design and other advanced design formats.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA142, GRA197, and GRA200.

### **GRA206 Advanced Design and Layout**

**4 credits**—This course expands the dimension of the process of design to include specific information and experiences pertaining to advertising design and other advanced design formats.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA142, GRA197, and GRA200.

### **GRA221 Principles of Illustration**

**3 credits**—This course develops an understanding of illustration within the context of graphic communications. Students will have the opportunity to produce original illustrations using a variety of media, tools and techniques.

**Lecture Hours: 32    Lab Hours: 32**

### **GRA221 Principles of Illustration**

**3 credits**—This course develops an understanding of illustration within the context of graphic communications. Students will have the opportunity to produce original illustrations using a variety of media, tools and techniques.

**Lecture Hours: 32    Lab Hours: 32**

### **GRA227 Interactive Multimedia**

**4 credits**—This course emphasizes designing interactive presentations using multimedia. Students will conceptualize, design and deliver interactive content.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** GRA150

### **GRA227 Interactive Multimedia**

**4 credits**—This course emphasizes designing interactive presentations using multimedia. Students will conceptualize, design and deliver interactive content.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** GRA150

### **GRA231 Photo Direction**

**2 credits**—This course presents an overview of the process involved with working with a commercial photographer. Working environment conditions, procedures and expectations for the designer will be covered. An introduction of the basics of digital photography will be provided.

**Lecture Hours: 32**

### **GRA231 Photo Direction**

**2 credits**—This course presents an overview of the process involved with working with a commercial photographer. Working environment conditions, procedures and expectations for the designer will be covered. An introduction of the basics of digital photography will be provided.

**Lecture Hours: 32**

### **GRA238 Web Design and Layout**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to design and layout a static Website. Students will utilize the leading Website

design software and Web design formatting languages to develop skills in designing, building, publishing, and maintaining a static Website.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA150.

### **GRA238 Web Design and Layout**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to design and layout a static Website. Students will utilize the leading Website design software and Web design formatting languages to develop skills in designing, building, publishing, and maintaining a static Website.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA150.

### **GRA239 CMS Web Design**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to develop a dynamic Website. Students will utilize an open source Web Content Management System and leading Website design software to develop skills in implementing, administering, and designing a CMS based Website.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA 150 Introduction to Web Design

### **GRA239 CMS Web Design**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to develop a dynamic Website. Students will utilize an open source Web Content Management System and leading Website design software to develop skills in implementing, administering, and designing a CMS based Website.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA 150 Introduction to Web Design

### **GRA285 Production Processes**

**3 credits**—This course will utilize desktop pre-press production techniques used for preparing artwork for printing. One color to multi-color techniques will be covered.

**Lecture Hours:** 32    **Lab Hours:** 32

**Pre/Co-requisite(s):** GRA200

### **GRA285 Production Processes**

**3 credits**—This course will utilize desktop pre-press production techniques used for preparing artwork for printing. One color to multi-color techniques will be covered.

**Lecture Hours:** 32    **Lab Hours:** 32

**Pre/Co-requisite(s):** GRA200

### **GRA290 Portfolio Preparation**

**3 credits**—The course is intended to advance student knowledge in portfolio and resume construction and job search strategies.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in GRA142, GRA200, and GRA197

### **GRA290 Portfolio Preparation**

**3 credits**—The course is intended to advance student knowledge in portfolio and resume construction and job search strategies.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in GRA142, GRA200, and GRA197

### **GRA924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **GRA924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **HCM138 Food Fundamentals**

**3 credits**—Studies the composition of foods and the scientific principles involved in food preparation. Emphasizes basic food handling competencies and cookery techniques. Students work with herbs, spices, dairy, eggs, fruits, vegetables, starches, stocks, sauces and soups, learning to produce quality products. Focuses on the development of proper kitchen procedures, use and care of equipment, sanitation, safety, cost control and efficient work methods.

**Lecture Hours: 48**

### **HCM138 Food Fundamentals**

**3 credits**—Studies the composition of foods and the scientific principles involved in food preparation. Emphasizes basic food handling competencies and cookery techniques. Students work with herbs, spices, dairy, eggs, fruits, vegetables, starches, stocks, sauces and soups, learning to produce quality products. Focuses on the development of proper kitchen procedures, use and care of equipment, sanitation, safety, cost control and efficient work methods.

**Lecture Hours:** 48

### **HCM200 Dining Room Service**

**2 credits**—Students will learn basic serving strategies, side work, service methods, styles of food service dining room etiquette, sanitation techniques POS systems dining room functions and the use of sound management techniques and quality customer service.

**Lecture Hours:** 16    **Lab Hours:** 32

### **HCM200 Dining Room Service**

**2 credits**—Students will learn basic serving strategies, side work, service methods, styles of food service dining room etiquette, sanitation techniques POS systems dining room functions and the use of sound management techniques and quality customer service.

**Lecture Hours:** 16    **Lab Hours:** 32

### **HCM240 Menu Planning and Design**

**2 credits**—This course applies the principles of menu planning and layout to the development of menus for a variety of types of facilities and service. The course will also examine the kitchen design, and facility layout.

**Lecture Hours:** 32

### **HCM240 Menu Planning and Design**

**2 credits**—This course applies the principles of menu planning and layout to the development of menus for a variety of types of facilities and service. The course will also examine the kitchen design, and facility layout.

**Lecture Hours:** 32

### **HCM242 Event Planning and Customer Service**

**2 credits**—This course will cover all aspects of event planning and customer service relating to the restaurant and hospitality fields. Student will engage in a hands on learning experience of dealing with real life customers and planning events such as company parties, graduations, and wedding receptions.

**Lecture Hours:** 32

### **HCM242 Event Planning and Customer Service**

**2 credits**—This course will cover all aspects of event planning and customer service relating to the restaurant and hospitality fields. Student will engage in a hands on learning experience of dealing with real life customers and planning events such as company parties, graduations, and wedding receptions.

**Lecture Hours:** 32

### **HCM251 Purchasing, Receiving, and Inventory**

**2 credits**—Studies principles in purchasing, receiving, issuing and inventory management. Emphasizes cost management techniques. Students practice skills in a clinical lab experience supervised by the purchasing manager.

**Lecture Hours:** 32

### **HCM251 Purchasing, Receiving, and Inventory**

**2 credits**—Studies principles in purchasing, receiving, issuing and inventory management. Emphasizes cost management techniques. Students practice skills in a clinical lab experience supervised by the purchasing manager.

**Lecture Hours:** 32

### **HCM309 Hospitality Safety and Sanitation**

**3 credits**—Studies basic principles of bacteriology, food borne illness, sanitation, workplace safety, personal hygiene, food security, health regulations and inspections. Emphasizes the importance of sanitary equipment and facilities, and pest control. This course includes instruction in preparation for ServSafe Certification and Certified Pool Operator (CPO). Students will complete certification examinations for both areas.

**Lecture Hours:** 48

### **HCM309 Hospitality Safety and Sanitation**

**3 credits**—Studies basic principles of bacteriology, food borne illness, sanitation, workplace safety, personal hygiene, food security, health regulations and inspections. Emphasizes the importance of sanitary equipment and facilities, and pest control. This course includes instruction in preparation for ServSafe Certification and Certified Pool Operator (CPO). Students will complete certification examinations for both areas.

**Lecture Hours:** 48

### **HCM589 Introduction to Restaurant Management**

**3 credits**—Students will develop fundamental skills necessary to begin a career in the restaurant field of hospitality. Topics include customer service, management and scheduling. General overviews of both front and back of the house will be covered.

**Lecture Hours:** 48

### **HCM589 Introduction to Restaurant Management**

**3 credits**—Students will develop fundamental skills necessary to begin a career in the restaurant field of hospitality. Topics include customer service, management and scheduling. General overviews of both front and back of the house will be covered.

**Lecture Hours:** 48

### **HCM602 Introduction to Food and Bar Operations**

**3 credits**—Focuses on the management of food and beverage operations in lodging establishments. Includes stewarding, banquets, restaurant, beverage and room service. Prepares students for internships in lodging operations.

**Lecture Hours:** 48

### **HCM602 Introduction to Food and Bar Operations**

**3 credits**—Focuses on the management of food and beverage operations in lodging establishments. Includes stewarding, banquets, restaurant, beverage and room service. Prepares students for internships in lodging operations.

**Lecture Hours:** 48

### **HCM605 Hotel Administration**

**2 credits**—A management course that introduces the student to advanced studies of property management, catering, sales, legal aspects, security and maintenance of all departments of the hotel.

**Lecture Hours:** 32

### **HCM605 Hotel Administration**

**2 credits**—A management course that introduces the student to advanced studies of property management, catering, sales, legal aspects, security and maintenance of all departments of the hotel.

**Lecture Hours:** 32

### **HCM608 Introduction to Hospitality**

**3 credits**—Introduction to the food service, lodging, and tourism components of the hospitality industry. Background information, current issues, resume writing, and future challenges in various segments of the industry.

**Lecture Hours:** 48

### **HCM608 Introduction to Hospitality**

**3 credits**—Introduction to the food service, lodging, and tourism components of the hospitality industry. Background information, current issues, resume writing, and future challenges in various segments of the industry.

**Lecture Hours:** 48

### **HCM905 Hospitality Internship**

**3 credits**—This course will provide students with an opportunity to gain hands on experience in the hospitality industry.

Can be taken for up to 5 credit hours.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in HCM608, HCM605, and HCM589.

### **HCM905 Hospitality Internship**

**3 credits**—This course will provide students with an opportunity to gain hands on experience in the hospitality industry.

Can be taken for up to 5 credit hours.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in HCM608, HCM605, and HCM589.

### **HCR111 Residential Forced Air Heating Systems**

**3 credits**—This course presents application of energy sources and equipment as they apply to heating, ventilation, air humidification and filtration systems.

**Lecture Hours:** 16    **Lab Hours:** 64

### **HCR111 Residential Forced Air Heating Systems**

**3 credits**—This course presents application of energy sources and equipment as they apply to heating, ventilation, air humidification and filtration systems.

**Lecture Hours:** 16    **Lab Hours:** 64

### **HCR113 Boiler Fundamentals**

**2 credits**—This class informs students of the concepts, terms, and the major components of steam systems. Topics include the basic steam heating cycle. Also covered in this course are the safety procedures necessary when working on low-pressure steam boilers and systems. Students will be able to install and maintain specific steam straps and recognize the common piping configurations used with steam heating systems.

**Lecture Hours:** 32

**Co-requisite(s):** HCR414, HCR275, and HCR516

### **HCR113 Boiler Fundamentals**

**2 credits**—This class informs students of the concepts, terms, and the major components of steam systems. Topics include the basic steam heating cycle. Also covered in this course are the safety procedures necessary when working on low-pressure steam boilers and systems. Students will be able to install and maintain specific steam straps and recognize the common piping configurations used with steam heating systems.

**Lecture Hours:** 32

**Co-requisite(s):** HCR414, HCR275, and HCR516

### **HCR114 Boiler Fundamentals**

**4 credits**—This class informs the students of the concepts, terms, and the major components of steam systems. Topics include the basic steam heating cycle. Also covered in this course are the safety procedures necessary when working on low-pressure steam boilers and systems. Students will be able to install and maintain specific steam straps and recognize the common piping configurations used with steam heating systems.

**Lecture Hours:** 16    **Lab Hours:** 96

**Co-requisite(s):** HCR282, HCR415, and HCR517

### **HCR114 Boiler Fundamentals**

**4 credits**—This class informs the students of the concepts, terms, and the major components of steam systems. Topics include the basic steam heating cycle. Also covered in this course are the safety procedures necessary when working on low-pressure steam boilers and systems. Students will be able to install and maintain specific steam straps and recognize the common piping configurations used with steam heating systems.

**Lecture Hours:** 16    **Lab Hours:** 96

**Co-requisite(s):** HCR282, HCR415, and HCR517

### **HCR126 Solar Thermal Installation**

**2 credits**—The Solar Thermal Installation course introduces solar thermal system requirements, design and configurations, installation techniques, operation and their application in residential and commercial construction.

**Lecture Hours:** 16    **Lab Hours:** 32

### **HCR126 Solar Thermal Installation**

**2 credits**—The Solar Thermal Installation course introduces solar thermal system requirements, design and configurations, installation techniques, operation and their application in residential and commercial construction.

**Lecture Hours:** 16    **Lab Hours:** 32

### **HCR127 Hydronic Heating Systems**

**2 credits**—To provide experiences in the operation, layout, and selection, and troubleshooting of residential and light commercial boilers.

**Lecture Hours:** 16

**Co-requisite(s):** HCR429, HCR602, HCR852, and HCR912

### **HCR127 Hydronic Heating Systems**

**2 credits**—To provide experiences in the operation, layout, and selection, and troubleshooting of residential and light commercial boilers.

**Lecture Hours:** 16

**Co-requisite(s):** HCR429, HCR602, HCR852, and HCR912

### **HCR137 Hydronic Heating Systems**

**3 credits**—To provide experiences in the operation, layout, selection, and troubleshooting of residential and light commercial boilers.

**Lecture Hours:** 16    **Lab Hours:** 64

**Co-requisite(s):** HCR429, HCR602, and HCR283

### **HCR137 Hydronic Heating Systems**

**3 credits**—To provide experiences in the operation, layout, selection, and troubleshooting of residential and light commercial boilers.

**Lecture Hours:** 16    **Lab Hours:** 64

**Co-requisite(s):** HCR429, HCR602, and HCR283

### **HCR181 Introduction to HVACR**

**3 credits**—The HVACR course will introduce students to the environmental function control of temperature, moisture content, air quality and air circulation in a conditioned space. Our labs allow the learner to view and examine various types of HVACR systems with respect to installation, components, and characteristics.

**Lecture Hours: 16    Lab Hours: 64**

### **HCR181 Introduction to HVACR**

**3 credits**—The HVACR course will introduce students to the environmental function control of temperature, moisture content, air quality and air circulation in a conditioned space. Our labs allow the learner to view and examine various types of HVACR systems with respect to installation, components, and characteristics.

**Lecture Hours: 16    Lab Hours: 64**

### **HCR200 Manual J and D HVAC Design**

**1 credits**—The Manual J and Manual D Residential HVAC Design course will provide students with the necessary skills to analyze a building's heating and cooling loads and design appropriate ductwork systems. Students will begin the process using manual worksheets and then finish by using Manual J and Manual D software programs.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C in CON102.

### **HCR200 Manual J and D HVAC Design**

**1 credits**—The Manual J and Manual D Residential HVAC Design course will provide students with the necessary skills to analyze a building's heating and cooling loads and design appropriate ductwork systems. Students will begin the process using manual worksheets and then finish by using Manual J and Manual D software programs.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C in CON102.

### **HCR201 Manual J and D HVAC Design**

**3 credits**—The Manual J and Manual D Residential HVAC Design course will provide students with the necessary skills to analyze a residential building's heating and cooling loads, and design appropriate ductwork systems . Students will begin the process using pencil and paper worksheets and Excel spreadsheets; then finish using Manual J and Manual D dedicated software programs.

**Lecture Hours: 32    Lab Hours: 32**

### **HCR201 Manual J and D HVAC Design**

**3 credits**—The Manual J and Manual D Residential HVAC Design course will provide students with the necessary skills to analyze a residential building's heating and cooling loads, and design appropriate ductwork systems . Students will begin the process using pencil and paper worksheets and Excel spreadsheets; then finish using Manual J and Manual D dedicated software programs.

**Lecture Hours: 32    Lab Hours: 32**

### **HCR281 Applied Practices I**

**5 credits**—This course provides students with practice in servicing and repair of the equipment in the HVACR lab to develop basic proficiency.

**Lecture Hours:** 0    **Lab Hours:** 160

### **HCR281 Applied Practices I**

**5 credits**—This course provides students with practice in servicing and repair of the equipment in the HVACR lab to develop basic proficiency.

**Lecture Hours:** 0    **Lab Hours:** 160

### **HCR282 Applied Practices II**

**3 credits**—This course provides students with opportunities to apply the theory to practice to become proficient in the service and repair of the equipment in the HVACR lab area.

**Lecture Hours:** 0    **Lab Hours:** 96

**Co-requisite(s):** HCR114, HCR415, and HCR517

### **HCR282 Applied Practices II**

**3 credits**—This course provides students with opportunities to apply the theory to practice to become proficient in the service and repair of the equipment in the HVACR lab area.

**Lecture Hours:** 0    **Lab Hours:** 96

**Co-requisite(s):** HCR114, HCR415, and HCR517

### **HCR283 Applied Practices III**

**3 credits**—This course provides the students a capstone opportunity to apply the theory to practice on the equipment in the HVACR lab to gain entry level proficiency in service and repair.

**Lecture Hours:** 0    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in HCR282.

**Co-requisite(s):** HCR137, HCR429, and HCR602

### **HCR283 Applied Practices III**

**3 credits**—This course provides the students a capstone opportunity to apply the theory to practice on the equipment in the HVACR lab to gain entry level proficiency in service and repair.

**Lecture Hours:** 0    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in HCR282.

**Co-requisite(s):** HCR137, HCR429, and HCR602

### **HCR414 Controls for HVACR**

**4 credits**—This course presents a more advanced study of electrical controls and their applications, an introduction electronics and the controls used in the H.V.A.C.R. systems.

**Lecture Hours:** 64

**Prerequisite(s):** ELT139 and ELT149

### **HCR414 Controls for HVACR**

**4 credits**—This course presents a more advanced study of electrical controls and their applications, an introduction electronics and the controls used in the H.V.A.C.R. systems.

**Lecture Hours:** 64

**Prerequisite(s):** ELT139 and ELT149

### **HCR415 Controls for HVACR**

**3 credits**—This course presents a more advanced study of electrical controls and their applications in the HVACR industry.

**Lecture Hours:** 16     **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in HCR455.

### **HCR415 Controls for HVACR**

**3 credits**—This course presents a more advanced study of electrical controls and their applications in the HVACR industry.

**Lecture Hours:** 16     **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in HCR455.

### **HCR429 HVAC App Controls w/Automated Systems**

**2 credits**—This course is a study of electronic controls and circuitry systems for H.V.A.C.R.

**Lecture Hours:** 32

**Co-requisite(s):** HCR127, HCR602, HCR852, and HCR912

### **HCR429 HVAC App Controls w/Automated Systems**

**2 credits**—This course is a study of electronic controls and circuitry systems for H.V.A.C.R.

**Lecture Hours:** 32

**Co-requisite(s):** HCR127, HCR602, HCR852, and HCR912

### **HCR455 Applied Electricity for HVACR**

**4 credits**—This course presents the basic electrical characteristics, reading and developing circuit graphics, test equipment, controls and circuit application.

**Lecture Hours:** 16     **Lab Hours:** 96

### **HCR455 Applied Electricity for HVACR**

**4 credits**—This course presents the basic electrical characteristics, reading and developing circuit graphics, test equipment, controls and circuit application.

**Lecture Hours:** 16     **Lab Hours:** 96

### **HCR516 HVACR Systems II**

**6 credits**—This course presents a continuing and advanced study of systems used in heating, ventilation, air cooling and refrigeration.

**Lecture Hours:** 96

**Co-requisite(s):** HCR275 and HCR414

### **HCR516 HVACR Systems II**

**6 credits**—This course presents a continuing and advanced study of systems used in heating, ventilation, air cooling and refrigeration.

**Lecture Hours:** 96

**Co-requisite(s):** HCR275 and HCR414

### **HCR517 HVACR Systems II**

**5 credits**—This course presents a continuing and advanced study of systems in heating, ventilation, air conditioning, and refrigeration.

**Lecture Hours:** 16     **Lab Hours:** 128

**Co-requisite(s):** HCR282 and HCR415

### **HCR517 HVACR Systems II**

**5 credits**—This course presents a continuing and advanced study of systems in heating, ventilation, air conditioning, and refrigeration.

**Lecture Hours:** 16     **Lab Hours:** 128

**Co-requisite(s):** HCR282 and HCR415

### **HCR602 HVACR Systems III**

**2 credits**—This course presents alternative application of energy sources and equipment as they apply to heating, ventilation, air-cooling and refrigeration systems.

**Lecture Hours:** 32

**Prerequisite(s):** HCR516

**Co-requisite(s):** HCR429 and HCR912

### **HCR602 HVACR Systems III**

**2 credits**—This course presents alternative application of energy sources and equipment as they apply to heating, ventilation, air-cooling and refrigeration systems.

**Lecture Hours:** 32

**Prerequisite(s):** HCR516

**Co-requisite(s):** HCR429 and HCR912

### **HCR852 Operation Strategies**

**2 credits**—This course presents customer relations and principles of successful business techniques. The job search and interview process will also be covered.

**Lecture Hours:** 32

**Prerequisite(s):** IND181 and HCR110

### **HCR852 Operation Strategies**

**2 credits**—This course presents customer relations and principles of successful business techniques. The job search and interview process will also be covered.

**Lecture Hours:** 32

**Prerequisite(s):** IND181 and HCR110

### **HCR911 HVACR Field Experience I**

**1 credits**—This course places students in professional settings in the HVACR industry. Emphasis is on observation and participation in the business practices of the HVACR industry.

**Lecture Hours:** 0    **Co-op Hours:** 64

**Co-requisite(s):** HCR283, HCR429, HCR602, and HCR137

### **HCR911 HVACR Field Experience I**

**1 credits**—This course places students in professional settings in the HVACR industry. Emphasis is on observation and participation in the business practices of the HVACR industry.

**Lecture Hours:** 0    **Co-op Hours:** 64

**Co-requisite(s):** HCR283, HCR429, HCR602, and HCR137

### **HCR912 HVACR Field Experience II**

**2 credits**—This course places students in professional settings for experiences in the Heating, Cooling and Air-Conditioning trades. Emphasis is given to observation of and participation in: troubleshooting, installation document preparation, and business practices.

**Lecture Hours:** 0    **Co-op Hours:** 128

**Prerequisite(s):** All first and second semester program courses and a current program 2.00 cumulative GPA.

**Co-requisite(s):** HCR429 and HCR602

### **HCR912 HVACR Field Experience II**

**2 credits**—This course places students in professional settings for experiences in the Heating, Cooling and Air-Conditioning trades. Emphasis is given to observation of and participation in: troubleshooting, installation document preparation, and business practices.

**Lecture Hours:** 0    **Co-op Hours:** 128

**Prerequisite(s):** All first and second semester program courses and a current program 2.00 cumulative GPA.

**Co-requisite(s):** HCR429 and HCR602

### **HEQ100 Introduction to Construction Equipment Operation**

**1 credits**—The Introduction to Construction Equipment Operation Course will provide students with the knowledge of basic requirements and skillsets necessary to become entry level equipment operators in the construction industry. Students will explore the various types of equipment and unique operating characteristics of each. Jobsite safety and preparation will be discussed as well as PPE and communications with employers, fellow workers, and the public.

**Lecture Hours:** 16

### **HEQ100 Introduction to Construction Equipment Operation**

**1 credits**—The Introduction to Construction Equipment Operation Course will provide students with the knowledge of basic requirements and skillsets necessary to become entry level equipment operators in the construction industry. Students will explore the various types of equipment and unique operating characteristics of each. Jobsite safety and preparation will be discussed as well as PPE and communications with employers, fellow workers, and the public.

**Lecture Hours:** 16

### **HEQ102 Preoperational Inspection**

**2 credits**—This Preoperational Inspection Course will give students practice in completing, documenting, and maintaining, inspections and records for the machines they will operate. This course is an introduction in to the proper methods and routines needed to insure that a particular machine is safe to operate as well as properly lubricated and in good working order according to manufacturers? specifications. Students will practice completing daily inspections reports and the steps necessary to report defects. Maintaining records of inspections and repairs will also be covered.

**Lecture Hours:** 16     **Lab Hours:** 48

### **HEQ102 Preoperational Inspection**

**2 credits**—This Preoperational Inspection Course will give students practice in completing, documenting, and maintaining, inspections and records for the machines they will operate. This course is an introduction in to the proper methods and routines needed to insure that a particular machine is safe to operate as well as properly lubricated and in good working order according to manufacturers? specifications. Students will practice completing daily inspections reports and the steps necessary to report defects. Maintaining records of inspections and repairs will also be covered.

**Lecture Hours:** 16     **Lab Hours:** 48

### **HEQ104 Equipment Maintenance I**

**2 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and repairs on different types of construction equipment. Individual component and systems service intervals will be discussed and analyzed.

Students will receive practice in fluid and filter replacing as well as recognizing, troubleshooting, replacing and repairing defective and worn components and parts. The need for ongoing operator input and involvement in the maintenance process will be explored.

**Lecture Hours: 16    Lab Hours: 48**

### **HEQ104 Equipment Maintenance I**

**2 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and repairs on different types of construction equipment. Individual component and systems service intervals will be discussed and analyzed. Students will receive practice in fluid and filter replacing as well as recognizing, troubleshooting, replacing and repairing defective and worn components and parts. The need for ongoing operator input and involvement in the maintenance process will be explored.

**Lecture Hours: 16    Lab Hours: 48**

### **HEQ105 Skid Steer Operation**

**3 credits**—The Skid Steer Equipment Operation Course will give students access to the hands-on operation of Skid Steer equipment used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16    Lab Hours: 96**

### **HEQ105 Skid Steer Operation**

**3 credits**—The Skid Steer Equipment Operation Course will give students access to the hands-on operation of Skid Steer equipment used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16    Lab Hours: 96**

### **HEQ106 Compact Excavator Operation**

**3 credits**—The Compact Excavator Operation Course will give students access to the hands-on operation of compact excavators used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ106 Compact Excavator Operation**

**3 credits**—The Compact Excavator Operation Course will give students access to the hands-on operation of compact excavators used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ107 Wheel Loader Operation**

**2 credits**—The Wheel Loader Operation Course will give students access to the hands-on operation of Wheel Loaders used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate loaders in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lab Hours:** 96

### **HEQ107 Wheel Loader Operation**

**2 credits**—The Wheel Loader Operation Course will give students access to the hands-on operation of Wheel Loaders used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate loaders in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lab Hours:** 96

### **HEQ108 Backhoe Operation**

**3 credits**—The Backhoe Operation Course will give students access to the hands-on operation of equipment used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ108 Backhoe Operation**

**3 credits**—The Backhoe Operation Course will give students access to the hands-on operation of equipment used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16      Lab Hours: 96**

### **HEQ109 All Terrain Lifts Operation**

**2 credits**—The All-Terrain Lifts Operation Course will give students access to the hands-on operation of all-terrain lifts and platforms used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, loading and unloading materials from trucks, and operating the work platform safely in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. Students will obtain an OSHA Certificate in Fork Lift Operation as part of this program.

**Lecture Hours: 16      Lab Hours: 48**

### **HEQ109 All Terrain Lifts Operation**

**2 credits**—The All-Terrain Lifts Operation Course will give students access to the hands-on operation of all-terrain lifts and platforms used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, loading and unloading materials from trucks, and operating the work platform safely in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. Students will obtain an OSHA Certificate in Fork Lift Operation as part of this program.

**Lecture Hours: 16      Lab Hours: 48**

### **HEQ110 Support Equipment Operation**

**2 credits**—The Support Equipment Operation Course will introduce students to various types of mechanized machines and devices used on jobsites. Types of equipment include plate compactors, tampers, portable air compressors, jack hammers, concrete buggies, power trowels, concrete saws, and others. Students will gain practice in the safe operation and care of these types of machines.

**Lecture Hours: 16      Lab Hours: 48**

### **HEQ110 Support Equipment Operation**

**2 credits**—The Support Equipment Operation Course will introduce students to various types of mechanized machines and devices used on jobsites. Types of equipment include plate compactors, tampers, portable air compressors, jack hammers, concrete buggies, power trowels, concrete saws, and others. Students will gain practice in the safe operation and care of these types of machines.

**Lecture Hours:** 16    **Lab Hours:** 48

### **HEQ111 Jobsite Certifications**

**4 credits**—The Jobsite Certifications Course will introduce students to the various training and certifications required by state and federal agencies for persons actively working on different types of jobsites. They will become familiar with the federal and state agencies that have regulatory authority over the construction industry.

**Lecture Hours:** 64

### **HEQ111 Jobsite Certifications**

**4 credits**—The Jobsite Certifications Course will introduce students to the various training and certifications required by state and federal agencies for persons actively working on different types of jobsites. They will become familiar with the federal and state agencies that have regulatory authority over the construction industry.

**Lecture Hours:** 64

### **HEQ113 Equipment Maintenance II**

**3 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and basic repairs on different types of construction equipment. Individual component and systems repair will be discussed and practiced. Students will gain hands-on practice in testing and repairing basic machine components. Arc welding and flame cutting will be introduced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ113 Equipment Maintenance II**

**3 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and basic repairs on different types of construction equipment. Individual component and systems repair will be discussed and practiced. Students will gain hands-on practice in testing and repairing basic machine components. Arc welding and flame cutting will be introduced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ114 Track Equipment Operation**

**3 credits**—The Track Equipment Operation Course will give students access to the hands-on operation of track equipped machines used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate track equipped machines in all sorts of workplace settings and environments. Students will be exposed to the unique operating characteristics of track machines by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ114 Track Equipment Operation**

**3 credits**—The Track Equipment Operation Course will give students access to the hands-on operation of track equipped machines used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate track equipped machines in all sorts of workplace settings and environments. Students will be exposed to the unique operating characteristics of track machines by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours:** 16    **Lab Hours:** 96

### **HEQ201 Utility Equipment Operation**

**3 credits**—The Utility Equipment Operation Course will introduce students to the operation of machines used in the construction industry when working in close proximity to buildings, underground utilities, and jobsites with limited operational spaces. Students will operate various machines such as Skid Steer Loaders, Mini Excavators, Loader Backhoes, All-Terrain Forklifts, Aerial Lifts, and related attachments. Students will gain experience digging over, under, and around underground utilities, excavating next to foundations and walls, and undercutting slabs for utility installations. The installation and operation of attachments, trenchers, breakers, soil conditioners, posthole digger, materials forks, and others will be introduced and practiced. Students will gain knowledge of pre-operational inspections, loading and securing equipment for transport and required licensure for various truck-trailer combinations and weight ratings.

**Lecture Hours:** 16    **Lab Hours:** 64

### **HEQ201 Utility Equipment Operation**

**3 credits**—The Utility Equipment Operation Course will introduce students to the operation of machines used in the construction industry when working in close proximity to buildings, underground utilities, and jobsites with limited operational spaces. Students will operate various machines such as Skid Steer Loaders, Mini Excavators, Loader Backhoes, All-Terrain Forklifts, Aerial Lifts, and related attachments. Students will gain experience digging over, under, and around underground utilities, excavating next to foundations and walls, and undercutting slabs for utility installations. The installation and operation of attachments, trenchers, breakers, soil conditioners, posthole digger, materials forks, and others will be introduced and practiced. Students will gain knowledge of pre-operational inspections, loading and securing equipment for transport and required licensure for various truck-trailer combinations and weight ratings.

**Lecture Hours:** 16    **Lab Hours:** 64

### **HEQ905 Workplace Experience**

**3 credits**—This course provides students with opportunities to gain on-the-job experience in the construction industry. Students will gain an understanding of qualities and skills needed for success in the equipment operating field. Coordination and guidance will be provided by department instructors.

**Co-op Hours:** 192

### **HEQ905 Workplace Experience**

**3 credits**—This course provides students with opportunities to gain on-the-job experience in the construction industry. Students will gain an understanding of qualities and skills needed for success in the equipment operating field. Coordination and guidance will be provided by department instructors.

**Co-op Hours:** 192

### **HIS117 Western Civilization I: Ancient and Medieval**

**3 credits**—Western Civilization I traces the development of Western Civilization from prehistory to 1300 C.E., the end of the High Middle Ages. The role of the Humanities is emphasized. The course explores major political, social, economic, scientific, intellectual, cultural, and religious developments contributing to Western societies. These include the significant events and contributions of early Middle Eastern civilizations, classical and Hellenistic Greece, the Roman Empire, its successors, the rise of the Western Christian church, and Medieval Europe.

**Lecture Hours:** 48

### **HIS117 Western Civilization I: Ancient and Medieval**

**3 credits**—Western Civilization I traces the development of Western Civilization from prehistory to 1300 C.E., the end of the High Middle Ages. The role of the Humanities is emphasized. The course explores major political, social, economic, scientific, intellectual, cultural, and religious developments contributing to Western societies. These include the significant events and contributions of early Middle Eastern civilizations, classical and Hellenistic Greece, the Roman Empire, its successors, the rise of the Western Christian church, and Medieval Europe.

**Lecture Hours:** 48

### **HIS118 Western Civilization II: Early Modern**

**3 credits**—Western Civilization II surveys the development of Western Civilization, covering the end of the High Middle Ages of Europe to the French Revolution. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing to the emergence of modern Western European Society. This includes the significant events and contributions of the Renaissance, the Reformation, the Columbian exchange, the Scientific Revolution, and the Enlightenment.

**Lecture Hours:** 48

### **HIS118 Western Civilization II: Early Modern**

**3 credits**—Western Civilization II surveys the development of Western Civilization, covering the end of the High Middle Ages of Europe to the French Revolution. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing to the emergence of modern Western European Society. This includes the significant events and contributions of the Renaissance, the Reformation, the Columbian exchange, the Scientific Revolution, and the Enlightenment.

**Lecture Hours:** 48

### **HIS119 Western Civilization III: The Modern Period**

**3 credits**—Western Civilization III will continue exploring the development of Western Civilization, covering the period from the French Revolution until the present. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing toward Western Society. Included are such major developments as the industrial revolution, the French revolution, Romanticism, European colonialism, World War I, World War II, the Cold War, the new European order, and the world of the Twenty-first Century.

**Lecture Hours:** 48

### **HIS119 Western Civilization III: The Modern Period**

**3 credits**—Western Civilization III will continue exploring the development of Western Civilization, covering the period from the French Revolution until the present. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing toward Western Society. Included are such major developments as the industrial revolution, the French revolution, Romanticism, European colonialism, World War I, World War II, the Cold War, the new European order, and the world of the Twenty-first Century.

**Lecture Hours:** 48

### **HIS151 U.S. History to 1877**

**3 credits**—This United States history course examines the country's Colonial experience, Revolutionary period, and 19th Century history through Reconstruction. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours:** 48

### **HIS151 U.S. History to 1877**

**3 credits**—This United States history course examines the country's Colonial experience, Revolutionary period, and 19th Century history through Reconstruction. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours:** 48

### **HIS152 U.S. History Since 1877**

**3 credits**—This United States history course examines the period from the end of reconstruction to the present. Emphasis is placed upon industrialization and its impact, the development of a strong federal government, an aggressive foreign policy, and a growing involvement in an international economy. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours:** 48

### **HIS152 U.S. History Since 1877**

**3 credits**—This United States history course examines the period from the end of reconstruction to the present. Emphasis is placed upon industrialization and its impact, the development of a strong federal government, an aggressive foreign policy, and a growing

involvement in an international economy. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours:** 48

### **HIS201 Iowa History**

**3 credits**—This history course is a survey of social, political, economic and cultural developments in Iowa from pre-historic times to the present.

**Lecture Hours:** 48

### **HIS201 Iowa History**

**3 credits**—This history course is a survey of social, political, economic and cultural developments in Iowa from pre-historic times to the present.

**Lecture Hours:** 48

### **HIS251 U.S. History 1945 to Present**

**3 credits**—This United States history course examines the American experience from the end of World War II to the present. This course will include the political, diplomatic, intellectual, economic, and social history of the period.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS152.

### **HIS251 U.S. History 1945 to Present**

**3 credits**—This United States history course examines the American experience from the end of World War II to the present. This course will include the political, diplomatic, intellectual, economic, and social history of the period.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS152.

### **HIS257 African American History**

**3 credits**—This course examines the experiences of African-American society in the United States from origins in Africa to the present.

**Lecture Hours:** 48

### **HIS257 African American History**

**3 credits**—This course examines the experiences of African-American society in the United States from origins in Africa to the present.

**Lecture Hours:** 48

### **HIS277 History of Women in the U.S.**

**3 credits**—United States history from the perspective of women starting in the colonial period through the present day. The course examines the historical development of women's role in the family, concepts of sexuality, economic and political roles, and intellectual

tradition. A comparative analysis of women's roles in other areas of the world is also provided.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS151, HIS152, or WST101.

### **HIS277 History of Women in the U.S.**

**3 credits**—United States history from the perspective of women starting in the colonial period through the present day. The course examines the historical development of women's role in the family, concepts of sexuality, economic and political roles, and intellectual tradition. A comparative analysis of women's roles in other areas of the world is also provided.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS151, HIS152, or WST101.

### **HIS924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **HIS924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **HIT125 Essentials of Health Records**

**2 credits**—This course familiarizes students with the origin, uses, content and format of health records, including both paper and electronic health records. It covers required standards for health records, organization of records, and analysis of health record data.

**Lecture Hours:** 32

### **HIT125 Essentials of Health Records**

**2 credits**—This course familiarizes students with the origin, uses, content and format of health records, including both paper and electronic health records. It covers required standards for health records, organization of records, and analysis of health record data.

**Lecture Hours:** 32

### **HIT215 Introduction to CPT**

**2 credits**—Introduces the use of the CPT classification system with emphasis on coding in the physician's office for reimbursement purposes.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of C- in HSC116.

### **HIT215 Introduction to CPT**

**2 credits**—Introduces the use of the CPT classification system with emphasis on coding in the physician's office for reimbursement purposes.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of C- in HSC116.

### **HIT240 Advanced Coding and Classification**

**3 credits**—Enables students to accurately apply more advanced ICD-CM codes to diseases and procedures in compliance with reimbursement and prospective payment system guidelines with use of coding resources.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT250.

### **HIT240 Advanced Coding and Classification**

**3 credits**—Enables students to accurately apply more advanced ICD-CM codes to diseases and procedures in compliance with reimbursement and prospective payment system guidelines with use of coding resources.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT250.

### **HIT250 Coding I (ICD)**

**3 credits**—This course introduces the concepts necessary for entry-level coding of diseases, injuries, and hospital procedures

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of D- in HSC116.

### **HIT250 Coding I (ICD)**

**3 credits**—This course introduces the concepts necessary for entry-level coding of diseases, injuries, and hospital procedures

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of D- in HSC116.

### **HIT280 CPT-4 Coding**

**3 credits**—Continues more complex concepts of procedural coding utilizing the Current Procedural Terminology, 4th Edition (CPT-4) classification system. Includes practical application of coding outpatient/ambulatory records.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT215.

### **HIT280 CPT-4 Coding**

**3 credits**—Continues more complex concepts of procedural coding utilizing the Current Procedural Terminology, 4th Edition (CPT-4) classification system. Includes practical application of coding outpatient/ambulatory records.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT215.

### **HIT510 Coding Certification Review**

**2 credits**—This course reviews and summarizes the information received in the medical billing/coding program to prepare students for a national coding certification exam.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of D- in HIT240 and HIT280.

### **HIT510 Coding Certification Review**

**2 credits**—This course reviews and summarizes the information received in the medical billing/coding program to prepare students for a national coding certification exam.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of D- in HIT240 and HIT280.

### **HSC108 Introduction to Health Professions**

**2 credits**—This course introduces the student to the healthcare system and provides an opportunity to explore a wide variety of health careers/professions. Students will explore ethical and legal responsibilities within the healthcare system including expectations for professional behavior. This course will allow for certification in common healthcare requirements.

**Lecture Hours:** 32

### **HSC108 Introduction to Health Professions**

**2 credits**—This course introduces the student to the healthcare system and provides an opportunity to explore a wide variety of health careers/professions. Students will explore ethical and legal responsibilities within the healthcare system including expectations for professional behavior. This course will allow for certification in common healthcare requirements.

**Lecture Hours:** 32

### **HSC113 Medical Terminology**

**2 credits**—This course presents the foundation necessary to develop a basic medical terminology vocabulary. Emphasis on the components of terms as related to each body system will be provided. The course further provides the student with the opportunity to properly spell, pronounce and utilize medical terms in relation to pathological conditions,

tests, and procedures. Common medical abbreviations will also be discussed for each system.

**Lecture Hours:** 32

### **HSC113 Medical Terminology**

**2 credits**—This course presents the foundation necessary to develop a basic medical terminology vocabulary. Emphasis on the components of terms as related to each body system will be provided. The course further provides the student with the opportunity to properly spell, pronounce and utilize medical terms in relation to pathological conditions, tests, and procedures. Common medical abbreviations will also be discussed for each system.

**Lecture Hours:** 32

### **HSC116 Beginning Medical Terminology**

**4 credits**—This course introduces the concepts necessary for building a basic medical vocabulary.

**Lecture Hours:** 32    **Lab Hours:** 64

### **HSC116 Beginning Medical Terminology**

**4 credits**—This course introduces the concepts necessary for building a basic medical vocabulary.

**Lecture Hours:** 32    **Lab Hours:** 64

### **HSC124 Advanced Medical Terminology**

**4 credits**—The course continues to build a medical vocabulary through the study of anatomy and physiology, common diseases and surgeries of the body systems.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C- in HSC116.

### **HSC124 Advanced Medical Terminology**

**4 credits**—The course continues to build a medical vocabulary through the study of anatomy and physiology, common diseases and surgeries of the body systems.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C- in HSC116.

### **HSC217 Introduction to Pathology**

**3 credits**—Introduces the study of pathology. Includes description, etiology, signs and symptoms, diagnostic procedures, current medical treatment, progress and prevention of disease in each body system, with emphasis on basic concepts and terminology.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of C- in HSC116.

### **HSC217 Introduction to Pathology**

**3 credits**—Introduces the study of pathology. Includes description, etiology, signs and symptoms, diagnostic procedures, current medical treatment, progress and prevention of disease in each body system, with emphasis on basic concepts and terminology.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of C- in HSC116.

### **HUM130 Holocaust Perspectives: Confronting the Future**

**3 credits**—The Holocaust, or Shoah, will be studied from a combination of historical, sociological, scientific, literary, and artistic approaches. The course will examine how this Twentieth Century genocide was used as a technique of political control and racial persecution. It will also look at the causes and functions of the Holocaust to draw parallels to the current resurgence of similar events and ideologies based on race, religion, and other prejudices.

**Lecture Hours:** 48

### **HUM130 Holocaust Perspectives: Confronting the Future**

**3 credits**—The Holocaust, or Shoah, will be studied from a combination of historical, sociological, scientific, literary, and artistic approaches. The course will examine how this Twentieth Century genocide was used as a technique of political control and racial persecution. It will also look at the causes and functions of the Holocaust to draw parallels to the current resurgence of similar events and ideologies based on race, religion, and other prejudices.

**Lecture Hours:** 48

### **HUM140 Shakespeare: Dramatist, Psychologist, Historian**

**3 credits**—This course will include a study of several plays by William Shakespeare, including two tragedies, two histories, and two comedies. Study of these plays will start with an examination of the historical period, which provides both the context in which the plays were written and the settings within the plays. Focus will then shift to a dramatic analysis of recurring themes, ideas, characterizations, and psychological profiles. It will end with a discussion of the contributions of Shakespeare to Western civilization and humanity as a whole. Also taught as LIT 145.

**Lecture Hours:** 48

### **HUM140 Shakespeare: Dramatist, Psychologist, Historian**

**3 credits**—This course will include a study of several plays by William Shakespeare, including two tragedies, two histories, and two comedies. Study of these plays will start with an examination of the historical period, which provides both the context in which the plays were written and the settings within the plays. Focus will then shift to a dramatic analysis of recurring themes, ideas, characterizations, and psychological profiles. It will end with a discussion of the contributions of Shakespeare to Western civilization and humanity as a whole. Also taught as LIT 145.

**Lecture Hours:** 48

### **HUM924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **HUM924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **IND100 Basic Mechanical Systems**

**2 credits**—This course provides the student with introductory knowledge, skills in use of tools, and components by mechanics.

**Lecture Hours:** 16    **Lab Hours:** 32

### **IND100 Basic Mechanical Systems**

**2 credits**—This course provides the student with introductory knowledge, skills in use of tools, and components by mechanics.

**Lecture Hours:** 16    **Lab Hours:** 32

### **IND111 Industrial Safety Mechanical Systems**

**1 credits**—This course provides students with information required to understand industrial safety issues and procedures. Studies include job hazard awareness, lock-out/tag-out, egress, fire extinguishers, OSHA 10, material handling, and Globally Harmonized System of Classification and Labeling of Chemicals (SDS Sheets).

**Lecture Hours:** 16

### **IND111 Industrial Safety Mechanical Systems**

**1 credits**—This course provides students with information required to understand industrial safety issues and procedures. Studies include job hazard awareness, lock-out/tag-out, egress, fire extinguishers, OSHA 10, material handling, and Globally Harmonized System of Classification and Labeling of Chemicals (SDS Sheets).

**Lecture Hours:** 16

### **IND145 Mechanical Power Transfer**

**2 credits**—This course provides the student with the knowledge and skills necessary to troubleshoot maintain and repair mechanical power systems. Such as bearings, gears, clutches, belts and seals.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in IND100.

### **IND145 Mechanical Power Transfer**

**2 credits**—This course provides the student with the knowledge and skills necessary to troubleshoot maintain and repair mechanical power systems. Such as bearings, gears, clutches, belts and seals.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in IND100.

### **IND157 Introduction to Computers**

**2 credits**—This is an introductory course in the use of a personal computer. Students will gain a general understanding of computer hardware and software. Students will be given hands-on experiences with operating system navigation, word processing and spreadsheet software, and industrial applications.

**Lecture Hours:** 16

### **IND157 Introduction to Computers**

**2 credits**—This is an introductory course in the use of a personal computer. Students will gain a general understanding of computer hardware and software. Students will be given hands-on experiences with operating system navigation, word processing and spreadsheet software, and industrial applications.

**Lecture Hours:** 16

### **IND181 Heating, Ventilating, and Air Conditioning**

**2 credits**—The Heating, Ventilating, and Air Conditioning Systems (HVAC) course will introduce students to the environmental function control of temperature, moisture content, air quality and air circulation in a conditioned space. Our labs allow the learner to view and examine various types of HVAC systems with respect to installation, components, and characteristics.

**Lecture Hours:** 16    **Lab Hours:** 32

### **IND181 Heating, Ventilating, and Air Conditioning**

**2 credits**—The Heating, Ventilating, and Air Conditioning Systems (HVAC) course will introduce students to the environmental function control of temperature, moisture content, air quality and air circulation in a conditioned space. Our labs allow the learner to view and examine various types of HVAC systems with respect to installation, components, and characteristics.

**Lecture Hours:** 16    **Lab Hours:** 32

### **IND949 Special Topics in Industrial**

**1 credits**—This course is designed for secondary industrial technology educators to develop and enhance knowledge and skills in specific emerging practices, issues, and technical content areas in the manufacturing industry.

May be taken for up to 6 credits.

**Lab Hours:** 32

### **IND949 Special Topics in Industrial**

**1 credits**—This course is designed for secondary industrial technology educators to develop and enhance knowledge and skills in specific emerging practices, issues, and technical content areas in the manufacturing industry.

May be taken for up to 6 credits.

**Lab Hours:** 32

### **LIT101 Introduction to Literature**

**3 credits**—This course studies multiple literary forms and genres. Students will be introduced to literary terminology, analysis and interpretation of literature, and a variety of authors and literary styles. Instruction will emphasize the process of reading to develop and interpret meaning and classroom discussions encouraging students to share interpretations. Students will also respond to literature through informal and formal written assignments that foster skill in analysis and interpretation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in RDG040 and ENG061 or appropriate placement scores.

### **LIT101 Introduction to Literature**

**3 credits**—This course studies multiple literary forms and genres. Students will be introduced to literary terminology, analysis and interpretation of literature, and a variety of authors and literary styles. Instruction will emphasize the process of reading to develop and interpret meaning and classroom discussions encouraging students to share interpretations. Students will also respond to literature through informal and formal written assignments that foster skill in analysis and interpretation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in RDG040 and ENG061 or appropriate placement scores.

### **LIT133 Minority Voices in U.S. Literature**

**3 credits**—This course will explore the issues and themes developed in the literature written by minority authors, often underrepresented in the traditional literary canon. We will focus on works by various dispossessed groups, including African-Americans, Latinos, Native Americans, Asian-Americans, women, and gays/transgender/lesbians. Genre to be read will include short stories, poetry, and novels with emphasis on the ideas and issues shared in common by the various silenced groups and the unique perspective of each. Class activities will build on students' skills in reading, discussing and writing about literature acquired in Introduction to Literature.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in LIT101.

### **LIT133 Minority Voices in U.S. Literature**

**3 credits**—This course will explore the issues and themes developed in the literature written by minority authors, often underrepresented in the traditional literary canon. We will focus on works by various dispossessed groups, including African-Americans, Latinos, Native Americans, Asian-Americans, women, and gays/transgender/lesbians. Genre to be read will include short stories, poetry, and novels with emphasis on the ideas and issues shared in common by the various silenced groups and the unique perspective of each. Class activities will build on students' skills in reading, discussing and writing about literature acquired in Introduction to Literature.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in LIT101.

### **LIT142 Major British Writers**

**3 credits**—This course is designed to give the freshman and/or sophomore level student a survey of the major author/trends in British Literature from Anglo-Saxon times to contemporary. Prose, poetry, and drama will be the featured genres. The course is designed to trace the development, achievements, and traditions of the British literary art. Major authors include Chaucer, Shakespeare, Donne, Johnson, Wordsworth, Shelley, Dickens, George Eliot, Lawrence, Shaw, and Conrad.

**Lecture Hours:** 48

### **LIT142 Major British Writers**

**3 credits**—This course is designed to give the freshman and/or sophomore level student a survey of the major author/trends in British Literature from Anglo-Saxon times to contemporary. Prose, poetry, and drama will be the featured genres. The course is designed to trace the development, achievements, and traditions of the British literary art. Major authors include Chaucer, Shakespeare, Donne, Johnson, Wordsworth, Shelley, Dickens, George Eliot, Lawrence, Shaw, and Conrad.

**Lecture Hours:** 48

### **LIT189 Women and Literature**

**3 credits**—Women and Literature examines the predominant ways in which women have been portrayed by both male and female writers. It will also focus on the effects these recurring images may have on expectations for real women.

**Lecture Hours:** 48

### **LIT189 Women and Literature**

**3 credits**—Women and Literature examines the predominant ways in which women have been portrayed by both male and female writers. It will also focus on the effects these recurring images may have on expectations for real women.

**Lecture Hours:** 48

### **LIT949 Special Topics in Literature**

**1 credits**—This course will explore literature focused on a specific theme, genre, or author; introducing the specified topic and seeking to develop appreciation of the selected literature.

Selected topics may include but are not limited to: detective fiction, science fiction, short stories, regional writers, or the work of a specific author.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **LIT949 Special Topics in Literature**

**1 credits**—This course will explore literature focused on a specific theme, genre, or author; introducing the specified topic and seeking to develop appreciation of the selected literature. Selected topics may include but are not limited to: detective fiction, science fiction, short stories, regional writers, or the work of a specific author.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MAP132 Medical Transcription**

**2 credits**—This course continues to build and strengthen skills involving grammar, punctuation, spelling, and use of reference materials by transcribing a variety of medical reports.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in HSC116, ADM148, and ADM159.

### **MAP132 Medical Transcription**

**2 credits**—This course continues to build and strengthen skills involving grammar, punctuation, spelling, and use of reference materials by transcribing a variety of medical reports.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in HSC116, ADM148, and ADM159.

### **MAP141 Medical Insurance**

**3 credits**—This course is an introduction to various details and forms relative to medical insurance programs and CPT coding.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT250.

### **MAP141 Medical Insurance**

**3 credits**—This course is an introduction to various details and forms relative to medical insurance programs and CPT coding.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT250.

### **MAP152 Computer Patient Billing**

**2 credits**—An introduction to an automated patient billing software will be covered in this course.

**Lecture Hours:** 16    **Lab Hours:** 32

**Pre/Co-requisite(s):** A minimum grade of D- in MAP141.

### **MAP152 Computer Patient Billing**

**2 credits**—An introduction to an automated patient billing software will be covered in this course.

**Lecture Hours:** 16    **Lab Hours:** 32

**Pre/Co-requisite(s):** A minimum grade of D- in MAP141.

### **MAP511 Pharmacology for the Medical Secretary**

**1 credits**—The basic knowledge, understanding, and skills necessary to use common pharmaceutical references and spell commonly used drugs.

**Lecture Hours:** 16

**Prerequisite(s):** HSC116

### **MAP511 Pharmacology for the Medical Secretary**

**1 credits**—The basic knowledge, understanding, and skills necessary to use common pharmaceutical references and spell commonly used drugs.

**Lecture Hours:** 16

**Prerequisite(s):** HSC116

### **MAT045 Fundamentals of Math**

**4 credits**—This course is designed to help students meet minimum competencies for their basic skills in mathematics in the areas of whole numbers, fractions, decimals, percent, and ratio/proportion. Critical thinking, problem solving, and conceptual development are emphasized. Students will be prepared for learning higher order mathematical concepts

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent

### **MAT045 Fundamentals of Math**

**4 credits**—This course is designed to help students meet minimum competencies for their basic skills in mathematics in the areas of whole numbers, fractions, decimals, percent, and ratio/proportion. Critical thinking, problem solving, and conceptual development are emphasized. Students will be prepared for learning higher order mathematical concepts

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent

### **MAT048 Preparatory Math for Elementary Algebra**

**4 credits**—This course is designed to prepare students for Elementary Algebra. The course will provide instruction in arithmetic and introduce algebra. Students successfully completing the course will meet competencies in basic arithmetic with whole numbers, integers, fractions, and decimals. Successful completion will assure skills needed for basic algebraic problems and a variety of application problems.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores

### **MAT048 Preparatory Math for Elementary Algebra**

**4 credits**—This course is designed to prepare students for Elementary Algebra. The course will provide instruction in arithmetic and introduce algebra. Students successfully completing the course will meet competencies in basic arithmetic with whole numbers, integers, fractions, and decimals. Successful completion will assure skills needed for basic algebraic problems and a variety of application problems.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores

### **MAT052 Pre-Algebra**

**3 credits**—This course is designed to combine both classroom instruction and individualized instruction to prepare students for Elementary Algebra. Teacher-student interaction as well as student interaction with one another will be provided for and encouraged.

**Lecture Hours:** 48

**Prerequisite(s):** MAT045

### **MAT052 Pre-Algebra**

**3 credits**—This course is designed to combine both classroom instruction and individualized instruction to prepare students for Elementary Algebra. Teacher-student interaction as well as student interaction with one another will be provided for and encouraged.

**Lecture Hours:** 48

**Prerequisite(s):** MAT045

### **MAT063 Elementary Algebra**

**4 credits**—This course is designed to combine both classroom instruction and individualized instruction to provide students with the critical thinking skills necessary for their subsequent courses and programs. Teacher-student interaction, as well as student interaction with one another, will be provided for and encouraged.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D in MAT048 or MAT052.

### **MAT063 Elementary Algebra**

**4 credits**—This course is designed to combine both classroom instruction and individualized instruction to provide students with the critical thinking skills necessary for their subsequent

courses and programs. Teacher-student interaction, as well as student interaction with one another, will be provided for and encouraged.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D in MAT048 or MAT052.

### **MAT102 Intermediate Algebra**

**4 credits**—This course will prepare the student for College Algebra and Trigonometry or other equivalent course work. Topics include properties of real numbers, linear and quadratic equations, graphs of polynomial functions, systems of equations, polynomial and rational expressions, inequalities, integral and rational exponents, radicals, and complex numbers.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement scores.

### **MAT102 Intermediate Algebra**

**4 credits**—This course will prepare the student for College Algebra and Trigonometry or other equivalent course work. Topics include properties of real numbers, linear and quadratic equations, graphs of polynomial functions, systems of equations, polynomial and rational expressions, inequalities, integral and rational exponents, radicals, and complex numbers.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement scores.

### **MAT110 Math for Liberal Arts**

**3 credits**—This is a one semester, liberal arts mathematics course that satisfies the minimum general education requirement for math. The course is designed to impart math skills which are helpful in everyday life as well as to expose students to areas of mathematics they may not have seen before. Topics include problem-solving skills, set theory, algebra, consumer mathematics, probability, and statistics. Other topics may be included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or equivalent COMPASS score.

### **MAT110 Math for Liberal Arts**

**3 credits**—This is a one semester, liberal arts mathematics course that satisfies the minimum general education requirement for math. The course is designed to impart math skills which are helpful in everyday life as well as to expose students to areas of mathematics they may not have seen before. Topics include problem-solving skills, set theory, algebra, consumer mathematics, probability, and statistics. Other topics may be included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or equivalent COMPASS score.

### **MAT122 College Algebra**

**5 credits**—Begins a two semester sequence to prepare students for the calculus sequence. The central theme is the concept of functions, their properties, graphs and applications. Functions studied include polynomial, rational, exponential, and logarithmic functions.

**Lecture Hours:** 80

**Prerequisite(s):** MAT102 or equivalent COMPASS score.

### **MAT122 College Algebra**

**5 credits**—Begins a two semester sequence to prepare students for the calculus sequence. The central theme is the concept of functions, their properties, graphs and applications. Functions studied include polynomial, rational, exponential, and logarithmic functions.

**Lecture Hours:** 80

**Prerequisite(s):** MAT102 or equivalent COMPASS score.

### **MAT128 Precalculus**

**4 credits**—This one-semester pre-calculus course is intended for the student with a solid algebra background who intends to take calculus. It is also beneficial (but not required) for the student to have a background in trigonometry. The course will emphasize functions using an analytical, numerical, and graphical approach. The student will study linear, polynomial, rational, exponential, logarithmic and trigonometric functions along with their applications.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores

### **MAT128 Precalculus**

**4 credits**—This one-semester pre-calculus course is intended for the student with a solid algebra background who intends to take calculus. It is also beneficial (but not required) for the student to have a background in trigonometry. The course will emphasize functions using an analytical, numerical, and graphical approach. The student will study linear, polynomial, rational, exponential, logarithmic and trigonometric functions along with their applications.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores

### **MAT134 Trigonometry and Analytic Geometry**

**3 credits**—The second course of a two-semester pre-calculus sequence. Topics include trigonometry and applications, vectors, analytic geometry, and polar and parametric equations.

**Lecture Hours:** 48

**Prerequisite(s):** MAT122 or equivalent COMPASS score.

### **MAT134 Trigonometry and Analytic Geometry**

**3 credits**—The second course of a two-semester pre-calculus sequence. Topics include trigonometry and applications, vectors, analytic geometry, and polar and parametric equations.

**Lecture Hours:** 48

**Prerequisite(s):** MAT122 or equivalent COMPASS score.

### **MAT151 Math Reasoning for Teachers I**

**3 credits**—This course explores mathematics as problem solving, communication, connections, and reasoning with regard to tasks involving numeration, relationships, estimation, and number sense of whole and rational numbers, probability and statistics. Activities and models appropriate to elementary school mathematics are used to represent these topics. This course does not count toward the mathematics requirement for the AA or AS degree.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in MAT063 or equivalent COMPASS score.

### **MAT151 Math Reasoning for Teachers I**

**3 credits**—This course explores mathematics as problem solving, communication, connections, and reasoning with regard to tasks involving numeration, relationships, estimation, and number sense of whole and rational numbers, probability and statistics. Activities and models appropriate to elementary school mathematics are used to represent these topics. This course does not count toward the mathematics requirement for the AA or AS degree.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in MAT063 or equivalent COMPASS score.

### **MAT156 Statistics**

**3 credits**—This course is a study of descriptive statistics including graphical representation, central tendency, correlation and regression, intuitive treatment of probability and inferential statistics including hypothesis testing.

**Lecture Hours:** 48

**Prerequisite(s):** MAT063

### **MAT156 Statistics**

**3 credits**—This course is a study of descriptive statistics including graphical representation, central tendency, correlation and regression, intuitive treatment of probability and inferential statistics including hypothesis testing.

**Lecture Hours:** 48

**Prerequisite(s):** MAT063

### **MAT210 Calculus I**

**4 credits**—The first in a calculus sequence, this course covers topics including functions and their graphs, limits, derivatives, applications of the derivative, and integrals.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT134 or MAT128 or appropriate placement scores.

### **MAT210 Calculus I**

**4 credits**—The first in a calculus sequence, this course covers topics including functions and their graphs, limits, derivatives, applications of the derivative, and integrals.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT134 or MAT128 or appropriate placement scores.

### **MAT216 Calculus II**

**4 credits**—A continuation of MAT-210, this course covers topics including integration techniques, applications of integration, infinite series, conic sections, parametric and polar equations.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT210.

### **MAT216 Calculus II**

**4 credits**—A continuation of MAT-210, this course covers topics including integration techniques, applications of integration, infinite series, conic sections, parametric and polar equations.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT210.

### **MAT219 Calculus III**

**4 credits**—This course covers topics including integration and differentiation techniques related to vectors, vector-valued functions, functions of several variables, multiple integration, and vector analysis.

**Lecture Hours:** 64

**Prerequisite(s):** MAT216

### **MAT219 Calculus III**

**4 credits**—This course covers topics including integration and differentiation techniques related to vectors, vector-valued functions, functions of several variables, multiple integration, and vector analysis.

**Lecture Hours:** 64

**Prerequisite(s):** MAT216

### **MAT504 Electronics Math I**

**4 credits**—This course presents algebraic concepts, trigonometric concepts and problem solving as applied to electronics. Specific topics included are: algebraic mathematical operations, equations manipulation and solving, quadratic equations, systems of equations, determinants and matrixes, special products and factoring, graphing, trigonometric functions, solutions of triangles, exponents and radicals, complex number systems and elements of plane vectors.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MAT063 or equivalent COMPASS score.

**Co-requisite(s):** ELT291

### **MAT504 Electronics Math I**

**4 credits**—This course presents algebraic concepts, trigonometric concepts and problem solving as applied to electronics. Specific topics included are: algebraic mathematical operations, equations manipulation and solving, quadratic equations, systems of equations, determinants and matrixes, special products and factoring, graphing, trigonometric functions, solutions of triangles, exponents and radicals, complex number systems and elements of plane vectors.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MAT063 or equivalent COMPASS score.

**Co-requisite(s):** ELT291

### **MAT514 Electronics Math II**

**4 credits**—This course presents logarithms as applied to electronics; number systems for computers, Boolean algebra, mapping and statistics as used in the electronic industry.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** MAT504

### **MAT514 Electronics Math II**

**4 credits**—This course presents logarithms as applied to electronics; number systems for computers, Boolean algebra, mapping and statistics as used in the electronic industry.

**Lecture Hours: 48    Lab Hours: 32**

**Prerequisite(s):** MAT504

### **MAT744 Technical Math**

**4 credits**—In this course students are exposed to the real number system, solution of linear equations, formula rearrangement, solution of word problems, functions and graphs, polynomials, factors and factorization, exponent functions and exponential equations. Emphasis is placed on critical thinking and problem solving skills.

**Lecture Hours: 64**

**Prerequisite(s):** MAT063 or equivalent COMPASS score

### **MAT744 Technical Math**

**4 credits**—In this course students are exposed to the real number system, solution of linear equations, formula rearrangement, solution of word problems, functions and graphs, polynomials, factors and factorization, exponent functions and exponential equations. Emphasis is placed on critical thinking and problem solving skills.

**Lecture Hours:** 64

**Prerequisite(s):** MAT063 or equivalent COMPASS score

### **MAT747 Technical Math II**

**4 credits**—In this course students continue the study of mathematics in various technical applications including trigonometry, geometry, polynomials, vectors, and complex numbers.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT744.

### **MAT747 Technical Math II**

**4 credits**—In this course students continue the study of mathematics in various technical applications including trigonometry, geometry, polynomials, vectors, and complex numbers.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT744.

### **MAT764 Math for Welders**

**2 credits**—This course introduces the basic mathematics principles that are using in the welding and metal fabrication field. Topics include: whole numbers, common fraction, decimal fractions, measurement, percentages and the metric system. This course includes hands on measuring activities.

**Lecture Hours:** 32

### **MAT764 Math for Welders**

**2 credits**—This course introduces the basic mathematics principles that are using in the welding and metal fabrication field. Topics include: whole numbers, common fraction, decimal fractions, measurement, percentages and the metric system. This course includes hands on measuring activities.

**Lecture Hours:** 32

### **MAT772 Applied Math**

**3 credits**—This course is designed to present basic facts of arithmetic including whole numbers, fractions, decimals, powers, roots, English and metric measurement, ratio-proportion, percents, introduction to algebra, and introduction to geometry. Instruction includes use of scientific hand-held calculators and emphasis placed on critical thinking, problem solving skills.

**Lecture Hours:** 48

### **MAT772 Applied Math**

**3 credits**—This course is designed to present basic facts of arithmetic including whole numbers, fractions, decimals, powers, roots, English and metric measurement, ratio-proportion, percents, introduction to algebra, and introduction to geometry. Instruction includes use of scientific hand-held calculators and emphasis placed on critical thinking, problem solving skills.

**Lecture Hours:** 48

### **MAT778 Applied Geometry/Trigonometry**

**3 credits**—This course emphasizes practical applications of algebra, geometry, and trigonometry. An understanding of mathematical concepts is stressed in all topics ranging from general arithmetic processes to trigonometry and compound angles. The use of a scientific calculator is introduced and developed throughout the course.

**Lecture Hours:** 48

**Prerequisite(s):** MAT772 or equivalent COMPASS score

### **MAT778 Applied Geometry/Trigonometry**

**3 credits**—This course emphasizes practical applications of algebra, geometry, and trigonometry. An understanding of mathematical concepts is stressed in all topics ranging from general arithmetic processes to trigonometry and compound angles. The use of a scientific calculator is introduced and developed throughout the course.

**Lecture Hours:** 48

**Prerequisite(s):** MAT772 or equivalent COMPASS score

### **MAT924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MAT924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MFG107 Introduction to 3D Modeling**

**3 credits**—This course will introduce students to designing parts using AutoCAD Inventor software in addition to digitizer and 3-D printer technology. The course includes a basic overview of 3-D software capabilities applied to tooling design and precise machined parts.

**Lecture Hours:** 16     **Lab Hours:** 64

### **MFG107 Introduction to 3D Modeling**

**3 credits**—This course will introduce students to designing parts using AutoCAD Inventor software in addition to digitizer and 3-D printer technology. The course includes a basic overview of 3-D software capabilities applied to tooling design and precise machined parts.

**Lecture Hours:** 16     **Lab Hours:** 64

### **MFG122 Machine Trade Printreading I**

**3 credits**—This course provides the student with the necessary knowledge to read and interpret basic prints used in the machining industry. It covers terminology, line-types, and drawing interpretation. First and third angle orthographic projection, dimensioning methods, and tolerancing are the major topics covered.

**Lecture Hours:** 48

### **MFG122 Machine Trade Printreading I**

**3 credits**—This course provides the student with the necessary knowledge to read and interpret basic prints used in the machining industry. It covers terminology, line-types, and drawing interpretation. First and third angle orthographic projection, dimensioning methods, and tolerancing are the major topics covered.

**Lecture Hours:** 48

### **MFG142 Geometric Dimensioning Tolerancing**

**3 credits**—This course introduces the student to the use of Geometric Dimensioning and Tolerancing. It consists primarily learning the names, meanings and application of the symbols used on engineering drawings that include GD&T.

**Lecture Hours:** 48

**Prerequisite(s):** MFG122

### **MFG142 Geometric Dimensioning Tolerancing**

**3 credits**—This course introduces the student to the use of Geometric Dimensioning and Tolerancing. It consists primarily learning the names, meanings and application of the symbols used on engineering drawings that include GD&T.

**Lecture Hours:** 48

**Prerequisite(s):** MFG122

### **MFG157 Introduction to CNC Programming I**

**2 credits**—In this course students will create basic programs for CNC mills. Student will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Speed and feed calculations, operator notes and start-up lines, mill tooling types and procedures, rectangular coordinates, canned (drill) cycles, and file management are other areas of study.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of D in MFG302.

### **MFG157 Introduction to CNC Programming I**

**2 credits**—In this course students will create basic programs for CNC mills. Student will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Speed and feed calculations, operator notes and start-up lines, mill tooling types and procedures, rectangular coordinates, canned (drill) cycles, and file management are other areas of study.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of D in MFG302.

### **MFG158 Introduction to CNC Programming II**

**2 credits**—In this course students will create programs for CNC mills using cutter diameter compensation, sub-routines, and sub-programs. Students will also write start-up lines and basic level programs on CNC lathes. Students will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Lathe tooling, typical turning procedures, cutter nose radius compensation, and tip orientation are other areas of study.

**Lecture Hours:** 32

**Pre/Co-requisite(s):** A minimum grade of D in MFG157 and MFG302.

### **MFG158 Introduction to CNC Programming II**

**2 credits**—In this course students will create programs for CNC mills using cutter diameter compensation, sub-routines, and sub-programs. Students will also write start-up lines and basic level programs on CNC lathes. Students will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Lathe tooling, typical turning procedures, cutter nose radius compensation, and tip orientation are other areas of study.

**Lecture Hours:** 32

**Pre/Co-requisite(s):** A minimum grade of D in MFG157 and MFG302.

### **MFG193 Machine Shop Processes**

**3 credits**—This course is designed to develop basic skills in precision measurement and layout tools, machine operations for lathes, mills, drills and surface grinders.

**Lecture Hours:** 16      **Lab Hours:** 64

### **MFG193 Machine Shop Processes**

**3 credits**—This course is designed to develop basic skills in precision measurement and layout tools, machine operations for lathes, mills, drills and surface grinders.

**Lecture Hours:** 16      **Lab Hours:** 64

### **MFG211 Basic Machine Theory**

**2 credits**—This course presents basic machining processes and concepts necessary to set-up and operate machine shop equipment.

**Lecture Hours:** 32

### **MFG211 Basic Machine Theory**

**2 credits**—This course presents basic machining processes and concepts necessary to set-up and operate machine shop equipment.

**Lecture Hours:** 32

### **MFG214 Advanced Machine Theory**

**2 credits**—Learn advanced machining processes and concepts used while operating machine shop equipment.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211 and MFG222

### **MFG214 Advanced Machine Theory**

**2 credits**—Learn advanced machining processes and concepts used while operating machine shop equipment.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211 and MFG222

### **MFG222 Machine Operations I**

**4 credits**—An introductory machining course presenting basic machining operations. Student will perform basic operations on lathes, horizontal + vertical-milling machines, drilling machines, saws, various types of grinders, and precision measuring equipment.

**Lecture Hours:** 0    **Lab Hours:** 128

**Pre/Co-requisite(s):** A minimum grade of D in MFG211.

### **MFG222 Machine Operations I**

**4 credits**—An introductory machining course presenting basic machining operations. Student will perform basic operations on lathes, horizontal + vertical-milling machines, drilling machines, saws, various types of grinders, and precision measuring equipment.

**Lecture Hours:** 0    **Lab Hours:** 128

**Pre/Co-requisite(s):** A minimum grade of D in MFG211.

### **MFG228 Machine Operations II**

**4 credits**—This is an advanced hands-on machining course.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211 and MFG222

**Co-requisite(s):** MFG214

### **MFG228 Machine Operations II**

**4 credits**—This is an advanced hands-on machining course.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211 and MFG222

**Co-requisite(s):** MFG214

### **MFG302 CNC Fundamentals**

**3 credits**—Covers computer numerical control (CNC) as it relates to milling machines, lathes, and related software. Emphasis on machine set-up and operation, inspection of parts, and communication of peripherals.

**Lecture Hours:** 0    **Lab Hours:** 96

### **MFG302 CNC Fundamentals**

**3 credits**—Covers computer numerical control (CNC) as it relates to milling machines, lathes, and related software. Emphasis on machine set-up and operation, inspection of parts, and communication of peripherals.

**Lecture Hours:** 0    **Lab Hours:** 96

### **MFG306 CNC Operations II**

**2 credits**—This program is similar to CNC Operations I except Students will run Hawkeye's CNC Lathes and Machining Centers individually rather than in groups to prove individual understanding of CNC machine operation. Manual equipment will be utilized to perform secondary operations. Manual and CMM inspection equipment will also be experienced. Students will back-plot, set-up, and run unproven programs to ensure the student can find and correct CNC program errors.

**Lab Hours:** 96

**Prerequisite(s):** MFG305 and MFG308

### **MFG306 CNC Operations II**

**2 credits**—This program is similar to CNC Operations I except Students will run Hawkeye's CNC Lathes and Machining Centers individually rather than in groups to prove individual understanding of CNC machine operation. Manual equipment will be utilized to perform secondary operations. Manual and CMM inspection equipment will also be experienced. Students will back-plot, set-up, and run unproven programs to ensure the student can find and correct CNC program errors.

**Lab Hours:** 96

**Prerequisite(s):** MFG305 and MFG308

### **MFG309 CNC Programming Theory II**

**4 credits**—This course teaches mid-level CNC programming including controller specific canned/auto cycles, cutter compensation, and using subroutine + sub-programs. Machine capabilities such as mirror imaging, axis rotation, and part size scaling will be discussed. Optimizing speeds and feeds by using insert manufacturer's test data.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D- in MFG157 and MFG158.

**Co-requisite(s):** MFG335

### **MFG309 CNC Programming Theory II**

**4 credits**—This course teaches mid-level CNC programming including controller specific canned/auto cycles, cutter compensation, and using subroutine + sub-programs. Machine capabilities such as mirror imaging, axis rotation, and part size scaling will be discussed. Optimizing speeds and feeds by using insert manufacturer's test data.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D- in MFG157 and MFG158.

**Co-requisite(s):** MFG335

### **MFG320 Computer Aided Machining**

**3 credits**—Computer-Aided Machining provides an opportunity to study all steps in the computer-aided design and computer-aided manufacturing processes. This includes drawing, dimensioning, creating solids, creating tool-paths, back-plotting, and program correction. Students utilize CAD/CAM software in creating and running functional CNC programs.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MFG309.

### **MFG320 Computer Aided Machining**

**3 credits**—Computer-Aided Machining provides an opportunity to study all steps in the computer-aided design and computer-aided manufacturing processes. This includes drawing, dimensioning, creating solids, creating tool-paths, back-plotting, and program correction. Students utilize CAD/CAM software in creating and running functional CNC programs.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MFG309.

### **MFG335 CNC Operations**

**3 credits**—This course is similar to CNC Fundamentals except students will run Hawkeye's CNC lathes and machining centers individually, rather than in groups to prove individual understanding of CNC machine operation. Manual equipment will be utilized to perform secondary operations. Manual and CMM inspection equipment will also be experienced. Students will back-plot, set-up, and run unproven programs to ensure the student can find and correct CNC program errors.

**Lecture Hours:** 0     **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in MFG302, MFG157, and MFG158.

### **MFG335 CNC Operations**

**3 credits**—This course is similar to CNC Fundamentals except students will run Hawkeye's CNC lathes and machining centers individually, rather than in groups to prove individual understanding of CNC machine operation. Manual equipment will be utilized to perform

secondary operations. Manual and CMM inspection equipment will also be experienced. Students will back-plot, set-up, and run unproven programs to ensure the student can find and correct CNC program errors.

**Lecture Hours: 0    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D- in MFG302, MFG157, and MFG158.

### **MFG364 Hydraulic Jigs and Fixtures**

**4 credits**—A course in building using blueprints, knowledge and skills developed in basic machine concepts and operations. Students are required to build and run jigs and fixtures working within the tolerance of the print.

**Lecture Hours: 16    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D in MFG214 and MFG228.

### **MFG364 Hydraulic Jigs and Fixtures**

**4 credits**—A course in building using blueprints, knowledge and skills developed in basic machine concepts and operations. Students are required to build and run jigs and fixtures working within the tolerance of the print.

**Lecture Hours: 16    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D in MFG214 and MFG228.

### **MFG365 General CNC Lathe Maintenance**

**2 credits**—This course is designed for the student who has little or no hands on training for CNC lathes. The course covers the separate subsystems and how they work together. Students will practice: preventive maintenance required to keep the machine running in top condition; diagnosis of problems using existing technical skills supplemented with the training manuals provided with this course. Students will become familiar with the machines' self-checking diagnostics, and how to proceed with troubleshooting and repair as recommended by the manuals or the equipment distributor's service staff.

**Lecture Hours: 16**

### **MFG365 General CNC Lathe Maintenance**

**2 credits**—This course is designed for the student who has little or no hands on training for CNC lathes. The course covers the separate subsystems and how they work together. Students will practice: preventive maintenance required to keep the machine running in top condition; diagnosis of problems using existing technical skills supplemented with the training manuals provided with this course. Students will become familiar with the machines' self-checking diagnostics, and how to proceed with troubleshooting and repair as recommended by the manuals or the equipment distributor's service staff.

**Lecture Hours: 16**

### **MFG366 General CNC Mill Maintenance**

**2 credits**—This course is designed for the student who has little or no hands on training for CNC mills. The course covers the separate subsystems and how they work together. Students will practice: preventive maintenance required to keep the machine running in top

condition; diagnosis of problems using existing technical skills supplemented with the training manuals provided with this course. Students will become familiar with the machines' self-checking diagnostics, and how to proceed with troubleshooting and repair as recommended by the manuals or the equipment distributor's service staff.

**Lecture Hours:** 16

**2 credits**—This course is designed for the student who has little or no hands on training for CNC mills. The course covers the separate subsystems and how they work together. Students will practice: preventive maintenance required to keep the machine running in top condition; diagnosis of problems using existing technical skills supplemented with the training manuals provided with this course. Students will become familiar with the machines' self-checking diagnostics, and how to proceed with troubleshooting and repair as recommended by the manuals or the equipment distributor's service staff.

**Lecture Hours:** 16

### **MFG380 EDM Fundamentals**

**2 credits**—This course covers the basics of wire and ram type EDMing. Classroom instruction includes the theory and fundamentals of EDMing, wire and electrode materials, the role of deionized water and dielectric fluids, power supplies, computer numerical control (CNC) EDM. Lab work consists of fabrication of electrodes and setup and operation of EDM machine tools.

**Lecture Hours:** 16      **Lab Hours:** 32

### **MFG380 EDM Fundamentals**

**2 credits**—This course covers the basics of wire and ram type EDMing. Classroom instruction includes the theory and fundamentals of EDMing, wire and electrode materials, the role of deionized water and dielectric fluids, power supplies, computer numerical control (CNC) EDM. Lab work consists of fabrication of electrodes and setup and operation of EDM machine tools.

**Lecture Hours:** 16      **Lab Hours:** 32

### **MFG404 Basic Diemaking**

**6 credits**—This is a course in basic tool and die theory, building procedures and techniques. Units of instruction include principles of piercing, blanking and bending as well as die terminology and construction applications.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D in MFG211, MFG222, MFG214, and MFG228.

**Co-requisite(s):** MFG410

### **MFG404 Basic Diemaking**

**6 credits**—This is a course in basic tool and die theory, building procedures and techniques. Units of instruction include principles of piercing, blanking and bending as well as die terminology and construction applications.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D in MFG211, MFG222, MFG214, and MFG228.

**Co-requisite(s):** MFG410

### **MFG408 Basic Diemaking**

**8 credits**—This is a course in basic tool and die theory, building procedures and techniques. Units of instruction include principles of piercing, blanking and bending as well as die terminology and construction applications.

**Lecture Hours:** 48    **Lab Hours:** 240

**Prerequisite(s):** MFG228

### **MFG408 Basic Diemaking**

**8 credits**—This is a course in basic tool and die theory, building procedures and techniques. Units of instruction include principles of piercing, blanking and bending as well as die terminology and construction applications.

**Lecture Hours:** 48    **Lab Hours:** 240

**Prerequisite(s):** MFG228

### **MFG410 CAD Die Design**

**3 credits**—This course is the study of die assembly prints correlated with work sequencing and procedures used to efficiently produce and assemble dies. Activities include the use of CAD software to derive design information needed to build components in the die for a variety of die designs. The course will develop student skill in using assembly print information to plan the build process for various types of stamping dies.

**Lecture Hours:** 16    **Lab Hours:** 64

### **MFG410 CAD Die Design**

**3 credits**—This course is the study of die assembly prints correlated with work sequencing and procedures used to efficiently produce and assemble dies. Activities include the use of CAD software to derive design information needed to build components in the die for a variety of die designs. The course will develop student skill in using assembly print information to plan the build process for various types of stamping dies.

**Lecture Hours:** 16    **Lab Hours:** 64

### **MFG431 Die Revision and Repair**

**5 credits**—This course will train students on common maintenance, repair and revision techniques performed on manufacturing tooling such as stamping dies, injection molds, fixtures and jigs. The student will also learn about the maintenance schedule for manufacturing tools, the function and installation of safety sensors, secondary operation components, and gage and inspection components in production tooling.

**Lecture Hours:** 16    **Lab Hours:** 128

**Prerequisite(s):** A minimum grade of D in MFG408.

### **MFG431 Die Revision and Repair**

**5 credits**—This course will train students on common maintenance, repair and revision techniques performed on manufacturing tooling such as stamping dies, injection molds, fixtures and jigs. The student will also learn about the maintenance schedule for manufacturing tools, the function and installation of safety sensors, secondary operation components, and gage and inspection components in production tooling.

**Lecture Hours: 16    Lab Hours: 128**

**Prerequisite(s):** A minimum grade of D in MFG408.

### **MFG452 Moldmaking**

**3 credits**—The student is presented with the basic fundamentals of plastic mold construction and molding processes. Experienced individuals may contact instructor to gain admittance to this course.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in MFG408.

### **MFG452 Moldmaking**

**3 credits**—The student is presented with the basic fundamentals of plastic mold construction and molding processes. Experienced individuals may contact instructor to gain admittance to this course.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in MFG408.

### **MFG525 CMM Inspection and SPC**

**3 credits**—This course instructs the student on the capabilities and basic operation of a Coordinate Measuring Machine used in manufacturing to inspect precision machined parts. Students will also be introduced to using inspection data in the Statistical Process Control method of insuring quality production. SPC fundamentals and software applications will be introduced in this course.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D in MFG142.

### **MFG525 CMM Inspection and SPC**

**3 credits**—This course instructs the student on the capabilities and basic operation of a Coordinate Measuring Machine used in manufacturing to inspect precision machined parts. Students will also be introduced to using inspection data in the Statistical Process Control method of insuring quality production. SPC fundamentals and software applications will be introduced in this course.

**Lecture Hours: 16    Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D in MFG142.

### **MFG924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MFG924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MGT101 Principles of Management**

**3 credits**—A study of current theory and practice of leading a complex business organization toward the accomplishment of organizational objectives.

**Lecture Hours:** 48

### **MGT101 Principles of Management**

**3 credits**—A study of current theory and practice of leading a complex business organization toward the accomplishment of organizational objectives.

**Lecture Hours:** 48

### **MGT110 Small Business Management**

**3 credits**—A study of current theory and practices in creating and running a small business. The course includes the study of management functions as well as a discussion of business startup, including the creation of a business plan.

**Lecture Hours:** 48

### **MGT110 Small Business Management**

**3 credits**—A study of current theory and practices in creating and running a small business. The course includes the study of management functions as well as a discussion of business startup, including the creation of a business plan.

**Lecture Hours:** 48

### **MGT142 Problems and Issues in Supervision and Management**

**3 credits**—This course provides students in the Human Resource Management program with the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing exercises, cases, and simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work.

**Lecture Hours:** 48

### **MGT142 Problems and Issues in Supervision and Management**

**3 credits**—This course provides students in the Human Resource Management program with the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing exercises, cases, and simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work.

**Lecture Hours:** 48

### **MGT170 Human Resource Management**

**3 credits**—A study of the theory, principles, concepts and practices of developing and utilizing personnel within business organizations.

**Lecture Hours:** 48

### **MGT170 Human Resource Management**

**3 credits**—A study of the theory, principles, concepts and practices of developing and utilizing personnel within business organizations.

**Lecture Hours:** 48

### **MGT174 Training and Employee Development**

**3 credits**—This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program.

**Lecture Hours:** 48

### **MGT174 Training and Employee Development**

**3 credits**—This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program.

**Lecture Hours:** 48

### **MGT177 Staffing**

**3 credits**—This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records, and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives.

**Lecture Hours:** 48

### **MGT177 Staffing**

**3 credits**—This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and

screening techniques, maintaining employee records, and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives.

**Lecture Hours:** 48

### **MGT178 Employment Law**

**3 credits**—This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, Equal Employment Opportunity (EEO), affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law.

**Lecture Hours:** 48

### **MGT178 Employment Law**

**3 credits**—This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, Equal Employment Opportunity (EEO), affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law.

**Lecture Hours:** 48

### **MGT180 Management and Labor Relations**

**3 credits**—This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor law and unfair labor practices, the role of the National Labor Relations Board (NLRB), organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists.

**Lecture Hours:** 48

### **MGT180 Management and Labor Relations**

**3 credits**—This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor law and unfair labor practices, the role of the National Labor Relations Board (NLRB), organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists.

**Lecture Hours:** 48

### **MGT190 Employee Compensation and Benefits Management**

**3 credits**—This course will develop knowledge in the area of compensation and benefit practices including job evaluation, salary surveys, individual and group performance based pay plans, health insurance, wellness programs, pensions, and the associated legal environment. Compensation and benefit management theories will be integrated with organizational goals and objectives severing as the overall foundation for development and implementation.

**Lecture Hours:** 48

### **MGT190 Employee Compensation and Benefits Management**

**3 credits**—This course will develop knowledge in the area of compensation and benefit practices including job evaluation, salary surveys, individual and group performance based pay plans, health insurance, wellness programs, pensions, and the associated legal environment. Compensation and benefit management theories will be integrated with organizational goals and objectives serving as the overall foundation for development and implementation.

**Lecture Hours:** 48

### **MGT210 Management Decision Making**

**3 credits**—A capstone course which uses case studies to review all aspects of the Marketing Management program. Emphasis is placed on decision making and is to be taken in the student's final semester.

**Lecture Hours:** 48

### **MGT210 Management Decision Making**

**3 credits**—A capstone course which uses case studies to review all aspects of the Marketing Management program. Emphasis is placed on decision making and is to be taken in the student's final semester.

**Lecture Hours:** 48

### **MGT222 Golf Club Operations**

**3 credits**—Students will study strategic, tactical and operational practices regarding golf courses. Key determinates as to why some golf courses are successful and others struggle.

**Lecture Hours:** 48

### **MGT222 Golf Club Operations**

**3 credits**—Students will study strategic, tactical and operational practices regarding golf courses. Key determinates as to why some golf courses are successful and others struggle.

**Lecture Hours:** 48

### **MIL103 Military Survival Skills**

**2 credits**—Basic military survival principles are discussed in class and demonstrated during a Survival Weekend. Concepts taught are: shelter building, water and food gathering, land navigation, first aid, and rescue signaling. Discussion, 1 hr./wk.

**Lecture Hours:** 16     **Lab Hours:** 32

### **MIL103 Military Survival Skills**

**2 credits**—Basic military survival principles are discussed in class and demonstrated during a Survival Weekend. Concepts taught are: shelter building, water and food gathering, land navigation, first aid, and rescue signaling. Discussion, 1 hr./wk.

**Lecture Hours:** 16     **Lab Hours:** 32

### **MIL110 Leadership and Personal Development**

**1 credits**—Introduces students to the personal challenges and competencies that are critical for effective leadership in the military. Students learn how the personal development of life skills such as goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession. Discussion, 1 hr./wk.

**Lab Hours:** 32

### **MIL110 Leadership and Personal Development**

**1 credits**—Introduces students to the personal challenges and competencies that are critical for effective leadership in the military. Students learn how the personal development of life skills such as goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession. Discussion, 1 hr./wk.

**Lab Hours:** 32

### **MIL115 Foundations of Tactical Leadership**

**1 credits**—Examines the challenges of leading in complex contemporary military operational environments. Dimensions of the cross-cultural challenges of military leadership in a constantly changing world are highlighted and applied to practical leadership tasks and situations. Discussion 2 hrs./wk.

**Lecture Hours:** 16

### **MIL115 Foundations of Tactical Leadership**

**1 credits**—Examines the challenges of leading in complex contemporary military operational environments. Dimensions of the cross-cultural challenges of military leadership in a constantly changing world are highlighted and applied to practical leadership tasks and situations. Discussion 2 hrs./wk.

**Lecture Hours:** 16

### **MIL120 Innovative Team Leadership**

**2 credits**—Explores the dimensions of creative and innovative military leadership strategies and styles by studying historical case studies and engaging in interactive student exercises. Students practice aspects of personal motivation and team building in the context of planning, executing, and assessing team exercises. Discussion, 2 hrs./wk.

**Lecture Hours:** 16      **Lab Hours:** 32

### **MIL120 Innovative Team Leadership**

**2 credits**—Explores the dimensions of creative and innovative military leadership strategies and styles by studying historical case studies and engaging in interactive student exercises. Students practice aspects of personal motivation and team building in the context of planning, executing, and assessing team exercises. Discussion, 2 hrs./wk.

**Lecture Hours:** 16      **Lab Hours:** 32

### **MIL122 Leadership in Changing Environment**

**2 credits**—

**Lecture Hours:** 32

### **MIL122 Leadership in Changing Environment**

**2 credits—**

**Lecture Hours:** 32

### **MKT110 Principles of Marketing**

**3 credits—**An overview of the processes, problems and activities associated with the planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges.

**Lecture Hours:** 48

### **MKT110 Principles of Marketing**

**3 credits—**An overview of the processes, problems and activities associated with the planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges.

**Lecture Hours:** 48

### **MKT140 Principles of Selling**

**3 credits—**Planned learning activities and experiences emphasize the psychology of selling, the selling process, sales techniques, and selling as a professional career.

**Lecture Hours:** 48

### **MKT140 Principles of Selling**

**3 credits—**Planned learning activities and experiences emphasize the psychology of selling, the selling process, sales techniques, and selling as a professional career.

**Lecture Hours:** 48

### **MKT142 Consumer Behavior**

**3 credits—**Consumer behavior is the course within a marketing curriculum that most directly applies concepts, principles, and theories from the various social sciences to the study of the factors that influence the acquisition, consumption, and disposition of products, services, and ideas.

**Lecture Hours:** 48

### **MKT142 Consumer Behavior**

**3 credits—**Consumer behavior is the course within a marketing curriculum that most directly applies concepts, principles, and theories from the various social sciences to the study of the factors that influence the acquisition, consumption, and disposition of products, services, and ideas.

**Lecture Hours:** 48

### **MKT152 Advertising and Visual Merchandising**

**3 credits**—This course presents the fundamentals of advertising and visual merchandising as promotional tools. It incorporates the Integrated Marketing Communication (IMC) concept.

**Lecture Hours:** 48

### **MKT152 Advertising and Visual Merchandising**

**3 credits**—This course presents the fundamentals of advertising and visual merchandising as promotional tools. It incorporates the Integrated Marketing Communication (IMC) concept.

**Lecture Hours:** 48

### **MKT160 Principles of Retailing**

**3 credits**—Organized learning activities emphasize the status of retail environments, operations, locations, merchandising, pricing and promotions.

**Lecture Hours:** 48

### **MKT160 Principles of Retailing**

**3 credits**—Organized learning activities emphasize the status of retail environments, operations, locations, merchandising, pricing and promotions.

**Lecture Hours:** 48

### **MKT198 Sports Marketing**

**3 credits**—This course will explain the basics of sports marketing, research, and delivery.

**Lecture Hours:** 48

### **MKT198 Sports Marketing**

**3 credits**—This course will explain the basics of sports marketing, research, and delivery.

**Lecture Hours:** 48

### **MKT924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MKT924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MLT101 Introduction to Lab Science**

**2 credits**—This course familiarizes the student with the MLT program and the field of laboratory medicine. The organization and role of the clinical laboratory are explored, as well as medical ethics and conduct, employment opportunities, and professional organizations.

**Lecture Hours: 32**

### **MLT101 Introduction to Lab Science**

**2 credits**—This course familiarizes the student with the MLT program and the field of laboratory medicine. The organization and role of the clinical laboratory are explored, as well as medical ethics and conduct, employment opportunities, and professional organizations.

**Lecture Hours: 32**

### **MLT103 Lab Mathematics**

**3 credits**—Mathematical calculations applicable to the clinical laboratory are studied in this course. Emphasis is on the Metric System and calculations involved in the preparation of laboratory solutions and dilutions.

**Lecture Hours: 32    Lab Hours: 32**

### **MLT103 Lab Mathematics**

**3 credits**—Mathematical calculations applicable to the clinical laboratory are studied in this course. Emphasis is on the Metric System and calculations involved in the preparation of laboratory solutions and dilutions.

**Lecture Hours: 32    Lab Hours: 32**

### **MLT110 Fundamental Lab Techniques**

**3 credits**—This course is directed toward developing the knowledge and technical skill necessary to perform basic laboratory tests. Emphasis is placed on use and maintenance of laboratory equipment, quality control, and safety techniques.

**Lecture Hours: 32    Lab Hours: 32**

### **MLT110 Fundamental Lab Techniques**

**3 credits**—This course is directed toward developing the knowledge and technical skill necessary to perform basic laboratory tests. Emphasis is placed on use and maintenance of laboratory equipment, quality control, and safety techniques.

**Lecture Hours: 32    Lab Hours: 32**

### **MLT120 Urinalysis**

**3 credits**—This course includes the study of urine formation and methodology determining the physical, chemical, and microscopic properties of urine in normal and abnormal states.

**Lecture Hours: 32    Lab Hours: 32**

### **MLT120 Urinalysis**

**3 credits**—This course includes the study of urine formation and methodology determining the physical, chemical, and microscopic properties of urine in normal and abnormal states.

**Lecture Hours: 32    Lab Hours: 32**

### **MLT130 Hematology**

**3 credits**—Hematology is the study of the formed elements of the blood—red blood cells, white blood cells, and platelets. Development and characteristics of these, methods of measurement, and abnormalities are covered.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT130 Hematology**

**3 credits**—Hematology is the study of the formed elements of the blood—red blood cells, white blood cells, and platelets. Development and characteristics of these, methods of measurement, and abnormalities are covered.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT230 Advanced Hematology**

**3 credits**—This advanced course is a sequel to Hematology I, and includes an in-depth study of various anemias, leukemias, and other hematologic disorders.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MLT130.

### **MLT230 Advanced Hematology**

**3 credits**—This advanced course is a sequel to Hematology I, and includes an in-depth study of various anemias, leukemias, and other hematologic disorders.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MLT130.

### **MLT233 Hemostasis and Thrombosis**

**2 credits**—This course emphasizes the mechanism by which the body prevents loss of blood from the vascular system. There is a focus on chemical responses of blood vessels, platelet activation and biochemical reactions that lead to clot formation and dissolution. Students learn to perform the tests used to detect coagulation deficiencies and abnormalities.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT233 Hemostasis and Thrombosis**

**2 credits**—This course emphasizes the mechanism by which the body prevents loss of blood from the vascular system. There is a focus on chemical responses of blood vessels, platelet activation and biochemical reactions that lead to clot formation and dissolution.

Students learn to perform the tests used to detect coagulation deficiencies and abnormalities.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT240 Clinical Chemistry I**

**7 credits**—The student will learn the analytical techniques for precise measurement of chemical constituents of the blood and other body fluids. Clinical correlation of test results with states of health and disease will also be covered.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in CHM122, MLT110, and MLT103.

### **MLT240 Clinical Chemistry I**

**7 credits**—The student will learn the analytical techniques for precise measurement of chemical constituents of the blood and other body fluids. Clinical correlation of test results with states of health and disease will also be covered.

**Lecture Hours:** 64    **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in CHM122, MLT110, and MLT103.

### **MLT250 Clinical Microbiology**

**4 credits**—The emphasis in this course is on bacteria of medical importance, with respect to their cultivation, isolation, identification, and pathogenicity. The student learns techniques of specimen collection, media preparation, culture, staining, biochemical testing, and antibiotic susceptibility testing. Mycology and virology are introduced.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in BIO185.

**Co-requisite(s):** A minimum grade of C in MLT110.

### **MLT250 Clinical Microbiology**

**4 credits**—The emphasis in this course is on bacteria of medical importance, with respect to their cultivation, isolation, identification, and pathogenicity. The student learns techniques of specimen collection, media preparation, culture, staining, biochemical testing, and antibiotic susceptibility testing. Mycology and virology are introduced.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in BIO185.

**Co-requisite(s):** A minimum grade of C in MLT110.

### **MLT252 Parasitology**

**1 credits**—This course includes a study of medically important human parasites with respect to life cycle, pathogenicity, and laboratory identification.

**Lecture Hours:** 16

### **MLT252 Parasitology**

**1 credits**—This course includes a study of medically important human parasites with respect to life cycle, pathogenicity, and laboratory identification.

**Lecture Hours:** 16

### **MLT260 Immunohematology**

**4 credits**—Blood grouping, typing, antibody screening and identification, and compatibility testing are covered, along with an overview of hemolytic disease of the newborn, processing of donor blood, and blood component therapy.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT260 Immunohematology**

**4 credits**—Blood grouping, typing, antibody screening and identification, and compatibility testing are covered, along with an overview of hemolytic disease of the newborn, processing of donor blood, and blood component therapy.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT270 Immunology and Serology**

**2 credits**—In this course, the focus is on the reactions of the body's immune system to foreign substances. There is emphasis on reactions between antigens and antibodies and students will learn to detect diseases such as syphilis, infectious mononucleosis, rheumatic fever and others.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT270 Immunology and Serology**

**2 credits**—In this course, the focus is on the reactions of the body's immune system to foreign substances. There is emphasis on reactions between antigens and antibodies and students will learn to detect diseases such as syphilis, infectious mononucleosis, rheumatic fever and others.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT283 Clinical Practicum: Urinalysis**

**1 credits**—This course is a continuation of Urinalysis I and is designed to provide the student with clinical experience in the performance of routine urinalysis. Comparison of methodology with that covered in Urinalysis I is stressed.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT120.

### **MLT283 Clinical Practicum: Urinalysis**

**1 credits**—This course is a continuation of Urinalysis I and is designed to provide the student with clinical experience in the performance of routine urinalysis. Comparison of methodology with that covered in Urinalysis I is stressed.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT120.

### **MLT284 Clinical Practicum: Immunohematology**

**2 credits**—This course is a continuation of Immunohematology I and is designed to provide the student with clinical experience in specimen collection and performance of immunohematologic tests. Comparison and contrast with methodology of Immunohematology I is stressed.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in MLT260.

### **MLT284 Clinical Practicum: Immunohematology**

**2 credits**—This course is a continuation of Immunohematology I and is designed to provide the student with clinical experience in specimen collection and performance of immunohematologic tests. Comparison and contrast with methodology of Immunohematology I is stressed.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in MLT260.

### **MLT285 Clinical Practicum: Chemistry**

**4 credits**—This course is a continuation of Clinical Chemistry I and is designed to provide the student with clinical experience in specimen collection and performance of clinical chemistry tests. Comparison and contrast with methodology of Clinical Chemistry I is stressed and there is emphasis on use of automatic equipment.

**Lecture Hours:** 16      **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in MLT240.

### **MLT285 Clinical Practicum: Chemistry**

**4 credits**—This course is a continuation of Clinical Chemistry I and is designed to provide the student with clinical experience in specimen collection and performance of clinical chemistry tests. Comparison and contrast with methodology of Clinical Chemistry I is stressed and there is emphasis on use of automatic equipment.

**Lecture Hours:** 16      **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in MLT240.

### **MLT286 Clinical Practicum: Immunology and Serology**

**1 credits**—This course is a continuation of Immunology and Serology I and is designed to provide the student with clinical experience in the performance of serologic testing. There is emphasis on the comparison and contrast of methodology with Immunology and Serology I.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT270.

### **MLT286 Clinical Practicum: Immunology and Serology**

**1 credits**—This course is a continuation of Immunology and Serology I and is designed to provide the student with clinical experience in the performance of serologic testing. There is emphasis on the comparison and contrast of methodology with Immunology and Serology I.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT270.

### **MLT287 Clinical Practicum: Hematology**

**4 credits**—This course is a continuation of Hematology I and Advanced Hematology. It is designed to provide the student with clinical experience in specimen collection and performance of routine hematology and coagulation tests. Comparison and contrast with methodologies of Hematology I and Advanced Hematology is stressed and experience with automation is provided.

**Lecture Hours:** 16     **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in MLT130 and MLT230

### **MLT287 Clinical Practicum: Hematology**

**4 credits**—This course is a continuation of Hematology I and Advanced Hematology. It is designed to provide the student with clinical experience in specimen collection and performance of routine hematology and coagulation tests. Comparison and contrast with methodologies of Hematology I and Advanced Hematology is stressed and experience with automation is provided.

**Lecture Hours:** 16     **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in MLT130 and MLT230

### **MLT288 Clinical Practicum: Microbiology**

**4 credits**—This course is a continuation of Clinical Microbiology I and Parasitology. It is designed to provide the student with experience in bacteriologic, mycotic and parasitologic studies in a clinical setting. Practices and procedure of Clinical Microbiology I are compared and contrasted with clinical practice.

**Lecture Hours:** 16     **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in BIO185, MLT250, and MLT252.

### **MLT288 Clinical Practicum: Microbiology**

**4 credits**—This course is a continuation of Clinical Microbiology I and Parasitology. It is designed to provide the student with experience in bacteriologic, mycotic and parasitologic

studies in a clinical setting. Practices and procedure of Clinical Microbiology I are compared and contrasted with clinical practice.

**Lecture Hours:** 16    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in BIO185, MLT250, and MLT252.

### **MLT291 Lab Survey and Review**

**1 credits**—This course is designed to give the student an opportunity, at the end of the clinical practicum, to review all departments of the laboratory. Class time is provided for review of didactic materials and preparation for the comprehensive examination. Clinic time is provided for review or additional experience in any or all departments of the laboratory.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT283, MLT284, MLT285, MLT286, MLT287, and MLT288.

### **MLT291 Lab Survey and Review**

**1 credits**—This course is designed to give the student an opportunity, at the end of the clinical practicum, to review all departments of the laboratory. Class time is provided for review of didactic materials and preparation for the comprehensive examination. Clinic time is provided for review or additional experience in any or all departments of the laboratory.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT283, MLT284, MLT285, MLT286, MLT287, and MLT288.

### **MMS103 Basic Digital Photography**

**3 credits**—An introduction to DSLR camera operation, including exposure control and modes, focus techniques, and white balance. Artistic issues like framing, camera angle, use of color and composition will be addressed as well. Students will produce final images using industry standard software. Students must furnish an approved DSLR camera.

**Lecture Hours:** 32    **Lab Hours:** 32

### **MMS103 Basic Digital Photography**

**3 credits**—An introduction to DSLR camera operation, including exposure control and modes, focus techniques, and white balance. Artistic issues like framing, camera angle, use of color and composition will be addressed as well. Students will produce final images using industry standard software. Students must furnish an approved DSLR camera.

**Lecture Hours:** 32    **Lab Hours:** 32

### **MMS105 Audio Production**

**3 credits**—This course examines the principles of sound and acoustics and basic audio capture techniques. The equipment for recording as well as production and editing audio will be analyzed and employed. Sound quality and final output issues will be addressed.

**Lecture Hours:** 32    **Lab Hours:** 32

### **MMS105 Audio Production**

**3 credits**—This course examines the principles of sound and acoustics and basic audio capture techniques. The equipment for recording as well as production and editing audio will be analyzed and employed. Sound quality and final output issues will be addressed.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS111 Video Production I**

**3 credits**—This course will provide an introduction to the basics of video production, camera handling, digital exposure, and workflow. Emphasis is on how to handle image workflow to produce a professional video output.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS111 Video Production I**

**3 credits**—This course will provide an introduction to the basics of video production, camera handling, digital exposure, and workflow. Emphasis is on how to handle image workflow to produce a professional video output.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS117 Social Media for Business**

**3 credits**—This course examines using social media outlets for promoting and doing business. The course will investigate issues and strategies related to social media environments, customer relationships, marketing, managing your communication, sustainability and what social media may look like in the future.

**Lecture Hours: 48**

### **MMS117 Social Media for Business**

**3 credits**—This course examines using social media outlets for promoting and doing business. The course will investigate issues and strategies related to social media environments, customer relationships, marketing, managing your communication, sustainability and what social media may look like in the future.

**Lecture Hours: 48**

### **MMS124 Survey of Commercial Video**

**3 credits**—This course examines how to produce a variety of types of videos for commercial use including promotional videos, music videos, weddings, corporate videos and live events

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of D in MMS111.

### **MMS124 Survey of Commercial Video**

**3 credits**—This course examines how to produce a variety of types of videos for commercial use including promotional videos, music videos, weddings, corporate videos and live events

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of D in MMS111.

### **MMS128 Digital Print Production**

**3 credits**—This course will introduce students to the skills and software used for digital production of printed materials including still photos, brochures, flyers, poster, business cards and other materials printed from original digital creations.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS128 Digital Print Production**

**3 credits**—This course will introduce students to the skills and software used for digital production of printed materials including still photos, brochures, flyers, poster, business cards and other materials printed from original digital creations.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS134 Media Writing**

**3 credits**—This course will focus on writing for media outlets including newspaper, television, radio, internet and public relations. Emphasis will be on writing clearly for both general and targeted audiences in order to communicate the desired message efficiently.

**Lecture Hours: 48**

### **MMS134 Media Writing**

**3 credits**—This course will focus on writing for media outlets including newspaper, television, radio, internet and public relations. Emphasis will be on writing clearly for both general and targeted audiences in order to communicate the desired message efficiently.

**Lecture Hours: 48**

### **MMS138 Introduction to Website Dynamics**

**3 credits**—This course will introduce students to basic web design principles, content management, marketing theory and system management practices.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS138 Introduction to Website Dynamics**

**3 credits**—This course will introduce students to basic web design principles, content management, marketing theory and system management practices.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS208 Sound for Film and Video**

**3 credits**—This course will cover the fundamental elements of producing, designing and editing sound for film and video. Students learn the basics of audio recording, sound editing and multi-track sound design specifically for the moving image. Topics covered include microphone techniques, field and studio recording, ADR, Foley techniques and using digital audio multi-tracking software.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS105 and MMS111.

### **MMS208 Sound for Film and Video**

**3 credits**—This course will cover the fundamental elements of producing, designing and editing sound for film and video. Students learn the basics of audio recording, sound editing and multi-track sound design specifically for the moving image. Topics covered include microphone techniques, field and studio recording, ADR, Foley techniques and using digital audio multi-tracking software.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS105 and MMS111.

### **MMS213 Video Production II**

**3 credits**—This course will explain advanced video production techniques.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111.

### **MMS213 Video Production II**

**3 credits**—This course will explain advanced video production techniques.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111.

### **MMS214 Audio Production II**

**3 credits**—This course is designed to assist the student in learning advanced principles and processes of audio production. The course builds on skills learned in Audio Production I will familiarize and inform the student on proper techniques in audio production for a variety of media outputs

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS105.

