

# Federal Compliance Filing by Institutions Form

## Federal Compliance Filing by Institutions

Effective September 1, 2016 – August 31, 2017

This document outlines the information institutions should provide in a separate federal compliance section of their Assurance Argument or Comprehensive Quality Review. Institutions should answer the questions below and provide supporting documentation where necessary. The information requested in this document should be uploaded in the Assurance System in a separate federal compliance document **before** the visit unless otherwise noted. The institution should refer to the *Federal Compliance Overview: Information for Institutions and Peer Reviewers* in completing this template. This guide identifies applicable HLC policies and provides an explanation of each requirement. Note that some federal requirements are related to the Criteria for Accreditation or Assumed Practices. This document identifies those related Criteria and Assumed Practices so that the institution may cross-reference any material it prepares to address them. The document also provides cross-references to the Code of Federal Regulations; while these cross-references will provide context for HLC's requirements, it is important that institutions write to HLC's requirements and not to the federal regulations cited.

Institution name: **HAWKEYE COMMUNITY COLLEGE**

Main contact in the financial aid office:

**Gisella Baker, [gisella.baker@hawkeyecollege.edu](mailto:gisella.baker@hawkeyecollege.edu) (319) 296-4465**

Number of staff members in the financial aid office: **8**

Identify when the last U.S. Department of Education training for the staff of the financial aid office occurred: **12/1/2015-12/4/2015**

---

### Assignment of Credits, Program Length and Tuition

1. Complete the [Worksheet for Institutions on the Assignment of Credit Hours and Clock Hours](#). Submit the worksheet and the attachments listed in it as **Appendix A**.
2. What is the length in semester or quarter hours or other applicable units of each of the institution's degree programs? Institutions offering programs at a single degree level may be able to identify a specific number of semester or quarter hours to which all their programs conform; institutions with programs at different degree levels may need to expand their answer, and if so should include a list in Part A, Section 1 of the *Worksheet for Institutions on the Assignment of Credit Hours and Clock Hours* (Appendix A).

**See Part A, Section 1 of the Worksheet for Institutions on the Assignment of Credit Hours and Clock Hours (Appendix A).**

3. Are there any differences in tuition for specific programs?

Yes

**No**

If so, please identify the programs and explain the rationale for the difference in tuition.

**Not applicable.**

For more information see Federal Requirements 34 CFR §602.16(a)(1)(viii), 34 CFR §602.24(f), 34 CFR §600.2, and 34 CFR §668.8(k) and (l).

---

## Institutional Records of Student Complaints

4. What is the institution's process for handling student complaints?

**Hawkeye Community College is committed to providing students a safe and supportive environment in which to learn. The College welcomes input from students about their experiences.**

**Student concerns are directed to academic deans or the dean of students and are usually resolved before the complaint rises to the level of a formal written complaint. The College uses both formal and informal processes to address student complaints. Students are encouraged to first meet with the individual with whom they have a dispute. For example, when a student has a complaint about an instructor, the student is encouraged to discuss their concern with the instructor and then, if the issue is not resolved, meet and discuss their concerns with the academic dean who supervises that instructor.**

**In many cases, the issue can be resolved through the process of talking with appropriate members of the campus.**

**When students feel that their complaints have not been adequately addressed, they have the option of filing a formal written complaint. This document is available online. Students are to write down the steps they have taken to resolve the issue, and then meet with the dean of students to review their concern and the steps they have taken for resolution. The dean of students will then work with the appropriate supervisor to reach a resolution.**

**Please note the College does provide processes for students to appeal final grades, file discrimination complaints, and appeal financial policies. These are separate processes from the formal complaint procedure.**

5. Provide the institution's complaint policy and procedure and the web address where the public can find this information:

**The complaint policy, procedure and form can be found at this site:**

**<https://www.hawkeyecollege.edu/webres/File/students/student-handbook/student-complaint-procedures-and-form.pdf>**

**Attached as Appendix B.**

6. Provide an aggregated report of the number and type of complaints received since the last comprehensive evaluation by HLC and explain their resolutions.

**Two formal written complaints have been filed with the dean of students since the last accreditation visit.**

**Attached as Appendix C.**

7. How does the institution integrate what it has learned from the complaint process into improvements in services or in teaching and learning?

**The College strives to resolve complaints and to address students' concerns as quickly as possible. Academic deans, the dean of students, and the heads of departments are usually readily available to listen to a student's concern and to attempt to resolve an issue before the complaint rises to the level of a formal written complaint.**

**Student issues brought before the deans are discussed in deans' meetings which include the Vice President for Academic Affairs.**

**In order to provide easier access to the complaint form, the complaint form is now available on the College's website.**

For more information see Federal Requirement 34 CFR §602.16(a)(1)(ix).

Related HLC Requirement: Assumed Practice A.4.

---

## Publication of Transfer Policies

8. Where are the institution's transfer policies published?

### **Publication of Transfer Policies**

**Information regarding policies on transfer credit to Hawkeye Community College can be found in our College Catalog (2016-2017). Website location:**

**<http://www.hawkeyecollege.edu/academics/college-catalog/default.aspx>**

**Transferring Credits to Hawkeye: <http://www.hawkeyecollege.edu/academics/records-registration/credits/default.aspx>**

Provide copies of the published transfer policies (such as those included in the institution's catalog, on the website or in other appropriate publications) **Attached as Appendix D.**

9. How does the institution disclose articulation agreements, at both the institutional level and the program level, to current and prospective students? (Ensure that the disclosures clearly identify whether the institution 1) accepts credits from the other institution(s) through the articulation agreement; 2) sends credits to the other institution(s) through the articulation agreement; 3) both offers and accepts credits with the institution(s) in the articulation agreement; and 4) what specific credits articulate through the agreement [e.g., general education only; pre-professional nursing courses only; etc.]?)

***The College website provides links to the three State regent universities and the HCC course transfer equivalencies/articulation information. In addition to the State universities, the College also includes private university links with respective articulation information. The landing page for all of these university links is:***

***<http://www.hawkeyecollege.edu/academics/transfer/information/default.aspx>***

Provide a list of articulation agreements as **Appendix E** and the web address where the public can access this list. Note that you do not need to provide the full articulation agreements, only the list of agreements that you make public.

***<http://www.hawkeyecollege.edu/academics/transfer/information/default.aspx>***

***<http://www.hawkeyecollege.edu/academics/transfer/articulation-agreements.aspx>***

10. What is the process implemented by the institution to align the disclosed transfer policies with the criteria and procedures used by the institution in making transfer decisions?

***The Registrar's Office audits all incoming transcripts and evaluates courses for purposes of awarding articulated credit based on defined Hawkeye Community College policy and procedures. The awarded transfer credit by Hawkeye Community College is based on the program of application for the student at the time of transcript evaluation. These credits are transferred to the official student record. A degree audit helps the student see where the awarded transfer-in credits are applied toward their overall program course requirements. If a student changes majors during their time at Hawkeye, the degree audit allows for re-evaluation and automatically applies the credit where applicable. This process helps to ensure the college awarding of transfer-in credit remains legitimate and communicated on an on-going basis to the student and all advising personnel.***

***Hawkeye Community College has been a leader in the Iowa Community College System in using technology for course articulation. The State utilizes a web-based curriculum approval and workflow system "[CurricUNET](#)" for all career and technical program information. Hawkeye Community College has been a veteran user of this system prior to the State adopted system, and has been actively interacting with designated regent university representatives. [Hawkeye's "CurricUNET"](#) system allows for these designated articulation representatives to log into HCC's site and provide course-to-course articulation information for all liberal arts courses. Hawkeye's innovation in creating this process has been noted as a best practice by the Iowa Department of Education and is already being adopted statewide for inclusion in the new deployment of the system scheduled for release fall 2017. A view of how this looks to Hawkeye staff and the Regent staff is shown on the following two pages:***

## Practices for Verification of Student Identity

11. Does the institution have students enrolled in distance or correspondence courses, as defined in federal definitions?

**Yes**

No

12. How does the institution verify the identity of students enrolled in these courses?

***Each Hawkeye student is issued a unique student ID number and username to be used with a student-generated password. The same secure username and password combination is used to login to myHawkeye (campus portal), Hawkeye email, Learning Management System (Canvas), and Hawkeye computers and network. Passwords must be alpha-numeric (have letters and numbers), be six or more characters, and cannot be one of the last two passwords used. Passwords expire every 120 days, and user accounts are temporarily locked after three failed login attempts. Only designated personnel are authorized to reset student passwords, and students are responsible for providing their complete and true identity information in any identification verification process.***

***All users are responsible for maintaining the security of usernames, passwords, and other access credentials as required. An account is given to an individual for the exclusive use by that individual. Attempting to discover another user's password or attempts to gain unauthorized access to another person's account is prohibited. Users are responsible for all activity on their accounts as defined by the student handbook, acceptable use policy, and Communication and Information Systems (CIS) policies and procedures.***

***Proctoring of exams in online courses is at the discretion of each instructor. Students taking an online course may be asked to take exams in the college's testing center or arrange an approved proctoring location at a distance at no additional cost to the student. High school concurrent enrollment students taking distance learning courses via video conference are proctored at their location when taking exams.***

13. Are there any additional costs (e.g., fees associated with test proctoring) charged directly to the student because of this method?

Yes

**No**

14. What are these additional costs?

**NONE**

15. How are the additional costs disclosed to students prior to enrollment in a distance or correspondence course?

**NOT APPLICABLE**

Provide copies of the disclosures and the web address where the public can access such information as **Appendix G-NOT APPLICABLE**

16. How does the method of verification make reasonable efforts to protect student privacy?

***Hawkeye Community College takes seriously its obligation to safeguard and preserve student academic records. The college employs many varied systems designed to ensure the safety, recoverability, and integrity of its data resources. Storage is accomplished with redundant systems separated geographically in a remote data center and local data center. Both of which have fire suppression, authorized access, climate control, and are monitored and tested to maintain integrity.***

***These storage systems are fed through our backup process which features encrypted VPN pathways for the transmission of backup data. Backups are accomplished using incremental and full backups on a schedule that ensures a full backup is always available and each day's incremental changes as well. Hawkeye complies with all FERPA regulations.***

For more information see Federal Requirement 34 CFR §602.17(g).

---

## Title IV Program Responsibilities

This requirement has several components the institution must address. The institution staff compiling this information should work with the financial aid office and the chief financial officer or comptroller. For more information see Federal Requirement 34 CFR §602.16(a)(1)(x).

### 17. General Program Responsibilities

- a. What is the current status of the institution's Title IV program (e.g., recertified on date x, provisionally certified on date x, etc.)?

**Re-certified through December 31<sup>st</sup>, 2016. New application will be submitted by September 30, 2016.**

- b. When was the institution's most recent Title IV program review?

**The College's next Program Participation Agreement is due by September 30, 2016. In reviewing internal College records, the last Title IV program review occurred prior to 1997.**

- c. Has the institution been audited or inspected by the Office of the Inspector General of the U.S. Department of Education since the last comprehensive evaluation by HLC?

Yes

**No**

- d. Attach the most recent Title IV program review, or other inspection or audit reports since the last comprehensive evaluation by HLC, as **Appendix H-NOT APPLICABLE**

**Not applicable. Last Title IV program review was prior to 1997 and last comprehensive evaluation by HLC was 2009.**

List any limitation, suspension or termination actions imposed on the institution by the U.S. Department of Education (hereafter referred to as "the Department") since the last comprehensive evaluation by HLC and the reason for such actions.

**Not applicable.**

- e. List any fines, letters of credit or heightened monitoring imposed on the institution by the Department since the last comprehensive evaluation by HLC and the reason for such actions.

**Not applicable.**

- f. What response and corrective actions has the institution taken in regard to these Department actions?

**Not applicable.**

- g. What are the consequences of these challenges for the institution's short- and long-term financial health?

**Not applicable.**

- h. What are the findings from the OMB Circular A-133 portion of the institution's three most recent audited financial statements, which identifies material weaknesses in the processing of financial aid?

**The institution's three most recent audited financial statements identified no material weaknesses in the processing of financial aid. The most recent report link is provided here:**

**[https://auditor.iowa.gov/sites/default/files/audit\\_reports/1531-0700-C00F.pdf](https://auditor.iowa.gov/sites/default/files/audit_reports/1531-0700-C00F.pdf)**

- i. In which of the following Title IV federal financial aid programs does the institution participate? Select all that apply:

- Pell Grant**
- Federal Family Education Loan
- Federal Direct Stafford Loan**
- Direct PLUS Loan**
- Federal Supplemental Educational Opportunity Grant**
- Federal Work Study**
- Perkins Loans
- Academic Competitiveness Grant

Provide all correspondence with the Department and other documents that explain the above responses as **Appendix I**.

For more information see Federal Requirement 34 CFR §668.16.

#### 18. Financial Responsibility Requirements

- a. What were the outcomes of the three most recent Department reviews of the institution's composite ratios and financial audits?  
**No findings were reported.**
- b. Have there been any fines, penalties, letters of credit or other requirements imposed by the Department as a result of these reviews?  
**No**

*Note:* HLC also annually analyzes each institution's financial ratios to determine whether there might be financial concerns. The peer review team checks with the institution and the HLC staff to determine whether HLC or the Department has previously raised concerns about the institution's finances based on these ratios.

- c. What actions has the institution taken or does it plan to take in response to any concerns raised by HLC or the Department? (*Related HLC Requirements: Core Components 5.A, 2.B; Assumed Practice D.1.*)  
**Not applicable.**

Provide all correspondence with the Department and other documents that explain the above actions as **Appendix J-Not applicable since there is no communication provided when "No Findings"**.

For more information see Federal Requirements 34 CFR 668.15, 34 CFR 668.23, 34 CFR 668.171, 34 CFR 668.173, and 34 CFR 668.174.

*Related HLC Requirements: Criterion 5, Core Components A (resources) and B (administrative capacity).*

19. Default Rates. The institution should take steps to avoid excessive loan default rates.

*Institutions and teams should use the three-year default rate to complete this section.*

- a. What are the student loan default rates as provided by the Department for the three years leading up to the visit? (Institutions with evaluations after September must include the most recent cohort default rate in the Federal Compliance Filing or ensure that the most recent rate is provided to the team on-site if the rate was not available when the Federal Compliance Filing was submitted.)

Year 1: **FY2012: 18%**

Year 2: **FY2011: 20.3%**

Year 3: **FY2010: 16.9%**

**At the time of filing, the College had received a DRAFT communication of the FY2013 figure. The DRAFT figure provided was 16%. The College anticipates receiving an official figure by October 2016 and will share that with the visiting team.**

- b. If the institution's default rates are higher than those of its peer institutions, if the institution's rates are rising, or if the rates have exceeded Departmental thresholds or triggered a Department review, what actions has the institution taken in response?

**The three-year cohort default rate for Hawkeye Community College has not exceeded Department thresholds or triggered a Department review. Hawkeye Community College's default rate has gone down by 2.3% from FY2011 to FY2012, and it is expected to decrease one more time (to 16%) according to the FY2013 draft CDR report. It remains one of the lowest in the state of Iowa, and below the national average for community colleges (19.1%). The following is a comparison table with our peer institutions:**

Iowa Community Colleges	*Enrollment	FY2010	FY2011	FY2012	FY2013
DMACC	23,526	23.10%	28.70%	25.80%	
Indian Hills	4,412	25.30%	29.70%	24.60%	
Ellsworth	949	21.90%	23.20%	23.60%	
Southeastern	2,987	26.00%	23.50%	22.40%	
Marshalltown	2,041	24.80%	28.70%	22.30%	
Iowa Central	5,686	21.60%	22.40%	22.20%	
Eastern Iowa	8,143	19%	21%	21.20%	
Iowa Western	6,547	23.60%	20.10%	21%	
Western Iowa Tech	6,399	22.70%	24.30%	20.50%	
North Iowa	2,950	20.80%	20.20%	20.30%	
Southwestern	1,600	20.80%	21.40%	20.20%	
Kirkwood	14,190	22.90%	24.60%	18.50%	
Northeast Iowa	4,934	18.80%	22.90%	18.30%	
Iowa Lakes	2,340	20.00%	21.50%	18%	
<b>Hawkeye Community C.</b>	<b>5,291</b>	<b>16.40%</b>	<b>20.30%</b>	<b>18%</b>	<b>Draft: 16%</b>
Northwest	1,562	12.00%	11.70%	10.20%	

**National CDRs**

FY2010: 14.7%

FY2011: 13.7%

FY2012: 11.8%

**National Community College CDRs**

FY2010: 20.9%

FY2011: 20.6%

FY2012: 19.1%

**Source:** \* IPEDS, 2014-15 college navigator

**The Financial Aid Office has been working on Default Prevention efforts for many years, and continues to explore and implement new initiatives:**

- **The Loan and Outreach Advisors' duties include heavy Outreach and Financial Literacy efforts. A continuous improvement approach is utilized to further explore best practices.**
- **Work-study students hired as Peer Assistants in our office assist with creating default initiatives from a student's perspective.**
- **Utilize a Mandatory Federal Entrance Loan Counseling session (as required by federal regulations), and an additional Mandatory In Person Exit Counseling for Graduates session.**
- **All of our loan borrowers are highly encouraged to do an online Loan Game Plan session, in conjunction with research about their existing loans and loan servicers as part of our Responsible Borrowing.**
- **Monthly Campus Building tours; Class Presentations to ALL College 101 and College Experience class sections each semester; participate in Campus Events like Health Fair, Fall Fest and Spring Splurge Days to engage with students to remind them of their responsibilities as loan borrowers, the effects of defaulting on them, and to further educate them in other financial literacy aspects of life in general.**
- **Actively participate with the Financial Literacy Student Club. Utilizing direct feedback of suggestions from last year's club members and club's academic advisor. The advisor will teach a Financial Class and as added incentive to their students, advisory challenges them to do additional research/attend out-of-classroom financial literacy opportunities.**
- **Effective September 2015, the College has partnered with Inceptia Services to take our default prevention outreach to the next level. This relatively new partnership will allow for better utilization of staff work time focused on current students and their needs. Recognizing the importance of staying connected with delinquent students is where Inceptia Services will provide more effective and efficient means of regular contact with these students on behalf of the college. The Financial Aid Outreach, and Loan Advisors along with the Director continue to monitor and work with Inceptia and students that are directed to the Financial Aid office for miscellaneous student inquiries.**

Provide any correspondence with the Department related to default rates and any default rate management plan required by the Department as **Appendix K-Not applicable.**

- c. Does the institution participate in private loan programs or any loan services that it provides to students directly or that a related corporation provides to its students?

**Yes**

**No**

If yes, provide a list of companies that provide loan services to the institution's students and explain the relationship of these companies to the institution.

**Hawkeye Community College Foundation**

Provide samples of the loan agreements and disclosure information as **Appendix L**

For more information, see Federal Requirements 34 CFR §668.201, §668.204, and §668.217.  
*Related HLC Requirements: HLC Criterion 2, Core Component A (integrity); Criterion 5, Core Components A (resources) and B (administrative capacity); Assumed Practices D.1–5.*

20. Campus Crime Information, Athletic Participation and Financial Aid, and Related Disclosures. Title IV responsibilities include the legal obligation to disclose information to students and to the public about campus crime, athletic participation and financial aid.

**Hawkeye Community College complies with the Federal Student Right-to-Know and Campus Security Act; Public Law No. 101-542 and House File 2028, through annual publication of its security report and fire safety procedures. This report contains policy statements, crime statistics, and the fire safety report for the institution. The policy statements address the institution's policies, procedures and programs concerning safety and security.**

**Hawkeye is committed to providing safety and security for all members of the College community. The Annual Security and Fire Safety Report contains information regarding campus security and personal safety, including topics such as crime prevention, fire safety, crime reporting policies, disciplinary procedures, and other matters related to campus safety and security.**

**Three years' worth of statistics are included for certain types of crimes that were reported to have occurred on campus, in or on off-campus buildings or property owned or controlled by the institution, and on public property within or immediately adjacent to the campus. The crime statistics in the report include arrest and referral statistics reported to designated College officials and law enforcement agencies. Crime offenses are classified and counted from the records of calls for service, complaints, and investigations, not the findings of a court, coroner, jury, or the decision of a prosecutor. Reported offenses may involve individuals not associated with the institution. The report also includes fire safety regulations and procedures for on-campus student housing at the farm.**

**The Annual Security and Fire Safety Report is made available on the College website. Students, staff, and faculty are notified annually of the publication. A paper copy can be requested from the Public Safety Office, located in the Hawkeye Center, 2<sup>nd</sup> floor.**

**The College website allows for quick--two-clicks--level access to the Student and Consumer Information page that includes various links to the required Financial Aid, Student Right-to-Know, and general Institutional Information links.**

**Regarding the College's status for Athletic participation, the US Department of Education information has not yet been produced for Hawkeye Community College since it reflects the prior year participation information. Hawkeye Community College was approved to offer intercollegiate athletic teams by the US Department of Education beginning Fall 2016. <http://www.redtailathletics.com/navbar-inside>**

- a. What administrator or office on campus is responsible for ensuring that these disclosures are regularly compiled and published and that the data are accurate?

***Gisella Baker-Director of Financial Aid***

***Resource Team: John Beckman-Director of Public Safety and Emergency Management;  
David Ball-Director of Admissions, Recruitment, and Student Life***

- b. Has the institution been the subject of any federal investigation related to any of the required disclosures listed in question 20?

Yes

**No**

- c. Does the institution have any findings from the Department regarding these disclosures?

Yes

**No**

Explain any findings related to any of the required disclosures listed in question 20 and corrective action plans the institution may have put together to remedy the findings.

***Not applicable.***

- d. Provide copies of the information disclosed to students and provide the web address where this information is made available to the public as **Appendix M.**

For more information see Federal Requirements 34 CFR §668.40, 668.41, 668.42, 668.43, 668.44, 668.46, and 668.49.

21. Student Right to Know/Equity in Athletics. Title IV responsibilities require that institutions provide to students and the public graduation/completion rates for the student body by gender, ethnicity, receipt of Pell grants and other data as well as information about the process for withdrawing as a student, cost of attendance, policies on refund and return of Title IV financial aid, current academic programs and faculty, names of applicable accrediting agencies, description of facilities for disabled students, and the institution's policy on enrollment in study abroad. In addition, certain institutions need to disclose their transfer-out rate. Also, institutions with athletic programs are required to disclose athletic participation rates and financial support data.

- a. What administrator or office on campus is responsible for ensuring that these disclosures are regularly compiled and published and that the data are accurate?

***Gisella Baker, Director of Financial Aid***

***Resource Team:***

- ***David Ball, Director of Admissions, Recruitment, Athletics and Student Life***
- ***John Beckman, Director of Public Safety and Emergency Management***
- ***Connie Buhr, Director of Institutional Research***
- ***Patricia East, Director of Records and Registration***
- ***Nancy Henderson, Dean of Students***

- b. Has the institution been the subject of any federal investigation related to any of the required disclosures listed in question 21?

Yes

**No**

- c. Does the institution have any findings from the Department regarding these disclosures?  
 Yes  
 **No**
- d. Explain any findings related to any of the required disclosures listed in question 21 and corrective action plans the institution may have put together to remedy the findings.  
**Not Applicable.**
- e. Attach copies of the information disclosed to students and provide the web address where this information is made available to the public as **Appendix N.**

For more information see Federal Requirements 34 CFR §668.41, 668.45, 668.48, and 668.8. *Related HLC Requirement: Assumed Practice A.6.*

22. Satisfactory Academic Progress and Attendance Policies. The institution is required to have a Satisfactory Academic Progress policy and an attendance policy as part of the Title IV program.

- a. Are these policies readily available to students?  
 **Yes**  
 No
- b. Do they satisfy state or federal requirements?  
 **Yes**  
 No
- c. Does the institution have any findings from the Department regarding these disclosures?  
 Yes  
 **No**

Explain any findings related to any of the required disclosures listed in question 22 and corrective actions that may have been required by the Department related to these findings.

**Not applicable**

- d. Attach copies of the information disclosed to students and provide the web address where this information is made available to the public as **Appendix O.**
- e. Are the policies being appropriately applied by the institution in individual student situations?

*Note:* HLC does not necessarily require that the institution take attendance unless required to do so by state or federal regulations but does anticipate that institutional attendance policies provide information to students about attendance at the institution.

- Yes**  
 No

For more information see Federal Requirement 34 CFR §668.34.

*Related HLC Requirements: Criterion 3, Core Component A; Assumed Practice A.5.*

23. Contractual Relationships. List any contracts related to academic programs with third-party entities not accredited by a federally recognized accrediting agency. Attach as **Appendix P-NOT APPLICABLE**. Include the name of the provider, the name of the relevant academic program, what the provider does, the dates when the relationship starts and ends, and the date it was approved by HLC if required.  
**Not applicable.**

(The institution should have previously disclosed to HLC all existing contracts and received approval for those contracts as required by HLC policy. Institutions can see the list of HLC-approved contractual arrangements on its *Institutional Status and Requirements (ISR) Report*. HLC's substantive change policy requires that the institution notify HLC of any new contracts for up to 25 percent of an academic program, that the institution obtain prior HLC approval before initiating any contract for 25 to 50 percent of a program, and that HLC approve contracts for more than 50 percent of a program only in exceptional circumstances under strict scrutiny.)

For more information see Federal Requirements 34 CFR §668.5 and 602.22(a)(2)(vii). *Related HLC Requirements: Assumed Practices A.10–11.*

24. Consortial Relationships. List any consortial relationships with other entities accredited by a federally recognized accrediting agency. Attach as **Appendix Q-NOT APPLICABLE**. Include the name of the provider, the name of the relevant academic program, what the provider does, the dates when the relationship starts and ends, and the date it was approved by HLC if required.  
**Not applicable.**

(The institution should have previously disclosed to HLC all existing consortiums and received approval for those consortial arrangements as required by HLC policy. Institutions can see the list of HLC-approved consortial arrangements on its *Institutional Status and Requirements (ISR) Report*. HLC's substantive change policy requires that the institution notify HLC of any new consortiums for up to 25 percent of an academic program, that the institution obtain prior HLC approval before initiating any consortiums for 25 to 50 percent of a program, and that HLC approve consortiums for more than 50 percent of a program only in exceptional circumstances under strict scrutiny.)

For more information see Federal Requirement 34 CFR §602.16(a)(1)(vii).

Related HLC Requirements: Criterion 2, Core Component B; Assumed Practice A.5.

---

## Advertising and Recruitment Materials and Other Public Information

28. Do the institution's advertisements and recruiting materials provide accurate, timely and appropriately detailed information to current and prospective students, and is information about the institution's accreditation status with HLC and other accrediting agencies clear and accurate? If the institution has been placed on a sanction or its programmatic accreditation has been withdrawn, do the disclosures accurately explain this information?

Yes

No

Provide copies of these advertising and recruiting materials as **Appendix T**.

29. Which sections of the institution's website include advertising and recruiting information? Provide the webpage name and link for each.

**College Programs/Majors**

<http://www.hawkeyecollege.edu/academics/programs/default.aspx>

---

## Review of Student Outcome Data

Institutions in their program review and institutional improvement processes are required to consider student outcome or performance data on the full range of their offerings where such data are available. Data can be at the institutional or the program level. Student achievement data typically include retention rates, graduation rates, licensure exam pass rates, employment rates, acceptance to further study or other similar information.

32. How does the institution gather or receive information about student outcomes from academic programs across the institution?

***The Office of Institutional Research provides Retention Reports for programs based on a cohort start term. These are made available to all staff via the intranet myHawkeye site. In addition, the College posts its most recent IPEDS reported figures for Graduation Rate, Retention Rate, and Transfer-Out Rate on the College website. Health & Emergency Service programs licensure exam rates are posted on the College website and reviewed annually through a Board Monitoring Report. In addition, based on an approved Assessment Cycle, student outcome data is collected from programs at various intervals throughout the academic year based on the programs and disciplines identified in the cycle.***

***The College also utilizes State published outcome data for Hawkeye Community College such as the annual Community College Transfer Reports and the Iowa Community Colleges Education Outcomes Report.***

***The various reports and information regarding student outcomes is reviewed by program deans, the Assessment Committee, Enrollment Management team members, and the Vice President of Academic Affairs.***

33. List the types of student outcome data available to the institution:

***Attached as Appendix V.***

34. Explain how information about student outcomes informs planning, academic program review, assessment of student learning, consideration of institutional effectiveness, and other topics.

***Student outcome data are used to guide the college in many operational aspects. Three major uses of the data are identified here. First, the data are monitored throughout the year and used for decision making as concerns are identified on an "as needed" basis. Second, the data are also routinely and systematically reviewed through the Academic Program Review (APR) process required of all college academic programs. And third, student outcome data is also being used by the college to set goals and identify exemplary areas for sharing best practices.***

***Enrollment trends of the college and of individual programs are reviewed every term by the VPAA and Academic Deans. If enrollment in an area of the college is declining, a study of the student outcome data is conducted to help in determining the cause. The VPAA and appropriate dean identify those areas that need attention and the deans then meet with the faculty to review the data and form a plan to address the concerns. This study includes, but is not limited to, a review of admission to registration, term-to-term and year one to year two retention. Graduation and employment data are also reviewed to determine if students are***

**being employed before graduation in high need areas or if employment is lagging and students are moving to other career options. A review of program faculty to student ratios is calculated and used to determine if there is a need for additional faculty if a program is demonstrating substantial growth, or if the program needs to be right-sized by reassigning or reducing faculty. The VPAA keeps the college top leadership team informed about these discussions at regular meetings of the president's cabinet.**

**Student outcome data for all credit programs at the college are reviewed regularly through the APR process. The APR reports must be completed by each career and technical program and the liberal arts program every five years so that approximately 20% of the programs at the college are reviewed annually. Faculty are asked to provide an analysis of data for retention, completion and employment of graduates from each program. They are asked to describe efforts and initiatives they have planned for improving retention, graduation and student success through student engagement. Facility, equipment and personnel needs are reviewed along with the program budget. Analysis of student learning assessments and course grades is also included. A faculty led assessment committee reviews the APR followed by the appropriate dean and the Vice President of Academic Affairs. The process culminates in a face-to-face meeting of program faculty, assessment committee faculty, dean and the VPAA. Concerns are discussed and needs for support and resources are reviewed. This conversation is designed to improve communication and planning to strengthen and continue the program. The APR process is tied to personnel, facilities, equipment and budget planning. As needs are identified for each program, the dean and VPAA review budgets and resources to see how needs can be addressed through new allocations or reallocations of personnel and funding. Those programs undergoing program review are given priority for equipment purchases and facility planning in the following academic year.**

**The college has identified career and technical programs with the best fall to spring retention, year one to year two retention and/or graduation by 150% program length time and recognized them as "exemplar" programs. The outcome data for these programs is being used to set target goals for all other programs. Best practices have been identified by the faculty in these exemplar programs through a survey and interviews. These best practices are being shared with all faculty as a resource for improving outcomes in all programs as well as the overall outcomes of the college.**

35. The federal government is increasingly concerned that institutions and accreditors are taking into account federal metrics in the review of student outcome data. These metrics are best found in the [College Scorecard](#).

Explain how information from the Scorecard is incorporated in the institution's review of its student outcome data. Please note the loan repayment rate identified on the Scorecard and explain how the institution uses this metric in its review of its own data.

**The college uses both state and federal data to benchmark itself on several key performance indicators (KPIs), such as those reported in the [College Scorecard](#). State data is provided by the Department of Education in the annual [Condition of](#)**

**Iowa's Community Colleges report. The data for all 15 of Iowa's community colleges is included in this report providing a rich data source for similar institutions under similar governance. Along with other Iowa community colleges, Hawkeye Community College also now participates in the Voluntary Framework of Accountability (VFA) which allows benchmarking of KPIs with member institutions across the U.S as well as participating annually in the National Community College Benchmarking Project (NCCBP). Our institutional research department provides IPEDS data to the college on a regular basis which are also used for benchmarking purposes. Hawkeye has been fortunate to be at or better than average on most measures. For example, our average cost of attending is well below the national average and our graduation rate, salary after attending and students paying down their debt are all at the national average. The Cohort Default Rate is another metric that the college watches closely and which is above the national average but still within a reasonable range when benchmarked against community colleges in Iowa.**

For more information see Federal Requirement 34 CFR 602.16(a)(1)(i).

*Related HLC Requirements: Criterion 4, Core Components A–C; Assumed Practice C.7.*

---

## Publication of Student Outcome Data

Student outcome data should be made available to the public through the institution's website—for instance, linked to from the institution's home page, included within the top three levels of the website or easily found through a search of related terms on the website—and should be clearly labeled as such. Any technical terms in the data should be defined, and any necessary information on the method used to compile the data should be included. Data may be provided at the institutional or department level or both, but the institution must disclose student outcome data that address the broad variety of its programs.

36. Are student outcome data published on the institution's website following the specifications above?

Yes

No

37. How does the institution ensure that the publication of these data accurately reflects the range of programs at the institution?

***The Graduation, Retention, and Transfer-Out Rates follow federal guidelines put forth by the [Integrated Postsecondary Education System \(IPEDS\)](#). The College reports on all programs to be in compliance. The institutional Program Cohort Retention Reports exist for all Career and Technical programs and for the Liberal Arts program. Any programs with external accreditation requirements for posting pass rate data are displayed on the College website program's page. The State-level Educational Outcomes and Transfer Reports are made available through both the internal myHawkeye site as well as on the College webpage. Information for participation in the Voluntary Framework of Accountability and HCC's published report are also posted on the College website.***

38. Provide a link to the webpage(s) that contains the student outcome data.

<http://www.hawkeyecollege.edu/students/handbook/student-rights/student-outcomes-data.aspx>

For more information see Council for Higher Education Accreditation (CHEA) Recognition Standard 12B.1.

---

## Standing With State and Other Accrediting Agencies

39. List any relationships the institution has with a specialized, professional or institutional accreditor or with any governing or coordinating bodies in states in which the institution has a presence. Note whether the institution or any of its programs is on a sanction, is provisionally approved or has lost status with any state agency or accrediting body.

Agency Name:	Standing:
Accreditation Council for Occupational Therapy Education	In good standing
Commission on Accreditation for Respiratory Care	In good standing
Commission on Accreditation in Physical Therapy Education	In good standing

Commission on Dental Accreditation	Dental Hygiene-Approval without Reporting Requirements Dental Assisting-Approval with reporting requirements
Committee on Accreditation of Education Programs for the Emergency Medical Services	Recommended for Accreditation at last site visit
Iowa Board of Nursing	Approved
National Accrediting Agency for Clinical Laboratory Sciences	In good standing
North American Wildlife Technology Association	In good standing

Provide the most recent comprehensive evaluation report and action letter from each institutional or specialized accrediting agency as well as any interim monitoring prepared for that agency. Attach as **Appendix W**.

40. Explain how the institution makes its standing with state agencies and accrediting bodies available to students. Provide samples of those disclosures as **Appendix X** and indicate the web address where students and the public can find these disclosures.

For more information see Federal Requirements 34 CFR §602.28, 34 CFR 668.41, and 668.43.

*Related HLC Requirements: Criterion 2, Core Component B; Assumed Practices A.5, A.7.*

### Public Notification of Opportunity to Comment

Local newspapers, institutional websites and alumni magazines are appropriate choices of media in which to solicit public comments. Notices of the opportunity to comment should reach all constituencies but should not unduly burden the institution. Notices of the visit should be published following the format prescribed in the [Procedure on Third-Party Comments](#).

Notices should include:

- The purpose and dates of the visit.
- The institution's accreditation status with HLC.
- An invitation to send written, signed comments directly to HLC.
- Contact information for HLC.

Notices should specify that comments must be sent to HLC no later than four weeks before the start of the visit.

In cases where comments are of a sensitive nature, HLC ensures that the commenter is aware that comments are typically forwarded to the institution and the evaluation team with identifying information intact. In some cases, HLC may redact the identifying information of the commenter or summarize the comment.

41. Submit a list of constituencies that have received the notice of opportunity to comment. (These groups may include students, parents, alumni, taxpayers, donors, community groups and local businesses.)

- **Current students via college website posting**
- **Advisory Committee members**

- **Alumni and donors**
- **Greater Cedar Valley Alliance & Chamber members.**

42. What media did the institution use to solicit comments?

- **College website**
- **Serving-Area newspapers**
- **Facebook account**
- **LinkedIn**
- **Twitter**
- **Letters to members listed in #41**

43. Copies of the institution's notices must be sent in PDF format to HLC ([legalaffairs@hlcommission.org](mailto:legalaffairs@hlcommission.org)) at least one month before the comprehensive evaluation visit. The comments and notices are compiled by HLC staff members and sent to the evaluation team and the institution three weeks prior to the visit. As third-party comments are an important part of the comprehensive evaluation, HLC also reviews and forwards comments received after the deadline lapses and even during the visit. Attach a copy of the notices as **Appendix Y**.

**Competency-Based Programs Including Direct Assessment Programs / Faculty-Student Engagement** ***THIS SECTION IS NOT APPLICABLE TO THE COLLEGE.***

44. Does the institution offer any direct assessment programs, as defined in 34 CFR §668.10?

- Yes  
 **No**

*Note:* HLC policy and federal regulations require that direct assessment programs be reviewed and approved by the accrediting agency before they are initiated. Contact your HLC liaison if the institution offers direct assessment programs that have not been approved by HLC.

45. Does the institution offer any competency-based programs?

- Yes  
 **No**

*Note:* The definition of competency-based and direct assessment programs (as taken from 34 CFR §668.10) can be found on the substantive change application for new competency-based or direct assessment programs.

46. Provide a list of direct assessment or competency-based programs offered by the institution.

***THIS IS NOT APPLICABLE TO THE COLLEGE.***

47. How does the institution ensure that faculty in these programs regularly engage with students?

Please respond to the following questions:

- a. Do the faculty members initiate communication on some regular basis with the students in the course(s)? If yes, provide examples of how and when this occurs in each program.

**THIS IS NOT APPLICABLE TO THE COLLEGE.**

- b. Do the students have a responsibility to initiate communication with the faculty members on some regular basis that is at least equivalent to contact in a traditional classroom? If yes, provide examples of how and when this occurs.

**THIS IS NOT APPLICABLE TO THE COLLEGE.**

- c. Describe the manner in which faculty respond to questions from students about the academic content of the program. Describe the interaction between faculty and students about demonstrating competencies in the program material.

**THIS IS NOT APPLICABLE TO THE COLLEGE.**

- d. Demonstrate that in the tasks mastered to assure competency, faculty and students interact about critical thinking, analytical skills, written and oral communication abilities, etc., in the context of the course(s) in question with appropriate guidance by faculty.

**THIS IS NOT APPLICABLE TO THE COLLEGE.**

- e. Demonstrate that in the tasks mastered to assure competency, faculty and students interact about core ideas, important theories, current knowledge, etc., in the context of the course(s) in question with appropriate guidance by faculty.

**THIS IS NOT APPLICABLE TO THE COLLEGE.**

**Appendix A:**  
**Worksheet for Institutions on**  
**the Assignment of Credit Hours**

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

### Part A: Assignment of Credits and Program Length

#### Section 1: Institutional Calendar, Term Length and Type of Credit

Institution Name: Hawkeye Community College

Calendar	Term	Term Length: Number of Weeks	Number of Starts		
			FALL	SPRING	SUMMER
Semester	Standard Format: 14 to 17 week term	16	2015/FA - 1	2016/SP - 1	
	Compressed Formats: 4, 8 or other week terms within the semester calendar <sup>1</sup>	12	2015/FA - 1	2016/SP - 1	2016/SU - 1
		8	2015/FA - 2	2016/SP - 2	2016/SU - 2
		5	2015/FA - 3	2016/SP - 3	2016/SU - 2
	3		2016/SP - 1	2016/SU - 2	

<sup>1</sup>If an institution offers a summer term that is different in length than the typical fall semester, it should report summer term information in this section.

**Degree Programs: What is the length in semester hours of each of the institution's degree programs?**

2016-2017 Academic Year				
CIP #	Program Name	Award Level	Total Semesters Required	Summer Term Required from Total Semester Count
101050200	Ag Business Management	AAS	4	0
101050200	General Agriculture	Diploma	2	0
101050200	Precision Agriculture	Certificate	3	0
102040200	Ag Power Technology	AAS	4	0

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

### SUPPLEMENT A1-continued - Pattern of Instructional Hours

#### *Rationale for course offerings of six or more credits*

Course	Course Title	Course Credits	Rationale for Credit Allocated
ADN-531	Advanced Adult Health Nrsg I	6	This course provides the student with advanced nursing content necessary to pass the NCLEX-RN exam and practice as a registered nurse. The student will develop critical thinking skills and enhance their application of the management of adults with complex medical conditions in a variety of acute care settings. This course is a study of the concepts of health and illness and of the nursing process in providing comprehensive nursing care for adults requiring advanced medical or surgical nursing care. The content includes a review of shock, stress, pain, immunity, fluids, electrolytes, acid-base, eye, ear, respiratory, endocrine, reproductive and musculoskeletal disorders. The course includes both classroom and clinical experiences which were approved by the Iowa Board of Nursing, the curriculum committee and the nursing program advisory board.
ADN-532	Advanced Adult Health Nrsg II	6	This course provides the student with advanced nursing content necessary to enter pass the NCLEX-RN exam and practice as a registered nurse. The course includes both classroom and clinical experiences which were approved by the Iowa Board of Nursing. The student will expand their critical thinking skills and enhance their nursing assessment skills commensurate with a new graduate nurse. The student will also increase their awareness of the psychosocial aspects of nursing care. This course is a continuation of Advanced Adult Health Nursing I. Emphasis is placed on the nursing process in providing comprehensive care of the complex medical-surgical adult patient. The content includes cardiac, peripheral vascular, digestive, hematologic, oncologic, urinary and neurologic disorders. Clinical experiences are provided in acute care and community settings. Selected experience in the nurse manager role is included. The course includes both classroom and clinical experiences in the acute care and community settings which were approved by the Iowa Board of Nursing, the curriculum committee and the nursing program advisory board.
AGM-107	Gas Engine Rebuild	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of gasoline engines and the lab portion allows for student skill building. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
AGM-327	Equipment Maintenance	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of equipment maintenance and the lab portion allows for student skill building in the many varied types of agricultural equipment. An emphasis is placed on safety so the extended lab eliminates the

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

			need for the students/instructor to rush for completion of material/competencies.
AGM-408	Power Transfer Systems	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of power distribution and transfer and the lab portion allows for student skill building. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
AGM-417	Ag Equipment Repair	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of equipment repair and the lab portion allows for student skill building in the many varied types of agricultural equipment. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-306	Intro To Collision Repair	6	This course is designed as 3 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed introductory concepts of collision repair (EPA requirements, hazardous waste, safety/health, tools, assembly, etc.) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-331	Basic Collision Procedures	6	This course is designed as 3 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed basic concepts of collision repair procedures (panel repair, sheet metal work, glass servicing, trim repair, stress relief, repair techniques, etc.) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-510	Collision Production Tech	7	This course is designed as 4 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of collision repair procedures (disassembly/assembly, welding techniques and AC repair) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

CRR-657	Advanced Collision Repair	7	This course is designed as 4 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of collision repair procedures (advanced tooling, suspension and alignment, braking systems, air bag technology) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-806	Intro To Refinishing	6	This course is designed as 3 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed introductory concepts of refinishing procedures (abrasives, products, tools, masking procedures, corrosion protection, paint prep, etc.) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-836	Refinishing II	6	This course is designed as 3 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed advanced concepts of collision refinishing procedures (techniques for paint application, computer use in color mixing/matching, etc.) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-877	Refinishing Applications	7	This course is designed as 4 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of basic collision refinishing procedures (color matching, blending, top coating, etc.) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
CRR-881	Refinish Production Technology	7	This course is designed as 4 credits of lecture and 3 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of advanced collision refinishing procedures (preparation techniques, top coat applications/systems, troubleshooting problems) and the lab portion allows for student skill building in the concepts covered in lecture. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

DHY-175	Funds of Clinical Dental Hyg	6	This course is the foundational instruction for the subsequent clinical courses in the Dental Hygiene curriculum (Clinical Dental Hygiene II, III, and IV). Students obtain information to begin their clinical journey through lecture to obtain the didactic skills sets and lab sessions to obtain the "hands-on" skill sets. The student will learn the skills of dental hygiene practice and client management through simulated clinical situations, peer-peer partnering, and lecture/discussion sessions as required by the Commission on Dental Accreditation Standards for Dental Hygiene Education for first term Dental Hygiene clinical and didactic exposure to instrumentation and clinic preparation. The course was approved by the curriculum committee with input from the dental advisory board.
DSL-377	Diesel Engine Rebuild	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of diesel engines repair and rebuild and the lab portion allows for student skill building in the disassembly and assembly of diesel engines. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
DSL-447	Diesel Fuel Systems	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of diagnosis, theory and repair of mechanical and electronic fuel systems and the lab portion allows for student skill building in the repair of different fuel systems. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
DSL-807	Diesel Truck Equipment Repair	7	This course is designed as 3 credits of lecture and 4 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed concepts of diesel truck repair including heating and a/c and the lab portion allows for student skill building by working on customer projects in a setting that closely simulates a repair facility. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

EMS-201	Emergency Medical Technician	7	This course prepares the student for National EMT certification, and entrance into Emergency Medical Technician positions as a volunteer or paid EMS provider. The course meets the United States Department of Transportation – National Highway Traffic Safety Administration National EMS education standards. The standards require a minimum number of contact hours in the course, as well as clinical and field experience hours. The course includes all required contact hours, thus resulting in a credit award of 7. The large number of hours required for this course include the lecture and lab A needed to assure competency in the 266 terminal objectives required for the Nationally Certified EMT as prescribed by the National Registry of EMT's (NREMT), and the National EMS Education Standards (2010). Hawkeye Community College's Course is based on input from Stakeholders, faculty, EMS providers, and the advisory committee.
HCR-516	HVACR Systems II	6	<i>Not offered in 2016-2017. HAS BEEN REPLACED WITH HCR 517 HVACR Systems II 5 credits</i>
MFG-404	Basic Diemaking	6	<i>Changed course number to MFG-408 for 2016-2017.</i> This course is designed as 2 credits of lecture and 6 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed basic concepts of die-making including blanking, bending, punching, and construction and the lab portion allows for student skill building by practicing the concepts covered by the lecture in a working machine shop setting. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.
MLT-240	Clinical Chemistry I	7	This course provides the MLT student with the technical and didactic experiences in all areas of clinical chemistry as required for preparation for certification by ASCP. This course provides the student the experiences to practice specific clinical chemistry psychomotor tasks in a discipline established practice with instructor supervision prior to entry into a medical laboratory practicum.
RCP-690	Clinical Intensive Care	8	This course builds on the previous clinical course and provides experience in advanced care areas, including intensive care units and emergency rooms. The time spent in clinic prepares students for national Board examinations, which contain significant content related to advanced care topics. Set hours reflect a typical day in the profession, preparing students to enter the workforce and preceptorship, while also satisfying accreditation and stakeholder needs. The course also provides exposure to different aspects of respiratory care, including sleep studies, pulmonary function testing, and pulmonary rehabilitation. Concepts covered also appear on Board examinations.

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

TDT-118	Driving Range I	6	<p>This course is designed as 1 credit of lecture and 5 credits of lab. The concepts covered in this course require an extended period of time for the students to develop the skills needed to become competent. The lecture portion covers the detailed basic concepts of truck and trailer operation and the lab portion allows for student skill building by practicing the concepts covered by the lecture (basic maneuvering, starting, clutching, shifting, cornering, backing, etc.) on a state of the art road course. An emphasis is placed on safety so the extended lab eliminates the need for the students/instructor to rush for completion of material/competencies.</p>
WEL-710	Robotic Welding	6	<p>This course is designed as 3 credits of lecture and 3 credits of lab. This course covers the advanced concepts of robotic welding and require an extended period of time for the students to develop the skills needed to become competent. The lecture portion of this course covers the concepts of modern manufacturing using robotic welding with an intense emphasis on safety. The lab portion of this class allows the students the opportunity to develop the applicable skills that were discussed in lecture and become entry level proficient on the use of the machines.</p>

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours Direct Assessment or Competency-Based Programs

---

- **Not applicable for Hawkeye Community College**

### Section 3: Policy on Credit Hours

---

Does the institution have a policy specific to the assignment of credit?

**Yes**

No

**Hawkeye Community College follows Iowa Administrative Code (IAC) [281] 21.2(12) and aligns credit assigned to courses to the credit hour minimum contact hours as defined in paragraphs 21.2(12) “h” to “m”. <https://www.legis.iowa.gov/docs/iac/chapter/08-03-2016.281.21.pdf>**

The institution has policies specific to the assignment of credit at the following levels (check all that apply):

**Institution-wide**

Delivery-format-specific

Department-specific

Program-specific

Attach copies of all applicable policies related to the assignment of credit as **Supplement A2**.

1. If a student gives misleading or incorrect information for the purpose of evading payment of nonresident tuition, the student must pay the nonresident tuition for each term the student was not officially classified as a nonresident.

2. The procedures described in paragraph 21.2(11) "b" shall be administered by the registrar or staff designated by the community college.

(2) Residency of minor students. The domicile of a minor shall follow that of the parent with whom the minor resides, except where emancipation of said minor can be proven. The word "parent" herein shall include legal guardian or others in cases where the lawful custody of a minor has been awarded to persons other than the minor's actual parents. A minor living with a resident of Iowa who is legally responsible for the minor shall be granted resident status if the minor has lived with the Iowa resident for at least 90 days immediately prior to enrollment. The residency status of an emancipated minor shall be based upon the same qualifications established for a student having attained majority.

(3) Residency of students who are not citizens of the United States. The residency status of students who are not citizens of the United States shall be determined consistent with the following procedures:

1. A student who is a refugee or who is granted asylum by an appropriate agency of the United States must provide proof of certification of refugee or asylum grantee status. A student may be accorded resident status for admission and tuition purposes when the student comes directly, or within a reasonable time, to the state of Iowa from a refugee facility or port of debarkation and has not established domicile in another state.

2. A student who has immigrant status, and the student's spouse or dependents, may establish Iowa residency in the same manner as a United States citizen.

3. A student who has nonimmigrant status and who holds a nonstudent visa, and the student's spouse or dependents, may establish residency in the same manner as a United States citizen. An alien who has nonimmigrant status and whose primary purpose for being in Iowa is educational is classified as nonresident.

4. A student who is a resident of an Iowa sister state may be classified as a resident or nonresident, in accordance with rules adopted by the college's board of directors.

(4) Residency of federal personnel and dependents. A student, or the student's spouse or dependent child, who has moved into the state of Iowa as the result of military or civil orders from the federal government, and the minor children of such student, is immediately an Iowa resident.

(5) Residency of veterans and family members and individuals covered under Section 702 of the Veterans Access, Choice and Accountability Act of 2014. A veteran of a uniformed service, a member of the National Guard, or the veteran's or member's spouse or dependent child shall be classified as an Iowa resident student and be eligible for resident tuition and fee amounts, if the veteran or national guard member meets the requirements of paragraph 21.2(11) "b"(5) "1," "2," or "3."

1. The veteran has separated from a uniformed service with an honorable or general discharge, is eligible for benefits, or has exhausted benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008 or any other federal authorizing veteran educational benefits program.

2. The individual is an active duty military person or activated or temporarily mobilized National Guard member.

3. The individual is a covered person under Section 702 of the Veterans Access, Choice and Accountability Act of 2014 or subsequent legislation.

(6) Reclassification of residency status. It is the responsibility of a student to request a reclassification of residency status. If a student is reclassified as a resident for tuition purposes, such classification shall be effective beginning with the next term for which the student enrolls. In no case shall reclassification to residency status be made retroactive for tuition and fee purposes, even though the student could have previously qualified for residency status had the student applied.

(7) Appeal. The decision on the residency status of a student for admission, tuition, and fee purposes may be appealed to a review committee established by the community college. The findings of the review committee may be appealed to the community college's board of trustees, whose decision shall be a final administrative decision.

**21.2(12) Credit hours.** Credit hours shall be determined consistent with the following procedures.

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

- a. Specifically stated criteria are minimal requirements only, which institutions may exceed at their discretion.
- b. Conventional instruction is subdivided into four instructional methods as herein defined.
  - (1) Classroom work — lecture and formalized classroom instruction under the supervision of an instructor.
  - (2) Laboratory work — experimentation and practice by students under the supervision of an instructor.
  - (3) Clinical practice — applied learning experience in a health agency or office under the supervision of an instructor.
  - (4) Work experience — employment-related experience planned and coordinated by an institutional representative and the employer, with control and supervision of the student on the job being the responsibility of the employer.
- c. No registration or orientation hours may be included when determining credit hours.
- d. Institutions shall take into account the soundness of the learning environment being created by the scheduling sequence and length of classroom, laboratory, clinical, and work experience sessions. However, the final decision on these matters is left to the institutional administration so long as minimal standards are met.
- e. Only minutes for students officially registered for courses or programs, including audit registration, may be included when determining credit hours.
- f. Each community college must establish a policy that defines its methods of equating alternative instruction to credit hours and the process for evaluating the effectiveness of the alternative instruction to meet or exceed the expected student outcomes as if the course were taught utilizing conventional methods in paragraph 21.2(12)“b.” Colleges will be held accountable for evaluating and maintaining high-quality programs, and their evaluations may be subject to department review. Students shall be expected to meet all approved course requirements and shall be expected to demonstrate the acquisition of knowledge and competencies/outcomes at the same level as those obtained in traditional classroom settings, in the time frames set by the institution. Alternative courses or programs of study must be approved by the college’s review processes including faculty review and input. Courses shall be listed in the college catalog. Instructional formats for which alternative methods of determining credit hours are applicable include the following:
  - (1) Accelerated courses (study, programs). Courses or programs of study that allow students to complete courses or programs at a faster pace than if offered by conventional methods. Courses and programs shall be tailored to involve more student participation and self-directed study. Instructors may teach in traditional classroom settings or by alternative methods specified in this subrule.
  - (2) Distance education. Courses or programs of study taught over the Internet, Iowa Communications Network (ICN), or other electronic means that allow students to receive instruction in the classroom or other sites, over personal computers, television, or other electronic means. Courses may or may not be interactive with direct communication between the teacher and students. Credit hours shall be awarded in accordance with the credit hours that would have been assigned if the course or program were taught by conventional methods.
    1. Correspondence courses. Courses offered outside the classroom setting in which the instruction is delivered indirectly to the student. Instruction is provided through another medium, such as written material, computer, television, or electronic means. Course materials are sent to a student who follows a detailed syllabus to complete assignments. Students correspond with and transmit assignments to the instructor by telephone, computer, mail, or electronic means. A third party may administer tests.
    2. Television courses. Courses or programs delivered primarily via broadcast television such as Iowa Public Television, digital video disc, or other media allowing students to receive instruction in a classroom or equipped remote location.
    3. Video conference courses. Courses or programs delivered via a closed synchronous audio-video conferencing system such as the Iowa Communications Network or similar system which allows students to receive instruction in a classroom or any equipped remote location via an audio-video feed to a television, computer, or other electronic device.

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

IAC 6/10/15

Education[281]

Ch 21, p.7

4. Internet courses. Courses or programs delivered via the Internet. Courses may be taken using computers in a classroom setting or using personal computers or other electronic devices from the student's home or other location using an online content management system or mixed-media methods. Students may be linked at times directly with the instructor or with other students electronically. Interaction may be direct (synchronous) or indirect (asynchronous) allowing students to participate during their own time frames.

5. In-class hybrid courses. Courses or programs that combine traditional classroom and computer-based instruction. In-class sessions are offered with online instructional activities to promote independent learning and reduce seat-time.

(3) Self-paced instruction. Courses or programs that permit a student to enter at variable times or progress at the student's own rate of speed. Start and end dates may or may not correspond to the official college calendar. Contact or credit hours for self-paced programs or courses shall be computed by assigning to each registration the total number of credit or contact hours the student would have received if the student enrolled in a conventional program or course with stipulated beginning and ending dates.

(4) Arranged study. Instruction offered to students at times other than stated or scheduled class times to accommodate specific scheduling or program needs of students. Credit hours shall be awarded in accordance with the credit hours that would have been assigned if the course or program were taught by conventional methods.

(5) Multifformat nontraditional instruction. Instruction utilizing a variety of nontraditional methods that may incorporate self-paced learning, text, video, computer instructional delivery, accelerated training, independent study, Internet delivery, or other methods that do not follow standard classroom work guidelines. Credit hours shall be awarded in accordance with the credit hours that would have been assigned if the course or program were taught by conventional methods.

g. Individualized learning experiences for which an equivalent course is not offered shall have the program length computed from records of attendance using such procedures as a time clock or sign-in records. Individualized learning experiences means independent study courses in which an equivalent course is not offered by the college or listed in the college catalog. Independent study permits in-depth or focused learning on special topics of particular interest to the student.

h. Each course must have a minimum length of one credit hour. A fractional unit of credit may be awarded provided the course exceeds the minimum length of one credit hour.

i. Each credit hour shall consist of a minimum number of contact hours as defined in paragraphs 21.2(12) "h" to "m." One contact hour equals 50 minutes.

j. Classroom work.

(1) The minimal requirement for one semester hour of credit shall be 800 minutes (16 contact hours) of scheduled instruction.

(2) The minimal requirement for one quarter hour of credit shall be 533 minutes (10.7 contact hours) of scheduled instruction.

k. Laboratory work.

(1) The minimal requirement for one semester hour of credit shall be 1,600 minutes (32 contact hours) of scheduled laboratory work.

(2) The minimal requirement for one quarter hour of credit shall be 1,066 minutes (21.3 contact hours) of scheduled laboratory work.

l. Clinical practice.

(1) The minimal requirement for one semester hour of credit shall be 2,400 minutes (48 contact hours) of scheduled clinical practice.

(2) The minimal requirement for one quarter hour of credit shall be 1,599 minutes (32 contact hours) of scheduled clinical practice.

m. Work experience.

(1) The minimal requirement for one semester hour of credit shall be 3,200 minutes (64 contact hours) of scheduled work experience.

(2) The minimal requirement for one quarter hour of credit shall be 2,132 minutes (42.6 contact hours) of scheduled work experience.

# Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

ACADEMIC AFFAIRS DIVISION  
**Policy: Credit Hour Calculation**  
 Est.: March 4, 2013

## I. POLICY STATEMENT

Credit Hour Calculation will follow Iowa Administrative Code **281—21.2 (260C) Administration 21.2(12)**. These calculations will be utilized in both credit course section building and for use with calculating faculty workload at the credit and contact hour.

## II. GUIDING PRACTICES

281—21.2 (260C) Administration 21.2(12) <i>Credit hours.</i>		<b>CREDIT HOUR CALCULATION</b>		
Credit hours shall be determined consistent with the following procedures. <i>a.</i> Specifically stated criteria are minimal requirements only, which institutions may exceed at their discretion.				
<i>b.</i> Conventional instruction is subdivided into four instructional methods as herein defined.		281—21.2 (260C) Administration 21.2(12) <i>Classroom</i>	HCC Definitions	HCC Specificities
LECTURE	(1) <b>Classroom work</b> — lecture and formalized classroom instruction under the supervision of an instructor.	<i>j.</i> <b>Classroom work.</b> (1) The minimal requirement for one semester hour of credit shall be 800 minutes (16 contact hours) of scheduled instruction.	<b>Lecture</b> Formalized classroom instruction under the supervision of an instructor.	<ul style="list-style-type: none"> <li>• 16 contact hours = 1 credit (contact hour weight factor = 1.0)</li> <li>• 800 minutes per contact hour</li> <li>• One contact hour equals 50 minutes</li> <li>• For each hour of class it is anticipated there will be approximately two hours of student preparation.</li> </ul>
LAB-A	(2) <b>Laboratory work</b> — experimentation and practice by students under the supervision of an instructor.	<i>k.</i> <b>Laboratory work.</b> (1) The minimal requirement for one semester hour of credit shall be 1,600 minutes (32 contact hours) of scheduled laboratory work.	<b>Lab A - (Instruction Oriented)</b> Involves the student in theory application and experimentation in the learning experiences under the supervision of an instructor. A significant amount of instruction is provided while students are involved in the learning experiences.	<ul style="list-style-type: none"> <li>• 32 contact hours = 1 credit (contact hour weight factor = .50)</li> <li>• 1600 minutes per contact hour</li> <li>• One contact hour equals 50 minutes</li> <li>• For each two hours of lab it is anticipated there will be approximately one hour of student preparation.</li> </ul>
LAB-B (Clinic)	(3) <b>Clinical practice</b> — applied learning experience in a health agency or office under the supervision of an instructor.	<i>l.</i> <b>Clinical practice.</b> (1) The minimal requirement for one semester hour of credit shall be 2,400 minutes (48 contact hours) of scheduled clinical practice.	<b>Lab B - (Clinic, Practice Oriented)</b> Clinic: Skill development experience is at a health agency or campus facility. Students are involved in performing patient care procedures.	<ul style="list-style-type: none"> <li>• 48 contact hours = 1 credit (contact hour weight factor = .33)</li> <li>• 2400 minutes per contact hour</li> <li>• One contact hour equals 50 minutes</li> <li>• Minimal, if any, student preparation is anticipated</li> </ul>
LAB-C	(4) <b>Work experience</b> — employment-related experience planned and coordinated by an institutional representative and the employer, with control and supervision of the student on the job being the responsibility of the employer.	<i>m.</i> <b>Work experience.</b> (1) The minimal requirement for one semester hour of credit shall be 3,200 minutes (64 contact hours) of scheduled work experience.	<b>Lab C - (Work Experience/Coop/Practicum/Field Experience)</b> Work experience planned and coordinated by an institutional representative and the employer, with control and supervision on the job being delegated to the employer.	<ul style="list-style-type: none"> <li>• 64 contact hours = 1 credit (contact hour weight factor = .25)</li> <li>• 3200 minutes per contact hour</li> <li>• One contact hour equals 50 minutes</li> <li>• Identification and coordination of coop sites and experiences is the responsibility of the program instructor</li> </ul>

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

### Section 4: Total Credit Hour Generation

---

How many credits does a typical full-time or part-time undergraduate student take during a regular term?

- Average of full-time students: **14.09 AY 2015-2016 average credits (12 or more credits)**
- Average of part-time students: **5.89 AY 2015-2016 average credits (less than 12 credits)**

Provide the head count of students earning more than the typical credits taken during a regular term in the most recent fall and spring semesters/trimesters (or the equivalent, for institutions with quarters or non-standard terms).

- Most Recent Fall term: **917 FT students; 1,552 PT students** Year: **2015**
- Most Recent Spring term: **816 FT students; 1,569 PT students** Year: **2016**

### Section 5: Clock Hours

---

Does the institution report clock hours to the U.S. Department of Education with regard to some programs for Title IV purposes?

- Yes  
 **No**

FEDERAL STUDENT AID  START HERE. GO FURTHER.™

**UNITED STATES DEPARTMENT OF EDUCATION**

**The execution of this Agreement by the Institution and the Secretary is a prerequisite to the Institution's initial or continued participation in any Title IV, HEA Program.**

The postsecondary educational institution listed above, referred to hereafter as the "Institution," and the United States Secretary of Education, referred to hereafter as the "Secretary," agree that the Institution may participate in those student financial assistance programs authorized by Title IV of the Higher Education Act of 1965, as amended (Title IV, HEA Programs) indicated under this Agreement and further agrees that such participation is subject to the terms and conditions set forth in this Agreement. As used in this Agreement, the term "Department" refers to the U.S. Department of Education.

**SCOPE OF COVERAGE**

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

This Agreement applies to all locations of the Institution as stated on the most current ELIGIBILITY AND CERTIFICATION APPROVAL REPORT issued by the Department. This Agreement covers the Institution's eligibility to participate in each of the following listed Title IV, HEA programs, and incorporates by reference the regulations cited.

- **FEDERAL PELL GRANT PROGRAM**, 20 U.S.C. §§ 1070a *et seq.*; 34 C.F.R. Part 690.
- **FEDERAL FAMILY EDUCATION LOAN PROGRAM**, 20 U.S.C. §§ 1071 *et seq.*; 34 C.F.R. Part 682.
- **FEDERAL DIRECT STUDENT LOAN PROGRAM**, 20 U.S.C. §§ 1087a *et seq.*; 34 C.F.R. Part 685.
- **FEDERAL PERKINS LOAN PROGRAM**, 20 U.S.C. §§ 1087aa *et seq.*; 34 C.F.R. Part 674.
- **FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT PROGRAM**, 20 U.S.C. §§ 1070b *et seq.*; 34 C.F.R. Part 676.
- **FEDERAL WORK-STUDY PROGRAM**, 42 U.S.C. §§ 2751 *et seq.*; 34 C.F.R. Part 675.
- **ACADEMIC COMPETITIVENESS GRANT AND NATIONAL SCIENCE AND MATHEMATICS ACCESS TO RETAIN TALENT GRANT PROGRAMS**, 20 U.S.C. §§ 1070a-1 *et seq.*; 34 C.F.R. Part 691.
- **IRAQ AND AFGHANISTAN SERVICE GRANT**, 20 U.S.C. §§ 1070d *et seq.*

### GENERAL TERMS AND CONDITIONS

1. The Institution understands and agrees that it is subject to and will comply with the program statutes and implementing regulations for institutional eligibility as set forth in 34 C.F.R. Part 600 and for each Title IV, HEA program in which it participates, as well as the general provisions set forth in Part F and Part G of Title IV of the HEA, and the Student Assistance General Provisions regulations set forth in 34 C.F.R. Part 668.  
***The recitation of any portion of the statute or regulations in this Agreement does not limit the Institution's obligation to comply with other applicable statutes and regulations.***
2.
  - a. The Institution certifies that on the date it signs this Agreement, it has a drug abuse prevention program in operation that it has determined is accessible to any officer, employee, or student at the Institution.
  - b. The Institution certifies that on the date it signs this Agreement, it is in compliance with the disclosure requirements of Section 485(f) of the HEA (Campus Security Policy and Campus Crime Statistics).
3. The Institution agrees to comply with --
  - a. Title VI of the Civil Rights Act of 1964, as amended, and the implementing regulations, 34 C.F.R. Parts 100 and 101 (barring discrimination on the basis of race, color or national origin);
  - b. Title IX of the Education Amendments of 1972 and the implementing regulations, 34 C.F.R. Part 106 (barring discrimination on the basis of sex);
  - c. The Family Educational Rights and Privacy Act of 1974 and the implementing regulations, 34 C.F.R. Part 99;

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

- d. Section 504 of the Rehabilitation Act of 1973 and the implementing regulations, 34 C.F.R. Part 104 (barring discrimination on the basis of physical handicap); and
  - e. The Age Discrimination Act of 1975 and the implementing regulations, 34 C.F.R. Part 110.
  - f. The Standards for Safeguarding Customer Information, 16 C.F.R. Part 314, issued by the Federal Trade Commission (FTC), as required by the Gramm-Leach-Bliley (GLB) Act, P.L. 106-102. These Standards are intended to ensure the security and confidentiality of customer records and information. The Secretary considers any breach to the security of student records and information as a demonstration of a potential lack of administrative capability as stated in 34 C.F.R. 668.16(c). Institutions are strongly encouraged to inform its students and the Department of any such breaches.
4. The Institution acknowledges that 34 C.F.R. Parts 602 and 667 require accrediting agencies, State regulatory bodies, and the Secretary to share information about institutions. The Institution agrees that the Secretary, any accrediting agency recognized by the Secretary, and any State regulatory body may share or report information to one another about the Institution without limitation.
  5. The Institution acknowledges that the HEA prohibits the Secretary from recognizing the accreditation of any institution of higher education unless that institution agrees to submit any dispute involving the final denial, withdrawal, or termination of accreditation to initial arbitration prior to any other legal action.

### SELECTED PROVISIONS FROM GENERAL PROVISIONS REGULATIONS, 34 C.F.R. PART 668.14

An institution's program participation agreement applies to each branch campus and other location of the institution that meets the applicable requirements of this part unless otherwise specified by the Secretary.

(b) By entering into a program participation agreement, an institution agrees that--

(1) It will comply with all statutory provisions of or applicable to Title IV of the HEA, all applicable regulatory provisions prescribed under that statutory authority, and all applicable special arrangements, agreements, and limitations entered into under the authority of statutes applicable to Title IV of the HEA, including the requirement that the institution will use funds it receives under any Title IV, HEA program and any interest or other earnings thereon, solely for the purposes specified in and in accordance with that program;

(2) As a fiduciary responsible for administering Federal funds, if the institution is permitted to request funds under a Title IV, HEA program advance payment method, the institution will time its requests for funds under the program to meet the institution's immediate Title IV, HEA program needs;

(3) It will not request from or charge any student a fee for processing or handling any application, form, or data required to determine a student's eligibility for, and amount of, Title IV, HEA program assistance;

(4) It will establish and maintain such administrative and fiscal procedures and records as may be necessary to ensure proper and efficient administration of funds received from the Secretary or from students under the Title IV, HEA programs, together with assurances that the institution will provide, upon request and in a timely manner, information relating to the administrative capability and financial responsibility of the institution to--

(i) The Secretary;

(ii) A guaranty agency, as defined in 34 CFR part 682, that guarantees loans made under the Federal Stafford Loan and Federal PLUS programs for attendance at the institution or any of the institution's branch campuses or other locations;

(iii) The nationally recognized accrediting agency that accredits or preaccredits the institution or any of the institution's branch campuses, other locations, or educational programs;

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

(iv) The State agency that legally authorizes the institution and any branch campus or other location of the institution to provide postsecondary education; and

(v) In the case of a public postsecondary vocational educational institution that is approved by a State agency recognized for the approval of public postsecondary vocational education, that State agency;

(5) It will comply with the provisions of § 668.15 relating to factors of financial responsibility;

(6) It will comply with the provisions of § 668.16 relating to standards of administrative capability;

(7) It will submit reports to the Secretary and, in the case of an institution participating in the Federal Stafford Loan, Federal PLUS, or the Federal Perkins Loan Program, to holders of loans made to the institution's students under that program at such times and containing such information as the Secretary may reasonably require to carry out the purpose of the Title IV, HEA programs;

(8) It will not provide any statement to any student or certification to any lender in the case of an FFEL Program loan, or origination record to the Secretary in the case of a Direct Loan Program loan that qualifies the student or parent for a loan or loans in excess of the amount that the student or parent is eligible to borrow in accordance with sections 425(a), 428(a)(2), 428(b)(1)(A) and (B), 428B, 428H and 455(a) of the HEA;

(9) It will comply with the requirements of Subpart D of this part concerning institutional and financial assistance information for students and prospective students;

(10) In the case of an institution that advertises job placement rates as a means of attracting students to enroll in the institution, it will make available to prospective students, at or before the time that those students apply for enrollment--

(i) The most recent available data concerning employment statistics, graduation statistics, and any other information necessary to substantiate the truthfulness of the advertisements; and

(ii) Relevant State licensing requirements of the State in which the institution is located for any job for which an educational program offered by the institution is designed to prepare those prospective students;

(11) In the case of an institution participating in the FFEL Program, the institution will inform all eligible borrowers, as defined in 34 CFR part 682, enrolled in the institution about the availability and eligibility of those borrowers for State grant assistance from the State in which the institution is located, and will inform borrowers from another State of the source for further information concerning State grant assistance from that State;

(12) It will provide the certifications described in paragraph (c) of this section;

(13) In the case of an institution whose students receive financial assistance pursuant to section 484(d) of the HEA, the institution will make available to those students a program proven successful in assisting students in obtaining the recognized equivalent of a high school diploma;

(14) It will not deny any form of Federal financial aid to any eligible student solely on the grounds that the student is participating in a program of study abroad approved for credit by the institution;

(15) (i) Except as provided under paragraph (b)(15)(ii) of this section, the institution will use a default management plan approved by the Secretary with regard to its administration of the FFEL or Direct Loan programs, or both for at least the first two years of its participation in those programs, if the institution --

(A) Is participating in the FFEL or Direct Loan programs for the first time; or

(B) Is an institution that has undergone a change of ownership that results in a change in control and is participating in the FFEL or Direct Loan programs.

(ii) The institution does not have to use an approved default management plan if --

(A) The institution, including its main campus and any branch campus, does not have a cohort default rate in excess of 10 percent; and

(B) The owner of the institution does not own and has not owned any other institution that had a cohort default rate in excess of 10 percent while that owner owned the institution.

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

(16) For a proprietary institution, the institution will derive at least 10 percent of its revenues for each fiscal year from sources other than Title IV, HEA program funds, as provided in § 668.28(a) and (b), or be subject to sanctions described in § 668.28(c);

(17) The Secretary, guaranty agencies and lenders as defined in 34 CFR part 682, nationally recognized accrediting agencies, the Secretary of Veterans Affairs, State agencies recognized under 34 CFR part 603 for the approval of public postsecondary vocational education, and State agencies that legally authorize institutions and branch campuses or other locations of institutions to provide postsecondary education, have the authority to share with each other any information pertaining to the institution's eligibility for or participation in the Title IV, HEA programs or any information on fraud and abuse;

(18) It will not knowingly --

(i) Employ in a capacity that involves the administration of the Title IV, HEA programs or the receipt of funds under those programs, an individual who has been convicted of, or has pled *nolo contendere* or guilty to, a crime involving the acquisition, use, or expenditure of Federal, State, or local government funds, or has been administratively or judicially determined to have committed fraud or any other material violation of law involving Federal, State, or local government funds;

(ii) Contract with an institution or third-party servicer that has been terminated under section 432 of the HEA for a reason involving the acquisition, use, or expenditure of Federal, State, or local government funds, or that has been administratively or judicially determined to have committed fraud or any other material violation of law involving Federal, State, or local government funds; or

(iii) Contract with or employ any individual, agency, or organization that has been, or whose officers or employees have been--

(A) Convicted of, or pled *nolo contendere* or guilty to, a crime involving the acquisition, use, or expenditure of Federal, State, or local government funds; or

(B) Administratively or judicially determined to have committed fraud or any other material violation of law involving Federal, State, or local government funds;

(19) It will complete, in a timely manner and to the satisfaction of the Secretary, surveys conducted as a part of the Integrated Postsecondary Education Data System (IPEDS) or any other Federal collection effort, as designated by the Secretary, regarding data on postsecondary institutions;

(20) In the case of an institution that is co-educational and has an intercollegiate athletic program, it will comply with the provisions of § 668.48;

(21) It will not impose any penalty, including, but not limited to, the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that the student borrow additional funds for which interest or other charges are assessed, on any student because of the student's inability to meet his or her financial obligations to the institution as a result of the delayed disbursement of the proceeds of a Title IV, HEA program loan due to compliance with statutory and regulatory requirements of or applicable to the Title IV, HEA programs, or delays attributable to the institution;

(22)(i) It will not provide any commission, bonus, or other incentive payment based directly or indirectly upon success in securing enrollments or financial aid to any person or entity engaged in any student recruiting or admission activities or in making decisions regarding the awarding of Title IV, HEA program funds, except that this limitation does not apply to the recruitment of foreign students residing in foreign countries who are not eligible to receive Title IV, HEA program funds.

(ii) Activities and arrangements that an institution may carry out without violating the provisions of (b)(22)(i) of this section include, but are not limited to:

(A) The payment of fixed compensation, such as a fixed annual salary or a fixed hourly wage, as long as that compensation is not adjusted up or down more than twice during any twelve month period, and any adjustment is not based solely on the number of students recruited, admitted, enrolled, or awarded financial aid. For this purpose, an increase in fixed compensation resulting from a cost of living increase that is paid to all or substantially all full-time employees is not considered an adjustment.

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

(B) Compensation to recruiters based upon their recruitment of students who enroll only in programs that are not eligible for Title IV, HEA program funds.

(C) Compensation to recruiters who arrange contracts between the institution and an employer under which the employer's employees enroll in the institution, and the employer pays, directly or by reimbursement, 50 percent or more of the tuition and fees charged to its employees; provided that the compensation is not based upon the number of employees who enroll in the institution, or the revenue they generate, and the recruiters have no contact with the employees.

(D) Compensation paid as part of a profit-sharing or bonus plan, as long as those payments are substantially the same amount or the same percentage of salary or wages, and made to all or substantially all of the institution's full-time professional and administrative staff. Such payments can be limited to all, or substantially all of the full-time employees at one or more organizational level at the institution, except that an organizational level may not consist predominantly of recruiters, admissions staff, or financial aid staff.

(E) Compensation that is based upon students successfully completing their educational programs, or one academic year of their educational programs, whichever is shorter. For this purpose, successful completion of an academic year means that the student has earned at least 24 semester or trimester credit hours or 36 quarter credit hours, or has successfully completed at least 900 clock hours of instruction at the institution.

(F) Compensation paid to employees who perform clerical "pre-enrollment" activities, such as answering telephone calls, referring inquiries, or distributing institutional materials.

(G) Compensation to managerial or supervisory employees who do not directly manage or supervise employees who are directly involved in recruiting or admissions activities, or the awarding of Title IV, HEA program funds.

(H) The awarding of token gifts to the institution's students or alumni, provided that the gifts are not in the form of money, no more than one gift is provided annually to an individual, and the cost of the gift is not more than \$100.

(I) Profit distributions proportionately based upon an individual's ownership interest in the institution.

(J) Compensation paid for Internet-based recruitment and admission activities that provide information about the institution to prospective students, refer prospective students to the institution, or permit prospective students to apply for admission on-line.

(K) Payments to third parties, including tuition sharing arrangements, that deliver various services to the institution, provided that none of the services involve recruiting or admission activities, or the awarding of Title IV, HEA program funds.

(L) Payments to third parties, including tuition sharing arrangements, that deliver various services to the institution, even if one of the services involves recruiting or admission activities or the awarding of Title IV, HEA program funds, provided that the individuals performing the recruitment or admission activities, or the awarding of Title IV, HEA program funds, are not compensated in a manner that would be impermissible under paragraph (b)(22) of this section.

(23) It will meet the requirements established pursuant to Part H of Title IV of the HEA by the Secretary and nationally recognized accrediting agencies;

(24) It will comply with the requirements of § 668.22;

(25) It is liable for all--

(i) Improperly spent or unspent funds received under the Title IV, HEA programs, including any funds administered by a third-party servicer; and

(ii) Returns any title IV, HEA program funds that the institution or its servicer may be required to make;

(26) If the stated objectives of an educational program of the institution are to prepare a student for gainful employment in a recognized occupation, the institution will--

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

- (i) Demonstrate a reasonable relationship between the length of the program and entry level requirements for the recognized occupation for which the program prepares the student. The Secretary considers the relationship to be reasonable if the number of clock hours provided in the program does not exceed by more than 50 percent the minimum number of clock hours required for training in the recognized occupation for which the program prepares the student, as established by the State in which the program is offered, if the State has established such a requirement, or as established by any Federal agency; and
- (ii) Establish the need for the training for the student to obtain employment in the recognized occupation for which the program prepares the student.

(27) In the case of an institution participating in a Title IV, HEA loan program, the institution --

- (i) Will develop, publish, administer, and enforce a code of conduct with respect to loans made, insured or guaranteed under the Title IV, HEA loan programs in accordance with 34 CFR 601.21; and
- (ii) Must inform its officers, employees, and agents with responsibilities with respect to loans made, insured or guaranteed under the Title IV, HEA loan programs annually of the provisions of the code required under paragraph (b)(27) of this section;

(28) For any year in which the institution has a preferred lender arrangement (as defined in 34 CFR 601.2(b)), it will at least annually compile, maintain, and make available for students attending the institution, and the families of such students, a list in print or other medium, of the specific lenders for loans made, insured, or guaranteed under Title IV, of the HEA or private education loans that the institution recommends, promotes, or endorses in accordance with such preferred lender arrangement. In making such a list, the institution must comply with the requirements in 34 CFR 682.212(h) and 34 CFR 601.10;

(29) (i) It will, upon the request of an enrolled or admitted student who is an applicant for a private education loan (as defined in 34 CFR part 601.2(b)), provide to the applicant the self-certification form required under 34 CFR 601.11(d) and the information required to complete the form, to the extent the institution possesses such information, including --

(A) The applicant's cost of attendance at the institution, as determined by the institution under part F of Title IV, of the HEA;

(B) The applicant's estimated financial assistance, including amounts of financial assistance used to replace the expected family contribution as determined by the institution in accordance with Title IV, for students who have completed the Free Application for Federal Student Aid; and

(C) The difference between the amounts under paragraphs (b)(29)(i)(A) and (29)(i)(B) of this section, as applicable.

(ii) It will, upon the request of the applicant, discuss with the applicant the availability of Federal, State, and institutional student financial aid;

(30) The institution --

(i) Has developed and implemented written plans to effectively combat the unauthorized distribution of copyrighted material by users of the institution's network, without unduly interfering with educational and research use of the network, that include --

(A) The use of one or more technology-based deterrents;

(B) Mechanisms for educating and informing its community about appropriate versus inappropriate use of copyrighted material, including that described in § 668.43(a)(10);

(C) Procedures for handling unauthorized distribution of copyrighted material, including disciplinary procedures; and

(D) Procedures for periodically reviewing the effectiveness of the plans to combat the unauthorized distribution of copyrighted materials by users of the institution's network using relevant assessment criteria. No particular technology measures are favored or required for inclusion in an institution's plans, and each institution retains the authority to determine what its particular plans for compliance with paragraph (b)(30) of this section will be, including those that prohibit content monitoring; and

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

- (ii) Will, in consultation with the chief technology officer or other designated officer of the institution--
  - (A) Periodically review the legal alternatives for downloading or otherwise acquiring copyrighted material;
  - (B) Make available the results of the review in paragraph (b)(30)(ii)(A) of this section to its students through a Web site or other means; and
  - (C) To the extent practicable, offer legal alternatives for downloading or otherwise acquiring copyrighted material, as determined by the institution; and
- (31) The institution will submit a teach-out plan to its accrediting agency in compliance with 34 CFR 602.24(c), and the standards of the institution's accrediting agency upon the occurrence of any of the following events:
  - (i) The Secretary initiates the limitation, suspension, or termination of the participation of an institution in any Title IV, HEA program under 34 CFR 600.41 or subpart G of this part or initiates an emergency action under § 668.83.
  - (ii) The institution's accrediting agency acts to withdraw, terminate, or suspend the accreditation or preaccreditation of the institution.
  - (iii) The institution's State licensing or authorizing agency revokes the institution's license or legal authorization to provide an educational program.
  - (iv) The institution intends to close a location that provides 100 percent of at least one program.
  - (v) The institution otherwise intends to cease operations.
- (c) In order to participate in any Title IV, HEA program (other than the LEAP and NEISP programs), the institution must certify that it--
  - (1) Has in operation a drug abuse prevention program that the institution has determined to be accessible to any officer, employee, or student at the institution; and
  - (2)(i) Has established a campus security policy in accordance with section 485(f) of the HEA; and
  - (ii) Has complied with the disclosure requirements of § 668.47 as required by section 485(f) of the HEA.
- (d)(1) The institution, if located in a State to which section 4(b) of the National Voter Registration Act (42 U.S.C. 1973gg-2(b)) does not apply, will make a good faith effort to distribute a mail voter registration form, requested and received from the State, to each student enrolled in a degree or certificate program and physically in attendance at the institution, and to make those forms widely available to students at the institution.
  - (2) The institution must request the forms from the State 120 days prior to the deadline for registering to vote within the State. If an institution has not received a sufficient quantity of forms to fulfill this section from the State within 60 days prior to the deadline for registering to vote in the State, the institution is not liable for not meeting the requirements of this section during that election year.
  - (3) This paragraph applies to elections as defined in Section 301(1) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(1)), and includes the election for Governor or other chief executive within such State.
- (e)(1) A program participation agreement becomes effective on the date that the Secretary signs the agreement.
  - (2) A new program participation agreement supersedes any prior program participation agreement between the Secretary and the institution.
- (f)(1) Except as provided in paragraphs (g) and (h) of this section, the Secretary terminates a program participation agreement through the proceedings in subpart G of this part.
  - (2) An institution may terminate a program participation agreement.
  - (3) If the Secretary or the institution terminates a program participation agreement under paragraph (f) of this section, the Secretary establishes the termination date.
- (g) An institution's program participation agreement automatically expires on the date that--

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

- (l) The institution changes ownership that results in a change in control as determined by the Secretary under 34 CFR part 600; or
- (2) The institution's participation ends under the provisions of § 668.26(a)(1), (2), (4), or (7).
- (h) An institution's program participation agreement no longer applies to or covers a location of the institution as of the date on which that location ceases to be a part of the participating institution.