### **MMS214 Audio Production II**

**3 credits**—This course is designed to assist the student in learning advanced principles and processes of audio production. The course builds on skills learned in Audio Production I will familiarize and inform the student on proper techniques in audio production for a variety of media outputs

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS105.

### **MMS233 Intermediate Digital Photography**

**3 credits**—This course expands on the theory and techniques taught in Basic Digital Photography and addresses a variety of commercial applications . The course will present further instruction in event photography, people and portrait photography and product and promotional photography. The course will include instruction on portable flash equipment, studio equipment, light modifiers and utilizing natural light to the photographer's benefit.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in MMS103.

### **MMS233 Intermediate Digital Photography**

**3 credits**—This course expands on the theory and techniques taught in Basic Digital Photography and addresses a variety of commercial applications . The course will present further instruction in event photography, people and portrait photography and product and promotional photography. The course will include instruction on portable flash equipment, studio equipment, light modifiers and utilizing natural light to the photographer's benefit.

**Lecture Hours: 32      Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in MMS103.

### **MMS265 Mass Communications Law**

**3 credits**—This course examines media law, including First Amendment, copyright and fair use. It focuses on social, political, and economic influences. It examines legal constraints for students planning to become professional communicators.

**Lecture Hours: 48**

### **MMS265 Mass Communications Law**

**3 credits**—This course examines media law, including First Amendment, copyright and fair use. It focuses on social, political, and economic influences. It examines legal constraints for students planning to become professional communicators.

**Lecture Hours: 48**

### **MMS300 Cinematography**

**3 credits**—In this course students will gain hands-on experience in digital cinematography. Students will plan and practice camera techniques used for interior and exterior lighting, composition and framing, green screen techniques and other aspects of visual storytelling. Students will practice mechanical aspects of the lens: f-stops, depth of field and rack focus shots. Terminology and theory specific to cinematography will be explored as well as the strategies for common production and photography obstacles will be addressed and put into practice. Projects will be completed in groups as well as individual efforts.

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS300 Cinematography**

**3 credits**—In this course students will gain hands-on experience in digital cinematography. Students will plan and practice camera techniques used for interior and exterior lighting, composition and framing, green screen techniques and other aspects of visual storytelling. Students will practice mechanical aspects of the lens: f-stops, depth of field and rack focus shots. Terminology and theory specific to cinematography will be explored as well as the strategies for common production and photography obstacles will be addressed and put into practice. Projects will be completed in groups as well as individual efforts.

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS302 Solo Video Journalism**

**3 credits**—This course examines and explains the techniques for working in the field of video journalism as a sole practitioner.

**Lecture Hours: 32    Lab Hours: 32**

**Pre/Co-requisite(s):** A minimum grade of D in MMS111.

### **MMS302 Solo Video Journalism**

**3 credits**—This course examines and explains the techniques for working in the field of video journalism as a sole practitioner.

**Lecture Hours: 32    Lab Hours: 32**

**Pre/Co-requisite(s):** A minimum grade of D in MMS111.

### **MMS303 Scriptwriting**

**3 credits**—Introduces professional scriptwriting techniques, with focus on properly formatting scripts for film, television and radio, including narrative, commercial and broadcast copy. The student will be required to develop scripts using professional screenplay and scriptwriting software.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS303 Scriptwriting**

**3 credits**—Introduces professional scriptwriting techniques, with focus on properly formatting scripts for film, television and radio, including narrative, commercial and broadcast copy. The student will be required to develop scripts using professional screenplay and scriptwriting software.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS310 Independent Film Production**

**3 credits**—This course provides students with skills to write, produce, direct and edit fictional and non-fictional videos in a narrative format. Students will be instructed on methods and hands-on-skills to construct videos with emphasis on low-budget techniques to better understand the independent film/video market. This includes formulating a story with an angle, structure, content and style. Scriptwriting, budgeting, interviewing, and researching methods are demonstrated through hands-on exercises. Students will view/critique various contemporary documentaries and low budget films as they relate them to their own projects.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213.

### **MMS310 Independent Film Production**

**3 credit**—This course provides students with skills to write, produce, direct and edit fictional and non-fictional videos in a narrative format. Students will be instructed on methods and hands-on-skills to construct videos with emphasis on low-budget techniques to better understand the independent film/video market. This includes formulating a story with an angle, structure, content and style. Scriptwriting, budgeting, interviewing, and researching

methods are demonstrated through hands-on exercises. Students will view/critique various contemporary documentaries and low budget films as they relate them to their own projects.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213.

### **MMS320 Recording Studio I**

**3 credits**—Course will introduce students to the basic operations of a recording studio. The course will detail proper methods for wiring of a studio, discuss studio acoustics, analyze studio design and address proper monitoring. The course will also demonstrate proper microphone placements and advanced compression methods.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS105 and MMS214 .

### **MMS320 Recording Studio I**

**3 credits**—Course will introduce students to the basic operations of a recording studio. The course will detail proper methods for wiring of a studio, discuss studio acoustics, analyze studio design and address proper monitoring. The course will also demonstrate proper microphone placements and advanced compression methods.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS105 and MMS214 .

### **MMS330 Motion Graphics for Video**

**3 credits**—This course explains the theory and execution of motion graphics in a video production environment. Instruction in use of and methods for constructing a variety of motion graphics and animation techniques will be delivered. Media management and output formats will also be addressed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS330 Motion Graphics for Video**

**3 credits**—This course explains the theory and execution of motion graphics in a video production environment. Instruction in use of and methods for constructing a variety of motion graphics and animation techniques will be delivered. Media management and output formats will also be addressed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS400 Video Production for Web Streaming**

**3 credits**—This course will provide students technical application and training in producing, shooting and broadcasting via web streaming. It will offer students an advanced understanding of traditional television studio environments, as well as field production. Students will experience hands-on training and team-oriented tasks in studio floor positions,

studio lighting, 3-camera operating setup, microphone setups, floor management and set design. In addition, technical aspects of control room duties, live and archival streaming processes will be covered.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS400 Video Production for Web Streaming**

**3 credits**—This course will provide students technical application and training in producing, shooting and broadcasting via web streaming. It will offer students an advanced understanding of traditional television studio environments, as well as field production. Students will experience hands-on training and team-oriented tasks in studio floor positions, studio lighting, 3-camera operating setup, microphone setups, floor management and set design. In addition, technical aspects of control room duties, live and archival streaming processes will be covered.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS410 Film Editing**

**3 credits**—In this course, students are introduced to digital (computer) editing. A brief overview of the editing process is covered. Students learn the basics of capturing video and/or digital files, basic editing techniques, basic color effects, audio with video, and storing in a non-destructive style of editing. Students will produce their own edited versions of supplied footage.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS410 Film Editing**

**3 credits**—In this course, students are introduced to digital (computer) editing. A brief overview of the editing process is covered. Students learn the basics of capturing video and/or digital files, basic editing techniques, basic color effects, audio with video, and storing in a non-destructive style of editing. Students will produce their own edited versions of supplied footage.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS420 Recording Studio II**

**3 credits**—Course will be an advanced study in producing within the studio environment. The course will provide hands-on use of the studio equipment including mics, mixing boards and digital audio software. Advanced recording techniques will be employed. Production of a variety of music styles and the proper steps involved in recording and mixing and outputting each will be addressed.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS105, MMS214, and MMS320.

### **MMS420 Recording Studio II**

**3 credits**—Course will be an advanced study in producing within the studio environment. The course will provide hands-on use of the studio equipment including mics, mixing boards and digital audio software. Advanced recording techniques will be employed. Production of a variety of music styles and the proper steps involved in recording and mixing and outputting each will be addressed.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in MMS105, MMS214, and MMS320.

### **MMS430 Documentary Film**

**3 credits**—This course will introduce students to the art of documentary filmmaking and to develop the professional skills used in the field. The class explores a variety of components of non-fiction filmmaking from the conceptualization of an idea through postproduction.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in MMS111 and MMS213.

### **MMS430 Documentary Film**

**3 credits**—This course will introduce students to the art of documentary filmmaking and to develop the professional skills used in the field. The class explores a variety of components of non-fiction filmmaking from the conceptualization of an idea through postproduction.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in MMS111 and MMS213.

### **MMS901 Portfolio Production**

**3 credits**—The course is intended to advance student knowledge in portfolio and resume construction and job search strategies.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS901 Portfolio Production**

**3 credits**—The course is intended to advance student knowledge in portfolio and resume construction and job search strategies.

**Lecture Hours: 32    Lab Hours: 32**

### **MMS905 Digital Mass Media Internship**

**1 credits**—Students will intern at media agencies and outlets in the region and state, focusing on internal operations and client relations. May take for up to three credits.

**Lecture Hours: 0    Co-op Hours: 64**

**Prerequisite(s):** A minimum grade of D in MMS111, MMS105, MMS103, and MMS138.

### **MMS905 Digital Mass Media Internship**

**1 credits**—Students will intern at media agencies and outlets in the region and state, focusing on internal operations and client relations. May take for up to three credits.

**Lecture Hours:** 0    **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of D in MMS111, MMS105, MMS103, and MMS138.

### **MMS949 Special Topics**

**3 credits**—This course offers a specialized study or project under the supervision of a faculty member and approved by the division chair. It may not duplicate any course already in the catalog. Students earn credit based upon the agreed upon credit and contact hours. Instructor permission required.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS103, MMS105, MMS111, and MMS138.

### **MMS949 Special Topics**

**3 credits**—This course offers a specialized study or project under the supervision of a faculty member and approved by the division chair. It may not duplicate any course already in the catalog. Students earn credit based upon the agreed upon credit and contact hours. Instructor permission required.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS103, MMS105, MMS111, and MMS138.

### **MUA106 Class Voice**

**1 credits**—This course provides instruction in fundamental vocal techniques. Breath support, diction, posture, vowel formation, tone production and stage presence will be explored through standard vocal repertoire chosen for each student's voice type.

**Lab Hours:** 32

### **MUA106 Class Voice**

**1 credits**—This course provides instruction in fundamental vocal techniques. Breath support, diction, posture, vowel formation, tone production and stage presence will be explored through standard vocal repertoire chosen for each student's voice type.

**Lab Hours:** 32

### **MUA119 Class Piano**

**1 credits**—This course is designed for the student with no background in piano. It is especially recommended for the music student without piano experience, as well as the student who wishes to learn something of the piano for enjoyment. The student will begin to learn to read musical notation, develop the rudiments of technique, and become familiar with the keyboard. A minimum of three (3) hours of practice per week is essential. This course can be repeated with different content for credit.

**Lab Hours:** 32

### **MUA119 Class Piano**

**1 credits**—This course is designed for the student with no background in piano. It is especially recommended for the music student without piano experience, as well as the student who wishes to learn something of the piano for enjoyment. The student will begin to

learn to read musical notation, develop the rudiments of technique, and become familiar with the keyboard. A minimum of three (3) hours of practice per week is essential. This course can be repeated with different content for credit.

**Lab Hours:** 32

### **MUA120 Applied Piano I**

**1 credits**—Individualized instruction in piano for the beginning, intermediate, or advanced student. Requires fourteen 25 minute lessons during the semester. Additional outside practice/preparation is required. This course can be repeated with different content for credit. No prior musical experience is necessary.

May be repeated once.

**Lecture Hours:** 16

### **MUA120 Applied Piano I**

**1 credits**—Individualized instruction in piano for the beginning, intermediate, or advanced student. Requires fourteen 25 minute lessons during the semester. Additional outside practice/preparation is required. This course can be repeated with different content for credit. No prior musical experience is necessary.

May be repeated once.

**Lecture Hours:** 16

### **MUA121 Applied Piano II**

**2 credits**—This course provides applied lessons and guided instruction in tone production, technique, and musicianship skills. Students advance their skills through weekly lessons and regular practice of fundamental techniques and appropriate repertoire. This course can be repeated with different content for credit.

**Lecture Hours:** 32

### **MUA121 Applied Piano II**

**2 credits**—This course provides applied lessons and guided instruction in tone production, technique, and musicianship skills. Students advance their skills through weekly lessons and regular practice of fundamental techniques and appropriate repertoire. This course can be repeated with different content for credit.

**Lecture Hours:** 32

### **MUA319 Applied Voice II**

**1 credits**—Provides applied lessons and guided instruction in tone production, technique, musicianship, and performance practice. Students advance their skills through weekly lessons and regular practice of fundamental techniques and solo repertoire. This course can be repeated with different content for credit.

May be repeated once.

**Lecture Hours:** 16

### **MUA319 Applied Voice II**

**1 credits**—Provides applied lessons and guided instruction in tone production, technique, musicianship, and performance practice. Students advance their skills through weekly lessons and regular practice of fundamental techniques and solo repertory. This course can be repeated with different content for credit.

May be repeated once.

**Lecture Hours:** 16

### **MUS100 Music Appreciation**

**3 credits**—An introduction to the musical arts through listening to and studying the music of various periods. Some sections of the course may be presented by live musicians. Allied arts, including dance, painting, and literature, may be used to demonstrate the relatedness of music to the larger scope of human experience.

**Lecture Hours:** 48

### **MUS100 Music Appreciation**

**3 credits**—An introduction to the musical arts through listening to and studying the music of various periods. Some sections of the course may be presented by live musicians. Allied arts, including dance, painting, and literature, may be used to demonstrate the relatedness of music to the larger scope of human experience.

**Lecture Hours:** 48

### **MUS102 Music Fundamentals**

**3 credits**—Introduction to Music Theory. Basic skills and vocabulary. For non majors with limited background in music fundamentals, or as preparation for music major theory courses. Emphasis on notation, key/time signatures, rhythm, and aural training. (Variable)

**Lecture Hours:** 48

### **MUS102 Music Fundamentals**

**3 credits**—Introduction to Music Theory. Basic skills and vocabulary. For non majors with limited background in music fundamentals, or as preparation for music major theory courses. Emphasis on notation, key/time signatures, rhythm, and aural training. (Variable)

**Lecture Hours:** 48

### **MUS154 Chorus**

**1 credits**—This course is designed for the student to participate in group performances. The performing group meets regularly and presents a wide variety of choral literature throughout the year. This course can be repeated with different content for credit.

May be repeated once.

**Lab Hours:** 32

### **MUS154 Chorus**

**1 credits**—This course is designed for the student to participate in group performances. The performing group meets regularly and presents a wide variety of choral literature throughout the year. This course can be repeated with different content for credit.

May be repeated once.

**Lab Hours:** 32

### **NET109 A+ Certification Prep Course**

**4 credits**—This course will teach basic knowledge of desktop and laptop operating systems. This course will teach the important knowledge and skills necessary to competently install, build, configure, upgrade, troubleshoot and repair personal computer compatible hardware including troubleshooting basic network and internet connectivity, dial-up, DSL, and cable. Additionally, this course will also cover the latest memory, bus, peripherals, and wireless technologies.

**Lecture Hours:** 32    **Lab Hours:** 64

### **NET109 A+ Certification Prep Course**

**4 credits**—This course will teach basic knowledge of desktop and laptop operating systems. This course will teach the important knowledge and skills necessary to competently install, build, configure, upgrade, troubleshoot and repair personal computer compatible hardware including troubleshooting basic network and internet connectivity, dial-up, DSL, and cable. Additionally, this course will also cover the latest memory, bus, peripherals, and wireless technologies.

**Lecture Hours:** 32    **Lab Hours:** 64

### **NET152 Advanced Network Technologies**

**3 credits**—This course will cover the advanced topics of networking topologies, management utilities, performance monitoring and management, construct network security, develop and maintain network documentation and determine appropriate action for common problems. Students will learn skills associated with network remote access, performance monitoring and extension of network services via wireless technologies. This course will build and expand upon Cisco 1-4 concepts and skills.

**Lecture Hours:** 48

### **NET152 Advanced Network Technologies**

**3 credits**—This course will cover the advanced topics of networking topologies, management utilities, performance monitoring and management, construct network security, develop and maintain network documentation and determine appropriate action for common problems. Students will learn skills associated with network remote access, performance monitoring and extension of network services via wireless technologies. This course will build and expand upon Cisco 1-4 concepts and skills.

**Lecture Hours:** 48

### **NET213 CISCO Networking**

**4 credits**—This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the OSI and TCP layered

models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. Labs use a "model Internet" to allow students to analyze real data without affecting production networks. Packet Tracer (PT) activities help students analyze protocol and network operation and build small networks in a simulated environment. At the end of the course, students build simple LAN topologies by applying basic principles of cabling, performing basic configurations of network devices such as routers and switches, and implementing IP addressing schemes.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT063.

### **NET213 CISCO Networking**

**4 credits**—This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the OSI and TCP layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. Labs use a "model Internet" to allow students to analyze real data without affecting production networks. Packet Tracer (PT) activities help students analyze protocol and network operation and build small networks in a simulated environment. At the end of the course, students build simple LAN topologies by applying basic principles of cabling, performing basic configurations of network devices such as routers and switches, and implementing IP addressing schemes.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT063.

### **NET225 Routing and Switching Essentials**

**4 credits**—This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single area and multi-area OSPF, virtual LANS, and inter-VLAN routing in both IPv4 and IPv6 networks.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET213.

### **NET225 Routing and Switching Essentials**

**4 credits**—This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single area and multi-area OSPF, virtual LANS, and inter-VLAN routing in both IPv4 and IPv6 networks.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET213.

### **NET268 CCNA Routing and Switching: Scaling Networks**

**3 credits**—This is the third of four courses leading to the Cisco Certified Network Associate (CCNA) designation. This course describes the architecture, components, and operations of routers and switches in a larger and more complex network. Students learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Students will also develop the knowledge and skills needed to implement DHCP and DNS operations in a network.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in NET225.

### **NET268 CCNA Routing and Switching: Scaling Networks**

**3 credits**—This is the third of four courses leading to the Cisco Certified Network Associate (CCNA) designation. This course describes the architecture, components, and operations of routers and switches in a larger and more complex network. Students learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Students will also develop the knowledge and skills needed to implement DHCP and DNS operations in a network.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in NET225.

### **NET269 CCNA Routing and Switching: Connecting Networks**

**3 credits**—This is the fourth of four courses leading to the Cisco Certified Network Associate (CCNA) designation. This course discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. Students learn how to configure and troubleshoot network devices and resolve common issues with data link protocols. Students will also develop the knowledge and skills needed to implement IPsec and virtual private network (VPN) operations in a complex network.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in NET268.

### **NET269 CCNA Routing and Switching: Connecting Networks**

**3 credits**—This is the fourth of four courses leading to the Cisco Certified Network Associate (CCNA) designation. This course discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. Students learn how to configure and troubleshoot network devices and resolve common issues with data link protocols. Students will also develop the knowledge and skills needed to implement IPsec and virtual private network (VPN) operations in a complex network.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET268.

### **NET310 Virtual Machines**

**3 credits**—This course will cover the concepts of virtualization including hardware and software. Topics will include benefits vs. risks analysis, installation and configuration, operation and maintenance and disaster recovery.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET313.

### **NET310 Virtual Machines**

**3 credits**—This course will cover the concepts of virtualization including hardware and software. Topics will include benefits vs. risks analysis, installation and configuration, operation and maintenance and disaster recovery.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET313.

### **NET313 Windows Server**

**3 credits**—This course provides the core foundation for supporting network based servers. Students will learn the skills necessary to install, configure, customize, optimize, network, integrate and troubleshoot a server based operating system. Students will study the design, implementation, and support a Network Server network including specialized servers that are common to most networks.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET109 and NET213.

### **NET313 Windows Server**

**3 credits**—This course provides the core foundation for supporting network based servers. Students will learn the skills necessary to install, configure, customize, optimize, network, integrate and troubleshoot a server based operating system. Students will study the design, implementation, and support a Network Server network including specialized servers that are common to most networks.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET109 and NET213.

### **NET320 Advanced Server Configuration**

**3 credits**—This course provides advanced concepts for supporting network based servers. Students will learn the skills necessary to install, configure, and manage network server technologies typically implemented with a server based operating system. Students will study the design, implementation, and optimization of both advanced and emerging services that a network server commonly provides for business networks.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET313.

### **NET320 Advanced Server Configuration**

**3 credits**—This course provides advanced concepts for supporting network based servers. Students will learn the skills necessary to install, configure, and manage network server technologies typically implemented with a server based operating system. Students will study the design, implementation, and optimization of both advanced and emerging services that a network server commonly provides for business networks.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in NET313.

### **NET346 Windows Exchange Server**

**3 credits**—This course provides students with the knowledge and skills that are needed to update and support a reliable, secure messaging infrastructure. This infrastructure is used for creating, storing, and sharing information by using Microsoft Exchange Server in a medium-sized to large-sized (100 to 5,000 seats) messaging environment. This course offers a significant amount of hands-on practices, discussions, and assessments that assist students in becoming proficient in the skills that are needed to update and support Exchange Server.

**Lecture Hours: 32    Lab Hours: 32**

**Pre/Co-requisite(s):** NET313

### **NET346 Windows Exchange Server**

**3 credits**—This course provides students with the knowledge and skills that are needed to update and support a reliable, secure messaging infrastructure. This infrastructure is used for creating, storing, and sharing information by using Microsoft Exchange Server in a medium-sized to large-sized (100 to 5,000 seats) messaging environment. This course offers a significant amount of hands-on practices, discussions, and assessments that assist students in becoming proficient in the skills that are needed to update and support Exchange Server.

**Lecture Hours: 32    Lab Hours: 32**

**Pre/Co-requisite(s):** NET313

### **NET412 Linux System Administration**

**3 credits**—This course will introduce students to the Linux Operating System and is designed for students with little or no previous experience with Linux. Students will gain experience and understanding of basic setup and installation, configuration, navigation, permissions, command shells, and GUI environments available on Linux systems.

**Lecture Hours: 32    Lab Hours: 32**

### **NET412 Linux System Administration**

**3 credits**—This course will introduce students to the Linux Operating System and is designed for students with little or no previous experience with Linux. Students will gain

experience and understanding of basic setup and installation, configuration, navigation, permissions, command shells, and GUI environments available on Linux systems.

**Lecture Hours:** 32    **Lab Hours:** 32

### **NET474 Certification Preparation**

**1 credits**—Course is designed as a review and final preparation for students taking Information Technology certification tests.

**Lecture Hours:** 16

**Prerequisite(s):** Instructor approval required. Must have satisfactory grades in supporting classes and demonstrate motivation to attain certification.

### **NET474 Certification Preparation**

**1 credits**—Course is designed as a review and final preparation for students taking Information Technology certification tests.

**Lecture Hours:** 16

**Prerequisite(s):** Instructor approval required. Must have satisfactory grades in supporting classes and demonstrate motivation to attain certification.

### **NET475 Certification Preparation**

**2 credits**—Course is designed as a review and final preparation for students taking Information Technology industry certification exams.

**Lecture Hours:** 32

**Prerequisite(s):** Instructor approval required. Must have satisfactory grades in supporting classes and demonstrate motivation to attain certification.

### **NET475 Certification Preparation**

**2 credits**—Course is designed as a review and final preparation for students taking Information Technology industry certification exams.

**Lecture Hours:** 32

**Prerequisite(s):** Instructor approval required. Must have satisfactory grades in supporting classes and demonstrate motivation to attain certification.

### **NET612 Fundamentals of Network Security**

**3 credits**—This course is designed to provide student with a fundamental understanding of network security principles and implementation. Students examine the technologies used and principles involved in creating a secure computer networking environment.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** NET313

### **NET612 Fundamentals of Network Security**

**3 credits**—This course is designed to provide student with a fundamental understanding of network security principles and implementation. Students examine the technologies used and principles involved in creating a secure computer networking environment.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** NET313

### **NET710 SQL Database**

**2 credits**—This course is designed to give the student the basics of computer database administration. To teach the student what a database server is and how it is used in a modern computer network. The course will inform the student about the components of the database and the tools used to tune the database software for optimum performance.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** CIS303 and NET313

### **NET710 SQL Database**

**2 credits**—This course is designed to give the student the basics of computer database administration. To teach the student what a database server is and how it is used in a modern computer network. The course will inform the student about the components of the database and the tools used to tune the database software for optimum performance.

**Lecture Hours: 16    Lab Hours: 32**

**Prerequisite(s):** CIS303 and NET313

### **NET916 Experiential Learning**

**5 credits**—This course will allow students to put the skills obtained in the program to practical use in a simulated real world environment. In addition, students will refine teamwork skills and learn to conduct their actions in an appropriate manner for the business world.

**Lecture Hours: 16    Lab Hours: 128**

**Prerequisite(s):** Instructor consent is needed to verify that students are getting the correct section for their major and that only fourth semester graduating students take this course.

### **NET916 Experiential Learning**

**5 credits**—This course will allow students to put the skills obtained in the program to practical use in a simulated real world environment. In addition, students will refine teamwork skills and learn to conduct their actions in an appropriate manner for the business world.

**Lecture Hours: 16    Lab Hours: 128**

**Prerequisite(s):** Instructor consent is needed to verify that students are getting the correct section for their major and that only fourth semester graduating students take this course.

### **NET932 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in NET109. Must be in program major and completed 30 credits in one of the following programs: Network Administration and Engineering, Information Systems Management, and Web Design and Development.

### **NET932 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in NET109. Must be in program major and completed 30 credits in one of the following programs: Network Administration and Engineering, Information Systems Management, and Web Design and Development.

### **NET949 Special Topics**

**1 credits**—This course, usually offered on a limited basis only, provides an in-depth study on a topic of general interest pertaining to this department.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **NET949 Special Topics**

**1 credits**—This course, usually offered on a limited basis only, provides an in-depth study on a topic of general interest pertaining to this department.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **OTA102 Human Movement and Occupation**

**3 credits**—Study of the interrelationship between the central nervous system, peripheral nervous system, and musculoskeletal system and analysis of functional movement required for engagement in occupation. Formal and informal biomechanical assessment methodologies are presented. Students will gain skill in utilizing assessment data for the occupational therapy process in collaboration with the occupational therapist.

**Lecture Hours:** 16     **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA102 Human Movement and Occupation**

**3 credits**—Study of the interrelationship between the central nervous system, peripheral nervous system, and musculoskeletal system and analysis of functional movement required for engagement in occupation. Formal and informal biomechanical assessment

methodologies are presented. Students will gain skill in utilizing assessment data for the occupational therapy process in collaboration with the occupational therapist.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA103 Task Analysis**

**3 credits**—The development and emergence of human occupational performance throughout the lifespan is examined by exploring areas of occupation, occupational roles, habits and routines. Students will learn to analyze occupational tasks and functional activity demands, grade and adapt activities, and build the basic skills necessary for teaching therapeutic activities to meet the needs of occupational therapy consumers, either individually or in groups. Emphasis will be placed on the use of occupation-based media as a means of understanding a client's cognitive and functional performance. The significance of context and environment will also be explored in relationship to program planning and implementation of therapeutic interventions. Additional topics include an introduction to note writing and goal development.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA103 Task Analysis**

**3 credits**—The development and emergence of human occupational performance throughout the lifespan is examined by exploring areas of occupation, occupational roles, habits and routines. Students will learn to analyze occupational tasks and functional activity demands, grade and adapt activities, and build the basic skills necessary for teaching therapeutic activities to meet the needs of occupational therapy consumers, either individually or in groups. Emphasis will be placed on the use of occupation-based media as a means of understanding a client's cognitive and functional performance. The significance of context and environment will also be explored in relationship to program planning and implementation of therapeutic interventions. Additional topics include an introduction to note writing and goal development.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA104 Assistive Tech and EM**

**2 credits**—An introduction to the role of assistive technology and environmental modification used to facilitate occupational performance. Topics will include: determination of need, selection of and instruction in use of assistive technology and/or environmental modification, low vs. high tech equipment options, and assessment of client safety during occupational performance.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA104 Assistive Tech and EM**

**2 credits**—An introduction to the role of assistive technology and environmental modification used to facilitate occupational performance. Topics will include: determination of need, selection of and instruction in use of assistive technology and/or environmental modification, low vs. high tech equipment options, and assessment of client safety during occupational performance.

**Lecture Hours:** 16    **Lab Hours:** 32

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA201 Pediatrics and Occupation**

**3 credits**—The first in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA201 Pediatrics and Occupation**

**3 credits**—The first in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA202 Pediatric OTA Skills**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with infants and children through the adolescent period and their families in a variety of settings.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA202 Pediatric OTA Skills**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with infants and children through the adolescent period and their families in a variety of settings.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA203 Level I Fieldwork Pediatrics**

**2 credits**—Students will be participant-observers in settings providing occupational therapy services to children and/or adolescents. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Lecture Hours:** 16    **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA203 Level I Fieldwork Pediatrics**

**2 credits**—Students will be participant-observers in settings providing occupational therapy services to children and/or adolescents. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Lecture Hours:** 16    **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA204 Pediatric Psychosocial Conditions and Occupations**

**1 credits**—The first in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of mental health disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA204 Pediatric Psychosocial Conditions and Occupations**

**1 credits**—The first in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of mental health disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA302 Physical OTA Skills**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional behaviors utilized in the occupational

therapy process for individuals experiencing disruption in motor and sensory-perceptual abilities needed for adaptive occupational performance.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA302 Physical OTA Skills**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional behaviors utilized in the occupational therapy process for individuals experiencing disruption in motor and sensory-perceptual abilities needed for adaptive occupational performance.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA310 Adult Physical Conditions and Occupations**

**3 credits**—The second in a sequence of courses addressing conditions causing disruption of occupational skills and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models of practice for understanding the occupational nature of early to middle adulthood at home, work and in the community. Approaches for applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of physical disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA310 Adult Physical Conditions and Occupations**

**3 credits**—The second in a sequence of courses addressing conditions causing disruption of occupational skills and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models of practice for understanding the occupational nature of early to middle adulthood at home, work and in the community. Approaches for applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of physical disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA311 Adult Psychosocial Conditions and Occupations**

**2 credits**—The second in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of early to middle adulthood at home, at work, and in the community. Approaches to applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of psychosocial disorders and conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA311 Adult Psychosocial Conditions and Occupations**

**2 credits**—The second in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of early to middle adulthood at home, at work, and in the community. Approaches to applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of psychosocial disorders and conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA312 Adult Psychosocial OTA Skills**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process for individuals experiencing disruption in social, emotional and interactional abilities needed for adaptive occupational performance. Both individual and group intervention strategies are explored.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA312 Adult Psychosocial OTA Skills**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process for individuals experiencing disruption in social, emotional and interactional abilities needed for adaptive occupational performance. Both individual and group intervention strategies are explored.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA313 Level I Fieldwork Psychosocial**

**1 credits**—Students will be participant-observers in settings providing occupational therapy services to adult consumers with psychosocial conditions. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA313 Level I Fieldwork Psychosocial**

**1 credits**—Students will be participant-observers in settings providing occupational therapy services to adult consumers with psychosocial conditions. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA401 Elders and Occupation**

**2 credits**—The third in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of late adulthood at home, at work, and in the community. Approaches to applying the occupational therapy process by the occupational therapy assistant is studied within the context of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA401 Elders and Occupation**

**2 credits**—The third in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of late adulthood at home, at work, and in the community. Approaches to applying the occupational therapy process by the occupational therapy assistant is studied within the context of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA402 OTA Skills for Elders**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with elder consumers in a variety of settings.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA402 OTA Skills for Elders**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with elder consumers in a variety of settings.

**Lecture Hours:** 16     **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA403 Level I Fieldwork Physical Dysfunction**

**1 credits**—Students will be participant-observers in settings providing occupational therapy services to adult consumers with physical dysfunction. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA403 Level I Fieldwork Physical Dysfunction**

**1 credits**—Students will be participant-observers in settings providing occupational therapy services to adult consumers with physical dysfunction. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA501 Professional Practice for OTA**

**3 credits**—This course speaks to the management and service roles of the occupational therapy assistant, as well as ongoing responsibilities of a career as an occupational therapy healthcare professional. Active learning strategies requiring the student to transcend from a student to entry level practitioner.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA501 Professional Practice for OTA**

**3 credits**—This course speaks to the management and service roles of the occupational therapy assistant, as well as ongoing responsibilities of a career as an occupational therapy healthcare professional. Active learning strategies requiring the student to transcend from a student to entry level practitioner.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA502 Level II Fieldwork A**

**5 credits**—The first of two courses consisting of 8 weeks of full-time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different point of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA310, OTA302, OTA401, OTA402, and OTA403.

### **OTA502 Level II Fieldwork A**

**5 credits**—The first of two courses consisting of 8 weeks of full-time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different point of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA310, OTA302, OTA401, OTA402, and OTA403.

### **OTA503 Level II Fieldwork B**

**5 credits**—The second of two courses consisting of 8 weeks of full time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different points of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA502.

### **OTA503 Level II Fieldwork B**

**5 credits**—The second of two courses consisting of 8 weeks of full time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different points of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA502.

### **PEA102 Aerobic Fitness I**

**1 credits**—This aerobic course, designed to improve physical fitness levels, starts at the beginner level with students progressing at their own pace. Participants will be given the opportunity to engage in various types of cardiovascular exercise, some being set to music. Abdominal and low-back exercises are also emphasized.

**Lab Hours:** 32

### **PEA102 Aerobic Fitness I**

**1 credits**—This aerobic course, designed to improve physical fitness levels, starts at the beginner level with students progressing at their own pace. Participants will be given the opportunity to engage in various types of cardiovascular exercise, some being set to music. Abdominal and low-back exercises are also emphasized.

**Lab Hours:** 32

### **PEA117 Bowling I**

**1 credits**—This skill course introduces students to the lifetime activity of bowling. The course will cover basic fundamentals of bowling such as rules and etiquette, approach, ball delivery, strikes, spares, and scoring. Individual, league, and tournament play will also be included.

**Lab Hours:** 32

### **PEA117 Bowling I**

**1 credits**—This skill course introduces students to the lifetime activity of bowling. The course will cover basic fundamentals of bowling such as rules and etiquette, approach, ball delivery, strikes, spares, and scoring. Individual, league, and tournament play will also be included.

**Lab Hours:** 32

### **PEA123 Circuit Training**

**1 credits**—This aerobic course incorporates cross-training techniques allowing for an increased caloric expenditure with simultaneous improvement in muscular strength and endurance and flexibility. Alternating between resistance training, cardiovascular, and flexibility exercises provides the benefits of all three types of activities in one exercise session.

**Lab Hours:** 32

### **PEA123 Circuit Training**

**1 credits**—This aerobic course incorporates cross-training techniques allowing for an increased caloric expenditure with simultaneous improvement in muscular strength and endurance and flexibility. Alternating between resistance training, cardiovascular, and flexibility exercises provides the benefits of all three types of activities in one exercise session.

**Lab Hours:** 32

### **PEA125 Indoor Cycling**

**1 credits**—This aerobic course introduces students to a low-impact, go at your own pace, cardiovascular workout with no complicated moves to learn. The class is set to music, conducted in a group format, and uses specially built stationary bicycles to improve current health and fitness levels.

**Lab Hours:** 32

### **PEA125 Indoor Cycling**

**1 credits**—This aerobic course introduces students to a low-impact, go at your own pace, cardiovascular workout with no complicated moves to learn. The class is set to music, conducted in a group format, and uses specially built stationary bicycles to improve current health and fitness levels.

**Lab Hours:** 32

### **PEA150 Powerwalking**

**1 credits**—Power Walking is one of the most convenient forms of exercise. It takes minimal equipment and can be done anywhere. This course is designed to provide students with the opportunity to learn a lifelong physical activity. Power Walking is also an excellent way to start a fitness program.

**Lab Hours:** 32

### **PEA150 Powerwalking**

**1 credits**—Power Walking is one of the most convenient forms of exercise. It takes minimal equipment and can be done anywhere. This course is designed to provide students with the opportunity to learn a lifelong physical activity. Power Walking is also an excellent way to start a fitness program.

**Lab Hours:** 32

### **PEA176 Volleyball I**

**1 credits**—This skill course introduces students to the lifetime activity of volleyball. This will be a fundamental course, teaching the basics of the game from scoring to the actual playing. This course will also cover volleyball etiquette. The class will play two on two, three on three, and standard volleyball.

**Lab Hours:** 32

### **PEA176 Volleyball I**

**1 credits**—This skill course introduces students to the lifetime activity of volleyball. This will be a fundamental course, teaching the basics of the game from scoring to the actual playing. This course will also cover volleyball etiquette. The class will play two on two, three on three, and standard volleyball.

**Lab Hours:** 32

### **PEA187 Weight Training I**

**1 credits**—This skill course introduces the student to basic principles of weight training and the effects of this type of exercise on the body. Personalized programs will be the focus while emphasizing proper lifting techniques and safety issues.

**Lab Hours:** 32

### **PEA187 Weight Training I**

**1 credits**—This skill course introduces the student to basic principles of weight training and the effects of this type of exercise on the body. Personalized programs will be the focus while emphasizing proper lifting techniques and safety issues.

**Lab Hours:** 32

### **PEA191 Pilates**

**1 credits**—This skill course is designed to provide students with the opportunity to learn Pilates principles and mat-based exercises from the beginner level, through the intermediate level, and finishing with the advanced level. Pilates is a form of exercise that focuses on core stability and strength while simultaneously lengthening and strengthening the muscles without adding "bulk".

**Lab Hours:** 32

### **PEA191 Pilates**

**1 credits**—This skill course is designed to provide students with the opportunity to learn Pilates principles and mat-based exercises from the beginner level, through the intermediate level, and finishing with the advanced level. Pilates is a form of exercise that focuses on core

stability and strength while simultaneously lengthening and strengthening the muscles without adding "bulk".

**Lab Hours:** 32

### **PEA194 Vinyasa Yoga**

**1 credits**—This skill course introduces the fundamentals of Vinyasa Yoga. Vinyasa Yoga focuses on balanced asana (posture) sequences, as well as the connection of the asanas and the breath. There are a host of associated benefits including, but not limited to, increased levels of body awareness, increased strength and flexibility, as well as the benefits shown to be associated with relaxation.

**Lab Hours:** 32

### **PEA194 Vinyasa Yoga**

**1 credits**—This skill course introduces the fundamentals of Vinyasa Yoga. Vinyasa Yoga focuses on balanced asana (posture) sequences, as well as the connection of the asanas and the breath. There are a host of associated benefits including, but not limited to, increased levels of body awareness, increased strength and flexibility, as well as the benefits shown to be associated with relaxation.

**Lab Hours:** 32

### **PEA196 Iron Yoga-Pilates Infusion**

**1 credits**—This skills course provides students with an opportunity to contrast and compare yoga and Pilates, and use a host of equipment to compliment both. Emphasis will be placed on muscular strength and endurance, flexibility, physical balance and mind control.

**Lab Hours:** 32

### **PEA196 Iron Yoga-Pilates Infusion**

**1 credits**—This skills course provides students with an opportunity to contrast and compare yoga and Pilates, and use a host of equipment to compliment both. Emphasis will be placed on muscular strength and endurance, flexibility, physical balance and mind control.

**Lab Hours:** 32

### **PEC110 Coaching Ethics, Techniques, and Theory**

**1 credits**—This is one of the four courses required to receive a coaching authorization or endorsement. This course meets the required hours for ethics. By the end of this course, participants should be able to explain methodology and responsibilities of a successful coach, apply teaching techniques to sports skills, connect how communication and motivation affect performance, and distinguish appropriate ethical behavior of coaches and students. Taking responsibility for their own learning, participants should be able to plan for an effective and meaningful experience for the athlete that is supported by informed decision-making.

**Lecture Hours:** 16

### **PEC110 Coaching Ethics, Techniques, and Theory**

**1 credits**—This is one of the four courses required to receive a coaching authorization or endorsement. This course meets the required hours for ethics. Taking responsibility for their own learning, participants should be able to plan for an effective and meaningful experience for the athlete that is supported by informed decision-making.

**Lecture Hours:** 16

### **PEC115 Athletic Development and Human Growth**

**1 credits**—This is one of the four courses required to receive a coaching authorization or endorsement. This course will connect the participants to the basic concepts of growth and development of students in the 5th through 12th grade who would participate in school sponsored athletics. By the end of this course, participants should be able to explain how and when physical, social, emotional, and intellectual development occurs and how this development affects learning, behavior and performance. Taking responsibility for their own learning, participants should be able to plan for an effective and meaningful athletic experience for the adolescent that is supported by informed decision-making.

**Lecture Hours:** 16

**Lecture Hours:** 16

### **PEC127 Care and Prevention of Athletic Injuries**

**2 credits**—This is one of the four courses required to receive a coaching authorization or endorsement. This course will describe the duties and responsibilities in protecting the health of athletes. The course is aimed at recognizing injuries and providing basic care for those injuries as well as techniques to prevent injuries from occurring.

**Lecture Hours:** 32

### **PEC127 Care and Prevention of Athletic Injuries**

**2 credits**—This is one of the four courses required to receive a coaching authorization or endorsement. This course will describe the duties and responsibilities in protecting the health of athletes. The course is aimed at recognizing injuries and providing basic care for those injuries as well as techniques to prevent injuries from occurring.

**Lecture Hours:** 32

### **PEH111 Personal Wellness**

**3 credits**—This is an introductory level course designed to explore wellness in all dimensions. Students will assess their overall level of wellness, assess current lifestyle choices, and be enabled with strategies that will lead to an improved lifestyle and overall level of wellness.

**Lecture Hours:** 48

### **PEH111 Personal Wellness**

**3 credits**—This is an introductory level course designed to explore wellness in all dimensions. Students will assess their overall level of wellness, assess current lifestyle choices, and be enabled with strategies that will lead to an improved lifestyle and overall level of wellness.

**Lecture Hours:** 48

### **PEH141 First Aid**

**2 credits**—This course will use discussion and application to provide the layperson with the basic skills and knowledge necessary to provide First Aid, CPR, and AED to adult, child, and infant populations. Certification by the American Red Cross will be awarded to those who qualify.

**Lecture Hours:** 32

### **PEH141 First Aid**

**2 credits**—This course will use discussion and application to provide the layperson with the basic skills and knowledge necessary to provide First Aid, CPR, and AED to adult, child, and infant populations. Certification by the American Red Cross will be awarded to those who qualify.

**Lecture Hours:** 32

### **PEH266 Leadership Techniques for Fitness Programs**

**3 credits**—This course will prepare students to develop and implement an individualized and group approach to exercise leadership in healthy populations. The student will also become proficient in writing, leading, and demonstrating safe and effective methods of exercise by applying the fundamental principles of exercise science.

**Lecture Hours:** 32     **Lab Hours:** 32

### **PEH266 Leadership Techniques for Fitness Programs**

**3 credits**—This course will prepare students to develop and implement an individualized and group approach to exercise leadership in healthy populations. The student will also become proficient in writing, leading, and demonstrating safe and effective methods of exercise by applying the fundamental principles of exercise science.

**Lecture Hours:** 32     **Lab Hours:** 32

### **PHI101 Introduction to Philosophy**

**3 credits**—An investigation of some of the fundamental problems of human existence-- human nature, the nature of reality, how and what we know, the existence of God, ethical behavior, justice and freedom. This will be undertaken through readings and discussions of major philosophical schools of thought in Western and non-Western traditions.

**Lecture Hours:** 48

### **PHI101 Introduction to Philosophy**

**3 credits**—An investigation of some of the fundamental problems of human existence-- human nature, the nature of reality, how and what we know, the existence of God, ethical behavior, justice and freedom. This will be undertaken through readings and discussions of major philosophical schools of thought in Western and non-Western traditions.

**Lecture Hours:** 48

### **PHI105 Introduction to Ethics**

**3 credits**—Introduction to Ethics examines contemporary ethical conflicts and provides a grounding in the language, concepts, and traditions of ethics. This course provides students with the intellectual tools to analyze moral dilemmas in the fields they choose to pursue and participate in as members of society.

**Lecture Hours:** 48

### **PHI105 Introduction to Ethics**

**3 credits**—Introduction to Ethics examines contemporary ethical conflicts and provides a grounding in the language, concepts, and traditions of ethics. This course provides students with the intellectual tools to analyze moral dilemmas in the fields they choose to pursue and participate in as members of society.

**Lecture Hours:** 48

### **PHI121 Classical/Medieval Philosophy**

**3 credits**—This course will cover an intellectual history of Western civilization from the pre-Socratic philosophers through Scholasticism. The course will begin by looking at several philosophers preceding Socrates, as well as study Socrates, Plato, Aristotle, and the impact of Greek philosophy. It will then look at the development of early Christianity through Augustine, the early Medieval period through Thomas Aquinas, and the late medieval period through William of Occam.

**Lecture Hours:** 48

It will then look at the development of early Christianity through Augustine, the early Medieval period through Thomas Aquinas, and the late medieval period through William of Occam.

**Lecture Hours:** 48

### **PHS120 Exploring Physical Science**

**4 credits**—This course introduces the student to the concepts and processes of physics, chemistry, astronomy, and earth science. Students are presented with a general overview of theories that have an impact on their everyday lives.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in MAT063.

### **PHS120 Exploring Physical Science**

**4 credits**—This course introduces the student to the concepts and processes of physics, chemistry, astronomy, and earth science. Students are presented with a general overview of theories that have an impact on their everyday lives.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in MAT063.

### **PHS142 Principles of Astronomy**

**3 credits**—This physical science course explores the mysteries of the universe. Through scientific reason, the course will examine the following: the history of astronomy, the planets, stars, nebulae, galaxies, the creation and fate of the universe and our place in it. This course includes amateur observation techniques.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement score.

### **PHS142 Principles of Astronomy**

**3 credits**—This physical science course explores the mysteries of the universe. Through scientific reason, the course will examine the following: the history of astronomy, the planets, stars, nebulae, galaxies, the creation and fate of the universe and our place in it. This course includes amateur observation techniques.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement score.

### **PHS152 Astronomy**

**4 credits**—A basic course in descriptive astronomy dealing with the development of modern astronomy and with its present-day theories and observations. Topics covered include motions of solar system and deep sky objects, telescopes and other instruments, members of the solar system, nature of the sun, other stars, origin and development of stars and planets, our galaxy, other galaxies, and the organization of the universe.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement score.

### **PHS152 Astronomy**

**4 credits**—A basic course in descriptive astronomy dealing with the development of modern astronomy and with its present-day theories and observations. Topics covered include motions of solar system and deep sky objects, telescopes and other instruments, members of the solar system, nature of the sun, other stars, origin and development of stars and planets, our galaxy, other galaxies, and the organization of the universe.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement score.

### **PHS928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

**Lecture Hours:** 16

### **PHS928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

**Lecture Hours:** 16

### **PHT102 Photo Design I**

**3 credits**—This course identifies the fundamental design and compositional elements contained in quality images used for professional photography. The course provides exposure to several photographic styles which can be drawn upon for each individual's photographic journeys.

**Lecture Hours:** 48

### **PHT102 Photo Design I**

**3 credits**—This course identifies the fundamental design and compositional elements contained in quality images used for professional photography. The course provides exposure to several photographic styles which can be drawn upon for each individual's photographic journeys.

**Lecture Hours:** 48

### **PHT106 Introduction to Image Editing**

**3 credits**—This course will provide a basic introduction to raster based still digital image manipulation using industry standard software. This course is designed to provide students with a workable understanding of the digital software interface and tools used in imaging workflows.

**Lecture Hours:** 32    **Lab Hours:** 32

### **PHT106 Introduction to Image Editing**

**3 credits**—This course will provide a basic introduction to raster based still digital image manipulation using industry standard software. This course is designed to provide students with a workable understanding of the digital software interface and tools used in imaging workflows.

**Lecture Hours:** 32    **Lab Hours:** 32

### **PHT108 Camera I**

**3 credits**—This course is an introduction to the basics of camera handling, exposure and meter usage.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT108.

### **PHT108 Camera I**

**3 credits**—This course is an introduction to the basics of camera handling, exposure and meter usage.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT108.

### **PHT109 Print I**

**3 credits**—This course is an introduction to the basics of processing camera outputs and applying techniques used to produce a professional print. This course also emphasizes the fundamental print finishing methods used in the professional photography industry to enhance a photograph's overall presentation.

**Lecture Hours:** 32    **Lab Hours:** 32

**Pre/Co-requisite(s):** PHT108

### **PHT109 Print I**

**3 credits**—This course is an introduction to the basics of processing camera outputs and applying techniques used to produce a professional print. This course also emphasizes the

fundamental print finishing methods used in the professional photography industry to enhance a photograph's overall presentation.

**Lecture Hours:** 32    **Lab Hours:** 32

**Pre/Co-requisite(s):** PHT108

### **PHT110 Camera II**

**3 credits**—This course is an extension of Camera I and expands on camera captures, introducing editing workflows and image conversions. Additional camera accessories and optical image management are explained along with common problems with optics and what can be done to correct for them.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT108

### **PHT110 Camera II**

**3 credits**—This course is an extension of Camera I and expands on camera captures, introducing editing workflows and image conversions. Additional camera accessories and optical image management are explained along with common problems with optics and what can be done to correct for them.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT108

### **PHT111 Print II**

**3 credits**—This course emphasizes color output and the need for a properly managed original image, and properly managed output devices that result in either physical prints or virtual presentations.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT109 and PHT106

**Pre/Co-requisite(s):** PHT202 or PHT204

### **PHT111 Print II**

**3 credits**—This course emphasizes color output and the need for a properly managed original image, and properly managed output devices that result in either physical prints or virtual presentations.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT109 and PHT106

**Pre/Co-requisite(s):** PHT202 or PHT204

### **PHT132 Photo Design II**

**3 credits**—This course presents the physical, physiological, and psychological dimensions of color and light as perceived by people. The interaction of colors is explored as it relates to studying the forms of color, color harmonies, and color contrasts.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D in PHT102.

### **PHT132 Photo Design II**

**3 credits**—This course presents the physical, physiological, and psychological dimensions of color and light as perceived by people. The interaction of colors is explored as it relates to studying the forms of color, color harmonies, and color contrasts.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D in PHT102.

### **PHT202 Basic Portraiture**

**3 credits**—This course presents an introduction and an overview of the professional portrait field. The course will introduce management techniques used in portrait studios. The course will include instruction on studio equipment and utilizing natural light and studio lighting to produce acceptable portraits.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT106, PHT108, and PHT109.

### **PHT202 Basic Portraiture**

**3 credits**—This course presents an introduction and an overview of the professional portrait field. The course will introduce management techniques used in portrait studios. The course will include instruction on studio equipment and utilizing natural light and studio lighting to produce acceptable portraits.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT106, PHT108, and PHT109.

### **PHT204 Basic Commercial Photography**

**3 credits**—This course presents an overview of a profession in commercial still photography. Techniques, assignment types, expectations, working conditions, types of photography products used, studio procedures and equipment requirements will be discussed. Simple commercial techniques will be applied in practical assignments.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT106, PHT108, and PHT109.

### **PHT204 Basic Commercial Photography**

**3 credits**—This course presents an overview of a profession in commercial still photography. Techniques, assignment types, expectations, working conditions, types of photography products used, studio procedures and equipment requirements will be discussed. Simple commercial techniques will be applied in practical assignments.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT106, PHT108, and PHT109.

### **PHT208 Basic Photojournalism**

**3 credits**—This survey of photojournalism as a profession leads to publishable photographs through practical assignments. The techniques and working style of outstanding photojournalists are presented in multi-image programs.

**Lecture Hours:** 48

### **PHT208 Basic Photojournalism**

**3 credits**—This survey of photojournalism as a profession leads to publishable photographs through practical assignments. The techniques and working style of outstanding photojournalists are presented in multi-image programs.

**Lecture Hours:** 48

### **PHT210 Visual Communication**

**3 credits**—This course is a survey of the tools, materials and processes used for the production of visual messages in society. Course work includes practical application in the selection, utilization and implementation of materials in the preparation and design of messages.

**Lecture Hours:** 48

### **PHT210 Visual Communication**

**3 credits**—This course is a survey of the tools, materials and processes used for the production of visual messages in society. Course work includes practical application in the selection, utilization and implementation of materials in the preparation and design of messages.

**Lecture Hours:** 48

### **PHT215 Portrait Image Editing**

**3 credits**—This course will deal with adjusting and enhancing images after capture and before final output using computer imaging software. Emphasis will be on images used in the portrait photography industry.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** PHT106

### **PHT215 Portrait Image Editing**

**3 credits**—This course will deal with adjusting and enhancing images after capture and before final output using computer imaging software. Emphasis will be on images used in the portrait photography industry.

**Lecture Hours:** 32     **Lab Hours:** 32

**Prerequisite(s):** PHT106

### **PHT216 Commercial Image Editing**

**3 credits**—This course will deal with adjusting and enhancing images after capture and before final output using computer imaging software. Emphasis will be on images used in the commercial photography industry.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT106 and PHT111

### **PHT216 Commercial Image Editing**

**3 credits**—This course will deal with adjusting and enhancing images after capture and before final output using computer imaging software. Emphasis will be on images used in the commercial photography industry.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT106 and PHT111

### **PHT217 Advanced Portrait Image Editing**

**3 credits**—This course will deal with multiple images in portrait production giving a series of images that will be used together in an album or multi-image presentation a consistent look, or insuring a series of images that will be combined into a composite image will have appropriate balance.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT215

### **PHT217 Advanced Portrait Image Editing**

**3 credits**—This course will deal with multiple images in portrait production giving a series of images that will be used together in an album or multi-image presentation a consistent look, or insuring a series of images that will be combined into a composite image will have appropriate balance.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT215

### **PHT218 Advanced Commercial Image Editing**

**3 credits**—This course will deal with multiple images in commercial production; giving a series of images that will be used together in a catalog or brochure a consistent look, or insuring a series of images that will be combined into a composite image will have appropriate balance.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT216

### **PHT218 Advanced Commercial Image Editing**

**3 credits**—This course will deal with multiple images in commercial production; giving a series of images that will be used together in a catalog or brochure a consistent look, or insuring a series of images that will be combined into a composite image will have appropriate balance.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT216

### **PHT220 Intermediate Portraiture**

**3 credits**—This course is designed to assist the student in learning advanced portrait techniques and the business tools needed to start and maintain a portrait studio. The course creates an awareness of the work environment the student will enter. This course builds on the skills learned in Basic Portraiture and will include portrait assignments incorporating the criteria for acceptable portraits while utilizing studio lighting and natural lighting.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in PHT202.

### **PHT220 Intermediate Portraiture**

**3 credits**—This course is designed to assist the student in learning advanced portrait techniques and the business tools needed to start and maintain a portrait studio. The course creates an awareness of the work environment the student will enter. This course builds on the skills learned in Basic Portraiture and will include portrait assignments incorporating the criteria for acceptable portraits while utilizing studio lighting and natural lighting.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in PHT202.

### **PHT227 Intermediate Commercial**

**3 credits**—This course builds on the theory and techniques learned in Basic Commercial Photography. Lighting and image control will be presented in a variety of situations both in the studio and on location.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in PHT204.

### **PHT227 Intermediate Commercial**

**3 credits**—This course builds on the theory and techniques learned in Basic Commercial Photography. Lighting and image control will be presented in a variety of situations both in the studio and on location.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in PHT204.

### **PHT229 Intermediate Photojournalism**

**3 credits**—This course prepares students to find employment with various publications and media outlets including newspapers, magazines, public relations departments and internet outlets. Portfolio presentation is required upon completion

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of C in PHT208.

### **PHT229 Intermediate Photojournalism**

**3 credits**—This course prepares students to find employment with various publications and media outlets including newspapers, magazines, public relations departments and internet outlets. Portfolio presentation is required upon completion

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PHT208.

### **PHT235 Tech. for Studio Promotion**

**3 credits**—This course emphasizes fundamental promotional methods used in professional portrait photography studios and provides exposure to the various advertising and marketing strategies to promote the studio and raise public awareness.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT202 or PHT204.

### **PHT235 Tech. for Studio Promotion**

**3 credits**—This course emphasizes fundamental promotional methods used in professional portrait photography studios and provides exposure to the various advertising and marketing strategies to promote the studio and raise public awareness.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT202 or PHT204.

### **PHT240 Portrait Production and Portfolio**

**3 credits**—This course is designed to assist the student in learning production portrait techniques and the customer services needed to start and maintain a portrait studio. The course creates an awareness of the work environment. This course builds on the skills learned in Intermediate Portraiture and will include various portrait assignments in the studio, outdoors and on location. A portfolio presentation is required upon completion.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT220.

### **PHT240 Portrait Production and Portfolio**

**3 credits**—This course is designed to assist the student in learning production portrait techniques and the customer services needed to start and maintain a portrait studio. The course creates an awareness of the work environment. This course builds on the skills learned in Intermediate Portraiture and will include various portrait assignments in the studio, outdoors and on location. A portfolio presentation is required upon completion.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT220.

### **PHT241 Portrait Business**

**3 credits**—This course overviews the day to day operations specific to a portrait photography business, including business structure, cost of doing business, invoicing, staffing and business taxes.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT202.

### **PHT241 Portrait Business**

**3 credits**—This course overviews the day to day operations specific to a portrait photography business, including business structure, cost of doing business, invoicing, staffing and business taxes.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT202.

### **PHT242 Audio Visual Presentations**

**3 credits**—This course introduces the student to the aspects of planning, producing, distributing and presenting computer based multimedia. Macintosh and PC computer platforms will be utilized to complete assignments. Students will integrate digital photography and digital audio to produce assignments.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT110 or MMS103.

### **PHT242 Audio Visual Presentations**

**3 credits**—This course introduces the student to the aspects of planning, producing, distributing and presenting computer based multimedia. Macintosh and PC computer platforms will be utilized to complete assignments. Students will integrate digital photography and digital audio to produce assignments.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT110 or MMS103.

### **PHT244 Wedding Photography**

**4 credits**—This course presents an overview of the professional wedding field. The course will include instruction on equipment, lighting and posing utilized for photographing a wedding. The course will also cover marketing, sales techniques and the day-to-day business procedures needed to operate a wedding business.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** PHT220

### **PHT244 Wedding Photography**

**4 credits**—This course presents an overview of the professional wedding field. The course will include instruction on equipment, lighting and posing utilized for photographing a wedding. The course will also cover marketing, sales techniques and the day-to-day business procedures needed to operate a wedding business.

**Lecture Hours:** 32    **Lab Hours:** 64

**Prerequisite(s):** PHT220

### **PHT245 History of Photography**

**3 credits**—This course introduces the student to the history of the photographic profession and its ascent to the modern art form we know today. The people, processes, and their contribution to society throughout photography's short history will be discussed and studied. In addition, the medium's future will be examined.

**Lecture Hours:** 48

### **PHT245 History of Photography**

**3 credits**—This course introduces the student to the history of the photographic profession and its ascent to the modern art form we know today. The people, processes, and their contribution to society throughout photography's short history will be discussed and studied. In addition, the medium's future will be examined.

**Lecture Hours:** 48

### **PHT247 Commercial Production and Portfolio**

**3 credits**—This course will look at a number of challenging situations likely to be encountered by commercial photographers, including ones that require advanced lighting solutions, large teams of people, or extensive planning and preparation. This course analyzes a variety of photographic styles and considers the importance of developing a personal photographic style. Students will be required to produce and present a portfolio of their commercial images.

**Lecture Hours:** 32

**Prerequisite(s):** PHT227

### **PHT247 Commercial Production and Portfolio**

**3 credits**—This course will look at a number of challenging situations likely to be encountered by commercial photographers, including ones that require advanced lighting solutions, large teams of people, or extensive planning and preparation. This course analyzes a variety of photographic styles and considers the importance of developing a personal photographic style. Students will be required to produce and present a portfolio of their commercial images.

**Lecture Hours:** 32

**Prerequisite(s):** PHT227

### **PHT248 Commercial Business**

**3 credits**—This course overviews the day to day operations specific to a commercial photography business, including business structure, cost of doing business, invoicing, staffing and business taxes.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D in PHT204.

### **PHT248 Commercial Business**

**3 credits**—This course overviews the day to day operations specific to a commercial photography business, including business structure, cost of doing business, invoicing, staffing and business taxes.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D in PHT204.

### **PHT249 Advanced Commercial Lighting**

**3 credits**—The course will cover advanced lighting theory and techniques, working with a number of both common and challenging lighting situations likely to be encountered by commercial photographers, on location and in studio.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT204.

### **PHT249 Advanced Commercial Lighting**

**3 credits**—The course will cover advanced lighting theory and techniques, working with a number of both common and challenging lighting situations likely to be encountered by commercial photographers, on location and in studio.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT204.

### **PHT251 Fine Art Photography**

**3 credits**—This course will present an overview of the Fine Art Photography field. Outlets will be identified for selling personal fine art photography. The course will also include instruction on how to apply to shows and give direction on how to present, display, and sell fine art photography.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT111.

### **PHT251 Fine Art Photography**

**3 credits**—This course will present an overview of the Fine Art Photography field. Outlets will be identified for selling personal fine art photography. The course will also include instruction on how to apply to shows and give direction on how to present, display, and sell fine art photography.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT111.

### **PHT252 Film and Print Scanning**

**3 credits**—This course will study the conversion from analog film and prints into a digital format that can be used within electronic image editing and output.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT215 or PHT216

### **PHT252 Film and Print Scanning**

**3 credits**—This course will study the conversion from analog film and prints into a digital format that can be used within electronic image editing and output.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** PHT215 or PHT216

### **PHT253 Art Direction**

**3 credits**—This course will provide an overview of the working relationship between the photographer and the art director, as well as explore skills needed for good communication and collaboration.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of D in PHT204.

### **PHT253 Art Direction**

**3 credits**—This course will provide an overview of the working relationship between the photographer and the art director, as well as explore skills needed for good communication and collaboration.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of D in PHT204.

### **PHT928 Photography Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 5 credits.

**Lab Hours:** 32

### **PHT928 Photography Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 5 credits.

**Lab Hours:** 32

### **PHY100 Physics in Everyday Life**

**3 credits**—Basic laws and concepts of physics introduced and demonstrated through operation of everyday devices and systems. Emphasis on understanding physical principles behind working of modern technologies and interplay between science and technology.

**Lecture Hours:** 48

### **PHY100 Physics in Everyday Life**

**3 credits**—Basic laws and concepts of physics introduced and demonstrated through operation of everyday devices and systems. Emphasis on understanding physical principles behind working of modern technologies and interplay between science and technology.

**Lecture Hours:** 48

### **PHY162 College Physics I**

**4 credits**—This course covers the fundamental concepts, principles and laws of physics and their applications. It covers kinematics, dynamics, force, linear and rotational motion, fluids, sound, temperature, and heat.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT747, MAT128, MAT134, or appropriate placement score to enroll in MAT210.

### **PHY162 College Physics I**

**4 credits**—This course covers the fundamental concepts, principles and laws of physics and their applications. It covers kinematics, dynamics, force, linear and rotational motion, fluids, sound, temperature, and heat.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT747, MAT128, MAT134, or appropriate placement score to enroll in MAT210.

### **PHY172 College Physics II**

**4 credits**—This course is the second semester continuation of General Physics I. The course studies the fundamental concepts, principles and laws of physics and their application. It covers electricity and magnetism, light and geometric optics, quantum and nuclear physics.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in PHY162.

### **PHY172 College Physics II**

**4 credits**—This course is the second semester continuation of General Physics I. The course studies the fundamental concepts, principles and laws of physics and their application. It covers electricity and magnetism, light and geometric optics, quantum and nuclear physics.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in PHY162.

### **PHY183 Applied Physics**

**3 credits**—This course is an introduction to topics of classical physics such as motion, friction, gravitation, vibrational motion, thermodynamics, sound, light and optics.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in MAT514 or MAT747.

### **PHY183 Applied Physics**

**3 credits**—This course is an introduction to topics of classical physics such as motion, friction, gravitation, vibrational motion, thermodynamics, sound, light and optics.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in MAT514 or MAT747.

### **PHY212 Classical Physics I**

**5 credits**—This course introduces physics using calculus-level mathematics. Designed for students in Engineering, Mathematics, and Physics. The first semester of this sequence covers the topics of vectors, linear and rotational kinematics, statics, dynamics, oscillatory and wave motion, temperature, and heat.

**Lecture Hours:** 64    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT210.

### **PHY212 Classical Physics I**

**5 credits**—This course introduces physics using calculus-level mathematics. Designed for students in Engineering, Mathematics, and Physics. The first semester of this sequence covers the topics of vectors, linear and rotational kinematics, statics, dynamics, oscillatory and wave motion, temperature, and heat.

**Lecture Hours:** 64    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT210.

### **PHY222 Classical Physics II**

**5 credits**—This course is the second semester continuation of Classical Physics I. This is a calculus-based course that studies the fundamental concepts, principles and laws of physics, and their applications. Topics include: electricity and magnetism, light and geometric optics, quantum and nuclear physics.

**Lecture Hours:** 64    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in PHY212 and MAT216.

### **PHY222 Classical Physics II**

**5 credits**—This course is the second semester continuation of Classical Physics I. This is a calculus-based course that studies the fundamental concepts, principles and laws of physics, and their applications. Topics include: electricity and magnetism, light and geometric optics, quantum and nuclear physics.

**Lecture Hours:** 64    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in PHY212 and MAT216.

### **PNN100 Nursing Assistant**

**3 credits**—This course is designed to meet the training requirements of the Omnibus Reconciliation Act of 1987 (OBRA) for aides working in nursing facilities (NF) and skilled nursing facilities (SNF). Emphasis in the course is on students achieving a basic level of knowledge and demonstrating skills to provide safe, effective resident/client care. This course parallels PNN-132 Nursing Fundamentals I.

**Lecture Hours: 32    Lab Hours: 16    Clinic Hours: 32**

### **PNN100 Nursing Assistant**

**3 credits**—This course is designed to meet the training requirements of the Omnibus Reconciliation Act of 1987 (OBRA) for aides working in nursing facilities (NF) and skilled nursing facilities (SNF). Emphasis in the course is on students achieving a basic level of knowledge and demonstrating skills to provide safe, effective resident/client care. This course parallels PNN-132 Nursing Fundamentals I.

**Lecture Hours: 32    Lab Hours: 16    Clinic Hours: 32**

### **PNN115 Introduction to Nursing**

**4 credits**—Introduction to nursing is the initial course for the student entering the profession of nursing and begins with an introduction to the history of nursing and nursing as a profession. Components of the nursing process are described and utilized with implementation of nursing technologies. The student will learn aspects of infection control, hygiene, safety, body alterations, therapeutic communication and healthcare prevention.

**Lecture Hours: 64**

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN116, PNN117, PNN207, BIO173, and MAT122.

### **PNN115 Introduction to Nursing**

**4 credits**—Introduction to nursing is the initial course for the student entering the profession of nursing and begins with an introduction to the history of nursing and nursing as a profession. Components of the nursing process are described and utilized with implementation of nursing technologies. The student will learn aspects of infection control, hygiene, safety, body alterations, therapeutic communication and healthcare prevention.

**Lecture Hours: 64**

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN116, PNN117, PNN207, BIO173, and MAT122.

### **PNN116 Introduction to Nursing Skills Lab**

**2 credits**—This course provides the student with knowledge and practical application of basic nursing skills while incorporating concepts learned in Introduction to Nursing. Students learn and practice basic nursing skills in personal care, infection control, safety, vital signs, sterile technique, patient safety, documentation, and medication administration. There is major emphasis on the critical elements of nursing procedures and the scientific rationale for performing the procedures correctly.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN117, PNN207, BIO173, and MAT122.

### **PNN116 Introduction to Nursing Skills Lab**

**2 credits**—This course provides the student with knowledge and practical application of basic nursing skills while incorporating concepts learned in Introduction to Nursing. Students learn and practice basic nursing skills in personal care, Infection control, safety, vital signs, sterile technique, patient safety, documentation, and medication administration. There is major emphasis on the critical elements of nursing procedures and the scientific rationale for performing the procedures correctly.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN117, PNN207, BIO173, and MAT122.

### **PNN117 Nursing Clinical I**

**1 credits**—This course provides students with an introduction to clinical nursing. Emphasis is placed on utilization of the nursing process as a basis for clinical decision making and development of critical thinking. Nursing professionalism and basic nursing skills such as infection control, hygiene, asepsis, vital signs, and physical assessment are introduced.

**Clinic Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN207, BIO173, and MAT122.

### **PNN117 Nursing Clinical I**

**1 credits**—This course provides students with an introduction to clinical nursing. Emphasis is placed on utilization of the nursing process as a basis for clinical decision making and development of critical thinking. Nursing professionalism and basic nursing skills such as infection control, hygiene, asepsis, vital signs, and physical assessment are introduced.

**Clinic Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN207, BIO173, and MAT122.

### **PNN207 Introduction to Pharmacology**

**3 credits**—This course introduces students to the basic principles of pharmacology and medication administration. The student will focus on the safe use, pharmacological principles, indications, and nursing implications related to drug therapy when caring for individuals and families across the life-span. General characteristics of selected medications

including pharmacokinetics, pharmacogenomics, side effects, adverse effects, contraindications, and administration will be discussed.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, BIO173, and MAT122.

### **PNN207 Introduction to Pharmacology**

**3 credits**—This course introduces students to the basic principles of pharmacology and medication administration. The student will focus on the safe use, pharmacological principles, indications, and nursing implications related to drug therapy when caring for individuals and families across the life-span. General characteristics of selected medications including pharmacokinetics, pharmacogenomics, side effects, adverse effects, contraindications, and administration will be discussed.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, BIO173, and MAT122.

### **PNN214 Basic Health Alterations A**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: Musculoskeletal; Integumentary; GI/GU; Renal; Endocrine and Sensory.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN215, PNN216, PNN217, PNN311, and BIO151.

### **PNN214 Basic Health Alterations A**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: Musculoskeletal; Integumentary; GI/GU; Renal; Endocrine and Sensory.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN215, PNN216, PNN217, PNN311, and BIO151.

### **PNN215 Basic Health Alterations B**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: hematologic, cardiovascular, respiratory, neurological, integumentary and immune.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN216, PNN217, BIO151, and PNN311.

### **PNN215 Basic Health Alterations B**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: hematologic, cardiovascular, respiratory, neurological, integumentary and immune.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN216, PNN217, BIO151, and PNN311.

### **PNN216 Health Promotion and Maintenance Across the Lifespan**

**2 credits**—This course builds on the knowledge attained in previous courses, emphasizing health promotion and maintenance across the lifespan. Exemplars from maternal-child nursing and mental health nursing will be used in demonstrating the integration of principles of the nursing process and health care agencies. Cultural, ethical and legal challenges will be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN217, BIO151, and PNN311.

### **PNN216 Health Promotion and Maintenance Across the Lifespan**

**2 credits**—This course builds on the knowledge attained in previous courses, emphasizing health promotion and maintenance across the lifespan. Exemplars from maternal-child nursing and mental health nursing will be used in demonstrating the integration of principles of the nursing process and health care agencies. Cultural, ethical and legal challenges will be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN217, BIO151, and PNN311.

### **PNN217 Nursing Clinical II**

**4 credits**—This course is a study of nursing care of clients. The course stresses clinical and theoretical application as applied to clients throughout their life span. Emphasis is on the nursing process to develop critical thinking skills to implement a plan of care with a holistic, individualized approach in a structured clinical setting. The clinical experience will provide application of critical thinking skills, prioritizing, theoretical and legal issues, documentation and collaboration with other members of the healthcare team.

**Lecture Hours:** 0    **Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, BIO151, and PNN311

### **PNN217 Nursing Clinical II**

**4 credits**—This course is a study of nursing care of clients. The course stresses clinical and theoretical application as applied to clients throughout their life span. Emphasis is on the nursing process to develop critical thinking skills to implement a plan of care with a holistic, individualized approach in a structured clinical setting. The clinical experience will provide application of critical thinking skills, prioritizing, theoretical and legal issues, documentation and collaboration with other members of the healthcare team.

**Lecture Hours:** 0    **Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, BIO151, and PNN311

### **PNN311 PN Issues and Trends**

**1 credits**—This course is an overview of the role of the licensed practical nurse. This course introduces students to the history, educational preparation, legal and ethical requirements, cultural and spiritual sensitivity. Scopes of practice, career opportunities, and beginning the job search are addressed.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217, and BIO151.

### **PNN311 PN Issues and Trends**

**1 credits**—This course is an overview of the role of the licensed practical nurse. This course introduces students to the history, educational preparation, legal and ethical requirements, cultural and spiritual sensitivity. Scopes of practice, career opportunities, and beginning the job search are addressed.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217, and BIO151.

### **POL111 American National Government**

**3 credits**—The study of the United States national government, specifically its institutions, the process of governing, the means by which individual citizens and groups influence that process, and the output of that governing process.

**Lecture Hours:** 48

### **POL111 American National Government**

**3 credits**—The study of the United States national government, specifically its institutions, the process of governing, the means by which individual citizens and groups influence that process, and the output of that governing process.

**Lecture Hours:** 48

### **POL121 International Relations**

**3 credits**—This course is an introduction to international politics. The course will examine the underlying forces that shape and constrain how countries behave in the international system, historical patterns of state behavior and the prospect of state cooperation and conflict in the future. Analysis of international relations will be done through the examination of historical events, current events, policy evaluation and scholarly theory.

**Lecture Hours:** 48

### **POL121 International Relations**

**3 credits**—This course is an introduction to international politics. The course will examine the underlying forces that shape and constrain how countries behave in the international system, historical patterns of state behavior and the prospect of state cooperation and conflict in the future. Analysis of international relations will be done through the examination of historical events, current events, policy evaluation and scholarly theory.

**Lecture Hours:** 48

### **POL125 Comparative Government and Politics**

**3 credits**—This course introduces the study of politics using a comparative structure. It examines the principles and operation of modern political systems. Emphasis is on the processes in a variety of political systems in the world including democratic, socialist, and totalitarian systems.

**Lecture Hours:** 48

### **POL125 Comparative Government and Politics**

**3 credits**—This course introduces the study of politics using a comparative structure. It examines the principles and operation of modern political systems. Emphasis is on the processes in a variety of political systems in the world including democratic, socialist, and totalitarian systems.

**Lecture Hours:** 48

### **PSY102 Human and Work Relations**

**3 credits**—Human Relations is the study of self and social behavior. Emphasis is placed on the understanding and application of social science theories and research for the development of effective interpersonal and organizational relationships.

**Lecture Hours:** 48

### **PSY102 Human and Work Relations**

**3 credits**—Human Relations is the study of self and social behavior. Emphasis is placed on the understanding and application of social science theories and research for the development of effective interpersonal and organizational relationships.

**Lecture Hours:** 48

### **PSY111 Introduction to Psychology**

**3 credits**—This course provides an introduction to the study of behavior with emphasis in the areas of learning, cognition, motivation, personality, behavioral disorder, therapy, and social influence. An understanding of the impact of both theoretical perspectives and experimental evidence on the formulation of the science of human behavior is also stressed. Psychological theories and principles are utilized to explain and predict behavior.

**Lecture Hours:** 48

### **PSY111 Introduction to Psychology**

**3 credits**—This course provides an introduction to the study of behavior with emphasis in the areas of learning, cognition, motivation, personality, behavioral disorder, therapy, and

social influence. An understanding of the impact of both theoretical perspectives and experimental evidence on the formulation of the science of human behavior is also stressed. Psychological theories and principles are utilized to explain and predict behavior.

**Lecture Hours:** 48

### **PSY121 Developmental Psychology**

**3 credits**—This course presents a life span, developmental approach to the study of the developing person that identifies the behavioral dynamics of the physical, cognitive, social and affective domains of development with a view to the impact of family, school and community.

**Lecture Hours:** 48

### **PSY121 Developmental Psychology**

**3 credits**—This course presents a life span, developmental approach to the study of the developing person that identifies the behavioral dynamics of the physical, cognitive, social and affective domains of development with a view to the impact of family, school and community.

**Lecture Hours:** 48

### **PSY241 Abnormal Psychology**

**3 credits**—Survey of the major classifications of psychological disorders. Emphasis will be on theoretical perspectives, descriptions of disorders, and therapeutic approaches.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

### **PSY241 Abnormal Psychology**

**3 credits**—Survey of the major classifications of psychological disorders. Emphasis will be on theoretical perspectives, descriptions of disorders, and therapeutic approaches.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

### **PSY251 Social Psychology**

**3 credits**—Provides an introduction to the study of the interrelationship between the individual and social behavior with emphasis in the areas of social cognition, attribution, attitudes, group behavior, prejudice and discrimination, and interpersonal relationships. Basic psychological and sociological perspectives and research findings will be reviewed to better understand individual and social behavior.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111 and SOC110 or instructor approval.

### **PSY251 Social Psychology**

**3 credits**—Provides an introduction to the study of the interrelationship between the individual and social behavior with emphasis in the areas of social cognition, attribution,

attitudes, group behavior, prejudice and discrimination, and interpersonal relationships. Basic psychological and sociological perspectives and research findings will be reviewed to better understand individual and social behavior.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111 and SOC110 or instructor approval.

### **PSY261 Human Sexuality**

**3 credits**—This course explores the biological, psychological, social, cultural and historical forces that influence human relationships and sexuality. Research and theory are utilized to examine the diversity of human sexual expression.

**Lecture Hours:** 48

### **PSY261 Human Sexuality**

**3 credits**—This course explores the biological, psychological, social, cultural and historical forces that influence human relationships and sexuality. Research and theory are utilized to examine the diversity of human sexual expression.

**Lecture Hours:** 48

### **PSY262 Psychology of Gender**

**3 credits**—This course explores the meaning of gender. Research and theory in the areas of gender development, gender similarities and differences, and the nature and effects of gender roles and stereotypes is emphasized.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

### **PSY262 Psychology of Gender**

**3 credits**—This course explores the meaning of gender. Research and theory in the areas of gender development, gender similarities and differences, and the nature and effects of gender roles and stereotypes is emphasized.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

### **PSY924 Honors Project**

**1 credits**—"This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty."

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **PSY924 Honors Project**

**1 credits**—"This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty."

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **PTA111 PTA Fundamentals**

**4 credits**—This course presents a current and historical perspective on the role of the PTA within the health care team. Activities will introduce posture, body mechanics, and gait analysis, along with positioning and transfer techniques. Concepts of documentation, manual muscle testing, and range of motion assessment are taught.

**Lecture Hours: 32    Lab Hours: 64**

### **PTA111 PTA Fundamentals**

**4 credits**—This course presents a current and historical perspective on the role of the PTA within the health care team. Activities will introduce posture, body mechanics, and gait analysis, along with positioning and transfer techniques. Concepts of documentation, manual muscle testing, and range of motion assessment are taught.

**Lecture Hours: 32    Lab Hours: 64**

### **PTA113 Fundamentals for PTA II**

**3 credits**—Introduction to physical disabilities and community barriers, independent activities of daily living, prosthetics, orthotics, static/dynamic splints, casts, braces, relaxation training, pulmonary function, airway clearance techniques, breathing exercises, functional assessment, functional exercise, balance assessment, and balance training.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in PTA111.

### **PTA113 Fundamentals for PTA II**

**3 credits**—Introduction to physical disabilities and community barriers, independent activities of daily living, prosthetics, orthotics, static/dynamic splints, casts, braces, relaxation training, pulmonary function, airway clearance techniques, breathing exercises, functional assessment, functional exercise, balance assessment, and balance training.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in PTA111.

### **PTA120 Kinesiology**

**3 credits**—This course will present advanced anatomy of the musculoskeletal system with emphasis on joint mechanics, human movement, and palpation of anatomical landmarks. The student will learn the principles of normal and abnormal gait.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA120 Kinesiology**

**3 credits**—This course will present advanced anatomy of the musculoskeletal system with emphasis on joint mechanics, human movement, and palpation of anatomical landmarks. The student will learn the principles of normal and abnormal gait.

**Lecture Hours: 32      Lab Hours: 32**

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA150 Pathophysiology**

**3 credits**—Describes the etiology, signs, symptoms, and treatment of diseases and disorders commonly encountered in physical therapy.

**Lecture Hours: 48**

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA150 Pathophysiology**

**3 credits**—Describes the etiology, signs, symptoms, and treatment of diseases and disorders commonly encountered in physical therapy.

**Lecture Hours: 48**

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA194 Therapeutic Agents I**

**3 credits**—Introduction to the use of physical modalities for patient treatment. The principles of inflammation, cell repair, pain, and pain management will be introduced. The student will learn the physics, physiology, indications, contraindications, application, and patient preparation for the use of heat, cold, ultrasound, massage, vasocompression, wound care, hydrotherapy, and phonophoresis.

**Lecture Hours: 32      Lab Hours: 32**

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA194 Therapeutic Agents I**

**3 credits**—Introduction to the use of physical modalities for patient treatment. The principles of inflammation, cell repair, pain, and pain management will be introduced. The student will learn the physics, physiology, indications, contraindications, application, and patient preparation for the use of heat, cold, ultrasound, massage, vasocompression, wound care, hydrotherapy, and phonophoresis.

**Lecture Hours: 32      Lab Hours: 32**

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA195 Therapeutic Agents II**

**3 credits**—This course continues with the study of the physics, physiology, indications, contraindications, and patient preparation for the use of modalities. Focus will be on electrical modalities including iontophoresis, biofeedback, transcutaneous electrical stimulation (TENS), neuromuscular electrical stimulation, high volt, interferential, and

microcurrent. The course will also include mechanical traction, continuous passive motion, and laser.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA194.

### **PTA195 Therapeutic Agents II**

**3 credits**—This course continues with the study of the physics, physiology, indications, contraindications, and patient preparation for the use of modalities. Focus will be on electrical modalities including iontophoresis, biofeedback, transcutaneous electrical stimulation (TENS), neuromuscular electrical stimulation, high volt, interferential, and microcurrent. The course will also include mechanical traction, continuous passive motion, and laser.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA194.

### **PTA211 Musculoskeletal I**

**3 credits**—This course will present the principles of tissue development, healing and response to physical therapy treatments. Common cervical spine and upper extremity orthopedic diagnosis, physical therapy interventions, and post-operative and injury care protocols will be discussed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA211 Musculoskeletal I**

**3 credits**—This course will present the principles of tissue development, healing and response to physical therapy treatments. Common cervical spine and upper extremity orthopedic diagnosis, physical therapy interventions, and post-operative and injury care protocols will be discussed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA212 Musculoskeletal II**

**3 credits**—This course will present common lower extremity and thoracolumbar spine orthopedic diagnosis and physical therapy interventions. Post-operative and injury care protocols will be discussed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA211.

### **PTA212 Musculoskeletal II**

**3 credits**—This course will present common lower extremity and thoracolumbar spine orthopedic diagnosis and physical therapy interventions. Post-operative and injury care protocols will be discussed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA211.

### **PTA231 Therapeutic Exercise for PTA**

**3 credits**—This course covers the principles of exercise physiology, the application of exercise to treatment plans and injury prevention, equipment, and exercise interventions to improve flexibility, strength, motor control, special topics in women's health, and cardiovascular function.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA211 and PTA120.

**Co-requisite(s):** PTA212

### **PTA231 Therapeutic Exercise for PTA**

**3 credits**—This course covers the principles of exercise physiology, the application of exercise to treatment plans and injury prevention, equipment, and exercise interventions to improve flexibility, strength, motor control, special topics in women's health, and cardiovascular function.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA211 and PTA120.

**Co-requisite(s):** PTA212

### **PTA248 PTA Neurology**

**4 credits**—This course presents information on nervous system anatomy, function and normal/abnormal development; therapeutic approaches to central nervous system dysfunction throughout the life cycle; and assessment of the neurologically impaired patient.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA111 and PTA120.

### **PTA248 PTA Neurology**

**4 credits**—This course presents information on nervous system anatomy, function and normal/abnormal development; therapeutic approaches to central nervous system dysfunction throughout the life cycle; and assessment of the neurologically impaired patient.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA111 and PTA120.

### **PTA284 PTA Professional Issues**

**2 credits**—This course covers topics relevant to the professional development and communication. Topics include history of the physical therapy profession, cultural competence, learning and communications styles, ethical and legal aspects of care, structure and function of institutions, wellness, reimbursement systems and special topics in healthcare. Employment topics including resume writing, interviewing, performance

appraisal and work/life issues will be covered. The course also introduces research literacy as it relates to evidence based practice.

**Lecture Hours:** 32

### **PTA284 PTA Professional Issues**

**2 credits**—This course covers topics relevant to the professional development and communication. Topics include history of the physical therapy profession, cultural competence, learning and communications styles, ethical and legal aspects of care, structure and function of institutions, wellness, reimbursement systems and special topics in healthcare. Employment topics including resume writing, interviewing, performance appraisal and work/life issues will be covered. The course also introduces research literacy as it relates to evidence based practice.

**Lecture Hours:** 32

### **PTA310 PTA Clinical I**

**1 credits**—This course consists of Health Care Provider level CPR and First Aid certification; HIPAA, OSHA Hazard Communication (includes blood borne pathogens), and Mandatory Reporter Training for Child and Dependent Adult Abuse; and introduction to the clinic during the first two weeks of the semester, followed by weekly on-site clinical experience in local settings. The course will allow for observation and application of physical therapy interventions and application of elemental principles of patient care to uncomplicated patients under direct supervision and at the discretion of the Clinical Instructor.

**Co-op Hours:** 64

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA310 PTA Clinical I**

**1 credits**—This course consists of Health Care Provider level CPR and First Aid certification; HIPAA, OSHA Hazard Communication (includes blood borne pathogens), and Mandatory Reporter Training for Child and Dependent Adult Abuse; and introduction to the clinic during the first two weeks of the semester, followed by weekly on-site clinical experience in local settings. The course will allow for observation and application of physical therapy interventions and application of elemental principles of patient care to uncomplicated patients under direct supervision and at the discretion of the Clinical Instructor.

**Co-op Hours:** 64

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA311 PTA Clinical II**

**1 credits**—This course consists of clinical experiences throughout the semester. The students will have the opportunity to apply skills and knowledge developed in previous course work per the discretion of the Clinical Instructor.

**Co-op Hours:** 64

**Prerequisite(s):** PTA310

### **PTA311 PTA Clinical II**

**1 credits**—This course consists of clinical experiences throughout the semester. The students will have the opportunity to apply skills and knowledge developed in previous course work per the discretion of the Clinical Instructor.

**Co-op Hours:** 64

**Prerequisite(s):** PTA310

### **PTA412 PTA Clinical III**

**4 credits**—This course consists of a full-time clinical rotation at one clinical site. The student will apply skills and knowledge from all previous coursework to patient care with the purpose of developing entry-level clinical competency. Clinical competencies will be continued. An oral presentation will be presented to the staff. The clinical site may require travel away from the local region, including out-of-state.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in PTA113, PTA195, PTA212, PTA231, PTA248, and PTA285. Successfully pass PTA311.

### **PTA412 PTA Clinical III**

**4 credits**—This course consists of a full-time clinical rotation at one clinical site. The student will apply skills and knowledge from all previous coursework to patient care with the purpose of developing entry-level clinical competency. Clinical competencies will be continued. An oral presentation will be presented to the staff. The clinical site may require travel away from the local region, including out-of-state.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in PTA113, PTA195, PTA212, PTA231, PTA248, and PTA285. Successfully pass PTA311.

### **PTA413 PTA Clinical IV**

**4 credits**—This course consists of a full-time clinical rotation at one clinical site. The student will continue to apply skills and knowledge obtained from all previous coursework and clinical experiences. Clinical competencies must be completed by the end of this rotation. An oral presentation will be presented to the staff that differs from Clinical III. A one day review of clinical questions and licensure examination details will follow the end of the clinical. Location of clinical sites may require travel away from the local region, including out-of-state.

**Co-op Hours:** 256

**Prerequisite(s):** PTA412

### **PTA413 PTA Clinical IV**

**4 credits**—This course consists of a full-time clinical rotation at one clinical site. The student will continue to apply skills and knowledge obtained from all previous coursework and clinical experiences. Clinical competencies must be completed by the end of this rotation. An oral presentation will be presented to the staff that differs from Clinical III. A one day review of clinical questions and licensure examination details will follow the end of the clinical. Location of clinical sites may require travel away from the local region, including out-of-state.

**Co-op Hours:** 256

**Prerequisite(s):** PTA412

### **RCP100 Introduction to Respiratory Care**

**3 credits**—This course introduces the student to the fundamentals of Respiratory Care. The field of Respiratory Care will be examined to determine opportunities and policies in the profession. It will establish a strong foundation in bedside assessment including vital signs, chest assessment, evaluating work of breathing, and patient history. Also covered will be the therapeutic uses of medical gases, infection control procedures, and proper maintenance of records. Humidity and aerosol therapy will be studied in detail.

Must complete all Pre-Respiratory courses with a cumulative GPA of 2.75.

**Lecture Hours:** 32    **Lab Hours:** 32

### **RCP100 Introduction to Respiratory Care**

**3 credits**—This course introduces the student to the fundamentals of Respiratory Care. The field of Respiratory Care will be examined to determine opportunities and policies in the profession. It will establish a strong foundation in bedside assessment including vital signs, chest assessment, evaluating work of breathing, and patient history. Also covered will be the therapeutic uses of medical gases, infection control procedures, and proper maintenance of records. Humidity and aerosol therapy will be studied in detail.

Must complete all Pre-Respiratory courses with a cumulative GPA of 2.75.

**Lecture Hours:** 32    **Lab Hours:** 32

### **RCP260 Airway Maintenance Procedures**

**4 credits**—This course will develop the skills required to assess, diagnose, and manage a patient's airway. It specifically describes the Respiratory Therapist's role in maintaining a patent airway by using lung expansion therapy, bronchial hygiene techniques, and suctioning. The insertion, maintenance, and removal of artificial airways, which include endotracheal tubes and tracheostomy tubes, will be discussed in detail.

**Lecture Hours:** 48    **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP100.

### **RCP260 Airway Maintenance Procedures**

**4 credits**—This course will develop the skills required to assess, diagnose, and manage a patient's airway. It specifically describes the Respiratory Therapist's role in maintaining a patent airway by using lung expansion therapy, bronchial hygiene techniques, and suctioning. The insertion, maintenance, and removal of artificial airways, which include endotracheal tubes and tracheostomy tubes, will be discussed in detail.

**Lecture Hours:** 48    **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP100.

### **RCP315 Cardiopulmonary Therapeutics**

**4 credits**—This course is a general review of the respiratory, circulatory, and renal systems as they apply to respiratory care. The procedure and analysis of arterial blood gas sampling will be discussed in detail along with the pharmacologic interventions used to ease the work of breathing. This course provides a foundation for the study of respiratory and cardiovascular disorders and the interventions made to alleviate them.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Co-requisite(s):** A minimum grade of C in RCP680.

### **RCP315 Cardiopulmonary Therapeutics**

**4 credits**—This course is a general review of the respiratory, circulatory, and renal systems as they apply to respiratory care. The procedure and analysis of arterial blood gas sampling will be discussed in detail along with the pharmacologic interventions used to ease the work of breathing. This course provides a foundation for the study of respiratory and cardiovascular disorders and the interventions made to alleviate them.

**Lecture Hours:** 48    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Co-requisite(s):** A minimum grade of C in RCP680.

### **RCP350 Pulmonary Pathology**

**3 credits**—This course examines common medical disorders and the effect on the cardiopulmonary system. It includes disorder etiology, anatomic changes, and clinical presentation. Evaluation of signs and symptoms will allow the student to generate a diagnosis and design a multidisciplinary treatment plan. Patient case studies and clinical simulations will be a major focus.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of C in RCP315.

### **RCP350 Pulmonary Pathology**

**3 credits**—This course examines common medical disorders and the effect on the cardiopulmonary system. It includes disorder etiology, anatomic changes, and clinical presentation. Evaluation of signs and symptoms will allow the student to generate a diagnosis and design a multidisciplinary treatment plan. Patient case studies and clinical simulations will be a major focus.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of C in RCP315.

### **RCP410 Cardiopulmonary Diagnostics**

**3 credits**—This course covers advanced cardiopulmonary diagnostic tests. It includes pulmonary function tests, stress tests, imaging studies, noninvasive monitors, bronchoscopies, cardioversions, polysomnography, indwelling lines, and pulmonary rehabilitation. Ethical issues for Respiratory Therapists will also be discussed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP565 or RCP690.

### **RCP410 Cardiopulmonary Diagnostics**

**3 credits**—This course covers advanced cardiopulmonary diagnostic tests. It includes pulmonary function tests, stress tests, imaging studies, noninvasive monitors, bronchoscopies, cardioversions, polysomnography, indwelling lines, and pulmonary rehabilitation. Ethical issues for Respiratory Therapists will also be discussed.

**Lecture Hours:** 32    **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP565 or RCP690.

### **RCP561 Introduction to Ventilator Support**

**3 credits**—This course prepares the student to initiate and manage invasive and noninvasive mechanical ventilation. Discussion topics will include modes of ventilation, ventilator settings, and ventilator alarm limits. Principles of mechanical ventilation and the effects of positive pressure will also be studied.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Pre/Co-requisite(s):** A minimum grade of C in RCP315 or RCP680.

### **RCP561 Introduction to Ventilator Support**

**3 credits**—This course prepares the student to initiate and manage invasive and noninvasive mechanical ventilation. Discussion topics will include modes of ventilation, ventilator settings, and ventilator alarm limits. Principles of mechanical ventilation and the effects of positive pressure will also be studied.

**Lecture Hours:** 16    **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Pre/Co-requisite(s):** A minimum grade of C in RCP315 or RCP680.

### **RCP565 Intensive Respiratory Care**

**3 credits**—This course expands the student's ability to oxygenate and ventilate a patient while managing a mechanical ventilator. The student will utilize ventilator graphics to change settings and troubleshoot problems as the patient improves or deteriorates. Special monitoring systems will be discussed, including indwelling arterial lines, cardiac monitors, hemodynamic monitors, transcutaneous monitors, and capnographs. Performance and interpretation of electrocardiograms are highlighted. Medications commonly given to critical patients in the Intensive Care Unit will also be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP315 and RCP561.

**Co-requisite(s):** A minimum grade of C in RCP690.

### **RCP565 Intensive Respiratory Care**

**3 credits**—This course expands the student's ability to oxygenate and ventilate a patient while managing a mechanical ventilator. The student will utilize ventilator graphics to change settings and troubleshoot problems as the patient improves or deteriorates. Special monitoring systems will be discussed, including indwelling arterial lines, cardiac monitors, hemodynamic monitors, transcutaneous monitors, and capnographs. Performance and interpretation of electrocardiograms are highlighted. Medications commonly given to critical patients in the Intensive Care Unit will also be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP315 and RCP561.

**Co-requisite(s):** A minimum grade of C in RCP690.

### **RCP600 Neonatal/Pediatric Respiratory**

**3 credits**—This course provides in-depth knowledge into the complex problems associated with the neonatal and pediatric population. Neonatal and pediatric assessment, monitoring, and respiratory intervention will be a major focus. Abnormal conditions that occur during the transition from fetal development, to the perinatal period, to the pediatric stages of life will also be discussed. Simulation will be used to demonstrate the ability to identify and treat common abnormalities found in this population.

**Lecture Hours:** 32      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Pre/Co-requisite(s):** A minimum grade of C in RCP680.

### **RCP600 Neonatal/Pediatric Respiratory**

**3 credits**—This course provides in-depth knowledge into the complex problems associated with the neonatal and pediatric population. Neonatal and pediatric assessment, monitoring, and respiratory intervention will be a major focus. Abnormal conditions that occur during the transition from fetal development, to the perinatal period, to the pediatric stages of life will also be discussed. Simulation will be used to demonstrate the ability to identify and treat common abnormalities found in this population.

**Lecture Hours:** 32      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Pre/Co-requisite(s):** A minimum grade of C in RCP680.

### **RCP680 Clinical Respiratory Care**

**4 credits**—This course introduces the student to the hospital setting to develop important skills in communicating with patients and other health care personnel. The student will perform valuable patient assessments as well as basic respiratory care modalities. The modalities included are: oxygen therapy, lung expansion therapy, medication delivery, bronchial hygiene, intubation, extubation, suctioning, tracheostomy care, and ABG sampling.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

### **RCP680 Clinical Respiratory Care**

**4 credits**—This course introduces the student to the hospital setting to develop important skills in communicating with patients and other health care personnel. The student will perform valuable patient assessments as well as basic respiratory care modalities. The modalities included are: oxygen therapy, lung expansion therapy, medication delivery, bronchial hygiene, intubation, extubation, suctioning, tracheostomy care, and ABG sampling.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

### **RCP690 Clinical Intensive Care**

**8 credits**—This course expands clinical situations into the intensive care units, which includes invasive and noninvasive ventilators and hemodynamically unstable patients. There will be a specialty rotation to develop awareness of different aspects of neonatal, pediatric, and adult ICUs, and other special procedures.

**Clinic Hours:** 384

**Prerequisite(s):** A minimum grade of C in RCP350, RCP561, and RCP680.

**Pre/Co-requisite(s):** A minimum grade of C in RCP565.

### **RCP690 Clinical Intensive Care**

**8 credits**—This course expands clinical situations into the intensive care units, which includes invasive and noninvasive ventilators and hemodynamically unstable patients. There will be a specialty rotation to develop awareness of different aspects of neonatal, pediatric, and adult ICUs, and other special procedures.

**Clinic Hours:** 384

**Prerequisite(s):** A minimum grade of C in RCP350, RCP561, and RCP680.

**Pre/Co-requisite(s):** A minimum grade of C in RCP565.

### **RCP875 Respiratory Care Applications**

**2 credits**—This course is a summary course to combine textbook knowledge with application skills. It will test the student's ability in turning recalled information into better decision-making processes.

**Lecture Hours:** 16      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP350, RCP561, and RCP315.

**Pre/Co-requisite(s):** A minimum grade of C in RCP410, RCP565, and RCP690.

### **RCP875 Respiratory Care Applications**

**2 credits**—This course is a summary course to combine textbook knowledge with application skills. It will test the student's ability in turning recalled information into better decision-making processes.

**Lecture Hours:** 16      **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP350, RCP561, and RCP315.

**Pre/Co-requisite(s):** A minimum grade of C in RCP410, RCP565, and RCP690.

### **RCP900 Clinical Preceptor**

**4 credits**—This course prepares the student for real-life hospital situations. The student will be expected to complete a full work day doing the full workload of an assigned Staff Therapist (preceptor). The student is expected to handle all aspects of respiratory care including interruptions and new situations. The preceptor will monitor the student at all times and will offer support if needed.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in RCP680 and RCP690.

### **RCP900 Clinical Preceptor**

**4 credits**—This course prepares the student for real-life hospital situations. The student will be expected to complete a full work day doing the full workload of an assigned Staff Therapist (preceptor). The student is expected to handle all aspects of respiratory care including interruptions and new situations. The preceptor will monitor the student at all times and will offer support if needed.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in RCP680 and RCP690.

### **RCP910 Respiratory Care RRT Review**

**2 credits**—This course is designed to test the student's ability to successfully earn passing scores on advanced-level examinations. Although advanced-level examinations will be the focus of this course, review of entry-level examination concepts will also be provided. Mock Board examinations will be administered after completion of a comprehensive review seminar.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP875.

### **RCP910 Respiratory Care RRT Review**

**2 credits**—This course is designed to test the student's ability to successfully earn passing scores on advanced-level examinations. Although advanced-level examinations will be the focus of this course, review of entry-level examination concepts will also be provided. Mock Board examinations will be administered after completion of a comprehensive review seminar.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP875.

### **RDG038 College Preparatory Reading I**

**3 credits**—This course is designed to help students improve their reading proficiency in order to manage college textbooks successfully.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent

### **RDG038 College Preparatory Reading I**

**3 credits**—This course is designed to help students improve their reading proficiency in order to manage college textbooks successfully.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent

### **RDG039 College Preparatory Reading II**

**3 credits**—This course is designed to help students expand their academic vocabulary and improve comprehension skills. Students will learn and utilize a variety of reading strategies to be used in the reading of varying materials and to further their learning in their program of choice.

**Lecture Hours:** 48

**Prerequisite(s):** RDG038

### **RDG039 College Preparatory Reading II**

**3 credits**—This course is designed to help students expand their academic vocabulary and improve comprehension skills. Students will learn and utilize a variety of reading strategies to be used in the reading of varying materials and to further their learning in their program of choice.

**Lecture Hours:** 48

**Prerequisite(s):** RDG038

### **RDG040 College Preparatory Reading III**

**3 credits**—This course provides students with instruction of the reading skills necessary for success in college. Through the use of college-level materials, students are afforded opportunity for demonstration and application of critical reading skills.

**Lecture Hours:** 48

**Prerequisite(s):** RDG039

### **RDG040 College Preparatory Reading III**

**3 credits**—This course provides students with instruction of the reading skills necessary for success in college. Through the use of college-level materials, students are afforded opportunity for demonstration and application of critical reading skills.

**Lecture Hours:** 48

**Prerequisite(s):** RDG039

### **REL101 Survey of World Religions**

**3 credits**—An introductory survey of world religions that have had major impact on world culture and civilization: Hinduism, Taoism, Buddhism, Confucianism, Judaism, Christianity,

Islam, and others. It will examine their cultural settings, sacred writings, key doctrines, central rituals, ethical values, and perspectives on gender roles.

**Lecture Hours:** 48

### **REL101 Survey of World Religions**

**3 credits**—An introductory survey of world religions that have had major impact on world culture and civilization: Hinduism, Taoism, Buddhism, Confucianism, Judaism, Christianity, Islam, and others. It will examine their cultural settings, sacred writings, key doctrines, central rituals, ethical values, and perspectives on gender roles.

**Lecture Hours:** 48

### **REL130 Intro to Religions of the East**

**3 credits**—This course is an interdisciplinary course that will explore the emergence, development, and diversification of the three cultural regions' religious traditions. Student participants in the course will explore not only the basic beliefs and practices of these religions but also the ways in which they shape and are shaped by the cultures in which they are embedded. Emphasis will be placed upon understanding these religions as systems of meaning-creation.

**Lecture Hours:** 48

### **REL130 Intro to Religions of the East**

**Lecture Hours:** 48

### **SDV108 The College Experience**

**1 credits**—This course is designed to orient students to the college campus, resources, services, and expectations. This course also provides a brief overview and practice of study skills and academic strategies.

**Lecture Hours:** 16

### **SDV108 The College Experience**

**1 credits**—This course is designed to orient students to the college campus, resources, services, and expectations. This course also provides a brief overview and practice of study skills and academic strategies.

**Lecture Hours:** 16

### **SDV109 College 101**

**3 credits**—This course provides students a thorough orientation to the college campus and resources. The course is designed to introduce students to the college culture while they

examine what a "successful" student is. Students will be introduced to a variety of skills for academic success, academic planning, personal development, and study strategies.

**Lecture Hours:** 48

### **SDV109 College 101**

**3 credits**—This course provides students a thorough orientation to the college campus and resources. The course is designed to introduce students to the college culture while they examine what a "successful" student is. Students will be introduced to a variety of skills for academic success, academic planning, personal development, and study strategies.

**Lecture Hours:** 48

### **SDV116 Strategies for Online Academic Success**

**1 credits**—This course prepares students to be successful in the online environment by introducing them to campus resources and academic strategies while equipping them with basic technology skills, such as file management, posting to discussion boards, and navigating a course website. It also gives them practical experience as an online or hybrid learner by using a Course Management System.

**Lecture Hours:** 16

### **SDV116 Strategies for Online Academic Success**

**1 credits**—This course prepares students to be successful in the online environment by introducing them to campus resources and academic strategies while equipping them with basic technology skills, such as file management, posting to discussion boards, and navigating a course website. It also gives them practical experience as an online or hybrid learner by using a Course Management System.

**Lecture Hours:** 16

### **SDV127 Study Strategies**

**1 credits**—This course provides a focused examination of the strategies and skills needed for students to be successful at the college level. Students will be introduced to and given opportunity for practice of a variety of skills for academic success and study strategies.

**Lecture Hours:** 16

### **SDV127 Study Strategies**

**1 credits**—This course provides a focused examination of the strategies and skills needed for students to be successful at the college level. Students will be introduced to and given opportunity for practice of a variety of skills for academic success and study strategies.

**Lecture Hours:** 16

### **SDV131 Career Exploration**

**2 credits**—This course is designed to increase students' knowledge of themselves, of theories about careers, and of various resources available to them which will assist them in the career decision making process. Students, at the completion of this course, will be better able to choose academic majors and careers. This course is specifically designed to follow the National Career Development Guidelines.

**Lecture Hours:** 32

### **SDV131 Career Exploration**

**2 credits**—This course is designed to increase students' knowledge of themselves, of theories about careers, and of various resources available to them which will assist them in the career decision making process. Students, at the completion of this course, will be better able to choose academic majors and careers. This course is specifically designed to follow the National Career Development Guidelines.

**Lecture Hours:** 32

### **SDV161 Portfolio Development**

**2 credits**—This course provides students with the writing and research skill necessary to compile a personal portfolio documenting their prior education, occupational training and work experiences. Students will examine personal, educational, and occupational goals and develop a plan of study which supports their goals and fulfills the requirements of the General Technology program.

**Lecture Hours:** 32

### **SDV161 Portfolio Development**

**2 credits**—This course provides students with the writing and research skill necessary to compile a personal portfolio documenting their prior education, occupational training and work experiences. Students will examine personal, educational, and occupational goals and develop a plan of study which supports their goals and fulfills the requirements of the General Technology program.

**Lecture Hours:** 32

### **SOC110 Introduction to Sociology**

**3 credits**—This course surveys the basic principles, concepts, and research findings of social life from small groups to societies. The course examines a range of sociological explanations for the various forms of social behaviors and establishes a basis for reflection and further study in the field.

**Lecture Hours:** 48

### **SOC110 Introduction to Sociology**

**3 credits**—This course surveys the basic principles, concepts, and research findings of social life from small groups to societies. The course examines a range of sociological explanations for the various forms of social behaviors and establishes a basis for reflection and further study in the field.

**Lecture Hours:** 48

### **SOC115 Social Problems**

**3 credits**—This course introduces students to the sociological perspective and related critical thinking skills as a way of examining the cause and effect nature of contemporary social problems. Within this examination, emphasized are (a) the interdependence of social problems, (b) how social inequality is an inherent characteristic of all social problems, and (c) the relationship between definitions of social problems and social policies.

**Lecture Hours:** 48

### **SOC115 Social Problems**

**3 credits**—This course introduces students to the sociological perspective and related critical thinking skills as a way of examining the cause and effect nature of contemporary social problems. Within this examination, emphasized are (a) the interdependence of social problems, (b) how social inequality is an inherent characteristic of all social problems, and (c) the relationship between definitions of social problems and social policies.

**Lecture Hours:** 48

### **SOC120 Marriage and Family**

**3 credits**—Marriage and family is studied from a sociological viewpoint. Content areas focus on the history of family, gender roles, power in relationships, and functions of the family and dysfunctions. Statuses such as being single to marriage to parenthood are emphasized, as are alternative lifestyles with respect to sexuality and family.

**Lecture Hours:** 48

### **SOC120 Marriage and Family**

**3 credits**—Marriage and family is studied from a sociological viewpoint. Content areas focus on the history of family, gender roles, power in relationships, and functions of the family and dysfunctions. Statuses such as being single to marriage to parenthood are emphasized, as are alternative lifestyles with respect to sexuality and family.

**Lecture Hours:** 48

### **SOC135 Death and Dying**

**3 credits**—This course provides a basic background on historical and contemporary perspectives on death and dying. Attention is given to current American practices regarding death, as well as cross-cultural interpretation. Emphasis is also placed on the special situation of the terminally ill and bereaved.

**Lecture Hours:** 48

### **SOC135 Death and Dying**

**3 credits**—This course provides a basic background on historical and contemporary perspectives on death and dying. Attention is given to current American practices regarding death, as well as cross-cultural interpretation. Emphasis is also placed on the special situation of the terminally ill and bereaved.

**Lecture Hours:** 48

### **SOC160 Introduction to Social Work**

**3 credits**—This course provides basic understanding of how American system of social services and the social work profession combine in order to meet the personal and social needs of persons who have been classified as ?at risk? and in need of public assistance. Concepts relevant to social welfare, social change, social support, and structure are examined, including but not limited to legal aspects, systemic and professional goals and values, and various statuses and roles. In addition, various models and theories related to

social work and social services will be examined. Lastly, this course includes a volunteer work experience within an agency setting.

**Lecture Hours:** 48

### **SOC160 Introduction to Social Work**

**3 credits**—This course provides basic understanding of how American system of social services and the social work profession combine in order to meet the personal and social needs of persons who have been classified as ?at risk? and in need of public assistance. Concepts relevant to social welfare, social change, social support, and structure are examined, including but not limited to legal aspects, systemic and professional goals and values, and various statuses and roles. In addition, various models and theories related to social work and social services will be examined. Lastly, this course includes a volunteer work experience within an agency setting.

**Lecture Hours:** 48

### **SOC195 Urban Studies**

**3 credits**—This course is an interdisciplinary introduction to the study of urban issues and culture with an emphasis on the growth and development of urban areas. It utilizes a wide range of approaches: historical, political, social, spatial, economic and cultural to examine the unique qualities and problems of urban life.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS152, SOC110, SOC115, GEO115, or POL111.

### **SOC195 Urban Studies**

**3 credits**—This course is an interdisciplinary introduction to the study of urban issues and culture with an emphasis on the growth and development of urban areas. It utilizes a wide range of approaches: historical, political, social, spatial, economic and cultural to examine the unique qualities and problems of urban life.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS152, SOC110, SOC115, GEO115, or POL111.

### **SOC200 Minority Group Relations**

**3 credits**—This course examines racial and ethnic relations in the United States. Basic sociological concepts will be applied to historical and contemporary experiences of racial and ethnic groups, with particular attention paid to minority groups.

**Lecture Hours:** 48

### **SOC200 Minority Group Relations**

**3 credits**—This course examines racial and ethnic relations in the United States. Basic sociological concepts will be applied to historical and contemporary experiences of racial and ethnic groups, with particular attention paid to minority groups.

**Lecture Hours:** 48

### **SOC205 Diversity in America**

**3 credits**—Introduction to the sociological study of group relations in the United States. Basic concepts such as culture, groups, inequality, prejudice and discrimination will be explored. Focus will be on class, race, and gender, however other statuses (such as sexual orientation, religion, age, and abilities) will also be discussed. Students will gain a better understanding of the relationship between individuals and society, as well as the experiences of minority groups.

**Lecture Hours:** 48

### **SOC205 Diversity in America**

**3 credits**—Introduction to the sociological study of group relations in the United States. Basic concepts such as culture, groups, inequality, prejudice and discrimination will be explored. Focus will be on class, race, and gender, however other statuses (such as sexual orientation, religion, age, and abilities) will also be discussed. Students will gain a better understanding of the relationship between individuals and society, as well as the experiences of minority groups.

**Lecture Hours:** 48

### **SOC208 Cultural Anthropology**

**3 credits**—This course introduces the student to a comparative study of societies around the world. In this course cultural similarities and differences are explored to illustrate how human beings construct and conduct their existence. It emphasizes the origin and maintenance of the human species by studying its evolution, cultural development, ecology, kinship, organizations, and symbolic expressions. (Same as ANT-105)

**Lecture Hours:** 48

### **SOC208 Cultural Anthropology**

**3 credits**—This course introduces the student to a comparative study of societies around the world. In this course cultural similarities and differences are explored to illustrate how human beings construct and conduct their existence. It emphasizes the origin and maintenance of the human species by studying its evolution, cultural development, ecology, kinship, organizations, and symbolic expressions. (Same as ANT-105)

**Lecture Hours:** 48

### **SOC220 Sociology of Aging**

**3 credits**—This introductory gerontology course examines the influence of an aging society, explores the process of aging, old age as a stage of life and the impact of aging both personally and on society as a whole.

**Lecture Hours:** 48

### **SOC220 Sociology of Aging**

**3 credits**—This introductory gerontology course examines the influence of an aging society, explores the process of aging, old age as a stage of life and the impact of aging both personally and on society as a whole.

**Lecture Hours:** 48

### **SOC230 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

### **SOC230 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

### **SOC240 Introduction to Criminology**

**3 credits**—This course explores the extent and causes of criminal behavior; analysis of crime in relationship to other social problems; and the nature of society's response to crime.

**Lecture Hours:** 48

### **SOC240 Introduction to Criminology**

**3 credits**—This course explores the extent and causes of criminal behavior; analysis of crime in relationship to other social problems; and the nature of society's response to crime.

**Lecture Hours:** 48

### **SOC251 Introduction to Social Psychology**

**3 credits**—Provides an introduction to the study of the interrelationship between the individual and social behavior with emphasis in the areas of social cognition, attribution, attitudes, group behavior, prejudice and discrimination, and interpersonal relationships. Basic psychological and sociological perspectives and research findings will be reviewed to better understand individual and social behavior.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111, SOC110, or instructor approval

### **SOC251 Introduction to Social Psychology**

**3 credits**—Provides an introduction to the study of the interrelationship between the individual and social behavior with emphasis in the areas of social cognition, attribution, attitudes, group behavior, prejudice and discrimination, and interpersonal relationships. Basic psychological and sociological perspectives and research findings will be reviewed to better understand individual and social behavior.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111, SOC110, or instructor approval

### **SOC261 Human Sexuality**

**3 credits**—This course explores the biological, psychological, social, cultural and historical forces that influence human relationships and sexuality. Research and theory are utilized to examine the diversity of human sexual expression.

**Lecture Hours:** 48

### **SOC261 Human Sexuality**

**3 credits**—This course explores the biological, psychological, social, cultural and historical forces that influence human relationships and sexuality. Research and theory are utilized to examine the diversity of human sexual expression.

**Lecture Hours:** 48

### **SOC820 Genography**

**3 credits**—This course explores themes of identity, difference, and migration that are raised by the analysis of DNA samples. As a central aspect of this course, students will submit a DNA sample to the National Geographic Society's Genographic Project. That sample will be analyzed and the students provided with a mapping of the migration of their genetic lineage. The course will examine the underlying biology of this analysis; sociological notions of sameness and difference; historical processes that have formed and changed our understandings of where we come from, who we are, and what we might become.

**Lecture Hours:** 48

### **SOC820 Genography**

As a central aspect of this course, students will submit a DNA sample to the National Geographic Society's Genographic Project. That sample will be analyzed and the students provided with a mapping of the migration of their genetic lineage. The course will examine the underlying biology of this analysis; sociological notions of sameness and difference; historical processes that have formed and changed our understandings of where we come from, who we are, and what we might become.

**Lecture Hours:** 48

### **SOC850 Cultural Immersion Field Experience**

**1 credits**—This course combines classroom and community-based learning to expand student understanding of the global society. Living within a diverse community and working with diverse groups of people, students will engage in an authentic and practical cultural immersion experience off-campus.

May be taken for up to 3 credits.

**Lab Hours:** 32

### **SOC850 Cultural Immersion Field Experience**

**1 credits**—This course combines classroom and community-based learning to expand student understanding of the global society. Living within a diverse community and working with diverse groups of people, students will engage in an authentic and practical cultural immersion experience off-campus.

May be taken for up to 3 credits.

**Lab Hours:** 32

### **SOC924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **SOC924 Honors Project**

**1 credits**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **SOC928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **SOC928 Independent Study**

**1 credits**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **SPC101 Fundamentals of Oral Communication**

**3 credits**—This course presents elements of the oral communications process with emphasis on developing interpersonal, small group, and public speaking skills. Students will be involved in activities that provide opportunity for the understanding and improvement of their oral communication skills.

**Lecture Hours:** 48

### **SPC101 Fundamentals of Oral Communication**

**3 credits**—This course presents elements of the oral communications process with emphasis on developing interpersonal, small group, and public speaking skills. Students will be involved in activities that provide opportunity for the understanding and improvement of their oral communication skills.

**Lecture Hours:** 48

### **SPC120 Intercultural Communications**

**3 credits**—Intercultural Communication explores basic principles and theories of intercultural communication with opportunities to gain communication competence through immersion experiences and cross-cultural interactions.

**Lecture Hours:** 48

### **SPC120 Intercultural Communications**

**3 credits**—Intercultural Communication explores basic principles and theories of intercultural communication with opportunities to gain communication competence through immersion experiences and cross-cultural interactions.

**Lecture Hours:** 48

### **SPC122 Interpersonal Communication**

**3 credits**—Interpersonal Communication explores concepts, contexts, and processes of person-to-person communication in relationships. Emphasis is placed on understanding how social worlds are created through conversation.

**Lecture Hours:** 48

### **SPC122 Interpersonal Communication**

**3 credits**—Interpersonal Communication explores concepts, contexts, and processes of person-to-person communication in relationships. Emphasis is placed on understanding how social worlds are created through conversation.

**Lecture Hours:** 48

### **SPC132 Group Communication**

**3 credits**—Group Process examines the principles of small group communication processes with opportunities for students to apply theory in various structured discussion situations.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in SPC101.

### **SPC132 Group Communication**

**3 credits**—Group Process examines the principles of small group communication processes with opportunities for students to apply theory in various structured discussion situations.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in SPC101.

### **SPC140 Oral Interpretation**

**3 credits**—This course will explore literature through performance using creative individual and group explorations. Students will learn to select, analyze, rehearse and perform literature of various types using vocal and physical techniques.

**Lecture Hours:** 48

### **SPC140 Oral Interpretation**

**3 credits**—This course will explore literature through performance using creative individual and group explorations. Students will learn to select, analyze, rehearse and perform literature of various types using vocal and physical techniques.

**Lecture Hours:** 48

### **TDT100 Interpersonal Relations**

**2 credits**—This course covers personal health and safety, public and employer relations and stress management on the job in a new career. Also included in the course are written communication and oral communication skills. Instruction is provided in employment seeking skills, resumes, cover letters, thank you letters, letters of application, personal record keeping, and desirable work attitude.

**Lecture Hours:** 32

### **TDT100 Interpersonal Relations**

**2 credits**—This course covers personal health and safety, public and employer relations and stress management on the job in a new career. Also included in the course are written communication and oral communication skills. Instruction is provided in employment seeking skills, resumes, cover letters, thank you letters, letters of application, personal record keeping, and desirable work attitude.

**Lecture Hours:** 32

### **TDT101 Interpersonal Relations**

**3 credits**—This course covers personal and work safety and health, also included in the course are written and oral communication skills. Instruction is provided in employment seeking skills, cover letters, resumes, thank you letters, letters of application, personal record keeping and desirable work attitude.

**Lecture Hours:** 48

### **TDT101 Interpersonal Relations**

**3 credits**—This course covers personal and work safety and health, also included in the course are written and oral communication skills. Instruction is provided in employment seeking skills, cover letters, resumes, thank you letters, letters of application, personal record keeping and desirable work attitude.

**Lecture Hours:** 48

### **TDT115 Transportation Industry and Driver Regulations**

**4 credits**—This course is an introduction to the surface transportation network and the trucking industry. Employment opportunities, company and driver regulations by the Department of Transportation and other Federal and State agencies will be covered.

**Lecture Hours:** 32    **Lab Hours:** 64

### **TDT115 Transportation Industry and Driver Regulations**

**4 credits**—This course is an introduction to the surface transportation network and the trucking industry. Employment opportunities, company and driver regulations by the Department of Transportation and other Federal and State agencies will be covered.

**Lecture Hours: 32    Lab Hours: 64**

### **TDT118 Driving Range I**

**6 credits**—This course provides students with opportunities for hands-on experience in basic maneuvers using simulators, trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering, and backing. Emphasis is given to proper safety and technical practices.

**Lecture Hours: 16    Lab Hours: 160**

**Co-requisite(s):** TDT115

### **TDT118 Driving Range I**

**6 credits**—This course provides students with opportunities for hands-on experience in basic maneuvers using simulators, trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering, and backing. Emphasis is given to proper safety and technical practices.

**Lecture Hours: 16    Lab Hours: 160**

**Co-requisite(s):** TDT115

### **TDT125 Driving Range II**

**3 credits**—This course prepares students with more opportunity for additional behind the wheel training in operating trucks in a rural and city setting, including nighttime driving skills and knowledge in managing emergencies, accidents, first aid, CPR and Department of Transportation regulations on transporting hazardous materials. Students will prepare for a Class A Commercial Driver's License with all endorsements.

**Lecture Hours: 0    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D in TDT115.

### **TDT125 Driving Range II**

**3 credits**—This course prepares students with more opportunity for additional behind the wheel training in operating trucks in a rural and city setting, including nighttime driving skills and knowledge in managing emergencies, accidents, first aid, CPR and Department of Transportation regulations on transporting hazardous materials. Students will prepare for a Class A Commercial Driver's License with all endorsements.

**Lecture Hours: 0    Lab Hours: 96**

**Prerequisite(s):** A minimum grade of D in TDT115.

### **TDT126 Commercial License Preparation**

**3 credits**—This course is an introduction to The Federal Motor Carrier Safety Administrations' rules and regulations pertaining to drivers of commercial motor vehicles.

This course prepares students to pass the knowledge tests required to obtain a Class A CDL.

**Lecture Hours:** 48

### **TDT126 Commercial License Preparation**

**3 credits**—This course is an introduction to The Federal Motor Carrier Safety Administrations' rules and regulations pertaining to drivers of commercial motor vehicles. This course prepares students to pass the knowledge tests required to obtain a Class A CDL.

**Lecture Hours:** 48

### **TDT128 Driving Skills Development**

**3 credits**—This course provides students with hands-on experience in basic maneuvers with trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering and backing. Behind the wheel training will include pulling both loaded and empty trailers in rural, city and interstate highway settings. Emphasis is placed on defensive driving and proper technical practices. Students will prepare for a Class A Commercial Drivers License with all endorsements.

**Lecture Hours:** 16

**Co-requisite(s):** TDT126

### **TDT128 Driving Skills Development**

**3 credits**—This course provides students with hands-on experience in basic maneuvers with trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering and backing. Behind the wheel training will include pulling both loaded and empty trailers in rural, city and interstate highway settings. Emphasis is placed on defensive driving and proper technical practices. Students will prepare for a Class A Commercial Drivers License with all endorsements.

**Lecture Hours:** 16

**Co-requisite(s):** TDT126

### **TDT938 Truck Transportation On-the-Job Training**

**3 credits**—Students enrolled in this course will have the opportunity to gain on-the-job experience in the Motor Carrier industry. Students will learn the responsibilities of driving, cargo handling, vehicle maintenance, safety department, and dispatch of equipment to customers. Students will have an opportunity to learn the skills necessary to succeed in the transportation field. Coordination and guidance will be provided by instructors.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of D in TDT100, TDT115, and TDT118.

### **TDT938 Truck Transportation On-the-Job Training**

**3 credits**—Students enrolled in this course will have the opportunity to gain on-the-job experience in the Motor Carrier industry. Students will learn the responsibilities of driving, cargo handling, vehicle maintenance, safety department, and dispatch of equipment to

customers. Students will have an opportunity to learn the skills necessary to succeed in the transportation field. Coordination and guidance will be provided by instructors.

**Lecture Hours:** 0    **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of D in TDT100, TDT115, and TDT118.

### **WDV102 Introduction to Web Development**

**3 credits**—This course introduces the current standard of HTML and discusses upcoming versions. Students will learn the basics of CSS for design and layout using both text and multimedia. Website maintenance cycles and roles used in the cycles will be introduced. By using FTP, students will create and maintain small web page on a live web server. By using a text based editor, student will learn to code in an HTML editor rather than just the visual aspect to gain greater control of the code. Best design practices will be introduced.

**Lecture Hours:** 32    **Lab Hours:** 32

### **WDV102 Introduction to Web Development**

**3 credits**—This course introduces the current standard of HTML and discusses upcoming versions. Students will learn the basics of CSS for design and layout using both text and multimedia. Website maintenance cycles and roles used in the cycles will be introduced. By using FTP, students will create and maintain small web page on a live web server. By using a text based editor, student will learn to code in an HTML editor rather than just the visual aspect to gain greater control of the code. Best design practices will be introduced.

**Lecture Hours:** 32    **Lab Hours:** 32

### **WDV105 Web Layouts**

**3 credits**—This course is designed to give the student the knowledge of layouts and design of web sites. Students will use a graphic editor, such as Adobe Photoshop, to convert a visual image layout to a working HTML and CSS layout. This course goes over aspects of design to content in making a great web site.

**Lecture Hours:** 32    **Lab Hours:** 32

### **WDV105 Web Layouts**

**3 credits**—This course is designed to give the student the knowledge of layouts and design of web sites. Students will use a graphic editor, such as Adobe Photoshop, to convert a visual image layout to a working HTML and CSS layout. This course goes over aspects of design to content in making a great web site.

**Lecture Hours:** 32    **Lab Hours:** 32

### **WDV300 Advanced Topics in Web Development**

**3 credits**—This course is designed to give students a more in depth study of web sites. Topics will include security, troubleshooting/debugging, testing, and analytics. The course will help student develop a toolbox of techniques to improve their programming skills for web application development.

**Lecture Hours:** 32    **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CIS217 and CIS225.

### **WDV300 Advanced Topics in Web Development**

**3 credits**—This course is designed to give students a more in depth study of web sites. Topics will include security, troubleshooting/debugging, testing, and analytics. The course will help student develop a toolbox of techniques to improve their programming skills for web application development.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in CIS217 and CIS225.

### **WDV800 Portfolio**

**3 credits**—This course will help students present the best possible portfolio. This course will guide students in picking the right pieces to exemplify their skills. Students will create a portfolio to take job hunting. Students will learn about a number of aspects in job hunting. Students will also do a team based project for their portfolio.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** Must be a 4th semester graduating student to take this class.

### **WDV800 Portfolio**

**3 credits**—This course will help students present the best possible portfolio. This course will guide students in picking the right pieces to exemplify their skills. Students will create a portfolio to take job hunting. Students will learn about a number of aspects in job hunting. Students will also do a team based project for their portfolio.

**Lecture Hours: 32    Lab Hours: 32**

**Prerequisite(s):** Must be a 4th semester graduating student to take this class.

### **WDV931 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours: 128**

**Prerequisite(s):** A minimum grade of C in CIS231, CIS215, and instructor approval.

### **WDV931 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours: 128**

**Prerequisite(s):** A minimum grade of C in CIS231, CIS215, and instructor approval.

### **WEL104 Introduction to MIG Welding**

**2 credits**—This course is an introduction to the Gas Metal Arc Welding process, also known as MIG Welding and Flux Cored Arc Welding. Topics include safety, theory of operation, advantages of both processes, types of power sources, types of wire electrodes and

shielding gases, types of metal transfer, types of joints, minor equipment maintenance and basic welding terminology. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lecture Hours:** 16    **Lab Hours:** 32

### **WEL104 Introduction to MIG Welding**

**2 credits**—This course is an introduction to the Gas Metal Arc Welding process, also known as MIG Welding and Flux Cored Arc Welding. Topics include safety, theory of operation, advantages of both processes, types of power sources, types of wire electrodes and shielding gases, types of metal transfer, types of joints, minor equipment maintenance and basic welding terminology. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lecture Hours:** 16    **Lab Hours:** 32

### **WEL111 Welding Blueprint Reading**

**3 credits**—This course is an introduction to basic welding blueprint reading. Topics include: the importance of blueprints as a form of communications, basic lines and views, dimensioning methods, tolerances, bill of material, identifying structural shapes and basic sketching principles. The application and interpretation of AWS welding symbols and abbreviations is emphasized. Students will fabricate parts from the blueprint book.

**Lecture Hours:** 48

### **WEL111 Welding Blueprint Reading**

**3 credits**—This course is an introduction to basic welding blueprint reading. Topics include: the importance of blueprints as a form of communications, basic lines and views, dimensioning methods, tolerances, bill of material, identifying structural shapes and basic sketching principles. The application and interpretation of AWS welding symbols and abbreviations is emphasized. Students will fabricate parts from the blueprint book.

**Lecture Hours:** 48

### **WEL112 Welding Blueprint Reading Advanced**

**2 credits**—This course is a continuation of Blueprint Reading I. The application and interpretation of AWS welding symbols and abbreviations is emphasized in this unit. Students will also fabricate parts from the blueprint book.

**Lecture Hours:** 32

**Prerequisite(s):** WEL111

### **WEL112 Welding Blueprint Reading Advanced**

**2 credits**—This course is a continuation of Blueprint Reading I. The application and interpretation of AWS welding symbols and abbreviations is emphasized in this unit. Students will also fabricate parts from the blueprint book.

**Lecture Hours:** 32

**Prerequisite(s):** WEL111

### **WEL125 Fusion and Braze Welding**

**2 credits**—This course is an introduction to Oxy-acetylene fusion welding and braze welding of steel and cast iron. Topics include: process theory, safety, fusion welding/braze welding techniques for mild steel, fusion welding/braze welding techniques for cast iron and weld quality.

**Lab Hours:** 96

**Prerequisite(s):** WEL134 and WEL155

### **WEL125 Fusion and Braze Welding**

**2 credits**—This course is an introduction to Oxy-acetylene fusion welding and braze welding of steel and cast iron. Topics include: process theory, safety, fusion welding/braze welding techniques for mild steel, fusion welding/braze welding techniques for cast iron and weld quality.

**Lab Hours:** 96

**Prerequisite(s):** WEL134 and WEL155

### **WEL134 Cutting Processes**

**2 credits**—This course is an introduction to principles and practices of oxy-fuel cutting, plasma cutting, and arc air gouging. Topics include: safety, theory of operation, equipment, proper set-up procedures and basic terminology. Shop practice includes plasma cutting and arc air gouging principles and practices and flame cutting of mild steel.

**Lecture Hours:** 16

### **WEL134 Cutting Processes**

**2 credits**—This course is an introduction to principles and practices of oxy-fuel cutting, plasma cutting, and arc air gouging. Topics include: safety, theory of operation, equipment, proper set-up procedures and basic terminology. Shop practice includes plasma cutting and arc air gouging principles and practices and flame cutting of mild steel.

**Lecture Hours:** 16

### **WEL155 Arc Welding I (SMAW)**

**4 credits**—This course is an introduction to the Shielded Metal Arc Welding process, also known as stick welding. Topics of study include: safety, theory of operation, types of welding power sources, advantages of the process, types of mild steel electrodes, types of joints, basic welding terms, and AC and DC current. Shop practice on the five basic joints will be performed in the flat and horizontal positions with various mild steel electrodes.

**Lecture Hours:** 16

### **WEL155 Arc Welding I (SMAW)**

**4 credits**—This course is an introduction to the Shielded Metal Arc Welding process, also known as stick welding. Topics of study include: safety, theory of operation, types of welding power sources, advantages of the process, types of mild steel electrodes, types of joints, basic welding terms, and AC and DC current. Shop practice on the five basic joints will be performed in the flat and horizontal positions with various mild steel electrodes.

**Lecture Hours:** 16

### **WEL164 Arc Welding II (SMAW)**

**4 credits**—This course is a continuation of Arc Welding I. Vertical down, vertical up, and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. In addition, the student is introduced to the theory and practices of Hardsurfacing with the Shielded Metal Arc Welding process. Safety procedures are reviewed.

**Lab Hours:** 192

**Prerequisite(s):** WEL155

### **WEL164 Arc Welding II (SMAW)**

**4 credits**—This course is a continuation of Arc Welding I. Vertical down, vertical up, and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. In addition, the student is introduced to the theory and practices of Hardsurfacing with the Shielded Metal Arc Welding process. Safety procedures are reviewed.

**Lab Hours:** 192

**Prerequisite(s):** WEL155

### **WEL186 GMAW**

**4 credits**—This course is an introduction to the Gas Metal Arc Welding process, also known as MIG Welding and Flux Cored Arc Welding. Topics include safety, theory of operation, advantages of both processes, types of power sources, types of wire electrodes and shielding gases, types of metal transfer, types of joints, minor equipment maintenance and basic welding terminology. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lecture Hours:** 16

### **WEL186 GMAW**

**4 credits**—This course is an introduction to the Gas Metal Arc Welding process, also known as MIG Welding and Flux Cored Arc Welding. Topics include safety, theory of operation, advantages of both processes, types of power sources, types of wire electrodes and shielding gases, types of metal transfer, types of joints, minor equipment maintenance and basic welding terminology. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lecture Hours:** 16

### **WEL187 Advanced GMAW**

**4 credits**—This course is a continuation of GMAW-FCAW I. Vertical down, vertical up and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. Safety procedures are reviewed.

**Lab Hours:** 192

**Prerequisite(s):** WEL186

### **WEL187 Advanced GMAW**

**4 credits**—This course is a continuation of GMAW-FCAW I. Vertical down, vertical up and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. Safety procedures are reviewed.

**Lab Hours:** 192

**Prerequisite(s):** WEL186

### **WEL191 Gas Tungsten Arc Welding**

**3 credits**—This course is an introduction to Gas Tungsten Arc Welding process, also known as T.I.G. Topics of study include: safety, theory of the process, advantages, types of power sources, pulsed power sources, types of electrodes and shielding gases, basic joints, basic welding terminology, and AC and DC current. Shop practice on the five basic joints in all positions will be emphasized. The learner will weld on mild steel, aluminum and stainless steel sheet.

**Lab Hours:** 144

**Prerequisite(s):** WEL155

### **WEL191 Gas Tungsten Arc Welding**

**3 credits**—This course is an introduction to Gas Tungsten Arc Welding process, also known as T.I.G. Topics of study include: safety, theory of the process, advantages, types of power sources, pulsed power sources, types of electrodes and shielding gases, basic joints, basic welding terminology, and AC and DC current. Shop practice on the five basic joints in all positions will be emphasized. The learner will weld on mild steel, aluminum and stainless steel sheet.

**Lab Hours:** 144

**Prerequisite(s):** WEL155

### **WEL234 Introduction to GMAW II**

**2 credits**—The introduction to Gas Metal Arc Welding II course will allow students to enhance their basic welding hands-on skills to improve their proficiency using Metal Inert Gas (MIG) welding processes. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in WEL104.

### **WEL234 Introduction to GMAW II**

**2 credits**—The introduction to Gas Metal Arc Welding II course will allow students to enhance their basic welding hands-on skills to improve their proficiency using Metal Inert Gas (MIG) welding processes. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in WEL104.

### **WEL303 Pipe Welding/SMAW**

**3 credits**—This course is an introduction to vertical down and vertical up pipe welding procedures and techniques. Topics include: safety, elements of the American Petroleum Institute Pipe Welding Code and the American Society of Mechanical Engineers Pipe Welding Code and the American Welding Society Structural Steel Pipe Welding Code.

**Lab Hours:** 144

**Prerequisite(s):** WEL155 and WEL164

### **WEL303 Pipe Welding/SMAW**

**3 credits**—This course is an introduction to vertical down and vertical up pipe welding procedures and techniques. Topics include: safety, elements of the American Petroleum Institute Pipe Welding Code and the American Society of Mechanical Engineers Pipe Welding Code and the American Welding Society Structural Steel Pipe Welding Code.

**Lab Hours:** 144

**Prerequisite(s):** WEL155 and WEL164

### **WEL320 Welding Fabrication**

**3 credits**—This course is an introduction to fundamental metal fabrication methods. The application and use of basic measuring tools and layout techniques are covered in detail.

**Lecture Hours:** 16

**Prerequisite(s):** WEL111, WEL112, WEL155, WEL164, WEL186, WEL187, and WEL303

### **WEL320 Welding Fabrication**

**3 credits**—This course is an introduction to fundamental metal fabrication methods. The application and use of basic measuring tools and layout techniques are covered in detail.

**Lecture Hours:** 16

**Prerequisite(s):** WEL111, WEL112, WEL155, WEL164, WEL186, WEL187, and WEL303

### **WEL339 Electromechanical Maintenance**

**3 credits**—This course is a basic introduction to welding and cutting processes. Topics include: shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding. Cutting processes include oxy-fuel cutting and plasma arc cutting. Electric arc and oxy-fuel safety rules will be discussed.

**Lecture Hours:** 16      **Lab Hours:** 64

### **WEL339 Electromechanical Maintenance**

**3 credits**—This course is a basic introduction to welding and cutting processes. Topics include: shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding.

Cutting processes include oxy-fuel cutting and plasma arc cutting. Electric arc and oxy-fuel safety rules will be discussed.

**Lecture Hours:** 16    **Lab Hours:** 64

### **WEL402 Tool Steel Welding and Heat Treatment**

**2 credits**—This course is an introduction to the fundamental operations of selecting, welding and heat treating tool steels. Classroom and shop instruction is given in welding safety, welding equipment, selection and manipulation of electrodes and the procedures in welding alloy and tool steels It will cover steel selection and basic heat treatment. Lab and class emphasis is on the changes that happen when steel is heated and cooled by welding as well as heat treating.

**Lecture Hours:** 16    **Lab Hours:** 32

### **WEL402 Tool Steel Welding and Heat Treatment**

**2 credits**—This course is an introduction to the fundamental operations of selecting, welding and heat treating tool steels. Classroom and shop instruction is given in welding safety, welding equipment, selection and manipulation of electrodes and the procedures in welding alloy and tool steels It will cover steel selection and basic heat treatment. Lab and class emphasis is on the changes that happen when steel is heated and cooled by welding as well as heat treating.

**Lecture Hours:** 16    **Lab Hours:** 32

### **WEL710 Robotic Welding**

**6 credits**—This course is an introduction to robotic welding. Students will learn the advantages and limitations of welding robots and their current application in modern manufacturing. Robot components and basic robot programming are covered in detail. The variables for Gas Metal Arc Welding, arc welding safety, robot safety and weld quality and weld defects are included.

**Lecture Hours:** 48

**Prerequisite(s):** WEL11, WEL155, WEL186, WEL187, and MAT772

### **WEL710 Robotic Welding**

**6 credits**—This course is an introduction to robotic welding. Students will learn the advantages and limitations of welding robots and their current application in modern manufacturing. Robot components and basic robot programming are covered in detail. The variables for Gas Metal Arc Welding, arc welding safety, robot safety and weld quality and weld defects are included.

**Lecture Hours:** 48

**Prerequisite(s):** WEL11, WEL155, WEL186, WEL187, and MAT772

### **WST101 Women's Studies**

**3 credits**—This course serves as an introduction to the interdisciplinary field of women's studies and to current women's issues in our society. It explores ways in which women get marginalized and silenced primarily by the social definitions and the patriarchal male power

structure. The course seeks to help students develop critical thinking relative to contemporary gender issues; to explore their assumptions about gender; to illuminate social constructions of femininity and women's roles; and to uncover the ways in which social teachings shape and limit women's lives.

**Lecture Hours:** 48

# Mission Statement

## Mission

The mission of Hawkeye Community College is a globally informed community of successful lifelong learners.

## Vision

Hawkeye Community College will be recognized for educational excellence, exceptional student services, and responsiveness to diverse communities.

## Institutional Goals

To effectively demonstrate our mission, we are committed to provide:

- Education opportunities that are student centered, comprehensive, and responsive to the individual and society.
- Leadership activities that support a dynamic framework for students, faculty, staff, and the community to reach their potential.
- Quality services to each qualified individual.
- Access sensitivity to diversity, support for equal opportunities for all qualified individuals.
- Cooperative community relationships which foster human, social, cultural, economic, and civic development.

## Our Pledge

As a college we will provide focus, meaning, and the skills necessary for qualified individuals to live competently in their communities.

## President's Office

# Admission Policies

## Admission Requirements

Students wishing to enroll in a program of study must:

- Be a high school graduate or equivalent.
- Meet basic skill competencies in reading, writing, and math.
- Apply at Hawkeye.

**The program you are applying for may have additional admission requirements.** Please visit Programs of Study and review the Admission Requirements page of the program you are interested in for any additional program admission requirements.

### Basic Skill Competencies

Assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

We currently accepted the following assessments:

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER

### Previous College Experience

Assessment may be waived based on your previous college experience if applicable. Please send your college transcripts to the Admissions office. We will evaluate courses taken, credits earned, and grades received.

## Apply @ Hawkeye

### Guest Students

Students from another college or university wishing to register as a part-time student will need to complete the Guest Student registration process.

### Changing your Program of Study

Students wishing to change their major will need to complete the Change Your Program of Study Application.

### Application for Admission to a Program of Study

Please follow the steps below to ensure your application for admission to a program of study is completed properly.

1. Complete an admission application online at [www.hawkeyecollege.edu/go/apply](http://www.hawkeyecollege.edu/go/apply). There is no application fee.

## Admissions

Hawkeye Center  
Lower Level  
319-296-4000  
800-670-4769  
319-296-1651 (F)

2. Complete an assessment. The ACT, COMPASS, ASSET, SAT, and ACCUPLACER assessments are accepted for admission to Hawkeye Community College.
  - If you have completed an assessment, request your official scores be sent to the Admissions office. \*
  - If you need to take an assessment, call Student Services at 319-296-4014 to schedule a COMPASS assessment.
  - Assessment scores will be used to place you in coursework at Hawkeye Community College. To find out placement based on your assessment scores, visit [www.hawkeyecollege.edu/go/assessment-scores](http://www.hawkeyecollege.edu/go/assessment-scores)
  - Some programs require specific scores. Review admission requirements for your program at [www.hawkeyecollege.edu/academics/programs](http://www.hawkeyecollege.edu/academics/programs)
3. Have official transcripts sent to the Admissions office.
  - Official high school transcripts showing graduation and/or HiSET scores must be sent. \*
  - If you have taken college-level courses and would like to receive possible credit, you will need to have your previous college(s) send an official college transcript. \*

*\*Transcripts and test scores received directly from the student are not considered official.*

## Admission Confirmation

We will send you a letter of acceptance or non-acceptance in the mail notifying you of your acceptance status once you have completed the steps above. Please allow one week for processing.

## International Student Admission

1. Complete the International Student Application for Admission.
  - If your goal is to eventually complete a Bachelor's Degree in the United States, please list your major as Liberal Arts.
  - See programs of study for a complete list of programs of study offered at Hawkeye Community College.
2. Request ETS to send your official TOEFL results to Hawkeye Community College's Admissions office; our institutional code is 6288.
 

Minimum required TOEFL scores are 500 on the paper based, 173 on the computer based, or 61 on the iBT.

You may also choose to provide one of the Alternative English options.
3. Submit your financial statement with the required deposit shown. See costs of attendance.
4. Send a copy of your official high school and college (if applicable) transcripts to Hawkeye Community College's Admissions office.
5. Pay your deposit for mandatory health insurance. All international students at Hawkeye Community College are required to purchase health insurance. No other insurance plans will be accepted at this time.
6. If transferring from another U.S. institution, print a School Transfer Form.
  - Have your current institution's International Student Advisor (or appropriate position) fill out the form and return it to the address listed on the form.
  - All financial obligations must be satisfied (your bill must be paid in full) at your current school prior to being issued a I-20 by Hawkeye Community College.
7. If you are coming from home: after you have been admitted and received the Form I-20, **pay the SEVIS fee PRIOR to your visa appointment.**
  - After the payment is processed, you will receive a receipt which you need to print out, because it may be requested at the port of entry in the United States. The receipt is available only immediately after the payment is complete; you will not be able to reprint it again.

## International Student Services

Marina Durinova  
 Hawkeye Center  
 Upper Level  
 319-296-2329  
 ext. 1590  
 319-296-1028 (F)

## **Academic Admission Requirements**

International Students need to submit TOEFL or an Alternative English option for acceptance. You will be assessed in the area of math upon arrival. However, your TOEFL and COMPASS assessment requirements may be waived if you have successfully completed the following courses at an accredited United States Educational Institution:

- English Composition course.
- Transfer-level math course.
- College-level reading course.

These requirements will be waived only after Hawkeye Community College has received and evaluated an official transcript from the issuing institution.

## **Application Deadline**

Hawkeye Community College has a rolling deadline for Admissions Applications.

If you want a Form I-20 from Hawkeye Community College, you must be fully admitted with all required paperwork received a week before classes start.

The sooner you get accepted the easier it will be to get the course schedule you want.

If you are transferring to Hawkeye Community College from another college or university, please follow the admission process noted previously. Questions can be directed to the International Student Services Coordinator.

If you are applying from home, please start the process early. You will need to plan ahead for visa appointments and travel arrangements.

## **Admission Acceptance Notification**

After we have received and reviewed your application materials, we will send you a written notification once the admission decision has been made.

Hawkeye Community College will consider admission to International student applicants under the age of 18 on a case-by-case basis.

## **Certificate of Eligibility (Form I-20)**

Once you have been admitted you will be provided your Certificate of Eligibility (Form I-20).

To apply for an F-1 student visa you will need to take your Form I-20 and any other required materials for your visa appointment to a United States Embassy or Consulate in your home country. The F-1 student visa is required for you to enter the United States as a student.

Check the website of the Embassy or Consulate office you will visit for specific requirements needed to apply for an F-1 student visa.

International students are required to attend the educational institution designated on the Form I-20 and are expected to complete at least one semester at that institution prior to requesting transfer to any other educational institution.

If you choose to attend another institution after Hawkeye Community College has issued a Form I-20 you will need to contact us immediately so it may be corrected in SEVIS.

## **Readmission After Suspension or Expulsion**

### **Academic Suspension**

If you have been academically suspended from Hawkeye Community College, you must complete the Academic Suspension Appeal Process to be considered for readmission to Hawkeye Community College.

### **Dean of Students**

Nancy Henderson  
Student Services  
Hawkeye Center  
Upper Level  
319-296-4014

## Disciplinary Suspension/Expulsion

If you have been suspended or expelled from Hawkeye Community College for conduct or disciplinary reasons, you must schedule an appointment with the Dean of Students to be considered for readmission to Hawkeye Community College. Each case will be individually discussed with the Vice President of Academic Affairs.

## Suspended or Expelled from a School District or Another College

If you have been suspended or expelled from a school district or from another college or university for conduct or disciplinary reasons, your application for admission will not be considered until six months after your date of expulsion or suspension.

You must meet with the Dean of Students to be considered for admission to Hawkeye Community College. Each case will be discussed with the Vice President of Academic Affairs.

## High School Students - CollegeNow!

### Earn College Credit while in High School

Senior Year Plus (SYP) allows you to earn college credits at Hawkeye Community College while still in high school.

PSEO, Dual Enrollment, and Concurrent Courses are the types of college-level courses you can take. The courses may be offered at your high school or at Hawkeye Community College, and either you or your school district will pay for the courses.

## Admissions

Shelly Kuboushek

800-670-4769  
319-296-1651 (F)

# Paying for College

## Tuition and Fees

Hawkeye Community College strives to provide the highest quality education at the lowest cost possible.

### Costs per Credit Hour

2015–2016 Cost per Credit Hour	Resident	Non-Resident *
Tuition	\$152	\$177
Student Activity Fee	\$3.50	\$3.50
Computer Fee	\$4	\$4
<b>Total Tuition and Fees per Credit Hour</b>	<b>\$159.50</b>	<b>\$184.50</b>

\* Non-resident tuition is based on our residency policy.

You are responsible for the tuition and fees for the courses in which you have registered. You will not be withdrawn from school for nonpayment of tuition and/or non-attendance. See the tuition refund policy for more information.

## Business Services

Hawkeye Center  
Lower Level  
319-296-4417

## Program Supplies and Fees

Some programs, especially career or technical programs, may have additional costs such as course fees, lab fees, uniforms, tools, supplies, or equipment expenses. Total estimated program costs are available in Programs of Study. Contact your academic department for additional program costs.

## Total Cost of Attendance

A student's financial need is based on the total cost of attendance at Hawkeye Community College. In addition to defining financial need, the cost of attendance sets the limit on the total financial aid a student may receive. The cost components that can be included are prescribed by law.

Hawkeye Community College's cost of attendance is an estimate based on average educational expenses you can incur while attending classes at Hawkeye Community College.

### Estimated Cost of Attendance for Financial Aid Purposes

Based on a nine-month academic year of a full-time student living on their own.

<b>Tuition and Fees</b>	\$4,004
<b>Housing</b> Costs for room and board vary depending upon dependency status and your living arrangement such as living with a parent or in an apartment. Typical costs range from \$1,520 to \$5,720 for the nine-month academic year.	\$8,080
<b>Books and Supplies</b> The cost of books and supplies varies each semester and largely depends on your needs and your program of study. Contact the Hawkeye Bookstore for information about the cost of books.	\$1,000
<b>Personal Expenses</b> Personal expenses vary according to personal circumstances and spending habits.	\$1,782
<b>Transportation</b> Transportation expenses vary depending on how far you live from campus and your vehicle.	\$1,352
<b>Student Loan Fees</b>	\$32
<b>Hawkeye Community College's Total Cost of Attendance</b>	<b>\$16,250</b>

If you feel your cost of attendance should be adjusted for financial aid purposes because you are enrolled in a program that requires tools or equipment, please contact the Financial Aid office.

If you are enrolled less than half-time, your cost of attendance for financial aid cannot include housing, personal, or miscellaneous expenses.

## Community and Continuing Education Courses

Course fees for non-credit Community and Continuing Education courses are available from the Business and Community Education department.

## Tuition Refund for Credit Classes

Tuition refund only applies if you complete the withdrawal process to reduce your credit hours or completely withdraw from Hawkeye Community College. Not attending class is not considered a form of withdrawal, and you will still be responsible for paying the tuition and fees for those courses. You may appeal a refund decision by submitting a written request to the Financial Policy Waiver Committee.

## Fall and Spring Semester Tuition Refund Policy

You will receive a full refund of tuition and fees if you complete the withdrawal process before the first day of the semester.

A full refund of tuition and fees will be awarded if you complete the withdrawal process within the first 14 calendar days of a 16-week semester. If you withdraw from courses 15 or more calendar days after the start of a 16-week semester, you will not receive a refund.

Courses less than 16 weeks in length will follow a prorated refund schedule.

We highly recommend you finalize your schedule during the first week of the semester.

## **Summer Sessions Tuition Refund Policy**

You will receive a full refund of tuition and fees if you complete the withdrawal process before the first class meeting.

A full refund of tuition and fees will be awarded if you complete the withdrawal process within the first seven calendar days of an eight-week summer session. If you withdraw from courses eight or more calendar days after the start of an eight-week semester, you will not receive a refund.

Courses less than eight weeks in length will follow a prorated refund schedule.

Tuition refund applies only to reduction in credit hours or total withdrawal.

## **Tuition Refund for Non-Credit Classes**

Tuition must be paid two business days before the first class session. If you register, have paid the course fee, and are unable to attend, you must notify Hawkeye Community College two business days prior to the first class session to receive a full refund. This policy also pertains to third-party billing.

## **Student Accounts and Payments**

Even though you may be awarded financial aid, you are responsible to make payment arrangements with the Business Office before the due date listed on your first invoice.

There are several easy ways for you to pay your Hawkeye Community College bill in full, or you can set up a payment plan.

### **Making a Payment in Full**

- On My Hawkeye > My WebAdvisor > WebAdvisor for Students > Billing and Payment > Make a Payment > Pay on My Account.
- Over the phone with a credit card. Hawkeye Community College accepts Discover, MasterCard, and Visa.
- Mail a check to the Business Office.
- In person at the Business Office. A drop-off box is available after hours.

### **Payment Plans**

Payment plans are available at Hawkeye Community College through eCashier, a Nelnet Business Solutions product.

### **Invoice**

You can view your account balance in My Hawkeye > My WebAdvisor > WebAdvisor for Students > Billing and Payment > Account Summary by Term.

### **Outstanding Balances**

If you have an outstanding balance of any amount for:

- Tuition and fees.
- Library fines.
- Parking fines.
- Photo cage fines.

Hawkeye Community College reserves the right to withhold:

- Registration for credit and non-credit classes.
- Transcripts.

- Diplomas and certificates.

Once a year, Hawkeye Community College submits outstanding balances of \$45 or more to the DAS Offset Program. This program may garnish your state tax refund to pay your outstanding balance. The DAS Offset Program is operated by the State of Iowa and Iowa Department of Administrative Service.

## Residency Policy

When you apply to Hawkeye Community College, you will be classified as a resident or as a non-resident for admission, tuition, and fee purposes.

A student classified as a resident will pay resident tuition costs. A student classified as a non-resident will pay non-resident tuition costs.

Course fees for non-credit Community and Continuing Education courses are available from the Business and Community Education department.

## Student Records and Registration

Hawkeye Center  
Lower Level  
319-296-2460  
800-670-4743  
319-296-1609 (F)

### Determination of Residency Status

When considering you for resident status, Hawkeye will first consider the reason you are in Iowa and then the length of time you have resided in Iowa. If the primary reason you are in Iowa is for education purposes, you will be considered a non-resident.

It is your responsibility to prove you are in Iowa for reason other than educational purposes and to request a reclassification of residency status.

### Residency of Students under the Age of 18

Minors are considered students under the age of 18. Parents include legal guardians and individuals who have legal custody of the student.

Your residency will follow that of the parent(s) you reside with, unless you can prove emancipation. You must reside in Iowa for at least 90 days immediately prior to the beginning of the semester you would like to enroll in at Hawkeye Community College.

### Residency of Students who are not Citizens of the United States

A person who is a refugee or who is granted asylum by an appropriate agency of the United States must provide proof of certification of refugee or asylum grantee status. A person may be accorded resident status for admission and tuition purpose when the person comes directly, or within a reasonable time, to the state of Iowa from a refugee facility or port of debarkation and had not established domicile in another state.

A person, who has immigrant status, and his or her spouse or dependents, may establish Iowa residency in the same manner as a United States citizen.

A person who has non-immigrant status, and his or her spouse or dependents, may establish Iowa residency in the same manner as a United States citizen.

A person who has non-immigrant status and who holds a non-student visa, and his or her spouse or dependents, may establish residency in the same manner as a United States citizen. An alien who has non-immigrant status and whose primary purpose for being in Iowa is educational is classified as non-resident. A "student visa" is evidence of non-residency, however, in a rare case, a student holding the visa could prove residency.

### Residency of Federal Personnel and Dependents

A person and his/her spouse, who has moved into the state of Iowa as the result of military or civil orders from the federal government, and the minor children of such persons, are entitled to immediate Iowa residency status.

### Veteran's Exemption

A person and his/her spouse, who has moved into the state of Iowa as the result of military or civil orders from the federal government, and the minor children of such persons, are entitled to immediate Iowa residency status. A military service veteran who was a resident of the state of Iowa prior to entering the service shall be classified as a resident if the veteran returns to Iowa upon separation from service and his/her separation papers are filed with the county recorder.

## Providing Proof of Residency

To be determined a resident of Iowa, you must document residing in the State of Iowa for at least 90 days prior to the beginning of the term for which you are enrolling.

Hawkeye Community College may require proof of residency and reasons for being in Iowa. This may include written documents, affidavits, verifications, and other related evidence deemed necessary to determine why you are in Iowa.

To determine your residency status, you will be required to file at least two documents. No two documents may come from the same source. The following are examples of acceptable documentation:

- Written and notarized documentation from an employer that you are employed in Iowa or a signed and notarized statement from you describing employment and sources of support.
- Iowa state income tax return.
- A state of Iowa driver's license or non-driver ID.
- An Iowa vehicle registration card.
- An Iowa voter registration card.
- Proof of Iowa Homestead credit or property taxes.
- Rent receipts or a letter from the individual whose residence you are residing in. A lease agreement is not acceptable evidence.

## Reclassification of Residency Status

If you have been reclassified as a resident for tuition purposes, such classification will be effective beginning with the next term for which you enroll at Hawkeye. In no case will reclassification to residency status be made retroactive for tuition and fee purposes, even though you could have previously qualified for residency status had you applied.

## Appealing Proof of Residency Decision

The decision on the residency status of a student for admission, tuition, and fee purposes may be appealed to a review committee established by the community college. The findings of the review committee may be appealed to the community college board, whose decision shall be a final administrative decision. It is your responsibility to prove you are in Iowa for a reason other than educational purposes and to request a reclassification of residency status.

# Financial Aid

## Communication from the Financial Aid Office

We will communicate with you through your Hawkeye email and My Hawkeye. Please check your email and My Hawkeye > My WebAdvisor > WebAdvisor for Students > Communication > My Documents often. Many items are time sensitive.

### Communicate via My Hawkeye

- View your Financial Aid Award.
- Notification of documents or forms.
- Accept or reject Federal Direct Stafford Loans.
- Your financial aid status by term and year.

### Information that is sent to your Hawkeye email

- Missing information or documents.
- Notification that your Financial Aid Award is available to be viewed in My Hawkeye > My WebAdvisor > WebAdvisor for Students > Financial Aid > Financial Aid Award Letter.
- Notification that changes to your Financial Aid Award have been made. View reasons why your award may be adjusted.
- Notification of your financial aid probation or suspension status.

## Financial Aid

Hawkeye Center  
Lower Level  
319-296-4020  
800-670-4769 ext.  
4020  
319-296-4495 (F)

## Your Rights and Responsibilities

When you accept your Financial Aid Award, you have indicated that you have read, understood, and will comply with all of the rights and responsibilities contained therein. These include:

### Your Rights

- You may appeal Hawkeye Community College's offer of financial assistance if you feel it is unfair or unreasonable. Appeals should be directed to the Financial Aid office. The Financial Aid Appeal Committee will review your appeal.
- Information given to Hawkeye Community College's Financial Aid office is treated confidentially.
- You may appeal a financial aid policy or procedure. The appeal may be initiated through the Director of Financial Aid.
- You may have your financial need reviewed if your circumstances change during the academic year. Contact the Financial Aid office if you feel that your calculated financial need should be reviewed.
- You have the right to contact the Federal Student Loan Ombudsman if the Financial Aid office did not address and/or resolve any dispute you brought forth in regard to the terms of your federal student loans (Stafford Loan, Perkins Loan, Parent PLUS Loan). You can contact the Ombudsman toll free at: 1-877-557-2575 or online at: [www.ombudsman.ed.gov](http://www.ombudsman.ed.gov).
- To know what the procedures and deadlines are for submitting applications for each available financial aid program.
- To know the terms and conditions of loan deferments for service in the Peace Corps and Volunteer Service.

### You have the right to ask Hawkeye the following questions:

- The names of the accrediting and licensing organizations.
- About its programs; its instructional, laboratory, and other physical facilities; and its faculty.
- What the cost of attendance is, including tuition, books and supplies, and other miscellaneous expenses.
- How aid recipients are selected and how your need is determined.
- How much of your financial need, as determined by the college, is being met.
- To explain each type of assistance in your financial aid award.
- What the interest rate is on any student loan you have, the total amount you must repay, when repayment starts, and what cancellation and deferment provisions apply.
- The average indebtedness of a student who graduates from the college and the percentage of students who default on their federal student loans.
- If a work-study award is part of your financial aid package: what jobs are available, how many hours must be worked, what the duties are, the pay rate, and how and when you will be paid.
- How the college determines when a student is not making satisfactory academic progress and its implications.
- What special facilities and services are available to the disabled.
- Completion/graduation and job placement rates and how they are calculated.

### Your Responsibilities

- Review and consider all information about Hawkeye Community College's programs before you enroll at Hawkeye.
- Pay special attention to your application for student financial aid, complete it accurately, and submit it on time to the right place. Errors can delay or prevent you from receiving aid.
- Know all the deadline dates for applying or reapplying for aid and meet them.
- Submit a valid FAFSA while still enrolled.
- Read, understand, and keep copies of all forms you are asked to sign.
- Notify financial aid if you went to and received aid at another institution within the same academic year.
- Report additional financial aid (scholarships, grants, or loans) that you received, but is not listed on your current Financial Aid Award from Hawkeye Community College.
- Be sure to read all information associated with your Financial Aid Award, including this handbook.
- Accept and/or decline the awards offered by the deadline stated on your Financial Aid Award.

- You must comply with all federal requirements of the 1983 Amendments to the Military Selective Service Act.
- If you owe money from a prior over-award of federal funds at any institution, you need to make arrangements for repayment of the over-award. You are not eligible for financial aid if you owe a refund on federal funds.
- You must be in good standing and be making satisfactory progress as outlined in this handbook.
- Notify Hawkeye Community College of any information that has changed since you applied.
- You must meet other conditions contained elsewhere in this handbook.
- You will need to submit information requested by financial aid processors, Hawkeye Community College, or any other institution or program to which you are applying for aid to clarify your eligibility for financial aid.
- If you are selected for verification or financial aid review, you and your parent(s) (if applicable) may be required to submit additional documents. These may include signed copies of federal tax returns, W-2 forms, and financial aid verification worksheets. Failure to submit the requested information within the requested timeframe will result in the de-activation of your file and could result in the loss of available funds.
- You must repay all loans according to your established repayment schedule. You are not eligible for financial aid if you are in default on a Federal Perkins Loan, Federal Direct Stafford Loan, or Federal Direct Stafford Parent PLUS Loan received at any institution.
- You must participate in loan entrance counseling if you wish to receive a Federal Direct Stafford Loan.
- Participate in loan exit counseling if you received a Federal Direct Stafford Loan while you attended Hawkeye Community College.
- Satisfactorily perform the work agreed upon in your college work-study job.
- Understand the Hawkeye Community College withdrawal process and the refund policy.
- Maintain your current name, address, and phone number in My Hawkeye.
- Regularly check My Hawkeye > My WebAdvisor > WebAdvisor for Students > Communication > Missing Documents and your Hawkeye email.

## Applying for Scholarships

Your FAFSA does not qualify you for scholarships. You need to complete separate applications for the scholarships you would like to receive.

Hawkeye offers several scholarship opportunities through the Foundation office. You are encouraged to complete and submit a Hawkeye Scholarship application to be considered for the numerous scholarships available. The application deadline is March 1 for fall semester and October 1 for spring semester.

Other scholarship sources are also available.

## Work-Study

The work-study program is a federally funded program that enables Hawkeye Community College to employ students part-time for positions on or off campus.

Awards generally range from \$2,000 to \$3,000 per academic year, and you can earn only what you have been awarded. Your work-study funds will be disbursed only when you work the agreed upon hours.

Preference for work-study funds is given to students who have:

- The most financial aid need.
- Previously held a work-study position and whose job performance is in good standing.

## Applying for Work-Study

- Complete a FAFSA.  
The outcome of your FAFSA determines if you are eligible for work-study funds.
- Complete a work-study application.  
Print, complete, and submit your work-study application.

## Work-Study Award Notification

The Financial Aid office emails Work-Study Award notification separate from the regular Financial Aid Award email notification sent to you with your grant and loan eligibilities. The award amount listed on the email is the maximum amount you can earn in that given school year.

There is no guarantee of employment or that you will earn the amount awarded to you.

## Eligibility Requirements

The items listed below are the general eligibility requirements for federal and state aid.

Please read more about each of the specific financial aid programs to be sure you maintain your eligibility for your awarded financial aid.

1. File your FAFSA. You must file a FAFSA to establish eligibility for federal and state grant and loan programs.
2. Complete verification process if selected for verification. If you are selected for verification, you must submit the required documents to our office so the information on your FAFSA application can be verified as being accurate and we can process your financial aid.
3. Meet required academic qualifications. In order to enroll in classes at Hawkeye Community College and receive financial aid, you must meet Hawkeye Community College's admission requirements.
4. Have a High School Diploma or GED.
5. Enrolled in an eligible program to earn a degree, certificate, or diploma. Programs not eligible for financial aid include but are not limited to:
  - Continuing Education courses
  - General Studies – High School, Graduate, and Part-Time
  - Precision Agriculture
  - Product Development Certificate
6. Attend class. You must attend class on a regular basis and meet the Standards for Satisfactory Progress to receive financial aid.
7. Be up-to-date on your student loan payments and not owe an overpayment of federal or state aid. When completing your FAFSA, you must confirm you have been making payments on any pre-existing federal student loans and are not in default and that you do not owe an overpayment on a federal or state grant or loan.
8. U.S. citizen or eligible non-citizen. When your FAFSA is processed, the processing center matches your social security number to the Social Security Administration for citizenship and matches your permanent address with the Department of Homeland Security. If your FAFSA information fails to match the information either of these departments have, you will not qualify for financial aid.
9. Social Security Administration match. If your social security number listed on your FAFSA fails the Social Security match, we are required to resolve the discrepancy. Typically such discrepancies can be resolved by submitting a copy of your social security card to our office.
10. Selective Service Administration. General registration requirements apply to males who are at least 18 years old and were born after December 31, 1962. Any student that is required to register but fails to do so is ineligible for federal aid.
11. Conviction of possession or sale of drugs. A federal or state drug conviction can make you ineligible for financial aid funds. When completing your FAFSA, you self-certify that you have never been convicted of possessing or selling drugs for an offense that occurred while you were receiving federal student aid. If you have been convicted of possession or sale of drugs and are unsure if the nature and dates of your conviction make you ineligible to receive financial aid, contact the Department of Education at 1-800-433-3243 for clarification.

## Disbursement of Your Financial Aid

Your financial aid award will be applied to the balance on your student account. If additional funds are left over, you will have a credit balance and the Business Office will send you a refund check.

To check the amount of your credit balance check, visit My Hawkeye > My WebAdvisor (SOAR) > Financial Aid > Financial Aid Status by Term.

### We will disburse your financial aid after:

Your financial aid file is complete. To complete your financial aid file:

- Complete and submit required forms requested in My Hawkeye > My WebAdvisor > WebAdvisor for Students > Communication > My Documents.
- Complete verification paperwork if you were selected for the verification process.
- Accept or reject awarded Federal Direct Stafford Loans.
- Complete Master Promissory Note loan requirements.
- Complete Entrance Loan Counseling.
- Complete a Student Loan Game Plan.

You are reported as attending each class you are enrolled in.

Your financial aid will be disbursed in two equal installments; once in the Fall Semester, once in the Spring Semester. This happens approximately three weeks after the start of each semester.

If your financial aid file is not complete by the initial disbursement date, the disbursement of your financial aid will be delayed until approximately one week after your file has been completed.

You will only receive a financial aid disbursement for classes which you are registered for and attending.

## Loans

To receive your loan funds you must be registered and attending at least six credit hours.

Before your Federal Direct Stafford Loan funds can be disbursed, you must complete the following documents:

- Master Promissory Note (MPN). If you have not borrowed a Federal Direct Stafford Loan before.
- Entrance Counseling. If this is your first time borrowing a Federal Direct Stafford Loan.
- Student Loan Game Plan. If this is your first time borrowing a Federal Direct Stafford Loan at Hawkeye Community College.

Before your Federal Direct Stafford Parent (PLUS) Loan can be disbursed, the parent must complete a Master Promissory Note (MPN).

## Scholarships and Grants

Hawkeye Foundation scholarships will automatically be credited to your student account.

Outside scholarships will be credited to your student account once we have received the scholarship check.

State and federal grants will be disbursed to your student account once attendance has been reported. For 16-week courses, attendance is reported after the first 14 calendar days of the semester. For non 16-week courses, attendance is reported after the first seven calendar days of the semester.

## Work-Study

Your work-study funds will be directly deposited to either your checking or savings account once you have been hired for a work-study position and have begun working.

## Other Funds

Payments from outside agencies will be credited towards your student account when the funds have been received by the Business Office.

## **Credit Balance Checks**

If additional funds are left over after your financial aid has been applied to the balance on your student account, you will have a credit balance and Hawkeye Community College will send you a credit balance check or a direct deposit will be made.

Credit balance checks are mailed to the address you have in My Hawkeye > My WebAdvisor > My WebAdvisor for Students > Academic Profile > My Profile by the Business Office approximately 30 days after the start of the semester. If your financial aid file is not complete at that time, your credit balance check will be delayed and will not be sent until at least a week after your financial aid file has been completed.

Credit balance checks must be mailed and cannot be picked up at the Business Office.

### **Sign up for Direct Deposit**

Sign up for direct deposit so your credit balance will be directly deposited to your bank account, and you don't have to wait for a check.

To sign up, log in to My Hawkeye and go to My WebAdvisor > WebAdvisor for Students > Billing and Payment > Direct Deposit Student Refunds.

Make sure you check My Hawkeye > My WebAdvisor > WebAdvisor for Students > Communication > My Documents to ensure that all information is received to avoid any delays in processing and disbursement.

### **Refund Check Acceptable Use**

Acceptable use of your refund check includes paying for:

- Housing.
- Food.
- Gas.
- Daycare.

Your refund check cannot be used to purchase a car, pay for a vacation or trip, or be used towards other non-educational expenses.

## **Reasons Why Your Award May Be Adjusted**

### **Changes in funding**

Your financial aid award is based on projected funding from Federal, State, and Hawkeye sources. If the projected funding is more than the actual funding available, your financial aid award will be adjusted to reflect these changes.

### **Changes in federal regulations**

All federally funded programs are subject to change at any time as a result of legislative action.

### **Scholarship and grant eligibility requirements**

Scholarships and grants listed on your award may require you to maintain a specific grade point average or other academic or performance benchmarks. If these requirements are not met, you may not be eligible to continue receiving this funding.

### **Receiving financial assistance from sources not included on your award letter**

If you receive any additional funds from outside sources, including scholarships or private loans, that were not included on your financial aid award, please contact our office as soon as possible so we can include the funds in your award. This is required by federal regulations.

If the amount of funding from the outside source changes from what is listed on your award, please contact the Financial Aid office immediately so we can adjust your award accordingly.

We will make adjustments to your award as necessary to ensure that you do not receive more financial assistance than you are eligible to receive according to state and federal regulations.

### **Change in the number of credit hours in which you are enrolled**

The amount of your financial aid award depends on the number of credit hours you are taking. Your initial award is prepared based on full-time, full-year enrollment. If you are not enrolled in at least 12 credit hours or do not plan to come back to Hawkeye Community College for the Spring Semester, your award will need to be adjusted to reflect these changes.

Financial aid award amounts vary depending on the number of credit hours you are taking:

- Full-time is 12 or more credits.
- Three-quarter-time is 9-11 credits.
- Half-time is 6-8 credits.
- Less than half-time is 1-5 credits.

Before you make a change to the number of credit hours you are enrolled in, please contact our office. A change in credit hours can affect your financial aid award even after you have accepted the award. This will also make sure your financial aid is properly disbursed. **It is your responsibility to notify us of any changes in the number of credit hours you are taking.**

### **Repeated courses**

You are only allowed to repeat a class with a passing grade, D- and above, one time and receive financial aid for it. Regardless of your performance in this second attempt (pass or fail), you will not be able to receive financial aid for that same course again.

### **Class attendance**

You must attend class to receive your financial aid. Your instructors will report attendance after the first 14 calendar days of a 16 week semester, or the first seven calendar days of a non-16 week semester. This date is also known as the financial aid lock date.

If you are reported as not attending, we cannot include the course credit hours in your financial aid award. The reduced number of credits may reduce the amount of financial aid you are eligible to receive. As instructors report your attendance, you will see your award being adjusted.

### **Special circumstances**

Please contact our office if you have a special circumstance come up during the semester. A special circumstance may include involuntary loss of employment, high medical expenses, or other things that impact your financial situation.

## **Responsible Borrowing Sessions**

If you have borrowed more than \$12,000 as a dependent student or \$20,000 as an independent student in Federal Direct Stafford Loans you will need to complete a Responsible Borrowing Session each year you continue to borrow from the Federal Direct Stafford Loan program.

We will notify you through your Hawkeye email and My Hawkeye > Communication > My Documents if you need to complete a Responsible Borrowing Session.

In this session you will complete exercises that will help you keep your student loan borrowing to a minimum.

To complete your Responsible Borrowing Session you must:

- Watch the Responsible Borrowing videos.
- Complete the Responsible Borrowing Worksheet.
- Complete the online Responsible Borrowing Quiz.
- Return your completed worksheet along with any additional print outs requested during the session to the Financial Aid office.

**You will not be eligible to borrow Federal Direct Stafford Loans while attending Hawkeye Community College if you do not complete the Responsible Borrowing Session requirements.**

## **Exit Loan Counseling**

If you have borrowed a Federal Direct Stafford Loan while attending Hawkeye Community College, you will need to complete an Exit Loan Counseling session.

- Each certificate or diploma you earn.
- Before you graduate.
- If you withdraw from Hawkeye Community College.
- If you are enrolled in less than six credit hours.

This is mandatory even if you plan to continue your education here at Hawkeye Community College in another program or at another college or university.

You will not be able to receive an official copy of your Hawkeye Community College transcript or your diploma until you complete the Exit Loan Counseling.

Please allow three to four business days for processing.

If you received additional private educational loans you will need to contact that lender directly to set up your repayment options.

### **Average Total Loan Debt**

Hawkeye Community College's average total debt, excluding PLUS, for 2013-2014 for an Associate Degree was \$15,392 with an average monthly payment, over 10 years, is \$161.00.

### **In School Deferment**

If you continue your education at Hawkeye Community College in another program or at another college or university and your enrollment in classes for the next semester is more than half time, your loan will be eligible for in-school deferment. An in-school deferment form must be completed if you attend another school. You can get this form at your loan servicer's web page.

### **Exit Loan Counseling Sessions**

#### **Graduating Students**

Graduating students must attend an Exit Loan Counseling Group Session in person.

## **Taking Classes at Another College**

If you take a class(es) from another college during any semester, please meet with one of our advisors to discuss your financial aid options.

We may be able to complete a Consortium Agreement with the other college to disburse your financial aid based on enrollment at both institutions. This will need to be done each semester you take classes at another college.

Remember, you can only receive financial aid from one college at a time.

## **Satisfactory Academic Progress Standards for Financial Aid**

Hawkeye Community College's Satisfactory Academic Progress (SAP) standards for financial aid apply to all students who want to establish or maintain financial aid eligibility for federal, state, and institutional programs. These include but are not limited to: Pell Grant, Supplemental Educational Opportunity Grant (SEOG), Federal / State Work Study, Iowa Grant, Vocational-Technology Grant, Stafford Loan (subsidized and unsubsidized), and Parent PLUS Loan for Undergraduate Students.

These standards apply to your entire academic transcript, including terms for which financial aid was not applied or disbursed.

These are minimum standards that must be attained. Specific aid programs or department standards may require more than these minimum standards.

Hawkeye Community College reserves the right to place a student on financial aid probation or suspension who exhibits abuse of receipt of financial aid at any time or who receives a 0.00 GPA in any semester at Hawkeye Community College.

Satisfactory Academic Progress is monitored after each term.

**Financial Aid Satisfactory Academic Progress Standards is a different policy than the Academic Standards for Satisfactory Progress.** You will follow a different procedure when suspended academically and will need to contact Academic Affairs with questions. Academic suspension means you cannot attend nor receive financial aid at Hawkeye Community College.

**You may be suspended from financial aid, but not from Hawkeye Community College, so please always check with both the Financial Aid office and the Academic Affairs office.**

### **Satisfactory Academic Progress Standards for Financial Aid**

The Higher Education Act of 1965, as amended, requires students to maintain satisfactory progress toward their degree in order to receive financial aid.

Financial Aid Satisfactory Progress is a Three-Part Federal Regulation with minimum standards that must be attained.

Specific aid programs or department standards may require more than these minimum standards.

Students must adhere to these standards, whether or not financial aid was received for those attempted credits.

**Standard 1: Successfully complete a minimum number of enrolled credit/hours each term.**

You are required to earn, with passing grades, at least 2/3 (67%) of the credit hours of which you have cumulatively attempted.

**Standard 2: Complete a degree within a specific time period.**

Complete your program within 150% of the published length of the program measured in credit hours attempted.

Courses taken for, but not limited to audit, credits earned via Institutional Proficiency Exams, Correspondence, Independent Study, and College Level Examination Programs will be included in the measurement of time period allowed for the pursuit of a degree. However, these courses are not eligible for financial aid and do not count toward reinstatement of aid after suspension.

**Standard 3: Maintain a cumulative grade point average (GPA) consistent with graduation.**

Maintain a cumulative GPA of at least a 2.0 at all times as defined by the Academic Standards for Satisfactory Progress. This is monitored by the Academic Affairs office, and those that do not meet this standard will be suspended from the college. You will also lose your financial aid eligibility.

## **Grades**

Only grades of A, A-, B+, B, B-, C+, C, C-, D+, D, and D- are counted as meeting the required credit/hours.

The following do not count as completed credit/hours and may affect Satisfactory Academic Progress:

- Failed classes.
- Audited classes.
- Withdrawn classes.
- Incomplete grades.
- No credit/no pass.
- Grade requital.

If your incomplete grade is what made you be on probation or suspension, you must submit the final grade to the Financial Aid office for review.

Hawkeye Community College will count all credits towards your Satisfactory Academic Progress but only accept the highest grade obtained.

Courses accomplished by CLEP examinations will be counted as completed credit/hours.

## **Repeated Courses**

You are only allowed to repeat a class with a passing grade, D- and above, one time and receive financial aid for it. Regardless of your performance in this second attempt (pass, fail, or withdrawal), you will not be able to receive financial aid for it again.

## **Transfer Students**

Hawkeye Community College assumes transfer students enrolled at Hawkeye Community College are making satisfactory academic progress. However, Hawkeye Community College reserves the right to request transcripts of previous institutions attended at any time to determine prior completion rate.

You will be held responsible only for academic progress made at Hawkeye Community College. Hawkeye Community College will start monitoring your academic progress according to the Hawkeye Financial Aid Standards for Satisfactory Progress guidelines.

For Satisfactory Academic Progress purposes, a transfer student is somebody that has never been enrolled at Hawkeye Community College before. A student that was at Hawkeye Community College and then went somewhere else (whether a degree was obtained somewhere else or not) would not meet this definition.

## Probation Status

If you were placed on Financial Aid Suspension, your appeal has been approved, and you will be able to meet the Satisfactory Academic Progress Standards for Financial Aid again after the subsequent term of enrollment, you will be placed on "probation" status for one term and be eligible to receive financial aid as long as all other financial aid requirements are met, including appeal approval conditions.

## Suspension Status

If on probation status or warning status and after one subsequent term, you fail to meet **any** of the Satisfactory Academic Progress standards for financial aid, you will be placed on suspension status and be denied financial aid. Students receiving a zero completion rate in any term will also be immediately suspended.

The Financial Aid office will notify you of your suspension status via your Hawkeye email and of the appeal process you may complete to see if your financial aid eligibility will be reinstated.

If the grade that caused you to go onto suspension status was in error or submitted late, your suspension status may be lifted. If you feel your suspension status is an error or submitted late, complete the Satisfactory Progress Suspension Review Request form and return it to the Financial Aid office.

While on suspension status you are not eligible to receive financial aid.

## Appeal Your Financial Aid Suspension

If you fail to meet the Satisfactory Academic Progress standards for financial aid due to a crisis situation, such as personal illness or accident, serious illness or death within the immediate family, or other circumstances beyond your reasonable control, the following steps may be completed to receive consideration for reinstatement of financial aid eligibility.

- Complete the Financial Aid Appeal Form.
  - The Appeal Form requires you to provide a written explanation of your situation and provide supporting documents to verify your situation.
- You will need to meet with your academic advisor to get and complete an Academic Planning worksheet for Financial Aid.
  - They will help you develop a plan to complete your program and graduate from Hawkeye.
  - If you are suspended due to the 150% criteria, it is very important that this plan is outlined through graduation so the reviewing committee can evaluate courses/terms needed until then.
- Submit your completed Financial Aid Appeal Form, Academic Planning worksheet, and documentation of your crisis situation at the Financial Aid office. **If no documentation is submitted with the appeal, it may be denied.**

### Deadline

Appeals will only be reviewed for the current term until 30 calendar days into the term starting from the first day of the term. Appeals submitted after this timeframe will be reviewed for the following term.

### Reviewing Your Appeal

A committee will review your appeal paperwork to determine if your financial aid eligibility should be reinstated. We will contact you through your Hawkeye email with the decision once one has been made.

If you have already been awarded financial aid for the upcoming term, but your appeal is not complete or approved, your financial aid funds will be cancelled 30 days after the start of the suspended term. If your appeal is denied, your aid will be canceled upon the denial determination.

## Reinstatement of Financial Aid Eligibility

If your appeal is approved by the Financial Aid Satisfactory Progress Committee and your financial aid eligibility is reinstated, you will be placed on either Probation Status or Academic Plan Status, depending on amount of terms needed to meet the Financial Aid Standards of Academic Progress. You will receive a Satisfactory Academic Progress Agreement form via your Hawkeye email to be signed and returned to the Financial Aid office.

If at any time you are no longer following your academic plan and making academic progress, you will again be placed on Suspension Status.

If financial aid has already been awarded and your appeal is not completed or approved, the financial aid funds will be canceled 30 days after the start of the suspended term.

Reinstatement of financial aid is contingent upon the availability of the funds at the time the appeal is approved.

If you were also placed on an Academic Suspension, the approval of your financial aid suspension will not change your academic status. To check your current academic status you will need to contact your academic advisor or Academic Affairs.

## Financial Aid Impact When Withdrawing from Classes

Withdrawing from one or more of your classes can affect your financial aid depending on when you withdraw and your last date of attendance for each class being withdrawn. If you received a Federal Pell Grant, you must successfully complete your coursework or your Pell Grant for future semesters could be affected.

You earn your financial aid based solely on the length of time you attend class at Hawkeye Community College. Therefore, you may not have earned all of your financial aid when you withdraw or stop attending classes. Your Financial Aid will then be prorated and may cause you to have a bill.

If you withdraw from class before the financial aid lock date, your Financial Aid Award may be adjusted. Your Financial Aid Award is based on the number of credit hours in which you are enrolled.

**The Financial Aid office will not know the final results of any adjustments to your Financial Aid Award until after you have withdrawn.**

After the refund period, you will be responsible to pay tuition and fees for classes you have not dropped on My Hawkeye > My WebAdvisor > WebAdvisor for Students > Registration > Register and Drop Sections.

**Not attending a class will not drop you from a class.**

If you attended past the financial aid lock date, withdrawing from some of your classes may also cause you to be put on Financial Aid Warning or Suspension due to Financial Aid Satisfactory Progress Guidelines.

If you do not attend a late-start class, you will not have earned grant funds for that class. If you have tuition or fees due for that class based on the date of your withdrawal, you will be responsible for those charges.

The timing of when you withdraw from a late-start class will affect how we are able to calculate how much financial aid you actually earned for the term.

If you are enrolled or plan to enroll for another future late-start class (after withdrawing from a previous class), you will be asked to provide, in writing, your "Intent to Attend" the future late-start class. Failure to do so will result in an automatic calculation of "earned" financial aid.

When you withdraw from all of your classes, any loans you received while attending Hawkeye Community College will go into repayment. You will automatically be placed on Financial Aid Suspension.

Please always check with the Financial Aid office before making your final decision on withdrawing.

## Withdrawal Process

To withdraw from your class(es), you must do so through My Hawkeye > My WebAdvisor > WebAdvisor for Students > Registration > Register and Drop Sections.

The withdrawal date is the date on which you start the withdrawal process or the date you provide official notification to Hawkeye Community College of your intent to withdraw. However, if Hawkeye Community College can document an academically related activity different than the date that you officially withdrew, that date may be used.

If you leave school and fail to follow the withdrawal process, then it is assumed you withdrew at the midpoint of the period of enrollment unless Hawkeye Community College is able to document a date of academically related activity that is later than the midpoint. Your withdrawal date will be used to calculate the amount of Federal Title IV funds that will need to be returned.

The Financial Aid office is responsible for the calculation of the amount of Federal Title IV funds that you have earned at the point of withdrawal.

## Returning Unearned Financial Aid Funds

Hawkeye Community College will return any unearned aid that was applied to your institutional charges. You must return any unearned funds allocated to a loan program under the terms and conditions of the promissory note.

If you owe a grant overpayment, you must make satisfactory repayment arrangements either with the Business Office at Hawkeye Community College or with the Department of Education.

If you fail to make satisfactory repayment arrangements within 14 days of the date on the notice of overpayment, you will be reported to the National Student Loan Data System and will become ineligible for future financial aid. For more detailed information about your earned and unearned financial aid, please read the information on Determining Your Earned / Unearned Financial Aid.

# Registering for Classes

Hawkeye Community College provides registration assistance and academic advising to help you choose the classes you should take. However, it is your responsibility to register for classes and fulfill the requirements of your program of study.

You are encouraged to register early for the best selection of courses and class times. Plan your course schedule carefully to keep changes to a minimum. Tuition, program length, and financial aid may be affected by course and/or section changes.

## How Do I Register for Classes?

**You are responsible for the tuition and fees for classes in which you have registered.** You will not be withdrawn from school for nonpayment of tuition and/or non-attendance. See the tuition refund policy for more information.

## Guest Students

If you do not plan to enroll in a program of study at Hawkeye Community College, but would like to take classes to enhance your skills or transfer to another school, you may register for up to 11 credits hours in the Fall or Spring semester or up to ten credits in the Summer semester by contacting the Student Records and Registration office.

**Some courses require prerequisites and/or are reserved for students enrolled in a specific program of study.** If a course has a prerequisite we require you to provide proof that you have met the prerequisite. Guest students are held to the same prerequisite requirements as degree-seeking Hawkeye Community College students.

Guest students are not eligible for financial aid at Hawkeye Community College.

## To Register

Call Student Records and Registration at the number listed above or stop by the office. We cannot register you via email.

We will need the following information:

- Courses in which you would like to register. Please have the six-digit course number available.
- Legal full name (first, middle, last).
- Address.
- Phone number.

## Student Records and Registration

Hawkeye Center  
Lower Level  
319-296-2460  
800-670-4743  
319-296-1609 (F)

- Personal email address.
- Social security number.
- Date of birth.
- Gender.
- The high school or GED center you attended and your graduation date.
- Previous college you have attended and the dates of attendance.
- Ethnicity.
- Race.
- Residency – are you an Iowa resident.
- Your educational goal.
- Proof you have completed any required prerequisites.

Once you are registered we will send you an email within 48 hours to your personal email address. This email will provide instructions on how to activate your My Hawkeye account as well as other important information about Hawkeye Community College.

### **Accepted for a Future Semester**

If you have applied to Hawkeye Community College and have been accepted to a semester other than the one you applied for, your desired program is either full or does not start during the semester you requested. You can take pre-coursework while waiting to get into your desired program. Please contact the Admissions office to activate the appropriate pre-program. You will receive an email about M.O.R.E (Mandatory Orientation and Registration Experience) in your Hawkeye email. When you receive the M.O.R.E email, follow the instructions to sign up for a M.O.R.E session.

### **Transfer / Pre-Technical Program Students**

If you have applied to Hawkeye Community College and have been accepted into a transfer or pre-technical program at Hawkeye, you must attend an M.O.R.E session (Mandatory Orientation and Registration Experience). Please check your Hawkeye email instructions on how to sign up for a M.O.R.E session.

### **Career / Technical Program Students**

If you have applied to Hawkeye and have been accepted into a career or technical program, you must attend a M.O.R.E session (Mandatory Orientation and Registration Experience). Please check your Hawkeye email instructions on how to sign up for a M.O.R.E session.

## **New Student / New Program Registration**

### **Accepted for a Future Semester**

If you have been accepted to a future semester, but wish to take pre-coursework while waiting to get into your program, contact the Admissions office to activate the appropriate pre-program.

#### **Register**

- To register, you must attend a M.O.R.E (Mandatory Orientation and Registration Experience) session. Check your Hawkeye email for instruction to sign up for a M.O.R.E. session.
- To learn more about the courses you will need to take a complete your program, visit the Programs of Study pages and find your program.

#### **Payment**

- Each credit for which you register, your Student Account will be charged the current tuition and fee rate.
- Non-payment or non-attendance does not withdraw you from your course(s).
- You are responsible for payment for each course for which you register.

#### **Books**

Visit the Hawkeye Bookstore to:

- Look up the textbooks you will need for each of your classes.

- Buy used and new textbooks in-store or online.

### **Attend**

- It is very important for you to attend class beginning the first day. If your plans change and you no longer wish to take the course(s) for which you have registered, you must officially withdraw from the course(s) to avoid being charged.
- You must attend class to receive your financial aid award and disbursement. If you are reported as not attending, the course credit hours cannot be included in your financial aid award package. The lesser number of credits may reduce the amount of financial aid you are eligible to receive and your award package will be adjusted accordingly.

## **Current Students**

### **Plan**

Plan your course schedule carefully to keep changes to a minimum. Tuition, program length, and financial aid may be affected by course and/or section changes.

- Run a Program Evaluation, otherwise known as a degree audit, to plan your schedule and track your program progress.
- Work with your advisor to select courses and review your progress toward completing your program.
- Search My Hawkeye for your courses.

### **Register**

If you have completed 12+ credits in your program of study:

- You can register in My Hawkeye > My WebAdvisor > WebAdvisor for Students > Registration > Register for Sections.

If you have recently changed your program of study and have not completed 12 credits in your new program:

- You may be required to attend a M.O.R.E. (Mandatory Orientation and Registration Experience) session to register. Check your Hawkeye email for more information.

If you need assistance or have questions, please contact your advisor, department secretary, or the Student Records and Registration office.

### **Payment**

- Each credit for which you register, your Student Account will be charged the current tuition and fee rate.
- There are several ways for you to pay your Hawkeye Community College bill.
- Non-payment or non-attendance does not withdraw you from your course(s).
- You are responsible for payment for each course for which you register.

### **Books**

Visit the Hawkeye Bookstore to:

- Look up the textbooks you will need for each of your classes.
- Buy used and new textbooks in-store or online.

### **Attend**

It is very important for you to attend class beginning the first day.

- Non-attendance and non-payment does not withdraw you from your course(s).
- If your plans change and you no longer wish to take the course(s) for which you have registered, you must officially withdraw from the course to avoid being charged.
- You must attend class to receive your financial aid award and disbursement.
- If you are reported as not attending, the course credit hours cannot be included in your financial aid award package. The lesser number of credits may reduce the amount of financial aid you are eligible to receive and your award package will be adjusted accordingly.

## Adding a Course/Late Registration

In order to get the best selection of courses and class times, students are encouraged to register early. Course schedules should be planned carefully so that changes after classes have begun are kept to a minimum. Students should also be aware that tuition, program length, and financial aid may be affected by course and/or section changes.

All new registrations must be completed by the end of the day on the Saturday before the term begins. Schedule changes are permitted through the second calendar day of any course (excluding Minimesters and select other courses). After the second calendar day of a course, a student may not add the course. Registration after the second calendar day of class is not permitted. Because vital instruction begins on day one, students are also encouraged to attend the class they wish to add.

Per initiatives of Retention and M.O.R.E. a student must also have an active program/major to register for courses.

Please keep in mind that your financial aid grants will not be adjusted as a result of any changes in your enrollment after the financial aid lock date, including late-start classes. Refer to the Financial Aid Handbook for more information.

## Enrollment Policy

You may not attend courses at Hawkeye Community College unless you are enrolled. You are considered enrolled in a course when you have:

- Registered for a course using My Hawkeye or by completing a Credit Course Registration form in the Student Records and Registration office.
- Paid all tuition and fees with the Business Office.

Enrollment in a course may be assumed by Hawkeye Community College and you may be registered based on your attendance in a course.

## Full-Time or Part-Time Status

### Full-Time Students

You are considered a full-time student if you are registered for:

- 12 or more credit hours during a 16-week semester, or
- At least six credits during an eight-week Summer term.

Enrollment verifications are based on a 16-week semester.

### Part-Time Students

If you are registered for fewer than 12 credit hours during a 16-week semester, you are a part-time student.

Please note, the amount of your financial aid award depends on your enrollment level. Your award amount will vary depending on how many credit hours you are registered for and you are attending.

## Academic Load

### Transfer Students

Students who plan to graduate with an Associate of Arts or Associate of Science degree within two years generally take 16 transferable credits per Fall and Spring Semester. Students cannot take more than 18 credit hours in a Fall or Spring Semester without the approval of an Academic Dean. Students cannot enroll in more than ten credit hours in the Summer Semester without approval of an Academic Dean.

### Career and Technical Students

Students in a technical program will follow their program of study for the suggested number of credit hours.

## Changing Your Program or Major Application

If you have applied, been accepted, or are currently enrolled at Hawkeye Community College and want to change your program or major, you will need to complete the Change Your Program/Major application at [www.hawkeyecollege.edu/go/apply](http://www.hawkeyecollege.edu/go/apply).

## Applying Credits to Your Degree

### Transferring Credits to Hawkeye

#### Sending College Transcripts

To transfer college credit you earned at another college or institution, you must request an official transcript be sent directly to Hawkeye Community College. The official transcript must:

- Be sent from your previous college or institution directly to Hawkeye Community College's Admissions office.
- Bear the official seal and signature of the official in charge of the records at your previous college or institution.

A transcript must be provided for each previous college or institution you attended to be considered for transfer credit even though all previous records may be summarized on one transcript.

Hawkeye Community College **will not accept unofficial transcripts** for transfer credit evaluation. You may provide unofficial transcripts or other academic records to prove a prerequisite has been completed to register for a sequential course.

#### Evaluation and Acceptance of Transfer Credits

The length of time to prepare a transfer evaluation varies. If your transfer credits are from a college located in another state or if your credits are not recent, it may take longer to evaluate your transcript.

Please allow up to three to four weeks from the time the transcript arrives at Hawkeye Community College. Transcripts will be evaluated by Hawkeye Community College's Student Records and Registration office.

#### Accepted Transfer Credits

You are encouraged to periodically check My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Transcript to determine if transfer credits have been applied to your record. All coursework is listed in reverse chronological order with the most recent coursework at the top of the transcript. Transfer coursework is listed within the semester it was taken, and the Grade and Term fields are blank.

As of August 1, 2011, transfer credits earned Fall 2011 or later must be a C or higher to earn transfer credit. Transfer students who earned a C- or higher prior to Fall 2011 (Summer 2011 or earlier) will be awarded transfer credit.

Hawkeye Community College does not calculate transfer grade points into the Hawkeye Community College GPA, but the grade associated with the transfer course must meet the minimum grade requirement. Your GPA at Hawkeye only includes grades earned at Hawkeye Community College.

#### Credits from Regionally Accredited Colleges and Universities

Courses at a regionally accredited college or university will be accepted as transfer credits if Hawkeye Community College determines the course is transferable or technical.

- Courses considered to be developmental or remedial are non-transferable. Experiential credits are non-transferable.

#### Credits from Colleges and Universities with Candidate Statuses

Courses at a college or university that are candidate status for accreditation by a regional association, will be accepted as transfer credits in a similar manner as credits from a regionally accredited college or university. Credits must be applicable to your program of study.

### Student Records and Registration

Hawkeye Center  
Lower Level  
319-296-2460  
800-670-4743  
319-296-1609 (F)

### **Credits from Non-Regionally Accredited Colleges and Universities**

Hawkeye Community College will not accept credits from a college or university that is not regionally accredited.

### **Credits from Foreign Colleges and Universities**

All foreign transcripts will be professionally translated to English by a translation service upon receipt. Students must also provide official course descriptions in English in order to evaluate the coursework for transfer credit. Hawkeye Community College may need to forward the official transcript to a third party for further evaluation. This could take an additional few weeks.

- Courses from a foreign educational institution may be accepted as transfer credits, typically assigned to general areas of study, after the following conditions have been met:
- It is determined what type of institution is involved.
- It is determined that it is recognized by the educational authorities of its country.
- The content and level of courses and programs are found to be comparable to those at Hawkeye.

### **Students with Military Experience**

Military transcripts will be evaluated for transfer based on the recommendations made by the American Council on Education's *Guide to the Evaluation of Educational Experiences in the Armed Services*.

Military transcripts will be received electronically by Hawkeye Community College Admissions office.

Credit may be granted for the following based on the American Council on Education's Guide:

- Vocational certificate for technical programs only.
- Lower-division baccalaureate degree.
- Upper-division baccalaureate degree.

For students in a technical program, your transcripts may be routed to appropriate staff if military coursework is potentially applicable to the program of study.

For students in a transfer program, a maximum of 21 elective credits may be awarded based on the ACE recommendations.

Community College of the Air Force: Up to 16 career-technical credits will be granted.

College-Level Examination Program (CLEP): Credit is granted for selected exams but students must submit an official CLEP transcript to receive credit. Please refer to our credit by examination webpage for more information.

### **Credits from a Previous Associate's or Bachelor's Degree**

Hawkeye Community College will evaluate your credits based on the program of study you choose. Hawkeye Community College will only transfer courses needed for that program if the transfer course meets the minimum grade requirement.

### **Applying Credits to a Technical Program at Hawkeye Community College**

If it is determined that the course(s) taken are similar in course content to a required course in one of Hawkeye Community College's technical programs, a copy of your transcript will be submitted to the respective Hawkeye Community College academic department for evaluation. It is the department's discretion to accept or not accept the credit for the program.

You can run a program evaluation/degree audit at My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Program Evaluation/Degree Audit. If the requirement has been fulfilled by a transfer course, the requirement will be marked with a C (Completed) on the left-hand side and a credit status of \*TE (Transfer Equivalency) will display next to the credit hours for the course. Transfer courses that were transferred but do not apply towards the program of study will be listed under Other Courses, typically located at the end of the degree audit.

## Earning Required Credits from Hawkeye Community College

To earn a degree from Hawkeye Community College, a certain number of credits must be earned while at Hawkeye Community College.

### Career or Technical Program

Associate of Applied Arts  
Associate of Applied Science  
Diploma  
Certificate

At least 1/4 of your required credits must be earned at Hawkeye Community College.

---

### Transfer Program

Associate of Arts  
  
Associate of Science

At least 30 credits hours or 16 of your last 22 credit hours must be earned at Hawkeye Community College.

Hawkeye Community College will accept up to 16 credit hours of Applied Science and Technology credits as elective credit.

---

## Determining Transfer Credit

Hawkeye Community College endorses the Joint Statement on Transfer and Award of Academic Credit approved by the American Council on Education (ACE), the Council on Higher Education Accreditation (CHEA), and the American Association of Collegiate Registrars and Admissions Officers (AACRAO).

Hawkeye Community College uses various publications in determining transfer credit including, but not limited to:

- Current issue of Transfer Credit Practices of Selected Education Institutions, published by the American Association of Collegiate Registrars and Admissions Officers.
- Publications of the American Council on Education.
- College Source.

The acceptance and use of transfer credit is subject to limitations in accordance with educational policies at Hawkeye Community College.

## Credits by Examination

Individuals who have acquired their education in a variety of ways can demonstrate their academic achievements through credit by examination. Credit may be given for college-level experience, demonstrated by acceptable test results, regardless of how the knowledge was acquired. Examination credit will not be awarded when a student has previously registered for or completed credit in a course.

Hawkeye Community College recognizes credit by examination as a valid means of granting college credit. This is also an opportunity for students to shorten their program of study.

Credit by examination is limited to 30 credit hours per student.

### Students may receive credit through:

- Advanced Placement (AP) program of the College Board.
- Selective tests of the College Level Examination Program (CLEP).
- Locally designed examinations administered by Hawkeye Community College. A fee will be assessed for test administration and transcript recording.
  - Registered or enrolled students must complete test out procedures prior to the end of the first week of class.
  - Comprehensive exams offered after the first week of class are considered to be final examinations.

### Credit by Examination Awarded by Another College or University

Credit may be awarded for previous exam or test out credits from another college or university. The exam must be transcribed by the granting college or university with a catalog number, course title, and credit hours. If exam information on a transcript is insufficient, students may be required to provide additional documentation to be reviewed on a case-by-case basis.

## Credits in Emergency Situations

Upon completion of two-thirds of a semester and the requirements of a course, you may request a grade from your instructor for a course in progress under the following conditions:

- Activation but not enlistment into the U.S. Armed Forces.
- Serious personal or immediate family illness requiring you to drop out of college.
- Other emergency circumstances that prevent you from finishing the semester. Your instructor's decision to this request will be final.

## Academic Integrity

The integrity of an academic program and degree rests on the principle that the grades awarded to students must reflect only their own individual efforts and achievement. Students are required to perform the work specified by the instructor and are responsible for the content of work submitted, such as papers, reports, examinations, and other work. Violations of academic integrity include various types of plagiarism and cheating.

### Plagiarism

Plagiarism includes, but is not limited to:

- Using exact words from a source without appropriate crediting.
- Cutting and pasting electronically from any source without appropriate crediting.
- Using wording and/or sentence structure too close to the original in paraphrasing.
- Using visual images in whole or in part created by someone else.
- Buying a paper and presenting any part of it as your own.
- Borrowing any part of a paper and presenting it as your own without appropriate crediting.
- Falsifying or inventing any information or citation in an academic exercise.

### Cheating

Cheating includes, but is not limited to:

- Obtaining or giving assistance in any academic work such as on quizzes, test, homework, etc., without instructor's consent.
- Taking a test or course or turning in work for someone else.
- Allowing someone to take a test or course or turn in work in your name.
- Using crib notes or electronic devices to get unauthorized on tests or other in-class work.

### Discipline for Violations of Academic Integrity

Any violations of academic integrity are addressed first by your instructor within the classroom. Your instructor has the discretion to determine the level of severity in setting the appropriate penalty.

- **First Offense:** Your instructor may reduce your grade in the assignment or test. Your instructor has the right to assign you a grade of F in the course as a result of cheating or plagiarism. Your instructor has the discretion to file a report. This will be reported to your Academic Dean and to the Dean of Students office.
- **Second Offense:** Your instructor has the right to assign you a grade of F in the course. This will be reported to your Academic dean and the Dean of Students. You must meet with the Dean of Students.
- **Third Offense:** The Dean of Students will determine the appropriate penalty. Penalties can include, but are not limited to:
  - A grade of F in the course.
  - Recommendation of suspension from Hawkeye Community College.

### Dean of Students

Nancy Henderson  
Student Services  
Hawkeye Center  
Upper Level  
319-296-4014

### Academic Affairs

Hawkeye Center  
Upper Level  
319-296-4015

The penalty of a grade of F takes precedence over a course withdrawal received by the Student Records and Registration office on the same day or later than the incident of academic dishonesty. If you feel the penalty you received is unjust, you may request a review by the Academic Integrity Review Board. The board is composed of:

- Dean of Students (presiding).
- At least three faculty representatives selected from the Academic Standards and Issues Committee.
- Two Student Leadership Council representatives.
- Director of Students Records and Registration (serving ex officio).

The board will meet with you and your instructor to review the case and make recommendations to the Vice President of Academic Affairs, who will determine the appropriate penalty.

## Course Policies

### Drop/Withdraw from a Course

We recommend you contact your instructor, advisor, or an academic counselor before withdrawing from a course at Hawkeye Community College. They may be able to suggest alternatives to withdrawing that could aid in your success.

If you are receiving financial aid, please review the financial aid withdrawal policy and the financial aid warning/suspension policy or speak with a Financial Aid Advisor to learn how this may affect your financial aid eligibility.

Students are not withdrawn from school for non-payment of tuition.

Students are not withdrawn from school for non-attendance.

### Withdraw Process – Official and Un-Official

- Go to My Hawkeye > My WebAdvisor > WebAdvisor for Students > Registration to withdraw from a course until one full week prior to the end of the term for a full semester course (prorated for courses less than full term). You are not permitted to withdraw after this time.
  - Your withdrawal request date is the day you withdraw on My Hawkeye > My WebAdvisor.
- You will receive a grade of W if you withdraw from a course within the drop/withdraw period. The last date of attendance will be recorded as the day you withdraw on My Hawkeye > My WebAdvisor.
  - If you do not withdraw by the drop/withdraw date for your class and you stop attending, you will receive a grade of F. Your last date of attendance will be recorded by your instructor.
- If you fail to follow the withdraw process without good cause, you will not be considered officially withdrawn.
  - You are still considered enrolled, even if you stop attending classes. You must officially withdraw from your course through My Hawkeye > My WebAdvisor.
  - If you fail to officially withdraw, you forfeit your right to a refund and will receive a final grade in each course in which you enrolled.
- After you complete the necessary steps on My Hawkeye > My WebAdvisor to drop/withdraw from a course, it is recommended you print the registration results as your documentation and proof of dropping a course(s).

### Military Absence Policy

Hawkeye Community College acknowledges and appreciates the important contributions of our students who have served or are currently serving in our military. In order to support these students, Hawkeye Community College pledges to make every effort to provide reasonable accommodations for students who must be absent from class due to military obligations or required medical treatment for service-connected conditions.

The policy will provide that students shall not be penalized for class absence due to military obligations or required medical treatment for service connected conditions. Faculty will provide reasonable accommodations to make up missed work. These accommodations may include a selection of comparable coursework as agreed upon by the faculty.

### Military and Veterans Services

Robin Knight  
Brock Student Center  
319-296-2319  
ext. 1212  
800-670-4769  
ext. 1212

If all students have the right to drop a test/quiz grade, military-related absences will not constitute the dropped test and make-up tests unless the student chooses to use this option.

Both students and instructors must agree that the length of the absence is reasonable given the type and structure of the course. Student and instructor will sign a plan which details expectations for successful completion of coursework. In situations where the length of absences is detrimental to the student's ability to successfully complete the agreed upon plan and remain current with coursework, it may be within the students' interest to withdraw.

## Procedures and Documentation

In the case of military training or drill periods, the student should disclose the leave schedule to the instructor as soon as the unit provides such documentation. We understand that training schedules are subject to change; if a change occurs, the student should submit a memorandum from the reservist's unit to the faculty member. A full eight hours shall be excused before or after the military training or medical treatment to allow for travel time, if travel is required.

In the case of medical treatment, documentation of a VA appointment may be requested to validate the reason for the absence. Documentation should be provided directly to the instructor or through the Military and Veterans Services office. If the student chooses to submit it to the Military and Veterans Services office, the Military and Veterans Services office will notify the instructor of the legitimacy of these absences.

If the student chooses to withdraw due to lengthy military training obligations or extended medical treatment during the semester, they should be directed to the Military and Veterans Services office to proceed with the Military Activation withdrawal or other necessary procedures.

## Attendance

Students are encouraged to attend every class as regular attendance contributes to successful course completion. If you don't attend the first two classes of a course, you will lose your place, at the instructors discretion, to others waiting to register. If you do not attend any classes during a semester or term, it is still your responsibility to officially withdraw from your classes. If you do not officially withdraw by the appropriate deadlines, it is still your responsibility to pay all tuition and fees associated with the class. Not attending class can affect your financial aid.

It is the responsibility of the instructor and their department to keep accurate attendance records and to make required reports as established by Hawkeye Community College's administration. Instructors will publish and distribute attendance policy guidelines during the first class of a course.

## Prerequisites and Course Regression

### Prerequisites

You must meet the prerequisites for a course, unless you receive permission from the course instructor and appropriate dean. It is recommended you earn a minimum grade of C in all prerequisite courses. If you receive a grade of D+, D, D-, or F, you should talk with your advisor or department. If you do not receive credit for a prerequisite, you cannot take the next course in your sequence of study.

### Course Regression

Departments and programs sometimes identify courses as part of particular learning sequences that require a progression from one course to the next. Regression occurs when a student takes a course that is earlier in the sequence than a course he or she has already taken and passed. Courses taken in regression do not count toward graduation.

## Repeating Courses

If you receive an unsatisfactory grade, you may repeat the course at Hawkeye Community College or another accredited college, or receive credit by examination.

### Repeated Course Policy

The original course will be marked as repeated after a grade for the repeated course has been awarded. Your original grade will not be counted in your current cumulative GPA, however it will be displayed with a <R on the student's transcript. You cannot repeat a course and then choose the better of the two grades. Your

## Academic Affairs

Hawkeye Center  
Lower Level  
319-296-4015

## Student Records and Registration

Hawkeye Center  
Lower Level  
319-296-2460  
800-670-4743  
319-296-1609 (F)

repeated course grade will be counted toward your academic record and transcript. This does not apply to courses designed to be repeated.

If you withdraw from a course you are repeating for a better grade, your original grade will remain on your academic record. If you receive an unsatisfactory grade in a course designed to be repeated for additional credit, the new grade does not replace the old grade.

## Course Substitution

Students qualified for course substitution are determined to:

- Be disabled.
- Have reached their achievement level with appropriate accommodations and maximum effort from the student.

You may apply for course substitution through the Special Needs Coordinator if:

- You have made a good faith effort to complete the required course and you have utilized the accommodations recommended and approved by the Special Needs Coordinator and are unable to pass the course.
- You, the Special Needs Coordinator, and the Dean of Students have agreed that due to the nature and severity of your disability, beginning the required course isn't in your best interest.

Course substitutions will not be permitted if the required course is critical to the area of study and the substitution of a course would require a significant change in the essential elements of the curriculum.

## Canceling Courses

Hawkeye Community College reserves the right to cancel, reschedule, or adjust the class time of any course. You must follow the withdrawal process to receive a refund. If you would like to replace a cancelled course, you must complete the adding a course process.

## Audit a Course

Auditing a course provides you the opportunity to attend classes as a non-graded, non-credit participant. Students who audit a course typically want to review a subject as a refresher or for their general interest.

### Registering as Auditing a Course

- You must complete a Petition for Course Audit form before the course begins. Forms can be obtained in department offices or from the Student Records and Registration office. The deadline for filing this form is the date of course registration or prior to the first day of class.
- You must pay the current tuition and fees for the course when you submit your form.
- Class participation, assignments, tests, and quizzes are optional.
- An audited course will receive a grade of N and won't affect your GPA. If you would like to receive credit and a grade for the course, you will have to repeat the course.

## Finals Week

Final tests for courses are held during the last four days of 16-week and second 8-week courses. For first 8-week courses, final tests are held on the last day of class. Two hour blocks of time are scheduled for finals tests. During the Summer Term, the date of the final test is determined by the instructor of the course.

### Finals Schedule

Please note:

- If your course starts prior to 8:00am, consult with your instructor.
- The final test for Saturday courses will be held on the last Saturday class of the course from 9:00 to 10:50am.
- Confirm all final times with your instructor.

## Make-Up Testing

Make-Up Testing is for Hawkeye Community College students who have missed a test and have made arrangements with their instructor to take their test outside of the scheduled classroom time and for testing assistance for students with special needs.

### Make-Up Testing

Hawkeye Center  
Upper Level  
319-296-2329  
ext. 1098

### Testing Policies

- Clear, valid photo identification must be provided every time a test is taken. Examples of approved ID include:
  - Hawkeye Card student ID
  - Driver's license
  - Passport
- Make-Up Testing staff will follow the instructor's specific testing instructions attached to the test. You should contact your instructors prior to your testing time to be certain of the materials that can be taken into the testing room and to be clear on all testing guidelines and instructions.
- You are responsible to provide any materials needed for testing such as calculators, blue books, pencils, etc. Make-Up Testing staff will provide all scratch paper.
- You will not be allowed to take outerwear (coats, hats, mittens, etc.), cell phones, backpacks, purses, and like accessories into testing rooms or to the testing tables. Lockers with padlocks are available.
- Appointments may be required for some accommodations and should be made 24 hours in advance.
- If you are caught cheating, you will be suspended from future testing opportunities in the Make Up Testing Center until disciplinary actions have been determined. Your instructor will be immediately notified.
- Children are not allowed in the Make-Up Testing Center.

These guidelines and procedures are in place to:

- Provide students with appropriate accommodations and testing environments.
- Give staff ample time to make appropriate arrangements for testing.
- Assure instructors that tests are secure and testers are well monitored.

Students with any questions should contact the Make-Up Testing Center

## Grading Policies

### Grades

These letter grades, descriptions, and points are used in all programs at Hawkeye Community College. An instructor or program may modify the grading system. Instructors are expected to inform you of their grading scale and procedures at the beginning of each course. The grading scale used by an instructor must be used for all students in a course and to all sections of a multi-section course.

Faculty determine the weight and value of final grades in their courses and are not obligated to use plus and minus grades. Hawkeye Community College will record letter grades as reported by the instructor.

Points on student transcripts will be recorded from the following scale:

Grade	Description	Points
A	Excellent	4.00
A-		3.67
B+		3.33

### Student Records and Registration

Hawkeye Center  
Lower Level  
319-296-2460  
800-670-4743  
319-296-1609 (F)

B	Above Average	3.00
B-		2.67
C+		2.33
C	Average	2.00
C-		1.67
D+		1.33
D	Below Average	1.00
D-		0.67
F	Failure	0.00
I	Incomplete	0.00
N	Audit	0.00
O	Grade Requitual	0.00
P	Credit Earned/Pass	0.00
Q	No Credit/No Pass	0.00
W	Withdrew	0.00
<R	Course Repeated	0.00

You can make up a grade of I-incomplete by making arrangements with your instructor and academic dean to complete the unfinished course. You must complete the work within the first 15 days of the next 16-week semester unless you have extenuating circumstances. After this period of time, the grade will be changed to an F.

The grades of P and Q are used exclusively in courses designated by the Vice President of Academic Affairs.

The grade of O is awarded when a grade of F is required or forgiven.

## Your GPA

The grades of N, O, P, Q, W, and X are not used in computing your current or cumulative GPA.

### Calculate Your GPA

Enter your current GPA and the number of graded credit hours you have earned prior to the current semester in the top boxes. If you are a new student, leave these fields as 0.

Enter in the number of credit hours for each grade. For example if you received a B in a biology class (a 4 credit-hour class) and a B in a communications class (a 3 credit-hour class), enter 7 in the box for B.

[www.hawkeyecollege.edu/students/handbook/grades/gpa.aspx](http://www.hawkeyecollege.edu/students/handbook/grades/gpa.aspx)

## Dean's List

The Dean's List is an official recognition of outstanding academic accomplishment by full-time students. This recognition is awarded at the end of the Fall and Spring Semesters.

The Public Relations and Marketing office sends the Dean's List to newspapers in Iowa who then publish the names of the students in or around the newspaper's distribution area.

Hawkeye Community College uses the city and state listed with your permanent address, as provided by the student on the M.O.R.E (Mandatory Orientation and Registration Experience) questionnaire, as your hometown. If you would like to use a hometown other than the one listed as your permanent address, please update your hometown information.

### Qualify for the Dean's List

You must be a full-time student and successfully complete 12 or more credits in Fall or Spring Semesters with a semester GPA of 3.50 or better for courses taken at Hawkeye Community College. Students who have an outstanding grade of I in any course will not be eligible for the Dean's List. Students must have a minimum of 12 hours without courses with grades of N, O, P, Q, W, and X since these grades are not used in computing GPA.