### WILLIAM D. FORD FEDERAL DIRECT LOAN PROGRAM

If an institution participates in the William D. Ford Federal Direct Loan (Direct Loan) Program, the institution and its representatives shall comply with the statute, guidelines, and regulations governing the Title IV, Part D, William D. Ford Federal Direct Loan Program as required by 20 U.S.C. §§ 1087a *et seq.* (Part C) and 34 C.F.R. Part 685.

The institution will:

1. Provide for the establishment and maintenance of a Direct Loan Program at the Institution that will:

Identify eligible students who seek student financial assistance in accordance with Section 484 of the Higher Education Act of 1965, as amended (the HEA).

Estimate the need of students as required under Title IV, Part F of the HEA.

Provide a certification statement of eligibility for students to receive loans that will not exceed the annual or aggregate limits, except the Institution may exercise its authority, under exceptional circumstances identified by the Secretary, to refuse to certify a statement that permits a student to receive a loan, or certify a loan amount that is less than the student's determination of need, if the reason for such action is documented and provided in written form to a student.

Establish a schedule for disbursement of loan proceeds to meet the requirements of Section 428G of the HEA.

Provide timely and accurate information to the Secretary concerning 1) the status of borrowers while students are in attendance, any new information pertaining to the status of student borrowers of which the Institution becomes aware after the student leaves the Institution, and 2) the utilization of Federal funds under Title IV, Part D of the HEA at such times and in such manner as prescribed by the Secretary.

2. Comply with requirements established by the Secretary relating to student loan information with respect to the Direct Loan Program.
3. Provide that students at the Institution and their parents (with respect to such students) will be eligible to participate in the programs under Title IV, Part B of the HEA, Federal Family Education Loan programs, at the discretion of the Secretary for the period during which such Institution participates in the Direct Loan Program, except that a student or parent may not receive loans under both Title IV, Part B and Part D of the HEA for the same period of enrollment.
4. Provide for the implementation of a quality assurance system, as established by the Secretary and

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

developed in consultation with Institutions of higher education, to ensure that the Institution is complying with program requirements and meeting program objectives.

5. Provide that the Institution will not charge any fees of any kind, regardless of how they are described, to student or parent borrowers for loan application, or origination activities (if applicable), or the provision and processing of any information necessary for a student or parent to receive a loan under Title IV, Part D of the HEA.
6. Provide that the Institution will originate loans to eligible students and parents in accordance with the requirements of Title IV, Part D of the HEA and use funds advanced to it solely for that purpose (Option 2 only).
7. Provide that the note or evidence of obligation of the loan shall be the property of the Secretary (Options 2 and 1 only).
8. Comply with other provisions as the Secretary determines are necessary to protect the interest of the United States and to promote the purposes of Title IV, Part D of the HEA.
9. Accept responsibility and financial liability stemming from its failure to perform its functions under this Program Participation Agreement.

### **CERTIFICATIONS REQUIRED FROM INSTITUTIONS**

The Institution should refer to the regulations cited below. Signature on this Agreement provides for compliance with the certification requirements under 34 C.F.R. Part 82, "New Restrictions on Lobbying," 34 C.F.R. Part 84, "Governmentwide Requirements for Drug-Free Workplace (Financial Assistance)," 34 C.F.R. Part 85, "Governmentwide Debarment and Suspension (Nonprocurement)," and 34 C.F.R. Part 86, "Drug and Alcohol Abuse Prevention." Breach of any of these certifications constitutes a breach of this Agreement.

#### **PART CERTIFICATION REGARDING LOBBYING; DRUG-FREE WORKPLACE; 1 DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG AND ALCOHOL ABUSE PREVENTION**

##### ***1. Lobbying***

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 C.F.R. Part 82, for persons entering into a Federal contract, grant or cooperative agreement over \$100,000, as defined at 34 C.F.R. Part 82, Sections 82.105, and 82.110, the undersigned certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan or cooperative agreement.

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

- (2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- (3) The Institution shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

### ***2a. Drug-Free Workplace (Grantees Other Than Individuals)***

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 C.F.R. Part 84, Subpart B, for grantees, as defined at 34 C.F.R. Part 84, Sections 84.200 through 84.230 -

The Institution certifies that it will or will continue to provide a drug-free workplace by:

- (a) Publishing a drug-free workplace statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- (b) Establishing an on-going drug-free awareness program to inform employees about-
  - (1) The dangers of drug abuse in the workplace;
  - (2) The Institution's policy of maintaining a drug-free workplace;
  - (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
  - (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
- (c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);
- (d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will -
  - (1) Abide by the terms of the statement, and
  - (2) Notify the employer in writing if he or she is convicted for a violation of a criminal drug statute occurring in the workplace no more than five calendar days after such conviction;
- (e) Notifying the agency, in writing, within 10 calendar days after receiving notice under this subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202. Notice shall include the identification number(s) of each affected grant;
- (f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted -
  - (1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1972, as amended; or
  - (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;
- (g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

### ***2b. Drug-Free Workplace (Grantees Who Are Individuals)***

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 C.F.R. Part 84, Subpart C, for recipients who are individuals, as defined at 34 C.F.R. Part 84, Section 84.300 -

1. As a condition of the grant, the Institution certifies that it will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity related to the award; and
2. If any officer or owner of the Institution is convicted of a criminal drug offense resulting from a violation occurring during the conduct of any award activity, the Institution will report the conviction, in writing, within 10 calendar days of the conviction, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202. Notice shall include the identification number(s) of each affected grant.

### ***3. Debarment, Suspension, and Other Responsibility Matters***

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 C.F.R. Part 85, for prospective participants in primary covered transactions as defined at 34 C.F.R. Part 85, Sections 85.105 and 85.110, the Institution certifies that it and its principals:

- (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
- (b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public or private agreement or transaction; violation of Federal or State antitrust statutes; commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, receiving stolen property, making false claims, or obstruction of justice; or commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects their present responsibility.
- (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and
- (d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default.

### ***4. Drug and Alcohol Abuse Prevention***

As required by the Drug-Free Schools and Communities Act Amendments of 1989, which added section 1213 to the Higher Education Act, and implemented at 34 C.F.R. Part 86, the undersigned Institution certifies that it has adopted and implemented a drug prevention program for its students and employees that, at a minimum, includes--

1. The annual distribution in writing to each employee, and to each student who is taking one or more classes for any kind of academic credit except for continuing education units, regardless of the length of the student's program of study, of:
  - Standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities.

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

- A description of the applicable legal sanctions under local, State or Federal law for the unlawful possession or distribution of illicit drugs and alcohol.
- A description of the health risks associated with the use of illicit drugs and the abuse of alcohol.
- A description of any drug or alcohol counseling, treatment, or rehabilitation or re-entry programs that are available to employees or students.
- A clear statement that the Institution will impose disciplinary sanctions on students and employees (consistent with local, State and Federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violation of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

2. A biennial review by the Institution of its program to:

- Determine its effectiveness and implement changes to the program if they are needed.
- Ensure that its disciplinary sanctions are consistently enforced.

### **PART CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY, AND 2 VOLUNTARY EXCLUSION -- LOWER TIER COVERED TRANSACTIONS**

**The Institution is to obtain the signatures of Lower Tier Contractors on reproduced copies of the certification below, and retain the signed certification(s) in the Institution's files.**

## Appendix A: Worksheet for Institutions on the Assignment of Credit Hours

### CERTIFICATION BY LOWER TIER CONTRACTOR (Before Completing Certification, Read Instructions for This Part 3, below)

- (1) The prospective lower tier participant certifies by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal Department or Agency.
- (2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-- Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

## **Appendix A: Worksheet for Institutions on the Assignment of Credit Hours**

**NOTE:** A completed copy of the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Covered Transactions" form must be retained by the Institution. The original blank certification must be returned with the PPA.

Return to the [Application Index](#)

**Academic Year**  
**2015 – 2016**  
**Course Descriptions**

***Supplement: B1***

### **ACC111 Introduction to Accounting**

**3 credits**—This course covers the terminology, concepts, and procedures involved in financial accounting for businesses. Topics include accounting for cash and accounting for payroll.

**Lecture Hours:** 48

### **ACC115 Introduction to Accounting**

**4 credits**—This course presents the fundamental concepts, procedures, and applications of the accounting cycle for service and merchandising businesses. The proprietorship form of ownership is studied. Topics include the special journals, payroll accounting, and accounting for cash.

**Lecture Hours:** 64

### **ACC116 Introduction to Accounting II**

**4 credits**—This course is a continuation of Introduction to Accounting (ACC-115) emphasizing the principles of accrual accounting. Emphasis is placed on accounting for corporations and a manufacturing business. Topics include accounting for receivables, inventory, and long-term assets.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

### **ACC131 Principles of Accounting I**

**4 credits**—This course is an introduction to basic financial accounting concepts and procedures for service and merchandising businesses. Topics included are the accounting cycle; accounting systems; financial statements; accounting for cash, receivables, payables, inventories, plant assets, partnerships, corporations, and bonds.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D- in MAT063 or equivalent COMPASS or ACT math score.

### **ACC132 Principles of Accounting II**

**4 credits**—The course continues to address topics in financial accounting that began in Principles of Accounting I. Primary emphasis is on managerial accounting and the corporate form of ownership. Topics include accounting for bonds, the statement of cash flows and financial statement analysis. Managerial accounting topics include job order and process cost systems, cost-volume-profit analysis, budgeting and standard cost systems. Capital investment analysis and activity-based costing are also addressed.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in ACC131.

### **ACC190 Financial Analysis**

**2 credits**—This course provides the student with a general framework of corporate finance. The emphasis is limited to financial analysis of business performance and evaluation of alternative choices for investments and working capital.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC222 Cost Accounting**

**4 credits**—This course provides an introduction to the accounting concepts of manufacturing systems. In addition to job order and process costing systems, profit planning and control programs are emphasized.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC231 Intermediate Accounting I**

**4 credits**—This course emphasizes accounting theory as students work with detailed applications of various balance sheet and income statement accounts. Applicable generally accepted accounting principles are emphasized as they relate to each subject area. Time values of money concepts are also introduced.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116.

### **ACC232 Intermediate Accounting II**

**4 credits**—This course continues the detailed applications that began in Intermediate Accounting I. Emphasis is on corporate debt and equity. The statement of cash flows is addressed extensively as well as the accounting for business combinations. The course will conclude with financial statement analysis.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ACC231 Intermediate Accounting I.

### **ACC250 Review for the LPA Exam**

**3 credits**—This course reviews and summarizes the accounting, law, and ethics information received in the accounting program over four semesters to prepare students for the licensing exam.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in ACC132 or ACC116 or instructor approval.

### **ACC265 Income Tax Accounting**

**4 credits**—Emphasis is placed on the understanding of the federal tax system. The student will gain hands on experience preparing the most current tax forms for sole proprietorship businesses and individuals. Tax planning is addressed as it relates to the current and forthcoming year. Students will be provided with an opportunity to use computer software to prepare returns.

**Lecture Hours:** 64

### **ACC311 Computer Accounting**

**3 credits**—This course presents an introduction to a computerized accounting system. Two popular software packages will be used to accumulate, classify, and summarize data about a business.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

**ACC360 Accounting Spreadsheets**

**2 credits**—This course provides the student with an in depth working knowledge of how to use an integrated spreadsheet program to assist in routine jobs. Writing formulas is emphasized along with planning and creating spreadsheets.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA205.

**ACC801 Payroll Accounting**

**1 credit**—This course involves the study of the federal, as well as the state forms and regulations concerning payroll. Students will be completing a comprehensive payroll simulation.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

**ACC803 Accounting Simulations**

**1 credit**—This course provides hands-on experience using a manual and computerized simulation of an accounting cycle. The proprietorship form of business, accrual accounting and other concepts learned in the first accounting course will be the basis for the simulation.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in ACC115 or ACC131.

**ACC924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

Can be completed for up to three credits.

**Lecture Hours:** 16

**ADM105 Introduction to Keyboarding**

**1 credit**—This course presents the technique and development of touch keyboarding. Basic functions of a computer are introduced with emphasis on learning alphabetic, numeric and symbolic keys, and the numeric keypad. The minimum competency of 25 net words per minute, with no more than five errors per timing, on 3 five-minute timed writings is required.

**Lab Hours:** 32

**ADM108 Keyboarding Skill Development**

**1 credit**—The skill building process is continued. This course assists students to improve speed and accuracy. The minimum competency of 40 net words per minute, with no more than five errors per timing, on 3 five-minute timed writings is required.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in ADM105.

**ADM131 Office Calculators**

**1 credit**—The 10-key electronic calculator is used in business related applications. The emphasis is on speed and accuracy as the student performs the basic arithmetical procedures.

**Lab Hours:** 32

**ADM148 Transcription**

**2 credits**—This course builds and strengthens skills in machine transcription. Students are provided instruction for using transcription equipment with emphasis on language skills, including spelling, capitalization, punctuation, and word usage. Emphasis will be on editing, proofreading, and mailability of documents.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA134 and ADM105.

**Pre/Co-requisite(s):** A minimum grade of D- in ADM159 Proofreading and Editing.

**ADM159 Proofreading and Editing**

**2 credits**—This course emphasizes the applications designed to sharpen skills in detecting and correcting errors in written communications including memos, letters, reports, databases, presentation slides, advertisements, and spreadsheets. It also introduces the student to proofreading and editing skills necessary when using current and new technology (i.e. email messages and voice recognition).

**Lecture Hours:** 48

**ADM162 Office Procedures**

**3 credits**—This course provides preparation for employment in today's rapidly changing office environment by exposing a variety of topics including the working environment, oral and written communication, and administrative support services.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in BCA134 and ADM159.

**ADM180 Administrative Management**

**3 credits**—Administrative management is studied including organization, site location, office layout, environment, communication processes, job analysis, job evaluation, salary administration, performance appraisal, and employer/employee relations.

**Lecture Hours:** 48

**ADM200 Legal Document Processing**

**3 credits**—This course familiarizes students with various fields of law and the proper preparation of legal documents utilized in each. Students will apply various skills in preparing legal documents, including transcription skills, communication skills, problem-solving skills, and technical skills.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ADM105, BCA134, and ADM148.

**ADM203 Legal Office Concepts and Procedures**

**3 credits**—This course provides an understanding of the legal office environment and offers a broad spectrum of legal concepts and procedures.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in BCA134.

**ADM208 Legal Terminology**

**3 credits**—This course is designed to familiarize students with the most commonly used legal terms in today's workplace. It emphasizes correct spelling and defining of legal terms.

**Lecture Hours:** 48

**ADM222 Career Capstone**

**3 credits**—Career skills, techniques and strategies that will assist the student in securing and maintaining employment are developed. Students will learn the fundamentals of the job search process, including interviewing skills and employment correspondence.

International, legal, and ethical issues as well as technological developments affecting workplace communication skills are incorporated throughout the course. An individual capstone portfolio will be created. It is required that this course be taken the semester in which the student will be graduating.

**Lecture Hours:** 48

**Prerequisite(s):** Can only be taken in the term in which the student will be completing their program of study.

**ADN122 Advanced Nursing Skills**

**2 credits**—This course provides supervised practice of advanced nursing skills in a laboratory setting. The student is assisted in gaining skill and accuracy through demonstration, supervised practice and evaluation

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** Admission to the Associate Degree Nursing program.

**Co-requisite(s):** ADN123 Physical Assessment

**Pre/Co-requisite(s):** A minimum grade of C in ADN531 Advanced Adult Health Nursing I.

**ADN123 Physical Assessment**

**2 credits**—This course covers basic physical assessment with history taking and data collection, analysis and planning for care, nursing interventions and documentation.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** Admission to the Associate Degree Nursing program. This course begins the 3 year time limit for completion of the ADN curriculum. A minimum grade of C in BIO168.

**Co-requisite(s):** A minimum grade of C in ADN122 Advanced Nursing Skills.

**Pre/Co-requisite(s):** A minimum grade of C in ADN531 Advanced Adult Health Nursing I.

**ADN281 Diet Management**

**1 credit**—This course continues the study of food nutrients and body utilization for good health. There is emphasis on special diets, food exchanges, socio-economic and cultural implications of nutrition.

**Lecture Hours:** 16

**Prerequisite(s):** Admission without conditions to the Associate Degree Nursing program.

**ADN315 Professional Roles of Nursing Practice**

**2 credits**—This course focuses on the role of professional nursing, the implementation of leadership and managerial aspects within the nursing discipline. This course will discuss ethical and legal issues, roles of the registered nurse, the nursing process, critical thinking, and Evidence Based Practice guidelines within nursing practice. Preparation for the licensing exam is also included.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217 Nursing Clinical II, BIO151, BIO185, and SPC101.

**Co-requisite(s):** ADN531 Advanced Adult Health Nursing I, ADN122 Advanced Nursing Skills, and ADN123 Physical Assessment.

**ADN410 Advanced Nursing in OB and PEDS**

**5 credits**—This course provides comprehensive care for childbearing and pediatric clients in wellness and illness with special emphasis on health interruptions and variations and the nursing process needed to meet these variations. Clinical experiences are provided in selective acute care and community settings.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN122, ADN123, ADN315, and ADN531.

**ADN477 Psychiatric Nursing**

**5 credits**—This course focuses on the study and application of modern concepts of psychiatric nursing and effective interactions with people. The student will respond therapeutically to clients with maladaptive behaviors through utilization of the nursing process by applying the principles of mental health and psychiatric nursing.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN123 and ADN315.

**ADN531 Advanced Adult Health Nursing I**

**5 credits**—This course is a study of the concepts of health and illness and of the nursing process in providing comprehensive nursing care for adults requiring advanced medical and surgical care. The content includes a review of shock, stress, immunity, fluid, electrolyte, acid base, eye, ear, respiratory, endocrine, reproductive and musculoskeletal disorders. Clinical experiences are provided in selected acute care settings.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C in ADN122, ADN123, and ADN315.

### **ADN532 Advanced Adult Health Nursing II**

**6 credits**—This course is a continuation of Advanced Adult Health Nursing I. Emphasis is placed on the nursing process in providing comprehensive care of the complex medical- surgical adult patient. The content includes cardiac, peripheral vascular, digestive, hematologic, oncologic, urinary and neurologic disorders. Clinical experiences are provided in acute care and community settings. Selected experience in the nurse manager role is included.

**Lecture Hours:** 64

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN122, ADN123, ADN315, and ADN531.

### **ADN924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGA114 Principles of Agronomy**

**3 credits**—This course presents introductory principles of plant-soil-climate relationships in crop production, plant anatomy, crop plant classification and identification, crop physiology, climate, soils, soil water, tillage and seeding, plant breeding, seed and grain quality, weeds, insects, crop diseases, crop management, harvesting and storage. Global Positioning and Geographic Information Systems in crop systems is discussed.

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGA154 Fundamentals of Soil Science**

**3 credits**—This course presents information on soils and soil fertility, land use, soil formation, soil types, soil testing, soil physical characteristics, soil classes, primary nutrients, secondary nutrients, micro-nutrients, fertilizer materials, fertilizing, and using soil test information. The use of Global Positioning and Geographic Information Systems in recording soil data is covered.

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGA214 Cash Grains**

**3 credits**—This course introduces the production of Iowa's main cash crops; corn and soybeans. Units include: crop history, crop development, seed selection, fertilization, insect and weed control, harvesting, grain handling, marketing, storage and the economic importance of each crop. New and experimental production practices are discussed for practical application.

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGA284 Pesticide Application Certification**

**3 credits**—This course will introduce students to the safe use of agricultural chemicals. Safety precautions and prevention of chemical exposure will be stressed when discussing types of chemicals, usage, application, equipment, and mixing. First aid and responding to chemical contamination will also be discussed. This course prepares the students for taking the Iowa Commercial Pesticide Applicators Certification Exam.

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGA376 Integrated Pest Management**

**3 credits**—This course is designed to make application and use of some materials learned in other courses. Decision making as it deals with the total cropping plan is stressed. An individual will determine from observation weed problems, plant populations, disease problems, insect problems, do yield checks, make recommendations for handling any problems. COURSE PREREQUISITE: NONE

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGA924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **AGB101 Agricultural Economics**

**3 credits**—This course introduces students to basic concepts in economics, including various aspects of an economy-like agriculture, industry, population, food supply, government policies and physical environmental affect on each other and the economy as a whole. Resources used in agricultural production, organization price determination, supply, demand, and profit modernization is studied.

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGB111 Agriculture Enterprise Lab**

**1 credit**—Agriculture Enterprise lab offers students the opportunity to gain hands-on educational experiences by working at the Hawkeye farm laboratory under the supervision of an instructor. Students will be assigned projects with specific enterprises. They will be responsible for completing them in a timely manner for a limited time. This course may be repeated up to three times.

**Lab Hours:** 48

### **AGB235 Introduction to Agriculture Markets**

**3 credits**—This course provides the student with an introduction to grain merchandising and farm marketing. It is taught from the standpoint of a country elevator; however, the same principles apply to many other aspects of the grain industry. We emphasize the elevators relationship and responsibility to its customers. The basic fundamentals of marketing are discussed along with the more advanced aspects of managing basis positions, basis trading and managing risks. Some prior knowledge of country elevators and the futures market is useful but not required.

**Lecture Hours:** 32 **Lab Hours:** 32

**AGB303 Agriculture Leadership**

**3 credits**—This course is designed to enhance students' abilities in the area of leadership. The course includes activities that enable students to develop skills in communication, problem solving, committee work, and parliamentary procedure. Students may be involved in many local, state and nationally organized activities.

**Lecture Hours: 32 Lab Hours: 32**

**AGB331 Entrepreneurship in Agriculture**

**3 credits**—This course introduces students to basic principles of organizing, financing, and managing a business. Including product merchandising and marketing, personnel management, credits, and risk management.

**Lecture Hours: 32 Lab Hours: 32**

**AGB336 Agricultural Selling**

**3 credits**—This course presents aspects of the sales process including: selling success, types of sales questions, creating the selling climate, motivation, attitude, referral prospecting, no referral prospecting, phone sales, sales presentations and demonstrations, qualifying the prospect, overcoming objectiveness, closing twelve power closes, and sales paper work.

**Lecture Hours: 32 Lab Hours: 32**

**AGB466 Agricultural Finance**

**3 credits**—This course introduces the principles and practices employed by today's agriculture and business lending institutions. Instruments used in financing ag production and ag business are covered. Areas of study include interest, investing, payroll, taxes, and financial instruments.

**Lecture Hours: 32 Lab Hours: 32**

**AGC103 Ag Computers**

**3 credits**—This course will introduce students to the hardware, software, word processing, database and spreadsheet programs, as well as various utility software. Applications of various agricultural management uses are covered throughout. Networks, telecommunication, Global Positioning and Geographic Information Systems are also introduced.

**Lecture Hours: 32 Lab Hours: 32**

**AGH107 Horticulture Lab**

**1 credit**—Horticulture lab offers students the opportunity to work in the Hawkeye horticulture laboratory under the supervision of an instructor. Students will be assigned projects and will be responsible for completing them on a timely basis for a limited time. This course may be repeated up to five times.

**Lab Hours: 48**

**AGH112 Introduction to Turfgrass Management**

**3 credits**—This course introduces the types of grass species and their uses; their growth habits, and development as a unique plant species. Proper culture and establishment procedures are studied, as well as their importance to the environment.

**Lecture Hours: 48**

Supplement B1

**AGH119 Herbaceous Plant Materials**

**2 credits**—This course covers identification, adaptation, cultural characteristics and uses of selected annuals, perennials and bulbs suitable for use in landscape and gardens in Iowa. Students will identify the plants covered and will also be required to incorporate them into four flower garden design projects.

**Lecture Hours: 32**

**AGH123 Woody Plant Materials**

**2 credits**—The identification, morphology, landscape use and culture of native and nonnative woody plants of the Upper Midwest. First part of course will include emphasis on deciduous plants. Last part of course will include emphasis on evergreens.

**Lecture Hours: 32**

**AGH134 Greenhouse Production**

**3 credits**—This course explores various employment opportunities in the greenhouse career field. Production theories and practices are studied. Emphasis is on proper techniques of watering, potting, transplanting, fertilizing and various other aspects of greenhouse production. Cultural practices used to produce the most common greenhouse crops are also covered.

**Lecture Hours: 48**

**AGH140 Equipment Operations**

**2 credits**—This course introduces the general care and use of horticultural equipment in turf and landscape maintenance, and construction. Emphasis is on operation, preventative maintenance performed by the operator, daily lubrications and minor adjustments. Students will also mount and dismount accessories used on the equipment. Safe operation of machinery is emphasized.

**Lecture Hours: 16 Lab Hours: 32**

**AGH142 Landscape Construction**

**2 credits**—Principles and practices of landscape construction will be explained. Curriculum encompasses process from initial client contact to installation of plant material and hardscape. Laboratory work in the course involves landscape installation using various materials and techniques

**Lecture Hours: 32**

**AGH143 Equipment Repair**

**3 credits**—This course is an introduction to basic maintenance of mechanical, hydraulic, and electrical systems of gasoline and diesel engines. Maintenance, up-keep and repair techniques on reel mowers, rotary mowers, and other horticulture equipment are covered.

**Lecture Hours: 32 Lab Hours: 32**

**AGH152 Landscape Design Techniques**

**3 credits**—Concepts and applications of landscape design principles are utilized in completing landscape plans. Emphasis is placed on the design principles for preparing, evaluating and selling landscape plans.

**Lecture Hours: 32 Lab Hours: 32**

**AGH159 Landscape Graphics**

**2 credits**—This course is an introduction to landscape graphics associated with drafting equipment and materials, and computer aided drawings

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of C in AGH152 Landscape Design Techniques.

**AGH161 Irrigation Systems**

**2 credits**—This course presents various types of irrigation equipment: heads, valves, controllers, pipe, and the accessories used in an irrigation system. The course presents the function of water, its relationships to plants and soil, and an introduction to water hydraulics.

**Lecture Hours: 32 Lab Hours: 32**

**AGH200 Landscape Estimating and Bidding**

**2 credits**—This course focuses on the fundamentals of creating a landscape project estimate including material take-offs, plant pricing, labor rates, measuring, reading landscape plans and math calculations.

**Lecture Hours: 16**

**AGH211 Advanced Turfgrass Management**

**2 credits**—The course provides opportunities for students to learn techniques of golf course management and operation. Proper construction of specific golf course areas such as: greens, trees, bunkers, basic golf course design is presented. Budgets, irrigation, maintenance and an integrated pest management program are presented.

**Lecture Hours: 48**

**AGH221 Principles of Horticulture**

**3 credits**—This course provides students with an overall view of how man utilizes horticulture plant materials. Topics covered are fruits, vegetables, ornamental plants and their proper use and care. Proper culture and environmental conditions are also included.

**Lecture Hours: 48**

**AGH233 Plant Propagation I**

**3 credits**—Introduces students to techniques used in reproducing plants through sexual and asexual methods. Seedlings, vegetative cuttings, grafts and buddings are practiced in the laboratory.

**Lecture Hours: 32**

**AGH270 Nursery Production**

**2 credits**—This course introduces the student to theory and techniques of springtime nursery production. Students will plant trees, shrubs and evergreens in the horticulture lab nursery, and participate in other nursery cultural practices, such as: weed control, pruning, cultivation, etc.

**Lecture Hours: 16 Lab Hours: 32**

**AGH273 Nursery Management**

**2 credits**—Basic management functions are applied to a plant nursery. Advertising, harvest and sale of trees and shrubs from the school nursery provide students with hands-on experiences. Chemical selection for pest control in a nursery will also be covered. Students will be involved in planning the planting of the horticulture lab nursery.

**Lecture Hours: 32 Lab Hours: 32**

**AGH280 Botany for Horticulture**

**3 credits**—This course presents the basic structure of plant life, plant nomenclature, botanical terminology, the function of plant parts: cells, tissues, roots, and leaves. The physiological processes of plant life; osmosis, photosynthesis, respiration, transpiration, reproduction and the basic principles of genetics, and the plants metabolism is discussed.

**Lecture Hours: 32 Lab Hours: 32**

**AGH281 Arboriculture**

**3 credits**—A study of tree culture with emphasis on propagation, pruning, transplanting, pest control, urban environment concerns and recognition of hazards and liabilities. Methods of evaluation of values of trees also studied.

**Lecture Hours: 48**

**AGH292 Garden Center Management**

**3 credits**—Display, promotion and merchandising in the modern garden center will be stressed. Problems of distribution functions of marketing and their costs will be studied. Management's role in organizing a business and financial planning will be discussed.

**Lecture Hours: 48**

**AGH400 Athletic Field Maintenance**

**3 credits**—Studies specific sport facilities utilizing turf grasses including football, soccer, field hockey, baseball, and softball fields. Techniques of operation, management, maintenance, budgets, construction, and irrigation will be covered.

**Lecture Hours: 32 Lab Hours: 32**

**AGH425 Grounds Maintenance**

**3 credits**—This course introduced basic maintenance practices used on a golf course; golf course etiquette, procedures such as top dressing, aerifying, mowing, verticutting, fertilizing, watering, and changing cups on a green. Introduces maintenance practices used in sports complexes, parks and recreation areas, and commercial and industrial grounds.

**Lecture Hours: 32 Lab Hours: 32**

**AGM104 Electricity**

**3 credits**—This course is an in-depth study of theory in the diagnosing and repair of electrical components and circuitry.

**Lecture Hours:** 48

**AGM107 Gas Engine Rebuild**

**7 credits**—This course covers the theory of gas engines and the construction, diagnosis, and repair of all the systems. Fuel, ignition, and supportive systems are also included.

**Lecture Hours:** 80

**AGM113 Hydraulics I**

**3 credits**—This course covers theory and symbols of hydraulic components. Testing and repair of components is performed according to manufacturer's specifications.

**Lecture Hours:** 32

**AGM126 Diesel Engine Sub Systems**

**3 credits**—A study of diesel fuel systems, air intake systems, cooling systems and exhaust systems.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

**AGM128 Fundamentals of Diesel Engine**

**5 credits**—Students are introduced to diesel engine application, design, construction, theory and operating principles of diesel engines. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 32

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

**AGM142 Diesel Power Transfer Systems**

**4 credits**—Students are introduced to application, design, construction, theory and operating principles of transmission, differentials and final drives.

**Lecture Hours:** 16 **Lab Hours:** 96

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

**AGM224 Hydraulics II**

**4 credits**—This course covers theory and symbols of hydraulic systems. Testing and repair of hydraulic systems is performed with the use of meters and gauges for proper diagnosis.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

**AGM327 Equipment Maintenance**

**7 credits**—This course presents background on theory of operation, diagnosis, and repair of brakes and suspension systems. Students gain knowledge and skill in performing preventive maintenance, service, and inspection of equipment. Arc welding and flame cutting will also be taught. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377. AGM333 Electronics

**3 credits**—This course is a continuing study of electricity in electronic components covering circuitry, diagnosis and repair.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

**AGM408 Power Transfer Systems**

**7 credits**—A study of the power train from the clutch through the rear driving axles. Emphasis is placed on clutch types, transmissions, and drive axles. Key goals of the course are failure analysis and troubleshooting malfunctions.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

**AGM417 Ag Equipment Repair**

**7 credits**—This course is designed to give students the opportunity to apply competencies previously achieved to repair and service projects. Also included is theory and operation, diagnosis, and repair of heating and air conditioning systems. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, DSL377, AGM327, AGM333, and AGM224.

**AGM932 Internship**

**1 credit**—Students will work on-site at a local industry under the direction of a supervisor.

**Co-op Hours:** 64

**Prerequisite(s):** Completion of the Electronic Engineering Technology with a Mechanical Emphasis program. A minimum grade of D- in AGM128.

**AGP333 Precision Farming Systems**

**3 credits**—Fundamental processes of Global Positioning System (GPS) with emphasis on its application to agriculture will be covered. General technical aspects of the GPS satellites, differential correction, and hardware will be covered. The specific application of this technology in agriculture for mapping, navigation, variable rate technology (VRT), and data collection will be discussed and demonstrated on the farm laboratory.

**Lecture Hours:** 32 **Lab Hours:** 32

### **AGP340 Foundations of GIS and GPS**

**3 credits**—This course will introduce fundamental processes of Global Positioning System (GPS) including technical aspects of the GPS satellites, differential correction, and hardware. The specific application of this technology for mapping, navigation, variable rate technology (VRT), and data collection will be discussed and demonstrated. Fundamental processes of Geographic Information Systems (GIS) will also be introduced, including file formats, data base management, spatial analysis and manipulation of data.

**Lecture Hours: 32 Lab Hours: 32**

### **AGP401 Introduction to GIS Software**

**1 credit**—This course provides a conceptual overview and hands-on experience using the software, giving one the background knowledge to quickly take advantage of Arc GIS Software's powerful display and query capabilities. Students will learn basic Arc GIS Software functionality. Students become familiar with the Arc GIS Software user interface and use Arc GIS Software to create, edit, display, query and analyze geographic and tabular data and create maps and charts for use electronically and in print form.

**Lecture Hours: 16**

**Prerequisite(s):** A minimum grade of D- in AGC103.

### **AGP436 Advanced Precision Farming Hardware**

**3 credits**—This course will focus on the installation, operation, and troubleshooting of precision farming hardware components. Students will learn how to install displays, GPS equipment, and various other components used within precision agriculture. Students will properly operate various precision agriculture hardware systems such as displays, variable rate controllers, and GPS equipment. Special attention will be given to training students to troubleshoot problems and learn how to develop cognitive problem solving skills.

**Lecture Hours: 32 Lab Hours: 32**

### **AGP450 Fundamentals of GIS**

**3 credits**—Fundamental processes of Geographic Information Systems (GIS) with emphasis in its application to agriculture will be covered. File formats, data base management, spatial analysis and manipulation of data will be covered thoroughly. Comparisons of GIS and mapping software, and conversions between formats will also be discussed. The lab portion will concentrate on using georeferenced data from mapping and yield monitoring to develop maps from which a VRT prescription will be synthesized.

**Lecture Hours: 32 Lab Hours: 32**

### **AGS113 Survey of the Animal Industry**

**3 credits**—This course introduces students to the species and breeds of domestic livestock and development of an appreciation for the principles of livestock production, and issues facing product marketing. Topics include: breeds, basic management and marketing of farm animals, composition, evaluation and marketing of farm animals, composition, evaluation and marketing of animal products; including beef and dairy cattle, horses, goats, poultry, sheep and swine.

**Lecture Hours: 32 Lab Hours: 32**

### **AGS211 Issues Facing Animal Science**

**2 credits**—Overview of the factors that define contemporary ethical and scientifically based issues facing animal agriculture. Life skills development will be incorporated.

**Lecture Hours: 32**

### **AGS216 Equine Science**

**3 credits**—This course presents the basic management and production practices for horses including nutrition, health care, facilities, reproductive management, breeding and evaluation. The course is designed for students wanting to learn how to care for their own horse or for other owners? horses as a herdsman or in a stable.

**Lecture Hours: 32**

### **AGS218 Domestic Animal Physiology**

**4 credits**—Introduction to the functional anatomy and physiological activities governing the animal body through discussion and observation via video of the various body systems; including cells, senses, nerves, skeletal, circulatory, respiratory, digestive urinary, muscular reproductive and endocrinology. Fundamentals of identification, prevention, and treatment of various common disease problems. This course presents a sound preventative approach to animal health and husbandry as it relates to body health, form and function.

**Lecture Hours: 48 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in AGS113.

### **AGS225 Swine Science**

**3 credits**—This course provides an understanding of the principles involved with comprehensive swine management; selection to marketing. Emphasis will be placed on business aspects, production systems, facilities, health, record systems, and analysis. Field trips and guest speakers will be included. Hands-on training will be included through the swine-teaching herd.

**Lecture Hours: 32 Lab Hours: 32**

### **AGS226 Beef Cattle Science**

**3 credits**—This course prepares students to integrate production principles. Management principles involved with comprehensive beef cattle production will be emphasized. Topics included: overview of the industry, budgeting, record analysis, principles of bull management, cow and heifer management practices, preconditioning programs, feedlot management and marketing. Students receive hands-on experience working with the school teaching herd plus field trips and guest speakers.

**Lecture Hours: 32 Lab Hours: 32**

### **AGS272 Foods of Animal Origin**

**5 credits**—An introduction to contemporary practices in the meat industry with a focus on production, processing and preservation of safe, wholesome, nutritious and palatable animal derived products (meat, dairy, and eggs).

**Lecture Hours: 64 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in AGS113.

### **AGS275 Food Safety and Analysis**

**3 credits**—An introduction to food quality control/assurance and establishment of decision-making processes, looking at potential hazards in the food system along with

ways to ensure safety of products. The 3 modules of this course will be 1) Food hazards 2) HACCP (Hazard Analysis Critical Control Points) and 3) Analysis for potential contamination.

**Lecture Hours: 32 Lab Hours: 32**

### **AGS305 Livestock Evaluation**

**3 credits**—This course develops the student's potential in livestock selection with emphasis placed on the evaluation of breeding animal as well as market animals. The course emphasizes the visual appraisal and the carcass evaluation of beef, swine, and sheep. Production records and grading, and wholesale and retail cuts will be studied.

**Lecture Hours: 32**

### **AGS319 Animal Nutrition**

**3 credits**—This course introduces students to the underlying principles of livestock nutrition through discussion of nutrition information, digestive systems, feedstuffs and ration balancing. Nutritional principles, digestive systems, composition and nutritional characteristics of common feedstuffs, ration formulation and recommended feeding programs of farm animals, including beef and dairy cattle, horses, poultry, sheep and swine will be emphasized.

**Lecture Hours: 32 Lab Hours: 32**

### **AGS924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **AGT700 Special Topics: Agriculture Education**

**1 credit**—This course is designed for secondary agriculture education professionals to develop and enhance knowledge and skills in specific emerging practices, issues, and technical content areas in the broad industry of agriculture.

**Lecture Hours: 16**

**Prerequisite(s):** Secondary Educator

### **AGT805 Employment Experience**

**5 credits**—This course provides students with opportunities to gain on-the-job experience in the agriculture industry. Students will gain an understanding of qualities and skills needed for success in the agricultural field. Coordination and guidance will be provided by department instructors.

**Co-op Hours: 320**

### **AGT928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours: 16**

### **AGV101 Veterinary Assisting**

**3 credits**—This is a Capstone course that will provide students the necessary skills and competencies that are needed to successfully perform the duties of a veterinary assistant. An example of topics covered will include; basic laboratory procedures, animal positioning, and surgical assistance. Staff and animal safety will also be covered.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in AGV154 or instructor approval.

### **AGV121 Veterinary Medical Terminology**

**2 credits**—This class focuses on reading and interpreting medical charts and records, and conversing with veterinary professionals. It is designed for students to develop a working understanding of the language of veterinary medicine.

**Lecture Hours: 32**

### **AGV123 Companion Animal**

**3 credits**—This course provides an understanding of the basic principles of Anatomy and Physiology and Health of companion animals. Additionally the course will offer insight into social behavior and relationships. Also included will be training, housebreaking and obedience.

**Lecture Hours: 32 Lab Hours: 32**

### **AGV140 Veterinary Pharmacology**

**3 credits**—This class introduces the student to small animal pharmaceuticals. Learning is centered on the use, dosage, administration, handling, and storage of commonly used drugs used in small and large animal veterinary practices.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D- in AGS218.

### **AGV154 Veterinary Reception and Administration Skills**

**4 credits**—This class introduces the student to means necessary to establish a working relationship with clients in the veterinary field. Familiarizes students with software used in veterinary practice.

**Lecture Hours: 64**

**ANT105 Cultural Anthropology**

**3 credits**—This course introduces the student to a comparative study of societies around the world. In this course cultural similarities and differences are explored to illustrate how human beings construct and conduct their existence. It emphasizes the origin and maintenance of the human species by studying its evolution, cultural development, ecology, kinship, organizations, and symbolic expressions. (Same as SOC-208)

**Lecture Hours:** 48

**ARC112 Architectural Drafting I**

**3 credits**—This course introduces the student to the drafting environment and includes basic knowledge and fundamental skills of manual drafting. Special emphasis is placed on reproducible line quality, lettering, geometric constructions and layout techniques.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** Must be in program major.

**ARC122 Architectural Drafting II**

**3 credits**—In this course, students develop drafting skills related to residential and light commercial architecture. Working drawings for a house will be produced from preliminary drawings, including a foundation plan, floor plan, exterior elevations and building and wall sections.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** ARC112 and CON113

**ARC175 Building Systems**

**3 credits**—This course is a study of basic construction materials and methods used in residential and light commercial projects. Students will examine building systems by studying the structural, exterior finishing and interior finishing systems.

**Lecture Hours:** 48

**Prerequisite(s):** ARC112 and CON113

**ARC176 Construction Scheduling**

**3 credits**—This course introduces the student to procedures for managing and scheduling materials, and labor equipment for a construction project. The students will examine and develop several of the methods used in organizing, tracking and illustrating a schedule for a construction project. Critical Path Method (CPM) scheduling will be the major focus of this course.

**Lecture Hours:** 32 **Lab Hours:** 32

**Co-requisite(s):** ARC175 Building Systems

**ARC177 Load Calculations**

**3 credits**—Students study wood, steel and concrete structural members as building materials and then size them to meet specific building requirements by using mathematic calculations and Load Tables.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ARC175.

**Co-requisite(s):** MAT744 Technical Math or MAT122 College Algebra

**ARC178 Building Codes and Construction Documents**

**2 credits**—Students study the development, adoption and enforcement of building codes. The effect of codes on building materials and methods is also examined. Students investigate the function and employment of common construction documents used in bidding and the administration of building activities.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in ARC175.

**ARC252 AEC CAD I**

**3 credits**—This course introduces the student to Architectural, Engineering and Construction (AEC) CAD technique for the production of working drawings for a commercial project. Using an AEC CAD program, students will produce drawings for a structural concrete building from preliminary sketches. These drawings include a foundation plan, floor plan, exterior elevations and details.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in ARC122 and CAD105.

**ARC262 AEC CAD II**

**3 credits**—The student will continue the development of AEC CAD skills for the production of a detailed commercial project. In this course the students will be utilizing AEC CAD skills for producing the drawings for the AEC Design Projects course.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in ARC252.

**ARC266 Mechanical Systems**

**2 credits**—Students explore the requirements for plumbing, electrical, heating, cooling, fire safety, lighting, and communications systems in a modern building. Using samples of local codes, the students will correctly size some systems and study working drawings of each of the systems.

**Lecture Hours:** 32

**Prerequisite(s):** ARC 175

**ARC272 AEC Design Projects**

**3 credits**—This is a cap-stone course that requires completion of a comprehensive and culminating project. The project demonstrates integration of previous course work into a project including the development of a team and project administration, building design activities, and supervisory components.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** ARC252, ARC177, ARC178, and ARC266

**ART101 Art Appreciation**

**3 credits**—This course is an examination of the value, esthetic pleasures, structure, function, and history of art. The course explores sculpture, painting, film, drawing, printmaking, photography, ceramics, and architecture. Field trips to galleries allow students the opportunity to personally experience significant visual art.

**Lecture Hours:** 48

### **ART120 2-D Design**

**3 credits**—This course introduces students to the principles of design on the two-dimensional plane. Students are instructed in conceptual thinking, content and art practices, and exposed to design, color theory, and organizational principals. An introduction to materials and practice through the disciplines of drawing, painting, printmaking and collage are part of the conceptualization process offered in this curriculum.

**Lecture Hours: 32 Lab Hours: 32**

### **ART123 3-D Design**

**3 credits**—This course introduces students to the principles of design on the three-dimensional plane. Students are instructed in conceptual thinking, content and art practices, and exposed to the elements of art/design and organizational principles through the utilization of space. An introduction to materials and practice through the disciplines of drawing, designing and drafting are part of the conceptualization process offered in this curriculum. Projects will revolve around paper and card construction, modeling clay, iron wire and found objects.

**Lecture Hours: 32 Lab Hours: 32**

### **ART133 Drawing**

**3 credits**—An introduction to basic drawing. Working with still life props: line, form, values, perspective and composition will be explored, using various wet and dry mediums.

Concentration will be on accurate visual drawing.

**Lecture Hours: 32 Lab Hours: 32**

### **ART134 Drawing II**

**3 credits**—This course concentrates on intermediate drawing problems: Gesture, contour, proportions, mapping techniques and values are studied through the use of props and clothed models. Creative interpretation with various media and approaches are stressed.

**Lecture Hours: 32 Lab Hours: 32**

### **ART143 Painting**

**3 credits**—This course is an introduction to painting in a variety of media. Color theory, design theory and media area applied to exercises, studies, and finished paintings.

Concentration is on developing skills in handling materials and personal expression through painting.

**Lecture Hours: 32 Lab Hours: 32**

### **ART144 Painting II**

**3 credits**—This course is an advanced painting course using a variety of media, with greater emphasis on self-direction. Concentration is on developing advanced skills in handling materials leading to greater abilities and personal expression through painting.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** ART143, equivalent, or instructor approval.

### **ART173 Ceramics**

**3 credits**—A hands-on intensive introduction to clay and glaze materials, integrated with a fresh approach to building interesting forms effectively.

**Lecture Hours: 32 Lab Hours: 32**

Supplement B1

### **ART184 Photography**

**3 credits**—This course provides an introduction to the basics of digital photography, from camera selection to its use as an art form and aesthetic medium. Content includes camera types, lenses, exposure controls, elements of composition, editing fundamentals, and the storage, printing and sharing of photographic images. It will also examine the elements of photographic theory, history and ethics. Students will be able to check out digital cameras provided by the college, or may bring their own, approved photographic equipment. In this hands-on class, students will complete specific technique-based assignments and participate in class demonstrations, discussions and critiques. Text: required. Prerequisite: None.

**Lecture Hours: 32 Lab Hours: 32**

### **ART203 Art History I**

**3 credits**—This course is an introduction to the history of visual art and artists; prehistory through Gothic. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours: 48**

### **ART204 Art History II**

**3 credits**—This course is an introduction to the history of visual art and artists; Renaissance to the present. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass, photography, film, and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours: 48**

### **ART924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **ART928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours: 16**

**ASL245 American Sign Language III**

**4 credits**—This course is a continuation of American Sign Language II. Advanced grammatical constructions and vocabulary are introduced. The course includes conversational fluency as well as familiarity with American deaf culture. This class includes a required lab component. Course units will cover both expressive and receptive skills, plus vocabulary, grammar, and functional usage.

**Lecture Hours: 48 Lab Hours: 32 Prerequisite(s):** ASL131 and ASL161

**ATR145 Applied Industrial Robotics**

**2 credits**—This course will introduce the study of industrial robots. This hands-on course will equip students with the skills for the installation, programming, and troubleshooting of industrial robots.

**Lecture Hours: 16 Lab Hours: 32**

**AUT106 Introduction to Automotive Technology**

**2 credits**—This introductory course provides an introduction to the many facets of the automotive industry to include: careers in the automotive industry, environmental concerns affecting the automotive industry, basic automotive hand tools, specialty tools, precision measuring tools, power tools and shop equipment, using service and shop manuals, and shop safety.

**Lecture Hours: 16 Lab Hours: 32**

**AUT109 Introduction to Automotive Technology II**

**2 credits**—This course includes the use of hand and power tools, the understanding of electronic repair information and the importance of preventative maintenance.

**Lecture Hours: 16 Lab Hours: 32**

**AUT164 Automotive Engine Repair**

**4 credits**—Basic theory of two-cycle and four-cycle gasoline engines and their application will be introduced. Disassembly, inspection and reassembly of an engine will be experienced as well as cooling, lubrication, induction, exhaust, compression and valve systems discussed. Students will develop competencies in precision measuring and services procedures.

**Lecture Hours: 32 Lab Hours: 64**

**AUT204 Automotive Automatic Transmissions and Transaxles**

**4 credits**—This course covers the advanced study of automatic transmission theory and service. The student will review basic automatic transmission theory. The student will study diagnosis, disassembly, inspection, and assembly of different types of automatic transmissions and trans-axles.

**Lecture Hours: 32 Lab Hours: 64**

**AUT307 Automotive Manual Transmissions and Transaxles**

**4 credits**—A comprehensive study of the Manual Transmissions/Transaxle components and their relationship to the application of power to the drive wheels of vehicles.

**Lecture Hours: 32 Lab Hours: 64**

**AUT315 Automotive Differentials and 4-Wheel Drive**

**4 credits**—A comprehensive study of Differentials and Transfer Cases and their relationship to the application of power to the drive wheels of vehicles.

**Lecture Hours: 32 Lab Hours: 64**

**AUT404 Automotive Suspension and Steering**

**4 credits**—Steering and suspension system operation and service procedures are covered. Emphasis is on diagnosis and repair procedures.

**Lecture Hours: 32 Lab Hours: 64**

**AUT504 Automotive Brake Systems**

**4 credits**—Instruction in the theory and operating principles of drum, disc, hydraulic, and anti-lock brake systems. Laboratory procedures for inspecting, testing, diagnosing, repairing, and/or replacing conventional, power brake system components.

**Lecture Hours: 32 Lab Hours: 64**

**AUT537 Automotive Advanced Brake Systems**

**4 credits**—This course explains antilock brake systems. It also covers the diagnosis and repair of this system, as well as traction and stability control.

**Lecture Hours: 32 Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT504.

**AUT610 Automotive Electrical I**

**4 credits**—This introductory course covers basic electronic theory and utilization of electrical measuring instruments. Emphasis will be placed on the application of Ohm's Law and the proper utilization of electronic test equipment including practice with equipment and circuits.

**Lecture Hours: 32 Lab Hours: 64**

**AUT631 Automotive Electronics**

**4 credits**—This course includes the theory of automotive electronics, communication of automotive electronics and repair of electronic systems.

**Lecture Hours: 32 Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT610 and AUT643.

**AUT643 Auto Starting, Charging, and Electrical**

**4 credits**—This course includes automotive electrical theory, electrical components, component operation, testing and repair procedures for automotive charging, starting and electrical systems.

**Lecture Hours: 32 Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT610.

**AUT704 Automotive Heating and Air Conditioning**

**4 credits**—This course will provide instruction in the theory of operation of auto air conditioning and heating systems. Students will learn how to diagnose and service auto air conditioning systems and heating systems.

**Lecture Hours: 32 Lab Hours: 64**

### **AUT827 Automotive Ignition Systems**

**4 credits**—Operation, diagnosis, and repair procedures used to service the modern automotive ignition system.

**Lecture Hours:** 32 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in AUT842.

### **AUT834 Automotive Fuel Systems**

**4 credits**—This course will provide the instruction to introduce the student to basic fuel system principles. Students will study theory and will gain hands-on experience by cleaning, repairing, and adjusting automotive fuel systems.

**Lecture Hours:** 32 **Lab Hours:** 64

### **AUT842 Auto Computerized Engine Controls**

**4 credits**—This course builds upon the knowledge and skills learned in previous automotive courses to prepare the student to service On-Board Diagnosis 2 computer-controlled vehicles. The theory and operating principles of automotive computers, sensors and control devices will be emphasized. Lab instruction on late model cars will be included.

**Lecture Hours:** 32 **Lab Hours:** 64

### **AUT886 Comprehensive Application**

**4 credits**—Students are presented with diagnostic problems and repair projects. Competencies attained in prior classes are emphasized.

**Lecture Hours:** 32 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in AUT106, AUT109, AUT164, AUT610I, AUT504, AUT643I, and AUT307.

### **BCA087 College Prep Computer Skills**

**3 credits**—This non-transfer course is designed to assist students who have limited experience with a personal computer. Skills emphasized will include keyboarding, file management, Internet navigation, email, and entry level functions of word processing and presentation software. Students may use this course to prepare for other computer applications courses.

**Lecture Hours:** 16 **Lab Hours:** 64

### **BCA132 Electronic Communications**

**3 credits**—An introductory course in electronic communications designed to provide the students with a basic understanding of electronic mail, presentation software, and desktop publishing software. Students will be given hands-on experience with the software.

**Lecture Hours:** 48

**Prerequisite(s):** CSC110 or ADM105 and BCA134

### **BCA134 Word Processing**

**3 credits**—This course will provide word processing concepts, terminology, and experience producing entry-level and advanced documents found in typical business offices. The major focus of the course is on mastery of word processing functions and concepts.

**Lecture Hours:** 48

**Co-requisite(s):** ADM105 Introduction to Keyboarding

### **BCA183 Basic Web Design Software**

**2 credits**—This course will show students how to use a web authoring software to enhance and manage professional quality web sites. Students will create a web site containing multimedia elements, publish it, and maintain it.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** WDV102

### **BCA191 Computer Applications**

**2 credits**—This course presents the application of the personal computer as a productivity tool. Basic functions of computer hardware and software and their interaction are introduced. Various components of a computer system are included with hands-on emphasis of the manipulation of word processing, spreadsheet, and database software.

**Lecture Hours:** 16

### **BCA201 Introduction to Information Systems**

**3 credits**—The purpose of this course is to provide the student with a firm understanding of management information systems. Included are an introduction to hardware and data communication technology, software and data management, and business applications of the technology. The course will present the basics of information system design and management, and provide opportunities to experience working with an electronic spreadsheet, data base management system and programming using HTML.

**Lecture Hours:** 48

**Prerequisite(s):** Basic computer, software and keyboarding skills are required.

### **BCA205 Database/Spreadsheets**

**3 credits**—This course emphasizes file management and learning to generate and format spreadsheets and databases. File management tasks include managing folders and moving, copying and deleting files. Spreadsheet tasks include making entries, correcting entries, entering formulas and creating charts. Database tasks include designing and creating tables, generating queries, creating forms and reports, and database maintenance. Basic computer literacy is expected of students enrolling in this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in RDG039 and appropriate math placement score.

**Co-requisite(s):** Ability to type 15 net WPM on a five-minute timing. Test will be given on the first day of class.

### **BCA213 Intermediate Computer Business Applications**

**3 credits**—This course covers advanced computer applications including word processing, spreadsheet, database, and presentation software. Topics include using mail merge, desktop publishing, using database functions in a spreadsheet, templates, creating customized reports and forms in database, advanced features of presentation software, importing and exporting data.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in BCA205, BCA201, and BCA134.

### **BCA232 Multimedia for Web Design**

**3 credits**—This course is designed to show students the tools and methods for using multimedia objects in web development. Media types discussed will include streaming video and audio, animation, inline media and on-line chat. Students will create website that incorporate multimedia elements.

**Lecture Hours: 32 Lab Hours: 32**

### **BCA924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **BIO042 Prep Science for Health Careers**

**3 credits**—This course provides a focused examination of study skills/strategies and a foundation in biology to help students be more successful in health career classes.

Students will be introduced to and given the opportunity to practice a variety of skills for academic success. Students will be introduced to major topics relating to health science curriculum: basic math, terminology, chemistry, and cell biology. Selected topics from the body systems will also be introduced.

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of C- in MAT052 and RDG039.

### **BIO105 Introductory Biology – Effective Fall 2015**

**4 credits**—This course provides an introduction to living organisms, their diversity, structure and function and how they maintain themselves both during their life cycle and as a species. It is designed to highlight concepts of the biological sciences for the non- biology major and satisfies the requirement for a life science course for the Associate in Arts or Science degrees. There are three hours of lecture and two hours of laboratory each week.

**Lecture Hours: 48 Lab Hours: 32**

### **BIO105 Introductory Biology – Effective Summer 2016**

**4 credits**—This course provides an introduction to living organisms, their diversity, structure and function and how they maintain themselves both during their life cycle and as a species. It is designed to highlight concepts of the biological sciences for the non- biology major.

**Lecture Hours: 48 Lab Hours: 32**

### **BIO112 General Biology I**

**4 credits**—This lecture and laboratory course is the first of a two semester sequence designed for students with a specific interest in majoring in the biological sciences or a desire for a more comprehensive undergraduate course in the discipline. The course integrates the basic principles of general biology and focuses on their interrelationships. The major themes addressed include levels of organization, cell structure and metabolism, the genetic basis of life, evolution, diversity and ecological relationships. Laboratory exercises are coordinated with lecture topics to enhance the student's understanding of these topics.

**Lecture Hours: 48 Lab Hours: 32**

### **BIO113 General Biology II**

**4 credits**—This lecture and laboratory course is part of a two semester sequence designed for students with a specific interest in majoring in the biological sciences or a desire for a more comprehensive undergraduate course in the discipline. The major focus of this course is on the diversity of life forms, including microbes, protists, the fungi, plants and animals. The course will include the study of their structure and function, evolutionary patterns, ecological relationships and behavior. Laboratory exercises are coordinated with lecture topics to enhance the student's understanding of the lecture concepts.

**Lecture Hours: 48 Lab Hours: 32**

### **BIO151 Nutrition**

**3 credits**—Principles of Nutrition will introduce students to the science of nutrition. The course will examine individual nutrients; their structure and function in the human body; nutrient composition of food; and selection of food to meet nutrient needs, maintain health and satisfaction. Students will understand and apply present day knowledge of nutrition to dietary patterns and needs of selected individuals and groups. The course is an advanced beginning course in human nutrition designed for students with a science background.

**Lecture Hours: 48**

### **BIO154 Human Biology**

**3 credits**—Human Biology explores human structure and function and the relationship of humans to other living organisms. The course examines the application of basic biological principles to practical human concerns. The course is a one-semester biology course intended for students who do not wish to major in the biological or health sciences.

**Lecture Hours: 48**

### **BIO159 Fundamentals of Anatomy and Physiology**

**3 credits**—This course provides a basic overview of the anatomy and physiology of the human body. It is designed to provide practical nursing, and other health science students with an understanding of normal body structure and function as a basis for the study of variations from normal health.

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of C in BIO042.

### **BIO163 Essentials of Anatomy and Physiology**

**4 credits**—An introduction to the principles of human anatomy and physiology beginning with the cellular/biochemical level of organization and progressing through a comprehensive study of organ systems emphasizing homeostasis. This is a one-term transfer level class designed for students entering allied health fields or biological sciences. (To be applicable to any health career program, successful completion with a grade of "C" or better is required.) Each student must enroll for one laboratory section.

**Lecture Hours:** 48 **Lab Hours:** 32

### **BIO168 Human Anatomy and Physiology I**

**4 credits**—The first of a two-semester sequence especially designed for students pursuing careers in allied health fields as well as any student desiring an in-depth undergraduate transfer course. The course focuses on the interdependent relationships between the structure and functions of body systems and the ways these parts interact (homeostasis) to insure the survival of the organism. Major topics addressed include levels of organization, the chemistry of life, support/movement, integration/control, and coordination. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions. To be applicable to any health career program, successful completion of both BIO-168 and BIO-173 with a grade of "C" or better is required.

**Lecture Hours:** 48 **Lab Hours:** 32

### **BIO173 Human Anatomy and Physiology II w/Lab**

**4 credits**—The second of a two-semester sequence designed for students pursuing careers in allied health fields or wishing an in-depth undergraduate transfer course in the biological sciences. The course focuses on interdependent relationships between the structures and functions of body systems and the way these parts interact (homeostasis) to insure survival of the organism. Major topics addressed include systems associated with circulation, maintenance, elimination and continuity. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO168.

### **BIO185 Microbiology w/Lab**

**3 credits**—This lecture-laboratory course emphasizes a survey of general topics needed by students entering careers in allied health fields as well as any student desiring a background in microbiology. The course covers aspects of microbial function, nutrition and growth, metabolism, energy procurement, medical genetics, genetic engineering, control using physical and chemical agents, host-parasitic relationships as well as beneficial roles of microorganisms. Coordinated laboratory exercises enhance and support the lecture topics.

**Lecture Hours:** 32 **Lab Hours:** 32

### **BIO186 Microbiology**

**3 credits**—Morphology, physiology, taxonomy, and relationship of microorganisms to disease. In-depth laboratory study and suitable lecture material with applications to agriculture, industry, and medicine.

**Lecture Hours:** 48 **Lab Hours:** 32

### **BIO247 Applications of Biotechnology**

**3 credits**—This lecture-lab course focuses on the laboratory procedures used in biotechnology and their application to agriculture, nursing, police science, and research. Students will learn the procedures and develop proficiency in such techniques as tissue culture, DNA manipulation, extraction, transformation, polymerase chain reaction (PCR), and DNA fingerprinting. Students will also be introduced to spectroscopy. The course will also provide exposure to new and emerging topics.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CHM122 and BIO105, BIO112, or BIO185.

### **BIO924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **BIO928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

**Lecture Hours:** 16

### **BUS102 Introduction to Business**

**3 credits**—An introductory survey course which provides an overview of the major functions in business with relation to current social, economic and environmental concerns.

**Lecture Hours:** 48

### **BUS180 Business Ethics**

**3 credits**—This course is an introduction to ethical decision making in business. There is an examination of individual, organizational, and macrolevel issues in business ethics.

This course does not determine correct ethical action; it is designed to assist the potential businessperson to make more informed ethical decisions on a daily basis. Dilemmas, real life situations and cases provide an opportunity for you to use concepts in the assignments and to resolve ethical issues. Since there is no universal agreement on the correct ethical business norms, critical thinking and informed decision making are emphasized.

**Lecture Hours:** 48

### **BUS183 Business Law**

**3 credits**—An introduction to the principles of law as they relate to business. This course includes an overview of our court system, sources of law, ethics and social responsibility, contracts, warranties, real property, landlord and tenant, negotiable instruments, and agency. Emphasis is placed on exploring the law as it affects businesses and individuals.

**Lecture Hours:** 48

**BUS210 Business Statistics**

**3 credits**—Application and interpretation of probability and statistics as they relate to business problems; design of experiment, descriptive statistics, sampling, estimation, correlation, linear regression, hypothesis testing, and analysis of variances.

**Lecture Hours:** 48

**Prerequisite(s):** MAT156

**BUS220 Introduction to International Business**

**3 credits**—This course focuses on marketing management problems, techniques, and strategies needed within the world marketplace. Understanding a country's cultural and environmental impact is emphasized. Worldwide consumerism, economic and social development, the spread of multinational corporations, business ethics, cultural diversity, and current economic and marketing issues will be examined.

**Lecture Hours:** 48

**BUS230 Quantitative Methods for Business Decision Making**

**3 credits**—Quantitative and qualitative aspects of problem solving and decision making in business are covered. Topics include structuring and the basics of decision making, classification theory, functional relationships, marginal analysis, resource allocation, and probability.

**Lecture Hours:** 48

**Prerequisite(s):** MAT156

**BUS903 Business Field Experience**

**3 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 192

**Prerequisite(s):** 2.00 cumulative GPA

**BUS905 Golf Course Internship**

**3 credits**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in MGT222.

**BUS905 Golf Course Internship**

**1 credit**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MGT222.

**CAD105 CAD I**

**2 credits**—This course introduces and provides the student an opportunity for hands-on experience in computer-aided drafting (CAD) to prepare two-dimensional drawings.

Students focus on the architecture of computer systems, terminology, disk operating systems and procedures, and basic CAD drafting commands.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** CSC110 or ELT192 or CIS102

**CAD200 CAD SoftPlan**

**3 credits**—The CAD SoftPlan course will introduce students to an object based CAD program and the process involved in generating a complete set of residential working drawings. Emphasis will be placed on setting up a drawing, using file management, organizing architectural information, paying attention to detail, converting sketches to CAD, modifying CAD drawings, and applying problem solving skills.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** CON102

**CET122 Construction Drawing/Contract**

**2 credits**—The course examines typical building and civil construction plans and introduces the methods of bidding and contracting for building projects.

**Lecture Hours:** 16 **Lab Hours:** 32

**CET133 Construction Methods and Resources**

**3 credits**—Methods of and problems related to construction of highways and buildings are covered. Examination is done of the commonly utilized resources - money, materials, equipment, personnel - and their management. Production and handling costs are discussed. Productivity, construction scheduling and construction safety are also covered briefly.

**Lecture Hours:** 32 **Lab Hours:** 32

**Pre/Co-requisite(s):** MAT744 or MAT122

**CET142 PC Concrete, HMA, and Testing**

**3 credits**—This course covers types, production, and physical properties of asphalt and Portland cements, testing and selection of mineral aggregates and concrete mix designs, laboratory testing procedures of mix evaluation and quality control methods for asphalt and Portland cement concretes.

**Lecture Hours:** 32

**Prerequisite(s):** Must be in program major.

**CET160 Surveying**

**3 credits**—Surveying includes the use of surveying instruments and note-keeping for level circuits, topographic surveys, traversing, and construction surveys. Computations to determine errors, distances, azimuths, bearings, angles, areas, volumes, and topics in photogrammetry are included.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** MAT744 or MAT122

### **CET182 Structural Detailing Using CAD**

**2 credits**—Structural Detailing uses mostly computer-aided drafting (CAD) and computer techniques to prepare drawings for highway structures which include structural steel, reinforced concrete and structural timber. Course includes the preparation of bar bend details, reinforcing bar lists, and quantity calculations. Topics from the Department of Transportation Specifications are covered also.

**Lecture Hours:** 16  
**Prerequisite(s):** CAD105

### **CET213 Route Surveying/Roadway Design**

**3 credits**—Route surveying covers horizontal and vertical curves (circular, parabolic, and spiral), earthwork, and elements of safety and photogrammetric applications. Fieldwork includes surveying for a grading project and drafting the plan and profile, cross-sections, and calculating and balancing earth volumes. Roadway design incorporates the use of a computer-aided roadway design software package and includes topographic mapping, highway design, and plotting project drawings.

**Lecture Hours:** 16 **Lab Hours:** 32  
**Prerequisite(s):** CET160

### **CET223 Soils, Testing, and Foundations**

**3 credits**—Students study the origin, structure, identification, and engineering classification of soils, moisture-density relationships, standard laboratory testing procedures, compressive and shearing strength of soil and bearing capacity of soils and piling.

**Lecture Hours:** 32  
**Prerequisite(s):** MAT744 or MAT122

### **CET233 Fundamentals of GPS and GIS**

**3 credits**—This course will introduce fundamental processes of Global Positioning Systems (GPS) including technical aspects of GPS satellites, differential corrections and hardware. The specific application for mapping and data collection will be discussed and demonstrated. Fundamental processes and applications of Geographic Information Systems (GIS) will also be introduced, including file formats, data base management, spatial analysis and manipulation of data.

**Lecture Hours:** 32 **Lab Hours:** 32  
**Prerequisite(s):** CET160

### **CET253 Fundamentals of Construction Estimating**

**3 credits**—Students learn the fundamental principles of construction estimating. The course stresses the organization of the estimate, the procedure of estimating costs in different divisions of the project and determining the critical quantities of materials obtained from a set of plans.

**Lecture Hours:** 32 **Lab Hours:** 32

### **CET256 Land Surveying**

**3 credits**—This course covers topics of the U.S. Public Land Survey System, Iowa laws regarding surveying and the preparation and recording of plats. Fieldwork is required to collect boundary measurements and field astronomy for a North azimuth. Calculations include astronomical bearings, traverse adjustment, area and partition of land. Computer drafting is used in the preparation of the plat.

**Lecture Hours:** 16 **Lab Hours:** 64  
**Prerequisite(s):** CET160

### **CET262 Environmental Technology**

**3 credits**—Topics covered include hydraulics, hydrology, water quality, water and sewer systems, storm water control, solid and hazardous waste, and air and noise pollution.

**Lecture Hours:** 32 **Lab Hours:** 32  
**Prerequisite(s):** MAT744 or MAT122

### **CET285 Structural Steel/Reinforced Concrete Design**

**3 credits**—Structural Steel Design covers the design of beams, columns, bolted and welded connections, base and bearing plates, and tension members. Reinforced Concrete Design covers the strength and behavior of reinforced concrete in the design of such structural members as beams, slabs, walls, columns and footings.

**Lecture Hours:** 16 **Lab Hours:** 64  
**Prerequisite(s):** EGT243

### **CHM122 Introduction to General Chemistry**

**3 credits**—An introductory course which assumes a minimal student background in mathematics and chemistry. The course is intended to serve students in allied health programs and any student desiring an application-oriented, less theoretical approach to chemistry. The course introduces students to the practical aspects and basic concepts of chemistry including measurements, dimensional analysis, matter, energy, atoms, elements, the Periodic Chart, nuclear chemistry, chemical bonding, nomenclature, an introduction to organic chemistry, chemical quantities, formulas, gases, chemical calculations, balancing equations, solutions, acids and bases, chemical kinetics, and equilibrium. Coordinated laboratory exercises are intended to emphasize topics covered in the lecture as well as stress basic laboratory techniques. Elementary algebra is required as a prerequisite.

**Lecture Hours:** 48 **Lab Hours:** 32  
**Prerequisite(s):** A minimum grade of C in MAT063.

### **CHM132 Introduction to Organic and Biochemistry**

**4 credits**—This lecture-laboratory course is intended primarily to serve undergraduate health-related majors such as nursing and dental hygiene as well as the general studies students seeking an integrated background in organic and biological chemistry. Students will study topics applications from a clinical, human or environmental perspective. Laboratory exercises are coordinated with the lecture topics.

**Lecture Hours:** 48 **Lab Hours:** 32  
**Prerequisite(s):** CHM122

### **CHM165 General Chemistry I**

**4 credits**—This lecture and laboratory course is the first of a two-semester sequence designed specifically for students majoring in chemistry, physics, biology, or pre-engineering. It is a mathematically rigorous course that assumes the entering student has a strong background in algebra and finite mathematics. Students will learn specific-content chemical information that will be applied within the context of a variety of chemistry applications. Many of the applications that will be investigated highlight contemporary social and scientific issues. Through participation in course activities, each student should expect to improve her/his knowledge of chemistry and to develop improved qualitative and quantitative problem-solving skills. Hands-on experience with laboratory experiments will allow students to learn proper procedures, to gather meaningful data, and to draw logical and appropriate conclusions based on the laboratory data. Content will include chemical equations, stoichiometry, gases, thermochemistry, equilibrium, electronic structure of atoms, periodic trends, molecular bonding and structure, intermolecular forces, and nuclear chemistry.

**Lecture Hours: 48 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C- in MAT102, MAT110, or MAT156. Highly recommended that the prerequisite class be passed with a C- or better in the past 5 years.

### **CHM175 General Chemistry II**

**4 credits**—This lecture and laboratory course is the second of a two semester sequence designed specifically for students majoring in chemistry, physics, biology or pre-engineering. Students will have successfully completed General Chemistry I or its' equivalent. The course focuses on chemical equilibria and their applications, thermodynamics, kinetics, modern materials, electrochemistry, properties of solutions, chemistry of the representative main group and transition elements, coordination compounds, basic organic chemistry, biological chemistry, and chemistry of the environment. Specific topics are outlined under the course content. Laboratory exercises are coordinated with lecture topics where possible, and are intended to augment and support these topics.

**Lecture Hours: 48 Lab Hours: 32**

**Prerequisite(s):** CHM165

### **CHM260 Organic Chemistry I**

**3 credits**—Theory and practice of organic chemistry with emphasis on the chemistry of functional groups, structure, bonding, molecular properties, reactivity and nomenclature of alkanes, alkenes, alcohols and ethers, stereochemistry, reaction mechanism, nucleophilic substitution and elimination reactions.

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of C- in CHM165 and CHM175.

### **CHM924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours: 16**

### **CHM928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours: 16**

### **CIS102 Introduction to Computers**

**2 credits**—This course introduces the basic use of the personal computer. The course includes a study of DOS (disk operating system), Windows, and word processing.

**Lecture Hours: 16 Lab Hours: 32**

### **CIS121 Introduction to Programming Logic**

**3 credits**—This course will introduce language independent programming logic design techniques. Students will learn techniques such as flow-charting and pseudo-code to build complete programs that can be translated into modern programming languages. Students will learn to use elements of decision making, looping, control breaks, and arrays. Language independent Object Oriented Programming will be introduced along with other advanced topics.

**Lecture Hours: 32 Lab Hours: 32**

### **CIS206 Web Scripting**

**3 credits**—This course is designed to give students experience in creating dynamic web sites. Students will use JavaScript to add interactivity to web site. Students will explore the Document Object Model as well as advanced techniques.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS231 and CIS215.

### **CIS215 Server Side Web Programming**

**3 credits**—This course is designed to give the student the tools and the knowledge to program using the web programming language ASP.NET as a server side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in WDV102, WDV105, and CIS121.

**Pre/Co-requisite(s):** A minimum grade of D in MAT110.

### **CIS217 Data Driven Web Page**

**3 credits**—This course is designed to give the student the tools and the knowledge to program a web application using PHP and MySQL. This course covers advanced topics such as administration pages for the web site for the management of the web application. This course is a continuation of CIS231 PHP Programming.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of D in CIS215.

**CIS225 Advanced Server Side Web Programming**

**3 credits**—This course will build on the skills learned from Server Side Web Programming. This course will work with advanced topics in Active Server Pages. Students will be expected to create entire web sites using information learned in this course. A practical hands-on approach will be utilized.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in CIS215.

**CIS231 PHP Programming**

**3 credits**—This course is designed to give the student the tools and the knowledge to program using the web programming language PHP as a server side language. This course goes over the syntax and usage of the language. This course will introduce the basics of web applications.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in WDV102, WDV105, and CIS121.

**Pre/Co-requisite(s):** A minimum grade of D in MAT110.

**CIS234 Web Site Administration**

**3 credits**—This course is designed to introduce students to the various platforms that support the servicing web sites. Students will understand HTTP, FTP and SMTP and configure the services. Students will also host and maintain several websites on a server.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** WDV102

**CIS249 Web Languages**

**3 credits**—This course is designed to give the student an exploration of other web languages used on the web, and learn the basics of those languages.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in CIS215 and CIS231.

**CIS274 E-Commerce Design**

**3 credits**—This course will introduce students to using the Internet as a medium for marketing, sales and support of a product. Students will learn how to adapt a traditional business model to an electronic model.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** CIS206

**CIS303 Introduction to Data Base**

**3 credits**—This course will introduce students to data management using databases. Focus will be given to database models, data storage concepts, SQL and data warehousing.

**Lecture Hours:** 32

**CIS355 Database Design and Management**

**4 credits**—This course will introduce students to data management using databases. This includes database design, normalization/optimization, relationships, security, and database management systems.

**Lecture Hours:** 48 **Lab Hours:** 32

**CIS604 Visual Basic**

**3 credits**—This class will introduce students to creating programs using the Visual Basic language. Students will gain experience in creating applications automating processes using Visual Basic.

**Lecture Hours:** 32

**CIS750 Project Management**

**3 credits**—This course is designed to provide students exposure to project management and its importance to improving success in information technology projects. Topics addressed in the course will include triple constraints of project management, project life cycle, cost estimates, value management and motivation theory, and team building. Tools and techniques important to project management will also be presented, including project selection methods, work breakdowns, network diagrams, critical path analysis, and scheduling. Students will have the opportunity to utilize software to help plan and manage an information technology project.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in NET313 and a minimum grade of D in NET213.

**CLS130 African Cultures**

**3 credits**—This course will explore the development of Sub-Saharan African civilizations from the dawn of humanity to the issues facing the continent today. The first part of the course will look at the indigenous and colonial heritage of Africa. The second part will examine the political, economic, social, religious, environmental, and gender issues and realities facing the African today. The third part will expose students to significant African contributions and trends in prose, poetry, drama, art, music and dance.

**Lecture Hours:** 48

**CLS141 Middle Eastern History and Culture**

**3 credits**—This interdisciplinary course will examine the history of the Middle East with particular emphasis on the period since the birth of Islam. The course will also explore the cross-cultural exchanges that ancient Middle Eastern and Islamic civilizations have engaged in with other world civilizations. Among the topics covered in this course are the foundation and development of Islam, the cultural influence and spread of Islamic civilization, the creation and politics of modern nation-states, and emergence of Islamist politics.

**Lecture Hours:** 48

**CLS150 Latin American History and Culture**

**3 credits**—This course will explore the development of Latin American civilization from its ancient origins to the issues facing the region today. The course will look at the indigenous and colonial heritage of the area; examine its shared cultural, literary, economic, social, and political contributions and trends; and look at the history and current issues facing the individual countries or sub-regional groupings.

**Lecture Hours:** 48

### **CLS160 East Asian Cultures**

**3 credits**—East Asian Cultures is an interdisciplinary course that will explore the emergence of East Asian civilization, its development and diversification, and its contacts and exchanges with other world civilizations. Primary emphasis is on China. The course will explore the various historical, cultural, religious, philosophical, economic, political, social, demographic and geographic factors that make this such a diverse and dynamic civilization and will also draw comparisons between China and neighboring countries.

**Lecture Hours:** 48

### **CLS164 Japanese History and Culture**

**3 credits**—Japanese History and Culture is an interdisciplinary course that will explore the emergence of Japanese civilization, its development, diversification, and its contacts and exchanges with other world civilizations. The course will explore the various historical, cultural, religious, artistic, philosophical, economic, political, social, cultural, demographic, and geographic factors that make Japan such a diverse and dynamic civilization.

Emphasis will be placed upon attempting to understand Japanese culture as being both unique and as intimately related to other cultures.

**Lecture Hours:** 48

### **CLS172 Russian Civilization**

**3 credits**—Russia's turbulent past and uncertain present will be discussed in this interdisciplinary course. It will examine the major political, economic, geographic, social, cultural, religious, and other factors that have contributed to the development of Russian civilization. Emphasis will be placed upon understanding Russia as both a unique Eurasian civilization and a part of the global community of nations.

**Lecture Hours:** 48

### **CLS924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CLS928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics germane to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **CNS106 Wildlife Ecology**

**4 credits**—This course examines wildlife ecology. Students will be introduced to wildlife management to apply ecological knowledge in ways to find a balance between the needs of wildlife and the needs of people.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** CNS121

Supplement B1

### **CNS107 Outdoor Recreation Techniques**

**1 credit**—This course provides an introduction into basic outdoor recreation techniques commonly utilized by naturalists and conservation professionals to help citizens gain an appreciation of their environment. Recreational techniques will include activities such as canoeing, kayaking, hiking, spelunking, cross-country skiing, and snowshoeing.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in RDG038.

### **CNS108 Wildlife Identification**

**3 credits**—This course will provide information to assist in the identification of common wildlife of Iowa. Wildlife will be identified not only by physical characteristics, but by many other characteristics. Vertebrates, insects, and macroinvertebrates will be covered. Major groups of vertebrates including mammals, birds, fish, reptiles, and amphibians will be studied.

**Lecture Hours:** 32 **Lab Hours:** 32

### **CNS121 Environmental Conservation**

**3 credits**—Environmental Conservation is a course that enables students to learn about their environment. Students study about natural ecosystems, interactions within ecosystems, ecological principles and their application, the impact our increasing population has on the environment, the importance and components of a sustainable agriculture, and the environmental issues facing today's world.

**Lecture Hours:** 32 **Lab Hours:** 32

### **CNS134 Wildlife Management**

**4 credits**—This course will provide a foundation in the dynamics of wildlife conservation and management. This course relates the biological concepts of wildlife populations, habitat management, management goals and applications geared toward various forms of wildlife.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** CNS106

### **CNS136 Aquatic Management**

**3 credits**—This course introduces aquatic conservation and management. Basic background on aquatic environments, the ecology of fish, and the characteristics of humans who utilize aquatic resources or indirectly interact with them through land- and water-use activities will be covered.

**Lecture Hours:** 32 **Lab Hours:** 32

### **CNS138 Woodland Management**

**3 credits**—This course will provide an introduction to woodland management from an ecological management perspective. Management of small properties will be emphasized.

**Lecture Hours:** 32 **Lab Hours:** 32

### **CNS143 Fire Management**

**3 credits**—This course focuses on prescribed burns as a tool in ecosystem management. The use of fire to meet resource management objectives requires definitive and quantified knowledge of physical, biological, and ecological effects of fire on the ecosystem involved. Students will be trained in conducting prescribed burns and will participate as burn crew members.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** CNS121

### **CNS201 Conservation Biology**

**4 credits**—Conservation Biology has drawn together scientists and environmentalists in basic and applied studies of biodiversity. The student will examine the nature of this emerging field, and will survey basic principles of ecology with emphasis on the ecosystem concept and its central role in conservation management. The student will examine biodiversity in detail, evaluate the threats to biodiversity, and examine the processes of extinction that are leading to a biodiversity crisis. The student will be an active participant in current conservation projects and will conduct studies of the biological diversity of their community.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** CNS121

### **CNS204 Native Vegetation**

**3 credits**—This course provides an introduction to botany, landforms of Iowa, and native plant communities. Emphasis will be on the identification of native plants and differentiation from exotic weed species.

**Lecture Hours:** 32 **Lab Hours:** 32

### **CNS205 Advanced Outdoor Recreation Techniques**

**1 credit**—This course provides a wilderness experience to utilize advanced outdoor recreation techniques during an intense time period (over Labor Day weekend or the equivalent). Techniques utilized include hiking, backpacking, canoeing or kayaking, low impact camping, and others. This wilderness encounter is at a remote location such as the Boundary Waters, Isle Royale, etc. The focus of this experience is to gain leadership skills to guide groups of citizens on basic outdoor recreation adventures to increase their appreciation of their environment such as is done by naturalists and conservation groups by following the 18 points set by the Wilderness Education Association and Leave No Trace Principles.

**Lab Hours:** 32

**Prerequisite(s):** CNS107

### **CNS228 Natural Areas Management**

**3 credits**—This course provides a background in the restoration of native ecosystems. Restoration practices from site analysis, seed and plant selection, and planting techniques; to management by fire, mowing, and weed control are covered. Students will have practical experiences in the reconstruction and management of various ecosystems.

**Lecture Hours:** 16 **Lab Hours:** 64

### **CNS231 Integrated Roadside Vegetation Management**

**2 credits**—This course examines integrated roadside vegetation management (IRVM) as a decision-making process for maintaining roadsides. IRVM includes the needs of local communities and highway users; the knowledge of plant ecology and natural processes; design, construction, and maintenance considerations, monitoring and evaluation procedures, government statutes and regulations, and technology. It integrates these with cultural, biological, mechanical, and chemical methods to economically manage roadsides for safety, plus environmental and visual quality. It will also provide practical experiences in vegetation management, such as planting with a native seed drill and hydroseeder.

**Lecture Hours:** 32

### **CNS929 Individual Projects**

**1 credit**—This course provides in-depth experiences in conservation. Projects are developed in cooperation with and supervised by the instructor dealing with construction, habitat maintenance, wildlife census, habitat mapping, trail development, observation of conservation boards, etc. It includes paper describing the project from start to finish. Hours of credit depend on the scope and depth of the project.

May be taken for up to 3 credits.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in CNS121.

### **COM140 Introduction to Mass Media**

**3 credits**—Introduction to Mass Media presents elements of the mass communication process with emphasis on the forms, functions, regulations, and social impact of the various media. This course helps students understand how media influence their lives.

**Lecture Hours:** 48

### **COM143 Media Messages: Printed Page**

**1 credit**—Media Messages: Printed Page focuses on the development of skills needed to access, analyze, evaluate, and produce printed media messages by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

### **COM144 Media Messages: TV and Movies**

**1 credit**—Media Messages: TV and Movies focuses on the development of skills needed to access, analyze, evaluate, and produce messages from television and film by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

**COM147 Media Messages: World Wide Web**

**1 credit**—Media Messages: Examining the World Wide Web focuses on the development of skills needed to access, analyze, evaluate, and produce messages accessed through the web by examining the roles of viewer, producer, text, context, techniques, technologies, and institutions. The combination of COM-143, COM-144, and COM-147 may equate to a 3 credit media literacy course at other institutions.