## Early Alert Grades

Early alert grade reports are available approximately half way through the semester.

Early alert grades and enrollment report can be found in My Hawkeye > WebAdvisor for Students > Academic Profile > Early Alert Grades and Enrollment Report.

If you have an Early Alert grade of Q, you are currently receiving a passing grade.

If you have an Early Alert grade of C-, D+, D, D-, or F, we encourage you to meet with your instructor to review your status and discuss your options.

### Resources to Help You Improve Your Grade:

Take advantage of the following resources to help you achieve your academic goals.

- **Program Advisors**  
Schedule an appointment with your academic advisor as soon as possible. Your advisor can assist you with academic decisions.
- **Student Tutoring and Computer Lab**  
The Student Tutoring and Computer Lab has professional tutors who can help you with study skills, writing and reading skills, test taking, and note taking.
- **Counselors**  
Personal counselors are available to help you with your personal problems. They can help you identify issues that may be barriers to your academic success.  
A licensed mental health practitioner provides counseling services at the Student Health Clinic to help you with situations you encounter in your life that affect your learning environment.

## Academic Probation and Suspension (SAP)

Academic probation and suspension guidelines have been established according to Hawkeye Community College's policy.

You are responsible for monitoring your own progress.

Academic probation and suspension may impact your financial aid. Please consult the Financial Aid office if you have questions.

### Academic Probation

You will be placed on academic probation for one semester if:

- Your current semester GPA is below 2.00.
- Your cumulative GPA is below 2.00.

### Academic Affairs

Hawkeye Center  
Lower Level  
319-296-4015

- You transferred to Hawkeye Community College from another college and your cumulative GPA from coursework you transferred to Hawkeye Community College is below 2.00.

During the semester you are on academic probation, you must meet with your academic advisor to discuss your progress.

After the semester:

- If your term GPA and your cumulative GPA is above 2.00, you will be removed from academic probation.
- If your term GPA is below 2.00, you will be placed on academic suspension.
- If your cumulative GPA is below 2.00, you will be placed on academic probation.

## **Academic Suspension**

If after the semester of academic probation, both your current semester GPA and cumulative GPA are below 2.00, you will be placed on academic suspension.

If you were placed on academic suspension and would like to continue taking courses during the next semester, you must appeal your suspension. For example, if you were placed on academic suspension during Spring Semester and would like to continue to take courses the following Summer or Fall Semester, you need to appeal your suspension. If you skip a semester after you were suspended before you try to appeal your suspension, you will have to follow the Academic Suspension Readmission process.

### **Academic Suspension Appeal**

Before you can register for classes for the next semester, you must complete and submit an Academic Suspension Appeal Form. Please refer to your Notice of Academic Suspension email for due date.

Your appeal will be reviewed by the Suspension Committee.

If your appeal is granted:

- You will remain on probation.
- We might recommend you take a reduced course load.
- You will be required to meet with an Academic Advisor.

If you successfully appeal your suspension, return to Hawkeye Community College, and are academically suspended the next semester, you must sit out for no less than one semester before being allowed to return to Hawkeye Community College.

You will be academically suspended from Hawkeye Community College for a minimum of one semester if:

- You do not complete an appeal, or
- Your appeal has not been granted.

If you do not complete an appeal, you will be withdrawn from Hawkeye Community College.

### **Academic Suspension Readmission**

If you skip a semester after you were suspended, you will have to apply for readmission.

To apply for readmission, complete an Academic Suspension Readmission Request and meet with your academic dean before the start of the semester.

- As part of the process explained on the Academic Suspension Readmission Request form, you will meet with your academic dean to discuss your academic suspension.
- You must demonstrate to your academic dean how the problems leading to your academic suspension have been resolved or remedied.

Hawkeye Community College may elect not to readmit a student who has previously demonstrated poor academic progress.

If you are granted readmission we may recommend that you take a reduced course load.

# Grade Reports and Changes

In general, your grades will be available in My Hawkeye > My WebAdvisor > Web Advisor for Students four working days after the final day of the course.

Early alert grades and enrollment report can be found in My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Early Alert Grades and Enrollment Report. The reports are available halfway through the semester if you have a grade of C-, D+, D, D-, or F.

Grades cannot be given out over the phone. If you question if a grade is valid, contact your instructor or academic dean. Grades are considered to be correct 15 days after the final day of the course.

## Grade Changes

If you question a grade you received, contact your instructor. If your grade needs to be adjusted, your instructor will submit a Grade Change form to the appropriate dean. The signed form is submitted to the Student Records and Registration office and will be recorded on your permanent record (transcript).

## Student Appeal of Final Grades

Assigning of final grades is the responsibility of the instructor teaching the course. No other instructor or staff member has the right to change or alter the assigned grade except as provided for in college policy or procedures.

## Appeal Process

You may challenge the final grade from an instructor. At any point in the process, you can seek the advice of a counselor to help work through the appeal process to assure you understand your rights and procedures. You and your instructor should maintain documentation of communication throughout this process.

1. Discuss the matter with your instructor. This discussion must be initiated within 15 college days following the completion of the course and must be documented via email to confirm the initial contact. Grade disputes due to computational errors by your instructor, computer errors, misunderstandings in completion or quality of assignments, etc., may be resolved by you and your instructor. In the event of a grade change, a grade change form must be completed and submitted.
2. If you and your instructor continue to disagree on the final grade, you may choose to appeal the grade.
3. The grade may be appealed to the appropriate Academic Dean. You should complete a grade appeal form and request a meeting with the Academic Dean to discuss the situation. This request must occur within five full college days of receiving a decision from your instructor.
4. After communicating with you and your instructor, the Academic Dean will render a decision and will communicate this to you and your instructor. This should occur as soon as is reasonable, but should take no longer than two weeks.
5. If you do not agree with the decision of the Academic Dean, you may appeal in writing. The Academic Dean will inform you of this right. The written appeal should be delivered to the Dean of Students within five full college class days after receiving the Academic Dean's decision. Your written appeal should include a request for a hearing by the Academic Appeals Review Board. The Dean of Students will forward your written appeal to the chairperson of the Academic Appeals Review Board within five full college class days of receiving your written appeal.
6. Within five full college class days, the chairperson of the Academic Appeals Review Board will notify you of the receipt of the request for a hearing. The Academic Dean will certify to the Academic Appeals Review Board that the steps in the grade appeal have been fulfilled and will forward a copy of all actions taken up to this point in the appeals process.
7. The Academic Appeals Review Board hearing will be scheduled within ten full college class days of receipt of your written request.
8. The decision of the Academic Appeals Review Board will be final.

If any timelines are not met by college personnel, the appeal automatically goes to the next highest level. If timelines are not met by you, the appeal process is cancelled.

## Academic Appeals Review Board

Voting members of the board include:

- Dean of Students or neutral Academic Dean.
- Three faculty members from Academic Standards and Issues committee.
- One Student Leadership Council representative.

Members serving in ex-officio:

- Director of Student Records and Registration or appropriate substitute.
- Student Services representative.

## Failure to Withdraw/Grade Requit

If you have received all grades of F for a semester due to a failure to withdraw from classes, you may appeal to have the grades changed. Complete the Grade Requit for Failure to Withdraw form from the Student Records and Registration office. You must meet all requirements to be eligible.

- You didn't complete the semester, receive a passing grade of A, A-, B+, B, B-, C+, C, C-, D+, D, or D-, withdraw from a course, or take the final test(s).
- You were unable to withdraw from courses due to circumstances beyond your control. Proof of your circumstances is required. Examples of circumstances that might be considered are:
  - Medical.
  - Military call-up.
  - Sudden and unexpected relocation.
  - Institutionalization.

Not having read the withdrawal policies will not be considered a reason for grade requit. You can make a written appeal to the Director of Student Records and Registration to have your grades of F changed to grades of O. This written appeal must include documentation from your instructors that you didn't take the final test(s). Your appeal will be reviewed by a committee appointed by the Director of Student Records and Registration. The committee will reach a decision within 30 days.

## Student Records and Registration

Hawkeye Center  
Lower Level  
319-296-4045  
800-670-4743  
319-296-1609 (F)

# Graduation

## Graduating Students

Hawkeye Community College celebrates the graduation of our students once a year in the spring.

The graduation ceremony is held in the McLeod Center at the University of Northern Iowa in Cedar Falls. If you plan to participate in the ceremony, you will need to purchase a cap, gown, and tassel for \$30 through the Hawkeye Community College Bookstore located in Hawkeye Center. Dates for cap, gown and tassel purchase vary from year to year. Please check the Hawkeye Community College website for current dates and times.

Students with a cumulative GPA of 3.5 or above, verified by Student Life staff, will receive an honors medallion. It is the student's responsibility to pick up their medallion from the Student Life office in the Brock Student Center.

## Applying for Graduation

### Graduation Application

Each student who is eligible for graduation must complete a graduation application and survey via My Hawkeye.

Students who have ran a program evaluation and have a status of "anticipated complete" should apply for graduation.

## Student Life

Brock Student Center  
319-296-4027  
1-800-670-4769  
ext. 4027

## Student Records

Hawkeye Center  
Lower Level  
319-296-4045  
800-670-4743  
319-296-1609 (F)

## When will you graduate?

**Fall graduates:** complete the graduation application after you register for your Fall classes.

**Spring graduates:** complete the graduation application after you register for your Spring classes.

**Summer graduates:** if you wish to participate in Spring commencement, complete the graduation application after you register for your Summer classes, but before the given deadline.

If you do not wish to participate in Spring commencement, you can complete the graduation application any time after you register for your Summer classes.

## Graduation Application Process

Students who have ran a program evaluation and have a status of anticipated complete are eligible to apply for graduation.

You will need to complete the online graduation application and survey for each program you would like to graduate from using your My Hawkeye account.

### Fall 2015 Graduates

- Register for your last semester of classes.  
Fall registration opens March 23, 2015.
- Complete the online graduation application and survey for each program from which you would like to graduate using your My Hawkeye account.

### Graduation application deadline:

Graduation application deadline for fall graduates is Friday, October 9, 2015.

To make changes to your graduation application, contact the Student Records and Registration office.

## Tips for Applying

**Name changes:** If you plan to change your name before graduation, please change the name on your application. There is a \$15 charge to reprint a graduation award. You will also need to do a formal name change with the Student Records and Registration office when your name officially changes.

**Address changes:** If you change your address on the graduation application, it does not change the address on your student record. The address on your student record can be changed in My Hawkeye or by contacting the Student Records and Registration office.

If you change the address on your student record after you have completed the graduation application, contact the Student Records and Registration office to make the change on your application.

**Commencement date:** This date should be entered in MMDDYY format.

**Program completion date:** This is not a required field. It is only required if you complete your program prior to the end of the graduating term.

## Graduation Requirements and Awards

Graduation requirements are established according to state and accrediting agency's guidelines. These requirements are approved by the Board of Trustees.

You must complete your program's graduation requirements in place at time of enrollment and maintain continuous enrollment of Fall and Spring semesters until you complete your program. If you leave and return to Hawkeye Community College, you must complete your program's current graduation requirements at your time of readmission.

You can use transfer credits toward a degree; however a certain number of credits must be earned at Hawkeye Community College. You must maintain a minimum GPA of 2.00 with passing grades in all courses in your program's sequence of study.

You must apply for graduation for your award to be mailed to you and to participate in the graduation ceremony. Awards are sent by mail to the address on your graduation application. You will not receive your printed award if you do not apply to graduate.

## Arts and Sciences Awards

---

Associate of Arts (AA) Associate of Science (AS) Associate of General Studies (AGS)	Satisfactorily complete general education courses that are designed and acceptable for transfer.  Programs are at least four semesters and 62 credits in length.
---	--

---

## Applied Science and Technical Awards

---

Associate in Applied Arts (AAA) Associate in Applied Science (AAS)	Emphasis is placed on competence of applying basic principles, theories, and occupational skills.
---	---

Satisfactorily complete your program and have met the minimum requirements for applied, technical, and general education courses.

Programs are at least four semesters and 60 credits in length.

---

Diploma	Greater emphasis is placed on competence of occupational skills than an Associate in Applied Arts or Associate in Applied Science degree.
---------	---

Satisfactorily complete your program and have met the minimum requirements for applied, technical, and general education courses.

Programs are at least two semesters and 30 credits in length.

---

Certificate	Certificates are awarded after satisfactory completion of non-degree or diploma programs of study.
-------------	--

Programs are usually less than two semesters in length.

---

## Graduating with Honors

Honors awards are given to graduates who have earned at least 12 credit hours in the past two years and have a cumulative GPA of 3.50 or higher.

**Presidential Honors** 4.00

---

**High Honors** 3.75-3.99

---

**Honors** 3.50-3.74

---

# Student Records

## Permanent Student Records

An official transcript record of all credit granted to a person while enrolled at Hawkeye Community College or Hawkeye Institute of Technology shall be retained forever.

All student records and documents which are used to create, update, and support the accuracy of the official transcript will be retained for a minimum of five years after a student's last enrollment with Hawkeye. After five years, the official transcript will be retained electronically.

Duplicate electronic or microfilm records shall be housed in a fireproof and secure depository, in a facility other than that of the building in which the Student Records and Registration office is located.

## Student Records

Hawkeye Center  
Lower Level  
319-296-4045  
800-670-4743  
319-296-1609 (F)

## Privacy of Your Student Records

### Family Educational Rights and Privacy Act (FERPA)

This act offers students certain rights with respect to their education records.

- **Students have the right to inspect and review their education records within 45 days of the day Hawkeye Community College receives a request for access.**

Students should submit to the Director of Student Records and Registration or to an academic dean written requests that identify the record(s) they wish to inspect. A Hawkeye official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Hawkeye Community College official to whom the request was submitted, that official will advise the student of the correct official to whom the request should be addressed.

- **Students have the right to request the amendment of their education records that the student believes is inaccurate.**

Students may ask Hawkeye Community College to amend a record that they believe is inaccurate. They should write the Hawkeye Community College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If Hawkeye Community College decides not to amend the record as requested by the student, Hawkeye Community College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- **Students have the right to consent to disclosures of personally identifiable information contained in their education records, except to the extent that FERPA authorizes disclosure without consent.**

One exception that permits disclosure without consent relates to directory information. Directory information is designated student information that is generally not considered harmful or an invasion of privacy if released. Directory information is designated to be used internally within Hawkeye Community College, but its purpose may also be to allow Hawkeye Community College to include this type of information about a student in certain school publications including, but not limited to, school directory, yearbook, honor roll or other recognition lists, and graduation programs.

Hawkeye Community College may designate the following information as directory information:

- Student's name.
- Date of birth.
- Grade level.
- Enrollment status.
- Major field of study.
- Dates of attendance.
- Degrees and awards received.
- Photograph or other likeness.
- Most recent previous educational agency or institution attended by the student.
- Other similar information.

Hawkeye Community College may designate the following information as directory information, which may be released with a signed request and photo ID of the requester:

- Student's address.
- Telephone number.
- Email address.

Hawkeye Community College will require a court-ordered subpoena to release any other information concerning a student's record.

Students who do not wish Hawkeye Community College to release directory information should complete a Request to Prevent Disclosure of Directory Information form within ten days of the start of each semester with the Student Records and Registration office.

Another exception to the consent requirement is disclosure to school officials with legitimate educational interests. A school official is a person employed by Hawkeye Community College in administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom Hawkeye Community College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. An additional exception to the consent requirement is Hawkeye Community College may forward educational record information to requesting institutions in which the student seeks or intends to enroll if the information is necessary to protect the health or safety of the student or other individuals.

- Hawkeye Community College, according to FERPA-34 CFR 99.34, may also disclose educational records to officials of another school, school system, or institution of post-secondary education where the student seeks or intends to enroll, or where the student is already enrolled so long as the disclosure is for purpose of student's enrollment or transfer.
- Solomon Amendment- Effective October 23, 1998, all colleges and universities are required to comply with the final regulations of the Solomon Amendment. Information released is limited to military recruiting purposes only. Information released is limited to current semester or the previous semester.
- **Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by Hawkeye Community College to comply with the requirements of FERPA.** The name and address of the office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue SW  
Washington, DC 20202-4605

## Fraudulent Academic Credentials

Any student or person seeking to become a student at Hawkeye Community College who submits a fraudulent or altered academic credential to Hawkeye Community College or who is found to have fraudulently altered Hawkeye Community College academic credentials or records will be subject to penalties ranging from suspension or expulsion from Hawkeye Community College to legal prosecution.

## Request a Transcript or Duplicate Diploma

Transcripts are an official record of all credit granted to you while enrolled at Hawkeye Community College or Hawkeye Institute of Technology. Your transcripts are kept by Hawkeye Community College forever.

- You may request three free transcripts per semester. Additional transcripts are \$3 each.
- Transcript requests are processed in the order they are received.
- If you would like to pick up your transcript in person, you are required to show a photo ID.
- We do not release any non-Hawkeye transcripts that may be a part of your student file. Examples include your high school transcripts or transcripts from other colleges/universities.
- We will notify you promptly if there are any holds or special circumstances regarding your transcript. Any amount of money owed to Hawkeye Community College must be paid in full before your official or unofficial transcript is issued.

- Continuing Education transcripts can be requested by contacting the Cedar Falls Center.
- GED diploma and transcript requests should be directed to the Metro Center.

## Official Transcript Request

Official Hawkeye Community College transcripts are normally required by other educational institutions and may be mailed directly to the educational institution by Hawkeye Community College at your request.

Official transcripts:

- Bear the signature of the Director of Student Records and Registration.
- Are dated.
- Are sealed in an envelope.

Your signature is required to:

- Release transcripts to a third-party other than an education institution, such as an employer.
- Mail your transcript to you if your home address doesn't match the address on your student record.
- Release all other types of transcript requests.

To request an official transcript, print and complete the transcript request form. The completed request form can either be scanned in, emailed, faxed, or mailed to Student Records and Registration Office.

## Unofficial Transcript Request

Unofficial Hawkeye Community College transcripts can be issued directly to the student and are stamped "Issued to Student" in red.

If you are a current student, you can print an unofficial transcript from My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Transcript, or you can print and complete the transcript request form, or email Student Records and Registration.

While we accept transcript requests via email, we **cannot email your transcripts.**

## Duplicate Certificate and Diploma Request

If your diploma or certificate (for undergraduate programs only) has been misplaced, lost, or destroyed, you can request a duplicate certificate or diploma by completing the transcript request form.

The cost of a duplicate diploma is \$15 and can be paid to our Business Office with a credit card, or you can mail a check along with the transcript request form.

The name on your duplicate diploma will reflect your legal name at the time you earned your degree.

All duplicate diplomas will have the current Hawkeye President signature and will say Hawkeye Community College even if you graduated when the College was Hawkeye Institute of Technology.

Please allow two to three working days for processing.

Your duplicate diploma will be mailed to the address you provide on the form, or you can choose to pick it up with a photo ID.

For duplicate continuing education certificates, please contact the Cedar Falls Center or an appropriate Continuing Education staff member.

## Change Your Name or Address

### Prospective Students

If you have applied to Hawkeye Community College, you may contact the Admissions office to update your name, address, phone number, or email address.

## Current Credit Students

It is your responsibility to report changes in name, permanent address, or permanent phone number to the Student Records and Registration office.

You can update your address on My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > My Profile > Update Personal Information.

### Name Change

Name changes cannot be done in My Hawkeye. You may contact these offices to request a name change.

- Admissions.
- Business Services.
- Financial Aid.
- Student Records and Registration.

The name on your student record should be your complete and legal name. Hawkeye Community College reserves the right to require adequate and appropriate documentation when evaluating and processing all name change requests. Allow 48 hours for the name change to take effect. A name change will not affect your network login, My Hawkeye account, or email.

## Continuing Education Students

You may update your student record with your most current address, phone number, and email address by contacting the Business and Community Education office.

# Student Rights

Hawkeye Community College students have certain rights as members of the academic community in addition to the rights they enjoy as citizens or residents of the United States and the state of Iowa.

Rights listed in this section reflect the principles that are essential to maintaining an environment that is conducive to learning.

## Human Resource Services

Hawkeye Center  
Lower Level  
319-296-4004

## Equal Opportunity/Affirmative Action

Hawkeye Community College is committed to maintaining an educational and work environment in which students, faculty, and staff can work together in an atmosphere free of discrimination, harassment, exploitation, or intimidation.

## Nondiscrimination Statement

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; marital status; sexual orientation; gender identity; genetic information; political affiliation or belief in its employment practices; educational programs and activities; admission procedures; outreach and recruitment; counseling and guidance; testing; selection, placement, appointment, and referral; or promotion/retention. Veteran status in educational programs, activities, employment practices, or admission procedures is also included to the extent covered by law. Students, prospective students, employees, or applicants for employment alleging a violation of equity regulations shall have the right to a formal complaint. Inquiries concerning application of this statement should be addressed to: Equity Coordinator, Human Resource Services, Hawkeye Community College, 1501 East Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405.

## Sexual Harassment and Misconduct

Hawkeye Community College is committed to providing a work and educational environment free of sexual harassment.

Any form of sexual harassment that creates an offensive or hostile working environment or in which an employee demands sexual considerations in exchange for job benefits, grades, or other educational benefits will not be tolerated. Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature is considered sexual harassment. Conduct includes but is not limited to:

- Sexual jokes, innuendo, flirtation, touching, advances, or propositions.
- Verbal abuse of a sexual nature.
- Graphic or suggestive comments about an individual's dress or body.
- Sexually explicit remarks to describe an individual.
- Display in the workplace of sexually suggestive objects or pictures, including nude photographs.

Any employee or student who believes he or she has been or is being sexually harassed should follow the complaint procedure and immediately report the facts of the incident, including the name(s) of the individual(s) involved.

## **Sexual Conduct Policy**

Hawkeye Community College is committed to providing a learning environment free of all forms of abuse, assault, harassment, and coercive conduct, including sexual misconduct.

Sexual misconduct which includes sexual assault is a serious offense.

Hawkeye Community College encourages students to report sexual assault promptly to Hawkeye Community College Public Safety and the appropriate law enforcement agency.

Hawkeye Community College does not tolerate sexual misconduct in any form.

Sexually abusive behavior within Hawkeye Community College community is harmful to both the learning environment and the sense of community Hawkeye Community College is trying to foster among students, faculty, and staff.

All members of Hawkeye Community College community have an obligation to act responsibly in the realm of sexuality. This includes accepting personal responsibility for choices made about alcohol and drug consumption which might lead to behavior which violates another person. Additionally, all members of the College community have the responsibility to recognize and challenge any sexual misconduct.

The purpose of this policy is to encourage students to:

- take responsibility for their behavior,
- ensure compliance with applicable College, state and federal regulations,
- fairly discipline and sanction behavior that is inconsistent with College policies, and
- Educate students about implications and consequences of their behavior.

Students are expected to maintain the highest ethical standards of honesty and respect for others.

Hawkeye Community College students, often away from home for the first time, may be unsure of how to handle situations such as rapidly expanding social circles and a lack of parental restrictions.

In the context of intimate relationships, the use of alcohol or other drugs can blur the distinction between consent and manipulation. Non-stranger (date/acquaintance) rape happens most frequently at or after parties. Real or perceived power differentials between individuals also may create an atmosphere of coercion that can significantly impair the ability to consent. Being under the influence of alcohol or drugs is not an excuse under these procedures.

Hawkeye Community College provides ample resources to students and employees regarding education and treatment programs for the awareness of rape, acquaintance rape and other forcible and non-forcible sexual offenses. These resources include Seeds of Hope, Peoples Community Health Clinic, and Cedar Valley Friends of the Family.

## **If Sexual Misconduct Occurs**

If sexual misconduct occurs, many victims do not know where to turn for help or what steps to take after an assault has been committed. Although the choices about which options to explore rest solely with the affected student, Hawkeye Community College encourages students to take the following actions:

- Get to a safe place as soon as possible.
- Contact the Waterloo Police Department (911) and Public Safety from any campus phone. Hawkeye Community College Public Safety personnel are available upon request for assistance.

- Sexual assault is never the victim's fault. Every attempt will be made to keep the student free from any suggestion that he/she is responsible or was "contributorily negligent" or assumed the risk of being a victim of sexual misconduct.
- Victims of sexual misconduct are strongly encouraged to seek immediate medical attention at an area hospital or medical clinic. If the victim wishes, he/she will be assisted in seeking prompt medical attention.
- If at all possible, the victim should not change clothes, shower, bathe, douche, or urinate. Emergency room personnel are trained to check for injuries, as well as collect physical evidence. It is important to preserve evidence as it may be necessary for the proof of criminal sexual misconduct should you decide to pursue charges through the Waterloo Police Department or other relevant law enforcement authority.
- Hospital personnel are obligated to contact proper authorities regarding the assault. Although not obligated to do so, victims of sexual misconduct are highly encouraged to take advantage of victim's services to help them understand their options for off-campus proceedings and to receive counseling specific to their needs.
- Hawkeye Community College will do everything possible to provide a climate that is sensitive to and respectful and supportive of individual needs. The student will have access to existing campus counseling and support services and, when appropriate, adjustments will be made to academic schedules, etc.
- Supporting the victim is of primary consideration, as are exploring options and protecting the individual's rights. The individual has a right to confidentiality as allowed by law and to determine what options to pursue. Every report of sexual misconduct will be taken seriously and action will be taken as appropriate.

Hawkeye Community College Public Safety and the Student Health Clinic can provide assistance and support.

### **Procedures for Reporting Sexual Misconduct**

Incidents of sexual misconduct are notoriously underreported on college campuses, often because the victims do not recognize their experience as a criminal offense and/or a college violation or their lack of knowledge of and/or discomfort with campus and community resources.

Any student who is sexually assaulted or the victim of any sexual misconduct is encouraged to report the incident formally to one of the following individuals:

- the Dean of Students;
- Director of Public Safety;
- Public Safety Manager;
- Public Safety Officers;
- Or any administrator.

Sexual misconduct/assault is a criminal matter. The individuals listed above are required by law to file an official report.

Hawkeye Community College strongly encourages a victim of sexual misconduct/assault to make a report to the Waterloo Police Department or other local law enforcement agencies and to speak with a rape crisis or other counselor, on or off campus.

Police officers are trained in handling sexual assault cases. An officer can be dispatched to campus to meet with the person calling, to assist the victim in obtaining medical attention and emotional counseling, and to write a formal report of the incident.

The police report and any supporting evidence are turned over to the appropriate County Attorney's office, which decides whether there is sufficient evidence to prosecute.

Hawkeye Community College provides a mental health counselor and a nurse at the Student Health Clinic who can keep a sexual assault discussion confidential to the extent allowed by law.

### **Procedure for Processing Reports of Sexual Misconduct**

Reports of sexual misconduct alleging criminal conduct are referred to the Waterloo Police Department or other relevant law enforcement authority for processing.

Reports of non-criminal sexual discrimination/harassment are processed according to the procedure set forth in the Student Handbook and the Personnel Handbook.

Both the accuser and the accused are entitled to the same opportunities to have others present during any proceedings. Both the accuser and the accused will be informed of Hawkeye Community College's final determination following any proceedings with respect to the alleged sexual discrimination/harassment and of any sanction that is imposed against the accused.

Sanctions Hawkeye Community College may impose are detailed in the Student Handbook and the Personnel Handbook. Refer to Sexual Misconduct Policy under Student Conduct section of the Student Handbook.

## Missing Student Policy and Procedure

Hawkeye Community College is concerned about the safety of all students. The following procedure has been developed in order to assist in locating Hawkeye Community College student(s) living and working on the farm (located at 5503 Hammond Avenue, Waterloo, Iowa) who, based on facts and circumstances known to Hawkeye Community College, are determined to be missing.

This procedure is in compliance with Section 488 of the Higher Education Act of 2008.

Most missing person reports in the college environment result from a student changing his/her routine without informing his/her roommates and/or friends of the change. Anyone who believes a student to be missing should report their concern to Hawkeye Community College Public Safety, to local law enforcement (Black Hawk County Sheriff's Office, Waterloo Police Department, Cedar Falls Police Department, for example) to the Dean of Students or a counselor in the Student Services office. Every report made will be followed up with an immediate investigation once a student has been missing for 24 hours.

Depending on the circumstances presented to Hawkeye Community College officials, parents of a missing student will be notified. In the event that parental notification is necessary, the Dean of Students or his/her designee will place the call. For students under 18 and not emancipated, Hawkeye Community College will notify a parent/guardian in addition to any additional contact person designated by the student.

At the beginning of each academic year, residential students will be asked to provide, on a voluntary basis, emergency contact information in the event he/she is reported missing while enrolled at Hawkeye Community College. This emergency information will be kept in the Student Information System and will remain confidential.

### General Procedure

- The Hawkeye Community College administrator receiving the report will collect and document the following information at the time of the report:
  - The name and relationship of the person making the report.
  - The date, time, and location the missing student was last seen.
  - The general routine or habits of the suspected missing student (e.g. –visiting friends who live off-campus, working a job away from campus) including any recent changes in behavior or demeanor.
  - The missing student's cell phone number (if known by the reporter).
- The Hawkeye Community College administrator receiving the report will contact the Vice-President of Academic Affairs, the Academic Dean, the Dean of Students and Public Safety in order to update them on the situation and to receive additional consultation. They will determine if/when other members of the Cabinet and the Director of Marketing need to be contacted.
- Upon notification from any entity that a student may be missing, Hawkeye may use any or all of the following resources to assist in locating the student.
  - Call the student's room.
  - Go to the student's room.
  - Talk to the student's roommates to see if anyone can confirm the missing student's whereabouts and/or confirm the date, time, and location the student was last seen.
  - Secure a current student ID or other photo of the student from a friend.
  - Call/text the student's cell phone and call any other numbers on record.
  - Send the student an email.
  - Check all possible locations mentioned by the parties above including, but not limited to, library, lounges, student union, fitness center, etc.
  - Contact or call any other on-campus or off-campus friends or contacts that are made known. This could include checking a student's social networking sites such as MySpace, Facebook and Twitter.
  - Ascertain the student's car make, model and license plate number. Public Safety will also check Hawkeye Community College parking lots for the presence of the student's vehicle.

- Hawkeye Community College Technology Staff may be asked to obtain email logs in order to determine the last log in and/or access of the Hawkeye Community College network.
- Once all information is collected and documented and the Deans (or designee) is consulted Hawkeye Community College staff may contact the local police to report the information. (Note: If in the course of gathering information as described above, foul play is evident or strongly indicated, the police can be contacted immediately.) If it is necessary to contact the local or state authorities, police procedure and protocol will be followed by Hawkeye Community College.

## Complaint of Discrimination

Students, prospective students, employees, applicants for employment, or any other interested persons who feel they have experienced discrimination should contact the Equity Coordinator.

All complaints and inquiries shall be promptly investigated. The result of the investigation will be reported to the President or designated official for review and final decision.

Current students, faculty, and staff can access the Procedure for Resolution of Discrimination Complaints in My Hawkeye.

## Affirmative Action

Hawkeye Community College has established and implemented an Affirmative Action Plan to reflect its ethical and legal pledge to comply with laws and regulations requiring Equal Educational Opportunity, Equal Employment Opportunity, and Affirmative Action.

## Educational Equity Statement

Hawkeye Community College is committed to equity and diversity in educational services and employment practices.

Hawkeye Community College curriculum, programs, and services will promote respect and appreciation for cultural diversity and an awareness of the rights and responsibilities of individuals as members of a global society.

Hawkeye Community College employees have a responsibility to contribute to an environment for learning and working that encourages and enhances the valuing of fairness, enthusiasm for diversity, and passion for respectful interaction.

Hawkeye Community College is committed to maintaining an educational and work environment in which students, faculty, and staff can work together in an atmosphere free of discrimination, harassment, exploitation, or intimidation.

Hawkeye Community College has developed and implemented an Affirmative Action Plan to demonstrate an ethical and legal commitment to Equal Employment Opportunity. The Plan is designed to advance the representation and utilization of protected class members and to prevent discrimination. The Plan is periodically reviewed and revised in an evolving process to continually and optimally promote equity in educational services and employment practices at Hawkeye Community College.

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; marital status; sexual orientation; gender identity; genetic information; political affiliation or belief in its employment practices; educational programs and activities; admission procedures; outreach and recruitment; counseling and guidance; testing; selection, placement, appointment, and referral; or promotion/retention. Veteran status in educational programs, activities, employment practices, or admission procedures is also included to the extent covered by law.

Students, prospective students, employees, applicants for employment, or any other interested person has the right to file a complaint alleging non-compliance by Hawkeye Community College with College, State, or Federal policies or regulations requiring non-discrimination in educational programs and employment.

### **Inquiries or complaints related to this Educational Equity Statement may be made to:**

John Clopton, Equity Coordinator and Title IX Coordinator for employees, Hawkeye Community College  
1501 East Orange Road, Waterloo, IA 50701, 319-296-4405 or 800-670-4769, ext. 4405

Nancy Henderson, Title IX Coordinator for students, Hawkeye Community College, 1501 East Orange Road, Waterloo, IA 50701, 319-296-4448, or 800-670-4769, ext. 4448

**Protected Classes (defined by authority)**

Federal Authority	Protected Class	Iowa Code Authority	Protected Class
Title VI	Race, Color, National Origin		
Title IX	Sex (including sexual harassment, sexual violence, sexual misconduct, domestic violence, dating violence, or stalking)	§216.9 – Programs	Race, Color, National Origin, Sex, Disability, Sexual Orientation, Gender Identity, Creed, Religion
Section 504	Disability		
Title II of the ADA	Disability	§216.9(d)	Actual or potential parental, family, or marital status
Title II of GINA	Genetic Information		
VEVRAA of 1974	Veterans	§216.9 – Employment	Includes the protected classes covered under §216.9 and adds “sex” to those classes
Age Discrimination Act of 1975 (employment)	Age		

**Disabilities and Vocational Rehabilitation Acts**

Hawkeye Community College provides a variety of accommodations for qualified students with disabilities according to the Americans with Disabilities Act and Vocational Rehabilitation Act.

Services are designed to enhance the student’s abilities and are based upon a student’s individual needs. Hawkeye Community College makes every effort to assure that qualified students with disabilities have equal access to all services.

The student is responsible for providing documentation of the disability. Contact the Special Needs Coordinator for further information.

**Student Disability Services**

Upper Level  
319-296-4014

**Crime Statistics and Report**

The Hawkeye Community College Security and Safety Statistics are compiled from all reported incidents to Public Safety personnel. A formal report is not needed in order for a statistic to be included in the annual crime report. The report is published by October 1 of the current year and includes statistics for the previous calendar year. For example, the report published by October 1, 2011 includes statistics for the previous calendar year, 2010. The Public Safety office compiles Crime Report Statistics for any incident which occurs at any College owned or operated location. The staff, in cooperation with local law enforcement agencies, keeps a record of these statistics and reports the information to the National Uniform Crime Report Division of the FBI.

**Public Safety**

Hawkeye Center  
Upper Level  
319-296-4459

The Crime Report Statistics for the previous three calendar years are as follows:

	2011	2012	2013
<b>Murder/Non-Negligent Manslaughter</b>	0	0	0
<b>Negligent Manslaughter</b>	0	0	0
<b>Sex Offenses, Forcible</b>	0	0	0
<b>Sex Offenses, Non-Forcible</b>	0	0	0
<b>Robbery</b>	0	0	0
<b>Aggravated Assault</b>	0	1*	0
<b>Burglary</b>	0	0	0
<b>Motor Vehicle Theft</b>	0	0	0
<b>Arson</b>	0	0	0
<b>Hate Crimes</b>	0	0	0
<b>Domestic Violence**</b>	---	---	0
<b>Dating Violence**</b>	---	---	0
<b>Sexual Assault**</b>	---	---	0
<b>Stalking**</b>	---	---	0

\* Metro Campus

\*\* Domestic violence, dating violence, sexual assault, and stalking were added to the report in 2013 in accordance with the 3-7-13 VAWA amendments.

Special mention will be made if any reported crime shows evidence of prejudice based on race, gender, religion, sexual orientation, ethnicity, or disability. In the absence of special mention, no such crime occurred during the reporting period.

### **Iowa Sex Offender Registry**

You are advised that the Iowa Sex Offender Registry is available online. This notice is in compliance with the Clery Act.

## Complaint Policy

A complaint or grievance procedure is available if you feel a Hawkeye Community College policy or practice is:

- Improper.
- Unfair.
- Results in an unsatisfactory learning environment.
- There has been a deviation from, misinterpretation of, or a misapplication of a practice or policy.

This procedure is used when regular communication channels and approaches have failed. You can contact the Dean of Students to file a complaint.

## Right to Assemble

Hawkeye Community College recognizes the right for students to assemble. Persons involved cannot:

- Obstruct, disrupt, or otherwise interfere with instructional programs, administration, disciplinary procedures, board meetings, or any other authorized Hawkeye Community College function or event.
- Occupy or use any Hawkeye facility without appropriate permission.
- Physically abuse any person on the campus or at any Hawkeye Community College location, function, or event. This includes the threat or the encouragement of physical abuse.
- Steal or damage property of Hawkeye Community College or of any person on the premises of a Hawkeye Community College facility.
- Set a fire on the premises of any Hawkeye facility without appropriate permission from Hawkeye Community College administration.
- Interfere with the right of access to any Hawkeye Community College facilities or with any other lawful right of any person on Hawkeye Community College's property.
- Use or possess firearms, ammunition, or any other weapon on Hawkeye Community College property. This includes flammable devices, substances, or materials. Hawkeye Community College officials may authorize exceptions.

Any student who violates, attempts, or encourages a violation of these rules is subject to disciplinary procedures by Hawkeye Community College including expulsion.

## Student Publications

Publications, other than those originating from the central administrative offices of Hawkeye Community College, must receive approval of the Public Relations and Marketing office before being published and distributed.

## Posting and Distributing Literature, Political Activities, Free Speech, and Freedom of Expression on Campus

This policy is designed to monitor and provide guidelines for distribution and posting of printed materials, orderly conduct, and presence of political activities, free speech activities, and campaigning on Hawkeye Community College facilities.

Hawkeye Community College guarantees freedom of expression provided that such expression does not result in a disruption of the orderly operations of Hawkeye Community College facilities, programs, and activities. Hawkeye Community College's policy is to maximize the opportunity for free discussion and expression while minimizing the potential for disruption of classroom and college/facility activities, and interference with the ability of students to obtain an education. This policy is a companion to the "Right to Assemble" and "Student Rights" policies.

### Definitions

- Literature – Applies to printed material of any size or type including, but not limited to, fliers, announcements, advertisements, handbills, pamphlets, banners, posters, and business cards.
- Posting of Literature – Displaying of Literature on designated bulletin boards located in and on the Hawkeye Community College campuses and facilities.
- Distribution of Literature – Literature which is disseminated or circulated indiscriminately to any persons on the Hawkeye Community College campuses and facilities. Distribution by Hawkeye, or

## Dean of Students

Student Services  
Hawkeye Center  
Upper Level  
319-296-4014

related parties or agents at Hawkeye Community College's direction, shall not be considered indiscriminate distribution or circulation.

- Commercial Literature – Literature which directs attention to a business, commodity, service, or entertainment.
- Recognized Clubs/Organizations – Hawkeye Community College student clubs and organizations that are recognized by the Student Leadership Council and Student Life office, in accordance with the procedures described in the Start a Club or Organization policy, and are in active status.

#### **Standards for Literature to be Posted or Distributed**

- The Literature cannot contain tear-off items or strips.
- The Literature cannot advocate the commission of an unlawful act which is imminent or likely to occur at the time.
- The literature or its distribution on campus cannot impede the orderly conduct of college classes or college/facility activities, services, or operations.
- Literature, materials, or other insignia cannot include expression which is obscene or libelous according to current legal standards, or which so incites students as to create a clear and present danger or the commission of unlawful acts on the Hawkeye Community College premises, or the substantial disruption of the orderly operation of college/facility activities.
- Hawkeye Community College assumes no responsibility for the accuracy of the literature.

#### **Recognized Clubs/Organizations**

- The Literature of Recognized Clubs/Organizations may not endorse or recommend commercial products or services.
- The Literature of Recognized Clubs/Organizations shall meet the same standards as those found appropriate for other student publications and may not be sold.
- Literature posted by Recognized Clubs/Organizations in the classroom must be specifically related to classroom instruction or approved college/facility events, which could include rallies and other classroom instruction related events.
- Campaign activities for Student Senate elections must be in accordance with Student Senate qualifications and policies.

#### **Commercial Literature to be Posted or Distributed**

- Commercial Literature must concern lawful activity and not be misleading.
- Commercial Literature is restricted to designated public posting areas on campus.
- In order to be able to identify persons who may be responsible for fraud or false advertising, all printed Commercial Literature posted or distributed on campus must have printed thereon the organization/institution/affiliation which is distributing the Commercial Literature with its address or telephone number clearly stated.
- Posting or distribution of Commercial Literature of any kind is prohibited in classrooms unless directly related to classroom instruction.
- Hawkeye Community College does not endorse, sponsor, approve, authorize, or regulate any commercial business commodity, service, or entertainment permitted for posting or distribution.

#### **Procedure for Posting of Literature on Campus**

- All items of Literature for posting must be submitted during normal business hours to the Student Life office.
- The Student Life office will review and approve or reject the Literature based on the regulations and procedures as described in this policy, within two business days, where possible.
- Approved Literature will be posted by the Student Life staff on designated bulletin board(s), where requested and as space is available.
- Literature can be posted for a maximum of two weeks per submission. Submissions can be made no more than twice per semester.

#### **Procedure for Distribution of Literature on Campus**

- All Recognized Clubs/Organizations and/or Hawkeye Community College students wishing to distribute literature on campus must register with the Student Life office during normal business hours in advance of commencing distribution of literature, and acknowledge receipt of the applicable Recruiter and Vendor/Solicitation Regulations.
- Distributors are required to provide the following information: name of Recognized Club/Organization or individual, contact name, and dates and times of distribution.
- Any persons who fail to register before distributing literature on campus are subject to disciplinary action.
- All organizations and/or individuals other than Recognized Clubs/Organizations or Hawkeye Community College students wishing to distribute literature must first apply with the Student Life office at least five business days in advance of commencing distribution of literature. Approval or denial of such parties will be determined based on availability of space.
- No distributor shall touch, strike, or impede the progress of a passerby, except for incidental or accidental contact or contact initiated by a passerby.

- Persons shall not use any means of amplification that creates noise or diversion that substantially disrupts the orderly conduct of the college, campus, facilities, classes, or Hawkeye operations.
- All literature discarded in and around the area of distribution must be retrieved by persons distributing the literature, prior to departure.
- No restrictions shall be placed on subject matters, topics, or viewpoints expressed, as long as it does not include expression which is obscene, libelous, or slanderous according to current legal standards or which so incites students as to create a clear and present danger or the commission of unlawful acts on the community college premises, or the substantial disruption of the orderly operation of the Hawkeye Community College facility activities.
- Regulation of the time, place, and manner of free speech activities may be imposed for the purpose of preventing substantial disruption of the orderly conduct of college classes, Hawkeye Community College facility programs, or services. Such regulation must be reasonable and not discriminate on the basis of the content of the speech.

Nothing in this policy shall prohibit the regulation of hate violence directed at students or employees in a manner that denies their full participation in the educational process, so long as the regulation conforms to the requirements of the First Amendment to the United States Constitution and the laws and Constitution of the State of Iowa. Disciplinary action will be imposed for harassment, threats, or intimidation unless such speech is constitutionally protected.

## Retention Rate

Retention rate is the percent of Hawkeye Community College's first-time, full-time undergraduate students who continue at Hawkeye Community College the next year. The information reported is based on IPED's report on Fall 2011 cohort.

Hawkeye Community College's current retention rate is 66%.

## Graduation Rate

The graduation rate reflects students who started classes in the Fall of 2009, completed their program of study, and applied for graduation within 150% of the suggested length of study.

For example, students who started a two-year program, completed the program in three years, and applied for graduation are calculated in the graduation rate.

The graduation rate for individual programs may vary.

### Cohort Year: 2009

Male	32%
Female	30%
<b>Total Average</b>	<b>31%</b>

The graduation rate does not count students who started a program in the Fall of 2008 but transferred their completed coursework to another college or university prior to graduating.

## Completion / Graduation Percentage Rates

### Cohort Year: 2008

Ethnicity	Male	Female
Nonresident Alien	0%	0%
Black or African American	16%	11%

American Indian/Alaska Native	0%	100%
Asian	0%	50%
Hispanic/Latino	25%	29%
White	34%	32%
2 or More Races	0%	0%
Race/Ethnicity Unknown	0%	0%
<b>Total</b>	<b>32%</b>	<b>30%</b>

### Financial Aid Data

Financial Aid Data for first-time, full-time undergraduate students.

**Cohort Year: 2007**

Subsidized Stafford Loan recipients who did not receive a Pell Grant	272
Recipients of neither a Pell Grant nor a Subsidized Stafford Loan	267

## Student Body Diversity

Hawkeye Community College's student body diversity for Fall 2013 enrolled, full-time students:

**Male** 46%

**Female** 54%

### Pell Grant Recipients

Student body diversity for full-time students enrolled during the 2012-2013 academic year receiving a Pell Grant:

**Male** 786

**Female** 953

A breakdown of the major racial or ethnic group off full-time students receiving a Pell Grant for 2012-2013 is as follows:

<b>Hispanic</b>	55
<b>American Indian/Alaska Native</b>	12

<b>Asian/Pacific Islander</b>	5
<b>Black or African American</b>	240
<b>Native Hawaiian/Other Pacific Islander</b>	1
<b>White</b>	1328
<b>Two or More Races</b>	31
<b>Unknown</b>	3

## Student Conduct

### Dean of Students

Hawkeye Community College students are expected to obey federal, state and local laws and regulations; show respect for properly constituted authority; and exhibit and maintain integrity and honor in all matters related to Hawkeye. Student behavior which, after due process, is found to be disruptive to classes, which interferes with the rights of others or which damages property, may result in probation or suspension from Hawkeye. Each student shall be expected to behave in a mature, adult manner. At all times, the rights of all students and Hawkeye personnel must be the primary consideration.

Student Services  
Hawkeye Center  
Upper Level  
319-296-4014

## Student Conduct Code

### I. Purpose

Hawkeye Community College is an educational institution that strives to promote the transmission of knowledge, the development of students and the well-being of society. The College is dedicated to providing a safe and civil educational setting for these endeavors, and has established this Student Conduct Code to promote the College's mission and protect the rights of students, faculty, and staff. Students are required to engage in responsible academic and social conduct that reflects positively upon the College community and to model good citizenship in any community. To this end, Students are expected to adhere to the following Student Conduct Code.

### II. Academic Misconduct/Dishonesty

The integrity of any academic program and degree rests on the principle that the grades awarded to students reflect only their own individual efforts and achievement. The College does not tolerate academic dishonesty or misconduct, including all acts of plagiarism and cheating.

The College defines academic dishonesty/misconduct through its Academic Integrity Policy, available in the Student Handbook. The Academic Integrity Policy will apply to all allegations and incidents of academic dishonesty or misconduct, including reporting, discipline, and appeal procedures.

### III. Sexual Misconduct

Consistent with its mission to provide a safe and productive learning environment, the College prohibits any Student from committing sexual harassment, sex-based harassment, sexual assault, and sexual exploitation (collectively "Sexual Misconduct"). Hawkeye College also prohibits other forms of sex-based harassment, such as domestic violence, dating violence, and stalking, whether sexually motivated or not.

The College protects its students from Sexual Misconduct, including domestic violence, dating violence, and stalking, under its Sexual Misconduct Policy, available in the Student Handbook. The Sexual Misconduct Policy will apply to all allegations and incidents of Sexual Misconduct, including reporting, discipline, and appeal procedures.

#### IV. Definitions

1. The term "**College**" means Hawkeye Community College.
2. The term "**Student**" includes all persons taking courses at Hawkeye Community College, either full-time or part-time, pursuing degree or non-degree programs. Persons who withdraw after allegedly violating the Student Conduct Code, who are not officially enrolled for a particular term but who have a continuing relationship with the College or who have been notified of their acceptance for admission are considered "students" for purposes of this Student Conduct Code.
3. The term "**Faculty Member**" means any person hired by the College to conduct classroom or teaching activities or who is otherwise considered by the College to be a member of its faculty.
4. The term "**College Official**" includes any person employed by the College, performing assigned administrative or professional responsibilities.
5. The term "**Member of the College Community**" includes any person who is a Student, Faculty Member, College Official or any other person employed by the College. A person's status in a particular situation shall be determined by the Vice President of Academic Affairs or designee.
6. The term "**College Premises**" includes all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by the College (including adjacent streets and sidewalks).
7. The term "**Student Conduct Board**" means any person or persons authorized by the Vice President of Academic Affairs or designee to determine whether a Student has violated the Student Conduct Code and to recommend sanctions that may be imposed when a Rules Violation has been committed.
8. The term "**Student Conduct System**" means any investigation, meeting, hearing, or other procedure following the report or complaint of Student Misconduct as stated in this Student Conduct Code.
9. The term "**Complainant**" means any person who submits a report or complaint alleging that a Student violated this Student Conduct Code. If another Member of the College Community submits the report or charge on behalf of a Student who believes that s/he has been a victim of another Student's Misconduct, the Student who believes s/he has been a victim will also be considered a "Complainant" for purposes of the rights afforded to a Complainant under this Student Conduct Code.
10. The term "**Accused Student**" means any Student accused of violating this Student Conduct Code.

#### V. Student Conduct Code Authority

The College's Dean of Students will have primary authority in implementing the Student Conduct Code. The Dean of Students may develop policies for the administration of the Student Conduct System and procedural rules for the conduct of Student Conduct Board Hearings that are not inconsistent with provisions of this Student Conduct Code.

The Vice President of Academic Affairs will have the authority to determine the composition of Student Conduct Boards, as well as carry out any other act authorized by this Student Conduct Code.

#### VI. Jurisdiction of the Student Conduct Code

The Student Conduct Code will apply equally to all students and to conduct that occurs on College Premises, at College-sponsored activities, and to off-campus conduct that adversely affects the College community and/or the pursuit of its objectives. The Student Conduct Code applies at all locations of the College. Through voluntary admission and entrance to the College, each Student indicates their willingness to be responsible for his/her conduct from the time of application for admission through the actual awarding of a degree, including conduct before classes begin, after classes end, during the academic year, or between terms of actual enrollment (even if the Misconduct is not discovered until after a degree is awarded). The Student Conduct Code applies

to a Student's conduct even if the Student withdraws from school while a disciplinary matter is pending.

## VII. Prohibited Conduct – Rules and Regulations

Any Student who commits, attempts to commit, or incites/aids another Student to commit acts of Misconduct may be subject to disciplinary procedures and sanctions as outlined in this Code. "Misconduct" is any one or more of the following offenses, although this is not an exhaustive list of all actions that may constitute Misconduct:

1. **Acts of Dishonesty** (not including academic dishonesty, which falls under the College's "Academic Integrity" Policy):
  - a. Furnishing false information to any College Official, Faculty Member, or office.
  - b. Forgery, alteration, or misuse of any College document, record, or instrument of identification.
  - c. Tampering with the election of any College-recognized student organization.
2. **Disorderly Conduct:**
  - a. Disruption or obstruction of teaching, research, administration, disciplinary proceedings, other College activities, including its public service functions on or off-campus.
  - b. Disruption or obstruction of other authorized non-College activities when the conduct occurs on College Premises.
  - c. Participating in an on-campus or off-campus demonstration, riot or activity that disrupts the normal operations of the College and/or infringes on the rights of other members of the College Community, including breach of the peace.
  - d. Leading or inciting others to disrupt scheduled and/or normal activities within any campus building or area, including breach of the peace.
  - e. Participating in lewd or indecent conduct.
  - f. Any unauthorized use of electronic or other devices to make an audio or video record of any person while on College Premises without his/her prior knowledge, or without his/her effective consent when such a recording is likely to cause injury or distress. This includes, but is not limited to, surreptitiously taking pictures of another person in a gym, locker room, or restroom.
  - g. Failure to comply with directions of College Officials acting in performance of their duties and/or failure to identify oneself to these persons when requested to do so.
3. **Abuse and Harassment** (other than Sexual Misconduct under the College's Sexual Misconduct Policy): Physical abuse, verbal abuse, threats, intimidation, harassment, coercion and/or other conduct which threatens or endangers the health or safety of any person.
4. **Theft and/or Property Damage:** Attempted or actual theft of and/or damage to property of the College or property of a Member of the College Community, on or off-campus.
5. **Hazing:** An act which endangers the mental or physical health or safety of a Student or other person, or which destroys or removes public or private property, for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in, a student or fraternal group or organization. The apathy, acquiescence, or express or implied consent of the victim does not take an act out of the definition of "Hazing."
6. **Keys Violations:** Unauthorized possession, duplication or use of keys or identification cards to any College Premises or unauthorized entry to or use of College Premises.
7. **Policies:** Violation of any College policy, rule or regulation published in hard copy or available electronically on the College website.
8. **Laws:** Other acts in violation of any federal, state, or local law.
9. **Controlled Substance Use/Abuse:** Use, possession, manufacturing, or distribution of marijuana, heroin, narcotics, or other controlled substances except as expressly permitted by law. See the Drug-Free Campus Policy for additional information.

10. **Alcohol:** Use, possession, manufacturing, or distribution of alcoholic beverages (except as expressly permitted by College regulations), or public intoxication. See the Drug-Free Campus Policy for additional information.
11. **Dangerous Firearms, Weapons, or Other Items:** Illegal or unauthorized possession of firearms, explosives, other weapons, or dangerous chemicals on College Premises or use of any such item. If legally possessed, use in a manner that harms, threatens, or causes fear to others.
12. **Traffic:** Obstruction of the free flow of pedestrian or vehicular traffic on College Premises or at College sponsored or supervised functions.
13. **Misuse of Fire Alarms and Equipment:** Pulling fire alarms falsely or tampering with firefighting equipment (e.g., fire alarms, extinguishers, exit signs, fire hoses, smoke detectors, emergency lights).
14. **Computer/Technology Abuse:** Any act that constitutes a violation of the College's Computer Policies, Student Tutoring and Computer Lab Policies, and/or constitutes an act of Computer Misconduct as defined by College Policy. This also includes any act of "e-bullying" or "cyberbullying" another Student, faculty, or staff.
15. **Abuse of the Student Conduct System**, including but not limited to:
  - a. Failure to obey the notice from a Student Conduct Board or College Official to appear for a meeting as part of the Student Conduct System.
  - b. Willful refusal to cooperate in the investigation of a disciplinary matter without good legal cause (such as the potential for self-incrimination in an actual or potential criminal case) which refusal substantially impedes the investigation.
  - c. Falsification, distortion, or misrepresentation of information before a Student Conduct Board.
  - d. Disruption or interference with the orderly conduct of a Student Conduct Board proceeding.
  - e. Institution of a Student Conduct Code proceeding in bad faith (i.e., filing a false complaint).
  - f. Attempting to discourage an individual's proper participation in, or use of, the Student Conduct System.
  - g. Attempting to influence the impartiality of a member of a Student Conduct Board prior to, during, and/or after a Student Conduct Code proceeding.
  - h. Harassment (verbal or physical) and/or intimidation of a member of a Student Conduct Board prior to, during, and/or after a Student Conduct Code proceeding.
  - i. Failure to comply with the terms of an interim or final order in a disciplinary matter, including sanction(s) imposed under the Student Conduct Code.
  - j. Influencing or attempting to influence another person to commit an abuse of the Student Conduct Code System.
16. **Tobacco:** Violating the Tobacco-Free Campus Policy.
17. **Discrimination and Harassment** (other than discrimination and harassment under the College's Sexual Misconduct Policy): Engaging in behavior which is discriminatory, including harassment of other students and staff and faculty, based on race, color, creed, sex, gender, sexual orientation, gender identity, national origin, religion, age, disability, or veteran status. See Equal Opportunity /Affirmative Action Plan for additional information.

## VIII. Violation of Law and College Discipline

1. College disciplinary proceedings under the Student Conduct System may be instituted against a Student charged with Misconduct that potentially violates both the criminal law and this Student Conduct Code (that is, if both possible violations result from the same factual situation) without regard to the pendency of civil or criminal litigation in court or criminal arrest and prosecution. Proceedings under this Student Conduct Code may be carried out prior to, simultaneously with, or following civil or criminal proceedings off-campus at the discretion of the Dean of Students or designee. Determinations made or sanctions imposed under this

Student Conduct Code will not be subject to change because criminal charges arising out of the same facts giving rise to violation of College rules were dismissed, reduced, or resolved in favor of or against the criminal law defendant.

2. When a Student is charged by federal, state, or local authorities with a violation of law, the College will not request or agree to special consideration for that individual because of his or her status as a Student. If the alleged offense is also being processed under the Student Conduct Code, the College may advise off-campus authorities of the existence of the Student Conduct Code and of how such matters are typically handled within the College Community. The College will attempt to cooperate with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of Student violators (provided that the conditions do not conflict with campus rules or sanctions). Individual students and other members of the College Community, acting in their personal capacities, remain free to interact with governmental representatives as they deem appropriate.
3. College conduct proceedings under the Student Conduct System are separate from criminal or civil litigation. Formal rules of process, procedure, and/or technical rules of evidence, such as are applied in criminal or civil court, are not used in the Student Conduct System.

## **IX. Student Conduct Code Procedures**

### **A. Charges, Investigation, and Hearings.**

1. Any Member of the College Community may file charges against a Student for violations of the Student Code. A charge shall be prepared in writing and directed to the Dean of Students or designee. Any charge should be submitted as soon as possible after the event takes place, preferably within six (6) months of the incident.
2. Resolution by Mutual Consent.
  - a. The Dean of Students may conduct an investigation to determine if the charges have merit and/or if they can be disposed of administratively by mutual consent of the parties involved on a basis acceptable to the Dean of Students or designee. Such disposition shall be final and there shall be no subsequent proceedings.
  - b. If the charges are not admitted and/or cannot be disposed of by mutual consent, the case will proceed to an administrative hearing as set forth below.
  - c. If the Student admits violating institutional rules, but sanctions are not agreed to, the case will proceed to an administrative hearing as set forth below which shall be limited to determining the appropriate sanction(s).
  - d. The Dean of Students or designee may later hear the same matter or present the College's evidence at any hearing, and is not disqualified by reason of the investigation or attempting to resolve the matter by mutual consent.
3. Investigation and Enforcement Where Sanctions Will Not Rise to the Level of Suspension or Expulsion.
  - a. A conduct violation that may not result in the sanction of suspension or expulsion will be resolved through an administrative hearing before the Dean of Students or designee.
  - b. The Accused Student shall be provided with written notice of the alleged Misconduct which describes the charges, and gives the date, time, and place of the hearing. The time set for the administrative hearing will ensure a prompt and equitable resolution, not less than five (5) nor more than thirty (30) business days after the Accused Student has been notified. Maximum time limits for scheduling of an administrative hearing may be extended at the discretion of the Dean of Students.
  - c. The Accused Student shall be given an opportunity to request documents in the possession of the Dean of Students pertaining to the charges (unless prohibited from disclosure by law, privilege, work product protection, or to protect the health and safety of the victim or witnesses).
  - d. During the administrative hearing, the Accused Student will have an opportunity to respond to the charges and to present evidence or witnesses contesting the charges. The Dean of Students or designee will determine if a violation occurred and will issue appropriate sanctions.

- e. If an Accused Student, after receiving notice, does not appear for the hearing, the information in support of the charges will be presented and considered even if the Accused Student is not present.
  - f. The Dean of Students will notify the Accused Student of the outcome of the hearing in writing within ten (10) business days of completion of the hearing, or longer for good cause.
4. Investigation and Enforcement Where Sanctions of Suspension or Expulsion May Be Warranted.
- a. A conduct violation that may result in suspension or expulsion will be resolved through a Student Conduct Board hearing according to the following guidelines.
  - b. Hearings are closed to the public. The Accused Student and their advisor(s), if any, will be allowed to attend the entire portion of the Student Conduct Board hearing at which information is received (excluding deliberations). Admission of any other person to the Student Conduct Board hearing will be at the discretion of the Chairperson of the Student Conduct Board.
  - c. The Accused Student will be provided with written notice which (1) describes the charges, (2) gives the date, time, and place of the hearing, and (3) indicates that suspension or expulsion may be sought as a sanction. The time set for the administrative hearing will ensure a prompt and equitable resolution, not less than five (5) nor more than thirty (30) business days after the Accused Student has been notified. Maximum time limits for scheduling of an administrative hearing may be extended at the discretion of the Dean of Students or Vice President of Academic Affairs.
  - d. The Accused Student shall be given an opportunity to request documents in the possession of the Dean of Students pertaining to the charges (unless prohibited from disclosure by law, privilege, work product protection, or to protect the health and safety of the victim or witnesses).
  - e. If an Accused Student, after receiving notice, does not appear for the hearing, the information in support of the charges will be presented and considered even if the Accused Student is not present.
  - f. The administrative hearing will be heard by a Student Conduct Board. The Vice President of Academic Affairs will appoint a Student Conduct Board Chairperson and at least two (2) members of the Student Conduct Committee to serve on the Student Conduct Board.
  - g. The Chairperson of the Student Conduct Board shall preside as the hearing officer over the hearing, and resolve all questions of procedure.
  - h. In hearings involving more than one Accused Student, the Vice President of Academic Affairs, in his/her discretion, may permit the Student Conduct Board hearing(s) concerning each Student to be conducted either separately or jointly.
  - i. The Accused Student has the right to be assisted by an advisor they choose, at their own expense. The advisor must be a Member of the College Community unless an exception is granted by the Vice President of Academic Affairs for an Accused Student who is involved in a pending or active civil or criminal legal proceeding. In that case, an attorney may be permitted by the Vice President of Academic Affairs to serve as an advisor.
  - j. The Accused Student is responsible for presenting his or her own information, and therefore, advisors are not permitted to speak or to participate directly in any Student Conduct Board hearing. A Student should select as an advisor a person whose schedule allows attendance at the scheduled date and time for the Student Conduct Board hearing, because delays will not normally be allowed due to the scheduling conflicts of an advisor.
  - k. The College's evidence against the Accused Student will be presented by the Dean of Students or designee.
  - l. The Accused Student and the Dean of Students may arrange for witnesses, including the Complainant, to present pertinent information to the Student Conduct Board. The College will try to arrange the attendance of possible witnesses who are Members of the College Community, if reasonably possible, and who are identified by the Accused Student at least two (2) weekdays prior to the Student Conduct Board hearing.

Witnesses will provide information to and answer questions from the Student Conduct Board.

- m. Questions of witnesses may be suggested by the Accused Student to be answered by each other or by other witnesses. This will be conducted by the Student Conduct Board with such questions directed to the Chairperson, rather than to the witness directly. This method is used to preserve the educational tone of the hearing and to avoid creation of an adversarial environment. Questions of whether potential information will be received shall be resolved in the discretion of the Chairperson of the Student Conduct Board.
- n. Pertinent records, exhibits, and written statements (including student impact statements) may be accepted as information for consideration by a Student Conduct Board at the discretion of the Chairperson.
- o. There shall be a single verbatim record, such as a tape recording, of all Student Conduct Board hearings (not including deliberations). Deliberations shall not be recorded. The record will be the property of the College.
- p. After the portion of the Student Conduct Board hearing concludes in which all pertinent information has been received, the Student Conduct Board shall determine (by majority vote) whether the Accused Student has violated each section of the Student Code which the Student is charged with violating.
- q. The Student Conduct Board's determination will be made on a preponderance of the evidence standard, or in other words, the basis of whether it is more likely than not that the Accused Student violated the Student Conduct Code. In each case in which a Student Conduct Board determines a Student has violated the Student Conduct Code, they will also determine sanction(s) to be imposed by the Dean of Students.
- r. In each case in which a Student Conduct Board determines that a Student has violated the Student Conduct Code, the sanction(s) will be determined and imposed by the Dean of Students.
- s. The Student Conduct Board will notify the Accused Student of the outcome of the hearing in writing within ten (10) business days of completion of the hearing, or longer for good cause.

## B. Sanctions

- 1. The following sanctions may be imposed upon any Student found to have violated the Student Conduct Code:
  - a. **Verbal reprimand.**
  - b. **Warning:** A notice in writing to the Student that the Student is violating or has violated institutional regulations.
  - c. **Probation:** A written reprimand for violation of specified regulations. Probation is for a designed period of time and includes the probability of more severe disciplinary sanctions if the Student is found to violate any institutional regulation(s) during the probationary period.
  - d. **Loss of Privileges:** Denial of specified privileges for a designated period of time.
  - e. **Fines:** Previously established and published fines may be imposed.
  - f. **Restitution:** Compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement.
  - g. **Discretionary Sanctions:** Work assignments, essays, service to the College, or other related discretionary assignments.
  - h. **Suspension:** Separation of the Student from the College for a definite period of time, after which the Student is eligible to return. Conditions for readmission may be specified.
  - i. **Expulsion:** Permanent separation of the Student from the College.
  - j. **Revocation of Admission:** Admission to the College may be revoked for fraud, misrepresentation, or acts of Misconduct under the Student Conduct Code.
  - k. **Withholding Degree:** The College may withhold awarding a degree otherwise earned until the completion of the process set forth in this Student Conduct Code, including the completion of all sanctions imposed, if any.

**I. Removal of the Student from the course in progress.**

2. More than one of the sanctions listed above may be imposed for any single violation.
3. Educational Records:
  - a. The formal written decision(s), the written notes, tape recordings and any other record of the disciplinary hearing proceedings will be maintained in the Dean of Student's office.
  - b. The records will be available to the Accused Student during the appeal period, to be viewed in the Dean of Student's Office.
  - c. The College rules, regulations and policies governing release of education records govern the dissemination of disciplinary records.

**C. Student Groups, Organizations, and Clubs**

Any student group, organization, or club may be subject to the same disciplinary proceedings for a charge of Misconduct as an Accused Student under Section IX of this Student Conduct Code. If the Dean of Students/Student Conduct Board finds a violation of the Student Conduct Code, the following sanctions may be imposed upon student groups or organizations:

1. Those sanctions listed above in Section IX(B)(1)(a)-(i).
2. Loss of selected rights and privileges for a specified period of time.
3. Deactivation. Loss of all privileges, including College recognition, for a specified period of time or indefinitely.

**D. Appeals**

1. The hearing decision of the Dean of Students or Student Conduct Board may be appealed by the Accused Student(s) to the Vice President of Academic Affairs or designee within five (5) business days of the decision. Such appeals will be in writing and will be delivered to the Vice President of Academic Affairs or designee.
2. If an appeal is filed, the Accused Student will receive written notification stating:
  - a. That the appeal has been filed;
  - b. The specific reason for the appeal, including a copy of the written appeal document; and
  - c. That they have the opportunity to submit additional relevant information and/or statements for review by the Vice President of Academic Affairs or designee within five (5) business days.
3. An appeal will be limited to a review of the verbatim record of the hearing, documents submitted during the hearing, and additional relevant documents/statements submitted by the Accused Student during the appeal for one or more of the following purposes:
  - a. To determine whether the hearing was conducted fairly in light of the charges and information presented, and in conformity with prescribed procedures. Deviations from designated procedures will not be a basis for sustaining an appeal unless significant prejudice results.
  - b. To determine whether the decision was supported by substantial evidence.
  - c. To determine whether the sanction(s) imposed were appropriate for the violation of the Student Conduct Code which the Student was found to have committed.
  - d. To consider new information, sufficient to alter a decision not brought out in the original hearing because such information and/or facts were not known to the person appealing at the time of the original hearing.
4. The Vice President of Academic Affairs or designee may affirm, reverse, or modify the decision regarding the Violation and/or sanctions imposed.
5. A written decision of the Vice President of Academic Affairs shall be provided to the Accused Student and Dean of Students or its designee. The written appeals decision shall be completed within twenty (20) days of the date of appeal. The twenty (20) day deadline can be extended for good cause by the Vice President of Academic Affairs.

6. The written decision shall be the final decision.

## **X. Interim Suspension.**

There may arise, on occasion, circumstances in which a Student's conduct within the College interferes or disrupts effective instruction at the College, or presents a danger to the Student and/or campus community. In the following cases, the administration has the authority to act:

1. Significant Danger to Safety.
  - a. In certain circumstances, the Dean of Students or designee or Public Safety, may impose an interim suspension prior to the disposition of a Student Conduct hearing. Interim suspension may be imposed:
    - i. To ensure the safety and well-being of Members of the College Community or preservation of College Property;
    - ii. To ensure the Student's own physical or emotional safety and well-being;
    - iii. If the Student poses an ongoing threat of disruption of, or interference with, the normal operations of the College; or
    - iv. In other good cause identified in writing by the Dean of Students.
  - b. The Student will be notified in writing of this action and the reasons for the interim suspension. The notice will include the time, date, and place of a subsequent hearing at which the Student may show cause why his or her continued presence on the campus does not constitute a threat (and at which they may contest whether a campus rule was violated).
  - c. During the interim suspension, a Student will be denied access to the campus (including classes) and/or all other College activities or privileges for which the Student might otherwise be eligible, as the Dean of Students may determine to be appropriate.
  - d. The interim suspension does not replace the regular Student Conduct Disciplinary Process, which will proceed on the normal schedule.
2. Classroom Disruption/Interference.
  - a. Instructors have the authority to suspend a Student from their class, up to one (1) day. An incident report will be written by the instructor within three (3) working days. This report will be sent to the Dean of Student's office and a copy forwarded to the Academic Dean.
  - b. Upon consultation with the Dean of Students, an Academic Dean may suspend a Student within the department for a period of time not to exceed three (3) days, in addition to the one (1) day suspension imposed by faculty. An incident report will be written by the Academic Dean within three (3) working days. This report will be sent to the Dean of Student's office and a copy will be kept by the Academic Dean.

## **XI. Miscellaneous Provisions**

1. Composition of Student Conduct Committee.

The Student Conduct Committee is appointed by the Vice President of Academic Affairs who recommends the faculty (at least three (3)) and two (2) staff members. The Dean of Students or designee will preside over all meetings of the Student Conduct Committee.

2. Exoneration.

If, after sanctions are imposed, compelling evidence becomes available establishing an Accused Student's innocence, an Accused Student may present such evidence to the Dean of Students or Vice President of Academic Affairs and request that no reference to the charges or any sanctions related to those charges appear on the Accused's permanent transcript, and any reference previously placed thereon be removed. The Dean of Students or Vice President of Academic Affairs or decides in his or her reasonable discretion whether or not to grant the request.

3. Medical Amnesty.

Students who seek emergency medical attention for themselves or someone else related to the consumption of alcohol or drugs will be referred for substance abuse evaluation and/or treatment,

instead of receiving the sanctions referenced above for alcohol or drug-related code violations.

Medical Amnesty only applies when a Student initiates the call for emergency medical attention, the emergency medical attention is needed to address alcohol or drug emergencies, and the code violation does not involve a victim.

Medical Amnesty does not apply when the individual suffering from the alcohol or drug emergency is discovered by a College Official (e.g. campus security). It also does not apply to Violations of the Code that are egregious, in the judgment of the Dean of Students or Vice President of Academic Affairs, including, but not limited to, sexual assault, weapons possession, possession of drugs that induce incapacitation (e.g. Rohypnol or other “date rape drugs”), and all drug offenses beyond mere possession.

## **XII. Interpretation and Revision**

1. Any question of interpretation or application of the Student Conduct Code will be referred to the Dean of Students or designee for final determination.
2. The Student Conduct Code will be reviewed every three (3) years under the direction of the Dean of Students.

# **Sexual Misconduct Policy**

## **Purpose/Statement of Policy**

Hawkeye Community College strives to provide a safe and secure educational and workplace environment. Sexual discrimination in the form of sex-based harassment (including sexual harassment), sexual assault, and sexual exploitation (collectively “Sexual Misconduct”) is prohibited by the College. The College also prohibits dating violence, domestic violence, and stalking, which can also be forms of sex-based harassment (whether sexually motivated or not), and shall be considered “Sexual Misconduct” for purposes of this Policy. Prohibited conduct under this Policy also includes attempting or aiding in the commission of Sexual Misconduct or retaliating against another for exercising his/her rights under this Policy.

The College is committed to educating students, staff and faculty about its policies and procedures against sexual discrimination and Sexual Misconduct. Any such instances of discrimination and/or misconduct will be dealt with promptly by the College.

## **Scope of Policy**

This Policy covers all students and employees of Hawkeye Community College, regardless of sexual orientation or gender identity, and also applies to third parties. Students include those individuals taking courses at Hawkeye, either full-time or part-time, pursuing degree or non-degree programs. All locations of the College are covered by this Policy, including College-sponsored activities and events off-campus.

## **Prohibited Conduct/Sexual Misconduct Defined**

1. Sex-Based Harassment (including Sexual Harassment) is unwelcome conduct<sup>1</sup> of a sexual nature or aimed at another because of sex<sup>2</sup> which has the purpose or effect of unreasonably interfering with an individual’s work or academic performance, or creates an intimidating, hostile, or offensive working or educational environment.
  - a. Harassing conduct includes various types of unwelcome verbal, written or physical conduct, such as unwelcome touching; sexually explicit offensive jokes; sexually degrading graphic, verbal or written comments or questions of a sexual nature; sexual innuendo; sexual threats; obscene gestures; inappropriate humor and jokes about gender specific traits or sexual orientation; sexual propositions; sexually suggestive or insulting

---

<sup>1</sup> Conduct is considered “unwelcome” if an individual did not request or invite it and considered the conduct to be undesirable or offensive.

<sup>2</sup> This includes both actual and perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes.

sounds and actions, including, whistling, leering, and obscene gestures; and may include Sexual Assault or Sexual Exploitation.

- b. A hostile environment exists when Sex-Based Harassment is sufficiently severe or pervasive/persistent and patently offensive so that it alters the conditions of education or employment, from both a subjective (the alleged victim's) and an objective (reasonable person's) viewpoint. The determination of whether an environment is "hostile" must be based on the circumstances. These circumstances could include:

- (1) the frequency of the conduct;
- (2) the nature and severity of the conduct;
- (3) the identity and relationships of persons involved;
- (4) the location of the conduct and the context in which it occurred;
- (5) whether the conduct was physically threatening;
- (6) whether the conduct was humiliating;
- (7) the effect of the conduct on the alleged victim's mental or emotional state;
- (8) whether the conduct was directed at more than one person;
- (9) whether the conduct arose in the context of other discriminatory conduct;
- (10) whether the conduct unreasonably interfered with the alleged victim's educational or work performance;
- (11) whether the statement is a mere utterance of an epithet which engenders offense in an employee or student, or offends by mere discourtesy or rudeness;
- (12) whether the speech or conduct deserves the protections of academic freedom.

The more severe the Sex-Based Harassment, the less need there is to show a repetitive series of incidents to find a hostile environment. Indeed, a single instance of Sexual Assault may be sufficient to create a hostile environment. Likewise, a series of incidents may be sufficient even if the Sex-Based Harassment is not particularly severe.

Sex-based actions which are offensive or inappropriate, but do not rise to the level of creating a hostile environment, can still be reported and, where appropriate, the College will take remedial steps intended to end or prevent such actions in the future.

2. Sexual Assault: "Sexual Assault" is actual or attempted sexual contact with another person without that person's consent. Sexual Assault includes, but is not limited to, the following behaviors without consent:
- a. Intentional touching of another person's "intimate" parts, including genitals, buttocks, breast, or other body parts;
  - b. Coercing, forcing, or attempting to coerce or force a person to touch another person's "intimate" parts;
  - c. Rape or attempted rape;
  - d. Penetration, no matter how slight, of (1) the vagina or anus of a person by any body part of another person or by an object, or (2) the mouth of a person by a sex organ of another person;

- e. Engaging in sexual activity with a person who is unable to provide consent due to the influence of drugs, alcohol, or other condition;
  - f. Inducing consent through drugs or alcohol; or
  - g. Ejaculation onto the person of another.
3. Sexual Exploitation: "Sexual Exploitation" occurs when a person takes sexual advantage of another person without that person's consent, including but not limited to sexual intimidation or distribution/publication of sexual or intimate information about another person.
  4. Dating Violence: "Dating Violence" is violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim; and where the existence of such a relationship shall be determined based on a consideration of the following factors:
    - (a) The length of the relationship.
    - (b) The type of relationship.
    - (c) The frequency of interaction between the persons involved in the relationship.
  5. Domestic Violence: "Domestic Violence" is the willful intimidation, physical assault, battery, sexual assault and/or other abusive behavior perpetrated by a domestic partner against the other partner, as well as any act that constitutes "domestic abuse" under Iowa Code § 236.2.
  6. Stalking: "Stalking" occurs when:
    - a. The person purposefully engages in a course of conduct directed at a specific person that would cause a reasonable person to fear bodily injury to, or the death of, that specific person or a member of the specific person's immediate family.
    - b. The person has knowledge or should have knowledge that the specific person will be placed in reasonable fear of bodily injury to, or the death of, that specific person or a member of the specific person's immediate family by the course of conduct.
    - c. The person's course of conduct induces fear in the specific person of bodily injury to, or the death of, the specific person or a member of the specific person's immediate family.
  7. Retaliation: Taking an action against an individual for seeking guidance, making a report, supporting a complainant, or assisting in providing information relevant to a report or complaint, or filing a complaint under this Policy.

**Definition of Consent:** "Consent" is defined as clearly communicating agreement or permission to participate in sexual activity. The consenting individuals must act freely and voluntarily and have knowledge of the act involved. Such consent may be withdrawn at any time, without regard to the preceding activity. A current or previous relationship, or past consent, is not sufficient to constitute consent. Consent may not be inferred from silence or passivity. Consent is voluntary, affirmative and clear. Consent cannot be given when a person is incapacitated (such as due to the use of drugs or alcohol, when a person is asleep or unconscious, or because of an intellectual disability that prevents an individual from having the capacity to give consent). Coercion, force, or threats invalidates consent.

### **Confidentiality**

Hawkeye is committed to creating an environment that encourages those who have experienced any form of Sexual Misconduct to come forward. The College will work to safeguard the personally identifiable information and privacy of those who seek help or who report Sexual Misconduct. It is important that those reporting Sexual Misconduct understand the limits on confidentiality of the individual who they may contact for such assistance. Different people, depending on their positions, have different obligations with regard to confidentiality.

Under Iowa law, communications with some individuals are confidential. Those who want to maintain confidentiality should always confirm whether confidentiality applies to the communication before they make the communication. Generally, confidentiality applies when seeking services from the following persons:

- Trained and statutorily certified victim's advocates (such as individuals at crisis centers such as Waypoint or Friends of the Family).
- Licensed psychological counselor (such as the mental health counselor in the Student Health Clinic).

- Licensed health care providers (including medical professionals at the Student Health Clinic).
- Personal attorney representing the victim.
- Religious/spiritual counselor.

Any other College employee, including counselors in the Student Services Office, cannot guarantee complete confidentiality. However, information is disclosed only to select officials who have an essential need to know in order to carry out their job responsibilities, such as investigating/adjudicating a complaint or providing interim protective measures. The College will also keep personally identifiable information out of public recordkeeping, including the College's Annual Security Report of Crime Statistics under the Clery Act.

As is the case with any educational institution, the College must balance the needs of the individual students with its obligation to protect the safety and well-being of the community at large. Therefore, depending on the seriousness of the alleged incident, further action may be necessary, including a timely warning notice to the campus community. The notice would not contain any information identifying the person who brought the complaint.

## **Options for Assistance Following an Incident of Sexual Misconduct**

### **Medical Attention and Evidence Preservation**

Seek medical attention at a local hospital or clinic, both for physical well-being and to preserve medical and physical evidence. A free, confidential medical examination from a Sexual Assault Nurse Examiner (SANE) can be obtained. Bathing, douching, smoking, changing clothing and cleaning the scene of the assault is discouraged before seeking medical attention.

Preserve other evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs or other copies of documents.

### **Victim Advocacy, Confidential Reporting and Mental Health Counseling**

Victims of Sexual Assault may also want to contact an advocacy group for information and assistance, or seek mental health counseling. The following is a list of such resources on or accessible from the College area:

On Campus:

Hawkeye Community College Student Health Clinic (Mental Health Counseling with licensed providers)\*  
Health Education and Services Center Building  
(319) 296-4224

Off-Campus:

Cedar Valley Friends of the Family\*  
319/352-0037 or 1-800-410-SAFE (7233)  
<http://cvfriendsofthefamily.org>

Waypoint Services\*

319/365-1458 or 1-800-208-0388  
<http://www.waypointservices.org>

Riverview Center\*

319/939-9599  
<http://www.riverviewcenter.org>

Iowa Domestic Violence Hotline\*

1-800-942-0333  
[www.cfiowa.org](http://www.cfiowa.org)

National Domestic Violence Hotline\*

1-800-799-SAFE (7233)  
1-800-787-3224 (TTY)  
<http://www.thehotline.org>

*\*Denotes confidential resource.*

# Reporting and Disciplinary Procedures

## Reporting to Law Enforcement

The College strongly encourages victims to report Sexual Misconduct to local law enforcement, but it is a victims' right to choose whether to make a report or decline law enforcement involvement. If making a report to law enforcement, whether on or off-campus, a report should be made to law enforcement in the applicable jurisdiction:

- For the College main campus and any of Hawkeye's metro sites (Metro Center, MLK, Cedar Falls Center), call the Black Hawk Consolidated Communications Center at (319) 291-2515 to be connected to the Black Hawk County Sheriff's Office, or Waterloo, Cedar Falls, Evansdale, Hudson, LaPorte City, Gilbertville and Dunkerton Police Departments.
- For the Waverly Center, call the Bremer/Waverly Law Enforcement Center at (319) 352-5400 to be connected to the Bremer County Sheriff's Office or Waverly Police Department.
- For the Independence Center, call the Buchanan County Sheriff's Office at (319) 334-2567 or the Independence Police Department at (319) 334-2520.
- For the Western Outreach Center, call the Grundy County Sheriff's Office at (319) 824-6933 to reach the Grundy County Sheriff's Office or Grundy Center Police Department.

In any emergency situation, law enforcement can always be reached by dialing 911. In addition, if the Sexual Misconduct occurs on campus, Campus Security can be contacted at (319) 296-4234 for immediate assistance, and to provide help with reaching law enforcement.

Criminal acts may subject the perpetrator to criminal and civil penalties under federal and state law.

## Reporting to the College

To report an incident involving Sexual Misconduct, whether it occurred on or off-campus, contact:

- The College's Public Safety Office: (319) 296-4234
- Title IX Coordinator\*\* for Students: (319) 296-4448  
*Nancy Henderson*
- Title IX Coordinator\*\* for Employees: (319) 296-4405  
*John Clopton*

If you report to any other non-confidential resource, including any other non-confidential College employee or representative, they are also expected to refer the report to one of the above referenced individuals.<sup>3</sup> Confidential reporting resources are listed above.

### Institutional Complaints

A victim, the College, or a member of the college community may file an institutional complaint of Sexual Misconduct, whether or not it occurred on campus. To receive information regarding filing a complaint or to do so, contact the following:

For Students:

- Title IX Coordinator\*\* for Students: (319) 296-4448  
*Nancy Henderson*

For Employees:

- Title IX Coordinator\*\* for Employees: (319) 296-4405  
*John Clopton*

---

<sup>3</sup> Disclosing experiences with sexual harassment or sexual violence as a participant in public awareness events or discussion forums will not trigger reporting and investigation obligations.

The Title IX Coordinator\*\* or designee will explain the procedures for filing and investigating the complaint, and refer the complainant to other resources (including counseling or law enforcement) as appropriate. A written report or complaint is typically required for a case to be referred for action, and the accused will have the right to see the written complaint.

As noted above, the College may or may not be able to honor all requests to keep the details or identities in a complaint of Sexual Misconduct confidential, and will need to weigh the interests of the complainant against its obligation to provide a safe, non-discriminatory environment for all students and employees, including the complainant. If the College honors requests for confidentiality in the complaint process, a complainant must understand that the College's ability to fully investigate the incident and pursue disciplinary action against the accused may be limited.

### **Amnesty for Complainants and Participants in Investigations**

The College will not pursue disciplinary action for improper use of alcohol or other drugs against a student who reports or makes a complaint in good faith concerning an incident of Sexual Misconduct, or who participates in good faith in an investigation into an incident of Sexual Misconduct.

### **Interim Protective Measures/Accommodations**

After receiving a report or complaint of Sexual Misconduct, reasonable interim protective measures/accommodations may be offered or requested, whether or not law enforcement is contacted. The College will also implement interim or protective action for both parties during an investigation. Protective measures/accommodations, when reasonably available, may include:

- Transfer of class sections;
- Assistance in exploring incompletes, leave or withdrawal;
- Changes in living, transportation or working arrangements;
- Safety Planning;
- Referral to counseling and health resources, and assistance with notifying law enforcement;
- Providing a campus no-contact agreement/order.

Individuals may also pursue other civil or criminal no-contact/protective orders through the court system. The College will keep any protective measures confidential, to the extent confidentiality does not impair the College's ability to provide the measures.

### **Investigation and Disciplinary Procedures**

Upon receipt of a complaint or report of Sexual Misconduct, an investigation will be conducted and, where appropriate, sanctions and corrective measures will be taken in accordance with applicable college disciplinary policies and procedures.

- Investigators

All cases of alleged Sexual Misconduct will be investigated by an Investigator assigned by the Title IX Coordinator\*\*. If, prior to the initiation of the investigation, either the complainant or the accused alleges that an Investigator has a conflict of interest, after hearing from both parties on the topic, the Title IX Coordinator\*\* will decide whether to excuse the Investigator and announce his/her decision in writing to both parties. If the Title IX Coordinator\*\* determines that the Investigator should be excused, or if an Investigator is unavailable to conduct the investigation, the Title IX Coordinator\*\* will appoint a replacement Investigator.

\* The College reserves the right, in the discretion of the Title IX Coordinator\*\* and/or the President, to utilize an external Investigator(s) to conduct an investigation under this Policy, in lieu of the internal Investigator identified herein.

- **Investigation Process**

1. Upon receipt of a complaint or report of Sexual Misconduct, the Title IX Coordinator\*\* will prepare a notice of complaint document that identifies:

- (a) The accused;
  - (b) The complainant (unless the Title IX Coordinator\*\* has decided to honor a request by the complainant to remain confidential);
  - (c) The date(s) of the alleged misconduct;
  - (d) A brief description of the allegation;
  - (e) The specific provisions of this Policy that were allegedly violated; and
  - (f) The investigatory process that will follow.
2. This notice of complaint document will be provided to both parties. If reasonably possible, the Title IX Coordinator\*\* should deliver the notice of complaint document to both individuals personally, so that he/she can explain the nature of the complaint(s) and the investigatory process.
3. During the investigation, both the complainant and accused:
  - (a) Will be allowed to present their version of events to the Investigator and to provide any supporting evidence.
  - (b) May be accompanied in their interviews by a silent representative/support person/steward. The silent representative or support person will not be allowed to provide information to the Investigator or ask questions of the party during the interview process.
  - (d) Will be allowed to identify witnesses, all of whom will be interviewed by the Investigator absent a compelling reason why such an interview cannot take place. If the Investigator determines that an identified witness cannot or should not be interviewed, both parties will be informed in writing of this decision, unless safety considerations prevent such disclosure.
  - (e) Will be given an opportunity to review all tangible evidence submitted or identified by the other party and given an opportunity to comment on that evidence, unless safety considerations prevent such disclosure.
  - (f) Will be notified of the witnesses identified by the other party and be given an opportunity to comment on those witnesses and identify rebuttal witnesses, unless safety considerations prevent such disclosure.

All investigations will be conducted as discretely as is practicable. Witness interviews might be audio recorded, and if so, all such recordings shall at all times remain the property of the College. Individuals making good faith allegations of Sexual Misconduct and those participating in such investigations will not be subjected to Retaliation.

4. At the conclusion of the investigation, the Investigator will determine whether a preponderance of the evidence supports a finding that this Policy was violated. A preponderance of the evidence is evidence from which the Investigator can determine that it is more likely than not that a violation occurred. The Investigator will prepare a written Notice of Decision supporting the decision and deliver it to both parties concurrently and the Title IX Coordinator\*\*.

The Notice of Decision will:

- Identify who is issuing the decision and whether an appeal is available (and if so, how to perfect such an appeal);
- notice of the finding of whether the alleged conduct occurred;
- any individual remedies for the complainant;

- In non-violence cases, notice of any sanctions imposed on the accused that directly relate to the complainant;<sup>4</sup>
  - In violence cases, notice of all sanctions imposed on the accused;
  - Steps being taken to eliminate the misconduct and prevent recurrence.
5. In most cases the Investigation/Determination Processes will be concluded within sixty (60) days after the complainant makes the official college report. However, if circumstances are such that the process will not be rendered in this time-frame, the complainant and the accused will be so advised and provided a general time-frame for the conclusion of the process.

## Sanctions

College sanctions may be imposed upon those determined to have violated this Policy. For students, sanctions include verbal reprimands, written warnings, probation, loss of privileges, fines, restitution, educational or work assignments, suspension, expulsion, revocation of admission, withholding a degree, or removal from courses. Sanctions may also include protective measures regarding the complainant, including no-contact orders or changes in arrangement to academic or working situations.

For employees, sanctions could range from warning, reprimand, suspension with or without pay, suspension for part of a day or for a period of one or more days, demotion, or termination of employment, and may include such other forms of disciplinary action as appropriate under applicable College procedures.

The College will also consider remedies for the broader campus community, as may be necessary to remedy the effects of the Sexual Misconduct.

## Appeal

The parties may appeal the Notice of Decision according to the following appeal procedures:

- The Notice of Decision may be appealed by the accused or complainant to the Title IX Coordinator\*\* within five (5) business days of the decision. Such appeals will be in writing and will be delivered to the Title IX Coordinator\*\*.
  - If an appeal is timely filed, the Title IX Coordinator\*\* will send written notification to the accused and complainant stating:
    - That the appeal has been filed;
    - The specific reason for the appeal, including a copy of the written appeal document; and
    - That they have the opportunity to submit additional relevant information and/or statements for review to the Title IX Coordinator\*\* within five (5) business days; and
    - The identity of the person hearing the appeal (the "Appeal Authority"). If the accused is a student, the Appeal Authority shall be the Vice President of Academic Affairs. If the accused is an employee, the Appeal Authority shall be the appropriate Cabinet member or designee overseeing the accused employee's division.
- The Title IX Coordinator\*\* will ensure that the Appeal Authority is provided with the following materials: (a) the notice of complaint document; (b) the investigatory materials (including all interview recordings and tangible evidence considered by the Investigator during the investigation); (c) the Investigator's Notice of Decision; (d) the Notice of Appeal; and (e) any documents/statement provided to the Notice of Appeal. These materials comprise the "Record on Appeal."

---

<sup>4</sup> Sanctions that directly relate to the complainant include, but are not limited to, requiring that the accused stay away from the complainant for some period, prohibiting the accused from attending school or working at the school for some period; or transferring the accused to another residence hall, classes, school, or job.

- The Appeal Authority will review the Record on Appeal for one or more of the following purposes:
  - To assess whether a material deviation from written procedures impacted the fairness of the investigation;
  - To determine whether the decision was supported by substantial evidence;
  - To determine whether the sanction(s) imposed were appropriate for the violation of this Policy;
  - To consider new information, sufficient to alter a decision not brought out in the original hearing because such information and/or facts were not known to the person appealing at the time of the original hearing.
- The Appeal Authority may affirm, reverse, or modify the decision regarding the violation and/or sanctions imposed.
- A written decision of the Appeal Authority in the form of a Notice of Decision shall be provided to the accused, complainant and Title IX Coordinator\*\*. The written appeals decision shall be completed within twenty (20) days of the date of appeal, or longer for good cause.
- Severe Sanctions
  - If the Appeal Authority imposes severe sanctions, which shall be deemed suspension or expulsion of a student or termination of an employee, either party may appeal the Appeal Authority's decision to the Title IX Coordinator\*\* within five (5) business days of the Appeal Authority's decision. Such appeals will be in writing and will be delivered to the Title IX Coordinator\*\*.
  - If an appeal is timely filed, the Title IX Coordinator\*\* will send written notification to the accused and complainant stating that a further appeal has been filed.
  - The Title IX Coordinator\*\* will then provide the appeal and the Record on Appeal to the President of the College. Within ten (10) working days of the receipt of the Record on Appeal, or longer for good cause, the President shall render a decision affirming, reversing, or modify the decision in writing to the parties. The decision of the President is final.

If a final decision from the Investigator or appeal process imposes disciplinary action which constitutes termination of college personnel entitled to the hearing/judicial review procedures of Iowa Code chapter 279, such procedures shall be followed as required by law.

#### Interplay with Criminal Proceedings

College disciplinary proceedings under this Policy may be instituted against an individual charged with Sexual Misconduct that potentially violates both the criminal law and this Policy (that is, if both possible violations result from the same factual situation) without regard to the pendency of civil or criminal litigation in court or criminal arrest and prosecution. Proceedings under this Policy may be carried out prior to, simultaneously with, or following civil or criminal proceedings at the discretion of the Title IX Coordinator\*\*. Determinations made or sanctions imposed under this Policy will not be subject to change because criminal charges arising out of the same facts giving rise to violation of college rules were dismissed, reduced, or resolved in favor of or against the criminal law defendant.

College conduct proceedings under this Policy are separate from criminal or civil litigation. Formal rules of process, procedure, and/or technical rules of evidence, such as are applied in criminal or civil court, are not used under this Policy.

#### **\*\*Title IX Coordinator:**

Please note that the Title IX Coordinator is charged with coordinating the College's response to reports of Sexual Misconduct under this policy. The Title IX Coordinator does not serve as an advocate for either the complainant or the accused. The Title IX Coordinator will explain to both parties the informal and formal processes outlined below and the provisions of confidentiality. Where appropriate, the Title IX Coordinator will provide to both parties information on options for obtaining advocacy, medical and counseling services, and making criminal reports, and will assist with providing information on other resources. The Title IX

Coordinator will coordinate with other campus officials to take appropriate interim actions such as no contact orders and academic accommodations.

## **Drug-Free Campus**

Hawkeye Community College strives to provide a drug-free campus to promote optimal learning. The possession, consumption, and use of alcoholic beverages, or any controlled substance on any Hawkeye Community College property, is inconsistent with the educational philosophy of Hawkeye.

Possession, consumption, and use of alcoholic beverages or controlled substances is not allowed unless items are used as a part of an approved educational program. Hawkeye Community College-controlled finances cannot be used for the purchase or sale of these items on or off Hawkeye Community College's property unless items are used as a part of an approved educational program.

The possession of illegal drugs is not permitted on Hawkeye Community College's property or while you are participating in a Hawkeye Community College sponsored event off campus. Violations will result in disciplinary action and may have legal consequences as defined by federal, state, and local laws. (Drug-Free Workplace Act of 1988, P.L. 100-690)

### **Controlled Substances**

Controlled substances include, but are not limited to, illegal and prescription drugs.

It is illegal for any person to:

- Manufacture, deliver, or possess a controlled substance.
- Possess with the intent manufacture or deliver a controlled substance.
- Enter into a common scheme or design with, or conspire with one or more other persons to, manufacture, deliver, or possess with intent to manufacture or deliver a controlled substance.
- Possess with intent to deliver a counterfeit or simulated controlled substance.

Offenses of controlled substances and penalties are described in full in Chapter 124 of the State of Iowa Code. Violations may result in simple, aggravated, or serious misdemeanors, or class C and D felony charges. Students will be disciplined according to Hawkeye Community College's disciplinary policies.

### **Public Intoxication**

It is illegal to use or consume alcoholic liquor, wine, or beer:

- On public streets or highways
- In any public place except on premises covered by a liquor control license.  
A person cannot be intoxicated or simulate intoxication in a public place.

Offenses of public intoxication and penalties are described in full in Chapter 123.46 of the State of Iowa Code. Violations may result in a simple misdemeanor. Students will be disciplined according to the Hawkeye Community College's disciplinary policies.

### **Alcohol and Drug Abuse**

Hawkeye Community College recognizes alcohol and drug abuse as a potential health, safety, and security problem. Students who need assistance with drug or alcohol abuse can contact Student Health Clinic or the counselors in Student Services.

## **Tobacco-Free Campus**

Smoking and all forms of tobacco use is not allowed inside any Hawkeye Community College owned or leased building, vehicle, or on any Hawkeye Community College property. It is in the best interest of Hawkeye Community College to provide a tobacco-free environment in public educational facilities for students, employees, and visitors.

Smoking is considered to be the inhaling, exhaling, burning, or carrying any lit cigar, cigarette, pipe, or other tobacco product in any manner in any form, including chewing tobacco. The use of electronic cigarettes is also prohibited.

Hawkeye Community College has had a long standing policy of being a tobacco-free campus. The use of any tobacco product is not allowed on Hawkeye Community College property. You must completely leave Hawkeye Community College property to smoke or use tobacco.

## Violations

Any student, employee, or visitor who violates the policy shall be subject to civil penalties outlined in the Smoke-Free Air Act. The Iowa Department of Public Health will enforce the law with compliance from Hawkeye Community College.

If you are smoking or using tobacco on campus, you will be asked to stop smoking or using tobacco immediately. If you continue to smoke or use tobacco, you will be asked to leave the campus. If you refuse to leave the campus, local law enforcement officials may be contacted. You might receive a citation and a civil fine from a law enforcement official.

## Smoking Cessation

If you would like or need help to quit smoking, you can contact Quitline Iowa for assistance. Telephone counseling is free to Iowans.

## Parking and Traffic Rules

Hawkeye has adopted parking and traffic rules to:

- Maximize safety.
- Ensure access for emergency vehicles.
- Provide the best use of available parking for all students, employees, and visitors.
- Protect pedestrians.

Parking on campus is a privilege, not a necessity. Questions should be directed to the Public Safety office.

## Definitions

- Students: all people in class, credit or non-credit, or those involved in a Hawkeye Community College-sanctioned activity.
- Motor vehicle: self-propelled vehicles including motorcycles.

## Parking Permits

- Students must request a parking permit from the Business Office at Hawkeye Center or at the Health Education and Services Center.
- Students must fill out a motor vehicle declaration card when they enroll; a parking permit will then be issued.
- Employees must request a parking permit from Human Resource Services on their first day of employment.
- A temporary parking permit for special needs may be obtained in the Public Safety office. A doctor's statement detailing temporary need will be required.
- Visitors on campus for more than a day must obtain a temporary permit from the Public Safety office.
- Loading zones and service entrances are restricted areas. Special permits for these areas may be obtained in the Public Safety office.
- Failure to properly display a parking permit may result in a Public Safety-issued citation.
- Parking permits are valid only when displayed properly, either in the lower right-hand corner of the back window when viewed from the rear on vehicle or hanging from the rearview mirror. A motorcycle parking permit must be on the rear fender or gas tank.

## Traffic Rules

- Students, employees, and visitors are expected to know and obey all state, county, and campus rules.
- Drivers will be expected to observe and obey posted signs and signals.
- The maximum speed limit on campus is 15 miles per hour. Drivers must adjust to pedestrian traffic and driving conditions. Anyone driving at excessive speed or driving recklessly will be reported to the local law enforcement agency.
- Operation of a motor vehicle on sidewalks or grass is prohibited, except for Hawkeye-owned service and patrol vehicles.

## Public Safety

Hawkeye Center  
Upper Level  
319-296-4459

- When traffic is being directed by a Public Safety officer, vehicles and pedestrians will obey their signals. Pedestrians must use designated crosswalks.
- In the event of an accident of any kind on campus, Public Safety and/or the local law enforcement agency must be notified immediately.

## **Parking Rules**

- Parking on campus is available for vehicles with valid parking permits.
- Parking shall only be in areas marked as parking spaces.
- Two-hour parking is available to visitors. Students and employees are not allowed to park in visitor parking.
- Handicapped parking is available to handicapped students, employees, and visitors who properly display a handicapped permit issued by state or county health departments or a medical practitioner. Having a permit does not guarantee a handicapped parking space.
- Cars must be parked so that no part of the car extends beyond the boundary lines of the parking spaces.
- Only head-in parking is permitted.
- Double parking is not permitted.
- In addition to designated parking spaces for vehicles, motorcycles may be parked in the yellow zones at the end of parking lots.
- Parked vehicles must not obstruct vehicle or pedestrian traffic.
- All vehicles left on campus overnight must be parked in the overnight parking area on the west side of Lot I, north of Tama Hall.

## **Violations and Fees**

Student or employees violators of any parking or traffic rules will receive a citation requiring payment of fees. Fees must be paid in the Business Services office.

Fee amounts:

- Handicapped parking violation \$200
- No parking permits \$5
- Improper display or use of permit \$5
- Illegally parked in lot \$10
- Parked in restricted area \$20
- Violation of other regulation \$10
- Students with unpaid fees will not be permitted to re-enroll, graduate, or transfer records.
- Parking violations will be the responsibility of the student or employees for whom the parking permit was issued, even if the vehicle is not in their possession at the time of the violation.
- Hawkeye reserves the right to revoke the privilege of operating a vehicle on campus property.
- Vehicles may be removed from campus property. Reasons for vehicle removal may include, but are not limited to:
  - Violating parking rules.
  - Causing safety hazards.
  - Parking on lawns or in drives.
  - Blocking access to buildings and loading areas.
  - Parking for more than 24 hours without being moved.
  - If a vehicle is tagged for removal, reasonable attempts will be made to inform the owner of the intent to have the vehicle towed at the owner's expense.

## **Appeals**

- Parking citations may be appealed. Appeal forms are available in the Business Office and the Public Safety office.
- Completed appeal forms must be submitted to the Public Safety office or the Business Office.
- Appellants will be contacted by the Public Safety Manager or the Vice President of Administration and Finance to process the appeal.

## **Identification**

- Public Safety identification cards issued by Hawkeye will be presented to employee upon request.
- Student identification cards issued by Hawkeye will be presented to Public Safety upon request.
- A valid driver's license or other valid document from the Iowa Department of Transportation is required to operate a motor vehicle on campus and must be presented to Public Safety upon request.

## Animals on Campus

All livestock and domesticated animals on Hawkeye Community College property must be confined or physically restrained. For safety and sanitation reasons, pets except for service dogs are not allowed in Hawkeye Community College buildings.

Pets are allowed in outdoor areas of Hawkeye Community College property.

- Pet must be properly controlled and restrained.
- License and vaccination tags must be attached to the collar.
- Pet is under the control of a leash with a maximum length of three feet.
- Owner is responsible for prompt collection and disposal of animal waste with the exception of service dogs.

Animals found running at large or not properly restrained may be impounded. In accordance with Iowa law, these animals may be turned over to city animal control officers. The owner is responsible for all costs associated with reclaiming the animal.

Exceptions to this policy will be allowed for the Agriculture and Natural Resources Department and the Hawkeye Community College Farm or for other instructional activities with prior approval of an Academic Dean.

## Firearms on Campus

Firearms, ammunition, or any other controlled weapon or incendiary device, substance, or materials are not allowed on Hawkeye Community College property, except when authorized by the Dean of Business and Public Services for educational purposes.

When approved, firearms are restricted to appropriate educational laboratories such as continuing education courses, the firing range, or for required use in an instructional program.

## Children on Campus

Children are not allowed on Hawkeye Community College property at any time unless they are under the immediate supervision of a parent, guardian, or registered student.

- Children are not allowed in class.
- Children are not to be left unsupervised.
- Children should not be left in a vehicle without an adult presence inside the vehicle.

Instances of unsupervised children will be reported to Hawkeye Community College Public Safety and the Department of Human Services and/or local law enforcement agency.

## Appropriate Clothing

Dress and personal appearance should be in good taste, consistent with an adult, professional atmosphere. It should reflect the respect you have for yourself and Hawkeye Community College.

You are expected to wear clothing appropriate to the program you are enrolled in. Some programs of study require a standard uniform each day or on specified days. Proper clothing and uniform standards will be determined by your instructor or Academic Dean.

## Access to Facilities and Programs

Hawkeye facilities are used for the primary purpose of education and community service. Priority is reserved for academic and administrative activities, then by programs sponsored by authorized Hawkeye Community College groups and organizations.

Registration/reservation for the use of facilities is required through the appropriate office or the events coordinator.

Identification or sign-in registration is not required to enter Hawkeye Community College's facilities with the exception of the Health Education and Services Center (HESC). All authorized users entering the HESC must present a Hawkeye ID at the front desk. Entry to Hawkeye Community College's facilities is limited to students, faculty, staff, and authorized guests. Trespassers will be prosecuted.

# Computer Policies

## Dean of Students

Hawkeye Community College provides computer systems for the use by students, faculty, and staff for the purpose of furthering the educational mission of Hawkeye Community College, including coursework, college-related educational endeavors, and business operations.

Nancy Henderson  
Student Services  
Hawkeye Center  
Upper Level  
319-296-4014

You are expected to follow computer policies and cannot interfere with or disrupt the processes of Hawkeye Community College. You are responsible for using computer systems and services in an ethical way that demonstrates academic integrity and respect for others who share these resources. You must follow all existing federal, state, and local laws as they relate to computer policies.

As a user, you are responsible for:

- Protecting your password.
- Reporting any breach of system security.
- Reporting unauthorized use of your account.
- Changing your password on a regular basis.
- Making backup copies of your work on a regular basis to ensure against loss.
- Clearly labeling works and opinions as your own before they are widely distributed.

Hawkeye Community College's Communication and Information Systems department reserves the right to image any computer back to an initial base to troubleshoot problems. Computers will also be re-imaged to remove software not supported by Hawkeye Community College.

The Communication and Information Systems department reserves the right to access an individual's files for maintenance of computers, networks, and storage systems. Electronic forms of data, information, and files stored on Hawkeye Community College owned equipment or transmitted across Hawkeye Community College's network are property of Hawkeye Community College. No right to privacy can be assumed.

Hawkeye Community College staff may monitor and log usage information:

- Network connections and loading times.
- Computer and disk utilization.
- Security audit trails.

This information can be used to show evidence of a violation of a policy or law. If necessary, Hawkeye Community College may monitor the activities and files of a specific user on Hawkeye Community College networks or computers. Any staff member who believes such monitoring is necessary should contact the Director of Communication and Information Systems.

Any student who violates these policies is subject to disciplinary action. Faculty and staff who violate these policies are subject to disciplinary action as defined in the employee handbook. All violators are subject to arrest according to local, state, and federal laws.

## Computer Misconduct

Acts of misconduct are subject to disciplinary action as well as legal and/or civil action.