**Lecture Hours:** 16

**COM148 Diversity and the Media – Effective Fall 2015**

**3 credits**—Diversity and the Media presents a historical perspective and a current analysis of various minority groups and how media depict these groups. This course helps students understand why and how stereotypical media portrayals have been produced and how the under-representation of diversified images affects their knowledge, attitudes, and behaviors toward others and contributes to multicultural illiteracy.

**Lecture Hours:** 48

**COM148 Diversity and the Media – Effective Spring 2016**

**3 credits**—Diversity and the Media presents a historical perspective and a current analysis of various minority groups and how media depict these groups. This course helps students understand why and how stereotypical media portrayals have been produced and how the under-representation of diversified images affects their knowledge, attitudes, and behaviors toward.

**Lecture Hours:** 48

**COM155 Newspaper Production**

**3 credits**—Newspaper Production presents elements of the news reporting process with emphasis on determining newsworthiness, gathering news, writing and editing stories in journalistic style, and observing legal and ethical responsibilities in the print, broadcast, and electronic media. This course helps students explore how journalists determine what the public needs and wants to know.

**Lecture Hours:** 48

**COM730 Communications**

**3 credits**—This course presents elements of oral and written communications with applications to routine correspondence and oral communication situations in the work place. Students will be involved in activities that provide opportunity for the development and improvement of writing skills and oral communication skills.

**Lecture Hours:** 48

**COM763 Introduction to Professional Writing**

**3 credits**—This course provides students with an introduction to professional writing; it overviews the role of writing as an important part of many careers, as well as part of an academic discipline. This course explores the issues, theories, resources and career opportunities in professional writing, as well as the use of technology to communicate and produce documents.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** ENG105

**COM781 Written Communication in the Workplace**

**3 credits**—This course focuses on composition and editing of curriculum-specific technical and business-related writing projects. Instruction includes formatting, information gathering, document drafting, editing, and written employment strategies.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG061.

**COM924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**CON102 Introduction to Residential Construction**

**2 credits**—Students will be introduced to basic residential construction safety, history, terminology, materials, and basic construction techniques. This course will cover basic information and develop manual skills needed to begin construction of a new home.

**Lecture Hours:** 16 **Lab Hours:** 32

**CON108 Construction Safety**

**1 credit**—The Construction Safety course will provide students with the requirements and expectations required to work safely in the numerous occupations of the construction industry. The course will introduce students to the national OSHA safety standards for General Construction and upon their completion of this course will receive the OSHA 10 hour General Construction certification.

**Lecture Hours:** 16

**CON109 Construction Safety**

**2 credits**—This course includes the 30 Hour Construction Outreach Program as outlined by the OSHA Voluntary Outreach Program. Areas of study include General Safety and Health Provisions, Occupational Health and Environmental Controls (HAZCOM), job site safety, training requirements and an overview of the 1926 Standards (OSHA rules).

**Lecture Hours:** 16 **Lab Hours:** 32

### **CON113 Construction Printreading**

**2 credits**—Students examine and study typical working drawings for use in the construction of residential and light commercial projects. Areas of special attention are specifications, plan views, concrete and structural steel construction drawings and details.

**Lecture Hours:** 16 **Lab Hours:** 32

### **CON121 Carpentry Fundamentals I**

**4 credits**—The Carpentry Fundamentals Level I course will prepare the diploma level students to take the National Center for Construction Education and Research (NCCER) Level One test. This course will serve as a review and preparation over the Level One Objectives as defined by NCCER.

**Lecture Hours:** 16 **Lab Hours:** 96  
**Prerequisite(s):** CON102 and CON133

### **CON124 Construction Estimating I**

**3 credits**—Students learn the fundamental principles of construction estimating. The course stresses the organization of the estimate, the procedure of estimating costs in different divisions of the project and determining the critical quantities of materials obtained from a set of plans.

**Lecture Hours:** 32 **Lab Hours:** 32  
**Prerequisite(s):** CON113 and CON135

### **CON125 Construction Estimating II**

**3 credits**—This course presents the skills required to organize and prepare an estimate for a construction project. Students examine the procedure and function of a preliminary estimate, the quantity take-off method and the summary sheet, all using the CSI format.

**Lecture Hours:** 32 **Lab Hours:** 32  
**Prerequisite(s):** CON124 and ARC175

### **CON129 Concrete Lab**

**2 credits**—The Concrete Lab course will provide students with hands-on experience in estimating, ordering, forming, working, and finishing concrete.

**Lab Hours:** 64  
**Prerequisite(s):** CON130

### **CON130 Concrete Theory**

**1 credit**—The concrete theory course will provide students with a basic understanding of concrete, and its relationship to residential construction.

**Lecture Hours:** 16

### **CON131 Site Layout and Blueprint Reading**

**1 credit**—The Site Layout and Blueprint Reading course will train students to interpret and use site plans and other working drawings. Students will learn how to interpret construction symbols and building specifications. Students will develop site layouts for various projects utilizing lasers, builder's levels, and transits using site plans and other working drawings.

**Lecture Hours:** 16

### **CON133 Construction Technology Lab**

**4 credits**—The Construction Technology Laboratory course offers students the opportunity to further develop their skills with hand and power tool operations, and to devote more time to hands-on construction projects while improving their skill competencies.

**Lab Hours:** 128

### **CON135 Site Planning**

**3 credits**—Students study procedures for developing site plans for a construction project(s). Students will examine aspects of the development of a job site by considering feasibility studies, zoning requirements, site survey and design, and required permits and other pertinent information. The general outline of the Waterloo and Cedar Falls policies will be used as examples.

**Lecture Hours:** 32 **Lab Hours:** 32  
**Prerequisite(s):** Must be in program major.

### **CON146 Construction Technology Lab 2**

**3 credits**—The Construction Technology Lab 2 course will provide students with the opportunity to utilize the knowledge gained in previous construction courses with hands-on applications to construction projects. This course will reinforce construction competencies in applied mathematics, site layout, blue print reading, framing, exterior finishing, interior finishing, sustainable design, and building science.

**Lab Hours:** 96  
**Prerequisite(s):** CON133

### **CON201 Framing Techniques and Lab I**

**2 credits**—The Framing Techniques and Lab 1 course will introduce students to the methods used to layout wall lines and plates, measure and cut all required parts, and assemble a floor deck, walls, and roof/ceiling framing with an emphasis on air sealing and advanced framing techniques.

**Lecture Hours:** 16 **Lab Hours:** 32

### **CON214 Exterior Framing Systems I**

**3 credits**—This course will utilize resource efficient advanced framing methods that stress energy efficiency and sustainable design. The "Whole Systems Approach" to residential design and construction will be teamed with Universal Design principles, Optimum Value Engineering techniques, the "Building America" program, and the LEED (Leadership in Energy and Environmental Design) program.

**Lecture Hours:** 16 **Lab Hours:** 64

### **CON217 Exterior Finishing**

**3 credits**—This course will present the various materials used for residential exterior finishes. Topics will include insulated sheathing, building wraps, drainage planes, shingles, soffits, venting, windows, and exterior doors. Emphasis will be on sustainable construction techniques and building science principles.

**Lecture Hours:** 16 **Lab Hours:** 64

### **CON228 Methods of Interior Finishing**

**3 credits**—In the Methods of Interior Finishing course, students will discuss the theory and history of the residential interior system. The lab portion of this course will focus on gypsum wallboard installation, taping, finishing, texturing, and painting. The gypsum wallboard work will be followed by the installation of pre-hung door units, casing, base molding, custom trim, closet finishes, hardware, and cabinetry. Universal Design and a focus on indoor air quality will be stressed. Custom interior finish packages may be included.

**Lecture Hours:** 16 **Lab Hours:** 64

### **CON266 Construction Safety**

**3 credits**—This course includes the 30-Hour Construction Outreach Program as outlined by the OSHA Voluntary Outreach Program. Areas of study include General Safety and Health Provisions, Occupational Health and Environmental Controls (HAZCOM), job site safety, training requirements and an overview of the 1926 Standards (OSHA rules), with emphasis on developing, implementing and maintaining a comprehensive safety and health program.

**Lecture Hours:** 48

### **CON290 Commercial Estimating and Project Management**

**2 credits**—The Construction Estimating and Project Management course will link construction estimating with project management and scheduling.

**Lecture Hours:** 16 **Lab Hours:** 32  
**Prerequisite(s):** CON510

### **CON302 Building Science I**

**1 credit**—Students will learn building science principles and methods to determine how thermal energy transfer, air infiltration and exfiltration, internal and external air pressures, moisture migration, and durable design strategies apply to today's residential design and construction industry.

**Lecture Hours:** 16

### **CON372 Technical Portfolio Design**

**2 credits**—This course provides students with the writing and research skills necessary to compile a personal portfolio documenting their prior education, occupational training and work experiences.

**Lecture Hours:** 32  
**Prerequisite(s):** Must be in program major.

### **CON373 Technical Presentations**

**3 credits**—This course highlights essential skills and provides the opportunity for students to develop expertise in both writing for and making technical presentations.

**Lecture Hours:** 48 **Lab Hours:** 64  
**Prerequisite(s):** Must be in program major.

### **CON386 Sustainable Design**

**1 credit**—The Sustainable Design Course is an overview of the concepts and strategies involved in sustainable design and construction. The course covers the history of sustainable design, LEED categories, Build It Green, USGBC, NAHB, and local and federal agencies overseeing and mandating green design. Also included are discussions of Green Point Raters, LEED AP, and additional certification opportunities along with market advantages and "Greening your business."

**Lecture Hours:** 16

### **CON510 Construction Technology Lab 3**

**3 credits**—The Construction Technology Lab 3 course will provide students with the opportunity to utilize the knowledge they have gained in their previous construction courses with hands-on applications to construction projects. This course will require that students use their knowledge of construction codes and construction documents and computer aided drafting to provide detailed drawings adhering to the International Energy Conservation Code and Universal Design Principles.

**Lab Hours:** 96  
**Prerequisite(s):** CON146

### **CON512 Construction Technology Lab 4**

**3 credits**—The Construction Technology Lab 4 course will provide students with the opportunity to utilize the knowledge they have gained in their previous construction, energy, building science, and design courses with hands-on applications to construction projects. This course will require students to use their knowledge of sustainable construction principles; adhering to the International Energy Conservation Code and Universal Design principles.

**Lab Hours:** 96  
**Prerequisite(s):** CON510

### **CRJ100 Introduction to Criminal Justice**

**3 credits**—This course examines the day-to-day operation of criminal justice in our society. Emphasis is on the inter-relationships of the components of law enforcement, the courts, corrections, and the juvenile justice system.

**Lecture Hours:** 48

### **CRJ120 Introduction to Corrections**

**3 credits**—This course will provide an introductory examination of corrections in the United States. The central theme of the course will be to critically analyze corrections as an integral part of the overall criminal justice system in America.

**Lecture Hours:** 48

### **CRJ141 Criminal Investigation**

**3 credits**—This course examines the techniques and procedures used to investigate crimes.

**Lecture Hours:** 48  
**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ143 Police Operations**

**3 credits**—This course examines the operational aspects of policing to include patrol theories and methods, crime response, operational skills and factors that influence police operations.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ151 Defensive Tactics**

**2 credits**—This course provides instruction on self defense and control techniques necessary for law enforcement. Emphasis is placed on physical fitness, officer safety, criminal and civil liability.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ237, CRJ320, and CRJ285.

### **CRJ200 Criminology**

**3 credits**—This course explores theories of factors that influence criminal behavior, and analyzes criminal behavior in relationship to other social problems.

**Lecture Hours:** 48

### **CRJ201 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

### **CRJ233 Probation, Parole, Community-Based Corrections**

**3 credits**—This course examines probation and parole practices related to community-based corrections programs throughout the United States. Emphasis is placed on community-based programs for offenders, administration and legal issues of the programs, trends in probation, parole and related community-based programs.

**Lecture Hours:** 48

**Prerequisite(s):** CRJ100 and CRJ120

### **CRJ234 Traffic Law**

**2 credits**—This course provides in depth examination of the State of Iowa traffic laws, and how traffic code enforcement enhances public safety.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ237 Criminal and Constitutional Law**

**3 credits**—This course will review the historical development of constitutional law, the philosophy of law, and the current impact on law enforcement officials. The judicial process will be examined to better understand the societal and political influences that impact current day constitutional decisions. A review of the current constitutional protections afforded to an individual. The course will also provide an examination of the elements of common offenses and the procedural safeguards in the criminal process.

**Lecture Hours:** 48

### **CRJ244 Advanced Accident Investigation**

**3 credits**—This course covers the fundamentals of traffic investigation to include officer response, scene management, measurements, and report preparation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ252 Basic Firearms**

**1 credit**—This course covers the fundamentals of using a firearm with emphasis on safety, care, and proficient use of firearms to law enforcement standards.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ254 Advanced Firearms**

**1 credit**—This course expands skills developed in Basic Firearms, and includes skill and proficiency development with shotgun and patrol rifle.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100 or CRJ252.

### **CRJ266 Report Writing and Testifying**

**3 credits**—Report writing and courtroom testimony skills are essential to detail officer activity and enable effective case prosecution. Report writing chronologically details officer investigative activity, and documents elements of a crime. Effective courtroom testimony is vital to the prosecution and resolution of civil and criminal cases.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in ENG105 and CRJ100.

### **CRJ282 Crime Scene Investigation**

**3 credits**—This course involves the study of techniques and procedures used to investigate various crimes and crime scenes. The student will gain fundamental skills in photography, evidence preservation, collection, and processing; and scene measurement and documentation.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ285 Physical Conditioning for Public Services**

**2 credits**—This course prepares public safety personnel for the physical demands of public safety entrance testing and work demands.

**Lecture Hours:** 16 **Lab Hours:** 32

### **CRJ315 Crisis Intervention**

**3 credits**—This course uses a criminal justice perspective to examine the methods and techniques of crisis intervention, causative factors, typologies of those involved, and psycho-social factors of crisis situations. A certificate in Mental Health First Aid is included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100 and CRJ237.

**CRJ316 Juvenile Justice**

**3 credits**—This course examines the juvenile justice system from a practitioner perspective. It provides operational knowledge of how law enforcement, the courts, and correctional facilities navigate the juvenile offender.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

**CRJ317 White Collar Crime**

**3 credits**—This course examines white collar crime as a social and criminal justice problem, the costs to society, explanations for behavior, and investigative techniques.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100 and CRJ237.

**CRJ318 Crime Analysis**

**3 credits**—This course enables the student to use intelligence and analytic data to identify and inform tactical, strategic, and administrative crime analysis functions.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

**CRJ320 Criminal Justice Ethics**

**3 credits**—An examination of ethical issues in the criminal justice system with an emphasis on reasoning and decision making for professional competence.

**Lecture Hours:** 48

**CRJ322 Tactical Police Operations**

**2 credits**—This course challenges student skills and decision making within scenario based learning activities.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ151, CRJ254, and EMS114.

**CRJ924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**CRJ928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**CRJ952 Internship**

**2 credits**—This course requires 128 hours of supervised placement with a law enforcement agency. Course eligibility requires criminal background check. Placement dependent on agency assessment of student fitness to meet hiring requirements.

Instructor consent required.

**Co-op Hours:** 128

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ135, CRJ143, CRJ234, CRJ237, CRJ244, CRJ282, EMS114, and CRJ151.

**CRJ955 Field Observation**

**3 credits**—Student field experience in an appropriate correctional agency. Enrollment is restricted to second year students who have a minimum 2.00 CGPA and have

successfully completed advisor approved courses. Placement based on approval of faculty advisor and host agency.

**Lecture Hours:** 16 **Co-op Hours:** 128

**Prerequisite(s):** CRJ110 or CRJ120

**CRR306 Introduction to Collision Repair**

**6 credits**—In this course students receive training on the proper handling of hazardous waste and EPA issues together with technical information about specific auto body safety and health situations. Specific training is provided in tools/equipment usage, parts assembly, filler application, and straightening techniques. Students will also receive training in autobody welding.

**Lecture Hours:** 48 **Lab Hours:** 96

**CRR331 Basic Collision Procedures**

**6 credits**—This course covers specific collision tool and equipment usage, panel repair and alignment, sheet metal pulling and stress relieving, mobile glass servicing, trim removal and replacement, and basic collision repair techniques. Performance tasks will require students to work in actual production style situations. Projects will include straightening collision damage and filler application, utilizing corrosion resistant undercoat/primer.

**Lecture Hours:** 48 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR306.

**CRR510 Collision Production Technology**

**7 credits**—In this course, students will receive information and training in common collision repair procedures performed by production collision centers. Specific training is provided in straightening procedures for light and heavy collision damage, specialized tools and equipment, and air conditioning systems relating to collision damage.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR331.

**CRR657 Advanced Collision Repair**

**7 credits**—In this course, students will receive hands on experience involving high production practices used by industry collision repair technicians. Students will receive training in collision related suspension and steering systems. Additional training will be received in drive train repairs, wheel alignment, brakes, and other vehicle collision related repairs, tools, and equipment.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR510.

**CRR740 Estimating I**

**3 credits**—This course provides instructional experience in collision handwritten estimating.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CRR836 and CRR331.

**CRR750 Estimating II**

**3 credits**—Introduce students to various aspects of computerized estimating software while reinforcing repair procedures.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in CRR740.

**CRR806 Introduction to Refinishing**

**6 credits**—Students receive training in use of sanding abrasives, refinishing products, tools and equipment, masking procedures, corrosion protection, and paint preparations. A thorough understanding of personal health and safety issues is also obtained.

**Lecture Hours:** 48 **Lab Hours:** 96

**CRR836 Refinishing II**

**6 credits**—Fundamentals of spraying automotive paints are provided in this course together with the uses and application of various types of top coat systems and color mixing/matching using computers.

**Lecture Hours:** 48 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR806.

**CRR877 Refinishing Applications**

**7 credits**—This course provides training in paint repair procedures used to match and blend partial or full panel refinish repairs. Students will be exposed to various procedures used in refinishing systems. Students will also receive training in basic electrical fundamentals and basic air bag systems as they apply to collision and refinishing repairs.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR836.

**CRR881 Refinishing Production Technology**

**7 credits**—In this course, students will receive hands on experience involving high production practices used by industry technicians. Students will be exposed to time management performance tasks involved in numerous areas of refinishing. Skill levels will be enhanced for various refinish tasks such as paint preparation, masking procedures, blending, and overall refinishing.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR877.

**CSC110 Introduction to Computers**

**3 credits**—An introductory course in electronic information processing and information system management designed to provide the students with a general understanding of computer hardware and software and the facility to use this knowledge in the creation and management of useful information. Students will be given hands-on experience with operating system, word processing, database management, presentation and spreadsheet software. Exposure to and use of the Internet, including security and privacy concerns, is an integral part of the course. Basic computer literacy is expected for students entering this course.

**Lecture Hours:** 48

**Prerequisite(s):** The ability to enter data using a computer keyboard at a rate of no less than 15 words per minute on a three-minute timing. A minimum grade of C in RDG039.

**DEA103 Orientation to Dental Assist**

**2 credits**—This course introduces students to dentistry, certification, dental terminology, and legal and ethical aspects of dental practice. Concepts and procedures of preventive dentistry and oral health education are also included.

**Lecture Hours:** 32

**DEA258 Dental Anatomy**

**4 credits**—This course presents oral and dental structures, head and neck anatomy, oral embryology and histology, and the relationship of oral and dental anatomy to dental procedures and treatment. Also included is a study of basic microbiology, disease transmission and the relationship of disease processes.

**Lecture Hours:** 48 **Lab Hours:** 32

**DEA263 Dental Science II**

**2 credits**—This course provides students with basic understanding of biomedical and dental sciences including: Oral pathology and disease processes, pharmacology and therapeutics, emergency treatment, oral hygiene, and nutrition and dietary considerations for dental patients.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO158, BIO160, and DEA103.

**DEA302 Dental Radiography**

**3 credits**—This course covers the principles, properties, techniques and protective procedures involved with exposure of dental radiographs. Primary emphasis is on the development of skill proficiency in techniques of intraoral and extraoral dental radiography.

**Lecture Hours:** 32 **Lab Hours:** 32

**DEA412 Dental Materials I**

**3 credits**—This course provides information related to various dental materials, their composition, classification, manipulation, preparation and usage. Emphasis is given to materials commonly used in the practice of general dentistry.

**Lecture Hours:** 32 **Lab Hours:** 32

**DEA417 Dental Materials II**

**2 credits**—This course is a study of restorative materials; specifically gold, porcelain, denture resin, and other metals and their usage in dentistry. Additional laboratory procedures commonly performed in dental offices are also included.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DEA412.

**DEA513 Chairside Assisting I**

**4 credits**—This course is a study of basic operative and chairside assisting procedures; dental equipment, its function and maintenance; dental armamentarium, instrumentation, procedural tray setups, charting, development of clinical records, and patient screening procedures.

**Lecture Hours:** 32

**DEA514 Chairside Assisting II**

**2 credits**—This course presents instruction in additional chairside assisting procedures including intraoral functions that are legally delegable to dental assistants in Iowa. All procedures are taught to the level of laboratory competence, and some procedures are taught to clinical competency levels. A study of patient behavior and considerations for special patients is also included.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DEA513.

**DEA556 Assisting Clinic I**

**4 credits**—This course provides students with selected clinical experiences in those basic chairside dental assisting procedures commonly performed in a general dental office.

Facilities used will be primarily the school dental clinic and private dental offices. Students will assist dentists in accomplishing necessary dental procedures for patients while rotating through the clinical areas to obtain maximum clinical exposures and experiences. All clinical procedures are performed with supervision of participating dentists and instructors.

**Lecture Hours:** 0 **Lab Hours:** 0 **Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in all Dental Assisting first semester courses and/or departmental approval. Current CPR and Health Sciences department Exposure Control program, OSHA training, and HIPAA training.

**DEA577 Dental Assisting Clinic II**

**4 credits**—Application of knowledge and skill as students rotate through dental offices. General and specialty practices are included in rotations.

A minimum grade of C for all first and second semester courses in Dental Assisting and/or department approval. Current CPR and Health Sciences department Exposure Control program.

**Co-op Hours:** 256

**Co-requisite(s):** DEA591

**DEA578 Dental Assisting Clinic II**

**4 credits**—Application of knowledge and skill as students rotate through dental offices. General and specialty practices are included in rotations.

**Lecture Hours:** 0 **Co-op Hours:** 320

**Co-requisite(s):** DEA591

**DEA591 Dental Assisting Seminar (Effective Fall 2015)**

**1 credit**—Discussion and problem-solving from clinical practice. Provides an awareness of types of office situations and discussion of clinical aspects of dental assisting and dentistry. Oral reports and weekly evaluations are required.

A minimum grade of C in all Dental Assisting program courses.

**Lecture Hours:** 16

**Co-requisite(s):** DEA577

**DEA591 Dental Assisting Seminar (Effective Summer 2016)**

**1 credit**—Discussion and problem-solving from clinical practice. Provides an awareness of types of office situations and discussion of clinical aspects of dental assisting and dentistry. Oral reports and weekly evaluations are required.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DEA263, DEA417, DEA514, DEA556, DEA603, and DEA702.

**Co-requisite(s):** DEA578

**DEA603 Dental Specialties**

**2 credits**—This course provides students with knowledge and understanding of dental procedures in the specialties of Endodontics, Oral Surgery, Prosthodontics, Pediatric Dentistry, Orthodontics and Periodontics. Students are introduced to assisting responsibilities, instrumentation, and procedures of each of these specialties. Dental Public Health and Oral Pathology, as dental specialties, will also be included.

**Lecture Hours:** 32

**DEA702 Dental Office Procedures**

**2 credits**—This course is a study of basic responsibilities of dental office receptionists. Procedures included in the course are: management of patient records, filing, completion of insurance claim forms, basic bookkeeping, banking, appointment control, recall management, inventory control, credit and collection, and employer records management. Instruction is provided in computer applications relating to these office management procedures. Also included in this course is a study of office design and office management concepts.

**Lecture Hours:** 32

**DHY115 Head and Neck Anatomy for Dental Hygiene**

**2 credits**—This course familiarizes the student with the anatomy of the head and neck, oral structures. Knowledge of the anatomy of the head and neck and oral structures is an essential prerequisite of such courses as clinical dental hygiene.

**Lecture Hours:** 32

**Prerequisite(s):** Admission to Dental Hygiene program.

### **DHY116 Tooth Morphology**

**1 credit**—This course will teach the anatomy and structure of each individual tooth crown and root. Permanent and primary dentitions will be studied with emphasis on identification, numbering systems, function, and application of instrumentation skills to each tooth surface.

**Lecture Hours:** 16

**Prerequisite(s):** Must be in program major.

### **DHY121 Oral Histology and Embryology**

**2 credits**—This course presents the anatomy of the tooth and its surrounding tissues on a microscopic level. The formation of the face before birth is studied and is followed by an examination of each part of the tooth and its surrounding structures during formation, eruption and function of both the primary and permanent dentitions.

**Lecture Hours:** 32

**Prerequisite(s):** Admission to Dental Hygiene program.

### **DHY131 Pharmacology**

**2 credits**—This course will provide the student with an academic background in the area of pharmacology with relation to the drugs used in the dental practice. The metric system, terminology, drugs and their specific reactions will be presented.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO173 and CHM132.

### **DHY141 General and Oral Pathology**

**3 credits**—This lecture course addresses concepts of both General and Oral Pathology. General Pathology content provides information regarding human disease and reviews major diseases of the human body, discussed by system. Oral Pathology content emphasizes pathological conditions of the head, neck and oral structures and relates this information to the Dental Hygiene Model

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in DHY121.

**Pre/Co-requisite(s):** A minimum grade of C in BIO173.

### **DHY162 Oral Radiology**

**2 credits**—Oral Radiology teaches the basic techniques of exposure of common types of dental radiographs, film processing procedures, setup and care of the darkroom, science of the x-ray beam, and operation of standard and panoramic x-ray equipment. Lifelike manikins for student practice are utilized, and emphasis is placed on radiation safety procedures for both patient and operator.

**Lecture Hours:** 16

**Prerequisite(s):** Admission to the Dental Hygiene program.

### **DHY175 Fundamentals of Clinical Dental Hygiene**

**6 credits**—This course serves as a foundation to Clinical Dental Hygiene II, III, and IV. The student will learn the skills of dental hygiene practice and client management through simulated clinical situations as well as in lecture/discussion sessions.

**Lecture Hours:** 48

**Prerequisite(s):** Admission to the Dental Hygiene program.

### **DHY187 Clinical Dental Hygiene II**

**3 credits**—This course is the first of three in a sequence that provides clinical experience. The student applies the Dental Hygiene Process of Care while working with actual clinic clients. The emphasis of this course is to achieve competency in basic assessment and preventative dental hygiene treatment skills.

**Clinic Hours:** 144

**Prerequisite(s):** A minimum grade of C in DHY175 and DHY162.

**Pre/Co-requisite(s):** DHY188

### **DHY188 Clinical Dental Hygiene II Seminar**

**1 credit**—Dental Hygiene Practicum II complements Clinical Dental Hygiene II by supplying the theory behind the Dental Hygiene Process of Care. This course also introduces the theory behind basic procedures needed to provide comprehensive dental hygiene care.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175 and DHY162.

**Pre/Co-requisite(s):** DHY187

### **DHY210 Introduction To Periodontology**

**1 credit**—This course will provide first year students the basic concepts and fundamentals of periodontal health and disease. The student will be able to relate this knowledge to the clinical setting.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY121.

**Pre/Co-requisite(s):** DHY141

### **DHY211 Periodontology**

**2 credits**—An in-depth study of the healthy and diseased periodontium is covered in this course. The student will be able to relate this knowledge to the clinical setting.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY141 and DHY210.

### **DHY222 Biomaterials for the Dental Hygienist**

**3 credits**—This course introduces the dental hygiene student to the materials commonly employed in the practice of dentistry and, in particular, to those materials utilized by the dental hygienist. Through lecture sessions, the makeup and properties of the various materials such as plaster and stone, impression material, amalgam and cements are presented, as well as their relationship to one another. Through laboratory experience, the student learns techniques in preparation, mixing, handling and storage of these materials.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in CHM122.

**Co-requisite(s):** A minimum grade of C in CHM132.

### **DHY240 Ethics and Jurisprudence**

**1 credit**—This course presents background on the theory, philosophy and ethics for dental hygiene and the profession. Legal aspects of practice are presented as well as aspects of entry into practice and job seeking skills.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175.

**DHY254 Community Oral Health I**

**2 credits**—The purpose of this course is to provide the student with a background in the development and functions of federal, state and local health systems, and to prepare the student to participate in community health activities.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY188 and SOC110.

**DHY259 Community Oral Health Service Learning Experience**

**1 credit**—This course is designed to provide the students with experience developing and evaluating community oral health programs.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY254.

**DHY262 Special Needs Patient Education**

**1 credit**—This course provides basic concepts of learning for behavioral change and the care of patients with special needs.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY175.

**DHY271 Pain Control**

**2 credits**—This course provides the knowledge and skills necessary for the student to perform pain control techniques competently. The course will discuss both the content needed to perform local anesthesia and to perform nitrous oxide/oxygen administration and monitoring.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY113 and DHY185.

**Co-requisite(s):** A minimum grade of C in DHY131.

**DHY272 Interdisciplinary Health Care**

**2 credits**—This course will use specialists in the varied health fields to make the student aware of the interrelationships between these specialties and dental hygiene. Additionally, the course promotes an understanding of the potential dental hygiene practice settings through observations made in rotation in the community.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY254 and DHY297.

**DHY297 Clinical Dental Hygiene III**

**4 credits**—This course enables the students to provide comprehensive dental hygiene care to meet the total oral health needs of each client, including referrals for treatment. Students will progressively increase their clinical abilities toward levels of proficiency required for entry level as measured by fulfillment of the clinic competencies for the semester.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in DHY187 and DHY188.

**Co-requisite(s):** DHY211 and DHY298

**DHY298 Clinical Dental Hygiene III Seminar**

**2 credits**—This course will: Introduce adjunctive dental hygiene procedures/techniques and disease control theory along with research methodology. The course also expands on instrumentation techniques, case-based problem solving and radiographic interpretation.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in DHY187 and DHY188.

**Co-requisite(s):** DHY271 and DHY297

Supplement B1

**DHY307 Clinical Dental Hygiene IV**

**4 credits**—This course is the final preparation for the students in clinical practice. When the course is completed, the student will have the proficiency and skill to maintain the ideals of the dental hygiene profession.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in DHY271, and DHY197, and DHY298.

**DHY308 Clinical Dental Hygiene Seminar IV**

**1 credit**—This course will incorporate dental hygiene care with critical thinking and case studies for the students as they prepare for dental hygiene licensure.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in DHY271, and DHY197, and DHY298.

**Co-requisite(s):** DHY307

**DHY901 Independent Study Clinical Dental Hygiene**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lab Hours:** 32

**DHY924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**DHY928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 5 credits.

**Lecture Hours:** 16

**DRA107 Theatrical Arts and Society**

**3 credits**—This course introduces students to a literary appreciation of drama throughout history. Emphasis will be on reading, discussing, and evaluating various plays representative of their era and genre along with discussion of live theatre, film and television performances and how these kinds of dramatic narratives interrelate with societies of the past and present.

**Lecture Hours:** 48

**DRA110 Introduction to Film**

**3 credits**—This course introduces students to the various language systems of film, including film-making techniques, creators, genres, narratives, ideology, and film theory/criticism. Students will explore the cultural importance of cinema as art by analyzing selected movies and clips which demonstrate artistic excellence.

**Lecture Hours:** 48

**DRF113 Fundamentals of Technical Drafting**

**3 credits**—This course introduces the student to the drafting environment and includes basic knowledge and fundamental skills of manual drafting. Special emphasis is placed on reproducible line quality, lettering, geometric constructions and layout techniques.

**Lecture Hours:** 16 **Lab Hours:** 64

**DSL377 Diesel Engine Rebuild**

**7 credits**—Students are introduced to diesel engine application, design, construction, theory, and operating principles. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 80

**DSL447 Diesel Fuel Systems**

**7 credits**—This course focuses on diagnosis, theory and repair of mechanical and electronic fuel systems used in transportation, agriculture, and construction equipment.

**Lecture Hours:** 80

**DSL807 Diesel Truck Equipment Repair**

**7 credits**—This course is designed to give students the opportunity to apply competencies previously achieved to repair and service projects. Also included is theory and operation, diagnosis, and repair of heating and air conditioning systems. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** AGM107, AGM113, AGM104, DSL447, DSL377, AGM327, AGM333, and AGM224.

**ECE103 Introduction to Early Childhood Education**

**3 credits**—Gives students a historical and philosophical foundation of the field of early childhood education. Includes an overview of assessment and trends that influence best practices. Explores careers in the field. Addresses influences of families and diversity.

**Lecture Hours:** 48

**ECE120 Communication with Families**

**2 credits**—This course is designed to give students a basic understanding of good working relationships with educators, families and community resources. The value of this relationship to all parties involved is examined.

**Lecture Hours:** 32

**ECE122 Parenting Relationships**

**2 credits**—An introduction to the general subject matter of family relations. Students will study family systems and parenting in a changing society.

**Lecture Hours:** 32

**ECE125 School Age Care**

**2 credits**—This course focuses on the unique care necessary for school-age children. Criteria for organizing a positive physical environment coupled with state licensing regulations, center policies, and interactions with families are examined. Students will look at the needs of school-age children and explore methods of addressing these needs in a group care setting.

**Lecture Hours:** 32

**ECE133 Child Health, Safety, and Nutrition**

**3 credits**—Focuses on current concepts in the fields of health, safety and nutrition and their relationship to the growth and development of the young child ages birth to eight. Blends current theory with practical applications and assessments. Includes the influences of families and diversity on health, safety, and nutrition in early childhood settings.

**Lecture Hours:** 48

**ECE158 Early Childhood Curriculum I**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: dramatic play, art, music, fine and gross motor play.

**Lecture Hours:** 48

**ECE159 Early Childhood Curriculum II**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: emergent literacy, math, science, technology and social studies.

**Lecture Hours:** 48

**ECE170 Child Growth and Development**

**3 credits**—Reviews typical and atypical development of children from conception to adolescence in all developmental domains. Presents interactions between child, family and society within a variety of community and cultural contexts. Examines theories associated with our understanding of children.

**Lecture Hours:** 48

**ECE221 Infant/Toddler Care and Education**

**3 credits**—Focuses on care, education, and assessment of children from birth to thirty-six months. Prepares students to utilize developmentally appropriate practices including responsive caregiving, routines as curriculum, importance of relationships with diverse families, and a focus on the whole child in inclusive settings.

**Lecture Hours:** 48

**ECE243 Early Childhood Guidance**

**3 credits**—Focuses on effective approaches and positive guidance strategies for supporting the development of all children. Emphasizes supportive interactions and developmentally appropriate environments. Uses assessment to analyze and guide behaviors. Studies impact of families and diversity on child guidance.

**Lecture Hours:** 48

**ECE250 Advanced Curriculum Planning**

**3 credits**—This course acquaints students with center environment planning and evaluation. It addresses the role of the teacher as well as program evaluation for early childhood centers. Students also look at community resources for expanding the center environment.

**Lecture Hours:** 48

**Prerequisite(s):** EDE158 and ECE159

**ECE260 Current Topics and Issues in Child Care**

**2 credits**—National, state and local topics and issues impacting childcare are examined.

**Lecture Hours:** 32

**ECE274 Field Experience I**

**2 credits**—Supervised experience in selected early childhood settings serving children ages birth through eight. Includes integration of theory, research, and reflective practice. Provides an understanding of developmentally appropriate practices and the developmental stages of diverse populations of young children and families. Emphasizes professional relationships and behavior, appropriate adult/child interactions, basic curriculum planning, and program routines.

**Co-op Hours:** 128 **Prerequisite(s):** ECE221 **Co-requisite(s):** ECE994  
**Pre/Co-requisite(s):** ECE158, ECE159, ECE170, and ECE243

**ECE284 Field Experience II**

**2 credits**—The field experience provides on-the-job training, practical application of knowledge gained in the classroom, documenting observations of children, and an opportunity to participate with a child care team involved with children ages 3 through 5.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of D in ECE274 and ECE944.

**Co-requisite(s):** ECE945

**ECE290 Early Childhood Program Administration**

**3 credits**—Skills in planning, implementing, and evaluating programming are introduced. Staff supervision and evaluation, in-service training and orientation, and harmonious working relationships, are other topics included in this course.

**Lecture Hours:** 48

**Prerequisite(s):** ECE158 and ECE159

**ECE298 Child Development Career Strategies**

**2 credits**—Child Development Career Strategies prepares students for becoming an employee and employer in child care settings. It includes the strategies involved in seeking and securing a position in child care, along with recruiting and employing a child care worker. Included for the job seeker will be an introduction to the job search process, including resume writing, developing cover letters and the interview process. Included for the employer will be recruitment procedures, laws governing the hiring of child care employees, screening of applicants and conducting and evaluating interviews.

Enrollment limited to Early Childhood Education students.

**Lecture Hours:** 32

**ECE924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**ECE944 Field Experience Seminar I**

**1 credit**—Field Experience Seminar 1 provides support for the systemic refinement of skills necessary for a successful experience in the field. Professional relationships and behaviors, appropriate adult/child interactions, curriculum planning, and experiences in the field will be emphasized.

**Lecture Hours:** 16

**Co-requisite(s):** ECE274

**ECE945 Field Experience Seminar II**

**1 credit**—Field Experience II Seminar provides support for the systematic refinement of the skills necessary for a successful Field Experience II experience through receiving feedback on assignments and engaging in discussions of relevant topics with instructors and peers.

**Lecture Hours:** 16

**Co-requisite(s):** ECE284ECN110

**Introduction to Economics**

**3 credits**—This is a one-semester survey course covering basic economic issues and applications. The course includes such topics as supply, demand, pricing and production decisions by firms, consumer decision making, national income and output determination, unemployment and inflation, Classical and Keynesian theories, money and banking, and fiscal and monetary policies. International issues will also be discussed. (No credit given if credit earned in EC101T or EC102T.)

**Lecture Hours:** 48

### **ECN120 Principles of Macroeconomics**

**3 credits**—Principles of supply and demand and the price mechanism will be presented. Descriptions and interactions of the consumer, business, government, and international sectors will be studied as well as their effects on output, employment, and growth in the economy. The course includes a study of the banking system and monetary policy, fiscal policy, economic growth, differing macroeconomic viewpoints, and international issues.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **ECN130 Principles of Microeconomics**

**3 credits**—Principles of supply and demand, elasticity, and pricing will be studied. The course includes such topics as resource allocation of firms, pricing and output decisions in different market structures, and consumer choice theory. International issues and the world economy will be integrated into the course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **EDU214 Exploring PK-12 Education**

**2 credits**—This course is designed to give students the opportunity to gain insight into the teaching profession and examine what it means to be a PK-12 teacher. Students will critically evaluate teaching as their chosen or possible profession. An overview of the skills and knowledge they will need to be successful professionals will be investigated. Current and future trends in public education will be examined.

**Lecture Hours:** 32

### **EDU216 Introduction to Teaching**

**3 credits**—The course Introduction to Teaching: The Teaching Profession is designed to help students become aware of the foundations of teaching, understand the realities of teaching, and gain insight into the process of teaching. It is provided for students who may be undecided about teaching. The course will investigate the tools and information necessary to make a rational and thoughtful choice about pursuing the teaching profession.

**Lecture Hours:** 48

### **EDU223 Multicultural Education**

**3 credits**—This course introduces conceptual, theoretical, and philosophical issues in Multicultural Education (MCE). Students learn instructional strategies for making their future multicultural classrooms into effective learning communities that are collaborative, inclusive, developmentally appropriate, and globally oriented.

**Lecture Hours:** 48

### **EDU235 Children's Literature**

**3 credits**—The course is designed to present the dynamics of children's literature. It promotes the selection and evaluation of literature for children as well as how to engage young readers in a variety of literary genres. The course will emphasize literature as a key element of the reading curriculum, grades Preschool-8 and beyond. The course will be relevant to those interested in education and literacy.

**Lecture Hours:** 48

### **EDU240 Educational Psychology**

**3 credits**—The study of learning as it relates to cognitive, affective, and psychomotor processes; personal, social and moral development; abilities and exceptionality and motivation, measurement and classroom management.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111 and PSY121

**Co-requisite(s):** EDU920

### **EDU246 Including Diverse Learners**

**3 credits**—Students are introduced to the issues and practices regarding the inclusion of diverse student populations in general education settings. The needs of all students including general education, special education, and gifted will be emphasized. Strategies for adapting curriculum and the classroom will be examined. Support services that are available to teachers and students will be explored.

**Lecture Hours:** 48

### **EDU255 Technology in the Classroom**

**3 credits**—This is a basic course in the planning and practical use of technology resources to enhance and extend the learning process in the face to face classroom, hybrid and online learning. Students will be exposed to various ways of thinking about educational media and its applications in the classroom. The course is designed to provide the student with experiences that will enable them to select, arrange, utilize, and produce a variety of resources to enhance student learning through their creation of a Thematic Unit.

**Lecture Hours:** 48

**Prerequisite(s):** EDU240 or EDU235

### **EDU800 Exploring Math and Science Teaching**

**1 credit**—Exploring Math and Science Teaching gives the student a chance to hear from effective, successful teachers of math and science on a weekly basis. With assistance from a cooperating K-12 teacher, the student will experience an opportunity to conduct a lesson in an authentic math or science classroom in elementary settings. This class provides an opportunity to sample the world of teaching math or science. Tuition for this one credit course is refunded upon successful completion of the class through the Iowa Math And Science Education Partnership.

**Lab Hours:** 32

**EDU901 Academic Service Learning Experience**

**1 credit**—Students in this course develop and/or implement service learning projects to help the college's community including the surrounding local community under the supervision of college faculty and in cooperation with the staff of community organizations and agencies.

**Lab Hours:** 32

**Co-requisite(s):** EDU240

**EDU920 Field Experience**

**1 credit**—This course provides an observation and participation experience to explore duties, roles and responsibilities of teachers to the school community. This takes place in area schools under the direction and guidance of classroom teachers.

**Lab Hours:** 32

**EDU924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**EGR410 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16 **Lab Hours:** 64

**EGR450 Computer Integrated Manufacturing**

**3 credits**—This course enhances computer modeling skills by applying principles of robotics and manufacturing automation to the creation of models of three-dimensional designs.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** EGR400

**EGT108 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16 **Lab Hours:** 64

**EGT140 Fluid Power**

**2 credits**—This is a course of study in the basic fluid power principles and components of fluid power systems.

**Lecture Hours:** 16 **Lab Hours:** 32

**EGT144 Fluid Power Applications**

**2 credits**—This course is a continuation study of fluid power systems and applications with particular emphasis on troubleshooting and performance evaluations.

**Lecture Hours:** 16 **Lab Hours:** 32

**EGT149 Fluid Power Systems II**

**3 credits**—This is a continued study of fluid power components, their operations, and functions in circuit application, as well as graphic circuit print reading.

**Lecture Hours:** 16 **Lab Hours:** 64

**Pre/Co-requisite(s):** EGT140

**EGT152 Advanced Fluid Power and Servo Systems**

**2 credits**—This course will teach the principles of electrohydraulic servo systems and how these systems are applied, installed, operated, and maintained in the field. Servo systems, transducers, valve characteristics, control and performance will be covered.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** EGT149 and EGT144

**EGT243 Statics and Strength of Materials**

**3 credits**—Statics deals with forces on structural members at rest. Topics include vector and scalar quantities, free-body diagrams, equations of equilibrium, coplanar and non-coplanar force systems, resultant of a system of forces, equilibrium in force systems, and the laws of friction. Strength of materials deals with the relationship between stress and deformation; riveted, welded, and bolted joints; torsion; centroids and moments of inertia; shear; moments and deflections in beams; combined stresses; and columns.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** PHY162

**EGT400 Introduction to Engineering Design**

**3 credits**—This course uses a design development process while enriching technical and engineering problem-solving skills; students create and analyze models using specialized computer software (AutoCAD Inventor)

**Lecture Hours:** 16 **Lab Hours:** 64

**EGT410 Principles of Engineering**

**3 credits**—This course explores technology systems and manufacturing processes using the methodology of project-based engineering problem solving. Learning activities explore a variety of engineering disciplines and address the social and political consequences of technological change.

**Lecture Hours:** 16 **Lab Hours:** 64

**EGT420 Digital Electronics**

**3 credits**—This course teaches applied logic through work with electronic circuitry, which students also construct and test for functionality.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** EGT410

### **EGT450 Computer Integrated Manufacturing**

**3 credits**—This course enhances computer modeling skills by applying principles of robotics and manufacturing automation to the creation of models of three-dimensional designs.

**Lecture Hours:** 16 **Lab Hours:** 64  
**Prerequisite(s):** EGT400

### **EGT460 Civil Engineering and Architecture**

**4 credits**—This course introduces students to the interdependent fields of civil engineering and architecture; students learn project planning, site planning, and building design using specialized computer software (AutoDesk Revit).

**Lecture Hours:** 16 **Lab Hours:** 64  
**Prerequisite(s):** EGT400

### **EGT470 Engineering Design and Dev.**

**5 credits**—This course is a research course that requires students to formulate the solution to an open-ended engineering question. With a community mentor and skills gained in their previous courses, students create written reports on their applications, defend the reports, and submit them to a panel of outside reviewers.

**Lecture Hours:** 48 **Lab Hours:** 80 **Clinic Hours:** 48 **Prerequisite(s):** EGT410, EGT420, EGT450, or EGT460 **Pre/Co-requisite(s):** EGT400

### **ELE194 Power Generators and Transformers**

**2 credits**—The Power Generators and Transformers course will provide students with a working knowledge of how generators and transformers function. Training will cover the safety aspects of high voltage/power generators and transformers as they connect to the utility grids.

**Lecture Hours:** 16 **Lab Hours:** 32

### **ELE218 Motion Control**

**2 credits**—This course is an introduction to electronic motion control system components and programming of a motion control system through a PLC.

**Lecture Hours:** 16  
**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT104 Electronics Drafting**

**3 credits**—An introduction to drafting fundamentals including: two-dimensional, orthographic, sectional, auxiliary and pictorial; electronic symbols, devices, circuitry and systems, using CAD.

**Lecture Hours:** 16 **Lab Hours:** 64  
**Prerequisite(s):** A minimum grade of D in EGT108 or ELT192.

### **ELT120 Schematics for Electromechanical Techs**

**3 credits**—This course is to train factory electricians and mechanics to read most under-roof factory schematics in the food, manufacturing, warehousing, and energy production industries.

**Lecture Hours:** 48  
**Prerequisite(s):** A minimum grade of C- in ELT139, EGT140, ELT215, and ELT234, or instructor approval.

### **ELT133 Electric Motor Drives**

**2 credits**—This course is an introduction to the fundamental principles of electronic motor drive technologies. Topics to be presented will include servo-motor theory, encoders, tachometers, electronic and mechanical brakes/clutches, and closed-loop systems.

Specific drives to be studied will include DC servo, AC variable-frequency, and AC servo.

**Lecture Hours:** 16 **Lab Hours:** 32

### **ELT139 Electrical Systems**

**3 credits**—Students will gain knowledge and hands-on experience in DC and AC circuits and principles, electrical measurement instruments, electrical safety, conductor sizes and types, wiring applications, wiring techniques, and troubleshooting.

**Lecture Hours:** 16 **Lab Hours:** 64  
**Pre/Co-requisite(s):** MAT772

### **ELT149 Advanced Electrical Systems**

**2 credits**—This class stresses electrical distribution systems, electrical transformers, AC and DC motor theory, operation and repair, motor testing and sizing procedures, manual and magnetic starters, and motor overload protection. Specific topics will include types of electrical distribution systems, transformer theory and operation, electrical safety related to motor systems, lockout/tagout techniques, use of motor testing devices, and construction, sizing, and installation of motor overload devices. Extensive laboratory exercises will enhance classroom studies.

**Lecture Hours:** 16 **Lab Hours:** 32  
**Pre/Co-requisite(s):** ELT139

### **ELT156 Industrial Electronics**

**5 credits**—This course covers the theory and application of devices and circuits used in industrial and commercial electronics.

**Lecture Hours:** 48

### **ELT192 Introduction to Computer Science**

**3 credits**—This course will introduce the student to the basic use of the personal computer. The course will include a study of DOS, Word Processing, Spreadsheet, and BASIC programming language.

**Lecture Hours:** 32 **Lab Hours:** 32

### **ELT215 Motors and Controls**

**2 credits**—This class stresses motor control systems, devices, circuit design and construction, and troubleshooting techniques. Specific topics will include electrical safety, lockout/tagout procedures, relays, timers, pilot devices, and solid state control technologies. Extensive laboratory exercises using industrial-grade components will enhance classroom studies.

**Lecture Hours:** 16 **Lab Hours:** 32  
**Prerequisite(s):** ELT139

### **ELT216 DC Controls Circuits**

**2 credits**—The course is an introduction DC control components and DC control systems used in industrial applications. Both stand-alone circuits and PLC circuits are covered.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT234 PLC Programming**

**2 credits**—An introduction to the fundamental principles of programmable controller operation. Topics to be presented will include basic system configurations and hardware, relay-equivalent instructions, timers and counters, data manipulation commands, and searching/program documentation.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT139.

**Pre/Co-requisite(s):** ELT215

### **ELT239 Advanced Electrical Systems**

**3 credits**—This class stresses electrical distribution systems, electrical transformers, AC and DC motor theory, operation and repair, motor testing and sizing procedures, manual and magnetic starters, and motor overload protection. Specific topics will include types of electrical distribution systems, transformer theory and operation, electrical safety related to motor systems, lockout/ tagout techniques, use of motor testing devices, and construction, sizing, and installation of motor overload devices. Extensive laboratory exercises will enhance classroom studies.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT240 PLCs II**

**2 credits**—As modern manufacturing becomes more computer-control oriented the industrial programmable controller plays an increasingly important role. In this course the learner will study advanced programming commands, sequencers, file moves, arithmetic functions, and data communications; advanced PLC architectures; as well as interfacing, troubleshooting, and applications.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT234.

### **ELT245 PLCs III**

**2 credits**—An introduction to the programmable controller operation using Siemens PLC systems. Topics to be presented will include system configurations and hardware, relay-equivalent instructions and timers and counters for ladder logic programming, and function block diagram programming concepts.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT290 DC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to direct current circuits. This course assumes no previous knowledge of electricity or electronics. An understanding of algebra is required.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** MAT504

### **ELT291 AC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to alternating current circuits. This course is a continuation of the DC Electricity course. An understanding of algebra is required.

**Lecture Hours:** 48

**Prerequisite(s):** ELT290 **Pre/Co-requisite(s):** MAT504

### **ELT311 Digital Circuits and Systems**

**4 credits**—This course provides students with knowledge and understanding of digital logic circuit design and operation using integrated circuits. Studies include combinatorial logic circuits, flip-flops, arithmetic circuits, counters and registers, and logic families, with introduction of hardware and software of microcontrollers.

**Lecture Hours:** 32

**Prerequisite(s):** MAT514 **Pre/Co-requisite(s):** ELT526

### **ELT315 Digital Logic for Industrial Applications**

**2 credits**—This course provides students with knowledge and understanding of digital logic functions in industrial applications. Topics of study include combinational logic circuits, flip-flops, counters, registers and semiconductor memory devices.

**Lecture Hours:** 16

**Co-requisite(s):** A minimum grade of C- in ELT139.

### **ELT320 Electronic Devices**

**5 credits**—This course is an introduction to electronic devices and their uses. This course provides the foundation for advanced courses in electronics circuit and systems by teaching the operating characteristics of electronic devices and circuit design using those devices.

**Lecture Hours:** 48 **Lab Hours:** 80 **Clinic Hours:** 48

**Prerequisite(s):** ELT291

**Pre/Co-requisite(s):** MAT514

### **ELT321 Operational Amplifiers**

**3 credits**—This course is an introduction to operational amplifiers and their uses. This course provides the foundation for advanced courses in electronics circuit and systems by teaching the operating characteristics of operational amplifiers and circuit design using those devices.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** ELT291

**Pre/Co-requisite(s):** MAT514

### **ELT403 Visual Basic**

**3 credits**—This course introduces students to Visual Basic programming languages. The objective of this course is to provide students with the understanding of high level programming languages and programming techniques used in problem solving.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in EGT108, EGT410, or ELT192.

### **ELT409 Data Acquisition Systems**

**4 credits**—This course includes signal conditioning, transducer characteristics, microcontroller input/output and interfacing using C programming language and applications.

**Lecture Hours:** 32

**ELT415 Communication Circuits I**

**5 credits**—This course is an introduction to communication circuits, with an in depth study of A.M. and F.M. transceiver theory.

**Lecture Hours:** 48

**Prerequisite(s):** ELT320 and ELT321

**ELT416 Communication Circuits II**

**5 credits**—This course is continuation of Communication Circuits I. This course includes the study of frequency synthesis, transmission line theory, digital communication techniques, antennas and microwave devices.

**Lecture Hours:** 48

**Prerequisite(s):** ELT415

**ELT417 Computer Systems**

**3 credits**—This course provides the students with the understanding of personal computer hardware systems and administration of various computer operating systems.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D- in EGT108, EGT410, or ELT192.

**ELT444 Industrial Networking**

**2 credits**—This course introduces the student to networking industrial equipment such as PLC's, Variable Frequency Drives, control components and computers. Industry-standard connectivity is covered and actual networks are set up.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT234.

**ELT512 Electronic Fabrication**

**2 credits**—This course provides students with an understanding of the hand tools and materials used by the technicians in the electronics field and instruction in their usage.

**Lecture Hours:** 16 **Lab Hours:** 32

**ELT532 Semiconductors for Industrial Applications**

**2 credits**—This course provides an introduction to electronic devices and their uses. Applications of semiconductors in power electronics circuits for control are covered. This course provides the foundation for advanced courses in electronics systems.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

**ELT600 Applied Computer Programming**

**3 credits**—This course introduces students to Visual C and LabView programming languages. The objective of this course is to provide students with the understanding of high level programming languages and programming techniques used in problem solving.

**Lecture Hours:** 32

**Prerequisite(s):** EGT108 or EGT410

**ELT701 Embedded Processors**

**3 credits**—This course is an introduction to microcontroller theory and applications. The objective of this course is to provide students with the basic microcontroller theory necessary to understand the operation and interfacing characteristics. This includes typical microcontroller architecture with C programming, Input/output and interfacing concepts, hardware/software interaction and applications.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** ELT409

**ELT703 Introduction to Networking**

**2 credits**—This course introduces the student to the fundamental building blocks that form a modern computer network, such as protocols, topologies, hardware, and network operating systems. The course then provides in-depth coverage of the most important concepts in contemporary networking, such as client/server architecture, TCP/IP, Ethernet, wireless transmission and security.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in ELT409.

**ELT736 Instrumentation and Control**

**2 credits**—With the increase in computer-controlled systems in modern business and industry the study of instrumentation and transducers is vital to a maintenance technicians education. This course will concentrate on the types of instrumentation currently available, interfacing and cabling techniques, signal conditioning, noise control, and applications and troubleshooting of complete systems.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT139.

**ELT802 Electronics Design Project I**

**1 credit**—This course is the first of a series of two design courses. This course will introduce the student to design concepts and procedures as related to the design of electronics equipment. This course will require the student to identify an electronics design project as an individual or as a member of a team that will be completed during this course and the Electronics Design Project II course. All design projects will be subject to instructor approval.

**Lab Hours:** 32

**ELT803 Electronics Design Project II**

**1 credit**—This course is a continuation of ELT802 Electronic Design Project I. The student will complete the design project that was identified and started in Electronic Design Project I. This course will require the student to design, prototype, troubleshoot, and debug an electronics related project based on technology presented throughout the EET program.

**Lab Hours:** 32 **Prerequisite(s):** ELT802 **Pre/Co-requisite(s):** ELT156

### **EMS114 Emergency Medical Responder**

**2 credits**—This course provides the student with the necessary skills and knowledge to identify and treat life-threatening emergencies, wounds and fractures, medical and environmental emergencies and patient access and handling. This course utilizes a combination of classroom lecture and skills practice.

**Lecture Hours: 16 Lab Hours: 32**

### **EMS201 Emergency Medical Technician – Effective Fall 2015**

**7 credits**—This course is for individuals who anticipate working with an ambulance service, hospital emergency department, fire department or other occupational field where emergencies are common. Course includes topics related to assessment and treatment of illness and injury. This course also includes a clinical and field component.

**Lecture Hours: 80 Lab Hours: 32 Co-op Hours: 64**

### **EMS201 Emergency Medical Technician – Effective Summer 2016**

**7 credits**—This course is for individuals who anticipate working with an ambulance service, hospital emergency department, fire department or other occupational field where emergencies are common. Course includes topics related to assessment and treatment of illness and injury. This course also includes a clinical and field component.

**Lecture Hours: 64 Lab Hours: 64 Co-op Hours: 64**

**Prerequisite(s):** A minimum grade of C in ENG060, ENG061, COM781, ENG105, or ENG106 or meet requirement with equivalent assessment score. A minimum grade of C in RDG039 or RDG040 or meet requirement with equivalent assessment score.

### **EMS541 Clinical I**

**3 credits**—This course will provide clinical atmosphere for performance of psychomotor skills as described by the National Highway Traffic Safety Administration, National Standard Paramedic Curriculum. To successfully complete this course, students must demonstrate competency in skills for patients of all ages within the scope of practice. The student will participate in and document patient contacts and field experience. Additional contact hours (up to 3 times stated minimum) may be needed to meet the course competencies. Permission of instructor required.

**Co-op Hours: 192**

**Co-requisite(s):** EMS641 and EMS619

### **EMS546 Clinical II**

**3 credits**—This course will provide clinical atmosphere for performance of psychomotor skills as described by the National Highway Traffic Safety Administration, National Standard Paramedic Curriculum. To successfully complete this course, students must demonstrate competency in skills for patients of all ages within the scope of practice. The student will participate in and document patient contacts and field experience. Additional contact hours (up to 3 times stated minimum) may be needed to meet the course competencies. Permission of instructor required.

**Co-op Hours: 192**

**Prerequisite(s):** A minimum grade of C in EMS541.

**Co-requisite(s):** EMS677, EMS674, and EMS650

### **EMS619 Airway and Patient Assessment**

**4 credits**—The course includes Module 2 (Airway Management and Ventilation) and Module 3 (Patient Assessment) of the DOT National Standard Curriculum for EMT Paramedics. Content will include advanced airway management physical assessment, field assessment, clinical decision making, documentation and the assessment and management of respiratory emergencies. The lab component of this course includes skills in airway management and ventilation, history taking, techniques of physical examination, patient assessment, clinical decision making, communication and AHA ACLS. All will be practiced and demonstrated.

**Lecture Hours: 48 Lab Hours: 32**

**Co-requisite(s):** A minimum grade of C in EMS641.

### **EMS641 Introduction to Paramedicine**

**3 credits**—Provides an overview of paramedic roles and responsibilities and the emergency medical service system. Includes discussion of medicolegal and ethical issues in EMS, agents of trauma and disease, and career opportunities for paramedics. Provides discussion and demonstration of proper documentation in EMS, emergency vehicle operations, and non-patient care aspects of EMS.

**Lecture Hours: 48**

**Prerequisite(s):** A minimum grade of C in EMS201.

### **EMS650 Medical and Psychological Emergencies**

**4 credits**—Lecture and case-based teaching in the pathophysiology, recognition and advanced life support assessment and management of emergencies involving the nervous, endocrine, renal, and gastrointestinal systems. Assessment and intervention in psychological emergencies.

**Lecture Hours: 48 Lab Hours: 32**

**Prerequisite(s):** A minimum grade of C in EMS641 and EMS619.

### **EMS655 Transition to Paramedic Practice**

**4 credits**—This course will provide a platform for the student to apply cognitive, psychomotor, and affective skills to actual practice during a field internship. This course will also include comprehensive psychomotor exercises in a lab setting to prepare the paramedic student for national certification.

**Lab Hours: 32 Co-op Hours: 192**

**Prerequisite(s):** A minimum grade of C in EMS541, EMS546, EMS641, EMS671, and EMS619, or instructor approval.

### **EMS671 Paramedic Pharmacology/Pathophysiology**

**3 credits**—Paramedic Pharmacology/Pathophysiology is a preparatory course for the Paramedic Education Program. The course will concentrate on the pathophysiology of illness and injury on the human body and also relate the principles of pharmacology to the pathophysiology.

**Lecture Hours: 32 Lab Hours: 32**

**Co-requisite(s):** EMS619 and EMS641

### **EMS674 Cardiology for the Paramedic**

**4 credits**—Cardiology for the Paramedic will focus on assessing the prehospital cardiac patient, interpreting electrocardiograms, and formulating treatment regimens for these patients.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in EMS641, EMS671, and EMS619, or instructor approval.

**Co-requisite(s):** EMS650

### **EMS677 Special Populations for the Paramedic**

**4 credits**—Special Patient Populations for the Paramedic explores illness and injury in the obstetric/gynecologic, neonatal, pediatric, geriatric, and chronically ill patient populations.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in EMS641 and EMS619, or instructor approval.

### **EMS678 Traumatic Emergencies for the Paramedic**

**3 credits**—Traumatic Emergencies for the Paramedic explores the science of traumatic injuries, their detection and treatment. Major topics include: soft tissue, shock, hard tissue, nervous system, and internal injuries.

**Lecture Hours:** 32 **Lab Hours:** 32

**Co-requisite(s):** EMS671

### **ENG060 College Preparatory Writing I**

**3 credits**—This course is the first in the college writing sequence. It provides students with opportunities to read and comprehend increasingly difficult texts in a variety of genres; to think more deeply and critically about the issues and ideas presented in these texts; and to respond to those texts in writing with increasing fluency, confidence, and clarity. Students should connect personally with assigned reading material and communicate their thoughts clearly in writing using Standard English. This course emphasizes responses grounded in the writer's personal interaction with the assigned text. It prepares students for the next level in their writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ENG061 College Preparatory Writing II**

**3 credits**—This course encourages students to improve their critical thinking skills, reading comprehension, and writing proficiency for inquiry, learning, thinking, and communication. Students will read, discuss, and respond to a variety of texts of different genres so as to analyze texts and write for different purposes. Students will work individually and collaboratively to produce, revise, and edit written work. Central to the objective of this course is developing a personal writing process: generating ideas, producing multiple drafts, revising, and editing. This course prepares students to advance into their appropriate program writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** ENG060 or appropriate COMPASS scores or equivalent.

### **ENG105 Composition I**

**3 credits**—Composition I emphasizes fluency, thesis-driven organization, the use of supporting details, and research techniques. Writing is approached as a recursive process that includes prewriting strategies, drafting, revising, and editing. The course helps students shape writing to serve readers' needs and define a sense of purpose in their writing. It also gives students strategies for reading college-level material.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate COMPASS scores or equivalent.

### **ENG106 Composition II – Effective Fall 2015**

**3 credits**—Composition II aims to review and extend writing principles learned in Composition I to analytical, argumentative, and research-based writing. This course emphasizes critical reading, evaluation, and precise and responsible source citation.

**Lecture Hours:** 48

**Prerequisite(s):** ENG105

### **ENG106 Composition II – Effective Summer 2016**

**3 credits**—Composition II aims to review and extend writing principles learned in Composition I to analytical, argumentative, and research-based writing. This course emphasizes critical reading, evaluation, and precise and responsible source citation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG105.

### **ENG221 Creative Writing**

**3 credits**—A beginning course for students interested in writing poetry and short stories. The course involves discussion of selected texts by accomplished writers (creative and critical work), assignments designed to develop specific skills and techniques, class discussion of student work, and individual conferences. The semester will be roughly divided between the two genres. As a final project, students are expected to write one of the following: 1) A collection of at least six polished poems; 2) A major revision of a substantial short story.

**Lecture Hours:** 48

### **ENV115 Environmental Science – Effective Fall 2015**

**3 credits**—This natural science course addresses the manner in which we approach our environment today and how it will affect the world we live in tomorrow. This course examines the challenges of: developing sustainable energy sources, maintaining the quality of our air, water, and soil, and preserving the remaining biodiversity and habitat. As these challenges are examined, possible solutions will be evaluated.

It is suggested to take BIO105 to better prepare for this course.

**Lecture Hours:** 48

### **ENV115 Environmental Science – Effective Summer 2016**

**3 credits**—This natural science course addresses the manner in which we approach our environment today and how it will affect the world we live in tomorrow. This course examines the challenges of: developing sustainable energy sources, maintaining the quality of our air, water, and soil, and preserving the remaining biodiversity and habitat, and human population pressures as they relate to the environment. As these challenges are examined, possible solutions will be evaluated.

It is suggested to take BIO105 to better prepare for this course.

**Lecture Hours:** 48

### **ENV116 Environmental Science Lab**

**1 credit**—This laboratory course provides a hands-on approach to understanding challenges to our environmental health. The course examines population growth, a framework for understanding the extent of habitat loss and degradation and its impact on biodiversity; water quality and treatment; soil quality and management practices; examination of energy consumption and alternatives; and an evaluation of ecosystem interactions.

**Lab Hours:** 32

**Pre/Co-requisite(s):** ENV115

### **ENV155 Residential Energy Auditing**

**4 credits**—The Residential Energy Auditing course covers residential energy auditing and associated heating and air-conditioning equipment. The concepts of heat flow, energy audit software, building science, building envelope diagnostics, construction practices, material costs, moisture concerns, proper insulation and airsealing techniques, energy pricing, energy modeling, and residential HVAC systems. Equipment selection, layout, piping techniques, troubleshooting, codes, preventive maintenance, diagnostics, multiple systems, and accessories are also covered.

**Lecture Hours:** 32 **Lab Hours:** 64

### **ENV170 Photovoltaic and Hybrid Electrical Systems**

**2 credits**—The Photo-voltaic and Hybrid Electrical systems course will provide students with an opportunity to size, construct, maintain, and analyze residential sized hybrid systems. Students will gain first hand experience working with electrical energy systems consisting of wind generators, photo-voltaic arrays, battery storage systems, inverters and system controllers.

**Lecture Hours:** 16 **Lab Hours:** 32

### **ENV185 Solar Photovoltaic Design and Installation**

**2 credits**—Introduces solar photovoltaic system requirements, design and configurations, installation techniques and their application in residential and commercial construction.

**Lecture Hours:** 16 **Lab Hours:** 32

### **ESL005 ESL Reading for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English to acquire basic reading skills. The course introduces students to effective reading strategies, approaches to reading in a variety of genres, strategies to expand vocabulary, and basic library research. Students are also encouraged to improve their reading fluency through extensive reading.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL011 ESL Writing for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English in the acquisition of basic grammatical structures of English and writing skills. The primary focus of the course is to develop students' competence and confidence in writing for academic purposes. Students will review basic grammatical rules and structures, understand the elements of paragraph through process writing, practice writing for different purposes, expand vocabulary, and develop fluency in writing.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL014 ESL Listening and Speaking for Academic Purpose I**

**4 credits**—This is the first of two courses designed for non-native speakers of English to acquire basic aural and oral skills. The primary focus of the course is to prepare students for academic content. Students will be involved in a variety of communicative activities to increase their confidence in understanding and communicating with others, to improve fluency as well as accuracy, to expand vocabulary, to practice note-taking skills, and to learn about American culture.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** Appropriate placement scores or equivalent.

### **ESL020 English as a Second Language Lab**

**2 credits**—The purpose of the course is to provide the non-native speaker of English with a variety of realistic laboratory tasks that will improve and expand their English fluency.

The primary focus of the course is to expand vocabulary, improve pronunciation, and to provide the students with experiences that will enhance their confidence in their English ability. This course can be used to prepare the ESL student for wither the ESL I or ESL II course in the fall. It is designed to accommodate students at both the intermediate and advanced levels.

**Lab Hours:** 64

**Prerequisite(s):** Instructor approval.

### **ESL083 ESL Writing for Academic Purpose II**

**4 credits**—This is a course for non-native speakers of English in the acquisition of advanced grammatical structures and writing skills (necessary for academic English). The course is especially designed to develop advanced writing skills that will be needed in order to successfully complete transferable academic classes. Students will review problems in English grammar, analyze academic writing, practice writing for different purposes, and be introduced to different documentation styles.

**Lecture Hours:** 64

**Prerequisite(s):** ESL011 or appropriate placement scores or equivalent.

**ESL084 ESL Reading for Academic Purpose II**

**4 credits**—This is a course in continuing the acquisition of reading skills in English for non-native speakers. The primary goal of the course is to prepare students to become independent readers and to manage academic texts. Students are given opportunities to apply reading strategies effectively, to improve comprehension skills, to expand vocabulary, and to develop library research skills needed for academic study.

**Lecture Hours:** 64

**Prerequisite(s):** ESL005 or appropriate placement scores or equivalent.

**ESL089 ESL Listening and Speaking for Academic Purpose II**

**4 credits**—This is a course in continuing the acquisition of aural and oral skills in English for non-native speakers. The course is designed to help students develop listening and speaking skills that will be needed to be successful in fully transferable college courses. Skills taught include listening strategies, note taking, oral presentations, and vocabulary development. Students will also develop a deeper understanding of American culture through various activities.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** ESL014 or appropriate placement scores or equivalent.

**FIN121 Personal Finance**

**3 credits**—This course enables students to achieve high standards and competencies in economic principles in contexts of high relevancy and applicability to their individual, family, professional, and community lives. A project-based approach that utilizes higher order thinking, communication, leadership, and management processes will integrate course topics. Upon completion, students should be able to better understand scarcity, supply and demand, market structures, the role of government, money and the role of financial institutions, economic stabilization and cycles, investing and financial markets, and consumer credit.

**Lecture Hours:** 48

**FIR124 Building Construction**

**3 credits**—This course provides the components of building construction that relate to fire and life safety. The focus of this course is on firefighter safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies.

**Lecture Hours:** 48

**FIR127 Fire Behavior and Combustion**

**3 credits**—This course explores the theories and fundamentals of how and why fires start, spread, and how they are controlled.

**Lecture Hours:** 48

**FIR130 Fire Prevention**

**3 credits**—This course provides fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention with built-in fire protection systems, fire investigation, and fire and life-safety education.

**Lecture Hours:** 48

**FIR139 Fire Fighter I**

**3 credits**—After completing the course the student will have met the sections required for a Firefighter I in the NFPA® 1001, Standard for Fire Fighter Professional Qualifications, and the requirements for National Fire Protection Association's (NFPA) 472, Standard for Professional Competence of Responders to Hazardous Materials Incidents for the the Awareness and Operational Levels.

**Lecture Hours:** 48 **Lab Hours:** 32

**FIR145 Fire Strategies and Tactics**

**3 credits**—This course provides an in-depth analysis of the principles of fire control through utilization of personnel, equipment, and extinguishing agents on the fire ground.

**Lecture Hours:** 48

**FIR149 Fire Protection Hydraulics and Water Supply**

**3 credits**—This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems.

**Lecture Hours:** 48

**FIR180 Hazardous Materials Chemistry**

**3 credits**—Covers properties of chemistry in fire service. Types of chemicals, processes, and legal requirements are discussed as they pertain in use, storage, and transportation of chemicals.

**Lecture Hours:** 48

**Co-requisite(s):** FIR139

**FIR200 Occupational Safety/Health in Emergency Services**

**3 credits**—This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk evaluation and control procedures for fire stations, training sites, emergency vehicles, and emergency situations involving fire, EMS, hazardous materials, and technical rescue. Upon completion of this course, students should be able to establish and manage a safety program in an emergency service organization.

**Lecture Hours:** 48

### **FIR213 Principles of Emergency Services**

**3 credits**—This course provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.

**Lecture Hours:** 48

### **FIR214 Legal Aspects of Emergency Services**

**3 credits**—This course introduces the Federal, State, and local laws that regulate emergency services, national standards influencing emergency services, standard of care, tort, liability, and a review of relevant court cases.

**Lecture Hours:** 48

### **FIR235 Fire Investigation I**

**3 credits**—This course is intended to provide the student with the fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the fire-setter, and types of fire causes.

**Lecture Hours:** 48

### **FIR236 Fire Investigation II**

**3 credits**—This course is intended to provide the student with advance technical knowledge on rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and testifying.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in FIR235.

### **FIR291 Fire Fighter II Certification**

**3 credits**—After completing the course the student will have met the sections required for a Firefighter II in the NFPA® 1001, 2013 edition, Standard for Fire Fighter Professional Qualifications. Students who successfully complete the certification process will be certified as a Firefighter II.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in FIR139.

### **FIR300 Principles of Fire and EMS Administration**

**3 credits**—This course introduces the student to the organization and management of a fire and emergency services department and the relationship of government agencies to the fire service. Emphasis is placed on fire and emergency service, ethics, and leadership from the perspective of the company officer.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in FIR213.

### **FIR400 Emergency Safety and Survival**

**3 credits**—This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services.

**Lecture Hours:** 48

### **FLF145 French I**

**5 credits**—This course is an introduction to the basic vocabulary and key structures of the French language. The course will help students develop the four basic skills of listening, speaking, reading, and writing and will provide the beginning steps toward the acquisition of the French language. The course also focuses on making the student more culturally aware.

**Lecture Hours:** 80

### **FLF245 French II**

**5 credits**—This course continues to introduce basic vocabulary and key structures of the French language. The course will help students to continue to develop the four basic skills of listening, speaking, reading, and writing and will provide additional steps toward the acquisition of the French language. The course continues to focus also on making the student more culturally aware.

**Lecture Hours:** 80

**Prerequisite(s):** FLF145

### **FLS128 Conversational Spanish**

**3 credits**—Elementary speaking skills used in everyday conversations. Progresses toward the ability to converse in more varied and complex settings. Not for students who plan to major in foreign language.

**Lecture Hours:** 48

### **FLS151 Elementary Spanish I**

**5 credits**—This course is student-centered introductory instruction in the basic components of the Spanish language. The course will help students develop the skills necessary for the acquisition and perfection of the primary concepts of reading, writing, listening, and speaking in the Spanish language.

This course is not recommended for students who have completed one year or more of high school Spanish or the equivalent.

**Lecture Hours:** 80

### **FLS152 Elementary Spanish II**

**5 credits**—Provides continued instruction in the basic and necessary linguistic elements of Spanish to enable the learner to communicate verbally and in writing within the limits of the language presented.

**Lecture Hours:** 80

**Prerequisite(s):** FLS151 or equivalent course or instructor approval.

### **FLS241 Intermediate Spanish I**

**4 credits**—This course is student-centered instruction that reviews essential grammatical elements in the language and introduces new topics as a continuation of the first year of Spanish. Instruction will enable learners to further develop proficiency in speaking, listening, writing, reading, and cultural understanding of Spanish speaking countries.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in FLS152.

### **FLS242 Intermediate Spanish II**

**4 credits**—This course is student-centered instruction that promotes further linguistic development as a continuation of Intermediate Spanish I. Instruction will enable learners to expand their understanding of Spanish culture while increasing grammatical knowledge and spontaneous vocabulary usage.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in FLS241.

### **GEO115 Human Geography**

**3credits**—The course introduces basic fields of study, concepts, and research strategies of human geography. As a social science course it examines the interaction of humans and geographical space while exploring topics such as cultural diversity, urban centers, political boundaries, migration, land/water modification, erosion, and pollution.

**Lecture Hours:** 48

### **GEO121 World Regional Geography**

**3 credits**—This introductory course builds an understanding of the physical and social aspects of geography by examining the major regions of the world and their connections. This will be accomplished by a geographic regional "tour" of the world examining the basic relationship between the physical environment and the cultural aspects within these regions.

**Lecture Hours:** 48

### **GEO131 Physical Geography**

**3 credits**—An introduction to one of the major sub-fields of geography. Physical geography is the study of how and why physical phenomena vary spatially at and near the earth's surface. This course will emphasize describing the spatial distribution of the earth's natural features, patterns of solar energy receipt, atmospheric pressure, winds and precipitation around the earth. Introductory laboratory exercises complement the lecture.

**Lecture Hours:** 48

### **GEO132 Physical Geography Lab**

**1 credit**—An introductory laboratory course to complement GY110T Physical Geography. The course explores the concepts, resources, and specialized methods necessary to understand the major elements of Physical Geography.

**Lab Hours:** 32

**Pre/Co-requisite(s):** GEO131

### **GRA105 Drawing and Composition**

**4 credits**—This course introduces the student to a variety of art-making materials and media, provides a broad range of drawing experiences designed to expand the student's artistic perception, and enhances the student's ability to develop appropriate art-based solutions to common graphic design problems.

**Lecture Hours:** 32 **Lab Hours:** 64

### **GRA124 Electronic Illustration**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to create vector artwork. Students will utilize the leading vector drawing software to develop essential vector art rendering techniques.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** GRA133

### **GRA133 Desktop Publishing**

**4 credits**—This course introduces the student to computer generated layout and design production skills using electronic publishing software. Emphasis is a "hands-on" introduction to the leading page-layout application program utilized in the graphic communications industry.

**Lecture Hours:** 32 **Lab Hours:** 64

### **GRA142 Graphic Imaging**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to create raster graphics. Students will utilize the leading digital imaging software to develop essential image manipulation techniques.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** GRA133

### **GRA150 Introduction to Web Design**

**3 credits**—This course introduces students to the fundamentals of Website design and development. Emphasis is placed on designing cross-browser compatible interfaces and standards compliant Websites. Domain registration, Website hosting, search engine optimization, accessibility, usability, and interoperability will be discussed.

**Lecture Hours:** 32 **Lab Hours:** 32

### **GRA162 Web Page Graphics**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to create Website graphics. Students will utilize digital imaging software and emerging Web technologies to develop skills in constructing and implementing Web page graphics.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA150.

### **GRA196 Design and Layout I**

**4 credits**—This course emphasizes the fundamentals of design and layout in visual communications. The course provides experience in the type selection process for design application.

**Lecture Hours:** 32 **Lab Hours:** 64

**Pre/Co-requisite(s):** A minimum grade of D- in GRA133.

**GRA197 Design and Layout II**

**4 credits**—This course applies the principles and methods of design and layout to

creating solutions for design problems. The process involved with communicating a client's product, service or image to a specific or general audience is explored in project application.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA196 and GRA133.

**GRA200 Applications of Color**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to color manage digital art and make logical decisions with regard to choosing color during the design process.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** GRA133

**GRA205 Design and Layout III**

**4 credits**—This course expands the dimension of the process of design to include specific information and experiences pertaining to advertising design and other advanced design formats.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA124 and GRA197.

**GRA206 Advanced Design and Layout**

**4 credits**—This course expands the dimension of the process of design to include specific information and experiences pertaining to advertising design and other advanced design formats.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA142, GRA197, and GRA200.

**GRA221 Principles of Illustration**

**3 credits**—This course develops an understanding of illustration within the context of graphic communications. Students will have the opportunity to produce original illustrations using a variety of media, tools and techniques.

**Lecture Hours:** 32 **Lab Hours:** 32

**GRA227 Interactive Multimedia**

**4 credits**—This course emphasizes designing interactive presentations using multimedia. Students will conceptualize, design and deliver interactive content.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** GRA150

**GRA231 Photo Direction**

**2 credits**—This course presents an overview of the process involved with working with a commercial photographer. Working environment conditions, procedures and expectations for the designer will be covered. An introduction of the basics of digital photography will be provided.

**Lecture Hours:** 32

**GRA238 Web Design and Layout**

**4 credits**—This course provides students with the knowledge, skills, and experiences needed to design and layout a static Website. Students will utilize the leading Website design software and Web design formatting languages to develop skills in designing, building, publishing, and maintaining a static Website.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA150.

**GRA239 CMS Web Design**

**3 credits**—This course provides students with the knowledge, skills, and experiences needed to develop a dynamic Website. Students will utilize an open source Web Content Management System and leading Website design software to develop skills in implementing, administering, and designing a CMS based Website.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in GRA 150 Introduction to Web Design

**GRA285 Production Processes**

**3 credits**—This course will utilize desktop pre-press production techniques used for preparing artwork for printing. One color to multi-color techniques will be covered.

**Lecture Hours:** 32 **Lab Hours:** 32

**Pre/Co-requisite(s):** GRA200

**GRA290 Portfolio Preparation**

**3 credits**—The course is intended to advance student knowledge in portfolio and resume construction and job search strategies.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in GRA142, GRA200, and GRA197

**GRA924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**HCM100 Sanitation and Safety**

**2 credits**—Studies basic principles of bacteriology, food borne illness, sanitation, workplace safety, personal hygiene, food security, health regulations and inspections. Emphasizes the importance of sanitary equipment and facilities, and pest control.

Students must complete the National Restaurant Association Educational Foundation certification exam to pass this course.

**Lecture Hours:** 32

**HCM138 Food Fundamentals**

**3 credits**—Studies the composition of foods and the scientific principles involved in food preparation. Emphasizes basic food handling competencies and cookery techniques.

Students work with herbs, spices, dairy, eggs, fruits, vegetables, starches, stocks, sauces and soups, learning to produce quality products. Focuses on the development of proper kitchen procedures, use and care of equipment, sanitation, safety, cost control and efficient work methods.

**Lecture Hours:** 48

**HCM200 Dining Room Service**

**2 credits**—Students will learn basic serving strategies, side work, service methods, styles of food service dining room etiquette, sanitation techniques POS systems dining room functions and the use of sound management techniques and quality customer service.

**Lecture Hours:** 16 **Lab Hours:** 32

**HCM240 Menu Planning and Design**

**2 credits**—This course applies the principles of menu planning and layout to the development of menus for a variety of types of facilities and service. The course will also examine the kitchen design, and facility layout.

**Lecture Hours:** 32

**HCM242 Event Planning and Customer Service**

**2 credits**—This course will cover all aspects of event planning and customer service relating to the restaurant and hospitality fields. Student will engage in a hands on learning experience of dealing with real life customers and planning events such as company parties, graduations, and wedding receptions.

**Lecture Hours:** 32

**HCM251 Purchasing, Receiving, and Inventory**

**2credits**—Studies principles in purchasing, receiving, issuing and inventory management. Emphasizes cost management techniques. Students practice skills in a clinical lab experience supervised by the purchasing manager.

**Lecture Hours:** 32

**HCM589 Introduction to Restaurant Management**

**3 credits**—Students will develop fundamental skills necessary to begin a career in the restaurant field of hospitality. Topics include customer service, management and scheduling. General overviews of both front and back of the house will be covered.

**Lecture Hours:** 48

**HCM602 Introduction to Food and Bar Operations**

**3 credits**—Focuses on the management of food and beverage operations in lodging establishments. Includes stewarding, banquets, restaurant, beverage and room service. Prepares students for internships in lodging operations.

**Lecture Hours:** 48

**HCM605 Hotel Administration**

**2 credits**—A management course that introduces the student to advanced studies of property management, catering, sales, legal aspects, security and maintenance of all departments of the hotel.

**Lecture Hours:** 32

**HCM608 Introduction to Hospitality**

**3 credits**—Introduction to the food service, lodging, and tourism components of the hospitality industry. Background information, current issues, resume writing, and future challenges in various segments of the industry.

**Lecture Hours:** 48

**HCM905 Hospitality Internship**

**3 credits**—This course will provide students with an opportunity to gain hands on experience in the hospitality industry.

Can be taken for up to 5 credit hours.

**Lecture Hours:** 0 **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in HCM608, HCM605, and HCM589.

**HCR110 Residential Forced Air Heating Systems**

**3 credits**—This course presents application of energy sources and equipment as they apply to heating, ventilation, air humidification, and filtration systems.