- Unauthorized copying of licensed materials or items protected by copyright. This includes, but is not limited to:
  - Software (including operating systems, programs, applications, databases, or code).
  - Multimedia files (including music, movies, or audio).
  - Text files.
- Computer hacking is the unwanted or unsolicited entry into a computer system. This includes, but is not limited to:
  - Successful and unsuccessful acts of hacking.
  - Possession of the tools used for computer hacking.
  - Running programs that attempt to identify passwords or codes.
- Knowingly introduce a computer virus to a computer or network. A computer virus is considered to be a program, either harmless or damaging, that attaches itself to another program and/or has the capability to reproduce to infect other computers.
- Gain or attempt to gain unauthorized access to private or protected information. This includes, but is not limited to:

- Willful damage or misuse of systems, applications, databases, code, or data.
- Attempts to gain network privileges which are not entitled.
- Unauthorized alteration of system configuration. This includes, but is not limited to interrupting or attempting to interrupt programs that protect data or secure systems.
- Introduce or use profanity or obscenities on Hawkeye Community College's network, Internet, or any other communications configuration accessible by or connected to Hawkeye Community College's computers or computer systems.
- Use Hawkeye Community College's network to:
  - Conduct business.
  - Solicit services.
  - Develop, introduce, or circulate inflammatory comments or subjects.
- Share assigned logins with anyone, for any reason. Each student and employee is responsible for all activities under their assigned login. This includes, but is not limited to:
  - Unauthorized use or attempted use of another person's login.
  - Unauthorized use of a generic login outside of the context for which it was created.
- Inappropriate or misuse of email. This includes sending unsolicited email including junk mail, jokes, or chain letters to anyone from Hawkeye Community College's system that is not of a business nature.
- Install unauthorized personal hardware to any computer or network resource.
- Install any software on Hawkeye Community College's network. Software installations are the responsibility of Hawkeye Community College's Communication and Information Systems department.
- Unauthorized entry into a file to use, read, or change the contents, or for any other purpose.
- Unauthorized transfer of a file.
- Use computer facilities to interfere with the work of another student, instructor, or Hawkeye official.
- Use computer facilities to send, print, or display obscene or abusive messages or materials.
- Use computer facilities to interfere with normal operation of Hawkeye Community College's computer system.
- Inappropriate or misuse of printing resources. This includes, but is not limited to:
  - Printing of profanity or obscenities.
  - Printing items not directly associated with class materials.

## Hawkeye Email

Hawkeye Community College uses a web-based Microsoft Outlook program, allowing access email from anywhere on and off campus.

All students have a Hawkeye email account. This account is created upon acceptance into your program. Please allow one working day after acceptance for an account to be created.

Hawkeye Community College sends important college information including grades, attendance, financial aid, and graduation information by email only.

### Your Hawkeye Email Account

Your email address is username@hawkeyecollege.edu  
 Example: robert.doe@hawkeyecollege.edu

### Spam Filter

Hawkeye Community College does not agree to deliver all emails addressed to its users.

All inbound emails for employees and student email accounts are subject to filtering. The goal of filtering is to prevent the distribution of spam, including pornographic and non-pornographic mass mailings.

Filtering is performed with a system automatically set up with rules to detect spam. It is possible emails sent to a Hawkeye Community College email address maybe filtered, even if they aren't considered spam, if they come from a mail server known to be used by spammers.

## Forwarding Your Hawkeye Community College Email to a Personal Email Account

If you forward your email, Hawkeye Community College will not be able to track these emails and will not be responsible once the email has been sent beyond our system.

- Open Internet Explorer.
- Log in to your Hawkeye Community College email.
- Click on the "Rules" button located in the left column near the bottom.
- The Rules button is only available if you are using Internet Explorer as your browser.
- Click on the "New" button located in the top toolbar.
- Create a Forwarding Rule
  - Type a name for your rule in the "Rule Name" box.
  - Click on the "Forward it to" radio button in the "Then" section.
  - Type in the email address you want your Hawkeye Community College email messages forwarded to.
  - We recommend you uncheck the "Keep a copy in my Inbox" check box. If this box is checked the messages will be forwarded to the address typed in and all messages will also remain in your inbox. This will require you to still maintain and clean up your Hawkeye email to eliminate the possibility of your mailbox getting full.
  - Click on the "Save and Close" button.
- Click on the "OK" button on the pop-up box to accept the rule addition and make it active.
- Click the "Save and Close" button on the top tool bar.
- Once this rule is in place, only new messages will be forwarded. Any existing messages will not automatically be forwarded.

## My Hawkeye

My Hawkeye is an online access point to college information. You can use My Hawkeye to:

- Access your Canvas online courses.
- Access your Hawkeye email.
- Access My WebAdvisor.

To log in, use your Hawkeye username and password. All students have a Hawkeye Community College username and password. Your account is created upon acceptance into your program. Please allow one working day after your acceptance for your account to be created.

If you have been locked out of My Hawkeye you will need to reset your password online.

## What is Available in My WebAdvisor?

### Courses and Schedules

- Register for classes.
- Add a class.
- Drop a class.
- View your class schedule
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > My Class Schedule
- View your Grades
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Final Grades and GPA by Term
- Enrollment Verification Request
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Enrollment Verification Request

### Billing / Payment

- Billing Statement – charges and payments.
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Billing and Payment > Account Summary
- View previous billing statements.

- My Hawkeye > My WebAdvisor > WebAdvisor for Students > Billing and Payment > Account Summary by Term
- Make a Full Payment.
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Billing and Payment > Make a Payment > Pay on My Account
- Set up a Payment Plan through eCashier.
- Sign up to Directly Deposit your Financial Aid Refund Check into your Bank Account.
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Billing and Payment > Direct Deposit for Student Refunds
- Hawkeye's Refund Policy.

### Financial Aid

- Applying for Financial Aid.
- Your Financial Aid Award.
- Accepting or Rejecting Awarded Funds.
- Where to look to see if you have missing financial aid documents.
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Communication > My Documents
- Financial Aid Forms.
- Financial Aid Probation and Suspension (SAP).

### Graduation

- Apply for Graduation.

### Personal

- Change Your Address
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > My Profile
- Access Your COMPASS Test Scores.
  - My Hawkeye > My WebAdvisor > WebAdvisor for Students > Academic Profile > Test Summary

## PaperCut Printing

PaperCut is a print management software that has been implemented at Hawkeye Community College to bring awareness to printing cost and conservation and to begin shaping improved printing behavior.

All registered Hawkeye Community College students will be given a \$25 print/copy quota per semester. As you print or copy the cost of your print/copy job will be deducted from your print balance.

### Cost to Print or Copy

The cost to print or copy is calculated per piece of paper used.

	Black and White	Color
Single Sided	\$0.05	Varies depending on the printer Approximately \$0.10
Double Sided	\$0.08	

### Printing

When you log-on to any Hawkeye Community College computer, you will see the PaperCut pop-up, which shows your current balance.

When you print a document, you will see a pop-up informing you of the cost of the print job and the remaining balance on your account. At that point, you may confirm to print or cancel to change your print settings.

## Copying

When you need to use one of the photocopiers on campus, you can log-in with either:

- Your Hawkeye Community College username and password.
- Your student ID number.

You will see your name and current balance on the display pad.

## Your PaperCut Account

You can access your PaperCut Account online at [papercut.hawkeyecollege.edu](http://papercut.hawkeyecollege.edu). To log-in, use your Hawkeye Community College username and password.

## Adding Credit

If your balance goes to \$0.00 or gets low you can add money to your account using a debit or credit card or a pre-paid Print Card. To do so, log-in to your PaperCut Account online and click on "Add Credit."

## Pre-Paid Print Cards

Hawkeye students and guests may purchase pre-paid Print Cards at the Hawkeye Library.

Pre-paid Print Cards contain a 16-digit identification number. When you log-on to a Hawkeye computer or copier, you can enter the card's ID number in the PaperCut section. Your account will automatically be credited the funds you put on your Print Card.

## Student Tutoring and Computer Lab Policies

The following are policies you must follow when using the Student Tutoring and Computer Lab:

- You must be a current Hawkeye student to use the Student Tutoring and Computer Lab. This lab is not open to the public.
- You must follow Hawkeye Community College's Computer Policies including Computer Misconduct and Hawkeye Community College email and My Hawkeye policies.
- You must follow all policies and rules in the Student Handbook.
- You must clock in and out at the entrance of the Lab.
- Children are not allowed in the Lab.
- No food or drink is allowed at the computers.
- No talking on cell phones in the Lab.
- No game playing of any kind on the computers.
- Priority of computer use is given to students who are using the computers for academic reasons.

If you violate these policies, you will have your right to use the Student Tutoring and Computer Lab suspended or revoked. You are also subject to disciplinary actions.

## Student Tutoring and Computer Lab

Bremer Hall 127  
319-296-4029

## Copyright Infringement and Peer-to-Peer File Sharing Policy

It is the intention of Hawkeye Community College to protect its users (students, faculty, staff, and guests) and to protect itself from copyright infringement violations. In order to do this, and in compliance with federal law, Hawkeye Community College is making this guide and policies available to the campus community.

It is illegal to copy or distribute material that is protected by copyright, trade secret, patent, or other intellectual property laws. Violation of these laws may result in disciplinary actions by Hawkeye Community College and legal action by state or federal government agencies. For further information about copyright and laws governing copyright, visit [www.copyright.gov](http://www.copyright.gov).

### **Peer-to-Peer File Sharing**

Hawkeye Community College prohibits the use of peer-to-peer file sharing applications on its network, including wireless network services, to transmit, exchange or copy any music, software, or other materials which are protected by copyright or intellectual property rights. Violation of this prohibition may result in disciplinary action by Hawkeye Community College as outlined in the Student Handbook.

### **Digitization of Materials**

Hawkeye Community College prohibits copying and distribution, digital or otherwise, of copyrighted material, including, but not limited to software, printed, audio, or video material. In addition to digital files, this includes copyrighted books and other printed or film materials that may be duplicated with a photo copier, recording device, camera, CD/DVD, burner, or other similar duplicating device.

### **Software Agreements**

Hawkeye Community College is strictly governed by licensing agreements for software that is used in offices, classrooms, and computer labs. Unauthorized access, copying, or distribution of licensed software is prohibited and may result in disciplinary actions by Hawkeye Community College and possible legal actions by the software owners or their companies.

### **Hawkeye Community College Efforts**

Hawkeye Community College, in compliance with federal laws and guidelines, will work to limit the distribution of copyrighted material on its network. If a violation is detected, Hawkeye Community College will make every effort to stop and nullify that violation and assist federal authorities as required by law. Communication and Information Services personnel will report any detected violations to Hawkeye Community College administration.

## **Hawkeye Card**

Each Hawkeye Community College student will be issued a Hawkeye Card. Your Hawkeye Community College Card will serve as your:

- Official student ID.
- Library card.
- Pass to get into the Health Education and Services Center, Academic Support Center, and student activities.

Keep this card for the entire time you are enrolled at Hawkeye Community College. If you lose or misplace your Hawkeye Community College Card, you will be charged the card replacement fee.

### **Where Can I Get a Hawkeye Card?**

If you do not have a Hawkeye Card, you can stop by any of the following offices to receive your Hawkeye Card:

- Business Office in Hawkeye Center.
- Health Education and Services Center.

### **Fees**

- Card replacement: \$5
  - Card replacement includes: lost, stolen, misplaced Hawkeye Cards, and photo retakes.
- Misuse of card handling fee: \$10

### **Business Services**

Pamela Johnson  
Hawkeye Center  
Lower Level  
319-296-4478  
800-670-4769 ext. 1260

## **No Charge for**

- Your initial Hawkeye Card.
- Legal name change and using current photo on file.
- A replacement card when your card is worn out due to normal wear and tear.

## **Misuse**

If anyone other than you (the card holder) tries to use your Hawkeye Card, the card will be deactivated.

### **If Your Hawkeye Card is Deactivated**

- You will only be able to use your Hawkeye Card as your student ID.
- The incident will be referred to Public Safety for investigation.
- The incident may be referred to the Dean of Students for disciplinary action.

### **Using a Hawkeye Card That is Not Your Own**

Anyone found misusing someone else's card may be found to be in violation of the Student Disciplinary Code and may be subject to disciplinary action such as probation or suspension.

## **Report a Lost or Stolen Hawkeye Card and Liability for Card Use**

It is important that you report your card lost or stolen as soon as possible.

When you report your card lost or stolen, you will need to:

- Provide your name.
- Card ID number.
- A brief description of the circumstances.

You can report your card lost or stolen at any time:

- By contacting Public Safety.
- In writing or by email to the Business Office.

If you give notice of a lost or stolen card by telephone, you must confirm this in writing or email within 48 hours to the Business Office.

## **Terms and Conditions**

The following terms and conditions will govern the use of the Hawkeye Card Account:

- Only the person pictured on the Hawkeye Card is authorized to use the card.
- To receive a Hawkeye Card, you must provide one piece of government issued photo ID (example: your driver's license).
- Hawkeye reserves the right to change the account terms and conditions at any time.
  - If a change reduces, limits, or restricts the account holders' rights under the terms and conditions, Hawkeye will give at least twenty calendar days prior notice by mail. However, if an immediate change is necessary for security reasons, Hawkeye Community College may first make the change and then notify the account holder.
- Hawkeye Community College reserves the right to utilize any and all data and images for official Hawkeye Community College business, according to the Family Educational Rights and Privacy Act (FERPA).

# Dining Dollars Meal Plan

Hawkeye Community College students and employees can purchase pre-paid Dining Dollars meal plan cards and save.

When you purchase Dining Dollars, an additional 10% will be loaded onto your Dining Dollars card! For example, if you load \$20 on your card, you will have a \$22 spending balance.

Dining Dollars meal plan cards:

- Are reloadable.
- Offer flexible spending.
- Can be used at Hawkeye Community College's Food Court and Java Hut for food and beverage purchases.
- Can be used to pay for a guest's or your own meal.
- Cannot be used in vending machines or for catering.

With the Dining Dollars program, you know you have money set aside for food, and you also receive a bonus in extra spending dollars!

## Purchasing Dining Dollars

### To purchase a Dining Dollars Card:

- Visit Student Life in the Brock Student Center to pick up your Dining Dollars card.
- Register the card online at the Hawkeye Card Portal.
- Using your card or debit card you can add a minimum of \$20.00 or a maximum of \$100.00 to your Dining Dollars card at one time. You cannot apply your financial aid to add funds to your Dining Dollars card.

### Adding More Money to your Dining Dollars Card:

To add more money to your Dining Dollars card you can:

- Reload your card online with the Hawkeye Card Portal.
- Visit the Hawkeye Card Portal in the Brock Student Center.

Dining Dollars do not expire.

### Refunds/Cancelled Cards

- Refunds of remaining balance will only be made upon written request.
- All refunds will be charged a \$10 processing fee.
- To cancel your card, visit the Brock Student Center. A current photo ID is required.
- A refund of the remaining balance will be issued two to four weeks after you cancel your card.
- Dining Dollars balances carry over to the next semester and only end when you make a request to cancel.

### Lost or Stolen Cards

Report missing cards immediately to the Brock Student Center staff. You must do this in person. Cards cannot be reported missing over the phone or via email.

Hawkeye Community College is not responsible for funds spent before the date the card was reported missing.

You are not responsible for funds that are spent after the card is reported missing. If funds were spent after your card was reported missing, you will receive a refund.

# Student Health

## Immunizations

These immunizations are the recommendation of the American College Health Association and are edited for Hawkeye's use. You can access additional information on recommended immunizations at [www.acha.org](http://www.acha.org).

## Student Life

Student Health Clinic  
319-296-4224  
1-800-670-4769  
ext. 4224

Vaccine	Major Indications
<b>MMR</b> Measles, Mumps, Rubella	All college students born after 1956 without history of disease are recommended to have two doses of MMR vaccine.
<b>Varicella</b> Chicken Pox	All college students without history of disease are recommended to have two doses of varicella vaccine.
<b>Td, Tdap</b> Tetanus/pertussis	All college students are recommended to have a Td or Tdap vaccine within the last ten years.
<b>Hepatitis B</b>	All college students are recommended to have the Hepatitis B series which consists of three immunizations over the course of six months.
<b>Meningitis (Menactra)</b> (A,C,Y,W-135)	All college students living in dormitories/residence halls or close quarters are recommended to have the Meningitis vaccine.
<b>Influenza</b> Flu shot	All college students are recommended to get the flu shot annually.
<b>HPV</b> Human Papillomavirus Vaccine	All female college students up to 26 years old are recommended to get the Human Papillomavirus Vaccine to prevent cervical cancer.

## Accident and Health Insurance

There is an entire menu of health insurance options available through Affordable Care Act. These options are not affiliated with Hawkeye Community College and are available to citizens that meet certain income guidelines or do not currently hold a health insurance policy. For any questions or to sign up go to [www.Obama-care.org](http://www.Obama-care.org) or call 888-484-4292.

International students are required to have accident and health insurance as a condition of their admission. You can contact the International Student Advisor for more information.

## Chronic Communicable Disease Policy

A chronic communicable disease is severe and is spread from person to person through parasites, sexual contact, or exchange of bodily fluids like blood. Unlike a cold, the flu, or other common communicable diseases, chronic communicable diseases may last for months or even a lifetime. Examples include:

- Malaria
- Lyme disease
- Diphtheria
- Hepatitis

Chronic communicable diseases are usually treated through hospitalization, intravenous antibiotics, prescription medication, and intensive care.

## **Students with Chronic Communicable Diseases**

If you have an identified chronic communicable disease, you may attend Hawkeye Community College, with reasonable accommodations, when the small risk of transmitting your disease to others outweighs the effects of excluding you from Hawkeye Community College.

Accommodations will be made in conjunction with current public health department guidelines in regards to your disease. Diseases and individual cases are not prejudged. Decisions are based on the facts of your case.

Decisions of whether you may attend Hawkeye Community College will be made in accordance with procedures put in place by Hawkeye.

Hawkeye Community College will respect your right to privacy. Your medical condition will only be disclosed to the extent necessary to minimize the health risks to you and others. Hawkeye Community College employees who are aware of your condition, will be kept to the minimum number necessary to assure your proper care and to identify situations where the potential transmission of your disease may increase. These employees will be provided with the appropriate information and may not disclose this information.

## **HIV and AIDS Policies**

Hawkeye Community College doesn't discriminate against students for admission or enrollment on the basis of a handicapping condition or medical status.

If you have been identified as having the human immunodeficiency virus (HIV), you will be allowed to attend Hawkeye Community College in an unrestricted setting, unless conditions arise that place you and others at risk of special health hazards. Hawkeye Community College does not prescreen or test students for the purpose of detecting HIV. Your admission, enrollment, or continued attendance will not be based on you providing proof of being HIV free.

The Dean of Students will serve as, or will designate, a spokesperson to act as a liaison to students regarding Hawkeye Community College's policies on HIV and AIDS. Hawkeye Community College employees will be provided with current and accurate information regarding HIV and AIDS.

### **Confidentiality of an HIV-Infected Student**

Information regarding your HIV status is treated as confidential. With your written permission, information will be released to need to know individuals determined by you, your physician, and Hawkeye Community College officials. These individuals will maintain strict confidentiality of your information. Individuals who disclose information are subject to disciplinary action and civil liability.

If, in violation of the policy, you are denied admission to Hawkeye Community College or continued education based on your HIV status, you may appeal the decision to Hawkeye Community College's President. Additionally, a conflict in the release of confidential medical information may be appealed to Hawkeye Community College's President.

# **Student Life Policies**

## **Staff Accessibility**

The Student Life staff maintain an open door policy. The Brock Student Center hours are Monday – Thursday 7:00a.m. – 6:00p.m. and Friday 7:00a.m. – 4:00p.m. Students are encouraged to come by the Student Life office with any questions regarding planning, club/organization operations, handling funds, fundraising, marketing, or any other issues that may arise. Appointments are encouraged and can be scheduled with the Associate Director of Student Life via email, [stephanie.cherry@hawkeyecollege.edu](mailto:stephanie.cherry@hawkeyecollege.edu) or phone 319-296-2329 ext. 1088.

### **Organizational Development**

The Student Life staff is happy to help any club/organization with their development which may include

## **Student Life**

Brock Student Center  
319-296-4027  
1-800-670-4769  
ext. 4027

clarification of purpose, structuring of organization, fundraising ideas, leadership development, team building, conflict resolution, etc.

### **Planning**

Guidelines and deadlines for planning activities are included throughout this manual. Groups are strongly encouraged to set up a yearly calendar of events/activities as early in the fall semester as possible. This will ensure the space and other resources that are needed will be available. This will also ensure your activities are publicized as widely as possible.

### **Student Learning, Multipurpose Rooms and Informational Table**

Any club/organization may reserve the informational table, or The Student Learning and Multipurpose rooms in the Brock Student Center at any time by visiting the website <http://www.hawkeyecollege.edu/about/locations/main-campus/brock-student-center-room-request.aspx> and filling out a reservation form or contacting the Student Life office at [studentlife@hawkeyecollege.edu](mailto:studentlife@hawkeyecollege.edu) or 319-296-4027. All requests must be confirmed by the Student Life staff.

## **Start a Club or Organization**

Hawkeye Community College considers student clubs/organizations an important part of student development. Clubs/organizations provide students the opportunity to:

- Interact with faculty, staff, and students.
- Pursue special interests.
- Learn to work effectively with others.
- Become actively involved in extracurricular activities.
- Gain meaningful life experiences.

### **Documents**

To be formally recognized as a student club/organization on campus, a group must complete and submit the following documents to the Student Leadership Council.

- A proposed constitution, including the purpose, requirements of membership, organizational structure, and proposed objectives or activities.
- Submit a completed Hawkeye Community College Clubs and Organizations Audit form located on the website at <http://www.hawkeyecollege.edu/students/get-involved/default.aspx>.

### **Advisor**

By assuming the advisor role for a club/organization an advisor takes on the responsibility of the club/organization and all events/actions taken by the students. It is the advisors responsibility to assess the risk of the club/organization and activities, as well as, make necessary changes to assure the lowest risk possible or make the college aware of any potential risk for an activity/event. An advisor must be either an employee or faculty member of Hawkeye Community College.

#### **Advisor Duties Include:**

- Attend all general meetings of the club/organization.
- Attend club/organization advisor meetings.
- Be familiar with and comply with the Clubs and Organizations Policies and Procedures Manual.
- Track club/organization member GPAs to ensure they are in good standing. Report to the Student Life office when a member is not in good standing so appropriate action may be taken.
- Help the club/organization President prepare the agenda for meetings.
- Meet with the club/organization's President and/or Executive Board as often as needed.
- Understand institutional requirements for the club/organization. Keep students informed on institutional matter. Explain institutional policy/procedure as questions and issues arise within the club/organization.
- Oversee the club/organization in the daily operations and function of the group.
- Track and approve all spending by the club/organization. Offer financial management advice to the club/organization as needed.
- Provide continuity for the club/organization from year to year. Provide background history and insight into the club/organization.
- Act as a resource to the club/organization and its members.
- Attend programs/events sponsored by the club/organization. While advisors are encouraged to attend all events, such attendance is mandatory only at events that create liability/risk for the club/organization and/or Hawkeye Community College.
- Attend President Luncheons with club/organization members.
- Intervene when knowledge of illegal activity/activities contrary to Hawkeye Community College policy occur.

- Assure the club/organization is in good standing with the Student Leadership Council and that all necessary materials are turned in in a timely manner.
- Challenge club/organization members and officers to think creatively in fulfilling the club/organization's mission.
- Take an active part in formulating goals each year for the club/organization.
- Promote club/organization's activities to other faculty/staff.
- Contact the Associate Director of Student Life at 319-296-2329 ext. 1088 or email [stephanie.cherry@hawkeyecollege.edu](mailto:stephanie.cherry@hawkeyecollege.edu) with any questions related to the position as advisor of a student club/organization.

### Approval

- The club/organization shall send a representative to a SLC meeting at which the recognition of the proposed student club/organization shall be voted on by the SLC.
- The club/organization will be notified of the appropriate SLC meeting by communication from the Student Life Coordinator to the designated group advisor. The club/organization representative will be responsible for answering questions of the SLC relating to establishment of the organization and its purpose.
- Once approved, your club/organization will need to contact Krystal Grady at [krystal.grady@hawkeyecollege.edu](mailto:krystal.grady@hawkeyecollege.edu) or 319-296-2329 ext. 1796 to set up your club website. If you would like an example please feel free to view the SLC page at <http://www.hawkeyecollege.edu/students/get-involved/student-senate.aspx>. The Hawkeye Community College Associate Director of Student Life reserves the right to amend any information not consistent with the mission of the college.

### Types of Student Clubs/Organizations

**Professional and departmental clubs/organizations** are designed for students intending to pursue interests which contribute to their chosen career field and their career development.

Membership for **scholastic honorary clubs/organizations** are based on academic excellence and achievement.

**Service clubs/organizations** are designed for students wishing to contribute to Hawkeye Community College and/or the community.

**Special interest clubs/organizations** are designed for students wishing to pursue a particular interest or vocation.

### Process for Club/Organization Recognition

Official recognition of student clubs/organizations is granted by the Student Leadership Council and Student Life office.

- Clubs/organizations interested in official recognition, funding, and various on-campus privileges must apply to the Student Leadership by filling out the Request for Student Club/Organization Approval and Funding form. This form is also available from the Student Life office.
- New clubs/organizations must draft a constitution in accordance with the guidelines established by Student Leadership and the Student Life office.
- Clubs/organizations must understand and follow the rules, requirements, and policies established by the Student Leadership and Student Life office.

### Maintaining Club/Organization Recognition

Once recognized, clubs/organizations must maintain their active status by:

- Having current constitution and bylaws on file with Student Leadership Council.
- Submitting a current list of officers and members to Student Leadership Council each semester.
- Hold regular meetings, at least one per month.
- Have a Hawkeye Community College faculty or staff advisor who attends meetings and other functions.
- Handle all financial matters competently and make financial records available to the Student Life and the Business Office.
- Have all members of the club/organization in good standing with the College, which includes maintaining at least a 2.0 cumulative GPA and not be on disciplinary probation.

- Have a club/organization member present at the clubs/organization committee meeting to be held on the first Monday of each month at noon in the Brock Student Center.
- Must submit an annual report of activity and spending to the Student Leadership Council by April 30.
- Execute one community service activity per semester. This can be on or off campus.
- Collaborate with other clubs on at least two events each semester.

## **Club/Organization Suspension or Recognition Revoked**

A club/organization's recognition and privileges may be revoked by Student Leadership Council, Student Life office, or the President's office. Clubs/organizations must follow the Process for Club/Organization Recognition to be re-established as a recognized student club/organization. A decision for recognition and privileges to be revoked may be appealed to a review board. The recommendations of the review board are final. The review board will be chosen by the Student Life Director and will be made up of:

- Non-Student Leadership Council representative.
- Faculty representative.
- Staff representative.

## **Student Club/Organization Policies**

### **Advertisement Policies**

Effective ways to advertise your club/organization or events include: fliers, table tents, sandwich boards, Stall Street, PPT (COMLINK) on the Student Center TVs, informational tables and mass emails. For a template of the PPT slide or table tents, please contact the Student Life office at [studentlife@hawkeyecollege.edu](mailto:studentlife@hawkeyecollege.edu) or call 319-296-4027. The Student Life office must approve all forms of advertisement that are posted on campus. If there is a flyer, table tent or other advertisement posted on campus without the Student Life approval stamp it will be taken down immediately. Sidewalk chalk of any kind is not permitted on campus grounds.

### **Contracts**

Students cannot enter into contractual agreements on behalf of Hawkeye Community College or their club/organization.

### **Food on Campus**

Student clubs /organizations can order food through our on campus food court. CL Swanson must be given first opportunity to cater any events on campus. You can pick up a food service order form at the Student Life desk in the Brock Student Center.

### **Financial Information**

Student clubs/organizations are expected to keep an accurate record of their financial activities. For questions or concerns on financial rules and regulations, please seek out Laura Thompson in the Business Office located in the lower level of Hawkeye Center. Clubs/organizations cannot exceed fund balance; any overage will be paid for by the club/organization advisor's department.

If your club/organizations needs to make a purchase for an activity or event there are a couple of options:

- For online or over the phone purchases; clubs/organizations can use the credit card designated to be used only in the Business Office.
- The club/organization advisor can check out the Walmart credit card located in the Business Office.
- Pay for items up front and submit a reimbursement form with all necessary paperwork to the Student Life office. (Student Life encourages clubs/organizations to use this as a last resort option for purchases).

### **On/Off Campus Events**

If your club/organization is planning an event or trip on/off campus, you must notify the Student Life office of the event/activity. In addition, if the event is off campus you need to come to the Student Life office to obtain waivers prior to the trip, even if individuals are not being transported in a college vehicle.

### **Paraphernalia**

Clubs/organizations must have all paraphernalia designs (ex: T-shirts, sweatshirts, tote bags, etc.) reviewed and approved by their advisor and the Student Life office before they can be printed.

### **Raffling and Gambling**

All raffles held by a club/organization must be pre-approved by the Student Life office. All raffles are subject to sales tax paid by the club/organization sponsoring the raffle.

### **Stall Street Submission**

The Stall Street is posted twice a month on the 1<sup>st</sup> and 14<sup>th</sup> during the school year. If your club/organization would like to submit an item into a Stall Street, email Student Life at [studentlife@hawkeyecollege.edu](mailto:studentlife@hawkeyecollege.edu). Due to limited space a rotation may be implemented to ensure all clubs/organizations are given equal opportunities to post in the publication. There will also be a club/organization featured in every issue as well. The Student Life department reserves the right to omit or include any information.

### **Events On/Off Campus**

To plan an event or trip on/off campus, an Event Registration form must be completed prior to the trip. If the event is off campus, travel waivers need to be obtained prior to the trip, even if individuals are not being transported in a college vehicle.

### **Paraphernalia**

Clubs/organizations must have all paraphernalia designs (i.e.: t-shirts, sweatshirts, tote bags, etc.) reviewed and approved by their advisor and the Student Life Department before they can be printed.

### **Raffling and Gambling**

All raffles held by clubs and organizations must be pre-approved by the Student Life office. All raffles are subject to sales tax paid by the group sponsoring the raffle.

### **Advertisement Policies**

Effective ways to advertise on campus include: fliers, table tents, Stall Street, power point (COMLINK) on the campus TVs, and informational tables. For a template of the power point slide or table tents, please contact the Student Life office at [studentlife@hawkeyecollege.edu](mailto:studentlife@hawkeyecollege.edu) or call 319- 296-4027. Student Life must approve and distribute all forms of advertisement posted on campus. If there is a flyer, table tent, or other advertisement posted on campus without the Student Life approval stamp, it will be taken down immediately. Sidewalk chalk of any kind is not permitted on campus grounds.

### **Food on Campus**

Students can order food through our on-campus food court. *Canteen* must be given first opportunity to cater any events on campus. Students can pick up a food service order form at the Student Life office in the Brock Student Center. Food that has been brought in from off campus cannot be sold or distributed to other students on campus due to FDA regulations.

### **Solicitation Policy**

Solicitation of any kind is prohibited on campus.

### **Recruiter and Vendor Guidelines**

With respect to the recruiting efforts of our Armed Forces, four-year colleges and universities, and other informational entities, we reserve the right to determine designated areas and code of conduct while on our campus. If a club or organization would like to set up an information table on campus for promotional purposes, they need approval from Student Life.

All on-campus recruitment activities will be conducted in the following manner:

- All recruiters and vendors must contact the Student Life office to reserve a table in the Brock Student Center a minimum of 48 hours prior to desired date.
- No more than three people will be positioned at the respective table.
- Recruiting and vendor representatives may not solicit students other than at the designated table.
- The distribution of handouts and materials presented must be content neutral and not disrupt daily activities or shock Hawkeye Community College students.
- Recruiting and vendor personnel must not congregate near the entryways.
- Recruiters setting up individual meetings with students must notify the Student Life office 48 hours prior and meet in the Clubs and Organizations room in the Brock Student Center. Student Life will reserve the room.
- Recruiters and vendors may not enter other Hawkeye Community College buildings for recruiting purposes without the permission of the Student Life office.
- Groups and organizations not related to the college may reserve the table only one day per calendar month.
- Giveaways promoting your group or organization may be given to students. The only type of food acceptable is individually wrapped candy.
- We reserve the right to accept or deny any requests.

## Brock Student Center Usage

In an effort to ensure a safe and enjoyable experience for our students, it is required to adhere to the following Brock Student Center policies.

- Disclaimer: In using the Brock Student Center, one is obliged to act in accordance with the social and legal requirements for a public building. If an individual is asked three times to leave the building as a result of misconduct of any kind, the individual will not be allowed to use the Brock Student Center for the remainder of the semester.
- Hours of Operation
  - Academic Year Hours: 7:00a.m.-6:00p.m. Monday through Thursday and 7:00a.m.-4:00p.m. Friday.
  - Summer Hours: 7:30a.m.-4:00p.m. Monday through Friday.
  - All patrons must leave the building at closing time.
  - The Brock Student Center sets building hours for each semester based on student needs. Interim, holiday, and spring break hours are determined by the Associate Director of Student Life.
  - College departments and student clubs and organizations may request the building stay open after regular hours by filling out an after-hours request form. The sponsoring club or organization is responsible for after-hours closing responsibilities. All requests must be approved by the Associate Director of Student Life a minimum of one week prior to the scheduled event.
- Reserving Space on in the Brock Student Center
  - Any student may reserve the informational table, Student Learning Room, and Multipurpose Room in the Brock Student Center or an informational table in a building on campus at any time by visiting the website <http://www.hawkeyecollege.edu/about/locations/main-campus/brock-student-center-room-request.aspx> and filling out a reservation form or contacting the Student Life office at [studentlife@hawkeyecollege.edu](mailto:studentlife@hawkeyecollege.edu) or 319-296-4027. All requests must be confirmed by the Student Life office.
- Prohibited within the Brock Student Center
  - Alcoholic beverages are prohibited.
  - Animals that are not designated service animals.
  - Skateboarding, rollerblading, and the use of bicycles.
- Misconduct that affects the public use or the furnishings and facility thereof will result in asking the offender to leave the building. Such conduct includes but is not limited to:
  - Creating disturbances.
  - Damaging the building and furnishings therein.
  - Using inappropriate language or bodily contact.
- Failure to adhere to Student Life policies may result in the following actions:
  - Hawkeye Community College Student: A report of the incident will be sent to the Dean of Students if an individual is asked to leave the facility. The student will not be allowed to return to the Brock Student Center until a disciplinary decision is made by the Dean of Students Office.
  - Visitor: If a non-Hawkeye Community College student is asked to leave the facility for misconduct, they will not be allowed at the Brock Student Center for no less than two weeks. The length of removal will be determined based on the severity of the incident by the Associate Director of Student Life.
  - Violations of the State of Iowa laws will be reported to the appropriate officials.

## Health Education and Services Center (HESC) Usage

In an effort to ensure a safe and enjoyable experience for our visitors, it is required to adhere to the following HESC policies.

- Disclaimer: HESC staff reserve the right, in its sole and absolute discretion, to revise these policies without notice at any time. For a copy of the most current policies, please visit the front desk or Hawkeye's website.
- Hours of Operation
  - Hours are set for each semester based on student needs.
  - All patrons must leave the building at closing time.

- College departments and student organizations may request the building stay open after regular hours by filling out an after-hours request form. The sponsoring organization is responsible for after-hours closing responsibilities. All requests must be approved by the HESC Manager a minimum of one week prior to the scheduled event.
- Membership Policies:
  - Use of the HESC facility for recreational purposes is limited to approved members. All persons wishing to utilize the HESC for recreation purposes are required to possess and present a current Hawkeye ID. Verification of status may take up to 48 hours after application. The following persons will be granted member status if they are 18 years of age or older, possess a current Hawkeye ID, and sign a HESC Waiver and Release of Liability Form.
- Customary members
  - Students
    - Currently enrolled in at least one academic credit hour.
    - Pay activity fees.
    - In good standings as defined in the Hawkeye Student Handbook.
  - Faculty
    - Current applied science/arts and science full-time instructor (credit).
    - Adjunct instructor for applied science/arts and science for the current Academic semester (credit).
  - Staff
    - Full or part-time employee as defined by Hawkeye Community College.
- Fee-based members
  - Police Academy Students
    - One-time, \$5 card fee.
    - Only during current academy session.
  - Retirees
    - One-time, \$5 card fee.
    - Status to be determined and authorized by the Human Resources Department.
  - Concurrent Enrolled students
    - Fee- Current enrolled credits times \$2.00 activity fee.
      - Must be paid before using the HESC for recreational purposes.
      - Must be paid in cash or check.
    - One-time, \$5 card fee.
    - Must be 18 years of age.
    - Only during current semester.
  - Mount Mercy University students
    - Fee- \$15.00 for every five-week class
      - Must be paid before using the HESC for recreational purposes.
      - Must be paid in cash or check.
    - One-time, \$5 card fee.
    - Must be 18 years of age.
    - Only access during the five-week period while enrolled in classes.
- Sponsored Adult Policies
  - A qualified Hawkeye Community College employee or retiree can sponsor one adult to become a fee-paying member of the HESC. The sponsored adult must reside in the same household as the sponsoring member and be 18 years old or older.
  - Hawkeye Community College employees are defined as follows:
    - Full-time faculty. Current applied science or arts and science instructor for credit.
    - Adjunct instructor. Applied science or arts and science for credit current semester.
    - Staff. Any person who is employed full or part-time by Hawkeye.
  - If the Hawkeye Community College employee is no longer employed at Hawkeye Community College or has his or her HESC membership revoked for any reason, the membership of the sponsored adult automatically cancels with no fees refunded.
  - If the sponsored adult has his or her HESC membership revoked for any reason, the membership of the Hawkeye Community College employee automatically cancels and no membership fees will be refunded.
  - Verification

- Require proof of same address as the sponsoring Hawkeye Community College employee. To prove their address, sponsored adults must show either their driver's license or passport.
  - Official mail stating address, postmarked within four weeks of the current date.
- Rates for sponsored adult
  - Three months: \$54
  - Six months: \$90
  - One year: \$144
- Must be paid in full before a member ID will be issued.
- Must pay with cash or check.
- Sponsored adults will pay the same fees for group fitness classes and personal training sessions as Hawkeye Community College employees.
- HESC for recreational purposes will follow Hawkeye Community College's open/closure policies. When Hawkeye Community College is closed, the HESC is closed to all members.
- Building and General Use Policies:
  - Participation or observation of all HESC programs is strictly voluntary.
  - Participants are encouraged to have a physical examination prior to participating in any activity, particularly if they have any health problems or concerns due to injury, illness, age, or a history of heart disease or high blood pressure, respiratory problems, skeletal or muscular injuries or ailments, or are significantly above their recommended weight based on a standard weight chart.
  - Participants are expected to maintain their own medical and health coverage.
  - If a member is uncertain or unfamiliar with any activity or equipment, he or she should contact a HESC staff member for orientation.
  - Hawkeye Community College is not responsible in any way for accidents or injuries.
  - Violations of HESC policies, Hawkeye Student Conduct policies, or the Employee Manual may lead to removal from the facility, loss of privileges, and/or revocation of membership, and will be reported to the Dean of Students.
  - Effective July 1, 2007 the Iowa Civil Rights Act (Iowa Code Chapter 216) was expanded to add sexual orientation and gender identity to the list of protected classes. Under this law, individual are permitted to access those facilities in accordance with their gender identity rather than their assigned sex at birth, without being harassed or questioned. If a member is uncomfortable in the locker room, please find a Student Life staff member to discuss their needs.
  - HESC staff reserves the right to temporarily remove a user's access until an incident report is complete.
  - Members must adhere to the following policies in order to use the HESC:
    - HESC Waiver and Release of Liability Form must be signed before using the facility.
    - Refrain from inappropriate behavior and the use of profanity.
    - Members may be billed for late, damaged, or lost college equipment utilized by them. Removal of equipment without consent of HESC staff from the facility or designated grounds is not permitted. Minimum fine \$50.00. Hawkeye Community College participates in the State of Iowa Offset Program operated by the Iowa Department of Administrative Service, commonly referred to as the "DAS Offset Program." Outstanding balances will be submitted to this Offset Program.
    - Entry to and exit from the facility must be done at the front desk only. Other exits should be used for emergencies only. Members attempting to help non-members illegally or improperly enter the facilities will have their membership suspended or revoked.
    - All users entering the HESC must present a Hawkeye ID card or sign in using the biometric finger scanner at the front desk.
    - HESC events, credit classes, club sports, and athletics have priority scheduling over open gym hours.
    - The main floor is available on a first-come, first-served basis, as determined by HESC staff.
    - Animals are not permitted in facilities except trained service animals.
    - Only non-alcoholic beverages in closed, re-sealable plastic containers are allowed in activity areas. Food must be contained to the lounge area unless permitted otherwise.

- Appropriate, clean, closed-toe, non-marking, athletic shoes are required in all activity areas. Street shoes, flip flops, and Crocs are not allowed. Vibram shoes are allowed on the track but not in the weight room.
  - Proper attire, including shirts and shoes, are required at all times.
  - Bicycles, skateboards, unicycles, and in-line skates are prohibited.
  - Hanging from basketball rims or nets is prohibited.
  - Using cameras, cell phones, or any other electronic devices in the locker rooms and restrooms is strictly prohibited.
  - Neither the HESC nor its staff are responsible for lost or stolen items.
  - All members may use day-use lockers, but contents and locks must be removed on a daily basis unless rented for the semester.
  - Spitting is prohibited unless done in spitting receptacles.
  - Members are expected to be responsible, courteous, and safety-conscious at all times. Any member, who is found guilty of stealing or damaging property, is verbally or physically abusive toward another person at the HESC, or whose presence is determined by HESC administration to be detrimental to the best interests of the facility, may have his or her membership suspended or revoked.
  - Accidents and incidents occurring in the facility, no matter how minor, should be reported to HESC staff as soon as possible.
- **Weight Room Policies**  
In addition to the building and general use policies, members utilizing the weight room will adhere to the following policies:
    - Weights and weight stacks may not be slammed or dropped.
    - Use spotters when using free weights.
    - Gym chalk is not permitted.
    - Use collars with all bars in free weight lifting stations.
    - Tape is not allowed on any equipment.
    - No snatches, clean and jerk, or overhead press are allowed.
    - All open wounds must be completely covered while using equipment.
    - During peak hours, or while others are waiting, limit your workout on the cardio equipment to 30 minutes.
    - Notify staff immediately if you notice any broken, damaged, or unsafe equipment.
- **Track Policies**  
In addition to the building and general use policies, members utilizing the track will adhere to the following policies:
    - No food or beverages are permitted on the track. Only non-alcoholic beverages in closed, re-sealable plastic containers are allowed on the area adjacent to the track. Food must be contained to the lounge area unless permitted otherwise.
    - Walkers use inside lane.
    - No more than two runners or walkers side by side.
    - Use caution when changing lanes.
    - Follow the flow of runners. Even days walk/run clockwise and odd days walk counter-clockwise.
    - No spitting on the track. Please use trash receptacles.
    - No spectators on the track.
    - 1 lap = 0.06 mile, 1 mile = 15 laps
- **Equipment Checkout**  
Recreational equipment is available for check out at the front desk.
    - Members are eligible to use this service upon the presentation of their Hawkeye ID card. Members will be given the equipment and a HESC-only card allowing them access to the locker room.
    - Their Hawkeye ID is returned once the HESC-only card and equipment is returned to the front desk.
    - Equipment may be used inside or outside the HESC facility.
    - A replacement charge will be assessed for lost or damaged equipment.
    - If a sponsored adult fails to return equipment, the fee will be placed on the Hawkeye employee's account.

- Failure to pay this fine will result in a charge assessed to the user's college account.
  - Minimum fine \$50.00. (Hawkeye participates in the State of Iowa Offset Program operated by the Iowa Department of Administrative Service, commonly referred to as the "DAS Offset Program." Outstanding balances will be submitted to this Offset Program.)
- **Personal Training and Group Fitness Policy**  
Guidelines for trainers/instructors
    - Personal training and group fitness classes on the Hawkeye Community College premises are restricted to trainers and instructors hired by Hawkeye Community College.
    - Any participant who is conducting or is suspected of conducting personal training or group fitness classes with members in the HESC and who is not a HESC employee will have membership privileges reviewed and/or revoked.
- **Guidelines for trainees/participants**
    - All required forms must be completed, current, and on-file prior to each session/class. Forms may expire as indicated or as medical history or payment method changes.
    - **Refund Policy:** Once a group fitness class or personal training session or package is purchased, no refund will be given. If you purchase a group fitness class or personal training and cannot finish the sessions due to health issues, you are eligible for a refund for unused sessions minus a \$5 processing fee. You must provide documentation from your physician to receive this refund. This refund is based upon the approval from the HESC administration.
    - **Expiration Policy:** Personal training sessions expire three months from the date of purchase.
    - **Cancellation Policy:** Personal trainer must be notified two hours in advance of scheduled sessions. You must receive confirmation of cancellation from the trainer. If you do not appear for a scheduled appointment or fail to give two hour notice, you will be charged for the full session. Please call if you are going to be more than five minutes late for a session. Personal trainers will only wait 15 minutes for late arrivals, and your sessions will start from the time agreed upon.

## Children at the Brock Student Center and HESC

Hawkeye Community College is an educational institution that strives to create an environment most conducive to teaching and learning for all enrolled students. As a general rule, children\* will not be permitted in the classroom or in any other areas of the Brock Student Center or HESC where their presence may interfere with the learning or work environment or may jeopardize the safety of themselves or others.

Hawkeye Community College has established the following policies concerning children at the Brock Student Center and HESC:

- Children may visit certain college offices and facilities only for limited periods of time when their parent or guardian is conducting routine business at the college and the children are not disruptive. However, regular or repeated visits by children are never permitted.
- Children who are taking part in organized, scheduled activities or who are enrolled in specific classes are welcomed.
- Children may never be left unsupervised and must remain in the line of sight of their parent or guardian.
- Should children be left unsupervised, staff will call Public Safety.
- Should children become disruptive, the student and children may be asked to leave the facility.
- Children are not permitted in classrooms, except when the child's presence is necessary for classroom activities and only with prior approval of the faculty member.
- Students who have issues with care for their children should contact the Student Life office to receive referrals to childcare services in the area.
- Hawkeye Community College assumes no responsibility or liability for children.

\* For the purpose of these policies, children are defined as any youth under the age of 18 who are not officially registered in a Hawkeye Community College course.

# Weather and Emergency Information

## Weather and College Emergencies

Classes may be cancelled or delayed due to severe weather or maintenance situations such as shutdown of electricity or water.

Always use your best judgment when determining to attend classes during severe weather conditions. If you choose not to attend, it is your responsibility to contact your professors.

### Delayed Starts for Students

When Hawkeye Community College opens late, you should plan to begin your schedule at the late-start time. For example, if we open at 10:00 a.m., a class that would normally begin at 9:30 a.m. will start at 10:00 a.m. for a shortened class period. Normal class times will then resume. You will have access to campus starting at 9:30 a.m.

In the event of an emergency or severe weather, Hawkeye Community College will communicate information using the following methods:

- Sign up for Hawkeye Alert voice, text, or email notifications at [www.hawkeyecollege.edu/emergency/hawkeye-alert](http://www.hawkeyecollege.edu/emergency/hawkeye-alert).
- Check the Hawkeye website at [www.hawkeyecollege.edu](http://www.hawkeyecollege.edu).
- Call the Hawkeye Alert and Information Line at 319-296-4444.
- Listen to or check websites of local radio and television stations.

## Hawkeye Alert

The Hawkeye Alert system will notify you of college closings and cancellations due to emergency situations such as severe weather, hazardous material incidents, and immediate dangers.

In the event of an emergency, the Hawkeye Alert system will send a voice or text message to your phone or an email within minutes.

### Your Hawkeye Alert Contact Information

All current credit students, faculty, and staff automatically have their primary phone number, mailing address, and Hawkeye email address on file in their student or employee record loaded into the Hawkeye Alert system. Please log-in to verify your contact information and add text messaging, additional phone numbers, or email addresses that you would like to be contacted in the event of an emergency or severe weather.

Please note:

- Only current credit students, faculty, and staff can log-in to the Hawkeye Alert system.
- You will automatically be removed from the Hawkeye Alert system when you leave the college or graduate.
- Hawkeye Alerts are intended for people on or near campus. These emergency notifications may not be appropriate for everyone.
- Hawkeye Alert will contact every phone number and email address you include in your profile.
- If you choose to be notified via text message, regular text messaging rates will apply. Please check with your cell phone provider about your text messaging plan and any costs associated with incoming text messages.
- Hawkeye Community College tests the Hawkeye Alert system at the beginning of each semester. If you do not receive a Hawkeye Alert on the scheduled test date, please log-in to verify your contact information is correct.
- We do not sell, lease, share, or rent personally identifiable information (names, addresses, phone numbers, email addresses, etc.) to any companies or persons outside of Hawkeye Community College. Contact information you provide in your Hawkeye Alert profile will only be used to notify you of a college emergency or college closing.

### Hawkeye Alert and Information Line

319-296-4444

## Media Announcements

College closings and cancellation announcements will be sent to the Waterloo-Cedar Falls Courier website and the following television and radio stations and their websites.

### **Television Stations**

- KWWL - Channel 7 Waterloo (NBC)
- KCRG - Channel 9 Cedar Rapids (ABC)
- KGAN - Channel 2 Cedar Rapids (CBS)

### **Radio Stations**

- KFMW – 107.9 FM (Rock 108)
- KOKZ – 105.7 FM (Cool 105.7)
- KXEL – 1540 AM (News/Talk 1570)
- KWLO – 1330 AM (Star 1330)
- KCVM – 93.5 (The Mix)
- KCNZ – 1650 AM (1650 The Fan)
- KCRR – 97.7 FM (97.7 KCRR – The Classic Rock Station)
- KKHQ – 92.3 FM (Q92.3)
- KOEL – 98.5 FM (K-98.5)
- KOEL – 950 AM
- KZIA – 102.9 FM (Z102.9)
- KBBG – 88.1 FM
- KNWS – 101.9 FM (Life 101.9)
- KNWS – 1090 AM
- KFJB – 1230 AM
- KXIA – 101.1 FM (KIX 101.1)
- WMT – 96.5 FM (Mix 96.5)
- WMT – 660 AM
- KWAY – 99.3 FM (Y99.3)

## Emergency Desktop Notifications

During an emergency situation all Hawkeye Community College computers that are logged onto the Hawkeye Community College network will receive pop-up notifications with critical emergency information.

# Lost and Found

Lost and Found is maintained at the Business Office and the Health Education and Services Center. Lost items will be kept for 30 calendar days. After this time, the Student Services office will donate the items to a local non-profit organization.

Hawkeye Community College is not responsible for lost or found items.

## **Business Services**

**The Hawkeye Community College Student Handbook is not a contract, but is intended solely to give students a description of student practices at Hawkeye Community College and may be withdrawn, revised, or amended at any time. In all cases, the version available at <http://www.hawkeyecollege.edu/students/handbook/default.aspx> will be the final authority regarding college policies and procedures. Questions regarding the Student Handbook should be directed to David Ball, Director of Admissions, Student Life, and Athletics, or Stephanie Cherry, Associate Director of Student Life.**

**Appendix S:**  
**Required Information**  
**for Students and the Public**  
**on Programs, Fees, & Policies**

The College Webmaster & Marketing Coordinator work closely with the Director of Institutional Research and Accreditation to ensure up-to-date information is maintained and documented accordingly regarding all credit programs and credit course offerings. The College website allows for historical versioning of the College Catalog and course descriptions. To assist in ensuring the information is current, the positions named all use the College curriculum and workflow web-based program, CurricUNET. Users are notified of proposed curriculum changes and an auto-generated email goes to identified internal constituents when course and program approvals have been approved internally and by the Iowa Department of Education. These auto-generated notifications have proved invaluable with regard to timeliness of information and to also ensure the information is updated at the documented time.

An example of the auto-generated email is shown here. The color coding is provided to allow recipients to quickly see what is new (green font), what is being modified (gold font), and what is being inactivated (red font). Implementation dates ensure updates are made accordingly on the website and any printed marketing materials. This helps to produce an up-to-date website for both current and prospective students and the general public regarding the College's credit course and program offerings.

College Webmaster & Marketing Coordinator highlighted in purple in "TO" as recipients of this information

Additional internal constituents receiving the information include: Registrar, Program Advisors, Liberal Arts Advisors, Deans, Program Department Secretaries, Financial Aid Office, Faculty Curriculum Co-Chairs, Admissions Office, Dean of Student Services, Vice President of Academic Affairs, and Institutional Research

Annually the Vice President of Academic Affairs solicits program and course fee information from the academic deans and program faculty. This information is compiled and reported to both the College Webmaster and Director of Business Services. These individuals use the information to update the Program Courses page which include any applicable course fees and also update the information in the student record system to ensure accurate student invoices are generated for the new academic year.

Here is an example viewable by current and prospective students and the general public regarding associated course fees:

<http://www.hawkeyecollege.edu/academics/programs/health/associate-degree-nursing/courses.aspx>

**Associate Degree Nursing Courses**

Award: Associate of Applied Science (AAS)  
 Required number of credits: 38  
 Enrollment Status: Full-time only  
 Program Start: Fall, Spring

The Nursing: Associate Degree Nursing program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

**2016–2017 Suggested Sequence of Study and Course Cost**  
 Courses and course cost calculations are subject to change.

**Required Background Screenings to Participate in Clinicals**  
 As a student in a health program at Hawkeye Community College you will be required to complete:

- a criminal background check,
- sex offender registry,
- child abuse registry, and
- dependent adult registry.

The outcome could possibly affect your opportunities to participate in the clinical setting.

**Program Course Notes**

- Students must achieve a minimum "C" grade in all courses that are required to complete the program.
- Students may complete general education courses, marked with the gen ed icon **GEN ED**, prior to full admission into the program.

Semester 1		Tuition & Fees	
ADN121	Transition to Professional Nursing	2	\$337.00
ADN122	Advanced Nursing Skills	2	\$337.00
ADN123	Physical Assessment	2	\$1280.00
ADN281	Diet Management	1	\$188.50
ADN531	Advanced Adult Health Nursing I	6	\$1011.00
<a href="#">View Course Descriptions</a>		<b>Total Credits 13</b>	

A statement is provided to students on the Cost per Credit Hour page about additional fees that may be associated with courses.

#01  
50+ Programs

“ OUR INSTRUCTORS ARE GREAT BECAUSE THEY WERE IN THE INDUSTRY. THEY’VE BEEN THROUGH IT ALL AND HAVE SEEN EVERYTHING. ” — Cody Engen, Automotive Technology, 2016

#02  
Real-World Knowledge

Sustainable Construction & Design program students built a tiny house, using a unique project to gain real-world experience. The house gained national attention, and even caught the eye of producers at HGTV.

#03  
Hands-On Learning

#04  
Unique Opportunities

“ THE INSTRUCTORS UNDERSTAND WE’RE STUDENTS. THEY EXPLAIN HOW THINGS WORK AND WHY WE DO THINGS A CERTAIN WAY. WE LEARN BY DOING — AND IT MAKES IT THAT MUCH EASIER TO LEARN. ” — Ziana Glew, Sustainable Construction & Design, 2017

#05  
Hawkeye-UNI Partnership

- Participate in clubs, organizations, marching band, ROTC, etc.
- Transfer as a junior to complete your degree in four years
- Live in the UNI dorms — just 15 minutes from Hawkeye
- Scholarships available just for transfer students
- Discounts to UNI events with the Panther Pass

#06  
Transfer Made Easy

**SAVE MONEY BY STARTING YOUR FOUR-YEAR DEGREE AT HAWKEYE.** Programs like the 2+2 Guaranteed Graduation Plan (University of Iowa) and the Admissions Partnership Plan (Iowa State University and the University of Northern Iowa) make for seamless transfer of your Hawkeye credits to complete your bachelor’s degree.

#07  
Study Abroad

More than 100 Hawkeye students have studied abroad since 2007, visiting nine countries: Brazil, China, Dominican Republic, Haiti, Ireland, Italy, Japan, South Korea, and Russia.

#08 #09  
Flexible Schedules Minimesters  
Take a class online, in the evening, or even in a three-week **Minimester** between semesters.

Get **hands-on training** in two years or less with one of our technical programs, or complete the first two years of your bachelor’s degree. From Accounting to Veterinary Assisting, Hawkeye has the programs to fit your needs.

\*Night option available. \*\*Online option available. \*\*\*Includes only in-state tuition, student activity fee, and computer fee. +Additional program admission requirements. // Students can usually start at any time of the year in related course work. For more information, contact an advisor.

#10  
Personal Attention

“ I HAVE ATTENDED OTHER COLLEGES,  
AND I HAVE NEVER HAD AN INSTRUCTOR  
AS DEDICATED TO MAKING SURE YOU  
UNDERSTAND THE INFORMATION. ”

– Amber Wolken, Respiratory Care, 2016

#12  
Support Networks

Students work with a **dedicated academic advisor** to chart their academic plan. The **Student Tutoring and Computer Lab** includes 80+ computers and professional tutoring, plus a wide variety of other services to meet your needs, including computer and study skills workshops.

#13  
Dedicated Academic Advisors

#14  
Student Tutoring  
& Computer Lab

The **Student Health Clinic** provides support for students who are sick, managing chronic health problems, or working to develop a healthier lifestyle. An advanced registered nurse practitioner and a mental health counselor are on staff to meet the diverse needs of college students.

#15  
Student Health Clinic

#16  
Career  
Services

Explore career options, search for jobs, build your resumé, hone your interview skills — the **Career Services Center** will help you prepare for success. Career Services also hosts **Career Fairs** on campus, bringing more than 100 employers to Hawkeye each year looking to hire new graduates.

#17  
Career  
Fairs

#18  
Our  
Campus

#19  
Virtual  
Hospital

#20  
Dental  
Clinic

The Van Gerpen Patient Simulator Lab is a **Virtual Hospital** with 18+ patient simulators. Using cutting-edge technology, the lab replicates a broad range of hospital settings, including emergency room, intensive care, labor and delivery, and exam rooms. The **Dental Clinic** provides students with hands-on experience under the supervision of professional faculty. Low-cost dental services are available to the public, with screenings to provide students with learning experience and the community with high-quality dental services.

#21  
Innovation

#22  
Technology

#23  
Library

Hawkeye uses state-of-the-art **technology** in the classroom and beyond. From truck driving and heavy equipment simulators to the iPad and WiFi hot spot checkout program in the **Library**, technology is not only integrated into learning, but accessible to students at all levels.

#24  
Farm Lab

#25  
Meat Lab

Hawkeye's 400-acre working farm gives students hands-on experience with livestock and crop production. Hawkeye is the only community college in Iowa with a full-service **Meat Lab**.

“I WAS VERY INVOLVED ON CAMPUS, AND I LOVED IT. I FELT LIKE I BELONGED.”

— Sarah Ludwig,  
Liberal Arts Transfer,  
2016

## #26 Student Life

Get involved on campus with more than 30 clubs and organizations, including STEM Club, Student Leadership Council, Criminal Justice Club, Education Club, Photography Club, and much more. Take part in a club that fits your interest or work with **Student Life** to create your own!

## #27 Brock Student Center

Hawkeye hosts many events on campus, bringing the college community together for food, activities, music, and fun! Almost every week you can stop by the **Brock Student Center** for activities like Grocery BINGO, gingerbread house contests, and more.

## #28 Dining Dollars Card

The student center is home to the Food Court, where you can get a hot meal or grab a snack on the go. For every \$10 you add to your **Dining Dollars Card** you get \$1 added for free.

## #29 Arts and Culture

Earn college credit as a member of the chorus or a drama production, enter work in the Student Art Show, or attend one of the many events on campus, including Ethnic Culture Fest, Films on Fridays, etc. Students also get free admission to select Artist Series productions, which include musicals, comedies, and solo and group music acts.

## #30 Student Leadership

Groups like the **Student Leadership Council** and Phi Theta Kappa Honor Society regularly plan ways to get involved and give back.

Receive discounts at dozens of local restaurants and stores by using your **Hawkeye Card**.

## #31 Hawkeye Card

## #32 Holiday Hoopla

## #33 Fall Fest

**HAWKEYE**  
COMMUNITY COLLEGE

The **Hawkeye Redtails** are competing against other community colleges across the state in **Sports Shooting** and **Soccer**. Hawkeye also has club sports, including **Golf** and **Dance**. Prefer to stay in the stands? Join **Rusty the RedTail** and cheer the team to victory at one of the home games.

**#34**

Discover how you can start yours — Experience Hawkeye  
**319-296-4000 OR WWW.HAWKEYECOLLEGE.EDU/GO/VISIT**

## STUDENT CHECKLIST

### Apply

- Create an admissions account** at [www.hawkeyecollege.edu/go/admissions](http://www.hawkeyecollege.edu/go/admissions).
- Complete an admissions application** online.
- Complete an assessment.** The ACT, COMPASS, ASSET, SAT, and ACCUPLACER assessments are accepted for admission to Hawkeye.
  - If you have completed an assessment, request your **official** scores be sent to the Admissions office.\*
  - If you need to take an assessment, call Student Services at 319-296-4014 to schedule an Accuplacer assessment.
  - Assessment scores will be used to place you in coursework at Hawkeye. To find out placement based on your assessment scores, visit [www.hawkeyecollege.edu/go/assessment-scores](http://www.hawkeyecollege.edu/go/assessment-scores).
  - Some programs require specific scores. Review admission requirements for your program at [www.hawkeyecollege.edu/academics/programs](http://www.hawkeyecollege.edu/academics/programs).
- Have official transcripts** sent to the Admissions office.
  - Official high school transcripts showing graduation and/or GED or HiSET scores must be sent.\*
  - If you have taken college-level classes and would like to receive possible credit, you will need to have your previous college(s) send an official college transcript.\*

### After You Apply

- Apply for financial aid** online at [www.fafsa.gov](http://www.fafsa.gov). Don't forget to add Hawkeye Community College (004595). If you need assistance completing the FAFSA, contact the Financial Aid office at 319-296-4020.
- Complete the Hawkeye scholarship application** online at [www.hawkeyecollege.edu/go/scholarships](http://www.hawkeyecollege.edu/go/scholarships).
- Find housing.** Check out housing options online at [www.hawkeyecollege.edu/students/housing](http://www.hawkeyecollege.edu/students/housing).

### After You're Accepted

- Set up your My Hawkeye account**, your online access to personal college information. You will receive directions with your acceptance letter on how to set up your account. If you need assistance, call the Student Tutoring and Computer Lab at 319-296-4029.
- Attend a Mandatory Orientation and Registration Experience (MORE) session to register for classes.** You will receive an email in your My Hawkeye account on how to sign up for a MORE session. If you need assistance, call Student Services at 319-296-4014.

\* Transcripts and test scores received directly from the student are not considered official.

# WHY HAWKEYE? ASK OUR STUDENTS

## TE'SHEA BURT

BUSINESS  
ADMINISTRATION, 2015

Waterloo, Iowa

"The instructors here actually care. They're approachable and if you're having trouble in class it's easy to talk to them. The one-on-one communication is just awesome."

## CODY ENGEN

AUTOMOTIVE  
TECHNOLOGY, 2016

Cedar Falls, Iowa

"I love going to class. A lot of our work is hands on and the instructors are great because they were in the industry."

## LUKE BENJEGERDES

CIVIL AND CONSTRUCTION  
ENGINEERING TECHNOLOGY, 2015

West Union, Iowa

"This is a great program! There are a lot of good-paying jobs in my field."

# HAWKEYE'S PARENT GUIDE TO PLANNING FOR COLLEGE

PARENT SUPPORT NETWORK

## FIRST STEPS

### CHECK OUT THE OPTIONS

Encourage your student to meet with his or her school counselor about college options. Hawkeye offers more than 50 programs to help your student find the right fit. Call the Admissions office at 319-296-4000 to schedule a visit.

### GET ORGANIZED

Categorize each college's information in a file folder to aid your student in making his or her college decision.

### BE SUPPORTIVE

Choosing a college can be one of the most difficult decisions a student will have to make. Be supportive and help your student set goals and plan for the future.

### START TALKING ABOUT COLLEGE COSTS.

Agree on a budget for who's going to cover the expenses.

### SCHEDULE A COMPASS ASSESSMENT

Encourage your student to register for the ACT or a COMPASS assessment. The COMPASS assessment is an untimed, multiple-choice assessment of reading, writing, and math skills. Contact Student Services at 319-296-4014 to schedule a COMPASS assessment.

### TALK TO US

Encourage your student to meet with a Hawkeye admissions representative at his or her high school or call 319-296-4000 to talk with an admissions representative or schedule a one-on-one meeting.

## OCTOBER – DECEMBER

- Visit Hawkeye. Sign up for an Experience Hawkeye Visit Day or an individual visit online at [www.hawkeyecollege.edu/go/visit](http://www.hawkeyecollege.edu/go/visit) or call 319-296-4000.
- Encourage your student to register for the ACT test or a COMPASS assessment, if your student hasn't already done so.
- Stay up-to-date on the admissions process. Your student can apply at [www.hawkeyecollege.edu/go/apply](http://www.hawkeyecollege.edu/go/apply).
- Attend high school financial aid night, if available. If your high school does not have one, contact the Financial Aid office at 319-296-4020 for more information.
- Find a place to call his or her own. Check out Hawkeye's housing options at [www.hawkeyecollege.edu/students/housing](http://www.hawkeyecollege.edu/students/housing).

## JANUARY – MARCH

- Attend high school financial aid night, if available. If your high school does not offer one, contact the Financial Aid office at 319-296-4020 for more information.
- Apply for financial aid. Submit the Free Application for Federal Student Aid (FAFSA) at [www.fafsa.gov](http://www.fafsa.gov) after January 1.
- Encourage your student to apply for Hawkeye scholarships online at [www.hawkeyecollege.edu/go/scholarships](http://www.hawkeyecollege.edu/go/scholarships). The deadline for fall scholarships is March 1. By completing one form, your student can apply for dozens of scholarships at Hawkeye. More than \$355,000 in scholarships were awarded to students during 2014-2015, averaging nearly \$880 per student.

## GOT QUESTIONS? GET ANSWERS!

Hawkeye's admission reps are here to help you. Give us a call at 319-296-4000 or email us at [admission@hawkeyecollege.edu](mailto:admission@hawkeyecollege.edu).

## APRIL – MAY

- After graduation, send official high school transcript to Hawkeye.
- If your student took college-level courses during high school and would like to receive possible credit, your student will need to have his or her previous college(s) send an official college transcript.
- If accepted, encourage your student to attend a Mandatory Orientation and Registration Experience (MORE). He or she will receive an email in his or her My Hawkeye account on how to sign up for a MORE session.
- Help your student finalize housing.

## JUNE – AUGUST

- Encourage your student to attend a required MORE session, if your student hasn't already done so.
- Finalize financial aid, if needed.
- Buy textbooks.
- Help your student move into his or her housing.

## ☑ CHECKLIST

## SIGN UP FOR AN EXPERIENCE HAWKEYE VISIT DAY

or schedule an individual visit just for you.

[www.hawkeyecollege.edu/go/visit](http://www.hawkeyecollege.edu/go/visit)  
319-296-4000

### APPLY

- ☐ **Complete an admissions application** online at [www.hawkeyecollege.edu/go/apply](http://www.hawkeyecollege.edu/go/apply).
- ☐ **Complete an assessment.** The ACT, COMPASS, ASSET, SAT, and ACCUPLACER assessments are accepted for admission to Hawkeye.
  - If you have completed an assessment, request your **official** scores be sent to the Admissions office.\*
  - If you need to take an assessment, call Student Services at 319-296-4014 to schedule a COMPASS assessment.
  - Assessment scores will be used to place you in coursework at Hawkeye. To find out placement based on your assessment scores, visit [www.hawkeyecollege.edu/go/assessment-scores](http://www.hawkeyecollege.edu/go/assessment-scores).
  - Some programs require specific scores. Review admission requirements for your program at [www.hawkeyecollege.edu/academics/programs](http://www.hawkeyecollege.edu/academics/programs).
- ☐ **Have official transcripts** sent to the Admissions office.
  - Official high school transcripts showing graduation and/or GED or HiSET scores must be sent.\*
  - If you have taken college-level classes and would like to receive possible credit, you will need to have your previous college(s) send an official college transcript.\*

\* *Transcripts and test scores received directly from the student are not considered official.*

### AFTER YOU APPLY

- ☐ **Apply for financial aid** online at [www.fafsa.gov](http://www.fafsa.gov). Don't forget to add Hawkeye Community College (004595). If you need assistance completing the FAFSA, contact the Financial Aid office at 319-296-4020.
- ☐ **Complete the Hawkeye scholarship application** online at [www.hawkeyecollege.edu/go/scholarships](http://www.hawkeyecollege.edu/go/scholarships).
- ☐ **Find housing.** Check out housing options online at [www.hawkeyecollege.edu/students/housing](http://www.hawkeyecollege.edu/students/housing).

### AFTER YOU'RE ACCEPTED

- ☐ **Set up your My Hawkeye account**, your online access to personal college information. You will receive directions with your acceptance letter on how to set up your account. If you need assistance, call the Student Tutoring and Computer Lab at 319-296-4029.
- ☐ **Attend a Mandatory Orientation and Registration Experience (MORE) session to register for classes.** You will receive an email in your My Hawkeye account on how to sign up for a MORE session. If you need assistance, call Student Services at 319-296-4014.

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; marital status; sexual orientation; gender identity; genetic information; political affiliation or belief in its employment practices; educational programs and activities; admission procedures; outreach and recruitment; counseling and guidance; testing; selection, placement, appointment, and referral; or promotion/retention. Veteran status in educational programs, activities, employment practices, or admission procedures is also included to the extent covered by law. Students, prospective students, employees, or applicants for employment alleging a violation of equity regulations shall have the right to file a formal complaint. # NO BETTER TIME

---

95%

More than 95% of businesses and organizations employ community college graduates.

20%

According to the U.S. Department of Labor, workers with a two-year degree earn, on average, 20% more than those with only a high school diploma.

68%

By 2020, more than 68% of jobs in Iowa will require some postsecondary education.

45%

They also have 45% lower unemployment than those with no college education.

---

*“I finally got to the point where I wasn’t getting ahead. I had to stop and get my education and get a career. I took the time to do that, and I’m glad I did. I just wish I had done it sooner.”*

Felecia Waters, Respiratory Care

## WE'RE HERE TO HELP

If you're thinking about college, the first step is in your hands. Meet with one of our admissions representatives, or attend one of our evening workshops — either way, Hawkeye will help you determine what you need to meet your personal education and career goals.

Hawkeye has more than 50 career and transfer programs, with many providing seamless transfer options to many four-year colleges and universities, including the University of Northern Iowa. Many programs include certificate and diploma programs that can be earned in as little as one semester, and opportunities for internships, clinicals, and field experience give students an edge in a competitive job market.

## COLLEGE PLANNING SESSION

Schedule a personalized planning session with a Hawkeye admissions representative. We'll talk about programs, the application process, financial aid options, and put together a plan to help you achieve your goals.

Call 319-296-4000

Email [admission@hawkeyecollege.edu](mailto:admission@hawkeyecollege.edu)

Visit the Admissions office in Hawkeye Center on Main Campus

### REGULAR HOURS

Monday	8:00 a.m. – 4:30 p.m.
Tuesday	8:00 a.m. – 4:30 p.m.
Wednesday	8:00 a.m. – 6:00 p.m. – Extended hours for your convenience
Thursday	8:00 a.m. – 4:30 p.m.
Friday	8:00 a.m. – 4:30 p.m.

# NO BETTER PLACE

---

**15:1**

student-faculty ratio

**2,378 student access computers**

---

*“The Veteran Service Center was amazing in handling my GI Bill. The smaller class sizes are really nice. The professors I worked with were approachable and wanted me to succeed.”*

Kip Woods, Liberal Arts

## PERSONAL

With an average class size of 15, instructors know you by name and give you the personal attention you want. Your academic advisor works closely with you to ensure your education is on track to start your new career or transfer to the four-year college of your choice.

## SUPPORT

The Student Tutoring and Computer Lab offers professional tutoring services, with more than 80 computers and a variety of supports to meet your needs. Advising and counseling services are available to help you work through life's headaches and keep you on course.

Are you active military or a veteran? Our Military and Veteran Services office will help you utilize the programs and benefits available to you.

## SUCCESS

The Career Services Center can help you explore career options, including job searches, resume writing, interview tips, and career decision making. Located in Bremer Hall, they also maintain a job board for opportunities both on campus and with area employers.

Call 319-296-4297

Email [careerservices@hawkeyecollege.edu](mailto:careerservices@hawkeyecollege.edu)

## FLEXIBLE

Whether you're looking for a short-term certificate program or to start on the path to a bachelor's degree, Hawkeye offers options to help you meet your career goals. Day, evening, hybrid, accelerated, and online classes work with your busy schedule.

- **ONLINE CLASSES** give you the flexibility to access courses at any time and in any place you can connect to the web.
- **EVENING CLASSES** usually meet once or twice a week and can be from five to 16 weeks in length.
- **HYBRID CLASSES** combine face-to-face meetings and online coursework, usually for a shortened term of five, eight, or 10 weeks.
- **ACCELERATED CLASSES** are evening hybrid classes of five or 10 weeks in length. They're designed for adult students who plan to earn an associate degree.

“

*The accelerated format, evening and weekend schedules, and friendly transfer program offered by Hawkeye allowed me to fulfill my lifelong dream of obtaining my bachelor's degree in business management! As a working professional, I was able to balance a full-time career, personal life, and classes in pursuit of that dream.*

Monique Eldridge, Liberal Arts

”

## AFFORDABLE

At just \$159.50 per credit hour\*, **our tuition is the lowest in the Cedar Valley** to help you gain the skills for a new career without breaking the bank.

## RESULTS

Training beyond high school is increasingly a requirement for good-paying jobs. **By 2020, nearly 7 out of 10 jobs in Iowa will require some postsecondary education.** Hawkeye can prepare you for a skilled career in two years or less, earning on average 20% more than individuals with only a high school diploma.

*\*2015-2016 cost per credit hour. Subject to change.*

A black and white photograph of a man with a goatee, wearing a dark hoodie, looking intently at a server rack. He is holding a flashlight that is directed at the equipment inside the rack. The server rack is filled with various cables and components. The background is slightly blurred, showing more of the server environment.

# NO BETTER REASON

---

*“You have to have knowledge, you have to have a direction, and you have to have a career. Hawkeye offered me a door to all of it.”*

Kent Zingg, Heating and Air Conditioning

A black and white photograph of two women in a greenhouse. The woman on the left has short dark hair and a tattoo on her right arm. The woman on the right has long blonde hair and glasses. They are both looking down at a small plant held by the woman on the right. The greenhouse structure is visible in the background.

# YOUR GOALS ARE AFFORDABLE

*“Hawkeye didn’t set me behind financially. I don’t have to work until I retire just to pay off my education.”*

Diane Heller, Occupational Therapy Assistant

# FINANCIAL AID IS AVAILABLE

Hawkeye offers eligible students federal and state financial aid, including grants, loans, and work-study, based on the Free Application for Federal Student Aid (FAFSA). The FAFSA is available at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). If you would like assistance with the application process, contact our Financial Aid office.

Call 319-296-4020 or text hawkeye aid to 66746

Email [finaid@hawkeyecollege.edu](mailto:finaid@hawkeyecollege.edu)

Visit the Financial Aid office in Hawkeye Center on the Main Campus  
*No appointment is necessary to get assistance.*

## SCHOLARSHIPS

You can also apply for scholarships online at [www.hawkeyecollege.edu/go/scholarships](http://www.hawkeyecollege.edu/go/scholarships). You can be considered for hundreds of scholarships by completing a single application.

### HELPFUL TIPS:

- Complete the FAFSA as soon as possible after your taxes are filed — you don't have to wait until you're accepted. Hawkeye's school code is 004595.
- Check with your employer to learn whether tuition assistance is available. Many employers offer benefits to employees who wish to improve their skills and knowledge.
- Above all, communicate with us. We're here to help you make informed decisions about your college plans.
- There is no age limit for federal student aid. Almost everyone is eligible for some type of assistance.
- No credit check is required to receive federal student aid, including most federal student loans.
- Applying for federal student aid is free.

# YOUR COLLEGE CHECKLIST

Use this to guide you through the steps to achieving your goals. Work with your Hawkeye admissions representative to track progress and stay on track.

## **STEP ONE – APPLY FOR FREE**

Submit your application online: [www.hawleycollege.edu/go/apply](http://www.hawleycollege.edu/go/apply)  
Questions? Call 319-296-4000

## **STEP TWO – SEND TRANSCRIPTS**

Have your high school/GED/HiSET and college transcripts sent to the Admissions office:  
Hawkeye Community College — Admissions  
PO Box 8015  
Waterloo, IA 50704-8015

## **STEP THREE – TAKE ASSESSMENTS**

An assessment like COMPASS, ACT, or ACCUPLACER will be used for acceptance and course placement. If you have taken one of these please contact Admissions to determine if further assessment is necessary. The COMPASS is an untimed, multiple-choice assessment of reading, writing, and math skills. Most students take the COMPASS assessment for acceptance or course placement.

The COMPASS assessment can be completed at one of these locations:

**WATERLOO:** Main Campus, Student Services office, 319-296-4014  
Martin Luther King Jr. Center, 319-296-4440  
Metro Center, 319-234-5745

**HOLLAND:** Western Outreach Center, 319-824-3085

**INDEPENDENCE:** Independence Center, 319-334-3131

**WAVERLY:** Waverly Outreach Center, 319-296-4288

1501 East Orange Rd., P.O. Box 8015, Waterloo, IA 50704-8015  
319-296-4000 | admission@hawkeyecollege.edu | www.hawkeyecollege.edu

/hawkeyecollege

Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405, email: [equity-titleIX@hawkeyecollege.edu](mailto:equity-titleIX@hawkeyecollege.edu), or the Director of the Office for Civil Rights, U.S. Department of Education, Citigroup Cente , 500 W. Madison, Suite 1475, Chicago, IL 60661, phone number 312/730-1560, fax 312/730-1576.

July 27, 2015

Jerome,

Welcome to Hawkeye Community College! My records show that you have applied for the Agriculture Business Management program to begin fall 2015. Through the Agriculture Business Management program you will be able to prepare yourself for a rewarding career serving those engaged in the Agriculture Industry or even become a producer yourself.

My name is Dave Grunklee, Professor, Agriculture Business Management, and Brad Kinsinger and I will be serving as your academic advisors as you earn YOUR Agriculture Business Management degree from Hawkeye Community College.

At this time your Admission Status to Hawkeye Community College is still **PENDING**. There are many reasons for this. You may not have taken either the COMPASS or ACT college entrance exams, your transcript is not on file, or you previously have taken classes at HCC and have some unfilled obligations with them! If you need to find out why you have been pending please call 319-296-2320 and ask for Admissions. If you have not taken the COMPASS or ACT college entrance exam and/or submitted those scores to Hawkeye, you can take the COMPASS Exam at many Community Colleges in Iowa. To schedule a time at Hawkeye Community College to take the exam, please call 319-296-4014 to schedule a time. The exam takes approximately 2 hours to complete. Please complete this step ASAP! The following are the minimum scores you will need to achieve to be eligible to take several college level courses: COMPASS Reading 82, COMPASS Writing 65, COMPASS Pre-Alg 24 (for non-transferable Math courses), COMPASS Algebra 42 (for transferable Math courses), or ACT Math, English, Writing 19 for each area. Failure to meet the minimum scores may require you to take additional courses to prepare for the college level classes. You may retake the COMPASS up to 2 times in any area that you do not score at the minimum level. To prepare to take the exam you can go to GOOGLE and search for "COMPASS practice tests", this will bring up many pages of sites. Students who practice a few times before taking the actual exam usually score higher.

Once you have submitted all required materials to Hawkeye Community College you will be fully admitted and can register for fall classes at that time. I will be watching for your status to change and will be in contact with you at that point to make arrangements for you to register for the fall 2015 term. Please let me know at any time if you have questions. I can be contacted at 319-296-2320 x1115 or e-mail [david.grunklee@hawkeyecollege.edu](mailto:david.grunklee@hawkeyecollege.edu) I look forward to working with you to help you earn YOUR degree from Hawkeye Community College.

Sincerely,

Dave Grunklee  
Professor – Agriculture Business Management

Hawkeye Student ID:  
0240438

Violet M. Collins  
250 Sheridan Rd  
Waterloo IA 50701

Dear Violet,

Congratulations! I am pleased to inform you of your acceptance to Hawkeye Community College. After attending your **MORE** session (Mandatory Orientation Registration Experience) for the **CNC Machining and Tool Making Technology** program, you will begin classes on **August 22, 2016**.

As a Hawkeye Community College student it is important for you to set-up your **My Hawkeye** account, an online access point to college information. You will need to use this account to register for a **MORE** session. Attending a **MORE** session for the above program is the only way to guarantee your seat, as registration is on a first-come, first- served basis.

Please review the enclosed documents to ensure successful enrollment:

- **I'm Accepted! Now What?**
- **My Hawkeye Account-Log In Instructions**
- **Academic Program Information**

Thank you for choosing Hawkeye Community College. Your goals and plans are important to us and we want you to succeed. Please contact the Office of Admissions with any questions. We can be reached at 319-296-4000 or 800-670-4769. You can also e-mail us at [admission@hawkeyecollege.edu](mailto:admission@hawkeyecollege.edu).

Best wishes for your college career at Hawkeye Community College!

Sincerely,

***Dave Ball***

Dave Ball, Director  
Admissions, Recruitment & Student Life

## ☑ CHECKLIST

## SIGN UP FOR AN EXPERIENCE HAWKEYE VISIT DAY

or schedule an individual visit just for you.

[www.hawkeyecollege.edu/go/visit](http://www.hawkeyecollege.edu/go/visit)  
319-296-4000

### APPLY

- ☐ **Complete an admissions application** online at [www.hawkeyecollege.edu/go/apply](http://www.hawkeyecollege.edu/go/apply).
- ☐ **Complete an assessment.** The ACT, COMPASS, ASSET, SAT, and ACCUPLACER assessments are accepted for admission to Hawkeye.
  - If you have completed an assessment, request your **official** scores be sent to the Admissions office.\*
  - If you need to take an assessment, call Student Services at 319-296-4014 to schedule a COMPASS assessment.
  - Assessment scores will be used to place you in coursework at Hawkeye. To find out placement based on your assessment scores, visit [www.hawkeyecollege.edu/go/assessment-scores](http://www.hawkeyecollege.edu/go/assessment-scores).
  - Some programs require specific scores. Review admission requirements for your program at [www.hawkeyecollege.edu/academics/programs](http://www.hawkeyecollege.edu/academics/programs).
- ☐ **Have official transcripts** sent to the Admissions office.
  - Official high school transcripts showing graduation and/or GED or HiSET scores must be sent.\*
  - If you have taken college-level classes and would like to receive possible credit, you will need to have your previous college(s) send an official college transcript.\*

\* *Transcripts and test scores received directly from the student are not considered official.*

### AFTER YOU APPLY

- ☐ **Apply for financial aid** online at [www.fafsa.gov](http://www.fafsa.gov). Don't forget to add Hawkeye Community College (004595). If you need assistance completing the FAFSA, contact the Financial Aid office at 319-296-4020.
- ☐ **Complete the Hawkeye scholarship application** online at [www.hawkeyecollege.edu/go/scholarships](http://www.hawkeyecollege.edu/go/scholarships).
- ☐ **Find housing.** Check out housing options online at [www.hawkeyecollege.edu/students/housing](http://www.hawkeyecollege.edu/students/housing).

### AFTER YOU'RE ACCEPTED

- ☐ **Set up your My Hawkeye account**, your online access to personal college information. You will receive directions with your acceptance letter on how to set up your account. If you need assistance, call the Student Tutoring and Computer Lab at 319-296-4029.
- ☐ **Attend a Mandatory Orientation and Registration Experience (MORE) session to register for classes.** You will receive an email in your My Hawkeye account on how to sign up for a MORE session. If you need assistance, call Student Services at 319-296-4014.

### [High School Visit](#)

**Template: Hawkeye Global – High School Visit Reminder**

Subject: Hawkeye Community College - See us at your high school!

Hi, Linda!

This is just a quick reminder that I will be at your high school on Friday, July 5 at 8:00 a.m.

I will be available to help with applications, scholarships, programs, visiting campus, or any other questions about Hawkeye Community College.

Please let your school counselor know if you would like to stop in and meet with me.

Thanks, and I look forward to coming to your school!

Linda Breuer  
Hawkeye Community College  
319-296-4000

### [Individual Appointment](#)

**Template: Hawkeye – Individual Appointment Request Follow Up**

Subject: Visit Campus - Hawkeye Community College

Hello, Linda,

We are excited about your interest in visiting Hawkeye Community College!

Would \_\_\_\_ (date/time) \_\_\_\_\_ work for you to come to campus?

Please let me know, and I will schedule the visit.

We look forward to seeing you!

Linda Breuer

Admissions Coordinator

## [Request for Program Information](#)

### **Template: Hawkeye – Information Request Form – Basic Reply**

Subject: Hello from Hawkeye

Hi, Linda,

Thank you for writing to learn more about Hawkeye's Accounting program!

Let's connect soon to talk about your educational and career goals.

Would you like to meet on campus for a college planning session?

During a visit, we could explore your program options, discuss costs and financial aid, and make sure all your questions are answered. If you're new to Hawkeye, we could even take a short campus tour.

We can also set up a phone conversation, if that's more convenient for you.

Let me know how you'd like to begin, and we'll take the first step.

Thank you again for considering Hawkeye! I hope to hear from you soon.

Jason Streed  
Admissions

## Communication to Students on Using *myHawkeye* - Sample

### Template: My Hawkeye Login Basics

Subject: My Hawkeye Set-up Instructions

Hi, Linda -

Now that you've been accepted, you can set up your My Hawkeye account.

This is an important step. My Hawkeye is your "home base" for information as a student. It gives you access to:

- Your Hawkeye email account
- Registration information
- Your financial aid status, as well as useful forms
- Billing and payment information
- Online course information and materials
- And much more

### Tips:

- My Hawkeye set-up works best on a desktop or laptop computer. Later, you will be able to use My Hawkeye on a mobile device, but to set it up, it's best to use a computer.
- If you have limited access to a computer, or if you want personalized assistance with this step, contact us. We'll help over the phone or, if necessary, in person here on campus.

### Getting Started

1. Click the link to the My Hawkeye login at the top of any page on the Hawkeye Community College website.
2. Your username will be in firstname.lastname format. Use the legal name that you put on your application.
3. Your password will be your date of birth in six-digit format: MMDDYY. Example: January 4, 1983 = 010483
4. Click the *Log On* button.
5. You will be prompted to re-enter your date of birth password, then to create a new password, which you'll have to enter twice. The new password must be at least six characters long, and it must contain both letters and numbers.
6. Click *OK*
7. Follow the rest of the instructions to complete the set-up process.

After you've set up your My Hawkeye account, use your official Hawkeye email to communicate with us, and check it frequently for updates and deadlines.

Again, if you have any problems setting up your My Hawkeye account, contact us right away. It's an important step, and we'll be glad to help.

Thanks,

Jason Streed

Dear Linda,

I'm writing to follow up on the *Application for Admission* you started. If you have questions about the admission process or Hawkeye in general, let's connect.

I invite you to campus to experience first-hand what makes Hawkeye a great choice. During your visit, we can talk about your goals and program options, learn about financial aid, and tour campus.

To arrange your visit, you can [register online](#) or call the Admissions Office at 319-296-4000.

I'd love to see you on campus! If there's anything I can do to help, please let me know.

Thanks,  
Jason Streed  
Hawkeye Community College

## [Template: Hawkeye Application 3 – Missing Documents Email – Day 05 – I’m your rep](#)

Subject: Hawkeye's Admission Process: Helpful Tips

Dear Linda,

I want your admission process to go smoothly, so I'd like to share a few tips about assessments and transcripts.

### Assessments

- We accept the following assessments: COMPASS, Accuplacer, ACT, SAT, and Asset.
- If you've had them sent them previously, you do not need to have them sent again. Also, if you've taken the COMPASS at Hawkeye, your scores are already on file.
- Some placement scores like the ACT may be on your official high school transcript; we can accept those as official score reports.
- Assessment may be waived based on previous college work in reading, math, and writing. Have official transcripts sent to the Admissions Office for evaluation.

### Transcripts

- High school, college, military, and GED/HiSET transcripts are considered *official* only if sent directly from institution to institution. A hand-delivered transcript, even in a sealed envelope, is considered unofficial.
- High school and GED/HiSET transcripts are official only when they show a graduation date. GED/HiSET transcripts for Iowa (and many other states) are sent through
- If you've had official transcripts sent to Hawkeye since 2008, they should still be on file. To verify, please call Admissions at 319-296-4000.

### Mailing Information

Hawkeye Community College - Admissions  
PO Box 8015  
Waterloo IA 50704-8015

Linda, I'm here to answer your questions. You can contact me by email or by phone at 319-296-4000. I'll be happy to help.

Thank you for applying! I hope to hear from you soon.

Sincerely,

Jason Streed

## [Template: Hawkeye Application 3 – Missing Documents Email – Day 25 - Goals](#)

Subject: The Next Step in Hawkeye Admissions

Linda,

Connect with your goals...your potential...your future.

Hawkeye graduates have great transfer and career opportunities. We combine small classes and advanced technology for a high-quality education. Our experienced faculty and advisors will help you achieve success, both in the classroom and beyond.

Ready to take the next step?

Your admission status for the Criminal Justice program is currently *pending*. To see if your transcripts and test scores have been received, log into your online Application Profile.

Contact us with your questions. We look forward to connecting with you.

The Admissions Team

Subject: Your College Plans at Hawkeye

Dear Linda,

Thank you for submitting your application to the Criminal Justice program.

I'd like to help your educational and career plans move forward. If there's anything I can do, please let me know.

I'd love to hear from you.

Sincerely,

Jason Streed

[Template: Hawkeye Application 4 – Accepted – PreProgram – Day 01](#)

Subject: Congratulations from Hawkeye!

Dear Linda,

Congratulations!

You have been accepted to the pre-program for the Criminal Justice program, starting 2016 Fall Term.

As a pre-program student, you will begin with general education and prerequisite classes. An advisor will help you create an academic plan to meet your program requirements.

**MY HAWKEYE**

Your next step is to set up your [My Hawkeye](#) account. My Hawkeye is a personalized web-portal that students use to update records and access important college information, including:

- [College Email](#)
- Orientation and class registration
- Financial aid
- Billing and payment arrangements

Once you have logged in, check your email frequently.

**ORIENTATION & REGISTRATION**

To schedule pre-program classes, you are required to attend [MORE](#) (Mandatory Orientation and Registration Experience). Information about MORE will be sent to your college email at a later date.

**QUESTIONS?**

Contact the Admissions Office at 319-296-4000 or [admission@hawkeyecollege.edu](mailto:admission@hawkeyecollege.edu).

Sincerely,

[The Admissions Team](#)

[Template: Hawkeye Application 4 – Accepted – Reqs Met – Day 01](#)

Subject: Congratulations from Hawkeye Community College

Dear Linda,

Congratulations!

You have been accepted to the Criminal Justice program, starting 2016 Fall Term.

**MY HAWKEYE**

Your next step is to set up your [My Hawkeye](#) account. My Hawkeye is a personalized web-portal that students use to update records and access important college information, including:

- [College Email](#)
- Orientation and class registration
- Financial aid
- Billing and payment arrangements

Once you have logged in, check your email frequently.

**ORIENTATION & REGISTRATION**

To begin the Criminal Justice program, you are required to attend MORE (Mandatory Orientation and Registration Experience). Information about MORE will be sent to your college email.

**QUESTIONS?**

Subject: College Planning at Hawkeye: Financial Aid

Hi, Linda -

Let's talk about financial aid.

College is an investment in your future. We can help you make a plan to manage the cost of your education at Hawkeye Community College.

FIRST, SOME FACTS

- A college education is affordable at Hawkeye.
- Almost 90% of students who apply for financial aid receive assistance.
- Over 400 students receive Hawkeye scholarships every year.

THE FAFSA

The most important step: complete the FAFSA (Free Application for Federal Student Aid).

If you're new to the FAFSA, start with [these helpful video tutorials](#) provided by the U.S. Department of Education.

HOW TO GET HELP - Contact the Financial Aid Office

Call 319-296-4020

Text hawkeyeaid to 66746

Email [finaid@hawkeyecollege.edu](mailto:finaid@hawkeyecollege.edu)

Visit the Financial Aid Office in [Hawkeye Center](#) on the Main Campus.

Share your questions and concerns, and we'll work with you personally to reach your college and career goals.

Sincerely,

[The Admissions Team](#)

[Template: Hawkeye Application 4a – Accepted – All – Day 25 – Get Involved](#)

Subject: Get Involved at Hawkeye!

Dear Linda,

Hawkeye can do great things for you, both in and out of the classroom!

Getting involved on campus helped me to meet new people and improve my time management and communication skills. College is about more than going to class. I encourage everyone to get involved. You will be happy you did!

- Sarah Ludwig, Liberal Arts 2016

How will you be involved?

- [30+ clubs and organizations](#)
- [Special events on campus and in the community](#)
- [Fitness and recreation](#)
- [RedTail Athletics](#)

And more!

Let me know how I can help!

Jason Streed

[Template: Hawkeye Application 4a – Accepted – All – Day 50 – Services for Students \(Exact Target\)](#)

Subject: Lean on Us

Hi, Linda -

To make sure all your needs are met while attending Hawkeye, we offer a variety of student services.

**Sound body, sound mind.**

Get fit at the recreation center. Participate in intramurals. Cheer on the RedTails!

Hawkeye also offers high-quality services at our Student Health Clinic, including checkups, immunizations, and mental health counseling.

A healthier you is a better you!

**Academic Support**

Professional and peer tutors are available to help you succeed. Academic advisors will keep you on track. For those who qualify, disability and military/veteran services are also available.

You don't have to go at it alone. Share your needs, and we'll get you connected.

**Not just class.**

Life is busy. Whether you need help lining up a ride, a job, or child care, we can help.

Hungry? Check out the food court.

Bored? Clubs and organizations are looking for people like you. Fill your planner!

Make the most of your Hawkeye experience. Get educated. Get involved. Get connected.

**Lean on us!**

Dear «Person\_First\_Name»,

Congratulations! I am pleased to welcome you to Hawkeye Community College.

You have been accepted to begin classes for the «**Entry\_Term**» semester.

Your educational and career goals are important, and you deserve the best help we can provide. I invite you to visit campus to experience how we can make your college plans a reality.

Since 1966, Hawkeye has provided a high-quality, affordable education to students like you. Small classes, dedicated teachers, and great facilities are just the beginning. From your first day through graduation, you'll benefit from services such as academic support, the Student Health Clinic, and the Career Services Center.

Whether you're launching a career or planning to transfer to a four-year college, you'll open the door to amazing opportunities at Hawkeye Community College.

Once again, congratulations and thank you for choosing Hawkeye Community College!

Sincerely,

Linda Allen, Ph.D.  
President  
Hawkeye Community College

## Template: Hawkeye Missing Documents Mailer (Pending Student) - Day 00

Dear «First\_Name»,

Thank you for submitting your application to the «Academic\_Program» program. We're excited about your educational journey at Hawkeye Community College, and we look forward to working with you.

To process your application, we need the following supplemental item(s) sent to the Admissions Office:

«Person\_Missing\_Supplemental\_Items\_List»

The enclosed Student Checklist will help you navigate the admission process. It provides important information, including:

- Transcript policies and procedures
- Assessment score options
- Program facts

You are always welcome on campus. A visit is the best way to discover why Hawkeye is right for you. We'll review your program, see the campus, and discuss costs and financial aid.

Connect with us at [hccadmission@hawkeyecollege.edu](mailto:hccadmission@hawkeyecollege.edu) or 319-296-4000. We'll be happy to answer your questions.

Sincerely,

The Admissions Team

## Appendix U:

### Policy on Advertising & Recruiting

# **ADVERTISING, STUDENT RECRUITMENT, AND REPRESENTATION OF ACCREDITED STATUS**

## **Policy Statement**

All accredited higher education institutions, or individuals acting on their behalf, must exhibit integrity and responsibility in advertising, student recruitment, and representation of accredited status. Responsible self-regulation requires rigorous attention to principles of good practice.

### **Advertising, Publications, Promotional Literature**

1. Educational programs and services offered by the institution are the primary emphasis of all advertisements, publications, promotional literature, and recruitment activities.
2. All statements and representations are clear, factually accurate, and current. Supporting information is kept on file and readily available for review. In the case of programs that are awaiting state approval and inclusion in the institution's accreditation, the institution's communication with both external and internal constituencies clearly and consistently represent the program(s) as "pending approval by the state Department of Education."
3. An institution may choose to maintain its official publications electronically. If that is the case, the institution clearly designates the electronic version of these documents as official and develops policies and procedures for revising and archiving these documents.
4. Official publications are readily available and, where appropriate, accurately depict:
  - a. institutional purposes and goals
  - b. admission and enrollment requirements and procedures for all types of students (e.g., first-year, transfer students, joint enrollment, transient, etc.) and basic information on programs and courses, with required sequences of course offerings explicitly stated.
  - c. general education requirements demonstrating that the general education component is at the collegiate level and (1) is a substantial component of each undergraduate degree, (2) ensures breadth of knowledge, and (3) is based on a coherent rationale.
  - d. special programs, including international study, credit by examination or advanced placement.
  - e. institutional facilities readily available for educational use.
  - f. rules and regulations for conduct.
  - g. tuition, fees, and other program costs.
  - h. opportunities and requirements for financial aid.
  - i. policies and procedures for refunding fees and charges to students who withdraw.
  - j. current academic calendars and grading policies.
5. In official publications describing career opportunities, clear and accurate information is provided on any unique requirements for career paths, or for employment and advancement opportunities in the profession or occupation described.

### **Student Recruitment for Admissions**

1. Student recruitment is conducted by well-qualified admissions representatives whose credentials, purposes, and position or affiliation with the institution are clearly specified.
2. Independent contractors or agents used by the institution for recruiting purposes are governed by the same principles as institutional employees.
3. Institutions are required to follow federal guidelines regarding compensation for student recruitment and admission activities.
4. Institutions avoid the following recruitment practices in order to comply with the *Principles of Accreditation* and U.S. Department of Education regulations:
  - a. assuring employment unless employment arrangements have been made and can be verified,
  - b. misrepresenting job placement and employment opportunities for graduates,
  - c. misrepresenting program costs,
  - d. disparaging comparisons of secondary or postsecondary institutions,
  - e. misrepresenting abilities required to complete intended program, and
  - f. offering money or inducements other than educational services of the institution in exchange for student enrollment. (Except for awards of privately endowed restricted funds, grants or scholarships are to be offered only on the basis of specific criteria related to merit or financial need.)

### **Representation of Accredited Status**

1. The term “accreditation” is used only when accredited status is conferred by an accrediting body.
2. No statement is made about the possible future accreditation status or qualification not yet by the accrediting body.
3. Any reference to state approval is limited to a brief statement concerning the actual charter, incorporation, license, or registration given.
4. The Phrase “fully accredited” is not used, since partial accreditation is not possible.
5. When accredited status is affirmed in institutional catalogs and other official publications, it is stated accurately and fully in a comprehensive statement.
6. The accredited status of a program is not misrepresented.

- Transfer Out Rate

**Graduation Rate**

The graduation rate reflects students who started classes in the Fall of 2012, completed their program of study, and applied for graduation within 150% of the suggested length of study.

For example, students who started a two-year program, completed the program in three years, and applied for graduation are calculated in the graduation rate.

The graduation rate does not count students who started a program in the Fall of 2012 but transferred their completed coursework to another college or university prior to graduating.

**Graduation Rate—Cohort Year 2012**

The graduation rate for individual programs may vary.

Male	24%
Female	23%
<b>Total Average</b>	<b>24%</b>

**Graduation Rate Percentages by Gender and Race—Cohort Year 2012**

	Male	Female
Nonresident Alien	0	0
Hispanic/Latino	15%	11%
American Indian or Alaska Native	0	0
Asian	0	100%
Black or African American	10%	3%
Native Hawaiian or Other Pacific Islander	0	0
White	26%	25%
Two or more races	17%	0

Hawkeye Community College (Waterloo, IA)

VFA Data Collection Cycle 2015-16

### **What's in the *Two-Year Progress Report***

#### **- Two-Year Progress Measures**

- Retention: fall to next term
- Successful completion of credits: 1st term; by end of year two  
# of total credits completed with a C grade (C-, C+) or better by the cohort
- Reached credit threshold by end of year two  
# of students in the cohort that earned 24 credits (part-time) or 42 credits (full-time)
- Persistence/attainment outcomes by the end of two years:
  - Completed certificate or degree
  - Transferred
  - Still enrolled

# Hawkeye Community College (Waterloo, IA)

## Two Year Cohort (Fall Students 2013)

These data represent students that first entered the college in Fall Students 2013 (or summer before) and their progress by the end of their first two years.

### Two-Year Progress Measures

#### Progress by End of Year Two by Cohort Type

#### Cohort Types

Different types of students

A. Main Cohort: fall entering, first time at **reporting** college; "all students"

B. Credential Seeking: earned 12 credits by end of year two

C. First Time in College: fall entering, first time in college

\*Students could be in more than one cohort type.

#### Two-Year Progress Measures

#### Persistence/Attainment Outcomes by End of Year Two by Cohort Type

	Two Year Cohort Count	Completed	Transferred	Still Enrolled
<b>Main Cohort</b>	1,428	23.9%	15.1%	29.6%
<b>Credential Seeking</b>	973	35.0%	13.4%	39.8%
<b>First Time in College</b>	669	13.9%	13.6%	30.8%

These measures report milestones along the educational pathway and persistence/attainment outcomes by the end of a student's first two years at the college.

The persistence/attainment outcomes by the end of year two provide an early indicator of the cohort's performance. These outcomes are not exhaustive and will not sum to 100% of the students in the cohort. The outcomes are:

- Unduplicated
- Hierarchical
- Achieved by the end of two years
- Credentials earned at the **reporting** college

## Preface

In 2015, the Department of Education's Division of Community Colleges worked with Iowa Workforce Development and Georgetown University's Center on Education to perform a study of the education or training needs of employers in Iowa compared to the current education level of Iowans.

The study revealed that, by 2025, about 68 percent of all jobs in Iowa will require some post-secondary training or education beyond high school. The subsequent report stated:

*Since the 1980s, education or training beyond high school has become the new minimum threshold for Americans to earn a living wage and attain middle class status. In 1973, only 28 percent of U.S. jobs required education beyond a high school diploma; by 2025, almost two out of three jobs in the nation will require at least some postsecondary education or training. Iowa's economy reflects this national trend and demonstrates a steady increase in the demand for postsecondary education and training in the industries that form the mainstay of the national economy.*

In response to this report, Iowa Governor Terry Branstad set a goal which calls for 70 percent of Iowans in the workforce to have education or training beyond high school by 2025. This will allow more Iowans to have more career opportunities and employers to have the skilled workers they need.

Iowa's community colleges are the state's largest postsecondary education sector, offering a plethora of education and training programs designed to meet state and regional economic needs. Due to their responsiveness and commitment to workforce training, these institutions are well positioned to prepare the skilled workers of the future. To track their progress toward this goal, the Iowa Department of Education has partnered with Iowa Workforce Development to link state and national education and workforce data sets to monitor the outcomes of students enrolled in Iowa's 15 community colleges.

This report provides information about community college awards, time-to-degree, retention, migration, transfer to four-year institutions, employment and wages, and career clusters. Five student cohorts were established for this report. These students will be tracked longitudinally to capture wage growth of those completing Iowa community college education and training programs.

## Hawkeye Community College Education Outcomes: *Certificate, Diploma, and Associate Degree Programs*

The *Hawkeye Community College Education Outcomes: Certificate, Diploma, and Associate Degree Programs Report*, published annually, is an attempt to answer the elusive questions regarding the outcomes of students completing community college programs. This report, and other related resources, provide institutional data designed to inform community college administrators and policymakers as they engage in planning and program improvement.

Throughout this report, employment and earnings are analyzed to illustrate the important impact that the education and training provided by Hawkeye Community College has on employment and wages. Program and award levels are analyzed separately in order to access the benefits of each. Research parameters were set to distinguish between programs consisting of 22 credit hours or more, considered long-term awards; and those consisting of less than 22 credit hours, considered short-term awards. These parameters which are applied by credit hour definition ensures a uniform approach to the research for the purposes of this report.

Coinciding with the programs, five annualized cohorts of student award recipients were studied regarding their subsequent employment and wages (academic years (AY) 2010, 2011, 2012, 2013, and 2014). These cohorts will be studied longitudinally for a period of five years after graduation. The research is limited to five years because previous program outcomes research regarding two-year college education revealed that wages plateau within a five-year period.

Unit record tracking of student data is a preferred method of reporting education outcomes by program. However, the inability to access and link individual student records to employment and wages has been a challenge for most researchers

because of confidentiality laws restricting the use of unit-level data.

The Iowa Department of Education (DE) and Iowa Workforce Development (IWD) have overcome this hurdle by forming a partnership dedicated to evaluating and reporting education outcomes for community college programs as they relate to certificate, diploma, and associate degree awards.

In Iowa, as in many states throughout the nation, education and employer records are held in two different agencies of state government, the DE and IWD, respectively. The partnership of these two agencies has allowed for data sharing through agreements that adhere to all Unemployment Insurance (UI) and Family Educational Rights and Privacy Act (FERPA) regulations and rules. Research objectives are clearly stated in the agreements and limited staff have access to the data. Furthermore, these DE and IWD staff members have signed confidentiality agreements pertaining to the reporting and use of the student records.

## Process and Methodology

In order to properly conduct the research for this report, data criteria was established based on less than or more than 22 credit hours for associate, diploma, and certificate awards. The 22 credit-hour threshold is the threshold between long-term and short-term programs within the Community College Management Information System (MIS) at the Iowa Department of Education (DE). All data were extracted from the MIS and grouped based on this threshold, along with the credential's award date. This award date is referenced throughout this report as academic year (example: grouped September 1, 2013 to August 31, 2014 is AY 2014). Students who received awards in AY 2010, AY 2011, AY 2012, AY 2013, or AY 2014 are analyzed in this report.

Once the data was extracted from the MIS, it was sent by annual cohort to the National Student Clearinghouse (NSC) to identify the students that continued their education after receiving their community college award. These individuals may have transferred from one community college to another, continued their education at their current location, or transferred to a four-year institution. Transfer students were analyzed by college type (two-year or four-year and private or public) and by transfer location, allowing for the study of graduate out-migration.

Before tracking the students into the workforce, those students with multiple awards were flagged as such, and then deduplicated, so that each student could be tracked based on their highest award level. An exception was made for students who received more than one award at the same level for the completion of different programs. Such students were tracked based on all awarded programs.

Deduplication was conducted in the following hierarchical order: Associate degree (Associate of Applied Science (AAS), Associate of Applied Arts (AAA), Associate of Professional Studies (APS),

Associate of Science/Career Option (ASCO), Associate of Science (AS), Associate of Arts (AA), Diploma, Certificate-Short-term award (both diploma and certificate). Additionally, students without Social Security Numbers (SSN) were excluded from the workforce analysis due to matching restrictions. Matching to Unemployment Insurance (UI) wage records\* is conducted using SSN.

Once deduplicated, the data were then sent via secure file transfer to IWD in order to match the education records to the UI wage records. This match provided employment, wage, and industry data by quarter for each award type and cohort. Quarterly wages are reported aggregating by the following dates:

Quarter 1: January 1 to March 31

Quarter 2: April 1 to June 30

Quarter 3: July 1 to September 30

Quarter 4: October 1 to December 31

In order to report annually, and attempt to match the academic year, the quarterly wages were aggregated October 1 (Quarter 4) to September 30 (Quarter 3), which are the dates that most closely align with Iowa's community colleges' academic year.

Furthermore, due to the confidentiality of the wage record data, IWD processed the records based on the research objectives and sent back aggregate data for DE analysts to interpret and use in this report. The data from the DE and IWD were thoroughly scrutinized to maintain confidentiality and abide by all rules, regulations, and restrictions for each of the data sources. Additionally, data sharing agreements have gone through rigorous legal review.

*\*The UI wage records do not cover those employers exempt from paying UI tax such as federal employees, members of the armed forces, the self-employed, proprietors, unpaid family workers, church employees, railroad workers covered by the railroad unemployment insurance system, and students employed in a college or university as a part of a financial aid package.*

## Statewide Total Awards

For this portion of the report, an aggregate analysis of 85,641 short- and long-term awards received by Iowa community college students from AY 2010 through AY 2014 was conducted. Though each college yielded a different number of total awards, in aggregate there were 59,138 associate degrees, 15,447 long-term diplomas, 2,105 long-term certificates, 159 short-term diplomas, and 8,792 short-term certificates awarded to graduates by the 15 Iowa community colleges during academic years 2010 to 2014 (see Figure 1). Transfer status (further education), employment, wages, and time-to-degree are analyzed by award type in addition to long- or short-term timeframes later in this report. When referencing total awards, duplicative records were used. However, if a student received more than one award, the highest award level was used for the analysis of employment and wage data (deduplication was conducted in the following hierarchal order: AAS-AAA-APS-ASCO-AS-AA-Diploma-Certificate-Short-Term award). This information can be used to study the impact of each award type and its correlation to the workforce and further education.

This comprehensive statewide report and detailed spreadsheets for each academic year can be found at: <https://www.educateiowa.gov/community-colleges>.

The data contained in the remainder of this report is specific to Hawkeye Community College (HCC) for use in program development and strategic planning.

**Figure 1. AY 2010 to AY 2014 Total Long-Term and Short-Term Awards by Iowa Community College**

## Awards by Classification of Instructional Program

The purpose of the Classification of Instructional Program (CIP) is to provide a taxonomic scheme to enable the tracking, assessment, and reporting of fields of study and program completion. The CIP system was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980.

The majority of data contained within this report was analyzed at the two-digit CIP level. Appendix A, and the accompanying tables sent directly to each college, contain detailed information for six-digit program-level data.

Figure 2 lists the program descriptions by two-digit CIP level and the number of awards earned by HCC students in each academic year from 2010 to 2014.

The majority of awards were earned in liberal arts and sciences, health professions, homeland security, law enforcement, firefighting and related services. It is important to note each community college may not offer the same programs, and therefore programs within these CIP categories may differ by college .

## Associate Degrees by CIP, AY 2010 to AY 2014 Totals

During academic years 2010 through 2014, five of the seven types of associate degrees awarded by HCC, were analyzed separately on the following pages. These award types are in bold below:

**Associate of Arts (AA)**

**Associate of Applied Arts (AAA)**

**Associate of General Studies (AGS)**

Associate of Science/Career Option (ASCO)

**Associate of Science (AS)**

**Associate of Applied Science (AAS)**

Associate of Professional Studies (APS)

Figure 3 contains an aggregation of all associate degrees awarded in AY 2010 through AY 2014. Liberal arts and sciences accounts for over two-fifths (44.7 percent) of all associate degrees awarded during this time (45.3 percent in AY 2010, 45.2 percent in AY 2011, 42.0 percent in AY 2012, 48.6 percent in AY 2013, and 43.0 percent in AY 2014).

## Associates Degrees by CIP – AY 2010

Figure 5 below lists in descending order, the total number of associate degrees awarded by type for AY 2010. Associate of Applied Science (AAS) and Associate of Arts (AA) degrees accounted for 91.3 percent of associate degrees earned at HCC in AY 2010, as illustrated in Figure 4.

The AAS degrees are awarded in a wide variety of career-oriented programs and AA degrees are designed to prepare students further education.

## Associates Degrees by CIP – AY 2011

As illustrated in figures 6 and 7, there was an increase in the number of associate degrees awarded at HCC (50) from AY 2010 to AY 2011.

The number of associate degrees in liberal arts and sciences followed by health professions and related degrees made up the majority of the overall increase (added 23 health and 22 liberal arts associate degrees).

## Associate Degrees by CIP – AY 2012

Associate degrees awarded by HCC decreased in AY 2012, totaling 870 as compared to 903 in AY 2011.

The largest decrease in AY 2012 was in the number of Associate of Arts (AA) degrees which decreased from 393 to 352 awards (Figure 9). The largest decrease in Associate of Applied Science (AAS) degrees was in homeland security, law enforcement, firefighting and related protective services (decreased from 52 to 32 awards). However, there was an increase in associate degrees related to agriculture and business management.

## Associate Degrees by CIP – AY 2013

The number of associate degrees awarded by Hawkeye Community College decreased from 870 in AY 2012 to 800 in AY 2013, representing an 8.0 percent decrease. In comparison, community colleges statewide saw an overall decrease 12,626 to 12,131, representing a 3.9 percent decrease.

The majority of degrees in AY 2013 for HCC were in Associate of Applied Science (AAS) followed closely by Associate of Arts (AA). The highest number of AAS degrees were awarded in health professions and related.

## Associate Degrees by CIP – AY 2014

In AY 2014, the number of associate degrees awarded by Hawkeye Community College experienced a large increase of 96 associate degrees from AY 2013.

The majority of the increase occurred in the AAS degrees. Health professions (24) represented the largest increase but many other disciplines also increased within the AAS degree category (Figure 13).

## Diplomas by CIP

In Iowa, diploma programs are designed to provide students with technical training and skill development leading to entry-level employment.

All 15 Iowa community college districts offer long-term diploma programs, covering many different areas of study, with the majority in healthcare, skilled trades, engineering, and computer-related fields.

Throughout the five-year study period, the distribution of diploma programs remained relatively the same for HCC with the exception of AY 2014, which saw an overall decrease in diplomas awarded. Health professions and related made up the majority of the diplomas awarded at HCC (Figure 14) but also had the largest decrease overall in AY 2014.

**Figure 14. AY 2010 to AY 2014 Diplomas by Two-Digit CIP**

## Certificates by CIP

Iowa community colleges design certificates to respond to business and industry workforce needs. These technical programs vary from 1 to 48 credits, classified as short-term (less than 22 credits) and long-term (22 credits or more). Not all Iowa community colleges offer certificate programs.

There were 721 short-term and 361 long-term certificates awarded at Hawkeye Community College over the five-year period of the study. The majority of both short- and long-term certificates were awarded in precision production trades (Figure 15).

# Time-to-Degree

In order to measure the amount of time students took to earn their degrees (i.e., time-to-degree), data were extracted from the MIS for the six years prior to completion for students who received awards between AY 2010 and AY 2014. (Example: For AY 2012 graduates, data were extracted from AY 2011, 2010, 2009, 2008, 2007, and 2006 to determine if the students were enrolled in their degree programs).

**Figure 16. Time-to-Degree for Associate Degrees Earned, AY 2010 to AY 2014**

\*Insufficient Data

**Figure 17. Time-to-Degree for Associate Degrees, AY 2010 to AY 2014, Cumulative**

\*Insufficient Data

*Note: Annual cohorts include students who entered Hawkeye Community College in any term within an academic year (9/1-8/31). Time to degree is calculated based on actual number of days between award date and the first course start date of a student in a college as a non-HS student. "Less than 1" represents 1-364 days, "Year 1" represents 365-729 days, etc.*

Figures 16 and 17 illustrate the distribution of time-to-degree in aggregate for associate degrees earned by students in the five cohorts. Figure 16 illustrates the percentage of cohort graduates, by the number of years they took to complete their programs. Figure 17 displays the time-to-degree in cumulative format, illustrating the total percentage of students who completed degrees in one to four years. Though there is a variance in completion time when looking at associate degrees independently, 48.6 percent of aggregate associate degrees were earned within a two-year period of time (Figure 18).

**Figure 18. AY 2010 to AY 2014 Time-to-Degree for Associate Degrees by Percent**

Years	AA	AS	AAA	AAS	*AGS	All
Less than 1	2.1%	10.3%	0.0%	0.3%	*	1.2%
Year 1	13.0%	10.3%	12.0%	13.0%	*	12.9%
Year 2	29.8%	33.3%	46.3%	37.1%	*	34.5%
Year 3	24.8%	12.8%	23.0%	21.8%	*	23.1%
Year 4	15.7%	20.5%	9.9%	13.3%	*	14.2%
Year 5+	14.7%	12.8%	8.8%	14.5%	*	14.2%

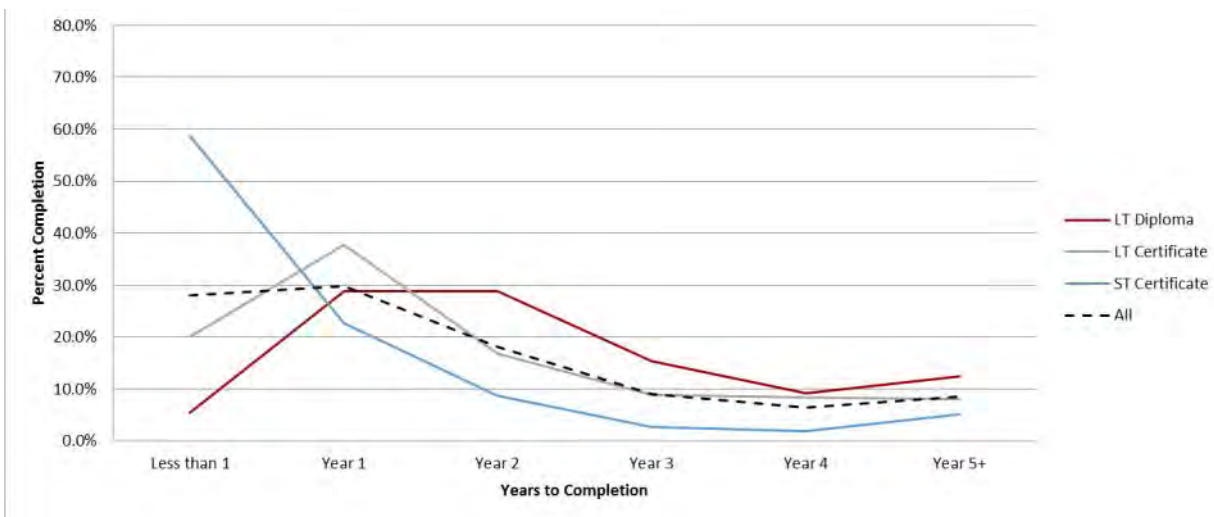

\*Insufficient Data

There are differences in diplomas and certificates at Iowa community colleges. A diploma requires at least 15 semester credits, of which three credits must be general education. A certificate can range from 1 to 48 credits, with no general education requirement.

In Figure 19, certificates and diplomas were divided into two groups for this example: long-term (LT) diplomas and short-term (ST) certificates. Recall that long-term diplomas are those that consist of 22 or more credits and short-term certificates consist of less than 22 credits.

Figure 19 illustrates why the short-term and long-term must be reported separately. Because of fewer credits, 81.4 percent of short-term certificates were completed in one year or less with an additional 8.7 percent completed by the beginning of year two (total 90.1 percent). In contrast, very few long-term diplomas were completed in less than year one (5.4 percent). However, by the end of one year, there were an additional 28.8 percent of LT diplomas were completed.

**Figure 19. Time-to-Degree for Diploma and Certificate Awards, AY 2010 to AY 2014**

## Joint Enrollment

Each year, tens of thousands of Iowa high school students jointly enroll in college credit coursework through Iowa's 15 community colleges, three public universities, or numerous private postsecondary institutions. The Division of Community Colleges defines joint enrollment as a high school student enrolling in a community college course.

Students may jointly enroll through contracted courses offered at the high school (concurrent enrollment), at the college (postsecondary enrollment options), or enrolled in non-contracted courses as a tuition-paying student.

The report includes only those students who were jointly enrolled in high school and continued their education at HCC, completing a degrees diplomas, or certificates during academic years 2010 to 2014.

Over the five-year study period, a total of 876 students had enrolled in courses averaging 9.9 credits during high school and went on to complete awards at HCC (Figures 20 and 21). Of these completers, 45.7 percent earned Associate of Arts (AA) degrees and an additional 25.6 percent completed Associate of Applied Science (AAS) degrees following high school graduation.

Other reports produced by the Department specific to joint enrollment can be found at <https://www.educateiowa.gov/document-type/joint-enrollment>

**Figure 20. AY 2010 to AY 2014 Community College Joint Enrollment**

	AY2010	AY2011	AY2012	AY2013	AY2014	Total/ Average
Number of Jointly Enrolled Students	141	190	180	173	192	876
Average Number of JE Years	1.2	1.4	1.3	1.4	1.4	1.3
Average Number of JE Credits	9.7	10.3	9.9	10.3	9.2	9.9

Note: the average number of JE years was calculated by counting the student as jointly enrolled if he or she appeared in the MIS any time during that academic year and was enrolled in a course through an Iowa community college.

<b>Total</b>	<b>23</b>	<b>853</b>	<b>100%</b>

## Cohort Groups Defined

To accurately study community college graduates, each cohort was split into three different groups: those who continued their education in Iowa, those who continued out-of-state, and those who did not continue their education. Figure 22 represents the five cohorts of graduates (each bar), delineated into these three groups (colored sections of each bar).

The majority of graduates within each cohort continued education within the state of Iowa, while a small portion transferred out-of-state. The remainder did not continue their education, and will be analyzed regarding in- and out-of-state employment later in this report. The purpose of analyzing these groups separately is to study the impact that graduates who continued their education versus those who immediately entered the workforce had on the state of Iowa.

In order to identify these three groups within each student cohort, MIS data (individual student records including program of study, credits received, and award type) were matched with the National Student Clearinghouse (NSC) database to identify the students' participation in two- or four-year, in- or out-of-state, and

public or private institutions for the year following completion of their community college award. If a graduate was matched (i.e., found) within the NSC database, they were placed into the "Pursuing Further Education" cohort for further analysis. If they were not matched within the NSC database, they were placed into the "Workforce" cohort. Furthermore, each of those who entered the workforce the year following his or her award was re-matched to the NSC database to ascertain whether he or she entered a postsecondary institution in subsequent years.

Of the 1,149 students that received awards at HCC in AY 2014, 510 recipients went on to further their education within Iowa and 26 left Iowa to continue their education in the year following their initial awards. The percentages of those in-and out-of-state has remained steady throughout the five years (AY 2010 through AY 2014 cohorts).

**Figure 22. Status of Graduates First Year After Award**

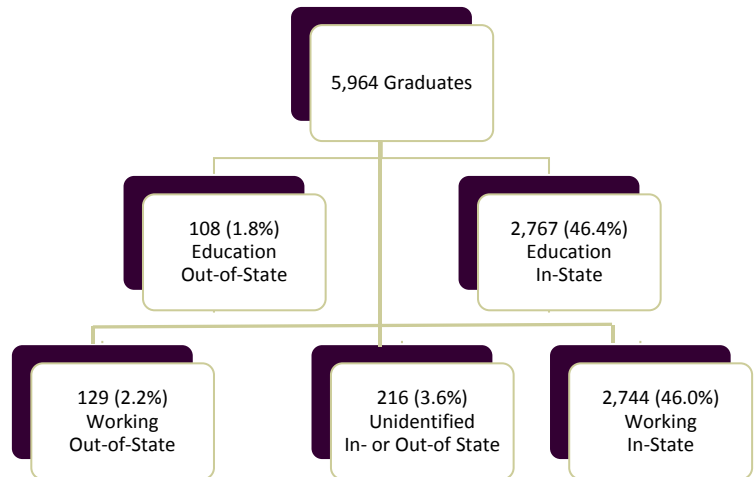

## Retention and Migration

The vast majority of HCC graduates remained in Iowa within the first year after completing their programs (92.4 percent) (see Figure 23). Just under half (48.2 percent) continued their education in the year following completion with most students remaining in Iowa (46.4 percent). However, a very small percentage of graduates transferred to a college or sought employment outside of Iowa (1.8 percent and 2.2 percent respectively). The following sections of this report will provide more detail for each of these groups.

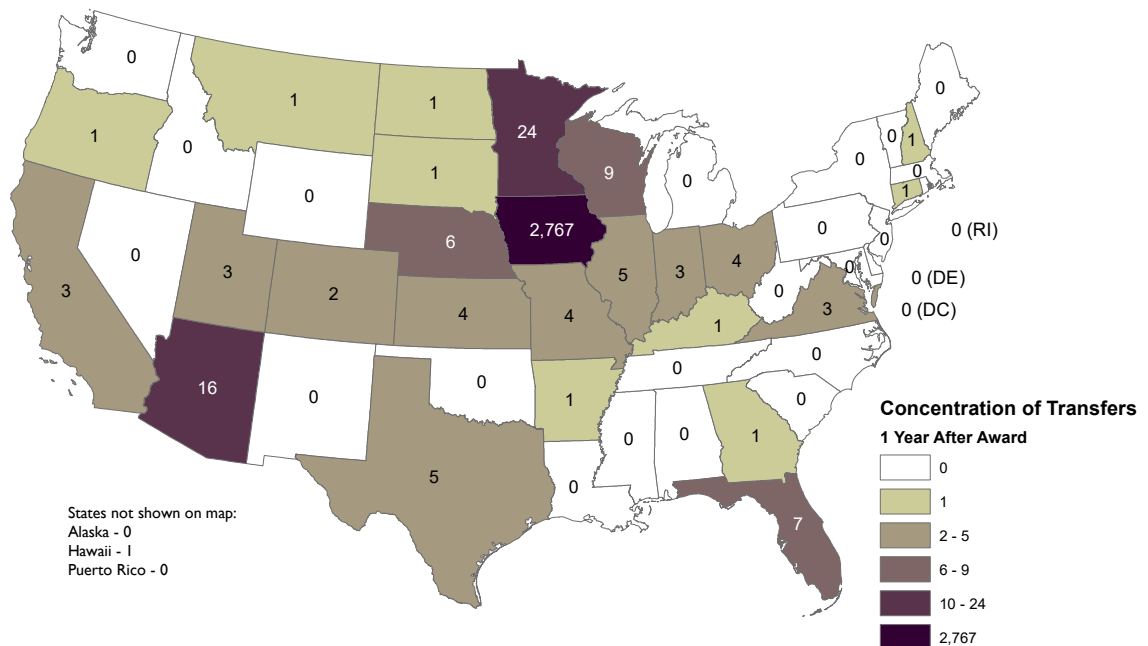

Of those students who continued their education at institutions outside of Iowa, most enrolled in one of Iowa's contiguous states such as Minnesota. For those that who ventured further away, higher concentrations of graduates enrolled within one year following their awards at institutions in Arizona (16) or Florida (7).

Figure 24 represents aggregate numbers for those who continued their education either in- or out-of-state one year after their award (AY 2010 to AY 2014).

**Figure 23. AY 2010 to AY 2014 Retention and Transfers, First Year Following Award**

**Figure 24. AY 2010 to AY 2014 Cohorts Educational Migration One-Year After Award**

## Pursuing Further Education Cohort

Using the National Student Clearinghouse (NSC) database, the Department of Education (DE) was able to determine the types and locations of postsecondary institutions where within the first fiscal year after their graduation. Figure 25 illustrates the distribution of HCC graduates broken down by type of transfer institution and whether the institutions were located in- or out-of-state.

Using the AY 2014 cohort as an example, 510 of the 536 students continued their education at an in-state institution the academic year after graduation, whereas 26 students continued their education at an out-of-state institution. Of those who continued their education, 45.7 percent continued their education at a two-year, in-state, public colleges and 38.4 percent transferred to an in-state, four-year, public colleges.

**Figure 25. AY 2010 to AY 2014 Further Education, First Year Following Award**

## Workforce Cohort

After analyzing the data regarding the Hawkeye Community College graduates who continued their education, a cohort was developed to analyze the employment trends of the remaining graduates.

Both in- and out-of-state employment data were gathered using the Iowa Unemployment Insurance (UI) database and the Wage Record Interchange System (WRIS). Unfortunately, out-of-state wage data was not available for the entirety of AY 2011 for this analysis, nor was it available for awards consisting of less than 22 credits and a small number of other awardees prior to 2013-Q3 (July-September, 2013). However, Iowa UI records were available to identify in-state employment for all periods of time.

The next sections of this report provide analyses of in- and out-of-state employment regarding the industries of those employed and their annual wages. Out-of-state employment was measured using WRIS, which, as mentioned above, was not available for AY 2011. Therefore, out-of-state wage data for the AY 2010 cohort is incomplete. Consequently, the number of unmatched records encompasses those who could not be matched to out-of-state records, those employed by employers who do not pay unemployment insurance tax, and those who were unemployed for the described uncovered periods of time.

Due to the availability of five years of wage data for the AY 2010 cohort, it is used as an example in Figure 26. This table illustrates the aggregate employment and wages for the AY 2010 cohort in the first five years of data available after graduation.

The data show that in 2011 (October 1, 2010 to September 30, 2011), 591 graduates remained after transfers were excluded.

Of those, 538 were matched to the Iowa UI wage records, representing 91.0 percent of the non-transfer cohort. In order to compare wages from AY 2011 to current wages (AY 2015), a cost of living adjustment was applied and documented in the *Adjusted Median Wage* columns in figures 26 and 27 (a detailed explanation is contained in the Employment and Wage Record Methodology section). This adjustment was used to determine whether real wages increased over the study period.

The increased rate of matched records in AY 2012 through AY 2015 reflects the out-of-state employment data gap being filled by the availability of WRIS records.

**Figure 26. Five Year Employment and Wage Trend for AY 2010 Cohort**

Year of Employment <sup>1</sup>	% Matched to Employment	Adjusted Median Wage	% with Previous Degree <sup>2</sup>	% Earning More than One Award <sup>2</sup>
2011*	91.0%	\$27,273	65.6%	5.2%
2012	92.6%	\$31,079	66.6%	5.4%
2013	89.9%	\$33,942	66.7%	5.7%

<sup>2</sup> Percentage calculated of those matching employment in that year

\* Out-of-state data not available

## Employment and Wages by State

The Wage Record Interchange System (WRIS) was used to identify individuals who were employed out-of-state the year following graduation based on primary employment. Though the records do not identify hours (full- or part-time), overtime, or occupation, they do identify the number of graduates working in other states.

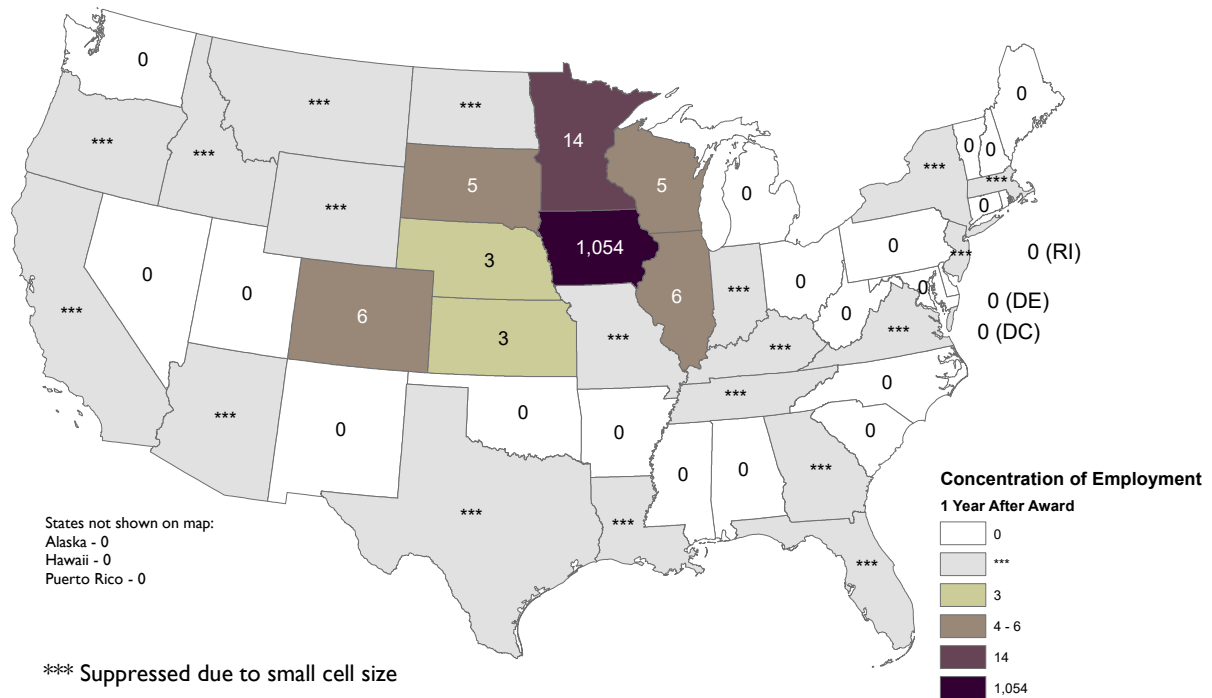

Figure 28 illustrates that the majority (94.1%) of those who received awards in AY 2013 and 2014, and were matched to employment data in the first year following award, remained in Iowa. Similar to those who continued their education, most graduates who were employed outside of Iowa were employed in contiguous states.

It is important to note that when analyzing wage data, all industries are encompassed.

Some industries (e.g. manufacturing) pay higher wages than others; therefore if a state has a higher concentration of manufacturing jobs it would likely show higher wages. Conversely, if a state has a high number of retail establishments, the median wages may be lower. For example, the median annual wage for all Iowa AY 2014 graduates the year following award in Iowa's manufacturing industry sector was \$36,997. The median annual wage in the healthcare industry sector in Iowa was \$31,994. The median annual wage in the retail trade industry sector in Iowa, however, was \$20,978.

Due to limited historical data for out-of-state employment reporting (past eight quarters), the data is limited for the AY 2010 cohort. Detailed tables relating to all cohorts can be found in Appendix A.

**Figure 28. AY 2013 to AY 2014 Cohorts, Primary Employment by State, First Year Following Award**

## Employment and Wages by Award Type

Figures 29 and 30 reflect the employment and wages, in aggregate, for those in the AY 2014 cohort who were employed in the year following graduation. Of the 349 AAS degree recipients from HCC who did not continue their education the year after graduation, 94.3 percent matched employment within that year and earned median wages of \$32,183 (see AAS row in Figure 29). All award types exceed 90.0 percent matched to employment in the first year after graduation, which is higher than comparable statewide community college rates. Diploma recipients (greater than or equal to 22 credits) earned a median wage of \$33,332, which is substantially higher than the statewide median of \$26,696.

**Figure 29. AY 2014 Cohort, AY 2015 Employment and Wages by Award Type**

Award Type	Year of Employment <sup>1</sup>	# in Cohort (not enrolled)	Matched to Employment		Adjusted Median Wage	% with Previous Degree	% Earning More than One Award
			#	%			
AA	2015	104	95	91.3%	\$21,790	2.1%	4.2%
AS	2015	1	****	****	****	****	****
ASCO	2015	0	-	-	-	-	-
APS	2015	0	-	-	-	-	-
AGS	2015	1	****	****	****	****	****
AAA	2015	53	51	96.2%	\$19,457	7.8%	0.0%
AAS	2015	349	329	94.3%	\$32,183	7.0%	25.8%
Diploma (>= 22 cr.)	2015	53	49	92.5%	\$33,332	10.2%	16.3%
Certificate (>= 22 cr.)	2015	23	****	****	****	****	****
Cert./Dipl. (< 22 cr.)	2015	29	28	96.6%	\$29,720	0.0%	0.0%

Associate of Arts (AA)  
Associate of Applied Arts (AAA)  
Associate of General Studies (AGS)

Associate of Science (AS)  
Associate of Applied Science (AAS)  
Associate of Science/Career Option (ASCO)

Associate of Professional Studies (APS)

Comparatively, Figure 30 shows the total of all AY 2014 associate degree recipients (across all types) had a 93.9 percent employment match in the first year after graduation. Diploma and certificate (22 or more credits) recipients had a 92.1 percent employment match rate, while diploma and certificate (less than 22 credits) recipients had an 96.6 percent employment match rate. Though the AAS degree (two-year program) has higher wages than all but diploma when analyzed separately, the data in aggregate shows that the associate degree median wage is \$3,602 lower than the combined diploma or certificate graduate (22 or more credits) median wage in the first year after graduation.

**Figure 30. AY 2014 Cohort, AY 2015 Employment and Wages by Award Type Aggregate**

Award Type (Aggregated)	Year of Employment <sup>1</sup>	# in Cohort (not enrolled)	Matched to Employment		Adjusted Median Wage	% with Previous Degree	% Earning More than One Award
			#	%

Certificate/Diploma (>= 22 cr.)	2015	76	70	92.1%	\$31,638	8.6%	37.1%
Associate	2015	508	477	93.9%	\$28,036	6.1%	18.7%

<sup>1</sup> 2015 defined as October 1, 2014 through September 30, 2015

## Employment and Wages by Gender

For the five cohorts in this study, there was a larger number of females than males received awards from HCC. Of the 1,149 award recipients in the AY 2014 cohort, 51.9 percent were female (Figure 31). Furthermore, the distribution of awards and programs varied significantly by gender but it is not further examined as it is beyond the scope of this report.

Figure 32 provides the employment and wages of AY 2014 award recipients who entered the workforce in the first year after graduation (i.e., did not continue their education). Females matched employment at a higher rate (96.3%) than males (91.1%).

Employment data showed that the adjusted median wage for males (\$31,335) was substantially higher than that of females (\$25,658). A more serious analysis of the gender wage gap among recent HCC graduates would require other factors, such as program and award type, to be controlled. Factors, such as age and previous education; may also need to be taken into account. Overall, 7.7 percent of female awardees who matched employment had an associate's degree or higher prior to receiving this award, however males with previously awarded associate's degrees represented 4.2 percent of students analyzed.

**Figure 31. Percent of Awards by Gender AY 2014 Cohort**

**Figure 32. AY 2014 Cohort, Employment and Wages by Gender, First Year Following Award**

Gender	Year of Employment <sup>1</sup>	# in Cohort (not enrolled)	Matched to Employment		Adjusted Median Wage	% with Previous Degree	% Earning More than One Award
			#	%			
Female	2015	322	310	96.3%	\$25,658	7.7%	18.4%
Male	2015	291	265	91.1%	\$31,335	4.2%	21.9%

<sup>1</sup> 2015 defined as October 1, 2014 through September 30, 2015

## Employment and Wages by Industry Sector

Figure 33 shows the employment and median wages by industry sector for the AY 2014 cohort in the first year after award completion. The industry sectors displayed are from the North American Industry Classification System (NAICS) code included in the Iowa UI and WRIS wage data.

Industry sectors are defined by the type of business that an employer engages in, not the occupation of an employee (defined by the day-to-day tasks the employee performs). As an example, a person who received a degree in health science could be a pharmaceutical technician working in the pharmacy of a large retail store. While he or she is doing work related to the health care field, and specific to his or her training, are technically employed in the retail trade sector.

Figure 33 illustrates that employers in the health care and social assistance industry sector employ twice the number of AY 2014 HCC graduates (27.1%) than the next largest industry sector (manufacturing - 13.6%). The next largest industry sectors, by employment, are retail trade (13.0%),

administrative and support services (6.1%), and wholesale trade (5.2%). As expected, these proportions tend to change over time. For instance, the five largest industry sectors of employment for AY 2010 graduates in AY 2015 (i.e., five years after award completion) are health care and social assistance, manufacturing, retail trade, wholesale trade, and construction.

Among the industry sectors employing 25 or more AY 2014 graduates, those with the highest median wages in the year after award were manufacturing (\$37,501), health care and social assistance (\$36,796), and wholesale trade (\$35,309). However, it is important to note that wages vary widely depending on the type of program the graduates completed. In addition, some of the data can be misleading due to the employees' occupation not directly matching the industry as discussed above.

Complete industry data for all cohorts and all years can be found in Appendix A.

**Figure 33. AY 2014 Cohort, Median Wages by Industry, First Year Following Award (Top Ten Industries by Employment)**

## Employment and Wages by Award Type and Industry

Figure 34 shows the employment and adjusted median wages by award type and industry sector for the AY 2014 cohort in the first year after graduation. While only the top three industry sectors by employment are shown per award type, the complete data for all cohorts and all years can be found in Appendix A.

As illustrated below, wages vary substantially within the same industry sector across award types and vice versa. For instance, Associate of

Arts (AA) recipients in the health care and social assistance industry sector have a median wage of \$16,913, while those with Associate of Applied Sciences (AAS) degrees earned \$39,321. However, as noted on the previous page, wage levels vary widely by award program and occupations within industry sectors.

A more in-depth analysis of wages by program is available on the following page.

**Figure 34. AY 2014 Cohort, AY 2015 Industry Median Wages by Award Type**

Award Type	Year of Employment <sup>1</sup>	Industry Sector of Employment	# Matched to Emp.	Adjusted Median Wage
AA	2015	Retail Trade	19	\$25,555
AA	2015	Health Care & Social Assistance	16	\$16,913
AA	2015	Accommodation & Food Services	13	\$18,717
AAA	2015	Retail Trade	17	\$18,526
AAA	2015	Information	4	\$19,752
AAA	2015	Professional, Scientific & Technical Services	4	\$16,264
AAS	2015	Health Care & Social Assistance	125	\$39,321
AAS	2015	Retail Trade	33	\$23,656
AAS	2015	Manufacturing	32	\$38,766
Diploma (>= 22 cr.)	2015	Manufacturing	18	\$39,571
Diploma (>= 22 cr.)	2015	Health Care & Social Assistance	10	\$31,916
Diploma (>= 22 cr.)	2015	Other Services	4	\$20,811
Certificate (>= 22 cr.)	2015	Manufacturing	13	\$40,815
Certificate (>= 22 cr.)	2015	Administrative & Support Services	3	\$14,489
Certificate (>= 22 cr.)	2015	Construction	****	****

Cert./Dipl. (< 22 cr.)	2015	Construction	7	\$20,924
Cert./Dipl. (< 22 cr.)	2015	Wholesale Trade	5	\$36,228

<sup>1</sup> 2015 defined as October 1, 2014 through September 30, 2015

## Employment and Wages by CIP

When analyzing wage and employment data, it is important to note the restrictions and limitations of the Iowa UI and WRIS data, as explained in the *Process and Methodology* section of this report. Two important factors that impact the data are (1) the wage data only represent employees of companies that pay unemployment insurance tax, and (2) the number of hours worked are not reported within the data, making it impossible to identify part- versus full-time employment. This lack of distinction between part- and full-time employment is the main reason the median annual wage is utilized for analysis, as this approach mitigates the effects of outliers to provide a more accurate representation of the typical employee's wages, particularly for comparison purposes.

Using the AY 2014 cohort of students who did not continue their education in the year following their award, recipients were matched to Iowa UI

and WRIS data to determine if they obtained employment within the first year after their award. Figure 35 illustrates the data for the top ten programs by number of graduates who did not enroll in further education. The bars represent the percent of graduates within the cohort who matched employment records and the dots represent the AY 2015 median annual wages. For example, 100.0 percent of students who received an AAS degree in the registered nurse program (CIP 513801) in AY 2014 matched employment and earned a median annual wage of \$43,842; while 96.4 percent of those in the commercial photography AAS program (CIP 500406) matched employment and earned a median annual wage of \$17,889.

The programs with the most graduates not continuing their education in the first year after award are shown in Figure 35. Data for all other programs can be found in Appendix A.

See Appendix A for other CIP codes and data not represented above.

## Career Clusters

Career and technical education (CTE) in Iowa consists of educational programs offering courses that are designed to prepare individuals for employment in current or emerging occupations. These programs involve competency-based, applied learning which contributes to a student's academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability, and occupational-specific skills.

CTE programs at the community college level are organized according to the national career cluster framework. Each career cluster represents a distinct grouping of occupations and industries based on the knowledge and skills required. The following sixteen career clusters and related career pathways provide an important organizing tool for schools to develop more effective programs of study and curriculum:

### **Agriculture, Food, and Natural Resources**

The production, processing, marketing, distribution, financing, and development of agricultural commodities and resources.

### **Architecture and Construction**

Careers in designing, planning, managing, building and maintaining the built environment.

### **Arts, A/V Technology, and Communications**

Designing, producing, exhibiting, performing, writing, and publishing multimedia content.

### **Business, Management, and Administration**

Careers in planning, organizing, directing and evaluating business functions essential to efficient and productive business operations.

### **Education and Training**

Planning, managing and providing education and training services, and related learning support services.

### **Finance**

Planning and related services for financial and investment planning, banking, insurance, and business financial management.

### **Government and Public Administration**

Planning and executing government functions at the local, state and federal levels.

### **Health Science**

Planning, managing, and providing therapeutic services, diagnostic services, health informatics, support services, and biotechnology research and development.

### **Hospitality and Tourism**

Preparing individuals for employment related to restaurant and food/beverage services, lodging, travel and tourism, recreation, amusement and attractions.

### **Human Services**

Preparing individuals for employment that relates to families and human needs such as counseling and mental health services, family and community services, personal care, and consumer services.

### **Information Technology**

Building linkages in IT occupations for entry level, technical, and professional careers related to the design, development, support and management of hardware, software, multimedia and systems integration services.

### **Law, Public Safety, Corrections, and Security**

Planning, managing, and providing legal, public safety, protective services and homeland security.

### **Marketing**

Planning, managing, and performing marketing activities to reach organizational objectives such as brand management, professional sales, merchandising, marketing communications and market research.

### **Manufacturing**

Planning, managing and performing the processing of materials into intermediate or final products and related professional and technical support activities.

### **Science, Technology, Engineering, and Mathematics (STEM)**

Planning, managing, and providing scientific research and professional and technical services including laboratory and testing services, and research and development services. *Please note that most STEM occupations are embedded in other career clusters.*

### **Transportation, Distribution, and Logistics**

The planning, management, and movement of people, materials, and goods by road, pipeline, air, rail and water and related professional and technical support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

## Awards by Career Cluster

Career clusters are designed to prepare students for success in their areas of interest by concentrating on developing particular skill sets that will help them attain meaningful employment. However, when researching career clusters, it is important to note that each cluster represents multiple industries and a variety of occupations.

Figure 36 illustrates the number of awards earned by HCC students by career cluster from AY 2010 to AY 2014. The list also includes awards earned by students in the college parallel/liberal arts (AA and AS degrees) programs. Although some of these AA and AS degree programs focus somewhat on specific fields, such as Criminal Justice or Business, the courses are unlike those of CTE program courses in that they are not focused on direct employment skills.

College parallel/liberal arts and the health science cluster awards account for the majority of awards earned at HCC. As previously discussed, most students in college parallel/liberal arts programs will transfer to continue their education, therefore this category has been separated from the clusters for this analysis. Most of the career cluster graduates move directly into the workforce and therefore, are the focus of the employment and wage research conducted for this report.

*Note: Only 15 of the 16 career clusters are listed in Figure 36 because data was not available for the Government and Public Administration career cluster.*

**Figure 36. AY 2010 - AY 2014 Awards by Career Cluster**

Cluster Name	2010 Awards	2011 Awards	2012 Awards	2013 Awards	2014 Awards	Total Awards
College Parallel/Liberal Arts	378	388	356	371	372	1,865
Health Science Cluster	239	269	250	251	202	1,211
Manufacturing Career Cluster	107	162	209	171	171	820
Agriculture, Food and Natural Resource Cluster	90	105	119	102	106	522
Transportation, Distribution, and Logistics Cluster	76	84	73	69	63	365
Arts, Audio/Video Technology and Communications Cluster	53	56	51	34	53	247
Information Technology Cluster	32	36	36	42	40	186

Law, Public Safety, Corrections and Security Cluster	32	52	32	26	24	166
Business, Management and Administration Cluster	27	21	29	33	24	134
Human Service Cluster	17	25	24	26	27	119
Marketing Sales and Service Cluster	20	19	17	12	19	87
Finance Cluster	14	9	18	15	14	70
Science, Technology, Engineering and Mathematics Cluster	2	2	-	1	-	5
Education and Training Cluster	-	-	-	-	-	-
Hospitality and Tourism Cluster	-	-	-	-	-	-
<b>Total</b>	<b>1,125</b>	<b>1,260</b>	<b>1,248</b>	<b>1,182</b>	<b>1,149</b>	<b>5,964</b>

## Employment by Career Cluster

By analyzing and charting each career cluster based on the percentage of students who continued their education versus those who became employed, it is evident which clusters are designed for direct employment.

Using the AY 2014 cohort as an example, Figure 37 illustrates that, within the first year following award completion, approximately three-fourths of the architecture and construction (73.5 percent) and transportation, distribution and logistics (79.4 percent) graduates became employed. In each cluster, 20.6 and 17.5 percent, respectively, continued their education, while a small percentage of completers could not be found in the National Student Clearinghouse or the Unemployment Insurance wage records. These award completers are denoted as “Unknown” in Figure 37.

Not surprisingly, the liberal arts and sciences cluster, which is designed for transfer to a four-year institution, has the highest rate of graduates continuing their education (71.5 percent). Naturally, this is accompanied by a lower rate of graduates entering employment after graduation.

Similar data were analyzed for other cohorts and are available in Appendix A. It is important to reiterate that out-of-state (WRIS) data was not available for the entirety of AY 2011. Therefore, when analyzing employment data one year following the award, the AY 2010 cohort data is incomplete.

**Figure 37. AY 2014 Cohort, Enrollment and Employment Status by Career Cluster, First Year Following Award**

## Transition into the Workforce

In the previous sections, career clusters and primary industry sectors of employment were analyzed independently. However, of particular interest is the cross-tabulation of these two variables, accomplished by tracking completers within each career cluster to the industry sectors in which they secured employment.

Figure 38 relates these two variables for the AY 2010 through 2014 cohorts, in aggregate, utilizing Circos, a software that uses polar coordinate mapping to illustrate data relationships. The Iowa Unemployment Insurance (UI) wage record database and the Wage Record Interchange System (WRIS) provided the industry information for each graduate.

The colored bars on the left side of the circle represent the career clusters and college parallel/liberal arts in which students earned awards. The gray bars on the right side represent the industry sectors in which the graduates became employed. Each gray bar corresponds to one of the twenty aggregate industry sectors listed on the right.

Figure 39 on the next page illustrates the relationship between career clusters and industry sectors via hundreds of ribbons connecting the career cluster graduates (left) to their industry sectors of employment (right). The width of the bars on both sides illustrates the size of the overall number of graduates (left bars) and employment within each sector (right bars). It is important to note that bars/ribbons representing data cells that were suppressed were removed from the visualization, resulting in less colored and gray bars in Figure 39 than there are in Figure 38.

Another important thing to keep in mind is that the data show the industry sectors in which completers were primarily employed, not their actual occupations. For instance, a person who received a degree in health science could be a pharmaceutical technician employed by the pharmacy of a large retail store. While he or she is doing work related to the health care field, he or she is technically employed in the retail trade sector. The distinction between occupation and industry sector is important to consider when analyzing the flow from education to industry shown in Figures 39 and 40 on the next pages.

### Career Cluster

- College Parallel/Liberal Arts
- Agriculture, Food and Natural Resource
- Architecture and Construction
- Arts, Audio/Video Technology and Comm.
- Business, Management and Administration
- Education and Training
- Finance
- Government and Public Administration
- Health Science
- Hospitality and Tourism
- Human Service
- Information Technology
- Law, Public Safety, Corrections and Security
- Manufacturing Career
- Marketing Sales and Service
- Science, Technology, Engineering and Mathematics
- Transportation, Distribution, and Logistics

Figure 38. Circos Visualization

### Industry Sector

- Accommodation and Food Services
- Admin. Support, Waste Mgmt. and Remediation
- Agriculture, Forestry, Fishing and Hunting
- Arts, Entertainment and Recreation
- Construction
- Educational Services
- Finance and Insurance
- Health Care and Social Assistance
- Information
- Management of Companies and Enterprises
- Manufacturing
- Mining
- Other Services
- Professional, Scientific and Tech. Services
- Public Administration
- Real Estate, Rental and Leasing
- Retail Trade
- Transportation and Warehousing
- Utilities
- Wholesale Trade

# Cluster to Industry

As previously mentioned, students who chose the college parallel/liberal arts program of study and the health science career cluster represent the largest portion of AY 2010 to AY 2014 graduates, which explains why the red and green sectors on the left of Figure 39 are so wide. Graduates who neither furthered his or her education within one year of graduation are graphically represented in this figure, with the “No Match” section corresponding to those graduates who did not

match UI wage records. This diagram illustrates that the majority of health science completers obtained employment within the health care and social assistance industry, this career cluster also provided workers for nearly every industry. The college parallel completers were largely disbursed as well, with their largest industry sectors of employment being retail trade, health care and social assistance, and manufacturing.

**Figure 39. Cluster to Industry Mapping for AY 2010-AY 2014  
Hawkeye Community College Graduates**

Note: Ribbons representing cells that are suppressed in the data are not shown in this visualization

The circular graphics in Figure 40 illustrate each award category (i.e., career clusters and college parallel programs) on the left side of the circle aligning with the industries in which graduates were working. This is simply Figure 39 separated into 13 individual graphics for each career cluster to make distinguishing industry patterns within a cluster easier to visualize.

**Figure 40. Industry Mapping by Cluster, AY 2010-AY 2014 Community College Graduates**

*Note: Ribbons representing cells that are suppressed in the data are not shown in this visualization*

## Employment and Wage Record Methodology

- All wages for this report originate either from the Iowa Unemployment Insurance (UI) wage database or the Wage Record Interchange System (WRIS) network of state UI wage databases.
- Both the actual wage earned (“Unadjusted Median Wage”) and the wage adjusted for inflation (“Adjusted Median Wage”) are included in all wage related tables. Wages are adjusted for inflation to academic year 2015 (October 2014 - September 2015) levels (CPI-u=236.7417) in order to make longitudinal comparisons more legitimate using the Consumer Price Index (CPI-u) as calculated by the U.S. Bureau of Labor Statistics. The formula used for adjusting wages is as follows:

$$W_{adj} = \frac{CPI_t}{CPI_{base}} * W_t$$

where  $CPI_{base}$  is the CPI value of the base time period (AY 2015),  $CPI_t$  is the CPI value of the time period being adjusted from, and  $W_t$  is the wage of the time period being adjusted from. Wages are adjusted after they have been aggregated by academic year (using academic year average CPI values).

- The aggregate wages reported throughout this report do not include those graduates who did not match with a record in the UI wage database (i.e. the median wages only include those who had wages covered by employer UI tax during that year).
- To protect individual identities, small sample size cells were suppressed using the following rules:
  1. Suppress cell if number of employed in cell is less than three
  2. If the sum of employed individuals across all suppressed subgroups is less than three, suppress the next smallest subgroup (to ensure the number of suppressed individuals is three or greater)
- Out-of-state (WRIS) data was not available for the entirety of AY 2011 due to the available data within the WRIS system (8 quarters) during this reporting period.

\*\* = Number suppressed due to small cell size n < 10

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**CC Credit Hours Transferred** represent the number of college credit hours that a student transferred into a Regent university. Not all credit hours were necessarily earned at Iowa CC from which a student transferred.

**First Term/Year GPA/Credits** represent grades and credit hours earned at the Regent university after transfer from an Iowa community college.

**Retention 1 Year after Transfer** represents the percentage of CC transfer students who enrolled at a Regent university one year after first enrolling at a Regent university. Calculated by dividing the number of unique CC transfers enrolled one year after entering a Regent university by the number of unique CC who first enrolled in a Regent university for a given cohort or aggregation of cohorts.

**GPA Earned Prior to Transfer** represents the cumulative GPA for a transfer student prior to entering their current Regent university.

**All Other Iowa Community Colleges** averages are based on data from all Iowa CC except for the CC profiled in this table.

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**CC Credit Hours Transferred** represent the number of college credit hours that a student transferred into a Regent university. Not all credit hours were necessarily earned at Iowa CC from which a student transferred.

**First Term/Year GPA/Credits** represent grades and credit hours earned at the Regent university after transfer from an Iowa community college.

**Retention 1 Year after Transfer** represents the percentage of CC transfer students who enrolled at a Regent university one year after first enrolling at a Regent university. Calculated by dividing the number of unique CC transfers enrolled one year after entering a Regent university by the number of unique CC who first enrolled in a Regent university for a given cohort or aggregation of cohorts.

**GPA Earned Prior to Transfer** represents the cumulative GPA for a transfer student prior to entering their current Regent university.

**All Other Iowa Community Colleges** averages are based on data from all Iowa CC except for the CC profiled in this table.

**Academic Area** uses the first two digits of the CIP code from a student's current first major to place them into a general academic area of study.

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Graduation rates** are calculated by dividing the number of Iowa CC transfers who earned a first Bachelor's degree at a Regent university within 3 years of entry by the number of Iowa CC transfers who entered a Regent university during the same cohort.

**Academic Area** uses the first two digits of the CIP code from a student's current first major to place them into a general academic area of study.

**First Semester University GPA** represents the Grade Point Average earned by Iowa CC transfer students during their first semester/term at a Regent university. It does not include GPA or course grades earned prior to transfer.

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**CC Credit Hours Transferred** represent the number of college credit hours that a student transferred into a Regent university. Not all credit hours were necessarily earned at Iowa CC from which a student transferred.

**First Year University GPA** represents the Grade Point Average earned by by Iowa CC transfer students during their first year enrolled at a Regent university. It does not include GPA or course grades earned prior to transfer.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Student counts (numbers in small font within cells)** represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts.

**Retention 1 Year after Transfer** represents the percentage of CC transfer students who enrolled at a Regent university one year after first enrolling at a Regent university. Calculated by dividing the number of unique CC transfers enrolled one year after entering a Regent university by the number of unique CC who first enrolled in a Regent university for a given cohort or aggregation of cohorts.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Student counts (numbers in small font within cells)** represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts.

**First Semester University GPA** represents the Grade Point Average earned by Iowa CC transfer students during their first semester/term at a Regent university. It does not include GPA or course grades earned prior to transfer.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Student counts (numbers in small font within cells)** represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts.

**First Year University GPA** represents the Grade Point Average earned by by Iowa CC transfer students during their first year enrolled at a Regent university. It does not include GPA or course grades earned prior to transfer.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Student counts (numbers in small font within cells)** represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts.

**Graduation rates** are calculated by dividing the number of Iowa CC transfers who earned a first Bachelor's degree at a Regent university within 3 years of entry by the number of Iowa CC transfers who entered a Regent university during the same cohort.

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**CC Credit Hours Transferred** represent the number of college credit hours that a student transferred into a Regent university. Not all credit hours were necessarily earned at Iowa CC from which a student transferred.

\*\* = Number suppressed due to small cell size n < 10

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**Retention 1 Year after Transfer** represents the percentage of CC transfer students who enrolled at a Regent university one year after first enrolling at a Regent university. Calculated by dividing the number of unique CC transfers enrolled one year after entering a Regent university by the number of unique CC who first enrolled in a Regent university for a given cohort or aggregation of cohorts.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

\*\* = Number suppressed due to small cell size n < 10

**Student counts** (numbers in small font within cells) represent the count of unique transfer students who enrolled in a Regent university for a specific cohort or aggregation of cohorts

**Graduation rates** are calculated by dividing the number of Iowa CC transfers who earned a first Bachelor's degree at a Regent university within 3 years of entry by the number of Iowa CC transfers who entered a Regent university during the same cohort.

**Cohorts** identify when an Iowa CC transfer student first enrolled at a Regent university (e.g., 2009-10 Cohort = entered a Regent university during Summer or Fall of 2009 or Spring of 2010).

**Program Reviewed:**

Hawkeye Community College  
 OTA program (associate degree)  
 Waterloo, Iowa

**Program Director Credentials Reviewed:**

Cindy Koehn, OTR/L  
 Interim Program Director, Occupational Therapy Assistant Program

**Compliance with Standards:**

Full compliance with Standard A.2.3 of the 2011 *Accreditation Standards for an Associate-Degree-Level Educational Program for the Occupational Therapy Assistant*.

**Noncompliance with Standards:**

Noncompliance with the following Standards:

<b>Area of Noncompliance</b>	<b>ACOTE Comment</b>
<p>A.2.1: Evidence must be submitted that the program director is assigned to the program on a full-time basis and has sufficient release time to ensure that the needs of the program are being met.</p> <p><u>A.2.1. Full-time Program Director:</u>  <i>The program must identify an individual as the program director who is assigned to the occupational therapy educational program on a full-time basis. The director may be assigned other institutional duties that do not interfere with the management and administration of the program. The institution must document that the program director has sufficient release time to ensure that the needs of the program are being met.</i></p>	<p>The individual identified as the interim program director is also serving as the academic fieldwork coordinator, which is her full-time appointment. The interim program director is provided with 3 credits of release time for the academic fieldwork coordinator role.</p>
<p>A.2.2: Documentation must be submitted that the program director holds a minimum of a master's degree.</p> <p><u>A.2.2. Program Director's Credentials:</u>  <i>The program director must be an initially certified occupational therapist or occupational therapy assistant who is licensed or otherwise regulated according to regulations in the state(s) or jurisdiction(s) in which the program is located. The program director must hold a minimum of a master's degree awarded by an institution that is accredited by a regional or national accrediting body recognized by the U.S. Department of Education (USDE). The master's degree is not limited to a master's degree in</i></p>	<p>The individual identified as the interim program director currently holds a baccalaureate degree.</p>

<p><i>occupational therapy.</i></p> <p>A.2.5: The program must have at least one full-time equivalent faculty position. This position may be shared by up to three individuals who teach as adjunct faculty. These individuals must have one or more additional responsibilities related to student advisement, supervision, committee work, program planning, evaluation, recruitment, and marketing activities.</p> <p><i><u>A.2.5. Additional FTE Faculty:</u></i>  <i>In addition to the program director, the program must have at least one full-time equivalent (FTE) faculty position at each accredited location where the program is offered. This position may be shared by up to three individuals who teach as adjunct faculty. These individuals must have one or more additional responsibilities related to student advisement, supervision, committee work, program planning, evaluation, recruitment, and marketing activities.</i></p>	<p>The program has 2 adjunct faculty members in addition to the individual identified as the interim program director and academic fieldwork coordinator. The program does not have a second full-time equivalent (FTE) faculty at this time.</p>
---	---

**Accreditation Status:** ACCREDITATION

**Next Report Requested:** Plan of Correction relative to noncompliance with Standards A.2.1, A.2.2, and A.2.5

**Report Due Date:** February 16, 2016

**Report Submission Instructions:**

The report must be prepared using the Plan of Correction form which may be downloaded from the “Accreditation Surveys, Forms, and Templates” section of the ACOTE Web site: [www.acoteonline.org](http://www.acoteonline.org).

Submit one scanned signed copy of the Plan of Correction with any attachments by e-mail to: [accred@aota.org](mailto:accred@aota.org).

For each area, provide a **description of the plan** for bringing the program into compliance with the Standard, a **projected time line**, a description of the **documentation to be submitted** to demonstrate compliance, and **progress on actions** (if any) implemented to date.

The plan must include a schedule for correcting the cited areas of noncompliance within the following time limit:

- 12 months if the program is less than 1 year in length;
- 18 months if the program is at least 1 year in length, but less than 2 years in length; or
- 2 years if the program is at least 2 years in length.

Please ensure that you are using planned report submission dates that correspond to the ACOTE due dates for upcoming meetings: February 16<sup>th</sup> (April ACOTE meeting), June 25<sup>th</sup> (August ACOTE meeting), or October 20<sup>th</sup> (December ACOTE meeting).

To avoid the potential for Probationary Accreditation status, it is strongly recommended that the program plan to correct all cited areas at least 4 months prior to the end of the allowable time limit.

COMMISSION ON ACCREDITATION FOR  
RESPIRATORY CARE

November 30, 2015

Jamie Bute, BS, RRT, Program Director  
Respiratory Care Program  
Hawkeye Community College  
1501 E Orange Rd  
Waterloo, IA 50704

RE: Program Number 200457

Dear Ms. Bute:

Thank you for submitting your 2015 Annual Report of Current Status and Resource Assessment Matrix. The Commission on Accreditation for Respiratory Care (CoARC) reviews this information to determine ongoing compliance with accreditation Standards and CoARC Accreditation Policies and Procedures. Based on the outcomes you reported, your program has met or exceeded all currently set "thresholds" for success on each of the required outcome measures.

This is an accomplishment of which you, your staff, and institution should be proud. No further action is required on your part. Please continue your current program "Resource Assessment" and "Outcomes Assessment" activities in preparation for your next Annual Report due July 1, 2016.

Should you have specific questions or concerns involving the annual reporting process and/or the Commission's feedback on your Annual Report of Current Status, please do not hesitate to contact the CoARC Executive Office.

The Commission commends you and your colleagues for your commitment to continuous quality improvement in education, as demonstrated by your participation in programmatic accreditation.

Sincerely,

Thomas R. Smalling, PhD, RRT, RPFT, RPSGT, FAARC  
Executive Director

**PHYSICAL THERAPIST ASSISTANT**

**Commission on Accreditation in Physical Therapy Education  
American Physical Therapy Association**

**SUMMARY OF ACTION**

Physical Therapist Assistant Program  
Hawkeye Community College  
1501 East Orange Road  
PO Box 8015  
Waterloo, IA 50704-8015

On November 12, 2014, the Commission on Accreditation in Physical Therapy Education made the following decision regarding the Physical Therapist Assistant education program at Hawkeye Community College.

**Status:** ACCREDITATION

**Action Taken:** Remove Probation and Continue Accreditation

**Effective Date:** November 12, 2014

**Information Used to**

**Make Decisions:** Compliance Report received 9/14/2014

**Reason for Decision:** The Commission's decision to remove probation and continue accreditation status is based on the program's demonstration of general compliance with the intent of the Evaluative Criteria and on the professional manner in which the program has addressed the Commission's previous concerns.

The program is reminded that the status of accreditation has been continued based on the program described in the materials reviewed by the Commission. The institution and program are responsible for notifying CAPTE of all substantive changes in the program prior to implementation. Unexpected substantive changes are to be reported immediately after they occur. (See Part 9 of CAPTE's Rules of Practice and Procedure for more information about reporting changes.)

**Next Activity:** Self-Study Report and On-site Visit in Fall 2017

**Notices:** The program is advised to heed the following notices which are appended:

**NOTICES**

**ACCURATE PUBLIC DISCLOSURE OF THIS DECISION BY THE INSTITUTION**

The institution and program must make accurate public disclosure of the accreditation or preaccreditation status awarded to the program. Further, the United States Department of Education (USDE) requires all recognized accrediting agencies to provide for the public correction of incorrect or misleading information an institution or program releases about accreditation or preaccreditation status, contents of reports of on-site reviews, and accreditation or preaccreditation actions with respect to the institution or

program. [34 CFR 602.23(d) and 602.23(e)] If the institution or program chooses to disclose any additional information, beyond the accreditation or preaccreditation status that is within the scope of the USDE rule, such disclosure also must be accurate. Any public disclosure of information within the scope of the rule must include the agency's street address, email address and phone number: Commission on Accreditation in Physical Therapy Education, 1111 North Fairfax Street, Alexandria, Virginia 22314; accreditation@apta.org; (703) 684-2782 or (703) 706-3245. If the Department of Accreditation finds that an institution or program has released incorrect or misleading information within the scope of the USDE rule, then, acting on behalf of CAPTE the Department will make public correction, and reserves the right to disclose this Summary of Action in its entirety for that purpose.

#### **REQUIRED STATEMENT OF ACCREDITATION STATUS**

Once a program has been accredited, and for as long as it remains accredited, the program must use the following statement on all educational and promotional materials, including the institution/program web site, where the program's accreditation status is disclosed:

[Name of Program] at [Name of Institution] is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: <a href="mailto:accreditation@apta.org">accreditation@apta.org</a> ; website: <a href="http://www.capteonline.org">www.capteonline.org</a> .
--

NOTE: If the institution offers other physical therapy programs not subject to accreditation by CAPTE (e.g., transitional DPT, post-professional degree program, residency or fellowship), the above statement must be edited to clearly indicate that the additional programs are not accredited by CAPTE. Additionally, the information available to the public regarding these programs must clearly state that they are not accredited by CAPTE.

#### **PUBLIC NOTICE OF DECISIONS BY CAPTE**

Following all decisions, including decisions to place a program on warning, probation or show cause, or to deny candidacy, withdraw candidacy, withhold accreditation, or withdraw accreditation, the Department of Accreditation will, within 24 hours of notifying the programs and institutions of the decisions, provide notice to the public by placing notice of the decisions on its web site.

#### **PUBLIC NOTICE OF REASONS FOR DECISIONS**

Effective November 2014, pursuant to expectations of the Council for Higher Education Accreditation, CAPTE will provide public notice of the reasons for its decisions to grant candidacy, or grant or reaffirm accreditation. These notices will be in addition to the notices of reasons for probation and for final adverse actions as required by the US Department of Education.

#### **RESPONSIBILITY TO REPORT CHANGE(S)**

The institution and program are responsible for notifying CAPTE of all reportable changes in the program prior to implementation. Unexpected changes are to be reported immediately after they occur. Reportable changes, some of which may require pre-approval, are described in Part 9 of CAPTE's *Rules of Practice and Procedure* (<http://www.capteonline.org/AccreditationHandbook/>). **It is the program's responsibility to be familiar with these expectations and to provide notification of program changes as required.**

**Commission's Findings:**

The Commission on Accreditation in Physical Therapy Education judged the program to be in compliance with the intent of the following previously cited evaluative criteria: 1.1.7.3; 3.2.6; 3.3.3.1; and 4.2.

The Commission has now deemed the program to be in compliance with the intent of all of the Evaluative Criteria for Accreditation of Education Programs for the Preparation of Physical Therapist Assistants. The Commission appreciates the thorough and professional manner in which these obligations have been addressed.

**Consultative Comments:**

The Commission notes that the syllabi submitted by the program highlight a change in the grading scale that is not logical. It states that the "C" range is 70-75% but that students who receive "<75%" will receive an "F". The program may have intended for the "C" range to be 75-79%, in which case this error on the syllabus and it should be corrected. The Commission expects that the program correct the grading scale so that it is clear whether a student who earns 70-74% has passed or failed. (1.1.7.3 and 3.2.6)

Commission on Dental Accreditation

August 24, 2016

Dr. Linda Allen  
President  
Hawkeye Community College  
1501 East Orange Road  
Waterloo, IA 50704

RE: Hawkeye Community College, Waterloo, Iowa  
Dental Assisting and Hygiene Programs

Dear President Allen:

At its August 4, 2016 meeting, the Commission on Dental Accreditation (CODA) granted the dental assisting and dental hygiene programs the accreditation statuses of “approval with reporting requirements” and “approval without reporting requirements,” respectively. The definitions of accreditation classifications are enclosed. Below is a summary of actions and additional information.

#### **Dental Assisting Progress Report**

The Commission considered the May 2016 progress report on the dental assisting program.

Following careful review of the information provided, the Commission adopted a resolution to continue the program’s accreditation status of “approval with reporting requirements.”

Based on a review of the report, the Commission determined that the following recommendations contained in the site visit report adopted February 2016 remain unmet: 4 and 8. The Commission specified that continued accreditation of the program will be dependent upon the remaining recommendations being met and the program achieving full compliance no later than August 2017. When Accreditation Standards are revised during the period in which the program is submitting progress reports, the program will be responsible for demonstrating compliance with the new standards.

#### **Dental Hygiene Progress Report**

At its August 4, 2016 meeting, the Commission on Dental Accreditation considered the May 2016 progress report on the dental hygiene program.

Following careful review of the information provided, the Commission determined that the recommendations cited in the February 2016 site visit report have been met and adopted a resolution to change the program’s accreditation status to “approval without reporting requirements.”

No additional information is requested from the program at this time. The next site visit for the program is scheduled for **2022**.

### **Requested Information for February 2, 2017 Meeting**

The “Summary of Recommendations and Required Documentation” found at the end of this letter includes the stated recommendation and required documentation to submit with the progress report to demonstrate compliance.

For the dental assisting program, the Commission requests one (1) paper copy and requires one (1) identical electronic copy of a detailed report addressing the concerns noted in this letter be submitted by November 15, 2016 for consideration at the Dental Assisting Education Review Committee’s January 12-13, 2017 meeting and the Commission’s February 2, 2017 meeting. Instructions to assist you in developing the report and providing an electronic copy are enclosed. The Commission will assess a fee to the program if it fails to provide an electronic version of its report.

Attached please find Guidelines for Preparation of Reports and Documentation Guidelines for Selected Recommendations to assist you in developing a focused, concise response to the Commission’s recommendations. Please note that reports that fail to adhere to the stated guidelines may be returned to the program and may not be reviewed at the assigned time. The Commission’s timelines for demonstration of full compliance will not be modified due to a delayed review resulting from improperly formatted reports.

### **General Information**

In taking this action, the Commission stipulated that expects the institution to keep the Commission informed as soon as possible of anticipated changes in any approved educational program offered, particularly in the areas of administration, enrollment, faculty, facilities and curriculum.

The Commission on Dental Accreditation monitors increases in enrollment. The purpose for monitoring increases in enrollment through review of existing and projected program resources (faculty, patient availability, and variety of procedures, physical/clinical facilities, and allied support services) is to ensure that program resources exist to support the intended enrollment increase. Failure to comply with the policy will jeopardize the program’s accreditation status. The Commission’s policy and guidelines for reporting program changes are attached.

All institutions offering programs accredited by the Commission are expected to adhere to deadlines for requests for program information. If an institution fails to comply with the Commission's request, or a prescribed deadline, it will be assumed that the institution no longer wishes to participate in the accreditation program. In this event, the Commission will immediately notify the chief executive officer of the institution of its intent to withdraw the accreditation of the program(s) at its next scheduled meeting.

***Institutions/Programs are expected to follow Commission policy and procedure on privacy and data security related to compliance with the Health Insurance Portability and Accountability Act (HIPAA). The Commission’s statement on HIPAA, as well as the Privacy and Data Security Summary for Institutions/Programs (PDF), are found in the Policies/Guidelines section of the***

Commission's website at <http://www.ada.org/en/coda/policies-and-guidelines/hipaa/>. Programs that fail to comply with CODA's policy will be assessed a penalty fee of \$1000.

It should be noted that Commission policy allows for the program to appear before the Dental Assisting Education Review Committee to supplement the written information contained in your progress report. A written request for a special appearance should be submitted to Dr. Sherin Tooks, director, Commission on Dental Accreditation, by **December 1, 2016**.

If the special appearance request is approved, a representative of the institution will be permitted to appear before the Dental Assisting Education Review Committee to present additional information. The special appearance will occur at a specified date and time period prior to the committee's consideration of the program's accreditation classification. If additional written materials will be presented, one (1) paper and one (1) identical electronic copy should be submitted by the institution to this office no later than five (5) business days prior to the meeting. If additional information will be presented at the special appearance, **ten (10) copies** should be provided.

The Commission has authorized use of the following statement by institutions or programs that wish to announce their programmatic accreditation by the Commission. Programs that wish to advertise the specific programmatic accreditation status granted by the Commission may include that information as indicated in italics below (see text inside square brackets); that portion of the statement is optional but, if used, must be complete and current.

The programs in dental assisting and dental hygiene are accredited by the Commission on Dental Accreditation [*and have been granted the accreditation statuses of "approval with reporting requirements" and "approval without reporting requirements," respectively*]. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission's web address is: <http://www.ada.org/en/coda>.

The staff of the Commission on Dental Accreditation is available for consultation to all educational programs which fall within the Commission's accreditation purview. Educational institutions sponsoring dental education programs are encouraged to obtain such staff counsel and guidance by written or telephone request. Consultation is provided on request prior to, as well as subsequent to, the Commission's granting accreditation to specific programs. The Commission expects to be reimbursed if substantial costs are incurred.

If this office can be of any assistance to you, please contact the Allied accreditation managers, Ms. Alyson Ackerman at [ackermana@ada.org](mailto:ackermana@ada.org) or 1-800-621-8099, extension 4660, or Ms. Patrice Renfrow at [renfrowp@ada.org](mailto:renfrowp@ada.org) or 1-800-621-8099 extension 2695.

President Allen

**Summary of Recommendations and Required Documentation**  
**Hawkeye Community College**  
**Waterloo, IA**  
**Dental Assisting**

Please review the following paragraphs that include the stated recommendations and required documentation to submit with the progress report to demonstrate compliance.

**Recommendation #4:** It is recommended that curriculum content include didactic and laboratory/preclinical objectives in the following dental assisting skills and functions: l) Provide patient preventive education and oral hygiene instruction; o) Maintain accurate patient treatment records; and o) Identify and respond to medical and dental emergencies. It is further recommended that prior to performing these skills/functions in a clinical setting, students demonstrate knowledge of, and laboratory/preclinical competence in the program facility. (DA Standard 2-8, l and o)

The Commission reviewed documentation for didactic and laboratory/preclinical objectives for medical emergencies and didactic objectives for patient preventive education and oral hygiene instruction. However, the Commission could not verify didactic and laboratory/preclinical objectives for o) identifies and responds to dental emergencies or laboratory/preclinical objectives for l) patient preventive education and oral hygiene instruction.

To demonstrate compliance with Recommendation #4 (DA Standard 2-8, l and o), the Commission requests the program submit evidence of laboratory/preclinical objectives in l) Provide patient preventive education and oral hygiene instruction and didactic and laboratory/preclinical objectives in o) Identify and respond to dental emergencies. Please provide the evaluation sheet for brushing and didactic objectives and skill evaluation(s) for responding to dental emergencies.

**Recommendation #8:** It is recommended that prior to exposing dental images during extramural clinical assignments, students demonstrate competence, under faculty supervision, in exposing diagnostically acceptable full-mouth dental image surveys on a minimum of two patients in the program, or contracted facility. (DA Standard 2-17)

The Commission reviewed the program's evaluation methods and policies on exposing full-mouth dental surveys on two (2) patients in the program facility prior to extramural clinical assignments. However, the Commission noted the performance criteria focuses on the process of setting up the patient and positioning the sensor, and does not evaluate whether or not the full-mouth dental image survey is diagnostically acceptable.

To demonstrate compliance with Recommendation #8 (DA Standard 2-17), the Commission requests documentation that prior to exposing dental images during extramural clinical assignments, students demonstrate competence in exposing diagnostically acceptable full-mouth

President Allen  
August 24, 2016  
Page 6

dental image surveys in the program facility. Please provide the evaluation mechanism(s) used to evaluate radiographs and determine student competence in exposing radiographs.

**FORMAL REPORT OF THE COMMISSION ON DENTAL ACCREDITATION  
TO THE ADMINISTRATION OF HAWKEYE COMMUNITY COLLEGE  
ON THE EVALUATION OF THE DENTAL ASSISTING AND DENTAL HYGIENE  
EDUCATION PROGRAMS  
Waterloo, Iowa\***

**Introduction**

An evaluation of the dental assisting and dental hygiene programs offered by Hawkeye Community College was conducted on October 27-29, 2015 by a committee of the Commission on Dental Accreditation composed of Dr. Keith Dickey, allied-dentist consultant; Ms. Linda Joleen VanBibber, consultant in dental assisting; Ms. Rebecca Tabor, consultant in dental hygiene; and Dr. Mary Elizabeth Kaz, site visit chair.

The Commission believes that educational institutions offering curricula supportive to the dental profession assume the obligation and responsibility of affording quality educational opportunities which are based on sound educational principles. Commission objectives are also based on the premise that allied dental education programs should strive continually to improve standards of scholarship and teaching consistent with the purpose and methods of postsecondary education. To assist the institution in appraising its educational effectiveness and identifying ways and means by which its endeavors can be strengthened, allied dental programs are reviewed periodically by peers in relation to predetermined standards. This peer review of the educational process is based on the programs' self-study and conferences with persons involved in the various components of the programs.

This report represents the visiting committee's findings and conclusions in the form of recommendations that directly relate to accreditation standards. These are found, as appropriate, under headings that parallel the Commission's Standards for dental assisting and dental hygiene education programs. The recommendation is indented and numbered in the report. Only those standards that warrant one of the aforementioned types of comments are included; in all other cases, the visiting committee found that the program met or exceeded the minimum standards.

The Commission on Dental Accreditation has discontinued the use of commendations, effective July 26, 2007. As a result, commendations will no longer be cited within site visit reports for programs under the Commission's purview.

**Accreditation History**

The dental assisting and dental hygiene programs offered by Hawkeye Community College were initiated in 1968 and 1975, respectively. This was the Commission's seventh site evaluation of

---

\*As approved by the Commission on Dental Accreditation for transmittal on February 4, 2016.

the dental assisting and the dental hygiene programs. At the time of the site visit, the accreditation status for the dental assisting and dental hygiene education programs was “approval without reporting requirements.” Information on the Commission’s previous accreditation of the program follows:

<u>Date</u>	<u>Discipline</u>	<u>Basis of Action</u>	<u>Action</u>
May 1969	Dental Assisting	Application	Preliminary Provisional Approval
May 1970	Dental Assisting	Site Visit	Approval
December 1972	Dental Hygiene	Application	Accreditation Eligible Withheld
May 1973	Dental Hygiene	Application	Accreditation Eligible Withheld
May 1974	Dental Hygiene	Application	Accreditation Eligible Withheld
December 1974	Dental Hygiene	Application	Accreditation Eligible Withheld
May 1975	Dental Hygiene	Application	Accreditation Eligible Withheld
December 1975	Dental Hygiene	Site Visit	Accreditation Eligible
May 1977	Dental Assisting	Site Visit	Approval
May 1977	Dental Hygiene	Site Visit	Provisional Approval
May 1978	Dental Hygiene	Progress Report	Approval
December 1985	Dental Assisting	Site Visit	Approval
December 1985	Dental Hygiene	Site Visit	Approval
July 1995	Dental Assisting	Site Visit	Approval
July 1995	Dental Hygiene	Site Visit	Approval

<u>Date</u>	<u>Discipline</u>	<u>Basis of Action</u>	<u>Action</u>
July 2001	Dental Assisting	Site Visit	Approval <u>with</u> Reporting Requirements
July 2001	Dental Hygiene	Site Visit	Approval <u>with</u> Reporting Requirements
November 2003	Dental Assisting	Progress Report	Approval <u>without</u> Reporting Requirements
November 2003	Dental Hygiene	Progress Report	Approval <u>without</u> Reporting Requirements
July 2009	Dental Assisting	Site Visit	Approval <u>with</u> Reporting Requirements
July 2009	Dental Hygiene	Site Visit	Approval <u>without</u> Reporting Requirements
February 2010	Dental Assisting	Progress Report	Approval <u>without</u> Reporting Requirements
February 2013	Dental Hygiene	Program Change	Approval <u>without</u> Reporting Requirements
January 2014	Dental Hygiene	Program Change	Approval <u>without</u> Reporting Requirements

### **Review of Recommendations Cited in the Program's Previous Site Visit Report**

At the time of the Commission's last evaluation of the program in November 2008, eleven recommendations were cited in the areas of Institutional Effectiveness, Educational Program, Administration, Faculty and Staff, and Patient Care Services. During this evaluation, the visiting committee reviewed these areas and found that the program has not demonstrated continued

compliance with the previous recommendations in the area of Educational Program. Detailed information regarding the visiting committee's findings is noted elsewhere in this report.

### **Compliance with Commission Policies**

At the time of the site visit, the visiting committee determined that the program was in compliance with the Commission on Dental Accreditation's policies on "Third Party Comments," "Complaints," "Program Changes," and "Distance Education."

Through review of the programs' complaint records, there are no patterns or themes related to the programs' compliance with the Accreditation Standards.

### **Standard 1. Institutional Commitment and Program Effectiveness**

***Dental Assisting:*** The program has documented its effectiveness using a formal and ongoing outcomes assessment process to include measures of dental assisting student achievement. Based on a review of the program's outcomes assessment process and student achievement measures, the visiting committee found the program has demonstrated positive programmatic student achievement outcomes through positive outcomes measures noted below.

The site visit team assessed the program's overall performance through student achievement measures such as national assessment scores, licensure or certification examinations results, program retention, and/or employment rates. A summary explaining how the program measures its effectiveness relative to student achievement is provided below.

#### **Dental Assisting Program Retention:**

Class of 2009: 65%

Class of 2010: 96%

Class of 2011: 65%

Class of 2012: 41%

Class of 2013: 38%

Class of 2014: 79%

Class of 2015: 91%

Class of 2016: To be determined

#### **Program Employment Rates:**

Hawkeye Community College sends surveys from the Career Services Center on campus. Rachel Evans, who documents and catalogs this research, stated that although surveys were sent to all graduates, the department sent only 1 Dental Assisting response from 2012-2014. The team at Career Services is currently working on an improved method for gathering responses. The Dental Assisting Program distributes its own survey on the final day of classes, and of 14 (total 2015) graduates 13 had full-time employment, and 1 was seeking employment.

The results from the employer surveys, graduate surveys, program evaluations, faculty calibration, and externship sites are on paper file.

**Effectiveness:**

The Dental Assisting Program measures its effectiveness relative to student achievements through the curriculum management plan enclosed in the Self-Study Exhibits. Faculty bring forth ideas to the Dental Administrative Chair (DAC) and the DAC brings them to the Dean of Health Sciences for discussion. It is then discussed with the Advisory Committee to ascertain the practicality of making changes in the program in the practicing dental community. The results of examinations, clinical competencies, and National and State testing guides program changes.

Some program changes that have been made, based on collection and analysis of student achievement data, include The Dental Advisory Committee recommendation that the course, DEA302-Dental Radiography, be revised. Because the course was assessed as having excessive lab time, but not enough lecture time, lecture hours were increased from one to two hours per week and lab hours were decreased from four to two hours per week. The Dental Advisory Committee also recommended that the course, DEA258-Dental Anatomy, be revised for the same reasons as the course referenced above, i.e., it was assessed as having excessive lab time, but not enough lecture time. Lecture hours were increased from two to five hours per week and lab hours were decreased from four to two hours per week. The advisory board members came to a similar consensus on a CAR (Course Amnesty Review) for DEA258-Dental Anatomy. The contact hours were changed from six to five. The lecture hours were changed from two to five hours per week. The lab contact hours were changed from four to two hours per week.

The Dental Clinic changed to an electronic (paperless) documentation/audit system that insures greater documentation accuracy on a timely basis, the same day as treatment. Unlike the previous system where the review of paper records could be postponed to a later time, the review of the electronic record is required prior to closing it out in the system. This change in documentation made a documentation audit form necessary; for use in tracking student's "same-day" documentation of patient care.

The visiting committee determined that the following standards that received recommendation directly relate to student achievement:

- Standard 2-6 b & c
- Standard 2-7
- Standard 2-8 a, c, f, i, j, k, l, m, n, & o
- Standard 2-9 c, d, e, f, g, & h
- Standard 2-11 a, d, e, f & g
- Standard 2-15 g & h
- Standard 2-17
- Standard 2-21
- Standard 2-28
- Standard 3-2
- Standard 3-3

#### Standard 4-6 c, e, f & g

There must be an active advisory committee to serve as a liaison between the program, local dental and allied dental professionals and the community. Dentists and dental assistants must be equally represented.

Through review of the self-study documents and on-interviews, the visiting committee determined that the dental assisting and dental hygiene programs share a joint advisory committee that provides a mutual exchange of information for program enhancement. The visiting committee determined that the dental advisory committee membership includes three (3) dentists, four (4) registered dental hygienists, and one (1) dental assistant. An unequal distribution of dental assistants on the advisory committee could affect the programs ability to address program and community needs.

1. It is recommended that there be an active advisory committee to serve as a liaison between the program, local dental and allied dental professionals and the community, and dentists and dental assistants are to be equally represented. (DA Standard 1-7)

**Dental Hygiene:** The program has documented its effectiveness using a formal and ongoing outcomes assessment process to include measures of dental hygiene student achievement. Based on a review of the program's outcomes assessment process and student achievement measures, the visiting committee found the program has demonstrated positive programmatic student achievement outcomes through measures noted below:

The site visit team assessed the program's overall performance through student achievement measures to include: national assessment scores, licensure or certification examinations results, program retention, and/or employment rates. A summary of those findings are listed. Additionally, provide examples of program changes made based on collection and analysis of student achievement data.

#### **Program Retention**

Class of 2010: 81%

Class of 2011: 85%

Class of 2012: 95%

Class of 2013: 86%

Class of 2014: 100%

Class of 2015: 82%

Class of 2016: To be determined

#### **Program Employment Rates**

Hawkeye Community College sends surveys from the Career Services Center on campus. Rachel Evans, who documents and catalogs this research, stated that although surveys were sent to all graduates, the department sent me only 1 Dental Assisting and 12 Dental Hygiene responses from 2012-2014. The team at Career Services is currently working on an improved method for gathering responses.

## **Effectiveness**

The Dental Hygiene Program measures its effectiveness relative to student achievements through the curriculum management plan enclosed in the Self-Study Exhibits. Faculty bring forth ideas to the Dental Administrative Chair (DAC) and the DAC brings them to the Dean of Health Sciences for discussion. It is then discussed with the Advisory Committee to ascertain the practicality of making changes in the program in the practicing dental community. The results of patient satisfaction surveys, examinations, clinical competencies, CRDTS, and NBDHE testing guide program changes.

National Board Dental Hygiene Examination First Time Pass Rates:

2015: 100%

2014: 100%

Clinical Board Examination First Time Pass Rates:

2015: 100%

2014: 72%

Some program changes that have been made, based on collection and analysis of student achievement data, include Advisory Committee members coming to a consensus on modifying the courses, DHY255-Community Oral Health and DHY260-Oral Health Education. Each course eliminated one credit hour to provide the two credit hours necessary to add HSC108-Introduction to Health Professions to list of prerequisite courses for the program. The curriculum change became effective Fall 2015.

The Dental Clinic changed to an electronic (paperless) documentation/audit system that insures greater documentation accuracy on a timely basis, the same day as treatment. Unlike the previous system where the review of paper records could be postponed to a later time, the review of the electronic record is required prior to closing it out in the system. This change in documentation made a documentation audit form necessary; for use in tracking student's "same-day" documentation of patient care.

## **Standard 2. Educational Program**

***Dental Assisting:*** The dental assisting program is presented in three (3), 16-week semesters. Upon completion of the program, graduates are awarded Diplomas in Dental Assisting.

Written documentation of each course in the curriculum must be provided to students at the start of each course and include: b) Course content outline including topics to be presented; and c) Specific instructional objectives for each topic presented

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the course title, number, description, faculty presenting course contact information, learning experiences with associated assessment mechanisms, course

schedule including time allocated for didactic, laboratory, and clinical learning experiences and specific evaluation procedures for course grade calculation are utilized. It was determined that specific instructional objectives for each topic to be presented and course content outlines including topics to be presented were not available in the following courses: DEA 412 Dental Materials I, DEA 417 Dental Materials II, DEA 513 Chairside Assisting I, DEA 514 Chairside Assisting II, and DEA 702 Dental Office Procedures.

2. It is recommended that written documentation of each course in the curriculum be provided to students at the start of each course and include course content outline including topics to be presented and specific instructional objectives for each topic presented in DEA 412 Dental Materials I, DEA 417 Dental Materials II, DEA 513 Chairside Assisting I, DEA 514 Chairside Assisting II, and DEA 702 Dental Office Procedures. (DA Standard 2-6, b and c)

Objective student evaluation methods must be utilized to measure all defined course objectives to include: b) Specific criteria for measuring levels of competence for each component of a given procedure

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that didactic, laboratory, preclinical, and clinical content are being taught. In addition, student performance elevates as student's progress through the curriculum. It was also determined that the following courses do not have specific criteria for measuring levels of competence for each component of a given procedure: DEA 103 Dental Orientation, DEA 258 Dental Anatomy, DEA 263 Dental Science II, DEA 412 Dental Materials I, DEA 417 Dental Materials II, DEA 513 Chairside Assisting I, DEA 514 Chairside Assisting II, DEA 556 Assisting Clinic, DEA 577 Dental Assisting Clinic II, DEA 591 Dental Assisting Seminar, DEA 603 Dental Specialties, DEA 702 Dental Office Procedures.

3. It is recommended that student evaluation methods be utilized to measure all defined course objectives to include specific criteria for measuring levels of competence for each component of a given procedure in the following courses: DEA 103 Dental Orientation, DEA 258 Dental Anatomy, DEA 263 Dental Science II, DEA 412 Dental Materials I, 417 Dental Materials II, DEA 513 Chairside Assisting I, DEA 514 Chairside Assisting II, DEA 556 Assisting Clinic, DEA 577 Dental Assisting Clinic II, DEA 591 Dental Assisting Seminar, DEA 603 Dental Specialties, DEA 702 Dental Office Procedures. (DA Standard 2-7, b)

Curriculum content must include didactic and laboratory/preclinical objectives in the following dental assisting skills and functions: a) Take/review and record medical and dental histories; c) Assist with and/or perform soft tissue extra/intra oral examinations; f) Prepare tray set-ups for a variety of procedures and specialty areas; i) Maintain clear field of vision including isolation techniques; k) Utilize appropriate chairside assistant ergonomics; l) Provide patient preventive education and oral hygiene instruction; m) Provide pre-and post-operative instructions prescribed by a dentist; o) Maintain accurate patient treatment records; and o) Identify and respond to medical and dental emergencies. Prior to performing these skills/functions in a clinical setting,

students must demonstrate knowledge of, and laboratory/preclinical competence in the program facility.

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the course DEA 513 Chairside Assisting I teaches some of the essential dental assisting skills but does not teach the following skills to laboratory/preclinical competence: a) Take/review and record medical and dental histories; c) Assist with and/or perform soft tissue extra/intra oral examinations; f) Prepare tray set-ups for a variety of procedures and specialty areas; i) Maintain clear field of vision including isolation techniques; k) Utilize appropriate chairside assistant ergonomics; l) Provide patient preventive education and oral hygiene instruction; m) Provide pre-and post-operative instructions prescribed by a dentist; o) Maintain accurate patient treatment records; and o) Identify and respond to medical and dental emergencies.

4. It is recommended that curriculum content include didactic and laboratory/preclinical objectives in the following dental assisting skills and functions: a) Take/review and record medical and dental histories; c) Assist with and/or perform soft tissue extra/intra oral examinations; f) Prepare tray set-ups for a variety of procedures and specialty areas; i) Maintain clear field of vision including isolation techniques; k) Utilize appropriate chairside assistant ergonomics; l) Provide patient preventive education and oral hygiene instruction; m) Provide pre-and post-operative instructions prescribed by a dentist; o) Maintain accurate patient treatment records; and o) Identify and respond to medical and dental emergencies. It is further recommended that prior to performing these skills/functions in a clinical setting, students demonstrate knowledge of, and laboratory/preclinical competence in the program facility. (DA Standard 2-8, a, c, f, i, k, l, m, n, and o)

Curriculum content must include didactic and laboratory/preclinical objectives in the following dental assisting skills and functions: c) Assist with and/or apply fluoride agents; d) Assist with and/or apply bases, liners, and bonding agents; e) Assist with and/or place, fabricate, and remove provisional restorations; f) Assist with and/or place and remove matrix retainers, matrix bands, and wedges; g) Assist with and/or remove excess cement or bonding agents; and h) Assist with a direct permanent restoration. Prior to performing these skills/functions in a clinical setting, students must demonstrate knowledge of, and laboratory/preclinical competence in the program facility.

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the courses DEA 412 Dental Materials I, DEA 417 Dental Materials II, and DEA 514 Chairside Assisting I that teach dental materials and chairside dental assisting skills do not teach the following skills to laboratory/preclinical competence: c) Assist with and/or apply fluoride agents; d) Assist with and/or apply bases, liners, and bonding agents; e) Assist with and/or place, fabricate, and remove provisional restorations; f) Assist with and/or place and remove matrix retainers, matrix bands, and wedges; g) Assist with and/or remove excess cement or bonding agents; and h) Assist with a direct permanent restoration

5. It is recommended that curriculum content include didactic and laboratory/preclinical objectives in the following dental assisting skills and functions: c) Assist with and/or apply fluoride agents; d) Assist with and/or apply bases, liners, and bonding agents; e) Assist with and/or place, fabricate, and remove provisional restorations; f) Assist with and/or place and remove matrix retainers, matrix bands, and wedges; g) Assist with and/or remove excess cement or bonding agents; and h) Assist with a direct permanent restoration. It is further recommended that prior to performing these skills/functions in a clinical setting, students demonstrate knowledge of, and laboratory/preclinical competence in the program facility. (DA Standard 2-9, c, d, e, f, g, and h)

Students must demonstrate competence in the knowledge at the familiarity level in dental practice management: a) Computer and dental software; d) Inventory systems and supply ordering; e) Maintenance and retention of business records; f) Management of patient information; and g) Recall systems

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the DEA 703 Dental Office Procedures course does not address several of the required competences and the course has not undergone revision and updating since the new dental assisting standards were adopted in January 2014.

6. It is recommended that students demonstrate competence in the knowledge at the familiarity level in dental practice management to include: a) Computer and dental software; d) Inventory systems and supply ordering; e) Maintenance and retention of business records; f) Management of patient information; and g) Recall systems (DA Standard 2-11, a, d, e, f, and g)

The curriculum must include content at the in-depth level in dental materials. Students must demonstrate knowledge of the properties, and competence in the uses and manipulation of, dental materials to include: g) Fabrication of casts, temporary crown and/or bridge; and h) Abrasive agents used to polish coronal surfaces and appliance

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that DEA 412 Dental Materials I and DEA 417 Dental Materials II provides instruction in most of the required topics but do not teach the following items to competence in the uses and manipulation of dental materials: g) Fabrication of casts, temporary crown and/or bridge; and h) Abrasive agents used to polish coronal surfaces and appliance

7. It is recommended that the curriculum include content at the in-depth level in dental materials and that students demonstrate knowledge of the properties, and competence in the uses and manipulation of, dental materials to include: g) Fabrication of casts, temporary crown and/or bridge; and h) Abrasive agents used to polish coronal surfaces and appliances. (DA Standard 2-15, g and h)

Prior to exposing dental images during extramural clinical assignments, students must demonstrate competence, under faculty supervision, in exposing diagnostically acceptable full-mouth dental image surveys on a minimum of two patients in the program, or contracted facility.

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the students are not exposing diagnostically acceptable full-mouth dental images on two patients in the program prior to their extramural clinical assignments. ***The recommendation related to DA Standard 2-17 was cited at the previous site visit.***

8. It is recommended that prior to exposing dental images during extramural clinical assignments, students demonstrate competence, under faculty supervision, in exposing diagnostically acceptable full-mouth dental image surveys on a minimum of two patients in the program, or contracted facility. (DA Standard 2-17)

Clinical experience assisting a dentist must be an integral part of the educational program designed to perfect students' competence in performing chairside assisting functions, rather than to provide basic instruction. Students must have a minimum of 300 hours of clinical experience.

Through review of the self-study documents and on-site interviews the visiting committee determined that students complete their clinical externships during the final eight (8) weeks (4 days per week) summer semester. In addition, the team confirmed that students spend a total of 6.5 hours per day during this experience. In combination, this provides the students approximately 208 hours of total clinical externship experience.

9. It is recommended that the clinical experience assisting a dentist be an integral part of the educational program designed to perfect students' competence in performing chairside assisting functions, rather than to provide basic instruction and students have a minimum of 300 hours of clinical experience. (DA Standard 2-21)

Objective evaluation criteria must be utilized by faculty and office or clinical personnel to evaluate students' competence in performing specified procedures during clinical experience.

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the externship evaluation mechanism does not have objective evaluation criteria. The evaluation documents states the following grading criteria: 3 Points=Exceed Expectations, 2 Points Meets Expectations, 1 Point = Below Expectations and 0 Points= No Participation by student. The team noted that although point values are assigned, the rubric does not provide a definition of these terms. ***The recommendation related to DA Standard 2-28 was cited at the previous site visit.***

10. It is recommended that objective evaluation criteria be utilized by faculty and office or clinical personnel to evaluate students' competence in performing specified procedures during clinical experience. (DA Standard 2-28)

***Dental Hygiene:*** The dental hygiene program is presented in five (5), 16-week semesters. Upon completion of the program, graduates are awarded Associate of Applied Science in Dental Hygiene degrees. The curriculum has been defined in terms of program goals, general instructional objectives, learning experiences designed to achieve the goals and objectives and evaluation procedures to assess student attainment of the goals and objectives.

### **Standard 3. Administration, Faculty and Staff**

The program administrator must have a full-time commitment to the institution and an appointment which provides time for program operation, evaluation and revision. The program administrator must have the authority and responsibilities for: e) Supervision and evaluation of faculty

Through review of the self-study document and on-site interviews, the visiting committee confirmed that the program administrator is responsible for all aspects of program administration with the exception of supervision and evaluation of the dental assisting and hygiene faculty. In accordance with the faculty bargaining unit, only the dean of the instructional area may conduct annual performance evaluations, and the process does not include input by the dental assisting/dental hygiene program administrator.

11. It is recommended that the program administrator have authority and responsibilities for supervision and input into the evaluation of faculty. (DA Standard 3-2, e)

The program administrator must be a Dental Assisting National Board “Certified Dental Assistant” or dentist licensed to practice in the state of the program location\*, with occupational experience in the application of fourhanded dentistry principles, either as a dental assistant or working with a chairside assistant.

Through review of the self-study document and on-site interviews, the visiting committee concluded that the dental assisting program administrator completed the Dental Assisting National Board certification examination in 2000 and has not maintained or recertified the CDA national certification with the national board. In addition, the visiting committee was unable to verify whether the program administrator has the necessary occupational experience in the application of four-handed dentistry.

12. It is recommended that the program administrator be a Dental Assisting National Board “Certified Dental Assistant”, with occupational experience in the application of fourhanded dentistry principles, either as a dental assistant or working with a chairside assistant. (DA Standard 3-3)

The program administrator must have the authority and responsibility necessary to fulfill program goals including: b) faculty recruitment, assignments and supervision; and c) input into faculty evaluation;

Through review of the self-study documents and on-site interviews, the visiting committee confirmed that the program administrator is responsible for all aspects of program administration with the exception of supervision and evaluation of the dental assisting and hygiene faculty. In accordance with the faculty bargaining unit, only the dean of the instructional area may conduct annual performance evaluations, and the process does not include input by the dental assisting/dental hygiene program administrator.

13. It is recommended that the program administrator have authority and responsibilities for supervision and input into the evaluation of faculty. (DH Standard 3-4, b and c)

#### **Standard 4. Educational Support Services**

A multipurpose laboratory facility must be provided for effective instruction and allow for required laboratory activities. If the laboratory capacity requires that two or more sections be scheduled, time for all students to obtain required laboratory experience must be provided.

Laboratory facilities must contain the following: a) placement and location of equipment that is conducive to efficient and safe utilization.

Through review of self-study documents and on-site observations, the visiting committee noted that the dental materials laboratory and lab adjacent to the clinic have multiple stone trimmers for student use. However, each of the stone trimmers lacked eye shield guards that may pose hazardous risks during use to the student, faculty, and staff.

14. It is recommended that the laboratory facilities contain placement and location of equipment that is conducive to efficient and safe utilization. (DH Standard 4-3, a)

Instruments and appropriate models and armamentaria must be provided to accommodate students' needs in learning to identify, exchange, prepare procedural trays and assist in procedures including: c) Surgical; e) Orthodontic; f) Removable and fixed prosthodontics; and e) Endodontic.

Through review of the self-study document, documents presented on-site and on-site interviews, the visiting committee identified that the program provides appropriate armamentaria for most of the dental specialty areas but does not have sufficient number of instruments to accommodate students' needs in learning to identify, exchange, prepare procedural trays and assist with procedures in the following areas: c) Surgical; e) Orthodontic; f) Removable and fixed prosthodontics; and e) Endodontic.

15. It is recommended that the instruments and appropriate models and armamentaria be provided to accommodate students' needs in learning to identify, exchange, prepare procedural trays and assist in procedures including: c) Surgical; e) Orthodontic; f) Removable and fixed prosthodontics; and e) Endodontic. (DA Standard 4-6, c, e, f, and g)

A sufficient multipurpose laboratory facility must be provided for effective instruction which allows for required laboratory activities and can accommodate all scheduled students simultaneously. There must be an appropriate number of student stations, equipment, supplies, instruments and space for individual student performance of laboratory procedures with faculty supervision.

Through review of self-study documents and on-site observations, the visiting committee noted that the dental materials laboratory and lab adjacent to the clinic have multiple stone trimmers for student use. However, each of the stone trimmers lacked eye shield guards that may pose hazardous risks during use to the student, faculty, and staff.

16. It is recommended that there be an appropriate number of student stations, equipment, supplies, instruments and space for individual student performance of laboratory procedures with faculty supervision. (DA Standard 4-9)

### **Standard 5. Health and Safety Provisions**

All students, faculty and support staff must be currently certified in basic life support procedures, including cardiopulmonary resuscitation with an Automated External Defibrillator (AED), prior to the direct provision of patient care.

Through review of the self-study documents, on-site interviews and information provided on-site, the site team confirmed that faculty, staff, and second year dental hygiene students have current certification in basic life support. The visiting committee confirmed that although the new, incoming first year dental assisting and hygiene students had completed a BLS course, actual documentation of certification was not available.

17. It is recommended that all students, faculty and support staff be currently certified in basic life support procedures, including cardiopulmonary resuscitation with an Automated External Defibrillator (AED), prior to the direct provision of patient care. (DA Standard 5-4)

### **Standard 6. Patient Care Services**

All students, faculty and support staff involved with the direct provision of patient care must be continuously recognized/certified in basic life support procedures, including healthcare provider cardiopulmonary resuscitation with an Automated External Defibrillator (AED).

Through review of the self-study documents, on-site interviews and information provided on-site, the site team confirmed that faculty, staff, and second year dental hygiene students have current certification in basic life support. The visiting committee confirmed that although the new, incoming first year dental assisting and hygiene students had completed a BLS course, actual documentation of certification was not available.

18. It is recommended that all students, faculty and support staff be currently certified in basic life support procedures, including cardiopulmonary resuscitation with an Automated External Defibrillator (AED), prior to the direct provision of patient care. (DH Standard 6-5)

**Off-Campus Sites (For Didactic and Clinical Activity):** List the names and addresses of the off-campus sites, purposes of the site, amount of time each student is assigned to the site and indicate by checkmark if the team visited the site.

Name and Address	Purpose	Duration	Site Visited (√)
N/A			

### **Accreditation Status**

At its February 4, 2016 meeting, the Commission on Dental Accreditation adopted a resolution to change the accreditation statuses of the dental assisting and dental hygiene programs offered by Hawkeye Community College from “approval without reporting requirements” to “approval with reporting requirements.”

### **Publication of Accreditation**

The Commission has authorized use of the following statement by institutions or programs that wish to announce their programmatic accreditation by the Commission. Programs that wish to advertise the specific programmatic accreditation status granted by the Commission may include that information as indicated in *italics* below (see text inside square brackets); that portion of the statement is optional but, if used, must be complete and current.

The program in dental assisting and dental hygiene are accredited by the Commission on Dental Accreditation [*and have been granted the accreditation status of “approval with reporting requirements” and “approval with reporting requirements,” respectively]. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission’s web address is: <http://www.ada.org/en/coda>.*

## LETTER OF REVIEW

Linda Allen, PhD, President  
Hawkeye Community College  
EMT – Paramedic Program  
1501 Orange Road  
Waterloo, IA 50704

Re: Program Number: 600725

Dear Dr. Allen:

After assessment of the core information of the Letter of Review Self Study Report (LSSR) including all other pertinent information, the Chairman and Executive Director of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), have authorized issuing this Letter of Review (LoR) for the Paramedic educational program at **Hawkeye Community College** effective as of the above date.

It is the determination of the CoAEMSP that the program has demonstrated satisfactory core information of the *Standards and Guidelines for the Accreditation of Educational Programs in the Emergency Medical Services Professions* of the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The CoAEMSP Letter of Review is **NOT** a CAAHEP accreditation status and is not a guarantee of eventual accreditation. An Executive Analysis (EA) for an LSSR will **not** be issued.

Under the authority of this LoR, the Paramedic program graduates will meet the eligibility requirement of the National Registry of Emergency Medical Technicians (NREMT) Paramedic certification examination related to "graduation from a CAAHEP accredited Paramedic program". All other NREMT requirements for admission to the Paramedic examination must be met by the individual.

In addition to maintaining on-going compliance with the Standards, the program must meet all administrative requirements specified in Appendix A of the *Standards and Guidelines*. One of those requirements is to "file all reports in a timely manner...in accordance with CoAEMSP policy" (A.3.f). As long as the program remains active as an LoR program, the required Annual Report will be due **on or no later than April 1, starting in 2014 and each subsequent April 1 until the program receives accreditation or the LoR is revoked**. Accordingly, accredited programs must electronically file an Annual Report each year due on or before December 1. The Executive Office will be contacting the program to provide the specifics of setting up, completing, and submitting the Annual Report.

**The date on which the next class will be admitted and the on-time graduation date for that class must be reported to CoAEMSP within fourteen (14) calendar days of receipt of this LoR.**

Since a complete Initial Self Study Report (ISSR) was not submitted originally, then a subsequent step in the "becoming accredited" process will be to prepare the complete ISSR and submit it to the CoAEMSP within 180 days following the graduation of the first class of students admitted after the date of this LoR.

When the ISSR is submitted and the CoAEMSP deems the ISSR is satisfactory, the Executive Office will schedule an on-site visit with the program as specified in the CoAEMSP policies and procedures.

If the complete ISSR is not satisfactory, the program will have thirty (30) days after the receipt of the Executive Analysis (EA) to provide additional information to address the deficiencies, otherwise the LoR may be revoked. The LoR may also be revoked if the six (6) month submission deadline is not met. Other situations such as, but not limited to, failure to respond to requests from the Executive Office, failure to make payments to maintain the LoR as well as failure to meet the Standards, can cause the LoR to be revoked immediately.

Additionally, the Office of EMS (OEMS) in your state will be notified and kept apprised of the LoR status that your program holds. Any changes to the LoR status of your program, including revocation or issues of non-compliance, will be communicated to your State OEMS as well as the NREMT. You **MUST** comply with all rules and regulations in your state to maintain your program in good standing as well as those with NREMT. The LoR status of your program will be posted in "real time" to the CAAHEP website for review and verification by prospective students, OEMS officials, NREMT, and the public.

CoAEMSP commends you and your colleagues for your commitment to quality Paramedic education, as demonstrated by your participation in CAAHEP programmatic accreditation. Please do not hesitate to contact me, if you have any questions. **Email the date of the next entering class and on-time graduation date to: [lynn@coaemsp.org](mailto:lynn@coaemsp.org) within 14 calendar days of receipt of this letter.**

EXPIRATION DATE:

Sincerely,

George W. Hatch, Jr., EdD, LP, EMT-P  
Executive Director

The Findings Letter is based on the 2015 CAAHEP Standards

Johnathan Cockrell, MEd, NRP, Program Director  
EMS Professions Program  
Hawkeye Community College  
1501 E Orange Rd  
Waterloo IA 50704

Program Number: 600725

Dear Mr. Cockrell,

The Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) would like to thank the EMS Professions Program sponsored by Hawkeye Community College, Waterloo, Iowa, for hosting an on-site visit June 27-28, 2016, with Mr. Jeff Grunow and Mr. Eric Allmon as part of a comprehensive review in the **INITIAL** accreditation process. This letter is a compilation of the site visit findings and a review of the documentation submitted prior to the site visit, and may have additions, deletions, or modifications from the Site Visit Report.

Please review this letter to either:

1. Confirm the factual accuracy of the report and agree with the content -or-
2. Identify specific factual errors at the time of site visit and submit documentation to support your position.

Your response of either #1 or #2 above must be sent electronically by email to [jennifer@coaemsp.org](mailto:jennifer@coaemsp.org) within **14 calendar days**, which is not later than **September 1, 2016**, as a **single, complete pdf document in the format specified (see attached)**.

Also, you must submit an **online** CAAHEP Request for Accreditation Services (RAS) on or before **September 1, 2016**; the RAS is available at [www.caahep.org](http://www.caahep.org).

In addition, the program **must** respond to each potential CAAHEP *Standards* violations listed below **based on the 2015 CAAHEP Standards and Guidelines for the EMS Professions**. That response may be either of the following and may be different, as appropriate, for each of the various potential *Standards* violations:

1. new information documenting corrective actions (even if not completely corrected), and/or
2. a description of the plan that the program intends to pursue to address the potential *Standards* violation.

Programs are required to submit the "Program's Response to the Findings Letter" to CoAEMSP using the format specified (**see attached**). Once the Program has prepared its response, the Program's response must be submitted as a **single, complete pdf document**, sent via email to [karen@coaemsp.org](mailto:karen@coaemsp.org) on or before **September 1, 2016**. (In the event your submission is too large to send via email, email [karen@coaemsp.org](mailto:karen@coaemsp.org) for instructions.) The CoAEMSP will evaluate the Program's response during its **November 4, 2016**, meeting. **If the Program's response to this findings letter is received after the September 1 date, then the Program's review will be postponed to the February 2017 meeting. In addition, if no response is received, the Program's Letter of Review status may be revoked.**

The program exhibits strengths in the following areas:

- Strong and supportive higher administration that recognized the need to restart the Paramedic program.
- Program has strong medical direction, including taking each student on clinical rounds in the ED.
- Dedicated program director that has given the Hawkeye program significant success in a short period of time.
- Program had significant access to the college allied health and nursing high fidelity simulation suites.
- Advisory committee was interactive and totally committed to program survival, regeneration and growth.
- Program has access to outstanding clinical opportunities that provides significant quantity and quality of patients
- Program has strong field internship opportunities especially with Waterloo Fire Department.
- The Hawkeye Paramedic program and the college administration are to be commended for the provision of faculty continuing education opportunities.
- Program pays for the NREMT written exam using vouchers, which apparently encourages students taking the exam in a timely fashion and presumably raising the pass rate.