**Lecture Hours:** 16 **Lab Hours:** 32

**HCR113 Boiler Fundamentals**

**2 credits**—This class informs students of the concepts, terms, and the major components of steam systems. Topics include the basic steam heating cycle. Also covered in this course are the safety procedures necessary when working on low-pressure steam boilers and systems. Students will be able to install and maintain specific steam traps and recognize the common piping configurations used with steam heating systems.

**Lecture Hours:** 32

**Co-requisite(s):** HCR414, HCR275, and HCR516

**HCR126 Solar Thermal Installation (inactivated 5-16-2016)**

**2 credits**—The Solar Thermal Installation course introduces solar thermal system requirements, design and configurations, installation techniques, operation and their application in residential and commercial construction.

**Lecture Hours:** 16 **Lab Hours:** 32

**HCR127 Hydronic Heating Systems**

**2 credits**—To provide experiences in the operation, layout, and selection, and troubleshooting of residential and light commercial boilers.

**Lecture Hours:** 16

**Co-requisite(s):** HCR429, HCR602, HCR852, and HCR912

### **HCR201 Manual J and D HVAC Design**

**2 credits**—The Manual J and Manual D Residential HVAC Design course will provide students with the necessary skills to analyze a residential building's heating and cooling loads, and design appropriate ductwork systems. Students will begin the process using pencil and paper worksheets and Excel spreadsheets; then finish using Manual J and Manual D dedicated software programs.

**Lecture Hours:** 32 **Lab Hours:** 32

### **HCR265 Applied Practices I**

**5 credits**—This course provides students with practice in servicing and repair of the equipment in the H.V.A.C.R. lab to develop basic proficiency.

**Lab Hours:** 240

### **HCR275 Applied Practices II**

**5 credits**—This course provides students with opportunities to apply the theory to practice to become proficient in the service and repair of the equipment in the H.V.A.C.R. lab area.

**Lab Hours:** 240

**Prerequisite(s):** HCR414 and HCR516

### **HCR414 Controls for HVACR**

**4 credits**—This course presents a more advanced study of electrical controls and their applications, an introduction electronics and the controls used in the H.V.A.C.R. systems.

**Lecture Hours:** 64

**Prerequisite(s):** ELT139 and ELT149

### **HCR429 HVAC App Controls w/Automated Systems**

**2 credits**—This course is a study of electronic controls and circuitry systems for H.V.A.C.R.

**Lecture Hours:** 32

**Co-requisite(s):** HCR127, HCR602, HCR852, and HCR912

### **HCR516 HVACR Systems II**

**6 credits**—This course presents a continuing and advanced study of systems used in heating, ventilation, air cooling and refrigeration.

**Lecture Hours:** 96

**Co-requisite(s):** HCR275 and HCR414

### **HCR602 HVACR Systems III**

**2 credits**—This course presents alternative application of energy sources and equipment as they apply to heating, ventilation, air-cooling and refrigeration systems.

**Lecture Hours:** 32

**Prerequisite(s):** HCR516

**Co-requisite(s):** HCR429 and HCR912

### **HCR852 Operation Strategies**

**2 credits**—This course presents customer relations and principles of successful business techniques. The job search and interview process will also be covered.

**Lecture Hours:** 32

**Prerequisite(s):** IND181 and HCR110

### **HCR912 HVACR Field Experience**

**2 credits**—This course places students in professional settings for experiences in the Heating, Cooling and Air-Conditioning trades. Emphasis is given to observation of and participation in: troubleshooting, installation document preparation, and business practices.

**Co-op Hours:** 128

**Prerequisite(s):** All first and second semester program courses and a current program

2.00 cumulative GPA.

**Co-requisite(s):** HCR429 and HCR602

### **HEQ100 Introduction to Construction Equipment Operation**

**1 credit**—The Introduction to Construction Equipment Operation Course will provide students with the knowledge of basic requirements and skillsets necessary to become entry level equipment operators in the construction industry. Students will explore the various types of equipment and unique operating characteristics of each. Jobsite safety and preparation will be discussed as well as PPE and communications with employers, fellow workers, and the public.

**Lecture Hours:** 16

### **HEQ102 Preoperational Inspection**

**2 credits**—This Preoperational Inspection Course will give students practice in completing, documenting, and maintaining, inspections and records for the machines they will operate. This course is an introduction in to the proper methods and routines needed to insure that a particular machine is safe to operate as well as properly lubricated and in good working order according to manufacturers' specifications. Students will practice completing daily inspections reports and the steps necessary to report defects.

Maintaining records of inspections and repairs will also be covered.

**Lecture Hours:** 16 **Lab Hours:** 48

### **HEQ104 Equipment Maintenance I**

**2 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and repairs on different types of construction equipment.

Individual component and systems service intervals will be discussed and analyzed. Students will receive practice in fluid and filter replacing as well as recognizing, troubleshooting, replacing and repairing defective and worn components and parts. The need for ongoing operator input and involvement in the maintenance process will be explored.

**Lecture Hours:** 16 **Lab Hours:** 48

### **HEQ105 Skid Steer Operation**

**3 credits**—The Skid Steer Equipment Operation Course will give students access to the hands-on operation of Skid Steer equipment used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16 Lab Hours: 96**

### **HEQ106 Compact Excavator Operation**

**3 credits**—The Compact Excavator Operation Course will give students access to the hands-on operation of compact excavators used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16 Lab Hours: 96**

### **HEQ107 Wheel Loader Operation**

**2 credits**—The Wheel Loader Operation Course will give students access to the hands-on operation of Wheel Loaders used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate loaders in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lab Hours: 96**

### **HEQ108 Backhoe Operation**

**3 credits**—The Backhoe Operation Course will give students access to the hands-on operation of equipment used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16 Lab Hours: 96**

### **HEQ109 All Terrain Lifts Operation**

**2 credits**—The All-Terrain Lifts Operation Course will give students access to the hands-on operation of all-terrain lifts and platforms used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, loading and unloading materials from trucks, and operating the work platform safely in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. Students will obtain an OSHA Certificate in Fork Lift Operation as part of this program.

**Lecture Hours: 16 Lab Hours: 48**

### **HEQ110 Support Equipment Operation**

**2 credits**—The Support Equipment Operation Course will introduce students to various types of mechanized machines and devices used on jobsites. Types of equipment include plate compactors, tampers, portable air compressors, jack hammers, concrete buggies, power trowels, concrete saws, and others. Students will gain practice in the safe operation and care of these types of machines.

**Lecture Hours: 16 Lab Hours: 48**

### **HEQ111 Jobsite Certifications**

**4 credits**—The Jobsite Certifications Course will introduce students to the various training and certifications required by state and federal agencies for persons actively working on different types of jobsites. They will become familiar with the federal and state agencies that have regulatory authority over the construction industry.

**Lecture Hours: 64**

### **HEQ113 Equipment Maintenance II**

**3 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and basic repairs on different types of construction equipment. Individual component and systems repair will be discussed and practiced. Students will gain hands-on practice in testing and repairing basic machine components. Arc welding and flame cutting will be introduced.

**Lecture Hours: 16 Lab Hours: 96**

### **HEQ114 Track Equipment Operation**

**3 credits**—The Track Equipment Operation Course will give students access to the hands-on operation of track equipped machines used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate track equipped machines in all sorts of workplace settings and environments. Students will be exposed to the unique operating characteristics of track machines by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16 Lab Hours: 96**

### **HEQ905 Workplace Experience**

**3 credits**—This course provides students with opportunities to gain on-the-job experience in the construction industry. Students will gain an understanding of qualities and skills needed for success in the equipment operating field. Coordination and guidance will be provided by department instructors.

**Co-op Hours:** 192

### **HIS117 Western Civilization I: Ancient and Medieval**

**3 credits**—Western Civilization I traces the development of Western Civilization from prehistory to 1300 C.E., the end of the High Middle Ages. The role of the Humanities is emphasized. The course explores major political, social, economic, scientific, intellectual, cultural, and religious developments contributing to Western societies. These include the significant events and contributions of early Middle Eastern civilizations, classical and Hellenistic Greece, the Roman Empire, its successors, the rise of the Western Christian church, and Medieval Europe.

**Lecture Hours:** 48

### **HIS118 Western Civilization II: Early Modern**

**3 credits**—Western Civilization II surveys the development of Western Civilization, covering the end of the High Middle Ages of Europe to the French Revolution. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing to the emergence of modern Western European Society. This includes the significant events and contributions of the Renaissance, the Reformation, the Columbian exchange, the Scientific Revolution, and the Enlightenment.

**Lecture Hours:** 48

### **HIS119 Western Civilization III: The Modern Period**

**3 credits**—Western Civilization III will continue exploring the development of Western Civilization, covering the period from the French Revolution until the present. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing toward Western Society. Included are such major developments as the industrial revolution, the French revolution, Romanticism, European colonialism, World War I, World War II, the Cold War, the new European order, and the world of the Twenty-first Century.

**Lecture Hours:** 48

### **HIS151 U.S. History to 1877**

**3 credits**—This United States history course examines the country's Colonial experience, Revolutionary period, and 19th Century history through Reconstruction. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours:** 48

### **HIS152 U.S. History Since 1877**

**3 credits**—This United States history course examines the period from the end of reconstruction to the present. Emphasis is placed upon industrialization and its impact, the development of a strong federal government, an aggressive foreign policy, and a growing involvement in an international economy. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours:** 48

### **HIS201 Iowa History**

**3 credits**—This history course is a survey of social, political, economic and cultural developments in Iowa from pre-historic times to the present.

**Lecture Hours:** 48

### **HIS251 U.S. History 1945 to Present**

**3 credits**—This United States history course examines the American experience from the end of World War II to the present. This course will include the political, diplomatic, intellectual, economic, and social history of the period.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS152.

### **HIS257 African American History**

**3 credits**—This course examines the experiences of African-American society in the United States from origins in Africa to the present.

**Lecture Hours:** 48

### **HIS277 History of Women in the U.S.**

**3 credits**—United States history from the perspective of women starting in the colonial period through the present day. The course examines the historical development of women's role in the family, concepts of sexuality, economic and political roles, and intellectual tradition. A comparative analysis of women's roles in other areas of the world is also provided.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS151, HIS152, or WST101.

### **HIS924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **HIT125 Essentials of Health Records**

**2 credits**—This course familiarizes students with the origin, uses, content and format of health records, including both paper and electronic health records. It covers required standards for health records, organization of records, and analysis of health record data.

**Lecture Hours:** 32

**HIT215 Introduction to CPT**

**2 credits**—Introduces the use of the CPT classification system with emphasis on coding in the physician's office for reimbursement purposes.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of C- in HSC116.

**HIT240 Advanced Coding and Classification**

**3 credits**—Enables students to accurately apply more advanced ICD-CM codes to diseases and procedures in compliance with reimbursement and prospective payment system guidelines with use of coding resources.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT250.

**HIT250 Coding I (ICD)**

**3 credits**—This course introduces the concepts necessary for entry-level coding of diseases, injuries, and hospital procedures

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of D- in HSC116.

**HIT280 CPT-4 Coding**

**3 credits**—Continues more complex concepts of procedural coding utilizing the Current Procedural Terminology, 4th Edition (CPT-4) classification system. Includes practical application of coding outpatient/ambulatory records.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT215.

**HIT510 Coding Certification Review**

**2 credits**—This course reviews and summarizes the information received in the medical billing/coding program to prepare students for a national coding certification exam.

**Lecture Hours:** 32

**Co-requisite(s):** A minimum grade of D- in HIT240 and HIT280.

**HSC108 Introduction to Health Professions**

**2 credits**—This course introduces the student to the healthcare system and provides an opportunity to explore a wide variety of health careers/professions. Students will explore ethical and legal responsibilities within the healthcare system including expectations for professional behavior. This course will allow for certification in common healthcare requirements.

**Lecture Hours:** 32

**HSC113 Medical Terminology**

**2 credits**—This course presents the foundation necessary to develop a basic medical terminology vocabulary. Emphasis on the components of terms as related to each body system will be provided. The course further provides the student with the opportunity to properly spell, pronounce and utilize medical terms in relation to pathological conditions, tests, and procedures. Common medical abbreviations will also be discussed for each system.

**Lecture Hours:** 32

**HSC116 Beginning Medical Terminology**

**4 credits**—This course introduces the concepts necessary for building a basic medical vocabulary.

**Lecture Hours:** 48

**HSC124 Advanced Medical Terminology**

**4 credits**—The course continues to build a medical vocabulary through the study of anatomy and physiology, common diseases and surgeries of the body systems.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HSC116.

**HSC217 Introduction to Pathology**

**3 credits**—Introduces the study of pathology. Includes description, etiology, signs and symptoms, diagnostic procedures, current medical treatment, progress and prevention of disease in each body system, with emphasis on basic concepts and terminology.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of C- in HSC116.

**HUM130 Holocaust Perspectives: Confronting the Future**

**3 credits**—The Holocaust, or Shoah, will be studied from a combination of historical, sociological, scientific, literary, and artistic approaches. The course will examine how this Twentieth Century genocide was used as a technique of political control and racial persecution. It will also look at the causes and functions of the Holocaust to draw parallels to the current resurgence of similar events and ideologies based on race, religion, and other prejudices.

**Lecture Hours:** 48

**HUM140 Shakespeare: Dramatist, Psychologist, Historian**

**3 credits**—This course will include a study of several plays by William Shakespeare, including two tragedies, two histories, and two comedies. Study of these plays will start with an examination of the historical period, which provides both the context in which the plays were written and the settings within the plays. Focus will then shift to a dramatic analysis of recurring themes, ideas, characterizations, and psychological profiles. It will end with a discussion of the contributions of Shakespeare to Western civilization and humanity as a whole. Also taught as LIT 145.

**Lecture Hours:** 48

**HUM924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**IND100 Basic Mechanical Systems**

**2 credits**—This course provides the student with introductory knowledge, skills in use of tools, and components by mechanics.

**Lecture Hours:** 16 **Lab Hours:** 32

### **IND111 Industrial Safety Mechanical Systems**

**1 credit**—This course provides students with information required to understand industrial safety issues and procedures. Studies include hazard communication, lock-out/tag-out, egress, fire extinguishers, MSD sheets, and material handling. Upon successful completion the student will be eligible for a 10 hour OSHA 501 certification.

**Lecture Hours:** 16

### **IND145 Mechanical Power Transfer**

**1 credit**—This course provides the student with the knowledge and skills necessary to troubleshoot maintain and repair mechanical power systems. Such as bearings, gears, clutches, belts and seals.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in IND100.

### **IND157 Introduction to Computers**

**2 credits**—This is an introductory course in the use of a personal computer. Students will gain a general understanding of computer hardware and software. Students will be given hands-on experiences with operating system navigation, word processing and spreadsheet software, and industrial applications.

**Lecture Hours:** 16

### **IND181 Heating, Ventilating, and Air Conditioning**

**2 credits**—The Heating, Ventilating, and Air Conditioning Systems (HVAC) course will introduce students to the environmental function control of temperature, moisture content, air quality and air circulation in a conditioned space. Our labs allow the learner to view and examine various types of HVAC systems with respect to installation, components, and characteristics.

**Lecture Hours:** 16 **Lab Hours:** 32

### **IND949 Special Topics in Industrial**

**1 credit**—This course is designed for secondary industrial technology educators to develop and enhance knowledge and skills in specific emerging practices, issues, and technical content areas in the manufacturing industry.

May be taken for up to 6 credits.

**Lab Hours:** 32

### **LIT101 Introduction to Literature**

**3 credits**—This course studies multiple literary forms and genres. Students will be introduced to literary terminology, analysis and interpretation of literature, and a variety of authors and literary styles. Instruction will emphasize the process of reading to develop and interpret meaning and classroom discussions encouraging students to share interpretations. Students will also respond to literature through informal and formal written assignments that foster skill in analysis and interpretation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in RDG040 ENG061.

### **LIT133 Minority Voices in U.S. Literature – Effective Fall 2015**

**3 credits**—This course will explore the issues and themes developed in the literature written by minority authors, often underrepresented in the traditional literary canon. We will focus on works by various dispossessed groups, including African-Americans, Hispanics, Native Americans, Asians and women. Genre to be read will include short stories, poetry, and novels. Emphasis will be on the ideas and issues shared in common by the various silenced groups and the unique perspective of each. Class activities will build on students skills in reading, discussing and writing about literature acquired in Introduction to Literature.

**Lecture Hours:** 48

**Prerequisite(s):** LIT101

### **LIT133 Minority Voices in U.S. Literature – Effective Spring 2016**

**3 credits**—This course will explore the issues and themes developed in the literature written by minority authors, often underrepresented in the traditional literary canon. We will focus on works by various dispossessed groups, including African-Americans, Latinos, Native Americans, Asian-Americans, women, and gays/transgender/lesbians. Genre to be read will include short stories, poetry, and novels with emphasis on the ideas and issues shared in common by the various silenced groups and the unique perspective of each.

Class activities will build on students' skills in reading, discussing and writing about literature acquired in Introduction to Literature.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in LIT101.

### **LIT142 Major British Writers**

**3 credits**—This course is designed to give the freshman and/or sophomore level student a survey of the major author/trends in British Literature from Anglo-Saxon times to contemporary. Prose, poetry, and drama will be the featured genres. The course is designed to trace the development, achievements, and traditions of the British literary art. Major authors include Chaucer, Shakespeare, Donne, Johnson, Wordsworth, Shelley, Dickens, George Eliot, Lawrence, Shaw, and Conrad.

**Lecture Hours:** 48

### **LIT189 Women and Literature**

**3 credits**—Women and Literature examines the predominant ways in which women have been portrayed by both male and female writers. It will also focus on the effects these recurring images may have on expectations for real women.

**Lecture Hours:** 48

### **LIT949 Special Topics in Literature**

**1 credit**—This course will explore literature focused on a specific theme, genre, or author; introducing the specified topic and seeking to develop appreciation of the selected literature. Selected topics may include but are not limited to: detective fiction, science fiction, short stories, regional writers, or the work of a specific author.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**MAP132 Medical Transcription**

**2 credits**—This course continues to build and strengthen skills involving grammar, punctuation, spelling, and use of reference materials by transcribing a variety of medical reports.

**Lecture Hours:** 16

**Prerequisite(s):** HSC116, ADM148, and ADM 159

**MAP141 Medical Insurance**

**3 credits**—This course is an introduction to various details and forms relative to medical insurance programs and CPT coding.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in HIT250.

**MAP152 Computer Patient Billing**

**2 credits**—An introduction to an automated patient billing software will be covered in this course.

**Lecture Hours:** 16 **Lab Hours:** 32

**Pre/Co-requisite(s):** A minimum grade of D- in MAP141.

**MAP511 Pharmacology for the Medical Secretary**

**1 credit**—The basic knowledge, understanding, and skills necessary to use common pharmaceutical references and spell commonly used drugs.

**Lecture Hours:** 16

**Prerequisite(s):** HSC116

**MAT045 Fundamentals of Math**

**4 credits**—This course is designed to help students meet minimum competencies for their basic skills in mathematics in the areas of whole numbers, fractions, decimals, percent, and ratio/proportion. Critical thinking, problem solving, and conceptual development are emphasized. Students will be prepared for learning higher order mathematical concepts

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent

**MAT048 Preparatory Math for Elementary Algebra**

**4 credits**—This course is designed to prepare students for Elementary Algebra. The course will provide instruction in arithmetic and introduce algebra. Students successfully completing the course will meet competencies in basic arithmetic with whole numbers, integers, fractions, and decimals. Successful completion will assure skills needed for basic algebraic problems and a variety of application problems.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores

**MAT052 Pre-Algebra**

**3 credits**—This course is designed to combine both classroom instruction and individualized instruction to prepare students for Elementary Algebra. Teacher-student interaction as well as student interaction with one another will be provided for and encouraged.

**Lecture Hours:** 48

**Prerequisite(s):** MAT045

**MAT063 Elementary Algebra**

**4 credits**—This course is designed to combine both classroom instruction and individualized instruction to provide students with the critical thinking skills necessary for their subsequent courses and programs. Teacher-student interaction, as well as student interaction with one another, will be provided for and encouraged.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D in MAT048 or MAT052.

**MAT102 Intermediate Algebra**

**4 credits**—This course will prepare the student for College Algebra and Trigonometry or other equivalent course work. Topics include properties of real numbers, linear and quadratic equations, graphs of polynomial functions, systems of equations, polynomial and rational expressions, inequalities, integral and rational exponents, radicals, and complex numbers.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT063 or appropriate placement scores.

**MAT110 Math for Liberal Arts**

**3 credits**—This is a one semester, liberal arts mathematics course that satisfies the minimum general education requirement for math. The course is designed to impart math skills which are helpful in everyday life as well as to expose students to areas of mathematics they may not have seen before. Topics include problem-solving skills, set theory, algebra, consumer mathematics, probability, and statistics. Other topics may be included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in MAT063 or equivalent COMPASS score.

**MAT122 College Algebra**

**5 credits**—Begins a two semester sequence to prepare students for the calculus sequence. The central theme is the concept of functions, their properties, graphs and applications. Functions studied include polynomial, rational, exponential, and logarithmic functions.

**Lecture Hours:** 80

**Prerequisite(s):** MAT102 or equivalent COMPASS score.

**MAT128 Precalculus**

**4 credits**—This one-semester pre-calculus course is intended for the student with a solid algebra background who intends to take calculus. It is also beneficial (but not required) for the student to have a background in trigonometry. The course will emphasize functions using an analytical, numerical, and graphical approach. The student will study linear, polynomial, rational, exponential, logarithmic and trigonometric functions along with their applications.

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores

**MAT134 Trigonometry and Analytic Geometry**

**3 credits**—The second course of a two-semester pre-calculus sequence. Topics include trigonometry and applications, vectors, analytic geometry, and polar and parametric equations.

**Lecture Hours:** 48

**Prerequisite(s):** MAT122 or equivalent COMPASS score.

**MAT151 Math Reasoning for Teachers I**

**3 credits**—This course explores mathematics as problem solving, communication, connections, and reasoning with regard to tasks involving numeration, relationships, estimation, and number sense of whole and rational numbers, probability and statistics. Activities and models appropriate to elementary school mathematics are used to represent these topics. This course does not count toward the mathematics requirement for the AA or AS degree.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in MAT063 or equivalent COMPASS score.

**MAT156 Statistics**

**3 credits**—This course is a study of descriptive statistics including graphical representation, central tendency, correlation and regression, intuitive treatment of probability and inferential statistics including hypothesis testing.

**Lecture Hours:** 48

**Prerequisite(s):** MAT063

**MAT210 Calculus I**

**4 credits**—The first in a calculus sequence, this course covers topics including functions and their graphs, limits, derivatives, applications of the derivative, and integrals.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT134 or MAT128 or appropriate placement scores.

**MAT216 Calculus II**

**4 credits**—A continuation of MAT-210, this course covers topics including integration techniques, applications of integration, infinite series, conic sections, parametric and polar equations.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT210.

**MAT219 Calculus III**

**4 credits**—This course covers topics including integration and differentiation techniques related to vectors, vector-valued functions, functions of several variables, multiple integration, and vector analysis.

**Lecture Hours:** 64

**Prerequisite(s):** MAT216

**MAT504 Electronics Math I**

**4 credits**—This course presents algebraic concepts, trigonometric concepts and problem solving as applied to electronics. Specific topics included are: algebraic mathematical operations, equations manipulation and solving, quadratic equations, systems of equations, determinants and matrixes, special products and factoring, graphing, trigonometric functions, solutions of triangles, exponents and radicals, complex number systems and elements of plane vectors.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MAT063 or equivalent COMPASS score.

**Co-requisite(s):** ELT291

**MAT514 Electronics Math II**

**4 credits**—This course presents logarithms as applied to electronics; number systems for computers, Boolean algebra, mapping and statistics as used in the electronic industry.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** MAT504

**MAT744 Technical Math**

**4 credits**—In this course students are exposed to the real number system, solution of linear equations, formula rearrangement, solution of word problems, functions and graphs, polynomials, factors and factorization, exponent functions and exponential equations. Emphasis is placed on critical thinking and problem solving skills.

**Lecture Hours:** 64

**Prerequisite(s):** MAT063 or equivalent COMPASS score

**MAT747 Technical Math II**

**4 credits**—In this course students continue the study of mathematics in various technical applications including trigonometry, geometry, polynomials, vectors, and complex numbers.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT744.

**MAT764 Math for Welders**

**2 credits**—This course introduces the basic mathematics principles that are using in the welding and metal fabrication field. Topics include: whole numbers, common fraction, decimal fractions, measurement, percentages and the metric system. This course includes hands on measuring activities.

**Lecture Hours:** 32

**MAT772 Applied Math**

**3 credits**—This course is designed to present basic facts of arithmetic including whole numbers, fractions, decimals, powers, roots, English and metric measurement, ratio- proportion, percents, introduction to algebra, and introduction to geometry. Instruction includes use of scientific hand-held calculators and emphasis placed on critical thinking, problem solving skills.

**Lecture Hours:** 48

**MAT778 Applied Geometry/Trigonometry**

**3 credits**—This course emphasizes practical applications of algebra, geometry, and trigonometry. An understanding of mathematical concepts is stressed in all topics ranging from general arithmetic processes to trigonometry and compound angles. The use of a scientific calculator is introduced and developed throughout the course.

**Lecture Hours:** 48

**Prerequisite(s):** MAT772 or equivalent COMPASS score

**MAT924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**MFG107 Introduction to 3D Modeling**

**3 credits**—This course will introduce students to designing parts using AutoCAD Inventor software in addition to digitizer and 3-D printer technology. The course includes a basic overview of 3-D software capabilities applied to tooling design and precise machined parts.

**Lecture Hours:** 16 **Lab Hours:** 64

**MFG111 Machinery's Handbook**

**1 credit**—Students will gain knowledge and practical experience in the application and interpretation of information, charts, and formulas located within the Machinery's Handbook.

**Lecture Hours:** 16

**MFG122 Machine Trade Printreading I**

**3 credits**—This course provides the student with the necessary knowledge to read and interpret basic prints used in the machining industry. It covers terminology, line-types, and drawing interpretation. First and third angle orthographic projection, dimensioning methods, and tolerancing are the major topics covered.

**Lecture Hours:** 48

**MFG142 Geometric Dimensioning Tolerancing**

**3 credits**—This course introduces the student to the use of Geometric Dimensioning and Tolerancing. It consists primarily learning the names, meanings and application of the symbols used on engineering drawings that include GD&T.

**Lecture Hours:** 48

**Prerequisite(s):** MFG122

**MFG157 Introduction to CNC Programming I**

**2 credits**—In this course students will create basic programs for CNC mills. Student will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Speed and feed calculations, operator notes and start-up lines, mill tooling types and procedures, rectangular coordinates, canned (drill) cycles, and file management are other areas of study.

**Lecture Hours:** 32

**Co-requisite(s):** MFG305

**MFG158 Introduction to CNC Programming II**

**2 credits**—In this course students will create programs for CNC mills using cutter diameter compensation, sub-routines, and sub-programs. Students will also write start-up lines and basic level programs on CNC lathes. Students will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Lathe tooling, typical turning procedures, cutter nose radius compensation, and tip orientation are other areas of study.

**Lecture Hours:** 32 **Prerequisite(s):** MFG157 **Co-requisite(s):** MFG305

**MFG193 Machine Shop Processes**

**3 credits**—This course is designed to develop basic skills in precision measurement and layout tools, machine operations for lathes, mills, drills and surface grinders.

**Lecture Hours:** 16 **Lab Hours:** 64

**MFG211 Basic Machine Theory**

**2 credits**—This course presents basic machining processes and concepts necessary to set-up and operate machine shop equipment.

**Lecture Hours:** 32

**MFG214 Advanced Machine Theory**

**2 credits**—Learn advanced machining processes and concepts used while operating machine shop equipment.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211 and MFG222

**MFG222 Machine Operations I**

**4 credits**—An introductory machining course presenting basic machining operations. Student will perform basic operations on lathes, horizontal + vertical-milling machines, drilling machines, saws, various types of grinders, and precision measuring equipment.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211

**MFG228 Machine Operations II**

**4 credits**—This is an advanced hands-on machining course.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211 and MFG222

**Co-requisite(s):** MFG214

### **MFG305 CNC Operations**

**2 credits**—This course introduces CNC Lathe and CNC Mill operation, shop safety, part inspection, CNC cutting tool types and uses, as well as part holding techniques. Students will work in small groups on industrial sized CNC lathes and CNC machining centers to simulate what CNC Operators do in industry. Fanuc and other common CNC machine controllers are used. Back-Plotting (to simulate cutting operations) is used to help eliminate errors before actually running parts on CNC equipment.

**Lab Hours:** 96

### **MFG306 CNC Operations II**

**2 credits**—This program is similar to CNC Operations I except Students will run Hawkeye's CNC Lathes and Machining Centers individually rather than in groups to prove individual understanding of CNC machine operation. Manual equipment will be utilized to perform secondary operations. Manual and CMM inspection equipment will also be experienced. Students will back-plot, set-up, and run unproven programs to ensure the student can find and correct CNC program errors.

**Lab Hours:** 96

**Prerequisite(s):** MFG305 and MFG308

### **MFG308 CNC Programming Theory**

**4 credits**—In this course students will create basic programs for CNC lathes and CNC mills and will use verification software to assure accuracy. Programming on Fanuc controllers will be experienced. Differences of programming on other CNC controllers will be discussed. Windows Notepad or NC text editor will be used to create CNC programs. Program back-plotting, controller simulations, and file management in a Windows environment will also be explored.

**Lecture Hours:** 64

**Co-requisite(s):** MFG305

### **MFG309 CNC Programming Theory II**

**4 credits**—This course teaches mid-level CNC programming including controller specific canned/auto cycles, cutter compensation, and using subroutine + sub-programs. Machine capabilities such as mirror imaging, axis rotation, and part size scaling will be discussed. Optimizing speeds and feeds by using insert manufacturer's test data.

**Lecture Hours:** 64

**Prerequisite(s):** MFG308

**Co-requisite(s):** MFG309

### **MFG321 Computer Aided Machining**

**4 credits**—This course introduces the student to computer aided manufacturing. Master CAM software will be used to generate part geometry, tool paths and machine language programs in both turning centers and machining centers.

**Lecture Hours:** 64

**Prerequisite(s):** MFG306 and MFG309

### **MFG363 Hydraulic Jigs and Fixtures**

**3 credits**—A course in building jigs and fixtures using blueprints, knowledge and skills developed in Basic Machine Concepts and Operations. Students are required to build and run hydraulic jigs and fixtures working within the tolerance of the print.

**Lecture Hours:** 16

**Prerequisite(s):** MFG211 and MFG222

### **MFG365 General CNC Lathe Maintenance**

**2 credits**—This course is designed for the student who has little or no hands on training for CNC lathes. The course covers the separate subsystems and how they work together. Students will practice: preventive maintenance required to keep the machine running in top condition; diagnosis of problems using existing technical skills supplemented with the training manuals provided with this course. Students will become familiar with the machines' self-checking diagnostics, and how to proceed with troubleshooting and repair as recommended by the manuals or the equipment distributor's service staff.

**Lecture Hours:** 16

### **MFG366 General CNC Mill Maintenance**

**2 credits**—This course is designed for the student who has little or no hands on training for CNC mills. The course covers the separate subsystems and how they work together. Students will practice: preventive maintenance required to keep the machine running in top condition; diagnosis of problems using existing technical skills supplemented with the training manuals provided with this course. Students will become familiar with the machines' self-checking diagnostics, and how to proceed with troubleshooting and repair as recommended by the manuals or the equipment distributor's service staff.

**Lecture Hours:** 16

### **MFG380 EDM Fundamentals**

**2 credits**—This course covers the basics of wire and ram type EDMing. Classroom instruction includes the theory and fundamentals of EDMing, wire and electrode materials, the role of deionized water and dielectric fluids, power supplies, computer numerical control (CNC) EDM. Lab work consists of fabrication of electrodes and setup and operation of EDM machine tools.

**Lecture Hours:** 16

### **MFG404 Basic Diemaking (*Inactivated 5-18-2016*)**

**6 credits**—This is a course in basic tool and die theory, building procedures and techniques. Units of instruction include principles of piercing, blanking and bending as well as die terminology and construction applications.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D in MFG211, MFG222, MFG214, and MFG228.

**Co-requisite(s):** MFG410

### **MFG410 CAD Die Design**

**3 credits**—This course is the study of die assembly prints correlated with work sequencing and procedures used to efficiently produce and assemble dies. Activities include the use of CAD software to derive design information needed to build components in the die for a variety of die designs. The course will develop student skill in using assembly print information to plan the build process for various types of stamping dies.

**Lecture Hours:** 32

### **MFG430 Tooling Maintenance and Revision**

**4 credits**—This course will train students on common maintenance, repair and revision techniques performed on manufacturing tooling such as stamping dies, injection molds, fixtures, and jigs. The student will also learn about the maintenance schedules for manufacturing tools, the function and installation of safety sensors, secondary operation components, and gage and inspection components in production tooling.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of D in MFG404.

### **MFG432 Job Planning and Estimating**

**2 credits**—This course is the study of assembly die prints correlated with work sequencing and procedures used to minimize construction costs. Activities include detailing prints, work procedures, stock sizes, heat treatment considerations, time allotment, machine methods, purchase parts, principles of operation, and assembly techniques.

**Lecture Hours:** 32

**Prerequisite(s):** MFG132

### **MFG438 Advanced Die Making and Repair**

**8 credits**—This course is a continuation of Basic Die Making proceeding into more complex die making operations. Units of instruction include inverted, compound and progressive dies, drawing operations, and automatic stock feeding mechanisms. Die repair and maintenance procedures including sharpening, relocating die blocks, hole plugging and revisions are covered.

**Lecture Hours:** 48

**Prerequisite(s):** MFG408

### **MFG461 Plastics Materials**

**2 credits**—Units of instruction include general plastics-base materials, processes and tooling theory. Lab work consists of building and running successfully an injection mold and a thermoforming mold.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of D- in MFG404.

### **MFG502 Statistical Process Control**

**3 credits**—This course is designed to study the processes necessary to plan machining processes efficiently and accurately by applying the principles of statistical process control.

**Lecture Hours:** 48

### **MFG525 CMM Inspection and SPC**

**3 credits**—This course instructs the student on the capabilities and basic operation of a Coordinate Measuring Machine used in manufacturing to inspect precision machined parts. Students will also be introduced to using inspection data in the Statistical Process Control method of insuring quality production. SPC fundamentals and software applications will be introduced in this course.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of D in MFG142.

### **MFG924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **MGT101 Principles of Management**

**3 credits**—A study of current theory and practice of leading a complex business organization toward the accomplishment of organizational objectives.

**Lecture Hours:** 48

### **MGT110 Small Business Management**

**3 credits**—A study of current theory and practices in creating and running a small business. The course includes the study of management functions as well as a discussion of business startup, including the creation of a business plan.

**Lecture Hours:** 48

### **MGT142 Problems and Issues in Supervision and Management**

**3 credits**—This course provides students in the Human Resource Management program with the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing exercises, cases, and simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work.

**Lecture Hours:** 48

### **MGT170 Human Resource Management**

**3 credits**—A study of the theory, principles, concepts and practices of developing and utilizing personnel within business organizations.

**Lecture Hours:** 48

### **MGT174 Training and Employee Development**

**3 credits**—This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program.

**Lecture Hours:** 48

**MGT177 Staffing**

**3 credits**—This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records, and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives.

**Lecture Hours:** 48

**MGT178 Employment Law**

**3 credits**—This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, Equal Employment Opportunity (EEO), affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law.

**Lecture Hours:** 48

**MGT180 Management and Labor Relations**

**3 credits**—This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor law and unfair labor practices, the role of the National Labor Relations Board (NLRB), organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists.

**Lecture Hours:** 48

**MGT190 Employee Compensation and Benefits Management**

**3 credits**—This course will develop knowledge in the area of compensation and benefit practices including job evaluation, salary surveys, individual and group performance based pay plans, health insurance, wellness programs, pensions, and the associated legal environment. Compensation and benefit management theories will be integrated with organizational goals and objectives severing as the overall foundation for development and implementation.

**Lecture Hours:** 48

**MGT210 Management Decision Making**

**3 credits**—A capstone course which uses case studies to review all aspects of the Marketing Management program. Emphasis is placed on decision making and is to be taken in the student's final semester.

**Lecture Hours:** 48

**MGT222 Golf Club Operations**

**3 credits**—Students will study strategic, tactical and operational practices regarding golf courses. Key determinates as to why some golf courses are successful and others struggle.

**Lecture Hours:** 48

**MIL103 Military Survival Skills**

**2 credits**—Basic military survival principles are discussed in class and demonstrated during a Survival Weekend. Concepts taught are: shelter building, water and food gathering, land navigation, first aid, and rescue signaling. Discussion, 1 hr./wk.

**Lecture Hours:** 16 **Lab Hours:** 32

**MIL110 Leadership and Personal Development**

**1 credit**—Introduces students to the personal challenges and competencies that are critical for effective leadership in the military. Students learn how the personal development of life skills such as goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession. Discussion, 1 hr./wk.

**Lab Hours:** 32

**MIL115 Foundations of Tactical Leadership**

**1 credit**—Examines the challenges of leading in complex contemporary military operational environments. Dimensions of the cross-cultural challenges of military leadership in a constantly changing world are highlighted and applied to practical leadership tasks and situations. Discussion 2 hrs./wk.

**Lecture Hours:** 16

**MIL120 Innovative Team Leadership**

**2 credits**—Explores the dimensions of creative and innovative military leadership strategies and styles by studying historical case studies and engaging in interactive student exercises. Students practice aspects of personal motivation and team building in the context of planning, executing, and assessing team exercises. Discussion, 2 hrs./wk.

**Lecture Hours:** 16 **Lab Hours:** 32

**MIL122 Leadership in Changing Environment**

**2 credits**—

**Lecture Hours:** 32

**MKT110 Principles of Marketing**

**3 credits**—An overview of the processes, problems and activities associated with the planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges.

**Lecture Hours:** 48

**MKT140 Principles of Selling**

**3 credits**—Planned learning activities and experiences emphasize the psychology of selling, the selling process, sales techniques, and selling as a professional career.

**Lecture Hours:** 48

**MKT142 Consumer Behavior**

**3 credits**—Consumer behavior is the course within a marketing curriculum that most directly applies concepts, principles, and theories from the various social sciences to the study of the factors that influence the acquisition, consumption, and disposition of products, services, and ideas.

**Lecture Hours:** 48

**MKT152 Advertising and Visual Merchandising**

**3 credits**—This course presents the fundamentals of advertising and visual merchandising as promotional tools. It incorporates the Integrated Marketing Communication (IMC) concept.

**Lecture Hours:** 48

**MKT160 Principles of Retailing**

**3 credits**—Organized learning activities emphasize the status of retail environments, operations, locations, merchandising, pricing and promotions.

**Lecture Hours:** 48

**MKT198 Sports Marketing**

**3 credits**—This course will explain the basics of sports marketing, research, and delivery.

**Lecture Hours:** 48

**MKT924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

**MLT101 Introduction to Lab Science**

**1 credit**—This course familiarizes the student with the MLT program and the field of laboratory medicine. The organization and role of the clinical laboratory are explored, as well as medical ethics and conduct, employment opportunities, and professional organizations.

**Lecture Hours:** 32

**MLT103 Lab Mathematics**

**1 credit**—Mathematical calculations applicable to the clinical laboratory are studied in this course. Emphasis is on the Metric System and calculations involved in the preparation of laboratory solutions and dilutions.

**Lecture Hours:** 32 **Lab Hours:** 32

**MLT110 Fundamental Lab Techniques**

**3 credits**—This course is directed toward developing the knowledge and technical skill necessary to perform basic laboratory tests. Emphasis is placed on use and maintenance of laboratory equipment, quality control, and safety techniques.

**Lecture Hours:** 32 **Lab Hours:** 32

Supplement B1

**MLT120 Urinalysis**

**3 credits**—This course includes the study of urine formation and methodology determining the physical, chemical, and microscopic properties of urine in normal and abnormal states.

**Lecture Hours:** 32 **Lab Hours:** 32

**MLT130 Hematology**

**3 credits**—Hematology is the study of the formed elements of the blood—red blood cells, white blood cells, and platelets. Development and characteristics of these, methods of measurement, and abnormalities are covered.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

**MLT230 Advanced Hematology**

**3 credits**—This advanced course is a sequel to Hematology I, and includes an in-depth study of various anemias, leukemias, and other hematologic disorders.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT130.

**MLT233 Hemostasis and Thrombosis**

**2 credits**—This course emphasizes the mechanism by which the body prevents loss of blood from the vascular system. There is a focus on chemical responses of blood vessels, platelet activation and biochemical reactions that lead to clot formation and dissolution.

Students learn to perform the tests used to detect coagulation deficiencies and abnormalities.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

**MLT240 Clinical Chemistry I**

**7 credits**—The student will learn the analytical techniques for precise measurement of chemical constituents of the blood and other body fluids. Clinical correlation of test results with states of health and disease will also be covered.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in CHM122, MLT110, and MLT103.

**MLT250 Clinical Microbiology**

**4 credits**—The emphasis in this course is on bacteria of medical importance, with respect to their cultivation, isolation, identification, and pathogenicity. The student learns techniques of specimen collection, media preparation, culture, staining, biochemical testing, and antibiotic susceptibility testing. Mycology and virology are introduced.

**Lecture Hours:** 32 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in BIO185.

**Co-requisite(s):** A minimum grade of C in MLT110.

**MLT252 Parasitology**

**1 credit**—This course includes a study of medically important human parasites with respect to life cycle, pathogenicity, and laboratory identification.

**Lecture Hours:** 16

**MLT260 Immunohematology**

**4 credits**—Blood grouping, typing, antibody screening and identification, and compatibility testing are covered, along with an overview of hemolytic disease of the newborn, processing of donor blood, and blood component therapy.

**Lecture Hours:** 32 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT110.

**MLT270 Immunology and Serology**

**2 credits**—In this course, the focus is on the reactions of the body's immune system to foreign substances. There is emphasis on reactions between antigens and antibodies and students will learn to detect diseases such as syphilis, infectious mononucleosis, rheumatic fever and others.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

**MLT283 Clinical Practicum: Urinalysis**

**1 credit**—This course is a continuation of Urinalysis I and is designed to provide the student with clinical experience in the performance of routine urinalysis. Comparison of methodology with that covered in Urinalysis I is stressed.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT120.

**MLT284 Clinical Practicum: Immunohematology**

**2 credits**—This course is a continuation of Immunohematology I and is designed to provide the student with clinical experience in specimen collection and performance of immunohematologic tests. Comparison and contrast with methodology of Immunohematology I is stressed.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in MLT260.

**MLT285 Clinical Practicum: Chemistry**

**4 credits**—This course is a continuation of Clinical Chemistry I and is designed to provide the student with clinical experience in specimen collection and performance of clinical chemistry tests. Comparison and contrast with methodology of Clinical Chemistry I is stressed and there is emphasis on use of automatic equipment.

**Lecture Hours:** 16 **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in MLT240.

**MLT286 Clinical Practicum: Immunology and Serology**

**1 credit**—This course is a continuation of Immunology and Serology I and is designed to provide the student with clinical experience in the performance of serologic testing. There is emphasis on the comparison and contrast of methodology with Immunology and Serology I.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT270.

**MLT287 Clinical Practicum: Hematology**

**4 credits**—This course is a continuation of Hematology I and Advanced Hematology. It is designed to provide the student with clinical experience in specimen collection and performance of routine hematology and coagulation tests. Comparison and contrast with methodologies of Hematology I and Advanced Hematology is stressed and experience with automation is provided.

**Lecture Hours:** 16 **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in MLT130 and MLT230

**MLT288 Clinical Practicum: Microbiology**

**4 credits**—This course is a continuation of Clinical Microbiology I and Parasitology. It is designed to provide the student with experience in bacteriologic, mycotic and parasitologic studies in a clinical setting. Practices and procedure of Clinical Microbiology I are compared and contrasted with clinical practice.

**Lecture Hours:** 16 **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in BIO185, MLT250, and MLT252.

**MLT291 Lab Survey and Review**

**1 credit**—This course is designed to give the student an opportunity, at the end of the clinical practicum, to review all departments of the laboratory. Class time is provided for review of didactic materials and preparation for the comprehensive examination. Clinic time is provided for review or additional experience in any or all departments of the laboratory.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in MLT283, MLT284, MLT285, MLT286, MLT287, and MLT288.

**MMS103 Basic Digital Photography**

**3 credits**—An introduction to DSLR camera operation, including exposure control and modes, focus techniques, and white balance. Artistic issues like framing, camera angle, use of color and composition will be addressed as well. Students will produce final images using industry standard software. Students must furnish an approved DSLR camera.

**Lecture Hours:** 32 **Lab Hours:** 32

**MMS105 Audio Production**

**3 credits**—This course examines the principles of sound and acoustics and basic audio capture techniques. The equipment for recording as well as production and editing audio will be analyzed and employed. Sound quality and final output issues will be addressed.

**Lecture Hours:** 32 **Lab Hours:** 32

**MMS111 Video Production I**

**3 credits**—This course will provide an introduction to the basics of video production, camera handling, digital exposure, and workflow. Emphasis is on how to handle image workflow to produce a professional video output.

**Lecture Hours:** 32 **Lab Hours:** 32

**MMS117 Social Media for Business**

**3 credits**—This course examines using social media outlets for promoting and doing business. The course will investigate issues and strategies related to social media environments, customer relationships, marketing, managing your communication, sustainability and what social media may look like in the future.

**Lecture Hours:** 48

**MMS124 Survey of Commercial Video**

**3 credits**—This course examines how to produce a variety of types of videos for commercial use including promotional videos, music videos, weddings, corporate videos and live events

**Lecture Hours:** 48

**MMS134 Media Writing**

**3 credits**—This course will focus on writing for media outlets including newspaper, television, radio, internet and public relations. Emphasis will be on writing clearly for both general and targeted audiences in order to communicate the desired message efficiently.

**Lecture Hours:** 48

**MMS213 Video Production II**

**3 credits**—This course will explain advanced video production techniques.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111.

**MMS214 Audio Production II**

**3 credits**—This course is designed to assist the student in learning advanced principles and processes of audio production. The course builds on skills learned in Audio Production I will familiarize and inform the student on proper techniques in audio production for a variety of media outputs

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS105.

**MMS233 Intermediate Digital Photography**

**3 credits**—This course expands on the theory and techniques taught in Basic Digital Photography and addresses a variety of commercial applications. The course will present further instruction in event photography, people and portrait photography and product and promotional photography. The course will include instruction on portable flash equipment, studio equipment, light modifiers and utilizing natural light to the photographer's benefit.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MMS103.

**MMS265 Mass Communications Law**

**3 credits**—This course examines media law, including First Amendment, copyright and fair use. It focuses on social, political, and economic influences. It examines legal constraints for students planning to become professional communicators.

**Lecture Hours:** 48

**MMS300 Cinematography**

**3 credits**—In this course students will gain hands-on experience in digital cinematography. Students will plan and practice camera techniques used for interior and exterior lighting, composition and framing, green screen techniques and other aspects of visual storytelling. Students will practice mechanical aspects of the lens: f-stops, depth of field and rack focus shots. Terminology and theory specific to cinematography will be explored as well as the strategies for common production and photography obstacles will be addressed and put into practice. Projects will be completed in groups as well as individual efforts.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213.

**MMS302 Solo Video Journalism**

**3 credits**—This course examines and explains the techniques for working in the field of video journalism as a sole practitioner.

**Lecture Hours:** 32 **Lab Hours:** 32

**MMS304 Multimedia Applications**

**3 credits**—This course introduces multimedia applications for mobile devices including discussion of mobile devices, categories of mobile applications, security and target audiences. Different programming environments will be addressed in the class. Students will also investigate how users interact with their mobile devices, design and layout of mobile apps and deployment to app stores and marketplaces.

**Lecture Hours:** 48

**MMS310 Independent Film Production**

**3 credits**—This course provides students with skills to write, produce, direct and edit fictional and non-fictional videos in a narrative format. Students will be instructed on methods and hands-on-skills to construct videos with emphasis on low-budget techniques to better understand the independent film/video market. This includes formulating a story with an angle, structure, content and style. Scriptwriting, budgeting, interviewing, and researching methods are demonstrated through hands-on exercises. Students will view/critique various contemporary documentaries and low budget films as they relate them to their own projects.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213.

**MMS320 Recording Studio I**

**3 credits**—Course will introduce students to the basic operations of a recording studio. The course will detail proper methods for wiring of a studio, discuss studio acoustics, analyze studio design and address proper monitoring. The course will also demonstrate proper microphone placements and advanced compression methods.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS105 and MMS214.

### **MMS330 Motion Graphics for Video**

**3 credits**—This course explains the theory and execution of motion graphics in a video production environment. Instruction in use of and methods for constructing a variety of motion graphics and animation techniques will be delivered. Media management and output formats will also be addressed.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS400 Video Production for Web Streaming**

**3 credits**—This course will provide students technical application and training in producing, shooting and broadcasting via web streaming. It will offer students an advanced understanding of traditional television studio environments, as well as field production. Students will experience hands-on training and team-oriented tasks in studio floor positions, studio lighting, 3-camera operating setup, microphone setups, floor management and set design. In addition, technical aspects of control room duties, live and archival streaming processes will be covered.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS410 Film Editing**

**3 credits**—In this course, students are introduced to digital (computer) editing. A brief overview of the editing process is covered. Students learn the basics of capturing video and/or digital files, basic editing techniques, basic color effects, audio with video, and storing in a non-destructive style of editing. Students will produce their own edited versions of supplied footage.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS111 and MMS213 .

### **MMS420 Recording Studio II**

**3 credits**—Course will be an advanced study in producing within the studio environment. The course will provide hands-on use of the studio equipment including mics, mixing boards and digital audio software. Advanced recording techniques will be employed. Production of a variety of music styles and the proper steps involved in recording and mixing and outputting each will be addressed.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D in MMS105, MMS214, and MMS320.

### **MMS905 Digital Mass Media Internship**

**1 credit**—Students will intern at media agencies and outlets in the region and state, focusing on internal operations and client relations.

**Co-op Hours:** 64

### **MMS949 Special Topics**

**3 credits**—This course offers a specialized study or project under the supervision of a faculty member and approved by the division chair. It may not duplicate any course already in the catalog. Students earn credit based upon the agreed upon credit and contact hours. Instructor permission required.

**Lecture Hours:** 32 **Lab Hours:** 32

### **MUA106 Class Voice**

**1 credit**—This course provides instruction in fundamental vocal techniques. Breath support, diction, posture, vowel formation, tone production and stage presence will be explored through standard vocal repertoire chosen for each student's voice type.

**Lab Hours:** 32

### **MUA119 Class Piano**

**1 credit**—This course is designed for the student with no background in piano. It is especially recommended for the music student without piano experience, as well as the student who wishes to learn something of the piano for enjoyment. The student will begin to learn to read musical notation, develop the rudiments of technique, and become familiar with the keyboard. A minimum of three (3) hours of practice per week is essential. This course can be repeated with different content for credit.

**Lab Hours:** 32

### **MUA120 Applied Piano I**

**1 credit**—Individualized instruction in piano for the beginning, intermediate or advanced student. Requires fourteen 25 or 50 minute lessons during the semester. Additional outside practice/preparation is required. This course can be repeated with different content for credit. No prior musical experience is necessary.

May be repeated once.

**Lecture Hours:** 16

### **MUA121 Applied Piano II**

**2 credits**—This course provides applied lessons and guided instruction in tone production, technique, and musicianship skills. Students advance their skills through weekly lessons and regular practice of fundamental techniques and appropriate repertoire. This course can be repeated with different content for credit.

**Lecture Hours:** 32

### **MUA319 Applied Voice**

**1 credit**—Provides applied lessons and guided instruction in tone production, technique, musicianship, and performance practice. Students advance their skills through weekly lessons and regular practice of fundamental techniques and solo repertoire.

May be repeated once.

**Lecture Hours:** 16

### **MUS100 Music Appreciation**

**3 credits**—An introduction to the musical arts through listening to and studying the music of various periods. Some sections of the course may be presented by live musicians.

Allied arts, including dance, painting, and literature, may be used to demonstrate the relatedness of music to the larger scope of human experience.

**Lecture Hours:** 48

### **MUS102 Music Fundamentals**

**3 credits**—Introduction to Music Theory. Basic skills and vocabulary. For non-majors with limited background in music fundamentals, or as preparation for music major theory courses. Emphasis on notation, key/time signatures, rhythm, and aural training. (Variable)

**Lecture Hours:** 48

### **MUS154 Chorus**

**1 credit**—This course is designed for the student to participate in group performances. The performing group meets regularly and presents a wide variety of choral literature throughout the year. This course can be repeated with different content for credit.

May be repeated once.

**Lab Hours:** 32

### **NET109 A+ Certification Prep Course**

**4 credits**—This course will teach basic knowledge of desktop and laptop operating systems. This course will teach the important knowledge and skills necessary to competently install, build, configure, upgrade, troubleshoot and repair personal computer compatible hardware including troubleshooting basic network and internet connectivity, dial-up, DSL, and cable. Additionally, this course will also cover the latest memory, bus, peripherals, and wireless technologies.

**Lecture Hours:** 32 **Lab Hours:** 64

### **NET152 Advanced Network Technologies**

**3 credits**—This course will cover the advanced topics of networking topologies, management utilities, performance monitoring and management, construct network security, develop and maintain network documentation and determine appropriate action for common problems. Students will learn skills associated with network remote access, performance monitoring and extension of network services via wireless technologies. This course will build and expand upon Cisco 1-4 concepts and skills.

**Lecture Hours:** 48

### **NET213 CISCO Networking**

**4 credits**—This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the OSI and TCP layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. Labs use a model Internet to allow students to analyze real data without affecting production networks. Packet Tracer (PT) activities help students analyze protocol and network operation and build small networks in a simulated environment. At the end of the course, students build simple LAN topologies by applying basic principles of cabling, performing basic configurations of network devices such as routers and switches, and implementing IP addressing schemes.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in MAT063.

### **NET225 Routing and Switching Essentials**

**4 credits**—This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single area and multi-area OSPF, virtual LANS, and inter-VLAN routing in both IPv4 and IPv6 networks.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET213.

### **NET268 CCNA Routing and Switching: Scaling Networks**

**3 credits**—This is the third of four courses leading to the Cisco Certified Network Associate (CCNA) designation. This course describes the architecture, components, and operations of routers and switches in a larger and more complex network. Students learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Students will also develop the knowledge and skills needed to implement DHCP and DNS operations in a network.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET225.

### **NET269 CCNA Routing and Switching: Connecting Networks**

**3 credits**—This is the fourth of four courses leading to the Cisco Certified Network Associate (CCNA) designation. This course discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. Students learn how to configure and troubleshoot network devices and resolve common issues with data link protocols. Students will also develop the knowledge and skills needed to implement IPsec and virtual private network (VPN) operations in a complex network.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET268.

### **NET310 Virtual Machines**

**3 credits**—This course will cover the concepts of virtualization including hardware and software. Topics will include benefits vs. risks analysis, installation and configuration, operation and maintenance and disaster recovery.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET313.

### **NET313 Windows Server**

**3 credits**—This course provides the core foundation for supporting network based servers. Students will learn the skills necessary to install, configure, customize, optimize, network, integrate and troubleshoot a server based operating system. Students will study the design, implementation, and support a Network Server network including specialized servers that are common to most networks.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET109 and NET213.

### **NET320 Advanced Server Configuration**

**3 credits**—This course provides advanced concepts for supporting network based servers. Students will learn the skills necessary to install, configure, and manage network server technologies typically implemented with a server based operating system. Students will study the design, implementation, and optimization of both advanced and emerging services that a network server commonly provides for business networks.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in NET313.

### **NET346 Windows Exchange Server**

**3 credits**—This course provides students with the knowledge and skills that are needed to update and support a reliable, secure messaging infrastructure. This infrastructure is used for creating, storing, and sharing information by using Microsoft Exchange Server in a medium-sized to large-sized (100 to 5,000 seats) messaging environment. This course offers a significant amount of hands-on practices, discussions, and assessments that assist students in becoming proficient in the skills that are needed to update and support Exchange Server.

**Lecture Hours:** 32 **Lab Hours:** 32

**Pre/Co-requisite(s):** NET313

### **NET412 Linux System Administration**

**3 credits**—This course will introduce students to the Linux Operating System and is designed for students with little or no previous experience with Linux. Students will gain experience and understanding of basic setup and installation, configuration, navigation, permissions, command shells, and GUI environments available on Linux systems.

**Lecture Hours:** 32 **Lab Hours:** 32

### **NET474 Certification Preparation**

**1 credit**—Course is designed as a review and final preparation for students taking Information Technology certification tests.

**Lecture Hours:** 16

**Prerequisite(s):** Instructor approval required. Must have satisfactory grades in supporting classes and demonstrate motivation to attain certification.

### **NET475 Certification Preparation**

**2 credits**—Course is designed as a review and final preparation for students taking Information Technology industry certification exams.

**Lecture Hours:** 32

**Prerequisite(s):** Instructor approval required. Must have satisfactory grades in supporting classes and demonstrate motivation to attain certification.

### **NET612 Fundamentals of Network Security**

**3 credits**—This course is designed to provide student with a fundamental understanding of network security principles and implementation. Students examine the technologies used and principles involved in creating a secure computer networking environment.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** NET313

Supplement B1

### **NET710 SQL Database**

**2 credits**—This course is designed to give the student the basics of computer database administration. To teach the student what a database server is and how it is used in a modern computer network. The course will inform the student about the components of the database and the tools used to tune the database software for optimum performance.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** CIS303 and NET313

### **NET916 Experiential Learning**

**5 credits**—This course will allow students to put the skills obtained in the program to practical use in a simulated real world environment. In addition, students will refine teamwork skills and learn to conduct their actions in an appropriate manner for the business world.

**Lecture Hours:** 16 **Lab Hours:** 128

**Prerequisite(s):** Instructor consent is needed to verify that students are getting the correct section for their major and that only fourth semester graduating students take this course.

### **NET932 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in NET109. Must be in program major and completed 30 credits in one of the following programs: Network Administration and Engineering, Information Systems Management, and Web Design and Development.

### **NET949 Special Topics**

**1 credit**—This course, usually offered on a limited basis only, provides an in-depth study on a topic of general interest pertaining to this department.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **OTA102 Human Movement and Occupation**

**3 credits**—Study of the interrelationship between the central nervous system, peripheral nervous system, and musculoskeletal system and analysis of functional movement required for engagement in occupation. Formal and informal biomechanical assessment methodologies are presented. Students will gain skill in utilizing assessment data for the occupational therapy process in collaboration with the occupational therapist.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA103 Task Analysis**

**3 credits**—The development and emergence of human occupational performance throughout the lifespan is examined by exploring areas of occupation, occupational roles, habits and routines. Students will learn to analyze occupational tasks and functional activity demands, grade and adapt activities, and build the basic skills necessary for teaching therapeutic activities to meet the needs of occupational therapy consumers, either individually or in groups. Emphasis will be placed on the use of occupation-based media as a means of understanding a client's cognitive and functional performance. The significance of context and environment will also be explored in relationship to program planning and implementation of therapeutic interventions. Additional topics include an introduction to note writing and goal development.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA104 Assistive Tech and EM**

**2 credits**—An introduction to the role of assistive technology and environmental modification used to facilitate occupational performance. Topics will include: determination of need, selection of and instruction in use of assistive technology and/or environmental modification, low vs. high tech equipment options, and assessment of client safety during occupational performance.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA201 Pediatrics and Occupation**

**3 credits**—The first in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA202 Pediatric OTA Skills**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with infants and children through the adolescent period and their families in a variety of settings.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA203 Level I Fieldwork Pediatrics**

**2 credits**—Students will be participant-observers in settings providing occupational therapy services to children and/or adolescents. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Lecture Hours:** 16 **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA204 Pediatric Psychosocial Conditions and Occupations**

**1 credit**—The first in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of mental health disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA302 Physical OTA Skills**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional behaviors utilized in the occupational therapy process for individuals experiencing disruption in motor and sensory-perceptual abilities needed for adaptive occupational performance.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA310 Adult Physical Conditions and Occupations**

**3 credits**—The second in a sequence of courses addressing conditions causing disruption of occupational skills and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models of practice for understanding the occupational nature of early to middle adulthood at home, work and in the community. Approaches for applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of physical disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA311 Adult Psychosocial Conditions and Occupations**

**2 credits**—The second in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of early to middle adulthood at home, at work, and in the community. Approaches to applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of psychosocial disorders and conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA312 Adult Psychosocial OTA Skills**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process for individuals experiencing disruption in social, emotional and interactional abilities needed for adaptive occupational performance. Both individual and group intervention strategies are explored.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA313 Level I Fieldwork Psychosocial**

**1 credit**—Students will be participant-observers in settings providing occupational therapy services to adult consumers with psychosocial conditions. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA401 Elders and Occupation**

**1 credit**—The third in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of late adulthood at home, at work, and in the community. Approaches to applying the occupational therapy process by the occupational therapy assistant is studied within the context of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA402 OTA Skills for Elders**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with elder consumers in a variety of settings.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA403 Level I Fieldwork Physical Dysfunction**

**1 credit**—Students will be participant-observers in settings providing occupational therapy services to adult consumers with physical dysfunction. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA311, OTA312, OTA313, and OTA501.

### **OTA501 Professional Practice for OTA**

**3 credits**—This course speaks to the management and service roles of the occupational therapy assistant, as well as ongoing responsibilities of a career as an occupational therapy healthcare professional. Active learning strategies requiring the student to transcend from a student to entry level practitioner.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA502 Level II Fieldwork A**

**5 credits**—The first of two courses consisting of 8 weeks of full-time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different point of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA310, OTA302, OTA401, OTA402, and OTA403.

### **OTA503 Level II Fieldwork B**

**5 credits**—The second of two courses consisting of 8 weeks of full time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different points of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA502.

### **PEA102 Aerobic Fitness I**

**1 credit**—This aerobic course, designed to improve physical fitness levels, starts at the beginner level with students progressing at their own pace. Participants will be given the opportunity to engage in various types of cardiovascular exercise, some being set to music. Abdominal and low-back exercises are also emphasized.

**Lab Hours:** 32

**PEA117 Bowling I**

**1 credit**—This skill course introduces students to the lifetime activity of bowling. The course will cover basic fundamentals of bowling such as rules and etiquette, approach, ball delivery, strikes, spares, and scoring. Individual, league, and tournament play will also be included.

**Lab Hours:** 32

**PEA123 Circuit Training**

**1 credit**—This aerobic course incorporates cross-training techniques allowing for an increased caloric expenditure with simultaneous improvement in muscular strength and endurance and flexibility. Alternating between resistance training, cardiovascular, and flexibility exercises provides the benefits of all three types of activities in one exercise session.

**Lab Hours:** 32

**PEA125 Indoor Cycling**

**1 credit**—This aerobic course introduces students to a low-impact, go at your own pace, cardiovascular workout with no complicated moves to learn. The class is set to music, conducted in a group format, and uses specially built stationary bicycles to improve current health and fitness levels.

**Lab Hours:** 32

**PEA150 Powerwalking**

**1 credit**—Power Walking is one of the most convenient forms of exercise. It takes minimal equipment and can be done anywhere. This course is designed to provide students with the opportunity to learn a lifelong physical activity. Power Walking is also an excellent way to start a fitness program.

**Lab Hours:** 32

**PEA176 Volleyball I**

**1 credit**—This skill course introduces students to the lifetime activity of volleyball. This will be a fundamental course, teaching the basics of the game from scoring to the actual playing. This course will also cover volleyball etiquette. The class will play two on two, three on three, and standard volleyball.

**Lab Hours:** 32

**PEA187 Weight Training I**

**1 credit**—This skill course introduces the student to basic principles of weight training and the effects of this type of exercise on the body. Personalized programs will be the focus while emphasizing proper lifting techniques and safety issues.

**Lab Hours:** 32

**PEA191 Pilates**

**1 credit**—This skill course is designed to provide students with the opportunity to learn Pilates principles and mat-based exercises from the beginner level, through the intermediate level, and finishing with the advanced level. Pilates is a form of exercise that focuses on core stability and strength while simultaneously lengthening and strengthening the muscles without adding "bulk".

**Lab Hours:** 32

**PEA194 Vinyasa Yoga**

**1 credit**—This skill course introduces the fundamentals of Vinyasa Yoga. Vinyasa Yoga focuses on balanced asana (posture) sequences, as well as the connection of the asanas and the breath. There are a host of associated benefits including, but not limited to, increased levels of body awareness, increased strength and flexibility, as well as the benefits shown to be associated with relaxation.

**Lab Hours:** 32

**PEA196 Iron Yoga-Pilates Infusion**

**1 credit**—This skills course provides students with an opportunity to contrast and compare yoga and Pilates, and use a host of equipment to compliment both. Emphasis will be placed on muscular strength and endurance, flexibility, physical balance and mind control.

**Lab Hours:** 32

**PEC110 Coaching Ethics, Techniques, and Theory**

**1 credit**—This is one of the four courses required to receive a coaching authorization or endorsement. This course meets the required hours for ethics. By the end of this course, participants should be able to explain methodology and responsibilities of a successful coach, apply teaching techniques to sports skills, connect how communication and motivation affect performance, and distinguish appropriate ethical behavior of coaches and students. Taking responsibility for their own learning, participants should be able to plan for an effective and meaningful experience for the athlete that is supported by informed decision-making.

**Lecture Hours:** 16

**PEC115 Athletic Development and Human Growth**

**1 credit**—This is one of the four courses required to receive a coaching authorization or endorsement. This course will connect the participants to the basic concepts of growth and development of students in the 5th through 12th grade who would participate in school sponsored athletics. By the end of this course, participants should be able to explain how and when physical, social, emotional, and intellectual development occurs and how this development affects learning, behavior and performance. Taking responsibility for their own learning, participants should be able to plan for an effective and meaningful athletic experience for the adolescent that is supported by informed decision-making.

**Lecture Hours:** 16

### **PEC123 Anatomy for Coaching**

**1 credit**—This is one of the four courses required to receive a coaching authorization or endorsement. By the end of this course, participants should be able to apply basic physiological concepts to athletics, connect how they affect movement, conditioning, and performance. Taking responsibility for their own learning, participants should be able to plan for an effective and meaningful experience for the athlete that is supported by informed decision-making.

**Lecture Hours:** 16

### **PEC127 Care and Prevention of Athletic Injuries**

**2 credits**—This is one of the four courses required to receive a coaching authorization or endorsement. This course will describe the duties and responsibilities in protecting the health of athletes. The course is aimed at recognizing injuries and providing basic care for those injuries as well as techniques to prevent injuries from occurring.

**Lecture Hours:** 32

### **PEH111 Personal Wellness**

**3 credits**—This is an introductory level course designed to explore wellness in all dimensions. Students will assess their overall level of wellness, assess current lifestyle choices, and be enabled with strategies that will lead to an improved lifestyle and overall level of wellness.

**Lecture Hours:** 48

### **PEH141 First Aid**

**2 credits**—This course will use discussion and application to provide the layperson with the basic skills and knowledge necessary to provide First Aid, CPR, and AED to adult, child, and infant populations. Certification by the American Red Cross will be awarded to those who qualify.

**Lecture Hours:** 32

### **PEH266 Leadership Techniques for Fitness Programs**

**3 credits**—This course will prepare students to develop and implement an individualized and group approach to exercise leadership in healthy populations. The student will also become proficient in writing, leading, and demonstrating safe and effective methods of exercise by applying the fundamental principles of exercise science.

**Lecture Hours:** 32 **Lab Hours:** 32

### **PHI101 Introduction to Philosophy**

**3 credits**—An investigation of some of the fundamental problems of human existence-- human nature, the nature of reality, how and what we know, the existence of God, ethical behavior, justice and freedom. This will be undertaken through readings and discussions of major philosophical schools of thought in Western and non-Western traditions.

**Lecture Hours:** 48

### **PHI105 Introduction to Ethics**

**3 credits**—Introduction to Ethics examines contemporary ethical conflicts and provides a grounding in the language, concepts, and traditions of ethics. This course provides students with the intellectual tools to analyze moral dilemmas in the fields they choose to pursue and participate in as members of society.

**Lecture Hours:** 48

### **PHI121 Classical/Medieval Philosophy**

**3 credits**—This course will cover an intellectual history of Western civilization from the pre-Socratic philosophers through Scholasticism. The course will begin by looking at several philosophers preceding Socrates, as well as study Socrates, Plato, Aristotle, and the impact of Greek philosophy. It will then look at the development of early Christianity through Augustine, the early Medieval period through Thomas Aquinas, and the late medieval period through William of Occam.

**Lecture Hours:** 48

### **PHS120 Exploring Physical Science**

**4 credits**—This course introduces the student to the concepts and processes of physics, chemistry, astronomy, and earth science. Students are presented with a general overview of theories that have an impact on their everyday lives.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in 100 level math course or appropriate placement score, RDG040 or appropriate placement score, and ENG105 or COM781.

### **PHS142 Principles of Astronomy**

**3 credits**—This physical science course explores the mysteries of the universe. Through scientific reason, the course will examine the following: the history of astronomy, the planets, stars, nebulae, galaxies, the creation and fate of the universe and our place in it. This course includes amateur observation techniques.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in 100 level math course or appropriate placement score, RDG040 or appropriate placement score, and ENG105 or COM781.

### **PHS152 Astronomy**

**3 credits**—A basic course in descriptive astronomy dealing with the development of modern astronomy and with its present-day theories and observations. Topics covered include motions of solar system and deep sky objects, telescopes and other instruments, members of the solar system, nature of the sun, other stars, origin and development of stars and planets, our galaxy, other galaxies, and the organization of the universe.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in 100 level math course or appropriate placement score, RDG040 or appropriate placement score, and ENG105 or COM781.

### **PHS928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

**Lecture Hours:** 16

### **PHT102 Photo Design I**

**3 credits**—This course identifies the fundamental design and compositional elements contained in quality images used for professional photography. The course provides exposure to several photographic styles which can be drawn upon for each individual's photographic journeys.

**Lecture Hours:** 32

### **PHT106 Introduction to Image Editing**

**3 credits**—This course will provide a basic introduction to raster based still digital image manipulation using industry standard software. This course is designed to provide students with a workable understanding of the digital software interface and tools used in imaging workflows.

**Lecture Hours:** 32 **Lab Hours:** 32

### **PHT108 Camera I**

**3 credits**—This course is an introduction to the basics of camera handling, exposure and meter usage.

**Lecture Hours:** 32 **Lab Hours:** 32

**Co-requisite(s):** PHT109

### **PHT109 Print I**

**3 credits**—This course is an introduction to the basics of processing camera outputs and applying techniques used to produce a professional print. This course also emphasizes the fundamental print finishing methods used in the professional photography industry to enhance a photograph's overall presentation.

**Lecture Hours:** 32 **Lab Hours:** 32

**Pre/Co-requisite(s):** PHT108

### **PHT110 Camera II**

**3 credits**—This course is an extension of Camera I and expands on camera captures, introducing editing workflows and image conversions. Additional camera accessories and optical image management are explained along with common problems with optics and what can be done to correct for them.

**Lecture Hours:** 32

**Prerequisite(s):** PHT108

### **PHT111 Print II**

**3 credits**—This course emphasizes color output and the need for a properly managed original image, and properly managed output devices that result in either physical prints or virtual presentations.

**Lecture Hours:** 32 **Lab Hours:** 32 **Prerequisite(s):** PHT109 and PHT106 **Pre/Co-requisite(s):** PHT202 or PHT204

### **PHT132 Photo Design II**

**3 credits**—This course presents the physical, physiological, and psychological dimensions of color and light as perceived by people. The interaction of colors is explored as it relates to studying the forms of color, color harmonies, and color contrasts.

**Lecture Hours:** 32

**Prerequisite(s):** PHT102

### **PHT202 Basic Portraiture**

**3 credits**—This course presents an introduction and an overview of the professional portrait field. The course will introduce management techniques used in portrait studios. The course will include instruction on studio equipment and utilizing natural light and studio lighting to produce acceptable portraits.

**Lecture Hours:** 32

**Prerequisite(s):** PHT106, PHT108, and PHT109

### **PHT204 Basic Commercial Photography**

**3 credits**—This course presents an overview of a profession in commercial still photography. Techniques, assignment types, expectations, working conditions, types of photography products used, studio procedures and equipment requirements will be discussed. Simple commercial techniques will be applied in practical assignments.

**Lecture Hours:** 32

**Prerequisite(s):** PHT106, PHT108, and PHT109

### **PHT208 Basic Photojournalism**

**3 credits**—This survey of photojournalism as a profession leads to publishable photographs through practical assignments. The techniques and working style of outstanding photojournalists are presented in multi-image programs.

**Lecture Hours:** 32

### **PHT210 Visual Communication**

**3 credits**—This course is a survey of the tools, materials and processes used for the production of visual messages in society. Course work includes practical application in the selection, utilization and implementation of materials in the preparation and design of messages.

**Lecture Hours:** 32

### **PHT215 Portrait Image Editing**

**3 credits**—This course will deal with adjusting and enhancing images after capture and before final output using computer imaging software. Emphasis will be on images used in the portrait photography industry.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** PHT106

### **PHT216 Commercial Image Editing**

**3 credits**—This course will deal with adjusting and enhancing images after capture and before final output using computer imaging software. Emphasis will be on images used in the commercial photography industry.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** PHT106 and PHT111

### **PHT217 Advanced Portrait Image Editing**

**4 credits**—This course will deal with multiple images in portrait production giving a series of images that will be used together in an album or multi-image presentation a consistent look, or insuring a series of images that will be combined into a composite image will have appropriate balance.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** PHT215

### **PHT218 Advanced Commercial Image Editing**

**3 credits**—This course will deal with multiple images in commercial production; giving a series of images that will be used together in a catalog or brochure a consistent look, or insuring a series of images that will be combined into a composite image will have appropriate balance.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** PHT216

### **PHT220 Intermediate Portraiture**

**3 credits**—This course is designed to assist the student in learning advanced portrait techniques and the business tools needed to start and maintain a portrait studio. The course creates an awareness of the work environment the student will enter. This course builds on the skills learned in Basic Portraiture and will include portrait assignments incorporating the criteria for acceptable portraits while utilizing studio lighting and natural lighting.

**Lecture Hours:** 32

**Prerequisite(s):** PHT202

### **PHT227 Intermediate Commercial**

**3 credits**—This course builds on the theory and techniques learned in Basic Commercial Photography. Lighting and image control will be presented in a variety of situations both in the studio and on location.

**Lecture Hours:** 32

**Prerequisite(s):** PHT204

### **PHT229 Intermediate Photojournalism**

**3 credits**—This course prepares students to find employment with various publications and media outlets including newspapers, magazines, public relations departments and internet outlets. Portfolio presentation is required upon completion

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PHT208.

### **PHT235 Tech. for Studio Promotion**

**3 credits**—This course emphasizes fundamental promotional methods used in professional portrait photography studios and provides exposure to the various advertising and marketing strategies to promote the studio and raise public awareness.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D- in PHT202 or PHT204.

### **PHT237 History of Photography**

**2 credits**—This course introduces the student to the history of the photographic profession and it's ascent to the modern art form we know today. The people, processes, and their contribution to society throughout photography's short history will be discussed and studied.

**Lecture Hours:** 32

Supplement B1

### **PHT240 Portrait Production and Portfolio**

**2 credits**—This course is designed to assist the student in learning production portrait techniques and the customer services needed to start and maintain a portrait studio. The course creates an awareness of the work environment. This course builds on the skills learned in Intermediate Portraiture and will include various portrait assignments in the studio, outdoors and on location. A portfolio presentation is required upon completion.

**Lecture Hours:** 32

**Prerequisite(s):** PHT220

### **PHT241 Portrait Business**

**3 credits**—This course overviews the day to day operations specific to a portrait photography business, including business structure, cost of doing business, invoicing, staffing and business taxes.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT202.

### **PHT242 Audio Visual Presentations**

**3 credits**—This course introduces the student to the aspects of planning, producing, distributing and presenting computer based multimedia. Macintosh and PC computer platforms will be utilized to complete assignments. Students will integrate digital photography and digital audio to produce assignments.

**Lecture Hours:** 32

### **PHT244 Wedding Photography**

**3 credits**—This course presents an overview of the professional wedding field. The course will include instruction on equipment, lighting and posing utilized for photographing a wedding. The course will also cover marketing, sales techniques and the day-to-day business procedures needed to operate a wedding business.

**Lecture Hours:** 32 **Lab Hours:** 64

**Prerequisite(s):** PHT220

### **PHT247 Commercial Production and Portfolio**

**3 credits**—This course will look at a number of challenging situations likely to be encountered by commercial photographers, including ones that require advanced lighting solutions, large teams of people, or extensive planning and preparation. This course analyzes a variety of photographic styles and considers the importance of developing a personal photographic style. Students will be required to produce and present a portfolio of their commercial images.

**Lecture Hours:** 32

**Prerequisite(s):** PHT227

### **PHT248 Commercial Business**

**3 credits**—This course overviews the day to day operations specific to a commercial photography business, including business structure, cost of doing business, invoicing, staffing and business taxes.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of D in PHT204.

**PHT251 Fine Art Photography**

**3 credits**—This course will present an overview of the Fine Art Photography field. Outlets will be identified for selling personal fine art photography. The course will also include instruction on how to apply to shows and give direction on how to present, display, and sell fine art photography.

**Lecture Hours:** 32  
**Prerequisite(s):** PHT111

**PHT252 Film and Print Scanning**

**3 credits**—This course will study the conversion from analog film and prints into a digital format that can be used within electronic image editing and output.

**Lecture Hours:** 32 **Lab Hours:** 32  
**Prerequisite(s):** PHT215 or PHT216

**PHT253 Art Direction**

**3 credits**—This course will provide an overview of the working relationship between the photographer and the art director, as well as explore skills needed for good communication and collaboration.

**Lecture Hours:** 32  
**Co-requisite(s):** PHT247

**PHT928 Photography Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 5 credits.

**Lab Hours:** 32

**PHY100 Physics in Everyday Life**

**3 credits**—Basic laws and concepts of physics introduced and demonstrated through operation of everyday devices and systems. Emphasis on understanding physical principles behind working of modern technologies and interplay between science and technology.

**Lecture Hours:** 48

**PHY162 College Physics I**

**4 credits**—This course covers the fundamental concepts, principles and laws of physics and their applications. It covers kinematics, dynamics, force, linear and rotational motion, fluids, sound, temperature, and heat.

**Lecture Hours:** 48 **Lab Hours:** 32  
**Prerequisite(s):** A minimum grade of C- in MAT747, MAT128, MAT134, or appropriate placement score to enroll in MAT210.

**PHY172 College Physics II**

**4 credits**—This course is the second semester continuation of General Physics I. The course studies the fundamental concepts, principles and laws of physics and their application. It covers electricity and magnetism, light and geometric optics, quantum and nuclear physics.

**Lecture Hours:** 48 **Lab Hours:** 32  
**Prerequisite(s):** A minimum grade of C- in PHY162.

**PHY183 Applied Physics**

**3 credits**—This course is an introduction to topics of classical physics such as motion, friction, gravitation, vibrational motion, thermodynamics, sound, light and optics.

**Lecture Hours:** 32  
**Prerequisite(s):** MAT514

**PHY212 Classical Physics I**

**5 credits**—This course introduces physics using calculus-level mathematics. Designed for students in Engineering, Mathematics, and Physics. The first semester of this sequence covers the topics of vectors, linear and rotational kinematics, statics, dynamics, oscillatory and wave motion, temperature, and heat.

**Lecture Hours:** 64 **Lab Hours:** 32  
**Prerequisite(s):** A minimum grade of C- in MAT210.

**PHY222 Classical Physics II**

**5 credits**—This course is the second semester continuation of Classical Physics I. This is a calculus-based course that studies the fundamental concepts, principles and laws of physics, and their applications. Topics include: electricity and magnetism, light and geometric optics, quantum and nuclear physics.

**Lecture Hours:** 64 **Lab Hours:** 32  
**Prerequisite(s):** A minimum grade of C- in PHY212 and MAT216.

**PNN100 Nursing Assistant**

**3 credits**—This course is designed to meet the training requirements of the Omnibus Reconciliation Act of 1987 (OBRA) for aides working in nursing facilities (NF) and skilled nursing facilities (SNF). Emphasis in the course is on students achieving a basic level of knowledge and demonstrating skills to provide safe, effective resident/client care. This course parallels PNN-132 Nursing Fundamentals I.

**Lecture Hours:** 32 **Lab Hours:** 16 **Clinic Hours:** 32

**PNN115 Introduction to Nursing**

**3 credits**—Introduction to nursing is the initial course for the student entering the profession of nursing and begins with an introduction to the history of nursing and nursing as a profession. Components of the nursing process are described and utilized with implementation of nursing technologies. The student will learn aspects of infection control, hygiene, safety, body alterations, therapeutic communication and healthcare prevention.

**Lecture Hours:** 64  
**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.  
**Co-requisite(s):** A minimum grade of C in PNN116, PNN117, PNN207, BIO173, and MAT122.

### **PNN116 Introduction to Nursing Skills Lab**

**2 credits**—This course provides the student with knowledge and practical application of basic nursing skills while incorporating concepts learned in Introduction to Nursing.

Students learn and practice basic nursing skills in personal care, infection control, safety, vital signs, sterile technique, patient safety, documentation, and medication administration. There is major emphasis on the critical elements of nursing procedures and the scientific rationale for performing the procedures correctly.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN117, PNN207, BIO173, and MAT122.

### **PNN117 Nursing Clinical I**

**1 credit**—This course provides students with an introduction to clinical nursing. Emphasis is placed on utilization of the nursing process as a basis for clinical decision making and development of critical thinking. Nursing professionalism and basic nursing skills such as infection control, hygiene, asepsis, vital signs, and physical assessment are introduced.

**Clinic Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN207, BIO173, and MAT122.

### **PNN207 Introduction to Pharmacology**

**3 credits**—This course introduces students to the basic principles of pharmacology and medication administration. The student will focus on the safe use, pharmacological principles, indications, and nursing implications related to drug therapy when caring for individuals and families across the life-span. General characteristics of selected medications including pharmacokinetics, pharmacogenomics, side effects, adverse effects, contraindications, and administration will be discussed.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, BIO173, and MAT122.

### **PNN214 Basic Health Alterations A – Effective Fall 2015**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: Musculoskeletal; Integumentary; GI/GU; Renal

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122.

**Co-requisite(s):** PNN215, PNN216, and PNN217

### **PNN214 Basic Health Alterations A – Effective Spring 2016**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: Musculoskeletal; Integumentary; GI/GU; Renal; Endocrine and Sensory.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN215, PNN216, PNN217, PNN311, and BIO151.

### **PNN215 Basic Health Alterations B – Effective Fall 2015**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: hematologic, cardiovascular, respiratory and immune.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122.

**Co-requisite(s):** PNN214, PNN216, and PNN217

### **PNN215 Basic Health Alterations B – Effective Spring 2016**

**3 credits**—This course builds on the knowledge attained in previous course work. Emphasis is placed on applying the nursing process to clients and families across the lifespan, in a variety of settings. The content is organized according to body systems, focusing on nursing implications for clients with predictable health problems, as well as related health promotion and disease prevention strategies. Systems included in this course are: hematologic, cardiovascular, respiratory, neurological, integumentary and immune.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN216, PNN217, BIO151, and PNN311.