As of January 1, 2016, all programs are required to comply with the 2015 **CAAHEP Standards and Guidelines for the EMS Professions**; therefore, all potential violations have been transitioned from the 2005 CAAHEP Standards to the 2015 CAAHEP Standards. The following were identified by the site visit team as potential Standards violations. You may submit new information documenting corrective actions taken by the program following the site visit:

- No potential violations noted by the site visit team.

The following points are comments provided by the site visitors. They do not currently reflect violations of the CAAHEP Standards, but consideration by the CoAEMSP may result in additions, deletions, or modifications:

- Program should consider relocating the EMS Ops class in order to meet the 2015 Standards whereby all coursework is completed prior to field internship.
- With increasing enrollment, program might consider developing a more defensible, objective admissions process.
- Program should consider a formal mechanism to convey to what skills a student has been reviewed upon and is proficient.
- Program might consider using the standard CoAEMSP advisory committee minutes template which would make it easier for site visit teams to review on future site visits.
- Program might consider a procedure whereby the last 72 – 96 hours of field internship be with a single preceptor. This would allow for unity of evaluation in the last portion of field internship.

The Program will be on the agenda of the CoAEMSP Board November 6, 2016, meeting. At that time, CoAEMSP will consider the entire accreditation record compiled during this comprehensive review to assess the program's compliance with the CAAHEP Standards. In its deliberation of the accreditation record, the Board may add, delete or modify what has been presented in the Findings Letter. CoAEMSP will formulate an accreditation recommendation to the Commission on Accreditation of Allied Health Education Programs (CAAHEP). CoAEMSP bases its recommendation to CAAHEP on the accreditation record of the program compiled during this review, which includes the: self study report, supplemental information submitted for the self study report, site visit report, findings letter, program's verification of factual accuracy, and the program's response to the findings letter. After CAAHEP acts on the recommendation, CAAHEP will send the Program a letter containing its action taken, Standards citations, if any, and the due date for a Progress Report to CoAEMSP, if applicable.

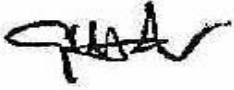

Hawkeye Community College

August 18, 2016

Page 3 of 3

Thank you for participating in the accreditation process and the program's commitment to continuous quality improvement in education. If you have questions or comments, contact the CoAEMSP Executive Office.

Sincerely,

George W. Hatch, Jr, EdD, LP, EMT-P  
Executive Director

III.A.1.	Field internship affiliations		X	<u>  </u> Adequate number and variety to meet experience requirements	
III.A.1.	Equipment/supplies		X	<u>  </u> Adequate quantity, quality, & type <u>  </u> Inspection of labs	
III.A.1.	Computer resources		X	<u>  </u> Adequate access to internet & LMS <u>  </u> Adequate number of computers accessible to students	All classrooms have either I-pads or laptop computers for student use.

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
III.A.1.	Instructional reference materials		X	<u>X</u> Access to program library <u>X</u> Onsite resources <u>X</u> databases (may be online) <u>X</u> journals (may be online)	
III.A.1.	Faculty and staff continuing education		X	<u>X</u> Minimum of CE annually for staff <u>X</u> Sponsor support for participation	Numerous examples of instructor CE.
<b>2. Hospital/Clinical Affiliations and Field/Internship Affiliations</b>					
III.A.2.	Students have access to adequate numbers of patients, proportionally distributed by illness, injury, gender, age, and common problems encountered for the level of care being trained		X	<u>X</u> Evidence of adequate number of patients through tracking system <u>X</u> Evidence of adequate distribution of patients through tracking system	
III.A.2.	Hospital /clinical / Field Internship experiences		X	<u>X</u> Clinical sites demonstrate adequate volume.	
III.A.2.	Airway management patients (e.g. OR)		X	<u>X</u> Interview with Medical Director	
III.A.2.	Critical Care patients (e.g. ICU /CCU)		X	<u>X</u> Interview with clinical preceptors <u>X</u> Interview with field internship preceptors	
III.A.2.	Obstetric patients (e.g. Labor and Delivery)		X	<u>X</u> Interview with students	
III.A.2.	Pediatric patients (including age subgroups)		X		
III.A.2.	Psychiatric patients		X		
III.A.2.	Geriatric patients		X		
III.A.2.	Other <i>[specify in Rationale column]</i>		X		PMD rotation required of all students.
<b>B. Personnel</b>					
III.B.	The sponsor must appoint sufficient faculty and staff with the necessary qualifications to perform the functions identified in documented job descriptions and to achieve the program's stated goals and outcomes.		X	Job Descriptions: <u>X</u> Written Program Director <u>X</u> Written Medical Director <u>X</u> Written Faculty	
<b>1. Program Director</b>					
<b>a. Responsibilities:</b> The Program Director must be responsible for all aspects of the program, including, but not limited to:					
III.B.1.a.1)	Administration, organization, supervision of the education program		X	<u>X</u> Verified by job description <u>X</u> Confirmed number of hours per week <u>X</u> Confirmed adequate time allotted to each aspect of program	

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
				<input checked="" type="checkbox"/> Evidence that Program Director is responsible for: course scheduling, teaching assignments, evaluations, testing, curriculum review & revision, evaluation of faculty & instructors, budgeting, & student records <input checked="" type="checkbox"/> Evidence of a preceptor training program <input checked="" type="checkbox"/> Dates of orientations <input checked="" type="checkbox"/> Roster of attendees <input checked="" type="checkbox"/> List of preceptors and their locations <input checked="" type="checkbox"/> Evidence of completion of orientation program by each preceptor	
III.B.1.a.2)	Continuous quality improvement of the education program		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Evidence of resource assessment analysis and action plans <input checked="" type="checkbox"/> Evidence of outcomes analysis and action plans <input checked="" type="checkbox"/> Evidence of periodic assessment & review of evaluations of student, faculty, employer, preceptor, clinical & field sites	
III.B.1.a.3)	Long range planning and ongoing development of the program		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Reviewed/discussed long range plans <input checked="" type="checkbox"/> Evidence of implementation of recommendations received <input checked="" type="checkbox"/> Evidence of curriculum updates	
III.B.1.a.4)	Effectiveness of the program with systems in place to demonstrate program effectiveness		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Reviewed/discussed evaluation methods of program effectiveness	
III.B.1.a.5)	Cooperative involvement with the Medical Director		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Communicates with Medical Director on a regular basis <input checked="" type="checkbox"/> Evidence that Medical Director has adequate participation in program	
III.B.1.a.6)	Adequate controls to assure the quality of delegated responsibilities		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Evidence of adequate communication among faculty & documentation of decisions, changes	
<b>b. Qualifications</b>					
III.B.1.b.1)	Minimum of a Bachelor's degree		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Verified by transcript	
III.B.1.b.2)	Appropriate medical or allied health education, training, experience		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Verified by resume	

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
III.B.1.b.3)	Knowledgeable about methods of instruction, testing, evaluation of students		X	<u>  X  </u> Verified by discussion	
III.B.1.b.4)	Field experience in delivery of out-of-hospital emergency care		X	<u>  X  </u> Verified by resume <u>  X  </u> Verified by discussion	
III.B.1.b.5)	Academic training & preparation related to emergency medical services at least equivalent to program graduates		X	<u>  X  </u> Verified by resume	
III.B.1.b.6)	Knowledgeable concerning current: national curricula, accreditation, registration, and state certification or licensure		X	<u>  X  </u> Verified with Program Director <u>  X  </u> Verified with faculty	
<b>2. Medical Director</b>					
<b>a. Responsibilities:</b> The Medical Director is responsible for all medical aspects of the program					
III.B.2.a.1)	Review & approval of educational content for appropriateness & medical content		X	<u>  X  </u> Verified by emails <u>  X  </u> Verified by signature on curriculum	
III.B.2.a.2)	Review & approval of quality of medical instruction, supervision, & evaluation of students in all areas		X	<u>  X  </u> Review program evaluation reviews <u>  X  </u> Evidence that Medical Director reviews student, program, clinical, field, graduate, & employer surveys	
III.B.2.a.3)	Review & approval of progress of each student throughout the program: assist in development of corrective measures		X	<u>  X  </u> Evidence of process for Medical Director review and approval	
III.B.2.a.4)	Assurance of competency of each graduate in cognitive, psychomotor, & affective domains		X	<u>  X  </u> Evidence that the Medical Director attests that students meet terminal competencies <u>  X  </u> Signed Terminal Competency forms	
III.B.2.a.5)	Responsible for cooperative involvement with Program Director		X	<u>  X  </u> Communicates with Program Director on a regular basis	
III.B.2.a.6)	Adequate controls to assure quality of delegated responsibilities		X	<u>  X  </u> Regular communication with Asst or Associate Medical Directors <u>    </u> Exercise of supervision of Asst or Associate Medical Directors fulfilling their responsibilities <u>  X  </u> Overall verification by Medical Director of duties 2, 3, and 4 for all program graduates	

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
<b>b. Qualifications</b>					
III.B.2.b.1)	Currently licensed to practice medicine in the US, authorized in the local region with experience & current knowledge of emergency care		X	<u>X</u> Verified by resume <u>X</u> State license <u>X</u> Verified with Medical Director	
III.B.2.b.2)	Adequate training or experience in delivery of out of hospital emergency care including proper care & transport, medical direction, QI in EMS systems		X	<u>X</u> Verified by resume <u>X</u> Verified with Medical Director	
III.B.2.b.3)	Active member of local medical community & participate in professional activities		X	<u>X</u> Verified by resume <u>X</u> Verified with Medical Director	
III.B.2.b.4)	Knowledgeable about EMS education including professional, legislative, regulatory issues		X	<u>X</u> Verified with Medical Director <u>X</u> Verified with Program Director & Faculty	
<b>3. Faculty</b>					
<b>a. Responsibilities</b>					
III.B.3.a.	Designated Faculty to coordinate supervision & provide frequent assessments on progress toward meeting requirements in each component of the program		X	<u>X</u> Evidence of adequate number of faculty for the number of enrolled students <u>X</u> Evidence of adequate faculty assigned to monitor students in clinical & field areas <u>X</u> Review of schedules for teaching load	
<b>b. Qualifications</b>					
III.B.3.b.	Knowledgeable in course content & effective in teaching;		X	<u>X</u> Verified by resume <u>X</u> Verified by discussion	
III.B.3.b.	Capable through academic preparation, training & experience		X	<u>X</u> Verified by resume <u>X</u> Verified by clinical & educational credentials	
<b>C. Curriculum</b>					
III.C.1.	Ensures achievement of program goals & teaching domains;		X	<u>X</u> Reviewed program goals	
III.C.1.	Appropriate sequence of classroom, laboratory, clinical, & field internship activities;		X	<u>X</u> Reviewed schedule for didactic, lab, clinical, field component <u>X</u> Verified scheduling of components in appropriate sequence <u>X</u> Evidence that the majority of the field	

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
				internship occurs following the didactic & clinical phases	
III.C.1.	Instruction based on clearly written course syllabi describing learning goals, course objectives, & competencies;		X	<input checked="" type="checkbox"/> Reviewed course syllabus <input checked="" type="checkbox"/> Evidence of complete lesson plans for the curricula <input checked="" type="checkbox"/> Evidence of complete list terminal competencies	
III.C.1.	Meets or exceeds content & competency of current national standards documents		X	<input checked="" type="checkbox"/> Reviewed schedule <input checked="" type="checkbox"/> Reviewed a sample of lesson plans <input checked="" type="checkbox"/> Verified with employers <input checked="" type="checkbox"/> Academic credit provided	
III.C.2.	Tracks number of times each student successfully performs each of the competencies required according to patient age, pathology, complaint, gender, & interventions		X	<input checked="" type="checkbox"/> Reviewed tracking system to verify the system's capability to allow determination of the students meeting required elements <input checked="" type="checkbox"/> Tracking system defines the Minimum requirements for completion or method to determine competency and mechanism to insure that all students meet the standard <input checked="" type="checkbox"/> Tracking system documents the successful performance of the required competencies for each student. <input checked="" type="checkbox"/> Pediatric age subgroups are tracked	
III.C.3.	Field internship provides opportunity to serve as team leader in a variety of ALS situations		X	<input checked="" type="checkbox"/> Reviewed field internship documentation for verification of team leader performance for each student <input checked="" type="checkbox"/> Discussion with students & graduates of team leader performance <input checked="" type="checkbox"/> Discussion with field preceptors of team leader performance <input checked="" type="checkbox"/> Discussion with employers <input checked="" type="checkbox"/> Evidence of consistent preceptor assignments for effective team leader performance	
<b>D. Resource Assessment</b>					
III.D.	Annually assess appropriateness & effectiveness of required resources;		X	<input checked="" type="checkbox"/> Completed Resource Assessment Matrix <input checked="" type="checkbox"/> Raw surveys administered to all students at least annually	

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
III.D.	Assessment results are the basis for planning & change;		X	<u>  </u> X Evidence of documentation of implemented changes	
III.D.	Action plan developed when deficiencies identified		X	<u>  </u> X Evidence of action plans	
III.D.	Documentation of action plan and measurement of results		X	<u>  </u> X Evidence of review of the results from the action plans	
<b>IV. Student and Graduate Evaluation/Assessment</b>					
<b>A. Student Evaluation</b>					
<b>1. Frequency &amp; Purpose</b>					
IV.A.1.	Evaluation conducted on a recurrent basis, sufficient frequency to provide students & faculty with valid & timely indications of progress toward achievement of competencies & learning domains		X	<u>  </u> X Validity and reliability assessments of program exams <u>  </u> X Feedback mechanisms by program to students indicating progress toward achievement of competencies <u>  </u> X Evidence of demonstration of skill mastery prior to entering clinical areas <u>  </u> X Reviewed a sample of exams for content validity, quality <u>  </u> X Evidence of summative program evaluation at the end of the course of study <u>  </u> X Documentation of summative competency assessment for cognitive, clinical, & field components <u>  </u> X Evidence of adequate clinical & field internship supervision by faculty <u>  </u> X Reviewed process for grading, remediation	
<b>2. Documentation</b>					
IV.A.2.	Records maintained in sufficient detail to document learning progress & achievements		X	<u>  </u> X Reviewed student records <u>  </u> X Reviewed attendance policy	
<b>B. Outcomes</b>					
<b>1. Outcomes Assessment</b>					
IV.B.1.	Periodically assesses effectiveness in achieving stated goals & learning domains;		X	<b>DATA REQUIRED FOR CAAHEP ACCREDITED PROGRAMS ONLY - <i>meets threshold</i></b>	This is an initial accreditation:

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
IV.B.1.	Results reflected in the review & timely revision of program		X	<input type="checkbox"/> Retention <input type="checkbox"/> National or State licensing exam results <input type="checkbox"/> Positive placement <input type="checkbox"/> Reviewed completed graduate and employer surveys <input type="checkbox"/> Graduate and employer surveys	The first time pass rate for the first class was 86%.
IV.B.1.	Assessments include: exit point completion, graduate satisfaction, employer satisfaction, job placement, state licensing or national registration results		X		Retention rate was 79% for the first class and on track for 76% this year.
<b>2. Outcomes Reporting</b>					
IV.B.2.	Periodically submits goals, learning domains, evaluations systems, outcomes, analysis of outcomes & appropriate action plan		X	<input checked="" type="checkbox"/> Evidence of implemented changes, if they were needed	
<b>V. Fair Practices</b>					
<b>A. Publications &amp; Disclosure</b>					
V.A.1.	Announcements, catalogs, advertising are accurate		X	<input checked="" type="checkbox"/> Reviewed school catalog <input checked="" type="checkbox"/> Reviewed student handbook, course syllabi for required content <input checked="" type="checkbox"/> Reviewed web site <input checked="" type="checkbox"/> Verified with students & graduates	
V.A.2.	Make known to applicants and students: accreditation status		X		
V.A.2.	accrediting agency contact information		X		
V.A.2.	admissions policies & practices		X		
V.A.2.	technical standards of functional job analysis		X		
V.A.2.	policies on advanced placement		X		
V.A.2.	transfer of credits		X		
V.A.2.	credits for experiential learning		X		
V.A.2.	number of credits for completion		X		
V.A.2.	tuition/fees required		X		
V.A.2.	policies & processes for withdrawal & refunds		X		
V.A.3.	Make known to students: Academic calendar		X		<input checked="" type="checkbox"/> Reviewed student handbook, college catalog <input checked="" type="checkbox"/> Reviewed web site <input checked="" type="checkbox"/> Reviewed course syllabi <input checked="" type="checkbox"/> Reviewed clinical orientation process <input checked="" type="checkbox"/> Verified with students & graduates
V.A.3.	Student grievance procedure		X		
V.A.3.	Criteria for successful completion of each program segment & graduation		X		

Standard Reference	Standard	Not Met	Met	Possible Evidence May Include	Rationale for "Not Met" OR Comment if Consideration or Clarification is Needed
V.A.3.	Policies regarding performing clinical work		X		
<b>B. Lawful and Non-discriminatory Practices:</b>					
V.B.	Student & Faculty recruitment, student admission, and Faculty employment practices are non-discriminatory & in accordance with Federal & state requirements;		X	<input checked="" type="checkbox"/> Reviewed student handbook <input checked="" type="checkbox"/> Reviewed college catalog <input checked="" type="checkbox"/> Reviewed Faculty handbook	
V.B.	Faculty grievance procedure known to all paid faculty		X	<input checked="" type="checkbox"/> Interview with paid Faculty <input checked="" type="checkbox"/> Written Faculty grievance policy	
<b>C. Safeguards</b>					
V.C.	Health & safety of patients, students, & Faculty is safeguarded;		X	<input checked="" type="checkbox"/> Evidence of preventative health screening, appropriate immunizations <input checked="" type="checkbox"/> Evidence of post exposure plan	
	Students are not substituted for paid staff		X	<input checked="" type="checkbox"/> Evidence that students are always 3 <sup>rd</sup> rider	
<b>D. Student Records</b>					
V.D.	Satisfactory records must be maintained for Student admission		X	<input checked="" type="checkbox"/> Review of the sponsoring institution's student records	
V.D.	Advisement		X	<input checked="" type="checkbox"/> Reviewed a sample of student records (e.g. enrolled, graduated, attrition) for: content, organization, completeness, transcript	
V.D.	Counseling		X		
V.D.	Evaluation		X		
V.D.	Grades & credits are recorded on a transcript & permanently maintained		X	<input checked="" type="checkbox"/> Reviewed grade book or other records <input checked="" type="checkbox"/> Interview regarding permanent storage	
<b>E. Substantive Change</b>					
V.E.	Reports substantive changes in a timely manner: change in program status; sponsorship, or administrative personnel		X	Change since submission of self study report <input checked="" type="checkbox"/> State approval <input checked="" type="checkbox"/> Sponsorship <input checked="" type="checkbox"/> President, Dean, Program Director, and/or Medical Director	
<b>F. Agreements</b>					
V.F.	Formal affiliation agreements or MOU's exist between the sponsor and all entities that participate in education of students describing relationship, role, and responsibilities of sponsor and entity		X	<input checked="" type="checkbox"/> Reviewed all agreements for currency, appropriate content, & appropriate signatures	

## SUMMARY OF FINDINGS

### DISCLAIMER FOR EXIT SUMMATION

Site Visitors, you must read the following disclaimer statement at the beginning of the Exit Summation:

---

**“Site visitors do not make an accreditation recommendation nor do they imply what CoAEMSP’s recommendation might be. The program will be required to respond to the accuracy of the findings of the site visit at a later date. The CoAEMSP Board may add, delete, modify or request clarification to the site visit summation in its Findings Letter, which is sent to the program following this site visit. CoAEMSP bases its recommendation to CAAHEP on the accreditation record of the program compiled during this review, which includes the Self Study Report, the Site Visit Report, the Findings Letter, and the program’s response to the Findings Letter. The Commission on Accreditation of Allied Health Education Programs (CAAHEP) determines the final status of public recognition. These are our [site visitors’] impressions of the strengths and potential Standards violations of the program...”***Strengths, Potential Standards Violations & Recommendations*

---

List all strengths and potential *Standards* violations. Potential *Standards* violations include any areas listed as “Not Met”. All potential *Standards* violations must be identified by the appropriate *Standard*. Include all potential *Standards* violations identified in the body of the report.

1. List the **STRENGTHS** of the program:

- SVT noted the PD diligently prepared all of the required files and documents.
- Strong and supportive higher administration that recognized the need to restart the paramedic program.
- Program has strong medical direction who takes each student on clinical rounds in the ED.
- Dedicated program director that has given the Hawkeye program significant success in a short period of time.
- Program had significant access to the college allied health and nursing high fidelity simulation suites.
- Advisory committee was interactive and totally committed to program survival, regeneration and growth.
- Program has access to outstanding clinical opportunities that provides significant quantity and quality of patients
- Program has strong field internship opportunities especially with Waterloo Fire Department.
- The Hawkeye paramedic program (and HCC administration) is to be commended for the provision of faculty continuing education opportunities.
- Program pays for the NREMT written exam using vouchers, which apparently encourages students taking the exam in a timely fashion and presumably raising the pass rate.

2. List all **POTENTIAL STANDARDS VIOLATIONS** noted in this report, stating the Standard heading (i.e., III.B.1.a.1) and a rationale why it is not met.

- No potential violations noted by the site visit team

3. **RECOMMENDATIONS** that may not reflect *Standards* violations, but the program is encouraged to consider.
- Program should consider relocating the EMS Ops class in order to meet the 2015 Standards whereby all coursework is completed prior to field internship.
  - With increasing enrollment, program might consider developing a more defensible, objective admissions process.
  - Program should consider a formal mechanism to convey to what skills a student has been reviewed upon and is proficient.
  - Program might consider using the standard CoAEMSP advisory committee minutes template which would make it easier for site visit teams to review on future site visits.
  - Program might consider a procedure whereby the last 72 – 96 hours of field internship be with a single preceptor. This would allow for unity of evaluation in the last portion of field internship.

## PRESENT AT EXIT SUMMATION

List the names and their titles of those present at the summation conference.

- Eric Allmon, TM
- Jane Bradley, VP of Academic Affairs
- John Cockrell, PD
- Jeff Grunow, TC
- Greg Helmuth, Faculty
- Joe Ferrell, Iowa EMS
- Brian Refro, Dean
- Amy Rieck, Secretary

BOARD OF NURSING  
Kathleen R. Weinberg, MSN, RN  
Interim Executive Director

October 2, 2013

Linda Allen, PhD  
President  
Hawkeye Community College  
1501 E Orange Rd.  
P.O. Box 8015  
Waterloo, IA 50316

Dear Dr. Allen:

On September 18, 2013, the Iowa Board of Nursing reviewed Hawkeye Community College Nursing Education Program Report.

The Board voted to grant full approval to the program for a period of six years as defined in the 655 IAC 2.3(6). A copy of the final Nursing Education Program Report and response to the recommendations are enclosed.

Thank you for your participation in the Iowa Board of Nursing program approval process. Please feel free to contact me at 515-281-4822 if you have questions.

Sincerely,

Kathleen R. Weinberg, MSN, RN  
Executive Director

**Date of last accreditation:** N/A

**Iowa Board of Nursing**

**Date of last site visit:** November 1, 2007

**655—2.6(152) Organization and administration of the program.**

**2.6(1)** The program shall meet the following criteria:

*a. Authorization.* Authorization for conducting a program is granted in accordance with Iowa Code chapter 261B. Such authorization is provided by the Iowa Secretary of State.

**[X] Requirement met if not one of exceptions in 261B(11).**

*b. Authority and administrative responsibility.* The authority and administrative responsibility of the program shall be vested in the head of the program that is responsible to the controlling institution.

**[X] Head of program job description denotes authority and responsibility to the controlling institution.**

*c. Organizational chart.* The organization chart(s) shall clearly indicate the lines of authority and communication within the program and with the central administration, other units within the controlling institution, cooperating agencies, and advisory committees.

**[X] Organizational chart indicates lines of authority, communication and includes advisory committee.**

*d. Finances.*

(1) The controlling institution shall allocate adequate funds to carry out the purposes of the program.

**[X] Budget allocates adequate funds to nursing program.**

(2) The head of the program shall prepare the budget with the assistance of the faculty.

**[X] Provide a brief description of how faculty is included in budget preparation and where this process is documented.**

College administration and the Iowa legislature provide financial support for both the practical nursing and associate degree nursing programs. Faculty input into the program budget is encouraged during faculty meetings. Faculty is included in discussions for use of grant funding related to the virtual hospital. Faculty is involved in requests for equipment and educational materials through membership in the equipment and technology faculty subcommittee. Faculty is included in the discussion for allocation of Perkin's funds during School of Health Sciences meetings.

The policy for budget preparation is available from the business office.

Minutes of the equipment and technology committee will be available for review during the site visit.

*e. Ethical practices.* Ethical practices and standards, including those for recruitment and advertising, shall be consistent with those of the controlling institution and shall be made available to students and prospective students.

**[X] Cite where documentation of ethical practices is located.**

Every nursing student signs a confidentiality statement, and attends HIPAA training annually. Documentation of both is in their student file for the nursing program. Faculty attend annual HIPAA training and documentation of this is in the professional file in the nursing program. Our advertising is evidence-based. We publish the curriculum map with tuition and fees so students know program requirements and costs.

*f. Contractual agreements.* Written contractual agreements shall exist between the program and the clinical facilities. The agreements shall include:

- (1) Identification of responsibilities of both parties related to patient or client services.
- (2) Faculty control, selection and guidance of student learning experiences.
- (3) Provision for termination of the agreement.
- (4) Provision for annual review.
- (5) Documentation that the facility is in good standing with its regulatory agency.

**[X] Contractual agreements are all inclusive of items (1) through (5) as listed.**

*g. Accrediting and approving agencies.*

- (1) The controlling institution or program shall be accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools.
- (2) When the program is located in a community college, the controlling institution shall be approved by the Iowa department of education.
- (3) When the program is offered under the auspices of the United States armed forces, it shall be accredited by the U.S. Department of the Army.

**[X] List applicable agencies for which letters of accreditation or approval will be provided on site.**

Higher Learning Commission of the North Central Association of Colleges and Schools  
Iowa Department of Education

**[X] Letters of accreditation reviewed.**

*h. Philosophy/mission and outcomes.* The faculty shall develop a philosophy or mission statement and outcomes that shall be:

- (1) Consistent with the philosophy or mission of the controlling institution.

**[X] Provide a brief description of how philosophy/mission and outcomes of the nursing program are consistent with the philosophy or mission of the controlling institution.**

The nursing program's philosophy and the college's mission, institutional goals and pledge are consistent. The nursing program and the college believe that education is a continuous developmental process and both support lifelong learning. The college mission and goals also affirm differences in meeting educational needs. The nursing programs philosophy is reviewed through the systematic program review committee.

A copy of the college mission statement is included in this document.

(2) Reflective of faculty beliefs about nursing, education and professional standards.

**[X] Provide a brief description of how philosophy/mission and outcomes of the program reflect the faculty's beliefs about nursing, education and professional standards.**

Our nursing philosophy states that students are unique individuals capable of growth and learning. The nursing philosophy is faculty designed and implemented. It is reflective of the faculty's beliefs about nursing education and society's standards. A copy of the nursing faculty philosophy of nursing education is included in this report.

(3) A guide in the development, implementation and evaluation of the program.

**[X] Provide a brief description of how philosophy/mission and outcomes of the program guide development, implementation and evaluation of the program.**

The nursing philosophy functions as a guide when curriculum is reviewed and revised. The program's approach to nursing education and to the teaching/learning/evaluation process reflects the basic beliefs and principles stated in the philosophy. Program purpose, goals and objectives are included in the nursing student handbook and are reviewed or revised annually. These statements also guide curriculum development, implementation and evaluation. NCLEX scores, clinical experiences, the workplace, national trends, IBON reports and meetings, student input, and advisory committee input are all taken into consideration when curriculum is reviewed and revised.

(4) Available to students and prospective students.

**[X] Cite where documentation of philosophy/mission and outcomes of the program is located.**

The philosophy, mission and outcomes are in the nursing student handbook on pages 7-9, and reflect the view of the nursing faculty that nursing education is an on-going, active, life-long process.

*i. Program evaluation.* A written plan shall outline the evaluation process for all aspects of the program and identify the methodology, tools, responsible parties and time frame. Evidence of implementation shall reflect achievement of program outcomes.

### **REQUIREMENT PARTIALLY MET**

Subsequent to the November 11, 2007 Iowa Board of Nursing site visit it was recommended that the program's systematic evaluation plan should include a plan of action to address the low ADN NCLEX scores and that there should be actions which would be included in the overall program's systematic evaluation. Rationale was provided for this recommendation. An extensive NCLEX Plan for the Associate Nursing Program was developed, implemented, and continues to be used. Additionally, use of ATI products has been incorporated throughout the curriculums of both programs and the virtual hospital for simulation was completed and is now in use with all students. Comments from both faculty and students were positive about these changes. Prior to February 2008 all full time faculty completed the National Council State Boards of Nursing Learning Extension online course "Test Assessment and Item Writing."

It was noted the associate degree program continues to have NCLEX scores below 95 percent of the national passing percentage for the years 2007, 2008, 2009, 2011, and 2012; however, the scores have begun to trend upward.

The program's systematic evaluation plan identifies the essential components, related outcomes, assistive questions, evidence to be acquired, individual(s) responsible for a given section of the evaluation, and the frequency for evaluation. A summary of findings following evaluation of program outcomes was not found.

#### **Recommendation:**

- Continue use of the NCLEX Plan and integrate the criteria related to outcomes into the HCC Nursing Programs Systematic Evaluation Plan.
- Include within the systematic evaluation a plan to evaluate variables which impact NCLEX results: admission requirements and prerequisites, the curriculum, and progression through the programs.
- Expand the HCC Nursing Programs Systematic Evaluation Plan to include findings of the evaluation and provide an action plan for areas of identified deficiencies.

**[X] Provide a brief description of the evaluation plan, i.e., systematic evaluation or program assessment and how it is utilized to meet program outcomes.**

The nursing programs have 2 formal processes of evaluation: Systematic Program Evaluation (SPE) and academic program review (APR). The evaluation plan serves as a stimulus for improvement and monitoring of the nursing program. Both processes are designed to identify strengths and areas for continuous improvement. The APR is required by the college. The process is comprehensive in scope and evaluates multiple factors that impact and influence the overall quality of the nursing programs. The process is linked to implementation of the College's mission and goals. The SPE was developed by the nursing program faculty. The SPE addresses all aspects of the program and reflects the bylaws and committee structure of the nursing faculty organization. Through the SPE process the faculty is able to identify, implement and evaluate changes necessary for the continuous improvement of the nursing programs.

The College, faculty and staff participate in the Academic Quality Improvement Program (AQIP). AQIP infuses the principles and benefits of continuous improvement into the culture of colleges and universities by providing an alternative process through which an already-accredited institution can maintain its accreditation from the Higher Learning Commission. With AQIP an institution demonstrates that it meets accreditation standards and expectations through sequences of events that align with those ongoing activities characteristic of organizations striving to improve their performance.

**[X] Provide a brief description of how evaluation process results in programmatic changes.**

As a result of SPE and APR the following programmatic changes have been made:

- The college was awarded grant monies to construct the virtual hospital to expand the use of simulation. This allows for expanded clinical learning experiences, including the use of electronic health records, in a safe and structured environment.
- The nursing programs implemented Assessment Technology Institute (ATI) products throughout the curriculum. These products and assessments serve to better prepare students for NCLEX and provide a means to identify weak areas in the curriculum.
- Clinical sites for both programs have been expanded beyond the immediate Waterloo/Cedar Falls area to provide students with experiences in a variety of facilities and settings.
- Curriculum revision is underway to assure the programs meet current workplace needs, care standards, and with an eye to seamless articulation with higher nursing education (RN to BSN).

**2.6(2)** The head of a program shall meet the following requirements:

- a. Current licensure as a registered nurse in Iowa. An individual is currently licensed when licensed in another state and recognized for licensure in this state pursuant to the nurse licensure compact contained in Iowa Code chapter 152E.
- b. Two years of experience in clinical nursing.
- c. Two years of experience in nursing education.
- d. Academic qualifications:

(1) The head of a program who was employed on July 1, 1992, shall be considered adequately prepared as long as that person remains in that position.

(2) The head of a program hired after July 1, 1992, shall have a master's or doctoral degree with a major in nursing at either level at the time of hire. A first professional degree as defined in rule 2.1(152) does not meet this requirement. The date of hire is the first day employed as head of the program with compensation at a particular nursing education program.

(3) If a program offers a baccalaureate or higher degree in nursing, the head of the program shall have a doctoral degree at the time of hire.

e. Submission of qualifications to the board office within one month of appointment.

**[X] Résumés and educational transcripts are all inclusive of requirements a. through e.**

**2.6(3)** A nursing education program shall have one head of the program.

**[X] Organizational chart indicates one head of the nursing program.**

**655—2.7(152) Resources of the controlling institution.** The controlling institution is responsible for provision of resources adequate to meet program needs.

**2.7(1)** Human resources. Human resources shall include the following:

a. Head of program.

**[X] Resources are adequate per job description, résumé and educational transcripts of head of program.**

b. Faculty.

**[X] Resources are adequate per job description, résumés and educational transcripts of faculty.**

c. Secretarial and other support and staff services to ensure appropriate use of faculty time and expertise.

**[X] Provide a brief description of how staff services are adequately provided for program operation.**

The School of Health Sciences has been without an administrative assistant since 2-17-12. The position was eliminated and because of this action the position is ineligible for replacement for a period of 1 year. In the interim, the school has shared time with 2 administrative assistants from other schools within the college. In addition a work study position to handle clerical issues and filing has been hired. Additionally with the hire of a new dean, the school is in the process of hiring a full-time administrative assistant and has appointed a full-time coordinator for the school, and continues the use of 1 work study, and shared administrative assistants.

- 2.7(2) Physical resources.** Physical resources may include the following:
- Classrooms, conference rooms, laboratories, offices, and equipment.
  - Student facilities.

**[X] Provide a brief description of how the physical resources requirement is met.**

The nursing program is housed in lower Grundy Hall on the main campus. The building meets all ADA standards for access.

Major capital improvements since the 2007 site visit include the remodeling of an existing classroom and adjacent office space into the virtual hospital, with 7 high fidelity patient simulators (HPS) representing patients throughout the lifespan, and a media control room for the computer equipment used to operate the HPSs.

There are 3 classrooms with a capacity of 50 students, and 2 combination classroom/labs with a capacity of 32. All classrooms and labs are equipped with tables and chairs appropriate to room size, teaching station with computer including internet access, DVD/VHS player, document camera, projector and screen and white board.

In addition to the above, nursing labs have updated equipment and supplies to reflect current practice. Recent additions to the nursing labs included headwalls for suction and oxygen, and basic health assessment equipment at bedside.

Each nursing faculty has a private office with phone, computer and adequate storage and work-space. Printer/copies are in the hallway adjacent to offices, as well as in the school's administrative area.

The program director's office is within the main School of Health Sciences office. It is equipped similarly to faculty offices.

**REQUIREMENTS PARTIALLY MET**

**It is reported the program uses the services of a work study student and shared administrative assistants. Prior to 2-17-12 there was an administrative assistant for the School of Health Sciences. In conversations with faculty it was expressed that they have overload assignments and though this has recently improved "some" it could be better. Faculty continues to have responsibility for some secretarial tasks. Adjunct faculties in the program were identified as having BSNs. A significant number of adjunct faculty folders reviewed were found to be incomplete in required records provided. There continues to be concern about the availability of classroom space for the nursing department. This was also addressed in the 11-11-07 site visit report.**

**RECOMMENDATION:**

- **Evaluate the present number of full-time faculty in relationship to student enrollment and program resources. Implement a plan to increase the number of full-time faculty to meet the needs of the student population and sustain a quality educational program.**
- **A current copy of adjunct faculties' transcripts shall be included in their personnel file, verifying academic credentials.**
- **Administration, in collaboration with members of the nursing department, continues to plan and implement allocation for on-campus resources, such as support staff and classrooms.**

**2.7(3)** Learning resources. Learning resources shall include the following:

- a. Library.
- b. Print media.
- c. Computer-mediated resources.

**[X] Provide a brief description of how the learning resources requirement is met.**

Library: Hawkeye Community College is a member of the Cedar Valley Library consortium comprised of 6 public and private libraries that share a single catalog of books and videos. Interlibrary loan services are available to students and staff at no cost. The HCC Library, completed in 1999, has study areas and classrooms on the upper level and its collection of texts, monographs, AV materials, and journals on the main level. The library subscribes to numerous online databases, many of which are full-text. Online resources are searchable from any campus location without a password. Off-campus searches may be conducted using a password. The library is open Monday-Thursday 7 am to 8 pm, Friday 7 am to 4:40 pm, and Sunday noon to 8 pm.

Print media: The Hawkeye Bookstore has all required course materials available for purchase. Students with financial aid may use this to purchase texts and other supplies. The bookstore also has a variety of other supplies and electronic accessories. Students can print and copy from printers and copiers located throughout the campus. The print shop, located in the physical plant on the main campus, allows faculty quick and economical large-job printing for classes, labs, and clinicals.

Computer-mediated resources: These services are provided by 2 departments within the college, Communication and Information Services (CIS), and The Student Tutoring and Computer Lab:

The mission of CIS is to provide innovative, contemporary and accessible technology in computing, media and telephone services to enable students, faculty and staff to effectively meet their goals as a learning community.

The Student Tutoring and Computer Lab provides learning assistance and support to all current credit students. Services are designed to help with academic and job-related activities; and help develop the educational skills and strategies essential for academic achievement.

In addition, the Make-Up Testing Center, located in the Hawkeye Center is available to students for taking assessments missed due to absence, and for testing for student with accommodations due to special needs.

The Career Services Center, located in Bremer Hall provides assistance to students in finding employment both while in school and upon graduation.

**2.7(4)** Financial resources. Financial resources shall be adequate to support and carry out mission of the controlling institution.

**[X] Provide a brief description of how financial resources are adequate within the nursing program.**

Through funding sources identified above in the budgeting process, the nursing programs receive financial resources adequate for program needs. Program fees are currently being reviewed and revised to reflect current program expenses.

**655—2.8(152) Curriculum.**

**2.8(1)** The curriculum of a program shall:

- a. Reflect the philosophy/mission and program outcomes supported by the nursing faculty.
- b. Identify program outcomes and define how learning experiences support outcomes.
- c. Reflect current standards of nursing practice and education.
- d. Be consistent with the laws governing the practice of nursing.
- e. Ensure sufficient preparation for the safe and effective practice of nursing.
- f. Include learning experiences and strategies that meet program outcomes.

**REQUIREMENT PARTIALLY MET**

The nursing program submitted a report to the Iowa Board of Nursing (IBON) on February 25, 2008. This report addressed the plan of the college for compliance with recommendations from the November, 2007, IBON site visit. In response to the second recommendation (Include within the systematic evaluation a plan to evaluate variables, which impact NCLEX results, not limited to: admission requirements and prerequisites, the curriculum, progression through the program, admission numbers and faculty size and workload) it was stated the nursing faculty had met and reviewed the ADN curriculum to evaluate areas of improvement, common threads, and clinical needs. Faculty minutes from the past two years reflect that further review and identification of needed revisions has been deferred due to administrative changes and several faculty turnovers. The Administrative Program Chair for Nursing verified this is accurate and stated that support staff unavailability has also contributed to the need to defer action. She anticipates action on this recommendation will continue this fall.

**RECOMMENDATION:** Nursing administration and faculty resume activities in reviewing the curriculums of the nursing programs and implement revisions as needed in order to meet criteria identified in 2.8(1).

**REQUIREMENT PARTIALLY MET** (specific to clinical experiences)

Nursing students in the PN and ADN programs report that many times clinical adjunct faculty do not have a clear understanding of the expectations for student functioning in the clinical setting. Additionally, the Administrative Program Chair for Nursing and nursing faculty report that few of the adjunct faculties attend the orientation program offered for them at the beginning of the academic year.

**Recommendation:**

- Explore options to increase clinical adjunct faculty participation in the orientation program provided by the nursing education program.
- Examine ways for faculty to provide continued mentoring of adjunct faculty.
- Develop and implement a policy for communication between the didactic instructor and the adjunct clinical instructor in courses with a clinical component to facilitate the coordination and consistency between theory and the clinical learning experience.

**[X] Cite where documentation of curriculum plan is located and available for students.**

The curriculum plan, located in the college catalog on the college website at <http://www.hawkeyecollege.edu/program/health>, and in the nursing student handbook maps out the courses required by semester so each student has an appropriate guide. Upon admission to the nursing program the students are provided with a curriculum plan specific to their program of study and are assigned a nursing faculty advisor.

**[X] Provide a brief description of how the curriculum interfaces with a. through f.**

- a). The curriculum comes from a variety of nursing and educational theories to form a conceptual framework that reflects the philosophy and objectives of the nursing programs, as outlined on page 4, (2) of this report.
- b). The curriculum identifies behavioral outcomes for the nursing programs, as listed on pages 8 & 9 of the nursing student handbook. There are 8 outcomes identified for the Practical Nursing Program, last reviewed In March 2007 as part of the SPE. The Associate Degree Program has 14 outcomes, reviewed and updated in November 2009 for the SPE.
- c). The curriculum of the programs reflects the Code of the National Federation of Licensed Practical Nursing (NFLPN) National Association for Practical Nurse Education and Services (NAPNES), ANA Code for Professional Nurses, and ANA Core Performance Standards. Curriculum is reviewed as a component of the SPE and the curriculum committee.
- d). The nursing programs are in compliance with the Iowa Administrative Code. The content of the rules is discussed in both programs.
- e). The nursing faculty plan classroom and clinical education to provide sufficient time and experience in direct patient care. Critical behaviors are identified in the clinical evaluation tools and students are closely monitored to ensure safe patient care. All students participate in a comprehensive predictor assessment during their final semester of the program to assess readiness for the NCLEX. The faculty analyzes the data from the comprehensive predictor assessment and compares it with NCLEX pass rates, program GPA, failure/withdrawal from courses, and length of time for program completion. The TEAS test has been implemented as admission criteria for the PN program. A dedicated tutor and a retention specialist have been hired by the college to assist nursing students.
- f). Student learning experiences include lecture, discussion, demonstration, practice, case studies, student presentations, scenarios in the virtual hospital and patient care in a variety of clinical settings. Both face-to-face and online formats are used. Learning is student-centered, appropriate to the level of the student, and takes into account diverse learning styles.

g. When offered within a college or university:

- (1) Be comparable to the quality and requirements of other degree programs within the college or university.

**[X] Provide a brief description of how college requirements are comparable. Cite where documentation of college requirements is located.**

All program curricula are vetted through the college curriculum committee to assure comparability of quality and requirements. The Academic Affairs Division supervises all instructional offerings. The Curriculum Coordinating Committee reviews and evaluates curriculum proposals and makes recommendations to the Vice President of Academic Affairs. Requirements are specified and published for all degrees, diploma and certificate programs.

(2) Be planned within the college or university calendar.

**[X] Cite where college calendar and program curriculum plan are published.**

Both are available on the college website, <http://www.hawkeyecollege.edu>

(3) Assign credit hours for learning experiences that are consistent with the college or university pattern.

**[X] Cite where documentation of credit hours is located.**

Credit hours are documented on the college website in the catalog, in printed materials available in the program office and student services, and on course guides and course syllabi.

**2.8(2) Prelicensure programs.**

a. The curriculum of a program leading to eligibility for initial licensure as a licensed practical nurse or registered nurse shall include:

(1) Content that is consistent with the practice of nursing as defined in Iowa Code section 152.1.

(2) Content in medical, surgical, gerontological, mental health, and nursing of childbearing families and children that reflects current nursing practice and that encompasses health needs throughout the life span.

(3) Opportunity to participate in the nursing process and to develop skill in direct patient care, problem solving methodologies, clinical judgment, communication, and use of current equipment and technology.

(4) Content in nursing history and trends, including professional, legal, and ethical aspects.

(5) Supporting content from the natural and social sciences.

**[X] Provide a brief description how requirements (1) through (5) are addressed in the program's curriculum. (Limit responses to one paragraph for each requirement.)**

(1) PN program: The student is prepared to perform services in the provision of supportive or restorative care under the supervision of a registered nurse or physician. Legal and ethical aspects of the role of the LPN are addressed in all courses and emphasized in PNN 161 *Introduction to Client Care* and PNN 311 *Issues and Trends in Nursing*.

ADN program: The student is prepared to formulate nursing diagnoses and conduct nursing treatment of human responses to actual or potential health problem through a variety of services. The clinical experiences provide an opportunity to execute regimens prescribed by physicians, advanced practice nurses and physician assistants. Classroom activities and clinical experiences provide opportunities for supervision and delegation of other personnel in the performance of activities relating to nursing care. The legal and ethical responsibilities of the RN are addressed in all courses and emphasized in ADN 121 *Transitions to Professional Nursing* and ADN 331 *Issues in Nursing Management*. Course content and outcomes are reflective and consistent with the Iowa Code section 152.1.

(2) PN program: In the first semester of the program student have clinical experiences with geriatric clients in long-term care settings. In the second semester students have clinical experiences in acute care settings with adult patients with a wide range of health needs. During the summer term, students have clinical experiences with families, including pre- and perinatal care, during their maternal/child course. Additionally during the summer term they have another acute care experience with adult clients in PNN 341 *Nursing Practicum*.

ADN program: In the first semester of the program students have clinical experiences in acute care settings with adult clients with a wide variety of acute and chronic health needs. In the second semester students continue these acute care experiences in Advanced Adult Health Nursing II. Additionally in the second semester students have care experiences with families, including pre- and perinatal care. Psychiatric nursing experiences are provided through Mental Health Nursing taken at MHI in Independence, IA.

(3) PN program: Students participate in classroom, lab and clinical experiences throughout the program. Fundamental nursing skills are taught in PNN 132 & 133 *Fundamentals of Nursing I & II* and more advanced skills are taught in PNN 543 *Foundations for Clinical Practice*. The nursing process is threaded throughout the curriculum. Critical thinking skills are developed through case studies, and scenarios in the virtual hospital with feedback. COM 781 *Written Communication in the Workplace* or ENG 105 *Composition I* are required of all PN students and is supplemented with therapeutic communication skills taught in *Fundamentals*.

ADN program: Students participate in classroom, lab and clinical experiences throughout the program. Emphasis of the RN role and nursing process is integrated throughout the curriculum and emphasized in ADN 121 *Transitions to Professional Nursing* and ADN 331 *Issues in Nursing Management*. Students are exposed to a variety of equipment and technology, including electronic health records (EHR), in the clinical setting. They are provided experiences in delegation and team leading. SPC 101 *Fundamentals of Oral Communication* is required of all ADN students and communication with clients and members of the healthcare team is addressed in all courses.

(4) PN program: History, trends, legal and ethical issue are addressed in PNN 311 *Issues and Trends in Practical Nursing*. The course provides an overview of the role of the LPN in Iowa. This course introduces students to the history, educational preparation, legal and ethical requirements, and cultural and spiritual sensitivity. Levels of practice, career opportunities, and beginning the job search are addressed.

ADN program: ADN 121 *Transitions to Professional Nursing* focuses on the transition from the LPN to the RN role. This course includes ethical, legal and professional role and responsibilities of the RN, history of nursing, nursing process and critical thinking as well as an introduction to APA writing style and research. ADN 331 *Issues in Nursing Management* focuses on the study and application of the managerial and leadership aspects of professional nursing, including leadership styles, delegation, budgeting, group process, supervision, and evaluation. Preparation for the licensing exam is also included. The course provides experience in team leading with peers. Students present a patient case study in a post-conference with PN students. Both programs include the Iowa Administrative Rules, standards of care, licensure, professional conduct, principles of nursing ethics and ethical decision making strategies

(5)PN program: Program requirements are BIO 159 *Fundamentals of Anatomy and Physiology*, PSY 111 *Introduction to Psychology* and COM 781 *Written Communication in the workplace* or ENG 105 *Composition I*.

ADN program: Program requirements are BIO 163 *Essentials of Anatomy and Physiology*, SPC 101 *Fundamental of Oral Communication*, BIO 185 *Microbiology with lab*, and SOC 110 *Introduction to Sociology*. Chemistry is an admission requirement.

b. In addition to the requirements identified in paragraph "a," the curriculum of a program leading to a diploma in practical nursing and to eligibility to apply for practical nurse licensure by examination shall:

- (1) Be consistent with the legal implications within the scope of practice of a licensed practical nurse as outlined in rules 655—6.3(152) and 655—6.6(152).
- (2) Focus on supportive or restorative care provided under the supervision of a registered nurse or physician pursuant to Iowa Code section 152.1(4).
- (3) Provide learning experiences in medical, surgical, and gerontological nursing.
- (4) Provide content in nursing of childbearing families and children and mental health that is supported by one or more of the following: clinical instruction, lab/simulation, or observation experiences adequate to meet program outcomes.

**[X] Provide a brief description how requirements (1) through (4) are addressed in the program's curriculum. (Limit responses to one paragraph for each requirement.) Cite pages of college catalog for applicable course descriptions.**

(1) The scope of practice and legal and ethical issues are threaded throughout the program but specifically in Issues and Trends in Practical Nursing. This course provides an overview of the role of the licensed practical nurse in Iowa. This course introduces students to the history, educational preparation, legal and ethical requirements, and cultural and spiritual sensitivity. Levels of practice, career opportunities, and beginning the job search are addressed. Iowa Administrative Rules (655 IAC) and Iowa Code section 152 is referenced and discussed.

(2) Supportive and restorative care is consistently presented through the didactic and clinical aspects of the program. The role of the LPN is more specifically discussed in the course Issues and Trends in Practical Nursing, and Iowa Administrative Rules (655 IAC) is referenced.

(3) A summary of didactic and clinical content by course is as follows:

PNN 161 *Introduction to Client Care* provides students with an introduction to clinical nursing, focusing on the geriatric client in the long term care setting.

PNN 541 *Medical Surgical Nursing A* examines the care of adult clients with alterations of the musculoskeletal, respiratory, neurologic, endocrine and immune systems, and the eye and ear. Clinical experiences are provided in acute care settings. Pharmacology and gerontological considerations are integrated throughout the course.

PNN 542 *Medical-Surgical Nursing B* examines the care of adult clients with alterations of the cardiovascular, hematologic, gastrointestinal, urinary, reproductive and integumentary systems. Clinical experiences are provided in acute care settings. Pharmacology and gerontological considerations are integrated throughout the course.

PNN 341 *Nursing Practicum* provides students with clinical experiences and opportunities to demonstrate proficiency in performance of skills and application of the nursing process in acute care settings.

(4) Content and learning experiences for families and children, including pre- and perinatal care, are included in:

PNN 343 *Nursing Perspectives Throughout the Lifespan* examines the stages of normal growth and development including physical, behavioral, and personality development from conception to death. Special emphasis is placed on phases and processes of aging.

PNN 433 *Maternal Child Nursing* examines the study of the human reproductive process during the gestational period, care of the mother, infant, and growing child in health and illness. The course includes basic principles of family centered nursing, applicable pharmacology, and clinical experiences in acute care and outpatient settings.

Course descriptions are found on the college website

<http://www.hawkeyecollege.edu/academics/college-catalog/default.aspx>

c. In addition to the requirements identified in paragraph "a," the curriculum of a program leading to a degree in nursing and to eligibility to apply for registered nurse licensure by examination shall:

(1) Be consistent with the legal implications within the scope of practice of a registered nurse as outlined in rules 655—6.2(152) and 655—6.7(152).

(2) Focus on attaining, maintaining, and regaining health and safety for individuals and groups by utilizing principles of leadership, management, nursing informatics, and client education.

(3) Provide learning experiences in medical, surgical, mental health, and gerontological nursing.

(4) Provide content in nursing of childbearing families and children and mental health that is supported by one or more of the following: clinical instruction, lab/simulation, or observation experiences adequate to meet program outcomes.

(5) Provide content in nursing research when the program leads to a baccalaureate, master's or doctoral degree.

(6) Provide learning experiences in community health nursing when the program leads to a baccalaureate, master's or doctoral degree.

**[X] Provide a brief description how requirements (1) through (6) are addressed in the program's curriculum. (Limit responses to one paragraph for each requirement.) Cite pages of college catalog for applicable course descriptions.**

(1) The scope of practice and legal and ethical issues are threaded throughout the program but specifically in:

ADN 121 *Transitions to Professional Nursing* focuses on the associate degree nurse as transition occurs from the role of the licensed practical nurse to that of the registered nurse. This course includes an overview of ethical, legal and professional roles and responsibilities of the registered nurse, history of nursing, nursing process, and critical thinking, as well as an introduction to APA writing style and research.

ADN 331 *Issues in Nursing Management* focuses on the study and application of the managerial and leadership aspects of professional nursing, including leadership styles, delegation, budgeting, group process, supervision, and evaluation.

(2) See courses noted in (1) above. The principles of leadership, management, nursing informatics and client education are integrated throughout the program and in the clinical setting.

(3) Didactic and clinical content in the associate degree program specific to health promotion, illness prevention and rehabilitation is threaded throughout the curriculum. Gerontological nursing is integrated throughout the nursing program in both the classroom and clinical settings.

ADN 531 *Advanced Adult Health Nursing I* presents the concepts of health and illness and the nursing process when providing comprehensive nursing care for adults with shock; stress; immunologic disorders; fluid, electrolyte and acid base balance abnormalities; and eye, ear, respiratory, endocrine, reproductive, and musculoskeletal system disorders. Clinical experiences are provided in acute care settings.

ADN 532 *Advanced Adult Health II*, a continuation of *Advanced Adult Health I* places emphasis on the following: comprehensive care of the complex medical-surgical patient with cardiac, peripheral vascular, digestive, hematologic, oncologic, urinary, and neurologic disorders. Clinical experiences are provided in acute care and community settings. Selected experience in the nurse manager role is included.

ADN 477 *Psychiatric Nursing* focuses on the study and application of modern concepts of psychiatric nursing and effective interactions with people. The student will respond therapeutically to patients with maladaptive behaviors through use of the nursing process, while applying the principle of mental health and psychiatric nursing. Mental health concepts are applied to all clients throughout the program of study.

(4) Nursing care of childbearing families and children is presented in ADN 410 *Advanced Nursing in OB & Peds*. This course presents comprehensive care for childbearing families and pediatric clients in wellness and illness with special emphasis on health interruptions and variations and the nursing process needed to meet these variations. Clinical experiences are provided in acute care and community settings.

(5)N/A

(6)N/A

Course descriptions are found on the college website  
<http://www.hawkeyecollege.edu/academics/college-catalog/default.aspx>

**2.8(3)** Postlicensure programs for registered nurses who do not hold a baccalaureate degree in nursing.

a. The curriculum of a program that leads to a baccalaureate degree in nursing shall include learning experiences in nursing that will enable the student to achieve competencies comparable to outcomes of the prelicensure baccalaureate education, including content in nursing research and learning experiences in community health nursing.

**[NA] Provide a brief description how above requirement is addressed in the program's curriculum. (Limit response to one paragraph.) Cite pages of college catalog for applicable course descriptions.**

N/A

b. The curriculum of a program that leads to a master's degree in nursing shall include content and learning experiences in nursing that will enable the student to achieve competencies comparable to outcomes of the prelicensure baccalaureate education and master's education, including content in nursing research and learning experiences in community health nursing.

**[NA] Provide a brief description how above requirement is addressed in the program's curriculum. (Limit response to one paragraph.) Cite pages of college catalog for applicable course descriptions.**

N/A

**2.8(4)** Master's, post-master's, and doctoral programs for registered nurses who hold a baccalaureate degree in nursing.

a. The curriculum of a program leading to a master's or doctoral degree in nursing shall include in-depth study of:

- (1) Nursing science, which includes content, practicum experiences and research.
- (2) Advanced role areas in nursing.

**[NA] Provide a brief description how requirements (1) and (2) are addressed in the program's curriculum. (Limit responses to one paragraph for each requirement.) Cite pages of college catalog for applicable course descriptions.**

N/A

b. The curriculum of a program leading to a master's degree or post-master's certificate in a nursing clinical specialty area, eligibility to apply for certification in the specialty area by a national professional nursing organization approved by the board, and registration as an advanced registered nurse practitioner shall:

(1) Be consistent with the legal implications within the scope of practice of the advanced registered nurse practitioner as described in 655—Chapter 7.

(2) Include advanced learning experiences in a specialty area of nursing.

**[NA] Provide a brief description how requirements (1) and (2) are addressed in the program's curriculum. (Limit responses to one paragraph for each requirement.) Cite pages of college catalog for applicable course descriptions.**

N/A

**2.8(5)** Nursing courses with a clinical component. The nursing program shall notify students and prospective students in writing that nursing courses with a clinical component may not be taken by a person:

a. Who has been denied licensure by the board.

b. Whose license is currently suspended, surrendered or revoked in any United States jurisdiction.

c. Whose license/registration is currently suspended, surrendered or revoked in another country due to disciplinary action.

**[X] Cite where notification of licensure regulations for clinical component of program is documented.**

The following statement is under program of study from the college website at <http://www.hawkeyecollege.edu/academics/programs/health/practical-nursing/sequence-of-study.aspx>

"As a student in a health program at Hawkeye Community College you will be required to complete the following background screenings to participate in clinicals:

Criminal background check

Sex offender registry

Child abuse registry

Dependent adult registry

The outcome could possibly affect your opportunity to participate in the clinical setting."

Page 16 of the nursing student handbook also addresses this.

**655—2.9(152) Faculty.**

**2.9(1) Program requirements.** The program shall provide:

a. A sufficient number of faculty who satisfy the requirements in subrule 2.9(2).

**[X] The faculty list clearly identifies number of faculty with adequate requirements.**

b. Written personnel policies and position descriptions.

**[X] Cite where personnel policies and job descriptions are located.**

Personnel policies are available in the college personnel handbook, located on the college website at

<https://my.hawkeyecollege.edu/dept/HRS/Personnel%20Handbook/Personnel%20Handbook%20%20January%202013.pdf>

Job descriptions are maintained and available from Human Resources, located in the Hawkeye Center on the main campus.

c. A faculty development program that furthers the competence of individual faculty members and the faculty as a whole.

**[X] Provide a brief description of the faculty development program.**

The Brobst Center for Teaching and Learning (formerly the Teaching and Learning Center), located in Tama Hall on the main campus provides support and resources for all faculty, and conducts the induction process for all new faculty, both full-time and adjuncts. College-wide opportunities for all faculty include diversity training and awareness, employee development day, faculty in-service day, and training in ANGEL, the online learning management system. E-mails are sent to all faculty announcing upcoming educational opportunities offered through the Brobst Center.

The nursing faculty participate in both in- and out-of-state conferences and continuing education programs.

**[X] Cite where the faculty development program is outlined.**

The Quality Faculty Plan is located on the college website at

<https://my.hawkeyecollege.edu/dept/DrAllen/Quality%20Faculty%20Plan/Forms/AllItems.aspx>

d. A written teaching-load policy.

**[X] Cite where teaching load policy is located.**

The teaching load policy is located on page 20 of the Master Agreement, located on the college website at <https://my.hawkeyecollege.edu/dept/HRS/Shared%20Documents/HPEA%202012-2013%20Master%20Agreement.pdf>

e. A nursing faculty organization that operates according to written bylaws and meets on a regular basis. Minutes shall be available for reference.

**[X] Minutes of nursing faculty organization meetings are documented.**

f. In a prelicensure program, a ratio of one faculty member to a maximum of eight students in practice situations involving clinical instruction.

**[X] Cite where documentation of faculty/student ratio is located.**

All clinical courses are loaded into sections of 8 students to assure the 8 students per 1 clinical instructor ratio is not exceeded. Clinical assignments for faculty and clinical adjuncts also reflect this.

**2.9(2) Faculty member requirements.** A faculty member who teaches nursing shall meet the following requirements:

a. Current licensure as a registered nurse in Iowa prior to teaching. An individual is currently licensed when licensed in another state and recognized for licensure in Iowa pursuant to the nurse licensure compact contained in Iowa Code chapter 152E.

b. Two years of experience in clinical nursing.

c. Academic qualifications:

(1) A faculty member who was employed on July 1, 1992, shall be considered adequately prepared as long as that faculty member remains in that position. A faculty member who was hired to teach in a prelicensure registered nurse program after July 1, 1992, shall have at least a baccalaureate degree with a major in nursing or in an applicable field at the time of hire. This person shall make annual progress toward the attainment of a master's or doctoral degree with a major in nursing or in an applicable field. An individual who has earned a first professional degree as defined in rule 2.1(152), but does not hold a master's degree as defined in rule 2.1(152), must meet the requirement for annual progress. One degree shall be in nursing.

1. Applicable fields include but are not limited to education, counseling, psychology, sociology, health education, health administration, and public health. A person who wishes to fulfill this requirement with education in an applicable field not listed may petition the board for a determination of applicability.

2. The date of hire is the first day of employment with compensation at a particular nursing education program.

3. "Annual progress" means a minimum of one course per year taken as part of an organized plan of study. A written plan of study shall be kept in the employee's file.

(2) A faculty member who was hired to teach after July 1, 1992, in a practical nursing program or at the first level of an associate degree nursing program with a ladder concept shall have a baccalaureate or higher degree in nursing or in an applicable field at the time of hire.

(3) A registered nurse hired to teach in a master's program shall hold a master's or doctoral degree with a major in nursing at the time of hire. A first professional degree as defined in rule 2.1(152) does not meet this requirement. A registered nurse teaching in a clinical specialty area shall hold a master's degree with a major in nursing, advanced level certification by a national professional nursing organization approved by the board in the clinical specialty area in which the individual teaches, and current registration as an advanced registered nurse practitioner according to the laws of the state(s) in which the individual teaches. Faculty preparation at the doctoral or terminal degree level shall be consistent with the mission of the program.

(4) A faculty member hired only to teach in the clinical setting shall be exempt from subparagraphs (1) and (2) if the faculty member is closely supervised to ensure proper integration of didactic content into the clinical setting. If hired after July 1, 1992, a faculty member hired to

teach only in the clinical setting shall have a baccalaureate degree in nursing or in an applicable field or shall make annual progress toward the attainment of such a degree.

(5) Pursuant to 655—Chapter 15, the head of a program may petition the board for a waiver of the requirements in subrules 2.6(2) and 2.9(2). Following review of the circumstances and efforts by the program to meet the requirements, the board may issue a waiver for a specified period of time and indicate conditions that must be met.

**[X] Faculty list—Résumés/curriculum vitae and educational transcripts of faculty and head of the program clearly identify requirements as stated in 2.9(2).**

**2.9(3) Functions of faculty.** Faculty members shall:

a. Develop, implement, and evaluate the purpose, philosophy/mission, and outcomes of the program.

**[X] Cite where documentation of the above is located.**

The nursing student handbook outlines the purpose (p. 6), the philosophy of nursing education (p. 7), and the program outcomes (p.9).

b. Design, implement, evaluate, and revise the curriculum.

**[X] Cite where documentation of the above is located.**

As cited in the faculty by-laws, the nursing program curriculum committee leads the full faculty for the purpose of implementing, evaluating and revising curriculum. The input of graduates, students, clinical partners, and the advisory board is considered when changes are proposed.

c. Provide students with written policies as specified in subrule 2.10(1).

**[X] Provide a brief description of how students are provided written policies.**

Written policies are provided to students in the college and nursing program handbooks. Additional policies specific to each course are in the course syllabus.

d. Participate in academic advising and guidance of students.

**[X] Provide a brief description of how faculty participate in academic advising.**

Faculty are assigned advisees from both the PN and ADN programs. Issues related to a specific program course are first addressed by the faculty teaching the course, and then the faculty advisor, program director, or dean as needed. If a student is having personal challenges counselors from Student Services may be involved in addition.

**[X] Cite how and where documentation of academic advising is located.**

General academic advising is available to all students through the Student Services office. Information is available on the college website at

<http://www.hawkeyecollege.edu/students/services/advising.aspx>.

Documentation of concerns of students in the PN and ADN programs is done with the "Notice of Concern" form, which is signed by both the faculty advisor and the student and placed in the students files, which are locked in the main School of Health Sciences office.

e. Provide for admission, progression, and graduation of students.

**[X] Cite where documentation of the above is located.**

The nursing faculty develop standards for admission, progression, and graduation in accordance with college policy. Documentation can be found:

Admission requirements for the PN program are found on the college website at:

<http://www.hawkeyecollege.edu/academics/programs/health/practical-nursing/admission.aspx>

Admission requirements for the ADN program are found on the college website at:

<http://www.hawkeyecollege.edu/academics/programs/health/associate-degree-nursing/admission.aspx>

The progression policy for both PN and ADN programs is on page 14 of the nursing student handbook.

Graduation requirements are found on the college website at:

<http://www.hawkeyecollege.edu/students/graduation/requirements-awards.aspx>

The records and registration office in the Hawkeye Center keeps the official transcripts of graduates of both programs.

f. Provide for student evaluation, self-evaluation, and peer evaluation of teaching effectiveness.

**[X] Cite where process for student, self and peer evaluation of teaching effectiveness is located.**

Students complete a standard evaluation tool to assess course and teacher effectiveness. Faculty evaluations are done by the Dean of the School of Health Sciences, according to the master contract, which is available under the Human Resources section of My Hawkeye online. Self-evaluation and peer review is voluntary and must be requested by the person being reviewed. The Brobst Center for Teaching and Learning provides support to all faculty through workshops, mentoring and informal peer evaluation.

g. Participate in activities to ensure competency in area(s) of responsibility.

**[X] Provide a brief description of how faculty participates in the above.**

Faculty participate in nursing continuing education programs as required for licensure by the State of Iowa. In addition to the annual faculty development offerings of the college, faculty with clinical assignments participate in training at clinical sites as needed and offered. Faculty are encouraged to participate in and are reimbursed for professional development activities. Nursing faculty have participated in out of state conferences and the annual Health Educators Conference.

**655—2.10(152) Program responsibilities.**

**2.10(1) Policies affecting students.** Programs shall provide for the development, implementation and communication of the following student policies:

- a. Admission/enrollment. Licensure if applicable according to 655—subrule 3.2(1).
- b. Transfer or readmission.
- c. Withdrawal.
- d. Progression.
- e. Grading system.
- f. Suspension or dismissal.
- g. Graduation.
- h. Health.
  
- i. Counseling.
- j. Grievance procedure.

**[X] Cite where documentation of a. through j. (indicate each) is documented.**

- a. <http://www.hawkeyecollege.edu/academics/programs/health/practical-nursing/admission.aspx> and <http://www.hawkeyecollege.edu/academics/programs/health/associate-degree-nursing/admission.aspx>
- b. <http://www.hawkeyecollege.edu/students/handbook/credits/default.aspx>, <http://www.hawkeyecollege.edu/admissions/suspended-expelled-students-readmission.aspx>, <http://www.hawkeyecollege.edu/academics/transfer/default.aspx>
- c. <http://www.hawkeyecollege.edu/students/handbook/courses/drop-withdraw-from-a-course.aspx>, and p. 14 of nursing student handbook.
- d. p.14 of nursing student handbook
- e. course syllabi and <http://www.hawkeyecollege.edu/students/handbook/grades/default.aspx>
- f. <http://www.hawkeyecollege.edu/students/handbook/grades/academic-suspension.aspx>
- g. <http://www.hawkeyecollege.edu/students/graduation/application.aspx>
- h. <http://www.hawkeyecollege.edu/students/services/health/default.aspx>
- i. <http://www.hawkeyecollege.edu/students/services/counseling/default.aspx>
- j. <http://www.hawkeyecollege.edu/students/handbook/student-rights/complaint-policy.aspx>

**2.10(2) Information about the program and controlling institution.** The following information shall be published at least every two years:

- a. Philosophy/mission and outcomes of the program.
- b. General description of the program.
- c. Curriculum plan.
- d. Course descriptions.
- e. Resources.
- f. Faculty.
- g. Tuition, fees and refund policies.
- h. Ethical practices, including recruitment and advertising.
- i. Official dates.

**[X] Cite where documentation and date of publication for a. through i. (indicate each) is located.**

a. nursing student handbook, revised 12/2012 and published 1/2013

b. nursing student handbook, pgs. 30-31, same dates. College catalog at <http://www.hawkeyecollege.edu/academics/programs/health/practical-nursing/default.aspx> and <http://www.hawkeyecollege.edu/academics/programs/health/associate-degree-nursing/default.aspx>

c. <http://www.hawkeyecollege.edu/academics/programs/health/practical-nursing/sequence-of-study.aspx> and <http://www.hawkeyecollege.edu/academics/programs/health/associate-degree-nursing/sequence-of-study.aspx>

d. <https://my.hawkeyecollege.edu/portal/Pages/WebAdvisor.aspx?title=Search+for+Sections&pid=ST-WESTS12A> , updated each semester.

e. <http://www.hawkeyecollege.edu/students/default.aspx> and nursing student handbook, see dates above.

f. <http://www.hawkeyecollege.edu/contact-us/faculty-directory/default.aspx> , nursing student handbook pg. 33, course syllabi, updated each semester.

g. <http://www.hawkeyecollege.edu/students/paying-for-college/default.aspx>, <http://www.hawkeyecollege.edu/students/paying-for-college/tuition-refunds.aspx>

h. <http://www.hawkeyecollege.edu/about/equal-opportunity/default.aspx>, <http://www.hawkeyecollege.edu/students/handbook/student-rights/default.aspx>

i. <http://www.hawkeyecollege.edu/calendars/academics/default.aspx>, available through August 2014.

**2.10(3) Program records.** The following records shall be dated and maintained according to the policies of the controlling institution:

- a. Course syllabi.
- b. Minutes.
- c. Faculty personnel records.
- d. Catalogs and program bulletins.

**[X] Provide a brief description of policy for dating and maintaining records a. through d. and cite where records are maintained.**

a. Current course syllabi are submitted to the coordinator for the School of Health Sciences each semester, and are published on the share drive.

b. Minutes for faculty meetings are maintained by the program director and each faculty member receives a copy.

c. Personnel records are maintained by Human Resources, located in the Hawkeye Center on the main campus. The program director maintains clinical requirements for faculty and clinical adjuncts in a locked file in the program office.

d. The college catalog is on the college website at:

<http://www.hawkeyecollege.edu/academics/college-catalog/default.aspx>

Program bulletins are maintained in the School of Health Sciences main office by the administrative secretary.

**2.10(4) *Student and graduate records.***

a. Policies shall specify methods for permanent maintenance and protection of records against loss, destruction, and unauthorized use.

**[X] Provide a brief description of the policies of permanent maintenance and protection of records.**

Student files, including the summative evaluation, are maintained in locked files in the School of Health Sciences main office. Old files (more than 3 years after graduation) are disposed using secured commercial shredding/disposal services. The college maintains final grades and graduations of all students in Records and Registration in the Hawkeye Center on the main campus.

b. The final record shall include the official transcript and a summative performance statement.

(1) The final official transcript shall include:

1. Legal name of student.
2. Dates of admission, completion of the program and graduation.
3. Courses that were accepted for transfer.
4. Evidence of authenticity.

(2) The final official transcript shall be maintained permanently.

(3) The summative performance statement shall relate the performance of the student at the time of graduation to the program outcomes and shall be maintained for three years.

**[X] Graduate files include the official transcript and a summative performance statement, which reflects the program's outcomes.**

**655—2.11(152) Student criminal history checks.**

**2.11(1)** The program shall initiate criminal history and child and dependent adult abuse record checks of students and prospective students to ensure a student's ability to complete the clinical education component of the program in accordance with Iowa Code section 152.5.

**[X] Provide a brief description of the program's policy and procedure for the initiation of the criminal history and child and dependent adult abuse record checks process or if a written policy and procedure is in place, provide with requested materials.**

This may be found in the nursing student handbook, page 16, and the college website at <http://www.hawkeyecollege.edu/academics/programs/health/practical-nursing/sequence-of-study.aspx>

**655—2.12(152) Clinical facilities.**

**2.12(1)** The clinical facilities shall provide learning experiences that meet curriculum objectives and outcomes.

**[X] Provide a brief overall description of how clinical facilities meet curriculum objectives and outcomes.**

Clinical sites and experiences are paired to align with course content.

**2.12(2)** The program shall provide information to the board about clinical facilities used for learning experiences.

a. The clinical facilities shall be accredited/approved by the appropriate agencies and shall have evidence of good standing by their regulatory body.

b. There shall be evidence that student experiences are coordinated when more than one program uses the same facility.

**[X] Provide a brief description of how a. and b. are met.**

a. The annual report to the Board of Nursing lists all clinical facilities used by our students. All clinical sites are accredited by the appropriate accrediting body. Clinical sites provide to the college documentation of accreditation upon request by the college.

b. Multiple colleges share clinical facilities in the area. The program director works with clinical coordinators at each facility to ensure the appropriate number of students are at a clinical site at scheduled times.

**655—2.13(152) Preceptorship.**

**2.13(1)** A preceptor shall be selected by the nursing program in collaboration with a clinical facility to provide supportive learning experiences consistent with program outcomes.

**2.13(2)** The qualifications of a preceptor shall be appropriate to support the philosophy/mission and outcomes of the program.

a. The preceptor shall be employed by or maintain a current written agreement with the clinical facility in which a preceptor experience occurs.

b. The preceptor shall be currently licensed as a registered nurse or licensed practical nurse according to the laws of the state in which the preceptor practices.

c. The preceptor shall function according to written policies for selection, evaluation and re-appointment developed by the program. Written qualifications shall address educational preparation, experience, and clinical competence.

d. The program shall be responsible for informing the preceptor of the responsibilities of the preceptor, faculty and students. The program shall retain ultimate responsibility for student learning and evaluation.

**2.13(3)** The program shall inform the board of preceptorship learning experiences.

a. Written preceptorship agreements shall be reviewed annually by the program.

b. The board may conduct a site visit to settings in which preceptorship experiences occur.

c. The rationale for the ratio of students to preceptors shall be documented by the program.

**2.13(4)** An individual who is not a registered nurse or a licensed practical nurse may serve as a preceptor when appropriate to the philosophy/mission and outcomes of the program.

**[NA] The program has a written preceptorship policy and procedure, which is all inclusive of 2.13 and is made available to students, the preceptorship site and the preceptor.**

**[NA] Cite where policy and procedure and preceptor agreements are located.**

We do not currently have preceptor experiences for our students.

**[NA] Preceptorship agreements are current.**

**655—2.14(152) Results of graduates who take the licensure examination for the first time.**

The program shall notify the board when the program or district national licensure examination passing percentage is lower than 95 percent of the national passing percentage for two consecutive calendar years. The NCLEX® passing percentage shall be based on all first-time applicants for registered nurse or licensed practical nurse licensure in any jurisdiction who take the examination within six months of graduation. Upon notification by the program, the board shall implement the following process:

**2.14(1)** The program shall submit to the board within six months an institutional plan for assessment and improvement of NCLEX® results, including outcomes and time lines. The plan shall address administration, faculty, students, curriculum, resources, policies and the nursing advisory committee.

**2.14(2)** The program shall submit annual progress reports to the board while the NCLEX® passing percentage remains below 95 percent of the national passing percentage.

**2.14(3)** The program shall provide a brief description including outcomes of all institutional plans submitted to the board in the nursing education program report during the reapproval process, if applicable.

**[X] If your program has submitted an institutional plan within six years, provide a brief description and date/s of the plan/s and outcomes.**

The associate degree program remained below 95 percent of the national passing percentage for the years 2007, 2008, 2009, and 2011. An institutional plan was submitted in 2009 and 2010, both accepted by the Board of Nursing. During this time, Arnett testing phased out and ATI products and comprehensive predictor have been incorporated throughout the curriculum of both programs. The virtual hospital for simulation has been constructed, equipped and staffed and is used throughout the curriculum of both programs.

*A NON-PROFIT ORGANIZATION*

October 3, 2012

Linda Allen  
President  
Hawkeye Community College  
1501 East Orange Road  
PO Box 8015  
Waterloo, IA 50704-8015

Dear President Allen:

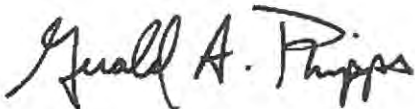

Enclosed is the NAACLS Board of Directors' official accreditation award for your Medical Laboratory Technician program's accreditation as decided at the September 21, 2012 meeting.

The Board of Directors' award is based on the continuing accreditation review process that included a site visit of your program in Spring 2012.

Accreditation for your program will continue until October 31, 2019. As a result, your program will commence the continuing accreditation process with submission of the Self-Study Report on October 1, 2018 and the scheduling of a site visit during Spring 2019. We provide this information to assist you in your program's administrative and financial planning.

This letter and the accompanying award represent formal accreditation by NAACLS. The NAACLS Certificate of Accreditation will be forwarded to the Program Director.

Sincerely,

Gerald A. Phipps  
President, NAACLS Board of Directors

cc: Amy R. Kapanka, MS, MT(ASCP)SC, Program Director  
Sarah Turner, Dean

# The National Accrediting Agency for Clinical Laboratory Sciences

presents this

## CERTIFICATE OF ACCREDITATION

to

*Hawkeye Community College  
Waterloo, IA*

for being in compliance with the  
Standards of Accredited Educational Programs  
for the Medical Laboratory Technician

*Awarded Continuing Accreditation for Seven Years  
October 31, 2012*

*Arnold A. Phipps*

President, Board of Directors

*Dianne M. Carlock*

Chief Executive Officer

## NAACLS BOARD OF DIRECTORS' ACCREDITATION AWARD

The MLT Program of **Hawkeye Community College** in **Waterloo, IA** is awarded Continuing Accreditation for **seven (7) years**.

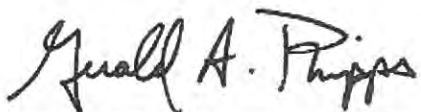

Amy R. Kapanka, MS, MT(ASCP)SC is recognized as Program Director.

The following institutions are recognized as clinical affiliates of the program:

Allen Memorial Hospital	Waterloo, Iowa
Buchanon County Health Center	Independence, Iowa
Covenant Health Center	Waterloo, Iowa
Floyd County Medical Center	Charles City, Iowa
Mercy Medical Center	Cedar Rapids, Iowa
Mercy Medical Center, N. Iowa	Mason City
Mercy Hospital	Iowa City, Iowa
Mercy Hospital	Oelwein, Iowa
Mitchell County Regional Health Center	Osage, Iowa
Winneshiek Med. Center	Decorah, Iowa

The following institutions are recognized as academic affiliates of the program:

Kirkwood Community College	Cedar Rapids, Iowa
North Iowa Community College	Peosta and Calmar, Iowa
North Iowa Area Community College	Mason City, Iowa

---

Gerald A. Phipps  
President, NAACLS Board of Directors

---

Dianne M. Cearlock, PhD  
Chief Executive Officer

September 21, 2012

COMMENTS: *An amended program fact sheet was provided as part of the response to the paper review and this included clinical affiliate accreditations..*

**CLT/MLT Site Visit Report**

1. The sponsoring institution (or at least one participating entity in the case of a consortium or joint venture) is accredited by recognized regional and/or national agencies.  YES  NO
- The clinical and/or academic affiliates are accredited by recognized regional and/or national agencies.  YES  NO  NA
- All provisions of the agreement(s) are active (current) with written documentation of the following items:  NA
- A. General:
- 1. Reason for agreement  YES  NO
  - 2. Responsibilities of the academic facility  YES  NO
  - 3. Responsibilities of the clinical facility  YES  NO
  - 4. Joint responsibilities  YES  NO
- B. Specific:
- 1. Supervisory responsibilities for the students  YES  NO
  - 2. Student professional liability coverage  YES  NO
  - 3. Student health and safety policies  YES  NO
  - 4. Provision for renewal  YES  NO
  - 5. Termination clause providing for program completion of enrolled students  YES  NO

COMMENTS:

2. The educational program is established in a:
- College or University
  - Hospital or medical center
  - Medical laboratory
  - Consortia or Joint Venture
  - Other institution that meets comparable standards for education in clinical laboratory sciences

COMMENTS:

3. The sponsor (and participating entities, in cases of consortia) assumes primary responsibility for:
- Planning curriculum  YES  NO
  - Selecting course content  YES  NO
  - Coordinating classroom teaching  YES  NO
  - Coordinating applied education  YES  NO
  - Appointing faculty to the program  YES  NO
  - Receiving and processing applications for admission  YES  NO
  - Granting the associate degree or certificate  YES  NO

**CLT/MLT Site Visit Report**

COMMENTS:

- 3A. The sponsor (and participating entities, in cases of consortia) is responsible for providing assurance that the activities assigned to students in the clinical setting are educational. YES NO NA

COMMENTS:

- 3B. There is documented, active, ongoing communication between the sponsor (and participating entities, in cases of consortia) and the affiliate(s) to: NA

- Exchange information YES NO  
Coordinate the program YES NO

COMMENTS: **Site visitors verified that there is ongoing communication between the program and affiliates.**

**II. RESOURCES**

4. Personnel resources of the program support the number of students admitted. YES NO

- The instructor to student ratio is adequate to achieve the program goals. YES NO

COMMENTS: **Instructor to student ratio is: 1:24 lecture; 1:12 lab; 1:1 clinical**

5. Financial resources are adequate for the continued operation of the educational program. YES NO

- The budget is institutionally approved, **OR** there is a written statement of continued financial support for the educational program from an executive officer of the sponsor (and participating entities, in cases of consortia). YES NO

COMMENTS:

- 6A. The classrooms/lecture areas are adequate. YES NO  
The administrative offices are adequate. YES NO  
The student laboratories are adequate. YES NO NA  
The clinical facilities are adequate. YES NO NA

- Student laboratories are equipped for safety. YES NO NA  
Clinical facilities are equipped for safety. (Only required if the facility is not accredited by JCAHO, and/or CAP, and/or COLA) YES NO NA

**CLT/MLT Site Visit Report**

COMMENTS: *Each clinical facility fact sheet contained the required information.*

6B.

Students have access to modern equipment and supplies.

Students have experience with modern equipment and supplies.

COMMENTS:

6C. Students have access to information resources containing current editions of books, periodicals and other reference materials in contemporary formats related to all content areas of the curriculum.

YES  NO

COMMENTS:

6D. Adequate instructional resources are available to facilitate each student's attainment of entry level competencies.

YES  NO

COMMENTS:

6E. Students have access to and experience with contemporary computer technology.

YES  NO

COMMENTS:

### III. STUDENTS

7. Applicants and/or students are provided with a clear description of the program and its content.

YES  NO

Announcements accurately reflect the program offered.

YES  NO

Current publications include:

- A. Program mission statement
- B. Program goals and competencies
- C. Course objectives
- D. Applied education assignments

YES  NO

YES  NO

YES  NO

YES  NO  NA

CLT/MLT Site Visit Report

- E. Admission criteria both academic and non-academic  YES  NO
- F. A list of course descriptions  YES  NO
- G. Names and academic rank or title of Program Director and faculty  YES  NO
- H. Tuition and fees with refund policy  YES  NO
- I. Causes for dismissal  YES  NO
- J. Rules and regulations, including appeal procedures  YES  NO
- K. A listing of clinical facilities  YES  NO  NA
- L. Essential functions  YES  NO
- M. Policies and procedures when applied experience cannot be guaranteed  YES  NO  NA
- N. **"AT LEAST ONE** current outcomes measure in the program's published materials. (*Effective for Self-Studies received September 1, 2012 or later*)  YES  NO  NA

COMMENTS:

- 8. Admissions policies and procedures are in accordance with the clearly defined and published practices of the institution.  YES  NO

Academic standards and essential functions required for admission to the program are:

- Clearly defined  YES  NO
- Published  YES  NO
- Provided to prospective students  YES  NO
- Evidenced by signature page  YES  NO
- Made available to the public  YES  NO

COMMENTS: ***Essential functions are located in the MLT student handbook and the program website.***

- 9. Rules and regulations governing acceptable personal and academic conduct for all academic and clinical settings are:
  - Clearly defined  YES  NO
  - Provided to students upon entering the program  YES  NO

COMMENTS:

- 10. Student records are maintained according to any governmental regulations and the regulations of any other accrediting agencies for:
  - Admissions  YES  NO

**CLT/MLT Site Visit Report**

Evaluation

YES  NO

Counseling or advising sessions

YES  NO

Individual grades and credits for courses are recorded and permanently maintained by the sponsor (and participating entities, in cases of consortia).

YES  NO

COMMENTS:

11. Students are informed of, and have access to the usual student health care services of the sponsoring institution.

YES  NO

The health and safety of students, faculty and patients associated with the educational activities are adequately safeguarded.

YES  NO

Emergency medical care is available for students while they are in attendance.

YES  NO

COMMENTS:

12. Guidance is available:

To assist students in understanding and observing program policies and practices

YES  NO

For advising on professional and career issues

YES  NO

For providing counseling or referral for personal and financial problems that may interfere with progress in the program

YES  NO

Confidentiality and impartiality are maintained in dealing with student problems.

YES  NO

COMMENTS:

13. Appeals procedures:  
Are distributed to students upon entering the program.  
Include provisions for academic types of grievances.  
Include provisions for non-academic types of grievances.  
Include a mechanism for neutral evaluation that ensures due process and fair disposition.

YES  NO

YES  NO

YES  NO

YES  NO

COMMENTS:

**IV. OPERATIONAL POLICIES**

- 14A. Programmatic announcements accurately reflect the program offered.

YES  NO

CLT/MLT Site Visit Report

Programmatic announcements include NAACLS' name, address and telephone number.

YES NO

COMMENTS:

14B. Student recruitment and admission policies are non-discriminatory.

YES NO

COMMENTS:

14C. Faculty recruitment and employment practices are non-discriminatory.

YES NO

COMMENTS:

14D. Academic credits and costs are accurately stated, published and made known to all applicants.

YES NO

COMMENTS:

14E. Policies and procedures for student withdrawal are published and made known to all applicants.

YES NO

Policies and procedures for refunds of tuition and fees are published and made known to all applicants.

YES NO NA

COMMENTS:

14F. If more than one level of clinical laboratory science program is offered by the sponsor, the sponsor demonstrates that each program is being conducted to assure appropriate instruction for the students at different educational levels.

YES NO NA

COMMENTS:

14G. The program culminates in an associate degree or a certificate.

YES NO

Granting of the degree/certificate **IS NOT** contingent upon the students passing any type of external certification or licensure examination.

YES NO

Academic standards for the program are acceptable to the institution that grants the degree.

YES NO NA

COMMENTS:

14H. Records of formal student complaints and resolution are maintained.

## Summary Page

**Important Notice:**

The site visit team does not have the authority to speak on behalf of nor bind NAACLS regarding a program's compliance with the Standards, nor can they predict accreditation actions. These responsibilities rest solely with the NAACLS Board of Directors, which has the exclusive right to determine whether or not accreditation is to be granted or continued.

NOTE: This page is compiled on the basis of information supplied to the site visit team by the program director and other officials. **NAACLS makes no representation as to its accuracy. The responsibility for accuracy of the information provided to the team rests solely with the program director and other officials.**

**Areas of Strength:**

*The program has a lot of support from the clinical and academic affiliates, the science faculty and the advisory board members.  
 The student laboratory has modern equipment and supplies that will prepare students for clinicals.  
 The program director and adjunct faculty showed a lot of dedication to their students and the profession.  
 The program through its affiliation with area community colleges responded to the workforce needs of the region by providing trained laboratory personnel.*

**Areas of Weakness:**

*The need for a second fulltime faculty member was expressed by the advisory board members at the meeting with the site visitors and a review of the advisory minutes revealed that this has been an ongoing concern of the committee.*

**Concerns noted by the Paper Reviewer:** (List and detail by the appropriate Standards number)

## North American Wildlife Technology Association

---

Dr. Linda Allen  
President, Hawkeye Community College  
PO Box 8015  
1501 E. Orange Road  
Waterloo, IA 50704

July 14, 2014

Dear Dr. Allen,

We would like to thank you for your support and the support of the college in your Natural Resource Management Program at Hawkeye Community College. Terri Rogers attended the annual North American Wildlife Technology Association conference and professional development workshop recently held in Spokane, WA and presented the College's materials for accreditation. Terri presented a program that has intensified its instruction of natural resource management.

We would like to extend our hearty congratulations on behalf of the North American Wildlife Technology Association for the *five-year accreditation* that Hawkeye Community College received for the Natural Resource Management Program. This accreditation was awarded on the basis of the quality of instruction and excellence of curriculum within the program.

We thank you for your dedication to your students and to your college. You truly have an outstanding program at the college and should be commended for it!

We also thank you for supporting Terri as she wonderfully served the North American Wildlife Technology Association as Executive Director the last 3 years. She has brought great honor to your college and our organization during her service.

Respectfully,

A handwritten signature in black ink that reads "Jim Westerhold". The signature is written in a cursive, flowing style.

Jim Westerhold,  
Executive Director,  
North American Wildlife Technology Association  
843-520-1401

## North American Wildlife Technology Association

---

Terri Rogers  
Natural Resource Management  
Hawkeye Community College  
PO Box 8015  
1501 East Orange Road  
Waterloo, IA 50704

August 19, 2014

Dear Terri,

We would like to thank you for your presentation and application for accreditation for the Natural Resource Management Program. It was on the basis of your curriculum and presentation that we were able to consider and approve the application for a **Full 5 Year Accreditation**.

Recommendations for improvements for the next application would include:

- Clarify the mandatory courses for NAWTA Certification on Hawkeye website

We thank you for your dedication to your students and to your college. You truly have an outstanding program at the college and should be commended for it!

Thank you for everything you have provided for me to transition into attempting to do what you did as Executive Director. I look forward to your assistance in completing this transition and seeing you in Alberta next summer.

Respectfully,

Jim Westerhold,  
Executive Director,  
North American Wildlife Technology Association

August 19, 2014

Dear Terri,

We would like to thank you for your presentation and application for accreditation for the Natural Resource Management Program. It was on the basis of your curriculum and presentation that we were able to consider and approve the application for a **Full 5 Year Accreditation**.

Recommendations for improvements for the next application would include:

- Clarify the mandatory courses for NAWTA Certification on Hawkeye website

We thank you for your dedication to your students and to your college. You truly have an outstanding program at the college and should be commended for it!

Thank you for everything you have provided for me to transition into attempting to do what you did as Executive Director. I look forward to your assistance in completing this transition and seeing you in Alberta next summer.

Respectfully,

Jim Westerhold,  
Executive Director,  
North American Wildlife Technology Association

## Respiratory Care

The Respiratory Care program prepares students for employment in the diagnosis and treatment of patients with deficiencies and abnormalities associated with the cardiopulmonary system. Duties may include electrocardiograms, arterial blood gases, nebulizer treatments, inhalers, ventilator management, oxygen therapy, pulmonary function tests, and sleep studies.

Students train in Hawkeye's state-of-the-art Van Gerpen Patient Simulator Laboratory using realistic full-body manikins and simulators to replicate a range of hospital settings and patient scenarios in a controlled environment.

Graduates are eligible to take the national examination for licensure, which is required to practice in any state. A social security number is required in order to take exams and apply for licensure.

### Accreditation

The Respiratory Care program, 200457, Associate of Applied Science, is accredited by the [Commission on Accreditation for Respiratory Care](#).

**Occupational Therapy Assistant**

The Occupational Therapy Assistant program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE). As a result of this action, Hawkeye Community College Occupational Therapy Assistant students may now sit for the National Board.

The Occupational Therapy Assistant program prepares students with entry-level skills and knowledge to provide treatments that improve consumers' ability to achieve independence in everyday activities and to enjoy life to its fullest. Students will learn how to provide occupational therapy interventions for clients with various impairments and monitor their progress while following an occupational therapy plan of care. They will also learn to effectively educate and communicate with patients, families, and other healthcare providers.

Occupational therapy assistants work under the direction and supervision of an occupational therapist. Duties may include instructing patients in performance of activities of daily living, teaching clients to use adaptive equipment or modifying tasks to increase successful participation in meaningful occupations, and educating consumers in health and wellness.

Due to the nature of the work environment and the physical exertion often required to assist patients, you will need to have a moderate degree of strength. For example, you will need to be able to lift patients, kneel, stoop, and stand for long periods of time.

Students should be aware that a felony conviction can have a serious and negative impact on eligibility for certification and credentialing as an Occupational Therapy Assistant.

**Accreditation**

The Occupational Therapy Assistant program at Hawkeye Community College is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA).

[Hawkeye Community College Accreditation](#)

**National Certification Examination**

Most states require licensure in order to practice. State licensure is usually based on the results of the National Board for Certification in Occupational Therapy (NBCOT) Certification Examination.

Graduation Year	Students Entering/Graduating	Graduation Rate	Number of First-Time Test Takers	Percentage of First-Time Test Takers Who Passed the Exam
2013	13/12	92%	12	100%
2014	15/11	73%	11	100%
2016	20/18	90%	18	100%
Total	48/41	86%	41	100%

An example of one of the marketing and recruitment tools utilized by the College, the student *Viewbook*, provides acknowledgement of accreditation affiliation at the national and state levels.

**COMMENTS FOR AN UPCOMING VISIT**

Hawkeye is seeking comments from the public about the College in preparation for its periodic evaluation by its regional accrediting agency. Submit your comments by Oct. 14.

**About Hawkeye**

Hawkeye Community College's main campus is located near the southeast edge of Waterloo, Iowa.

There are approximately 5,400 students attending classes.

**Hawkeye offers ...**

- More than 45 one-year and two-year programs for credit classes.
- Business and Community Education classes.
- Specialized training geared toward business and industry.
- Classes for high school students during their junior and senior years so they may attain college credits early.

**Additional Facts**

- Hawkeye officially opened in 1968 and became a comprehensive community college with the addition of arts and sciences to the curriculum in 1992.
- The name was officially changed from Hawkeye Institute of Technology to Hawkeye Community College in July 1993.
- Hawkeye has six locations that are within a thirty-five mile radius of the main campus.

**The Higher Learning Commission Invites Third-Party Comment about Hawkeye Community College**

Hawkeye Community College is seeking comments from the public about the College in preparation for its periodic evaluation by its regional accrediting agency. Hawkeye will host a visit November 14–18, 2016, with a team representing the Higher Learning Commission. The team will review the institution's ongoing ability to meet HLC's Criteria for Accreditation.

The public is invited to submit comments regarding the college to the following address:

Public Comment on Hawkeye Community College  
Higher Learning Commission  
230 South LaSalle Street, Suite 7-500  
Chicago, IL 60604-1411

The public may also submit comments on HLC's website at [www.hlcommission.org/comment](http://www.hlcommission.org/comment).

Comments must address substantive matters related to the quality of the institution or its academic programs. Comments must be in writing.

**All comments must be received by October 14, 2016.**

**Accreditation Agency Seeks Public Comments on Hawkeye Community College**

WATERLOO--Hawkeye Community College will undergo a comprehensive evaluation visit November 14-16, 2016, by a team representing The Higher Learning Commission of the North Central Association of Colleges and Schools. Hawkeye Community College has been accredited by the Commission since 1975, with an associate's degree as the highest degree-granting accreditation.

Although accreditation is voluntary for institutions, Hawkeye Community College recognizes the value accreditation provides to the institution and the students enrolling at Hawkeye. The Higher Learning Commission (HLC) is one of six accrediting agencies in the United States that provides institutional accreditation on a regional basis. HLC accreditation evaluates the entire institution and determines the future accreditation status as a whole. In addition to accreditation through HLC, the college is accredited by other agencies for specific programs. The Commission accredits approximately 1,100 institutions of higher education in a nineteen-state region and is recognized by the U.S. Department of Education.

Focusing on quality assurance and institutional improvement, Hawkeye Community College has been engaged in a process of self-study, addressing the Commission's requirements and criteria for accreditation. The evaluation team will visit the institution to gather evidence that the self-study is thorough and accurate and based on evidentiary findings, the team will recommend to the Commission a future accreditation status for the college. Following a panel review process, the Commission itself will take the final action.

The public is invited to submit comments regarding the college:

Public Comment on Hawkeye Community College  
The Higher Learning Commission  
230 North LaSalle Street, Suite 7-500  
Chicago, IL 60604-1411

Comments must address substantive matters related to the quality of the institution or its academic

programs. Comments must be in writing, signed, and received by October 10, 2016. The Commission cannot guarantee that comments received after the due date will be considered. Comments should include the name, address, and telephone number of the person providing the comments. Comments will not be treated as confidential.

Note: Individuals with a specific dispute or grievance with an institution should request the separate Policy on Complaints document from the Commission office. The Higher Learning Commission cannot settle disputes between institutions and individuals. Complaints will not be considered third party comment.

-END-

# New AEA 267 assistant chief hopes to make impact

ANDREW WIND  
andrew.wind@wcfcourier.com

CEDAR FALLS — Karl Kurt wanted to make a difference in the lives of children when he got into the education field.

As a superintendent for the last seven years, he oversaw a school district and the children it served. When Kurt became Area Education Agency 267's assistant chief administrator and human resources director July 1, he joined an organization that works with 53 districts across 18 northeast and north central Iowa counties.

"I felt like this was a

good opportunity for me to have a greater impact on students," the 43-year-old said. "I could have a greater impact on a greater number of kids."

He replaced retiring Kathy Enslin and has an annual salary of \$155,000.

Kurt had served as the superintendent and elementary principal at North Linn Community Schools in Troy Mills since 2013. Prior to that, he was superintendent of Central City Community Schools for four years and principal of Independence High School for five years.

The Dubuque native

and Loras College graduate started his career as a school psychologist after earning master's degrees in that field and educational leadership at Miami University in Oxford, Ohio. "I started my professional career there and met my wife there," he said.

Kurt worked in Middletown City Schools for three years and then became an assistant principal in Cincinnati until returning to Iowa in 2004. "We wanted to get back here to raise our kids." He and his wife, Lori, have three sons and a daughter.

While working in Inde-

pendence, he earned a superintendent certificate at the University of Northern Iowa.

Since arriving at AEA 267, Kurt has been "doing a lot of reading," including contracts with employee groups. "Just trying to get context for where I start," he said.

"We're starting to have conversations, too," he added. "There's a real focus on trying to improve our efficiency to better serve our families, students and schools." As assistant chief, Kurt works closely with Chief Administrator Sam Miller and the rest of

his cabinet.

In his human resources role, Kurt will be involved in "selection, development and retention of staff." Additionally, he'll be "overseeing the support of technology in the agency," including infrastructure such as hardware and servers.

He keeps his focus on one thing — the students — in whichever role he's functioning.

"I'm excited to serve in an agency that represents so many students," Kurt noted. "Excited about the chance to work with a team that is so focused on students."

TIFFANY RUSHING / COURIER STAFF PHOTOGRAPHER  
Karl Kurt is the new Area Education Agency 267 assistant chief administrator, based in Cedar Falls.

## Top Iowa Republicans like Pence

ED TIBBETTS  
etibbetts@qctimes.com

DAVENPORT — Top Republicans in Iowa praised Donald Trump's selection of Indiana Gov. Mike Pence's selection to be his running mate Friday.

Gov. Terry Branstad called Pence a friend who has governed conservatively. "Mike is an excellent choice for vice president and someone who will continue bringing Republicans together to defeat Hillary Clinton in November," Branstad said in a statement.

Pence was to have been at a National Governors Association meeting in Des Moines this week, but as speculation swirled about whether he would be Trump's pick, he did not make an appearance.

Sen. Charles Grassley, R-Iowa, also praised Pence's executive experience and said he would

satisfy conservatives. He also said Pence's low-key, quiet demeanor is a plus for the ticket and "is going to modify somewhat the erratic demeanor of Trump."

Pence has made stops in Iowa to raise money for the Iowa GOP and to stump for other candidates, including Rep. Steve King. He'd also been mentioned previously as a possible presidential candidate himself.

Pens should help Trump with religious conservatives. Luana Stoltenberg, a Davenport anti-abortion activist, said Pence's selection makes her feel more comfortable about voting for Trump.

Shane Vander Hart, a conservative blogger and social media consultant who said he won't vote for Trump, said the Indiana governor has been "wishy-washy" on religious liberty, as well as the Com-

mon Core education issue. "I don't think he moves the needle much," he said.

Bob Vander Plaats, chief executive of the Family Leader, praised Pence for his time in Congress and as governor, and said he has surrounded himself with like-minded conservatives.

"It gives a very good indication to pro-family conservatives that he hears us," he said of Trump's choice.

Democrats on Friday were critical of the choice. Iowa Democratic Party Chair Andy McGuire, in a statement, said: "Pence has a long career of embracing discriminatory policies and pushing forward legislation that only benefits corporations and the 1 percent."

*Lee-Gazette political reporters Erin Murphy and James Q. Lynch contributed to this report.*

### METRO BRIEFS

#### College Street block to close

CEDAR FALLS — Beginning Monday, the Municipal Operations & Programs Department will be closing the 1700 block of College Street for street repairs.

This closure should be in place no longer than one week weather depending on weather. Motorists will be routed to the nearest residential street to bypass the construction.

#### Public comments sought on HCC

WATERLOO — Hawkeye Community College will undergo a comprehensive evaluation visit Nov. 14-16 by the Higher Learning Commission of the North Central Association of Colleges and Schools.

The school has been engaged in a process of self-

study, addressing the commission's requirements and criteria for accreditation. The evaluation team will visit the institution to gather evidence that the self-study is thorough.

The public may submit comments to the Higher Learning Commission, 230 N. LaSalle St., Suite 7-500, Chicago, IL 60604-1411

Comments must address substantive matters related to the quality of the institution or its academic programs. Comments must be in writing, signed and received by Oct. 10.

#### Sheriff to host town meeting

RAYMOND — Sheriff Tony Thompson will host a town hall meeting at 6:30 p.m. Tuesday at the Raymond City Hall, 101 First St.

He will discuss county law enforcement efforts and answer questions.

#### Workshop set at UNI for Aug. 4-5

CEDAR FALLS — A workshop focused on teaching character education and ethical decision-making for at-risk youth will take place from 8:30 a.m. to 4:30 p.m. Aug. 4-5 in the CEEE building at the University of Northern Iowa.

Workshop leader is Carrie Davis Marchant, author and creator of the Moral Combat program for at-risk youth and their families and national trainer for Character Counts.

Cost is \$80. Group rates and scholarships are available.

For information, contact Georgia Sheriff at (515) 271-1910; or email Georgia.sheriff@drake.edu.

## **HAWKEYE COMMUNITY COLLEGE SEEKS COMMENTS FROM CONSTITUENTS AS PART OF THE PROCESS FOR CONTINUING ACCREDITATION**

WATERLOO—Hawkeye Community College will undergo a comprehensive evaluation visit November 14–16, 2016, by a team representing The Higher Learning Commission of the North Central Association of Colleges and Schools. Hawkeye Community College has been accredited by the Commission since 1975, with an associate’s degree as the highest degree-granting accreditation.

Although accreditation is voluntary for institutions, Hawkeye Community College recognizes the value accreditation provides to the institution and the students enrolling at Hawkeye. The Higher Learning Commission (HLC) is one of six accrediting agencies in the United States that provides institutional accreditation on a regional basis. HLC accreditation evaluates the entire institution and determines the future accreditation status as a whole. In addition to accreditation through HLC, the college is accredited by other agencies for specific programs. The Commission accredits approximately 1,100 institutions of higher education in a nineteen-state region and is recognized by the U.S. Department of Education.

Focusing on quality assurance and institutional improvement, Hawkeye Community College has been engaged in a process of self-study, addressing the Commission’s requirements and criteria for accreditation. The evaluation team will visit the institution to gather evidence that the self-study is thorough and accurate and based on evidentiary findings, the team will recommend to the Commission a future accreditation status for the college. Following a panel review process, the Commission itself will take the final action.

Constituents are invited to submit comments regarding the college:

Public Comment on Hawkeye Community College  
The Higher Learning Commission  
230 North LaSalle Street, Suite 7-500  
Chicago, IL 60604-1411

Comments must address substantive matters related to the quality of the institution or its academic programs. Comments must be in writing, signed, and received by October 10, 2016. The Commission cannot guarantee that comments received after the due date will be considered. Comments should include the name, address, and telephone number of the person providing the comments. Comments will not be treated as confidential.

Note: Individuals with a specific dispute or grievance with an institution should request the separate Policy on Complaints document from the Commission office. The Higher Learning Commission cannot settle disputes between institutions and individuals. Complaints will not be considered third party comment.

Dr. Jane Bradley, Vice President of Academic Affairs, is serving as the Hawkeye Community College contact. She can be reached at:

## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Hawkeye Community College  
Waterloo, Iowa

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Hawkeye Community College, Waterloo, Iowa, and its discretely presented component unit as of and for the year ended June 30, 2014 and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents of this report.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Hawkeye Community College Foundation (a discretely presented component unit of the Community College discussed in Note 1), which statements reflect total assets of \$6,901,065 and total revenues of \$1,588,766 for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Hawkeye Community College Foundation, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Hawkeye Community College Foundation were not audited in accordance with *Government Auditing Standards*.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of Hawkeye Community College and its discretely presented component unit as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 10 and 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Hawkeye Community College's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the seven years ended June 30, 2013 (which is not presented herein) and expressed unmodified opinions on those financial statements. We did not previously audit, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the two years ended June 30, 2006. The other supplemental information included in Schedules 1 through 10, is presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, Schedule 11, is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplemental information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplemental information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2014, on our consideration of Hawkeye Community College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hawkeye Community College's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE YEAR ENDED JUNE 30, 2014**

---

Management of Hawkeye Community College provides this Management's Discussion and Analysis of the College's annual financial statements. This narrative overview and analysis of the financial activities of Hawkeye Community College is for the fiscal year ended June 30, 2014. We are also discretely presenting financial information about the Hawkeye Community College Foundation (Foundation). We encourage readers to consider this information in conjunction with the College's financial statements, which follow.

**FINANCIAL HIGHLIGHTS**

- College operating revenues totaled \$27,682,429 for fiscal year 2014, and decreased \$1,570,966, as compared to fiscal year 2013 operating revenues of \$29,253,395. The reduction resulted primarily from a decrease in Iowa Industrial New Jobs Training Program revenue.
- College operating expenses totaled \$49,412,062 for fiscal year 2014 and increased \$1,385,683, as compared to fiscal year 2013 operating expenses of \$48,026,379. The increase resulted primarily from increases in Adult Education and General Institutional expenses.
- The College's net position increased 2.8%, or \$2,253,307, from the year ended June 30, 2013. The increase was primarily reflected in the Net Investment in Capital Assets.

**USING THE ANNUAL REPORT**

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the College's financial activities.

The Basic Financial Statements consist of a statement of net position, a statement of revenues, expenses, and changes in net position and a statement of cash flows. These provide information about the activities of the College as a whole and present an overall view of the College's finances.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information presents a Schedule of Funding Progress for the Retiree Health Plan.

Other Supplementary Information provides detailed information about the individual funds. The Budgetary Comparison Schedule of Expenditures – Budget to Actual further explains and supports the financial statements with a comparison of the College's budget for the year. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the College.