**PNN216 Health Promotion and Maintenance Across the Lifespan – Effective Fall 2015**

**2 credits**—This course builds on the knowledge attained in previous courses, emphasizing health promotion and maintenance across the lifespan. Exemplars from maternal-child nursing and mental health nursing will be used in demonstrating the integration of principles of the nursing process and health care agencies. Cultural, ethical and legal challenges will be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122.

**Co-requisite(s):** PNN214, PNN215, and PNN217

**PNN216 Health Promotion and Maintenance Across the Lifespan – Effective Spring 2016**

**2 credits**—This course builds on the knowledge attained in previous courses, emphasizing health promotion and maintenance across the lifespan. Exemplars from maternal-child nursing and mental health nursing will be used in demonstrating the integration of principles of the nursing process and health care agencies. Cultural, ethical and legal challenges will be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN217, BIO151, and PNN311.

**PNN217 Nursing Clinical II – Effective Fall 2015**

**4 credits**—This course is a study of nursing care of clients. The course stresses clinical and theoretical application as applied to clients throughout their life span. Emphasis is on the nursing process to develop critical thinking skills to implement a plan of care with a holistic, individualized approach in a structured clinical setting. The clinical experience will provide application of critical thinking skills, prioritizing, theoretical and legal issues, documentation and collaboration with other members of the healthcare team.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, BIO173, and MAT122.

**Co-requisite(s):** PNN214, PNN215, and PNN216

**PNN217 Nursing Clinical II – Effective Spring 2016**

**4 credits**—This course is a study of nursing care of clients. The course stresses clinical and theoretical application as applied to clients throughout their life span. Emphasis is on the nursing process to develop critical thinking skills to implement a plan of care with a holistic, individualized approach in a structured clinical setting. The clinical experience will provide application of critical thinking skills, prioritizing, theoretical and legal issues, documentation and collaboration with other members of the healthcare team.

**Lecture Hours:** 0 **Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219.

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, BIO151, and PNN311

**PNN311 PN Issues and Trends – Effective Fall 2015**

**1 credit**—This course is an overview of the role of the licensed practical nurse. This course introduces students to the history, educational preparation, legal and ethical requirements, cultural and spiritual sensitivity. Scopes of practice, career opportunities, and beginning the job search are addressed.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217, and BIO151.

**PNN311 PN Issues and Trends – Effective Spring 2016**

**1 credit**—This course is an overview of the role of the licensed practical nurse. This course introduces students to the history, educational preparation, legal and ethical requirements, cultural and spiritual sensitivity. Scopes of practice, career opportunities, and beginning the job search are addressed.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in PNN115, PNN116, PNN117, PNN207, and BIO173. A minimum grade of C in MAT122, MAT 110, MAT102, MAT128, MAT134, MAT156, MAT210, MAT216, or MAT219

**Pre/Co-requisite(s):** A minimum grade of C in PNN214, PNN215, PNN216, PNN217, and BIO151.

**PNN343 Nurse Perspect Lifespan**

**3 credits**—This course is a study of the stages of normal growth and development including physical, behavioral and personality development from conception to death. Special emphasis is placed on phases and processes of aging.

**Lecture Hours:** 48

**Prerequisite(s):** Complete of Practical Nursing admission requirements, ENG061, MAT063, RDG040, and BIO042 with a minimum grade of C.

### **PNN401 Mental Health Nursing**

**1 credit**—This course focuses on the beginning study of mental health concepts utilizing the nursing process. Self-awareness and providing a therapeutic relationship are important aspect of this course. Emphasis is also placed on nursing interventions provided to meet the emotional needs of the client, especially the elderly.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in completion of all first semester Practical Nursing courses, PNN270, PNN161, PNN132, PNN133, PNN103, BIO159, and PSY111.

### **PNN431 Maternal Child Nursing I**

**2 credits**—This course is designed to provide the student with an understanding of basic nursing care during pregnancy, labor, delivery, and postpartum periods. Health promotion of infants, children and adolescents is addressed. Basic nursing care essential in caring for the child hospitalized with a common illness or surgical procedure is presented.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159, BIO168, or BIO173.

**Pre/Co-requisite(s):** A minimum grade of C in PNN343.

### **PNN541 Medical Surgical Nursing A**

**5 credits**—This course is a study of nursing care of adult clients with medical-surgical alterations of the following systems: musculoskeletal, neurological, respiratory, endocrine, immune, and eye/ear. Clinical experiences are provided in acute care facilities.

Pharmacology and gerontological considerations are integrated throughout this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159.

**Pre/Co-requisite(s):** A minimum grade of C in PNN543.

### **PNN542 Medical Surgical Nursing B**

**5 credits**—This course is a study of nursing care of adult clients with medical-surgical alterations of the following systems: cardiovascular, hematology, gastrointestinal, urinary, reproductive, and integumentary. Clinical experiences are provided in acute care facilities. Pharmacology and gerontological considerations are integrated throughout this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159.

**Pre/Co-requisite(s):** A minimum grade of C in PNN543.

### **PNN543 Foundations of Clinical Practices**

**3 credits**—This course is an introduction to the general concepts that are applicable to nursing in a variety of settings. Areas of focus include nursing assessment, pharmacology, health care agencies, community resources, regulatory responses, the client with cancer and additional clinical skills.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in all first semester Practical Nursing courses, PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159.

### **PNN722 Fundamentals of Nursing Clinical**

**2 credits**—Focuses on the application of knowledge, psychomotor, and affective skills to perform the role of provider of care. Emphasis is on making basic observations and performing nursing cares associated with activities of daily living in long-term care and medical settings. Concepts related to nutrition, pharmacology, and pathophysiology are applied.

**Clinic Hours:** 96

**Prerequisite(s):** A minimum grade of C in PNN103, PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159 or BIO168/BIO173.

### **POL111 American National Government**

**3 credits**—The study of the United States national government, specifically its institutions, the process of governing, the means by which individual citizens and groups influence that process, and the output of that governing process.

**Lecture Hours:** 48

### **POL121 International Relations**

**3 credits**—This course is an introduction to international politics. The course will examine the underlying forces that shape and constrain how countries behave in the international system, historical patterns of state behavior and the prospect of state cooperation and conflict in the future. Analysis of international relations will be done through the examination of historical events, current events, policy evaluation and scholarly theory.

**Lecture Hours:** 48

### **POL125 Comparative Government and Politics**

**3 credits**—This course introduces the study of politics using a comparative structure. It examines the principles and operation of modern political systems. Emphasis is on the processes in a variety of political systems in the world including democratic, socialist, and totalitarian systems.

**Lecture Hours:** 48

### **PSY102 Human and Work Relations**

**3 credits**—Human Relations is the study of self and social behavior. Emphasis is placed on the understanding and application of social science theories and research for the development of effective interpersonal and organizational relationships.

**Lecture Hours:** 48

### **PSY111 Introduction to Psychology**

**3 credits**—This course provides an introduction to the study of behavior with emphasis in the areas of learning, cognition, motivation, personality, behavioral disorder, therapy, and social influence. An understanding of the impact of both theoretical perspectives and experimental evidence on the formulation of the science of human behavior is also stressed. Psychological theories and principles are utilized to explain and predict behavior.

**Lecture Hours:** 48

### **PSY121 Developmental Psychology**

**3 credits**—This course presents a life span, developmental approach to the study of the developing person that identifies the behavioral dynamics of the physical, cognitive, social and affective domains of development with a view to the impact of family, school and community.

**Lecture Hours:** 48

### **PSY241 Abnormal Psychology**

**3 credits**—Survey of the major classifications of psychological disorders. Emphasis will be on theoretical perspectives, descriptions of disorders, and therapeutic approaches.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

### **PSY251 Social Psychology**

**3 credits**—Provides an introduction to the study of the interrelationship between the individual and social behavior with emphasis in the areas of social cognition, attribution, attitudes, group behavior, prejudice and discrimination, and interpersonal relationships. Basic psychological and sociological perspectives and research findings will be reviewed to better understand individual and social behavior.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111 and SOC110 or instructor approval.

### **PSY261 Human Sexuality**

**3 credits**—This course explores the biological, psychological, social, cultural and historical forces that influence human relationships and sexuality. Research and theory are utilized to examine the diversity of human sexual expression.

**Lecture Hours:** 48

### **PSY262 Psychology of Gender**

**3 credits**—This course explores the meaning of gender. Research and theory in the areas of gender development, gender similarities and differences, and the nature and effects of gender roles and stereotypes is emphasized.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

### **PSY924 Honors Project**

**1 credit**—"This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty."

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **PTA110 Fundamentals for PTA**

**3 credits**—An introduction to the skills needed to care for patients in varied settings. This course will include body measurements, range of motion, vital signs, lifting and transfers, draping and positioning, documentation guidelines, manual muscle testing, posture and body alignment, assistive devices, and the pre-ambulatory patient.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA113 Fundamentals for PTA II**

**3 credits**—Introduction to physical disabilities and community barriers, independent activities of daily living, prosthetics, orthotics, static/dynamic splints, casts, braces, relaxation training, pulmonary function, airway clearance techniques, breathing exercises, functional assessment, functional exercise, balance assessment, and balance training.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA110.

### **PTA120 Kinesiology**

**3 credits**—This course will present advanced anatomy of the musculoskeletal system with emphasis on joint mechanics, human movement, and palpation of anatomical landmarks. The student will learn the principles of normal and abnormal gait.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA150 Pathophysiology**

**3 credits**—Describes the etiology, signs, symptoms, and treatment of diseases and disorders commonly encountered in physical therapy.

**Lecture Hours:** 48

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA194 Therapeutic Agents I**

**3 credits**—Introduction to the use of physical modalities for patient treatment. The principles of inflammation, cell repair, pain, and pain management will be introduced. The student will learn the physics, physiology, indications, contraindications, application, and patient preparation for the use of heat, cold, ultrasound, massage, vasocompression, wound care, hydrotherapy, and phonophoresis.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA195 Therapeutic Agents II**

**3 credits**—This course continues with the study of the physics, physiology, indications, contraindications, and patient preparation for the use of modalities. Focus will be on electrical modalities including iontophoresis, biofeedback, transcutaneous electrical stimulation (TENS), neuromuscular electrical stimulation, high volt, interferential, and microcurrent. The course will also include mechanical traction, continuous passive motion, and laser.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA194.

### **PTA211 Musculoskeletal I**

**3 credits**—This course will present the principles of tissue development, healing and response to physical therapy treatments. Common cervical spine and upper extremity orthopedic diagnosis, physical therapy interventions, and post-operative and injury care protocols will be discussed.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA212 Musculoskeletal II**

**3 credits**—This course will present common lower extremity and thoracolumbar spine orthopedic diagnosis and physical therapy interventions. Post-operative and injury care protocols will be discussed.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA211.

### **PTA231 Therapeutic Exercise for PTA**

**3 credits**—This course covers the principles of exercise physiology, the application of exercise to treatment plans and injury prevention, equipment, and exercise interventions to improve flexibility, strength, motor control, special topics in women's health, and cardiovascular function.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA211 and PTA120.

**Co-requisite(s):** PTA212

### **PTA248 PTA Neurology**

**4 credits**—This course presents information on nervous system anatomy, function and normal/abnormal development; therapeutic approaches to central nervous system dysfunction throughout the life cycle; and assessment of the neurologically impaired patient.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in PTA210 and PTA120.

### **PTA285 PTA Professional Issues**

**1 credit**—This seminar covers topics relevant to professional development and communication. Topics include cultural competence, learning and communication styles, ethical and legal aspects of care, structure and function of institutions, wellness, reimbursement systems, and special topics in health care. Employment topics including resume writing, interviewing, performance appraisals, and work/life issues will be covered.

**Lecture Hours:** 16

Supplement B1

### **PTA310 PTA Clinical I**

**1 credit**—This course consists of Health Care Provider level CPR and First Aid certification; HIPAA, OSHA Hazard Communication (includes blood borne pathogens), and Mandatory Reporter Training for Child and Dependent Adult Abuse; and introduction to the clinic during the first two weeks of the semester, followed by weekly on-site clinical experience in local settings. The course will allow for observation and application of physical therapy interventions and application of elemental principles of patient care to uncomplicated patients under direct supervision and at the discretion of the Clinical Instructor.

**Co-op Hours:** 64

**Prerequisite(s):** Acceptance into Phase II of the Physical Therapist Assistant program.

### **PTA311 PTA Clinical II**

**1 credit**—This course consists of clinical experiences throughout the semester. The students will have the opportunity to apply skills and knowledge developed in previous course work per the discretion of the Clinical Instructor.

**Co-op Hours:** 64

**Prerequisite(s):** PTA310

### **PTA412 PTA Clinical III**

**4 credits**—This course consists of a full-time clinical rotation at one clinical site. The student will apply skills and knowledge from all previous coursework to patient care with the purpose of developing entry-level clinical competency. Clinical competencies will be continued. An oral presentation will be presented to the staff. The clinical site may require travel away from the local region, including out-of-state.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in PTA113, PTA195, PTA212, PTA231, PTA248, and PTA285. Successfully pass PTA311.

### **PTA413 PTA Clinical IV**

**4 credits**—This course consists of a full-time clinical rotation at one clinical site. The student will continue to apply skills and knowledge obtained from all previous coursework and clinical experiences. Clinical competencies must be completed by the end of this rotation. An oral presentation will be presented to the staff that differs from Clinical III. A one day review of clinical questions and licensure examination details will follow the end of the clinical. Location of clinical sites may require travel away from the local region, including out-of-state.

**Co-op Hours:** 256

**Prerequisite(s):** PTA412

### **RCP100 Introduction to Respiratory Care**

**3 credits**—This course introduces the student to the fundamentals of Respiratory Care. The field of Respiratory Care will be examined to determine opportunities and policies in the profession. It will establish a strong foundation in bedside assessment including vital signs, chest assessment, evaluating work of breathing, and patient history. Also covered will be the therapeutic uses of medical gases, infection control procedures, and proper maintenance of records. Humidity and aerosol therapy will be studied in detail. Must complete all Pre-Respiratory courses with a cumulative GPA of 2.75.

**Lecture Hours:** 32 **Lab Hours:** 32

### **RCP260 Airway Maintenance Procedures**

**4 credits**—This course will develop the skills required to assess, diagnose, and manage a patient's airway. It specifically describes the Respiratory Therapist's role in maintaining a patent airway by using lung expansion therapy, bronchial hygiene techniques, and suctioning. The insertion, maintenance, and removal of artificial airways, which include endotracheal tubes and tracheostomy tubes, will be discussed in detail.

**Lecture Hours:** 48 **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP100.

### **RCP315 Cardiopulmonary Therapeutics**

**4 credits**—This course is a general review of the respiratory, circulatory, and renal systems as they apply to respiratory care. The procedure and analysis of arterial blood gas sampling will be discussed in detail along with the pharmacologic interventions used to ease the work of breathing. This course provides a foundation for the study of respiratory and cardiovascular disorders and the interventions made to alleviate them.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Co-requisite(s):** A minimum grade of C in RCP680.

### **RCP350 Pulmonary Pathology**

**3 credits**—This course examines common medical disorders and the effect on the cardiopulmonary system. It includes disorder etiology, anatomic changes, and clinical presentation. Evaluation of signs and symptoms will allow the student to generate a diagnosis and design a multidisciplinary treatment plan. Patient case studies and clinical simulations will be a major focus.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** A minimum grade of C in RCP315.

### **RCP410 Cardiopulmonary Diagnostics**

**3 credits**—This course covers advanced cardiopulmonary diagnostic tests. It includes pulmonary function tests, stress tests, imaging studies, noninvasive monitors, bronchoscopies, cardioversions, polysomnography, indwelling lines, and pulmonary rehabilitation. Ethical issues for Respiratory Therapists will also be discussed.

**Lecture Hours:** 32 **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP565 or RCP690.

### **RCP561 Introduction to Ventilator Support**

**3 credits**—This course prepares the student to initiate and manage invasive and noninvasive mechanical ventilation. Discussion topics will include modes of ventilation, ventilator settings, and ventilator alarm limits. Principles of mechanical ventilation and the effects of positive pressure will also be studied.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Pre/Co-requisite(s):** A minimum grade of C in RCP315 or RCP680.

### **RCP565 Intensive Respiratory Care**

**3 credits**—This course expands the student's ability to oxygenate and ventilate a patient while managing a mechanical ventilator. The student will utilize ventilator graphics to change settings and troubleshoot problems as the patient improves or deteriorates.

Special monitoring systems will be discussed, including indwelling arterial lines, cardiac monitors, hemodynamic monitors, transcutaneous monitors, and capnographs.

Performance and interpretation of electrocardiograms are highlighted. Medications commonly given to critical patients in the Intensive Care Unit will also be discussed.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP315 and RCP561.

**Co-requisite(s):** A minimum grade of C in RCP690.

### **RCP600 Neonatal/Pediatric Respiratory**

**3 credits**—This course provides in-depth knowledge into the complex problems associated with the neonatal and pediatric population. Neonatal and pediatric assessment, monitoring, and respiratory intervention will be a major focus. Abnormal conditions that occur during the transition from fetal development, to the perinatal period, to the pediatric stages of life will also be discussed. Simulation will be used to demonstrate the ability to identify and treat common abnormalities found in this population.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

**Pre/Co-requisite(s):** A minimum grade of C in RCP680.

### **RCP680 Clinical Respiratory Care**

**4 credits**—This course introduces the student to the hospital setting to develop important skills in communicating with patients and other health care personnel. The student will perform valuable patient assessments as well as basic respiratory care modalities. The modalities included are: oxygen therapy, lung expansion therapy, medication delivery, bronchial hygiene, intubation, extubation, suctioning, tracheostomy care, and ABG sampling.

**Clinic Hours:** 192

**Prerequisite(s):** A minimum grade of C in RCP100 and RCP260.

### **RCP690 Clinical Intensive Care**

**8 credits**—This course expands clinical situations into the intensive care units, which includes invasive and noninvasive ventilators and hemodynamically unstable patients. There will be a specialty rotation to develop awareness of different aspects of neonatal, pediatric, and adult ICUs, and other special procedures.

**Clinic Hours:** 384

**Prerequisite(s):** A minimum grade of C in RCP350, RCP561, and RCP680.

**Pre/Co-requisite(s):** A minimum grade of C in RCP565.

### **RCP875 Respiratory Care Applications**

**2 credits**—This course is a summary course to combine textbook knowledge with application skills. It will test the student's ability in turning recalled information into better decision-making processes.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP350, RCP561, and RCP315.

**Pre/Co-requisite(s):** A minimum grade of C in RCP410, RCP565, and RCP690.

### **RCP900 Clinical Preceptor**

**4 credits**—This course prepares the student for real-life hospital situations. The student will be expected to complete a full work day doing the full workload of an assigned Staff Therapist (preceptor). The student is expected to handle all aspects of respiratory care including interruptions and new situations. The preceptor will monitor the student at all times and will offer support if needed.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in RCP680 and RCP690.

### **RCP910 Respiratory Care RRT Review**

**2 credits**—This course is designed to test the student's ability to successfully earn passing scores on advanced-level examinations. Although advanced-level examinations will be the focus of this course, review of entry-level examination concepts will also be provided. Mock Board examinations will be administered after completion of a comprehensive review seminar.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP875.

### **RDG038 College Preparatory Reading I**

**3 credits**—This course is designed to help students improve their reading proficiency in order to manage college textbooks successfully.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent

### **RDG039 College Preparatory Reading II**

**3 credits**—This course is designed to help students expand their academic vocabulary and improve comprehension skills. Students will learn and utilize a variety of reading strategies to be used in the reading of varying materials and to further their learning in their program of choice.

**Lecture Hours:** 48

**Prerequisite(s):** RDG038

### **RDG040 College Preparatory Reading III**

**3 credits**—This course provides students with instruction of the reading skills necessary for success in college. Through the use of college-level materials, students are afforded opportunity for demonstration and application of critical reading skills.

**Lecture Hours:** 48

**Prerequisite(s):** RDG039

### **REL101 Survey of World Religions**

**3 credits**—An introductory survey of world religions that have had major impact on world culture and civilization: Hinduism, Taoism, Buddhism, Confucianism, Judaism, Christianity, Islam, and others. It will examine their cultural settings, sacred writings, key doctrines, central rituals, ethical values, and perspectives on gender roles.

**Lecture Hours:** 48

### **REL130 Intro to Religions of the East**

**3 credits**—This course is an interdisciplinary course that will explore the emergence, development, and diversification of the three cultural regions? religious traditions. Student participants in the course will explore not only the basic beliefs and practices of these religions but also the ways in which they shape and are shaped by the cultures in which they are embedded. Emphasis will be placed upon understanding these religions as systems of meaning-creation.

**Lecture Hours:** 48

### **SDV108 The College Experience**

**1 credit**—This course is designed to orient students to the college campus, resources, services, and expectations. This course also provides a brief overview and practice of study skills and academic strategies.

**Lecture Hours:** 16

### **SDV109 College 101**

**3 credits**—This course provides students a thorough orientation to the college campus and resources. The course is designed to introduce students to the college culture while they examine what a "successful" student is. Students will be introduced to a variety of skills for academic success, academic planning, personal development, and study strategies.

**Lecture Hours:** 48

### **SDV116 Strategies for Online Academic Success**

**1 credit**—This course prepares students to be successful in the online environment by introducing them to campus resources and academic strategies while equipping them with basic technology skills, such as file management, posting to discussion boards, and navigating a course website. It also gives them practical experience as an online or hybrid learner by using a Course Management System.

**Lecture Hours:** 16

### **SDV127 Study Strategies**

**1 credit**—This course provides a focused examination of the strategies and skills needed for students to be successful at the college level. Students will be introduced to and given opportunity for practice of a variety of skills for academic success and study strategies.

**Lecture Hours:** 16

**SDV131 Career Exploration**

**1 credit**—This course is designed to increase students' knowledge of themselves, of theories about careers, and of various resources available to them which will assist them in the career decision making process. Students, at the completion of this course, will be better able to choose academic majors and careers. This course is specifically designed to follow the National Career Development Guidelines.

**Lecture Hours:** 32

**SDV161 Portfolio Development**

**2 credits**—This course provides students with the writing and research skill necessary to compile a personal portfolio documenting their prior education, occupational training and work experiences. Students will examine personal, educational, and occupational goals and develop a plan of study which supports their goals and fulfills the requirements of the General Technology program.

**Lecture Hours:** 32

**SOC110 Introduction to Sociology**

**3 credits**—This course surveys the basic principles, concepts, and research findings of social life from small groups to societies. The course examines a range of sociological explanations for the various forms of social behaviors and establishes a basis for reflection and further study in the field.

**Lecture Hours:** 48

**SOC115 Social Problems**

**3 credits**—This course introduces students to the sociological perspective and related critical thinking skills as a way of examining the cause and effect nature of contemporary social problems. Within this examination, emphasized are (a) the interdependence of social problems, (b) how social inequality is an inherent characteristic of all social problems, and (c) the relationship between definitions of social problems and social policies.

**Lecture Hours:** 48

**SOC120 Marriage and Family**

**3 credits**—Marriage and family is studied from a sociological viewpoint. Content areas focus on the history of family, gender roles, power in relationships, and functions of the family and dysfunctions. Statuses such as being single to marriage to parenthood are emphasized, as are alternative lifestyles with respect to sexuality and family.

**Lecture Hours:** 48

**SOC135 Death and Dying**

**3 credits**—This course provides a basic background on historical and contemporary perspectives on death and dying. Attention is given to current American practices regarding death, as well as cross-cultural interpretation. Emphasis is also placed on the special situation of the terminally ill and bereaved.

**Lecture Hours:** 48

**SOC160 Introduction to Social Work**

**3 credits**—This course provides basic understanding of how American system of social services and the social work profession combine in order to meet the personal and social needs of persons who have been classified as ?at risk? and in need of public assistance. Concepts relevant to social welfare, social change, social support, and structure are examined, including but not limited to legal aspects, systemic and professional goals and values, and various statuses and roles. In addition, various models and theories related to social work and social services will be examined. Lastly, this course includes a volunteer work experience within an agency setting.

**Lecture Hours:** 48

**SOC195 Urban Studies**

**3 credits**—This course is an interdisciplinary introduction to the study of urban issues and culture with an emphasis on the growth and development of urban areas. It utilizes a wide range of approaches: historical, political, social, spatial, economic and cultural to examine the unique qualities and problems of urban life.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in HIS152, SOC110, SOC115, GEO115, or POL111.

**SOC200 Minority Group Relations**

**3 credits**—This course examines racial and ethnic relations in the United States. Basic sociological concepts will be applied to historical and contemporary experiences of racial and ethnic groups, with particular attention paid to minority groups.

**Lecture Hours:** 48

**SOC205 Diversity in America**

**3 credits**—Introduction to the sociological study of group relations in the United States. Basic concepts such as culture, groups, inequality, prejudice and discrimination will be explored. Focus will be on class, race, and gender, however other statuses (such as sexual orientation, religion, age, and abilities) will also be discussed. Students will gain a better understanding of the relationship between individuals and society, as well as the experiences of minority groups.

**Lecture Hours:** 48

**SOC208 Cultural Anthropology**

**3 credits**—This course introduces the student to a comparative study of societies around the world. In this course cultural similarities and differences are explored to illustrate how human beings construct and conduct their existence. It emphasizes the origin and maintenance of the human species by studying its evolution, cultural development, ecology, kinship, organizations, and symbolic expressions. (Same as ANT-105)

**Lecture Hours:** 48

**SOC220 Sociology of Aging**

**3 credits**—This introductory gerontology course examines the influence of an aging society, explores the process of aging, old age as a stage of life and the impact of aging both personally and on society as a whole.

**Lecture Hours:** 48

**SOC230 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

**SOC240 Introduction to Criminology**

**3 credits**—This course explores the extent and causes of criminal behavior; analysis of crime in relationship to other social problems; and the nature of society's response to crime.

**Lecture Hours:** 48

**SOC251 Introduction to Social Psychology**

**3 credits**—Provides an introduction to the study of the interrelationship between the individual and social behavior with emphasis in the areas of social cognition, attribution, attitudes, group behavior, prejudice and discrimination, and interpersonal relationships. Basic psychological and sociological perspectives and research findings will be reviewed to better understand individual and social behavior.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111, SOC110, or instructor approval

**SOC261 Human Sexuality**

**3 credits**—This course explores the biological, psychological, social, cultural and historical forces that influence human relationships and sexuality. Research and theory are utilized to examine the diversity of human sexual expression.

**Lecture Hours:** 48

**SOC820 Genography**

**3 credits**—This course explores themes of identity, difference, and migration that are raised by the analysis of DNA samples. As a central aspect of this course, students will submit a DNA sample to the National Geographic Society's Genographic Project. That sample will be analyzed and the students provided with a mapping of the migration of their genetic lineage. The course will examine the underlying biology of this analysis; sociological notions of sameness and difference; historical processes that have formed and changed our understandings of where we come from, who we are, and what we might become.

**Lecture Hours:** 48

**SOC850 Cultural Immersion Field Experience**

**1 credit**—This course combines classroom and community-based learning to expand student understanding of the global society. Living within a diverse community and working with diverse groups of people, students will engage in an authentic and practical cultural immersion experience off-campus.

May be taken for up to 3 credits.

**Lab Hours:** 32

**SOC924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 5 credits.

**Lecture Hours:** 16

**SOC928 Independent Study**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lecture Hours:** 16

**SPC101 Fundamentals of Oral Communication**

**3 credits**—This course presents elements of the oral communications process with emphasis on developing interpersonal, small group, and public speaking skills. Students will be involved in activities that provide opportunity for the understanding and improvement of their oral communication skills.

**Lecture Hours:** 48

**SPC120 Intercultural Communications**

**3 credits**—Intercultural Communication explores basic principles and theories of intercultural communication with opportunities to gain communication competence through immersion experiences and cross-cultural interactions.

**Lecture Hours:** 48

**SPC122 Interpersonal Communication**

**3 credits**—Interpersonal Communication explores concepts, contexts, and processes of person-to-person communication in relationships. Emphasis is placed on understanding how social worlds are created through conversation.

**Lecture Hours:** 48

**SPC132 Group Communication**

**3 credits**—Group Process examines the principles of small group communication processes with opportunities for students to apply theory in various structured discussion situations.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in SPC101.

**SPC140 Oral Interpretation**

**3 credits**—This course will explore literature through performance using creative individual and group explorations. Students will learn to select, analyze, rehearse and perform literature of various types using vocal and physical techniques.

**Lecture Hours:** 48

### **TDT100 Interpersonal Relations**

**2 credits**—This course covers personal health and safety, public and employer relations and stress management on the job in a new career. Also included in the course are written communication and oral communication skills. Instruction is provided in employment seeking skills, resumes, cover letters, thank you letters, letters of application, personal record keeping, and desirable work attitude.

**Lecture Hours:** 32

### **TDT115 Trans Industry and Driver Regulations**

**4 credits**—This course is an introduction to the surface transportation network and the trucking industry. Employment opportunities, company and driver regulations by the Department of Transportation and other Federal and State agencies will be covered.

**Lecture Hours:** 64

### **TDT118 Driving Range I**

**6 credits**—This course provides students with opportunities for hands-on experience in basic maneuvers using simulators, trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering, and backing. Emphasis is given to proper safety and technical practices. Emergency and evasive driving techniques will be practiced in simulation exercises as well as in skid control vehicles.

**Lecture Hours:** 48

**Prerequisite(s):** TDT115

### **TDT121 Driving Range II**

**2 credits**—This course provides students with opportunities for additional behind the wheel training in operating trucks in rural and city traffic. Included in the course are experiences in pulling loaded trailers in city, rural areas, and backing in industrial areas. Emphasis is placed on defensive driving and proper technical practices.

**Lecture Hours:** 16

**Prerequisite(s):** TDT118

### **TDT122 Driving Range III**

**2 credits**—This course prepares students with skills and knowledge in managing emergencies, accidents, first aid, CPR, and D.O.T. regulations on hauling hazardous materials. Instruction is provided in night inspections, city and rural driving at night. Students will prepare for a Class A Commercial Drivers License with all endorsements.

**Lecture Hours:** 16

**Prerequisite(s):** TST121

### **TDT126 Commercial License Preparation**

**1 credits**—This course is an introduction to The Federal Motor Carrier Safety Administrations' rules and regulations pertaining to drivers of commercial motor vehicles. This course prepares students to pass the knowledge tests required to obtain a Class A CDL.

**Lecture Hours:** 48

### **TDT128 Driving Skills Development**

**3 credits**—This course provides students with hands-on experience in basic maneuvers with trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering and backing. Behind the wheel training will include pulling both loaded and empty trailers in rural, city and interstate highway settings. Emphasis is placed on defensive driving and proper technical practices. Students will prepare for a Class A Commercial Drivers License with all endorsements.

**Lecture Hours:** 16

**Co-requisite(s):** TDT126

### **TDT938 Truck Transportation On-the-Job Training**

**3 credits**—Students enrolled in this course will have the opportunity to gain on-the-job experience in the Motor Carrier industry. Students will learn the responsibilities of driving, cargo handling, vehicle maintenance, safety department, and dispatch of equipment to customers. Students will have an opportunity to learn the skills necessary to succeed in the transportation field. Coordination and guidance will be provided by instructors.

**Co-op Hours:** 192

**Prerequisite(s):** TDT100, TDT115, TDT118, TDT121, and TDT122

### **WDV102 Introduction to Web Development**

**3 credits**—This course introduces the current standard of HTML and discusses upcoming versions. Students will learn the basics of CSS for design and layout using both text and multimedia. Website maintenance cycles and roles used in the cycles will be introduced. By using FTP, students will create and maintain small web page on a live web server. By using a text based editor, student will learn to code in an HTML editor rather than just the visual aspect to gain greater control of the code. Best design practices will be introduced.

**Lecture Hours:** 32 **Lab Hours:** 32

### **WDV105 Web Layouts**

**3 credits**—This course is designed to give the student the knowledge of layouts and design of web sites. Students will use a graphic editor, such as Adobe Photoshop, to convert a visual image layout to a working HTML and CSS layout. This course goes over aspects of design to content in making a great web site.

**Lecture Hours:** 32 **Lab Hours:** 32

### **WDV300 Advanced Topics in Web Development**

**3 credits**—This course is designed to give students a more in depth study of web sites. Topics will include security, troubleshooting/debugging, testing, and analytics. The course will help student develop a toolbox of techniques to improve their programming skills for web application development.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CIS217 and CIS225.

### **WDV800 Portfolio**

**3 credits**—This course will help students present the best possible portfolio. This course will guide students in picking the right pieces to exemplify their skills. Students will create a portfolio to take job hunting. Students will learn about a number of aspects in job hunting. Students will also do a team based project for their portfolio.

**Lecture Hours: 32 Lab Hours: 32**

**Prerequisite(s):** Must be a 4th semester graduating student to take this class.

### **WDV931 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours: 128**

**Prerequisite(s):** A minimum grade of C in CIS231, CIS215, and instructor approval.

### **WEL104 Introduction to MIG Welding**

**2 credits**—This course is an introduction to the Gas Metal Arc Welding process, also known as MIG Welding and Flux Cored Arc Welding. Topics include safety, theory of operation, advantages of both processes, types of power sources, types of wire electrodes and shielding gases, types of metal transfer, types of joints, minor equipment maintenance and basic welding terminology. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lecture Hours: 16 Lab Hours: 32**

### **WEL111 Welding Blueprint Reading**

**3 credits**—This course is an introduction to basic welding blueprint reading. Topics include: the importance of blueprints as a form of communications, basic lines and views, dimensioning methods, tolerances, bill of material, identifying structural shapes and basic sketching principles. The application and interpretation of AWS welding symbols and abbreviations is emphasized. Students will fabricate parts from the blueprint book.

**Lecture Hours: 48**

### **WEL112 Welding Blueprint Reading Advanced**

**2 credits**—This course is a continuation of Blueprint Reading I. The application and interpretation of AWS welding symbols and abbreviations is emphasized in this unit. Students will also fabricate parts from the blueprint book.

**Lecture Hours: 32**

**Prerequisite(s):** WEL111

### **WEL125 Fusion and Braze Welding**

**2 credits**—This course is an introduction to Oxy-acetylene fusion welding and braze welding of steel and cast iron. Topics include: process theory, safety, fusion welding/braze welding techniques for mild steel, fusion welding/braze welding techniques for cast iron and weld quality.

**Lab Hours: 96**

**Prerequisite(s):** WEL134 and WEL155

### **WEL134 Cutting Processes**

**2 credits**—This course is an introduction to principles and practices of oxy-fuel cutting, plasma cutting, and arc air gouging. Topics include: safety, theory of operation, equipment, proper set-up procedures and basic terminology. Shop practice includes plasma cutting and arc air gouging principles and practices and flame cutting of mild steel.

**Lecture Hours: 16**

### **WEL155 Arc Welding I (SMAW)**

**4 credits**—This course is an introduction to the Shielded Metal Arc Welding process, also known as stick welding. Topics of study include: safety, theory of operation, types of welding power sources, advantages of the process, types of mild steel electrodes, types of joints, basic welding terms, and AC and DC current. Shop practice on the five basic joints will be performed in the flat and horizontal positions with various mild steel electrodes.

**Lecture Hours: 16**

### **WEL164 Arc Welding II (SMAW)**

**4 credits**—This course is a continuation of Arc Welding I. Vertical down, vertical up, and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. In addition, the student is introduced to the theory and practices of Hardsurfacing with the Shielded Metal Arc Welding process. Safety procedures are reviewed.

**Lab Hours: 192**

**Prerequisite(s):** WEL155

### **WEL186 GMAW**

**4 credits**—This course is an introduction to the Gas Metal Arc Welding process, also known as MIG Welding and Flux Cored Arc Welding. Topics include safety, theory of operation, advantages of both processes, types of power sources, types of wire electrodes and shielding gases, types of metal transfer, types of joints, minor equipment maintenance and basic welding terminology. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lecture Hours: 16**

### **WEL187 Advanced GMAW**

**4 credits**—This course is a continuation of GMAW-FCAW I. Vertical down, vertical up and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. Safety procedures are reviewed.

**Lab Hours: 192**

**Prerequisite(s):** WEL186

### **WEL191 Gas Tungsten Arc Welding**

**3 credits**—This course is an introduction to Gas Tungsten Arc Welding process, also known as T.I.G. Topics of study include: safety, theory of the process, advantages, types of power sources, pulsed power sources, types of electrodes and shielding gases, basic joints, basic welding terminology, and AC and DC current. Shop practice on the five basic joints in all positions will be emphasized. The learner will weld on mild steel, aluminum and stainless steel sheet.

**Lab Hours:** 144

**Prerequisite(s):** WEL155

### **WEL234 Introduction to GMAW II**

**2 credits**—The introduction to Gas Metal Arc Welding II course will allow students to enhance their basic welding hands-on skills to improve their proficiency using Metal Inert Gas (MIG) welding processes. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in WEL104.

### **WEL303 Pipe Welding/SMAW**

**3 credits**—This course is an introduction to vertical down and vertical up pipe welding procedures and techniques. Topics include: safety, elements of the American Petroleum Institute Pipe Welding Code and the American Society of Mechanical Engineers Pipe Welding Code and the American Welding Society Structural Steel Pipe Welding Code.

**Lab Hours:** 144

**Prerequisite(s):** WEL155 and WEL164

### **WEL320 Welding Fabrication**

**3 credits**—This course is an introduction to fundamental metal fabrication methods. The application and use of basic measuring tools and layout techniques are covered in detail.

**Lecture Hours:** 16

**Prerequisite(s):** WEL111, WEL112, WEL155, WEL164, WEL186, WEL187, and WEL303

### **WEL339 Electromechanical Maintenance – Effective Fall 2015**

**3 credits**—This course is an introduction to basic welding and cutting processes. Topics include: Shielded Metal Arc Welding, Gas Metal Arc Welding, Gas Tungsten Arc Welding, Oxy-Acetylene Fusion Welding and Braze Welding, Oxy-Fuel Flame Cutting and Plasma Arc Cutting. Specific safety rules for oxy-fuel equipment, electric arc welding processes and plasma cutting will be discussed.

**Lecture Hours:** 16 **Lab Hours:** 64

### **WEL339 Electromechanical Maintenance – Effective Summer 2016**

**3 credits**—This course is a basic introduction to welding and cutting processes. Topics include: shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding. Cutting processes include oxy-fuel cutting and plasma arc cutting. Electric arc and oxy-fuel safety rules will be discussed.

**Lecture Hours:** 16 **Lab Hours:** 64

### **WEL402 Tool Steel Welding and Heat Treatment**

**2 credits**—This course is an introduction to the fundamental operations of selecting, welding and heat treating tool steels. Classroom and shop instruction is given in welding safety, welding equipment, selection and manipulation of electrodes and the procedures in welding alloy and tool steels. It will cover steel selection and basic heat treatment. Lab and class emphasis is on the changes that happen when steel is heated and cooled by welding as well as heat treating.

**Lecture Hours:** 16 **Lab Hours:** 32

### **WEL710 Robotic Welding**

**6 credits**—This course is an introduction to robotic welding. Students will learn the advantages and limitations of welding robots and their current application in modern

manufacturing. Robot components and basic robot programming are covered in detail. The variables for Gas Metal Arc Welding, arc welding safety, robot safety and weld quality and weld defects are included.

**Lecture Hours:** 48

**Prerequisite(s):** WEL11, WEL155, WEL186, WEL187, and MAT772

### **WST101 Women's Studies**

**3 credits**—This course serves as an introduction to the interdisciplinary field of women's studies and to current women's issues in our society. It explores ways in which women get marginalized and silenced primarily by the social definitions and the patriarchal male power structure. The course seeks to help students develop critical thinking relative to contemporary gender issues; to explore their assumptions about gender; to illuminate social constructions of femininity and women's roles; and to uncover the ways in which social teachings shape and limit women's lives.

**Lecture Hours:** 48

### **WTT103 Wind Turbine Fundamentals**

**2 credits**—The Wind Turbine Fundamentals course will provide students with the knowledge of the different types of Wind Turbines. Their development and their current status will be presented. The evolution of small(watts) to large(mega-watt) systems will be reviewed. The characteristics of wind capture and conversion will be analyzed from a regional, national and global perspective. Jobs, training and safety related to the wind industry will be studied. Students will be expected to carry out research and present reports on selected turbines or wind turbine manufactures.

**Lecture Hours:** 16 **Lab Hours:** 32

### **WTT144 Wind Turbine System Controls**

**3 credits**—The Wind Turbine System Controls course will cover the control functions necessary to maximize a wind turbine's output, to enable safe operation and useful life.

**Lecture Hours:** 32 **Lab Hours:** 32

**Academic Year**

**2015 – 2016**

**Compressed Course Offerings**

***Supplement: B2***

### **ACC131 Principles of Accounting I**

**4 credits**—This course is an introduction to basic financial accounting concepts and procedures for service and merchandising businesses. Topics included are the accounting cycle; accounting systems; financial statements; accounting for cash, receivables, payables, inventories, plant assets, partnerships, corporations, and bonds.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of D- in MAT063 or equivalent COMPASS or ACT math score.

### **ACC132 Principles of Accounting II**

**4 credits**—The course continues to address topics in financial accounting that began in Principles of Accounting I. Primary emphasis is on managerial accounting and the corporate form of ownership. Topics include accounting for bonds, the statement of cash flows and financial statement analysis. Managerial accounting topics include job order and process cost systems, cost-volume-profit analysis, budgeting and standard cost systems. Capital investment analysis and activity-based costing are also addressed.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in ACC131.

### **ADN477 Psychiatric Nursing**

**5 credits**—This course focuses on the study and application of modern concepts of psychiatric nursing and effective interactions with people. The student will respond therapeutically to clients with maladaptive behaviors through utilization of the nursing process by applying the principles of mental health and psychiatric nursing.

**Lecture Hours:** 48

**Prerequisite(s):** Valid Iowa LPN license. A minimum grade of C in ADN123 and ADN315.

### **AGM104 Electricity**

**3 credits**—This course is an in-depth study of theory in the diagnosing and repair of electrical components and circuitry.

**Lecture Hours:** 48

### **AGM107 Gas Engine Rebuild**

**7 credits**—This course covers the theory of gas engines and the construction, diagnosis, and repair of all the systems. Fuel, ignition, and supportive systems are also included.

**Lecture Hours:** 80

### **AGM128 Fundamentals of Diesel Engine**

**5 credits**—Students are introduced to diesel engine application, design, construction, theory and operating principles of diesel engines. This course also covers diagnosis, disassembly, and assembly of diesel engines.

**Lecture Hours:** 32

**Prerequisite(s):** Must be an Electronic Engineering Technology with a Mechanical Emphasis student. A minimum grade of D- in EGT144.

### **AGM224 Hydraulics II**

**4 credits**—This course covers theory and symbols of hydraulic systems.  
Supplement B2

Testing and repair of hydraulic systems is performed with the use of meters and gauges for proper diagnosis.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGM327 Equipment Maintenance**

**7 credits**—This course presents background on theory of operation, diagnosis, and repair of brakes and suspension systems. Students gain knowledge and skill in performing preventive maintenance, service, and inspection of equipment. Arc welding and flame cutting will also be taught. Instruction will also cover use of computers for maintenance scheduling.

**Lecture Hours:** 80

**Prerequisite(s):** A minimum grade of D- in AGM107, AGM113, AGM104, DSL447, and DSL377.

### **AGT805 Employment Experience**

**5 credits**—This course provides students with opportunities to gain on-the-job experience in the agriculture industry. Students will gain an understanding of qualities and skills needed for success in the agricultural field. Coordination and guidance will be provided by department instructors.

**Co-op Hours:** 320

### **AGV101 Veterinary Assisting**

**3 credits**—This is a Capstone course that will provide students the necessary skills and competencies that are needed to successfully perform the duties of a veterinary assistant. An example of topics covered will include; basic laboratory procedures, animal positioning, and surgical assistance. Staff and animal safety will also be covered.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in AGV154 or instructor approval.

### **ART101 Art Appreciation**

**3 credits**—This course is an examination of the value, esthetic pleasures, structure, function, and history of art. The course explores sculpture, painting, film, drawing, printmaking, photography, ceramics, and architecture. Field trips to galleries allow students the opportunity to personally experience significant visual art.

**Lecture Hours:** 48

### **ART173 Ceramics**

**3 credits**—A hands-on intensive introduction to clay and glaze materials, integrated with a fresh approach to building interesting forms effectively.

**Lecture Hours:** 32 **Lab Hours:** 32

### **ART203 Art History I**

**3 credits**—This course is an introduction to the history of visual art and artists; prehistory through Gothic. All forms of media: painting, sculpture, drawing, architecture, ceramics, metal work, glass and others are considered in the context of time, society, and the human impulse to create.

**Lecture Hours:** 48

#### **AUT106 Introduction to Automotive Technology**

**2 credits**—This introductory course provides an introduction to the many facets of the automotive industry to include: careers in the automotive industry, environmental concerns affecting the automotive industry, basic automotive hand tools, specialty tools, precision measuring tools, power tools and shop equipment, using service and shop manuals, and shop safety.

**Lecture Hours: 16 Lab Hours: 32**

#### **AUT164 Automotive Engine Repair**

**4 credits**—Basic theory of two-cycle and four-cycle gasoline engines and their application will be introduced. Disassembly, inspection and reassembly of an engine will be experienced as well as cooling, lubrication, induction, exhaust, compression and valve systems discussed. Students will develop competencies in precision measuring and services procedures.

**Lecture Hours: 32 Lab Hours: 64**

#### **AUT504 Automotive Brake Systems**

**4 credits**—Instruction in the theory and operating principles of drum, disc, hydraulic, and anti-lock brake systems. Laboratory procedures for inspecting, testing, diagnosing, repairing, and/or replacing conventional, power brake system components.

**Lecture Hours: 32 Lab Hours: 64**

#### **AUT537 Automotive Advanced Brake Systems**

**4 credits**—This course explains antilock brake systems. It also covers the diagnosis and repair of this system, as well as traction and stability control.

**Lecture Hours: 32 Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT504.

#### **AUT610 Automotive Electrical I**

**4 credits**—This introductory course covers basic electronic theory and utilization of electrical measuring instruments. Emphasis will be placed on the application of Ohm's Law and the proper utilization of electronic test equipment including practice with equipment and circuits.

**Lecture Hours: 32 Lab Hours: 64**

#### **AUT704 Automotive Heating and Air Conditioning**

**4 credits**—This course will provide instruction in the theory of operation of auto air conditioning and heating systems. Students will learn how to diagnose and service auto air conditioning systems and heating systems.

**Lecture Hours: 32 Lab Hours: 64**

#### **AUT827 Automotive Ignition Systems**

**4 credits**—Operation, diagnosis, and repair procedures used to service the modern automotive ignition system.

**Lecture Hours: 32 Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT842.

#### **AUT834 Automotive Fuel Systems**

**4 credits**—This course will provide the instruction to introduce the student to basic fuel system principles. Students will study theory and will gain hands-on experience by cleaning, repairing, and adjusting automotive fuel systems.

**Lecture Hours: 32 Lab Hours: 64**

#### **AUT886 Comprehensive Application**

**4 credits**—Students are presented with diagnostic problems and repair projects. Competencies attained in prior classes are emphasized.

**Lecture Hours: 32 Lab Hours: 64**

**Prerequisite(s):** A minimum grade of D- in AUT106, AUT109, AUT164, AUT610I, AUT504, AUT643I, and AUT307.

#### **BCA087 College Prep Computer Skills**

**3 credits**—This non-transfer course is designed to assist students who have limited experience with a personal computer. Skills emphasized will include keyboarding, file management, Internet navigation, email, and entry level functions of word processing and presentation software. Students may use this course to prepare for other computer applications courses.

**Lecture Hours: 16 Lab Hours: 64**

#### **BCA201 Introduction to Information Systems**

**3 credits**—The purpose of this course is to provide the student with a firm understanding of management information systems. Included are an introduction to hardware and data communication technology, software and data management, and business applications of the technology. The course will present the basics of information system design and management, and provide opportunities to experience working with an electronic spreadsheet, data base management system and programming using HTML.

**Lecture Hours: 48**

**Prerequisite(s):** Basic computer, software and keyboarding skills are required.

#### **BIO105 Introductory Biology – Effective Fall 2015**

**4 credits**—This course provides an introduction to living organisms, their diversity, structure and function and how they maintain themselves both during their life cycle and as a species. It is designed to highlight concepts of the biological sciences for the non- biology major and satisfies the requirement for a life science course for the Associate in Arts or Science degrees. There are three hours of lecture and two hours of laboratory each week.

**Lecture Hours: 48 Lab Hours: 32**

#### **BIO105 Introductory Biology – Effective Summer 2016**

**4 credits**—This course provides an introduction to living organisms, their diversity, structure and function and how they maintain themselves both during their life cycle and as a species. It is designed to highlight concepts of the biological sciences for the non- biology major.

**Lecture Hours: 48 Lab Hours: 32**

**BIO151 Nutrition**

**3 credits**—Principles of Nutrition will introduce students to the science of nutrition. The course will examine individual nutrients; their structure and function in the human body; nutrient composition of food; and selection of food to meet nutrient needs, maintain health and satisfaction. Students will understand and apply present day knowledge of nutrition to dietary patterns and needs of selected individuals and groups. The course is an advanced beginning course in human nutrition designed for students with a science background.

**Lecture Hours:** 48

**BIO154 Human Biology**

**3 credits**—Human Biology explores human structure and function and the relationship of humans to other living organisms. The course examines the application of basic biological principles to practical human concerns. The course is a one-semester biology course intended for students who do not wish to major in the biological or health sciences.

**Lecture Hours:** 48

**BIO168 Human Anatomy and Physiology I**

**4 credits**—The first of a two-semester sequence especially designed for students pursuing careers in allied health fields as well as any student desiring an in-depth undergraduate transfer course. The course focuses on the interdependent relationships between the structure and functions of body systems and the ways these parts interact (homeostasis) to insure the survival of the organism. Major topics addressed include levels of organization, the chemistry of life, support/movement, integration/control, and coordination. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions. To be applicable to any health career program, successful completion of both BIO-168 and BIO-173 with a grade of ?C? or better is required.

**Lecture Hours:** 48 **Lab Hours:** 32

**BIO173 Human Anatomy and Physiology II w/Lab**

**4 credits**—The second of a two-semester sequence designed for students pursuing careers in allied health fields or wishing an in-depth undergraduate transfer course in the biological sciences. The course focuses on interdependent relationships between the structures and functions of body systems and the way these parts interact (homeostasis) to insure survival of the organism. Major topics addressed include systems associated with circulation, maintenance, elimination and continuity. Coordinated laboratory exercises focus on anatomical knowledge and physiological functions.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in BIO168.

**BIO186 Microbiology**

**3 credits**—Morphology, physiology, taxonomy, and relationship of microorganisms to disease. In-depth laboratory study and suitable lecture material with applications to agriculture, industry, and medicine.

**Lecture Hours:** 48 **Lab Hours:** 32

**BUS102 Introduction to Business**

Supplement B2

**3 credits**—An introductory survey course which provides an overview of the major functions in business with relation to current social, economic and environmental concerns.

**Lecture Hours:** 48

**BUS183 Business Law**

**3 credits**—An introduction to the principles of law as they relate to business. This course includes an overview of our court system, sources of law, ethics and social responsibility, contracts, warranties, real property, landlord and tenant, negotiable instruments, and agency. Emphasis is placed on exploring the law as it affects businesses and individuals.

**Lecture Hours:** 48

**BUS903 Business Field Experience**

**3 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 192

**Prerequisite(s):** 2.00 cumulative GPA

**BUS905 Golf Course Internship**

**3 credits**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in MGT222.

**BUS905 Golf Course Internship**

**1 credit**—Students will intern at golf courses and country clubs throughout the region and state, focusing on internal and external operations of the course/club.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MGT222.

**CHM122 Introduction to General Chemistry**

**3 credits**—An introductory course which assumes a minimal student background in mathematics and chemistry. The course is intended to serve students in allied health programs and any student desiring an application-oriented, less theoretical approach to chemistry. The course introduces students to the practical aspects and basic concepts of chemistry including measurements, dimensional analysis, matter, energy, atoms, elements, the Periodic Chart, nuclear chemistry, chemical bonding, nomenclature, an introduction to organic chemistry, chemical quantities, formulas, gases, chemical calculations, balancing equations, solutions, acids and bases, chemical kinetics, and equilibrium. Coordinated laboratory exercises are intended to emphasize topics covered in the lecture as well as stress basic laboratory techniques. Elementary algebra is required as a prerequisite.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MAT063.

**CHM924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's

completion, results will be shared with community of peers and faculty.

May be taken for up to 3 credits.

**Lecture Hours:** 16

### **CLS150 Latin American History and Culture**

**3 credits**—This course will explore the development of Latin American civilization from its ancient origins to the issues facing the region today. The course will look at the indigenous and colonial heritage of the area; examine its shared cultural, literary, economic, social, and political contributions and trends; and look at the history and current issues facing the individual countries or sub-regional groupings.

**Lecture Hours:** 48

### **CLS160 East Asian Cultures**

**3 credits**—East Asian Cultures is an interdisciplinary course that will explore the emergence of East Asian civilization, its development and diversification, and its contacts and exchanges with other world civilizations. Primary emphasis is on China. The course will explore the various historical, cultural, religious, philosophical, economic, political, social, demographic and geographic factors that make this such a diverse and dynamic civilization and will also draw comparisons between China and neighboring countries.

**Lecture Hours:** 48

### **CLS926 Honors Seminar**

**3 credits**—Honors seminar in a topic selected by faculty member. The topic would change from semester to semester, coming from the faculty member's area of interest and may also include topics from the Phi Theta Kappa national honors topics.

May be taken for up to 9 credits.

**Lecture Hours:** 48

### **CNS107 Outdoor Recreation Techniques**

**1 credit**—This course provides an introduction into basic outdoor recreation techniques commonly utilized by naturalists and conservation professionals to help citizens gain an appreciation of their environment. Recreational techniques will include activities such as canoeing, kayaking, hiking, spelunking, cross-country skiing, and snowshoeing.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in RDG038.

### **COM781 Written Communication in the Workplace**

**3 credits**—This course focuses on composition and editing of curriculum-specific technical and business-related writing projects. Instruction includes formatting, information gathering, document drafting, editing, and written employment strategies.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in ENG061.

### **CRJ100 Introduction to Criminal Justice**

**3 credits**—This course examines the day-to-day operation of criminal justice in our society. Emphasis is on the inter-relationships of the components of law enforcement, the courts, corrections, and the juvenile

justice system.

**Lecture Hours:** 48

### **CRJ200 Criminology**

**3 credits**—This course explores theories of factors that influence criminal behavior, and analyzes criminal behavior in relationship to other social problems.

**Lecture Hours:** 48

### **CRJ201 Juvenile Delinquency**

**3 credits**—This course is an investigation of the social and legal definitions of juvenile delinquency and its causes. It also focuses on the administration of juvenile court, probation and parole, and assessment of present and potential prevention programs.

**Lecture Hours:** 48

### **CRJ252 Basic Firearms**

**1 credit**—This course covers the fundamentals of using a firearm with emphasis on safety, care, and proficient use of firearms to law enforcement standards.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ254 Advanced Firearms**

**1 credit**—This course expands skills developed in Basic Firearms, and includes skill and proficiency development with shotgun and patrol rifle.

**Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in CRJ100 or CRJ252.

### **CRJ316 Juvenile Justice**

**3 credits**—This course examines the juvenile justice system from a practitioner perspective. It provides operational knowledge of how law enforcement, the courts, and correctional facilities navigate the juvenile offender.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in CRJ100.

### **CRJ952 Internship**

**2 credits**—This course requires 128 hours of supervised placement with a law enforcement agency. Course eligibility requires criminal background check. Placement dependent on agency assessment of student fitness to meet hiring requirements. Instructor consent required.

**Co-op Hours:** 128

**Prerequisite(s):** Must be in program major. A minimum grade of C in CRJ100, CRJ135, CRJ143, CRJ234, CRJ237, CRJ244, CRJ282, EMS114, and CRJ151.

### **CRR306 Introduction to Collision Repair**

**6 credits**—In this course students receive training on the proper handling of hazardous waste and EPA issues together with technical information about specific auto body safety and health situations. Specific training is provided in tools/equipment usage, parts assembly, filler application, and straightening techniques. Students will also receive training in autobody welding.

**Lecture Hours:** 48 **Lab Hours:** 96

### **CRR510 Collision Production Technology**

**7 credits**—In this course, students will receive information and training in common collision repair procedures performed by production collision centers. Specific training is provided in straightening procedures for light and heavy collision damage, specialized tools and equipment, and air conditioning systems relating to collision damage.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR331.

### **CRR806 Introduction to Refinishing**

**6 credits**—Students receive training in use of sanding abrasives, refinishing products, tools and equipment, masking procedures, corrosion protection, and paint preparations. A thorough understanding of personal health and safety issues is also obtained.

**Lecture Hours:** 48 **Lab Hours:** 96

### **CRR877 Refinishing Applications**

**7 credits**—This course provides training in paint repair procedures used to match and blend partial or full panel refinish repairs. Students will be exposed to various procedures used in refinishing systems. Students will also receive training in basic electrical fundamentals and basic air bag systems as they apply to collision and refinishing repairs.

**Lecture Hours:** 64 **Lab Hours:** 96

**Prerequisite(s):** A minimum grade of D- in CRR836.

### **CSC110 Introduction to Computers**

**3 credits**—An introductory course in electronic information processing and information system management designed to provide the students with a general understanding of computer hardware and software and the facility to use this knowledge in the creation and management of useful information. Students will be given hands-on experience with operating system, word processing, database management, presentation and spreadsheet software. Exposure to and use of the Internet, including security and privacy concerns, is an integral part of the course. Basic computer literacy is expected for students entering this course.

**Lecture Hours:** 48

**Prerequisite(s):** The ability to enter data using a computer keyboard at a rate of no less than 15 words per minute on a three-minute timing. A minimum grade of C in RDG039.

### **DEA591 Dental Assisting Seminar (Effective Fall 2015)**

**1 credit**—Discussion and problem-solving from clinical practice. Provides an awareness of types of office situations and discussion of clinical aspects of dental assisting and dentistry. Oral reports and weekly evaluations are required.

A minimum grade of C in all Dental Assisting program courses.

**Lecture Hours:** 16

**Co-requisite(s):** DEA577

### **DHY901 Independent Study Clinical Dental Hygiene**

**1 credit**—This course provides opportunity for a student to focus previous course work and knowledge on a special issue as well as provide for individualized exploration of topics pertinent to the student's projected

Supplement B2

objectives within any recognized discipline. Faculty consultation is required prior to registration for this course

May be taken for up to 3 credits.

**Lab Hours:** 32

### **DRA110 Introduction to Film**

**3 credits**—This course introduces students to the various language systems of film, including film-making techniques, creators, genres, narratives, ideology, and film theory/criticism. Students will explore the cultural importance of cinema as art by analyzing selected movies and clips which demonstrate artistic excellence.

**Lecture Hours:** 48

### **ECE103 Introduction to Early Childhood Education**

**3 credits**—Gives students a historical and philosophical foundation of the field of early childhood education. Includes an overview of assessment and trends that influence best practices. Explores careers in the field. Addresses influences of families and diversity.

**Lecture Hours:** 48

### **ECE120 Communication with Families**

**2 credits**—This course is designed to give students a basic understanding of good working relationships with educators, families and community resources. The value of this relationship to all parties involved is examined.

**Lecture Hours:** 32

### **ECE125 School Age Care**

**2 credits**—This course focuses on the unique care necessary for school-age children. Criteria for organizing a positive physical environment coupled with state licensing regulations, center policies, and interactions with families are examined. Students will look at the needs of school-age children and explore methods of addressing these needs in a group care setting.

**Lecture Hours:** 32

### **ECE158 Early Childhood Curriculum I**

**3 credits**—Focuses on the development, implementation and assessment of appropriate environments and curricula for young children ages three through eight. Students prepare to utilize developmentally appropriate practices in a context of family and culturally sensitive care. Emphasis is on understanding children's development stages and developing appropriate learning opportunities, interactions and environments in the following areas: dramatic play, art, music, fine and gross motor play.

**Lecture Hours:** 48

### **ECE221 Infant/Toddler Care and Education**

**3 credits**—Focuses on care, education, and assessment of children from birth to thirty-six months. Prepares students to utilize developmentally appropriate practices including responsive caregiving, routines as curriculum, importance of relationships with diverse families, and a focus on the whole child in inclusive settings.

**Lecture Hours:** 48

### **ECE260 Current Topics and Issues in Child Care**

**2 credits**—National, state and local topics and issues impacting childcare are examined.

**Lecture Hours:** 32

### **ECE290 Early Childhood Program Administration**

**2 credits**—Skills in planning, implementing, and evaluating programming are introduced. Staff supervision and evaluation, in-service training and orientation, and harmonious working relationships, are other topics included in this course.

**Lecture Hours:** 48

**Prerequisite(s):** ECE158 and ECE159

### **ECN120 Principles of Macroeconomics**

**3 credits**—Principles of supply and demand and the price mechanism will be presented. Descriptions and interactions of the consumer, business, government, and international sectors will be studied as well as their effects on output, employment, and growth in the economy. The course includes a study of the banking system and monetary policy, fiscal policy, economic growth, differing macroeconomic viewpoints, and international issues.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **ECN130 Principles of Microeconomics**

**3 credits**—Principles of supply and demand, elasticity, and pricing will be studied. The course includes such topics as resource allocation of firms, pricing and output decisions in different market structures, and consumer choice theory. International issues and the world economy will be integrated into the course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in MAT063 or appropriate math placement score.

### **EDU216 Introduction to Teaching**

**3 credits**—The course Introduction to Teaching: The Teaching Profession is designed to help students become aware of the foundations of teaching, understand the realities of teaching, and gain insight into the process of teaching. It is provided for students who may be undecided about teaching. The course will investigate the tools and information necessary to make a rational and thoughtful choice about pursuing the teaching profession.

**Lecture Hours:** 48

### **EDU235 Children's Literature**

**3 credits**—The course is designed to present the dynamics of children's literature. It promotes the selection and evaluation of literature for children as well as how to engage young readers in a variety of literary genres. The course will emphasize literature as a key element of the reading curriculum, grades Preschool-8 and beyond. The course will be relevant to those interested in education and literacy.

**Lecture Hours:** 48

### **EDU246 Including Diverse Learners**

**3 credits**—Students are introduced to the issues and practices regarding the inclusion of diverse student populations in general education settings. The needs of all students including general education, special education,

Supplement B2

and gifted will be emphasized. Strategies for adapting curriculum and the classroom will be examined. Support services that are available to teachers and students will be explored.

**Lecture Hours:** 48

### **EGT140 Fluid Power**

**2 credits**—This is a course of study in the basic fluid power principles and components of fluid power systems.

**Lecture Hours:** 16 **Lab Hours:** 32

### **EGT144 Fluid Power Applications**

**2 credits**—This course is a continuation study of fluid power systems and applications with particular emphasis on troubleshooting and performance evaluations.

**Lecture Hours:** 16 **Lab Hours:** 32

### **ELT139 Electrical Systems**

**3 credits**—Students will gain knowledge and hands-on experience in DC and AC circuits and principles, electrical measurement instruments, electrical safety, conductor sizes and types, wiring applications, wiring techniques, and troubleshooting.

**Lecture Hours:** 16 **Lab Hours:** 64

**Pre/Co-requisite(s):** MAT772

### **ELT149 Advanced Electrical Systems**

**2 credits**—This class stresses electrical distribution systems, electrical transformers, AC and DC motor theory, operation and repair, motor testing and sizing procedures, manual and magnetic starters, and motor overload protection. Specific topics will include types of electrical distribution systems, transformer theory and operation, electrical safety related to motor systems, lockout/tagout techniques, use of motor testing devices, and construction, sizing, and installation of motor overload devices. Extensive laboratory exercises will enhance classroom studies.

**Lecture Hours:** 16 **Lab Hours:** 32

**Pre/Co-requisite(s):** ELT139

### **ELT239 Advanced Electrical Systems**

**3 credits**—This class stresses electrical distribution systems, electrical transformers, AC and DC motor theory, operation and repair, motor testing and sizing procedures, manual and magnetic starters, and motor overload protection. Specific topics will include types of electrical distribution systems, transformer theory and operation, electrical safety related to motor systems, lockout/tagout techniques, use of motor testing devices, and construction, sizing, and installation of motor overload devices. Extensive laboratory exercises will enhance classroom studies.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C- in ELT139.

### **ELT240 PLCs II**

**2 credits**—As modern manufacturing becomes more computer-control oriented the industrial programmable controller plays an increasingly important role. In this course the learner will study advanced programming commands, sequencers, file moves, arithmetic functions, and data communications; advanced PLC architectures; as well as interfacing, troubleshooting, and applications.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT234.

#### **ELT290 DC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to direct current circuits. This course assumes no previous knowledge of electricity or electronics. An understanding of algebra is required.

**Lecture Hours:** 48

**Pre/Co-requisite(s):** MAT504

#### **ELT291 AC Electricity**

**4 credits**—This course presents basic concepts of electricity and electronics and the application of these concepts to alternating current circuits. This course is a continuation of the DC Electricity course. An understanding of algebra is required.

**Lecture Hours:** 48 **Prerequisite(s):** ELT290 **Pre/Co-requisite(s):** MAT504

#### **ELT311 Digital Circuits and Systems**

**4 credits**—This course provides students with knowledge and understanding of digital logic circuit design and operation using integrated circuits. Studies include combinatorial logic circuits, flip-flops, arithmetic circuits, counters and registers, and logic families, with introduction of hardware and software of microcontrollers.

**Lecture Hours:** 32 **Prerequisite(s):** MAT514 **Pre/Co-requisite(s):** ELT526

#### **ELT701 Embedded Processors**

**3 credits**—This course is an introduction to microcontroller theory and applications. The objective of this course is to provide students with the basic microcontroller theory necessary to understand the operation and interfacing characteristics. This includes typical microcontroller architecture with C programming, Input/output and interfacing concepts, hardware/software interaction and applications.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** ELT409

#### **ELT736 Instrumentation and Control**

**2 credits**—With the increase in computer-controlled systems in modern business and industry the study of instrumentation and transducers is vital to a maintenance technicians education. This course will concentrate on the types of instrumentation currently available, interfacing and cabling techniques, signal conditioning, noise control, and applications and troubleshooting of complete systems.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C- in ELT139.

#### **EMS619 Airway and Patient Assessment**

**4 credits**—The course includes Module 2 (Airway Management and Ventilation) and Module 3 (Patient Assessment) of the DOT National Standard Curriculum for EMT Paramedics. Content will include advanced airway management physical assessment, field assessment, clinical decision making, documentation and the assessment and management of respiratory emergencies. The lab component of this course includes skills in airway management and ventilation, history taking, techniques of physical examination, patient assessment, clinical decision making, communication and AHA ACLS. All will be practiced and demonstrated.

**Lecture Hours:** 48 **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in EMS641.

#### **EMS655 Transition to Paramedic Practice**

**4 credits**—This course will provide a platform for the student to apply cognitive, psychomotor, and affective skills to actual practice during a field internship. This course will also include comprehensive psychomotor exercises in a lab setting to prepare the paramedic student for national certification.

**Lab Hours:** 32 **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C in EMS541, EMS546, EMS641, EMS671, and EMS619, or instructor approval.

#### **EMS678 Traumatic Emergencies for the Paramedic**

**3 credits**—Traumatic Emergencies for the Paramedic explores the science of traumatic injuries, their detection and treatment. Major topics include: soft tissue, shock, hard tissue, nervous system, and internal injuries.

**Lecture Hours:** 32 **Lab Hours:** 32

**Co-requisite(s):** EMS671

#### **ENG060 College Preparatory Writing I**

**3 credits**—This course is the first in the college writing sequence. It provides students with opportunities to read and comprehend increasingly difficult texts in a variety of genres; to think more deeply and critically about the issues and ideas presented in these texts; and to respond to those texts in writing with increasing fluency, confidence, and clarity. Students should connect personally with assigned reading material and communicate their thoughts clearly in writing using Standard English. This course emphasizes responses grounded in the writer's personal interaction with the assigned text. It prepares students for the next level in their writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate placement scores or equivalent.

#### **ENG061 College Preparatory Writing II**

**3 credits**—This course encourages students to improve their critical thinking skills, reading comprehension, and writing proficiency for inquiry, learning, thinking, and communication. Students will read, discuss, and respond to a variety of texts of different genres so as to analyze texts and write for different purposes. Students will work individually and collaboratively to produce, revise, and edit written work. Central to the objective of this course is developing a personal writing process: generating ideas, producing multiple drafts, revising, and editing. This course prepares students to advance into their appropriate program writing sequence.

**Lecture Hours:** 48

**Prerequisite(s):** ENG060 or appropriate COMPASS scores or equivalent.

#### **ENG105 Composition I**

**3 credits**—Composition I emphasizes fluency, thesis-driven organization, the use of supporting details, and research techniques. Writing is approached as a recursive process that includes prewriting strategies, drafting, revising, and editing. The course helps students shape writing to serve readers' needs and define a sense of purpose in their writing. It also gives students strategies for reading college-level material.

**Lecture Hours:** 48

**Prerequisite(s):** Appropriate COMPASS scores or equivalent.

### **ENG106 Composition II – Effective Fall 2015**

**3 credits**—Composition II aims to review and extend writing principles learned in Composition I to analytical, argumentative, and research-based writing. This course emphasizes critical reading, evaluation, and precise and responsible source citation.

**Lecture Hours:** 48

**Prerequisite(s):** ENG105

### **ENV115 Environmental Science – Effective Fall 2015**

**3 credits**—This natural science course addresses the manner in which we approach our environment today and how it will affect the world we live in tomorrow. This course examines the challenges of: developing sustainable energy sources, maintaining the quality of our air, water, and soil, and preserving the remaining biodiversity and habitat. As these challenges are examined, possible solutions will be evaluated.

It is suggested to take BIO105 to better prepare for this course.

**Lecture Hours:** 48

### **ENV115 Environmental Science – Effective Summer 2016**

**3 credits**—This natural science course addresses the manner in which we approach our environment today and how it will affect the world we live in tomorrow. This course examines the challenges of: developing sustainable energy sources, maintaining the quality of our air, water, and soil, and preserving the remaining biodiversity and habitat, and human population pressures as they relate to the environment. As these challenges are examined, possible solutions will be evaluated.

It is suggested to take BIO105 to better prepare for this course.

**Lecture Hours:** 48

### **ENV116 Environmental Science Lab**

**1 credit**—This laboratory course provides a hands-on approach to understanding challenges to our environmental health. The course examines population growth, a framework for understanding the extent of habitat loss and degradation and its impact on biodiversity; water quality and treatment; soil quality and management practices; examination of energy consumption and alternatives; and an evaluation of ecosystem interactions.

**Lab Hours:** 32

**Pre/Co-requisite(s):** ENV115

### **GEO121 World Regional Geography**

**3 credits**—This introductory course builds an understanding of the physical and social aspects of geography by examining the major regions of the world and their connections. This will be accomplished by a geographic regional "tour" of the world examining the basic relationship between the physical environment and the cultural aspects within these regions.

**Lecture Hours:** 48

### **HCM905 Hospitality Internship**

**3 credits**—This course will provide students with an opportunity to gain hands on experience in the hospitality industry.

Can be taken for up to 5 credit hours.

Supplement B2

**Lecture Hours:** 0 **Co-op Hours:** 192

**Prerequisite(s):** A minimum grade of C- in HCM608, HCM605, and HCM589.

### **HCR110 Residential Forced Air Heating Systems**

**3 credits**—This course presents application of energy sources and equipment as they apply to heating, ventilation, air humidification, and filtration systems.

**Lecture Hours:** 16 **Lab Hours:** 32

### **HCR127 Hydronic Heating Systems**

**2 credits**—To provide experiences in the operation, layout, and selection, and troubleshooting of residential and light commercial boilers.

**Lecture Hours:** 16

**Co-requisite(s):** HCR429, HCR602, HCR852, and HCR912

### **HCR429 HVAC App Controls w/Automated Systems**

**2 credits**—This course is a study of electronic controls and circuitry systems for H.V.A.C.R.

**Lecture Hours:** 32

**Co-requisite(s):** HCR127, HCR602, HCR852, and HCR912

### **HCR602 HVACR Systems III**

**2 credits**—This course presents alternative application of energy sources and equipment as they apply to heating, ventilation, air-cooling and refrigeration systems.

**Lecture Hours:** 32

**Prerequisite(s):** HCR516

**Co-requisite(s):** HCR429 and HCR912

### **HCR912 HVACR Field Experience**

**2 credits**—This course places students in professional settings for experiences in the Heating, Cooling and Air-Conditioning trades. Emphasis is given to observation of and participation in: troubleshooting, installation document preparation, and business practices.

**Co-op Hours:** 128

**Prerequisite(s):** All first and second semester program courses and a current program

2.00 cumulative GPA.

**Co-requisite(s):** HCR429 and HCR602

### **HEQ102 Preoperational Inspection**

**2 credits**—This Preoperational Inspection Course will give students practice in completing, documenting, and maintaining, inspections and records for the machines they will operate. This course is an introduction in to the proper methods and routines needed to insure that a particular machine is safe to operate as well as properly lubricated and in good working order according to manufacturers' specifications. Students will practice completing daily inspections reports and the steps necessary to report defects.

Maintaining records of inspections and repairs will also be covered.

**Lecture Hours:** 16 **Lab Hours:** 48

### **HEQ104 Equipment Maintenance I**

**2 credits**—This course will assist students in the basic knowledge and skills necessary to perform routine maintenance and repairs on different types of construction equipment.

Individual component and systems service intervals will be discussed and

analyzed. Students will receive practice in fluid and filter replacing as well as recognizing, troubleshooting, replacing and repairing defective and worn components and parts. The need for ongoing operator input and involvement in the maintenance process will be explored.

**Lecture Hours: 16 Lab Hours: 48**

#### **HEQ106 Compact Excavator Operation**

**3 credits**—The Compact Excavator Operation Course will give students access to the hands-on operation of compact excavators used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, trenching, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lecture Hours: 16 Lab Hours: 96**

#### **HEQ107 Wheel Loader Operation**

**2 credits**—The Wheel Loader Operation Course will give students access to the hands-on operation of Wheel Loaders used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate loaders in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, leveling, grading, digging, and loading trucks, in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. The ability to set up and complete projects according to a written site plan will be practiced.

**Lab Hours: 96**

#### **HEQ109 All Terrain Lifts Operation**

**2 credits**—The All-Terrain Lifts Operation Course will give students access to the hands-on operation of all-terrain lifts and platforms used in the construction industry. Students will be able to develop the motor skills and competencies necessary to safely operate equipment in all sorts of workplace settings and environments. Students will gain practice in operating by completing exercises in moving materials, loading and unloading materials from trucks, and operating the work platform safely in all types of terrain and jobsite conditions. Students will demonstrate proper inspection, start up, operating and shut down procedures on a daily basis. Students will obtain an OSHA Certificate in Fork Lift Operation as part of this program.

**Lecture Hours: 16 Lab Hours: 48**

#### **HIS117 Western Civilization I: Ancient and Medieval**

**3 credits**—Western Civilization I traces the development of Western Civilization from prehistory to 1300 C.E., the end of the High Middle Ages. The role of the Humanities is emphasized. The course explores major political, social, economic, scientific, intellectual, cultural, and religious developments contributing to Western societies. These include the significant events and contributions of early Middle Eastern civilizations, classical and Hellenistic Greece, the Roman Empire, its successors, the rise of the Western Christian church, and Medieval Europe.

**Lecture Hours: 48**

#### **HIS118 Western Civilization II: Early Modern**

**3 credits**—Western Civilization II surveys the development of Western Civilization, covering the end of the High Middle Ages of Europe to the French Revolution. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing to the emergence of modern Western European Society. This includes the significant events and contributions of the Renaissance, the Reformation, the Columbian exchange, the Scientific Revolution, and the Enlightenment.

**Lecture Hours: 48**

#### **HIS119 Western Civilization III: The Modern Period**

**3 credits**—Western Civilization III will continue exploring the development of Western Civilization, covering the period from the French Revolution until the present. The role of the Humanities is emphasized. The course will examine the major political, social, economic, intellectual, cultural, and religious developments contributing toward Western Society. Included are such major developments as the industrial revolution, the French revolution, Romanticism, European colonialism, World War I, World War II, the Cold War, the new European order, and the world of the Twenty-first Century.

**Lecture Hours: 48**

#### **HIS151 U.S. History to 1877**

**3 credits**—This United States history course examines the country's Colonial experience, Revolutionary period, and 19th Century history through Reconstruction. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours: 48**

#### **HIS152 U.S. History Since 1877**

**3 credits**—This United States history course examines the period from the end of reconstruction to the present. Emphasis is placed upon industrialization and its impact, the development of a strong federal government, an aggressive foreign policy, and a growing involvement in an international economy. The course includes political, economic, and social history of this period, as well as the development of American thought.

**Lecture Hours: 48**

#### **HSC108 Introduction to Health Professions**

**2 credits**—This course introduces the student to the healthcare system and provides an opportunity to explore a wide variety of health careers/professions. Students will explore ethical and legal responsibilities within the healthcare system including expectations for professional behavior. This course will allow for certification in common healthcare requirements.

**Lecture Hours: 32**

#### **HSC113 Medical Terminology**

**2 credits**—This course presents the foundation necessary to develop a basic medical terminology vocabulary. Emphasis on the components of terms as related to each body system will be provided. The course further

provides the student with the opportunity to properly spell, pronounce and utilize medical terms in relation to pathological conditions, tests, and procedures. Common medical abbreviations will also be discussed for each system.

**Lecture Hours:** 32

#### **IND100 Basic Mechanical Systems**

**2 credits**—This course provides the student with introductory knowledge, skills in use of tools, and components by mechanics.

**Lecture Hours:** 16 **Lab Hours:** 32

#### **IND181 Heating, Ventilating, and Air Conditioning**

**2 credits**—The Heating, Ventilating, and Air Conditioning Systems (HVAC) course will introduce students to the environmental function control of temperature, moisture content, air quality and air circulation in a conditioned space. Our labs allow the learner to view and examine various types of HVAC systems with respect to installation, components, and characteristics.

**Lecture Hours:** 16 **Lab Hours:** 32

#### **LIT101 Introduction to Literature**

**3 credits**—This course studies multiple literary forms and genres. Students will be introduced to literary terminology, analysis and interpretation of literature, and a variety of authors and literary styles. Instruction will emphasize the process of reading to develop and interpret meaning and classroom discussions encouraging students to share interpretations. Students will also respond to literature through informal and formal written assignments that foster skill in analysis and interpretation.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of D- in RDG040 ENG061.

#### **MAT045 Fundamentals of Math**

**4 credits**—This course is designed to help students meet minimum competencies for their basic skills in mathematics in the areas of whole numbers, fractions, decimals, percent, and ratio/proportion. Critical thinking, problem solving, and conceptual development are emphasized. Students will be prepared for learning higher order mathematical concepts

**Lecture Hours:** 64

**Prerequisite(s):** Appropriate placement scores or equivalent

#### **MAT052 Pre-Algebra**

**3 credits**—This course is designed to combine both classroom instruction and individualized instruction to prepare students for Elementary Algebra. Teacher-student interaction as well as student interaction with one another will be provided for and encouraged.

**Lecture Hours:** 48

**Prerequisite(s):** MAT045

#### **MAT063 Elementary Algebra**

**4 credits**—This course is designed to combine both classroom instruction and individualized instruction to provide students with the critical thinking skills necessary for their subsequent courses and programs. Teacher-student interaction, as well as student interaction with one another, will be provided for and encouraged.

**Lecture Hours:** 64

Supplement B2

**Prerequisite(s):** A minimum grade of D in MAT048 or MAT052.

#### **MAT110 Math for Liberal Arts**

**3 credits**—This is a one semester, liberal arts mathematics course that satisfies the minimum general education requirement for math. The course is designed to impart math skills which are helpful in everyday life as well as to expose students to areas of mathematics they may not have seen before. Topics include problem-solving skills, set theory, algebra, consumer mathematics, probability, and statistics. Other topics may be included.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C- in MAT063 or equivalent COMPASS score.

#### **MAT156 Statistics**

**3 credits**—This course is a study of descriptive statistics including graphical representation, central tendency, correlation and regression, intuitive treatment of probability and inferential statistics including hypothesis testing.

**Lecture Hours:** 48

**Prerequisite(s):** MAT063

#### **MAT210 Calculus I**

**4 credits**—The first in a calculus sequence, this course covers topics including functions and their graphs, limits, derivatives, applications of the derivative, and integrals.

**Lecture Hours:** 64

**Prerequisite(s):** A minimum grade of C- in MAT134 or MAT128 or appropriate placement scores.

#### **MAT219 Calculus III**

**4 credits**—This course covers topics including integration and differentiation techniques related to vectors, vector-valued functions, functions of several variables, multiple integration, and vector analysis.

**Lecture Hours:** 64

**Prerequisite(s):** MAT216

#### **MAT772 Applied Math**

**3 credits**—This course is designed to present basic facts of arithmetic including whole numbers, fractions, decimals, powers, roots, English and metric measurement, ratio-proportion, percents, introduction to algebra, and introduction to geometry. Instruction includes use of scientific handheld calculators and emphasis placed on critical thinking, problem solving skills.

**Lecture Hours:** 48

#### **MFG158 Introduction to CNC Programming II**

**2 credits**—In this course students will create programs for CNC mills using cutter diameter compensation, sub-routines, and sub-programs. Students will also write start-up lines and basic level programs on CNC lathes. Students will use a plain ASCII text editor (like Notepad) to input basic industry standard G and M code programs. Programs are run on verification software to ensure accuracy. Lathe tooling, typical turning procedures, cutter nose radius compensation, and tip orientation are other areas of study.

**Lecture Hours:** 32 **Prerequisite(s):** MFG157 **Co-requisite(s):** MFG305

### **MFG211 Basic Machine Theory**

**2 credits**—This course presents basic machining processes and concepts necessary to set-up and operate machine shop equipment.

**Lecture Hours:** 32

### **MFG222 Machine Operations I**

**4 credits**—An introductory machining course presenting basic machining operations. Student will perform basic operations on lathes, horizontal + vertical-milling machines, drilling machines, saws, various types of grinders, and precision measuring equipment.

**Lecture Hours:** 32

**Prerequisite(s):** MFG211

### **MFG305 CNC Operations**

**2 credits**—This course introduces CNC Lathe and CNC Mill operation, shop safety, part inspection, CNC cutting tool types and uses, as well as part holding techniques. Students will work in small groups on industrial sized CNC lathes and CNC machining centers to simulate what CNC Operators do in industry. Fanuc and other common CNC machine controllers are used. Back-Plotting (to simulate cutting operations) is used to help eliminate errors before actually running parts on CNC equipment.

**Lab Hours:** 96

### **MFG308 CNC Programming Theory**

**4 credits**—In this course students will create basic programs for CNC lathes and CNC mills and will use verification software to assure accuracy. Programming on Fanuc controllers will be experienced. Differences of programming on other CNC controllers will be discussed. Windows Notepad or NC text editor will be used to create CNC programs. Program back-plotting, controller simulations, and file management in a Windows environment will also be explored.

**Lecture Hours:** 64

**Co-requisite(s):** MFG305

### **MFG321 Computer Aided Machining**

**4 credits**—This course introduces the student to computer aided manufacturing. Master CAM software will be used to generate part geometry, tool paths and machine language programs in both turning centers and machining centers.

**Lecture Hours:** 64

**Prerequisite(s):** MFG306 and MFG309

### **MFG363 Hydraulic Jigs and Fixtures**

**3 credits**—A course in building jigs and fixtures using blueprints, knowledge and skills developed in Basic Machine Concepts and Operations. Students are required to build and run hydraulic jigs and fixtures working within the tolerance of the print.

**Lecture Hours:** 16

**Prerequisite(s):** MFG211 and MFG222

### **MFG380 EDM Fundamentals**

**2 credits**—This course covers the basics of wire and ram type EDMing. Classroom instruction includes the theory and fundamentals of EDMing, wire and electrode materials, the role of deionized water and dielectric fluids, power supplies, computer numerical control (CNC) EDM. Lab work consists of fabrication of electrodes and setup and operation of EDM

machine tools.

**Lecture Hours:** 16

### **MGT101 Principles of Management**

**3 credits**—A study of current theory and practice of leading a complex business organization toward the accomplishment of organizational objectives.

**Lecture Hours:** 48

### **MGT170 Human Resource Management**

**3 credits**—A study of the theory, principles, concepts and practices of developing and utilizing personnel within business organizations.

**Lecture Hours:** 48

### **MKT110 Principles of Marketing**

**3 credits**—An overview of the processes, problems and activities associated with the planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges.

**Lecture Hours:** 48

### **MLT130 Hematology**

**3 credits**—Hematology is the study of the formed elements of the blood—red blood cells, white blood cells, and platelets. Development and characteristics of these, methods of measurement, and abnormalities are covered.

**Lecture Hours:** 32 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of C in MLT110.

### **MLT250 Clinical Microbiology**

**4 credits**—The emphasis in this course is on bacteria of medical importance, with respect to their cultivation, isolation, identification, and pathogenicity. The student learns techniques of specimen collection, media preparation, culture, staining, biochemical testing, and antibiotic susceptibility testing. Mycology and virology are introduced.

**Lecture Hours:** 32 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in BIO185.

**Co-requisite(s):** A minimum grade of C in MLT110.

### **MUS100 Music Appreciation**

**3 credits**—An introduction to the musical arts through listening to and studying the music of various periods. Some sections of the course may be presented by live musicians.

Allied arts, including dance, painting, and literature, may be used to demonstrate the relatedness of music to the larger scope of human experience.

**Lecture Hours:** 48

### **NET932 Internship**

**2 credits**—This course provides students with the opportunity to gain practical work experience, while applying skills and techniques learned in their program of study, under the supervision of an employer, manager, or supervisor.

**Co-op Hours:** 128

**Prerequisite(s):** A minimum grade of C in NET109. Must be in program

major and completed 30 credits in one of the following programs: Network Administration and Engineering, Information Systems Management, and Web Design and Development.

### **OTA102 Human Movement and Occupation**

**3 credits**—Study of the interrelationship between the central nervous system, peripheral nervous system, and musculoskeletal system and analysis of functional movement required for engagement in occupation. Formal and informal biomechanical assessment methodologies are presented. Students will gain skill in utilizing assessment data for the occupational therapy process in collaboration with the occupational therapist.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA103 Task Analysis**

**3 credits**—The development and emergence of human occupational performance throughout the lifespan is examined by exploring areas of occupation, occupational roles, habits and routines. Students will learn to analyze occupational tasks and functional activity demands, grade and adapt activities, and build the basic skills necessary for teaching therapeutic activities to meet the needs of occupational therapy consumers, either individually or in groups. Emphasis will be placed on the use of occupation-based media as a means of understanding a client's cognitive and functional performance. The significance of context and environment will also be explored in relationship to program planning and implementation of therapeutic interventions. Additional topics include an introduction to note writing and goal development.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA104 Assistive Tech and EM**

**2 credits**—An introduction to the role of assistive technology and environmental modification used to facilitate occupational performance. Topics will include: determination of need, selection of and instruction in use of assistive technology and/or environmental modification, low vs. high tech equipment options, and assessment of client safety during occupational performance.

**Lecture Hours:** 16 **Lab Hours:** 32

**Prerequisite(s):** Admission to Phase II of the Occupational Therapy Assistant program.

### **OTA201 Pediatrics and Occupation**

**3 credits**—The first in a sequence of courses addressing conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA202 Pediatric OTA Skills Supplement B2**

**3 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with infants and children through the adolescent period and their families in a variety of settings.

**Lecture Hours:** 16 **Lab Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA203 Level I Fieldwork Pediatrics**

**2 credits**—Students will be participant-observers in settings providing occupational therapy services to children and/or adolescents. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Lecture Hours:** 16 **Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA204 Pediatric Psychosocial Conditions and Occupations**

**1 credit**—The first in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through the adolescent period, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of mental health disorders, conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA102, OTA103, and OTA104.

### **OTA311 Adult Psychosocial Conditions and Occupations**

**2 credits**—The second in a sequence of courses addressing psychosocial conditions causing disruption of occupational behaviors, skills, and life roles in humans throughout the lifespan. This course presents theoretical frameworks and models for understanding the occupational nature of early to middle adulthood at home, at work, and in the community. Approaches to applying the occupational process by the occupational therapy assistant is studied within the contexts of a variety of psychosocial disorders and conditions, and circumstances affecting this period of human development.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA312 Adult Psychosocial OTA Skills**

**2 credits**—Structured experiential learning will provide opportunities for the student to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process for individuals experiencing disruption in social, emotional and interactional abilities needed for adaptive occupational performance. Both individual and group intervention strategies are explored.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

### **OTA313 Level I Fieldwork Psychosocial**

**1 credit**—Students will be participant-observers in settings providing

occupational therapy services to adult consumers with psychosocial conditions. Emphasis will be placed on development of professional work habits and supervisory collaboration.

**Co-op Hours:** 64

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

#### **OTA501 Professional Practice for OTA**

**3 credits**—This course speaks to the management and service roles of the occupational therapy assistant, as well as ongoing responsibilities of a career as an occupational therapy healthcare professional. Active learning strategies requiring the student to transcend from a student to entry level practitioner.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in OTA201, OTA202, OTA203, and OTA204.

#### **OTA502 Level II Fieldwork A**

**5 credits**—The first of two courses consisting of 8 weeks of full-time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different point of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA310, OTA302, OTA401, OTA402, and OTA403.

#### **OTA503 Level II Fieldwork B**

**5 credits**—The second of two courses consisting of 8 weeks of full time community-based clinical education. Students will participate in the delivery of occupational therapy services, in collaboration and with supervision from a currently licensed or credentialed occupational therapist or occupational therapy assistant. They will work with individuals at different points of the lifespan, experiencing disruption of occupational performance.

**Co-op Hours:** 320

**Prerequisite(s):** A minimum grade of C in OTA502.

#### **PEA117 Bowling I**

**1 credit**—This skill course introduces students to the lifetime activity of bowling. The course will cover basic fundamentals of bowling such as rules and etiquette, approach, ball delivery, strikes, spares, and scoring. Individual, league, and tournament play will also be included.

**Lab Hours:** 32

#### **PEA191 Pilates**

**1 credit**—This skill course is designed to provide students with the opportunity to learn Pilates principles and mat-based exercises from the beginner level, through the intermediate level, and finishing with the advanced level. Pilates is a form of exercise that focuses on core stability and strength while simultaneously lengthening and strengthening the muscles without adding "bulk".

**Lab Hours:** 32

#### **PEA194 Vinyasa Yoga**

**1 credit**—This skill course introduces the fundamentals of Vinyasa Yoga. Vinyasa Yoga focuses on balanced asana (posture) sequences, as well as the connection of the asanas and the breath. There are a host of associated benefits including, but not limited to, increased levels of body awareness, increased strength and flexibility, as well as the benefits shown to be associated with relaxation.

**Lab Hours:** 32

#### **PEH111 Personal Wellness**

**3 credits**—This is an introductory level course designed to explore wellness in all dimensions. Students will assess their overall level of wellness, assess current lifestyle choices, and be enabled with strategies that will lead to an improved lifestyle and overall level of wellness.

**Lecture Hours:** 48

#### **PEH141 First Aid**

**2 credits**—This course will use discussion and application to provide the layperson with the basic skills and knowledge necessary to provide First Aid, CPR, and AED to adult, child, and infant populations. Certification by the American Red Cross will be awarded to those who qualify.

**Lecture Hours:** 32

#### **PHS152 Astronomy**

**3 credits**—A basic course in descriptive astronomy dealing with the development of modern astronomy and with its present-day theories and observations. Topics covered include motions of solar system and deep sky objects, telescopes and other instruments, members of the solar system, nature of the sun, other stars, origin and development of stars and planets, our galaxy, other galaxies, and the organization of the universe.

**Lecture Hours:** 48 **Lab Hours:** 32

**Prerequisite(s):** A minimum grade of D- in 100 level math course or appropriate placement score, RDG040 or appropriate placement score, and ENG105 or COM781.

#### **PNN116 Introduction to Nursing Skills Lab**

**2 credits**—This course provides the student with knowledge and practical application of basic nursing skills while incorporating concepts learned in Introduction to Nursing.

Students learn and practice basic nursing skills in personal care, Infection control, safety, vital signs, sterile technique, patient safety, documentation, and medication administration. There is major emphasis on the critical elements of nursing procedures and the scientific rationale for performing the procedures correctly.

**Lecture Hours:** 16

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN117, PNN207, BIO173, and MAT122.

#### **PNN117 Nursing Clinical I**

**1 credit**—This course provides students with an introduction to clinical nursing. Emphasis is placed on utilization of the nursing process as a basis for clinical decision making and development of critical thinking.

Nursing professionalism and basic nursing skills such as infection control, hygiene, asepsis, vital signs, and physical assessment are introduced.

**Clinic Hours:** 48

**Prerequisite(s):** A minimum grade of C in HSC108, BIO168, and ENG105.

**Co-requisite(s):** A minimum grade of C in PNN115, PNN116, PNN207, BIO173, and MAT122.

#### **PNN541 Medical Surgical Nursing A**

**5 credits**—This course is a study of nursing care of adult clients with medical-surgical alterations of the following systems: musculoskeletal, neurological, respiratory, endocrine, immune, and eye/ear. Clinical experiences are provided in acute care facilities.

Pharmacology and gerontological considerations are integrated throughout this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159.

**Pre/Co-requisite(s):** A minimum grade of C in PNN543.

#### **PNN542 Medical Surgical Nursing B**

**5 credits**—This course is a study of nursing care of adult clients with medical-surgical alterations of the following systems: cardiovascular, hematology, gastrointestinal, urinary, reproductive, and integumentary. Clinical experiences are provided in acute care facilities. Pharmacology and gerontological considerations are integrated throughout this course.

**Lecture Hours:** 48

**Prerequisite(s):** A minimum grade of C in PNN270, PNN161, PNN132, PNN133, PNN103, PSY111, and BIO159.

**Pre/Co-requisite(s):** A minimum grade of C in PNN543.

#### **POL111 American National Government**

**3 credits**—The study of the United States national government, specifically its institutions, the process of governing, the means by which individual citizens and groups influence that process, and the output of that governing process.

**Lecture Hours:** 48

#### **PSY102 Human and Work Relations**

**3 credits**—Human Relations is the study of self and social behavior. Emphasis is placed on the understanding and application of social science theories and research for the development of effective interpersonal and organizational relationships.

**Lecture Hours:** 48

#### **PSY111 Introduction to Psychology**

**3 credits**—This course provides an introduction to the study of behavior with emphasis in the areas of learning, cognition, motivation, personality, behavioral disorder, therapy, and social influence. An understanding of the impact of both theoretical perspectives and experimental evidence on the formulation of the science of human behavior is also stressed. Psychological theories and principles are utilized to explain and predict behavior.

**Lecture Hours:** 48

#### **PSY121 Developmental Psychology**

**3 credits**—This course presents a life span, developmental approach to the study of the developing person that identifies the behavioral dynamics of the physical, cognitive, social and affective domains of development with a view to the impact of family, school and community.

**Lecture Hours:** 48

#### **PSY241 Abnormal Psychology**

**3 credits**—Survey of the major classifications of psychological disorders. Emphasis will be on theoretical perspectives, descriptions of disorders, and therapeutic approaches.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

#### **PSY262 Psychology of Gender**

**3 credits**—This course explores the meaning of gender. Research and theory in the areas of gender development, gender similarities and differences, and the nature and effects of gender roles and stereotypes is emphasized.

**Lecture Hours:** 48

**Prerequisite(s):** PSY111

#### **RCP100 Introduction to Respiratory Care**

**3 credits**—This course introduces the student to the fundamentals of Respiratory Care. The field of Respiratory Care will be examined to determine opportunities and policies in the profession. It will establish a strong foundation in bedside assessment including vital signs, chest assessment, evaluating work of breathing, and patient history. Also covered will be the therapeutic uses of medical gases, infection control procedures, and proper maintenance of records. Humidity and aerosol therapy will be studied in detail. Must complete all Pre-Respiratory courses with a cumulative GPA of 2.75.

**Lecture Hours:** 32 **Lab Hours:** 32

#### **RCP260 Airway Maintenance Procedures**

**4 credits**—This course will develop the skills required to assess, diagnose, and manage a patient's airway. It specifically describes the Respiratory Therapist's role in maintaining a patent airway by using lung expansion therapy, bronchial hygiene techniques, and suctioning. The insertion, maintenance, and removal of artificial airways, which include endotracheal tubes and tracheostomy tubes, will be discussed in detail.

**Lecture Hours:** 48 **Lab Hours:** 32

**Co-requisite(s):** A minimum grade of C in RCP100.

#### **RCP900 Clinical Preceptor**

**4 credits**—This course prepares the student for real-life hospital situations. The student will be expected to complete a full work day doing the full workload of an assigned Staff Therapist (preceptor). The student is expected to handle all aspects of respiratory care including interruptions and new situations. The preceptor will monitor the student at all times and will offer support if needed.

**Co-op Hours:** 256

**Prerequisite(s):** A minimum grade of C in RCP680 and RCP690.

#### **RCP910 Respiratory Care RRT Review**

**2 credits**—This course is designed to test the student's ability to successfully earn passing scores on advanced-level examinations. Although advanced-level examinations will be the focus of this course,

review of entry-level examination concepts will also be provided. Mock Board examinations will be administered after completion of a comprehensive review seminar.

**Lecture Hours:** 32

**Prerequisite(s):** A minimum grade of C in RCP875.

### **RDG039 College Preparatory Reading II**

**3 credits**—This course is designed to help students expand their academic vocabulary and improve comprehension skills. Students will learn and utilize a variety of reading strategies to be used in the reading of varying materials and to further their learning in their program of choice.

**Lecture Hours:** 48

**Prerequisite(s):** RDG038

### **RDG040 College Preparatory Reading III**

**3 credits**—This course provides students with instruction of the reading skills necessary for success in college. Through the use of college-level materials, students are afforded opportunity for demonstration and application of critical reading skills.

**Lecture Hours:** 48

**Prerequisite(s):** RDG039

### **REL101 Survey of World Religions**

**3 credits**—An introductory survey of world religions that have had major impact on world culture and civilization: Hinduism, Taoism, Buddhism, Confucianism, Judaism, Christianity, Islam, and others. It will examine their cultural settings, sacred writings, key doctrines, central rituals, ethical values, and perspectives on gender roles.

**Lecture Hours:** 48

### **SDV108 The College Experience**

**1 credit**—This course is designed to orient students to the college campus, resources, services, and expectations. This course also provides a brief overview and practice of study skills and academic strategies.

**Lecture Hours:** 16

### **SDV109 College 101**

**3 credits**—This course provides students a thorough orientation to the college campus and resources. The course is designed to introduce students to the college culture while they examine what a "successful" student is. Students will be introduced to a variety of skills for academic success, academic planning, personal development, and study strategies.

**Lecture Hours:** 48

### **SDV127 Study Strategies**

**1 credit**—This course provides a focused examination of the strategies and skills needed for students to be successful at the college level. Students will be introduced to and given opportunity for practice of a variety of skills for academic success and study strategies.

**Lecture Hours:** 16

### **SDV131 Career Exploration**

**1 credit**—This course is designed to increase students' knowledge of themselves, of theories about careers, and of various resources available

Supplement B2

to them which will assist them in the career decision making process. Students, at the completion of this course, will be better able to choose academic majors and careers. This course is specifically designed to follow the National Career Development Guidelines.

**Lecture Hours:** 32

### **SOC110 Introduction to Sociology**

**3 credits**—This course surveys the basic principles, concepts, and research findings of social life from small groups to societies. The course examines a range of sociological explanations for the various forms of social behaviors and establishes a basis for reflection and further study in the field.

**Lecture Hours:** 48

### **SOC115 Social Problems**

**3 credits**—This course introduces students to the sociological perspective and related critical thinking skills as a way of examining the cause and effect nature of contemporary social problems. Within this examination, emphasized are (a) the interdependence of social problems, (b) how social inequality is an inherent characteristic of all social problems, and (c) the relationship between definitions of social problems and social policies.

**Lecture Hours:** 48

### **SOC120 Marriage and Family**

**3 credits**—Marriage and family is studied from a sociological viewpoint. Content areas focus on the history of family, gender roles, power in relationships, and functions of the family and dysfunctions. Statuses such as being single to marriage to parenthood are emphasized, as are alternative lifestyles with respect to sexuality and family.

**Lecture Hours:** 48

### **SOC205 Diversity in America**

**3 credits**—Introduction to the sociological study of group relations in the United States. Basic concepts such as culture, groups, inequality, prejudice and discrimination will be explored. Focus will be on class, race, and gender, however other statuses (such as sexual orientation, religion, age, and abilities) will also be discussed. Students will gain a better understanding of the relationship between individuals and society, as well as the experiences of minority groups.

**Lecture Hours:** 48

### **SOC924 Honors Project**

**1 credit**—This course involves in-depth independent research on an approved topic under supervision of a faculty member. Upon project's completion, results will be shared with community of peers and faculty.

May be taken for up to 5 credits.

**Lecture Hours:** 16

### **SPC101 Fundamentals of Oral Communication**

**3 credits**—This course presents elements of the oral communications process with emphasis on developing interpersonal, small group, and public speaking skills. Students will be involved in activities that provide opportunity for the understanding and improvement of their oral

communication skills.

**Lecture Hours:** 48

#### **TDT100 Interpersonal Relations**

**2 credits**—This course covers personal health and safety, public and employer relations and stress management on the job in a new career. Also included in the course are written communication and oral communication skills. Instruction is provided in employment seeking skills, resumes, cover letters, thank you letters, letters of application, personal record keeping, and desirable work attitude.

**Lecture Hours:** 32

#### **TDT118 Driving Range I**

**6 credits**—This course provides students with opportunities for hands-on experience in basic maneuvers using simulators, trucks and trailers. Proper techniques are taught in engine starting and shut down, clutching, shifting, cornering, and backing. Emphasis is given to proper safety and technical practices. Emergency and evasive driving techniques will be practiced in simulation exercises as well as in skid control vehicles.

**Lecture Hours:** 48

**Prerequisite(s):** TDT115

#### **TDT121 Driving Range II**

**2 credits**—This course provides students with opportunities for additional behind the wheel training in operating trucks in rural and city traffic. Included in the course are experiences in pulling loaded trailers in city, rural areas, and backing in industrial areas. Emphasis is placed on defensive driving and proper technical practices.

**Lecture Hours:** 16

**Prerequisite(s):** TDT118

#### **TDT122 Driving Range III**

**2 credits**—This course prepares students with skills and knowledge in managing emergencies, accidents, first aid, CPR, and D.O.T. regulations on hauling hazardous materials. Instruction is provided in night inspections, city and rural driving at night. Students will prepare for a Class A Commercial Drivers License with all endorsements.

**Lecture Hours:** 16

**Prerequisite(s):** TST121

#### **TDT126 Commercial License Preparation**

**1 credits**—This course is an introduction to The Federal Motor Carrier Safety Administrations' rules and regulations pertaining to drivers of commercial motor vehicles. This course prepares students to pass the knowledge tests required to obtain a Class A CDL.

**Lecture Hours:** 48

#### **TDT938 Truck Transportation On-the-Job Training**

**3 credits**—Students enrolled in this course will have the opportunity to gain on-the-job experience in the Motor Carrier industry. Students will learn the responsibilities of driving, cargo handling, vehicle maintenance, safety department, and dispatch of equipment to customers. Students will have an opportunity to learn the skills necessary to succeed in the transportation field. Coordination and guidance will be provided by instructors.

**Co-op Hours:** 192

Supplement B2

**Prerequisite(s):** TDT100, TDT115, TDT118, TDT121, and TDT122

#### **WEL125 Fusion and Braze Welding**

**2 credits**—This course is an introduction to Oxy-acetylene fusion welding and braze welding of steel and cast iron. Topics include: process theory, safety, fusion welding/braze welding techniques for mild steel, fusion welding/braze welding techniques for cast iron and weld quality.

**Lab Hours:** 96

**Prerequisite(s):** WEL134 and WEL155

#### **WEL134 Cutting Processes**

**2 credits**—This course is an introduction to principles and practices of oxy-fuel cutting, plasma cutting, and arc air gouging. Topics include: safety, theory of operation, equipment, proper set-up procedures and basic terminology. Shop practice includes plasma cutting and arc air gouging principles and practices and flame cutting of mild steel.

**Lecture Hours:** 16

#### **WEL155 Arc Welding I (SMAW)**

**4 credits**—This course is an introduction to the Shielded Metal Arc Welding process, also known as stick welding. Topics of study include: safety, theory of operation, types of welding power sources, advantages of the process, types of mild steel electrodes, types of joints, basic welding terms, and AC and DC current. Shop practice on the five basic joints will be performed in the flat and horizontal positions with various mild steel electrodes.

**Lecture Hours:** 16

#### **WEL164 Arc Welding II (SMAW)**

**4 credits**—This course is a continuation of Arc Welding I. Vertical down, vertical up, and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. In addition, the student is introduced to the theory and practices of Hardsurfacing with the Shielded Metal Arc Welding process. Safety procedures are reviewed.

**Lab Hours:** 192

**Prerequisite(s):** WEL155

#### **WEL187 Advanced GMAW**

**4 credits**—This course is a continuation of GMAW-FCAW I. Vertical down, vertical up and overhead welding procedures and techniques are introduced. Successful completion of the AWS Structural Steel Welding performance test is stressed. Safety procedures are reviewed.

**Lab Hours:** 192

**Prerequisite(s):** WEL186

#### **WEL191 Gas Tungsten Arc Welding**

**3 credits**—This course is an introduction to Gas Tungsten Arc Welding process, also known as T.I.G. Topics of study include: safety, theory of the process, advantages, types of power sources, pulsed power sources, types of electrodes and shielding gases, basic joints, basic welding terminology, and AC and DC current. Shop practice on the five basic joints in all positions will be emphasized. The learner will weld on mild steel, aluminum and stainless steel sheet.

**Lab Hours:** 144

**Prerequisite(s):** WEL155

**WEL234 Introduction to GMAW II**

**2 credits**—The introduction to Gas Metal Arc Welding II course will allow students to enhance their basic welding hands-on skills to improve their proficiency using Metal Inert Gas (MIG) welding processes. Shop practice will include welding the five basic joints, with both welding processes, on mild steel in the flat and horizontal positions.

**Lab Hours:** 96

**Prerequisite(s):** A minimum grade of C in WEL104.

**WEL303 Pipe Welding/SMAW**

**3 credits**—This course is an introduction to vertical down and vertical up pipe welding procedures and techniques. Topics include: safety, elements of the American Petroleum Institute Pipe Welding Code and the American Society of Mechanical Engineers Pipe Welding Code and the American Welding Society Structural Steel Pipe Welding Code.

**Lab Hours:** 144

**Prerequisite(s):** WEL155 and WEL164

**WEL339 Electromechanical Maintenance – Effective Fall 2015**

**3 credits**—This course is an introduction to basic welding and cutting processes. Topics include: Shielded Metal Arc Welding, Gas Metal Arc Welding, Gas Tungsten Arc Welding, Oxy-Acetylene Fusion Welding and Braze Welding, Oxy-Fuel Flame Cutting and Plasma Arc Cutting. Specific safety rules for oxy-fuel equipment, electric arc welding processes and plasma cutting will be discussed.

**Lecture Hours:** 16 **Lab Hours:** 64

**WEL339 Electromechanical Maintenance – Effective Summer 2016**

**3 credits**—This course is a basic introduction to welding and cutting processes. Topics include: shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding. Cutting processes include oxy-fuel cutting and plasma arc cutting. Electric arc and oxy-fuel safety rules will be discussed.

**Lecture Hours:** 16 **Lab Hours:** 64

**WEL710 Robotic Welding**

**6 credits**—This course is an introduction to robotic welding. Students will learn the advantages and limitations of welding robots and their current application in modern manufacturing. Robot components and basic robot programming are covered in detail. The variables for Gas Metal Arc Welding, arc welding safety, robot safety and weld quality and weld defects are included.

**Lecture Hours:** 48

**Prerequisite(s):** WEL11, WEL155, WEL186, WEL187, and MAT772

**Appendix B:**  
**Institution's Complaint Policy**

**The complaint policy, procedure and form can be found at this site:**  
**<https://www.hawkeyecollege.edu/webres/File/students/student-handbook/student-complaint-procedures-and-form.pdf>**

## **STUDENT COMPLAINT PROCEDURES FOR HAWKEYE COMMUNITY COLLEGE**

A complaint is a written statement signed by a student expressing an accusation about an academic or non-academic circumstance which is thought by the student to be unfair. This complaint procedure should be used only after regular communication channels and approaches have failed.

Any student attending Hawkeye Community College (full or part-time) having a complaint should follow this procedure.

Complaints may not be used for: grade appeals, student conduct code appeals, academic integrity appeals, or sexual misconduct code appeals. Complaints may not be for selection or non-selection of participants on athletic teams or other student teams. Complaints may not be filed for parking violations.

Prior to filing a complaint, students should try to resolve the problem at the point of contact with the appropriate person or office. If the problem isn't resolved at the individual level, then that person's supervisor should be contacted.

PLEASE NOTE: Students alleging a complaint related to discrimination should file a Discrimination Complaint Form available in the Human Resource Services Office. Students wanting to make a complaint about a violation of the Sexual Misconduct Policy should contact the Dean of Students (2<sup>nd</sup> floor of the Hawkeye Center) at 319-296-4014.

### 1. Complaint Procedures

- a. Complaints must be presented by the complainant (student) on the complaint form. All questions must be answered.
- b. Complaints shall be filed by students with the Dean of Students.
- c. Complaints must be filed within 20 calendar days of the date of the action causing the complaint.
- d. The Dean of Students will review the complaint and attempt a resolution, in consultation with the Vice President of Academic Affairs (in the case of academic grievances) or with other offices (for non-academic grievances). The Dean of Students may meet individually with each party. A meeting between all parties may be part of the resolution process.
- e. Within 15 calendar days of the formal complaint, the student will be notified in writing of its resolution.

**HAWKEYE COMMUNITY COLLEGE COMPLAINT FORM**

RE: GENERAL COMPLAINT

TO: DEAN OF STUDENTS

Student Information (please print):

Student's Name \_\_\_\_\_

Home Address \_\_\_\_\_

Phone Number \_\_\_\_\_

Email Address \_\_\_\_\_

Please be sure you have read the complaint policy procedures.

Details of the Complaint (Complete all questions. Please use additional paper if needed.):

1. What is your complaint?

2. Please describe what happened. Please include the date, place, and people involved and why you believe the action was unfair. Relate all the details. Please attach any documentation which will help describe the problem and substantiate your claims.

3. What steps you have taken to resolve the complaint? Please include names and dates of personnel you have contacted. Indicate the outcomes of those interactions. Attach any documentation (emails, letters, etc.) to show you have tried to resolve the complaint.

4. How would you like the complaint resolved?

I hereby verify that the information contained in this complaint is true and that I understand that this complaint and the information provided may be shared with the individuals involved in the complaint.

Date

## Appendix C:

Aggregated Report of Number & Type  
of Student Complaints

Two formal written complaints have been filed with the dean of students since the last accreditation visit:

- ***1 complaint in spring 2015 was filed because the student was dissatisfied with the teaching style of an instructor. After discussions with the student, and then with the instructor and academic dean, the student was referred back to the academic dean for resolution. The student worked with the dean and a counselor to resolve the situation; the student graduated at the end of the term.***
- ***1 complaint in summer 2015 was filed because a student was dissatisfied with the program of study and the courses for the degree in which the student was enrolled or had completed. The student was given options to pursue other programs at the college based upon the classes the student had already completed. The student decided to pursue a different degree at the college and graduated at the end of summer 2015.***

Upper Iowa University	Course-to-Course Articulation
Wartburg College	Wartburg Equivalency Guide for Individual Classes

**Appendix D:**  
**Published Transfer Policies**

## **Transfer-In Credit Hours**

Information regarding policies on transfer credit to Hawkeye Community College can be found in our College Catalog (2016-2017). Website location:

<http://www.hawkeyecollege.edu/academics/college-catalog/default.aspx> and at Transferring Credits to Hawkeye: <http://www.hawkeyecollege.edu/academics/records-registration/credits/default.aspx> .

Students transferring to Hawkeye Community College from other colleges/universities are required to send their transcripts to Hawkeye where their credits will be evaluated on an individual basis. Transfer credit will be considered as long as the credit has been earned from a regionally-accredited institution.

All transfer students should consult with their program advisor and our Records Evaluator in Records and Registration. Hawkeye endorses the [Joint Statement on Transfer and Award of Academic Credit](#) approved by the [American Council on Education](#) (ACE), the [Council on Higher Education Accreditation](#)(CHEA), and the [American Association of Collegiate Registrars and Admissions Officers](#)(AACRAO). Hawkeye uses various publications in determining transfer credit including, but not limited to:

- Current publication of Transfer Credit Practices of Selected Education Institutions, published by the American Association of Collegiate Registrars and Admissions Officers
- Publications of the American Council on Education
- [LACTS Agreement](#)
- [College Source](#)

The acceptance and use of transfer credit is subject to limitations in accordance with educational policies at Hawkeye.

As of August 1, 2011, transfer credits earned Fall 2011 or later must be a C or higher to earn transfer credit. Transfer students who earned a C- or higher prior to Fall 2011 (Summer 2011 or earlier) will be awarded transfer credit.

Hawkeye does not calculate transfer grade points into the Hawkeye GPA, but the grade associated with the transfer course must meet the minimum grade requirement. Your GPA at Hawkeye only includes grades earned at Hawkeye.

In order to earn a degree from Hawkeye Community College transfer students must complete 30 credit hours or 16 of their last 22 credit hours with Hawkeye Community College. Career and Technical Program Students must complete 25% of their required course credits at Hawkeye Community College. This can be found in the Student Handbook and online. <http://www.hawkeyecollege.edu/academics/records-registration/credits/default.aspx>

### Transfer-Out Credit Hours

As a comprehensive college, we also provide advising to students on course scheduling, articulation of their coursework, and provide work to get them connected with someone at their proposed institution of transfer. The three state regent universities as well as private colleges in the state participate annually in our Transfer Fair. This event allows current students to speak with representatives from the transfer colleges.

<http://www.hawkeyecollege.edu/academics/programs/transfer/default.aspx>

A copy of the most recent flyer about the Transfer Fair opportunity for students is shown below. Information about the Transfer Fair is also advertised, in advance, on the intranet site, *myHawkeye*.

In addition to college-issued degree audits (example below), each transfer student has access to transfer degree tracking forms. These forms help to provide a clear visual for students by category of required courses and elective options. By using this form in conjunction with their degree audit, students can plan their schedule over time and monitor their progress toward completing their AA or AS degree with Hawkeye and then transfer to their desired four-year college.

Example of a college-issued degree audit (not all pages shown):

## 2015-2017 ASSOCIATE OF ARTS (AA) DEGREE TRACKING FORM (62 Credits)

**FLEXIBLE SCHEDULING** - Courses are offered face to face, during the day, in the evening, online, or in a hybrid format (part online, part face to face). Course offerings change semester by semester. For the upcoming semester's offerings, students should check the course search in My Hawkeye.

**PLANNING A CLASS SCHEDULE** - Work with a program advisor to select courses, make a transfer plan, and review their progress toward degree completion.

### I. NATURAL SCIENCE AND MATHEMATICS 10 Credits (minimum)

Requires one course from each area - A, B, and C. Need 7 credits from A and B, including one 4-credit science laboratory course.

#### A. BIOLOGICAL SCIENCES

__ BIO105 Introductory Biology	E	4
__ BIO112 General Biology I		4
__ BIO113 General Biology II		4
__ BIO154 Human Biology	E O	3
__ BIO163 Essentials of Anatomy and Physiology	E	4
__ BIO168 Human Anatomy and Physiology I w/Lab	E	4
__ BIO186 Microbiology		4
__ CNS121 Environmental Conservation ***	O	3

#### B. PHYSICAL SCIENCES

__ CHM122 Introduction to General Chemistry (P)	E	4
__ CHM165 General Chemistry I (P)		4
__ ENV115 Environmental Science ***	O	3
__ ENV116 Environmental Science Lab *** (C)	O	1
__ GEO131 Physical Geography	E O	3
__ GEO132 Physical Geography Lab (C)	E	1
__ PHS120 Exploring Physical Science (P)	E	4
__ PHS142 Principles of Astronomy (P)	E	3
__ PHS152 Astronomy (P)	O	4
__ PHY162 College Physics I (P)		4
__ PHY212 Classical Physics I (P)		5

#### C. MATHEMATICS (Assessment Required) 3 Credits (minimum)

__ MAT110 Math for Liberal Arts (P)	E O	3
__ MAT122 College Algebra (P)		5
__ MAT128 Precalculus (P)		4
__ MAT134 Trigonometry and Analytical Geometry (P)		3
__ MAT156 Statistics (P)	E O	3
__ MAT210 Calculus I (P)		4

### II. HUMANITIES 9 Credits (minimum)

#### A. WESTERN CIVILIZATION 3 Credits (minimum)

__ HIS117 Western Civilization I: Ancient and Medieval	O	3
__ HIS118 Western Civilization II: Early Modern	O	3
__ HIS119 Western Civilization III: The Modern Period	E O	3

#### B. HUMANITIES 6 Credits (minimum)

Requires one course from two different areas - 1, 2, or 3.

##### 1. LITERATURE AND FINE ARTS

__ ART101 Art Appreciation	O	3
__ ART203 Art History I	O	3
__ ART204 Art History II	O	3
__ DRA107 Theatrical Arts and Society		3
__ LIT101 Introduction to Literature (P)	O	3
__ MUS100 Music Appreciation	O	3

##### 2. PHILOSOPHY AND RELIGION

__ PHI101 Introduction to Philosophy	E O	3
__ PHI105 Introduction to Ethics	E O	3
__ REL101 Survey of World Religions	O	3
__ REL130 Introduction to Religions of the East		3

##### 3. NON-WESTERN CULTURES

__ CLS130 African Cultures *	O	3
__ CLS141 Middle Eastern History and Culture *		3
__ CLS150 Latin American History and Culture *	O	3
__ CLS160 East Asian Cultures *	O	3
__ CLS164 Japanese History and Culture *		3
__ CLS172 Russian Civilization *		3

### III. SOCIAL SCIENCES 9 Credits (minimum)

Requires one course from each area - A, B, and C.

#### A. PEOPLE AND THEIR RELATIONSHIPS

__ PSY111 Introduction to Psychology	E O	3
__ SOC110 Introduction to Sociology	E O	3

#### B. AMERICAN SOCIETY

__ HIS151 U.S. History to 1877	E O	3
__ HIS152 U.S. History Since 1877	E O	3
__ POL111 American National Government	O	3

#### C. TOPICS IN SOCIAL SCIENCES

__ GEO121 World Regional Geography	O	3
__ POL121 International Relations	E	3
__ POL125 Comparative Government and Politics	O	3
__ PSY121 Developmental Psychology	O	3
__ PSY251 Social Psychology (P)		3
__ SOC115 Social Problems	O	3
__ SOC120 Marriage and Family	O	3
__ SOC135 Death and Dying	E O	3
__ SOC208 Introduction to Cultural Anthropology		3
__ SOC220 Sociology of Aging	O	3

### IV. COMMUNICATIONS 9 Credits (minimum)

#### A. WRITTEN COMMUNICATIONS (Assessment Required) 6 Credits (required)

__ ENG105 Composition I (P)	E O	3
__ ENG106 Composition II (P)	E O	3

#### B. ORAL COMMUNICATIONS 3 Credits (required)

__ SPC101 Fundamentals of Oral Communication	E O	3
--	-----	---

### V. SOCIAL DIVERSITY 3 Credits (minimum)

__ COM148 Diversity and the Media		3
__ EDU223 Multicultural Education (P) (For Education Emphasis)		3
__ LIT133 Minority Voices in U.S. Literature		3
__ PSY262 Psychology of Gender (P)	O	3
__ SOC200 Minority Group Relations	O	3
__ SOC205 Diversity in America	E O	3
__ WST101 Women's Studies	E	3

#### SUCCESS COURSES TAKEN OR TO BE TAKEN:

__ COMPASS PAL Referral: __ Writing __ Reading __ Math	
__ COMPASS retest or faculty recommendation	
__ MAT045 Fundamentals of Math (4)	
__ MAT048 Preparatory Math for Elementary Algebra (4)	
__ MAT052 Pre-Algebra (3)	
__ MAT063 Elementary Algebra (4)	
__ RDG038 College Preparatory Reading I (3)	
__ RDG039 College Preparatory Reading II (3)	
__ RDG040 College Preparatory Reading III (3)	
__ ENG060 College Preparatory Writing I (3)	
__ ENG061 College Preparatory Writing II (3)	
__ BCA087 College Preparatory Computer Skills (3)	

These will not apply toward the 62 credits needed to graduate.

#### KEY

- \* Meets the Non-Western Cultures requirement at UNI.
- \*\* Repeatable: see course description for number of times.
- \*\*\* CNS121 or ENV115/116 - only one can be taken toward the 7 credits of science.
- \*\*\*\* No credit if ECN120 or ECN130 is earned.
- (P) Must complete a prerequisite.
- (C) Must take a corequisite.
- E May be offered in the evening. In My Hawkeye, search for classes after 5:00 p.m.
- O May be offered online. In My Hawkeye, search for WEB in course

## Appendix F:

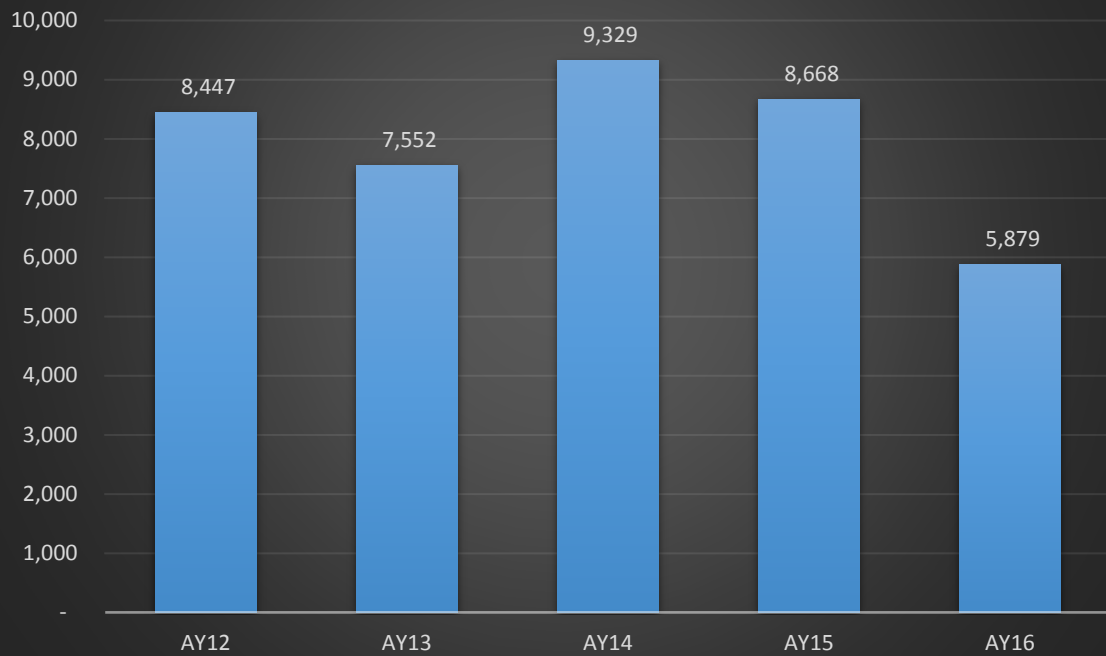

Evidence of Transfer Credit  
Alignment to College Policies

The Registrar’s Office audits all incoming transcripts and evaluates courses for purposes of awarding articulated credit based on defined Hawkeye Community College policy and procedures. The awarded transfer credit by Hawkeye Community College is based on the program of application for the student at the time of transcript evaluation. These credits are transferred to the official student record. A degree audit helps the student see where the awarded transfer-in credits are applied toward their overall program course requirements. If a student changes majors during their time at Hawkeye, the degree audit allows for re-evaluation and automatically applies the credit where applicable. This process helps to ensure the college awarding of transfer-in credit remains legitimate and communicated on an on-going basis to the student and all advising personnel.

Based on the College policies for awarding transfer-in credit, the following data reflects activity for the past five academic years.

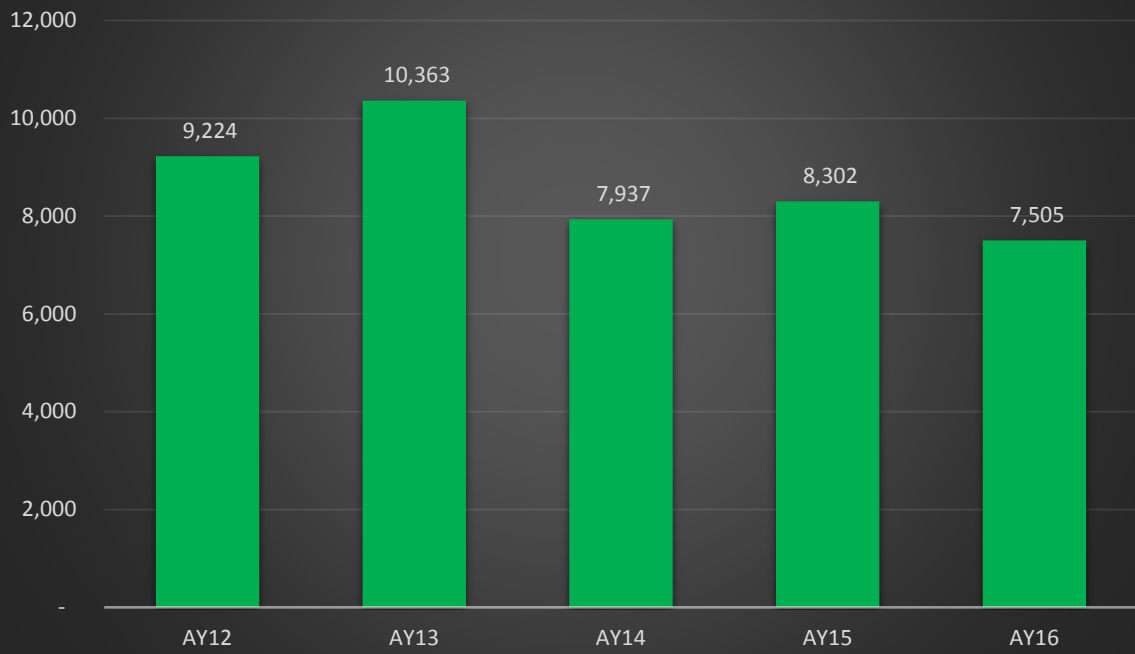

## Career & Technical Students Transfer-In Credit Hours

## Pre-Programs Students Transfer-In Credit Hours

## RECERTIFICATION OF YOUR INSTITUTION'S PARTICIPATION IN THE FEDERAL STUDENT FINANCIAL AID PROGRAMS

June 30, 2016

Dear President:

Your institution's Program Participation Agreement (Agreement), which authorizes participation in the Title IV student financial assistance programs, is scheduled to expire December 31, 2016.

To maintain your eligibility to participate in Title IV programs past the expiration date of your current Agreement, you must submit, no later than 90 days prior to the expiration date of your Agreement, a completed "Application for Approval to Participate in the Federal Student Financial Aid Programs" (Application), along with all supporting documentation. So that we can give equal processing time to all applications, we ask that you submit the Application by **September 30, 2016**.

Attached, please find information concerning the recertification process, instructions on the electronic submission of the application, and a list of School Participation Division contacts should you have questions about submitting the application. We also direct your attention to the last page of the attachment that discusses the process regarding the electronic Program Participation Agreement, and Eligibility and Certification Approval Report.

To assist schools with recertification, the Department of Education, FSA, is conducting a Webinar on **Wednesday, July 13, 2016 at 1:00pm EST / 10:00am PST**. This is specifically for schools that are due to submit a recertification application by September 30, 2016. We hope that you will take advantage of this opportunity to ensure the institution's continued participation in the Title IV programs.

830 First Street, NE | Union Center Plaza III - 7<sup>th</sup> Floor | Washington, DC 20202-5430

1-800-4-FED-AID

---

FEDERAL STUDENT AID  START HERE. GO FURTHER.

Please access the following link for the Webinar:

<http://fsatraining.acms.com/recertification/>

**Instructions to access the webinar:**

You will need to have a computer with an internet connection. The audio portion of the webinar will be streamed over the internet. A separate telephone conference line will not be provided. To listen to the webinar, participants must be able to listen to web-streamed audio via their computer (e.g., built-in or external speakers or headphones).

Fifteen minutes before the scheduled start time of this event, please click on the [Webinar Link](#), select “**Enter as a Guest**”, and then enter in your first and last name to join the meeting.

If you are hearing impaired, click:

ATTACHMENT

**INFORMATION CONCERNING THE RECERTIFICATION PROCESS**

**What information is considered when determining whether the institution continues to qualify for eligibility and certification for participation in the Title IV, HEA student financial assistance programs?**

The Department's decision will be based on the institution's adherence to the Institutional Eligibility regulations, 34 CFR 600, and the Student Assistance General Provisions regulations, 34 CFR 668. In making our decision, we consider:

- The information you provide in your application,
- The supporting documents you provide,
- Information about the licensure of your institution obtained from State authorizing agencies,
- Information obtained from accrediting agencies concerning your institution's accreditation status,
- The institution's Admissions policy, Satisfactory Academic Progress policy, Refund Policy and Return of Title IV Funds policy,
- Information maintained by the Department regarding the results of any on-site reviews of your institution's administration of the Federal student financial aid programs that have occurred,
- The findings of the annual student financial aid compliance audits and annual financial statements submitted by your institution, and
- Other relevant information.

**Why does the recertification application need to be submitted at least 90 days prior to the expiration of your Agreement?**

If the Department receives your application no later than 90 days prior to the expiration date of your Agreement AND the application is materially complete when submitted, your institution will automatically be on a month-to-month certification until the Department issues its decision on the application. If your application is denied, your institution's eligibility to participate in the Federal student financial aid programs will cease as of either the Agreement's expiration date, or if the Agreement has been extended on a month-to-month basis, the end of the month in which the denial of the application is issued.

**What happens if the application for recertification is not received 90 days prior to the expiration of your Agreement?**

If we are unable to complete our review of your application prior to the expiration date of your Agreement, your institution's authorization to continue participating in the Title IV programs will expire on the date stated in your Agreement. Federal student financial aid funding will lapse on the date your Agreement expires. The same consequences apply if the submitted application is not materially complete.

**What do I need to access the application electronically?**

- Internet access
- a forms-capable web browser
- the address for the electronic application -- <http://www.eligcert.ed.gov>
- your **8-digit** OPE ID, preceded by "ED"-- for your User Name (Example: ED09999900)
- your **9-digit** Taxpayer Identification Number (TIN) preceded by "ED" -- for your password (Example: ED999999999)

**Where can I find my User ID and password?**

You can find these numbers on your current Agreement and your Eligibility and Certification Approval Report (ECAR).

**How do I submit my Application?**

Upon completion of the electronic application, submit it electronically, and print a copy for your files. You will receive on-line confirmation that the U.S. Department of Education received your application. Note: You must submit a signature page, along with all the required supporting documentation by mail. Send the signature page signed by the appropriate authority along with any supporting documentation required by the application to the following address:

U.S. Department of Education  
School Participation Management  
School Eligibility Service Group  
830 First Street, NE  
Washington, DC 20202-5402

**Whom do I contact if I have questions?**

Please contact the School Participation Division for your state. Below is a list of the phone numbers for the School Participation Divisions.

New York/Boston School Participation Division - (646) 428-3750 & (617) 289-0133

New Jersey, New York, Puerto Rico, the Virgin Islands, Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont

Philadelphia School Participation Division - (215) 656-6442

Delaware, the District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia

Atlanta School Participation Division - (404) 974-9303

Alabama, Florida, Georgia, Mississippi, North Carolina, and South Carolina

Chicago/Denver School Participation Division - (312) 730-1511 & (303) 844-3677

Illinois, Indiana, Minnesota, Ohio, Wisconsin, Colorado, Michigan, Montana, North Dakota, South Dakota, Utah, and Wyoming

Dallas School Participation Division – (214) 661-9490  
Arkansas, Louisiana, New Mexico, Oklahoma, and Texas

Kansas City School Participation Division - (816) 268-0410  
Iowa, Kansas, Kentucky, Missouri, Nebraska, and Tennessee

San Francisco/Seattle School Participation Division - (415) 486-5677 & (206) 615-2594  
Arizona, California, Hawaii, Nevada, American Samoa, Guam, Federated States of Micronesia,  
Palau, Marshall Islands, Northern Marianas, Alaska, Idaho, Oregon, and Washington

### ***Electronic Program Participation Agreement and Electronic Eligibility and Certification Approval Report***

Your school's Eligibility and Certification Approval Report (ECAR) is available from the EAPP Website. Simply click on the hot link marked "Display PPA/ECAR." It will allow you to view (and print) a copy of your current ECAR. When the team has completed the approval of your recertification application, you will receive an email instructing you to go to the EAPP Website, print and read the transmittal letter as well as print and read **TWO (2)** copies of the Program Participation Agreement (PPA). You will need to have the appropriate person in authority sign **both** copies of the PPA and return them **both** to the Department of Education at the address in the transmittal letter. Once the PPA is countersigned, you will receive an email advising you that the updated ECAR and the school's approval letter are available from the website. The countersigned PPA will be mailed to the school.

## HAWKEYE COMMUNITY COLLEGE FOUNDATION LOAN FUND - PROMISSORY NOTE

I, \_\_\_\_\_, promise to pay to the Hawkeye Community College Foundation (hereinafter called the Lending Institution) located at Waterloo, Iowa, the sum of the amounts that are advanced to me and endorsed in the Schedule of Advances set forth below. I promise to pay all attorney fees and other collection costs and charges necessary for the collection of any amount not paid when due. The undersigned agrees that this loan is for an educational benefit as defined by 11 U.S.C. § 523.

### I. INTEREST

Interest shall accrue from the beginning of the repayment period and shall be at the ANNUAL PERCENTAGE RATE OF four and one-half percent (4.5%) interest on the unpaid balance.

### II. REPAYMENT

- (1) I may at my option and without penalty prepay all or any part of the principal, plus the accrued interest thereon, at any time.
- (2) Amounts I repay in the academic year in which the loan was made will be used to reduce the amount of the loan and will not be considered a prepayment.
- (3) If I repay more than the amount due for any installment, the excess will be used to prepay principal unless I designate it as an advanced payment of the next regular installment.

### III. DEFAULT

- (1) If I fail to make a scheduled repayment of any installment, the entire unpaid indebtedness including interest due and accrued thereon, plus any applicable penalty charges, will, at the option of the Lending Institution, become immediately due and payable.
- (2) I understand that if I default on my loan repayments the Lending Institution may disclose that I have defaulted, along with other relevant information to credit bureau organizations.
- (3) If I fail to pay on time and the Hawkeye Community College Foundation refers my account(s) to a third party for collection, a collection fee of up to 33% can be assessed and will be due and owing immediately upon default, along with all collection costs and reasonable attorney fees. I agree to make the Hawkeye Community College Foundation whole, and to reimburse the Foundation the fees of any collection agency up to 33% of the debt, and all costs and expenses, including collection costs and reasonable attorney fees, incurred in such collection efforts. I expressly authorize the Hawkeye Community College Foundation to enter into a contingent fee agreement with a collection agency or attorney for purposes of collecting this debt upon my default, and I agree that the Foundation may pass those costs on to me immediately upon default, up to 33% of the remaining debt, as a reasonable cost of collection.
- (4) I consent to allow the Hawkeye Community College Foundation and anyone who collects on its behalf to contact me about my account status, including past due or current charges, using prerecorded calls, email and calls or messages delivered by an automatic telephone dialing system to any wireless phone number or email address I provide. The Hawkeye Community College Foundation will treat any email address I provide as my private email that is not accessible by unauthorized third parties. Unless I notify the Foundation that my wireless service is based in a different time zone, calls will be made to my cellular device during permitted calling hours based upon the time zone affiliated with the mobile telephone number I provide.
- (5) Official Hawkeye Community College transcripts will be withheld upon default.

### IV. CHANGE IN NAME, ADDRESS, AND SOCIAL SECURITY NUMBER

I am responsible for informing the Lending Institution of any change or changes in my name, address, or social security number.

### V. PENALTY CHARGE

- (1) If I fail to make timely payment of all or any part of a scheduled installment, I promise to pay the charge assessed against me by the Lending Institution.
- (2) No charge may exceed – where the loan is repayable in monthly installments, \$5 for the first month or part of a month by which the installment is late, and \$5 for each month or part of a month thereafter, or
- (3) The Lending Institution will add the assessed charge to the outstanding principal of the loan.

# Private Education Loan Applicant Self-Certification

This space for lender use only

OMB No. 1845-0101  
Form Approved  
Exp. Date 05-31-2016

**Important:** Pursuant to Section 155 of the Higher Education Act of 1965, as amended, (HEA) and to satisfy the requirements of Section 128(e)(3) of the Truth in Lending Act, a lender must obtain a self-certification signed by the applicant before disbursing a private education loan. The school is required on request to provide this form or the required information only for students admitted or enrolled at the school. Throughout this Applicant Self-Certification, "you" and "your" refer to the applicant who is applying for the loan. The applicant and the student may be the same person.

**Instructions:** Before signing, carefully read the entire form, including the definitions and other information on the following page. Submit the signed form to your lender.

## SECTION 1: NOTICES TO APPLICANT

- Free or lower-cost Title IV federal, state, or school student financial aid may be available in place of, or in addition to, a private education loan. To apply for Title IV federal grants, loans and work-study, submit a Free Application for Federal Student Aid (FAFSA) available at [www.fafsa.ed.gov](http://www.fafsa.ed.gov), or by calling 1-800-4-FED-AID, or from the school's financial aid office.
- A private education loan may reduce eligibility for free or lower-cost federal, state, or school student financial aid.
- You are **strongly** encouraged to pursue the availability of free or lower-cost financial aid with the school's financial aid office.
- The financial information required to complete this form can be obtained from the school's financial aid office. If the lender has provided this information, you should contact your school's financial aid office to verify this information and to discuss your financing options.

## SECTION 2: COST OF ATTENDANCE AND ESTIMATED FINANCIAL ASSISTANCE

If information is not already entered below, obtain the needed information from the school's financial aid office and enter it on the appropriate line. Sign and date where indicated. See Section 5 for definitions of financial aid terms.

- A. Student's cost of attendance for the period of enrollment covered by the loan \$ \_\_\_\_\_
- B. Estimated financial assistance for the period of enrollment covered by the loan \$ \_\_\_\_\_
- C. Difference between amounts A and B \$ \_\_\_\_\_

**WARNING:** If you borrow more than the amount on line C, you risk reducing your eligibility for free or lower-cost federal, state, or school financial aid.

## SECTION 3: APPLICANT INFORMATION

Enter or correct the information below.

Full Name and Address of School \_\_\_\_\_

Applicant Name (last, first, MI) \_\_\_\_\_ Date of Birth (mm/dd/yyyy) \_\_\_\_/\_\_\_\_/\_\_\_\_

Permanent Street Address \_\_\_\_\_

City, State, Zip Code \_\_\_\_\_

Area Code / Telephone Number Home ( ) \_\_\_\_\_ Other ( ) \_\_\_\_\_

E-mail Address \_\_\_\_\_

Period of Enrollment Covered by the Loan (mm/dd/yyyy) From \_\_\_\_/\_\_\_\_/\_\_\_\_ to \_\_\_\_/\_\_\_\_/\_\_\_\_

If the student is not the applicant, provide the student's name and date of birth.

Student Name (last, first, MI) \_\_\_\_\_ Student Date of Birth (mm/dd/yyyy) \_\_\_\_/\_\_\_\_/\_\_\_\_

## SECTION 4: APPLICANT SIGNATURE

I certify that I have read and understood the notices in Section 1 and, that to the best of my knowledge, the information provided on this form is true and correct.

Signature of Applicant \_\_\_\_\_ Date (mm/dd/yyyy) \_\_\_\_\_

**SECTION 5: DEFINITIONS**

**Cost of attendance** is an estimate of tuition and fees, room and board, transportation, and other costs for the period of enrollment covered by the loan, as determined by the school. A student's cost of attendance may be obtained from the school's financial aid office.

**Estimated financial assistance** is all federal, state, institutional (school), private, and other sources of assistance used in determining eligibility for most Title IV student financial aid, including amounts of financial assistance used to replace the expected family contribution. The student's estimated financial assistance is determined by the school and may be obtained from the school's financial aid office.

A **lender** is a private education lender as defined in Section 140 of the Truth in Lending Act and any other person engaged in the business of securing, making, or extending private education loans on behalf of the lender.

A **period of enrollment** is the academic year, academic term (such as semester, trimester, or quarter), or the number of weeks of instructional time for which the applicant is requesting the loan.

A **private education loan** is a loan provided by a private education lender that is not a Title IV loan and that is issued expressly for postsecondary education expenses, regardless of whether the loan is provided through the school that the student attends or directly to the borrower from the private education lender. A private education loan does not include (1) An extension of credit under an open-end consumer credit plan, a reverse mortgage transaction, a residential mortgage transaction, or any other loan that is secured by real property or a dwelling; or (2) An extension of credit in which the school is the lender if the term of the extension of credit is 90 days or less or an interest rate will not be applied to the credit balance and the term of the extension of credit is one year or less, even if the credit is payable in more than four installments.

**Title IV student financial aid** includes the Federal Pell Grant Program, the Federal Supplemental Educational Opportunity Grant (FSEOG) Program, the Federal Work-Study (FWS) Program, the William D. Ford Federal Direct Loan (Direct Loan) Program, the Federal Perkins Loan Program, and the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program. To apply for Title IV federal grants, loans, and work-study, submit a Free Application for Federal Student Aid (FAFSA), which is available at [www.fafsa.gov](http://www.fafsa.gov), by calling 1-800-4-FED-AID, or from the school's financial aid office.

**SECTION 6: PAPERWORK REDUCTION NOTICE**

**Paperwork Reduction Notice:** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a currently valid OMB control number. The valid OMB control number for this information collection is 1845-0101. The time required to complete this information collection is estimated to average 0.25 hours (15 minutes) per response, including the time to review instructions, search existing data resources, gather and maintain the data needed and complete and review the information collection.

*If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:* U.S. Department of Education, Washington, DC 20202-4651

*If you have any comments or concerns regarding the status of your individual submission of this form, contact your lender.*

\* Final payment will be adjusted as necessary.

**Federal Loan Alternatives:**

You may qualify for Federal education loans. For additional information, contact the financial aid office or the Department of Education at [www.federalstudentaid.ed.gov](http://www.federalstudentaid.ed.gov)

Loan Program	Current Interest Rates by Program Type	
<b>STAFFORD</b> for students	4.66% fixed	Undergraduate subsidized
	4.66% fixed	Undergraduate unsubsidized
<b>PLUS</b> for parents		
	7.21% fixed	Federal Direct Loan

**Next Step:**

Notify Deb Lilly, Foundation Accountant at [debra.lilly@hawkeyecollege.edu](mailto:debra.lilly@hawkeyecollege.edu) or 296-4002 if you would like to accept the terms of this loan.

**Loan Limits:**

The maximum loan amount is:

\$1,000 per term for full-time students.

\$750 per term for 9-11 credits.

\$500 per term for 6-8 credits.

If program requires tools, loan amount may be increased. Must request thru the Foundation.

The maximum a student can borrow is:

\$4,000 over a two-year period.

\$5,000 over a three-year period.

**Repayment and Consolidation:**

The total amount financed, together with the finance charge, is to be repaid in monthly payments with the first payment due on the 25th of the 3rd month, or 90 days following graduation or withdrawal from Hawkeye Community College. Subsequent payments will become due on the 25th day of each month thereafter. HCC Foundation private loans cannot be consolidated with other educational loans to any servicer. This loan must be paid directly to the Hawkeye Community College Foundation.

**Deferral Information:**

If a Hawkeye graduate enrolls in another post-secondary institution, loan repayment may be deferred up to three years if the student is enrolled for a minimum of six credit hours. Interest will be deferred during the educational enrollment at a post-secondary institution. The loan may also be deferred for military service.

**Bankruptcy Limitations:**

If you file for bankruptcy you may still be required to pay back this loan.

**JOHN DEERE LOAN FUND through HAWKEYE COMMUNITY COLLEGE FOUNDATION**

**PO Box 8015 – 1501 East Orange Road – Waterloo IA 50704-8015**

The information on these pages relates to the loan through the Hawkeye Community College Foundation which you have been awarded. The Hawkeye Community College Foundation Office will retain this information for its permanent record file and you will receive a copy for your records. Please read the contents and follow the instructions listed below.

<b>CONTENTS</b>	<b>PAGE NO.</b>	<b>INSTRUCTIONS</b>
Loan Repayment Option	1	Read Provisions
Truth-in-lending Disclosure	1	You are the maker – complete all items below dotted line.
Student Information	2	Complete this page
Promissory Note	3	Insert your name on the line – read the provisions of the promissory note.
Promissory Note	3	Complete only sections VI and VII per instructions.

**Loan Repayment**

Repayment methods are as follows:

- If you complete the program and are employed by John Deere for a minimum of three years after receiving your degree, the entire amount of the loan is forgiven.
- If you withdraw from the program or do not become a John Deere employee, you are responsible for the entire loan, plus interest. The Hawkeye Foundation will establish a monthly installment plan with the loan balance being paid in full three years post termination of the program.
- If you complete the program and work at John Deere, however, not for the full three years, you are responsible for repaying a portion of the loan. The amount of the loan repayment is based on the number of months employed. Each month a portion of the loan is forgiven. The Hawkeye Foundation will establish a monthly installment plan with the loan balance being paid in full three years post termination of employment. Forgivable amounts are based on loan principal divided by 36 months (3 years of employment).

**LOAN TRUTH-IN-LENDING DISCLOSURE**

The JOHN DEERE loan which you have received, with an ANNUAL PERCENTAGE RATE OF 8% on the unpaid balance, is repayable in accordance with a repayment schedule to be executed at the time YOU WITHDRAW FROM THE PROGRAM AT Hawkeye Community College or terminate employment with JOHN DEERE before the three-year employment agreement is completed. The AMOUNT FINANCED is 2/3 tuition and fees for courses successfully completed and is repayable in accordance with the provisions of the promissory note and is subject to the provisions relating to DELINQUENCY and DEFAULT CHARGES specified in the promissory note form. Costs of retaking courses not successfully completed will not be paid by John Deere. The maker may, at his/her option, and without penalty, repay all or any part of the principal plus the accrued interest at any time.

## HAWKEYE COMMUNITY COLLEGE FOUNDATION LOAN FUND - PROMISSORY NOTE

The loan amount forwarded to me is forgivable once I complete 3 years of employment at John Deere. Otherwise, the following clause applies:

I, \_\_\_\_\_, promise to pay to the Hawkeye Community College Foundation (hereinafter called the Lending Institution) located at Waterloo, Iowa, the sum of the amounts that are advanced to me. I promise to pay all attorney fees and other collection costs and charges necessary for the collection of any amount not paid when due. The undersigned agrees that this loan is for an educational benefit as defined by 11 U.S.C. § 523.

### I. INTEREST

Interest shall accrue from the beginning of the repayment period and shall be at the ANNUAL PERCENTAGE RATE OF EIGHT PERCENT (8%) interest on the unpaid balance.

### II. REPAYMENT

- (1) I may at my option and without penalty prepay all or any part of the principal, plus the accrued interest thereon, at any time.
- (2) Amounts I repay in the academic year in which the loan was made will be used to reduce the amount of the loan and will not be considered a prepayment.
- (3) If I repay more than the amount due for any installment, the excess will be used to prepay principal unless I designate it as an advanced payment of the next regular installment.

### III. DEFAULT

- (1) If I fail to make a scheduled repayment of any installment, the entire unpaid indebtedness including interest due and accrued thereon, plus any applicable penalty charges, will, at the option of the Lending Institution, become immediately due and payable.
- (2) I understand that if I default on my loan repayments the Lending Institution may disclose that I have defaulted, along with other relevant information to credit bureau organizations.
- (3) If I fail to pay on time and the Hawkeye Community College Foundation refers my account(s) to a third party for collection, a collection fee of up to 33% can be assessed and will be due and owing immediately upon default, along with all collection costs and reasonable attorney fees. I agree to make the Hawkeye Community College Foundation whole, and to reimburse the Foundation the fees of any collection agency up to 33% of the debt, and all costs and expenses, including collection costs and reasonable attorney fees, incurred in such collection efforts. I expressly authorize the Hawkeye Community College Foundation to enter into a contingent fee agreement with a collection agency or attorney for purposes of collecting this debt upon my default, and I agree that the Foundation may pass those costs on to me immediately upon default, up to 33% of the remaining debt, as a reasonable cost of collection.
- (4) I consent to allow the Hawkeye Community College Foundation and anyone who collects on its behalf to contact me about my account status, including past due or current charges, using prerecorded calls, email and calls or messages delivered by an automatic telephone dialing system to any wireless phone number or email address I provide. The Hawkeye Community College Foundation will treat any email address I provide as my private email that is not accessible by unauthorized third parties. Unless I notify the Foundation that my wireless service is based in a different time zone, calls will be made to my cellular device during permitted calling hours based upon the time zone affiliated with the mobile telephone number I provide.
- (5) Official Hawkeye Community College transcripts will be withheld.

### IV. CHANGE IN NAME, ADDRESS, AND SOCIAL SECURITY NUMBER

I am responsible for informing the Lending Institution of any change or changes in my name, address, or social security number.

### V. PENALTY CHARGE

- (1) If I fail to make timely payment of all or any part of a scheduled installment, I promise to pay the charge assessed against me by the Lending Institution.
- (2) No charge may exceed – where the loan is repayable in monthly installments, \$5 for the first month or part of a month by which the installment is late, and \$5 for each month or part of a month thereafter, or
- (3) The Lending Institution will add the assessed charge to the outstanding principal of the loan.

### Annual Security and Fire Report

The Hawkeye Community College Annual Security and Fire Report is posted on the web for review by employees, prospective employees, students, prospective students, and parents. A hard copy of this report may be requested from the Public Safety office.

This notification is in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, 28 U.S.C. §1092(f), and the provisions of the Higher Education Opportunity Act Pertaining to Campus Statistics, 28 U.S.C. §1092(i). For more information or if you have specific questions regarding the Annual Security and Fire Report or security policies at Hawkeye Community College, contact the Public Safety office.

Hawkeye Community College is a public two-year community college with its main campus located in Waterloo, Iowa. The College has seven additional service locations: Cedar Falls Center; IowaWORKS – Cedar Valley; Independence Center; Metro Center; Martin Luther King, Jr., Center (MLK); Waverly Outreach Center; and Western Outreach Center. Hawkeye does not have any student organizations that own or control non-campus facilities.

The following is information to be reported pursuant to federal law and regulation. This report is intended to inform all current and prospective students and employees of the College's safety and security program.

**From:** [Nancy Henderson](#)  
**To:** [Nancy Henderson](#)  
**Subject:** Important Consumer Information and Transfer Information  
**Date:** Friday, September 04, 2015 4:59:17 PM

---

Dear Nancy,

This email is being sent with important pieces of information for all students.

Please be aware that you can find consumer information about the college at:  
[www.hawkeyecollege.edu/go/soar/consumer-information](http://www.hawkeyecollege.edu/go/soar/consumer-information)

This web address will provide you with direct links to pertinent college information.

Also, the Student Handbook can be found at the following link:  
[www.hawkeyecollege.edu/students/handbook](http://www.hawkeyecollege.edu/students/handbook)

This handbook will provide you with important college policies and procedures, including The Family Education Rights and Privacy Act (FERPA) dealing with the rights of students and parents.

The Student Conduct Code has been revised - be sure to review it here:  
[www.hawkeyecollege.edu/students/handbook/conduct](http://www.hawkeyecollege.edu/students/handbook/conduct)

There is a new Sexual Misconduct Policy - be sure to review it here:  
[www.hawkeyecollege.edu/go/soar/title-ix.aspx](http://www.hawkeyecollege.edu/go/soar/title-ix.aspx)

Finally, please be aware of the following information for students who plan to transfer to an Iowa Regent university (Iowa State, University of Iowa, University of Northern Iowa):

**Transfer in Iowa Web Portal Available**

Iowa's regent universities and community colleges have joined to create a web portal dedicated to assisting students with the transfer process. The site serves as a one-stop resource for students planning their future. The URL for the site is:  
[www.transferiniowa.org](http://www.transferiniowa.org)

Each year, thousands of students transfer from Iowa community colleges to one of the state's three public universities. Transferring from one college to the next can be a big step, but it doesn't have to be complicated. The website contains resources helpful in educational planning as well as information for students to discuss with their counselor/advisor(s).

The number one question transfer students ask is: *How will my credits transfer?* By following the links on the website, students can learn about how their community college courses transfer to each of the three state public universities.

The website contains resources explaining statewide articulation agreements and individual program-to-program articulation agreements by community colleges. These resources are useful for students planning to transfer as well as counselors and advisors. In addition to online resources, it's always a good idea for students to discuss their plans with both a community college and university counselor/advisor.

I hope this information is helpful to you. Best wishes for a successful term!

Nancy Henderson  
Dean of Students  
Hawkeye Community College  
Student Services Office  
Hawkeye Center - 2nd Floor

Appendix N:  
Student Right to Know

- **Student Right to Know – College Website**

**The Hawkeye Community College website is the main method of communication to prospective and current students, consumers, and constituents. Hawkeye Community College provides to students and the public the following [information requirements/Student-right-to-know](#), through different publications, notices, and communication methods, and via one single, easily-accessible online location: <http://www.hawkeyecollege.edu/financial-aid/consumer-information.aspx>**

- **Communication to Students from Dean of Students**

**At the start of each academic semester, the Dean of Students sends an email to all current students about where to find all Consumer Information/Right-To-Know/Disclosures information. A separate email is now sent to students regarding alcohol and drug policies.**

Dear Nancy,

Dear Nancy |

Please be aware that Hawkeye Community College is a drug-free, alcohol-free and tobacco-free campus. Controlled substances, alcohol, and tobacco products (including e-cigarettes) are not allowed on Hawkeye Community College property. The use of such products is also prohibited as part of any student trip or student activity.

The full policies can be found here:

[www.hawkeyecollege.edu/go/soar/drug-free](http://www.hawkeyecollege.edu/go/soar/drug-free)

[www.hawkeyecollege.edu/go/soar/tobacco-free](http://www.hawkeyecollege.edu/go/soar/tobacco-free)

The use and abuse of alcohol and other drugs can lead to serious health issues and in some instances can lead to death.

[www.niaaa.nih.gov/](http://www.niaaa.nih.gov/)

[www.dea.gov/druginfo/factsheets.shtml](http://www.dea.gov/druginfo/factsheets.shtml)

Be aware of the consequences of using and abusing controlled substances.

The Student Conduct Code can be found here: [www.hawkeyecollege.edu/go/soar/student-conduct](http://www.hawkeyecollege.edu/go/soar/student-conduct)

You are also subject to state and federal laws governing the use of controlled substances and alcohol. Be sure to read about the legal consequences of use and abuse:

## **2016-17 Financial Aid Award Letter Conditions**

Dear Student,

We are pleased to offer you a financial aid award for the 2016-2017 academic year. The award can be viewed on your My Hawkeye account under "WebAdvisor for Students - Financial Aid - Financial Aid Award Letter". The financial aid award is our commitment to assist you with the costs of attending Hawkeye Community College. The award listed is based on the results of your FAFSA application. Your award may also include funds from other sources, such as scholarships or outside agencies.

If you have already registered for classes, your financial aid award is based on your CURRENT enrollment. If you have not yet registered for classes, your financial aid award is ESTIMATED on FULL TIME enrollment.

You will only receive a financial aid disbursement for classes which you are registered for and attending (and meet financial aid requirements)-please refer to Financial Aid Handbook). Loans are normally not prorated for part time enrollment.

For planning purposes if you will be part time, your grants will be prorated:

- 9-11 hours (3/4 of the full time amount)
- 6-8 hours (1/2 of the full time amount)
- 1-5 hours (approx. 1/4 of the amount)

If you will be receiving a Next Step Scholarship or Hawkeye Gift of Class Scholarship, it is your responsibility to notify the Financial Aid Office. The Financial Aid Office will be notified by the Business Office once outside source scholarships are received. These amounts will become part of your financial aid package and may affect your current awards.

If you are a first year, first time student loan borrower, you must first establish 30 days of attendance in at least 6 credit hours in order to receive your first loan disbursement. Your first loan disbursement will be 30 days after the start of the first class in which you are reported as attending.

If your program requires summer enrollment of at least half time (6 credit hours), your annual federal loan amount may be divided into three terms, as you will see in your Award Letter in MyHawkeye/WebAdvisor. Grants are not divided into three terms, only loans.

If all of your awards were used between Fall 2016 and Spring 2017 semesters, you may not have any remaining eligibility for the summer semester. You will need to make sure you budget accordingly. If you want to use financial aid for your summer coursework, please contact us as soon as possible.

The 2016-2017 Financial Aid Handbook is available on the Hawkeye website at [www.hawkeyecollege.edu/go/financial-aid](http://www.hawkeyecollege.edu/go/financial-aid). Regularly check the website for any updates to the Handbook. Please read the Handbook carefully. It provides valuable information concerning your award and the financial aid process.

### **RIGHTS AND RESPONSIBILITIES:**

By accepting the financial aid award from Hawkeye, you are agreeing to the following:

1. You are responsible to read and understand all the information provided in the Financial Aid Handbook, Award Letter Email Notification, these Award Letter Conditions, and other financial aid documentation.
2. The award letter, while not a commitment of funds nor a binding contract, is an initial indication of funds available from federal, state, institutional, and outside funding sources in the award period.
3. Your financial aid award could change if your enrollment level changes, you do not attend classes, you receive outside resources, you attend other schools in the school year, you withdrawal from school, you are on financial aid suspensions, you enroll in repeated courses that are not financial aid eligible, or we receive any updates in your award eligibility from the Department of Education.
4. You are responsible for regularly checking both MyHawkeye and your Hawkeye student email account for updated information about your financial aid status as these are the official means of communication from our office.
5. The courses you are enrolled in must go toward your degree. Please refer to your Degree Audit for appropriate courses. If you have any questions, talk to your Academic Advisor.

### **WHAT TO DO NEXT:**

If you do *not* wish to borrow a Federal Stafford Loan:

1. To reject the loans you have been awarded, go to your MyHawkeye account – Financial Aid – Accept or Reject Federal Loans and mark as rejected. Note: you will continue to receive email notifications for the loan requirements. Please disregard. Those items must remain outstanding in case you choose to borrow loans at a later time.

If you wish to borrow a Federal Stafford Loan:

1. To accept the loans you have been awarded, go to your My Hawkeye account – Web Advisor for Students - Financial Aid - Accept/Reject Federal Loans and mark as accepted. If you do not wish to receive the full amounts awarded or plan to graduate by December 2016, complete a Partial Loan Request Form and return it to the Financial Aid Office. This form is available on the Hawkeye website under "Forms and Requirements".
2. For first time borrowers - complete the Master Promissory Note at [www.studentloans.gov](http://www.studentloans.gov).
3. For first time borrowers at Hawkeye Community College - complete the required Entrance Loan Counseling at [www.studentloans.gov](http://www.studentloans.gov).
4. For first time borrowers at Hawkeye Community College- complete the required Student Loan Game Plan at [www.studentloan.org](http://www.studentloan.org).

Please remember that you will need to be enrolled in at least 6 credit hours at the time of disbursement to receive the loan funds.

### **IF YOU HAVE BEEN AWARDED GRANTS:**

At the financial aid lock date, Grant aid is no longer adjusted for classes added or dropped. After the 14 calendar days each semester, attendance will be taken. Your enrollment for financial aid is LOCKED at that point. After the “lock” date, your grants will NOT be adjusted as a result of ANY changes to your schedule, including the addition of late start classes.

In the event that available state funds are insufficient to pay the full amount of each approved state grant, the Iowa College Student Aid Commission has the authority to administratively reduce the award.

### **FINANCIAL AID LOCK DATES:**

FALL 2016- September 04, 2016    SPRING 2017- January 23, 2017    SUMMER 2017- June 05, 2017

You must be reported as attending in each of your classes you have registered for in order for the class to be counted for financial aid purposes.

### **ADDITIONAL FUNDS:**

If you feel you need additional funds beyond what your Award provides, please go to the Hawkeye Financial Aid web site and review the Alternative Funding Options. You can also call our office and talk with a Financial Aid Advisor.

**DISBURSEMENT DATES/CREDIT BALANCE CHECKS:**

For the 2016-17 academic year, financial aid award will be disbursed to your student accounts as follows:

Fall 2016 – 09/07/16                      Spring 2017 – 01/25/17 Summer 2017 – 06/07/17

Credit balance checks for the financial aid award in excess of your institutional charges will begin being mailed or direct deposited as follows. To setup direct deposit, go to WebAdvisor for Students – Billing and Payment – Direct Deposit Student Refunds.

Fall 2016 – 09/09/15                      Spring 2017 – 01/27/17 Summer 2017 – 06/09/17

To set up direct deposit with the Business Office go to MyHawkeye-MyWebAdvisor-Webadvisor for Students-Billing and Payment-Direct Deposit Student Refunds

To view our bill or the amount of your credit balance, go to MyHawkeye – WebAdvisor for Students – Financial Aid – Account Summary By Term.

On behalf of the Financial Aid Office, we look forward to working with you. If you have any questions, please contact us.

**Hawkeye Community College Financial Aid Office**

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; marital status; sexual orientation; gender identity; genetic information; political affiliation or belief in its employment practices; educational programs and activities; admission procedures; outreach and recruitment; counseling and guidance; testing; selection, placement, appointment, and referral; or promotion/retention. Veteran status in educational programs, activities, employment practices, or admission procedures is also included to the extent covered by law. Students, prospective students, employees, or applicants for employment alleging a violation of equity regulations shall have the right to file a formal complaint. Inquiries concerning application of this statement should be addressed to: Equity Coordinator, Human Resource Services, Hawkeye Community College, 1501 East Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405.

**Hawkeye Community College, Financial Aid Office, 1501 E. Orange Road, P.O. Box 8015, Waterloo, IA 50704

- **Location of information disclosed to students through College website**

### **Financial Aid Information**

**A link on the consumer information page directs the reader to the Financial Aid Assistance Information Home Webpage, where the Financial Aid Handbook may also be found: Web address: <http://www.hawkeyecollege.edu/financial-aid/default.aspx>.**

**The link above provides financial aid information the reader may want to know including applying for aid, general eligibility, adjustments of awards, attendance policy for financial aid purposes, disbursement of aid, entrance and exit loan counseling, financial aid definitions, financial aid programs available, loan terms and repayment, return of Title IV funds, satisfactory academic progress, terms and conditions, course repeats, contact individuals, dates and deadlines, net price calculator and cost of attendance.**

**This link also connects the reader to scholarship information, student employment, other types of student loan information, tuition and fees, relevant forms, Veterans' information, and web resources.**

### **Graduation Rate**

**Graduation Rate data is updated on the website once per year in the spring semester after completion of the IPEDS Graduation Rates survey is complete. The graduation data for Male/Female is sent to the Webmaster to update the website. The Financial Aid Data is updated by the Financial Aid Office.**

**Web address: <http://www.hawkeyecollege.edu/students/handbook/student-rights/graduation-rate.aspx>**

### **Retention Rate**

**Retention Rate data is updated on the website once per year in the spring semester after completion of the IPEDS Enrollment survey is complete. The retention data for first-time full-time students based on the IPEDS report is sent to the Webmaster to update the website.**

**Web address: <http://www.hawkeyecollege.edu/students/handbook/student-rights/retention-rate.aspx>**

### **Transfer Out Rate**

**Transfer-Out Rate data is updated annually on the website in the spring semester after completion of the IPEDS survey. The transfer-out data is emailed to the Webmaster to update the website.**

**Web address: <http://www.hawkeyecollege.edu/students/handbook/student-rights/transfer-out-rate.aspx>**

### **Athletic Programs Requirements**

**US Department of Education information has not yet been produced for Hawkeye Community College since it reflects the prior year participation information. Hawkeye Community College was approved to offer intercollegiate athletic teams beginning Fall 2016.**

**Web address of HCC Athletics: <http://www.redtailathletics.com/navbar-inside>**

## **Male/Female Student Body Diversity**

*Student Body Diversity data for full-time students is updated once per year in the Fall semester. Data is collected using the Fall demographic information. The updated information is sent to the Webmaster to update the website as well as to the Financial Aid Office for their data piece. The Financial Aid Office updates the Pell Grant Recipients: Male/Female and Ethnicity.*

*Web address: <http://www.hawkeyecollege.edu/students/handbook/student-rights/student-body-diversity.aspx>*

## Withdrawal Processes

**The Withdrawal Process is clearly defined for students. Students also receive a college calendar at orientation that depicts the various withdrawal dates as they relate to financial or academic impact.**

**Web address:** <http://www.hawkeyecollege.edu/academics/records-registration/changing-your-course-schedule/drop-withdraw-from-a-course.aspx>

- **Information from website on withdrawing from course, important dates, and impacts**

## Drop/Withdraw from a Course

You are considered enrolled even if you stop attending classes. **Non-attendance and non-payment does not withdraw you from your course(s).**

### Before You Withdraw

- We recommend that you contact your instructor, academic advisor, or an academic counselor before withdrawing from a course at Hawkeye Community College. They may be able to suggest alternatives to withdrawing that could aid in your success.
- If you are receiving financial aid, please review the [financial aid withdrawal policy](#) and the [financial aid warning / suspension policy](#) or speak with a [Financial Aid Advisor](#) to learn how this may affect your financial aid eligibility.
- If you drop a course and then register for the same course that starts at a later date, your student account will be **charged for both courses** if you do not drop by the [tuition refund deadline](#).
- Review the [Tuition Refund for Credit Classes policy](#).
- Be aware of withdrawal deadlines. You are not permitted to withdraw after this time.

	Last Day to Withdraw without Academic Impact	Summer 2016	Fall 2016
16-week	5 business days before the end of the term.		Dec. 9
12-week	5 business days before the end of the term.		Dec. 9
10-week	4 calendar days before the end date of the course.		
8-week	First 8-week Fall/Spring and Summer 8-week: 3 calendar days before the end of the term.	July 24	Oct. 12
	Second 8-week Fall/Spring: 5 business days before the end of the term.		Dec. 12
6-week	2 calendar days before the end of the course.	1st session: June 25 2nd session: Aug 7	
5-week	2 calendar days before the end date of the course.		
4-week	1 calendar day before the end of the course.	1st session: June 27 2nd session: July 26	
Minimesters	1 calendar day before the end of the course.	May: May 13 August: July 28	

### Official Withdrawal Process

1. Log-in to [My Hawkeye](#) > WebAdvisor for Students > Registration.
2. Print the registration results as your documentation and proof of dropping a course(s).