**REPORTING THE COLLEGE'S FINANCIAL ACTIVITIES**

**The Statement of Position**

The statement of net position presents the assets, liabilities and net position of the College as a whole, as of the end of the fiscal year June 30, 2014. The statement of net position is a point-in-time financial statement. The purpose of this statement is to present a fiscal snapshot of the College to the readers of the financial statements. The statement of net position includes year-end information concerning current and non-current assets, current and non-current liabilities and net position (assets less liabilities). Over time, readers of the financial statements will be able to determine the College's financial position by analyzing the increases and decreases in net position. This statement is also a good source for readers to determine how much the College owes to outside vendors and creditors. The statement also presents the available assets that can be used to satisfy those liabilities.

## Net Position

	June 30, 2014	June 30, 2013
Current and Other Assets	\$ 59,626,331	\$ 61,599,362
Capital Assets, Net of Accumulated Depreciation	57,024,101	56,311,427
<b>Total Assets</b>	<b>116,650,432</b>	<b>117,910,789</b>
Current Liabilities	12,066,936	12,603,543
Non-current Liabilities	14,113,705	16,962,587
<b>Total Liabilities</b>	<b>26,180,641</b>	<b>29,566,130</b>
Deferred Inflows of Resources	8,308,869	8,437,044
<b>Net Assets:</b>		
Net Investment in Capital Assets	54,978,931	51,451,167
Restricted	12,078,289	11,342,660
Unrestricted	15,103,702	17,113,788
<b>Total Net Position</b>	<b>\$ 82,160,922</b>	<b>\$ 79,907,615</b>

**Comparison of Net position**

A portion of the College's net position (66.9%) is invested in capital assets (e.g., land, buildings and equipment), less the related debt. The debt related to the invested in capital assets is liquidated with resources other than capital assets. The restricted portion of the net position (14.7%) includes resources that are subject to external restrictions. The remaining net position (18.4%) is the unrestricted net position that can be used to meet the College's obligations as they come due.

### Statement of Revenues, Expenses and Changes in Net Position

Changes in total net position as presented on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses and Changes in Net Position. The purpose of the statement is to present the revenues earned by the College, both operating and non-operating, and the expenses incurred by the College, operating and non-operating, and any other revenues, expenses, gains and losses received or spent by the College.

In general, a public college, such as Hawkeye Community College, will report an operating loss since the financial reporting model classifies state appropriations and property taxes as non-operating revenues. Operating revenues are received for providing goods and services to the various students, customers and constituencies of the College. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the College. Non-operating revenues are revenues received for which goods and services are not provided. The utilization of capital assets is reflected in the financial statements as depreciation, which allocates the cost of an asset over its expected useful life.

## Changes in Net Position

	Year Ended June 30, 2014	Year Ended June 30, 2013
Operating Revenues:		
Tuition and Fees	\$ 19,168,702	\$ 19,133,475
Less: Scholarship Allowances	(8,717,248)	(9,489,436)
Tuition and Fees, net of scholarship allowances	10,451,454	9,644,039
Federal Appropriations	12,217,312	12,662,733
Iowa Industrial New Jobs Training Program	1,194,342	2,809,463
Auxiliary Enterprises Revenue, net of scholarships	1,865,332	1,806,432
Gifts and Grants	63,744	87,730
Miscellaneous	1,890,245	2,242,998
Total Operating Revenues	27,682,429	29,253,395
 Total Operating Expenses	 49,412,062	 48,026,379
Operating Loss	(21,729,633)	(18,772,984)
 Non-Operating Revenues (Expenses)		
State Appropriations	16,097,835	15,606,493
Property Taxes	8,410,452	8,125,536
Interest Income from Investments	173,446	86,719
Gain (Loss) on Sale of Capital Assets	2,620	(58,744)
Interest on Indebtedness	(701,413)	(756,435)
Net Non-Operating Revenues	23,982,940	23,003,569
 Increase in Net Position	 2,253,307	 4,230,585
 Net Position Beginning of Year	 79,907,615	 76,062,783
Prior Year Adjustments	-	(385,753)
Net Position Beginning of Year - Restated	79,907,615	75,677,030
 Net Position Ending of Year	 \$ 82,160,922	 \$ 79,907,615

The statement of revenues, expenses and changes in net position reflects a positive year, with increases in net position of \$2,253,307 for the current year.

In fiscal year 2014, the major fluctuations in revenues were a result of the following changes:

- Federal Appropriations decreased \$445,421 due primarily to reduced Pell Grant funding.
- Iowa Industrial New Jobs Program revenues decreased \$1,615,121 due to the timing of the projects and the variability of the revenue accounts. Overall revenue is influenced not only by the withholding revenues received from the companies, but also the amount of reimbursed expenses the company had throughout the year.

## Operating Expenses

	Year Ended June 30, 2014	Year Ended June 30, 2013
Education and Support:		
Liberal Arts and Sciences	\$ 6,690,837	\$ 7,576,779
Vocational Technical	9,641,726	9,803,909
Adult Education	4,761,973	3,067,166
Cooperative Services	3,899,676	4,599,275
General Administration	2,265,799	2,607,332
Student Services	3,399,493	3,072,403
Learning Resources	878,858	790,155
Physical Plant	3,629,241	3,932,589
General Institution	8,047,467	6,754,056
Sub-total	<u>43,215,070</u>	<u>42,203,664</u>
Auxiliary Enterprises	2,659,540	2,411,054
Scholarships and Grants	901,150	837,804
Depreciation Expense	<u>2,636,302</u>	<u>2,573,857</u>
 Total	 <u><u>\$ 49,412,062</u></u>	 <u><u>\$ 48,026,379</u></u>

In fiscal year 2014, the major fluctuations in operating expenses were a result of the following factors:

- Adult Education expenses increased \$1,694,807 due primarily to program expansion.
- General Institutional expenses increased \$1,248,320 due primarily to a change in account policy placing utility costs in the plant fund rather than in the general fund.

### Statement of Cash Flows

The statement of cash flows is an important tool in helping the users to assess the College's ability to generate future net cash flows, its ability to meet its obligations as they come due, and its need for external financing. The statement of cash flows presents information related to cash inflows and outflows, summarized by operating, non-capital financing, capital financing and investing activities.

## Cash Flows

	Year Ended June 30, 2014	Year Ended June 30, 2013
Cash and Cash Equivalents Provided (Used) by:		
Operating Activities	\$ (15,932,927)	\$ (19,786,894)
Non-Capital Financing Activities	24,508,287	23,564,224
Capital and Related Financing Activities	(6,815,744)	(8,138,965)
Investing Activities	(2,588,900)	6,374,739
Net Increase (Decrease) in Cash and Cash Equivalents	(829,284)	2,013,104
Cash and Cash Equivalents at Beginning of Year	2,660,925	647,821
Cash and Cash Equivalents at End of Year	\$ 1,831,641	\$ 2,660,925

Cash used by operating activities includes tuition, fees, grants and contracts, net of payments to employees and to suppliers. Cash provided by non-capital financing activities includes state appropriations and local property taxes received by the College. Cash used by capital and related financing activities represents the proceeds from debt, the principal and interest payments on debt and the purchase of capital assets. Cash provided by investing activities includes investment income earned.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

As of June 30, 2014, the College had \$57,024,101 invested in capital assets, which was net of accumulated depreciation of \$32,849,883. Depreciation expense totaled \$2,636,302 for fiscal year 2014. Details of the capital assets are shown below.

### Capital Assets, Net, at Year-End

	June 30, 2014	June 30, 2013
Land	\$ 379,179	\$ 379,179
Construction in Progress	1,410,824	6,895,235
Capital Assets Not Depreciated	1,790,003	7,274,414
Buildings	31,248,321	32,232,033
Other Structures and Improvements	18,526,374	11,379,083
Furniture and Equipment	5,459,403	5,425,897
Capital Assets, Net of Depreciation	55,234,098	49,037,013
Total Capital Assets	\$ 57,024,101	\$ 56,311,427

Major capital expenses for the fiscal year ended June 30, 2014 include: beginning on upgrade of the HVAC and electrical systems in Buchanan Hall to improve technical training areas; this will be completed in fiscal year 2015. Courtyard lighting was installed as well as an exterior ramp on the south side of Grundy Hall. Projects in fiscal year 2015 include the HVAC completion mentioned, along with parking lot replacement work. More detailed information about the College's capital assets is presented in Note 5 to the basic financial statements.

## Long-Term Debt

As of June 30, 2014, the College had \$18,815,000 in debt outstanding, a decrease of \$3,340,000 from June 30, 2013. The table below summarizes these amounts by type.

### Outstanding Debt

	Year Ended June 30, 2014	Year Ended June 30, 2013
Certificate Payable	\$ 16,815,000	\$ 17,385,000
General Obligation Bonds	2,000,000	4,770,000
Total	<u>\$ 18,815,000</u>	<u>\$ 22,155,000</u>

More detailed information about the College's outstanding debt is presented in Note 6 to the basic financial statements.

## ECONOMIC FACTORS

Hawkeye Community College continues to take steps in anticipation of enrollment decreases experienced by most of Iowa's Community Colleges due to demographic and economic fluctuations. Cost cutting measures in the past few years have resulted in a financial situation for the College that will help position it to maintain fiscal sustainability during uncertain economic times ahead. Some challenges that are facing the College are:

- The regional area served by the College is experiencing a decline in high school age students. The College is exploring avenues to better serve, and market to, our non-traditional student client base.
- Salaries, wages and fringe benefits comprise approximately 73% of annual Educational and Support expenses. Providing competitive packages to attract and retain the best employees in an area of relatively low unemployment continues to be an issue facing the College.
- Facilities at the College require constant upkeep and maintenance at increasing costs. The addition of space through new construction and remodeling over the past several years has added an additional burden to maintenance costs. Hawkeye Community College has used a Plant Fund Levy, which expires in fiscal year 2015, to help fund the cost of upkeep and repair. In the fall of 2013, the College successfully sought taxpayer approval to extend the levy for an additional 10-year term.
- The use of technology continues to expand with current technology quickly becoming outdated. The College faces the challenge of maintaining and upgrading technology at a reasonable cost.
- The Iowa Board of Regents has recommended a tuition freeze at the State's public four-year institutions for the third straight year and has recommended a change to the distribution formula for state aid to reward enrollment of Iowa students. These initiatives are intended to draw Iowa students to the Regents Universities which will in turn create an even higher level of competition with Iowa's community colleges.
- The taxable assessed property valuation used to help fund the College's operations decreased from fiscal year 2014 to fiscal year 2015 due in part to a legislative commitment to phase in a commercial property valuation rollback which lessens the amount of commercial property valuation subject to property tax assessment. The state is committed to backfilling the reduced property tax collections for a period of three years. Hawkeye Community College currently has the 5th highest property tax rate among the 15 Iowa community colleges and, at 95 cents per \$1,000 of taxable assessed valuation, is 2 cents higher than the state average.
- Hawkeye Community College has the 4<sup>th</sup> lowest mandatory tuition and fees rate per credit hour of the 15 Iowa Community Colleges and charges \$7 less than the state average. The College is reluctant to increase tuition and fee rates higher than is absolutely necessary, but finds itself relying proportionately more each year on tuition to fund its operations.

The College has experienced enrollment declines over the last three years and faces the likelihood of limited funding growth at both the state and federal levels. However, the College has positioned itself to have the resources necessary to make well planned and thoughtful adjustments to its delivery of services in ways that maximize our clients return on their educational dollars spent.

## **CONTACTING THE COLLEGE'S FINANCIAL MANAGMENT**

This financial report is designed to provide our customers, taxpayers in the community college, and our creditors with a general overview of the College's finances and to demonstrate the College's accountability for the resources it receives. If you have questions about the report or need additional financial information, contact Hawkeye Community College, 1501 E. Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Hawkeye Community College is a publicly supported school established and operated by Merged Area VII under the provisions of Chapter 260C of the Code of Iowa. Hawkeye Community College may offer programs of adult and continuing education, lifelong learning, community education, and up to two years of liberal arts, pre-professional or occupational instruction partially fulfilling the requirements for a baccalaureate degree but confers no more than an associate degree. Hawkeye Community College may also offer up to two years of vocational or technical education, training or retraining to persons who are preparing to enter the labor market. Hawkeye Community College maintains seven sites throughout Waterloo, Cedar Falls, and Independence, Iowa, and has its administrative offices in Waterloo. Hawkeye Community College is governed by a Board of Trustees whose members are elected from each trustee district within Merged Area VII.

The College's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

**A. Reporting Entity**

For financial reporting purposes, Hawkeye Community College has included all funds, organizations, agencies, boards, commissions and authorities. Hawkeye Community College has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with Hawkeye Community College are such that exclusion would cause Hawkeye Community College's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the College to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on Hawkeye Community College.

These financial statements present Hawkeye Community College (the primary government) and its component unit. The component unit discussed below is included in Hawkeye Community College's reporting entity because of the significance of its operational or financial relationship with the Community College. Certain disclosures about the component unit have been audited separately and a report has been issued under a separate cover. The audited financial statements are available at the College.

**Discretely Presented Component Unit**

Hawkeye Community College Foundation is a non-profit corporation, whose purpose is to support the Community College through donations to provide scholarships to students, and for the enhancement and extension of facilities, equipment and services. The Foundation is governed by a Board of Trustees, two of which are appointed by the Board of Trustees of the Community College. The Foundation operates on a June 30 fiscal year end. The financial statements of Hawkeye Community College Foundation, Inc. can be obtained from: Business Services, Hawkeye Community College, 1501 E. Orange Road, P.O. Box 8015, Waterloo, IA 50704-8015.

**B. Basis of Presentation**

GASB Statement No. 35 establishes standards for external financial reporting for public colleges and universities and requires resources to be classified for accounting and reporting purposes into the following net position categories/components:

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Net Investment in Capital Assets: Capital assets, net of accumulated depreciation and outstanding debt obligations attributable to the acquisition, construction or improvement of those assets.

Restricted Net Position:

Nonexpendable – Net position subject to externally imposed stipulations that they be maintained permanently by the College, including the College's permanent endowment funds.

Expendable – Net position whose use by the College is subject to externally imposed stipulations that can be fulfilled by actions of the College, pursuant to those stipulations or that expire by the passage of time.

Unrestricted Net Position: Net position not subject to externally imposed situations. Resources may be designated for specific purposes by action of management or by the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is designated for academic and general programs of the College.

GASB Statement No. 35 requires the Statements of Net Position, Revenues, Expenses, and Changes in Net Position and Cash Flows be reported on a consolidated basis. These basic financial statements report information on all of the activities of the College. For the most part, the effect of interfund activity has been removed from these statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

For financial reporting purposes, Hawkeye Community College is considered a special-purpose government engaged only in business type activities as defined in GASB Statement No. 34. Accordingly, the basic financial statements of the College have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**D. Assets, Liabilities and Net Position**

The following accounting policies are followed in preparing the balance sheets:

Cash and Pooled Investments -- Investments are stated at fair value.

For the purposes of the statement of cash flows, all short-term investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amount of cash, and at the day of purchase, they have a maturity date no longer than three months.

Due From Other Governments -- This represents state aid, grants and reimbursements due from the State of Iowa, and grants and reimbursements due from the Federal government.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Inventories -- Inventories are valued at lower of cost (first-in, first-out method) or market, except for the livestock and grain from the farm operations, which is valued at market value. Inventories consist of supplies and materials held for consumption, livestock and merchandise held for resale. The cost is recorded as an expenditure at the time individual inventory items are consumed or sold.

Property Tax Receivable – Property tax receivable is recognized on the levy or lien date, which is the date that the tax asking is certified by the Board of Trustees to the appropriate County Auditors. The succeeding year property tax receivable represents taxes certified by the Board of Trustees to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Trustees is required to certify its budget to the County Auditor by June 1 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred and will not be recognized as revenue until the year for which it is levied.

Receivable for Iowa Industrial New Jobs Training Program (NJTP) – This represents the amount to be remitted to the College for training projects entered into between the College and employers under the provisions of Chapter 260E of the Code of Iowa. The receivable amount is based on expenditures incurred through June 30, 2014 on NJTP projects, including interest incurred on NJTP certificates, less revenues received to date.

Capital Assets -- Capital assets, which include property, plant, equipment, and infrastructure assets (i.e., roads, curbs, gutters, sidewalks, and similar items which are immovable and of value only to the College), are reported. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. No interest costs were capitalized.

Capital assets are defined by the College as assets with initial, individual costs in excess of \$5,000.

Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Other Structures and Improvements	25 - 50
Furniture and Equipment	3 - 10

The College does not capitalize or depreciate library books. The value of each book falls below the capital asset threshold and the balance was deemed immaterial to the financial statements.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

Note 1 -- **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Salaries and Benefits Payable -- Payroll and related expenses for instructors with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Unearned Revenue -- When assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue. Unearned revenue consists of tuition deposits, tuition and fees for a portion of summer classes, fees and registration for fall, unearned revenue on 260E projects, unearned revenue on federal and state funds.

Compensated Absences -- College employees accumulate a limited amount of earned but unused vacation hours for subsequent use or for payment upon termination, death or retirement. Amounts representing the cost of compensated absences plus related benefits are recorded as liabilities. These liabilities have been computed based on rates of pay in effect at June 30, 2014.

Deferred Inflows of Resources -- Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Auxiliary Enterprise Revenues -- Auxiliary enterprise revenues primarily represent revenues generated by career education, adult education, farm operations, and food service.

Summer Session -- The Community College operates summer sessions during May, June, and July. Revenues and expenses for the summer sessions are recorded in the appropriate fiscal year. Tuition and fees are allocated based on the summer session class schedule.

Tuition and Fees -- Tuition and fees revenues are reported net of scholarship allowances, while stipends and other payments made directly to students are presented as scholarship expenses.

Operating and Non-operating Activities -- Operating activities, as reported in the Statement of Revenues, Expenses and Changes in Net Position, are transactions that result from exchange transactions, such as payments received for providing services and payments made for services or goods received. Non-operating activities include state appropriations, property tax, and interest income.

E. Scholarship Allowances and Student Aid

Financial aid to students is reported in the financial statements under the alternative method, as prescribed by the National Association of College and University Business Officer (NACUBO). Certain aid (loans and funds provided to students as awarded by third parties) is accounted for as third party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a total College basis by allocating the cash payments to students, excluding payments for services, on the ratio of all aid to the aid not considered to be third party aid.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 2 – CASH, CASH EQUIVALENTS, AND POOLED INVESTMENTS**

The College's deposits in banks at June 30, 2014, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The Community College is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Trustees; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district. The College's investment policy additionally limits investments in commercial paper to obligations that mature within 270 days and that is rated within the two highest classifications, as established by at least one of the standard rating services, with no more than five percent at the time of purchase placed in the second highest classification. At the time of purchase not more than ten percent of the investment portfolio can be in these investments and no more than five percent of the investment portfolio can be invested in the securities of a single issuer.

Investments are stated at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

At June 30, 2014, the Community College had the following investments:

Current Pooled Investments	\$ 23,309,461
Noncurrent Pooled Investments	21,348,377
	<u>\$ 44,657,838</u>

Investment Type	Fair Value	Investment Maturities (in years)	
		Less than 1	1 to 5
Money Market Mutual Fund	\$ 17,355,460	\$ 17,355,460	\$ -
Certificates of Deposit	1,325,167	946,416	378,751
U.S Government Securities	25,977,211	5,007,585	20,969,626
	<u>\$ 44,657,838</u>	<u>\$ 23,309,461</u>	<u>\$ 21,348,377</u>

Interest rate risk - The Community College's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the Community College.

Credit risk - The Community College's investments in Money Market Mutual Funds are unrated.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 2 – CASH, CASH EQUIVALENTS, AND POOLED INVESTMENTS (Continued)**

Concentration of credit risk - The College's investment policy seeks to provide safety of the principal, maintain the necessary liquidity to match expected liabilities, and obtain a reasonable rate of return. The policy allows for investments of up to 100% in interest bearing savings, money market and checking accounts, certificates of deposits, repurchase agreements, money market mutual funds, bonds, notes, certificates of indebtedness, treasury bills or other securities issued by the United States of America, its agencies and allowable instrumentalities; up to 10% in prime bankers' acceptances; and up to 10% in commercial paper. The policy does not allow the College to invest in futures, options or reverse purchase agreements.

**Component Unit Investments.** Investments are managed by the Foundation and external managers, in accordance with Board policy, and are stated at fair value. Fair value of the investments has been determined as of June 30. Values have not been adjusted for market fluctuations subsequent to June 30. Accounting principles generally accepted in the United States of America require adjustment of year end values only when the value has been permanently impaired. Management does not feel market fluctuations after year end have caused permanent impairment to its investment portfolio. A summary of the securities held at June 30, 2014 follows:

	Fair Value
Common Stocks	\$ 1,709,567
Common Stocks - Foreign	93,159
Corporate Bonds	302,402
U.S. Government Agency Bonds	772,782
Mutual Funds - Equity	1,228,790
Mutual Funds - Foreign	559,019
Mutual Funds - U.S. Gov't	1,433,740
Mutual Fund - Real Estate	58,662
	\$ 6,158,121

**Note 3 – LOANS RECEIVABLE (Component Unit)**

The Foundation, a component unit to the College, makes loans to students of the College to be used primarily for the cost of tuition and books. These loans generally become payable upon the student's completion of or withdrawal from higher education programs. HyPro, John Deere, and Tyson loans become forgivable upon the completion of the program and two or three years of employment with the respective companies.

Loans receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible or forgivable amounts through a charge to expense and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to loans receivable. Interest rates and terms vary by program. Below is a summary of loans receivable:

	2014
Loans Receivable	\$ 360,640
Less Allowance for Uncollectible Loans	(15,909)
Less Allowance for Forgivable Loans	(303,385)
Net Loans Receivable	\$ 41,346

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 4 -- INVENTORIES**

The Community College's inventories at June 30, 2014 are as follows:

<u>Type</u>	<u>Amount</u>
Supplies and Materials	\$ 19,421
Farm Operations	134,064
Merchandise Held for Resale	<u>51,466</u>
Total	<u>\$ 204,951</u>

**Note 5 -- CAPITAL ASSETS**

A summary of changes in capital assets is as follows:

Note 6 -- **LONG-TERM DEBT** (Continued)

Certificates Payable

In accordance with agreements dated between June 30, 1996 and June 30, 2014, the Community College issued certificates with a June 30, 2014 outstanding balance of \$16,815,000 with interest rates ranging from 0.40% to 5.50%. The debt was incurred to fund the development and training costs incurred relative to implementing Chapter 260E of the Code of Iowa, Iowa Industrial New Jobs Training Program (NJTP). NJTP's purpose is to provide tax-aided training for employees of industries which are new to or are expanding their operations within the State of Iowa. Interest is payable semi-annually, while principal payments are due annually. The certificates are to be retired by proceeds from anticipated job credits from withholding taxes, incremental property tax, budgeted reserves, and, in the case of default, from standby property taxes. During 2014, Hawkeye Community College recorded \$625,214 of interest expense from the certificates payable.

The certificates will mature as follows:

Year Ending June 30,	Principal	Interest	Total
2015	\$ 3,580,000	\$ 459,610	\$ 4,039,610
2016	3,000,000	381,855	3,381,855
2017	2,675,000	309,670	2,984,670
2018	2,270,000	239,413	2,509,413
2019	1,890,000	166,860	2,056,860
2020-2024	<u>3,400,000</u>	<u>219,873</u>	<u>3,619,873</u>
Total	<u>\$ 16,815,000</u>	<u>\$ 1,777,281</u>	<u>\$ 18,592,281</u>

Bonds Payable

On May 1, 2008, Hawkeye Community College issued \$6,850,000 in general obligation school bonds, to finance the improvement of its Main Campus and construct, remodel, erect and equip buildings thereon, and construct, lease, or acquire and improve and equip new or existing facilities. Annual principal payments began June 1, 2009. Interest payments are due semi-annually each June and December. The capital loan notes matured in June 2014. The balance of the general obligation school bonds at June 30, 2014, was \$0.

On April 19, 2011, Hawkeye Community College issued \$5,550,000 in general obligation school bonds, to finance the improvement of its Main Campus and construct, remodel, erect and equip buildings thereon, and construct, lease, or acquire and improve and equip new or existing facilities. Annual principal payments began June 1, 2012. Interest payments are due semi-annually each June and December. The capital loan notes will mature June 2015. The balance of the general obligation school bonds at June 30, 2014, was \$2,000,000.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 6 -- LONG-TERM DEBT (Continued)**

Details of the Community College's June 30, 2014 bonded indebtedness maturities are as follows:

Year Ending June 30,	Principal	Interest	Total
2015	\$ 2,000,000	\$ 50,000	\$ 2,050,000
Total	<u>\$ 2,000,000</u>	<u>\$ 50,000</u>	<u>\$ 2,050,000</u>

**Note 7 -- OPERATING LEASES**

The College has leased various facilities within the area to house different divisions of the College. These leases have been classified as operating leases and, accordingly, all rents are expensed as incurred. The leases expire between 2014 and 2017 and require various minimum annual rentals. Certain leases are renewable for additional periods. Some of the leases also require the payment of normal maintenance and insurance on the properties. In most cases, management expects the leases will be renewed or replaced by other leases.

The following is a schedule by year of future minimum rental payments required under operating leases which have initial or remaining non-cancelable lease terms in excess of one year as of June 30, 2014:

Year Ending June 30,	Amount
2015	\$ 128,710
2016	21,336
2017	1,778
Total	<u>\$ 151,824</u>

Rents for the year ended June 30, 2014 for all operating leases, except those with terms of a month or less, totaled \$323,887.

**Note 8 -- IOWA PUBLIC EMPLOYEES RETIREMENT SYSTEM (IPERS)**

The Community College contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing, multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 5.95% of their annual covered salary and Hawkeye Community College is required to contribute 8.93% of annual covered salary. Contribution requirements are established by state statute. Hawkeye Community College's contributions to IPERS for the years ended June 30 2014, 2013, and 2012 were \$759,289, \$696,670, and \$571,237, respectively, equal to the required contribution for each year.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 9 -- TEACHERS INSURANCE AND ANNUITY ASSOCIATION -- COLLEGE RETIREMENT EQUITIES FUND (TIAA-CREF)**

The Community College contributes to the TIAA-CREF retirement program, which is a defined contribution plan. TIAA administers the retirement plan for Hawkeye Community College. The defined contribution retirement plan provides individual annuities for each plan participant. As required by the Code of Iowa, all eligible College employees must participate in a retirement plan from the date they are employed. Contributions made by both employer and employee vest immediately. As specified by the contract with TIAA-CREF, and in accordance with the Code of Iowa, each employee is required to contribute 5.95% and Hawkeye Community College is required to contribute 8.93%. The Community College's and employees' required and actual contributions to TIAA-CREF for the year ended June 30, 2014, were \$969,428 and \$645,914, respectively.

**Note 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

Plan Description- The College operates a single-employer retiree benefit plan which provides medical/prescription drug benefits for retirees and their spouses. There are 272 active and 13 retired members in the plan. The plan does not issue a publicly available financial report.

The medical/prescription drug coverage is provided through a fully-insured plan. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy- The contribution requirements of plan members are established and may be amended by the College. The College currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The College's annual OPEB cost is calculated based on the annual required contribution (ARC) of the College, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the College's annual OPEB cost for the year ended June 30, 2014, the amount actually contributed to the plan and changes in the College's net OPEB obligation:

Annual Required Contribution	\$	58,485
Interest on Net OPEB Obligation		11,858
Adjustment to Annual Required Contribution		<u>(16,629)</u>
Annual OPEB Cost		53,714
Net OPEB Obligation Beginning of Year		290,392
Annual OPEB Cost		53,714
Employer Contributions Made		<u>(39,764)</u>
Expected Net OPEB Obligation End of Year	\$	<u><u>304,342</u></u>

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 10 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)**

The College's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for fiscal years 2009 through 2014 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2009	\$135,045	0%	\$135,045
June 30, 2010	\$135,045	0%	\$270,090
June 30, 2011	\$ 53,233	98.8%	\$270,710
June 30, 2012	\$ 53,233	84.4%	\$279,021
June 30, 2013	\$ 53,714	78.8%	\$290,392
June 30, 2014	\$ 53,714	74.0%	\$304,342

Funded Status and Funding Progress- As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2013 through June 30, 2014, the actuarial accrued liability was \$613,198, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$613,198. The covered payroll (annual payroll of active employees covered by the plan) was \$13,678,061 and the ratio of the UAAL to covered payroll was 4.5%. As of June 30, 2014, there were no trust fund assets.

Actuarial Methods and Assumptions- Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the Projected Unit Credit Actuarial Cost Method was used. The actuarial assumptions include a 4.25% investment return. The projected annual medical trend (inflation) rate is 6%. The ultimate medical trend (inflation) rate is 5%. The medical trend rate is reduced 1% each year until reaching the 5% ultimate trend rate. An inflation rate of 3% is assumed for the purpose of this computation

Mortality rates are from the RP 2000 Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the Scale T-6 of the Actuary's Pension Handbook. The salary increase rate was assumed to be 3.0% per year. The UAAL is being amortized as a level dollar amount on an open basis over 30 years.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**Note 11 -- RISK MANAGEMENT**

The Community College has secured insurance purchased from commercial insurance carriers to provide coverage and protection in the following categories: general liability, automobile liability, group excess liability, linebacker, pollution liability, professional services, property and inland marine, workers compensation and employers' liability, and crime insurance. There have been no reductions in insurance coverage from prior years. Settled claims resulting from the risks have not exceeded commercial insurance coverage in any of the past three years.

**Note 12 -- NEW JOBS TRAINING PROGRAMS**

Hawkeye Community College administers the Iowa Industrial New Jobs Training Program (NJTP) in Merged Area VII in accordance with Chapter 260E of the Code of Iowa. NJTP's purpose is to provide tax-aided training or retraining for employees of industries which are new to or are expanding their operations within the State of Iowa. Certificates are sold by the Community College to fund approved projects and are to be retired by proceeds from anticipated jobs credits from withholding taxes, incremental property taxes, budgeted reserves and in the case of default, from standby property tax. The Community College is currently administering 130 projects receiving project funding or in the repayment stage.

Hawkeye Community College also administers the Iowa Small Business New Jobs Training Program (SBNJTP) in Merged Area VII in accordance with Chapter 260F of the Code of Iowa. SBNJTP's purpose is to provide tax-aided training or retraining for employees of small businesses which are new to or are expanding their operations within the State of Iowa. Approved small businesses receive loans from the Iowa Employment Training Fund, a State administered fund. The Community College received funding for 19 projects during fiscal year 2014.

**Note 13 -- PROSPECTIVE ACCOUNTING CHANGE**

The Governmental Accounting Standards Board has issued Statement No. 68 Accounting and Financial Reporting for Pensions – an Amendment of GASB No. 27. This statement will be implemented for the fiscal year ending June 30, 2015. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the government's proportionate share of the employee pension plan.

**Other Supplementary Information**

**HAWKEYE COMMUNITY COLLEGE**  
**NOTES TO OTHER SUPPLEMENTARY INFORMATION SCHEDULES**  
**JUNE 30, 2014**

Other supplementary information of the College is presented on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance, revenues and expenditures. The various fund groups and their designated purposes are as follows:

Current Funds -- The Current Funds are utilized to account for those economic resources that are expendable for the purpose of performing the primary and supporting missions of the Community College and consist of the following:

Unrestricted Fund -- The Educational and Support subgroup of the Unrestricted Fund accounts for the general operations of the Community College.

The Auxiliary Enterprises subgroup accounts for activities which are intended to provide non-instructional services for sales to students, staff and/or institutional departments, and which are supplemental to the educational and general objectives of the Community College.

Restricted Fund -- The Restricted Fund is used to account for resources that are available for the operation and support of the educational program but which are restricted as to their use by donors or outside agencies.

Plant Funds -- The Plant Funds are used to account for transactions relating to investment in the Community College properties, and consist of the following self-balancing subfunds:

Unexpended -- This account is used to account for the unexpended resources derived from various sources for the acquisition or construction of plant assets.

Retirement of Indebtedness -- This account is used to account for the accumulation of resources for principal and interest payments on plant indebtedness.

Investment in Plant -- This account is used to account for the excess of the carrying value of plant assets over the related liabilities.

Agency Funds -- The Agency Funds are used to account for assets held by the Community College in a custodial capacity or as an agent for others. Agency Funds' assets equal liabilities.

The Budgetary Comparison Schedule of Expenditures -- Budget to Actual provides a comparison of the budget to actual expenditures for those funds and/or levies required to be budgeted. Since the College uses the Business-Type Activities reporting, this budgetary comparison information is included as other supplementary information.

Schedules presented in other supplementary information are reported using the current financial resources measurement focus and the accrual basis of accounting with modifications for depreciation and other items included in the adjustments column. The schedule of revenues, expenditures and changes in fund balances is a schedule of financial activities related to the current reporting period. It does not purport to present the results of operations or net income or loss for the period as would a statement of income or a statement of revenues and expenses.

**HAWKEYE COMMUNITY COLLEGE**  
**NOTE TO OTHER SUPPLEMENTAL INFORMATION – BUDGETARY REPORTING**  
**JUNE 30, 2014**

While the College reports financial position, results of operation and changes in net position on the basis of generally accepted accounting principles (GAAP), the Board of Trustees annually prepares a budget designating the proposed expenditures for operation of the Community College on a budgetary basis that is accrual basis with the exception of capital outlay and debt service payments. Following required public notice and hearing, and in accordance with Chapter 260C of the Code of Iowa, the Board of Trustees certifies the approved budget to the appropriate county auditors and then submits the budget to the State Board of Education for approval. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Formal and legal budgetary control is based on total operating expenditures.

Budgets are not required to be adopted for the Auxiliary Enterprises subgroup, Scholarships and Grants Accounts, Workforce Act, Loan Funds, Endowment Funds and Agency Funds.

The major differences between the budget basis and GAAP are as follows:

	Total Funds
Total Actual Expenditures, Budgetary Basis	\$ 47,864,522
Items Not Required to be Budgeted:	
Auxiliary Enterprises	2,792,120
Scholarships and Grants Accounts	9,939,104
Workforce Act	2,078,145
Investment in Plant	304,183
Combining Adjustments	(12,864,599)
GAAP Basis	\$ 50,113,475

Expenses from the Statement of Revenues, Expenses, and Changes in Net Position:

Total Operating Expenses	\$ 49,412,062
Interest on Indebtedness	701,413
	\$ 50,113,475

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

**Note 1 -- BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Hawkeye Community College and is presented on the accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the general purpose financial statements.

**This page intentionally left blank**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Board of Trustees  
Hawkeye Community College  
Waterloo, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United State of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Hawkeye Community College, Waterloo, Iowa, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Hawkeye Community College's basic financial statements and have issued our report thereon dated December 23, 2014. Other auditors audited the financial statements of Hawkeye Community College Foundation, as described in our report on Hawkeye Community College's financial statements. The financial statements of Hawkeye Community College Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting or instances of reportable noncompliance associated with that portion of the entity.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Hawkeye Community College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hawkeye Community College's internal control. Accordingly, we do not express an opinion on the effectiveness of the Community College's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs, 2014-001, that we consider to a significant deficiency.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Hawkeye Community College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government Auditing Standards*.

## Hawkeye Community College's Response to Findings

Hawkeye Community College's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The College's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Hawkeye Community College during the course of our audit. Should you have any questions concerning any of the above matters, we would be pleased to discuss them with you at your convenience.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED  
BY OMB CIRCULAR A-133**

Board of Trustees  
Hawkeye Community College  
Waterloo, Iowa

**Report on Compliance for Each Major Federal Program**

We have audited Hawkeye Community College's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Hawkeye Community College's major federal programs for the year ended June 30, 2014. Hawkeye Community College's major federal programs are identified in Part I, Summary of Auditors' Results, of the accompanying Schedule of Findings and Questioned Costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of Hawkeye Community College's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hawkeye Community College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Hawkeye Community College's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Hawkeye Community College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as item 2014-006. Our opinion on each major federal program is not modified with respect to this matter.

Hawkeye Community College's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control over Compliance**

Management of Hawkeye Community College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above.

In planning and performing our audit of compliance, we considered Hawkeye Community College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to tests and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Hawkeye Community College's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct non-compliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as item 2014-002, 2014-003, 2014-004, and 2014-005 that we consider to be significant deficiencies.

Hawkeye Community College's responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The College's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2014**

**PART I – SUMMARY OF AUDITORS' RESULTS**

- (A) An unmodified opinion was issued on the financial statements.
- (B) A significant deficiency in internal control over financial reporting was disclosed by the audit of the financial statements.
- (C) The audit did not disclose any non-compliance which is material to the financial statements.
- (D) Significant deficiencies in internal control over major programs were disclosed by the audit of the financial statements.
- (E) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (F) The audit disclosed audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (G) Major programs were as follows:
  - Student Financial Aid Cluster:
    - CFDA Number 84.007 – Federal Supplemental Educational Opportunity Grant (FSEOG)
    - CFDA Number 84.033 – Federal Work-Study Program
    - CFDA Number 84.063 – Federal Pell Grant Program
    - CFDA Number 84.268 – Federal Direct Student Loans
  - WIA Investment Act Cluster (WIA):
    - CFDA Number 17.258 – WIA Adult Program
    - CFDA Number 17.259 – WIA Youth Program
    - CFDA Number 17.278 – WIA Dislocated Workers
  - Other Major Programs:
    - CFDA Number 94.016 – Senior Companion Program
    - CFDA Number 93.558 – Temporary Assistance for Needy Families
- (H) The dollar threshold used to distinguish between Type A and Type B was \$300,000.
- (I) Hawkeye Community College did not qualify as a low-risk auditee.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2014**

**PART II – FINDING RELATED TO THE GENERAL PURPOSE FINANCIAL STATEMENTS**

SIGNIFICANT DEFICIENCY:

2014-001 Financial Reporting – During the audit, we identified immaterial amounts of fixed assets, health insurance payable and prepaid expenses recorded or not properly recorded in the College's financial statements.

Recommendation – The College should continue to refine year-end closing processes that provide for reconciliation of certain account balances to ensure timely and accurate financial reporting. The College should also implement additional procedures to ensure all fixed assets, health insurance payable and prepaid expenses are properly identified, classified, and included in the College's financial statements.

Response – We will continue to improve closing processes and implement additional procedures to ensure the proper amounts are recorded in the financial statements in the future.

Conclusion - Response accepted.

INSTANCES OF NON-COMPLIANCE: No matters were reported.

**PART III – FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS**

SIGNIFICANT DEFICIENCIES:

**CFDA Number 94.016 – Senior Companion Program**

2014-002 Condition - During our review of internal control procedures over the Senior Companion Program, we identified two paychecks out of sixty where the amount paid to the senior companion did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the calculations on timesheets are being appropriately computed.

Response – We have reviewed and updated payroll procedures and will continue verification processes to assure payroll amounts paid agree with the approved timesheets.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2014**

**PART III – FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS (Continued)**

SIGNIFICANT DEFICIENCIES (continued):

**CFDA Number 17.258 – WIA Adult Program  
CFDA Number 17.259 – WIA Youth Program  
CFDA Number 17.278 – WIA Dislocated Workers  
CFDA Number 93.558 – Temporary Assistance for Needy Families**

2014-003 Expense Allocation - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified three paychecks out of forty where the amount of payroll expense allocated between the programs did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the expenses are properly allocated.

Response – We will modify procedures to include verification steps assuring payroll allocations agree with backup timesheets.

Conclusion – Response accepted.

**CFDA Number 17.258 – WIA Adult Program  
CFDA Number 17.259 – WIA Youth Program  
CFDA Number 17.278 – WIA Dislocated Workers  
CFDA Number 93.558 – Temporary Assistance for Needy Families**

2014-004 Expense Approval - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified two expenses out of forty that were missing proper approval.

Recommendation – The College should review procedures to ensure the expenses are properly approved.

Response – Existing procedures requiring appropriate approval of all expenses will be enforced.

Conclusion – Response accepted.

**CFDA Number 17.258 – WIA Adult Program  
CFDA Number 17.259 – WIA Youth Program  
CFDA Number 17.278 – WIA Dislocated Workers**

2014-005 Eligibility Approval - During our review of internal control procedures over the WIA Cluster, we identified seven applications out of forty that were missing proper approval.

Recommendation – The College should review procedures to ensure the applications are properly approved.

Response – We will modify procedures to ensure all applications are properly approved, including Team Lead review and initialization followed by review and final signature by the Director.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2014**

**PART III – FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS (Continued)**

INSTANCES OF NON-COMPLIANCE:

**CFDA Number 94.016 – Senior Companion Program**

2014-006 Earmarking Requirements - During our review of compliance requirements of the Senior Companion Program, we identified that earmarking requirements were not met for the current year. Compliance requirements require that an amount equal to 80% of the Federal share of the grant must be used for stipend and other direct benefits for Senior Companions.

Recommendation – The College should review grant monitoring procedures to ensure the earmarking requirements are being met in the future.

Response – The shortfall in meeting compliance requirements was due to a shortage of volunteers. To address this issue, we have increased recruiting efforts and targeted specific organizations likely to generate volunteers. Although the earmarking requirements weren't met in this first year, we expect the requirements to be met over the three year life of the Program.

Conclusion – Response accepted.

**PART IV – OTHER FINDINGS RELATED TO REQUIRED STATUTORY REPORTING**

- IV-A-14: Certified Budget – Expenditures for the year ended June 30, 2014, did not exceed the amounts budgeted.
- IV-B-14: Questionable Disbursements – No expenditures we believe did not meet the requirement of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- IV-C-14: Travel Expense – No expenditures of Hawkeye Community College money for travel expenses of spouses of College officials or employees were noted. No travel advances to College officials or employees were noted.
- IV-D-14: Business Transactions – No business transactions between the Community College and the Community College officials or employees greater than \$2,500 were noted.
- IV-E-14: Bond Coverage – Surety bond coverage of Community College officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-F-14: Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- IV-G-14: Publication – The Community College published a statement showing the receipt and disbursement of all funds, including the names of all persons, firms or corporations to which disbursements were made, as required by Section 260C.14(12) of the Code of Iowa.
- IV-H-14: Deposits and Investments – No instances of noncompliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the College's investment policy were noted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2014**

**PART IV – OTHER FINDINGS RELATED TO REQUIRED STATUTORY REPORTING (Continued)**

IV-I-14: Credit/Contact Hours – Eligible credit and contact hours reported to the Iowa Department of Education by the College were supported by detailed records maintained by the Community College, except for an overstatement of 10 credit hours, as shown below:

	Reported	Total per Supporting Documentation	Difference
Arts and Sciences: Credit Hours	71,269	71,259	(10)

Recommendation – The College should develop procedures to ensure the report submitted to the Iowa Department of Education is supported by detailed records.

Response – The College will continue to monitor credit/contact hours to ensure all reports submitted are supported by the College's detailed records.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF PRIOR YEAR FINDINGS  
JUNE 30, 2014**

**SIGNIFICANT DEFICIENCIES:**

III-A-13 Finding - During our review of internal control procedures over the Senior Companion Program, we identified one companion file out of eighteen that was missing the companion application for the program. We also identified one file out of eighteen that was missing the program director's approval of the companion application. We also found four files out of eighteen that lacked documentation of the required eligibility requirements.

Recommendation – The College should analyze review procedures regarding the companion files to ensure the required documentation is maintained. A checklist for each companion's file filled out by the reviewer would help ensure all documentation was gathered and is included in the file.

Current Status – No issues related to the approval of companion applications or documentation of eligibility requirements were found during the current year testing, procedures appear to have been implemented.

III-B-13 Finding - During our review of internal control procedures over the Senior Companion Program, we identified three paychecks out of forty where the amount paid to the senior companion did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the calculations on timesheets are being appropriately computed.

Current Status – This recommendation is still in process.

**INSTANCES OF NON-COMPLIANCE:**

III-C-13 Finding - During our review of compliance requirements over the Senior Companion Program, we identified four companion files out of eighteen that lacked necessary documentation to determine eligibility.

Recommendation – The College should analyze review procedures regarding the companion files to ensure the required documentation is maintained. A checklist for each companion's file filled out by the reviewer would help ensure all documentation was gathered and is included in the file.

Current Status – No issues related to the documentation of eligibility requirements were found during the current year testing, procedures appear to have been implemented.

**HAWKEYE COMMUNITY COLLEGE  
CORRECTIVE ACTION PLAN FOR FEDERAL AUDIT FINDINGS  
JUNE 30, 2014**

Corporation for National and Community Services, Department of Labor, or Department of Health and Human Services:

Hawkeye Community College, respectfully submits the following corrective action plan for the year ended June 30, 2014.

The audit was performed by Williams & Company, P.C., P.O. Box 908, Spencer, Iowa, for the fiscal year ended June 30, 2014.

The findings from the June 30, 2014 Schedule of Findings and Questioned Costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule. Part I of the schedule, Summary of Independent Auditor's Results, does include a finding and is not addressed.

The audit disclosed significant deficiencies as identified in Part III of the accompanying Schedule of Findings and Questioned Costs.

**SIGNIFICANT DEFICIENCIES:**

2014-002 Expense Recording – Senior Companion Program CFDA Number 94.016

Observation - During our review of internal control procedures over the Senior Companion Program, we identified two paychecks out of sixty where the amount paid to the senior companion did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the calculations on timesheets are being appropriately computed.

Response – We have reviewed and updated payroll procedures and will continue verification processes to assure payroll amounts paid agree with the approved timesheets.

Conclusion – Response accepted.

2014-003 Expense Allocation – WIA Adult Program CFDA Number 17.258; WIA Youth Program CFDA Number 17.259; WIA Dislocated Workers CFDA Number 17.278; Temporary Assistance for Needy Families CFDA Number 93.558

Observation – During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified three paychecks out of forty where the amount of payroll expense allocated between the programs did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the expenses are properly allocated.

Response – We will modify procedures to include verification steps assuring payroll allocations agree with backup timesheets.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE**  
**CORRECTIVE ACTION PLAN FOR FEDERAL AUDIT FINDINGS (Continued)**  
**JUNE 30, 2014**

SIGNIFICANT DEFICIENCIES (Continued):

2014-004 Expense Approval – WIA Adult Program CFDA Number 17.258; WIA Youth Program CFDA Number 17.259; WIA Dislocated Workers CFDA Number 17.278; Temporary Assistance for Needy Families CFDA Number 93.558

Observation - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified two expenses out of forty that were missing proper approval.

Recommendation – The College should review procedures to ensure the expenses are properly approved.

Response – Existing procedures requiring appropriate approval of all expenses will be enforced.

Conclusion – Response accepted.

2014-005 Expense Approval – WIA Adult Program CFDA Number 17.258; WIA Youth Program CFDA Number 17.259; WIA Dislocated Workers CFDA Number 17.278

Observation - During our review of internal control procedures over the WIA Cluster, we identified seven applications out of forty that were missing proper approval.

Recommendation – The College should review procedures to ensure the applications are properly approved.

Response – We will modify procedures to ensure all applications are properly approved, including Team Lead review and initialization followed by review and final signature by the Director.

Conclusion – Response accepted.

INSTANCES OF NON-COMPLIANCE:

**CFDA Number 94.016 – Senior Companion Program**

2014-006 Earmarking Requirements – Senior Companion Program CFDA Number 94.016

Observation - During our review of compliance requirements of the Senior Companion Program, we identified that earmarking requirements were not met for the current year. Compliance requirements require that an amount equal to 80% of the Federal share of the grant must be used for stipend and other direct benefits for Senior Companions.

Recommendation – The College should review grant monitoring procedures to ensure the earmarking requirements are being met in the future.

Response – The shortfall in meeting compliance requirements was due to a shortage of volunteers. To address this issue, we have increased recruiting efforts and targeted specific organizations likely to generate volunteers. Although the earmarking requirements weren't met in this first year, we expect the requirements to be met over the three year life of the Program.

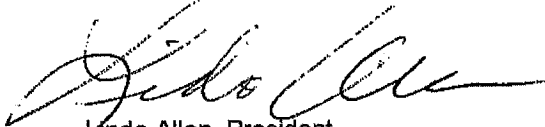

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE**  
**CORRECTIVE ACTION PLAN FOR FEDERAL AUDIT FINDINGS (Continued)**  
**JUNE 30, 2014**

If the Corporation for National and Community Services, Department of Labor, or Department of Health and Human Services has questions regarding this plan, please call Linda Allen at 319-296-4201.

Sincerely yours,

HAWKEYE COMMUNITY COLLEGE

Linda Allen, President

## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Hawkeye Community College  
Waterloo, Iowa

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Hawkeye Community College, Waterloo, Iowa, and its discretely presented component unit as of and for the year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents of this report.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Hawkeye Community College Foundation (a discretely presented component unit of the Community College discussed in Note 1), which statements reflect total assets of \$7,092,414 and total revenues of \$1,164,781 for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Hawkeye Community College Foundation, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Hawkeye Community College Foundation were not audited in accordance with *Government Auditing Standards*.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of Hawkeye Community College and its discretely presented component unit as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

203 North Grand Avenue      P.O. Box 908      Spencer, Iowa 51301-0908  
712-262-1500      -2 FAX 712-262-2920

## ***Emphasis of Matter***

As discussed in Note 14 to the financial statements, Hawkeye Community College adopted new accounting guidance related Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27*. Our opinion is not modified with respect to this matter.

## ***Other Matters***

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Funding Progress for the Retiree Health Plan, the Schedule of the College's Proportionate Share of the Net Pension Liability, the Schedule of College Contributions, and Notes to Required Supplementary Information – Net Pension Liability on pages 4 through 9 and 33 through 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Hawkeye Community College's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the eight years ended June 30, 2014 (which is not presented herein) and expressed unmodified opinions on those financial statements. We did not previously audit, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the year ended June 30, 2006. The other supplementary information included in Schedules 1 through 10, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, Schedule 11, is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

## ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2016, on our consideration of Hawkeye Community College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hawkeye Community College's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**FOR THE YEAR ENDED JUNE 30, 2015**

---

Management of Hawkeye Community College provides this Management's Discussion and Analysis of the College's annual financial statements. This narrative overview and analysis of the financial activities of Hawkeye Community College is for the fiscal year ended June 30, 2015. We are also discretely presenting financial information about the Hawkeye Community College Foundation (Foundation). We encourage readers to consider this information in conjunction with the College's financial statements, which follow.

**FINANCIAL HIGHLIGHTS**

- College operating revenues totaled \$32,393,362 for fiscal year 2015, and increased \$4,710,933, as compared to fiscal year 2014 operating revenues of \$27,682,429. The increase resulted primarily from an increase in federal appropriations and Iowa Industrial New Jobs Training Program (INJTP) revenue.
- College operating expenses totaled \$58,109,167 for fiscal year 2015 and increased \$8,697,105, as compared to fiscal year 2014 operating expenses of \$49,412,062. The increase resulted primarily from Vocational Technical expenditures related to Workforce Training & Economic Development (WTED) and Iowa's Information Technology, Healthcare, Utilities, and Manufacturing (IHUM) programs.
- The College's net position decreased 8.5%, or \$6,973,720, from the year ended June 30, 2014. The decrease was primarily due to the implementation of Governmental Accounting Standards Board (GASB) 68 whereby the College is now required to account for its Net Pension Liability as a proportional share of the unfunded Iowa Public Employee Retirement System (IPERS).

**USING THE ANNUAL REPORT**

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the College's financial activities.

The Basic Financial Statements consist of a statement of net position, a statement of revenues, expenses, and changes in net position and a statement of cash flows. These provide information about the activities of the College as a whole and present an overall view of the College's finances.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information presents a Schedule of Funding Progress for the Retiree Health Plan, Schedule of the College's Proportionate Share of the Net Pension Liability, and Schedule of College Contributions.

Other Supplementary Information provides detailed information about the individual funds. The Budgetary Comparison Schedule of Expenditures – Budget to Actual further explains and supports the financial statements with a comparison of the College's budget for the year. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the College.

## REPORTING THE COLLEGE'S FINANCIAL ACTIVITIES

### The Statement of Net Position

The statement of net position presents the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of the College as a whole, as of the end of the fiscal year June 30, 2015. The statement of net position is a point-in-time financial statement. The purpose of this statement is to present a fiscal snapshot of the College to the readers of the financial statements. The statement of net position includes year-end information concerning current and non-current assets, deferred outflows of resources, current and non-current liabilities, deferred inflows of resources, and net position. Over time, readers of the financial statements will be able to determine the College's financial position by analyzing the increases and decreases in net position. This statement is also a good source for readers to determine how much the College owes to outside vendors and creditors. The statement also presents the available assets that can be used to satisfy those liabilities.

	June 30, 2015	June 30, 2014 (not restated)
Current and Other Assets	\$ 56,063,042	\$ 59,626,331
Capital Assets, Net of Accumulated Depreciation	58,282,119	57,024,101
<b>Total Assets</b>	<b>114,345,161</b>	<b>116,650,432</b>
Deferred Outflows of Resources	1,385,410	-
Current Liabilities	11,932,257	12,066,936
Non-current Liabilities	18,135,686	14,113,705
<b>Total Liabilities</b>	<b>30,067,943</b>	<b>26,180,641</b>
Deferred Inflows of Resources	10,475,426	8,308,869
<b>Net Position:</b>		
Net Investment in Capital Assets	58,282,119	54,978,931
Restricted	11,616,293	12,078,289
Unrestricted	5,288,790	15,103,702
<b>Total Net Position</b>	<b>\$ 75,187,202</b>	<b>\$ 82,160,922</b>

### Comparison of Net position

A portion of the College's net position (77.5%) is invested in capital assets (e.g., land, buildings and equipment), less the related debt. The debt related to the invested in capital assets is liquidated with resources other than capital assets. The restricted portion of the net position (15.5%) includes resources that are subject to external restrictions. The remaining net position (7.0%) is the unrestricted net position that can be used to meet the College's obligations as they come due.

## Statement of Revenues, Expenses and Changes in Net Position

Changes in total net position as presented on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses and Changes in Net Position. The purpose of the statement is to present the revenues earned by the College, both operating and non-operating, and the expenses incurred by the College, operating and non-operating, and any other revenues, expenses, gains and losses received or spent by the College.

In general, a public college, such as Hawkeye Community College, will report an operating loss since the financial reporting model classifies state appropriations and property taxes as non-operating revenues. Operating revenues are received for providing goods and services to the various students, customers and constituencies of the College. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the College. Non-operating revenues are revenues received for which goods and services are not provided. The utilization of capital assets is reflected in the financial statements as depreciation, which allocates the cost of an asset over its expected useful life.

### Changes in Net Position

	Year Ended June 30, 2015	Year Ended June 30, 2014 (not restated)
Operating Revenues:		
Tuition and Fees	\$ 17,732,024	\$ 19,168,702
Less: Scholarship Allowances	<u>(8,214,705)</u>	<u>(8,717,248)</u>
Tuition and Fees, net of scholarship allowances	9,517,319	10,451,454
Federal Appropriations	13,559,712	12,217,312
Iowa Industrial New Jobs Training Program	3,813,684	1,194,342
Auxiliary Enterprises Revenue, net of scholarships	2,133,658	1,865,332
Gifts and Grants	95,959	63,744
Miscellaneous	<u>3,273,030</u>	<u>1,890,245</u>
Total Operating Revenues	32,393,362	27,682,429
Total Operating Expenses	<u>58,109,167</u>	<u>49,412,062</u>
Operating Loss	(25,715,805)	(21,729,633)
Non-Operating Revenues (Expenses)		
State Appropriations	17,099,053	16,097,835
Property Taxes	8,262,008	8,410,452
Interest Income from Investments	277,070	173,446
Gain (Loss) on Sale of Capital Assets	(176,488)	2,620
Interest on Indebtedness	<u>(514,188)</u>	<u>(701,413)</u>
Net Non-Operating Revenues	24,947,455	23,982,940
Increase (Decrease) in Net Position	(768,350)	2,253,307
Net Position Beginning of Year - Restated	75,955,552	79,907,615
Net Position End of Year	<u>\$ 75,187,202</u>	<u>\$ 82,160,922</u>

The fiscal year 2015 beginning net position was restated to implement GASB Statement No. 68. The restatement reduced beginning net position by \$6,205,370, from \$82,160,922 as of June 30, 2014, to \$75,955,552 as of July 1, 2014. More detailed information about the restatement is presented in Note 14 to the basic financial statements. Net position of the College decreased \$768,750 as a result of operations during fiscal year 2015.

In fiscal year 2015, the major fluctuations in revenues were a result of the following changes:

- Decrease in tuition and fees due to declining enrollment.
- Federal Appropriations increased due primarily to the new IHUM funding.
- INJTP revenues increased due to the timing of the projects and the variability of the revenue accounts. Overall revenue is influenced not only by the withholding diversion received from the companies, but also the amount of reimbursed expenses the companies experienced throughout the year.
- Miscellaneous revenue increased primarily due to reimbursements from the Operating Equipment Protection Insurance program.

### Operating Expenses

	Year Ended June 30, 2015	Year Ended June 30, 2014
<b>Education and Support:</b>		
Liberal Arts and Sciences	\$ 7,370,096	\$ 6,690,837
Vocational Technical	16,264,681	9,641,726
Adult Education	4,689,368	4,761,973
Cooperative Services	5,345,385	3,899,676
General Administration	1,953,527	2,265,799
Student Services	3,939,035	3,399,493
Learning Resources	1,143,181	878,858
Physical Plant	3,679,968	3,629,241
General Institution	6,887,909	8,047,467
Sub-total	<u>51,273,150</u>	<u>43,215,070</u>
Auxiliary Enterprises	2,784,313	2,659,540
Scholarships and Grants	1,107,943	901,150
Depreciation Expense	<u>2,943,761</u>	<u>2,636,302</u>
<b>Total</b>	<u><u>\$ 58,109,167</u></u>	<u><u>\$ 49,412,062</u></u>

In fiscal year 2015, the major fluctuations in operating expenses were a result of the following factors:

- Vocational Technical expenses increased due primarily to WTED and IHUM programs.
- Cooperative Services expenditures increased due to expanded use of INJTP training funds in the current year.

## Statement of Cash Flows

The statement of cash flows is an important tool in helping the users to assess the College's ability to generate future net cash flows, its ability to meet its obligations as they come due, and its need for external financing. The statement of cash flows presents information related to cash inflows and outflows, summarized by operating, non-capital financing, capital financing and investing activities.

### Cash Flows

	Year Ended June 30, 2015	Year Ended June 30, 2014
Cash and Cash Equivalents Provided (Used) by:		
Operating Activities	\$ (24,717,554)	\$ (15,932,927)
Non-Capital Financing Activities	25,361,061	24,508,287
Capital and Related Financing Activities	(6,900,400)	(6,815,744)
Investing Activities	9,726,624	(2,588,900)
Net Increase (Decrease) in Cash and Cash Equivalents	3,469,731	(829,284)
Cash and Cash Equivalents at Beginning of Year	1,831,641	2,660,925
Cash and Cash Equivalents at End of Year	\$ 5,301,372	\$ 1,831,641

Cash used by operating activities includes tuition, fees, grants and contracts, net of payments to employees and to suppliers. Cash provided by non-capital financing activities includes state appropriations and local property taxes received by the College. Cash used by capital and related financing activities represents the proceeds from debt, the principal and interest payments on debt and the purchase of capital assets. Cash provided by investing activities includes investment income earned.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

As of June 30, 2015, the College had \$58,282,119 invested in capital assets, which was net of accumulated depreciation of \$35,056,969. Depreciation expense totaled \$2,943,761 for fiscal year 2015. Details of the capital assets are shown below.

### Capital Assets, Net, at Year-End

	June 30, 2015	June 30, 2014
Land	\$ 379,179	\$ 379,179
Construction in Progress	2,599,570	1,410,824
Capital Assets Not Depreciated	2,978,749	1,790,003
Buildings	30,619,581	31,248,321
Other Structures and Improvements	18,985,556	18,526,374
Furniture and Equipment	5,698,233	5,459,403
Capital Assets, Net of Depreciation	55,303,370	55,234,098
Total Capital Assets	\$ 58,282,119	\$ 57,024,101

Major capital expenses for the fiscal year ended June 30, 2015 include: completion of upgrade of the HVAC and electrical systems in Buchanan Hall to improve technical training areas; network infrastructure upgrades; parking lot replacement; Child Development Center relocation and remodel; Black Hawk Hall excavation and waterproofing. More detailed information about the College's capital assets is presented in Note 5 to the basic financial statements.

## Long-Term Debt

As of June 30, 2015, the College had \$15,065,000 in debt outstanding, a decrease of \$3,750,000 from June 30, 2014. The table below summarizes these amounts by type.

### Outstanding Debt

	Year Ended June 30, 2015	Year Ended June 30, 2014
Certificate Payable	\$ 15,065,000	\$ 16,815,000
General Obligation Bonds	-	2,000,000
Total	<u>\$ 15,065,000</u>	<u>\$ 18,815,000</u>

More detailed information about the College's outstanding debt is presented in Note 6 to the basic financial statements.

## ECONOMIC FACTORS

Hawkeye Community College continues to take steps in anticipation of enrollment decreases experienced by most of Iowa's Community Colleges due to demographic and economic fluctuations. Cost cutting measures in the past few years have resulted in a financial situation for the College that will help position it to maintain fiscal sustainability during uncertain economic times ahead. Some challenges that are facing the College are:

- The regional area served by the College is experiencing a decline in high school age students. The College is exploring avenues to better serve, and market to, our non-traditional student client base.
- Salaries, wages and fringe benefits comprise approximately 75% of annual Educational and Support expenses. Providing competitive packages to attract and retain the best employees in an area of relatively low unemployment continues to be an issue facing the College.
- Facilities at the College require constant upkeep and maintenance at increasing costs. The addition of space through new construction and remodeling over the past several years has added an additional burden to maintenance costs. Hawkeye Community College has used a Plant Fund Levy, which expired in fiscal year 2015, to help fund the cost of upkeep and repair. In the fall of 2013, the College successfully sought taxpayer approval to extend the levy for an additional 10-year term. In addition, legislation was passed that will allow the levy to continue indefinitely, subject to a reverse referendum.
- The use of technology continues to expand with current equipment quickly becoming outdated. The College faces the challenge of maintaining and upgrading technology at a reasonable cost.
- The Iowa Board of Regents has recommended a change to the distribution formula for state aid to reward enrollment of Iowa students. This initiative will create an increased emphasis to draw Iowa students to the Regents Universities, which will in turn create an even higher level of competition with Iowa's Community Colleges.
- The amount of property taxes collected to fund the general operations of the College is capped at a 20.25 cent millage rate. This results in a contribution of approximately 5% of general operating fund resources. The original funding formula for Iowa's Community Colleges intended for local funding to contribute 33% with State General Aid (SGA) and tuition covering one-third each. While SGA contributes nearly 39%, the shortfall in local funding has shifted the burden to tuition and fees which now account for approximately 50% of the general operating fund.
- Hawkeye Community College has the 4<sup>th</sup> lowest mandatory tuition and fees rate per credit hour of the 15 Iowa Community Colleges and charges nearly \$7 less than the state average.

## CONTACTING THE COLLEGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our customers, taxpayers in the community college, and our creditors with a general overview of the College's finances and to demonstrate the College's accountability for the resources it receives. If you have questions about the report or need additional financial information, contact Hawkeye Community College, 1501 E. Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Hawkeye Community College is a publicly supported school established and operated by Merged Area VII under the provisions of Chapter 260C of the Code of Iowa. Hawkeye Community College may offer programs of adult and continuing education, lifelong learning, community education, and up to two years of liberal arts, pre-professional or occupational instruction partially fulfilling the requirements for a baccalaureate degree but confers no more than an associate degree. Hawkeye Community College may also offer up to two years of vocational or technical education, training or retraining to persons who are preparing to enter the labor market. Hawkeye Community College maintains seven sites throughout Waterloo, Cedar Falls, and Independence, Iowa, and has its administrative offices in Waterloo. Hawkeye Community College is governed by a Board of Trustees whose members are elected from each trustee district within Merged Area VII.

The College's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

**A. Reporting Entity**

For financial reporting purposes, Hawkeye Community College has included all funds, organizations, agencies, boards, commissions and authorities. Hawkeye Community College has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with Hawkeye Community College are such that exclusion would cause Hawkeye Community College's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the College to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on Hawkeye Community College.

These financial statements present Hawkeye Community College (the primary government) and its component unit. The component unit discussed below is included in Hawkeye Community College's reporting entity because of the significance of its operational or financial relationship with the Community College. Certain disclosures about the component unit have been audited separately and a report has been issued under a separate cover. The audited financial statements are available at the College.

**Discretely Presented Component Unit**

Hawkeye Community College Foundation is a non-profit corporation, whose purpose is to support the Community College through donations to provide scholarships to students, and for the enhancement and extension of facilities, equipment and services. The Foundation is governed by a Board of Trustees, two of which are appointed by the Board of Trustees of the Community College. The Foundation operates on a June 30 fiscal year end. The financial statements of Hawkeye Community College Foundation, Inc. can be obtained from: Business Services, Hawkeye Community College, 1501 E. Orange Road, P.O. Box 8015, Waterloo, IA 50704-8015.

**B. Basis of Presentation**

GASB Statement No. 35 establishes standards for external financial reporting for public colleges and universities and requires resources to be classified for accounting and reporting purposes into the following net position categories/components:

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Net Investment in Capital Assets: Capital assets, net of accumulated depreciation and outstanding debt obligations attributable to the acquisition, construction or improvement of those assets.

Restricted Net Position:

Nonexpendable – Net position subject to externally imposed stipulations that they be maintained permanently by the College, including the College's permanent endowment funds.

Expendable – Net position whose use by the College is subject to externally imposed stipulations that can be fulfilled by actions of the College, pursuant to those stipulations or that expire by the passage of time.

Unrestricted Net Position: Net position not subject to externally imposed situations. Resources may be designated for specific purposes by action of management or by the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is designated for academic and general programs of the College.

GASB Statement No. 35 requires the Statements of Net Position, Revenues, Expenses, and Changes in Net Position and Cash Flows be reported on a consolidated basis. These basic financial statements report information on all of the activities of the College. For the most part, the effect of interfund activity has been removed from these statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

For financial reporting purposes, Hawkeye Community College is considered a special-purpose government engaged only in business type activities as defined in GASB Statement No. 34. Accordingly, the basic financial statements of the College have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position**

The following accounting policies are followed in preparing the balance sheets:

Cash, Cash Equivalents and Pooled Investments -- Investments are stated at fair value.

For the purposes of the statement of cash flows, all short-term investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amount of cash, and at the day of purchase, they have a maturity date no longer than three months.

Due From Other Governments -- This represents state aid, grants and reimbursements due from the State of Iowa, and grants and reimbursements due from the Federal government.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Inventories -- Inventories are valued at lower of cost (first-in, first-out method) or market, except for the livestock and grain from the farm operations, which is valued at market value. Inventories consist of supplies and materials held for consumption, livestock and merchandise held for resale. The cost is recorded as an expenditure at the time individual inventory items are consumed or sold.

Property Tax Receivable – Property tax receivable is recognized on the levy or lien date, which is the date that the tax asking is certified by the Board of Trustees to the appropriate County Auditors. The succeeding year property tax receivable represents taxes certified by the Board of Trustees to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Trustees is required to submit to the state board by May 1 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred and will not be recognized as revenue until the year for which it is levied.

Receivable for Iowa Industrial New Jobs Training Program (NJTP) – This represents the amount to be remitted to the College for training projects entered into between the College and employers under the provisions of Chapter 260E of the Code of Iowa. The receivable amount is based on expenditures incurred through June 30, 2015 on NJTP projects, including interest incurred on NJTP certificates, less revenues received to date.

Capital Assets -- Capital assets, which include property, plant, equipment, and infrastructure assets (i.e., roads, curbs, gutters, sidewalks, and similar items which are immovable and of value only to the College), are reported at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. No interest costs were capitalized.

Capital assets are defined by the College as assets with initial, individual costs in excess of \$5,000 and estimated useful lives in excess of one year.

Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Other Structures and Improvements	25 - 50
Furniture and Equipment	3 - 10

The College does not capitalize or depreciate library books. The value of each book falls below the capital asset threshold and the balance was deemed immaterial to the financial statements.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Deferred Outflows of Resources – Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer after the measurement date but before the end of the employer's reporting period.

Salaries and Benefits Payable -- Payroll and related expenses for instructors with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Unearned Revenue – When assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue. Unearned revenue consists of tuition deposits, tuition and fees for a portion of summer classes, fees and registration for fall, unearned revenue on 260E projects, unearned revenue on federal and state funds.

Compensated Absences – College employees accumulate a limited amount of earned but unused vacation hours for subsequent use or for payment upon termination, death or retirement. Amounts representing the cost of compensated absences plus related benefits are recorded as liabilities. These liabilities have been computed based on rates of pay in effect at June 30, 2015.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources related to pensions, deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS), and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Inflows of Resources – Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable which will not be recognized as revenue until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

Auxiliary Enterprise Revenues – Auxiliary enterprise revenues primarily represent revenues generated by career education, adult education, farm operations, and food service.

Summer Session – The Community College operates summer sessions during May, June, and July. Revenues and expenses for the summer sessions are recorded in the appropriate fiscal year. Tuition and fees are allocated based on the summer session class schedule.

Tuition and Fees – Tuition and fees revenues are reported net of scholarship allowances, while stipends and other payments made directly to students are presented as scholarship expenses.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Operating and Non-operating Activities – Operating activities, as reported in the Statement of Revenues, Expenses and Changes in Net Position, are transactions that result from exchange transactions, such as payments received for providing services and payments made for services or goods received. Non-operating activities include state appropriations, property tax, and interest income.

**E. Scholarship Allowances and Student Aid**

Financial aid to students is reported in the financial statements under the alternative method, as prescribed by the National Association of College and University Business Officer (NACUBO). Certain aid (loans and funds provided to students as awarded by third parties) is accounted for as third party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a total College basis by allocating the cash payments to students, excluding payments for services, on the ratio of all aid to the aid not considered to be third party aid.

**Note 2 – CASH, CASH EQUIVALENTS, AND POOLED INVESTMENTS**

The College's deposits in banks at June 30, 2015, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The Community College is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Trustees; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district. The College's investment policy additionally limits investments in commercial paper to obligations that mature within 270 days and that is rated within the two highest classifications, as established by at least one of the standard rating services, with no more than five percent at the time of purchase placed in the second highest classification. At the time of purchase not more than ten percent of the investment portfolio can be in these investments and no more than five percent of the investment portfolio can be invested in the securities of a single issuer.

Investments are stated at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 2 – CASH, CASH EQUIVALENTS, AND POOLED INVESTMENTS (Continued)**

At June 30, 2015, the Community College had the following investments:

Current Pooled Investments	\$ 24,489,212
Noncurrent Pooled Investments	10,714,997
	<u>\$ 35,204,209</u>

Investment Type	Fair Value	Investment Maturities (in years)	
		Less than 1	1 to 5
Money Market Mutual Fund	\$ 17,820,044	\$ 17,820,044	\$ -
Certificates of Deposit	1,384,077	663,098	720,979
U.S Government Securities	16,000,088	6,006,070	9,994,018
	<u>\$ 35,204,209</u>	<u>\$ 24,489,212</u>	<u>\$ 10,714,997</u>

Interest rate risk - The Community College's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the Community College.

Credit risk - The Community College's investments in Money Market Mutual Funds are unrated.

Concentration of credit risk - The College's investment policy seeks to provide safety of the principal, maintain the necessary liquidity to match expected liabilities, and obtain a reasonable rate of return. The policy allows for investments of up to 100% in interest bearing savings, money market and checking accounts, certificates of deposits, repurchase agreements, money market mutual funds, bonds, notes, certificates of indebtedness, treasury bills or other securities issued by the United States of America, its agencies and allowable instrumentalities; up to 10% in prime bankers' acceptances; and up to 10% in commercial paper. The policy does not allow the College to invest in futures, options or reverse purchase agreements.

**Component Unit Investments.** Investments are managed by the Foundation and external managers, in accordance with Board policy, and are stated at fair value. Fair value of the investments has been determined as of June 30. Values have not been adjusted for market fluctuations subsequent to June 30. Accounting principles generally accepted in the United States of America require adjustment of year end values only when the value has been permanently impaired. Management does not feel market fluctuations after year end have caused permanent impairment to its investment portfolio. A summary of the securities held at June 30, 2015 follows:

	<u>Fair Value</u>
Common Stocks	\$ 2,227,532
Corporate Bonds	294,493
U.S. Government Agency Bonds	726,413
Mutual Funds - Equity	891,451
Mutual Funds - Foreign	609,323
Mutual Fund	<u>1,555,599</u>
	<u>\$ 6,304,811</u>

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 3 – LOANS RECEIVABLE (Component Unit)**

The Foundation, a component unit to the College, makes loans to students of the College to be used primarily for the cost of tuition and books. These loans generally become payable upon the student's completion of or withdrawal from higher education programs. HyPro, John Deere, and Tyson loans become forgivable upon the completion of the program and two or three years of employment with the respective companies.

Loans receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible or forgivable amounts through a charge to expense and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to loans receivable. Interest rates and terms vary by program. Below is a summary of loans receivable:

	2015
Loans Receivable	\$ 333,960
Less Allowance for Uncollectible Loans	(6,949)
Less Allowance for Forgivable Loans	(285,831)
Net Loans Receivable	\$ 41,180

**Note 4 -- INVENTORIES**

The Community College's inventories at June 30, 2015 are as follows:

Type	Amount
Supplies and Materials	\$ 31,213
Farm Operations	91,086
Merchandise Held for Resale	29,581
Total	\$ 151,880

**HAWKEYE COMMUNITY COLLEGE

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 6 -- LONG-TERM DEBT (Continued)**

Certificates Payable

In accordance with agreements dated between June 30, 1996 and June 30, 2015, the Community College issued certificates with a June 30, 2015 outstanding balance of \$15,065,000 with interest rates ranging from 0.40% to 5.35%. The debt was incurred to fund the development and training costs incurred relative to implementing Chapter 260E of the Code of Iowa, Iowa Industrial New Jobs Training Program (NJTP). NJTP's purpose is to provide tax-aided training for employees of industries which are new to or are expanding their operations within the State of Iowa. Interest is payable semi-annually, while principal payments are due annually. The certificates are to be retired by proceeds from anticipated job credits from withholding taxes, incremental property tax, budgeted reserves, and, in the case of default, from standby property taxes. During 2015, Hawkeye Community College recorded \$468,355 of interest expense from the certificates payable.

The certificates will mature as follows:

Year Ending June 30,	Principal	Interest	Total
2016	\$ 3,170,000	\$ 414,108	\$ 3,584,108
2017	2,865,000	341,073	3,206,073
2018	2,455,000	269,105	2,724,105
2019	2,075,000	194,148	2,269,148
2020	1,305,000	118,580	1,423,580
2021-2025	<u>3,195,000</u>	<u>191,110</u>	<u>3,386,110</u>
Total	<u>\$ 15,065,000</u>	<u>\$ 1,528,124</u>	<u>\$ 16,593,124</u>

Bonds Payable

On April 19, 2011, Hawkeye Community College issued \$5,550,000 in general obligation school bonds, to finance the improvement of its Main Campus and construct, remodel, erect and equip buildings thereon, and construct, lease, or acquire and improve and equip new or existing facilities. Annual principal payments began June 1, 2012. Interest payments are due semi-annually each June and December. The capital loan notes matured in June 2015. The balance of the general obligation school bonds at June 30, 2015, was \$0.

**Note 7 -- OPERATING LEASES**

The College has leased various facilities within the area to house different divisions of the College. These leases have been classified as operating leases and, accordingly, all rents are expensed as incurred. The leases expire between 2015 and 2017 and require various minimum annual rentals. Certain leases are renewable for additional periods. Some of the leases also require the payment of normal maintenance and insurance on the properties. In most cases, management expects the leases will be renewed or replaced by other leases.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 7 -- OPERATING LEASES (Continued)**

The following is a schedule by year of future minimum rental payments required under operating leases which have initial or remaining non-cancelable lease terms in excess of one year as of June 30, 2015:

Year Ending June 30,	Amount
2016	\$ 42,268
2017	14,574
Total	<u>\$ 56,842</u>

Rents for the year ended June 30, 2015 for all operating leases, except those with terms of a month or less, totaled \$295,206.

**Note 8 -- IOWA PUBLIC EMPLOYEES RETIREMENT SYSTEM (IPERS)**

Plan Description – The Community College contributes to the Iowa Public Employees Retirement System (IPERS). IPERS membership is mandatory for employees of the College except for those covered by another retirement system. Employees of the College are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by IPERS. IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at [www.ipers.org](http://www.ipers.org).

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, anytime after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits.) Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before age 65.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 8 -- IOWA PUBLIC EMPLOYEES RETIREMENT SYSTEM (IPERS) (Continued)**

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Effective July 1, 2012, as a result of a 2010 law change, the contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal years 2015 and 2014, pursuant to the required rate, Regular members contributed 5.95 percent of pay and the Community College contributed 8.93 percent for a total rate of 14.88 percent.

The Community College's contributions to IPERS for the year ended June 30, 2015 were \$897,638.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2015, the Community College reported a liability of \$5,159,327 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Community College's proportion of the net pension liability was based on the Community College's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2014, the Community College's collective proportion was 0.127483 percent, which was a decrease of 0.00446 percent from its proportion measured as of June 30, 2013.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 8 -- IOWA PUBLIC EMPLOYEES RETIREMENT SYSTEM (IPERS) (Continued)**

For the year ended June 30, 2015, the Community College recognized pension expense of \$433,804. At June 30, 2015, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 56,072	\$ -
Changes of assumptions	227,693	-
Net difference between projected and actual earnings on pension plan investments	-	1,967,619
Changes in proportion and differences between Community College contributions and proportionate share of contributions	204,007	-
Community College contributions subsequent to the measurement date	<u>897,638</u>	<u>-</u>
Total	<u>\$ 1,385,410</u>	<u>\$ 1,967,619</u>

\$897,638 reported as deferred outflows of resources related to pensions resulting from the Community College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2016	\$ (377,939)
2017	(377,939)
2018	(377,939)
2019	(377,939)
2020	31,910
	<u>\$ (1,479,846)</u>

There are no non-employer contributing entities at IPERS.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 8 -- IOWA PUBLIC EMPLOYEES RETIREMENT SYSTEM (IPERS) (Continued)**

Actuarial Assumptions – The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of Inflation (effective June 30, 2014)	3.00% per annum
Rates of salary increase (effective June 30, 2010)	4.00% to 17.00%, average, including inflation. Rates vary by membership
Long-term investment rate of return (effective June 30, 1996)	7.50%, compounded annually, net of investment expense, including inflation

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equity	23%	6.31
Non US Equity	15	6.76
Private Equity	13	11.34
Real Estate	8	3.52
Core Plus Fixed Income	28	2.06
Credit Opportunities	5	3.67
TIPS	5	1.92
Other Real Assets	2	6.27
Cash	1	(0.69)
Total	<u>100%</u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the College will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 8 -- IOWA PUBLIC EMPLOYEES RETIREMENT SYSTEM (IPERS) (Continued)**

Sensitivity of the Community College's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the College's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the College's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentagepoint higher (8.5 percent) than the current rate.

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
College's proportionate share of the net pension liability	\$ 9,748,403	\$ 5,159,327	\$ 1,285,671

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at [www.ipers.org](http://www.ipers.org).

Payables to the Pension Plan – At June 30, 2015, the College reported payables to the defined benefit pension plan of \$87,698, for legally required employer contributions.

**Note 9 -- TEACHERS INSURANCE AND ANNUITY ASSOCIATION -- COLLEGE RETIREMENT EQUITIES FUND (TIAA-CREF)**

The Community College contributes to the TIAA-CREF retirement program, which is a defined contribution plan. TIAA administers the retirement plan for Hawkeye Community College. The defined contribution retirement plan provides individual annuities for each plan participant. As required by the Code of Iowa, all eligible College employees must participate in a retirement plan from the date they are employed.

Benefit terms, including contribution requirements, for TIAA-CREF are established and specified by the contract with TIAA-CREF, and in accordance with the Code of Iowa. For each employee in the pension plan, the College is required to contribute 8.93 percent of annual salary, including overtime pay, to an individual employee account. Each employee is required to contribute 5.95 percent. Contributions made by both employer and employee vest immediately. For the years ended June 30, 2015, employee contributions totaled \$681,599 and the College recognized pension expense of \$1,022,668.

At June 30, 2015, the College reported payables to the defined contribution pension plan of \$99,913, for legally required employer contributions.

**Note 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

Plan Description- The College operates a single-employer retiree benefit plan which provides medical/prescription drug benefits for retirees and their spouses. There are 272 active and 13 retired members in the plan. The plan does not issue a publicly available financial report.

The medical/prescription drug coverage is provided through a fully-insured plan. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy- The contribution requirements of plan members are established and may be amended by the College. The College currently finances the retiree benefit plan on a pay-as-you-go basis.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 10 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)**

Annual OPEB Cost and Net OPEB Obligation – The College's annual OPEB cost is calculated based on the annual required contribution (ARC) of the College, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the College's annual OPEB cost for the year ended June 30, 2015, the amount actually contributed to the plan and changes in the College's net OPEB obligation:

Annual Required Contribution	\$ 49,620
Interest on Net OPEB Obligation	12,935
Adjustment to Annual Required Contribution	<u>(18,138)</u>
Annual OPEB Cost	44,417
Net OPEB Obligation Beginning of Year	304,342
Annual OPEB Cost	44,417
Employer Contributions Made	<u>(50,051)</u>
Expected Net OPEB Obligation End of Year	<u>\$ 298,708</u>

The College's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for fiscal years 2009 through 2015 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2009	\$135,045	0%	\$135,045
June 30, 2010	\$135,045	0%	\$270,090
June 30, 2011	\$ 53,233	98.8%	\$270,710
June 30, 2012	\$ 53,233	84.4%	\$279,021
June 30, 2013	\$ 53,714	78.8%	\$290,392
June 30, 2014	\$ 53,714	74.0%	\$304,342
June 30, 2015	\$ 44,417	112.7%	\$298,708

Funded Status and Funding Progress- As of July 1, 2014, the most recent actuarial valuation date for the period July 1, 2014 through June 30, 2015, the actuarial accrued liability was \$438,328, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$438,328. The covered payroll (annual payroll of active employees covered by the plan) was \$16,704,697 and the ratio of the UAAL to covered payroll was 2.6%. As of June 30, 2015, there were no trust fund assets.

Actuarial Methods and Assumptions- Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 10 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)**

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2014 actuarial valuation date, the Projected Unit Credit Actuarial Cost Method was used. The actuarial assumptions include a 4.25% investment return. The projected annual medical trend (inflation) rate is 5% for all years. An inflation rate of 3% is assumed for the purpose of this computation

Mortality rates are from the RP 2014 Mortality Tables with Scale MP-2014, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the Scale T-6 of the Actuary's Pension Handbook. The salary increase rate was assumed to be 3.0% per year. The UAAL is being amortized as a level dollar amount on an open basis over 30 years.

**Note 11 -- RISK MANAGEMENT**

The Community College has secured insurance purchased from commercial insurance carriers to provide coverage and protection in the following categories: general liability, automobile liability, group excess liability, linebacker, pollution liability, professional services, property and inland marine, workers compensation and employers' liability, and crime insurance. There have been no reductions in insurance coverage from prior years. Settled claims resulting from the risks have not exceeded commercial insurance coverage in any of the past three years.

**Note 12 -- NEW JOBS TRAINING PROGRAMS**

Hawkeye Community College administers the Iowa Industrial New Jobs Training Program (NJTP) in Merged Area VII in accordance with Chapter 260E of the Code of Iowa. NJTP's purpose is to provide tax-aided training or retraining for employees of industries which are new to or are expanding their operations within the State of Iowa. Certificates are sold by the Community College to fund approved projects and are to be retired by proceeds from anticipated jobs credits from withholding taxes, incremental property taxes, budgeted reserves and in the case of default, from standby property tax. The Community College is currently administering 105 projects receiving project funding or in the repayment stage.

Hawkeye Community College also administers the Iowa Small Business New Jobs Training Program (SBNJTP) in Merged Area VII in accordance with Chapter 260F of the Code of Iowa. SBNJTP's purpose is to provide tax-aided training or retraining for employees of small businesses which are new to or are expanding their operations within the State of Iowa. Approved small businesses receive loans from the Iowa Employment Training Fund, a State administered fund. The Community College received funding for 15 projects during fiscal year 2015.

**HAWKEYE COMMUNITY COLLEGE  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2015**

**Note 13 – EARLY RETIREMENT PROGRAM**

During fiscal year 2015, a Voluntary Early Retirement Plan was offered. All full-time staff that were 55 years of age by the end of the contract year and who had at least 10 years of full-time service with the Community College were eligible for early retirement remuneration. Early retirement was effective at the end of the employee's contract year, unless otherwise negotiated between the College and the employee. The benefits were equal to the College making a cash payment of \$52,404, the equivalent to six years of health insurance coverage at the College's current least expensive single health insurance premium with five percent compounded inflation, plus two percent of the contract year salary at the time of retirement election for each complete year based on the employee's full-time employment anniversary date. Payments will be made on the following schedule: the first payment, equal to 30% of the total, paid on the second pay period of the month following the date of retirement; the second payment, equal to the remaining 70% of the total, paid on the second pay period in January of the following calendar year. Eligible employees retiring before reaching 65 year of age are entitled to continue their participation in the College's health insurance program, at their own expense, until they reach 65 years of age.

At June 30, 2015, there were 12 participants expecting to receive payments under this plan, with a total liability of payments of \$1,030,285. The liability is calculated based on unadjusted premium amounts to be paid over the term of each employee's involvement in the plan. The Community College's early retirement expense for the year ended June 30, 2015 was \$1,034,640.

**Note 14-- PRIOR YEAR ADJUSTMENT**

*Accounting Change / Restatement:*

Governmental Accounting Standards Board Statement No. 68 Accounting and Financial Reporting for Pensions – an Amendment of GASB No. 27 was implemented during the fiscal year 2015. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, GASB No. 68 requires a state or local government employer to recognize a net pension liability and changes in the net pension liability, deferred outflows of resources and deferred inflows of resources which arise from other types of events related to pensions. During the transition year, as permitted, beginning balances for deferred outflows of resources and deferred inflows of resources will not be reported, except for deferred outflows of resources related to contributions made after the measurement date of the beginning net pension liability which is required to be reported by Governmental Accounting Standards Board Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. Beginning net position was restated to retroactively report the beginning net pension liability and deferred outflows of resources related to contributions made after the measurement date.

These changes have the following affects on beginning net position:

Beginning Net Position, as Previously Stated	\$ 82,160,922
Prior Period Adjustment - Beginning Deferred Outflows of Resources	760,181
Prior Period Adjustment - Beginning Net Pension Liability	<u>(6,965,551)</u>
Beginning Net Position, Restated	<u><u>\$ 75,955,552</u></u>

**HAWKEYE COMMUNITY COLLEGE**  
**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – NET PENSION LIABILITY**  
**JUNE 30, 2015**

**CHANGES OF BENEFIT TERMS:**

Legislation passed in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3 percent per year measured from the member's first unreduced retirement age to a 6 percent reduction for each year of retirement before age 65.

In 2008, legislative action transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Benefit provisions for sheriffs and deputies were changed in the 2004 legislative session. The eligibility for unreduced retirement benefits was lowered from age 55 by one year each July 1 (beginning in 2004) until it reached age 50 on July 1, 2008. The years of service requirement remained at 22 or more. Their contribution rates were also changed to be shared 50-50 by the employee and employer, instead of the previous 40-60 split.

**CHANGES OF ASSUMPTIONS:**

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20 year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in the future years. It also included in the calculation of the UAL amortization payments the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate.

The 2006 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted salary increase assumptions to service based assumptions.
- Decreased the assumed interest rate credited on employee contributions from 4.25 percent to 4.00 percent.
- Lowered the inflation assumption from 3.50 percent to 3.25 percent.
- Lowered disability rates for sheriffs and deputies and protection occupation members.

## **Other Supplementary Information**

**HAWKEYE COMMUNITY COLLEGE**  
**NOTES TO OTHER SUPPLEMENTARY INFORMATION SCHEDULES**  
**JUNE 30, 2015**

Other supplementary information of the College is presented on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues and expenditures. The various fund groups and their designated purposes are as follows:

Current Funds – The Current Funds are utilized to account for those economic resources that are expendable for the purpose of performing the primary and supporting missions of the Community College and consist of the following:

Unrestricted Fund -- The Educational and Support subgroup of the Unrestricted Fund accounts for the general operations of the Community College.

The Auxiliary Enterprises subgroup accounts for activities which are intended to provide non-instructional services for sales to students, staff and/or institutional departments, and which are supplemental to the educational and general objectives of the Community College.

Restricted Fund -- The Restricted Fund is used to account for resources that are available for the operation and support of the educational program but which are restricted as to their use by donors or outside agencies.

Plant Funds -- The Plant Funds are used to account for transactions relating to investment in the Community College properties, and consist of the following self-balancing subfunds:

Unexpended -- This account is used to account for the unexpended resources derived from various sources for the acquisition or construction of plant assets.

Retirement of Indebtedness -- This account is used to account for the accumulation of resources for principal and interest payments on plant indebtedness.

Investment in Plant -- This account is used to account for the excess of the carrying value of plant assets over the related liabilities.

Agency Funds -- The Agency Funds are used to account for assets held by the Community College in a custodial capacity or as an agent for others. Agency Funds' assets equal liabilities.

The Budgetary Comparison Schedule of Expenditures – Budget to Actual provides a comparison of the budget to actual expenditures for those funds and/or levies required to be budgeted. Since the College uses the Business-Type Activities reporting, this budgetary comparison information is included as other supplementary information.

Schedules presented in other supplementary information are reported using the current financial resources measurement focus and the accrual basis of accounting with modifications for depreciation and other items included in the adjustments column. The schedule of revenues, expenditures and changes in fund balances is a schedule of financial activities related to the current reporting period. It does not purport to present the results of operations or net income or loss for the period as would a statement of income or a statement of revenues and expenses.

**HAWKEYE COMMUNITY COLLEGE  
NOTE TO OTHER SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING  
JUNE 30, 2015**

While the College reports financial position, results of operation and changes in net position on the basis of generally accepted accounting principles (GAAP), the Board of Trustees annually prepares a budget designating the proposed expenditures for operation of the Community College on a budgetary basis that is accrual basis with the exception of capital outlay and debt service payments. Following required public notice and hearing, and in accordance with Chapter 260C of the Code of Iowa, the Board of Trustees certifies the approved budget to the appropriate county auditors and then submits the budget to the State Board of Education for approval. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Formal and legal budgetary control is based on total operating expenditures.

Budgets are not required to be adopted for the Auxiliary Enterprises subgroup, Scholarships and Grants Accounts, Workforce Act, Loan Funds, Endowment Funds and Agency Funds.

The major differences between the budget basis and GAAP are as follows:

	Total Funds
Total Actual Expenditures, Budgetary Basis	\$ 56,568,869
Items Not Required to be Budgeted:	
Auxiliary Enterprises	2,799,975
Scholarships and Grants Accounts	9,518,719
Workforce Act	2,201,121
Investment in Plant - Asset Disposals	913,163
Combining Adjustments	(13,202,004)
GAAP Basis	\$ 58,799,843

Expenses from the Statement of Revenues, Expenses, and Changes in Net Position:

Total Operating Expenses	\$ 58,285,655
Interest on Indebtedness	514,188
	\$ 58,799,843

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

**Note 1 - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Hawkeye Community College and is presented on the accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the general purpose financial statements.

**Note 2 - SUBRECIPIENTS**

Of the federal expenditures presented in the Schedule, Hawkeye Community College provided federal awards to subrecipients as follows:

Program Name	CFDA Number	Amount Provided to Subrecipients
Trade Adjustment Assistance Community College and Career Training	17.282	\$ 1,823,452

**This page intentionally left blank**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Board of Trustees  
Hawkeye Community College  
Waterloo, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Hawkeye Community College, Waterloo, Iowa, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Hawkeye Community College's basic financial statements and have issued our report thereon dated January 15, 2016. Other auditors audited the financial statements of Hawkeye Community College Foundation, as described in our report on Hawkeye Community College's financial statements. The financial statements of Hawkeye Community College Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting or instances of reportable noncompliance associated with that portion of the entity.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Hawkeye Community College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hawkeye Community College's internal control. Accordingly, we do not express an opinion on the effectiveness of the Community College's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs, 2015-001, to be a material weakness.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Hawkeye Community College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government Auditing Standards*.

## Hawkeye Community College's Response to Findings

Hawkeye Community College's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The College's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Hawkeye Community College during the course of our audit. Should you have any questions concerning any of the above matters, we would be pleased to discuss them with you at your convenience.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Board of Trustees  
Hawkeye Community College  
Waterloo, Iowa

**Report on Compliance for Each Major Federal Program**

We have audited Hawkeye Community College's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Hawkeye Community College's major federal programs for the year ended June 30, 2015. Hawkeye Community College's major federal programs are identified in Part I, Summary of Auditors' Results, of the accompanying Schedule of Findings and Questioned Costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of Hawkeye Community College's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hawkeye Community College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Hawkeye Community College's compliance.

***Basis for Qualified Opinion on Senior Companion Program***

As described in the accompanying schedule of findings and questioned costs, Hawkeye Community College did not comply with requirements regarding CFDA 94.016 Senior Companion Program as described in finding number 2015-004 related to earmarking. Compliance with such requirements is necessary, in our opinion, for the College to comply with the requirements applicable to that program.

***Qualified Opinion on Senior Companion Program***

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, Hawkeye Community College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Senior Companion Program for the year ended June 30, 2015.

## **Unmodified Opinion on Each of the Other Major Federal Programs**

In our opinion, Hawkeye Community College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2015.

### **Other Matters**

Hawkeye Community College's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control over Compliance**

Management of Hawkeye Community College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above.

In planning and performing our audit of compliance, we considered Hawkeye Community College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to tests and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Hawkeye Community College's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct non-compliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as item 2015-002 and 2015-003 that we consider to be significant deficiencies.

Hawkeye Community College's responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The College's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2015**

**PART I – SUMMARY OF AUDITORS' RESULTS**

- (A) An unmodified opinion was issued on the financial statements.
- (B) A material weakness in internal control over financial reporting was disclosed by the audit of the financial statements.
- (C) The audit did not disclose any non-compliance which is material to the financial statements.
- (D) Significant deficiencies in internal control over major programs were disclosed by the audit of the financial statements.
- (E) The auditors' report on compliance for the major federal award programs expresses a qualified opinion regarding the Senior Companion Program and an unmodified opinion on all other major federal programs.
- (F) The audit disclosed audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (G) Major programs were as follows:
  - Student Financial Aid Cluster:
    - CFDA Number 84.007 – Federal Supplemental Educational Opportunity Grant (FSEOG)
    - CFDA Number 84.033 – Federal Work-Study Program
    - CFDA Number 84.063 – Federal Pell Grant Program
    - CFDA Number 84.268 – Federal Direct Student Loans
  - WIA Investment Act Cluster (WIA):
    - CFDA Number 17.258 – WIA Adult Program
    - CFDA Number 17.259 – WIA Youth Program
    - CFDA Number 17.278 – WIA Dislocated Workers
  - Other Major Programs:
    - CFDA Number 94.016 – Senior Companion Program
    - CFDA Number 93.558 – Temporary Assistance for Needy Families
    - CFDA Number 17.282 – Trade Adjustment Assistance Community College and Career Training
    - CFDA Number 84.048 – Vocational Education – Basic Grants to States
- (H) The dollar threshold used to distinguish between Type A and Type B was \$300,000.
- (I) Hawkeye Community College did not qualify as a low-risk auditee.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2015**

**PART II – FINDING RELATED TO THE GENERAL PURPOSE FINANCIAL STATEMENTS**

**MATERIAL WEAKNESS:**

2015-001 Criteria – The College is responsible for the accuracy of the financial statements.

Condition – During the audit, we identified material amounts of succeeding year property taxes and the related deferred inflows of resources, and immaterial amounts of receivables and fixed assets recorded or not properly recorded in the College's financial statements.

Effect – As a result of these misstatements, the financial statements were materially misstated related to succeeding year property taxes and the related deferred inflows of resources, and had the potential to be misstated related to the other areas identified above.

Recommendation – The College should implement procedures to ensure all the identified areas above are properly identified, classified, and included in the College's financial statements.

Response – We will continue to improve closing processes and implement additional procedures to ensure the proper amounts are recorded in the financial statements in the future.

Conclusion - Response accepted.

**INSTANCES OF NON-COMPLIANCE:** No matters were reported.

**PART III – FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS**

**SIGNIFICANT DEFICIENCIES:**

**CFDA Number 17.258 – WIA Adult Program**

**CFDA Number 17.259 – WIA Youth Program**

**CFDA Number 17.278 – WIA Dislocated Workers**

**CFDA Number 93.558 – Temporary Assistance for Needy Families**

2015-002 Criteria - The College is responsible for the accuracy of the allocation of expenses for the programs.

Condition - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified five items out of sixty where the amount of expense allocated between the programs did not have appropriate supporting documentation of the amounts allocated.

Potential Effect – Expenses are not properly allocated between programs.

Recommendation – The College should review allocation procedures and maintaining adequate supporting documentation to ensure the expenses are properly allocated.

Response – The College will take steps to properly identify and maintain supporting documentation for all allocation entries, including corrections.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2015**

**PART III – FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS (Continued)**

SIGNIFICANT DEFICIENCIES (continued):

**CFDA Number 17.282 – Trade Adjustment Assistance Community College and Career Training**

2015-003 Criteria - The College is responsible for maintaining proper controls over programs to provide for allowable grant expenses.

Condition - During our review of internal control procedures over the Iowa Advanced Manufacturing Program (TAACCCT grant), we identified one Pcard that was missing proper approval by College staff. This Pcard accounted for 13 of the 37 items selected for testing.

Potential Effect – Disallowed expenses could be allocated to the program.

Recommendation – The College should review procedures to ensure the expenses are properly approved.

Response – The College will review approval procedures and take steps to insure all appropriate approvals are obtained and documented.

Conclusion – Response accepted.

INSTANCES OF NON-COMPLIANCE:

**CFDA Number 94.016 – Senior Companion Program**

2015-004 Criteria – Compliance requirements require that an amount equal to 80% of the Federal share of the grant must be used for stipend and other direct benefits for Senior Companions.

Condition – During our review of compliance requirements of the Senior Companion Program, we identified that earmarking requirements were not met for the current year.

Questioned Cost – In the year under audit, the College incurred \$226,479 related to stipends and other direct benefits for Senior Companions. The Federal share of the grant is equal to \$329,569, and 80% of this amount equals \$263,655. The difference of \$37,176 was received and did not meet the requirement, thus resulting in a questioned cost.

Potential Effect – The portion of the funds received that did not meet the earmarking requirement could be disallowed.

Recommendation – The College should review grant monitoring procedures to ensure the earmarking requirements are being met in the future.

Response – The shortfall continues to be due to a shortage of volunteers. The new program manager has been researching new ways to market and recruit volunteers and is implementing findings. In addition, changes to the grant will be implemented in the next three year term that will allow the program to require a fewer number of volunteers to meet the financial requirements. Orientation and training will also be more readily available so that new volunteers can start service as soon as possible.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2015**

**PART IV – OTHER FINDINGS RELATED TO REQUIRED STATUTORY REPORTING**

- IV-A-15: Certified Budget – Expenditures for the year ended June 30, 2015, did not exceed the amounts budgeted.
- IV-B-15: Questionable Disbursements – No expenditures we believe did not meet the requirement of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.
- IV-C-15: Travel Expense – No expenditures of Hawkeye Community College money for travel expenses of spouses of College officials or employees were noted. No travel advances to College officials or employees were noted.
- IV-D-15: Business Transactions – Business transactions between the Community College and the Community College officials or employees are detailed as follows:

Business Connection	Description	Amount
Katrina Nagle, Adjunct Professor Spouse of Minority Owner of Nagle Signs	Signage and Lettering	\$ 7,644

In accordance with the Code of Iowa, the above transactions may represent a conflict of interest because the total received during the fiscal year is greater than \$2,500.

- IV-E-15: Bond Coverage – Surety bond coverage of Community College officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-F-15: Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- IV-G-15: Publication – The Community College published a statement showing the receipt and disbursement of all funds, including the names of all persons, firms or corporations to which disbursements were made, as required by Section 260C.14(12) of the Code of Iowa.
- IV-H-15: Deposits and Investments – No instances of noncompliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the College’s investment policy were noted.
- IV-I-15: Credit/Contact Hours – Eligible credit and contact hours reported to the Iowa Department of Education by the College were supported by detailed records maintained by the Community College, except for an overstatement of 12,193 credit hours, as shown below:

	Reported	Total per Supporting Documentation	Difference
Non Credit:			
Non-Credit - Eligible for Aid	389,014	376,821	(12,193)

Recommendation – The College should develop procedures to ensure the report submitted to the Iowa Department of Education is supported by detailed records.

Response – The College will continue to monitor credit/contact hours to ensure all reports submitted are supported by the College’s detailed records.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE  
SCHEDULE OF PRIOR YEAR FINDINGS  
JUNE 30, 2015**

**SIGNIFICANT DEFICIENCIES:**

2014-002 Finding - During our review of internal control procedures over the Senior Companion Program, we identified two paychecks out of sixty where the amount paid to the senior companion did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the calculations on timesheets are being appropriately computed.

Current Status – All payroll amounts paid agreed with the approved timesheets during the current year testing, procedures appear to have been implemented.

2014-003 Finding - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified three paychecks out of forty where the amount of payroll expense allocated between the programs did not agree with the approved timesheet.

Recommendation – The College should review payroll procedures to ensure the expenses are properly allocated.

Current Status – The recommendation is still in process.

2014-004 Finding - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified two expenses out of forty that were missing proper approval.

Recommendation – The College should review procedures to ensure the expenses are properly approved.

Current Status – All expenses were approved during the current year testing, procedures appear to have been implemented.

2014-005 Finding - During our review of internal control procedures over the WIA Cluster, we identified seven applications out of forty that were missing proper approval.

Recommendation – The College should review procedures to ensure the applications are properly approved.

Current Status – All applications had proper approval during the current year testing, procedures appear to have been implemented.

**INSTANCES OF NON-COMPLIANCE:**

2014-006 Finding - During our review of compliance requirements of the Senior Companion Program, we identified that earmarking requirements were not met for the current year. Compliance requirements require that an amount equal to 80% of the Federal share of the grant must be used for stipend and other direct benefits for Senior Companions.

Recommendation – The College should review grant monitoring procedures to ensure the earmarking requirements are being met in the future.

Current Status – The recommendation is still in process.

**HAWKEYE COMMUNITY COLLEGE  
CORRECTIVE ACTION PLAN FOR FEDERAL AUDIT FINDINGS  
JUNE 30, 2015**

Corporation for National and Community Services, Department of Labor, or Department of Health and Human Services:

Hawkeye Community College, respectfully submits the following corrective action plan for the year ended June 30, 2015.

The audit was performed by Williams & Company, P.C., P.O. Box 908, Spencer, Iowa, for the fiscal year ended June 30, 2015.

The findings from the June 30, 2015 Schedule of Findings and Questioned Costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule. Part I of the schedule, Summary of Independent Auditor's Results, does include a finding and is not addressed.

The audit disclosed significant deficiencies and an instance of non-compliance as identified in Part III of the accompanying Schedule of Findings and Questioned Costs.

**SIGNIFICANT DEFICIENCIES:**

2015-002 Expense Allocation – WIA Adult Program CFDA Number 17.258; WIA Youth Program CFDA Number 17.259; WIA Dislocated Workers CFDA Number 17.278; Temporary Assistance for Needy Families CFDA Number 93.558

Criteria - The College is responsible for the accuracy of the allocation of expenses for the programs.

Condition - During our review of internal control procedures over the WIA Cluster and Temporary Assistance for Needy Families Programs, we identified five items out of sixty where the amount of expense allocated between the programs did not have appropriate supporting documentation of the amounts allocated.

Potential Effect – Expenses are not properly allocated between programs.

Recommendation – The College should review allocation procedures and maintaining adequate supporting documentation to ensure the expenses are properly allocated.

Response – The College will take steps to properly identify and maintain supporting documentation for all allocation entries, including corrections.

Conclusion – Response accepted.

2015-003 Expense Approval – Trade Adjustment Assistance Community College and Career Training CFDA Number 17.282

Criteria - The College is responsible for maintaining proper controls over programs to provide for allowable grant expenses.

Condition - During our review of internal control procedures over the Iowa Advanced Manufacturing Program (TAACCCT grant), we identified one Pcard that was missing proper approval by College staff. This Pcard accounted for 13 of the 37 items selected for testing.

Potential Effect – Disallowed expenses could be allocated to the program.

Recommendation – The College should review procedures to ensure the expenses are properly approved.

Response – The College will review approval procedures and take steps to insure all appropriate approvals are obtained and documented.

Conclusion – Response accepted.

**HAWKEYE COMMUNITY COLLEGE**  
**CORRECTIVE ACTION PLAN FOR FEDERAL AUDIT FINDINGS (Continued)**  
**JUNE 30, 2015**

**INSTANCES OF NON-COMPLIANCE:**

**2015-004 Earmarking Requirements – Senior Companion Program CFDA Number 94.016**

**Criteria** – Compliance requirements require that an amount equal to 80% of the Federal share of the grant must be used for stipend and other direct benefits for Senior Companions.

**Condition** – During our review of compliance requirements of the Senior Companion Program, we identified that earmarking requirements were not met for the current year.

**Questioned Cost** – In the year under audit, the College incurred \$226,479 related to stipends and other direct benefits for Senior Companions. The Federal share of the grant is equal to \$329,569, and 80% of this amount equals \$263,655. The difference of \$37,176 was received and did not meet the requirement, thus resulting in a questioned cost.

**Potential Effect** – The portion of the funds received that did not meet the earmarking requirement could be disallowed.

**Recommendation** – The College should review grant monitoring procedures to ensure the earmarking requirements are being met in the future.

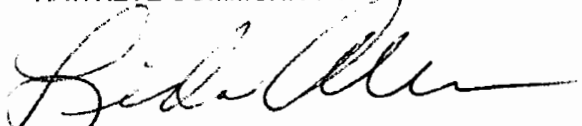

**Response** – The shortfall continues to be due to a shortage of volunteers. The new program manager has been researching new ways to market and recruit volunteers and is implementing findings. In addition, changes to the grant will be implemented in the next three year term that will allow the program to require a fewer number of volunteers to meet the financial requirements. Orientation and training will also be more readily available so that new volunteers can start service as soon as possible.

**Conclusion** – Response accepted.

If the Corporation for National and Community Services, Department of Labor, or Department of Health and Human Services has questions regarding this plan, please call Linda Allen at 319-296-4201.

Sincerely yours,

HAWKEYE COMMUNITY COLLEGE

Linda Allen, President