You will receive a grade of "W" (official withdrawal) on your academic record. Withdrawing won't affect your GPA, but a "W" will remain on your permanent record.

Your withdrawal request date and your last date of attendance will be recorded as the day you withdraw on [My Hawkeye](#) > WebAdvisor for Students > Registration.

## Credits in Emergency Situations

If you are withdrawing due to an emergency situation and have completed two-thirds of the semester and the requirements of the course, you may request a grade from your instructor under the following conditions:

- [activation but not enlistment into the U.S. Armed Forces](#).
- serious personal or immediate family illness requiring you to drop out of college.
- other emergency circumstances that prevent you from finishing the semester. Your instructor's decision to this request will be final.

## What Happens If I Don't Follow the Official Withdrawal Process?

- You will not be considered officially withdrawn.
- You forfeit your right to a refund and will receive a final grade in each course in which you enrolled.

You will receive a grade of "F". Your last date of attendance will be recorded by your instructor.

## Consequences of Withdrawing or Changing Your Course Schedule or Program / Major

Dropping courses, withdrawing, and changing your program / major all have a negative impact on your financial aid eligibility and may leave you with a bill or result in you having to pay back unearned aid.

**If you plan to make any schedule changes**, please contact Financial Aid before dropping the class to discuss how the schedule change will affect your financial aid now and in the future.

### Changing Your Program / Major

For first-time borrowers, there is a [limit on the maximum period of time that you can receive Subsidized Loans](#). Changing your program / major can negatively affect your eligibility period.

### Dropping Courses / Withdrawing Can Result In:

- **Changes to your Financial Aid Award:** Your financial aid award is based on the number of credit hours you are enrolled in. If you withdraw from class before the [financial aid lock date](#), your award may be adjusted.
- **A Balance on Your Student Account:** You earn your financial aid based solely on the length of time you attend class at Hawkeye. Therefore, you may not have earned all of your financial aid when you withdraw or stop attending classes leaving you with a balance on your student account.

After the [tuition refund deadline](#), you are responsible to pay tuition and fees for classes from which you have not completed the [official withdrawal process](#).

See the [Financial Aid Handbook: Withdrawing—The Impact on Financial Aid](#) for more information on determining your earned / unearned financial aid.

- **Financial Aid Warning Status or Financial Aid Suspension:** If you attended past the [financial aid lock date](#) withdrawing from some of your classes may cause you to be put on [financial aid warning](#) or [financial aid suspension](#) due to [Financial Aid Satisfactory Progress Guidelines](#).

You will automatically be placed on financial aid suspension if you withdraw from all of your classes after the financial aid lock date.

- **Your Loans Going In to Repayment:** When you withdraw from all of your classes, or drop below six credit hours, any loans you received while attending Hawkeye will go into repayment.

See the [Financial Aid Handbook: Withdrawing—The Impact on Financial Aid](#) for the official policy

# Satisfactory Academic Progress for Financial Aid

Hawkeye Community College's Satisfactory Academic Progress standards for financial aid apply to all students who want to establish or maintain financial aid eligibility.

These standards apply to your entire academic transcript, including terms for which financial aid was not applied for or disbursed including classes taken while in high school.

Your academic progress is monitored at the end of each academic term.

**Financial Aid Satisfactory Academic Progress Standards is a different policy than the Academic Standards for Satisfactory Progress.** Academic suspension means you cannot attend nor receive financial aid at Hawkeye. However, you may be suspended from financial aid but not from Hawkeye so please always check with both [Academic Affairs](#) and Financial Aid.

## Standard 1: Successfully complete at least 2/3 (67%) of the credit hours of which you have cumulatively attempted

Only grades of A, A-, B+, B, B-, C+, C, C-, D+, D, and D- are counted as meeting the required credit/hours.

The following do not count as completed credits/hours and may affect Satisfactory Academic Progress: failed classes, audited classes, withdrawn classes, incomplete grades, no credit / no pass, and grade requital.

If your incomplete grade is what made you be on warning or suspension, print your grade and bring it to the Financial Aid office for review. To print your grade, go to My Hawkeye > WebAdvisor for Students > Academic Profile > [Final Grades & GPA by Term](#).

Hawkeye will count all credits towards your Satisfactory Academic Progress, but only accept the highest grade obtained.

## Standard 2: Complete your program within 150% of the published length of the program measured in credit hours attempted.

Courses taken for, but not limited to audit, credits earned via Institutional Proficiency Exams, Correspondence, Independent Study, and College Level Examination Programs will be included in the measurement of time period allowed for the pursuit of a degree. However, these courses are not eligible for financial aid and do not count toward reinstatement of aid after suspension.

Courses accepted by Hawkeye as transfer credits are included in completion and attempted credits for Satisfactory Academic Progress calculation purposes.

## Standard 3: Maintain a cumulative GPA of at least a 2.0 at all times

Maintain a cumulative GPA of at least a 2.0 at all times as defined by the [Academic Standards for Satisfactory Progress](#). This is monitored by the Academic Affairs office.

If you do not meet this standard, you will be suspended from Hawkeye and you will also lose your [financial aid eligibility](#).

See the Financial Aid Handbook for the full

Satisfactory Academic Progress policy

After one term of not complying with the [Financial Aid Standards for Satisfactory Academic Progress](#), you will be placed on warning status. You will be notified via your Hawkeye email.

This is a warning that you must meet the satisfactory academic progress standards for financial aid during your next term of enrollment.

While on warning status you will be eligible to receive financial aid unless other [financial aid withdrawal guidelines](#) apply.

However, if after one subsequent term you fail to meet any of the Satisfactory Academic Progress standards for financial aid, you will be placed on suspension status.

If you have been placed on warning status due to a grade reported in error or reported late, complete the [Warning Review Request Form \[pdf\]](#) and submit to the Financial Aid office.

After a second term of not complying with the [satisfactory academic standards for financial aid](#) you will be placed on suspension status. You will be notified via your Hawkeye email.

Once on suspension status, you will not be eligible to receive financial aid.

If you receive a **zero completion rate** in any term at Hawkeye, you will not receive one term of warning status, but will **automatically be placed on suspension status**.

It is your responsibility to monitor and keep track of your academic progress and to notify the Financial Aid office of any grade changes. If you have been placed on suspension status due to a grade reported in error or reported late, complete the [Suspension Review Request Form \[pdf\]](#) and submit to the Financial Aid office.

### **Appeal Process and Reinstatement**

You may [appeal your suspension status](#). If the Financial Aid Satisfactory Academic Progress Committee approves your appeal, your financial aid may be reinstated.

You are on probation status if your [Financial Aid Suspension appeal](#) has been approved AND it is possible for you to meet [Satisfactory Academic Progress standards for financial aid](#) within your next term of enrollment.

Once on probation status, you will be eligible to receive financial aid.

If you do not meet the Satisfactory Academic Progress standards for financial aid at the end of the term you will be placed back on suspension status.

If you were placed on suspension status, your appeal has been approved, and it is determined that you will not be able to meet the [Satisfactory Academic Progress standards for financial aid](#) in the next term, you will be placed on Academic Plan Status.

While on Academic Plan Status, you will need to meet with your academic advisor at the end of every term until you graduate to complete the Academic Plan Compliance form.

Each semester, the Financial Aid office will send you an email to your Hawkeye email notifying you that the Academic Plan Compliance form is available and the [deadline by which you must have the Academic Plan Compliance form completed and returned](#) to the Financial Aid office.

Return the completed [Academic Plan Compliance form \[pdf\]](#) to the Financial Aid office. We will use this form to determine if you are meeting the terms of your academic plan. If you are not meeting the plan, you will be placed on suspension status and will need to complete another [Financial Aid Suspension Appeal](#) if you wish to receive financial aid.

If at any time you are no longer following the plan and making academic progress, you will again be placed on suspension status.

[Academic Plan Compliance Form \[pdf\]](#)

- **Facility & Resource Accommodations for students**

(see next page for STC brochure)

**Student Tutoring & Computer Lab**

Bremer Hall Room 127

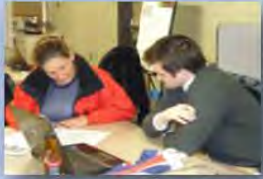

Welcome to the Student Tutoring and Computer Lab

The Student Tutoring and Computer Lab offers a variety of resources that are available for all current Hawkeye Community College students at no charge. Our goals are to support student success, to encourage active and effective learning, and to foster independence.

**Study Skills Assistance**

Students may use our study skills tutors for personal assistance in creating a study strategy that works for them. Students may also sign up to take a workshop in:

- Test Taking Skills
- Text Book Reading
- Time Management
- Note Taking Skills

**Tutoring**

We want to make sure that all Hawkeye students are successful in their courses. Getting the help you need can greatly improve your learning experience and performance in your classes.

We offer **free tutoring services** through professional, on-line, or peer tutors in order to help you succeed in a variety of areas: computer skills, study skills, math, science, writing, nursing, and more!

**Students with Special Needs**

Adaptive equipment and software is available in the Student Tutoring and Computer Lab. Discuss your adaptive equipment and software needs with the Special Needs Coordinator (Student Services in Hawkeye Center). They will work with you to determine individualized accommodations for testing and learning, which can include assistive technology.

The Computer Lab Coordinators in the lab can help you learn to use the equipment and applications. It is strongly suggested that you do this before classes start or as soon as possible.

## Computer Lab

The lab offers current Hawkeye students access to more than 80 computers, multifunction printers, and a wide variety of software applications used to support the many academic program areas across campus. We offer **free computer skills workshops** to all Hawkeye Community College students.

Computers are available on a first-come basis. The computer coordinators are available to assist you with Microsoft Office and other computer software related questions.

Workstations and study tables are also available for students who bring in laptops.

The Student Tutoring and Computer Lab is not always a quiet environment. Students are encouraged to use the library if they need a quiet place to work and study.

*This lab is available for current Hawkeye Community College students only. It is not open to the public. Children are not allowed into the Student Tutoring and Computer Lab.*

## Mission Statement

Empowering students by providing the services and skills necessary for academic success and life-long learning.

### Policies and Rules:

- The Student Handbook will be enforced.
- Students must dock in/out by the entrance.
- Children are not permitted in the lab.
- No food or drink is allowed at the computers.
- No talking or cell phones in the lab.
- No game playing of any kind on the computers.
- Priority of computer use is given to academic related usage.

Students who violate the Student Tutoring and Computer Lab Policies and Rules will have their right to use the lab suspended or revoked.

Students in violation of these policies are also subject to disciplinary action as defined in the student handbook.

## Lab Hours

Monday-Thursday	7:00 a.m. — 8:00 p.m.
Friday	7:00 a.m. — 4:30 p.m.
Sunday	Noon — 8:00 p.m.

Summer and holiday hours will change. Check My Hawkeye or the Hawkeye Community College website.

#### Nondiscrimination Statement

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; marital status; sexual orientation; gender identity; genetic information; political affiliation or belief in its employment practices; educational programs and activities; admission procedures; outreach and recruitment; counseling and guidance; testing; selection; placement; appointment; and referral; or promotion/retention. Veteran status in educational programs, activities, employment practices, or admission procedures is also included to the extent covered by law. Students, prospective students, employees, or applicants for employment alleging a violation of equity regulations shall have the right to file a formal complaint. Inquiries concerning application of this statement should be addressed to: Equity Coordinator, Human Resource Services, Hawkeye Community College, 1501 East Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405.

- **Disclosure of Annual Security and Fire Safety Reports**

**By October 1 of every year, the Annual Security and Fire Safety Report is made available on the College website. Students, staff, and faculty are notified annually of the publication by the Public Safety and Emergency Management Director via email. A paper copy can be requested from the Public Safety Office, located in the Hawkeye Center, 2nd floor. The most recent report is located here: <http://www.hawkeyecollege.edu/about/public-safety/security-report/default.aspx>**

- **Disclosure of Enrollment in Study Abroad**

**<http://www.hawkeyecollege.edu/academics/programs/study-abroad/enrollment-policy.aspx>**

The screenshot shows the Hawkeye Community College website. At the top, there is a header with the college logo, a 'CELEBRATING 50 YEARS' banner, and navigation links for Faculty & Staff, Employment, Register / Search for Courses, Calendars, and Contact Us. Below the header is a secondary navigation bar with links for My Hawkeye, Email, Canvas, and a search box. A main navigation bar contains links for ADMISSIONS, STUDENTS, ACADEMICS, BUSINESS & COMMUNITY EDUCATION, VISITORS & COMMUNITY, and ABOUT HAWKEYE. The breadcrumb trail reads: Home > Academics > Programs / Majors > Study Abroad >. The main content area is titled 'Study Abroad Enrollment Policy' and includes a sidebar with links to 'Brazil for Ag Instructors', 'Enrollment Policy', 'International Club', 'Scholarships', 'Semester Program in Brazil', 'Study Abroad in Mexico', and 'Study Abroad in Russia'. The main text is organized into sections: 'Study Abroad Application' (describing the application process), 'Academic Credit' (stating that participants must be enrolled in academic credit), 'Study Abroad Program Fees' (noting that individuals are responsible for tuition and program fees), 'Program Activities and Student Involvement' (expecting participation in all scheduled activities), and 'Student Conduct' (requiring adherence to college rules and policies). A 'Student Services' sidebar on the right provides contact information for the Hawkeye Center (208) and a phone number (319-296-4014). The footer contains a repeat of the main navigation bar and additional links like Home, My Hawkeye, Email, Faculty & Staff, Employment, Nondiscrimination Statement, College Credit Courses, Calendars, Translate, and Contact Us.

Transcript Request

**Grades**

Grade points on your transcript are recorded from the following scale:

Excellent	Above Average	Average	Below Average	Failing
A 4.00	B+ 3.33	C+ 2.33	D+ 1.33	F 0.00
A- 3.67	B 3.00	C 2.00	D 1.00	
	B- 2.67	C- 1.67	D- 0.67	

**I Incomplete** 0.00  
 You can make up a grade of "I" by making arrangements with your instructor and academic dean to complete the unfinished course. You must complete the work within the first 15 days of the next 16-week semester unless you have extenuating circumstances. After this period of time, the grade will be changed to an "F".

**N Audit** 0.00

**O Grade Requitai** 0.00  
 Awarded when a grade of "F" is required or forgiven.

**P Credit Earned/Pass** 0.00  
 Used exclusively in courses designated by the Vice President of Academic Affairs.

**Q No Credit/No Pass** 0.00  
 Used exclusively in courses designated by the Vice President of Academic Affairs.

**W Withdrew** 0.00

**<R Course Repeated** 0.00

These letter grades, descriptions, and points are used in all programs at Hawkeye Community College. An instructor or program may modify the grading system. Instructors are expected to inform you of their grading scale and procedures at the beginning of each course. The grading scale used by an instructor must be used for all students in a course and to all sections of a multi-section course.

Faculty determine the weight and value of final grades in their courses and are not obligated to use plus and minus grades. Hawkeye will record letter grades as reported by the instructor.

- **Alcohol and Drug policies**

<http://www.hawkeyecollege.edu/about/public-safety/policies-regarding-alcohol-and-illegal-drugs.aspx>

### **Drug-Free Campus**

Hawkeye strives to provide a drug-free campus to promote optimal learning. The possession, consumption, and use of alcoholic beverages, or any controlled substance on any Hawkeye property is inconsistent with the educational philosophy of Hawkeye.

Possession, consumption, and use of alcoholic beverages or controlled substances is not allowed unless items are used as a part of an approved educational program. Hawkeye controlled finances cannot be used for the purchase or sale of these items on or off Hawkeye's property unless items are used as a part of an approved educational program.

The possession of illegal drugs is not permitted on Hawkeye's property or while you are participating in a Hawkeye sponsored event off campus. Violations will result in **disciplinary action** and may have legal consequences as defined by federal, state, and local laws. (Drug-Free Workplace Act of 1988, P.L. 100-690)

### **Controlled Substances**

Controlled substances include, but are not limited to illegal and prescription drugs.

It is illegal for any person to

- manufacture, deliver, or possess a controlled substance
- possess with the intent to manufacture or deliver a controlled substance
- enter into a common scheme or design with, or conspire with one or more other persons to manufacture, deliver, or possess with intent to manufacture or deliver a controlled substance
- possess with intent to deliver a counterfeit or simulated controlled substance

Offenses of controlled substances and penalties are described in full in [Chapter 124 of the State of Iowa Code](#). Violations may result in simple, aggravated, or serious misdemeanors, or class C and D felony charges. [Federal trafficking penalties can be found online](#). Students will be disciplined according to the [Hawkeye's disciplinary policies](#).

## Hawkeye Bookstore

[Hawkeye Bookstore](#), independently owned and operated, is your place for official Hawkeye Community College textbooks, gear, and supplies.

### Charging to Your Student Account

Hawkeye allows all registered students to charge required textbooks, software, calculators, and flash drives to their student college account during specific dates at the beginning of a semester.

Students are responsible for any bookstore charges added to their student college account if they do not have enough financial aid to cover the expense.

Students have the option to pay Hawkeye Bookstore directly, without charging to their student college account.

### Registered for a Late Start Class?

Students with approved financial aid may receive a Guernsey Loan to pay for required textbooks, software, calculators, and flash drives for late start classes. Contact the [Business Office](#) for more information.

## Hawkeye Bookstore

[Hawkeye Center 202](#)  
 319-296-3455  
[Email us](#)

### Regular Hours

Monday-Friday  
 8:00am-4:30pm

### Bookstore Information

You may charge books to your HCC student charge account beginning August 12, 2016. To do this, please bring a copy of your schedule, your seven-digit student College I.D. number and a Photo I.D. when you purchase your books. You are responsible for paying the balance of your account after financial aid has been applied to your invoice.

Hawkeye Bookstore located in Hawkeye Center is open for your convenience the following hours:

Friday	August 12	8:00 a.m. – 4:30 p.m.
Monday-Thursday	August 15-18	8:00 a.m. – 6:00 p.m.
Friday	August 19	8:00 a.m. – 4:30 p.m.
Saturday	August 20	11:00 a.m. – 4:00 p.m.
Monday-Thursday	August 22-25	8:00 a.m. – 6:00 p.m.
Friday	August 26	8:00 a.m. – 4:30 p.m.
Resume Regular hours	August 29	8:00 a.m. – 4:30 p.m.

Textbooks can be ordered online by going to <http://www.hawkeyebookstore.com>. Online orders will be mailed to the address you provide us we will have free shipping available July 22<sup>nd</sup>-August 12<sup>th</sup>. We will offer a limited number of in-store pick up orders as storage capacity allows. If it is no longer available when you place your order, we have met our limit and will no longer be able to accept in-store pickup orders. Four ways to save money on textbooks- 1)Rent textbooks whenever possible. 2)Purchase used books. 3)Purchase E-Books. 4)The Hawkeye Bookstore price comparison tool.

<http://www.hawkeyecollege.edu/financial-aid/consumer-information.aspx>

---

## Student and Consumer Information

Hawkeye Community College is required by the federal government, through the Higher Education Act of 1965, as amended, to provide all students with specified consumer information. This includes, but is not limited to all information that is related to financial aid including costs of attendance, awarding policies, the availability of need and non-need-based aid programs, application and renewal of financial aid, loan availability, terms, and interests rates.

Following are some of the additional consumer information items that you have a right to review.

### Institutional Information

- Accreditation
- Code of Conduct for Educational Loans Summary
- Employee Directory
- Filing Complaints with Accreditor, State Agency, or Other Relevant Official
- Financial Assistance Information
- Gainful Employment
- High School Completion Program
- Mission Statement
- Programs / Majors
- Recommended Immunizations
- Refund Policy
- Satisfactory Academic Progress Guidelines
- Student Book Purchase Policy
- Student Disabilities Services
- Tuition and Fees
- Withdrawal Procedure
- Voter Registration

### Student Right-to-Know

- Crime Statistics Report—Clery Act
- Campus Emergency Response and Immediate Notifications
- Alcohol and Other Drug Policy
- Tobacco Free Campus
- Financial Aid Family Education Rights and Privacy Act (FERPA) Policy
- Student Outcomes Data
- Sex Offender Registry

- Veterans Consumer Information—Planning Your College Costs
- Technology Policies
  - Computer Misconduct and Copyright Infringement
  - Computer Usage Policies
  - Copyright Infringement and Peer-to-Peer File Sharing Policy
  - Hawkeye Email
  - My Hawkeye Account

### Transfer of Credit Policies

- Transferring from Hawkeye to another college or university
- Transferring credits to Hawkeye
- Articulation Agreements

You may request a copy of any of the above Hawkeye policies / reports by contacting the Financial Aid office.

Student Handbook | Next Page >

- Copyright Infringement Policies:  
<http://www.hawkeyecollege.edu/students/handbook/copyright-infringement-and-peer-to-peer-file-sharing-policy.aspx>

### Copyright Infringement and Peer-to-Peer File Sharing Policy

It is the intention of Hawkeye Community College to protect its users (students, faculty, staff, and guests) and to protect itself from copyright infringement violations. In order to do this, and in compliance with federal law, Hawkeye Community College is making this guide and policies available to the campus community.

It is illegal to copy or distribute material that is protected by copyright, trade secret, patent, or other intellectual property laws. Violation of these laws may result in disciplinary actions by Hawkeye Community College and legal action by state or federal government agencies.

For further information about copyright and laws governing copyright, visit [www.copyright.gov](http://www.copyright.gov).

#### Peer-to-Peer File Sharing

Hawkeye Community College prohibits the use of peer-to-peer file sharing applications on its network, including wireless network services, to transmit, exchange or copy any music, software, or other materials which are protected by copyright or intellectual property rights. Violation of this prohibition may result in disciplinary action by Hawkeye Community College as outlined in the Student Handbook.

#### Digitization of Materials

Hawkeye Community College prohibits copying and distribution, digital or otherwise, of copyrighted material, including, but not limited to software, printed, audio, or video material. In addition to digital files, this includes copyrighted books and other printed or film materials that may be duplicated with a photo copier, recording device, camera, CD/DVD burner or other similar duplicating device.

#### Software Agreements

Hawkeye Community College is strictly governed by licensing agreements for software that is used in offices, classrooms, and computer labs. Unauthorized access, copying or distribution of licensed software is prohibited and may result in disciplinary actions by Hawkeye Community College and possible legal actions by the software owners or their companies.

#### Hawkeye Community College Efforts

Hawkeye Community College, in compliance with federal laws and guidelines, will work to limit the distribution of copyrighted material on its network. If a violation is detected, Hawkeye Community College will make every effort to stop and nullify that violation and assist federal authorities as required by law. Communication and Information Services personnel will report and detected violations to Hawkeye Community College administration.

- Cost of Attendance (Also found in the FA Handbook:  
<http://www.hawkeyecollege.edu/go/financial-aid/forms-documents.aspx>)

### Cost of Attendance

A student's financial need is based on the total Cost of Attendance at Hawkeye. In addition to defining financial need, the Cost of Attendance sets the limit on the total financial aid a student may receive. The cost components that can be included are prescribed by law.

Hawkeye's cost of attendance is an estimate based on average educational expenses you can incur while attending classes at Hawkeye.

#### Estimated Cost of Attendance for Financial Aid Purposes

Based on a nine-month academic year of a full-time student living on their own.

<b>Tuition</b>	See <a href="#">Cost per Credit Hour</a> .	\$4,572
<b>Fees</b>	See <a href="#">Cost per Credit Hour</a> .	\$214
<b>Off-Campus Room and Board</b>	Costs for room and board vary depending upon dependency status and your living arrangement, such as living with a parent or in an apartment.	\$8,082
<b>Books</b>	The cost of books and supplies varies each semester and largely depends on your needs and your program / major. Contact the <a href="#">Hawkeye Bookstore</a> for information about the cost of books.	\$1,254
<b>Personal Expenses</b>	Personal expenses vary according to personal circumstances and spending habits.	\$1,764
<b>Transportation</b>	Transportation expenses vary depending on how far you live from campus and your vehicle.	\$1,530
<b>Student Loan Fees</b>		\$61
<b>Hawkeye's Total Cost of Attendance</b>		<b>\$17,477</b>

#### Do You Need to Purchase Tools or Equipment for Your Program?

If you feel that your cost of attendance should be adjusted for financial aid purposes because you are enrolled in a program that requires tools or equipment, contact the Financial Aid office.

#### Are You Enrolled in Five or Fewer Credits?

If you are enrolled less than half-time—five or fewer credits—your cost of attendance for financial aid cannot include housing, personal, or miscellaneous expenses.

- **Crime, Security, and Fire (Annual Security Report):** The Annual Security and Fire Safety Report is made available on the College website. Students, staff, and faculty are notified annually of the publication. A paper copy can be requested from the Public Safety Office, located in the Hawkeye Center, 2nd floor. The most recent report is attached here:  
<http://www.hawkeyecollege.edu/about/public-safety/security-report/default.aspx>

### Annual Security and Fire Safety Report

The Hawkeye Community College Annual Security and Fire Report is posted on the web for review by employees, prospective employees, students, prospective students, and parents. A hard copy of this report may be requested from the Public Safety office.

This notification is in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, 28 U.S.C. §1092(f), and the provisions of the Higher Education Opportunity Act Pertaining to Campus Statistics, 28 U.S.C. §1092(i). For more information or if you have specific questions regarding the Annual Security and Fire Report or security policies at Hawkeye Community College, contact the Public Safety office.

Hawkeye Community College is a public two-year community college with its main campus located in Waterloo, Iowa. The College has seven additional service locations: Cedar Falls Center; IowaWORKS – Cedar Valley; Independence Center; Metro Center; Martin Luther King, Jr., Center (MLK); Waverly Outreach Center; and Western Outreach Center. Hawkeye does not have any student organizations that own or control non-campus facilities.

The following is information to be reported pursuant to federal law and regulation. This report is intended to inform all current and prospective students and employees of the College's safety and security program.

[Download Complete Annual Security and Fire Safety Report \[pdf\]](#)

[Student Handbook | Next Page >](#)

- **Drug/Alcohol Policy:**  
<http://www.hawkeyecollege.edu/students/handbook/conduct/drug-free-campus.aspx>

### Policies Regarding Alcohol and Illegal Drugs

The Student Handbook and the Personnel Handbook contain policies governing the possession and use of alcohol as well as the policy governing illegal drugs. Briefly stated, the College respects the laws of Iowa which have established the legal drinking age at 21. Illegal drugs are not permitted on College property. Hawkeye Public Safety officers enforce College policies prohibiting the underage drinking and drug laws. The College cooperates with all law enforcement agencies in the enforcement of laws pertaining to the use, sale and possession of alcohol and illegal drugs.

Students should refer to the Hawkeye Community College [Student Handbook](#) for a more detailed description of the alcohol, illegal drug, and other College policies.

Employees should refer to the Personnel Handbook for a more detailed description of alcohol, illegal drug, and other College policies affecting employees. The College provides information and referrals to students and employees regarding drug and alcohol abuse education and treatment programs such as Pathways Behavioral Services, Peoples Community Health Clinic, and Black Hawk-Grundy Mental Health Center, Inc. The College community can access information about [drug and alcohol-abuse education programs](#) by reviewing the report that complies with the Drug Free Schools and Communities Act.

- **Equal Opportunity Policy, Nondiscrimination Statement, Complaint of Discrimination:**  
<http://www.hawkeyecollege.edu/about/equal-opportunity/default.aspx>

### Equal Opportunity/Affirmative Action

Hawkeye Community College is committed to maintaining an educational and work environment in which students, faculty, and staff can work together in an atmosphere free of discrimination, harassment, exploitation, or intimidation.

[Student Handbook | Next Page >](#)

## Nondiscrimination Statement

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; sexual orientation; gender identity; genetic information; political affiliation; or actual or potential parental, family, or marital status in its programs, activities, or employment practices as required by Iowa Code §§ 216.6 and 216.9, Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d and 2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1681-1688), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and Title II of the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.). Veteran status is also included to the extent covered by law. Any person alleging a violation of equity regulations shall have the right to file a formal complaint. Inquiries concerning application of this statement should be addressed to: John Clopton (Equity Coordinator and Title IX Coordinator for Employees) or Nancy Henderson (Title IX Coordinator for Students), Hawkeye Community College, 1501 East Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405, email: [equity-titleIX@hawkeyecollege.edu](mailto:equity-titleIX@hawkeyecollege.edu), or the Director of the Office for Civil Rights, U.S. Department of Education, Citigroup Center, 500 W. Madison, Suite 1475, Chicago, IL 60661, phone number 312/730-1560, fax 312/730-1576.

[Student Handbook | Next Page >](#)

## Complaint of Discrimination

Students, prospective students, employees, applicants for employment, or any other interested persons who feel that they have experienced discrimination should contact the Equity Coordinator. Consult the appendices of the [Affirmative Action Plan \[pdf\]](#) for more details.

All complaints and inquiries shall be promptly investigated. The result of the investigation will be reported to the President or designated official for review and final decision.

Current students, faculty, and staff can access the [Procedure for Resolution of Discrimination Complaints \[pdf\]](#) in My Hawkeye.

[Student Handbook | Next Page >](#)

- Family Educational Rights and Privacy Act (FERPA) and Confidentiality of Records: <http://www.hawkeyecollege.edu/financial-aid/FERPA.aspx>

## Privacy of Your Records

### Family Educational Rights and Privacy Act (FERPA)

This act offers students certain rights with respect to their education records.

1. **Students have the right to inspect and review their education records within 45 days of the day Hawkeye Community College receives a request for access.** Students should submit to the Director of Student Records and Registration or to an academic dean, written requests that identify the record(s) they wish to inspect. A Hawkeye Official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Hawkeye Official to whom the request was submitted, that Official will advise the student of the correct Official to whom the request should be addressed.
2. **Students have the right to request the amendment of their education records that the student believes is inaccurate.** Students may ask Hawkeye to amend a record that they believe is inaccurate. They should write the Hawkeye Official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If Hawkeye decides not to amend the record as requested by the student, Hawkeye will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **Students have the right to consent to disclosures of personally identifiable information contained in their education records, except to the extent that FERPA authorizes disclosure without consent.**

One exception that permits disclosure without consent relates to directory information. Directory information is designated student information that is generally not considered harmful or an invasion of privacy if released. Directory information is designated to be used internally within Hawkeye but its purpose may also be to allow Hawkeye to include this type of information about a student in certain school publications including, but not limited to school directory, yearbook, honor roll or other recognition lists, and graduation programs.

Hawkeye may designate the following information as directory information:

- student's name
- date of birth
- grade level
- enrollment status
- major field of study
- dates of attendance
- degrees and awards received
- photograph or other likeness
- most recent previous educational agency or institution attended by the student
- other similar information

Hawkeye may designate the following information as directory information which may be released with a signed request and photo ID of the requester:

- student's address
- telephone number
- email address

Hawkeye will require a court-ordered subpoena to release any other information concerning a student's record.

Students who do not wish Hawkeye to release directory information should [complete a Request to Prevent Disclosure of Directory Information form](#) with the Student Records and Registration office.

Another exception to the consent requirement is disclosure to school officials with legitimate educational interests. A school official is a person employed by Hawkeye in administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom Hawkeye has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Additional exceptions to the consent requirement are Hawkeye may forward educational record information to requesting institutions in which the student seeks or intends to enroll if the information is necessary to protect the health or safety of the student or other individuals.

4. Hawkeye Community College, according to FERPA-34 CFR 99.34, may also disclose educational records to officials of another school, school system or institution of post-secondary education where the student seeks or intends to enroll, or where the student is already enrolled so long as the disclosure is for purpose of student's enrollment or transfer.
5. Solomon Amendment – Effective October 23, 1998, all colleges and Universities are required to comply with the final regulations of the Solomon Amendment. Information released is limited to military recruiting purposes only. Information released is limited to the current semester or the previous semester.

6. **Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by Hawkeye to comply with the requirements of FERPA.** The name and address of the office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue SW  
Washington, DC 20202-4605

[Student Handbook | Next Page >](#)

- Financial Aid Handbook: <http://www.hawkeyecollege.edu/go/financial-aid/forms-documents.aspx>

## Financial Aid Handbook 2015-2016

[www.hawkeyecollege.edu](http://www.hawkeyecollege.edu)

All financial aid information is subject to change per Department of Education and Federal regulations. While Hawkeye Community College believes that the information contained herein is accurate and factual, this publication has not been reviewed or approved by the U.S. Department of Education.

Hawkeye Community College does not discriminate on the basis of sex, race, age, color, creed, national origin, religion, disability, marital status, sexual orientation, gender identity, genetic information, political affiliation or belief in its employment practices; educational programs and activities, admission procedures, outreach and recruitment, counseling and guidance, testing, selection, placement, appointment, and referral; or promotion/retention. Veteran status in educational programs, activities, employment practices, or admission procedures is also included to the extent covered by law. Students, prospective students, employees, or applicants for employment alleging a violation of equity regulations shall have the right to file a formal complaint. Inquiries concerning application of this statement should be addressed to: Equity Coordinator, Human Resource Services, Hawkeye Community College, 1501 East Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405.

It is the goal of the Financial Aid Office to make it financially possible for all qualified students to attend Hawkeye Community College (Hawkeye). The financial aid programs at Hawkeye are administered in conjunction with the policy that the family is the primary and responsible resource for helping students meet their educational costs. Financial aid programs are available to assist in meeting the difference between potential resources and college expenses. This handbook is designed to help you understand the financial aid process and to explain the types of financial aid programs available to you during your education at Hawkeye. Please read the handbook carefully and monitor it regularly for updates.

If you have specific questions about your financial aid, write to the Financial Aid Office, Hawkeye Community College, 1501 East Orange Road, PO Box 8015, Waterloo, Iowa 50704-8015, call 1-800-670-4769 ext 4020 (locally 319-296-4020) or email at [faaid@hawkeyecollege.edu](mailto:faaid@hawkeyecollege.edu)

• Financial Aid Award Letter Conditions

**2016-17 Financial Aid Award Letter Conditions**

Dear Student,

We are pleased to offer you a financial aid award for the 2016-2017 academic year. The award can be viewed on your My Hawkeye account under “WebAdvisor for Students - Financial Aid - Financial Aid Award Letter”. The financial aid award is our commitment to assist you with the costs of attending Hawkeye Community College. The award listed is based on the results of your FAFSA application. Your award may also include funds from other sources, such as scholarships or outside agencies.

If you have already registered for classes, your financial aid award is based on your CURRENT enrollment. If you have not yet registered for classes, your financial aid award is ESTIMATED on FULL TIME enrollment.

You will only receive a financial aid disbursement for classes which you are registered for and attending (and meet financial aid requirements)-please refer to Financial Aid Handbook). Loans are normally not prorated for part time enrollment.

For planning purposes if you will be part time, your grants will be prorated:

- 9-11 hours (3/4 of the full time amount)
- 6-8 hours (1/2 of the full time amount)
- 1-5 hours (approx. 1/4 of the amount)

If you will be receiving a Next Step Scholarship or Hawkeye Gift of Class Scholarship, it is your responsibility to notify the Financial Aid Office. The Financial Aid Office will be notified by the Business Office once outside source scholarships are received. These amounts will become part of your financial aid package and may affect your current awards.

If you are a first year, first time student loan borrower, you must first establish 30 days of attendance in at least 6 credit hours in order to receive your first loan disbursement. Your first loan disbursement will be 30 days after the start of the first class in which you are reported as attending.

If your program requires summer enrollment of at least half time (6 credit hours), your annual federal loan amount may be divided into three terms, as you will see in your Award Letter in MyHawkeye/WebAdvisor. Grants are not divided into three terms, only loans.

If all of your awards were used between Fall 2016 and Spring 2017 semesters, you may not have any remaining eligibility for the summer semester. You will need to make sure you budget accordingly. If you want to use financial aid for your summer coursework, please contact us as soon as possible.

The 2016-2017 Financial Aid Handbook is available on the Hawkeye website at [www.hawkeyecollege.edu/go/financial-aid](http://www.hawkeyecollege.edu/go/financial-aid). Regularly check the website for any updates to the Handbook. Please read the Handbook carefully. It provides valuable information concerning your award and the financial aid process.

### **RIGHTS AND RESPONSIBILITIES:**

By accepting the financial aid award from Hawkeye, you are agreeing to the following:

6. You are responsible to read and understand all the information provided in the Financial Aid Handbook, Award Letter Email Notification, these Award Letter Conditions, and other financial aid documentation.
7. The award letter, while not a commitment of funds nor a binding contract, is an initial indication of funds available from federal, state, institutional, and outside funding sources in the award period.
8. Your financial aid award could change if your enrollment level changes, you do not attend classes, you receive outside resources, you attend other schools in the school year, you withdrawal from school, you are on financial aid suspensions, you enroll in repeated courses that are not financial aid eligible, or we receive any updates in your award eligibility from the Department of Education.
9. You are responsible for regularly checking both MyHawkeye and your Hawkeye student email account for updated information about your financial aid status as these are the official means of communication from our office.
10. The courses you are enrolled in must go toward your degree. Please refer to your Degree Audit for appropriate courses. If you have any questions, talk to your Academic Advisor.

### **WHAT TO DO NEXT:**

If you do *not* wish to borrow a Federal Stafford Loan:

2. To reject the loans you have been awarded, go to your MyHawkeye account – Financial Aid – Accept or Reject Federal Loans and mark as rejected. Note: you will continue to receive email notifications for the loan requirements. Please disregard. Those items must remain outstanding in case you choose to borrow loans at a later time.

If you wish to borrow a Federal Stafford Loan:

5. To accept the loans you have been awarded, go to your My Hawkeye account – Web Advisor for Students - Financial Aid - Accept/Reject Federal Loans and mark as accepted. If you do not wish to receive the full amounts awarded or plan to graduate by December 2016, complete a Partial Loan Request Form and return it to the Financial Aid Office. This form is available on the Hawkeye website under "Forms and Requirements".
6. For first time borrowers - complete the Master Promissory Note at [www.studentloans.gov](http://www.studentloans.gov).
7. For first time borrowers at Hawkeye Community College - complete the required Entrance Loan Counseling at [www.studentloans.gov](http://www.studentloans.gov).
8. For first time borrowers at Hawkeye Community College- complete the required Student Loan Game Plan at [www.studentloan.org](http://www.studentloan.org).

Please remember that you will need to be enrolled in at least 6 credit hours at the time of disbursement to receive the loan funds.

**IF YOU HAVE BEEN AWARDED GRANTS:**

At the financial aid lock date, Grant aid is no longer adjusted for classes added or dropped. After the 14 calendar days each semester, attendance will be taken. Your enrollment for financial aid is LOCKED at that point. After the “lock” date, your grants will NOT be adjusted as a result of ANY changes to your schedule, including the addition of late start classes.

In the event that available state funds are insufficient to pay the full amount of each approved state grant, the Iowa College Student Aid Commission has the authority to administratively reduce the award.

**FINANCIAL AID LOCK DATES:**

FALL 2016- September 04, 2016    SPRING 2017- January 23, 2017    SUMMER 2017- June 05, 2017

You must be reported as attending in each of your classes you have registered for in order for the class to be counted for financial aid purposes.

**ADDITIONAL FUNDS:**

If you feel you need additional funds beyond what your Award provides, please go to the Hawkeye Financial Aid web site and review the Alternative Funding Options. You can also call our office and talk with a Financial Aid Advisor.

**DISBURSEMENT DATES/CREDIT BALANCE CHECKS:**

For the 2016-17 academic year, financial aid award will be disbursed to your student accounts as follows:

Fall 2016 – 09/07/16                      Spring 2017 – 01/25/17                      Summer 2017 – 06/07/17

Credit balance checks for the financial aid award in excess of your institutional charges will begin being mailed or direct deposited as follows. To setup direct deposit, go to WebAdvisor for Students – Billing and Payment – Direct Deposit Student Refunds.

Fall 2016 – 09/09/15                      Spring 2017 – 01/27/17                      Summer 2017 – 06/09/17

To set up direct deposit with the Business Office go to MyHawkeye-MyWebAdvisor-Webadvisor for Students-Billing and Payment-Direct Deposit Student Refunds

To view our bill or the amount of your credit balance, go to MyHawkeye – WebAdvisor for Students – Financial Aid – Account Summary By Term.

On behalf of the Financial Aid Office, we look forward to working with you. If you have any questions, please contact us.

**Are you interested in studying to earn a high school equivalency diploma?**

We offer a free academic program to help you achieve your educational and professional goals.

To register for free classes with the Adult Education Program, come to Hawkeye Metro Center on the dates listed.

We offer classes in the mornings, afternoons, and evenings and we will work with you to create a schedule that fits your availability!

---

**2016 Dates**

Registration Quarter 1	Aug. 22 – 25
Assessments	Aug. 29 – Sept. 1
Quarter 1 Session starts	Sept. 6
Quarter 1 Session ends	Oct. 20
Registration Quarter 2	Oct. 10 – 13
Assessments	Oct. 17 – 20
Quarter 2 Session starts	Oct. 24
Quarter 2 Session ends	Dec. 15

Walk in any time between 9:00AM and 7:00PM during the registration period to sign up for classes!

Punctual and regular attendance is absolutely necessary for success. Students, please be on time and attend classes every day.

---

Hawkeye Community College offers the High School Completion program in the following convenient locations:	Metro Center 644 W. 4 <sup>th</sup> St. Waterloo, IA 50702 319-234-5745	Waverly Outreach Center 215 2 <sup>nd</sup> St. NW Waverly, IA 50677 319-286-4288
--	--	--

## Program Overview

The High School Completion Program at Hawkeye Community College offers free courses designed to help you to earn a high school equivalency diploma and become prepared for college and the workplace. Whether you've recently left school or have been out of class for years, our program works with students of all levels and ages to advance their education and accomplish their academic and professional goals.

### High School Completion

The High School Completion Program is designed to help students earn a high school equivalency diploma. Classes focus on building the skills necessary for success on the equivalency exam, which includes reading, writing, mathematics, social studies, and science. The testing fee is \$50.

### HiSET Exam

In 2014, the State of Iowa adopted the High School Equivalency Test (HiSET) as the exam that students take to earn a high school equivalency diploma.

## Frequently Asked Questions

### Q: How long will it take me to finish the program and earn a high school equivalency diploma?

Each student is different. Some students earn their high school equivalency in a few months while other students take a few years to complete the program. How long the program takes will depend on two primary factors: your academic level when you start the program and how much time and effort you put into studying, class time, and homework.

### Q: What will my classes be like?

After you complete placement testing, we will help you build a class schedule that is designed around your academic level. Periodically, you will take assessments to measure your progress and enroll in new courses.

### Q: I'm not yet 19 years old. Can I register for the Adult Education Program?

If you are 16, 17, or 18 years old, you will need to submit additional paperwork in order to register. 18 year-olds should contact our office prior to registration. 16 and 17 year-olds and a legal guardian should contact our office prior to registration in order to finalize the additional requirements and officially enroll in the program. Our office is located at the Hawkeye Metro Center, 844 W. 4<sup>th</sup> St. in Waterloo. We can be reached at 319-234-5745.

### Q: How can this program help me after I earn a high school equivalency diploma?

Are you interested in enrolling at Hawkeye Community College and working towards earning a college degree? Do you want to learn how to write a strong resume and apply for jobs online? Our Transition Specialist will help you to develop educational and professional goals, and then will help you with the transition process into various college and career opportunities. Our staff works with each student to ensure that earning a high school equivalency diploma will help you accomplish the goals you've set.

Hawkeye Community College does not discriminate on the basis of one's race, age, color, creed, national origin, religion, disability, sexual orientation, gender identity, genetic information, political affiliation, or actual or perceived parental, family, or marital status in programs, activities, or employment practices as required by Iowa Code §§ 218.4 and 218.8, Title VI and VII of the Civil Rights Act of 1964 (42 U.S.C. §§ 2003d and 2003e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1403-1409), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 7904), and Title I of the Americans with Disabilities Act (29 U.S.C. § 12101, et seq.). Sexual-stake holds included in the report covered by law. Any person alleging a violation of equity regulations shall use the right to file a formal complaint. Inquiries concerning application of this statement should be addressed to John Dugan, Equity Coordinator and Title IX Coordinator for Employees or Nancy Henderson, Title IX Coordinator for Students, Hawkeye Community College, 3821 East Chicago Road, P.O. Box 8015, Waterloo, Iowa 52270-8015; telephone 319-234-4325, email [equity@hcc.edu](mailto:equity@hcc.edu), or the Director of the Office for Civil Rights, U.S. Department of Education, 400 Maryland Drive, Washington, DC 20541; telephone 1-800-421-3481, fax 202-713-3481.

- Graduation, Retention and Student Body Diversity Information:  
<http://www.hawkeyecollege.edu/students/handbook/student-rights/student-outcomes-data.aspx>

## Student Outcomes Data

### Retention Rate

Retention rate is the percent of Hawkeye Community College's first-time, full-time undergraduate students who continue at Hawkeye the next year. The information reported is based on IPEDs report on a Fall 2014 cohort.

Hawkeye Community College's current first-time, full-time retention rate is 69%.

### Graduation Rate

The graduation rate reflects students who started classes in the Fall of 2012, completed their program of study, and applied for graduation within 150% of the suggested length of study.

For example, students who started a two-year program, completed the program in three years, and applied for graduation are calculated in the graduation rate.

The graduation rate does not count students who started a program in the Fall of 2012 but transferred their completed coursework to another college or university prior to graduating.

#### Graduation Rate—Cohort Year 2012

The graduation rate for individual programs may vary.

Male	24%
Female	23%
<b>Total Average</b>	<b>24%</b>

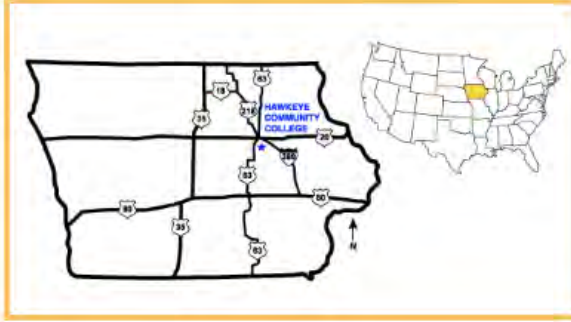

#### Graduation Rate Percentages by Gender and Race—Cohort Year 2012

	Male	Female
Nonresident Alien	0	0
Hispanic/Latino	15%	11%
American Indian or Alaska Native	0	0
Asian	0	100%
Black or African American	10%	3%
Native Hawaiian or Other Pacific Islander	0	0
White	26%	25%
Two or more races	17%	0

- Missing Student Procedure: <http://www.hawkeyecollege.edu/about/public-safety/missing-student.aspx>

### Missing Student Policy and Procedure

Hawkeye Community College is concerned about the safety of all students. The following procedure has been developed in order to assist in locating Hawkeye Community College student (s) living and working on the farm—located at 5503 Hammond Avenue, Waterloo, Iowa—who, based on facts and circumstances known to the College, are determined to be missing.

This procedure is in compliance with Section 488 of the Higher Education Act of 2008.

Most missing person reports in the college environment result from a student changing his/her routine without informing his/her roommates and/or friends of the change. Anyone who believes a student to be missing should report their concern to campus Public Safety, to local law enforcement (Black Hawk County Sheriff's Office, Waterloo Police Department, Cedar Falls Police Department, for example) to the Dean of Students, or a counselor in the Student Services office. Every report made will be followed up with an immediate investigation once a student has been missing for 24 hours.

Depending on the circumstances presented to Hawkeye Community College officials, parents of a missing student will be notified. In the event that parental notification is necessary, the Dean of Students or his/her designee will place the call. For students under 18 and not emancipated, Hawkeye will notify a parent/guardian in addition to any additional contact person designated by the student.

At the beginning of each academic year, residential students will be asked to provide, on a voluntary basis, emergency contact information in the event he/she is reported missing while enrolled at Hawkeye Community College. This emergency information will be kept in the Student Information System and will remain confidential.

### General Procedure

1. The Hawkeye Community College administrator receiving the report will collect and document the following information at the time of the report:
  - a. The name and relationship of the person making the report.
  - b. The date, time, and location the missing student was last seen.
  - c. The general routine or habits of the suspected missing student (e.g. visiting friends who live off-campus, working a job away from campus) including any recent changes in behavior or demeanor.
  - d. The missing student's cell phone number (if known by the reporter).
2. The Hawkeye administrator receiving the report will contact the Vice-President of Academic Affairs, the Academic Dean, the Dean of Students, and Public Safety in order to update them on the situation and to receive additional consultation. They will determine if/when other members of the Cabinet and the Director of Marketing need to be contacted.
3. Upon notification from any entity that a student may be missing, Hawkeye may use any or all of the following resources to assist in locating the student.
  - a. Call the student's room,
  - b. Go to the student's room,
  - c. Talk to the student's roommates to see if anyone can confirm the missing student's whereabouts and/or confirm the date, time, and location the student was last seen.
  - d. Secure a current student ID or other photo of the student from a friend.
  - e. Call/text the student's cell phone and call any other numbers on record.
  - f. Send the student an email.
  - g. Check all possible locations mentioned by the parties above including, but not limited to, library, lounges, student union, fitness center, etc.
  - h. Contact or call any other on-campus or off-campus friends or contacts that are made known. This could include checking a student's social networking sites such as MySpace, Facebook, and Twitter.
  - i. Ascertain the student's car color, make, model, and license plate number. Public Safety will also check Hawkeye parking lots for the presence of the student's vehicle.
4. The Technology Staff may be asked to obtain email logs in order to determine the last log in and/or access of the Hawkeye network.
5. Once all information is collected and documented and the Deans (or designee) are consulted, Hawkeye staff may contact the local police to report the information. (Note: If in the course of gathering information as described above, foul play is evident or strongly indicated, the police can be contacted immediately.) If it is necessary to contact the local or state authorities, police procedure and protocol will be followed by the College.

[Student Handbook | Next Page >](#)

- Refund and Return of Title IV Funds Policy (Also found in the FA Handbook: <http://www.hawkeyecollege.edu/go/financial-aid/forms-documents.aspx>)

### **RETURN OF TITLE IV FUNDS**

A student earns aid based solely on the length of time he/she attends. Until a student has passed the 60% point in the semester, only a portion of the student's disbursed aid has been earned. If a student completely withdraws or is expelled prior to the 60% point, then the Return of Title IV funds policy applies. For students taking classes that are less than 16 weeks in length, it is possible that withdrawing after completing a less than 16 week class will trigger this fund policy.

#### **1) Officially Withdrawal Procedure**

A student wishing to withdraw from Hawkeye has the responsibility for starting the withdrawal process. A student initiates and concludes the withdrawal process by dropping all classes on his/her "My Hawkeye" account. The Financial Aid Office does NOT withdraw students.

#### **2) Unofficial Withdrawal**

Students who did not earn credit for any of the courses they attended in a given term, and who did not officially withdraw or otherwise provide notice of their intent to withdraw, must be considered "unofficially withdrawn". Federal regulations mandate that, unless it can be documented that a student was in attendance past the 60% point in time of the term, a federal Title IV refund calculation be done. (Using the withdrawal date of either the midpoint of the term or the last date of attendance at a documented academically related activity, must be performed.)

#### **3) Refund Policy**

If a student completely withdraws during a period of enrollment for which he/she received financial aid, the Financial Aid Office will determine how much, if any, of the student's financial aid proceeds must be returned to the Department of Education based on a federally mandated refund formula. The Hawkeye Administrative software performs the calculations. The software can be reviewed upon request to the Financial Aid Office. We provide printouts of all calculations to students.

The term of "Title IV Funds" refers to the federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and includes the following programs: FFEL/Direct Unsubsidized Loans, FFEL/Direct Subsidized Loans, Perkins loans, FFEL/DIRECT Parent PLUS Loans, Pell grants, FSEOG, Iraq/Afghanistan Service Grant, and other Title IV Programs.

This policy applies to students who completely withdraw, are expelled, or stop attending all classes. It may potentially apply to students who stop attending short-term classes (i.e. classes that do not run the entire length of the semester) if those students are not also attending classes that run the full semester.

#### **A student's withdrawal date is:**

The date, as determined by Hawkeye, the student began the withdrawal process described by Hawkeye (refer to the official withdrawal procedure);

Or

The date, as determined by Hawkeye, the student otherwise provided official notification to a designated office of his or her intent to withdraw;

Or

If the student ceased attendance without providing official notification, the mid-point of the semester;

Or

The date, as determined by Hawkeye, of the last academic related activity.

Title IV aid and most other aid is earned on a pro-rata basis predicted on the academic calendar up to the 60% point in the semester; aid is viewed as 100% earned after that point in time. An example of the calculation is provided below or a copy can be requested from the Financial Aid Office.

In accordance with federal regulations, when Title IV financial aid is involved unearned aid is returned by the college to the Department of Education in the following order: Direct Unsubsidized Loans, Direct Subsidized Loans, Direct Parent PLUS Loans, Pell grants, FSEOG, Iraq/Afghanistan Service Grant, and other Title IV assistance.

It is the student's responsibility to return unearned aid that was disbursed directly to the student. Unearned loan proceeds paid directly to the student must be repaid under the terms and conditions of the promissory note. Unearned grant proceeds paid directly to the student must be returned by the student to the Department of Education. The amount of grant proceeds a student must repay is limited to the amount by which the grant overpayment exceeds half of the original grant funds. An overpayment of \$50 or less does not have to be repaid. The student must make arrangements with the Hawkeye Business Office or the Department of Education to return such grant proceeds. Failure to make repayment arrangements within fourteen (14) days of the date of the notice of overpayment, the student will be reported to the National Student Loan Data System (NSLDS) and will result in the loss of any further financial aid eligibility.

In the event that a student received less aid than the amount he/she earned at the time of withdrawal, the student is eligible to receive those funds. Hawkeye will notify the student of his/her eligibility of a post-withdrawal disbursement of aid. The student has 14 days to accept or decline these funds.

**The return of financial aid funds policy follows these steps:**

**Step 1: Determine the percentage of the enrollment period completed by the student.**

If the calculated percentage is equal to or greater than 60%, the student has "earned" all aid for the enrollment period and no adjustment in financial aid occurs. The nine days of Spring Break are not included in the enrollment period for the spring term.

$$\text{Days Attended} \div \text{Days in Enrollment Period} = \text{Percentage Completed}$$

**Step 2: Apply the percentage completed to the Title IV aid awarded to determine the student's eligibility for financial aid prior to the withdrawal.**

$$\text{Total Aid Disbursed} \times \text{Percentage Completed} = \text{Earned Aid}$$

**Step 3: Determine the amount of unearned financial aid to be returned to the appropriate Title IV financial aid program.**

$$\text{Total Disbursed Aid} - \text{Earned Aid} = \text{Unearned Aid to be Returned}$$

- If the aid already disbursed equals the earned aid, no further action is required.
- If the aid already disbursed is greater than the earned aid, the difference must be returned to the appropriate Title IV aid program.
- If the aid already disbursed is less than the earned aid, a late disbursement may be made to the student.

**Step 4: Determine if the institution and/or the student must return the unearned funds.**

The Hawkeye Community College Financial Aid Office is required to return any unearned TITLE IV funds that were applied towards institutional charges within 45 days in the following order:

- Federal Direct Unsubsidized Stafford Loan
- Federal Direct Subsidized Stafford Loan
- Federal Direct PLUS Loan (for parents of undergraduate students)
- Pell Grant
- SEOG
- Iraq Afghanistan Service Grant

The student will be informed by the Financial Aid Office of the type and amount of TITLE IV program funds that are being returned on his/her behalf. The student is required to return unearned aid that was directly disbursed to the student on his/her behalf. Unearned federal loan funds must be repaid by the student under the terms and conditions of the promissory note. Unearned grant funds must be returned to the Department of Education. The amount of unearned grant funds a student must return is limited to the amount by which unearned grant funds disbursed to the student exceed half of the original grant

award by \$50 or more. A student must make arrangements to return grant funds within 45 days of receiving notice from the Financial Aid Office. Failure to make payment arrangements will result in the loss of TITLE IV eligibility.

**Step 5: Determine earned TITLE IV assistance that has not been disbursed.**

Total Aid Earned – Total Aid Disbursed = Earned Aid not Disbursed

Grant aid that was earned, but has not been applied prior to the student withdrawal, will be applied to the student’s account within 45 days. Loan proceeds that could be disbursed after the student withdrew will only be disbursed if the student requests a disbursement within 14 days of receiving notice from the Financial Aid Office of his/her eligibility of a post-withdrawal loan disbursement.

\* The federal worksheet used to calculate the amount of TITLE IV assistance earned is available from the Financial Aid Office upon request.

**1) Example of Return of Title IV, State and Institutional Funds Calculation**

This example is for illustration purposes only. Actual charges and refund amounts may vary. The following is an example of a return of funds for a student who totally withdrew from classes on the 42nd day of a 102 day fall term ( $42/102 = 41.2\%$ ).

The student would have earned 41.2% of the financial aid for the fall semester. The remaining amount would have to be returned to the appropriate source.

	<u>Original</u>	<u>Revised</u>
Federal Direct Loan	\$1,698	\$ 288
Pell Grant	700	700
Iowa Vocational Technical Grant	1,200	1,200
Hawkeye Community College Scholarship	<u>900</u>	<u>900</u>
<b>Totals</b>	<b>\$4,498</b>	<b>\$3,088</b>

**2) Return of Hawkeye and State Financial Aid**

Once the student has attended beyond the fourteen (14) day full tuition refund period, the student is considered to have earned all of the Hawkeye aid and state aid for that semester.

**3) Financial Aid Adjustments**

Partial refunds will be calculated during the first fourteen (14) calendar days of class each semester – this is called the Financial Aid Lock Date. After that time if a student withdraws from a class, no financial aid adjustment will be made. For periods of enrollment that are less than the full semester, partial refunds will be prorated.

**4) Refund of institutional charges**

Students will receive 100% of tuition and fees during the first fourteen (14) days of each semester for full semester class tuition. For classes less than a full semester, charges are prorated. A description of the refund of institutional charges when a student withdraws is available from the Business Office or on the Hawkeye website.

- Tuition Refund Policy: <http://www.hawkeyecollege.edu/students/paying-for-college/tuition-refunds.aspx>

### Tuition Refund for Credit Classes

A tuition refund may be awarded if withdrawal is completed prior to the first class meeting or within the schedule below. This reduction in credit hours, or complete withdrawal, must be completed by the student. Also see the [official withdrawal process](#).

**Not attending class is not considered a form of withdrawal and you will still be responsible for paying the tuition and fees for those courses.**

	For a full refund of tuition and fees you must complete the <a href="#">official withdrawal process</a>	Fall 2016 Refund Deadlines	Spring 2017 Refund Deadlines

- STC Information Brochure

STC lab brochure.pdf

**Mission Statement**

Enhancing student learning by providing the services and skills necessary for success in our community and beyond.

**Program and Rules:**

- This program is non-credit and will be included in the student's record.
- Students must attend all lab sessions.
- Classrooms not permitted in the lab.
- No food or drinks allowed in the classroom.
- No talking on cell phones in the lab.
- No parking during lab sessions.

**Completion:**

- Priority of Computer Laboratory is to develop relationships.

Students who desire the Student Technology Center (located in the Student Center) for a class, please use the link provided on the website. Students in violation of these policies will be subject to disciplinary action as outlined in the Student Handbook.

**Lab Hours**

Monday-Thursday	7:00 a.m. – 8:00 p.m.
Friday	7:00 a.m. – 4:30 p.m.
Sunday	Noon – 8:00 p.m.

Summer and holiday hours will change. Check My Hawkeye on the Hawkeye Community College website.

- Student Book Purchase Policy (Also found in the FA Handbook: <http://www.hawkeyecollege.edu/academics/bookstore.aspx> )

#### Student Book Purchase Policy

Hawkeye has an independently operated bookstore located in the Hawkeye Center on the main campus. The college allows ALL registered students to charge **required** textbooks, software, calculators and flash drives to their student college account with the Business Office. Financial aid does NOT NEED to be finalized and ready to disburse prior to charging your books.

Students are responsible for any bookstore charges added to their student college account if they do not have enough financial aid to cover the expense.

Students have the option to pay Hawkeye Bookstore directly, without charging to their student college account with the Business Office.

Students that are enrolled for “late start” (non 16 week courses) classes (classes that start after the first day of the semester) can receive a Guernsey Loan to pay for required textbooks, software, calculators and flash drives IF their financial aid is finalized and ready to disburse. Please contact the Business Office for more information.

### Study Abroad

Brazil for Ag Instructors

Enrollment Policy

International Club

Scholarships

Semester Program in Brazil

Study Abroad in Mexico

Study Abroad in Russia

### Study Abroad Enrollment Policy

#### Study Abroad Application

To participate in a study abroad program, students must complete the appropriate program application and be approved by the International Student Services Coordinator and the faculty leader.

#### Academic Credit

Participants in an approved study abroad program must be enrolled in academic credit.

Participants traveling in a study abroad experience will receive an itinerary and program expectations outlined by the faculty/staff leader.

#### Study Abroad Program Fees

All individuals are responsible for full payment of tuition and program fees related to the study abroad program.

#### Program Activities and Student Involvement

Students are expected to participate in all scheduled activities as directed by the faculty leader and program itinerary. Students are to remain within a 30-mile radius of the faculty leader for the duration of the program and are not to partake in unscheduled activities that cross international borders or that would place them outside of this 30-mile radius for program management purposes. Students are required to attend all appropriate pre-departure orientations and post-program debriefings.

#### Student Conduct

All participants in study abroad must follow the rules and regulations of Hawkeye Community College.

The [Student Code of Conduct](#), [Academic Integrity Policy](#), and [Sexual Misconduct Policy](#) apply to students who are participating in travel activities. Failure to comply may result in dismissal from the program.

Alleged student conduct violations occurring during travel will be adjudicated according to the procedures described in the Student Study Abroad Contract and may ultimately result in the student being sent home at their own expense. In such cases, the faculty leader will notify the appropriate administrator at Hawkeye of the alleged misconduct. Disciplinary proceedings will be determined by the faculty leader, International Student Services Coordinator, and the Dean of Students. Such decision will be made on a case-by-case basis.

**Appendix O:**  
**Satisfactory Academic Progress  
and Attendance Policies**

The Higher Education Act of 1965, as amended, requires students to maintain satisfactory progress toward their degree in order to receive financial aid. Hawkeye Community College's Satisfactory Progress Standards for financial aid apply to all students who want to establish or maintain financial aid eligibility for federal, state and institutional programs. These include but are not limited to: Pell Grant, Supplemental Educational Opportunity Grant (SEOG), Federal / State Work Study, Iowa Grant, Vocational-Technology Grant, Stafford Loan (subsidized and unsubsidized), and Parent PLUS Loan for Undergraduate Students. These standards apply to a student's entire academic transcript, including terms for which financial aid was not applied for or disbursed.

The academic progress of students is monitored at the end of each academic term. Students should contact the Financial Aid Office with questions regarding the intent and/or interpretation of these standards. Students should not confuse these Financial Aid Standards with the "Academic Standards for Satisfactory Progress." They are two different policies so students follow a different procedure when suspended academically and will need to contact Academic Affairs with questions. Academic suspension means you cannot attend nor receive financial aid at Hawkeye. However, a student may be suspended from financial aid but not from the college so please always check with both offices.

Financial Aid Satisfactory Progress is a Three-Part Federal Regulation and they are minimum standards that must be attained. Specific aid programs or department standards may require more than these minimum standards. Students must adhere to these standards, whether or not financial aid was received for those attempted credits.

- ✚ **Standard 1: Successfully complete a minimum number of enrolled credit/hours each term:** Students are required to earn (with passing grades) at least 2/3 (67%) of the credit hours of which they have cumulatively attempted.
- ✚ **Standard 2: Complete a degree within a specific time period:** Students' program maximum time frame cannot exceed 150% of the published length of the program measured in credit hours attempted. Courses taken for, but not limited to audit, credits earned via Institutional Proficiency Exams, Correspondence, Independent Study, and College Level Examination Programs will be included in the measurement of time period allowed for the pursuit of a degree. (These courses are not eligible for financial aid, and do not count toward reinstatement of aid after suspension.) Courses accepted by Hawkeye as transfer credits are included in completion and attempted credits for SAP calculation purposes.
- ✚ **Standard 3: Maintain a cumulative grade point average (GPA) consistent with graduation:** Students are required to maintain a 2.0 grade point average at all times.

**Grades:** Only grades of A, A-, B+, B, B-, C+, C, C-, D+, D, and D- are counted as meeting the required credit/hours. Failed classes, audited classes, withdrawn classes, incomplete grades, no credit/no pass, and grade requital do not count as completed credit/hours and may affect Satisfactory Academic Progress. If an incomplete grade is what caused you to be on probation or suspension, you must submit the final grade to the financial aid office for review.

**Repeated Courses:** Students are allowed to repeat courses and Hawkeye Community College will count all attempted credits but only accept the most recent grade obtained for calculating GPA. Courses accomplished by CLEP examinations will be counted as completed credit/hours. Repeated coursework is included in completed and attempted credit hours for SAP calculation purposes.

**Transfer Students:** Hawkeye assumes transfer students enrolled at the institution are making satisfactory academic progress. However, Hawkeye reserves the right to request transcripts of previous institutions attended at any time to determine prior completion rate.

- Important: For SAP purposes, a transfer student is somebody that has never been enrolled at Hawkeye before. Therefore a student that was at Hawkeye and then went somewhere else (whether a degree was obtained somewhere else or not) before returning would not meet this definition; however, all credits transferred to Hawkeye are included in attempted and completed credits for SAP calculation purposes.

**Warning Status:** After one term of not complying with the Financial Aid Standards for Satisfactory Progress, the student will be placed on "Warning" status and be notified via their Hawkeye e-mail. This is a warning to the student that the College's satisfactory progress standards (2.0 cumulative GPA and a cumulative completion rate of 67%) must be met during the next term of enrollment. The student will still be eligible to receive financial aid during their warning period (unless other financial aid withdrawal guidelines

apply-see Financial Aid Handbook). If a student is placed on “Warning” status due to a grade reported in error or reported late, please contact the Financial Aid Office to fill out a Warning Review Request Form. EXCEPTION: Students receiving a zero completion rate in any term at Hawkeye Community College will not receive one term of warning-see suspension status.

**Suspension Status:** If on warning and after another term of not complying with the GPA, completion rate standards, or upon reaching 150% of their degree program length, the student is placed on “Suspension” status and is denied financial aid. Students receiving a zero completion rate in any term will also be immediately suspended. Students are notified via their Hawkeye e-mail if they have been placed on “Suspension” status and of the appeal process they may complete in order to see if financial aid eligibility will be reinstated. \*\*Hawkeye reserves the right to place a student on Financial Aid suspension who exhibits abuse of receipt of financial aid at any time at Hawkeye Community College.

**Reinstatement:** Students may be reinstated if they appeal their suspension status (explained below) and the Financial Aid Satisfactory Progress Committee approves it. It is the responsibility of each student to monitor and keep track of his or her academic progress, and to notify the Financial Aid Office of any grade changes (i.e. an incomplete grade changes to a passing grade). Students approved to receive aid again will be placed in “Probation” status if they are able to meet Financial Aid Standards for Satisfactory Progress (as outlined above and any other conditions listed on the Financial Aid Satisfactory Progress Agreement Form) the following term of enrollment. Otherwise, they will be placed in an “Academic Plan” status which will require students to meet with their advisors every subsequent term to ensure they are following their academic plan. If at any time, the student is no longer following the plan and making academic progress, the student will again be placed on suspension. At this point you are **NOT** financial aid eligible.

**Please do not assume that the approval of your financial aid appeal will change your academic status. To check your academic status, contact your academic advisor or the Academic Affairs office in Hawkeye Center.**

**Appeal Process and Deadline:** If a student is not able to comply with these academic progress standards due to a crisis situation (extenuating or special circumstances), the following steps may be completed to receive consideration for reinstatement of financial aid eligibility. Extenuating or special circumstances may include, but are not limited to, personal illness or accident, serious illness or death within the immediate family or other circumstances beyond the reasonable control of the student. If no documentation is submitted with the appeal, it may be denied.

1. **The student must complete an Appeal Form** which is available on the Hawkeye website. The Appeal Form requires students to provide a written explanation of their situation and provide supporting documents to verify their situation.
2. The student must meet with an Academic Advisor from their degree program and develop a written Academic Planning Worksheet to assist them toward graduation. **The Academic Planning Worksheet must be submitted with the Appeal Form.** It is very important that this plan is outlined through graduation so the reviewing committee can evaluate courses/terms needed until then. The Student must set up an appointment with an Academic Advisor to obtain and complete this worksheet. Students will be expected to follow the detailed academic plan that is discussed with the advisor and submitted with the appeal.
3. The student must submit all of the above to the Financial Aid Office. We recommend this is done no later than the Friday (by noon) before the first day of classes of the next term you enroll in. After this date, the appeal results may reach the student after the full tuition and fees refund deadline and the student may be responsible for the full tuition payment.
4. A committee will review the appeal paperwork submitted to determine if the student’s financial aid should be reinstated. Once a decision is made, the student will be contacted via the student’s Hawkeye email account. **If reinstated, the student will be put on Probation or Academic Plan status (depending on the timeframe it will take to meet standards again) and receive a Financial Aid Satisfactory Progress Agreement Form via the student’s Hawkeye email to be signed and returned to the Financial Aid Office.**
5. Appeals may only be reviewed for the current term until 30 calendar days into the term (starting from the first day of term). Then, it will be reviewed for the following term.

**Probation Status:** If the student’s appeal is approved and the student will be able to meet financial aid standards again after the subsequent term of enrollment, the student will be placed on “Probation” status for one term and be eligible to receive financial aid as long as all other financial aid requirements are met, including appeal approval conditions.

**Academic Plan Status:** If the student’s appeal is approved and the student is not able to meet the financial aid standards in the subsequent term, the student will be placed on “Academic Plan” Status. During each term (before final grades are submitted), the student will need to meet with his/her Academic Advisor to determine if the student is still complying with the terms of the academic plan. If the student is not meeting the plan, the student will be placed again on suspension and will need to appeal if the student wishes to receive financial aid. Students in this status are required to meet with their advisors to complete Academic Compliance Plan Form to still have their financial aid statuses reviewed after all final grades are reported. Any student who has a 150% appeal approved will be

placed on “150 % Academic Plan” status until their graduating semester (based on the Academic Planning Worksheet) or they fail to meet any other financial aid standard.

**Financial Aid Adjustment:** If financial aid has already been awarded and an appeal is not completed or approved, the financial aid funds will be canceled **30 days** after the start of the suspended term. Reinstatement of the financial aid is contingent upon the availability of the funds at the time the appeal is approved.

Hawkeye Community College does not discriminate on the basis of sex; race; age; color; creed; national origin; religion; disability; sexual orientation; gender identity; genetic information; political affiliation; or actual or potential parental, family, or marital status in its programs, activities, or employment practices as required by Iowa Code §§ 216.6 and 216.9, Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d and 2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1681-1688), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and Title II of the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.). Veteran status is also included to the extent covered by law. Any person alleging a violation of equity regulations shall have the right to file a formal complaint. Inquiries concerning application of this statement should be addressed to: John Clopton (Equity Coordinator and Title IX Coordinator for Employees) or Nancy Henderson (Title IX Coordinator for Students), Hawkeye Community College, 1501 East Orange Road, P.O. Box 8015, Waterloo, Iowa 50704-8015, telephone 319-296-4405, email: [equity-titleIX@hawkeyecollege.edu](mailto:equity-titleIX@hawkeyecollege.edu), or the Director of the Office for Civil Rights, U.S. Department of Education, Citigroup Center, 500 W. Madison, Suite 1475, Chicago, IL 60661, phone number 312/730-1560, fax 312/730-1576.

POLICY FOR FACULTY ON REPORTING ENROLLMENT VERIFICATION AFTER DUE DATE

1. Only the Financial Aid Office is allowed to update enrollment verification after the initial due date.
2. If the enrollment verification was initially reported in error faculty should contact Gisella Baker or Darla Palmer in the Financial Aid office to correct the error.
3. If a student was not attending at the point of enrollment verification; begins attending class and questions the reporting of attendance with either faculty or staff, the student should be given a policy statement informing them how to change the initial enrollment reporting. The policy statements will be provided to faculty and staff electronically at U:enrollment/verification/student policy. The policy will also be provided to Departmental Secretaries and attached to your enrollment verification instructions. Copies of the policy will be placed in each of the classrooms during the second week of the fall semester.
4. The policy states the following:

POLICY FOR STUDENTS WISHING TO START ATTENDING A CLASS AFTER ENROLLMENT VERIFICATION HAS BEEN REPORTED

Any student who has not been attending class prior to enrollment verification being reported but who now wishes to start attending his/her registered classes, should meet with his/her instructors to determine if the student can make up missed coursework. If it is determined that the student will not be able to make up missed coursework, the student should meet with his/her advisor to determine the best course of action regarding officially withdrawing from courses. Students should also refer to the "Financial Aid Impact When Withdrawing from Classes" on the Hawkeye website ~ quick links ~ financial aid. STUDENTS MUST STILL MEET DROP/WITHDRAWAL DEADLINES FOR TUITION/FEE REFUNDS.

If the student decides to continue with the class and wants the Enrollment verification/attendance changed, it will be reviewed after early alert grades are reported. Students must access their MyHawkeye account to view their grades, print them out and submit them to the Financial Aid Office for review. If students are not passing, the appropriate Faculty will be emailed by the Financial Office to confirm attendance. Students will receive an email to their Hawkeye email account with the results of the review.

For non-16 week courses and summer courses, the enrollment verification/attendance will be updated after the mid-point of the course. The student must request from the Faculty that an email be sent to the Financial Aid Office stating the student's status in the class (grade and attendance information up that point).

In both cases, if attendance is confirmed, the Financial Aid Office will update the enrollment verification/attendance code.

Any questions regarding the policy should be directed to the Financial Aid Office.

5. Any circumstances other than the above-listed will be handled on a case-by-case basis by the faculty and the appropriate Dean. After communicating with the faculty and the Financial Aid Office the attendance record will be updated if necessary.

## Satisfactory Academic Progress for Financial Aid

Hawkeye Community College 's Satisfactory Academic Progress standards for financial aid apply to all students who want to establish or maintain financial aid eligibility.

These standards apply to your entire academic transcript, including terms for which financial aid was not applied for or disbursed including classes taken while in high school.

Your academic progress is monitored at the end of each academic term.

**Financial Aid Satisfactory Academic Progress Standards is a different policy than the Academic Standards for Satisfactory Progress.** Academic suspension means you cannot attend nor receive financial aid at Hawkeye. However, you may be suspended from financial aid but not from Hawkeye so please always check with both [Academic Affairs](#) and Financial Aid.

### Standard 1: Successfully complete at least 2/3 (67%) of the credit hours of which you have cumulatively attempted

Only grades of A, A-, B+, B, B-, C+, C, C-, D+, D, and D- are counted as meeting the required credit/hours.

The following do not count as completed credits/hours and may affect Satisfactory Academic Progress: failed classes, audited classes, withdrawn classes, incomplete grades, no credit / no pass, and grade requital.

If your incomplete grade is what made you be on warning or suspension, print your grade and bring it to the Financial Aid office for review. To print your grade, go to My Hawkeye > WebAdvisor for Students > Academic Profile > [Final Grades & GPA by Term](#).

Hawkeye will count all credits towards your Satisfactory Academic Progress, but only accept the highest grade obtained.

### Standard 2: Complete your program within 150% of the published length of the program measured in credit hours attempted.

Courses taken for, but not limited to audit, credits earned via Institutional Proficiency Exams, Correspondence, Independent Study, and College Level Examination Programs will be included in the measurement of time period allowed for the pursuit of a degree. However, these courses are not eligible for financial aid and do not count toward reinstatement of aid after suspension.

Courses accepted by Hawkeye as transfer credits are included in completion and attempted credits for Satisfactory Academic Progress calculation purposes.

### Standard 3: Maintain a cumulative GPA of at least a 2.0 at all times

Maintain a cumulative GPA of at least a 2.0 at all times as defined by the [Academic Standards for Satisfactory Progress](#). This is monitored by the Academic Affairs office.

If you do not meet this standard, you will be suspended from Hawkeye and you will also lose your [financial aid eligibility](#).

---

## Warning Status

After one term of not complying with the [Financial Aid Standards for Satisfactory Academic Progress](#), you will be placed on warning status. You will be notified via your Hawkeye email.

This is a warning that you must meet the satisfactory academic progress standards for financial aid during your next term of enrollment.

While on warning status you will be eligible to receive financial aid unless other [financial aid withdrawal guidelines](#) apply.

However, if after one subsequent term you fail to meet any of the Satisfactory Academic Progress standards for financial aid, you will be placed on suspension status.

If you have been placed on warning status due to a grade reported in error or reported late, complete the [Warning Review Request Form \[pdf\]](#) and submit to the Financial Aid office.

## ***Suspension Status***

---

After a second term of not complying with the [satisfactory academic standards for financial aid](#) you will be placed on suspension status. You will be notified via your Hawkeye email.

Once on suspension status, you will not be eligible to receive financial aid.

If you receive a **zero completion rate** in any term at Hawkeye, you will not receive one term of warning status, but will **automatically be placed on suspension status**.

It is your responsibility to monitor and keep track of your academic progress and to notify the Financial Aid office of any grade changes. If you have been placed on suspension status due to a grade reported in error or reported late, complete the [Suspension Review Request Form \[pdf\]](#) and submit to the Financial Aid office.

## **Appeal Process and Reinstatement**

You may [appeal your suspension status](#). If the Financial Aid Satisfactory Academic Progress Committee approves your appeal, your financial aid may be reinstated.

## ***Probation Status***

---

You are on probation status if your [Financial Aid Suspension appeal](#) has been approved AND it is possible for you to meet [Satisfactory Academic Progress standards for financial aid](#) within your next term of enrollment.

Once on probation status, you will be eligible to receive financial aid.

If you do not meet the Satisfactory Academic Progress standards for financial aid at the end of the term you will be placed back on suspension status.

## ***Academic Plan Status***

---

If you were placed on suspension status, your appeal has been approved, and it is determined that you will not be able to meet the [Satisfactory Academic Progress standards for financial aid](#) in the next term, you will be placed on Academic Plan Status.

While on Academic Plan Status, you will need to meet with your academic advisor at the end of every term until you graduate to complete the Academic Plan Compliance form.

Each semester, the Financial Aid office will send you an email to your Hawkeye email notifying you that the Academic Plan Compliance form is available and the [deadline by which you must have the Academic Plan Compliance form completed and returned](#) to the Financial Aid office.

Return the completed [Academic Plan Compliance form \[pdf\]](#) to the Financial Aid office. We will use this form to determine if you are meeting the terms of your academic plan. If you are not meeting the plan, you will be placed on suspension status and will need to complete another [Financial Aid Suspension Appeal](#) if you wish to receive financial aid.

If at any time you are no longer following the plan and making academic progress, you will again be placed on suspension status.

## POLICY FOR STUDENTS WISHING TO START ATTENDING A CLASS AFTER ENROLLMENT VERIFICATION HAS BEEN REPORTED

Any student who has not been attending class prior to enrollment verification being reported but who now wishes to start attending his/her registered classes, should meet with his/her instructors to determine if the student can make up missed coursework. If it is determined that the student will not be able to make up missed coursework, the student should meet with his/her advisor to determine the best course of action regarding officially withdrawing from courses. Students should also refer to the “Financial Aid Impact When Withdrawing from Classes” on the Hawkeye website ~ quick links ~ financial aid. **STUDENTS MUST STILL MEET DROP/WITHDRAWAL DEADLINES FOR TUITION/FEE REFUNDS.**

If the student decides to continue with the class and wants the Enrollment verification/attendance changed, it will be reviewed after early alert grades are reported. Students must access their MyHawkeye account to view their grades, print them out and submit them to the Financial Aid Office for review. If students are not passing, the appropriate Faculty will be emailed by the Financial Office to confirm attendance. Students will receive an email to their Hawkeye email account with the results of the review.

For non-16 week courses and summer courses, the enrollment verification/attendance will be updated after the mid-point of the course. The student must request from the Faculty that an email be sent to the Financial Aid Office stating the student’s status in the class (grade and attendance information up that point).

In both cases, if attendance is confirmed, the Financial Aid Office will notify the Registration Office to update the enrollment verification/attendance code.

Any questions regarding the policy should be directed to the Financial Aid Office.

Revised 9/2013

---

**From:** nancy.henderson@hawkeyecollege.edu [mailto:nancy.henderson@hawkeyecollege.edu]  
**Sent:** Wednesday, January 20, 2016 7:47 AM  
**To:** Nancy Henderson <nancy.henderson@hawkeyecollege.edu>  
**Subject:** Important Consumer Information and Transfer Information

Dear Nancy,

This email is being sent with important pieces of information for all students.

Please be aware that you can find consumer information about the college at:  
[www.hawkeyecollege.edu/go/soar/consumer-information](http://www.hawkeyecollege.edu/go/soar/consumer-information)

This web address will provide you with direct links to pertinent college information.

Also, the Student Handbook can be found at the following link:  
[www.hawkeyecollege.edu/students/handbook](http://www.hawkeyecollege.edu/students/handbook)

This handbook will provide you with important college policies and procedures, including The Family Education Rights and Privacy Act (FERPA) dealing with the rights of students and parents.

**The Student Conduct Code has been revised - be sure to review it here:**  
[www.hawkeyecollege.edu/students/handbook/conduct](http://www.hawkeyecollege.edu/students/handbook/conduct)

**There is a new Sexual Misconduct Policy - be sure to review it here:**  
[www.hawkeyecollege.edu/go/soar/title-ix.aspx](http://www.hawkeyecollege.edu/go/soar/title-ix.aspx)

Finally, please be aware of the following information for students who plan to transfer to an Iowa Regent university (Iowa State, University of Iowa, University of Northern Iowa):

**Transfer in Iowa Web Portal Available**

Iowa's regent universities and community colleges have joined to create a web portal dedicated to assisting students with the transfer process. The site serves as a one-stop resource for students planning their future. The URL for the site is:  
[www.transferiniowa.org](http://www.transferiniowa.org)

Each year, thousands of students transfer from Iowa community colleges to one of the state's three public universities. Transferring from one college to the next can be a big step, but it doesn't have to be complicated. The website contains resources helpful in educational planning as well as information for

students to discuss with their counselor/advisor(s).

The number one question transfer students ask is: *How will my credits transfer?* By following the links on the website, students can learn about how their community college courses transfer to each of the three state public universities.

The website contains resources explaining statewide articulation agreements and individual program-to-program articulation agreements by community colleges. These resources are useful for students planning to transfer as well as counselors and advisors. In addition to online resources, it's always a good idea for students to discuss their plans with both a community college and university counselor/advisor.

I hope this information is helpful to you. Best wishes for a successful term!

## Liberal Arts AA and AS Degrees

The Liberal Arts transfer degrees at Hawkeye Community College allows students to complete the first two years of a bachelor's degree. A variety of liberal arts core, general education, and elective courses from a wide range of disciplines prepare students to transfer to a public or private four-year college or university.

Students may choose an emphasis area to help guide them in selection of electives and may also help students determine if a major or career track is the right choice.

### Associate of Arts (AA) Degree

The Associate of Arts (AA) degree in Liberal Arts to a four-year college. enables a student to meet most general education requirements and be admitted as a junior at most four-year colleges and universities.

Students can complete their AA entirely online, in the evening, during the day, or with a combination of these options.

### Associate of Science (AS) Degree

The Associate of Science in Liberal Arts degree enables a student to focus their education on the fields of math or science, meet most general education requirements, and be admitted as a junior at most four-year colleges and universities.

Due to the nature of sequential courses, students must work with a Hawkeye academic advisor for major-specific transfer information and to register for classes.

### Transfer Information

Hawkeye has established articulation agreements with many four-year public and private colleges within Iowa. Students should work closely with a Hawkeye academic advisor to ensure that courses transfer to a specific major. During their first year, students should contact the admissions office at the college to which they plan to transfer to and obtain specific program and transfer requirements.

## Liberal Arts Core

---

### I. Natural Science and Mathematics

---

**A. Biological Sciences** – Establishes a framework of key concepts that deal with health issues, ethical controversies, social responsibility, and environmental quality. The laboratory experience allows the you to be introduced to the process of science.

**B. Physical Sciences** – Explores the chemical and physical nature of our universe. The laboratory experience introduces the student to the world of scientific technology.

**C. Mathematics** – Establishes an understanding of various mathematical concepts, such as finances, statistics, algebra, and geometry so that students can use them effectively in their lives.

---

## II. Humanities

---

**A. Western Civilization** – Provides the framework for the common origins and meaning of European and American ways of life by studying their development throughout history.

**B1. Humanities – Literature and Fine Arts** – Introduces dynamic and holistic ways of viewing the human condition.

**B2. Humanities – Philosophy and Religion** – Provides a basis of concepts and values that have influenced numerous cultures around the world.

**B3. Humanities – Non-Western Cultures**– Raises awareness of other cultures, including their diverse economic, political, family, and religious structures.

---

## III. Social Sciences

---

**A. People and Their Relationships** – Provides a foundation for understanding mental processes, individual behavior, and social interaction.

**B. American Society** – Explores the evolution of U.S. government and society and the meaning of these developments to today's world.

**C. Other Social Sciences** – Examines the impact of time, place, and major life events on individual behavior and social interaction.

---

## IV. Communications

---

**A. Written Communications** – Enhances student ability to study and scrutinize issues while also broadening their reading and writing skills.

**B. Oral Communications 3** – Explores ways to improve critical thinking, idea articulation, public speaking, and attentive listening in order to increase understanding and productivity.

---

## V. Social Diversity

---

Considers ideas of difference and inequality in contemporary U.S. society.

---

## VI. Elective Courses

---

Courses beyond general education requirements. May include courses from any Category I, II, III or V. Up to 16 technical credit hours may be used as electives.

---

## Philosophy Statement

The Liberal Arts curriculum challenges students with the rigors of classical liberal arts educational opportunities and the current theoretical, technological, and scientific advancements. Students are prepared to take an active role in shaping the evolving standards and practices of today's society and employment environment.

## Program Outcomes

Students taking liberal arts courses at Hawkeye are not only equipped with a strong foundation for most programs offered by four-year colleges or universities, but they are also able to develop attitudes, values, and skills that will allow them to become constructive adults, both individually and within their communities.

Students receiving an Associate of Arts degree from Hawkeye will have developed the following skills:

- **Communication:** Students will develop speaking, writing, reading, and listening skills.
- **Critical Thinking and Problem Solving:** Students will acquire, evaluate, and analyze information; develop sound reasoning skills; and apply the principles of the scientific method.
- **Quantitative Reasoning:** Students will develop skills in problem-solving, logical thinking, and application of mathematical processes.
- **Community and Global Awareness:** Students will recognize and appreciate diversity, historical viewpoints, and the global perspective.
- **Individual Development:** Students will cultivate ethical values, personal wellness, and personal learning strategies.
- **Artistic Expression:** Students will acquire a global and cultural understanding of the role of the arts, instilling the personal curiosity and skills for creative expression and endeavors.
- **Information Management:** Students will apply technological methods to retrieve, process, and communicate information.

# Liberal Arts AA and AS Degrees Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

### Flexible Scheduling

We know you're busy balancing family and work responsibilities. That's why we've created flexible course options to help you fit your education into the mix.

Students can complete the Associate of Arts degree in Liberal Arts entirely online, in the evening, during the day, or with a combination of online, evening, daytime, and hybrid courses (courses that meet partially face to face and partially online).

You can also arrange your schedule with courses with varying start dates and course lengths so you can focus on fewer classes at one time while completing the same number of credits per semester.

The courses listed below are marked to show you at a glance some of the different formats the course may be offered, however, **course offerings change semester by semester**.

[Search My Hawkeye for specific course offerings.](#)

- **O = Online courses** meet 100% online.
- **E = Evening courses** meet face to face after 5:00pm.
- **A = Accelerated courses** meet face to face after 5:00pm and partially online in an accelerated 5-week or 10-week format designed for working adults. It's recommended that students in accelerated courses take only one course at a time due to the intensity of the course format. [View the accelerated course schedule](#)

### Planning Your Class Schedule

Students should work with a Hawkeye program advisor to select courses, make a transfer plan, and review their progress.

You are also encouraged to contact the admissions office at the college to which you plan to transfer during your first year at Hawkeye in order to obtain specific program and transfer requirements.

### 2016–2017 Suggested Sequence of Study

#### I. Natural Science and Mathematics 10 credits (minimum)

Requires one course each from A, B, and C, including one 4-hour science laboratory course. Total of 7 hours from A and B.

#### A. Biological Sciences 3-4 credits (minimum)

BIO105	Introductory Biology	<u>E</u> 4
BIO112	General Biology I	4
BIO113	General Biology II	4
BIO154	Human Biology	<u>OEA</u> 3

## Liberal Arts – AS Degree Requirements

**Award:** Associate of Science (AS)

**Enrollment Status:** [Full-time or part-time](#)

**Program Start:** Fall, Spring, Summer

### Printable Tracking Sheets

[2014-2015 \[PDF\]](#)

[2015-2017 \[PDF\]](#)

### Flexible Scheduling

We know you're busy balancing family and work responsibilities. That's why we've created flexible course options to help you fit your education into the mix.

Students can complete the Associate of Science degree in Liberal Arts with online, evening, daytime, and hybrid courses (courses that meet partially face to face and partially online).

You can also arrange your schedule with courses with varying start dates and course lengths so you can focus on fewer classes at one time while completing the same number of credits per semester.

The courses listed below are marked to show you at a glance some of the different formats the course may be offered, however, **course offerings change semester by semester**.

[Search My Hawkeye for specific course offerings.](#)

- **O = Online courses** meet 100% online.
- **E = Evening courses** meet face to face after 5:00pm.

### Planning Your Class Schedule

Students should work with a Hawkeye program advisor to select courses, make a transfer plan, and review their progress.

You are also encouraged to contact the admissions office at the college to which you plan to transfer before or during your first year at Hawkeye in order to obtain specific program and transfer requirements.

### 2016–2017 Suggested Sequence of Study

#### I. Natural Science and Mathematics 20 credits (minimum)

Requires one course from each area A, B, and C. Need 7 hours from A and B, including one 4-hour science laboratory courses.

Students must work with their advisor to determine the math and science sequences needed to transfer to the program and university of their choice.

#### A. Biological Sciences 3 credits (minimum)

BIO105	Introductory Biology	<u>E</u> 4
BIO112	General Biology I	4
BIO113	General Biology II	4
BIO154	Human Biology	<u>O E A</u> 3
BIO163	Essentials of Anatomy and Physiology	<u>E</u> 4
BIO168	Human Anatomy and Physiology I	<u>E</u> 4

P Must complete a prerequisite.

C Must take a corequisite.

## Agricultural Science Transfer Program

The Agriculture Science program is designed to allow students to complete the first two years of a four-year bachelor's degree program. A variety of agricultural, mathematics, science, and liberal arts courses are offered to prepare students to transfer to public or private four-year colleges and universities.

The Associate of Science in Agricultural Science allows graduates to enter four-year colleges or universities with 63 credits and/or junior standing. The courses in this program also allow for entry-level employment for graduates who decide to postpone transferring to a four-year college.

### Transfer Information

Students wishing to transfer, especially with a junior standing, must work closely with a Hawkeye program advisor. Specific bachelor's degree program requirements vary. For more information, contact a program advisor.

### Career Coach

Explore local data on wages, employment, job postings, and more!

# Agricultural Science Admissions Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

## Agricultural Science Courses

**Award:** Associate of Science (AS)

**Required number of credits:** 64

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall, Spring, Summer

The Agricultural Science program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

## Business Administration Transfer Program

The Associate of Arts in Business Administration degree is designed to allow students to complete the first two years of a four-year bachelor's degree program and transfer to a public or private four-year college or university. A variety of courses from a wide range of disciplines are offered to students.

### Transfer Information

The Business Administration program is designed for students who plan to continue their studies toward a bachelor's degree in Business Administration, Accounting, Marketing, Management, Information Systems, or Finance at the University of Northern Iowa. Students can also transfer to Iowa State University, the University of Iowa, or the private college or university of their choice. To ensure a smooth transfer, students should work with a program advisor for approved business courses and general education requirements for the college or university of choice.

### Adult Accelerated Evening Program

Hawkeye Community College and Mount Mercy University have partnered to offer a degree program designed for working adults, with evening courses delivered in an accelerated format. With the Hawkeye/ Mount Mercy Accelerated program, students can:

- Complete their associate degree and continue on to earn their bachelor's degree from Mount Mercy on Hawkeye's campus.
- Focus on one class at a time, with classes meeting once a week in the evening for 5-10 weeks.
- Transfer up to 75 credits from Hawkeye towards their bachelor's degree from Mount Mercy.

# Business Administration Transfer Program Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

# Business Administration Transfer Program Courses

**Award:** Associate of Arts (AA)

**Required number of credits:** 63

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall, Spring, Summer

## Planning Your Class Schedule

Students should work with a Hawkeye program advisor to select courses, make a transfer plan, and review their progress.

You are also encouraged to contact the admissions office at the college to which you plan to transfer during your first year at Hawkeye in order to obtain specific program and transfer requirements.

The following courses are designed to transfer to the University of Northern Iowa's College of Business Administration. Students planning to transfer to a college other than UNI, should work with their advisor for approved business courses.

\* UNI specific courses.

## Criminal Justice Transfer Program

The Criminal Justice program is designed to allow students to complete the first two years of a four-year bachelor's degree program. A variety of courses from a wide range of disciplines are offered to prepare students to transfer to public or private four-year colleges and universities. This degree offers a balanced distribution of criminal justice courses and liberal arts electives.

Students majoring in Criminal Justice need to complete the 40 credits of general education requirements for the Associate of Arts degree and complete a minimum of 22 credits of the criminal justice courses.

The Associate of Arts in Criminal Justice degree enables graduates to enter four-year institutions with junior standing in criminal justice. If graduates decide to postpone their transfer, the courses in the program could prepare the associate degree graduate for entry-level employment in the criminal justice career field, including positions in corrections.

After completing a four-year degree, graduates can find careers with the court system, state and federal law enforcement, juvenile court services, probation and parole systems, and more.

### Transfer Information

This degree provides all the necessary general education and specific course requirements to allow graduates to transfer to any four-year institution and to pursue degrees in criminal justice related majors such as corrections, criminology, or social work. For more information, contact a program advisor.

## Criminal History Matters

As a future criminal justice professional, students need to use good judgment in all areas of their personal, professional, and scholastic interactions and activities; and must keep their records clean. Criminal justice organizations require background checks for internships, volunteer placements, and employment; which will include adult and juvenile civil and criminal issues, official and informal contacts with police, and character references. Employment will also hinge on the successful completion of a polygraph, credit check, and psychological evaluation.

Be aware that character counts and your behavior can sabotage your ability to graduate from this program and your ability to work in the field. Consider what your actions and criminal history says about you...i.e. an OWI conviction indicates that you demonstrate poor judgment by drinking to excess and deciding to drive, which may kill or injure you or another person. Remember your personal behaviors (what you didn't get caught for) will be revealed during the polygraph, and what you do privately (when no one is watching or supervising) speaks volumes as to the true content of one's character.

If you want to work in criminal justice avoid these issues:

- Acquiring speeding tickets or safety violation citations.
- Acquiring a suspended driver's license or citations for driving with a suspended license.
- Participating in underage drinking, using fake ID's, or buying alcohol for underage persons.
- Use or abuse of prescription drugs, street drugs, club drugs (ecstasy), marijuana, or synthetic drugs.
- Engaging in theft of property, goods, or services.

You will not be employable in criminal justice if you have:

- Felony convictions.
- Domestic abuse convictions.
- Placement on an abuse registry (Sex offender, child/elder abuse).
- Drug convictions, or history of drug use or abuse (methamphetamine, cocaine, heroin, etc.) Each agency (city, county, state, or federal) sets their own limits on marijuana use from zero tolerance to a limited amount of use, and factors in how recent the use was.
- Weapons violations.

Ultimately, criminal justice employers will rationalize your behavior by this criteria: If you know or reasonably believe an action is illegal or will cause harm then the best candidate will take responsibility, demonstrate self-control, and not do it.

Lastly, employers will ask our faculty for references. Students need to know that full time faculty and adjunct faculty members are constantly formally and informally assessing students in terms of academic performance, attendance, honesty, professionalism, social skills, maturity, and appearance so that we can make objective assessments when asked. Your interactions count, and we are here to mentor you.

## Agricultural Business Management

The Agricultural Business Management program prepares students for careers in sales, service, production, management, marketing, and research. Hawkeye's 400-acre Farm Lab utilizes new and up-to-date facilities and equipment to provide students with hands-on experience in the latest production and management techniques.

### Transfer Information

Hawkeye's Agriculture and Natural Resources programs have articulation agreements with Iowa State University, Upper Iowa University, and Northwest Missouri State University to transfer general education and technical credits. Many other state and private colleges accept up to 65 credits. For more information, contact a program advisor.

## Agricultural Business Management Careers

The changing face of agriculture has resulted in new and challenging career opportunities. Agricultural employees work in fields and offices dealing with individuals, corporations, plants, animals, and equipment in the agriculture production cycle. Students are prepared for technical careers using GPS, data collection systems, and geospatial mapping software. Emphasis is placed on the application of these technologies in agriculture production.

Graduates find employment working as:

- agronomy specialists
- crop scouts
- equipment/parts assistants
- grain merchandisers
- farm and business managers
- GPS/GIS technologists
- research assistants

Graduates may work in:

- agriculture production
- agriculture sales and marketing
- agriculture finance

Starting Wages: \$30,800 – \$54,500 per year\*

## Precision Agriculture Certificate Courses

**Award:** Certificate

**Required number of credits:** 15

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall, Spring, Summer

The Precision Agriculture program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

## Animal Science

The Animal Science program provides students with opportunities to develop skills and knowledge required for entering a career in animal science and transferring to the university level.

Students gain hands-on training on Hawkeye's 400-acre Farm Lab in the latest production and management techniques. Students participate in livestock judging teams, field trips, and presentations from industry representatives.

Veterinary Assisting is a three-semester, diploma option of the Animal Science program.

### Experience and Training

The Animal Science eight-week Employment Experience allows students to gain real work experience at an employment site. This ensures that students acquire the skills they need to succeed on the job.

### Transfer Information

Many state and private colleges and universities accept up to 65 credits. For more information, contact a program advisor.

# Animal Science Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

## Landscape and Turf Management

The Landscape and Turf Management (formerly Horticulture Science) program provides students with the knowledge and skills to enter into various professional careers: golf course turf management, sports turf management, landscape design, landscape installation, grounds maintenance, lawn care, garden center manager, and greenhouse production with safety as a major focus. Educational diversity creates an added advantage for students learning Landscape and Turf Management. As a member of the PLANET organization, the program offers students an opportunity to travel and compete nationally in Student Career Days.

### Experience and Training

The eight-week Employment Experience allows students to gain real work experience at an employment site. This ensures that students gain the skills they need to succeed on the job.

### Transfer Information

Hawkeye's Agriculture and Natural Resources programs have articulation agreements with Iowa State University, Upper Iowa University, Mount Mercy University, and Northwest Missouri State University to transfer both general education and technical credits. Many other state and private colleges and universities accept up to 65 credits. For more information, contact a program advisor.

## Natural Resources Management

The Natural Resources Management program enables students to learn about the physical aspects of managing natural areas as well as the theory behind the procedures. Students develop the necessary skills and certifications for entering careers as natural resources technicians through a combination of classroom instruction, laboratory activities, and an eight-week cooperative work experience.

A trademark of the program is the Advanced Outdoor Recreation Techniques class in which students travel to the Boundary Waters Canoe Wilderness Area or to the Bighorn Mountains in Wyoming for wilderness experiences.

### Transfer Information

Hawkeye's Agriculture and Natural Resources programs have articulation agreements with Iowa State University and Upper Iowa University to transfer both general education and technical credits. Many other state and private colleges and universities accept up to 65 credits. For more information, contact a program advisor.

### Natural Resources Activities

As a Natural Resources Management student you will have many opportunities to experience a variety of natural resources activities throughout the year, both on and off campus.

<b>August</b>	Wyoming Wilderness Trip Boundary Waters Wilderness Trip
<b>September</b>	Canoe Trip and Campout for Outdoor Rec Natural Resources Club Service Project: Assist with Black Hawk County Conservation Board Electronic Waste Recycling Stihl Chain Saw Safety Clinic
<b>October</b>	Natural Resources Club Service Project: Assist with Black Hawk County Conservation Board Panic Park
<b>November</b>	Natural Resources Club Potluck National River Museum and Aquarium trip
<b>December</b>	Chronic Wasting Disease testing with the Iowa Department of Natural Resources at Sweet Marsh Natural Resources Club Potluck and White Elephant Gift Exchange
<b>January</b>	Iowa County Conservation Board Conference: Winterfest Collegiate Day Iowa Women in Natural Resources Annual Conference
<b>February</b>	Necropsy of bobcats and river otters with the Iowa Department of Natural Resources Winter Campout: Winter Camping, Snowshoeing, Jerky Making, Paracord Bracelets Ice Fishing

Jug Fishing  
Mushroom Hunting

---

### **Accreditation**

The Natural Resources Management program at Hawkeye Community College is accredited by the North American Wildlife Technology Association. Hawkeye is the only college in Iowa to be accredited through the North American Wildlife Technology Association.

North American Wildlife Technology Association accreditation provides assurance of the context and quality of the education offered. The Natural Resource Management program is reviewed every five years to maintain our accreditation status, to ensure curriculum standards are met; and to recognize specific knowledge, skill sets, and aptitudes.

The North American Wildlife Technology Association also provides an opportunity for exchanging ideas and educational materials in addition to providing opportunities for faculty professional development. For example, each June Hawkeye faculty travel to the professional development conference to learn about wildlife management techniques.

## Natural Resources Management Careers

Careers in Natural Resources Management include:

- roadside management
- vegetation management
- wildlife technician
- wildlife management
- environmental education
- native plant nurseries
- parks and recreation
- naturalist
- soil conservation technician

Starting Wages: \$29,800 - \$51,000 per year\*

## Natural Resources Management Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 65

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall, Spring

The Natural Resources Management program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### 2016–2017 Suggested Sequence of Study

<b>Semester 1</b>		
CNS107	Outdoor Recreation Techniques	1
CNS110	Equipment Operation and Safety * -OR-	2
CHM122	Introduction to General Chemistry -OR-	4
CHM165	General Chemistry I	4
CNS121	Environmental Conservation	3
CNS204	Native Vegetation	3
ENG105	Composition I -OR-	3
COM781	Written Communication in the Workplace	3
MAT102	Intermediate Algebra -OR-	4
	<u>Math Elective</u>	3
<u><a href="#">View Course Descriptions</a></u>		<b>Total Credits 16</b>

\* Students may take CNS110 and CNS143, or CHM122, or CHM165.

<b>Semester 2</b>		
AGA154	Fundamentals of Soil Science -OR-	3
BIO113	General Biology II	4
AGA284	Pesticide Application Certification -OR-	3
BIO112	General Biology I	4
AGP340	Foundations of GIS and GPS	3
CNS104	Outdoor Recreation II	1
CNS108	Wildlife Identification	3
CNS143	Fire Management * -OR-	3
CHM122	Introduction to General Chemistry -OR-	4
CHM165	General Chemistry I	4

## Veterinary Assisting

This Veterinary Assisting program provides students with opportunities to develop skills and knowledge required for entering a career as a veterinary assistant.

Students develop knowledge and understanding of livestock production and companion animals through classroom instruction, hands-on labs, employment experience, field trips, and industry speakers. Students receive instruction in companion animals and domesticated livestock, as well as anatomy and physiology, nutrition, and veterinary terminology.

Hawkeye's 400-acre Farm Lab utilizes new and up-to-date facilities and equipment to provide students with hands-on experience in the latest production and management techniques. Included on this site is a laboratory for veterinary assisting courses.

Veterinary Assisting is a three-semester, diploma option of the [Animal Science program](#).

### Experience and Training

The Veterinary Assisting eight-week Employment Experience allows students to gain real work experience at an employment site. This ensures that students acquire the skills they need to succeed on the job.

## Digital Mass Media

The Digital Mass Media program provides students with an in-depth knowledge of the digital media industry and the entry-level skills to enter into a variety of jobs within mass media and production communication fields. This program is for students who want to be on the cutting edge of digital media technology and are interested in creating and delivering multimedia content.

Through hands-on experience, students learn the skills to shoot digital video and still photos, record digital audio, and customize images, videos, podcasts, and social media. They will learn to plan, create, and manage digital content. They will also learn to craft stories and messages, record music for production, and broadcast over a variety of media including the Internet, social media, and television. Additionally, instruction will include desktop publishing, ethics and media law, media writing, marketing, and how technology and media affect society.

### Transfer Information

Many four-year colleges and universities accept a limited number of transfer and elective credits. For more information, contact a program advisor.

## Digital Mass Media Careers

Graduates will meet the rapidly increasing demand for a new type of interactive technologist: one with a broad range of skills and one who can conceptualize, create, and deliver.

Emerging job opportunities include:

- multimedia specialists
- video journalists
- music video producers
- digital content specialists
- independent filmmakers
- social media marketers and specialists
- digital advertising specialists
- digital media producers
- multimedia designers

They may also find jobs as:

- web designers
- graphic artists
- sound technicians
- camera operators
- videographers
- photojournalists

Graduates may find employment in:

- large corporate public relations departments
- advertising agencies
- media outlets
- colleges and universities
- web design companies
- health organizations
- non-profit organizations

Starting Wages: \$17,300 - \$32,200 per year\*

## Graphic Communications

The Graphic Communications program allows students to pursue a career in graphic design for print or web design and interactive media. Students learn to plan, design, and develop visual elements that effectively communicate a clear message through printed publications or online presences.

Students are provided with experience in design and layout, typography, desktop publishing, illustration, image editing, web design and development, motion graphics and animation for web, video production, digital photography, and pre-press production processes.

**Graphic Design:** Students learn to design and publish ads, brochures, logos, magazine covers, newsletters, packaging, posters, vehicle wraps, and much more.

**Web Design:** Students learn to design and develop responsive and interactive websites displayed on mobile, tablet, and desktop devices.

### Transfer Information

Hawkeye Community College has articulation agreements with Iowa State University, the University of Iowa, the University of Northern Iowa, Central College, Mount Mercy University, Upper Iowa University, Loras College, Simpson College, and Wartburg College. Some of these colleges have articulation agreements with the Graphic Communications program and will accept complete or partial degrees, while other colleges evaluate transfer equivalency on a course-by-course basis. For more information, contact a program advisor.

## Graphic Communications Careers

A graphic designer uses visual elements to communicate messages through print and electronic media. Designers may design magazines and newspapers, websites, packaging, promotional displays and marketing materials.

The following are positions or titles held by Graphic Communication program graduates.

- advertising designer
- art director
- brand identity designer
- creative director
- freelance designer
- illustrator
- layout artist
- logo designer
- multimedia designer
- package designer
- photo editing / Photoshop artist
- pre-press technician
- publication designer
- web designer

Graphic Design Starting Wages: \$24,800 - \$38,000 per year\*

Web Design Starting Wages: \$34,300 - \$60,000 per year\*

# Graphic Communications Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
14 - Math	24 - Pre-Algebra	38 - Numerical	40 - Arithmetic
16 - Reading	69 - Reading	34 - Reading	62 - Reading
16 - English	41 - Writing	35 - Writing	77 - Sentence Skills

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG060 College Preparatory Writing I
- RDG039 College Preparatory Reading II
- MAT045 Fundamentals of Math

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's admission requirements will be accepted.
3. We accept approximately 54-60 students and 20 alternates each Fall Semester. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.

## Professional Photography

The Professional Photography program provides students with a working knowledge of the photography industry. Students are trained for entry-level positions in the fields of commercial, digital technician, and portraiture photography.

Students learn through classroom activities, live demonstrations, and hands-on experience in Hawkeye's photography studios, black-and-white processing lab, and in the computer imaging lab. Instruction in traditional analog and digital technologies provides students with a broad range of skills for employment.

Hawkeye's Professional Photography program is recognized as one of the best in the Midwest.

### Accreditation

This program is recognized by the [Professional Photographers of America](#).

### Transfer Information

Hawkeye has articulation agreements with Upper Iowa University and Mount Mercy University allowing graduates to enter with junior standing. The Iowa Regent universities accept a limited number of transfer and elective credits. Articulation agreements may assist graduates in transferring additional credits. For more information, contact a program advisor.

# Professional Photography Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

## Accounting

The Accounting program provides students with a systematic approach to preparing, analyzing, and tracking financial information through the accounts and records of a business. Students gain hands-on experience in Microsoft Excel, Word, and Access; Peachtree Accounting; and QuickBooks Pro.

### Certification

Graduates may take the national standardized accounting exam to qualify to receive their Licensed Public Accountant (LPA) certification.

### Transfer Information

Students completing the Accounting program may transfer to Wartburg College, Upper Iowa University, or Mount Mercy University to complete a bachelor's degree in accounting. For more information, contact a program advisor.

### Program Contacts

## Accounting Careers

Graduates find employment in public, private, or governmental accounting or related occupations such as office management and positions with financial institutions. They attain positions working with financial statement preparation, payroll, income taxes, budgeting, and cost accounting.

Starting Wages: \$21,600 - \$32,300 per year\*

## Executive Assistant

The Executive Assistant program provides students with the knowledge and skills of an executive assistant. These responsibilities include coordinating, expediting, and facilitating functions of the office.

Students gain on-the-job training at local businesses and organizations, ensuring that students possess the skills necessary to successfully obtain a job as an executive assistant.

Legal Office Assistant is an Associate of Applied Science option of the Executive Assistant program.

### Transfer Information

Office technology programs offer flexibility. Many courses are also required in other business programs, allowing a student to double major or transfer into a different program. For more information, contact a program advisor.

## Golf Course and Country Club Management

The Golf Course and Country Club Management program provides students with the knowledge and skills to enter into careers in the golf course and country club industry as course managers, club managers, assistant course managers, and assistant club managers at public and private golf courses and country clubs. Students will learn inside operations including event planning, personnel and training, finance and budgeting, marketing, hospitality management, and food and bar operations. They will also learn outside operations including turfgrass, grounds maintenance, pest management, and equipment operation and repair.

### Experience and Training

The Golf Course and Country Club Management program provides eight-week and 12-week golf course internships. These internships allow students to gain real work experience on site at golf courses and country clubs. This ensures students develop the skills they need to succeed on the job.

## Hospitality Management

The Hospitality Management program prepares students for supervisory and managerial positions in hotels, resorts, restaurants, institutions, and clubs. Students learn to understand and apply the administrative and practical skills to manage food and lodging operations. The program includes instruction in hospitality principles, operations, management, human resources, marketing, sales, and accounting.

### Experience and Training

The Hospitality Management program provides summer internships. These internships allow students to gain real work experience on site to develop the skills they need to succeed on the job.

### Transfer Information

Many of the business courses are designed to allow students easy transfer from one business program to another. For more information, contact a program advisor.

## Medical Administrative Assistant

The Medical Administrative Assistant program is designed to prepare students with entry-level competencies to begin a career in the medical administrative field. Students gain the skills and knowledge in secretarial functions of coordinating, expediting, and facilitating the daily operations of a medical office.

### Experience and Training

Students gain on-the-job experience at local businesses and organizations, ensuring that students possess the skills necessary to successfully obtain a job as a medical administrative assistant.

### Transfer Information

Programs in the office technology area are designed to allow students to transfer from one office technology program to another. For more information, contact a program advisor.

## Medical Administrative Assistant Careers

Graduates are prepared for employment in various health-related organizations such as physicians' and dentists' offices, hospitals, insurance companies, and community health facilities. They work as administrative assistants, office managers, medical secretaries, insurance specialists, and clinic administrators.

Starting Wages: \$23,600 - \$30,500 per year\*

# Medical Administrative Assistant Admission Requirements

1. Be a high school graduate or equivalent.  
[High School Diploma Verification Process.](#)
2. [Apply at Hawkeye.](#)
3. Meet basic skill competencies in reading, writing, and math.

Basic skill competencies assessment provides information about your academic skills in reading, writing, and math. This information will be used to determine your acceptance, course selection, and registration.

For general admission to Hawkeye Community College, students must provide assessment scores in reading, math, and writing.

College success courses may be required if your assessment score indicates additional help is needed.

For course placement recommendations, based on your assessment score, review the [Assessment Scores and Course Equivalences.](#)

## Accepted Assessments

- ACT
- COMPASS
- ASSET
- SAT
- ACCUPLACER (effective Spring 2014)

## Previous College Experience

Assessment may be waived based on previous college course work in reading, math, and writing. Send your official college transcripts to the Admissions office for evaluation.

## Medical Billing and Coding Associate

The Medical Billing and Coding Associate program provides students with the skills needed to enter one of the fastest-growing fields in healthcare. Students will gain hands-on, practical experience with medical insurance claim forms for various types of medical insurance and will work with ICD-10-CM, ICD-10-PCS, CPT-4, and HCPCS coding. They will also learn legal, ethical, regulatory, and HIPAA compliance concepts and requirements.

Medical billing and coding professionals keep and review records, calculate patient charges for services, prepare statements, and submit claims to insurance carriers accurately in an efficient and timely manner.

### Certification

Students who successfully complete the program will be eligible to take one of the following national certification exams.

- Billing and Coding Specialist Certification (CBCS) from the National Healthcareer Association (NHA)
- Certified Coding Associate (CCA) from the American Health and Information Management Association (AHIMA)
- Certified Professional Coder (CPC) from the American Academy of Professional Coders (AAPC)

### Transfer Information

Programs in the office technology area are designed to allow students to transfer from one office technology program to another. For more information, contact a program advisor.

## Early Childhood Education

Hawkeye Community College prepares students for a rewarding career nurturing the growth and development of children. Students acquire basic knowledge about the child care and education field, child development from birth to adolescence, and appropriate practices in working with children.

Students gain hands-on experience by participating in opportunities in a variety of local early childhood programs, including Head Start centers, preschool programs, and child care centers, such as the [Hawkeye Child Development Center](#).

Students must pass the Department of Human Services criminal history record check and a national FBI fingerprint check before being placed in field experience courses.

### Evening Program

Earn a degree in the evening! Eight-week hybrid courses (partially face-to-face, partially online) are offered on Tuesdays and Thursdays at 6:00pm. This evening sequence of study coincides with the Bachelor of Arts evening program at Upper Iowa University to ease your transition in completing your degree.

The [Hawkeye Child Development Center](#) will be open on Tuesday and Thursday evenings.

### Transfer Information

The Early Childhood Education Associate of Applied Science degree has an articulation agreement with the Prekindergarten-Grade 3 Bachelor of Arts degree at Upper Iowa University.

# Early Childhood Education Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
14 - Math	24 - Pre-Algebra	38 - Numerical	40 - Arithmetic
16 - Reading	69 - Reading	34 - Reading	62 - Reading
16 - English	41 - Writing	35 - Writing	77 - Sentence Skills

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG060 College Preparatory Writing I
- RDG039 College Preparatory Reading II
- MAT045 Fundamentals of Math

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's admission requirements will be accepted.
3. We accept approximately 30 students and 30 alternates each fall and spring semester. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.
5. Students must pass the Department of Human Services Criminal History Record Check and a National FBI Fingerprint check prior to being placed in field experience courses.

## Early Childhood Education – Diploma Courses

**Award:** Diploma

**Required number of credits:** 33

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall, Spring

The Early Childhood Education diploma option program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Required Background Screenings

Students must pass a DHS Criminal History Record Check and an FBI Fingerprint Check before being placed in Field Experience courses.

### 2016–2017 Suggested Sequence of Study

<b>Semester 1</b>		
ECE103	Introduction to Early Childhood Education	3
ECE158	Early Childhood Curriculum I	3
ECE170	Child Growth and Development	3

## Dental Assisting

The Dental Assisting program prepares students to assist the dentist at chair side, perform receptionist and clinical functions, and carry out selected dental laboratory work. Students gain valuable experience and training needed to work as a dental assistant.

Students train in Hawkeye's state-of-the-art [Dental Clinic](#) featuring 18 patient chairs, computerized patient record software, and a complete digital X-ray system. The on-campus Dental Clinic is supervised by licensed dentists. Students complete a summer clinical allowing them to train in a real-world setting. The clinic is open to the public.

Graduates are eligible to take the national and state/regional examinations for licensure, which is required to practice in any state. A social security number is required to take the exams and apply for licensure.

### Accreditation

The Dental Assisting program is accredited by the Commission on Dental Accreditation. The Commission is a specialized accrediting body recognized by the United States Department of Education. Allied Dental Professions graduates are eligible to take necessary Examinations of their choice. Successful completion of board examinations is required to receive a license to practice in the State of Iowa.

# Dental Assisting Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Reading	82 - Reading	38 - Reading	90 - Reading
16 - English	41 - Writing	35 - Writing	77 - Sentence Skills
Basic Skills Competency in Math			

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG060 College Preparatory Writing I
- RDG040 College Preparatory Reading III

### Option 3

Any combination of Option 1 and Option 2 fulfilling the basic skills requirements in reading, writing, and math.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants not meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's admission requirements will be accepted.
3. We accept approximately 24 students and 10 alternates each Fall Semester. Applicants will be accepted based upon the date of their completed applicant. If many students share the same date for completing their applicant file, the application date will be used to prioritize acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.

## Dental Assisting Courses

**Award:** Diploma

**Required number of credits:** 46

**Enrollment Status:** Full-time only

**Program Start:** Fall only

The Dental Assisting program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Required Background Screenings to Participate in Clinicals

As a student in a health program at Hawkeye Community College you will be required to complete:

- a criminal background check,
- sex offender registry,
- child abuse registry, and
- dependent adult registry.

The outcome could possibly affect your opportunities to participate in the clinical setting.

### Bloodborne Pathogens, Infectious Disease, and Ionizing Radiation

As a student of the Allied Dental Programs at Hawkeye Community College, individuals may be exposed to bloodborne pathogens, infectious disease, and ionizing radiation. The Dental Assisting and Dental Hygiene Programs both educate students in policies which are outlined in the school catalog, student and faculty handbooks, and program policies and procedures manuals, which are effective in ensuring a safe environment. These items are clearly stated verbally and in written form and given to students, faculty, and staff of Hawkeye Community College through set exposure control guidelines.

Safety regarding ionizing radiation is effective and remains a primary focus, including the design of the radiology facilities, the monitoring of potential radiation through the use of the quarterly TLD badge system, and the registration and monitoring of all equipment in compliance with the State of Iowa regulations for safety. The units used for patient exposure allow for the least amount of radiation exposure when used on the film speed E or the phosphor plate sensors.

The Allied Dental Programs accept responsibility for assuring compliance with federal and state regulations regarding bloodborne pathogens standards and hazardous materials/communications. The Programs recognize the potential for bloodborne infectious disease in patients presenting for care in clinic, sterilization, radiology, and in the dental laboratory. Protocols in all clinic and support areas have been established to integrate the ethical, legal, and regulatory considerations.

### Program Course Note

You must achieve a minimum "C" grade in all courses that are required to complete the program.

## Dental Hygiene

The Dental Hygiene program provides a stimulating and rigorous classroom and clinical experience in Hawkeye's Dental Clinic. Students are educated in oral and dental hygiene sciences, natural sciences, clinical sciences, community health, and professional development.

Students train in Hawkeye's state-of-the-art Dental Clinic featuring 18 patient chairs, computerized patient record software, and a complete digital X-ray system. The clinic is open to the public.

Dental hygienists provide educational, clinical, and therapeutic services to the public, focusing on disease prevention and health promotion. They also help patients develop and maintain good oral health.

Registered dental hygienist (RDH) is the designation for the licensed professional. The state license and the RDH credential assure the public and other professionals that you have successfully completed a nationally accredited dental hygiene program, a national written examination, and a state or regional clinical examination.

Graduates of the Dental Hygiene program are eligible to take the national and state/regional examinations for licensure, which is required to practice in any state. A social security number is required in order to take exams and apply for licensure.

### Accreditation

The Dental Hygiene program is accredited by the Commission on Dental Accreditation. The Commission is a specialized accrediting body recognized by the United States Department of Education. Allied Dental Professions graduates are eligible to take necessary Examinations of their choice. Successful completion of board examinations is required to receive a license to practice in the State of Iowa.

## Medical Laboratory Technology

The Medical Laboratory Technology program teaches the knowledge and skills necessary to perform general tests in all laboratory areas, including blood banking, hematology, immunology, and microbiology. Working under the supervision of a medical technologist or pathologist, a medical laboratory technician hunts for clues to the absence, presence, extent, and causes of diseases. Students learn clinical laboratory techniques in addition to doing formal coursework in basic science and liberal arts.

Graduates are awarded an Associates in Applied Science degree and are eligible to take the national and state/regional examinations for licensure, which is required to practice in any state. A social security number is required in order to take exams and apply for licensure.

### Academic Affiliate Program

Hawkeye has academic affiliate arrangements that allow students to complete the first two semesters of the Medical Laboratory Technology program at an academic affiliate college. Students then complete the rest of the program at Hawkeye.

Academic affiliate colleges for the Medical Laboratory Technician program include:

- North Iowa Area Community College (NIACC) - Mason City, Iowa
- Northeast Iowa Community College (NICC) - Calmar and Peosta, Iowa

### Accreditation

This program is accredited by the [National Accrediting Agency for Clinical Laboratory Services \(NAACLS\)](#), a non-profit organization that independently accredits clinical laboratory science programs.

NAACLS  
5600 N. River Road, Suite 720  
Rosemont, IL 60018-5119  
773-714-8880

### Program Outcomes

Hawkeye Medical Laboratory Technology program outcomes are defined by NAACLS and reported using a three-year average from 2012-2014.

- **Hawkeye Medical Laboratory Technology Placement Rate:** 100%  
Employment in the laboratory field or pursuit of further education within 1 year of graduation
  - **Hawkeye Medical Laboratory Technology Graduation Rate:** 93%  
The percentage of students completing the program who started the final half of the program defined as the start of the fall semester in the second year.
  - **Hawkeye Medical Laboratory Technology Certification Exam (ASCP-BOC MLT):** 95%  
Percentage of students who pass the exam taken within 1 year of graduation.
-

- BIO042 Prep. Science for Health Careers

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, writing, and biology.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's admission requirements will be accepted.
3. We accept approximately 24 students and 10 alternates each Fall and Spring Semester. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.

## Medical Laboratory Technology Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 80

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall, Spring

The Medical Laboratory Technology program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Required Background Screenings to Participate in Clinicals

As a student in a health program at Hawkeye Community College you will be required to complete:

- a criminal background check,
- sex offender registry,
- child abuse registry, and
- dependent adult registry.

The outcome could possibly affect your opportunities to participate in the clinical setting.

### Program Notes

- Students must achieve a minimum "C" grade in all courses required to complete the program.
- Applicants meeting the general admission requirements may take the courses below marked with an asterisk (\*) prior to full acceptance to the Medical Laboratory Technology program.

## Practical Nursing (LPN)

The Practical Nursing program prepares students for entry-level practice as licensed practical nurses. Approximately one-half of the instructional time is spent in actual clinical practice in hospitals and nursing homes under the supervision of nursing faculty.

Students receive knowledge and skills in nursing fundamentals, lifespan growth and development, pharmacology, anatomy and physiology, and medical-surgical nursing. Students apply classroom and laboratory experience with patients in clinical settings. Students receive experience in the state-of-the-art Van Gerpen Patient Simulator Laboratory using realistic, full-body manikins and high-fidelity simulators to replicate a range of clinical situations in a controlled environment.

Graduates are eligible to take the national and state/regional examinations for licensure, which is required to practice in any state. A social security number is required in order to take exams and apply for licensure.

### Continuing Education Ladder Concept of Nursing Education

Qualified graduates are eligible to progress to the [Associate Degree Nursing program](#).

### Accreditation

Hawkeye's Practical Nursing program is approved by the [Iowa Board of Nursing](#) and the Commission on Institutes of the North Central Association.

# Practical Nursing Admission Requirements

Admission into the Practical Nursing program is a four step process. Applicants must complete each step for full admittance into the program.

Applicants must be a high school graduate or have earned their high school equivalency diploma.

## Step 1—Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Reading	82 - Reading	38 - Reading	90 - Reading
19 - English	65 - Writing	40 - Writing	98 - Sentence Skills
19 - Math	42 - Algebra	40 - Elementary Algebra	103 - Arithmetic OR 97 - Elementary Algebra

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG061 College Preparatory Writing II
- RDG040 College Preparatory Reading III
- MAT063 Elementary Algebra

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Step 2—Complete TEAS Test

Complete the [Test for Essential Academic Skills \(TEAS\)](#) at Hawkeye Community College with a composite score of 64% or higher.

**The TEAS must be taken at Hawkeye Community College. We will not accept TEAS score reports from any other institution.**

The TEAS can be taken at Hawkeye a maximum of five times. If the applicant does not successfully complete TEAS with 64% or higher after five attempts, the applicant will not be eligible for admission to the program at Hawkeye and will be removed from the nursing list.

Applicants are not allowed to retake the TEAS once a minimum composite score of 64% is achieved.

A fee is assessed at Hawkeye for the TEAS test.

## Program Contacts

### Department Secretary

Linda Butler  
Grundy Hall 135  
319-296-4013  
Email me

### Pre-Advisor

Heidi Hudson  
Student Services

Email me

### Dean

Gene Leutzinger  
Grundy Hall 173  
319-296-4457  
Email me

Prepare for a successful TEAS V test.

### Step 3—Complete Coursework

Complete all of the following courses, or the equivalent, with a "C" grade or higher:

- ENG105 Composition I
- BIO168 Human Anatomy and Physiology I
- HSC108 Introduction to Health Professions

Successfully complete a state approved Certified Nurse Assistant (CNA) course through an accredited college. Applicants will need to provide an official transcript providing proof of successful CNA completion.

### Admissions Process

1. Apply for admission.
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants not meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants enrolled in coursework to complete Step 1 and/or Step 3 will become candidates.
  - c. Upon completion of Step 1, 2, 3, and 4, applicants will be placed on the Eligible for Acceptance list. Placement on the list is determined by the highest point total earned from the Nursing criteria.  
  
If applicants share the same number of points, the second criteria used will be the Practical Nursing application date. The earliest application date will take priority over a later application date.
3. Applications are processed for admission in the Fall and Spring semester.

### Practical Nursing Point System

**TEAS score:** Points awarded in one category using the highest score earned

TEAS score 64–66 -OR-	0 points
TEAS score 67–71 -OR-	1 point
TEAS score 72–76 -OR-	2 points
TEAS score 77 or higher	3 points

**Highest Degree Earned:** Points awarded in one category using the highest score earned

Master of Arts or Master of Science Degree -OR-	3 points
Bachelor of Arts or Bachelor of Science Degree -OR-	2 points
Associate in Arts or Associate in Science Degree	1 point

**Complete the following courses with a grade of "C" or higher**

---

BIO173 Human Anatomy and Physiology II	1 point
MAT156 Statistics -OR- MAT102 Intermediate Algebra	1 point
BIO151 Nutrition	1 point

---

## Associate Degree Nursing (RN)

The Associate Degree Nursing (ADN) program prepares students for entry-level practice as registered nurses and provides upward mobility for licensed practical nurses. Students gain clinical practice in local hospitals, public mental health institutions, and community health agencies. Students must complete a Practical Nursing program before starting the Associate Degree Nursing program.

Students receive knowledge and skills in nursing fundamentals, lifespan growth and development, pharmacology, anatomy and physiology, and medical-surgical nursing. Students apply classroom and laboratory experience with patients in clinical settings. Students receive experience in the state-of-the-art Van Gerpen Patient Simulator Laboratory using realistic, full-body manikins and high-fidelity simulators to replicate a range of clinical situations in a controlled environment.

Students must complete the [Practical Nursing](#) program before starting the Associate Degree Nursing program.

Graduates of the Associate Degree Nursing program are eligible to take the national and state/regional examinations for licensure, which is required to practice as a Registered Nurse in any state. Please keep in mind, a social security number is required in order to take exams and apply for licensure.

### Accreditation

This program is approved by the [Iowa Board of Nursing](#) and the Commission on Institutes of the North Central Association.

### Transfer Information

Hawkeye Community College is a member of the Iowa Articulation Plan, which creates a career path for Associate Degree Nursing to a Bachelor of Science in Nursing with a minimum of time and redundancy. For more information, contact a program advisor.

## Associate Degree Nursing Careers

Graduates are selected for jobs in:

- hospitals
- long-term care facilities
- clinics
- physicians' offices
- industrial health
- community health
- the armed forces
- pharmacies

Starting Wages: \$41,000–\$53,500 per year\*

\*Source: Iowa Workforce Development

Iowa Workforce Development forecasts more than 1,200 job openings each year for registered nurses through 2022. Registered nursing is one of the occupations in Iowa with the most job openings.

# Associate Degree Nursing Admission Requirements

1. Before your Admission Application will be processed for the Associate Degree Nursing program you must:
  - a. Be fully accepted into the Practical Nursing program,
  - b. Have at least one semester completed in Practical Nursing,
  - c. Have, and maintain, current CPR certification, and
  - d. Meet basic skill competencies in reading, writing, and math.
  
2. To be fully accepted into the Associate Degree Nursing program you must:
  - a. Have graduated from a regionally accredited Practical Nursing program, or pre-approval from the Hawkeye Nursing Program Chair if not regionally accredited, with a program cumulative GPA of 2.70 or higher.
  - b. Hold a current Iowa LPN license or get a current Iowa license before completion of first semester coursework in order to continue in the Associate Degree Nursing program.
  - c. Have one year of high school chemistry with a grade of "C" or higher or equivalent college chemistry course with a grade of "C" or higher.
  - d. Successful completion of the following courses or equivalent with a grade of "C" or higher:
    - BIO168 Human Anatomy and Physiology I
    - BIO173 Human Anatomy and Physiology II
    - SPC101 Fundamentals of Oral Communication
  
3. Applicants with the highest points, as determined by the point system below, will receive priority admission to the program. Applicants must have a minimum of five points.

## Associate Degree Nursing Admission Point System

Cumulative Practical Nursing GPA 3.50 or higher	4 pts.
Cumulative Practical Nursing GPA 3.00–3.49	3 pts.
Cumulative Practical Nursing GPA 2.80–2.99	1 pt.
Cumulative Practical Nursing GPA 2.70–2.79	0 pts.
ACT Composite of 22 or higher	1 pt.
Hawkeye Community College Practical Nursing Graduate	1 pt.
Master of Arts or Master of Science degree -OR-	3 pts.

 Email me

Bachelor of Arts or Bachelor of Science degree -OR-	2 pts.
Associate of Arts or Associate of Science degree -OR-	1 pt.
Associate of Applied Arts or Associate of Applied Science degree from appropriate health-related field	1 pt.
Have not repeated any Practical Nursing courses	1 pt.
3.50–4.00 cumulative GPA from completion of all the following gen-ed courses: BIO168, BIO173, BIO186, SOC110 or PSY111, and SPC101. -OR-	3 pts.
3.00–3.49 cumulative GPA from completion of all the following gen-ed courses: BIO168, BIO173, BIO186, SOC110 or PSY111, and SPC101.	2 pts.
Completion of all gen-ed courses—BIO168, BIO173, BIO186, SOC110 or PSY111, and SPC101—without repeating a course.	1 pt.

## Admissions Process

1. Apply for admission.
2. Completed applicant files will be processed as follows:
  - a. Applicants who do not meet the program's admission requirements will be inactivated and will be sent an admissions inactivation letter.
  - b. Applicants enrolled in coursework to complete the admission requirements will be candidates for admission.
  - c. Applicants who meet the programs admission requirements will be acceptable for admission and placed on the Eligible for Acceptance list. Placement on the list is determined by the highest point total earned.
3. Applicants will be processed for admission for the fall and spring semesters.
4. Applicants will be required to submit credentials (transcripts and test scores) as required by the program's admission requirements.
5. We will accept approximately 40 students each fall and spring semester for the day session. Applicants will be accepted based on the points earned from the Associate Degree Nursing Admission Point System.
6. Once offered acceptance to begin the Associate Degree Nursing program, if the applicant chooses to decline the acceptance, they will be placed back on the Eligible for Acceptance list in order based on total points awarded from the admission criteria. This does not guarantee that applicant will be offered acceptance the following semester.

For students starting the Associate Degree Nursing program spring semester, term one is spring, term two is fall, and term 3 is the first six weeks of the following spring semester. If seats are available, students may be chosen by lottery to complete ADN477 during the summer in between the first and second term. However, there is no guarantee spring start Associate Degree Nursing students will be awarded a seat in the summer session.

## Occupational Therapy Assistant

The Occupational Therapy Assistant program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE). As a result of this action, Hawkeye Community College Occupational Therapy Assistant students may now sit for the National Board.

The Occupational Therapy Assistant program prepares students with entry-level skills and knowledge to provide treatments that improve consumers' ability to achieve independence in everyday activities and to enjoy life to its fullest. Students will learn how to provide occupational therapy interventions for clients with various impairments and monitor their progress while following an occupational therapy plan of care. They will also learn to effectively educate and communicate with patients, families, and other healthcare providers.

Occupational therapy assistants work under the direction and supervision of an occupational therapist. Duties may include instructing patients in performance of activities of daily living, teaching clients to use adaptive equipment or modifying tasks to increase successful participation in meaningful occupations, and educating consumers in health and wellness.

Due to the nature of the work environment and the physical exertion often required to assist patients, you will need to have a moderate degree of strength. For example, you will need to be able to lift patients, kneel, stoop, and stand for long periods of time.

Students should be aware that a felony conviction can have a serious and negative impact on eligibility for certification and credentialing as an Occupational Therapy Assistant.

### Accreditation

The Occupational Therapy Assistant program at Hawkeye Community College is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA)

#### ACOTE

# Occupational Therapy Assistant Admission Requirements

The Occupational Therapy Assistant program at Hawkeye is considered a 1+1 model. Students must complete separate admissions processes for Phase I and Phase II.

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Reading	82 - Reading	38 - Reading	90 - Reading
19 - English	65 - Writing	40 - Writing	98 - Sentence Skills
19 - Math	42 - Algebra	40 - Elementary Algebra	103 - Arithmetic OR 97 - Elementary Algebra

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG061 College Preparatory Writing II
- RDG040 College Preparatory Reading III
- MAT063 Elementary Algebra

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Phase I Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants not meeting the program's basic skill competencies requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's basic skill competencies requirements will be considered Occupational Therapy Assistant Wait students and will be able to take Phase I courses.

Being a "Wait" student does not guarantee Phase II acceptance.

## Phase II Program Entrance Requirements

## Program Contacts

Email me

Before applying to Phase II of the program, applicants must complete the following requirements.

1. Complete one year of the following courses, or one semester of a college-level comparable course, or in the process of completing 15 credits and are currently passing the course with a "C" grade or higher with the exception of biology courses which require grade of a "B -" or higher.
  - Math (algebra or geometry)
  - Biology
  - English
2. Proof of completion of a total of 24 observation hours with a licensed occupational therapist or occupational therapy assistant at three different clinical sites (example: outpatient, hospital inpatient, home health, or long-term care), eight hours per site, and two different settings. [Pre-Admission Observation Hours form \[pdf\]](#).
3. At least 15 credits of [Phase I coursework](#) must be completed with the required cumulative GPA and individual course grades prior to applying for Phase II of the program.

## **Phase II Admissions Process**

1. To be considered for Phase II acceptance, applicants must complete and submit the [OTA Program Phase II Application packet \[pdf\]](#) by December 1. Phase II applications will be accepted only from those who are active Hawkeye Community College students.
2. Phase II program applicants will continue with Phase II of the program as openings are assigned. Students will be notified of their acceptance or non-acceptance via their [Hawkeye email](#).
3. We accept approximately 20 students into Phase II each Summer Semester. Applicants will be accepted based on the initial date of their completed Phase II applicant file.
4. Applications need to be submitted by December 1 to be considered for the upcoming summer, Phase II, of the OTA Program.
5. On receiving notification of acceptance into Phase II of the OTA Program, the applicant has one week from the letter date to confirm acceptance into the program by contacting either the OTA Program Director or the Academic Fieldwork Coordinator.

Please be advised that the seat of any student who fails to confirm acceptance during the time period will be offered to the next student on the list. In this case, the student will need to begin the application process again.

6. If necessary alternates will be contacted, based on the date the Phase II program applicant file was completed, to fill unconfirmed positions in the program.

[Hawkeye's Equal Opportunity Statement](#)

## Occupational Therapy Assistant Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 82

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall only

The Occupational Therapy Assistant program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Phase I – Foundational Coursework

#### Phase I Notes

- Students are not eligible for the Iowa Vocational Technical Tuition Grant while taking Phase I courses.
- A minimum cumulative GPA of 2.75 is required for Phase I with no lower than a:
  - "B" in BIO168 Human Anatomy and Physiology I w/lab,
  - "B" in BIO173 Human Anatomy and Physiology II w/lab, and
  - "C" in any individual Phase I general education course.
- BIO168 and BIO173 must have been completed within the last five years of starting Phase II, unless waived by the program chair.

### 2016–2017 Suggested Sequence of Study

<b>Semester 1 – Fall</b>		
BIO168	Human Anatomy and Physiology I	4
CSC110	Introduction to Computers	3
ENG105	Composition I	3
HSC113	Medical Terminology	2
MAT110	Math for Liberal Arts	3
PSY111	Introduction to Psychology	3
<u><a href="#">View Course Descriptions</a></u>		<b>Total Credits 18</b>
<b>Semester 2 – Spring</b>		
BIO173	Human Anatomy and Physiology II w/Lab	4
HSC108	Introduction to Health Professions	2
PSY121	Developmental Psychology	3
PSY241	Abnormal Psychology	3

SOC205	Diversity in America	3
SPC101	Fundamentals of Oral Communication	3
<u><a href="#">View Course Descriptions</a></u>		<b>Total Credits 18</b>

## Phase II – Technical Courses and Clinical Experience

### Phase II Notes

- Phase II must be completed at full-time status.
- Students will complete Phase II in approximately 12 months.
- Before students can begin Phase II they must complete the [Phase II admissions process](#).
- Students must earn a grade of “C” or higher in all of their Phase II coursework. Less than a “C”, which is less than 75%, is considered failing.

Students may not progress with other course work until a failed course is retaken.

Students may only fail one Phase II course; failing more than one course will be grounds for dismissal from the program.

Failing one or more courses will be grounds for dismissal from the program.

### Clinical Experience Requirements

Clinical experiences are completed off-campus. Sites may be local, in-state, or out-of-state and students are very likely to travel at least 2-3 hours away from campus for at least one placement to complete their fieldwork requirement. Students are responsible for their own transportation to and from clinical education, as well as any associated uniform and housing costs. Students will not be allowed to select specific sites for clinical education, but may make requests for special needs or geographical locations. Placement at sites will be dependent up the availability of supervisors.

Participation in clinical education requires:

1. Criminal background, urinalysis testing, Medicare/Medicaid fraud, sex offender, and adult/dependent abuse background checks are required prior to the first day of Phase II courses. A negative finding of the background check may limit and/or exclude you from participation in clinical education (fieldwork) component, thus your eligibility for program completion/graduation would be compromised. If you have a negative finding, you can go through the [NBCOT Early Determination & Character Review](#). NBCOT states “To ensure that occupational therapy practitioners meet standards of professional conduct prior to entering the profession, all applicants for certification are required to provide information and documentation related to affirmative responses to character questions on the examination application. - See more at: <http://www.nbcot.org/character-review-process#sthash.893065du.dpuf>
2. Students are required to complete CPR, HIPPA, First Aid, Mandatory Reporting, OSHA training prior to the first day of clinical course work. This training is part of HSC108 Intro to Health Professions.

3. Current physical exam and updated immunizations are required, including current hepatitis B series (unless signs waiver), MMR, and current tetanus. Polio and meningitis are also recommended. Current 2-step TB test results are required. This must be recorded on the Hawkeye Community College Student Health and Immunization Record form prior to the first day of Phase II courses.

Physical and immunizations must be up to date and maintained until the following August and/or completion of all fieldwork. Failure to do so will disrupt fieldwork placement and jeopardize your position in the program.

A dress code for clinical education exists and may be dictated by the clinical site.

## Physical Therapist Assistant

The Physical Therapist Assistant program prepares students with entry-level skills and knowledge to provide treatments that improve patients' mobility, relieve pain, and prevent or lessen physical disabilities. Students will learn physical therapy interventions, data collection techniques, and how to follow a physical therapy plan of care. They will also learn to effectively educate and communicate with patients, families, and other healthcare providers.

Physical therapist assistants work under the direction and supervision of a physical therapist. Duties may include instructing patients in exercises and activities of daily living, performing manual treatments, and administering modalities such as an ultrasound.

### Accreditation

The Physical Therapist Assistant program at Hawkeye Community College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: [accreditation@apta.org](mailto:accreditation@apta.org); website: [www.capteonline.org](http://www.capteonline.org).

### Graduation, National Exam Pass, and Employment Rates

Phase 2 Class	Program Graduation	National Exam Pass*	Employment**
2011–2012	89.5%	69%	89%
2012–2013	85%	94%	92%
2013–2014	85%	73%	95%
2014–2015	95%	TBD	TBD

\* Ultimate pass rate may change as students retake the exam.

\*\* Graduate Employment Rates are determined six months after the students first national exam opportunity. Data reflects those who passed the exam.

## About the Physical Therapist Assistant Profession

Physical therapy, as a profession, dates from the beginning of the 20th century, when survivors of polio and WWI injuries created a demand for rehabilitation specialists. Physical therapy today is a health care specialty grounded on a foundation of evidence-based practice concerned with treating disorders that result in movement and functional limitations.

Clinical application of the science restores function, improves mobility, relieves pain, and prevents or limits permanent physical disabilities. The profession also works to promote overall fitness and health.

### Who are Physical Therapist Assistants?

The physical therapist assistant is a technically educated health care provider who assists the physical therapist in the provision of physical therapy.

The physical therapist performs an examination and evaluation, develops a diagnosis, determines the prognosis then develops a plan of care for the patient/client.

The physical therapist assistant assists the physical therapist in implementing treatment programs according to the plan of care.

Duties may include:

- instructing patients in exercises and activities of daily living
- administering modalities and other treatment procedures
- reporting to the physical therapist on the patient's response to treatment.

Physical therapist assistants work in a wide variety of settings including hospitals, rehabilitation clinics, out-patient facilities, schools, and nursing homes.

### Is Physical Therapist Assistant the Career Path for Me?

If you can answer yes to the questions below, a career as a Physical Therapy Assistant may be a good fit for you.

Do you:

- enjoy helping people achieve a better quality of life?
- enjoy working as part of a team toward a common goal?
- have a compassionate and caring personality?

Can you:

- sit, bend, reach, and/or walk and stand for most of the day?
- lift and carry up to 35% of your own body weight?
- communicate effectively in written and verbal forms?
- place the needs of a patient above your own?
- use your vision and touch for patient assessment?
- use your fine and gross motor skills to assist a patient?

# Physical Therapist Assistant Admission Requirements

The Physical Therapist Assistant program at Hawkeye is considered a 1+1 model. Students must complete separate admissions processes for [Phase I](#) and [Phase II](#).

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Reading	82 - Reading	38 - Reading	90 - Reading
19 - English	65 - Writing	40 - Writing	98 - Sentence Skills
19 - Math	42 - Algebra	40 - Elementary Algebra	103 - Arithmetic OR 97 - Elementary Algebra

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG061 College Preparatory Writing II
- RDG040 College Preparatory Reading III
- MAT063 Elementary Algebra

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Phase I Admissions Process

1. [Apply for admission to Hawkeye](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants not meeting the program's basic skill competencies requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's basic skill competencies requirements will be considered Physical Therapist Assistant Wait students and will be able to take Phase I courses.

Being a "Wait" student does not guarantee Phase II acceptance.

## Phase II Program Entrance Requirements

Email me

Before applying to Phase II of the program, applicants must complete the following requirements.

1. One semester of high school physics with a grade "C" or better is required. A full year of high school physics is suggested.

If you currently attend an Iowa high school that does not offer physics or you cannot work it into your schedule, discuss the possibility of taking physics through the Iowa Communications Network with your high school guidance counselor.

-OR-

If you have graduated from high school and have not fulfilled this requirement you can take a remedial course at the high school or college level. Hawkeye offers PHY100 as a physics preparatory course which meets the PTA program requirements. Contact a program advisor for more information.

2. We recommend applicants complete one year of the following high school courses, or one semester of a college-level comparable course, with a "C" grade or higher, however, these courses are not required for admission.
  - Math (algebra or geometry)
  - Biology
  - English
3. Proof of completion of a total of 24 observation hours with a licensed physical therapist or physical therapist assistant at three different clinical sites (eight hours per site).

Observations must include at least two different types of facilities (example: outpatient, hospital inpatient, home health, rehab center, or long-term care).

Arranging observations is the responsibility of the student. You will need to call the facility ahead of time to arrange an observation. Don't forget to ask about any requirements you must meet in order to observe and the dress code.

Document the observations on the [Pre-Admission Observation Hours form \[pdf\]](#). Return the form with your Phase II application.

4. Attend a PTA MORE session if you are currently attending classes at Hawkeye Community College or an interview with a Physical Therapist Assistant faculty member if transferring in all of Phase I coursework. Contact a program advisor to schedule an interview.
5. At least 18 credits of [Phase I coursework](#) must be completed with the required cumulative GPA and individual course grades prior to applying for Phase II of the program.

All [Phase I coursework](#) must be completed by the end of the spring term that precedes Phase II.

If an applicant is a graduate from another accredited university with a bachelor's degree in either exercise science or athletic training, the applicant is eligible for entry into Phase II courses without taking the general

educational requirements. The applicant would also be eligible for graduation after successful completion of Phase II coursework.

## **Phase II Admissions Process**

1. To be considered for Phase II acceptance, applicants must have completed all of the following:
  - a. Phase I Admissions Process
  - b. Phase II program entrance requirements
  - c. Phase II PTA Program Application Packet [pdf].
2. Phase II applicants will continue with Phase II of the program as openings are assigned. Students will be notified of their acceptance or non-acceptance via their Hawkeye email.
3. We accept approximately 20 students into Phase II each fall semester. Applicants will be admitted based on a personal interview with a Physical Therapist Assistant faculty member and their preparatory coursework GPA.
4. If necessary, alternates will be contacted based on the same criteria as the initially accepted applicant.

## Hawkeye's Equal Opportunity Statement

## **Phase II – Technical Courses and Clinical Experience**

### **Phase II Notes**

- Phase II must be completed at full-time status.
- Students will complete Phase II in approximately 12 months.
- Before students can begin Phase II they must complete the Phase II admissions process by the end of the spring semester that precedes the fall start of Phase II.
- Students must earn a grade of “C” or higher in all of their Phase II coursework. Less than a “C” is considered failing.

Students may not progress with other course work until a failed course is retaken.

Students may only fail one Phase II course; failing more than one course will be grounds for dismissal from the program.

### **Clinical Experience Requirements**

Clinical experiences are completed off-campus. Sites may be local, in-state, or out-of-state. Students are responsible for their own transportation to and from clinical education, as well as any associated housing costs. Students will not be allowed to select specific sites for clinical education, but may make requests for special needs or geographical locations.

Participation in clinical education requires:

1. Criminal background, sex offender, and child and adult/dependent abuse background checks are required prior to the first day of Phase II courses. Failing a background check will result in dismissal from the program.
2. Students are required to complete CPR, HIPAA, First Aid, Mandatory Reporting, OSHA training prior to the first day of clinical course work. This training is part of Phase II courses.
3. Getting a physical exam and updated immunizations, including current hepatitis B series (unless signs waiver), MMR, and current tetanus. Polio and meningitis are also recommended. Current two-step TB test results are required. This must be recorded on the Hawkeye Community College Student Health and Immunization Record form prior to the first day of Phase II courses.

A dress code for clinical education exists and may be dictated by the clinical site.

## Respiratory Care

The Respiratory Care program prepares students for employment in the diagnosis and treatment of patients with deficiencies and abnormalities associated with the cardiopulmonary system. Duties may include electrocardiograms, arterial blood gases, nebulizer treatments, inhalers, ventilator management, oxygen therapy, pulmonary function tests, and sleep studies.

Students train in Hawkeye's state-of-the-art Van Gerpen Patient Simulator Laboratory using realistic full-body manikins and simulators to replicate a range of hospital settings and patient scenarios in a controlled environment.

Graduates are eligible to take the national examination for licensure, which is required to practice in any state. A social security number is required in order to take exams and apply for licensure.

### Accreditation

The Respiratory Care program, 200457, Associate of Applied Science, is accredited by the [Commission on Accreditation for Respiratory Care](#).

# Respiratory Care Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Reading	82 - Reading	38 - Reading	90 - Reading
19 - English	65 - Writing	40 - Writing	98 - Sentence Skills
19 - Math	42 - Algebra	40 - Elementary Algebra	103 - Arithmetic OR 97 - Elementray Algebra

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG061 College Preparatory Writing II
- RDG040 College Preparatory Reading III
- MAT063 Elementary Algebra

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Admissions Process

1. [Apply for admission.](#)
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting all admission requirements will be accepted and tracked while taking the first and second semester prerequisite courses. Upon completion of this coursework with the required cumulative GPA, students will be able to register for RCP courses.
3. We accept approximately 30 students and 10 alternates each Fall Semester. The program accepts approximately 20 students each summer to the RCP professional core courses. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.

## Respiratory Care Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 79

**Program Start:** Fall only

The Respiratory Care program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### Required Background Screenings to Participate in Clinicals

As a student in a health program at Hawkeye Community College you will be required to complete:

- a criminal background check,
- sex offender registry,
- child abuse registry, and
- dependent adult registry.

The outcome could possibly affect your opportunities to participate in the clinical setting.

### Program Notes

- Students are not eligible for the Iowa Vocational Technical Tuition Grant while taking the prerequisite courses.
- Students must complete all prerequisite courses with a 2.75 cumulative GPA prior to registering for RCP courses.
- Students must achieve a minimum "C" grade in all courses required to complete the program.

## 2016–2017 Suggested Sequence of Study

<b>Prerequisites – Fall</b>		
BIO168	Human Anatomy and Physiology I	4
CHM122	Introduction to General Chemistry	4
CSC110	Introduction to Computers	3
HSC113	Medical Terminology	2
MAT110	Math for Liberal Arts	3
<a href="#"><u>View Course Descriptions</u></a>		<b>Total Credits 16</b>
<b>Prerequisites – Spring</b>		
BIO173	Human Anatomy and Physiology II w/Lab	4
BIO186	Microbiology	4
ENG105	Composition I	3

## Civil and Construction Engineering Technology

The Civil and Construction Engineering Technology program prepares students for entry-level work with civil engineers, contractors, architects, and government agencies at the city, county, and state levels, as well as the public. Civil engineering technicians apply the principles of civil engineering technology and surveying technology in planning, designing, and overseeing construction and maintenance of structures and facilities. They do hands-on work and use high-tech equipment in various kinds of projects under the direction of engineering staff.

Several civil engineering scholarships and other scholarship opportunities are available to students in this program.

### Transfer Information

Hawkeye's Industrial and Engineering Technology department has a block articulation agreement with the University of Northern Iowa and Mount Mercy University to transfer general education and technical credits. Many Civil and Construction Engineering Technology graduates have transferred substantial credits into the Construction Management program at UNI and the Civil Engineering program at Iowa State University. For more information, contact a program advisor.

# Civil and Construction Engineering Technology Careers

Graduates find employment working as civil technicians, CAD drafters, designers, surveyors, construction inspectors, material testing technicians, estimators, and environmental technicians in public works and private sector jobs.

With the ever-increasing need for infrastructure and the continuing retirement of seasoned technicians in this field, there are tremendous job opportunities and potential for advancement.

Starting Wages: \$35,800 - \$52,200 per year\*

# Civil and Construction Engineering Technology Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
19 - Math	42 - Algebra	38 - Reading	90 - Reading
19 - Reading	82 - Reading	40 - Writing	98 - Sentence Skills
19 - English	65 - Writing	40 - Elementary Algebra	103 - Arithmetic OR 97 - Elementary Algebra

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG061 College Preparatory Writing II
- RDG040 College Preparatory Reading III
- MAT063 Elementary Algebra

### Option 3

Any combination of Option 1 and Option 2 fulfilling the basic skills requirements of algebra, reading, and writing.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants who do not meet the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting all admission requirements will be accepted.
3. We accept approximately 24 students and 20 alternates each Fall Semester. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.

## CNC Machining and Tool-Making Technology

CNC Machining and Tool-Making Technology program provides students with the entry-level skills to become a general machinist, a computer-numerical control (CNC) operator or programmer, or a tool-maker.

During the first year, students have the opportunity to complete various levels of the CNC Machining and Tool-Making Technology program to meet our rising local need. They gain experience with basic machining on manual and CNC machines, computer-aided drafting (CAD) and computer-aided machining (CAM) programming, lathes, mills, and electrical-discharge machines (EDMs). Once a student has completed the first year they can earn a diploma in CNC Machining Technology, a certificate as a CNC Machine Operator, a certificate as a CNC Machine Set-Up Specialist, or continue to the second year to earn their AAS degree.

During the second year, students gain hands-on experience in tool-making, die building, mold making, jig and fixture building, tool room machining, and basic design skills. They are also introduced to manual and coordinate measuring machine (CMM) inspection. Upon completion of the two-year program, students earn an Associate of Applied Science degree.

### Partnerships

Hawkeye has a partnership with many local area high schools and local businesses through EMC<sup>2</sup> (Exploring Manufacturing Careers Consortium) to facilitate a school-to-work program.

### Transfer Information

Hawkeye's Industrial and Engineering Technology department has a block articulation agreement with the University of Northern Iowa for general education and technical credits. For more information, contact a program advisor.

# CNC Machining and Tool-Making Technology Careers

Graduates find employment working in a variety of positions including:

- tool-maker
- CNC machinist
- CNC machine operator
- CNC set-up specialist

Starting Wages: \$28,100 - \$37,500 per year\*

Many graduates in this field work overtime and are not included in the above starting wages.

# Electromechanical Engineering Technology Careers

Our graduates work in a variety of positions including:

- Automation technician
- Electrical maintenance worker
- Electrical specialist
- Electrical/PLC programming technician
- Electronics technician
- Maintenance mechanic
- Maintenance technician
- Product development technician
- Repair technician
- System electronics technician

Starting Wages: \$37,800 - \$49,600 per year\*

# Electromechanical Engineering Technology Admissions Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
16 - Reading	69 - Reading	34 - Reading	62 - Reading
16 - English	41 - Writing	35 - Writing	77 - Sentence Skills
19 - Math	42 - Algebra	40 - Elementary Algebra	103 - Arithmetic -OR- 97 - Elementary Algebra

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG060 College Preparatory Writing I
- RDG039 College Preparatory Reading II
- MAT063 Elementary Algebra

### Option 3

Any combination of Option 1 and Option 2 fulfilling the basic skills requirements in algebra, reading and writing.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants who do not meet the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting all admission requirements will be accepted.
3. We accept approximately 24 students and 20 alternates each Fall Semester. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.

# Electromechanical Engineering Technology Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 82

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall only

The Electromechanical Engineering Technology program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

## 2016–2017 Suggested Sequence of Study

### Semester 1

EGT108	Principles of Engineering -OR-	3
EGT410	Principles of Engineering	3
ELT290	DC Electricity *	4
ELT291	AC Electricity **	4
IND100	Basic Mechanical Systems	2
IND111	Industrial Safety Mechanical Systems	1
MAT504	Electronics Math I	4

[View Course Descriptions](#)

**Total Credits 18**

\* First 8 weeks

\*\*Second 8 weeks

### Semester 2

ELT104	Electronics Drafting -OR-	3
CAD119	Introduction to Computer-Aided Drafting (CAD)	3
ELT320	Electronic Devices	5
ELT321	Operational Amplifiers	3
ELT600	Applied Computer Programming	3
MAT514	Electronics Math II	4

## Electronics Engineering Technology

The Electronics Engineering Technology program provides students with broad-based knowledge and skills in communications, electronics manufacturing, electronics maintenance, computer and business machine repair, electronics design and development, computer software, and networking.

Electronic engineering technicians work with electronics engineers. Together they design, develop, and manufacture industrial and consumer electronic equipment such as ultrasound, radar, navigational equipment, and computers. They are involved in fabricating, operating, testing, troubleshooting, repairing, and maintaining equipment.

### Partnerships

Hawkeye has a unique training partnership with John Deere to train and hire electronic engineering technicians.

### Transfer Information

Hawkeye's Industrial and Engineering Technology department has a block articulation agreement with the University of Northern Iowa for general education and technical credits. For more information, contact a program advisor.

## Heating and Air Conditioning

The Heating and Air Conditioning program is designed to provide classroom and shop learning experiences. Students gain the knowledge to become proficient in the theory and service of domestic, environmental, and comfort conditioning equipment.

Students are trained in basic electricity, electric and electronic controls, fossil fuel heating process and equipment, air cooling and refrigeration theory and equipment, fabrication and installation of sheet metal, heat pump theory and equipment, and electric heat theory and equipment. They also examine the theory of the solar heating process.

### Experience and Training

The Heating and Air Conditioning eight-week field experience allows students to gain real work experience at an employment site. This ensures that the students gain the skills they need to succeed on the job.

### Transfer Information

Hawkeye's Industrial and Engineering Technology department has a block articulation agreement with the University of Northern Iowa for general education and technical credits. For more information, contact a program advisor.

# Industrial Automation Technology

The Industrial Automation Technology program prepares students for careers and employment in a broad range of manufacturing, food processing, and business environments. Students gain an in-depth knowledge of electricity and electronics, fluid power, mechanical systems, robotics, and manufacturing processes. Students learn through hands-on training utilizing state-of-the-art equipment used in today's businesses.

## Enhance Iowa Grant

The Industrial Automation program is part of the Enhance Iowa project, a grant from the US Department of Labor for equipment, training, and simulation to help prepare individuals in the high demand field of industrial maintenance and automation.

## Transfer Information

Hawkeye's Industrial and Engineering Technology department has a block articulation agreement with the University of Northern Iowa for general education and technical credits. For more information, contact a program advisor.

## Industrial Automation Technology Careers

Entry-level positions in Industrial Automation Technology are available locally, regionally, and nationally. Graduates generally work in maintenance positions and find employment in manufacturing, food processing, and business environments.

Starting Wages: \$29,000 - \$52,000 per year\*

\*Source: Iowa Workforce Development and as reported by the Industrial and Engineering Technology department.

# Industrial Automation Technology Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
14 - Math	24 - Pre-Algebra	38 - Numerical	40 - Arithmetic
19 - Reading	82 - Reading	38 - Reading	90 - Reading
19 - English	65 - Writing	40 - Writing	98 - Sentence Skills

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG-061 College Preparatory Writing II
- RDG-040 College Preparatory Reading III
- MAT-045 Fundamentals of Math

### Option 3

Any combination of Option 1 and Option 2 fulfilling the basic skills requirements of algebra, reading, and writing.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants not meeting the program's admission requirements will be sent an Admissions Inactivation Letter.
  - b. Applicants meeting all admission requirements will be accepted.
3. We accept approximately 20 students and 20 alternates. Applicants will be accepted based upon the initial date of their completed applicant file. If many students share the same date for completing their applicant files; the application date, if needed, will be used to prioritize their acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.

## Industrial Automation Technology Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 69

**Enrollment Status:** Full-time or part-time

**Program Start:** Fall only

The Industrial Automation Technology program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

Part-time students, visit with a program advisor for a modified sequence of study.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### **Eight-Week Courses \* \*\***

Courses marked with one asterisk (\*) meet the first 8-weeks of the semester. Courses marked with two asterisks (\*\*) meet the second 8-weeks of the semester.

### **2016–2017 Suggested Sequence of Study**

## Sustainable Construction and Design

The Sustainable Construction and Design prepares students to design and construct sustainable and highly energy-efficient residences. Students will learn how to construct new homes that are durable; provide a healthy environment for the occupants; and use very little energy for heating, cooling, and lighting. The program utilizes a “whole systems approach” to train graduates to understand the integral relationship between materials, building techniques, mechanical systems, and subcontractors in the production of energy-efficient and sustainable homes. Students will learn about the use of green and renewable materials, the proper installation of all components and subsystems, and the reduction of construction site waste.

Students apply the concepts they learn in hands-on building experiences. Training includes, but is not limited to, foundations, concrete work, framing, siding, roofing, thermal/moisture protection, drywall installation/finishing, stair construction, finishing, cabinet installation, HVAC, electrical, plumbing, appliances, and landscaping.

Students learn to perform energy audits on existing homes to identify problems, develop solutions, and retrofit solutions cost effectively.

The Sustainable Construction and Design program follows the National Center for Construction Education and Research (NCCER) training, assessment, certification, and career development standards for residential construction and maintenance craft professionals. Program concepts align with the U.S. Green Building Council's initiatives.

### Transfer Information

Hawkeye’s Industrial and Engineering Technology department has a block articulation agreement with the University of Northern Iowa to transfer general education and technical credits. Graduates may transfer credits into the Construction Management program at UNI. For more information, contact a program advisor.

# Sustainable Construction and Design Careers

Graduates will find employment as:

- building designers
- sustainable construction professionals
- carpenters
- insulation workers
- residential site supervisors
- energy auditors

They will also be prepared to continue their education to become:

- construction managers
- building inspectors
- commercial drafters
- electricians
- plumbers
- HVAC designers

Starting Wages: \$26,200 - \$39,300 per year\*

## Welding

The Welding program prepares students to enter into the industry as beginning production, maintenance, or job shop welders. Students are trained in the latest techniques in the fabrication of materials by welding processes.

Welding continues to be one of the principal means of fabricating and repairing metal products. An independent certification laboratory evaluates each student's performance on the American Welding Society Structural Steel Bend test for possible certification before graduation.

## Information Systems Management

The Information Systems Management program prepares students to examine the implementation and management of information systems in today's technological business environment. This program provides students with a solid understanding of hardware, networks, and applications along with their impact on a business.

The first year of coursework focuses on information technology such as hardware, operating systems, and networking equipment. Hawkeye is a Regional Academy for Cisco Systems and delivers their curriculum covering switches and routers, preparing students to obtain the CCNA industry certification. Students are also trained and encouraged to pursue the CompTIA A+ certification as well as Microsoft MTA certification.

The second year focuses on business. Students gain an understanding of business to enable them to provide systems to support key business objectives as an information technology professional. These classes cover a variety of topics, including human resources, accounting, management, and marketing.

Hawkeye's Information Technology programs are located in [Black Hawk Hall](#). The Information Technology lab equipment, environment, and technology are state-of-the-art.

### Transfer Information

Students enrolled in the Information Systems Management program wishing to transfer should contact a program advisor.

## Information Systems Management Careers

Information Systems Management graduates will be ready to accept employment in positions such as:

- network manager
- help desk manager
- information systems manager
- information technology manager

Starting Wages: \$23,700 - \$40,600 per year\*

# Information Systems Management Admission Requirements

## Basic Skill Competencies Requirements

### Option 1

Score at least the following scores on any combination of the below assessment options:

ACT sub scores	COMPASS scores	ASSET scores	ACCUPLACER scores
16—Reading	69—Reading	34—Reading	62—Reading
16—English	41—Writing	35—Writing	77—Sentence Skills
16—Math	39—Pre-Algebra	40—Numerical	63—Arithmetic

Applicants can take the [ACT assessment](#) or the [COMPASS assessment](#) at Hawkeye. Pre-registration is required.

### Option 2

Complete all of the following college success courses with a "C" grade or higher at Hawkeye Community College or comparable courses at another accredited college:

- ENG060 College Preparatory Writing I
- RDG039 College Preparatory Reading II
- MAT052 Pre-Algebra

### Option 3

Any combination of the above fulfilling the basic skills requirements of algebra, reading, and writing.

## Admissions Process

1. [Apply for admission](#).
2. Completed applicant files (we have your application, transcripts, and test scores) will be processed as follows:
  - a. Applicants meeting the program's admission requirements will be sent an admissions inactivation letter.
  - b. Applicants meeting the program's admission requirements will be accepted.
3. We accept approximately 60 students and 20 alternates each fall semester. Applicants will be accepted based on the date their completed applicant file. If many students share the same date for completing their applicant files, the application date will be used to prioritize their acceptance.
4. If necessary, alternates will be contacted to fill unconfirmed positions in the program. Alternates will be given priority for the next term.

## Information Systems Management Courses

**Award:** Associate of Applied Science (AAS)

**Required number of credits:** 63

**Program Start:** Fall only

The Information Systems Management program requires a mix of general education and hands-on courses. The following list of courses is the suggested sequence of study for a full-time student.

**When registering for classes refer to your Program Evaluation** to see your specific program requirements and ensure proper registration.

### 2016–2017 Suggested Sequence of Study

<b>Semester 1</b>		
BCA201	Introduction to Information Systems -OR-	3
CSC110	Introduction to Computers -OR-	3
BCA205	Database/Spreadsheets	3
CIS303	Introduction to Data Base	3
MAT110	Math for Liberal Arts -OR-	3
MAT122	College Algebra -OR-	5
MAT134	Trigonometry and Analytic Geometry -OR-	3
MAT210	Calculus I	4

## Network Administration and Engineering

The Network Administration and Engineering prepares students to design and manage local and wide area networks. In the information technology industry certifications are a must. This program targets professional certifications including Cisco CCNA, Microsoft MTA, and CompTIA A+.

Coursework is directly related to these industry-recognized certifications. Students learn computer hardware, operating systems, server configuration, and network management. Students are prepared to design, implement, and support routers, switches, and wireless networks of all sizes. They also learn server administration, database and mail servers, and project management. Continually on the cutting edge of technology, students have the opportunity to learn about virtual machines, multi-layer switching, VPN solutions, and more.

Students design, layout, and write specifications for networks. Students learn to setup, maintain, and support networks, servers, and security. Hawkeye's Cisco Regional and Microsoft IT Academies provide access to the newest software and technology. Students gain hands-on experience with the latest Microsoft desktop, server, exchange, and SQL server platforms. Through internship opportunities, students can apply classroom theories and concepts in a business IT setting.

Hawkeye's Information Technology programs are located in [Black Hawk Hall](#). The Information Technology lab equipment, environment, and technology are state-of-the-art.

## Web Programming and Development

The Web Programming and Development program provides students with the opportunity to pursue an associate degree built on the knowledge and skills to create dynamic web applications. In a hands-on approach, students will integrate many programming languages to plan, implement, test, troubleshoot, and maintain dynamic web applications.

Team-based skills are emphasized in the program. With exposure to multiple languages such as JavaScript, HTML5, CSS3, PHP, ASP.NET C#, and SQL, the program is geared to give students real-world, hands-on experience in developing websites and web applications. Current web standards are stressed throughout the program and developing trends such as responsive web design are examined. Through the support of local businesses, students gain exposure with a required internship.

Hawkeye's Information Technology programs are located in [Black Hawk Hall](#). The Information Technology lab equipment, environment, and technology are state-of-the-art.

### Evening Program

Earn a degree in the evening! With classes starting at 5:00pm, the evening program allows students to work and go to school at the same time.

### Transfer Information

Students enrolled in the Web Programming and Development program wishing to transfer should contact a program advisor.
